Halloween Carnival Tonight; Queen to be Crowned

Festivities to End With Coronation

Car, Train Crash Leaves One Critical

Two Sudan Girls Hospitalized After Accident

City Police officers have had quite an active week. They list fourteen arrests, including six for minor consumption of alcoholic liquor; four on drunk charges; one for breaking and entering and drinking; two for carrying a prohibited weapon and one for driving while intoxicated.

One arrest for driving while intoxicated was logged by the Texas Highway Patrol.

Andy Nance of El Paso was a weekend guest of Tim Jinks. Andy and his family were en route to Greensboro, North Carolina where they will make their home.

Mr. and Mrs. R.W. Chadburn Jr. of Williams, Arizona recently visited in the home of the Cecil Coles. They are returning from a month's vacation on the east coast. En route they spent one week in Southern Pines, N.C., where they visited Mrs. Chadwick and Mrs. Cole's mother.

Bob Price Meets Voters At Breakfast

A 'dutch' breakfast will be held at the Corral Restaurant Thursday morning for Bob Price, Republican candidate for re-election as senator of the 18th Congressional District.

Nine Winners For Parade Held Saturday

Curby Brantley, co-chairman of the annual children's Halloween parade which was held last Saturday, November 26, announced the nine winners in three divisions of the parade.

Shonda Robertson was in first place in the 'Most Original' division as Raggedy Ann; Ben Harmon was second as a robot and Mark Washington won third place as a Martian.

A grinding car, train crash at the intersection of Highway 70 and the railway tracks in Muleshoe at approximately 8:15 p.m. Tuesday night leaves two area girls hospitalized at West Plains Memorial Hospital.

A 1963 Tempest Pontiac, driven by Brenda Harper, 16, of Route One, Sudan, was hit by the engine of a Santa Fe freight train which was enroute to Clovis.

Brenda and her sister, Joan, 15, were critically injured in the accident which threw both of them from their car.

The girls had been at the First Christian Church in Muleshoe practicing a church program and had just taken a Muleshoe girl to her home when the accident occurred.

Officers were hampered at the accident scene by hundreds of area residents who flocked to the site and partially blocked roads and highways.

Doctors spent several hours Tuesday night working on Brenda Harper at the hospital.

Saturday night, just before 8 p.m., four high school youths were injured in a two car col-

GRIM SCENE FOLLOWING CAR-TRAIN CRASH--This 1963 Pontiac Tempest is shown following a grinding car-train collision Tuesday night at the Highway 70-railway track crossing in Muleshoe. Brenda Harper, 16, of Sudan was driver of the vehicle which was struck by the engine of a Santa Fe freight train at approximately 8:15 p.m.

Who Will Elect the Next President and Vice President?

Normally, every American would know the answer to this question. But these are not normal times, and the question of how and under what conditions the next President of the United States will be chosen should be a matter of utmost concern to each American voter.

The importance of the popular vote on November 5 looms ever larger with the reported possibility of an electoral stalemate, i.e., where neither Nixon, Humphrey nor Wallace receives on election day the 270 electoral votes needed to be elected.

Excitement Builds In Beauty Contest

Even with all the conflicting events in town last Monday night, over 75 percent of the participants in the Muleshoe Miss America Comedy Hour were present for rehearsal.

Ladies clothing, especially in Queen's sizes, is in great demand now, so are wigs, ladies' hats, false eyelashes, gaudy jewelry, etc.

Tuesday night is election night, but there will be a bulletin board on display at the show. All reports will be posted as they come in on the wire, so you won't have to stay home to get the returns.

Tickets are on sale now by the seniors. Reserve seats are \$1.50 and general admission, \$1.

Take a look at this line-up of cuties who will be displaying their talents, features and birthmarks for your entertainment.

Fate Harris, Curby Brantley, Creston Faver, Dick Stafford, Frank Parker, Roger Albertson, Larry Hall, Royce Barnes, Clifton Finley, Tom Jinks, Irvin St. Clair and Robert Preston.

Also Pete Cash, Haney Poyner, Bill Wimbley, Wayland Ethridge, Jimmy Crawford, Joe Pat Wagon, R.A. Bradley, Hoot Gibson, Eddie Gaust, Robert Hooten, Jack Young and Joe King.

Also Derrell Oliver, Dave Sudduth, Kenneth Henry, Don Chahak, Bill Taylor, Steve McGregor, Joe Harvin, Vic Benedict, Clarence Jones, James Glaze, Franklin Mann, Frank Ellis and Bob Stovall.

Library Board, FOL Coordinate Plans

Coordination of policies and planning for the expanding Muleshoe area library services was the subject for discussion at a joint meeting of the executive boards of the Library Board of Trustees and Friends of the Library here Tuesday afternoon.

Library Board President David Sudduth chaired the meeting of the library's governing board and the supporting advisory FOL body. Mrs. T.R. White is FOL president. He announced that application forms under Title I have been completed and sent to the State Library Board.

Librarian Ann Camp reported that Architect Bill Cantrell, of Lubbock, attended September 15-19 Library Planning Conference in Austin, in

behalf of local authorities. She said that suggestions in writing for the new library building and facilities are welcomed and will be submitted at planning sessions.

Treasurer's reports were given by FOL treasurer Mrs. Jim (Joyce) Shaffer and by Sudduth for Board Treasurer Johnny Shelton. Announcement of several donations to library funds was made. Included were \$197.18 by Half Century Club of Muleshoe toward purchase of a water fountain; \$50 by E.S.A. Sorority toward purchase of a copy machine for library-patron use at library; Goodland Community Bible Study Group donation of \$5; and FOL membership dues in amount of \$168.

Acknowledgments and thanks to library patrons are to be

Witches, hobgoblins and ghosts will be roaming the streets of Muleshoe on Thursday night as they will in other communities throughout the nation.

Focus of attention in Muleshoe will be the annual Fine Arts Boosters carnival at the Muleshoe High School bus barn. Many carnival attractions will be available for both youngsters and adults.

Culmination of the night of festive activities will be the crowning of the Halloween queen in the high school auditorium.

Many organizations are hard at work preparing for the fever of activities which will take place on the night of October 31.

The carnival will open at 6 p.m. in the school bus barn and will continue until 10 p.m., when the crowd will move to the high school auditorium for the coronation of the queen.

Groups assigned booths thus far are as follows: Junior Class, Cake Walk; Fire Department, Money Pitch; Fine Arts Boosters, Bingo; Llano Estacado Study Club, Basketball; Jaycettes, Homemade barbeque; Lions Club, Barrel Pitch; Rotary Club, Fishing Pond; Muleshoe Study Club; Art Club, Homemade ice cream; 'M' Club, Dunking Board; 'M' Club, Tomato Throw and F.H.A. Girls, Candied apples and fortune telling.

Jaycees and others are to be assigned booths later. Area community organizations are urged to participate if there is no celebration in their town.

Mrs. Carl Barnert and Mrs. Herb Griffin are co-chairmen

Last Day for Absentee Vote Is November 1

County Clerk Hazel Gilbreath has reminded new residents of the county that they must vote in her office by Friday, November 1, if they wish to participate in the coming general election.

November 1 is also the last day for absentee voting and for voting by persons who qualified to vote in the presidential election as new residents of the state during the 15-day application period in September.

Persons who have lived in Texas more than a year but who have moved from one county to another since May 5, 1968, may vote on all statewide offices, including President and Vice President, and on the 14 proposed constitutional amendments, but they may not vote on local offices. In order to vote, they must be registered as voters for the 1968 voting year.

Two Clubs Join To Provide Girlstown Beef

Two area social clubs joined in a project for Girlstown, U.S.A. Tuesday morning and delivered a beef to Girlstown.

Members of Epsilon Sigma Alpha sorority and Llano Estacado met at Carl's Meat Market where they loaded 630 pounds of dressed, cut and wrapped beef into a station wagon for the trip.

They acquired the beef from Harold King at King Feed Lot.

A spokesman for the two clubs, Pat King, said, "We have supported Girlstown in the past and this is a way to continue to support them."

lision at the intersection of Avenue B and 17th Street in Muleshoe.

All four accident victims were taken to West Plains Memorial Hospital by Singleton ambulances.

Terry Franklin was driving a 1963 Ford west on Avenue B and Donnie Bruce Carpenter was headed north on Seventeenth, driving a 1964 Ford. The two vehicles collided in the middle of the intersection, with the Carpenter car being hit broadside by the Franklin car.

Both cars were considered a total loss by law enforcement officers. Bailey County Volunteer Fire Department members were called to the scene to wash down the street as the gas tank on the Franklin car was ripped from the car on impact and gasoline created a fire hazard.

Franklin, Carpenter and two passengers in the vehicles were treated at the hospital for minor injuries and released.

A citation was issued by officers for failure to yield right of way.

tion, intrigue, political pressures and general confusion. Perhaps this explanation will help each voter appreciate the importance of his one vote on November 5.

Should no Presidential candidate receive the required 270 electoral votes on November 5, the United States--for the first time since 1824--would be without a President-elect and a Vice-President-elect to take office on January 20. The election would have ended in a stalemate--a deadlock!

Nothing could be done officially to break the deadlock for at least 40 days, or until December 16 when the electors, chosen by the voters of each state and the District of Columbia, meet in their respective jurisdictions to vote for the President and Vice President. Presumably, each elector would vote for the same candidates who carried his state on November 5.

Unofficially, and behind the scenes between November 6 and December 16, attempts might be made to change the vote contrary to popular wishes expressed at the polls.

Normally, the electors' vote would be perfunctory. However, the existence of an electoral stalemate would center national and international attention on their every action. If the electors voted the same as their respective states (only 16 states require this), the Presidential election would remain dead-

locked.
The sealed results of the electors' vote, state by state, would be officially reported to a joint session of the Senate and House of the 91st Congress on January 6.

If the joint session were advised that no Presidential candidate had at least 270 electoral votes needed for election, then the Senate would retire to its chambers to elect a Vice President from the two candidates having the highest number of electoral votes. Two-thirds of the Senate would constitute a quorum, with 51 votes required for election. Each senator would cast one vote per ballot, the Vice President in case of a tie.

The House would begin balloting immediately to elect a President from among the three candidates having the highest number of electoral votes. In the House each state, regardless of size or the number of its Representatives, would have but one vote per ballot. Two-thirds of the states (34) would have to be represented to constitute a quorum. The votes of at least 26 states would be required for election.

The vote per state would be determined by a caucus of its House delegation, the majority ruling. If its delegation were evenly divided and unable to reach a decision, that state would cast no ballot.

It is possible that 26 states with a population of 21 million people could outvote 24 states with a total population of 149 million. It is also possible for 76 Representatives from

26 states to elect a President in a House of 435 Representatives from the 50 states.

The balloting would continue, without interruption of other business, until a choice of President is made. The House in 1801 cast 36 ballots before electing Thomas Jefferson. In 1825, John Quincy Adams was elected on the first ballot over Andrew Jackson even though Jackson had received the greater popular and electoral vote.

With the House electing a President and the Senate a Vice President, it is not impossible for each to be of a different political party. This would depend on the political make-up of the Senate and the House.

If by inauguration day, January 20, no one has been elected President, the Vice President elected by the Senate would be sworn in and would be "Acting President" until the House did elect a President.

Junior High Teams Lose To Plainview

Plainview defeated the seventh grade football team Tuesday afternoon in Benny Douglass stadium by a score of 16-0.

Although the Mules recovered a Plainview fumble, their offensive plays fell and they lost the ball to Plainview. Plainview scored in the third quarter and converted two extra points for an 8-0 score.

They scored again the fourth quarter and converted to win the game by a 16-0 score. Decisive offensive and defensive actions were taken during the game by Steve Wright, Charles Ray Young, Chuck Clemmons and Gerald Bara.

In the eighth grade game which followed, the eighth grade Mules also fell before the power of the Plainview team by 16-0.

Making good offensive plays during the first half the Mules were unable to penetrate the goal line. The Mules' defense held the Plainview team during the first half and all Plainview points were made in the second half. They scored eight points in the third quarter and eight in the fourth to wind up scoring.

This was the last home game for the Muleshoe seventh and eighth grade teams.

Wayland Day Observed

Longview Baptist Church, located just two miles East of historic Coyote Lake, observed Sunday, October 27 at Wayland Baptist College Day.

The objective of the Wayland Day observance at Longview Baptist Church was to emphasize, encourage, and support Christian education on the West Plains, and Wayland College of Plainview, Texas in particular.

The Mission Band from Wayland College was present to lead Longview in both morning and evening services, Robert Travis a junior student from Orlando, Florida was the speaker for the morning services. The music was led by Mike Jeter of Hereford, Texas with Miss Jeanine Grisham providing piano accompaniment.

At the evening services Miss Mary Epperson of Modesto, California and Leonel Gonzalez of Rio Hondo, Texas, both

sophomores at Wayland, joined the group to present the very penetrating religious drama, "The Challenge of the Cross." Longview Baptist Church looks forward each year to Wayland Day and an opportunity to invest emotionally, and physically in the youth of the West Plains delete a few lines invest emotionally, mentally, and physically in the youth of the West Plains.

AND NOW THE MEN

Wichita, Kan.--A St. Louis barber says that the sales of false beards and mustaches are booming. Earl Roach said that along with new hair styling more and more young men are discovering they can be conservative and clean shaven on the job and go out on the town at night using false beards and mustaches.

Self-Denial WSG Theme

A program on self-denial was heard Monday night when Wesleyan Service Guild members met in the home of Mrs. Francis Gilbreath.

The devotional on the same theme was given by Mrs. Ray Edwards. Others taking part on the program were Mrs. Gilbreath, Mrs. Fred Johnson, Mrs. C.O. La Rue, Miss Elizabeth Harden and Mrs. W.C. Colbert.

In a business meeting led by the president, Mrs. K.K. Krebbs, the group was told the ditty bags to be sent to servicemen overseas have been

made and supplies ordered. Several local firms have donated articles for the bags and checks have been received from church school classes and other organizations. The bags will be sent through the Red Cross.

A collection of \$30.00 was taken for the annual Self-Denial program and will be sent through channels of United Methodist Church.

Mrs. Gilbreath served refreshments to eighteen members.

The next meeting will be November 11 in the home of Miss Harden.

 Cookies and coffee were served to approximately 150 guests during the two-day affair.

In Fashion

Heels on shoes are not high but are not as low as they have been. Some of the heels are thick but others are a trifle slimmer.

Many of the winter coats have fur collars but a great many of these are fashioned so that the fur collar can be slipped off when one desires a plain coat.

Dresses continue to be short but we notice that coats are pictured as coming below the knees.

P-TA Legislation Proposed Program

The basis for the Texas PTA Legislation Program is the third object of the National PTA, "To SECURE ADEQUATE LAWS FOR THE CARE AND PROTECTION OF CHILDREN AND YOUTH." PTA activities shall be non-partisan and shall include study and action programs.

THE TEXAS PTA RECOMMENDS legislation to provide a superior educational program in Texas. To ensure quality education for all Texas children, the Texas PTA recommends and supports as priority concerns:

1. Kindergarten, financed by the Texas Minimum Foundation School Program.
2. Minimum teacher compensation based on or above the national average of teacher compensation.
3. Additional vocational and technical training programs in all secondary schools.
4. Improvement of the Texas Minimum Foundation School Program through:

- a. Inclusion in planned school curriculum of health education including sex education and venereal disease education.
- b. Inclusion in planned school curriculum of Driver's Education, taught by accredited teachers.
- c. Continuing teacher training and a statewide co-

ordinated program for the administration of practice teaching in Texas.

5. Region Education Service Centers.
6. Additional appropriations for school and public libraries.
7. Strengthened laws and strong enforcement of laws that affect the safety and health of Texas children and youth.

Specific areas of concern are:

- a. Sale, possession, and/or use of alcohol, narcotics, stimulant and depressant drugs, and hallucinogens.
- b. School Bus safety laws, and laws to provide for the protection of children crossing highways, freeways, and congested traffic areas, going to and from school.
- c. Traffic laws and driver's license laws.
- d. Juvenile Courts and Juvenile Judges
- e. Term of commitment and parole of persons convicted of felony offenses, and commitment of sex offenders.

8. Strengthened laws and strong enforcement of laws regarding the publication and/or sale of obscene publications and films.
9. Adequate appropriations for the Texas Youth Council.
10. An adequate and equitable tax program to support these recommendations.

The Texas PTA membership and all citizens are urged to be well informed, to register and to vote in all elections. The Texas PTA commends Texas' local law enforcement agencies and officials, the Texas Highway Patrol, and the Texas Rangers, and urges all PTA members to provide these persons with strong support both locally and statewide. The Texas PTA reaffirms respect and support for law and order processes, for strengthened enforcement of all laws, and for individual responsibility as regards observance of all laws by all citizens.

Jehovah's Witnesses Plan Meet

"Share Fully in Preaching the Good News" is the theme for a three-day convention planned by Jehovah's witnesses in Levelland, November 8-10, with more than 500 expected to attend.

The Levelland High School Auditorium will be the scene of three days of intensive Bible education for the local witnesses who are planning to attend the Christian gathering, with many from this area already making preparations to share in all the sessions.

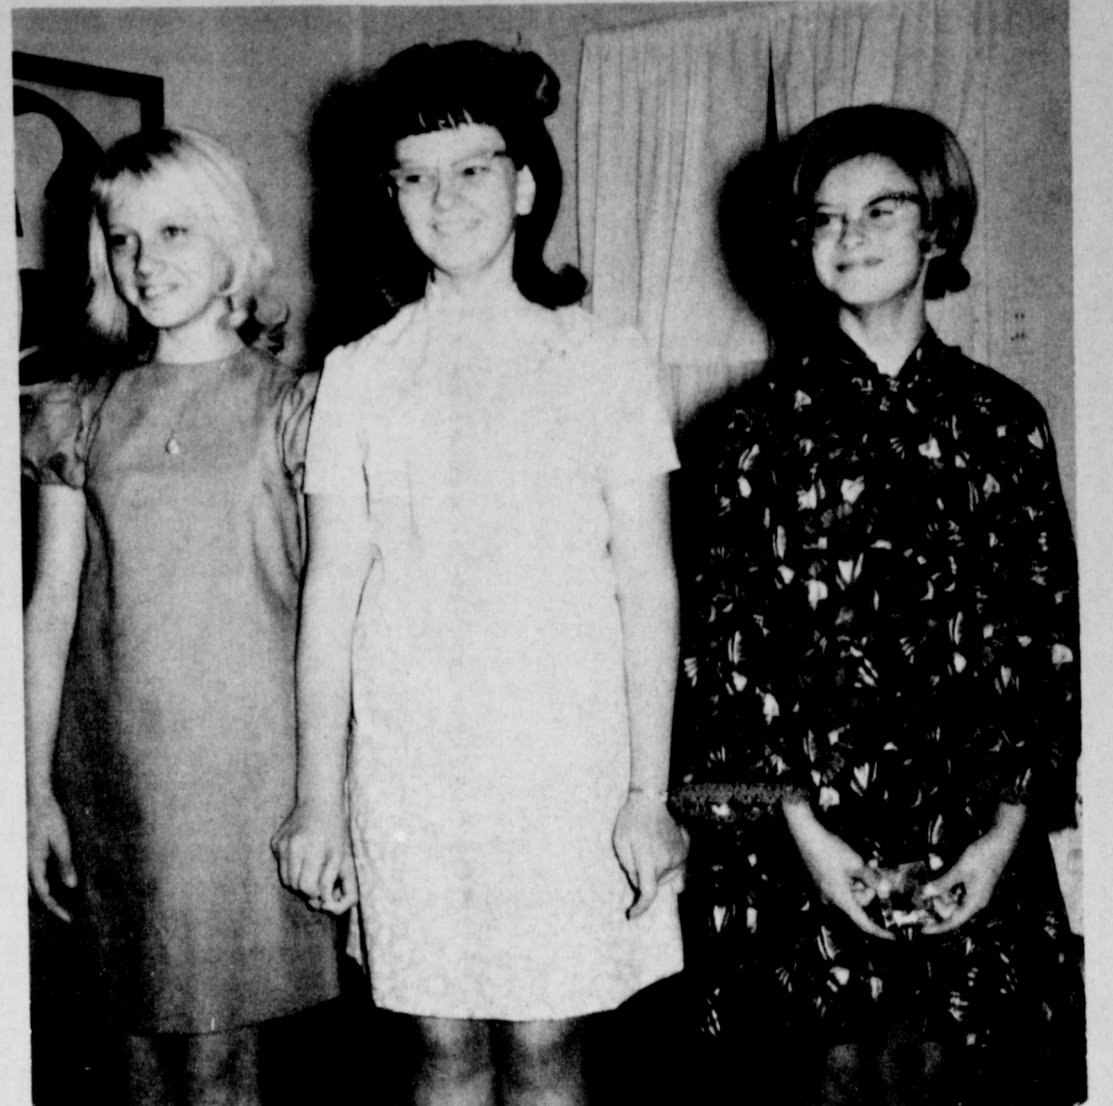

More than 15 congregations will participate in the training meetings that will be designed to encourage the witnesses to continue their ministry in the home towns that will be presented. Delegates from some 30 communities in the area will attend.

"Twice a year congregations tied together as a 'Circuit' meet for a three-day circuit assembly," stated Mr. Boyd Lowery, local presiding minister, who will have a role in

the gathering. "In addition to special talks and demonstrations, an opportunity is presented for those who have recently made a dedication of their lives to symbolize it by public baptism," he added. "Such an event is planned for Saturday morning in Levelland where new ministers will be dipped under water at which time they become an ordained minister."

The ordination ceremony will be conducted by Mr. Lester Dugan, new District supervisor for this area who was recently assigned to Texas Circuit # nine, sponsors of the convention in Levelland. Dugan is widely traveled and has been delivering Bible lectures throughout the West for many years.

"Christian conventions such as the one in Levelland afford an occasion for Jehovah's witnesses to be on encouragement to one another as well as to their neighbor," Mr. Lowery said.

YOUNG MODELS--Displaying dresses they made gives these Girl Scouts a sense of accomplishment. L. to R. are Sharon Harris, daughter of Mr. and Mrs. Wayland Harris; Judy Dearing, daughter of Mr. and Mrs. E.A. Dearing; and Janice Dearing, daughter of Mr. and Mrs. T.H. Dearing.

Girl Scouts Skills Show

Girl Scout Troop 89 celebrated their fifth Birthday Thursday night with a Style Show at Girl Scout Hut.

Modeling dresses they had made were Sharon Harris, Judy Dearing and Janice Dearing. Sharon is the daughter of Mr. and Mrs. Wayland Harris, Judy is the daughter of Mr. and Mrs. E.A. Dearing and Janice is the daughter of Mr. and Mrs. T.H. Dearing.

Previous to starting on the dressmaking, the girls and their

leader, Mrs. Wayland Harris, visited a local store where they studied fabrics, styles and patterns. They were taught rudiments of fashion modeling, evidenced by their poised display Thursday evening.

Troop 89 was organized five years ago with 36 girls. Four of the original members and two new members comprise the troop now. Mrs. Loraine Dearing, Mrs. William Dean and Mrs. Milton Oyer have served as leaders.

Following the style show, troop members served punch and cake from a lace covered table which was decorated with an arrangement of gold flowers. A large cake, baked by Mrs.

T.H. Dearing, was decorated in Girl Scout colors of green and gold and centered with a gold emblem. Gold flatware was used to further carry out the colors.

A surprise birthday tribute to Judy Dearing added to the evening. The group sang "Happy Birthday" to Judy and she received several gifts.

Attending were Mrs. Bryon Gunter, Neighborhood chairman; Mrs. Wayland Harris, troop leader; and her daughters Dana, Cynthia, Marilyn and Sharon; Mrs. B.A. Dearing; Mrs. T.H. Dearing, Judy and Janice Dearing, and a visitor, Mrs. Roy Dyer.

THIS IS WHAT FRANK FORD HAS BEEN SAYING DURING HIS CAMPAIGN TO SERVE YOU AS STATE REPRESENTATIVE

WATER CONSERVATION AND IMPORTATION:

"Water is the life-blood of our irrigated economy, and the importance of total water resources planning cannot be over-emphasized. Feasibility studies for importing water to the high-plains from the lower Mississippi basin should be pushed forward at maximum speed. Funding on these-and importation itself-must come from congress, with maximum state-federal cooperation. At the state level, our district is far behind on planning for flood control and conservation dams on our creeks. We must keep the water that falls in our district, rather than seeing it rampaging on down-stream after every big rain. We must use lake water and tail water return systems to the maximum, along with irrigation practices consistent with the water available in any given area. If elected, I intend to work with men who have a proven record of water conservation. Under no circumstance must this issue be allowed to become a political football to be used at election time for partisan gain."

EDUCATION AND VOCATIONAL TRAINING:

"Texas has fallen from 33rd to 38th during the past eight years in per-student support for education. During the same time, we have fallen from 40th to 44th in literacy. This dismal record cannot be continued if our young people are going to be able to hold jobs which will be available in the 1970's. We must increase our attention to primary education and the development of basic skills, give additional help to children with specific learning disabilities, increase pre-school opportunities with bilingual education where needed. Vocational training must be increased, with emphasis on job training by private industry, so that the trainee will know that a specific job is waiting upon completion of the training. Education and jobs are the only effective answer to poverty."

FRANK FORD IS THE ONLY CANDIDATE IN THE RACE WHO HAS SPOKEN OUT CLEARLY ON:

- ★ The need to keep the family sized farm unit strong as it is the backbone of our rural economy.
- ★ Practical measures that should be encouraged in each community for economic growth.
- ★ The need for abolishing daylight savings time, a measure which his opponent pushed to passage in 1967.
- ★ Ways to reduce the crime rate, which has nearly doubled in the last eight years.
- ★ The need for a two-party system so that the people can regain control of their state government.

FRANK FORD WILL REPRESENT THE PEOPLE OF THIS DISTRICT

Muleshoe People

Go Visiting

Mr. and Mrs. T.W. Berry have recently returned from an eight day visit with Berry's relatives in Oklahoma and Kansas.

They visited in the home of a sister and brother-in-law, Mr. and Mrs. Jack Mullins, in Sparks, Oklahoma; a brother and sister-in-law, Mr. and Mrs. Lon Berry in Ponca City, Oklahoma; in Arkansas City, Kansas they visited with two brothers and a sister and their families, Mr. and Mrs. Clarence Berry, Mr. and Mrs. Marion Berry and Mr. and Mrs. Cecil Foiles.

The Muleshoe residents thought it might not be news-worthy here, but they enjoyed visiting large cattle feeding pens and a hog farm at Arkansas City where there were an estimated 10,000 hogs.

They also visited the Kay County Dam, a flood control project still under construction five miles east of Ponca City, also the famous Pioneer Woman statue at Ponca City.

Bill Clayton Seeks More Pay For Law Officers

Local government should take the lead and responsibility in as many functions and programs as possible, according to Rep. Bill Clayton, who is seeking re-election for the 72nd district in the Texas Legislature. "Government at the county and city level is more responsive to the needs and desires of the people than a more centralized form of government," said Clayton.

As chairman of the Counties Committee of the Texas House of Representatives, Clayton advocates that he has been for a strong local government. In the last regular session of the legislature, the Counties Committee handled over 230 legislative bills. The only committee which considered more bills was the State Affairs Committee, and Clayton is a member of that one too.

Besides carrying several important county government bills in the legislature, Clayton was a principal speaker at the annual Texas County Judges and Commissioners convention last year and is slated as one of their main speakers again this year. He also served six years on the Urban Affairs committee and has worked closely with the Texas Muni-

pal League for better management of cities and towns in the 72nd district. Clayton says that mayors and city officials in his district know and appreciate his leadership.

Law enforcement, according to Clayton is a particular problem concerning people over the nation. He has been active in seeking higher salaries for law enforcement officials and adding more highway patrolmen and investigators to the Department of Public Safety. Through legislative action, Clayton said, the Texas National Guard has been provided money for equipment and training for riot control. "Law and order will prevail through establishing high quality of law enforcement training," he emphasized.

In the legislature, Clayton supported a resolution providing for the uniform law enforcement manual to standardize methods and procedures throughout the state. He also served on a special committee studying needed changes in liquor laws. "Our out-dated liquor laws are difficult to enforce," Clayton said, "and this committee will make several recommendations to the next regular session of the legislature."

"Educating our young people to respect law and order," according to Clayton, "will help preserve our type of free society." He authored a bill to prohibit human use of Spanish Fly and to include L.S.D. in drugs covered by the Dangerous Drug Law. He co-authored a bill making it unlawful for anyone to purchase alcoholic beverages for minors. "Continued leadership in the legislature will provide the laws and enforcement personnel to keep the streets of our towns and cities safe for our people," Clayton concluded.

Sen. Yarborough Urges Texans To Vote Tuesday

Senator Ralph W. Yarborough has urged every Texan to "reflect on the proud and prosperous tradition of the Democratic Party -- and then go to vote on Tuesday, November 5th."

Yarborough, Chairman of Texas Citizens for Humphrey-Muskie, said he hopes every qualified Texas voter goes to the polls. "We have four million Texans eligible to vote. That means we should have four million citizens at the polls next Tuesday," he said. "In past election years, Texas has not had the percentage turnout of many other states. It's not enough just to register, or to complain about the candidates. Every registered Texan has a duty to vote and make a choice," the Senator said.

The Senator said he has studied the records of all three parties' candidates, and has worked closely with Vice President Humphrey, and Senator Muskie in Washington. "From my personal experience, I know that Vice President Humphrey and Senator Muskie have the qualities to keep America on the right track," he said.

Yarborough said Humphrey and Muskie have worked diligently for measures of importance to all Texans, such as strong rural electric programs, a sensible farm policy, better prices for farm and ranch products, good Social Security laws, Medicare and strong laws--coupled with vigorous law enforcement--to protect all Americans.

"Vice President Humphrey has been blunt, as he should be, in his opposition to crime and disorder," said Yarborough. "There is no choice today but to be tough-minded about stopping crime and violence. The Humphrey-Muskie ticket is dedicated to doing just that."

"The Humphrey - Muskie ticket is the best ticket for Texans," Yarborough added.

Texas Farmers Have Added Crop Insurance

All-risk Federal Crop Insurance for grain sorghum will be available to farmers in 4 additional Texas counties for the 1969 crop year, Congressman Bob Price announced today. Additional Federal Crop Insurance investment protection on grain sorghum in Hartley, Hutchinson, Ochiltree and Oldham Counties will raise to 44 the number of Texas counties where all-risk grain sorghum insurance is available.

Crop Insurance on cotton is available in 55 counties and wheat protection in 28. There are 71 Texas counties where Federal Crop Insurance on one or more crops is obtainable, Price said.

Some \$36.6 million in Texas crop production expenses was protected by Federal Crop Insurance in 1968. An estimated \$2.2 million was paid to Texas farmers for some 9,000 losses during the 1967 crop year, the Panhandle Congressman added.

HARMON HIGHLIGHTS

Kansas No. 1

Kansas maintained its lofty perch as the number one team in the country by mowing down Iowa State last Saturday. However, the hair might get just a bit shorter this week as 14th-ranked Colorado tries for another upset. Our vote has to go to the Jayhawks as they take a big step toward the Big 8 championship, beating Colorado by ten points.

Southern Cal, just by being idle last Saturday, moved into second place. The Trojans will trip the Ducks of Oregon by twenty points. Ohio State lost its grip a little and dropped to 3rd. . . and with Michigan State #17, on the menu this week, things might get just a little tense. The Buckeyes, looking at both a Big Ten title and possible Rose Bowl trip, will pull it out by two points.

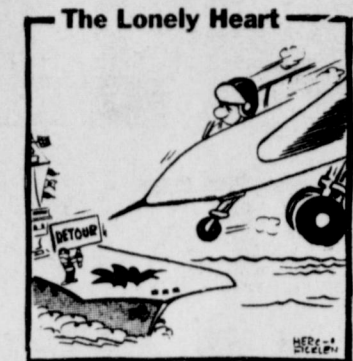

Facing Murderer's Row week after week, Illinois runs into 4th-ranked Purdue, and will take another one on the chin, this one by 29 points. Tennessee is 5th; they meet U.C.L.A. The Bruins haven't run out of steam yet, but we'll go with Tennessee by 18 points.

And heading for its showdown battle with Southern Cal next Saturday, the 6th-rated Bears of California had better keep all eyes on the Washington Huskies this week. They've been known to cause trouble. With eyes in the right direction, Cal should win by 21. Here's another hair-raiser: 7th-ranked Houston barges into 8th-ranked Georgia. The Cougars bounced from 13th to 7th this week, and are going to have to prove they belong in a big hurry. Georgia will lose its first of the season. . . Houston by two points.

The powers of the Southwest Conference will probably confuse the championship picture even more this week as 9th-rated Texas picks on 18th-ranked Southern Methodist. If the Longhorns win. . . and they're favored by seven. . .

it will leave no undefeated team in conference play. And in the East, east meets east as an Army team that is getting tougher and tougher clashes with 10th-ranked Penn State. The Nittany Lions should stay undefeated and win it by Eleven, but Army is full of surprises.

If Notre Dame. . . down in the 11th spot this week. . . can re-group, they should scuttle Navy by 28 points. . . and 12th-rated Missouri, still a mighty big wheel in that Big Eight title fight, will bump Oklahoma State by 13. Slabama, #13, is 26 points too strong for Mississippi State, and 15th-ranked Arkansas will just whistle by Texas A&M by 2 points.

TSTA Reports Amendment 9, Support Grows

AUSTIN--Organized support is growing for Amendment 9 on the November general election ballot, a Texas State Teachers Association official reported today.

Amendment 9 would make it possible for each teacher in Texas to contribute to the Teacher Retirement System on the basis of his full salary.

TSTA Exec. Secy. Charles H. Tennyson pointed out the endorsement by the Governor's Committee on Public School Education. This citizen group, which reported recently after a three-year study, recommended voter approval of Amendment 9.

The amendment already has received approval of the Texas Legislature, which last year voted to submit it at the November election. No significant improvement has been made in teacher retirement since 1956, Tennyson said.

Among organizations which have endorsed Amendment 9 are:

--The Texas Congress of Parents and Teachers, which seeks benefits for children.

Mrs. A.T. Leverage, Jr., of East Bernard, state PTA legislative chairman, said:

"The Texas Congress of Parents and Teachers supports Amendment 9 in the belief that adequate retirement benefits for teachers, as well as good salaries, will improve the educational opportunities for the children of Texas."

--The Texas Association of School Boards, whose members have the job of finding qualified teachers to staff the public schools.

--The Texas Public Employees Association, which also is supporting Amendment 9 to expand investment of the State Employees Retirement System. Texas voters already have provided for state employees the improvement sought for teachers through Amendment 9.

--The Texas Association of College Teachers, whose members also come under the Teacher Retirement System of Texas.

--The Committee for Amendment 9, a statewide group of alumni of public colleges which is actively working for adoption of Amendment 9.

A strong retirement program is one of the fringe benefits commonly offered by business and industry to its employees, Tennyson said, and schools need desperately to compete with these employers for teachers.

"Texans want and deserve high quality in public education," Tennyson explained. "To have quality education, we need the best teachers." "To obtain the best teachers," he said, "we need to offer better incentives for them to stay in the profession. One of these incentives is reasonable retirement benefits at the end of a career dedicated to teaching our boys and girls. Amendment 9 will provide that."

Democrats for Nixon Name Lock Chairman

AUSTIN--Former Gov. Allan Shivers, chairman of the National Committee of Democrats for Nixon, has announced the appointment of Otis Lock of Lufkin as chairman of the Texas Democrats for Nixon.

Lock served in the Texas House of Representatives from 1939 to 1949 and in the Texas Senate from 1949 until he left the legislature in 1959.

"Senator Lock has a long record of faithful public service in our State Legislature, and several state organizations as well. His credentials as a working Democrat are well earned," Shivers said. "I feel sure that under his able leadership there will be formed an excellent committee of other distinguished Democrats to further the candidacy of Richard Nixon in Texas."

At an Austin press conference, Lock said he was "pleased and enthusiastic" over the appointment.

"As a Democrat, I have always supported the Democratic ticket at the state and local levels, and will do so on November 5," he said. "I did not vote the Democratic national ticket in 1952, 1956 and 1960. It is more than a coincidence that those were the years Nixon was on the Republican ticket," he said. "Among the 1968 candidates for President," he said, "Nixon alone has a consistent record of speaking out for, and supporting, the national goals favored by most Texans," he said.

"I believe, and I'm sure that a great many other Texas Democrats believe, that party politics is not the answer in 1968--and that Nixon provides the best answers to our most serious questions, including internal frustration, a revival of American prestige in foreign affairs, and inflation," he said.

The Democrats for Nixon state headquarters office has been set up in Room 708 of the Commodore Perry Hotel in Austin.

TANE Speakers Will Visit Area Churches

Texas Alcohol Narcotics Education (TANE) representatives will speak in three area churches on Sunday, November 3. The Muleshoe churches that will have TANE speakers include the Progress Baptist Church, Calvary Baptist and the First Assembly of God Church. The representatives will speak at the Calvary Baptist Church at the 11 a.m. preaching service Sunday; and at the First Assembly of God Church at 9:45 a.m.

TANE speakers, ministers and laymen of several Christian denominations speak in some 2,500 churches in Texas each year.

The organization is dedicated to the prevention of problems that arise from the use of alcohol, narcotics, and other dangerous drugs.

TANE programs include public school assembly programs, publishing, production of audio visual aids, legislative information service, free film lending library, and an annual school on alcohol and narcotics studies, sponsored jointly by TANE and Baylor University.

TANE's books and film strips, geared to prevent alcohol and drug problems have been distributed throughout the English-speaking world. Some are being translated into other languages for use in the Far East and South America.

A non-profit, educational organization, TANE is supported financially by Texas churches of 19 denominations.

"The speaker's purpose in visiting a church is not to reach drunks and narcotics addicts, but to report to the church on alcohol and drug problems, what can be done, and what is being done about them," said Rev. Albert F. Tucker, TANE Executive Director.

Nixon and Farm Vote

Farmers strongly favor Richard Nixon for president, with George Wallace second and Hubert Humphrey a poor third. This is the word from Farm Journal magazine which has been in the voter polling business longer than any other national publication. Encyclopedia Americana credits Farm Journal with the first national magazine poll in 1912.

Choosing a sample of 1,134 farmers from coast to coast by computer, Farm Journal asked late in September how they would vote "if the election were today." Fifty-two per cent voted for Richard Nixon, 32 per cent for Wallace and only 16 for Humphrey.

Ten counties in 10 states are considered key areas because their 1964 and 1960 voting patterns closely resembled the national result. In the Farm Journal poll, their vote was 52 per cent for Nixon, 26 per cent for Wallace and 22 per cent for Humphrey.

In the South, Wallace led with 58 per cent, Nixon was second with 28 and Humphrey third with 14.

Nixon led among members of all major farm organizations, among all age groups and all farm economic classes.

Women on farms polled favored Nixon by 55 per cent to 28 for Wallace and 17 for Humphrey. Male percentages were 50 for Nixon, 35 for Wallace and 15 for Humphrey.

The same issues that worry non-farmers are a major concern among commercial farmers, according to a poll by Doane Agricultural Service. Asked to specify the three major issues today, 84.2 per cent chose law and order, 78.6 per cent Vietnam, 53.5 per cent agricultural policy.

These polls underline a statement often made by agricultural leaders: Rural America is concerned mostly about the same things worrying metropolitan America.

Hubert Humphrey is a close friend of Agricultural Secretary Orville Freeman and has supported Democratic farm policies now discredited.

The administration has dished out more than \$20,000,000 in subsidies and price supports to farmers the last eight years. If the poll is accurate, farmers want something more effective.

PROBLEMS, PROBLEMS

All letters to the Editor of reasonable length are welcome and will be published. Letters to the Editor must be signed, however, names will be withheld upon request.

Dear Editor

Dear Editor:

Texas must be alerted to Amendment Six on the general election ballot. This is one of the most outrageous tax-subsidy schemes ever attempted to be foisted off on an unsuspecting public. If approved by the voters it would authorize the Legislature to enact a law exempting industrial pollution - control equipment from all ad valorem property taxes imposed by the State, counties, cities, school districts, junior college districts and all other political sub-divisions.

Of course this tax-loss would then have to be made up by homeowners. In Michigan the tax-loss for air pollution control equipment alone has been 134 million dollars. The best estimate of the tax burden that the homeowners of Texas would have to make up, if all of our air and water pollution control equipment is exempted from

all property taxes, is in the neighborhood of 150 million per year, and it could skyrocket to a figure well above that amount.

Since I represent the most heavily polluted area in the State I would pay any price and support any proposal which offers a reasonable promise of reducing air and water pollution. But all experience in the few other states which have adopted this method proves beyond all doubt that the tax-subsidy approach does not contribute one iota to any reduction in either air or water pollution.

I have voluminous correspondence with public health officials in other states, and each one tells me that the key to reducing pollution is strict enforcement of existing Federal and state anti-pollution laws and the enactment of tougher laws where needed. Subsidizing polluters to do what the law already requires them to do is a permissive approach which has not worked where tried and which must be rejected by the Texas voters. Most responsible industrial firms have already installed pollution - control equipment and they are complying with state and federal

Dear Turnrow Tunkel . . .

O. C. McBRIDE

How many carrots can be grown on an acre?

Enough to ruin all the peas grown on 100 acres.

Did you read that Aristotle Onassis gave Jackie a ring valued at more than \$1 million?

Well, when a billionaire visits "the place where people go when they are through playing games", he can afford the best in the store.

What did you think about George Ball resigning his post as ambassador to the U.N. and joining Mr. Humphrey's organization.

The way the polls are looking, George may have made a mistake. The U.N. never accomplishes anything, but the pay is steady, and the outfit will probably still be in business after November 5th.

A cigarette with a filter tip containing tobacco is now on the market. Would this have any advantages?

Yes. A person who happened to light the wrong end would never know the difference.

Did you read that Richard Nixon said he keeps his weight down by eating a lot of cottage cheese?

Anyone who has to shave twice a day, and eat cottage cheese to stay slim, must have a lot of will power. Under the same conditions, I'm afraid I'd end up as a fat man with a long beard.

A political expert says it is difficult to unseat the party in power, because more than 33 million Americans draw a regular government check.

I don't think this holds true under the present administration. The people not getting checks are envious, and those receiving them think they should be larger.

standards. It is the industrial renegades who are refusing to comply with our anti-pollution laws, and who lobbied Amendment Six through the Legislature and who are telling us that they won't abide by the law unless they are rewarded with a tax-subsidy.

Amendment Six is a pig-in-a-poke proposition. The enabling legislation has not yet been passed; in fact, it hasn't even been seen. We don't know what kind of a tax-subsidy bill the industrial polluters will force through the next Legislature if Amendment Six is approved and we don't know exactly how much of their tab we will have to make up out of our own pockets. But as one who fought hard (and unsuccessfully) for tougher anti-pollution laws, I know full well the awesome power and influence wielded by the lobby for the industrial polluters in Austin. They could easily jack up the tax bill on every home owner in Texas, and they wouldn't have second thoughts about doing it.

Join the Tax Rebellion. Vote Against Amendment Six.

Sincerely,
Rep. Rex Braun,
Harris County

NEWS REPORT FROM WASHINGTON

The 1968 Election—
The Electoral College—
Education On Machinery Reform?

WASHINGTON, D.C.--One of the accomplishments of candidates running for President in 1968 was the education of millions of voters concerning the nation's obsolete election machinery. And, though Richard Nixon pulled away to a bigger lead than most people initially expected, the threat nevertheless remained for most of the campaign that the election result could be confused.

Some in Congress have been trying since the 1940's to overhaul the nation's election machinery. The effort which came closest to success was the Lodge - Gossett bill, which cleared the House at that time and failed in the Senate only because the late Senator Robert Taft decided to oppose it.

This bill and others proposed over the years would have eliminated the evil in the present system whereby the candidate who gets the largest vote in a state wins all the electoral votes. This system carries with it three major evils, according to critics: 1-It, in effect, disenfranchises voters who vote for the losing candidate. 2-It also means, because electoral votes are not determined wholly on a population basis, that the votes of some are worth more than the votes of others. 3-It sometimes allows a candidate with fewer popular votes to defeat a candidate who received more popular votes.

Concerning the third objection, official records continue to maintain the fiction that John Kennedy received more popular votes than Richard Nixon in 1960, but when the Alabama Democratic vote for a third-

party candidate, not Kennedy, are subtracted from Kennedy's total, Nixon is the popular-vote winner. This correction, had it been made at the time, would not have altered the outcome of the actual election, however, for Kennedy would have won with a greater number of electoral votes in spite of Nixon's greater popular vote.

This year's campaign has brought this and other odd possibilities to the forefront because it was thought for a long time George Wallace's surprising show of strength might prevent any candidate from receiving a clear majority (270) of the 538 electoral votes. (Electoral votes are the combined number of Senate (100) and House (435) seats, plus three for the District of Columbia (recently added), or 538.)

Nixon's big lead was unforeseen six months ago and chances seemed good that if Wallace carried six or eight states, no candidate would receive 270 electoral votes. If no deal had been made, the House--with each delegation having one vote--would have selected the President from the top three contenders. Here again is the possibility that men representing less than a majority of the population would have selected the President.

Thus the 1968 election focused attention on the nation's election machinery even more than in 1948, probably more than any other election in the past century.

ON SCENIC RIVERS
The House has passed a bill to establish a National Wildlife and Scenic Rivers system covering all or parts of eight rivers. Rivers placed in the system are to be preserved in their free-flowing condition to protect water, quality, scenery and recreational values.

This is a time to start saving some of your income every month.

WASHINGTON NOTES

RESERVISTS RELEASED
The Pentagon has decided to return to civilian life some 16,000 air National Guardsmen and reservists called up after North Korea captured the U.S. spy ship Pueblo. Many of these reservists will be released during the last three months of 1968.

NAMED TO UN POST
President Johnson has nominated James Russell Wiggins to represent the United States in the United Nations, Wiggins replacing George W. Ball who resigned, was editor and executive vice president of the Washington Post.

THE 72nd DISTRICT NEEDS BILL CLAYTON

The Economy of West Texas and Particularly the 72nd Legislative District is Based on Water Supply for Agriculture, Municipal and Industrial Needs.

We Need the Help, Assistance and Proven Leadership of People Like BILL CLAYTON Who Have the Influence, Seniority, Integrity and Ability to Get the Job Done.

*Your effective
voice in
State Government*

*Bill Clayton's record stands
for itself. It reflects the
work of a conscientious
young man. The 72nd
District is in good hands.*

VOTING RECORD AND POSITION

* WATER DEVELOPMENT

Bill Clayton has been directly associated with every major piece of water legislation passed during the last six years. He is recognized by his colleagues as being one of the most effective and well informed members of the Texas Legislature on water and soil resource development and conservation. Bill Clayton knows the vital importance of water, not only to your future, but to the future of the entire State. Past accomplishments and effective leadership have made Clayton vital to continued progress in development of water resources for the High Plains.

* EDUCATION

Child by child we build our nation...tomorrow depends on today's children and young adults. Bill Clayton is ever mindful of the need to raise our standard of excellence in the Texas school systems. This can only be done through the uprating of the Texas schools, and dedicated recruitment of the finest teachers. Clayton co-authored a bill that created the "coordinating" Board of Texas Colleges and University systems. His voting record shows a continued support of teacher pay-raise and the strengthening of all educational systems in Texas.

* LAW ENFORCEMENT

Today, law enforcement agencies are facing new problems. Bill Clayton is concerned about the breakdown of law and order. Clayton has been active in seeking higher salaries for law enforcement officials and uniform standard procedures. Bill Clayton served on a special House Committee which will suggest revision of our obsolete liquor laws. Clayton believes that all people must respect the law and that proper enforcement is essential to maintain law and order.

* INDUSTRIAL DEVELOPMENT

Bill Clayton knows that industrial development helps to stabilize the economy of any given city or area. During his six years in the Legislature, Bill Clayton has worked aggressively for industrial development for our area of the State. Several smaller cities in our 72nd Legislative District now have airports as a result of Clayton's assistance in starting a program of State grants. These State grants are financed with unclaimed gas tax refund on aviation fuel. Bill Clayton knows that airports help encourage industry in less densely populated areas.

* TOURISM

Bill Clayton has worked hard for tourism during his six years as State Representative. Clayton, House Speaker Ben Barnes and other interested legislators were successful in establishing a National Park in the Big Bend area of West Texas. The water importation program being led by Clayton will develop many new recreational opportunities with huge water reservoirs for fishing and boating. Bill Clayton realizes both the need for more recreational facilities in his district and increased business activity from tourist trade.

* COUNTY, CITY & LOCAL GOVERNMENT

Bill Clayton has been a strong advocate of local government. He is currently serving as chairman of the Committee on Counties of the Texas House of Representatives. Clayton believes that government at the county and city level are more responsive to the people and whenever possible they should take the lead and the responsibility of many governmental programs and functions. Clayton has authored many bills that benefit the cities and support the idea of allowing cities the option to choose their own method of taxation. Bill Clayton is needed on the job for more effective and responsible county, city, and local government action.

Special School May be Slated For Muleshoe

Ralph Stevenson, special programs director for the Muleshoe School system, received a letter and questionnaire from the Texas Parks and Wildlife Department on the possibility of locating a special outdoor school for educable mentally retarded children at the Muleshoe National Wildlife Refuge.

The release reads in part: "An Interpretive Center may be used by many different types of classes from your school. It may be used to stimulate social development and to further open doors of the world to your students."

"Specifically, an Interpretive Center developed by the Texas Parks and Wildlife Department may be used to demonstrate about the outdoors as well as the interdependence of life. There may be guided nature trails, unguided trails, outdoor amphitheatres, campfires, and star study opportunities.

"Items and lectures on history, geology, botany and wildlife for a particular area are possibilities."

Twenty-two different areas to be developed are included in the resume.

Muleshoe has a total of 33 students in the educable mentally retarded classes.

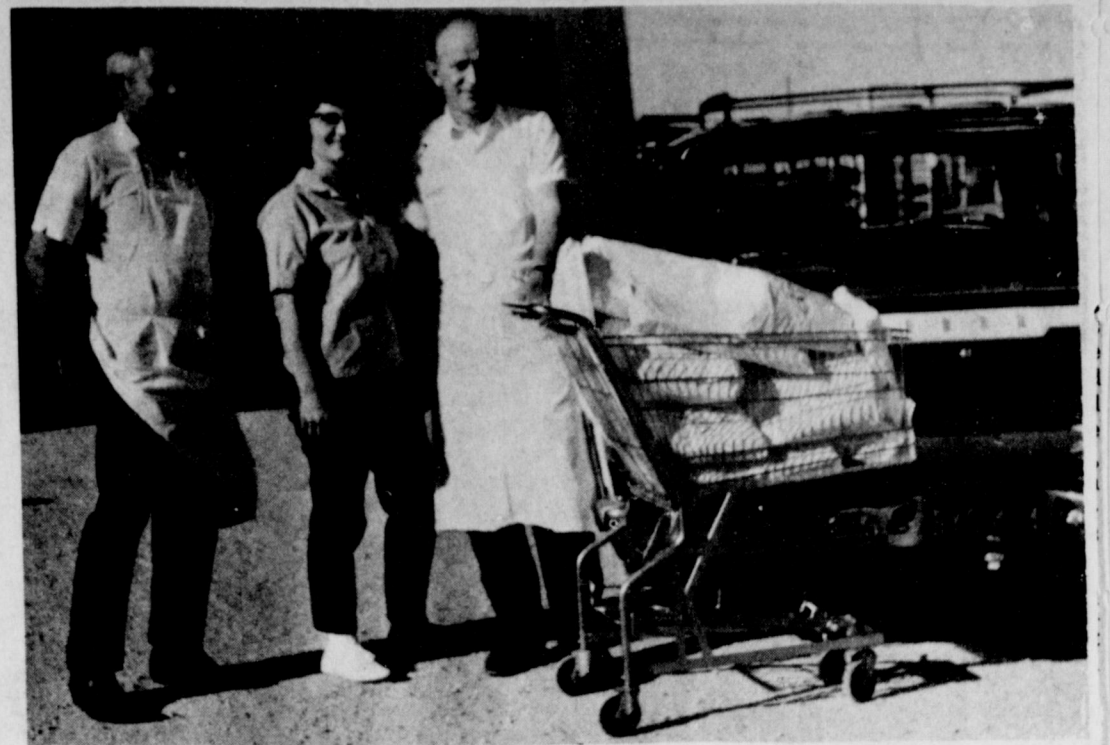

Special Education Director Stevenson said he felt that such a program would be highly beneficial to the Muleshoe special education classes.

Roberto Flores Has Graduated

SAN DIEGO--Marine Private Roberto Flores, son of Mr. Felipe Flores of Route 1, Friona, was graduated from eight weeks of recruit training at the Marine Corps Recruit Depot here.

He will now undergo from two to four weeks of individual combat training and then, after leave at home, will report to his first Marine Corps assignment.

The intensified Marine recruit training emphasizes rigid physical conditioning and survival techniques, both at sea and ashore, to develop self-confidence and endurance. Marksmanship with the M-14 rifle and 45-caliber pistol are equally stressed, and close order drill instills the traditions of Marine Corps teamwork.

BEEF FOR GIRLSTOWN--Bob Copeland, left, Mrs. Carl Ellington and Carl Ellington are shown with one of the carts loaded with beef for Girlstown. They prepared the beef which was donated by the ESA sorority and the Llano Estacado Civic Club.

Caprock Water Utilities Held Muleshoe Meet

Caprock Water Utilities Association held their regular monthly meeting in Muleshoe last week. The Association met Thursday, October 25, at Leal's Restaurant.

Presiding over the business meeting was President Maynard Brown who is chief operator for the White River Municipal Water District which furnishes

water to Ralls, Spur, Post and Crosbyton. Alex Williams, Muleshoe city councilman, gave a welcome address for the meeting from the host city.

W.E. Young, retired water superintendent for the city of Muleshoe, also a charter member of the Caprock Water Utilities Association, was granted an honorary life membership.

Mrs. Jack Clements, widow of a former employee of the City of Plainview, will be presented a resolution in memory of her husband who was Superintendent of Waste and Water treatment for Plainview.

The program was slides and narration of cities entering a contest for the most attractive and efficient water and waste water treatment plants. Winners were Plainview and the White River Municipal Water District.

Forty three members and guests attended the meeting.

Tulia Meeting To Air Feeding Project Results

Results of a feeding project recently completed at the Swisher County Cattle Co. will be aired at a meeting on Friday, November 1, at 10 a.m. at the Swisher County Electric Cooperative here.

All cattlemen, feedlot operators, mass media representatives and agribusinessmen in the area are invited to attend, announces Dr. Lowell Schake, area livestock specialist with the Texas Agricultural Extension Service and coordinator of the feeding project. Feedlot performance, carcass data, cost of gain and grain processing costs will be discussed.

"With the beef cattle feeding industry growing by leaps and bounds on the High Plains, this project was set up last spring to check the performance of feedlot steers on three different types of processed grain sorghum," explains Schake. "These preparations of grain were steam flaked, whole reconstituted and rolled and ground reconstituted. Reconstituting is bringing the moisture level of the grain up to about 30 percent."

The three types of processed grain were used in each of three rations fed to six groups of 75 feedlot steers each. The rations differed only in the type of processed grain. Three groups of steers were light-weight, averaging about 665 pounds, and the other groups consisted of heavier steers averaging about 807 pounds. Thus each ration was replicated with a light and a heavy group. The steers starting out with the extra weight were slaughtered at 129 days while the lighter steers were slaughtered at 158 days.

"This is the first time such a project has been undertaken under actual feedlot conditions," points out Schake. "Therefore we feel that the information obtained from this study will be of interest to all cattle feeders throughout the area."

Cooperators in the project, in addition to the Swisher County Cattle Co. and the Texas Agricultural Experiment Station and Extension Service, were Parker Cattle Co. at Wayside and Elliot Feedlot at Canyon.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford

AUSTIN, Tex.--At least half a dozen Democratic nominees for statewide office are weathering an unusually sharp attack from Republican challengers this year.

In a final flurry before the November 5 general election, the attacks will be stepped up. Taking no chances, Democratic gubernatorial candidate Preston Smith, Ben Barnes, candidate for lieutenant governor, and Atty. Gen. Crawford Martin have returned to full-time campaign status.

Their Republican challengers are Paul Eggers, Douglas DeCluitt and Sproesser Wynn. Republican Manny Sanchez of Brownsville also has campaigned actively for state treasurer against veteran incumbent Jesse James. GOPer E.H. Schuhart of Dalhart is running hard for agriculture commissioner against John White and Millard Neptune of New Ulm is running a serious race to beat Land Commissioner Jerry Sadler.

Other statewide Republican candidates, who have campaigned less vigorously, are John Bennett and Jim Segrest of San Antonio, nominees for state comptroller and railroad commissioner respectively. GOP campaign headquarters claims Bennett as a member of its "action team" but doesn't mention Segrest.

Comptroller Robert S. Calvert and Railroad Commissioner Jim C. Langdon, James and White show no sign of concern.

Polls have indicated the statewide Democrats leading, but battle-wise veterans who face hard-charging opponents can't be sure how many Richard Nixon supporters will decide to vote a straight Republican ticket in indignant zeal for a "change."

GROUP SEEKS MORE MONEY
In their Association meeting here county judges and commissioners voted to ask the Legislature to give them more

money for county business, and in several ways.

First, they endorsed Constitutional Amendment No. 7 on the November 5 ballot. It would take the state out of the property tax field a little at a time between now and 1976. County officers want authority to levy this tax for county purposes as fast as the state abandons it.

A bigger share of automobile license plate fees also is sought. Where a county gets the first \$50,000 in license plate fees, and half of the next \$25,000, they would like for the Legislature to allow them to share with the state up to a total of \$1,000,000 a year, instead of \$175,000.

Other resolutions called for the state to participate by getting federal aid for crime prevention programs, to make the law clear that local units of government are exempt from the state sales-tax law, and to revise the law so delinquent tax suits for less than \$25 can be filed.

Judges and commissioners opposed the proposal that they be given zoning powers like cities have. This legislation will be proposed to the next Legislature so as to make rural areas eligible for Federal flood insurance under a new program. Without zoning or building controls, flood insurance will not be available.

County Judge W.D. Henson of Dallam County was elected president of the association, Judge Kenneth Douglas of Dent and Harris County Commissioner E.A. Lyons is secretary-treasurer.

LAND SALE SET
A big sale of forfeited veterans land tracts is scheduled for November 19. A list of tracts and their locations is available from the Veterans Land Board here, which will receive bids until the day of the sale.

Some tracts are available only to eligible veterans at

AFTERMATH OF ACCIDENT--Ambulance attendants, law enforcement officers and passersby are shown loading Charlett Smith, Ralls, into a Singleton ambulance following a car, truck accident last Friday night. Miss Smith, who received a broken collarbone and undetermined injuries in the accident, was taken to West Plains Memorial Hospital for hospitalization. This accident was only one which has inundated the Muleshoe and Bailey County area in recent days.

five and a half per cent interest. Non-veterans are free to bid on most of the property, however, although they will have to pay six and a half per cent interest if they are successful purchasers.

ENROLLMENTS BOOM
Preliminary figures show there are 374,418 students enrolled in Texas higher education facilities today. This represents a gain of 28,515 -- or 8.24 per cent -- over the 1967 fall enrollment of 345,903. Figure varies less than one half of per cent from the Coordinating Board, Texas College and University System staff projection.

Public senior colleges have 212,035 students, public junior colleges 87,581, private senior colleges 6,819, private junior colleges 9,687 and medical and dental units 3,111.

FOURTEEN VOTES
Campaigning is becoming a bit heated on the 14 proposals to amend the constitution on which Texans will vote November 5.

Texas Municipal League and the Texas Water Development Board have come out against Amendment No. 12. This would allow cities, counties and navi-

gation districts to issue bonds to finance buildings and equipment for manufactures.

Both groups of public officials fear that huge industrial bond issues will drain off investment money needed by the cities and the water agency from their own bond issues.

On the other hand, the proposal is being supported by regional chambers of commerce and others. They say 44 states have such plans to attract industry, and Texas needs it, too.

Texas State Teachers Association, Texas Association of Classroom Teachers and Texas Association of College Teachers all have come out for Amendment No. 9. It would enable public teachers to put six per cent of their full salary into the retirement fund. Limit now is six per cent of \$8,400 a year.

Texas Public Employees Association came out for Amendment No. 1, to raise the retirement "deduction" from five to six per cent, and to allow investment in corporation stocks of the trust fund built up for their retirement. Texas A&M and the University of Texas may not agree on Thanksgiving Day football matters. But they are agreed on Supporting Amendment No. 3. It would allow the investment of the University of Texas Permanent Fund in a higher percentage of corporation stocks, on the theory that the fund will make more money this way.

Amendment No. 5 would raise the pay of legislators from \$400 a month to \$700, and it is being supported by legislators and others who think it's become a full-time job. Amendment No. 2 is being supported by older Texans. It would raise by \$14,000,000 a year the amount the state can spend on old age assistance, aid to the needy blind and disabled, and to dependent children.

NEW JOB
When Gov. John Connally's term expires in January, he will move to Houston to join one of the state's biggest law firms. He will become a senior partner in the firm which will then be known as Vinson, Elkins, Searls and Connally. It represents a huge list of major business firms.

Connally said he hopes to get in a little Canadian or Pacific Northwest hunting before re-

porting for his new duties in Houston. He disclaimed any plans to re-enter politics.

RIOT INSURANCE CLEARED
State Board of Insurance has set in operation a plan under which policywriters in Texas can come under federal reinsurance in event of excessive losses from riots. Reinsurance is financed by premiums paid to the government by insurance concerns.

Board also named a governing committee to administer the plan. It includes James F. Devereaux, John W. Lenehan, Joe Dorsett, O.A. Edgeworth and F.F. Wasko of Dallas, Raymond Mauk of Houston, and Oran F. Needham of Fort Worth.

ATTORNEY GENERAL RULES
Attorney General Martin declined to give unconditional advance approval to Secretary of State Roy Barrera's directives for counting confused and unclear election ballots. Each election judge must make his own determination of the intent of the voter in marking his ballot by either "scratch" or "X" method, Martin said.

Other recent opinions concluded that: *Department of Public Safety cannot pay for its current appropriations court costs assessed against the state by Val Verde county clerk. *Only in absence of U.S. recognition of a country's sovereign immunity can be a constable serve criminal or civil process on its ships. Sheriffs and constables cannot serve such papers on a U.S. naval vessel, but can serve them in an enclosed commercial plant.

*There is no conflict of law in requirements of physical examinations before issuance of marriage licenses by county clerks. Comptroller may deny applications for cigarette distributor's permit on grounds of personal fitness. *Treasury can pay out money to satisfy a corrected judgment if the money received through it has not yet been deposited. A legislative appropriation would be necessary to make payment from treasury deposits.

SHORT SNORTS
State Supreme Court will review an appeal by Pasadena in a land annexation suit with Houston. State Department of Health

had massive amounts of antitoxin drug flown here to combat a diphtheria epidemic which has struck 60.

Agriculture Commissioner White gave cotton farmers in 17 Coastal Bend Counties until November 1 to complete harvest and cleanup of fields under pink bollworm law plowup rules.

New officers for the 27,000-member Texas Public Employees Association are C.A. Shoemaker, president; Charles K. Foster, vice-president; and Homer A. Foerster, secretary. Governor Connally re-appointed Glen McLaughlin of Austin, personnel chief of the DPS, and named R.T. Runyon, police chief of Corpus Christi, Gerald Byrd, a police lieutenant in Sweetwater; and incoming District Attorney Bob Smith of Austin to the Commission on Law Enforcement Officer Standards and Education.

Railroad Commission made no change in the November oil production, holding it at 41.3 per cent of the well's ability to produce, the same as October.

Parks and Wildlife Department has signed a sales agreement to buy a 347-acre site on Paluxy River in Somervell

County to be developed as Dinosaur Tracks State Scenic Park -- first financed with park bond funds. . . . October 13-19 has been proclaimed Texas Public Employees Week. . . . Agriculture Commissioner John C. White granted extension until October 25 of cotton stalk destruction deadline in 22 South Texas counties under bollworms control regulations. . . . Atty. Gen Crawford C. Martin has filed a price-fixing conspiracy suit against 18 children's book publishers and 20 book distributors. . . . Completion of U.S. Highways 87 and 287 as a four-lane facility between Amarillo and Dumas is among major road projects being let for contract this week. . . . State Securities Commissioner William M. King revoked secondary trading exemptions of the stock of Mooney Aircraft, Inc., and Mooney Corp. of Kerrville and San Angelo.

SCS Warns of Dangers In Fields Backyards

The summertime beauty of our state's lush vegetation in yards and the picturesque fields, pastures and trees in their variety of autumn colors hold dangers that the public should heed, the Soil Conservation warns.

There are more than 700 species of plants throughout the U.S. and Canada that are known to cause death, illness or extreme discomfort to people.

Health services report that about 12,000 children are poisoned or injured each year by chewing, swallowing or otherwise contacting the toxic parts of certain plants, trees and shrubs.

Parents should be concerned because many of the plants are quite common in flower and vegetable gardens, and in ornamental landscaping, as well as in wild places. Bulbs, roots, seeds, leaves, beans, stems or berries may contain poison, depending on the species of the plant.

The beautiful oleander bush, for example, grown all over the country, contains a deadly heart stimulant similar to the drug, digitalis. The toxin is so strong that a single leaf can kill a child. People have died merely from eating steaks speared on oleander twigs and roasted over a fire.

The popular Christmas flower, Poinsettia, is full of an acid, burning juice, so lethal that a child who consumed one leaf might die. Mistletoe berries can also be deadly.

Peach tree leaves contain hydrocyanic acid, one of the most deadly poisons known. Potato and tomato plants, close kin to the deadly nightshade have foliage that contains alkaloid poisons which can cause severe digestive upset and nervous disorder if eaten.

Juniper weed, sometimes called thorn apple and stinkweed, grows almost everywhere and causes more poisoning than any other plant. It grows from two to five feet tall, has large leaves and white funnel-shaped flowers resembling morning glories. All parts are poisonous, especially seeds and leaves.

Duffenbachia, or dumb cane, is a beautiful house plant grown in millions of homes, but merely biting the stalk can cause swelling of the mouth and tongue that can be deadly. It is called dumb cane because of its power to strike its victims speechless. The stalk contains needle-like crystals of calcium oxalate that become imbedded in the tissue of the mouth and tongue causing severe swelling and pain.

Castor beans are especially dangerous because they are so deadly and so readily available. Each seed contains enough ricin, a powerful blood poison, to kill a child.

Some other common plants in Texas that have poisonous parts include elephant ear, larkspur, azaleas, lantana, canana, yew, oaks, water hemlock, poison hemlock, poison oak and poison sumac.

More detailed information on these and other plants can be secured from your Soil Conservation Service office cooperating with the National Safety Council in keeping the public alerted to plants that cause these problems or from the health and plant authorities.

DECEMBER DRAFT CALL

The Defense Department has ordered the drafting of 17,500 men for December. The Army will get 15,000 and the Marine Corps, 2,500.

Fighting Bulldogs

By Bula Junior Class

On October 21st, Patricia Robertson, sophomore student, presented the morning devotional for the student body. Her topic was a Prayer, given by a teen-age boy, two weeks before his death.

On the same day, the Bula Future Homemakers sent boxes of various articles to area G.I.'s, who are stationed in Vietnam. The boxes included candy, cookies, pop corn, and personal packaged articles. The boys receiving packages are Quinton Pierce, Amherst, Texas; David McDaniel, Bula, Texas; Floyd Halbrooks, (twin brother of Bula's Football Coach) Loop, Texas.

Monday, October 21, the Bula Future Farmers held their monthly meeting. Their business items included an upcoming Turkey Shoot to be held the Sunday evening before Thanksgiving. The FFA booth for the Harvest Festival will be a "Dunking Vat."

The Bula High School girls Basketball teams traveled to Meadow, Tuesday night, October 22, to take on the Meadow Broncos.

In the B-Team game, Meadow eased by Bula with a score of 47-48. Sheila Medlin, of Bula, was high-pointer with 26 points. Also from the Bulldog team, Terry Claunch hit for 14 points, and Iva Clawson popped the net for 7.

For the A-Team Game, the final score was 70-52 in favor of Meadow. For Bula, Pam Layton and Diane Crume tied for high-point, both having 20 points each. Sharon Turney hit for 12 points.

On Thursday night, October 24, the Bula Junior High clobbered the Smyer Bobcats to the tune of 22-6. Joe Hernandez scored the first TD for the bulldogs, with Jimmy Risinger converting the extra points. Risinger later scored two more touchdowns plus both the extra points.

GO! B.J.H. BEAT THREE WAY!

The Bula High School also gave Smyer a hard time the following night. At the end of the game the score was tied 16-16. But the Bulldogs will go ahead of Smyer in district play because of penetrations, 4 for Bula and 3 for the Bobcats.

Wayne Wood recovered a Smyer fumble in the end zone for a Bulldog 2 point safety.

Ron Risinger later carried the ball from the 5 yard line for the TD. He also carried for the extra points. Rodney Claunch carried for the last Bula tally.

For the coming week the B.H.S. Student Council will sponsor a Harvest Festival on Thursday night. There will be a coronation of the Harvest Festival King and Queen following the closing of the booths.

The Princess and Prince for each class are as follows: 1st grade, Rene Beasley and Robert Layton; 2nd grade, El-nora Peacock and Lynn Robertson; 3rd grade, Nanette Hall and Ronald Beasley; 4th grade, Carolyn Stroud and Jimmy Baca; 5th grade, Oralia Davila and Randy Hall; 6th grade, Suzanne Layton and James Snitker; 7th grade, Gwen Pollard and Craig McDaniel; 8th grade, Charlene Pollard and Kenneth Turney; 9th grade, Freda Layton and Ron Risinger; 10th grade, Pam Layton and Gene Stroud; 11th grade, Liz Henderson and Tom Newton; 12th grade, Linda Gillim and Rodney Claunch.

Later this week on Friday night, the Bula High Bulldogs take on the Loop Longhorns at Loop. Game time: 7:30 p.m. SUPPORT THE BULA BULLDOGS!

* Q's and A's *

I am a veteran attending college under the G.I. Bill and plan to be married in the near future. Can I claim my wife as a dependent for an increased educational allowance from the Veterans Administration even though she will be working? What documents do I have to submit to VA?

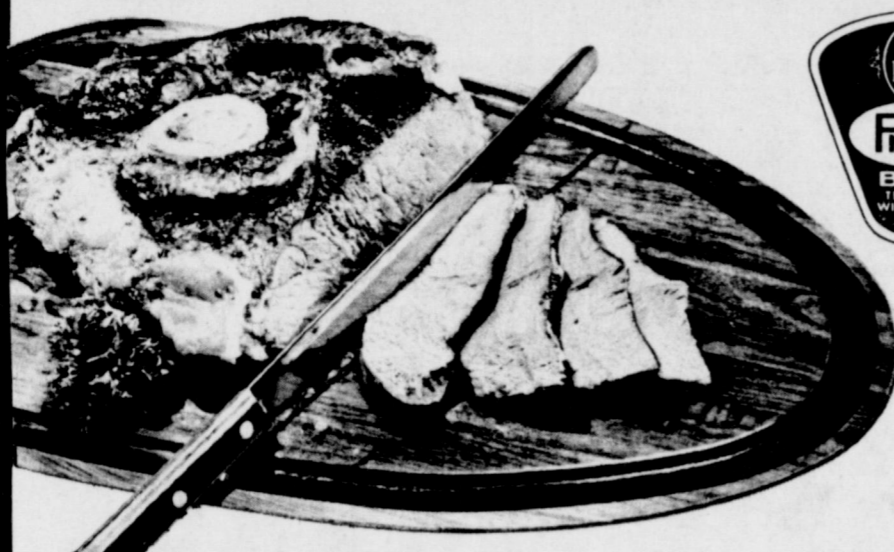

A -- Yes, you may claim your wife as a dependent regardless of whether she is working. As a full-time student your VA educational assistance allowance under the G.I. Bill will be increased from \$130 to \$155 a month.

You should tell VA immediately when you are married, since your increased educational allowance will be dated from the time VA is notified of your marriage.
