July 4th Celebration Plans are Completed

All highways, roads and trails will lead to Muleshoe next week for the big annual Fourth of July Celebration. Businessmen and individuals are busy... busy... preparing for the event.

The big day begins at 7 a.m. when a ride-in breakfast will be held by the Muleshoe Jaycees at the south end of the football field. Jaycees say that although the breakfast is \$1, the Jaycees say that anyone who rides a mule in for the breakfast will not be charged for their breakfast.

While the breakfast is going on, the second annual Pony Express Race Relay from Needmore to Muleshoe will be held. It is scheduled to get underway at 8 a.m. and will conclude at 9 a.m. when the participants ride in to the Jaycee breakfast.

After resting up, numerous people are expected to be on hand at 1 p.m. for the Muleshoe Pitching Contest. It will be held in a lot between Dr. Pummell's office and Jim's Pay and Save Grocery on West Avenue B. Anyone is eligible to compete in the pitching con-

Country Club Member-Guest Tourney Set

Muleshoe Country Club Golf Pro Jerry Mobley said a Country Club member-guest golf tournament will be held the weekend of June 28-29.

In conjunction with the tourney a steak dinner-dance will be held Saturday night. The dinner is at 7 and the dance begins at 9 p.m. The cost for non-contestants is \$10 per couple.

The Country Club Swimming Pool will be closed the first three days of next week for repairs. Mobley said they hoped to reopen on Thursday.

Lion's Box Supper Highlights Evening

First Methodist Church Fellowship Hall was the scene of an old-fashioned box supper Friday night. Nineteen lions and their ladies raised \$100 for Muleshoe Little League, \$50 for the Muleshoe Area Public Library and \$40 for Girlstown, U.S.A., and reported they had a good time while doing so.

Mrs. Don Harmon, chairman of the decorations committee, set the stage for the old-fashioned box supper with attractive decorations centered around kerosene lamps.

'Foot patting' music was provided by the 'Muleskinners', Leldon Phillips, Eugene Buhman, Ben Higginbotham, Gene Wingham and Dutch LaRue. 'Colonel' C.O. LaRue Jr., did a professional and entertaining job of auctioning off the box lunches with the help of such lively bidders as 'Itchy-nose' Ellis and several others.

Following the meal, Lion Ernest Kerr installed the new officers in a short, simple ceremony. Outgoing Boss Lion W.E. Young passed the gavel to incoming Boss Lion Roald 'Buck' Johnson who conducted a short business session and adjourned the group.

Service Station Rebuilding; Same Location

Proving that Muleshoe is still progressing, another local business is in the process of rebuilding and expanding. Clyde Holt of Holt Wholesale and Retail Petroleum Products is in the process of rebuilding his service station and storage facilities.

The original Holt's Service Station has been in operation at the corner of Highway 84 and 70 since 1932. The building was constructed in 1929 on the corner, and has been in continuous operation since that time.

Holt said E.T. Ford will construct the new building which will be a steel building. He stated that everything will be under one roof and will be slightly larger than the present station.

Costing in excess of \$35,000 Holt expects completion of the building to be approximately 60 days.

Also ready to be installed are three new underground gas storage tanks.

Thirteen Beauties In Annual Contest

The stage hands are decorating and preparing for a gala evening at the Muleshoe High School auditorium Friday night. Sparkling decorations are being readied for the annual Miss Muleshoe Pageant where, this year, thirteen area beauties are vying for Miss Muleshoe, 1969-70.

Several members of the local Jaycees, who sponsor the contest, have been busy for quite some time preparing for the annual event. John Blackwell is chairman of the pageant and is being assisted by Clarence Christian, Raymond Schroeder is in charge of awards for the pageant. Bob Stovall is handling the emcee chores and securing out of town judges and Curtis Walker is in

Local Governments Receive Invitation

Members of the Muleshoe City Council and the Bailey County Commissioners met Tuesday morning with H. Alden Deyo, executive director of Lubbock Metropolitan Council of Governments and Commissioner of Precinct One Arch G. Lamb of Lubbock.

The duo extended a personal invitation to the government leaders to attend a meeting Friday in Lubbock to hear how an association or council of governments is set up, its purposes and functions and what the COG does for a local government.

Deyo emphasized that a council of governments is a voluntary organization, an association of governments to find out what local problems are and try to find solutions to the problems.

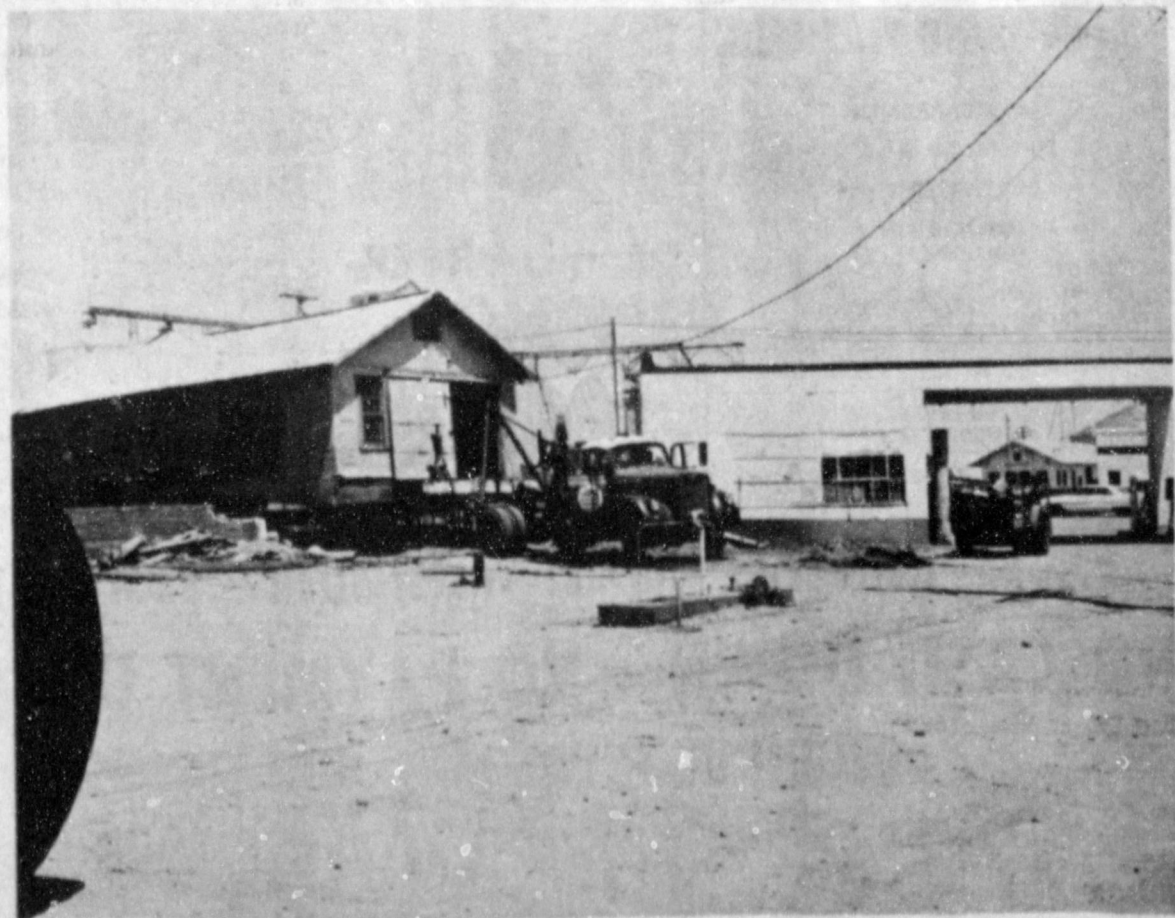

Preliminary explanations were given the government leaders in Muleshoe Tuesday morning and many will go to the

meeting at Lubbock where speakers will go into detail and present an initial set of by-laws. Explained will be state planning regions and possible programs and what the associations can do for a particular locality.

Also emphatically stated was the fact that each local government will retain its sovereignty and that there is no way any member government can be forced to do anything although the various associations will meet and work together to plan comprehensively for the entire area.

Deyo said the first Council of Government was organized in the Detroit area in 1954. Several others formed within the next few years. Until 1955 there were only 65 COG's in the US. There are approximately 200 at the present time in the US.

MAKING WAY FOR PROGRESS--A moving firm has been busy moving out buildings at the corner of Highway 84 and 70 where Holt's Service Station will rebuild in a new-modern station. Clyde Holt, who has been in business at the location since 1932, said the new construction should be completed in about 60 days.

It is not a government, nor does it intend to become one. The primary goal," he continued, "is to maintain and improve the quality of life for all people in the region by promoting the orderly development of the total regional environment (economic, social, and physical) through communication, cooperation, coordination, and planning."

Ringlets around the face seems to be the new look in hair-dos. Some of the newest creations have the effect of the woman having been on a windy walk. But the effect is most attractive and is designed to be that way.

What with the buns on top of the head—the frilly blouses and the chains about the neckline, one is reminded of grandmother's wedding pictures.

Sanford Gilbreath, a Well Adjusted Man

Sanford Gilbreath

"When I took over this route from Bobby Noblett he told me, 'There are two things I want you to do - take care of my customers and stop in ever day to see Sanford Gilbreath.'"

Melvin Griffin, city mail carrier, said Noblett further told him that he would soon find that his daily visits with Gilbreath were a very real pleasure, and that it had certainly been true, "it may have helped Sanford a little and it has certainly helped me."

Thus he explains the friendship of eight years with the man who is housebound and who in spite of this maintains an optimistic outlook on life and an interest in people, thus making him pleasant company to his callers.

For most of those eight years, Gilbreath, who lives alone, at 212 W. Sixth Street has made cookies while he leaned for support against his cabinet and offered a cookie and a cup of coffee to Griffin each morning as he passed on his mail delivery. Arthritis has encroached upon his ability to do many things and made this difficult for him but the two men still share a deep friendship.

One hears of letters sent to soldiers, and of telephone friendships with other invalids, of the deep and long lasting friendship between Gilbreath and the Carroll Pouncey family who lived next door for a number of years. During that time the Pouncey girls were assisted with their lessons after school and watched over until their mother came from work and the friendship continued by letter and visits after the family moved to Amarillo. Now that Louise, the oldest daughter, is living in Athens, Greece with her

soldier husband, Sgt. E.M. Commons the letters of friendship continue to be exchanged.

Halloween candy for trick-or-treaters and favors for groups of carolers at Christmas time and cookies for the young children of friends who call.....and patience and kindness for older or invalid friends.....belief in the intrinsic worth of youth.....a keen interest in current happenings both local and worldwide..... deep love of family all these give insight into the kind of man Sanford Gilbreath is.

The son of Mr. and Mrs. Luther C. Gilbreath, he was born in Denton County, Texas between Denton and Aubrey, but only lived there about two years and moved with his family to Fredrick, Oklahoma in 1907. His father was a farmer but little can be learned of his early childhood except that he was consumed by a love of football and that he played as quarterback of a team that won 103-0, and in which he played offensive and defensive every minute of the game, thereby earning the title of 'Lots 'o Papa' which was shortened to 'Lotsa'. Old friends still call him that.

Gilbreath's sister, M.S.T.L. Glasscock, tells that it took him six years to finish high school, planned so he could play 'just one more year', and that he even went during only the first half of the year in order to stretch out his playing years. He tells of a history teacher, Mrs. A.S. (Jessie) Stovall who was reluctantly persuaded by the coach and the high school principal that she should fall him in history so he could play another year.

Other relatives in the area other than the Glasscocks are his brother Francis Gilbreath and his family. Sanford Gil-

breath follows carefully the fortunes of the Gilbreath sons, Jerry and Billy, both of whom are in the service of their country and both very fine athletes.

The Francis Gilbreath's little dog 'Cindy' is loaned to Sanford most of the time and the dog and Gilbreath speak a common language not known to others. Cindy jealously guards the glass door by which Gilbreath spends most of his daylight hours (so he can wave at passing friends).

Sanford Gilbreath first came to the Plainview community southwest of Clay's Corner but the ground 'was too dry to farm' and he went back to Fredrick until 1930 when the family moved here. In April, 1930 he was stricken with paralysis and since that time has been on crutches. He has managed to take care of himself through the years, with the devoted help of his sister and brother, and has lived since 1958 at his present address, but is considering using a wheelchair now that moving about is growing more difficult.

In addition to receiving mail addressed to 'Lotsa', Gilbreath also receives correspondence addressed to 'Mr. G' which had its beginning when a small girl asked her mother how to spell his name, found it too difficult and was told that the letter would reach its destination if addressed that way. Since that time she and other small children call him 'Mr. G'. (He proudly displays his collection of pictures of children).

There are other invalids, though perhaps few stricken so young and fewer still who have lived with so much confinement and yet have managed to retain a cheerful, outgoing attitude toward the world. Gilbreath keeps informed by watching television, listening to the

radio, reading several newspapers and many periodicals. His greatest pleasure is PEOPLE and a visit from a friend makes the difference between a dull or a bright day. Perhaps you would like to ask V.T. Tanner, J.T. Eubank, Melvin Griffin, A.S. Stovall or Carroll Pouncey about this man and share their pleasure in this man's company.

Mail your question to Dr. Quizmee in care of this newspaper. The winners of the encyclopedia as this week are: Michelle Audibert, for asking: "How far is it around the earth and how far is it through the world?"

The distance from pole to pole through the earth is 7,899,940 miles. From one point on the equator to the opposite point is 7,926,406 miles (the earth is not a perfect sphere). The distance around the equator is 24,904.44 miles, around the meridian 24,860.53 miles.

Mrs. Charles Moore, who asked: "What is the origin of the Caduceus, emblem of the medical profession?"

The staff topped by two wings and entwined with two snakes evolved from the staff of Asclepius, the Greek god of healing. It is also identified with the messenger of the gods, Hermes in Greek mythology, Mercury in the Roman.

Baptist Youth Make Plans

BY REVEREND MACK MOORE

The Youth Planning Council of the First Baptist Church met Sunday Afternoon in the Young People's Department of the church. This council, formed shortly after Mr. Mack Moore, Director of Youth and Music Activities, knew of his move to the Muleshoe area, it's primary purpose is to set goals and ideals to be followed in forming an active and meaningful youth program at the First Baptist Church. These goals and plans were made earlier in the Spring, and were finalized at the meeting last Sunday.

The various youth activities being planned for the coming days are:

Sunday, June 29 - A Youth Led Service at the church.

Thursday, July 10 - Recreation Night

Saturday, July 12 - Youth Car Wash, proceeds for Glorieta Fund

Tuesday, July 15 - Youth Klesis (Christian Study Group)

Friday and Saturday, July 18 and 19 - Teenstitute (Retreat)

Thursday, July 24 - Recreation Night

Saturday, July 26 - Youth Car Wash

July 27-August 3 - Youth Led Revival with Rev. Dean Allen

Wednesday, August 6 - Youth Bake Sale, proceeds for Glorieta Fund

Thursday, August 7 - All Day Youth Rally in Plains Baptist Assembly, Floydada

Saturday, August 9 - Youth Bake Sale

Tuesday, August 12 - Youth Klesis

August 14 - 20 - Foreign Missions Week, Glorieta Baptist Assembly, Glorieta, New Mexico

Saturday, August 23 - Youth Rally at First Baptist Church, Lubbock

August 31 - Youth Night Services, featuring a Church Drama, "I Saw Him", by Sarah Walton Miller

Realizing that only an active young person is a happy young person, the list of activities might be dazzling to many who are not acquainted with the capacity for fun young people have.

The days ahead, prior to the Youth Division going to Glorieta have been designated as Youth "Slave Days". Odd jobs of all sorts will be done for minimal fees, all being donated to the Glorieta Fund to help defray the expenses of the youth who will go. Interested individuals who desire young people to work for them whether baby-sitting or mowing lawns, should contact Miss Sonie Glaze, 272-4743. The Youth would appreciate your help.

Sunday Night's Youth Service at the church will feature the following youth in service:

Youth Minister: Rickey Hamilton

Youth Minister of Music: Keith Turner

Youth Moderator: Ricky Faver

Youth Chairman of Ushers: Alec Schuster

Youth Testimony of Faith: Gary Little

Youth Solist: Neil Finley

Also featured will be the Youth Choir of the church.

The Youth Klesis, a Christian Study Group, will begin meeting Tuesday, July 12, in the home of Mr. and Mrs. Moore, 906 West Sixth. The time set for the summer months is 8 o'clock in the evening. The meetings will be held every other week, with the exception of the week of the Youth Led Revival. All youth are invited to come study great Christian books of the faith, as well as the Bible in direct relation to living the Christian life.

Recreation Night, better known as "REC NITE" at the church, will be held at various announced times during the summer. The first night, July 10, will be a Volleyball Game at the church, pitting the mighty Juniors, Seniors and College Age Youth against the Freshmen and Sophomores of the Youth Division. Again, all youth who would be interested in participating are welcome.

Glorious Glorieta will be the highlight of the summer's activities. Located in the beautiful New Mexico mountains, it is a most popular assembly for Baptists all over the world. The cost for those attending is \$42.00, including a \$3.00 registration fee. This fee must be paid to sign up to go. Last day for signing is July 12. Only fifty reservations have been made and those who are interested in going will be signed up on a first come, first serve basis. With first concern in seeing the youth of our church being able to go, those from other churches will be allowed to go if spaces are available. Interested people should contact Mr. Moore at his office at the church.

Climaxing a summer full of activities will be the dramatic presentation, "I Saw Him", by Sarah Walton Miller. Characters will depict the scene surrounding Jesus' suffering

and death on the Cross. Each character will speak as if they were the place or surrounding objects. Such as, the Cross, the Garden of Gethsemane, Pilates' Hall, the Fortress Antonia.....all will express their feelings in seeing the Saviour suffer and die. Auditions will be held soon for the various parts. If youth who are interested in having a part in the play would call Mr. Moore, he can furnish all the data needed.

Busy days, but happy days are now in progress among the youth of the First Baptist Church, Muleshoe.

CONDITION FOR HAIR

Got the hate-my hair-and-can't-do anything-with-it blues? If so, don't blow your cool, baby, for instant help is as close as your neighborhood store.

The hateful hair syndrome is usually caused by cold, windy w. ers and steamheated homes a offices. The most common mptom is completely unmanageable hair that refuses to stay in place or hold a wave. Hand-in-hand with this ailment is dry, brittle, straw-like hair. If this seems to be your problem, what you probably need is a good, rich protein conditioner applied after shampooing to wet hair.

Toni's Protein Conditioner is an easy-flowing creme in a tube that gives hair more body and manageability, plus the feel of added strength and thickness. It's the perfect home beauty treatment because it takes only second to make your hair come alive again.

After shampooing, simply pat out excess moisture with a towel. Apply the conditioner. Comb through the hair to distribute it evenly, then rinse with lukewarm water and set as usual.

Once your hair is in shape again, try a new post-winter hair style for an added banish-the-blues treatment. You'll find it easy to create an attractive look that will stay in place between shampoos. And if summer sun starts to make you hair dry all over again, remember that an easy protein conditioner treatment will return it to normal.

Snake Fear Keeps Campers Near Home

AUSTIN--Fear of snakes will keep many would-be campers at home this summer even though statistics show that in the United States more people are killed or seriously injured in their bathtubs than by snakebites, reports the Texas State Department of Health.

In the past 10 years in Texas, there have been just 31 deaths attributed to poisonous snakes. Snakebite deaths were most frequent, among the young or old.

An unreasoning fear or ignorance may cause more harm than an actual snakebite. For example, a man who once trod on a rattler still wakes up screaming in the night, and a hunter, spiked by barbed wire, thought he had been bitten by a snake and very nearly died of shock.

True, these are extremes. But if you do regard the snake as a vicious and cunning creature with a deep-seated hatred of man, you are mistaken. Instead, it is timid and retiring. The earth-bound reptile will react to man as it would to any big and threatening creature, but it much prefers to slide unobtrusively away.

Poisonous snakes of the U.S. include the rattlesnake, copperhead, cottonmouth moccasin and coral snake. One of the most prevalent in Texas is the rattlesnake.

Should you encounter a rattler, the safest thing to do, usually, is to remain perfectly still or edge gingerly away. Don't run. You only excite the snake, making it more apt to strike in self-defense. On the other hand, don't assume that it will shake its rattles as a signal of attack or that it only strikes when coiled. A rattling

tail indicates nervousness rather than a sign of aggression. And, a rattler may strike in any direction from any position.

In applying first aid for snakebite, make the victim lie down as soon as possible and apply a constricting bandage above the bite. The pulse in blood vessels below the bandage should not disappear, nor should the bandage produce a throbbing sensation. Loosen the bandage for a few seconds every 15 minutes. If possible, apply ice packs to the bite and get the victim to a physician or hospital.

If a lengthy interval seems likely until antivenin can be given, make cuts cautiously through the skin into and just above the presumed venom deposit site, avoiding tendons, and apply suction.

Nixon conditionally backs direct election.

Tax Man Sam Sez

IT'S BETTER TO PAY

It may be just the time of year, but those taxpayers receiving a notice from the computer that they owe some tax, due to one reason or the other, usually think that the day was a lot longer than it really was. If you owe the tax it's better to send back the notice with a nice check attached and leave this problem behind you even though you may have to borrow the money. Taxpayers who procrastinate on paying Internal Revenue for taxes due usually end up with a levy on their bank account or their pay check.

Internal Revenue simply follows the law, step by step. They don't want to be mean but you'd better believe the law is very firm. However, if you don't owe any tax it's another matter. It doesn't pay to lose any time in writing a nice friendly letter to the Director of the Service Center pointing out that they are mistaken with the reasons why. This will usually result in Internal Revenue correcting the error or your getting a letter that points out your mistake that you missed. By acting promptly you will not run into trouble, but if you owe, it pays to pay.

It is never too late to start saving a few dollars, and we believe they will come in pretty handy some time in the next few years.

The Sandhills Philosopher

Editor's note: The Sandhills Philosopher on his Johnson grass farm this week is worrying about the big cities, but not enough to lose any sleep over.

Dear editor: According to a newspaper I was reading last night, 90 per cent of the big cities in the United States are just about broke, facing bankruptcy, the article said, although I've never heard of anybody's foreclosing on a city. Who'd want to take New York in on a debt? Or Chicago? Or Dallas?

As I understand it, it's the cities, not the city people, who are broke, as most of the latter seem to be doing fairly well, although occasionally some of them have to borrow on their boat to meet the payments on their color television set, and some get confused trying to remember whether they're paying for last year's or the year before last's vacation trip, both of which they took on credit.

However, the cities' plight is not a laughing matter, because it has just about wrecked the farm problem.

Back in the old days, 15 or 20 years ago, no politician would think of running for office un-

less he had a solution for the farm problem, and while none of the solutions ever worked, I had no idea what they meant was they were going to make the city problem so big everybody would forget the farm problem. It's like stopping worrying about one son who dropped out of high school because another son in now in the penitentiary. Personally, I don't have any answers. It used to be, when a man couldn't make it on t farm he was advised to give it up and get a job in town. You suppose they did and are now running cities by the same principles that failed them on the farm?

I hope not, because the last thing we want is somebody's advising big city mayors that if they can't make it in town they'd better give it up and get a job in the country. As it is, most of them are saying they've got to look to Washington to help them get out fo debt. I'm afraid they're on the wrong track. Washington is an expert on getting into debt, but as for getting out.....I'm blamed if I know where they should look. Certainly not at me. Did I notice you dodging too?

Yours faithfully,
J.A.

GOVERNMENT-IN-ACTION YOUTH TOUR CONTEST WINNERS—Marilyn Sharp, Whiteface; Jimmy Littleton, Earth and DeAnne Brock, Earth are shown in front of our Nation's Capitol in Washington, D.C. These local winners were sponsored on the 12-day tour by Bailey County Electric Cooperative, Muleshoe.

Local Youths Tour Washington Area

By DeAnn Brock, daughter of Mr. and Mrs. R.J. (Skeeter) Brock and Jimmy Littleton, son of Mr. and Mrs. James A. Littleton Jr., all of Earth.

On Friday June 6th 74 youth from over the entire state of Texas gathered in Waxahachie with 7 sponsors and a registered nurse to begin the greatest eleven days of our lifetime. Following an evening of fellowship we turned in early to prepare for leaving the following morning for Washington D.C.

Three days later after stopovers in Memphis and Knoxville, Tennessee, we arrived in Washington D.C. Immediately after supper, we left to tour three national monuments, the Washington, Lincoln, and Jefferson. All three of these monuments left us deeply impressed. An interesting note is there are 898 steps to the top of the Washington monument and we climbed them all (needless to say, we rode the elevator down).

The following morning we laid a wreath of yellow roses on the grave of the late President John F. Kennedy during a typical Washington down pour. We then proceeded to the National Archives Building where we viewed the Constitution, Declaration of Independence, and the Bill of Rights. Afterwards we went to the National Wax Museum where we saw vignettes of our Nation's History—the signing of the Constitution, the Battle of the Alamo, the Landing of Columbus, and many other scenes of history presented in wax. From there we went to beautiful Mt. Vernon, the home of the great George Washington.

That evening we attended the Marine Corps Ceremony at Iwo Jima Monument which was presented by the Marine Drum and Bugle Corps and silent drill team. This was one of the most impressive sights of the entire tour. Wednesday morning we attended the Rural Youth Day program sponsored by National Rural Electric Cooperatives Association (NRECA). One of the highlights of this program was a quiz show composed of youth from the various states represented at the meeting. It was hosted by Washington T.V. personality Mac McGarry.

That afternoon over 1000 youth representing electric cooperatives over the country met at and toured the White House. Even though President Nixon was unable to make an appearance, it was quite an experience. After departing we went to the Capitol where publicity pictures were taken. Then we went to the Sam Rayburn Office building where the Texas Delegation hosted a congressional reception, after meeting Representative Robert Price we were taken

to his office where pictures were taken. Returning to the motel, we attended a dinner and shindig along with the other youth from across the country.

The following morning after seeing the Changing of the Guards at the Tomb of the Unknown Soldier, Representative Jake Pitkle took us on an extensive tour of the Capitol. That afternoon we again guests of Representative Bob Price. He then gave us a time to ask questions which he attempted to answer. After a lively question and answer session, we attended a coke party given by Senator Ralph Yarborough. Senator Yarborough addressed us on the merits of a college education and the usefulness of Jr. colleges in this program. That evening we took a leisurely cruise down the Potomac River to the lovely Mt. Vernon and back. Friday morning found us at the office building of NRECA where we were treated to a coke party and film of the operation of the NRECA. We went from there to the fascinating Smithsonian Institute Complex where we spent the remainder of the day.

We arose early Saturday morning to begin the long trip back to Texas. Sunday morning we held devotional services on Lookout Mt. in Chattanooga, Tennessee. Monday night at Texarkana, Texas we enjoyed a last night's tacky party. Tuesday evening we arrived back in Earth very tired and glad to be home, but saddened by having to leave the friends we had made.

All the glory of the city of Washington, the Capitol, the White House, and the Monuments one statement made by a National Park Ranger at the Jefferson Memorial remains in our hearts. He said that the monuments were not to the men, not particularly to the deeds they had done, but to give incentive to all Americans to live up to their responsibilities. It was truly a great experience, the education and the national pride which we gained were indescribable, but for all this, the greatest part of our trip was the friendships we made. In eleven days of living together we molded ourselves into the name we chose for ourselves -- The Pride of Texas.

We were privileged to go on this trip and our sincerest thanks goes to the Bailey County Electric Cooperative who made this trip possible.

John Tower
United States Senate
COMMITTEE ON ARMED SERVICES

I believe President Nixon made a particularly wise choice when he nominated Judge Warren Burger of the Court of Appeals for the District of Columbia as Chief Justice of the Supreme Court. This week-end I would like to discuss that choice and the effect it is likely to have upon us all.

the nomination of a chief justice is the most important nomination a president of the United States makes, and it is imperative that this nomination receive the Senate's most careful attention as it renders its advice and consent. But I believe the Senate will grant confirmation. My colleagues seem to me to be in general agreement that Judge Burger will

make an excellent chief justice. When President Nixon was campaigning for office last fall, he said that a justice of the Supreme Court has the duty to interpret the law, not to make the law, and he pledged to appoint members to the court who share that view.

Judge Burger, during his tenure on the court of appeals has shown himself to be an advocate of judicial restraint and of strict construction of the Constitution.

His nomination is therefore in line with Mr. Nixon's campaign pledge and it has my support.

I believe the new appointment signals the beginning of a new era in Supreme Court history and an era that has, in my

opinion, been too long in coming.

Retiring Chief Justice Earl Warren has followed a policy of judicial activism. In his enthusiasm for the social reforms which he has believed necessary for our nation, he has led the court into new judicial fields, and the result has been that the Supreme Court has been in the forefront of change.

I do not argue that there is no appropriate need for change in our society; but I strongly disagree with the view that it is the role of the Supreme Court to lead reform efforts.

The founders of our nation envisioned the Supreme Court as a force for conservatism. They believed that the Justices, who are appointed for life and are thus the least responsive to changing popular ideals, would be an appropriate conservative balance to the elected members of Congress and the President.

As a man who believes in judicial restraint, Judge Burger can be expected to provide the leadership, which is so sorely needed at this time in the court's history, to encourage the court to return to the role envisioned for it by our founding fathers.

Judge Burger cannot be expected to reverse immediately the philosophy of the entire court. He will have but one vote on the court, and although some Warren court decisions were 5 to 4, many others were heavily one-sided.

Also Burger himself may change. In the past, Justices who were thought to be liberals when they were appointed have sometimes proved to be conservative, and Justices thought to be conservative have sometimes turned liberal.

Burger, however, is probably more predictable. He has been peals more than a dozen years. He has enjoyed a life-time appointment and a comfortable salary. There is no reason to believe that he has been a man other than his own.

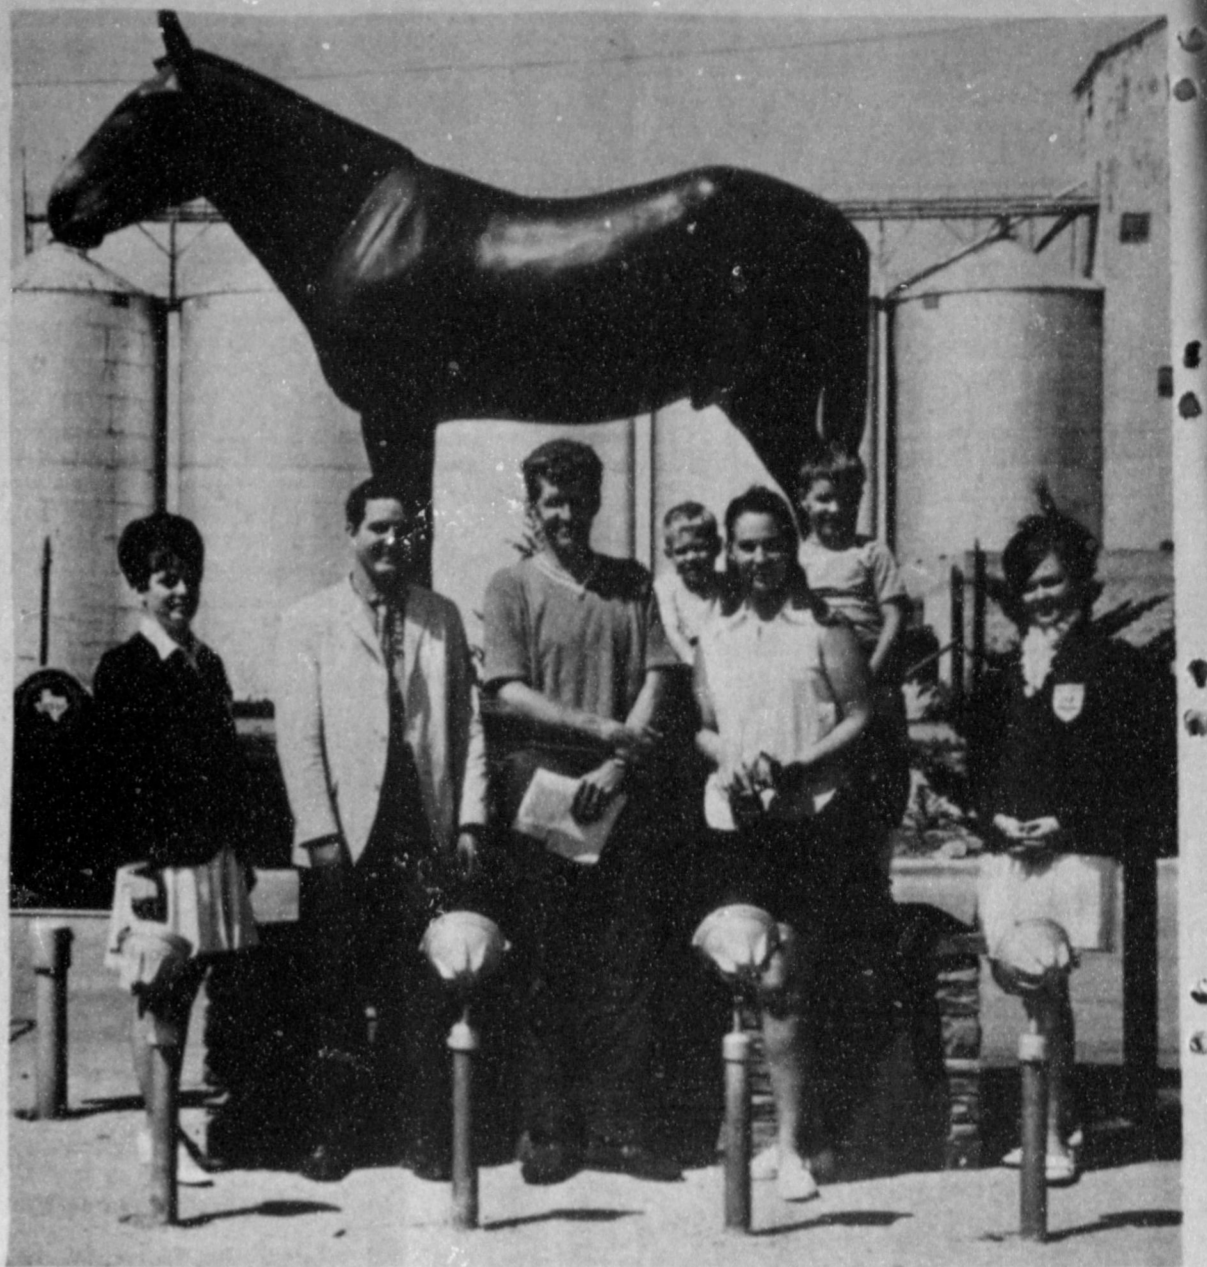

A review of Judge Burger's written opinions and public addresses indicates a strong

belief in law and order. He has said that appellate courts should see that criminal defendants receive fair trials, but he has argued that the recent trend has been to demand perfect trials.

While I am personally gratified that Judge Burger has a strong reputation as a defender of law and order, it is even more important that he has exhibited the judicial restraint which I believe should be required of a Supreme Court Justice.

The concept of judicial restraint involves the philosophy that appellate court decisions should refrain from plowing new legal ground until the issues presented provide no alternative. I believe Judge Burger can be expected to have a substantial conservative effect on the future of the Supreme Court of the United States.

President Nixon will have some additional opportunities to appoint members of the Court. The recent resignation of Justice Abe Fortas provides a vacancy which the President can be expected to fill within the next several weeks. It is unlikely that he will fill that vacancy until after the confirmation of Judge Burger as Chief Justice of the United States. Three other members of the court are already eligible for full retirement if they choose. So Nixon can change the character of the court.

Summer Jobs Being Sought By Students

Youth looking for summer work sent job application totals up at Texas Employment Commission local offices during May. Otherwise, the local offices recorded changes that do not appear significant on a statewide basis, according to R.L. Coffman, TEC administrator. The offices took 57,480 job applications, an increase of

2,616 over the April total, despite a work month three days shorter than normal.

"The upswing in new job applications filed and proficiency tests given reflects the annual seasonal influx of students and the Youth Opportunity Summer Campaign activities," Coffman explained.

"As you prepare to consider the Department of Agriculture Appropriations Bill for 1970 and the amendments that will be offered from the floor, we urge you to fully consider the far-reaching impact of agriculture on our nation and its people, and we urge you to be extremely careful that your vote does not contribute to the crippling of agriculture, our nation's largest and most basic industry."

So reads a paragraph from a letter to all US Senators written by Donald Johnson, Executive Vice President of Plains Cotton Growers, Inc., Lubbock. The Senate will soon be voting on the appropriations measure, and an amendment is certain to be offered that would limit the number of dollars that could be paid from the appropriation to any individual farm operator under 1970 farm programs.

The Appropriations Bill came through the House with an amendment that would limit the number of dollars that could be paid from the appropriation to any individual farm operator under 1970 farm programs.

The Appropriations Bill came through the House with an amendment limiting total price support and acreage diversion payments under all commodity programs, excluding sugar, to \$20,000. "Any limit on the payments a farmer can receive is a limit on the extent to which he can participate in existing commodity programs and would seriously impair the supply management effectiveness of those programs," the letter states, adding that because of the snap-back provision in the law for cotton, "... a payment limit at any level would bring about instant chaos in cotton marketing procedures."

The letter attempts to impress on the Senators the importance of agriculture to the overall economy of the nation, quoting at one point from the Agriculture Appropriations Committee Report of the House: "If the United States of America were a primitive, isolated village of 20 persons, and if one of those twenty produced all of the food and most of the fiber for clothing consumed by the other 19, that one man would be hailed as the preeminent contributor to the commonweal. For they would see clearly, in these simple circumstances, that they depended on this single individual for the most basic necessities of life itself."

"Agriculture is the principal source of new wealth. It is the main provider of raw materials which support all segments of business and industry. Reliable estimates indicate that each dollar of wealth taken from the soil generates \$7 of income throughout the rest of the economy," the letter notes. "Agriculture is one of the

Dear Editor

Dear Sir: Since our son is on the Muleshoe coaching staff for the coming year and since we no longer exchange papers, I need to subscribe to the Journal for a year.

Curtis should feel at home in Muleshoe, since he was born there. We moved away when he was about six months old.

I, myself, have many fond memories of Muleshoe and the Journal, where I was employed as linotype operator and printer for 18 months in 1941 (the big rain year) and 1942. The owners then were the late Clyde Holland and R.L. Jones.

Since the Journal's duties in those days did not require the full time of an operator and printer, I filled in helping out on news, including covering the Muleshoe Yellowjacket (as they were then known) football and basketball teams. I've always been a "fan" of the Mules and will have even more reason to be the coming school year.

Sincerely,
Charles Didway, Editor

STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

Biggest organized plan in Texas history--to fight crime--is in the approval stage, with early approval anticipated.

Plan was submitted last month to the US Department of Justice by Governor Preston Smith's Criminal Justice Council.

With approval will go \$1.1 million in action grants to state and local units of government for brand new approaches to the war on crime.

An initial planning grant of \$830,350 started the action, and \$235,000 more was freed for the purchase of riot control equipment. If this program is successful and continued, \$11 million more in federal aid will go to Texas in federal fiscal year 1970.

Plans of cities and regions were cleared through the Criminal Justice Office for inclusion in a statewide approach. Experts in crime prevention, apprehension, trials, sentencing, corrections, pardons and paroles participated in the drafting of the overall program.

Work proceeds under federal Omnibus Crime Control and Safe Streets acts of 1968.

Urban Coalition and Urban America Inc. groups recently criticized the program. Private organizations doubted the ability to spend money effectively and complained that the US Justice Department did not give states enough guidance in planning. Also it was contended that private citizens were not sufficiently involved.

Texas Council insists that the best job possible was done in the close time framework available for initial planning. Criticism, the Council contends, should be held up until there is an opportunity to measure action.

This effort is the first attempt to pull together courts, law enforcement and correctional institutions, in a mass movement against crime. Only time and experience can measure results.

burg, Beaumont, Austin, Lubbock, Texarkana, Fort Worth, Waco, San Angelo and Corpus Christi. A center in Midland is expected to open in the near future. Wichita Falls and Galveston have submitted plans and requests for state grants-in-aid with which to finance their centers on September 1.

Community center planning contracts are in effect in 15 other communities and Texas' Department of Mental Health and Mental Retardation has contracts for services to provide community treatment in 10 more. Still other programs are being put in effect in rural areas through nine state mental hospitals.

LIQUOR STORE CHANGES ORDERED

Under a new law, all drug stores and discount houses which sell liquor must physically seal off the departments and provide access only through separate entrance from streets.

Liquor Control Board so advised package store permit holders in a new bulletin. About 300 of the state's 3,000 package store permittees will have to do complete remodeling jobs on their stores by September 1 to comply, LCB estimates.

A "sleeper" provision appeared in the liquor law revision bill. Former Gov. John Connally vetoed a similar provision in 1967. Before 1945, liquor could be sold only in package stores. Legislature in 1959 authorized discount and drug stores to set aside part of the floor space for liquor sales. Legislature this year deleted that authorization. LCB will spell out new requirements in an additional directive by July 15.

APPOINTMENTS, HONORS

H.A. Forester will succeed William J. Burke as executive director of State Board of Control, the state's purchasing agency on August 31. Burke is retiring.

Governor Smith appointed Edwin R. VanZandt, managing editor of the Beaumont Journal, to the Texas Board of Mental Health and Mental Retardation. He succeeds Dr. Raleigh R. White of Temple.

Smith picked Dr. William F. Baber of Vernon to Texas Board of Optometry. He succeeds the late Dr. Ira Woods of Grapevine. Baber will serve until August 11.

Laredo oilman John G. Hurd is President Nixon's nominee as ambassador to Venezuela. Oscar Griffin, who won a Pulitzer Prize as a Peccos newsman in 1963, has been appointed deputy director of the Office of Public Information for the US Department of Transportation.

Mrs. Betty Andujar of Fort Worth is contesting Mrs. Malcolm Milburn of Austin for vice chairman of the State Republican party.

GAS RATE INCREASE ASKED

Lone Star Gas Company wants to increase gas rates nearly 24 percent in 512 East and North Central Texas cities and towns. Railroad Commission recessed hearing on request to give municipalities an opportunity to protest. Decision is expected to be delayed six months or more.

Lone Star says it needs a rate increase from 35.4 cents per 1,000 cubic feet mcf to 44.8 cents. Last increase was granted the company in 1960. Company claims increase, with inflationary pressures, will give it a yield of eight percent on its property investments.

EDWARDS PROJECT DELAY ASKED

Texas Water Rights Commission advised Governor Smith to ask more time to study multi-million projects proposed by US Corps of Engineers for Edwards Underground Reservoir.

Strong protests from the Uvalde area were lodged at the June 11 hearing. Commission said there is now no governmental agency to manage water resources proposed for

development, or to repay \$51.6 million in reimbursable non-federal costs. It suggested that Smith ask the Corps report to remain "active for further consideration and recommendations."

ATTORNEY GENERAL RULES

A defendant summoned before a grand jury must be advised of his constitutional right to legal counsel, says Atty. Gen. Crawford C. Martin. His opinion spelled out other guidelines for processing and disposing of felony complaints.

In other opinions, Martin concluded that:

"All money due for cigarettes tax stamps must be considered as revenue available during the fiscal year. Opinion cleared up the status of some \$6 million in late August stamp payments.

"Wholly-owned Texas Corporation and subsidiary of a parent savings and loan association may acquire outstanding shares of permanent reserve fund stock of Fort Worth Savings and Loan Association.

"State Board of Education may not require textbook authors to sign a loyalty oath as a prerequisite to consideration of a textbook for state-supported schools.

"A justice of the peace must keep a docket reflecting all criminal matters that come to his attention in both magisterial and judicial duties.
