Weekend Snow Benefits Farmers

Up to Twelve Inches Reported in County

Snow began falling in the area Friday and by late Friday night, snow was blowing and sticking on the yards and streets and the city streets and highways were fast becoming slick and icy.

Early Saturday morning, an estimated three or four inches of snow had fallen in Muleshoe and the surrounding area and was drifted in some spots with the area around Needmore reporting snow drifts in excess of four feet. During the day Saturday, with snow continuing to fall, traffic slowly came to a standstill in Muleshoe and many businesses closed early due to the heavy snow and slick streets.

Around nine Saturday night, approximately nine inches of snow had been measured in Muleshoe, with approximately one or two more inches of snow being in the southern part of the county.

Snow continued to fall during the night, and an estimated two to two-and-a-half inches was measured for Saturday night. The snow ended early Sunday morning and by the late afternoon hours, most of the snow had melted from city and area streets and highways.

With from 10 to 11 inches in Muleshoe proper, Bert Blair, manager of the Muleshoe National Wildlife Refuge 20 miles south of Muleshoe, reported nine inches on Friday with .12 moisture and four inches Saturday and Saturday night with .29 inches moisture for a total of .41 moisture during the two day snowstorm. He also reported drifts in excess of five feet.

At Needmore, 12 inches and more of snow was measured with four foot snowdrifts.

North of Muleshoe, various estimates were from 7 to 12 inches of snow with Demp Foster of Foster Fertilizer reporting a five to seven inch fall and Mrs. C. A. Watson said 12 inches were measured at their home with deep drifts.

Birdwell Ranch, west of Muleshoe, reported 9 to 10 inches with deep drifts and H. W. Sizemore, nine miles southwest of Muleshoe, said they had more than five inches of snow with deep snowdrifts.

Clifford Mardis, southeast of Muleshoe, reported 8-10 inches of snow with deep drifts, especially away from the main highway and Bill Jim St. Clair, northeast of town, reported 5-6 inches at both their home and the farm with one-half inch of moisture.

Bailey County Agent J. K. Adams said with the new method of measurement being used by the Lubbock Weather Bureau that one inch of snow contains 1/10 of an inch of moisture, that the Muleshoe area received just over an inch of moisture.

He said, "This is good wintertime moisture and the dryland wheat looks good. It Cont'd on Page 3, Col. 1

Parmer County Farmers Host Local Resident NFO Organizational Meeting Sharpshooter

By Kitty Gallman Tuesday evening, March 17, the newly organized Parmer County chapter of the National Farmers' Organization met in the Hub Community Center. Presiding over the group of 60 people was Elvin Wilson, Friona. Bob Wilson read the minutes of the previous meeting. Neal Bradshaw was sworn in as a grain committee member.

The program, presented by Gerald McCathern and F. A. Marnello of Deaf Smith County, was specially oriented to give information to new and prospective members. Special emphasis was put on working together with surrounding counties to strengthen the NFO's bargaining power.

Facts brought out in the program included the following: American farmers receive a return of three cents on the dollar they invest; while industry gets 25 cents per dollar invested. For each dollar the farmer

turns, 6.8 to 7.2 dollars are added to the national economy. If a farmer received 100 percent of parity, he would make three times his present income.

Also farmers receive only five percent of the consumers' disposable income. Statistics also show that for every ten farmers leaving the farm, one small businessman goes out of business.

McGathern emphasized that the NFO is completely non-political. Its primary purpose is to band farmers together nationwide in an effort to get higher prices for their products. By raising the farmer's net income by 35%, the price of farm goods bought by the consumer would increase a mere 1.7%. The NFO's legal basis is the Copper-Volstead Act of 1922 which gives farmers the right to bargain collectively.

Farmers interested in learning more about NFO are urged to attend the regular monthly meetings which will be held the last Tuesday night of each month.

Superintendent of Muleshoe Schools Neal Dillman said, "This is very important, and all parents are urged to be present."

1969 Vehicle Inspection Deadline Near

AUSTIN--Colonel Wilson E. Speir, director of the Texas Department of Public Safety, today reminded motorists that only one month remains before the 1969 motor vehicle inspection deadline.

To date, an estimated 2.8 million vehicles have received the inspection required by state law. The Department of Public Safety said some 3.2 million additional vehicles remain to be inspected prior to midnight, April 15.

Speir said 42.2 percent of the vehicles inspected so far required mechanical adjustments prior to issuance of an inspection sticker. The defect found most often has been misalignment of headlights.

The Department of Public Safety urged motorists to get the inspection soon to avoid long lines which will develop at inspection stations as the April 15 deadline approaches.

Texas has 5,466 licensed inspection stations. The required inspection fee is \$1.75.

En route home he was stopped by the snow and spent some time at Boulder, Colorado with his aunt and uncle, Mr. and Mrs. Tom Sarguine.

Weather as low as 42 degrees below zero has been reported at Laramie this year and it was 30 degrees below when he left, with about three feet of snow on the ground. He has enjoyed some skiing and ice skating while there, and hunting antelope and elk and had the thrill of killing one large elk. can be avoided and better utilization of the tax dollar can be obtained through the system."

The system would be comprised of community libraries, linked to area libraries that would, in turn, be linked to ten major resource centers at Amarillo, Lubbock, El Paso, Abilene, Austin, San Antonio, Dallas, Ft. Worth, Corpus Christi, and Houston. Even the smallest library would have access to materials and resources of the total library system.

Services which the system is expected to provide include reciprocal borrowing privileges, reference referral service, audio-visual materials, a rotating collection of special interest books, centralized book processing and special services such as record-loan collections and films and slides.

"Membership would be purely voluntary and local libraries could withdraw at any time," Sen. Hightower concluded.

Court Crow.

In his article Dr. Haim says, "Of all social institutions, the family is changing fastest, facing the greatest crisis, and yet, has the greatest potential of all for continuity and stability."

"Each member of a family has within himself the promise of significant contribution to other people, to society, and to himself. This promise can and must be realized. The family's role is to assist the members of its circle to realize their individual promises," the author said. "The promises of confidence for each member of today's family amidst the challenging flexibility of a rapidly changing society will be realized by tomorrow's families. Meeting today's promises is the most urgent task of all for the modern family."

PTA Presents Mrs. John Watson Life Membership

SINCERE CONGRATULATIONS--Pictured is Mrs. Carl Bamert, R, as she presents Mrs. John Watson a Life Membership pin at the Monday afternoon meeting of Mary DeShazo Parent-Teacher Association. Others on the committee are Mrs. John Gunter, Mrs. Clarence Mason and Mrs. Ernest Martin.

Mary DeShazo P-TA honored a long-time teacher Monday. She is now an administrator in the school system but parents whose children were fortunate enough to have a year under Mrs. Watson feel all other children are underprivileged. Mrs. John Watson was presented with a Life Membership and below is the speech made by Mrs. Carl Bamert, chairman of the committee, in making the presentation:

"A Texas PTA Life Membership is given to individuals who are not only interested in the welfare of children and youth but who show their interest by giving generously of their time to those activities that benefit children and youth. The one who is honored today certainly fulfills this requirement, she is a charming, warm person who loves life and is happy sharing it with others. A job is never too small or too large for her to tackle when she feels that the youth of her community will benefit from it.

This person has a BA Degree and a ME Degree, she did graduate work at Texas Tech, University of Texas and West Texas State University. She has been associated with the Muleshoe school system for 27 years. She is a member of and held offices in most of the following organizations, Delta Kappa Gamma, American Association of University Women, Texas State Teachers Association, Kappa Kappa Iota, National Education Association, Association for Supervision and Curriculum Development, Texas Association for Supervision and Curriculum Development, West Texas Division of TASC, Parent Teacher Association, Friends of the Muleshoe Area Library. She is now 2nd Vice President of Lubbock Area Council for the Social Studies, she teaches the Young Homemakers Sunday School Class at the First Baptist Church and the Mule-train was dedicated to her last year (1967-68).

She works diligently, untiringly and uncomplainingly to promote the welfare of children and youth in school, church and community. It warms my heart with pride that the members of DeShazo PTA pay tribute to such an outstanding person as Mrs. Elizabeth Watson by presenting her with this highest of honor the Texas Life Membership. Chairman -- Mrs. Carl Bamert Committee -- Mrs. John Gunter Mrs. Clarence Mason Mrs. Ernest Martin."

"There is a definite relationship between the Christian life and the ability to perceive and express beauty through the art forms. Mrs. Shafer's paintings lend vivid testimony to this concept," said Rev. W. R. Morrow, pastor of Longview Baptist Church. The public is invited to view the works of this Christian artist each night from 7 to 7:30 p.m. and following the Sunday worship services, the week of March 23-30.

Easter Seal History

Forty years ago the Easter Seal Society for Crippled Children and Adults of Texas started its work which has served countless thousands of those who need help.

In this anniversary year, Herman R. Baker, a prominent Sherman businessman, is president of the Society. Lieutenant Governor Ben Barnes is Chairman of the Appeal Committee that makes the Society's service possible.

The National Easter Seal Society was formed fifty years ago and it now serves almost a quarter of a million crippled children and adults annually. Its first service was to one crippled child in a hospital in Ohio.

The plight of the child, a boy who needed expensive surgery and therapy if he was ever to be able to stand and walk, came to the attention of Edgar F. Allen, an Elvira businessman whose own son had been injured in a streetcar collision and died for lack of emergency medical facilities.

It took the patience and persistence of volunteers and public health nurses to seek out the children and persuade their parents to abandon their feelings of guilt and shame to get help for their offsprings.

As parental resistance was broken, the hospital's staff found itself deluged with requests for treatment.

Rotarians provided major support for the society's programs of medical and referral care for crippled children in the early days. They also did much to bring about legislation establishing state services for handicapped children.

But progress was slow. In 1924, three years after Allen founded the hospital, there were only 9,000 beds available in hospitals and other institutions to treat 289,000 children known to be suffering from congenital defects, cerebral palsy and crippling cause by tuberculosis and other conditions.

Five years later -- in 1929 -- there were 23 state crippled children's societies, operating largely through making direct payments for the care, treatment and education of crippling children and seeking legislation for them.

The National Society adopted Easter Seals as a fund raising device in 1934. That year, the Easter Seal appeal raised \$47,052. In 1967, its income was more than \$22 million.

Having established care and treatment and education programs in fulfillment of its objectives, the Society, in 1953, established the Easter Seal Research Foundation, realizing a third major objective.

Today, the Easter Seal Society with its hundreds of state and local affiliates operating more than 2,000 facilities and programs is the largest of its kind in the nation. Its affiliates offer help to handicapped children and adults through rehabilitation and treatment centers; clinics; camps; sheltered workshops; home employment; physical, occupational and speech therapy programs; and other related services.

Ruth Ramm called the roll in the absence of the secretary. Twenty three 4-Hers answered the roll call. Twelve parents were also there.

Program chairman, Mrs. Ernest Ramm introduced Lindsay Lovell from the Floydada 4-H Recreation Team, of Floydada. He gave the club a very interesting program and led the whole group in games. Progress Club members say, "We, the members of Progress 4-H Club say, 'if you want a very interesting program with entertainment, get Lindsay on your program. It's worthwhile.'"
