#### Luncheon Scheduled

Sgt. William Calvert surprised his wife, the former Pam Splawn, when he arrived here Saturday from Saigon to visit with her and their three-week old son. Sgt. Calvert visited his brother-in-law and sister-in-law, the Arthur Charles Splawns in Tokyo. Sgt. Calvert has been overseas for several months.

Muleshoe City Police department personnel honored Chief Harold White with an ice cream supper at City Hall Friday night, observing his birthday. The event was attended by the department's staff, their families and other law officers and families.

Twenty six young people left Monday for Treadis N. Mex. to attend the Youth Camp. Six adults accompanied the group. They were Rev. Wade Griffen, Gary Moore, Mrs. Bearnard Phelps, Mrs. Vernon Bleaker, Larry Myers, and Joyce Adams.

Angie Cristain from Morton is visiting her grandparents this week, they are Mr. and Mrs. L.L. Kitchen.

Mrs. James Harvey and children, Jane, Jonie, and Jimmie returned the last of the week from Minco Oklahoma where they visited a sick uncle, Arran Curtis. Curtis, 66, is said to be in critical condition.

Mr. and Mrs. Rochelle Christain returned Friday from a visit with their daughter and family, the Leslie Bryants living near Canyon.

Elder Hugh Tate from Perryton was guest speaker at the Muleshoe Primitive Baptist Church Thursday evening through Saturday and then spoke at the morning services Sunday.

Jo Ann Gregory, from McAdoo, is a visitor in the home

"America's Alarm Clock" a self-styled 75-year old escapee from Romania arrived in Muleshoe Wednesday at 6 p.m. She will speak to the general public under the auspices of the Muleshoe Area Womens Service Organization at 11 a.m. Thursday.

A salad luncheon will be prepared by the MAWS to be served at noon. Those who plan to attend are requested to call the Chamber of Commerce or any member of the MAWS so that food may be prepared in accordance, Jeri Nell Wagon MAWS president.

Those who wish to contribute to the voluntary work being done by Princess Caradja to help defray expenses will be given this opportunity at the conclusion of the meeting. Princess Cathrine Caradja spends her life making talks around the United States sounding the alarm that freedom should not be taken for granted. She pulls no punches as she calls the communists "Dirty Reds" and there is a well-founded reason for her deep feeling along these lines which makes her very outspoken and emphatic concerning the threat of communism.

During World War II, Princess Caradja provided shelter for Americans and played a vital role with assistance to refugees and Americans following the famous Ploesti Oil Field Raid.

She offers America no solution to their problem, but states: "I have none, I do not plan your schedule for the day. I only want to impress the country, America, which now has the most nearly perfect freedom of the threat of communism and hope to instill in the minds of Americans that freedom can not be taken for granted."

Princess Caradja escaped from her native country in 1955, and has spent her life since that time in the manner outlined.

Her concept of communism is not fantasy, but factual, having lived under such conditions until her escape. It was during this time that she came to the realization that the promises

they make are purely false and something to be feared and averted at all cost.

Princess Caradja will leave for Albuquerque Friday where she will make several talks.

#### Kenneth Taylor Heart Surgery Termed Success

Kenneth Taylor, well-known Muleshoe youth, underwent heart surgery in University of Colorado Medical Center Tuesday. An obstruction was removed from the pulmonary artery and a hole repaired to the lower chamber of the heart.

He was accompanied to Denver by his parents, Mr. and Mrs. C. L. Taylor, and uncle and aunt, Mr. and Mrs. Joe Harbin, Muleshoe and Mrs. Glendale Taylor, Lubbock.

Harbin said "Doctors believe the surgery was highly successful and to date, he is progressing as expected." Harbin said he would soon be moved from the intensive care ward and is to remain in the hospital there for about two more weeks.

Those who wish to write or send cards may address them in care of University Hospital, Denver, Colo.

#### Block Returns From Education Study Travel

Burel B. Block, Muleshoe High School Spanish and Latin teacher, has returned from a month of travel and study in Paraguay and Brazil.

As a member of the Programa de Educacion Interamericana, a Title III project at Texas A & M University under direction of the Bryan Independent School District, Block was one of the five teachers on a team visiting South American countries.

MATURING FAST-- Tomato crops around the Bailey county area are maturing fast, State Farm Bureau Queen Sharron Hutton examines blooms on the large plants on her father's farm located just outside the city limits on Highway 214 north. Several hundred acres within the county will be ready for picking around mid-August.

#### Four City Accidents Investigated

Several accidents have occurred within the city limits within the past few days.

In addition to the accidents, city police have given eight moving vehicle traffic tickets, arrested one for drunk, another for drunk and suspicion of robbery, and one for minor consumption and no drivers license.

Bailey County Sheriff's office have arrested four persons for minor consumption and one for making liquor available to minor. Also on the Sheriff's report, one person has been taken into custody for violation of probation and two ar-

rested for investigation of forgery. No charges have been filed in connection with the forgery suspects.

Accidents reported by city police are a collision on West 10th Street involving a car driven by Janelle Turner and another being driven by John Slaughter. No injuries were reported.

Joan Stovall, driving a 1966 Ford and Richard Copley driving a 1967 Oldsmobile were involved in an accident Sunday on U. S. 84 at 13th Street. Mrs. Stovall was treated for an ankle injury and released. Estimated damage to the Stovall car was \$200, and approximately \$500 to the Copley vehicle.

Billy Charles King is in West Plains Hospital as a result of a pickup-motorcycle accident which occurred on 7th Street late Saturday afternoon.

King, a Journal newspaper delivery carrier had just thrown the first paper on his regular route at the Jerry Gleason home and pulled back onto the street when a pickup being driven by Danny Ray Sullivan hit the Honda King was riding.

King is being treated for a broken pelvis bone and scratches and bruises. Cont'd on Page 3, Col. 6

### Indian Labor Obtained From Gallup

#### Tomato Crop Maturing, More Hands Needed

Noted for the production of vegetables, once again Bailey county and the immediate surrounding area have various types of vegetables growing in the fields.

All crops are maturing in accordance with the time of year they were planted and the normal maturity date.

Cucumber crops in Bailey and Farmer county have reached the peak season and harvest, well underway this week, will start the decline by mid-week next week.

Farm laborers have not been a problem thusfar, Beauford Scarbrough, Texas Employment Commission manager here said. However, as more vegetables mature and need gathering, and additional 500 hands will be needed. This situation should exist within two more weeks.

In a concentrated area north of Progress, more fields of cucumbers are being grown than any other specific point in the area. Several growers in that area have from 30 to 100 pickers in their field at the present time.

Approximately 600 to 700 acres of cucumbers are being gathered this year compared to 573 acres of productive cucumbers last year. The acreage planted last year was well above the 500 mark, however, hail and washing rains ruined a number of acres.

Before the planting season started, plans were made for the area to have around 12 to 13 hundred acres of cucumbers. The contracting company later canceled plans for this many acres, according to Scarbrough, therefore cutting the expectation of this one crop.

Plans earlier in the year called for stations to be set up at Farwell and Lazbuddie in addition to the one operated for several years at Progress Elevator by V. T. Tanner. With the acreage cut, the two substations were not set up and the loading and weight of the cucumbers is all being handled by Tanner.

Tanner said three to five trucks were being loaded in bulk form each day and leaving for Farmers Branch, a Dallas suburb, to the Morton Food plant.

Tomatoes are in the blooming stage and are maturing fast. Cont'd on Page 3, Col. 4

#### Little League District Game In Local Park

Residents of Bailey County feel honored that Roger Miller Park has been selected as the site of the Little League District 26 Championship game to be played at 7:30 p.m. Thursday, July 26.

The teams who earned the right to play in this spotlight championship game are Sudan-Amherst and Morton. The team who emerges victorious from this clash will play in Lubbock next week against the winner of the District 2 team winner.

Several surrounding towns were eager to host the championship game play-off. However, Roger Miller Park was chosen and sportsmen from throughout the area complimented Muleshoe and Bailey County for the parks provided for the Little League.

Most of the Little League coaches commented that the parks provided here exceeded those of much larger towns and reflected the interest of the adults who were responsible for them being constructed and maintained in the manner they are.

Game time, 7:30 p.m. Thursday at Roger Miller Park!

## Helicopter Crashes Near Lazbuddie

CRASHED NEAR LAZBUDDIE--This helicopter, being piloted by Bob Evans, Lubbock, crashed near Lazbuddie Monday morning while spraying. The pilot's brother was spraying in the same field when he missed the copter and saw it where it had crashed in a nearby wheat field. Evans was treated at Green Memorial Hospital, then taken to Lubbock Memorial Hospital.

A helicopter crashed in a wheat field near Lazbuddie about 10 a.m. Monday on property being farmed by Jack Smith of that community.

Pilot Bob Evans, an employee of Plains Helicopter Company, Lubbock, was brought to Green Memorial Hospital for emergency treatment, then transferred to Lubbock Methodist Hospital where his condition is not believed to be serious.

Evans and his brother, Fred Evans, were flying helicopters, spraying the same field for green bugs when suddenly Fred who was flying the lead craft missed his brother. He turned to see if he could spot him and saw the helicopter crashed several hundred feet from the grain sorghum field in the field of wheat stubble.

He landed his craft in the field where his brother had already crawled from the cockpit which had burst open from the impact and lay on the ground.

Engine failure has been attributed as the cause of the crash, Federal Aviation Agency investigators were called to make an official investigation. Evans, 25, has been a helicopter pilot for some time and had been working as a pilot for

the Plains Helicopter Company owned by his brothers, flying the spray equipped crafts. He was carrying about one-half chemical load when the crash occurred one mile south and four-tenths mile east of Lazbuddie.

Fred Evans, who lives near Foster Fertilizer, said their company had been working in this area for about 10 days and would carry on with their spraying operation with the remaining two helicopters being used for agricultural application of insecticides.

The pilot is being treated for a back injury.

#### Mail Service Change Noted

Postmaster Spencer Beavers announces that there will be no window service in the Muleshoe Post Office on Saturdays, beginning Saturday, July 27. Beavers said there will not be any mail collections made from any drop boxes except those located at the Post Office on Saturdays.

PEAK OF HARVEST--With this week's passing, the cucumber harvest in the area is reaching the season's peak. Three to five semi-truck loads are weighed out at the Progress cutting station, operated by V. T. Tanner, and taken to Farmers Branch to be used by Morton Food Company. Joe Barez shows one of the choice cucumbers in a field being picked by a crew of around 60 persons on the Dee Chitwood farm north of Progress.

**Washington Report**  
From Congressman **BOB PRICE** 18TH DISTRICT, TEXAS  
1223 LONGWORTH OFFICE BUILDING, WASHINGTON, D. C. • 225-3706

I joined with other members of the House Republican Task Force on Crime last week in introducing a bill to empower Federal judges to increase prison terms for certain types of hard-core criminals.

This proposal would attack some of the most serious problems of law enforcement--the habitual offender or repeater

the professional or organized crime hoodlum individuals who use firearms during the commission of a crime

--by giving Federal judges authority to extend prison terms up to twenty years over the maximum for the specific offenses of which the accused is convicted.

The bill gives judges an effective tool to protect society as a whole from hard-core undesirables.

The Crime Task Force's proposal works in this way. Following a trial, and conviction, a Federal Court would hold a hearing in which the government and the offender present evidence related to the proposed finding. If, after such a hearing and prior to sentencing, the Court finds that the defendant falls into one of the specified categories of hard-core offenders, the grounds for which are clearly set forth in the proposed statute, then the Court may impose the additional sentence. Nothing is mandatory, however.

The bill also contains a unique proposal requiring that all federal conviction records contain the defendants fingerprints and provides for the creation of a central repository for such records within the Department of Justice.

This is designed primarily to facilitate the sentencing of repeaters. If all the States were to adopt the fingerprint requirement, it would greatly increase efficiency in seeing to it that all repeaters are recognized and dealt with as such when they are convicted again. As it is now, the process of proving prior convictions is uncertain and nobody really knows in how many instances they are never proven because the evidence is not brought to light.

Some of the provisions of the new bill implement recommendations of the President's Crime Commission and the American Bar Association and would, I believe, substantially strengthen the effectiveness of Federal courts in the nationwide fight against crime.

The alarming and continuing increase in crime over the country indicates that something is drastically wrong with the policies, means and methods being used in the Federal anti-crime fight.

In spite of an all-time high of persons employed in the Justice Department and record expenditures - up 55% since 1960 - there has been a nationwide increase of 88% in crime during the same period.

The record for the District of Columbia where the Justice Department has exclusive jurisdiction over all crimes is even worse. Serious felonies in the nation's capital have climbed 175% since 1960 while felony convictions were down by 37%.

During 1967, for every 45 felonies committed in the District of Columbia, only one felony conviction resulted.

Some criminologists would doubtless blame the courts for such a show of ineffectiveness. However, Attorney General Ramsey Clark, has consistently denied any adverse effect of court decisions on law enforcement. So it certainly appears that if the courts are not to blame for this ineffectiveness, the Department of Justice must be.

SURE I KNOW THERE'S NO WEATHER IN SPACE - BUT WE MAY RUN INTO A METEOR SHOWER!

# Eggers Visits Muleshoe Harvest...

Cont'd from Page 1

Republican candidate for governor of Texas, Paul Eggers, visited in Muleshoe last Wednesday while on a four-day tour of the Panhandle and South Plains which is including 31 counties.

His Wednesday tour included Hereford, Friona, Dimmitt, Muleshoe, Littlefield and Olton with the day long tour ending with a stop in Plainview.

"The candidate said 'I am in the campaign to win and I will win,'" he told persons who gathered over the area to hear him.

Eggers stated that he believes that the state needs more dedicated people to give a part of their lives to government service. People in Texas are rebelling against higher taxes, he said.

And if elected he proposed to immediately try to reform the tax set-up.

He stated that he believes that he can work with the House and Senate, should they remain primarily Democratic, however, he stresses the fact that he believes that this year when persons all over the state have taken an attitude of "kick them out and elect new ones and start over."

He stated that it is his belief that the states have taken directions from Washington far too long and now is the time for Texas to stand on its own two feet to get power back to the local and state level. He does not believe that this can be done overnight, but that it will take some time, however, it can be done and stresses the thought that NOW is the TIME to begin.

On the civil rights issue, he stated that the government must indeed stop "pussy-footing around" and put the persons who are inciting riots and other disturbances where they belong...behind bars. He also stated that the penal code needs revision, returning the place where the criminal is punished and not protected as they are by existing laws.

Questioned on his stand on education, he said: "I believe that we need vocational and technical schools to train people to help themselves."

Eggers said he is not endorsing any presidential candidate but is devoting all his time and efforts to winning the gubernatorial race and trying to return power to the state where it belongs.

Eggers was born one of eight children in a Lutheran Minister's family.

Today, he competes in the field of law as a successful tax attorney specializing in oil and gas. He is a partner in the firm of Eggers, Sherrill, Pace and Rogers of Wichita Falls.

A graduate of the University of Texas School of Law, he is chairman-elect of the Taxation Section of the State Bar of Texas. His professional responsibilities have placed him in continuous contact with government at all levels.

He is married to the former Francis Kramer of Wichita Falls and they are parents of a son, Steven, age 10.

Hands have been busy hoeing and watering the crops.

A test plot of beans being grown for the Springdale, Ark. canning company by Kenneth Hanks are now being picked with production reported as excellent.

A test plot of spinach for the same company is slated to be planted on the Harry Lee farm around August 15. Lee is to plant 40 acres.

Beauford Scarborough said the Texas Employment Commission had been successful so far this year providing laborers for all types of farm work. Indians from the Gallup Reservation are being used this year more successful than ever.

A few were used last year, but the method was not as successful as desired.

This year, the government require little red tape for their employed as the reservations are more or less poverty-stricken.

To obtain an Indian laborer, farmer must send \$16 for bus fare and one meal. They are mostly being obtained in male pairs at present, however, it is expected that the plan will advance into the family group stages in the near future.

The government backs the use of Indian labor as it does not involve the governmental red tape as did the Bracero labor used in the States for a number of years, as the Indians are natives of America.

The majority of the Indians working in Bailey county are from the Gallup Reservation and a few are from the Zuni tribe.

Many of the people are making tractor drivers and some fitting well into the irrigation

methods being used by farmers, while others are being used by area farmers for hoeing and picking vegetables and farm crops.

## Gift Tea Honors Miss Nickels

A Gift Tea, honoring Miss Kerma Nickels (bride-elect of Gene McGuire) was given in the home of Mrs. Sam Damron on Friday, July 19, from three to five o'clock in the afternoon.

Receiving guests were the honoree, her mother, Mrs. J. A. Nickels and the prospective bridegroom's mother, Mrs. A. R. McGuire.

Alternating at the register table were Janell Turner, sister of the bridegroom-to-be and Jenda Bruns, sister of bride-to-be.

Presiding at the serving table were Donna and Susan Gaston of Sudan, cousins of the bride-to-be, Cindy Short, Cynthia Harris and Belinda Nickels, sister of bride-to-be.

Clear crystal punch, cookies with turquoise center fillings and nuts were served from a table laid with a white linen cloth with lace edging. An arrangement of white daisies and turquoise carnations, in a pedestal planter of cut glass and antique gold, with white candles made up the centerpiece which accented the table. Appointments of crystal and silver were used.

Hostess gift to the honoree was a card table and chairs. Serving as hostesses were the following: Mrs. Harold Allison, Mrs. J. E. McVicker, Mrs. O.M. Self, Mrs. Ross Goodwin, Mrs. W. G. Casey, Mrs. Elizabeth King, Mrs. Clarence Jones, Mrs. Roy Whitt, Mrs. William S. Moss, Mrs. Doyle Turner, Mrs. Jack Little, Mrs. Johnnie Prater, Mrs. Ralph Douglas, Mrs. D. O. Burlesmith, Mrs. Neil Dillman and Mrs. Sam Damron.

JAMES DRURY of the "Virginian" has had a new contrast signed covering the next four years. He was married for the second time in April.

## 500 KILOWATT HOURS PER BALE!

It takes about 500 kilowatts of electricity on irrigated land to convert a sack of cottonseed into a bale of cotton. There's irrigation water to be pumped, plus ginning and compressing. Electricity is needed for de-linting, grinding cottonseed hulls and pressing cottonseed for oil.

This is just one important area in which the member-owned Bailey County Electric Cooperative contributes substantially to the rural economy. The low-cost dependable electric supply furnished by the Bailey County Electric Cooperative also attracts commercial and industrial establishments to the rural area helping stimulate the rural economy. Those attending were: Top, Cathy Mardis, Ann Douglass, Vicky Henexson, Connie Julian, Vicky Julian, Karen St. Clair, Johnna Shelton (mule), and not shown, Deborah Wagon.

## Child Communicates Through Behavior

A child is not a lump of clay to be molded or a pitcher to be poured into but a growing plant to be nurtured, loved and cared for. This is the first step in understanding young children, according to Jennie Kitching, Extension family life education specialist.

But also learn to understand their behavior, says the Texas A & M University specialist. Parents must be aware of what their children are telling by their behavior yet they should not put every little act or expression under a microscope.

A child's behavior communicates more than his talk, according to Miss Kitching. The keys to understanding this are reserving judgment, avoiding labels, accepting personality differences and being aware that the apparent cause of an incident may not be the real one.

Putting actions into categories prevent understanding and give us too easy an out, says Miss Kitching. Relieving anxiety and worry with a handy phrase often drains the need to do something more constructive than to praise or blame.

"She just wants attention," "He'll grow out of it" are common phrases that may block further exploration of a child's actions.

Yet, the specialist points out another factor in understanding children and deciphering their behavior: the parent's

makeup. Everyone is in trouble if the parent's emotions differ from the child.

Too, the connection between a behavior and its cause is not always obvious.

Have a wide-angle approach to understanding children, suggests Miss Kitching. A certain behavior may have several possible causes. A nightmare could be caused by too much candy or a television program or something else.

But the family life specialist urged parents not to interpret a child's behavior to him be-

fore he has a chance to realize it himself.

Given a little time, he might figure out his own feelings and put them into his own words, a much bigger contribution to growing.

You must respect a child's rights to some emotional privacy, said Miss Kitching. He should be free to have feelings and fantasies without uncomfortably sensing an ever-watchful eye always ready to read something into every tone of voice or bit of play.

In trying to discover the meaning of behavior, Miss Kitching points out some of the obstacles. Common is labeling automatically a kind of behavior which doesn't tell why he is behaving as he is.

For example, if he rejects a suggestion it may not be "stubborn" or if he fails to be up and doing it may not be "lazy." Perhaps he is stubborn about getting dressed in the morning because he is not eager to go to school.

Giving labels to behavior and

# Parks and Wildlife Commission Sets Hunting Season in Texas

AUSTIN -- The interest in hunting in Texas took a big step forward last week as the Texas Parks and Wildlife Commission adopted seasons and bag limits for the 1968 hunting seasons in those counties under the regulatory responsibility of the Commission. As discussed in public hearings, the Commission closed the alligator season in all counties where they had authority to do so.

The mourning dove season in the north zone will be held for 60 consecutive half-days beginning on September 1 through October 30 in the north zone. South zone hunting will begin September 21 and continue through November 19 except in those counties having a white-winged dove season where it will be September 1 and 2 and September 7 and 8 and from September 21 and November 15.

Bag limits for mourning doves will be 12 per day and 24 in possession. Bag limits for white-winged doves is 10 per day and 20 in possession. However, a bag limit of mourning and white-winged doves may be taken during the concurrent season in those counties having a white-winged season.

Shooting hours for both species will be 12 Noon, Central Standard Time or 1 p.m., Central Daylight Saving Time, to sunset each day.

The Commission also closed an area that will prohibit the hunting of white-winged doves and mourning doves during the four-day concurrent season, south of U. S. Highway 83 beginning at the Starr-Zapata County Line to Mission, then following FM 1016 to its junction with FM Highway 1926 to its city limits of Hidalgo.

Of interest to prairie chicken hunters, the Commission added five counties where prairie chicken may be hunted in the Panhandle District. Counties include Collingsworth, Donley, Gray, Ochiltree, Roberts, Hemphill, Lipscomb, and Wheeler. The season will be October 12 and October 13 with a bag limit of two and possession limit of four. Check stations for prairie chicken hunters will be maintained in the cities of Higgins, Allison, Wheeler, McLean and Booker.

In the Panhandle Regulatory District, the pheasant season will open December 14 and extend through December 22 with a bag limit of two per day and possession limit of four. The new regulations also provide that the head and feet must remain attached to the pheasant carcass as a means of identification since only cocks may be taken.

The woodcock season will be held beginning November 23 through January 26 with a daily bag limit of five and a possession limit of 10. The snipe season will begin November 23 and continue through January 11 with a daily bag limit of eight and a possession limit of 16.

The season for rails and gallinules will be between September 1 and November 9, both days inclusive. Bag and possession for king and clapper rails are 15 per day and 30 possession limit, bag and possession limit for Virginia and Sora is 25 per day and 25 in possession; and gallinules 15 per day and 30 in possession.

Shooting hours for woodcock, snipe, rails and gallinules will be one-half hour before sunrise to sunset.

The Commission also set the seasons and bag limits for deer, turkey, quail and other species in the 10 regulatory districts. However, these hunting seasons will not become effective in 17 of these counties until these regulations have been approved by the county Commissioners Courts. These counties include: Bandera, Coke, Crockett, Edwards, Hays, Kerr, Kendall, Kimble, Kinney, Lampassas, Medina, Menard, Reagan, Real, Schleicher, Sutton, and Val Verde.

EDWARDS PLATEAU--(Bandera\*, Blanco, Burnet, Comal, Crockett\*, Edwards\*, Gillespie, Hays\*, Kendall\*, Kerr\*, Kimble\*, Lampassas\*, Llano, Mason, McCulloch, Menard\*, Real\*, San Saba, Schleicher\*,

Sutton\*, Travis, and Val Verde\*) Deer season will be November 9 through January 1. Bag limit--three deer, no more than two bucks. Antlerless deer may be taken in designated areas by permit only. Javelina and squirrel--no closed season and no bag limit. Turkey--November 9 through January 1 with a bag limit of two turkeys, gobblers or bearded hens. Quail season will be November 9 through January 31 with a bag limit of 12 per day and 36 in possession. The Commission has regulatory authority for deer only in San Saba County. Seasons for other species are determined by statute.

TRANS-PECOS -- (Brewster, Culberson, El Paso, Hudspeth, Jeff Davis, Pecos, Presidio, Reeves, and Terrell) HUNTING SEASON CONT.

Deer season will be November 30 through December 15. Bag limit--four deer in the aggregate of which not more than two may be mule deer; and not more than one of which may be a buck mule deer; and no more than two may be buck white-tailed deer; and not more than three may be antlerless deer. Antlerless deer may be taken by permit only. Antelope open season will begin September 28 and continue through October 6 with one antelope per season by permit only. Javelina may be taken between September 1 and January 31 with a bag limit of two per season. No open season on squirrel. The turkey season (open only in Culberson and Hudspeth Counties) will be November 30 through December 15 with a bag limit of one turkey, gobbler or bearded hen. Quail season will be November 9 through January 31 with a bag limit of 12 per day and 24 in possession. There is no open season on Mearns' or fawns quail.

PANHANDLE -- (Armstrong, Bailey, Briscoe, Carson, Castro, Childress, Collingsworth, Cottle, Dallam, Deaf Smith, Donley, Floyd, Foard, Gray, Hale, Hall, Hansford, Hardeman, Hartley, Hemphill, Hutchinson, Lamb, Lipscomb, Moore,

Motley, Ochiltree, Oldham, Parmer, Potter, Randall, Roberts, Sherman, Swisher, and Wheeler)

Deer season will be November 30 through December 15 with a bag limit of one deer--either buck or antlerless. However, antlerless deer may be taken by permit only.

Antelope season will begin September 28 and run through October 1 with a bag limit of 1 per season and may be taken by permit only.

Aoudad sheep may be taken from January 4 through January 8 with a bag limit of 1 per season and may be taken by permit only.

There is no open season on javelina. Squirrels may be taken between May 1 and July 1 and October 1 through December 1 with a bag limit of 5 per day and 5 in possession.

Turkey may be taken between November 9 and January 31 with a bag limit of 1 turkey per season, either sex.

Quail season will be between November 9 and January 31 except in Briscoe, Childress, Cottle, Hall and Motley Counties where the season will be December 1 through January 31. Bag limit of quail is 12 per day and 36 in possession. Quail seasons and bag limits for Hardeman, Hemphill and Lamb Counties are determined by statute.

Quail season is November 9 through January 31 with a bag limit of 12 per day and a possession limit of 36.

BIG AMISTAD LAKE ALREADY PRODUCING FISH FOR ANGLERS

DEL RIO--Amistad Lake near Del Rio, situated where the Devil's River enters the Rio Grande, is already producing fish, according to Biologist George Henderson of the Texas Parks and Wildlife Department.

Henderson said that fishing was already good in the Devil's River branch, with two fishermen catching flathead catfish in the 10 to 15 pound class this week.

The State Fish Hatchery No.

2 at San Angelo recently stocked 70,000 bass in the newly impounded water and this week added 5,700 fry and fingerlings.

Public usage of the lake is already beginning, and the fishery personnel have been taking seine samples of game fish and are reporting indications of good reproduction among channel, flathead and blue catfish. The water level is now 952 feet, impounding some 1,924 surface acres of water.

As Presidio flood waters enter the reservoir the lake is expected to grow rapidly and will have to pass sill elevation before any waters will be released on the Mexican side.

Henderson said the International Boundary and Water Commission has indicated if incoming waters pass the Mexican penstocks, the 10-foot bypass tube will be closed and plugged, making future flood waters welcome.

If flood waters continue to enter the reservoir and reach an elevation of 977 feet, there will be 2,817 acres of water in the lake.

### O. C. McBride

#### Dear Turnrow Tunkel . . .

Did you know that tennis is one of America's fastest growing sports?

I've never played tennis, and from what I've seen of the game, I don't think I'll take it up, at least until they figure out a way for players to use electric carts.

\*\*\*\*\*

According to a political expert, a big factor in President Johnson's decline in popularity was the opposition of "Eastern intellectuals."

I wouldn't know about Eastern intellectuals, but some of Lyndon's Great Society programs didn't go over too well with a lot of us Western ignoramuses.

\*\*\*\*\*

What did you think of Earl Warren's statement that he will remain as Chief Justice of the Supreme Court unless the Senate approves Abe Fortas as his successor?

When he puts it that way, the Senate doesn't have much choice. It's a matter of the known against the unknown, and in this case the unknown is the lesser of the two evils.

Did you know that a New York travel agency is offering a Las Vegas divorce package for \$1,000? The price includes a lawyer and sight-seeing trips. Sounds like a bargain. A lot of people spend that much in Las Vegas and come home

with nothing to show for it--not even a divorce.

I read where a safety expert said speeding ambulances kill more people than they save. The same thing happens in Congress. Some of that fast legislation passed to help certain groups hurts many an innocent bystander.

\*\*\*\*\*

I understand that DuPont has developed a synthetic fabric with the qualities of silk. It will sell for about \$8 a pound.

I like the idea of selling it by the pound. The way women dress these days, a fellow could hand his wife a \$10 bill to buy a couple of dresses, and tell her to bring back the change.

### Tax Man Sam Sez:

Getting Divorced Without Tax Problems.

Every year there are a number of Texas couples who decide to "split the blanket." Divorce is enough misfortune, without getting into tax problems in the process. Under Texas community property laws, the earnings of both spouses up to the date of divorce is community income. When the couple files their income tax return for the year, each spouse has to have the total earnings up to the date of divorce, the total withholding tax and the total itemized deductions or tax credits, since by law each is required to file an income tax return on their one-half share. They must also declare their separate income, credits and deductions for the rest of the year after the date of divorce. It works out much better to settle the entire matter at the time of the divorce. In any case, don't be one of the several thousand Texans that will get involved in an income tax audit of your income tax return for the year of your divorce.

Errors often arise when men try to prove that they have been right.

### Oil Seed Crops Feature Of Annual Field Day

A display of oil seed crops including plants, care, and products will be an interesting feature of the 12th Annual Field Day of the High Plains Research Foundation on September 12, 1968. Hosts for the afternoon will be members of the Oil Seed Commodity Committee of the Board of Trustees of the Foundation. The display will be located in the Seed Processing Laboratory.

Soybeans, Sunflower, and Rapeseed are included in the Research Program at the Foundation. The display will include all these crops, with emphasis on soybeans. Short, medium, and long-season soybean varieties will be compared. Differences in yield and quality as affected by cultural practices will be shown. A soybean production guide, published by the Foundation, will be available. Producers have found this information valuable in selecting planting dates, irrigation procedures, and harvesting methods.

Sunflowers will be on display to show plants of acceptable combine height and desirable head size. Products of both soybeans and sunflower will be on display.

The Oil Seed committee reviews the research presently underway and makes recommendations for future research

### Hoover-Type Commission Introduced

A bill to establish a new Hoover type commission has been introduced by Panhandle Congressman Bob Price and more than 100 other members, both Democrats and Republicans.

An earlier bill introduced by Representative William N. Roth of Delaware after an 8 months research and study of the Federal establishment would catalog all Federal assistance programs and pave the way for the commission.

Roth said his study revealed 1571 identifiable Federal programs but his questionnaire to the various agencies drew a spotty response. "We found that no one, anywhere, knows exactly how many Federal programs there are," Roth said.

"Our investigation also reveals that the government does not know who is spending how much or for what," Price's bill for the Improvement of Government Management and Organization - 12-man independent, bipartisan group drawn from the top ranks of American leadership outside of government. "The commission would

be set up to go over Federal programs periodically," Price said, "and to determine whether our tax dollars are being well spent."

In contrast to the original Hoover commission, the new commission would oversee "substance rather than just the efficiency of each Federal activity," Price explained.

"Our country is facing a serious economic crisis," Price said. "Huge budget deficits and massive borrowing to pay Federal bills are threatening to drive prices into a further inflationary spiral that could rob all of us of our savings and earnings if not stopped soon."

**AUTO PRODUCTION UP**  
Detroit - The Big Three automakers built three-quarters of a million more passenger cars the first half of 1968 than they did the same period last year. General Motors Corp., Ford Motor Co. and Chrysler Corp. report building 4,879,733 new cars so far this year compared to 4,115,209 the same period last year.

**IT IS BECOMING POPULAR**  
to do the filming of picture in Spain. The scenery is wonderful and one small town has had a population increase of about forty thousand since the movie company moved in. It is also more economical to make movies in Spain than in America and most of these will eventually reach the television networks.
