Weekend Violence Leaves One Dead

No School Action Taken On Baseball

Sam Gonzales acted as spokesman for a group of people who met with members of the Muleshoe Independent School District Board of Trustees

Monday night, Gonzales asked that baseball be added to the MISD athletic program.

Board members heard several reasons why baseball should be added, then opted to take the request under advisement while they check the area schools to see if they have a baseball program.

Board members named Ernest Kerr as election judge for the April 4 school board election, and assistant chosen was Manuel Balderas. Approved was the Bailey County Clerk as absentee voting judge.

Resignations accepted included Athletic Director and Head Football Coach Mike Wartes who has accepted a similar position at Denver City; Terree Donaldson, who resigned for personal reasons and Kathleen Hamilton, who has resigned from her leave of absence to move to Monahans.

Contracts of central administrative personnel, all principals, assistant principals, directors, head coaches, band directors, and counselors were extended

Around Muleshoe

Muleshoe's Young Homemakers will sponsor youth skating tomorrow, Friday, at the Bailey County Exhibition Center and Coliseum.

Admission for the 7-10 p.m. skating will be \$1 per skater.

Among the 158 students who made the Dean's List at Lubbock Christian College for the fall semester were four Muleshoe area students.

Included were Quentin Mimms, 4.0 and a freshman liberal arts major; Connie Templeton, 3.75 and a senior elementary education major; Mike Mimms, 3.70 and a senior pre-vet major and Mark Harmon, 3.60 and a sophomore accounting major.

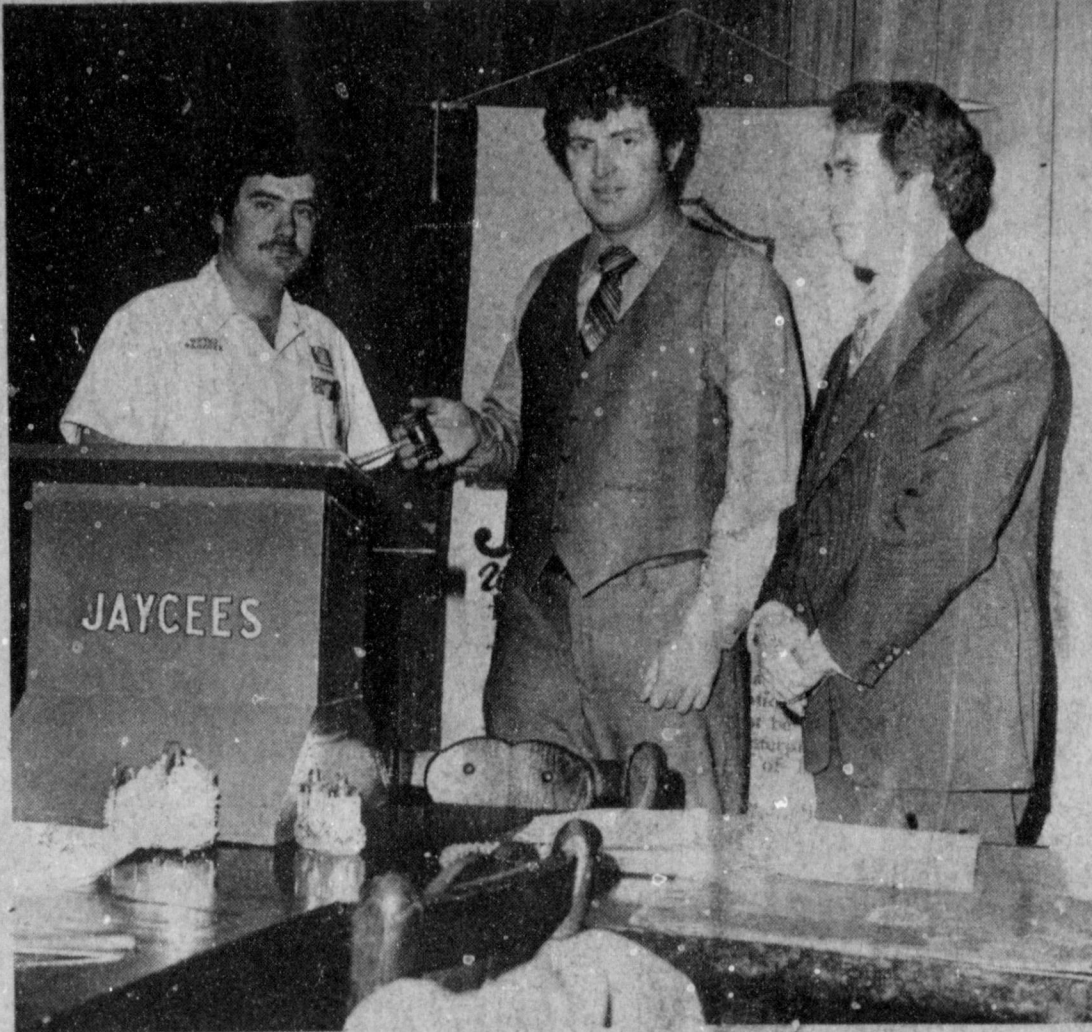

Rogelio Puente, son of Mr. and Mrs. Roque Puente has received notice he is to be initiated into Phi Eta Sigma, scholastic honor society at Texas Tech University on March 7.

A first year student at Tech, his grade point average was 3.7 in his first semester.

Sgt. Doyle M. Tosh, son of Billy G. Tosh of Bolivar, Missouri and Mary Franklin, Muleshoe, is now stationed at Fort Ord, California.

Tosh is a field artillery gunner.

St. Ann's Catholic Church of Bovina, is sponsoring their annual German Sausage dinner Sunday, February 15, 11:30

JAYCEE GAVEL CHANGES HANDS...During the Monday meeting of the Muleshoe Jaycees, President Galen Bock announced he was moving to Odessa, and chosen as the new president was Kent Kelley, former vice president. Looking on at the change of gavel was Johnny St. Clair.

City, County Receive Tax Rebate Checks

State Comptroller Bob Bullock late last week said the sale of mixed drinks in Texas during 1980 totaled nearly \$1 billion.

Bullock released a report showing that the sale of mixed drinks during the final quarter of the year reached \$25.4 million.

He said his office is sending Texas counties and cities more than \$7.3 million in rebates from the mixed drink tax during the fourth quarter of 1980.

Bailey County reported a total tax revenue of \$2,620.98 and their rebate was \$393.15. At the same

time, the City of Muleshoe reported tax revenues of \$1,461.49 and a rebate of \$219.22 for the fourth quarter of 1980.

Cochran County received

a 15 percent remittance of \$84.85 on their reported total county tax revenue of \$565.66.

In Lamb County, Littlefield reported tax revenues of \$5,896.56 and received a tax remittance of \$884.48 and Lamb County received a total of \$1,308.86 on a reported tax revenue for the county of \$8,725.71.

From Parmer County, a total of \$9.51 was remitted to that county on reported tax revenues of \$63.42.

Texas cities and counties receive a 15 percent rebate

Cotton Men Set Meeting In Washington

National Cotton Council President Frank Mitchener and Executive Vice President Earl Sears were among a group that received a briefing recently on the nation's situation from President Reagan, Agricultural Secretary John Block, and other top advisors.

Administration officials stated spending cuts would be made across-the-board, including agriculture. However, they emphasized that spending for agricultural research and foreign market development has a high priority. During the discussion, Mitchener focused attention on the excessive cost of the cotton dust regulation and received favorable response.

New sales of raw cotton for current marketing year delivery jumped to 336,700 bales for the week ended January 29, the second highest total for the current year. The major buyer was China, 150,000 bales, with other large buyers being Korea, 77,100 and

Men's Softball League Meet Set, Thursday

On February 19, the Men's Softball League will meet at the Corral Restaurant at 8 p.m. for election of officers for 1981.

During the meeting, plans will also be made for this summer's softball season and schedule.

Last year, 12 teams were in the league.

Steve Neptune, secretary and treasurer, said all interested persons are encouraged to attend this meeting. He can be contacted at 272-4410 or 272-5113 for additional information about the league.

Nursing Home Rock-A-Thon Slated Friday

The Muleshoe Nursing Home's Rock-A-Thon is scheduled Friday, February 13, tomorrow from 9 a.m.-5 p.m.

Residents of the Nursing Home are asking for local people to support their rocking for the Bailey County Heart Association with pledges of money. Residents will rock for different lengths of time, minutes, hours or longer.

If anyone wants to contribute baked goods, crafts or paintings, you are asked to take them to Joyce Sancel at the Muleshoe Nursing Home. These items will be sold and the money donated to the Heart Association, she said.

Refreshments will be served at the Nursing Home during the celebration.

"Mark your calendars on February 13, participate in the Rock-A-Thon and your heart will be made stronger," says Laura Seales, chairman of Special Events for the Bailey County Heart Association.

Valentine Disco Set Saturday

Make plans now to take your special sweetheart to the Valentine Disco Saturday night 8:30-12 midnight at the Bailey County Exhibition Center and Coliseum.

All area youth are encouraged to attend the special youth disco with sounds to be provided by Mickey Bear Enterprises of Portales. Admission will be the usual \$2 per person.

As an added attraction, door prizes will be given

Cont. Page 6, Col. 5

Omer D. Kelton Dead Of Gunshot Wounds

What appeared to be a long-simmering feud erupted in a blaze of gunfire Sunday morning, leaving a Muleshoe man dead and another local man charged with his murder.

Around 10 a.m. Sunday, Omer Kelton, 72, was fatally shot in front of the Bailey County Sheriff's Office as he apparently attempted to elude the man who is charged with claiming his life.

Currently in the Bailey County jail, charged with the death of Omer Kelton is his 66 year old brother, Robert Kelton.

Muleshoe City Police Officer Tony Wallace was the first officer to reach the sheriff's office after receiving a radio report of "a man with a gun" from Bailey County jailer Ruth Briscoe.

On arrival at the sheriff's office, Officer Wallace found Omer Kelton lying on the parking lot between two vehicles and called for an ambulance. Kelton was taken to West Plains Medical Center for emergency treatment before being taken to a hospital in Lubbock where he died shortly before 2:30 p.m. Sunday.

Wallace took Robert Kelton into custody at the sheriff's office.

The initial investigation, which is continuing, was conducted by Chief of Police Jerry Hicks, Sheriff Bob Henderson, Deputy Hal Bynum, District Attorney Jack Young, District Attorney Investigator Dick Pylant and Officer Wallace.

Another possible tragedy was narrowly averted early Saturday night when two vehicles crashed just south of Muleshoe on Highway 214.

That chain of events occurred shortly after 8 p.m. when a motorist called the sheriff's office in Muleshoe to report a car "weaving

all over the road" between Earth and Muleshoe. It was also reported that the driver had shot at a car.

DPS Trooper Carey Brooker drove east on Highway 70 to intercept the car, however, the driver of the car failed to stop for the trooper's lights and siren, and came toward Muleshoe after extinguishing the lights on the car. Muleshoe City Police Officers arrived at the city limits in time to see the car cut back to the north on Highway 214, continuing to drive at a high rate of speed and without headlights.

State, county, and city officers stayed near the car to warn oncoming traffic about the car which refused to stop for the officers. North of Muleshoe, the car appeared to spin out of control into a field, but shortly was south-bound toward Muleshoe. As the car neared Muleshoe, city officers blocked intersections to stop oncoming traffic in an effort to avert a wreck. The car

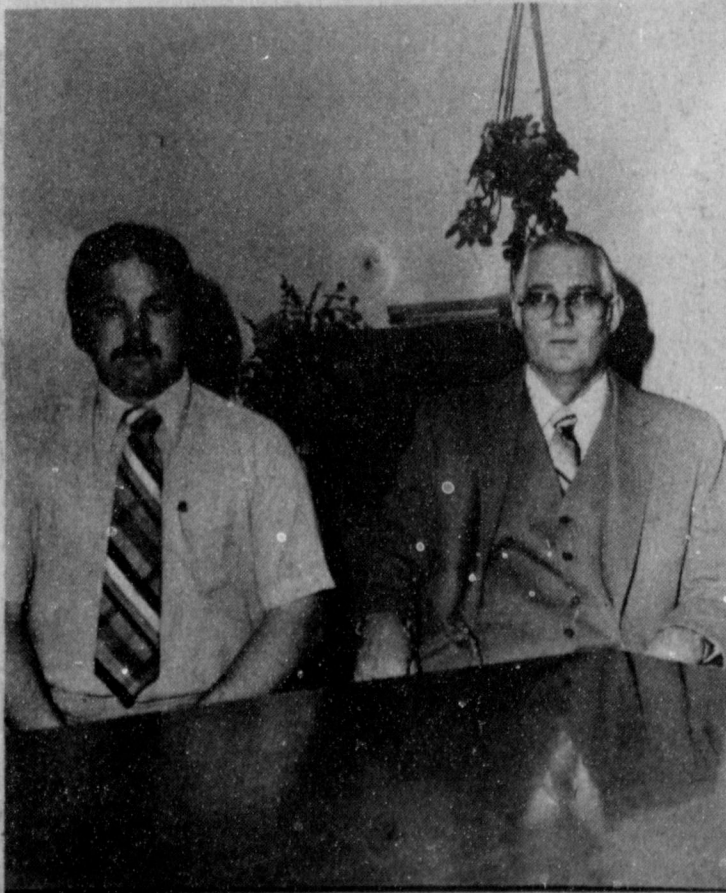

Cont. Page 6, Col. 1

Finney Shows Banking Film For Rotarians

Bob Finney presented a film for the Rotary Club at noon Tuesday. His film was showing new phases of Electronic Banking and How It Will Affect the Banking Industry.

Guests during the meeting were Bob Core and Walter Pugh, both out of town visiting Rotarians; and Willard Pittman, Rusty Williamson, Dick Johnson, Ed Cox, Don Rempe, Don McElroy, Paul Wilbanks, and J.D. Cage.

In the membership and guest contest, the Coca Cola Cowboys now have 777 points to 579 points for the Over The Hill Gang.

NEW HOSPITAL AND NURSING HOME PERSONNEL... Larry Calvert, left, has been named administrator for the West Plains Medical Center and Jim Swanner was named administrator for the Muleshoe Nursing Home. The board of the hospital and nursing home made the announcements in a news conference Monday.

WINDOWS SHOT OUT...Shortly before Omer D. Kelton, 72, was shot to death Sunday morning, the windows of his small pickup were shot out apparently by the same man who fired the shots into Kelton in front of the Bailey County Sheriff's Office. Kelton was reported to be on his way to church Sunday morning when the shooting occurred shortly before 10 a.m.

Sudan News
By Evelyn Ritchie

Mr. and Mrs. Marvin Bowling had as their holiday guests, their son and family, Dr. and Mrs. Rod Bowling, Bo and Jamie of Forts Collins, Colorado. Also Danny Foster, a nephew from Houston.

Dr. Delbert Serratt and Julie of Amarillo visited during the weekend with his mother, Louzelle Serratt as did her other brother, Kenneth Serratt and Kolby also of Amarillo.

Annette Fulcher was to be a surgical patient in Methodist Hospital this week in Lubbock. She had received an injury to her right leg.

Lori Harper, a student at Texas Tech was home a few days recently with her parents, Mr. and Mrs. Raymond Harper and family.

Rev. and Mrs. Kerry Hurst and Mr. and Mrs. Mike Nix explained Tuesday for a Bethel Bible Study Course. They returned home late Tuesday night.

Mr. and Mrs. Jerry Ethridge and children of Dimmitt visited during the weekend with her parents, Mr. and Mrs. G.C. Churchman and brother, Mr. and Mrs. Scott Churchman.

Mr. and Mrs. Buster Kittrell and Rev. Leslie Welch were among the area pastors and laymen who went to Mexico this week for the annual mission trip.

The Methodist Church members went to the Amherst Manor on Sunday to sing and visit with the residents there.

Mrs. J.W. Olds visited during the weekend with her grandson, Mr. and Mrs. Bobby Bouldin in Plainview.

Mrs. W.T. Vereen spent last week visiting in Wichita Falls with her sister and brother in law.

Denise King Evans was named to the Dean's Honor Roll at Kilgore Junior College for this past semester. She is the grand-

daughter of Mr. and Mrs. Sterling Reece and a former Sudan resident where she attended school for several years.

Neil King was among those named to the Dean's Honor List at Texas Tech for the first semester of 1980-81. He is the son in law of Mr. and Mrs. Dale Newsome.

Tom Henderson of Olton was a Sudan visitor last week. He is a former Sudan resident.

Mr. and Mrs. Sterling Reece have returned home from an extended stay at the Lake of the Pines and with her daughter and grandchildren.

Mrs. Wayne Doty was in Hobbs, N.M. during the weekend to visit her daughter, Mr. and Mrs. Doyle Mapp and Amanda.

Lt. Com. Rodney Fisher, son of Mrs. Lee Roy Fisher was among the many who were in Washington, D.C. for the Inauguration festivities when Reagan was sworn in as our 40th President.

Mrs. Edna Dent returned home recently from an extended visit in Vacaville, California with her niece, Mr. and Mrs. C.R. Kerr.

Jan Parker of Lubbock visited recently with her aunt and uncle, Mr. and

Mrs. Claude Kropp.

Mr. and Mrs. Howard Hutto and Roger of Clovis were Monday visitors with Mr. and Mrs. G.C. Ritchie.

Eddie Carpenter of Fort Worth visited one day last week with his cousin, Mr. and Mrs. B. A. Beauchamp.

Mrs. Daisy Ford returned home one day last week from the Littlefield Hospital where she had been a medical patient for several days.

Oscar Vinson was released from the Methodist Hospital in Lubbock one day last week.

Disaster Loans Still Available

The filing deadline for obtaining disaster loan assistance from the U.S. Small Business Administration has been extended for 60 days. The filing deadline affects those who experienced drought damages to farms, ranches and related enterprises in Texas.

The new filing deadline is April 13, 1981, for physical drought losses, crop losses, pasture damages, loss of livestock, etc. For economic injury losses, the new deadline will be July 13, 1981. This extension will allow farmers more time to calculate losses due to a late harvest season.

The interest rates on SBA physical loans are 5 percent or 8 1/4 percent depending upon the borrower's financial ability. The lower rate will apply to those who could not borrow from commercial, private or non-federal sources. The interest rate on economic injury loans is 8 1/4 percent. Loans maturities are established by SBA Loan Officers in accordance with the applicant's ability to repay the loan.

Farmers, ranchers and other businesses may inquire about the SBA farm disaster loan program from either the Austin Farm Disaster Branch Office at 5555 Lamar Street, Austin, Texas, 512/458-1851 or at the Lubbock SBA Farm Disaster Branch Office at 720 Texas Avenue, Lubbock, Texas, 806/762-7481. The SBA also maintains a

toll-free number 800/252-9726 for your information.

JAPAN'S ECONOMY
TOKYO -- Despite general good health, Japan's economy is troubled by a disturbing number of bankruptcies among small and medium-sized companies which form the backbone of the nation's phenomenal growth.

Correct Pruning Aids Plant Health

As the dormant season for many plants approaches, home gardeners should review proper pruning techniques before manning pruning shears and saws, advises Spencer Tanksley, county agent with the Texas Agricultural Extension Service, Texas A&M University System.

Improper pruning can result in poor growth, unnatural plant forms, poor flower and fruit production and occasionally even death of the plant, Tanksley adds.

Following basic guidelines for pruning can

Pioneer (NYSE) Corporation Record Earnings

Strong performances in exploring for and producing oil and gas, in producing and selling natural gas liquids, and in supplying contract petroleum drilling services led Pioneer Corporation (NYSE) to record annual earnings for 1980.

The diversified energy resources corporation reported net income of \$90.6 million for the past year, an increase of 38.0 percent from 1979. Earnings per share for 1980 were \$2.44 up 36.3 percent from \$1.79 in 1979, adjusted for the December 30 two-for-one stock split.

Pioneer's revenues for 1980 increased 24.5 percent, to \$912.0 million from \$732.1 million in 1979.

For the fourth quarter of 1980, Pioneer earned \$24.0 million on revenues of \$232.1 million. Net income increased 40.8 percent and revenues were up 15.9 percent from the same quarter a year earlier.

The Pioneer directors declared a quarterly dividend of 22 cents per share, a 10 percent increase from the previous quarter after adjusting for the stock split. The dividend is payable March 4 to stockholders of record February 19, 1981. During the past 15 months the directors have increased the dividend by a total of more than 80 percent in four stages.

transform a tree or shrub into a beautiful plant specimen.

To begin, have a reason for pruning, emphasizes Tanksley. Consider technique, season of the year and the need for pruning before taking that first snip. Many times there is no reason at all for pruning if the tree is hale and hearty.

The winter season when plants are dormant may not necessarily be the best time to prune every plant on your landscape. Deciduous trees and shrubs, vines, ground covers, and evergreens probably can be pruned at this time of year, says Tanksley. However, exceptions include spring-flowering shrubs such as azaleas, forsythia,

bridal wreath and gardenias, which should be pruned after they flower. Do not prune roses until mid-February.

Using proper tools is important for safety and adequate cutting. Use hand shears for small twigs under one-half inch in diameter. Long-handled lopping shears are best for branches one-half to one inch in size. Larger branches require a pruning saw. A long-handled pole pruner or saw is necessary for cutting higher branches.

Tanksley recommends making cuts flush with the trunk since stubs do not heal properly. As years pass stubs decay and the deterioration spreads down the trunk until the tree falls over.

Seal cuts more than two inches in diameter with a pruning paint sealer. The sealer will dry hard and protect the wound from insect and disease invasion and moisture loss.

As important as seasonal pruning is, it's even more important to prune when needed, says Tanksley. Prune and repair damaged plants as soon as possible. And always prune after transplanting, particularly with balled and bare rooted plants. Pruning will compensate for roots the plant lost in the digging.

Pruning is perhaps the least understood and most abused of all the many chores a gardener may tackle. When pruning, have a purpose in mind and do the job right, emphasizes Tanksley.

Texas A&M still becomes operational

COLLEGE STATION — The Texas Agricultural Experiment Station (TAES) has begun operation of a new alcohol distillation unit that will be valuable in research for producing liquid fuels from biomass.

"The unit will be used to provide research data and demonstration information for farmers and people in industry across Texas," said Dr. Edward Hiler, head of the Agricultural Engineering Department at Texas A&M.

"This energy program is oriented toward the development of energy resources both for and from agriculture — a similar version of the demonstration program is to move Texas agriculture towards energy independence," he continued. "We don't want agriculture here depending on foreign energy sources for food production."

Cattleman's Association Praised Legislation

Independent Cattleman's Association President Roy Wheeler of Pleasanton has praised legislation that, if passed, would effectively abolish the state inheritance tax.

Wheeler said the bill, H.B. 325, was pre-filed by Texas State Rep. Gerald Geistweidt of Mason.

"We feel Rep. Geistweidt's bill is one of the most important pieces of legislation to be considered during the session," said Wheeler. "We hope that all legislators will recognize the importance of its passage to land owners in this state."

According to Geistweidt, the bill would enable administrators of estates to use the federal income tax form in computing the amount of state tax. Federal law now provides for a credit against federal estate taxes for a certain amount of state inheritance tax actually paid the state. Under H.B. 325, the State of Texas would receive the amount of the federal credit which would otherwise go to the federal government.

For instance, in a hypothetical case, if the federal government assessed \$25,000 worth of taxes on an estate, and the state assessed \$6,000, the heirs might be allowed to subtract part of that \$6,000 from the \$25,000 before paying their federal tax. The state's inheritance tax bill still would be \$6,000.

exceeded the amount allowed as a federal credit.)

He cautions that this is only an example and specific amounts used would not necessarily apply in real cases.

H.B. 325 has been endorsed by the State Bar of Texas and has wide support among members of the agricultural and business communities. It will be carried in the Senate by State Sen. Ray Farabee of Wichita Falls as S.B. 117.

Wheeler told ICA members to show their support of Geistweidt's bill by contacting members of the State Legislature to encourage the bill's passage.

GSPA Asking For Reserves

Grain Sorghum Producers Association has requested Agriculture Secretary Block to re-open the Reserve for grain sorghum. G.S.P.A. executive director Elbert Harp, told Secretary Block, "The drastic decline in market prices over the last two weeks make it imperative that farmers be given the opportunity immediately to use the Reserve."

All sorghum that was placed in the Reserve last year has been called. That grain has to be redeemed by February 12, 1981.

Harp pointed out to Secretary Block that "current regulations allow reentry (into the Reserve) when the average market price drops below the call level." The average price has been below the call level since before Christmas.

Texas Hay Supply Down, Prices Climb

AUSTIN—Texas' hay supply has dropped 27 percent with prices rising an average of \$16 to \$33 a ton — another lingering effect of last summer's drought, Agriculture Commissioner Reagan V. Brown has reported.

The Texas Crop and Livestock Reporting Service January 1 inventory indicates 3,530,000 tons stored in the state, the total down by almost a third from 1979.

Prices on the December 15, 1980, report showed that alfalfa hay was selling for an average of \$111 a ton, contrasted to \$78 a ton at the same time in 1979. The "all hay" average price was \$57 a ton in 1979; now it is up to \$83 a ton.

"Supplemental feeding is usually necessary in the cold months in Texas, but with much of the natural forage depleted by the drought, ranchers are having to bring in more feed than usual," Brown said. "The demand has certainly increased, but our office has not had notice on shortages that would indicate any critical areas of the state so far."

BIBLE VERSE

"But first they gave their own selves to the Lord."

1. Who was the author of the above statement?
2. Of whom was he speaking?
3. What particular virtue does this statement praise?
4. Where may it be found?

Answers to Bible Verse

1. Paul the Apostle.
2. The Christians at Macedonia.
3. Their liberality in taking care of those in need.
4. II Corinthians 8:5.

A cotton loan price of at least 65 percent of parity and extension and improvement of the current disaster program will be two of the objectives of Plains Cotton Growers, Inc., Lubbock, as it works to influence the new cotton program to be passed by Congress in 1981.

These goals and others were set by the PCG Board of Directors at a meeting in Lubbock January 13.

Other loan program provisions favored by the Board included a continuation of 18-month maximum term loans, interest rates on loans no higher than the cost of money to government, and an automatic loan at 90 percent of parity should cotton export sales be embargoed for any reason other than a national emergency declared by both Houses of Congress.

Complementing these aims, PCG will (1) continue its opposition to payment limitations, (2) shoot for elimination of Normal Crop Acreage provisions and the attendant cross-compliance and offsetting compliance requirements between crops and/or farms, (3) support continuation of the Secretary's authority to limit plantings and offer paid acreage diversion, (4) recommend that authority to require acreage to be set aside and devoted to conservation uses be revoked, and (5) strengthen both producer and state and county ASCS committee advice and participation in the administration of the cotton program once a law is on the books.

In areas less directly related to cotton program details, the Board voted (1) to support reduction of inheritance taxes and provide exemption for estate transfers between spouses, (2) to seek more effective export credit assistance and encouragement, and (3) to continue to support Cotton Incorporated and urge efforts to make the organization serve cotton producer interests even more effectively.

The only real controversy to develop during almost six hours of discussion centered on the issue of tying the minimum loan to parity. At 65 percent of current parity (\$1.13) the loan minimum would be 73.45 cents per pound.

Those who opposed the idea were afraid the loan in 1982 or subsequent years would encourage excessive cotton acreage increases in other parts of the U.S. Cotton Belt and in foreign countries, bringing back the huge surpluses that plagued the industry in the decade of the sixties. And, citing the sparsity of support for the parity-based loan in other cotton producing areas and in Congress, opponents also expressed the opinion that a PCG position favoring such a loan was unrealistic.

Proponents of a minimum loan based on parity, who eventually prevailed, were directors convinced that a minimum loan price at 65 percent of parity would not lead to surplus production, and was the only way to assure producers of prices sufficient to cover high and rising production costs. Countering the "unrealistic" label, one said he had been told from Washington that a law mandating such a minimum would have a good chance to get through Congress and would be signed by incoming President Reagan, if passed.

 True False

What you don't know about income averaging could cost you money.
 H&R Block knows that no matter how much you make, if your income went up substantially last year you may be able to take advantage of it. We'll take advantage of this if it's to your benefit. The answer is FALSE, since there is no minimum amount of income required to qualify.

Pageant To Be Held In Dallas

Young ladies of this area are invited to enter the Texas United Teenager Pageant to be held at the Sheraton-Dallas Hotel, June 19, 20, and 21, 1981 in Dallas, Texas. The Texas Pageant is the Official State preliminary to the Miss United Teenager

MAY WEDDING PLANNED..... Mr. and Mrs. Lauchheimer Schloss, Jr. of New Orleans, Louisiana, announce the engagement and approaching marriage of their daughter, Miss Margaret Michelle Schloss of Dallas and New Orleans, to Perry Baker Hall, also of Dallas and formerly of Muleshoe. The couple will be married at Trinity Episcopal Church in New Orleans. Hall is the son of Mrs. Robert Joseph Standley of Houston and Lawrence Blair Hall of Muleshoe. He is a grandson of Edwin Quinby Perry and the late Mrs. Perry of Plainview and Mrs. R.H. Woods of San Angelo and a grandson of the late Mr. and Mrs. R.A. Hall of San Angelo. The bride-to-be is the granddaughter of Mrs. Monroe Michael of New Orleans and the late Mrs. Michael, both formerly of Rochester, New York and Mr. and Mrs. Lauchheimer Schloss, Sr. of Baltimore, Maryland.

Society Deadlines Set

Weddings must be in the office by Monday noon for the Thursday paper and by Thursday noon for the Sunday paper. Any wedding more than two weeks old must be edited and only the basic information included. No shower picture will be taken without a 24 hour notice and copy must be in the office by Monday at 5 p.m. for the Thursday paper and by Thursday at 5 p.m. for the Sunday paper. An honoree's picture will be taken at only one shower. All club stories for following edition of paper must be in the office by 10 a.m. on Tuesday and Friday preceding the next issue of the paper.

Pageant, a National Pageant that includes all fifty states.

Contestants will be judged on Scholastic and Civic Achievements, Beauty, Poise, and Personality. No swimsuit competition or talent is involved. Contestants must be between 14 and 18 years of age as of December 31, 1981 and must have at least a "B" average in school.

Each contestant accepted will be requested to participate in the Volunteer Community Service Program of their choice. This program teaches teenagers to share and participate in school and civic affairs by contributing a minimum of 8 hours time to some worthwhile Civic or Volunteer work to benefit the community before Pageant time. Each contestant is required to write and present on stage an Essay entitled "My Country".

The winner of the Texas Pageant will receive an all-expense paid trip to compete in the Miss United Teenager National Pageant; a three phase pageant, to be held in Hollywood, California (State Costume); Honolulu, Hawaii (Essay) and Washington, D.C. (Finals). Among the prizes that will be awarded at the National Pageant in 1981: \$15,000 in scholarships and awards, automobile for the reigning year, \$5,000 personal appearance contract, \$2,000 wardrobe.

Those interested in entering the Texas United Teenager Pageant may write for information to Susan Smith, P.O. Box 1821, Fayetteville, North Carolina 28302 or call (919) 822-1453.

Three Way News

By Mrs. H.W. Garvin

Mr. and Mrs. Jack Furgeson and Jonny Furgeson from Maple and Mrs. Jim Green from Shallowater and Mrs. Mark Corkery flew to Dallas Monday to attend the funeral of Mr. Furgeson's brother.

George Tyson and S.G. Long worked part of last week in Sundown doing some carpenter work.

Mr. and Mrs. H.C. Toombs and Janic Self and girls were in Lubbock Saturday shopping.

The Kenneth Fox family from Clovis visited Mrs. H.W. Garvin Saturday.

The Three Way basketball teams played Whiteface Friday on the home court losing all games to Whiteface.

Mr. and Mrs. S.G. Long spent the weekend in Canyon and Amarillo visiting their children.

ENGAGEMENT ANNOUNCED.... Mr. and Mrs. J.D. Wilde of Canyon wish to announce the engagement of their daughter, Tammy Sue, to Clayton Dale Ramm, son of Mr. and Mrs. Ernest Ramm of Muleshoe. The couple plan to be married March 6 at 7:30 p.m. in the Trinity Lutheran Church in Amarillo. Miss Wilde is a graduate of Canyon High School, is in the Big Brother/Big Sister Organization in Amarillo and is employed by Red Lobster in Amarillo. Ramm is a graduate of Muleshoe High School, attended West Texas University for three semesters and is now farming in the Lariat area where they will make their home.

Muleshoe Singing Group Meets

The Muleshoe Singing Group met February 7 at 6:30 p.m. in the fellowship hall of the Trinity Baptist Church. Cecil Rundell was in charge, in the absence of J.C. Shanks, who was ill.

There were 30 present, including two from Clovis and one from Farwell.

"Arrangements of quartets, duets, solos and congregational singing were enjoyed by all," said Clara

Coffman. Claud Coffman gave the benediction.

(ASR) When moisture gets into ski bindings they can rust or corrode and become difficult to adjust. But a spray of WD-40 can prevent this problem. This water-displacing product penetrates water and ice build-up to free sticky bindings and provides an effective barrier against future moisture damage. Spray bindings at the end of a ski trip, and they'll work smoothly when you're ready to ski again. The non-oily product will also lubricate sticky boot buckles and protect metal ski poles from rust. Find WD-40 in two oz., nine oz., and 12 oz. spray can sizes at sporting goods, grocery and other retail stores.

Pineapple Recipe Could Be...

Ticket To Cruise Hawaii

A glamorous, expense-paid Hawaiian cruise for two is the exciting grand prize being offered in the new Hawaiian Pineapple Cruise Contest.

Ten lucky winners will enjoy a seven-day dream holiday sailing to Hawaiian ports of call aboard American Hawaii's luxury liner, S. S. Oceanic Independence. Prizes include round-trip airfare to Honolulu.

Grand prize winners will be selected from 50 state finalists who will share \$25,000 in cash prizes. Canned pineapple recipes may be entered in any or all of the contest categories: Main Dishes, Salads and Desserts. All winners will be selected solely on the basis of their recipes.

Contest sponsors, the Pineapple Growers Association of Hawaii, have set January 15, 1981 as entry deadline. Official entry blanks and contest rules are available by writing to: Hawaiian Pineapple Cruise Contest, 747 Front Street - 4th floor, San Francisco, CA 94111.

CHOCOLATE PINEAPPLE UPSIDE-DOWN CAKE

- 1 (20 ounce) can pineapple slices
 - 1/2 cup melted butter
 - 1/2 cup brown sugar (packed)
 - 5 maraschino cherries, halved
 - 1 tablespoon sliced almonds
 - 1/2 cup sifted all-purpose flour
 - 2 1/2 tablespoons unsweetened cocoa
 - 1/4 teaspoon salt
 - 4 large eggs
 - 3/4 cup sugar
- Chocolate Whipped Cream**
Drain pineapple well. Melt 1/2 cup butter in 9-inch upside down cake pan, and mix with brown sugar. Place 1 pineapple slice in center of pan, and overlap remaining slices around it. Place a cherry

This new version of an old favorite is the type of recipe that could win you an unforgettable vacation Hawaiian cruise. While you are baking this economical and easy "Chocolate Pineapple Upside-Down Cake," dream up new canned pineapple recipes of your own to enter in the Hawaiian Pineapple Cruise Contest.

half in center of each slice. Sprinkle almonds around edge of pan. Resift flour with cocoa and salt twice, and set aside. Combine unbeatens eggs and water in top of double boiler. Set over hot but not boiling water (water should be just simmering, and not touch bottom of upper pan). Warm mixture gently, stirring constantly with a wire whisk, until mixture reaches lukewarm, about 5 minutes. Remove from heat, and beat at high speed until very thick and light, about 5 to 7 minutes. Mixture will have consistency of a soft meringue. Gradually fold in flour-cocoa mixture until no streaks of flour remain. Drizzle remaining 1/4 cup melted butter over batter, and fold in quickly but lightly. Pour batter into prepared pan. Bake in center of moderate oven (350 degrees F) 50 to 55 minutes, until cake has risen in center and springs back when touched lightly. Remove from oven and let stand 5 minutes (cake will settle slightly in center). Loosen edges with small spatula, and invert over serving plate. Serve warm with Chocolate Whipped Cream. Makes 8 servings.

Chocolate Whipped Cream: Beat 1 cup whipping cream to soft peaks with 2 tablespoons sugar and 1 1/2 teaspoons chocolate extract.

ONE MINUTE SPORTS QUIZ

1. For what sport is Satchel Paige known?
2. Who won the NBA All-Star East-West game?
3. Who won the NFL Pro Bowl game?
4. Who won the LPGA Deer Creek Classic?

Muleshoe Square Dancing

Square Dance lessons began Friday, February 6 at 8 p.m. in the American Legion Hall. "Anyone still interested in taking lessons may sign up Friday, February 13," said Don Dillard.

Harmon Wilson and his wife from Levelland, are doing the teaching.

"Square dancing is fun while you make new friends and you get exercise at the same time. Square dancing is for everyone married or single, young or old."

Square dancers are well known to have special dances for fund raising activities such as Muscular Dystrophy, schools for handicap children, Girlstown, Heart Fund and many more. Square dancing is a form of dancing that has been with us since this country was founded. It was one of the few activities that families could be together and have fun and entertainment, he added.

SQUARE DANCING....Square dancing is becoming a popular entertainment around Muleshoe. The camera caught these dancers Friday night in the American Legion Hall where lessons were being given.

RAINBOW INSTALLATION....Sally Lunsford, daughter of Mr. and Mrs. Robert Lunsford, was installed Worthy Advisor of Rainbow for Girls Monday night. She is a senior at Muleshoe High School. Other officers installed were back row from left: Tammy Nowell, Kristi Henry, Sally Lunsford, Kim Merritt, Tori Hunt, and Charlene Apple, Mother Advisor. Front row from left: Heather Merritt, Betsy Lunsford, Twilla Downing and Susan Lunsford.

Sally Lunsford Installed Rainbow Worthy Advisor

Installation of officers for Muleshoe Assembly No. 161 Order of Rainbows for Girls was held Monday, February 9 in the Masonic Lodge.

Officers installed were Mother Advisor, Charlene Apple; Worthy Advisor, Sally Lunsford; Worthy Associate Advisor, Tena Landers; Charity, Vanda Pruitt; Hope, Tori Hunt; Faith, Kristi Henry; Chaplain, Tammy Nowell; Drill Leader, Betsy Lunsford; Recorder, Susan Lunsford; Treasurer, Debra Stevens; Love, Heather Merritt; Religion, Twilla Downing; Immortality, Kristi Lan-

ders; Fidelity, Debrah Nieman; Patriotism, Janet Shain; Service, Kim Merritt; Confidential Observer, Shelley Sain and Musician, Susan Whatley.

Sally will serve a four month term and she is the 67th Worthy advisor to wear the traveling gavel necklace.

The theme of the installation was "The Rainbow" and the colors were the colors of the rainbow.

Nelda Hunt presented the installing officers, the Worthy Advisor gave the welcome and presented the guest, Mr. and Mrs. Alex Williams, Mr. and Mrs.

Alton Epting and Lee Dunbar. A past Worthy Advisor pin was presented to Tori Hunt.

Installing officer was Linda Lee; installing Marshall was Shelia Black; installing musician was Fran Hamilton, installing recorder was Kristi Henry and installing chaplain was Fran Hamilton.

Bailey County 4-H Council Meeting

The Bailey County 4-H Council met at 4:30 on January 28. Alan Harrison called the meeting to order. Kelly Harrison read the minutes from the last meeting and they were approved. Tamara Gilliland gave a report from the Y-L Club on the exchange program. A report was also given by Mandy Plank from the Muleshoe Club. Summer activities such as the county camp; a ski trip; Teen Leader Lab; Electric Camp; and the camps at Brownwood were discussed.

Also discussed were the new BB project and horticulture project. Jim Irwin announced that method demonstrations, illustrated talks, and judging teams need to be getting ready for the upcoming district contests. He also announced that some new county-wide projects are to be organized.

Members attending the meeting were Alan Harrison, Jacinda Gleason, Jimmy Gleason, Tamara Gilliland, Brenda Flowers, Glen Flowers, Mandy Plank, Kelly Harrison, Greg Harrison, and Jim Irwin.

Charles Russell King

Mr. and Mrs. Johnny King are the parents of a new son, Charles Russell, who was born at 8:40 a.m. Friday, January 30 in the Littlefield Medical Center.

Charles Russell weighed seven pounds and twelve ounces and was twenty one inches long.

Grandparents include Mr. and Mrs. Tom King, Jr. of Sudan and Mr. and Mrs. James Adair of Littlefield.

Charles Russell has a brother, Chad, who will be five years old next month.

Sherry Kay Willis

Mr. and Mrs. Richard Willis of Earth are the proud parents of a new daughter born February 8 at 12:49 p.m. in the West Plains Medical Center.

The young lady weighed 6 pounds and 5 ounces and has been named Sherry Kay. She has a sister, Crystal, two years of age.

Grandparents are Mr. and Mrs. Andy Anderson of Kerrville, Mr. and Mrs. Raymond Moore of Muleshoe and Joe Collier of Mineral Wells.

Lech Walesa, Polish independent union leader: "I will seek a sensible, realistic compromise with the government in the current confrontation..."

Study reports, homes could cost \$134,000 by 1990

COLLEGE STATION — A study prepared by the Texas Real Estate Research Center at Texas A&M University reports the average Texas home could cost \$134,000 by 1990, more foreign investors will be snapping up Texas real estate and despite rising costs the single-family, detached home is here to stay.

Compiled by university researchers, the figures show the average sale price of a single-family home in Texas at the beginning of 1980 was \$54,900. This is a 12 percent per year increase since 1976 when compounded annually. The average Texas home four years ago sold for \$34,700.

'Talent And Career Day' Application Deadline Near

February 20 is the deadline for applications for Eastern New Mexico University's Talent and Career Day to be held February 28. Official high school transcripts must be turned in for each applicant.

Eighty \$200 scholarships will be given away to high school seniors in 22 different areas of study. Tests will be given and scholarships awarded in each of the following areas: business, industrial arts, social science, dance, speech, agriculture, English, physical education, library science, technical institute engineering, modern languages, journalism and radio/TV, home economics, military science, math-

ematics, psychology, education, religion, science, drama, music, and art.

An educational inventory test will also be given on February 28 to interested high school seniors, juniors and sophomores. The test is used to measure the relative interest a student has in 22 of the major areas of study common to most colleges. Entry cards and a fee of \$2 for the test

is due by February 20.

Registration for Talent and Career Day and the educational inventory test will be at 8:00 a.m. on February 28 in the Campus Union Building at ENMU.

Save the heat! Remember that cheese is an instant food and takes very little heat to melt. If you need it for topping a hot food such as soup, vegetables or a casserole, heat that remains in those foods will usually be enough to melt cheese added at the end of cooking.

ABOUT YOUR HOME

By April Rhodes

Protect your hands by wearing gloves from chilling and chapping if you prefer hanging clothes outside in cold, windy weather.

Don't throw out glassware when a nick develops on the edge. Rub it smooth with fine sandpaper.

School...

Con't from page 1 by the board.

Following a discussion with the board, it was announced that a new head coach for Muleshoe would be named on March 5.

Plans for the dedication services to change the name of Richland Hills Primary School to Neal B.

Police...

Con't from page 1

struck one city police car at the intersection of Highway 70 and 214. However, that failed to stop the car which continued into Muleshoe.

After speeding through town, the car hit another car. Although it was believed, at first, that it was a head on crash, subsequent events proved the second vehicle tried to swerve out of the way and was hit on the right front passenger side.

The driver of the speed-ind vehicle, a 23 year old Nazareth man, was jailed on multiple charges. The driver and passenger of the second car, Mr. and Mrs. Mike Wilkinson, were taken by ambulance to West Plains Medical Center for treatment of injuries not believed to be serious. Officer Jimmy Mills, driver of the City Police patrol unit, was not injured when his car was crashed by the vehicle.

In other weekend incidents, Muleshoe City Police Chief Hicks investigated a motorcycle accident which injured one person on Sunday Morning, Sunday evening, Patrolman Julian Dominguez investigated an accident in which a four year old child was struck by a vehicle. The four year old boy was taken to West Plains Medical Center by private vehicle, then transferred to a hospital in Lubbock. He was scheduled to undergo surgery on Monday to repair a broken leg received in the accident.

Dillman Elementary School were discussed. It was decided to conduct the dedication ceremony at 2 p.m. on Sunday, March 8.

An update was presented by Superintendent Harold Horne to dispose of property acquired by the city and school due to failure of payment of taxes. It was decided to conduct a joint meeting with the city in the near future to establish guidelines and procedures for selling the property.

Reports were given on the math leveling program to be instituted in grades one through five and on the auditorium improvement project.

Current financial reports and tax collection reports were given and payment of routine bills were approved.

After considering bids on surplus equipment, some bids were accepted while other bids were rejected.

As part of the superintendent's report on school activities, the board discussed the vacancy on place three on the Education Service Center Region XVII Board of Directors. No candidates were named from Muleshoe to fill this vacancy. Also discussed were possibilities for the school calendar for the 1981-82 school year with a final decision to be made during the March School Board meeting.

ONE MINUTE SPORTS QUIZ

1. Who won the Canadian Open Golf Tournament?
2. What San Francisco Giant recently announced his retirement?
3. Who won the Pabon 500 stock car race?
4. Tracy Austin is known in what sport?
5. Who won the recent Angelo Dundee, Sugar Ray Leonard bout?

Answers To Sport Quiz

1. Bob Gilder.
2. Willie McCovey.
3. Bobby Unser.
4. Tennis.
5. Dundee, in a decision.

Hockey...

Con't from page 1 puck.

According to the organizer, "It is recommended that if you have elbow pads, knee pads, a helmet or head gear, and possibly a pillow, bring them and use them. You will also be required to bring your own broom if you plan to play. Each participant will play this game at his own risk."

He also said, "Roller hockey is a lot of fun. If enough people show interest, we will have a separate night strictly for roller hockey. This is not only a male sport, girls can enjoy it, too, if they have the intestinal fortitude."

"There will definitely be no rough housing or fast skating on the floor before 9 p.m.," he concluded.

Hospital...

Con't from page 1

nouncement, Dan Powers, manager of the hospital here commented, "We will make an extra effort to be in contact with the community, and I will be happy to talk to any civic club about the hospital."

Powers indicated he would continue to be in and out of the hospital for the next several weeks keeping close contact with the hospital personnel.

At the same time of the announcement of the new hospital administrator, Jim Swanner of Lubbock was named administrator of the Muleshoe Nursing Home. He expects to move to Muleshoe in the near future.

As nursing home administrator, Swanner will be working with Calvert and Powers.

He attended Oklahoma State University and Eastern New Mexico University, and South Plains College at Loveland where he majored in nursing home management.

Muleshoe...

Con't from page 1 a.m. 2 p.m.

At \$3.50 for adults and \$2 for children, the dinner will be homemade German sausage, homemade sauerkraut, home canned green beans, mashed potatoes and gravy, Jello salad, relish plate, two kinds of bread, hot French bread and coffee or tea.

Take out plates will cost \$3.75 and door prizes will be awarded.

Mrs. Charles Bratcher has accepted the chairmanship of the 1981 Cystic Fibrosis Spring Special Event to be held in Muleshoe.

She explained that proceeds from the fund raising event will support the research, education and care program of the Cystic Fibrosis Foundation.

Mrs. Julian (Lois) Lenau who broke her hip during a fall at her home last week, is still a patient at Methodist Hospital in Lubbock and is in room 368.

The Brotherhood of the Richland Hills Baptist Church is having a breakfast Sunday, February 15 at 8 a.m. in the fellowship hall of the church at 16 and Ave. D.

All men of the community are urged to go by for breakfast, prayer and fellowship.

The Jaycee Boss's night banquet will be held Monday at 7:30 p.m. in the XIT Restaurant. Boss of the year, Merchant of year and Young Farmer of year will be announced.

In a recent Commissioners County meeting, bids for the county depository were received and opened. First National Bank of Muleshoe was awarded the contract, for 1981-82 (two years).

A discussion was held on the purchasing of road equipment. Bids will be

taken and opened March 2.

A bill authorizing the filing of County Court records was passed. These will be placed in a vault for protection in case of fire.

Dance...

Con't from page 1 during the evening.

Leal's Mexican Food restaurant will give two special dinners: Dairy Queen is giving two hamburgers, two french fries and two medium drinks; Pizza Hut contributed one medium pizza and Corral Restaurant will give a gift certificate for a chicken fried steak dinner.

Also to be presented will be four boxes of Valentine Candy, which were contributed by the Muleshoe Area Youth Activities Committee.

All the prizes will be given through ticket drawings during the disco.

Tax...

Con't from page 1

of the 10 percent gross receipts tax charged on mixed drinks sold within their boundaries.

He said 213 counties and 367 cities would receive rebate checks.

The state will pocket more than \$18 million from mixed drink taxes from the October, November and December period.

During 1980 the state's share of mixed drink taxes totaled \$67.7 million. City-county rebates totaled \$27.7 million.

The tax, which was authorized under the law that legalized the sale of mixed drinks in Texas, is collected by the Alcoholic Beverage Commission

Texas Refining

Volumes Reported

Sixty four refineries in Texas processed 131,128,495 barrels of crude oil and hydrocarbon blends during September 1980, according to their reports to the Railroad Commission.

This volume compares with 136,830,056 barrels in the previous September, the Commission's Administrative Services Division reported in its monthly recapitulation of Texas Refinery operations. Inputs of crude oil and blends totaled 124,225,962 barrels in August 1980.

Texas refineries ran 106,387,971 barrels of

Cotton...

Con't from page 1

Japan, 43,000.

China's total commitment for the season is 1,542,000 bales. Strong sales of 1,900 bales were for 1981-82.

Exports of 179,200 running bales of upland cotton during the week brought the season's total commitments to 5,102,300.

The U.S. Department of Agriculture has announced that CCC non-recourse upland cotton loans that mature on or after February 28 can be extended through October 31. Applicable average spot market price for January was 85.11 cents per pound, 127 percent of the average price for the preceding 36 months. Under current law a loan can be extended in its tenth month if the average does not exceed 130 percent.

crude oil in September compared to 113,103,867 barrels in September 1979 and 101,397,807 barrels in August 1980.

Products manufactured in September 1980 totaled 131,429,981 barrels, down from 136,270,653 barrels in the same month the previous year, and up from the 123,377,633 barrels in August 1980.

September 1980 manufacture of motor gasoline totaled 47,512,045 barrels, compared to 53,588,762 barrels in the year earlier month and 49,094,357

barrels in August of 1980.

Texas refineries manufactured 9,231,141 barrels of home heating oil in September 1980 -- a decrease of 1,042,141 barrels from the year earlier volume. August 1980 output was 8,359,247 barrels.

WASHINGTON -- A former Nazi death camp guard who has lived in this country for 31 years must be stripped of his U.S. citizenship, the Supreme Court ruled recently. The justices said 73-year-old Feodor Fedorenko "illegally procured" his U.S. citizenship in 1970 because he lied to immigration officials when entering the country in 1949.

Public Notice

On January 5, 1981, Bailey County Electric Cooperative Association filed with the Public Utility Commission of Texas an application for a tariff revision to increase the cost relating to contribution in aid of construction. This is a revision of the Cooperative's "Line Extension Policy". It separates charges of contributions in aid of construction for aerial and underground lines. It increases the charge for single phase aerial line from \$1.60 per foot to \$1.70 per foot. It increases the charge for single phase underground line from \$1.60 per foot to \$3.70 per foot. It increases the charge for three phase underground line from \$2.00 per foot to \$3.70 per foot.

This revision is applicable to all classes of service except residential. Applicant serves 3,377 total customers, excluding the residential class. Applicant serves in all of portions of the following counties: Bailey, Castro, Cochran, Lamb and Parmer. The conditions under which contributions in aid of construction are required remain the same, only the rate per foot is changed.

Protests to or motions to intervene may be filed with the Public Utility Commission of Texas. On January 13, 1981, the Public Utility Commission of Texas ordered the Cooperative to suspend this increase for 120 days and further ordered that the substance of the Cooperative's application be published as required by PURA, Section 43 (a).

100 GOOD REASONS FOR INSTALLING GAS AIR CONDITIONING NOW!

1234567891011121314151617181920

 858687888990919293949596979899100!

A \$100 FACTORY REBATE

Install Gas Air Conditioning now, and you'll not only be cool the first day this spring... you'll save a cool \$100! Buy before May 1st and you'll receive a \$100 rebate direct from the factory... plus you can defer monthly payments until May, too. But \$100 and deferred payments are not the only reasons for installing Gas Air Conditioning.

Gas Air Conditioning Systems are very energy efficient. They now use less gas energy because the constantly burning gas pilot has been replaced with a new pilotless ignition system. Pilotless ignition saves gas, and saving gas will save you money.

Gas Air Conditioning is also very dependable. It's built to last and last with no loss of cooling capacity. Hand-crafted of sturdy stainless steel components, Gas Air Conditioning has fewer moving parts and no compressor to wear out or break down. That means less wear and lower maintenance costs. And to prove its dependability, Gas Air Conditioning gives you the longest warranty -- the 10-year "No Sweat" limited warranty** -- twice as long as all others.

Gas Air Conditioning. It's energy efficient. It's designed to lower maintenance costs, to lower operating costs. Gas Air Conditioning will save energy and that will save you money. And when you combine Gas Air Conditioning with adequate conservation measures, like caulking, insulation, storm doors and windows, you'll save even more.

But don't wait too long. The \$100 rebate ends May 1, 1981. Call now for a free home cooling survey and cost estimate. There's no obligation.

**Manufacturer's limited warranty covers all defects in material and workmanship on the sealed refrigeration unit for ten years from date of installation of the air conditioner when it is installed in a single-family residence. All other parts are warranted for one year from date of installation.

The Scientists Tell Me . . .

Control Grassburs in Lawns With Herbicides and Management

By Robert L. Haney
TAES Science Writer

Last year's drought may aggravate the grassbur problem in lawns for many homeowners this year. Where drought-weakened lawns got some late spring and summer rainfall, grassburs are doubly bad, according to Dr. Richard L. Doble, Extension Turfgrass Specialist at Texas A&M University.

Grassburs are commonly found in open fields and meadows where competition from other plants is not great; they are rarely found in a dense, vigorous turf.

Lawns damaged or weakened by insects, disease, drought or wear are susceptible to invasion by grassburs.

The seed (burs) for this pest may lie dormant in the soil for several years until environmental conditions favor germination, Doble says, or the seed may be carried in by birds, small animals or people.

Once they get started, where there were only a few plants one year, there may be hundreds of grassbur plants the following year.

All the grassbur needs to become a problem is a weak turf and favorable moisture conditions during the late spring and early summer. The plants may go unnoticed most of the summer but once burs develop, they're unavoidable.

Close mowing and catching the clippings will improve the appearance of the lawn and reduce seed for next year but enough burs will remain to reinfest the lawn for several years.

It takes a good management program to eliminate grassburs, Doble says.

Pre-emerge herbicides applied in the spring for crabgrass control before emergence of the grassburs has been shown to reduce grassbur populations according to research done by the Texas Agricultural Experiment Station.

Herbicides or fertilizer-herbicide (weed and feed) combinations containing benefin (Balan), DCPA (Dacthal), oxadiazon (Ronstar) or simazine are effective against the grassbur if the

timing and rate of application are correct. As for all pesticides, follow label instructions to the letter.

In bermudagrass lawns, post-emerge herbicides can be used for grassbur control.

Products containing one of the organic arsenical herbicides such as Ortho's Crabgrass Killer, Diamond Shamrock liquid DSMA and Amchem's Weedone Crabgrass Killer can be used for post-emerge grass-

bur control in bermudagrass lawns but label instructions must be followed for effective control.

Always keep in mind that herbicides only provide a temporary solution to the grassbur problem. Double cautions.

A healthy, vigorous turf is the ultimate solution. Regular mowing, proper fertilization and watering and pest control are all required for satisfactory control of grassburs.

Fertilize lawns in the spring and summer to promote desirable grasses. If the grassburs are already established in the lawn, fertilization will stimulate them as well as the desirable grasses.

But a more vigorous turf will reduce the grassbur population the following year. Late fall fertilization, after grassburs have matured, is worthwhile.

Water lawns as needed to maintain a complete turf cover since thin turf is more susceptible to invasion by grassburs.

Avoid light, frequent watering which keeps the soil surface moist and is ideal for weed seed germination. Instead, water lawn thoroughly and infrequently to promote deep-rooted grasses.

Control insects and diseases that may weaken the lawn grasses, Doble says. St. Augustine Decline (SAD) is a serious problem since there is no chemical control at present for the disease. Resistant varieties, such as Floratam released cooperatively by Experiment Stations of Texas and Florida, may be planted in the lawn to help reduce this virus disease.

In summary, the best system for controlling grassburs is to use the right herbicides, good fertilization, and control of disease and insect problems, Doble concluded.

TO BOOST PRICES
DETROIT -- Ford Motor Co. boosted 1981 sticker prices an average of \$85 for passenger cars, following the General Motors Corp. Chrysler declined to hike prices again, but said cost pressures probably would force increases in the future.

CAPITOL UPDATE

John Tower
U.S. SENATOR for TEXAS
142 RUSSELL OFFICE BUILDING
WASHINGTON, D.C. 20510

During the past few decades, we Americans have witnessed the steady, painful growth of our federal government. It has curtailed our freedoms, wreaked havoc on our economy and changed many aspects of the way we conduct our lives both at work and at home.

President Reagan has gotten off to a fast start, and I applaud his moves to show that he is serious in his efforts to put government in its place.

Within minutes of taking the oath of office, he has imposed a tough federal hiring freeze.

He has ordered cuts in government spending on travel and ended the constant round of office redecorating that always seems to be underway in Washington.

And he has vowed to attack federal red tape by naming Vice President George Bush to head a task force to study ways we can thin out federal regulations on businesses and individuals.

This new hiring freeze shows promise of being more effective than those imposed in the past, which often fell victim to the momentum that has built up within the federal bureaucracy. The new Administration's hiring freeze could reduce the number of federal workers by 6 percent a year.

And the President's efforts to trim government spending on travel and the use of outside consultants could create an additional savings to the taxpayers of up to \$300 million in this year alone.

Along with the growth of the federal bureaucracy has come a corresponding growth in federal regulations and the President made the dramatic decision to halt action on all pending federal regulations for 60 days.

There is a clear and urgent need for such a move, especially in light of bushels of last-minute regulations promulgated in the last days before the arrival of a new Administration.

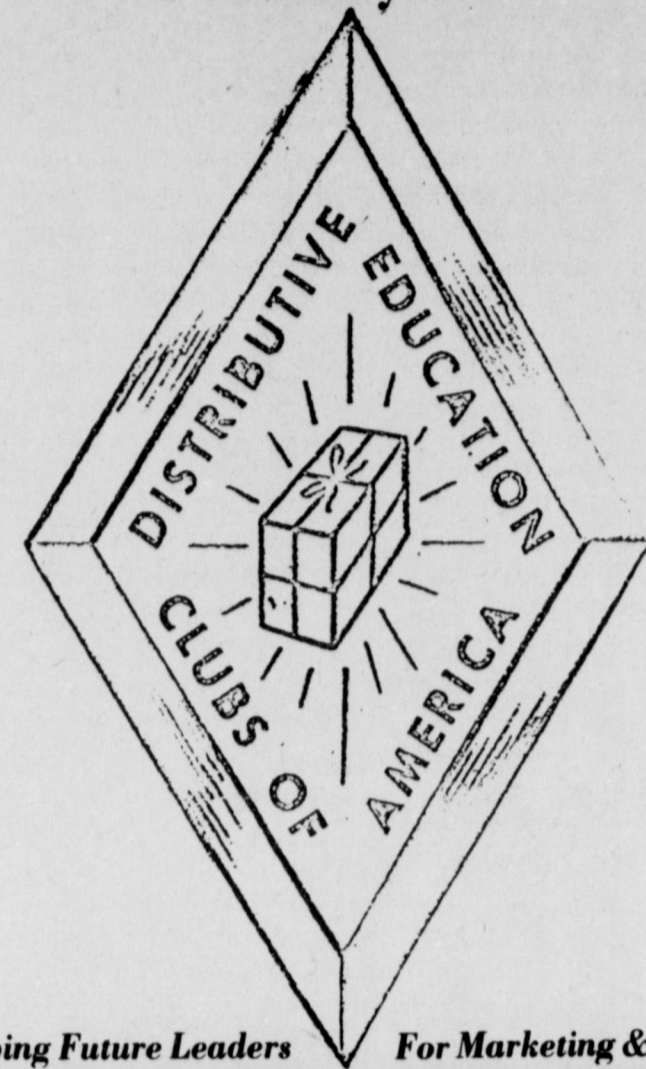

This freeze on implementing new regulations will allow the Administration to take a careful look at what needs to be trimmed.

I also believe we can expect a rejection of past attempts at regulatory reform through the addition of even more paperwork that accompanies the establishment of agencies created to review other agencies.

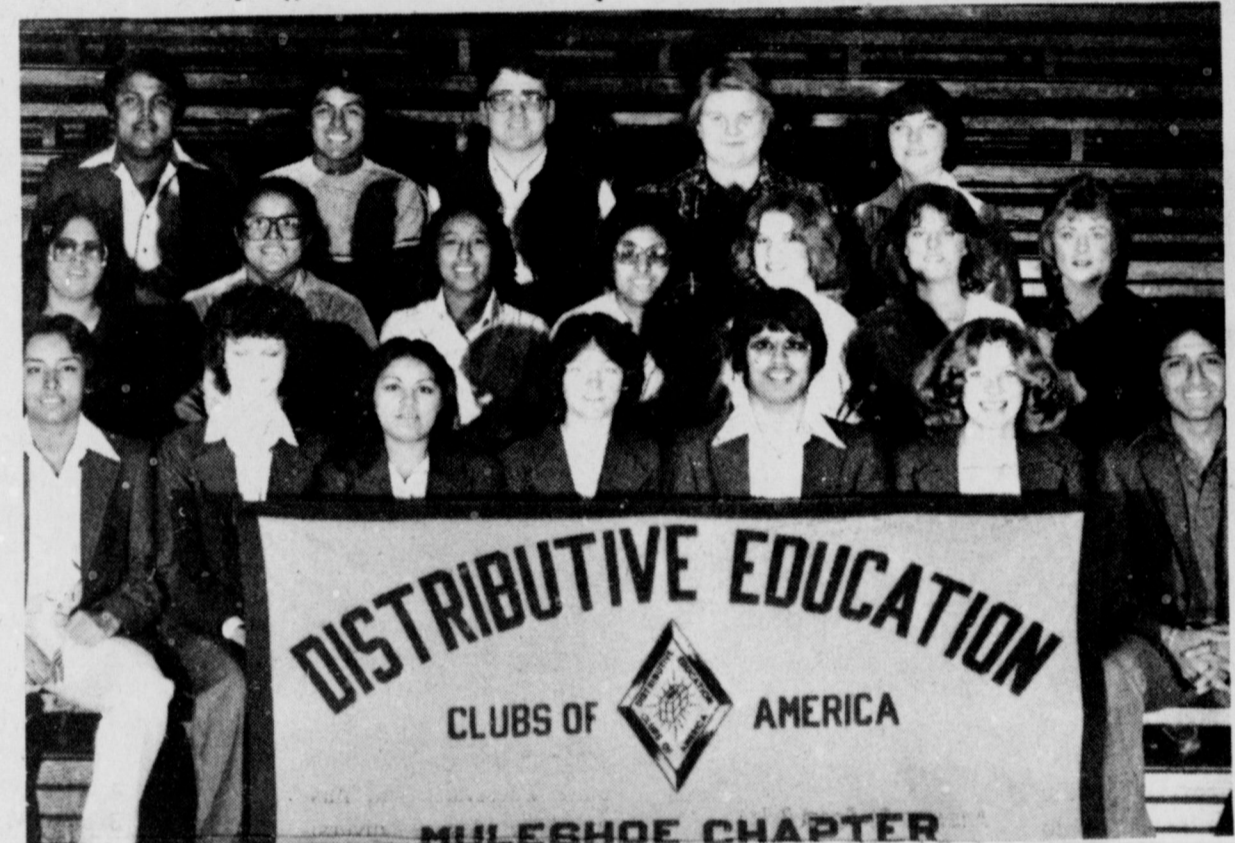

And I expect a new approach to be taken in analyzing new regulations. I hope that the current system will be replaced by one that will limit new regulations on those where benefits exceed the costs. At the very least agencies should be able to prove a reasonable relationship between the costs they impose and the benefits they anticipate.

Cotton Conference Faces Challenges

Challenges facing cotton producers in the 1980s will be examined in Lubbock February 17, 19 during the five-state Western Cotton Production Conference.

The challenges will range from political policies and marketing opportunities to production techniques, financing and textile trends. Dr. James R. Supak, area cotton specialist with the Texas Agricultural Extension Service, said. Supak is program chairman for the annual conference.

The program will draw cotton producers and industry representatives from California, Arizona, New Mexico, Texas and Oklahoma. It is co-sponsored by the Southwest Five-State Cotton Growers Assn. and the Cooperative Extension Services of Texas, New Mexico, Arizona and California. General chairman is Joe. D. Unfred of New Home, president of the Plains Cotton Growers.

The conference at the Hilton Inn will open at 8:25 a.m. February 17 with an analysis of the world outlook for cotton by Dr. Arlie Bowling, senior economist with the National Cotton Council, Memphis.

The Reagan Administration's viewpoint on agriculture, especially on cotton, will be presented by a yet-to-be-named spokesman.

Farm financing during the decade will be projected by Lloyd Cline of La-

mesa, cotton producer and president of the First National Bank Lamesa. One of the industry's major concerns for the '80s byssinosis or brown lung disease, will be discussed by Dr. I.W. Kirk, acting director of the U.S. Department of Agriculture-Science and Education Administration southern regional research center at New Orleans.

Carl Weiler of Laveen, Arizona, chairman of the producer steering committee of the National Cotton Council, will report on farm programs for the 80s. Trends in textile and

DeControl Viewed As U.S. Security

Texas Railroad Commissioner Mack Wallace challenged the oil industry to demonstrate to the American public its commitment to all-out domestic energy production as a result of decontrolled crude oil prices.

"If we are going to be paying 5-15 cents a gallon more for gasoline, then the American public is entitled to have that money spent on exploration and drilling right here at home," Wallace said.

Wallace, the senior member of the Railroad Commission, said he views the removal of artificial price controls as an "investment in our national security."

He said, "I have long been an advocate of decontrol. I believe it is best for the country."

"To me, it has nothing to do with oil company profits," said Wallace. "The salient issue is the security of our country. It is therefore incumbent on the petroleum industry to put these new investment dollars into an all-out energy exploration and production program here on our continent."

Wallace said American

fashion production which will affect cotton will be discussed by Becky Saunders, area clothing specialist with the Texas Agricultural Extension Service.

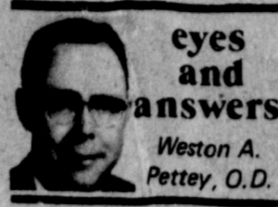

Other sessions will focus on irrigation efficiency, weed control, cottonseed and lint quality, hybrids and varietal improvements and insect management.

A panel of Texas growers will discuss their experiences in production planning and cost projection. Panelists will be Larry Shaw, Big Spring; Rudy Halfmann, Garden City; S. M. True, Plainview, and Marion Bowers, Seminole.

A panel of agricultural consultants and producers will discuss managing insect problems on the farm. On this panel will be con-

sultants Olan Moore of Dimmitt and Dr. Jerry Coakley of Altus, Oklahoma, and growers Ronald Groves of Cotton Center and Morgan Nelson of Roswell, N.M. Moderator will be Dr. James Leser, Extension area cotton entomologist, Lubbock.

The final morning of the conference will be a tour of the Textile Research Center at Texas Tech University, led by Dr. James Parker, director of the center.

eyes and answers
Weston A. Petty, O.D.

EFFORTS TO SEE BETTER

Dear Dr. Petty: My nine-year-old son makes fairly good grades except in his reading subjects. I notice he leans his head against his hand covering one eye while at his study table trying to read. Could he be having an eye problem?

Yes. The two symptoms you mention—poor grades in reading subjects and covering one eye while trying to read—especially indicate possible visual disturbance. He could be having trouble using his two eyes together seeing at the same point, causing a tendency to see double at reading distance.

It may be that focusing in the covered eye is poorer and by covering it, all available nerve energy is thrown to the other eye, allowing better focusing.

Or, focusing in both eyes could be poor and, unable to get a clear image, he covers one eye in order to see more clearly. Then there are a few young patients who tell us they have always crossed one eye purposely in order to see a printed page; when they don't, the print is blurred. That way, they do not have to cover one eye. They usually like to demonstrate for the doctor!

These are only a few of the possible causes. Your son's eyes should be examined by a doctor who places special emphasis on tests for reading vision.

Wallace said, "I think the American public wants to hear the drill bits turning in America."

"No less that the security of our nation is at stake," he said.

New Textbooks To Be Adopted For Education

The State Board of Education has issued a special textbook proclamation calling for supplementary materials which emphasize the intensive phonics approach to reading.

The supplements, an adjunct to the newly adopted textbooks in reading for grades one through three, will include both English language and bilingual (Spanish) materials; the call for supplementary materials is authorized under textbook legislation passed during the 65th session of the Texas Legislature in 1977.

Supplementary materials for basal readers, grades 1, 2, and 3, either hard or soft covers, will provide a structured intensive phonics program consisting of a sequence of skills and appropriate context in which skills are taught, practiced, reinforced and refined. The Textbook Committee will recommend no more than five supplementary materials in each grade.

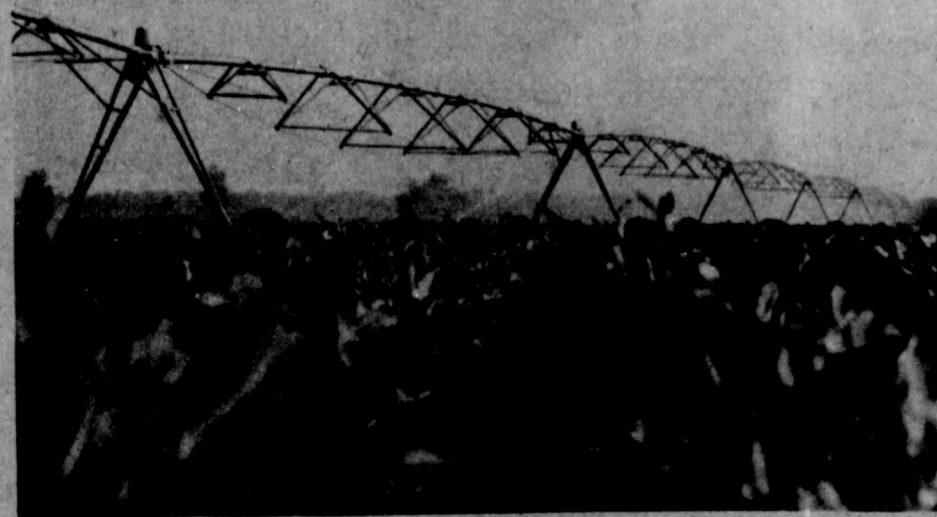

Spanish reading supplementary materials that emphasize the phonics approach will provide a basic sequence of phonics skills that are developed from the simple to the complex.

Supplementary materials may be examined Monday through Friday from 8 a.m. to 5 p.m. at the Regional Resource Center, second floor of the Education Service Center, 4000 22nd Place, Lubbock.

March 6 is the last day petitioners may file protests on content, all protests must be typed, an original and two copies, signed and filed with the Commissioner of Education in Austin.

Commissioner Alton O. Bowen and the State Textbook Committee will hold a joint public hearing on the proposed supplementary materials April 10, 1981 in Austin.

With energy costs zooming just any center pivot won't do.

The whole equation changes. The few hundred you can save buying a cheaper pivot can be eaten up in the first year by rising energy costs alone. That's why the right match-up of power, pipe sizes and pressure can make all the difference in the world.

At Valley, we have the latest technology. We'd like to talk to you and show you before you buy any center pivot. Because just any center pivot won't do, especially if rising energy costs are a concern.

Valley dominates the field.

American Valley Inc.

W. Hwy 84

STATE CAPITAL HIGHLIGHTS

By Lyndell Williams
TEXAS PRESS ASSOCIATION

AUSTIN—One month after opening day of the new Legislature, bill action is rapid in the Senate and practically nil in the House... all because of a new tactic not seen at the Capitol since the 1930s.

The House has prevented itself from voting on any bills (other than emergency bills designated by the Governor) by refusing to lift a Constitutional provision which previous Legislatures lifted as a matter of tradition.

It is a confusing and complex strategy which has left many lawmakers and on-lookers scratching their heads.

Four-Fifths Rule

The Texas Constitution provides that the first 30 days of the session shall be devoted to the introduction of bills and the next 30 days devoted to committee hearings. Except for the governor's emergency bills, the Legislature is constitutionally prohibited from voting on any bill during the first 60 days of the session.

The kicker is this: the Constitution allows either house to override the above provisions by "an affirmative vote of four-fifths of its membership."

In every Legislature since the '30s, the members have mustered the necessary 120 "ayes" to allow them to begin voting immediately... but not this time.

Reform-Minded Session?

This session a small group of Democrats and Republicans banded together on the second day of the session to keep the Constitutional provision intact. The press immediately tagged the group "The Terrible Termites," after a lobbyist complained they were gnawing away at Speaker Bill Clayton's power.

Since only 31 members are needed to keep up the strategy, it is most likely that the House will not fall into its regular rhythm until after the first 60 days. Reminiscent of the old "Dirty Thirty" days, a dissident minority is, at least for now, controlling House action.

Ramifications of the strategy are many, and probably includes some twists which the Termites did not foresee.

Clayton Stalled

The primary intent was to stall House Speaker Clayton, who in his previous three terms as gavel-wielder has steered his favorite legislation to early passage. By delaying the appointment of committee chairman for three weeks, Clayton had played on desire for those political plums to muster votes for his issues. This session Clayton named committee chairmen a week earlier than previous sessions, but his issues are still pending.

And that's all he's getting

for now. However, when the 60-day deadline rolls around, Clayton will be back in control of bill action in the House... and friend and foe alike will concede that the Speaker's knowledge of procedure is probably as vast as any legislator who has ever served in that chamber.

Clements Rolls On

The man who is taking advantage of the Termites is wily Bill Clements, the governor who wants to turn Texas government farther to the right.

By simply declaring a bill "an emergency," Clements can authorize any bill for early consideration in the House. Until the 60-day deadline, Clements is the first gatekeeper for House bill action and it has enhanced his position. Legislators seeking immediate action on their pet projects must curry favor from the Governor, who is hardly known as a soft touch. While it is not absolute or permanent, this special leverage for Clements is definitely to his advantage.

Rock, Hard Place

The second gatekeeper is still Clayton, but the Termites have put him between a rock and a hard place. If they persist in their stalling action, Clayton is weakened in his dealing with Clements. Yet the Termites are unlikely to give up their ploy un-

less Clayton deals over certain concessions to them, not his wont.

Clayton is a conservative Democrat, and despite the recent Brilb woes, he is given good odds to continue his political career. A courageous, intelligent man, Clayton may well stand now at the cross-roads of his political life.

He is the epitome of the conservative Democrat in Texas, which may be a dying breed if the state continues to polarize politically. As the Republicans and moderate-liberal Democrats grow in strength, Clayton's middle ground may be eroding from under him. If he is to run for higher office, Clayton could conceivably switch political parties beginning this session with concessions to the Republicans. He is already accused of getting along too well with the GOP.

Friends close to Clayton believe he is too loyal a Democrat to change, and his political footsie games with Republicans stems from a genuine concern to help all Texans. But can Clayton make peace with the liberal faction, led by Rep. John Bryant of Dallas, which has offered him only headaches?

The burden is not just on his shoulders. Clayton is a wealthy man who could retire with pride for his political accomplishments, if so chosen.

The Sandhills Philosopher

Editor's note: The Sandhills Philosopher on his Johnson grass farm on Sandy Creek examines the question of whether court trials should be televised.

Dear editor:

Some public officials are worried over the Supreme Court's ruling that the televising of court trials excusing the Supreme Court itself, where cameras won't be allowed. It's hard to tell whether barring cameras from the Supreme Court is sound Constitutional interpretation or just expert programming, as what goes on there generally is pretty dull and wouldn't have much audience appeal.

But it's the televising of ordinary trials, especially criminal trials, that the debate is about.

Some say that if you're the judge, a lawyer on either side or a member of the jury, the fact that you're on television will influence you, one way or another.

"The accused won't get a fair trial," some defense lawyers say. This is an odd argument. Most defense lawyers' aim isn't fairness it's a not-guilty verdict. An ounce of technicalities beats a pound of fairness. However I don't go so far as the citizen who claimed defense lawyers consider all their clients innocent until proven broke.

On the other hand, take the case of a man whose occupation is robbing banks. I can see how he'd object to having his trial televised, with his picture

going out all over the country. It'd ruin his professional career. Even if his lawyer got him off scott free, every time he walked into a bank some teller would step on the alarm button. Of course he could avoid this by banking by mail, but it's hard to rob a bank by mail.

Taking a broader view of the matter, I don't see how televising trials will affect justice. Televising those Congressmen taking bribes hasn't affected Congress. It goes right on raising the debt ceiling whenever it's handy.

Yours faithfully,
J.A.

Senator Bill Sarpalius Reports

AUSTIN -- We who live in this part of the state have a lot to be thankful for. We have a strong economy, with mineral and agricultural wealth. We have some of the best and friendliest people in the world.

But one of the problems we seem to have had is representation. Washington is a long way away for a large part of the country, so we have no monopoly on that Capitol. Austin seems a long way away for us, too—probably farther away from us than for any other Texans.

Very few people can afford the time, trouble and money it would take for them to go to Austin during the legislative session. Most of the time such an inconvenience would be too high a price to pay for representative government. That is why we have set up a mobile office; we intend to bring state government to you.

What we will do is send a van converted to a mobile office with our representative to every town in the 31st Senatorial District. Manning the mobile office will be Henry Honea.

Henry has lived in our district all his life and is concerned about the problems we face.

The mobile office will visit every major town in the entire 26-county district at least once a month and will visit every town in the district at least once every two months.

The main purpose of the mobile office is to bring state government to you. The mobile office will have literature from various state agencies, and it will give you the opportunity to express your opinions and ideas, and to register complaints regarding issues affecting state government.

We already have worked up a complete schedule of the mobile office through May.

The Speaker Reports

by Bill Clayton

AUSTIN—During recent years all law enforcement officers have suffered because of a few isolated incidents where officers have been found guilty of acts of brutality against individuals in their custody. Unfortunately, a few bad apples have left a bad taste in many mouths. This is unfair to the majority of law enforcement officers who have rendered years of dedicated service to our state and communities.

Yet, these isolated incidents have opened our eyes to problems in our law enforcement programs that need to be addressed. One glaring inadequacy discovered is the lack of modern, written rules and procedures for officers to follow.

In 1978 the Texas Advisory Commission on Intergovernmental Relations (ACIR) did a survey which revealed that approximately 50% of local law enforcement agencies in our state do not have written rules. Therefore, the commission appointed a committee which included police chiefs from both large and small cities, constables, sheriffs, defense attorneys, state legislators, representatives from LULAC, NAACP, the Attorney General's Office, and others to work together in forming a manual to assist local law enforcement agencies in writing rules or in updating their present rules.

The resulting guidebook,

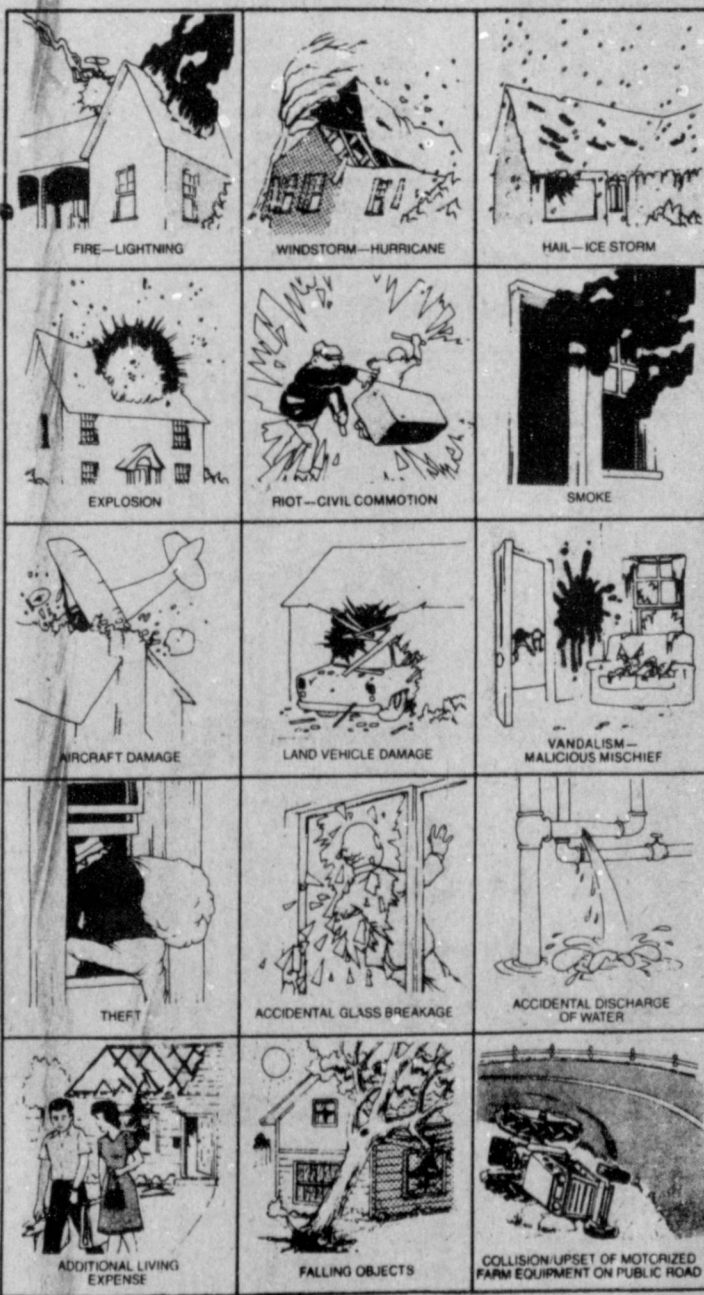

A Resource Manual on Police Discretion and Rule-making, reflects current statutory and case law as well as modern police procedure. Some of the sections deal with domestic disturbances, use of force, arrest without a warrant, warrantless search and seizure, stop-and-frisk, handling rape cases, emergency driving and child abuse.

The manual provides "model rules" that have been carefully researched by the committee and which set high standards for law enforcement. It is important to realize that none of these "model rules" are operative unless they are adopted by particular agencies. Local administrators can examine the "model rules" and adapt them to the individualized needs of their departments.

The feedback on this manual has been favorable. I believe that the groundwork laid by the manual can be of great benefit if only the local departments will now follow through and tailor the rules for themselves. The goal is to have no gray areas regarding correct procedures in the performance of law enforcement duties. The ultimate results will be confident, respected law enforcement officers and a safer environment for all of us.

With all our talk about charity and helping our fellow man, few of us ever hurt ourselves by generosity.

Nursing Home News
By Joy Stancell

Thursday afternoon C. W. Wilhite, Wayne Marlow, and Maud Kersey came to play 42 and dominoes with the residents. Residents participating were Ora Roberts, Alma Henley, Russ Duncan, Bertie Hendrix, Charlie Garth, Marie Engram, Grace Kemp, and Argilee Millen. Popcorn was served to the players and the residents watching the game.

Friday at noon the Nursing Home hosted a special dinner for the residents. The dining room was decorated in a winter theme. Hamburgers and home made ice cream were served.

Sunday afternoon, the Calvary Baptist Church came to sing to the residents. Residents attending were Lura Northcutt, Maggie London, Bulah Connell, Ora Roberts, Archie Scarlett, Marie Patton, Dottie Wilterding, Russ Duncan, Charlie Garth, Alma Henley, and Marie Engram.

Tuesday Mrs. Scoggin brought the members of Jr. High Student Council to decorate the Nursing Home for Valentine's Day.

Friday the Muleshoe Home Ec (FHA) Department came to decorate for Valentine's Day. We really appreciate both groups for coming.

Friday afternoon the JOY Choir from the First Baptist Church came to give a devotional to the residents. Songs were sung. C.W. Wilhite shared his thoughts and feelings and read Bible verses to the residents. Refreshments of home made cookies and punch were served to all.

The Spudnut Shop brought spudnuts to the Nursing Home Tuesday. We thank them for this.

Glenda Jennings, Bro. Louis Crenshaw and Ann Hall from the Lazbuddie Methodist Church came

Wednesday afternoon to have a sing-a-long with the residents. We had a good number of residents and visitors to attend. We appreciate them attending.

Marie Engram was visited by Stacey Campbell, Wilma Waddle and Ruby Garner.

Maggie London was visited by her son, Ronald London.

Sena Buhrman returned to the Nursing Home Monday after being hospitalized. Welcome back Mrs. Buhrman.

Birdie Phelps was visited by her son, Bernard Phelps Tuesday.

Orpha Bartley is visited almost daily by her daughter and husband.

Edith Bruns was visited by Les, Ruth, Don and Francis.

Ruby McCamish was visited by two of her sons and her daughter, Barbara.

Mrs. Josephine Wenner was visited by Lonnie and Nelda Merritt, Delter and Ralph Wenner, and Doris Ashford.

February 8, Tonya Pool and baby girl, Rosemary Franco, Rachel Hodges, Roberta Kyrk
February 9, Bertie Nickels, Betty Doshier

We have a new resident. He is John Inman. He was born March 6, 1913. He is a Baptist. He is in room 89. Welcome Mr. Inman.

Kelton Services Held Tuesday

Funeral services for Omer D. Kelton, 72, were held at 2:30 p.m. Tuesday in the First Baptist Church of Muleshoe with Rev. J.E. Meeks, pastor, and Rev. Bob Dodd of the Muleshoe Baptist Church, officiating. Interment was in the Muleshoe Cemetery under the direction of Ellis Funeral Home. Kelton died Sunday at 2:30 p.m. in the Methodist Hospital in Lubbock.

Kelton was born November 6, 1908 in Stigler, Oklahoma. He moved to Muleshoe in 1928 from Stigler. He married Alice Mae Lowery, July 2, 1947 in Amarillo. He was a farmer, a member of the First Baptist Church of Muleshoe, a member of the American Legion and a veteran of World War II serving in the U.S. Army.

Survivors include his wife, Alice Mae; two daughters, Mrs. Elva Weaver of Sweetwater and Mrs. Loyce Lott of Haywood, Oklahoma; one son, Richard of Lubbock; his mother, Mrs. Sarah Kelton of Muleshoe; two sisters, Mrs. Mamie Province and Mrs. Dessie Perkins both of Muleshoe; eight grandchildren and one great grandchild.

ON ECONOMY
A key barometer of the nation's future economic health fell 0.8 percent in December, while the productivity of U.S. business and industry declined in 1980 for the third straight year, the government reported. However, economists cautioned against any reading of the figures as an indication that a new recession was in the offing.

ON SOCIAL SERVICES
Secretary Richard S. Schweiker said recently he will make "cuts with compassion" throughout his Department of Health and Human Services, including its massive entitlement programs. He did not specify where the cuts would be made or how much would be cut, but he emphasized that no area is immune.

Wilson Drilling Named Dealer For Heat Pump

Wilson Drilling Co. has been named an exclusive franchisee for the National GeoThermal heat pump systems.

Stanley Wilson, president of the firm says the heat pumps can save residents of the Texas Panhandle, South Plains, and Easter New Mexico up to 75 percent on their heating bills and up to 30 percent on their cooling bills.

Wilson Drilling Co. has been drilling water wells, doing pump installation

service, doing electrical work, and installing water treatment equipment in this area since 1965. The firm has approximately 14 employees.

Guiford Miller, president of National GeoThermal, welcomes Wilson Drilling Co. to its growing family of franchisees.

A ground water heat pump can heat and cool your home inexpensively. The system doesn't create heat, it transports heat from the ground water to your home. To cool, it

transports excess heat from your home to the shallow ground water.

Nationa GeoThermal and Wilson Drilling Co. believe ground water from wells is the fuel of the future. National GeoThermal principals have accumulated over a century of experience in the ground water and heat pump fields.

Stanley Wilson, D.W. Puckett, Mickey Wilson, David Faver and Art Mann completed National GeoThermal's week long dealer training school in mid

December. The intense training encompassed actual heat pump installation heating, cooling, load sizing, duct work, and marketing.

"National Geo-Thermal ground water source heat pump systems are the most advanced on the market today," Wilson states. Wilson Drilling Co. is proud to be associated with them.

Badge Of Office
A lot of the wrinkles in a business man's face are trade marks.

-World, Tulsa.

Students develop exotic food products

COLLEGE STATION — Chances are you'll never taste pickled prickly pears as a garnish on your hamburgers, or mesquite bean jelly, fried chips

made from grain sorghum, jalapeno-flavored candy or maraschino plums.

These are a few of the food product innovations that have been developed by a senior-level food sciences and technology class at Texas A&M University. While they are not available on supermarket shelves, that doesn't mean they aren't delicious.

MANURE

FOR FARM LAND

Feedyard Manure Excellent Fertilizer

The Hereford Brand Wednesday, October 15, 1980

AMARILLO—Feedyard manure, long recognized as a valuable organic fertilizer, now is a better buy than ever," says Dr. B.A. Stewart, USDA soil scientist at the Bushland Research Center. "This is because recent tests show that manure contains more phosphorus (P2O5) than previously thought and because of the increasing cost of phosphorus fertilizer."

In tests conducted through the extension service of Texas A&M University, scientists found that 10 tons of manure contains 268 pounds of nitrogen; 243 pounds of phosphorus; and 363 pounds of potassium.

"Compared with anhydrous ammonia at \$150 per ton, the value of nitrogen in 10 tons of High Plains feedyard manure is approximately \$23. The value of phosphorus (P2O5) is about \$60, although most soils don't need this much phosphorus," says Dr. Stewart.

Besides these primary elements, manure contains calcium, magnesium, iron and zinc that are not found in most chemical fertilizers.

Application of feedyard manure to farmland also adds organic matter, according to Dr. John Sweeten, extension agricultural engineer. "Continued application of manure at the rate of 10 to 15 tons per acre can favorably affect soil physical properties, such as water intake rate and water holding capacity—as well as improved soil structure," Sweeten said.

Manure also offers soil protection from wind erosion. "In Kansas experiments, application of feedyard manure at the rate of 15 tons per acre reduced wind erosion by 80 percent," Sweeten says.

All of this adds up to improved yields from fertilizing with feedyard manure.

Research by Dr. Aubrey Mather of the USDA Research Center at Bushland indicates yields of corn and grain sorghum are often as good, or better, utilizing manure instead of chemical fertilizer.

In one study, grain sorghum yields averaged over a five-year period 6,840 lbs. per acre with a 10-ton-per-acre manure application, compared with 6,410 lbs. per acre with chemical fertilizer. Yields with manure applications of 30 tons per acre were 4,460.

In comparisons of corn silage yields over three years, yields with 10 tons per acre with 21.7 tons per acre, compared with 21.8 tons per acre with chemical fertilizer applications.

Commercial application of feedyard manure can be as varied through feedyard members of the Texas Cattle Feeders Association.

- Deluxe suspension seat;
- Horn;
- Engine side shields;
- Articulation indicator;
- Two lights with stop
lights and tail lights;
- Two front and rear work
lights;
- Turn signals with emer-
gency flashers;
- Complete vandalism
protection;
- Operating weight must
be a minimum of 30,000
lbs.;
- To be equipped with a
scarifier.

Bidder must provide one
year factory warranty.
As part payment Bailey
County will offer to trade
in:
One (1) used 1966 model
Caterpillar motor grader,
Serial #89G787

The balance of the pur-
chase price will be paid by
Bailey County.
Bidders are requested to
bid on both an outright
trade price and a lease
purchase price basis, and
are also invited to submit
total cost bids.

For further information,
or to inspect trade in,
prospective bidders should
contact James Warren,
County Commissioner Pre-
cinct #3. And bids should
be submitted at the office
of the County Judge.

The Commissioner's
Court of Bailey County
reserves the right to reject
any or all bids.
Glen Williams (S.)
County Judge
