for use in

### Pear Burners.

This week I have given practical demonstrations at the ranches of Jos. Cotulla, T. H. Poole, R. S. Sutton, J. M. Dobie, and others, and in every instance the results were excellent.

Some Cotulla housewives have been using B-Solar Oil for eight months in gasoline stoves. They say it does the work as well as stove gasoline.

On an actual test One Gallon of B-Solar Oil burned 42 minutes in a Double Pear-burner.

PRICE 11c PER GAL.

## High School Opened Monday; Attendance Good

The Cotulla High School opened Monday morning, with an average attendance of pupils and quite a number of patrons present. The session was opened with prayer by Rev. T. N. Barton.

Talks were made by Prof. R. Taylor, Prof. J. L. Willson, Rev. T. N. Barton, Rev. Geo. W. Keeling and others. Prof. Taylor who has been superintendent of the school for the past five years made an interesting talk, reviewing briefly the work done since he has been here, and appealed to the patrons and pupils to give the new Superintendent and teachers, their united support. He said he believed the teachers selected for this year were among the best obtainable and predicted the school would maintain its record gained the past few years. Rev. Keeling and also Rev. Barton praised the work of Prof. Taylor in building up our school and the line of their talks were on co-operation of patrons, teachers and pupils for the work of the session just begun.

The teachers for the school this year are as follows: Joe L. Willson, Superintendent; Miss Rosa Potter, Principal; Roy Lewis, Misses Ethel Renick, Bessie Durham and Fannie Woods. Miss Alma Mendel is principal of the Mexican school and Miss Adele Wildenthal Assistant.

Mrs. Roy Lewis is teacher of music in the high school.

## Good Fishing on the Nueces.

County Judge Geo. R. Page of Webb county, Justo S. Penn, editor and manager of the Laredo Daily Times and Mr. Penn's little son spent the week on the Nueces near W. A. Kerr's place fishing. Sunday the following Laredo gentlemen spent the day at their camp: Dr. J. H. Halsall, Shelby Theriot, C. C. Biggio, A. Dietz and Eugene Christian.

An abundance of fish was caught before the rains set in and muddied the water. The party intended to remain all the week but on account of the showers decided to return home yesterday.

N. C. Windrow went up to Pear-sall Sunday. His brother's drug store burned there the night previous and the loss was heavy. Tuesday he received word that his uncle, H. A. Mercer, was fatally burned in a fire at Pleasanton.

Circumstances made it necessary for us to omit the Missionary meeting Thursday and the regular program will be carried out next Thursday at the Gall-man home. K. Burwell, Pres.

The first norther is blowing this morning and it is wet.

## Paint

Every gallon costs a painter's day's work.

Poor paint, more gallons; good paint, less gallons.

Every extra gallon adds to your job its price and the painter's day's work; not far from \$5 a gallon.

There are a dozen good paints and hundreds of poor ones. Devoe is one of the dozen. The chances are: there isn't another in this town.

Devoe,  
T. R. Keek,  
sells it.

## OFFICERS CAPTURED IN ENCOUNTER WITH MEXICAN SMUGGLERS

Daring Band Led by White Man Encountered Near Carrizo Springs. Outpost is Killed and Former Sheriff Buck and Deputy Ortiz Ambushed and Made Captives. Posse Secures Buck's Release but Deputy is Murdered.

## GANG REPORTED SURROUNDED

At 10 o'clock last night Jesse Campbell telephoned the Record a message had just been received from John M. Green at the Carrizma ranch stating that Turner Williams came to the Espajo ranch late yesterday evening after fresh horses and stated at the ranch that the posse and soldiers had the band surrounded in a thicket in a West-easterly direction from that ranch.

Campbell estimated that approximately 75 men from Carrizo, Asherton and Eagle Pass were in pursuit.

A band of Mexican ammunition smugglers headed by a white man, perpetrated a most daring deed Thursday morning in Dimmit county when they captured and carried away former sheriff Eugene Buck and deputy Candelario Ortiz. Before they reached three miles they

encountered a posse of twelve men headed by Jesse Campbell, brother in law of the captured man overtook the gang.

The smugglers saw the posse about the time the posse saw them. The Mexicans at once disappeared in a ravine pushing Buck ahead of them. The posse dismounted and sought shelter. Only a distance of about 150 yards was between them and both sides awaited development for a few minutes.

Poses were immediately organized and took the trail. Ortiz was found dead before noon. The gang was overtaken at two o'clock and Buck's release secured on condition that the posse withdraw.

Sheriff Gardner was not with this posse and as soon as he learned of Buck's release strengthened his forces and set the wires to working in an endeavor to intercept the band before they crossed the Rio Grande. Troops were sent out from Eagle Pass and Laredo. A carload of soldiers went to Asherton yesterday.

## INFORMATION OF SMUGGLERS.

Wednesday night Sheriff Gardner of Dimmit county received information that a gang of ammunition smugglers were camped in a ravine near the Oak Grove Ranch Southwest of Carrizo Springs. He selected former Sheriff Buck, deputies White and Ortiz to accompany him and the four went to the vicinity indicated by the informant. They instituted a quiet search until two o'clock and failing to find anything laid down and slept till daylight. At the crack of dawn they were up and soon located a trail of several men made plain by the muddy ground. After following a short distance one track separated from the others. Sheriff Gardner and deputy White took this trail and Buck and Ortiz followed the others.

## HOW BUCK WAS CAPTURED

The trail Buck and Ortiz was following led into a very dense thicket and they were proceeding cautiously but when they neared a ravine suddenly fifteen or more men sprang into view and covered the officers with rifles. They were disarmed promptly. Almost at this instant firing opened up in the direction in which Gardner and White had gone. They had trailed the lone Mexican, which was probably an outpost, and as they approached he fired on the officers at a distance of only fifteen feet but missed and was promptly killed by the return fire.

## BUCK WARNED GARDNER.

Here the leader of the gang attempted a daring deed. Having two of the officers in his hands he instructed Buck to call to the other men to come to him. Buck realizing the consequences of such action yelled to Gardner and White not to come to him but to go for help. This they did and shortly afterward posses from both Carrizo Springs and Asherton were hot on the trail of the fleeing smugglers. The band tied the hands of both of the prisoners behind them and loaded them with ammunition. Some of the men had horses but they were mostly loaded up with cartridges, etc., and were lead by the men who walked.

## ORTIZ IS KILLED

After going about two and a half miles Ortiz was tied hard and fast to a mesquite tree and then shot several times through the head. The posse found him soon after starting out. The trail could be followed at

10 o'clock yesterday evening a posse of twelve men headed by Jesse Campbell, brother in law of the captured man overtook the gang. The smugglers saw the posse about the time the posse saw them. The Mexicans at once disappeared in a ravine pushing Buck ahead of them. The posse dismounted and sought shelter. Only a distance of about 150 yards was between them and both sides awaited development for a few minutes.

## OBJECT TO RELEASE BUCK.

The first object of the posse was to secure Buck's freedom and they realized that to fire a shot was to sound his death knell, thus they necessarily had to proceed cautiously. Presently they heard someone calling, and Buck's voice was recognized, saying, "one of you men come over here." Jesse Campbell instantly took up the mission, cautioning the posse to remain quietly and await developments. Campbell could not see any of the Mexicans until he approached the depression in which they were hidden. There were eighteen in number including the whiteman who appeared to be the leader. He was apparently a German about 30 years old. It was he that did the talking. As soon as the posse had been sighted a guard was detailed to Buck with instructions to shoot him the instant they were fired on by the posse. This was made known to Campbell by Buck. The leader of the

## Distinction and Honor Given John Garner.

Washington, D. C. Sept. 10—For the next two weeks and possibly longer, Representative John Nance Garner virtually will be Speaker of the National House of Representatives.

The extraordinary honor and distinction of presiding in the House throughout the consideration by that body, sitting as committee of the whole House on the State of the Union, with the administration currency bill under consideration, were conferred upon Mr. Garner today by Speaker Champ Clark.

"The Speaker asks the gentleman from Texas, Mr. Garner, to take the chair and preside as chairman of the committee of the whole House on the State or the Union during consideration of this bill," announced the speaker shortly after the currency measure was taken up today.

As the Fifteenth District Congressman made his way toward the Speaker's dias both sides of the House applauded him generously. A moment later he was presiding, while Majority Leader Underwood and Minority Leader Mann on the floor were arranging a division of time for debating the bill.

Smugglers stated to Campbell that the only condition on which

they would be released was allowing them to proceed to the border without molestation. It was either this agreement or the death of Buck and perhaps several other members of the posse and after parleying for thirty minutes the agreement was made.

When Buck was turned over to the posse they saw that he was in bad condition and was about ready to collapse. He had carried nearly one hundred pounds of cartridges 20 miles with his hands tied behind him. His feet were swollen. He had had been punched in the abdomen and back with the barrels of guns as the many bruised places bore evidence, and in other ways tortured. Buck stated that he had been repeatedly threatened with death, and that he expected nothing else. He did not see the killing of the deputy Ortiz, as he had been pushed on ahead by part of the gang. Buck's condition was such that he was carried to Dentonia and a physician summoned. He was brought to his home at Carrizo Springs yesterday evening. His condition is not serious and he will be out in a few days.

## ONE MAN IN JAIL

Casimera Cruz, resident of Carrizo Springs has been jailed at that place. It is alleged that he delivered a wagon load of ammunition to the smugglers. Several guns, a quantity of dynamite and several thousand rounds of ammunition was abandoned.

## For the Man Who Shaves.

## SLEUTH OPPOSE TO "BAT" KANSAS CITY JUDGE FAVORS SPLIT SKIRTS

### Thinks There is Nothing Immoral in Either Slit or X-Ray Garments.

Kansas City, Sept. 9.—"There is nothing immoral in the slit skirt, diaphanous gown or any other form of woman's attire. Narrow skirts and trim figures do not mean immorality, as some insist. One of the most vicious epochs of society was when hoop skirts were worn."

This statement was made today by Judge Ralph S. Lathaw of the criminal court, when asked by persons furthering a campaign against extreme styles in women's dress for his opinion of their cause. The campaign is being conducted through churches and social organizations.

"The women of today," continued Judge Lathaw, "have only one idea in view—to dress in a manner that appeals to men. Well, hasn't it always been such?"

"Why, women and men should be ashamed of the most wonderful machine that ever has been made, and why women should be called immodest if she allows any part of that machine except her hands and face to be seen, is a question without an answer."

"I remember when it was considered immodest for a woman to arrange her coiffure in a manner that would show her ears. We have advanced."

### GOVERNING BOARD ISSUES STATEMENT

#### Urges Co-operation for Progressive Educational Measures in the State.

Austin, Tex., Sept. 9.—The executive committee of the governing board of the conference for education in Texas today gave out the following statement:

"Mr. Lee Clark, who for somewhat more than two years has rendered faithful service as general agent of the conference for education in Texas, has resigned, and has accepted a position in the state department of education. The executive committee of the board has appointed Mr. B. E. Satterfield of Terrell to serve as acting general agent until the next meeting of the governing board, which will be held in Dallas on education day, November 1, of the Dallas state fair, at which time the annual meeting of the conference will be held. It is confidently believed that the school men and the friends of education will, as heretofore, co-operate with the general agent of the conference in the promotion of a state-wide, all-the-year-around campaign for progressive educational measures, among which are:

1. The establishment and adequate maintenance of efficient rural high schools for the farmers' children.
2. The extension and improvement of professional, expert supervision for the country schools, in order that there may be guaranteed to the country children as good schools as are provided for the children of the town and city schools, which have reached a high state of efficiency because of vigorous and expert supervision.
3. The submission of a constitutional amendment by the next regular session of the legislature providing for the removal of the 50-cent rate of local taxation for the maintenance of public schools in the six hundred independent school districts and the common school districts.
4. The submission of a constitutional amendment by the next regular session of the legislature substituting majority rule in the levy of local maintenance taxes for the public schools in the 114 cities of the state in which the constitution now requires a two-thirds vote of the property tax-paying voters in order to levy a local tax for the maintenance of schools.
5. The adequate and dependable financial support by statutory enactment or by constitutional amendment, if necessary, for all of the state institutions of higher education, including the four state normal schools, the agricultural and mechanical college, the college of industrial arts, and the University of Texas.
6. The further development of enlightened public sentiment in favor of better school buildings, better teachers, longer school terms, an increased enrollment and attendance of school children, and more rational and effective school administration.

### BANDIT 'BILL MINER' DEAD

#### Real Name Was George Anderson. Was Member of Jesse James' Outlaw Band.

MILLEDEWILLE, Ga., Sept. 9.—Death has freed "Bill" Miner, notorious robber, jail breaker and "outlaw" member of Jesse James' prison term. His picturesque career, which included clashes with the laws of more than a score of states, and several Canadian provinces, ended late Tuesday night at the Georgia state prison farm near here. He has been ill for several months from gastritis. He was 75 years old. Miner's criminal career began nearly sixty years ago. He left his home in Jackson county, Kentucky, before he was 15 years of age and went west. He admitted numerous stage coach robberies and train hold-ups, and was several times incarcerated for burglarizing banks.

For several years Miner was a member of the outlaw band led by Jesse James. His real name, he told prison authorities a few days before he died, was George Anderson.

Remarkable Remedy for Skin Diseases. While we were living in Montecriste, Texas, last winter and spring we had a severe breaking out on our face and it was so severe at times it made us get up at night. We put on some of our "Flux Cure" and only had to rub it on a few times till we had it cured.—H. Mendonhall, Audubon, Iowa. Positively guaranteed. No cure no pay. Price 50c. All dealers.

I buy snakes and animals, all kinds, highest prices. Bert J. Putnam, 50 Genesee St., Buffalo, N. Y. 9-18

## SLEUTH OPPOSE TO "BAT" KANSAS CITY JUDGE FAVORS SPLIT SKIRTS

Houston, Tex., Sept. 9.—"The reason so many penitentiary systems of the Southern States are not self-sustaining is not because the practice of whipping prisoners has been abolished, but that the penitentiary systems are often permeated with graft and corruption." Such was the statement of Dan L. Lehon, general manager of the Southern division of the Burns Detective Agency, at the Rice Hotel Wednesday night.

"The Burns Detective Agency is making a thorough investigation of the penitentiary systems of Mississippi. We have made startling revelations."

"I am absolutely opposed to the practice of whipping prisoners. It is a mistaken idea that the use of the 'bat' is an effective method of controlling them, as has been so well proven in the Northern penitentiaries. If prisoners can not be properly controlled without the use of the whip, it but proves the incompetency of the prison management. It has been proven in all of the up-to-date and successfully managed penitentiaries that prisoners can be best controlled when treated like human beings, which they are. There are much more effective methods of controlling the unmanageable type of prisoner than by the use of the whip. Brutal treatment of prisoners makes them more unmanageable and makes them more untrustworthy in the long run. Brutality and third degree methods do not characterize the work of the Burns Detective Agency, and nearly everybody admits now that these methods are becoming obsolete."

### OPPOSED TO WASTE; STOLE

#### New York Youth Took Jewelry From Hands of Dead Woman, Then Took Her Last Abode.

Albany, N. Y., Sept. 9.—Obsessed with a desire to "prevent waste," John Stephens, aged 19, son of an Albany merchant, last night robbed the grave of Mrs. Pauline Blum, who was buried Sunday. Young Stephens tonight confessed.

A workman about the cemetery discovered the desecrated grave today. The body lay in one end covered with earth. One finger, together with a ring, was missing, as were other rings and the inner coffin. A maid in the Stephens home tonight found the coffin in the cellar. She notified the family physician, who secured young Stephens' story. He passed the cemetery Sunday during the burial service. He thought, he said, it was a waste to allow the woman's jewels and the coffin to remain in the grave. Tuesday night he entered the cemetery and removed the body and carried the coffin and jewels home.

# THE COST OF WAR IS APPALLING

\$150,000,000 PER YEAR NOW FOR CIVIL WAR.

## WILSON IS PRAISED FOR FIRM MESSAGE

Old Newspapers Tell of Horrible Atrocities by U. S. Troops in Mexican War.

Washington, Sept. 9.—Woodrow Wilson won much praise by his message to congress on the Mexican situation. His praises were in every mouth, not so much because of what he said—there was nothing new in it—but because of the way he said it. He will find that the American people, without considering party alignments or sectional interests, will go with him "to the utmost length of patience and forbearance in this painful and anxious business."

What the effect of his deliverance will be on the warring factions in Mexico remains to be seen; but there is enough under the felicitous language of the president to excite serious reflection on the part of the present revolutionary governments in Mexico. It is so much better to handle such questions with kid gloves than with "bare knuckles," and there is great virtue in "steady pressure of moral force."

"Pray God," exclaimed an old soldier, "that there may be no war. War is a waste of human blood and human treasure; 'war,' as General Sherman expressed it, 'is hell.'" And Mexico knows by experience what war with the United States means.

**Cost of Wars to Nations.**  
Some very impressive figures have been compiled showing the fearful expense of this plan of settling matters of disagreement among nations. The American revolution cost Great Britain \$680,000,000. The cost of the French revolution in nine years, counting from 1793, was \$2,320,000,000. Napoleon cost France, from 1803 to 1815, \$5,795,000,000 or more than a million dollars a day. The European wars from 1793 to 1815 cost \$15,000,000,000.

What the sacrifice of human life was in all these struggles it would be impossible to estimate. From the beginning of our government, the United States, a peaceful nation, has expended on the war account \$7,318,792,233 in addition to \$4,619,655,700 in pensions. On account of service in the war with Mexico, which ended sixty-five years ago, the United States has expended in pensions \$44,872,144. Fifty-three years after the close of the war between the states the United States is paying more than \$150,000,000 annually in pensions to its soldiers.

**Former War With Mexico.**  
In 1850 the American Peace Society offered a premium of \$500 for "the best review of the Mexican war on the principles of Christianity and an enlightened statesmanship." The premium was awarded to Abiel Abbott Livermore, who wrote a book of more than 300 pages, a copy of which was picked up a few days ago at an old bookshop here. The chief motive of the war with Mexico, Mr. Livermore asserted, and with abundant quotations from the utterances of Mr. Calhoun and other statesmen of the period to sustain his view, was the extensions of slavery.

The war lasted within a few days of two years. First and last, 100,000 Americans were engaged in Mexico. The Northern States furnished 22,135 volunteers and the Southern States 42,213. The northerners generally enlisted for the war; the southerners for one year or less, to earn money. More died of disease than were killed in battle; one authority reckoned that the proportion was about 5 to 1.

It was stated in a speech delivered in congress that the number of men discharged on account of sickness or disability was at the rate of about 80 per cent a year. Multitudes of Mexicans perished. In two years not less than 40,000 lives were sacrificed on both sides.

The climate was against the soldiers of both armies in the field, and the climate has not changed. Is it any wonder that the president should prefer to settle the present disturbed conditions in Mexico by peaceable rather than warlike means?

**Business Side of War.**  
This is the human side of the war with Mexico. There is another side—the business side. The direct expenditures on account of this war amounted to \$106,258,907. This, said Mr. Livermore, "is the sum of the positive expenditures, independently of the endless array of bounties, pensions and claims which will now pour like the Gulf Stream into congress."

The indirect expenditures amounted to fully as much as the direct expenditures so that "this war cost the United States, directly and indirectly, at a moderate computation, \$200,000,000 and it cost Mexico, directly and indirectly, an equal sum."

**Horrible Atrocities.**  
Beside the loss of life and the destruction of property, there were crimes committed by the invading American army that can be compared only to the most horrible of the atrocities perpetrated in the recent war in the Balkans. In describing the march of a body of American troops from the Rio Grande toward Monterey a correspondent of the Louisville Journal said:

"The march of the regiment from the lawless character of some of those composing it, was everywhere marked by deeds of wanton violence and cruelty. Along the whole extent of the march, ranches were burned, cattle were shot, hogs and poultry were slaughtered at the very feet of the women and children that owned them."

The Monterey correspondent of the Charleston Mercury wrote after the capitulation of the city:

## A SCHOOL FOR BOYS

The San Antonio Academy, Opposite Beautiful San Pedro Park, a Select and Particular School for the Young Man.

You expect a fruit tree to bear fruit; you are not satisfied with a fine display of leaves. It is an easy matter for a school to print a fine catalogue, to mark out a long course of study, to talk glibly of University preparation; it is a far different thing to stand after years of faithful toil, and present to the world the clear proofs of successful work. Twenty-five years ago the San Antonio Academy was founded with the promise that, in addition to its primary and intermediate departments, and its business course, it would afford a thorough preparation for the best colleges and schools of science. How well it has kept this promise, let the following record testify:

Pupils trained in this school have entered or are to enter in September the following institutions: Princeton University, Princeton, N. J.; Cornell University, Ithaca, N. Y.; Columbia University, New York, N. Y.; McGill University, Montreal, Can.; University of Pennsylvania, Philadelphia, Pa.; University of Virginia, Charlottesville, Va.; University of Texas, Austin, Texas; Vanderbilt University, Nashville, Tenn.; U. S. Military Academy, West Point, N. Y.; Tulane University, New Orleans, La.; Sophie Newcomb College, New Orleans, La.; Baker University, Baldwin, Kansas; Philadelphia Dental College, Philadelphia, Pa.; Dartmouth College, Hanover, N. H.; Elmira College, Elmira, N. Y.; Wilson College, Chambersburg, Pa.; Stevens Institute of Technology, Hoboken, N. J.; Michigan College of Mines, Houghton, Mich.; Pennsylvania Military College, Chester, Pa.; Southern Illinois Normal University, Carbondale, Ill.; Leland Stanford, Jr., University, Palo Alto, Cal.; Massachusetts Institute of Technology, Boston, Mass.; Lafayette College, Easton, Pa.; Rose Polytechnic College, Terre Haute, Ind.; Rensselaer Polytechnic Institute, Troy, N. Y.; Columbian University, Washington, D. C.; Nashville College, Nashville, Tenn.; Yale Law School, New Haven, Conn.; Jefferson Medical College, Philadelphia, Pa.; Western University of Pennsylvania, Allegheny, Pa.; University of Chicago, Chicago, Ill.; Armour Institute of Technology, Chicago, Ill.; State School of Mines, Golden, Col.; University of California, Berkeley, Cal.; University of Alabama, University, Ala.; University of Missouri, Columbia, Mo.; Washington University, St. Louis, Mo.; Purdue University, LaFayette, Ind.; University of Wisconsin, Madison, Wis.

This simple statement is enough to show the extent of our course of study, while the quality of our work is manifested from the fact that in these higher institutions our students have won high honors in competition with representatives from the most famous schools in the land. The distinguishing feature of our instruction is its thoroughness. The small classes render it possible to combine the best features of private drill with the stimulus of class room work, giving each pupil a large share of the personal attention of the teacher. The course of study is flexible, and each student is so classified as not to be held back through a deficiency in one or two branches. The teachers make every effort to teach the pupil how to study, to awaken a hearty interest in the work taught, and to promote habits of persistent work. The Academy believes in short lessons thoroughly mastered, and allows no one to be dragged on in his class with half-learned lessons. In short, the aim of the instruction is to give students individual power, and to make strong, self-reliant scholars.

There are three departments in the school—Primary, Junior and Senior—and the courses of study cover a child's school life from the beginning through the preparation required for entrance to our best universities. We wish to correct the impression that the school does not *graduate* your pupils. On the contrary we prefer to lay our own foundation for us meet with no more serious difficulty than the lack of thorough elementary training. From the primary department the student passes into the junior department, where he is expected to master the elements of a grammar school education. This is one of the critical periods of a student's life. This is the age when mental habits are being formed and character is taking on its permanent shape. The best numbers in the world, after a child is fifteen, cannot repair the mischief done by the careless teaching of its earlier years.

Upon the solid foundation of its work in the earlier part of the curriculum, the Academy rests its senior department. Here, in widely varying courses, the pupils take the higher work leading to the universities. The work is shaped to meet the requirements of the particular university the student wishes to enter.

Personal care means much to you. You value the individual. Your boy must not be lost among the crowd, a mere unit on the roll of a large institution. And then you wish him shielded from the temptations and dangers that infest the crowded dormitories. (2.) It must not be a cheap school.

# San Antonio TEXAS LEADING EDUCATIONAL CENTER

This page of announcements shows that San Antonio is supremely endowed with schools and colleges. In any of the institutions enumerated your boy or girl will find a pleasurable and cultured environment. Every care and influence is exercised conducive to correct, moral, mental and physical development. These are long established places of learning, from which many of our most prominent men have acquired the foundation of their success. Here Commercial, Musical, Literary and Classical education may be secured from eminently competent directors, where accommodations, and healthful conditions offer many advantages over most "out-of-the-state" schools. Send your children to San Antonio schools, feel the comforting tranquility of their nearness; where you can closely watch their progress and keep within daily knowledge of their welfare.

## ST. MARY'S HALL

Get elegant free catalogue. Address SHAFER & DOWNEY, Proprietors, San Antonio, Texas. 605-611 E. Houston Street.

## LIGHTNING KILLS FARMER.

John Luoskey of Moffat Struck While Plowing.

Temple, Tex., Sept. 9.—While plowing in his field near Moffat, about seventeen miles west of this city yesterday, John Luoskey, a farmer, was struck by a bolt of lightning that seared and burned his body in a number of places and producing instant death. The man had been dead about two hours when found. A small thunderstorm blow up suddenly in the locality where the dead man lived and it was a bolt from a cloud in this storm that killed him. A wife and one child survive.

## LONG DROUTH IS NOW ENDED.

Half-Inch Rainfall Breaks Sixty-Day Dry Spell, Lowering the Temperature.

Oklahoma City, Okla., Sept. 9.—A sixty days drouth for Oklahoma City and the immediate vicinity was broken by a one-half inch rainfall Sunday afternoon at 5 o'clock. The precipitation was the first that has occurred since July 5, when a general rain occurred over the western and central part of the state. A drop of 20 degrees in temperature accompanied the rain.

## JACK JOHNSON TO FIGHT MORAN

Fight for Heavyweight Championship Arranged, It Is Said.

New York, Sept. 9.—Announcement was made tonight that a fight for the world's championship between Jack Johnson and Frank Moran of Pittsburgh, who last week defeated Al Pulzer in this city, was arranged today. It will take place in the Velodrome d'Hayne, Paris, France, in December.

## Earthquake Felt in Mantiniquie.

Fort De France, Sept. 9.—Thirty earth shocks occurred here early this morning, but no material damage is reported.

Most of us get what we deserve, but fail to recognize it. Severe Rheumatism.

Grass Hill, Ala.: Hunt's Lightning Ointment cured my wife of a severe case of Rheumatism and my friend of toothache. I surely believe it is good for all you claim for it.—A. E. Springer, 25 and 30c bottles. All dealers.

Of course you value economy, but business has taught you that cheap things are often very dear. You don't give your legal business to the lowest bidder. The cheapest doctor in town is not the one you care to employ. Why should your boy have unpleasant surroundings, meager fare, inferior teaching, just because they are cheap. There is neither economy nor prudence in cheap teaching. Trained talent in any profession can never be had for a song.

You at last decide that the school you are looking for is a home school of the best type. Its number must be small enough for every pupil to have close individual supervision, yet large enough to stimulate healthy rivalry among the boys. In such a school and under the care of able teachers your boy may learn not only what books have to teach him, but how to become a manly man with clear perceptions of right and a keen sense of duty.

Don't brag about yourself; let others do it for you.

inal relief in law equity. Plaintiff avers that defendant H. Hust is a temporary resident of Jackson County, Mo. ...

ORDINANCE Prohibiting Running at Large of Live Stock and Providing for the Impounding of Same.

Be it ordained by the City Council of the city of Cotulla, Section 1. It shall be unlawful for any person, being the owner or keeper or persons in charge of any cattle, horses, jacks, jennets, swine, sheep or goats, to permit the same to run at large within the corporate limits of the city of Cotulla, after being notified by the City Marshal to put the same up. ...

them within a secure pen or pound to be by him provided for that purpose. Section 2 Whenever any cattle or other animal is impounded under the provisions of Section 2, the Marshal shall proceed to sell the same to the highest bidder for cash, after having given ten days notice of the time and place of such sale by posting up a written or printed notice thereof in three public places in this city; provided, that the owner of such cattle or other animals may redeem the same at any time before the sale thereof, by paying one dollar per head for impounding fees, together with the reasonable expense of keeping the same. Section 4 The proceeds arising from impounding fees and sale of animal shall be deposited with the City Treasurer, and said Marshal shall keep a record thereof, and report same to the City Council; provided that the owner of any animal sold may make proof of such ownership satisfactory to the Marshal, whereupon he shall receive the net proceeds of such sale, after deducting charges for impounding and a necessary expenses. Section 5 The City Marshal shall be allowed such compensation for his service in impounding animals under the foregoing sections as the council may allow. Section 6 Any person who shall within this city, stake, tie or hitch any horse, mule, cow or any other animal, on any street, alley or sidewalk, so that the length of the rope or other hitch-rein from hitching post or weight to the animal, is of greater length than six feet, shall be deemed guilty of a misdemeanor and on conviction therefore shall be fined in any sum not to exceed twenty-five dollars. Adopted and passed by the City Council of Cotulla, on the 21 day of August 1913. R. A. Gougar, Mayor. C. E. Manly, Clerk. Increase tire mileage, vulcanize your casing. —H. E. Plummer.

## MISS ISOM COMPLIMENTED

Miss Stanfield and Miss Cora Keck complimented their guest Miss Isom, of San Antonio with a pretty party in the spacious rooms of the Wichmann home, last Friday evening.

Dr. and Mrs. Wichmann were most kind in assisting the young hostesses in making their guests comfortable and at home; and soon the merry crowd were busy with the jolly game of "Bunco." Seven tables of Bunco were played, and for a long time much fun and excitement was had.

The young hostess had arranged to serve their refreshments in tete a tete style, so the young men had to seek their partners by taking from the curtain in the room a slip of paper bearing a number on the back of the numbered slip was the name of their "vis a vis" and partner for the refreshments of ice cream and cake which Miss Stanfield and Miss Keck served after all had gotten their partners and were seated tete a tete.

After a time of conversation and enjoyment of the delicious refreshment, the guest were pleased to enjoy the splendid music rendered by several of the accomplished young ladies present. Miss Louise Bowen an accomplished vocalist, sang two numbers, Miss Jessie Copp and Miss Lucile Rogers sang one number each. All three of these young ladies have had good lessons in voice and show training in their sweet singing.

Miss Louise Bowen who plays well accompanied the voice selections and Miss Lauretta Binkley entertained in a delightful manner with several catchy tango, and turkey trot selections on the piano. After a merry time and at a late hour the young people bade their charming hostesses and the honoree, and Dr. and Mrs. Wichmann goodnight.

Those present were: The honoree Miss Isom, San Antonio, Misses Louise and Katherine Bowen, Lucy and Beatrice Barwell, Lauretta Binkley, Annie Lee Giles, Lucile Rogers, El Paso, Mae Sullivan, Jessie Copp, Annie Zachry, Eula Sutton, Miss Barnes, Mrs. Frank Keck, Mrs. Wichmann, the two hostesses, Messrs. O. A. Brown, Frank Keck, H. W. Hamilton, Albert Knaggs, Jno. Wildenthal, Price and Lea Daniel, Mr. Zachry, Jess Rock, Mr. Childs, Willie Keck, Phil Mewhirter, Everett Coleman, Dr. Wichmann.

## AN AFTERNOON PARTY.

Miss Binkley entertained a fine party Thursday afternoon September the 5th in compliment to Miss Genevieve Kerr of San Antonio. The rooms of the Binkley home were beautifully decorated, and comfortably arranged for Progressive Games. Five tables of Progressive Games were played. The contest for the pretty prizes displayed, was very exciting.

The first prize, a box of stationery, was awarded to Miss Elizabeth Kerr.

The consolation prize a pretty Blue Bird Pen was given to Miss Lucy Burwell. The honor guests prize; a Pansion Ivory Buffer was given to the honoree Miss Genevieve Kerr. Delicious fruit Punch was served all during the games, by Miss Aicene Kerr and Alva Gaddis.

These two maids, will soon be on the debutantes list, and have already begun taking instruction in the "Social Arts," under their mammas' and sisters.

At the conclusion of the games, an ice course was served, by these same dainty servers.

The voice selections given by

Louise Bowen, and Miss Lucile Rogers were much enjoyed, as were the instrumental selections given by Miss Katherine Bowen.

When "Down sank the great red sun and in golden gleaming vapors, veiled the light of his face," the guests made their adieus to the charming hostess and honoree, feeling as did the same Poet, when he said, "Swift our pleasures glide away."

Our hearts recall the distant day with many sighs.

Those present were Genevieve Kerr, San Antonio, Lucile Rogers El Paso, Annie Lee Giles, Carrie Knaggs, Annie Merriman Rose Earnest, Louise and Katherine Bowen, Lucy and Beatrice Barwell, Mary, and Elizabeth Kerr, Alice Kerr, San Antonio, Alva Gaddis, Mrs. Ida Merriman Mrs. Ozella Henderson; and the hostesses.

Mrs. Edd Traylor, was hostess to the Saturday afternoon 500 Club, last Saturday afternoon at the regular hour.

Three tables were played, and the games were played with zest, and interest. Miss Laureta Binkley's name was added to the Club Roster.

Mrs. Armstrong was also in attendance on this occasion.

Mrs. Traylor, passed a salad course, sandwiches, and ice tea.

The Presbyterian Ladies were entertained last Thursday afternoon the 5th, inst. by Mrs. Childs. Twelve members, and two visitors were greeted, and royally entertained by this very hospitable hostess.

The visitors were Misses Mae Sullivan and Edith Daniel.

Mrs. Childs, and Miss K. Barwell together conducted the devotions; and Mrs. Thompson taught the regular Bible lesson.

Some business plans were discussed that will be made public later on.

The social hour was delightfully spent in conversation, and discussions of new undertaking for the society: The hostess passed ice cream, and home made cake. The next hostess will be Mrs. J. H. Gallman, and the word for discussion is "Ready."

The Baptist Ladies were entertained Tuesday Afternoon at their regular hour; by Mrs. Lacy, and Miss Imogene.

There were eighteen present, the ladies were delighted to greet, Rev. Mr. Keeling, and Mrs. Keeling, on this occasion. Mrs. Keeling's name was added to the Roll of the society.

Mrs. Binkley taught the regular Bible lesson, and made a most excellent teacher; and a splendid lesson was enjoyed. Mrs. W. E. Earnest who is a member of the society, but can not attend often on account of being remote from town, was present, her co-workers were pleased to see her.

During the social hour Miss Imogene Lacey passed delicious Pine apple Sundaes and two kinds of cake. The society will meet next Tuesday at the church, for the purpose of electing new officers.

The lesson will begin with the 24th chapter and finish Chronicles with Mrs. Cohenour as teacher. A full attendance is earnestly desired.

# WHAT, WHEN AND HOW TO EAT

## Many Things That People Do That Seriously Injure Their Health.

By EUGENE CHRISTIAN, F. S. D.

(Copyright, 1912, by American Press Association.)

**F**ROM the way people cling to life, from the measures they adopt to avoid disease, one would think that their most profound study would be the laws that would make them healthy and extend their period of life, but when we examine their habits, when we put the conduct of the human family beneath the searchlight of science, we find that most of the things they do tend toward shortening their life period and toward the production of disease. This is rather a gloomy aspect of the question, but it is true.

The dreary optimist who can see sunshine through the darkest cloud is not always the best friend to humanity; neither is the pessimist who sees nothing but the cloud, but the true friend of humanity is the one who can stand midway between and see the facts as they exist and tell them in plain language and thereby relieve suffering and aid in extending our period on earth. This is what I have endeavored to do.

As stated in one of my previous articles, man gets his growth at about twenty-four years and dies at little less than thirty-nine. If he should live eight times his period of maturity, as do all other animals, his period of life would be about 200 years. The fact that he does not do this is evidence conclusive that there is something

TOO FAT FOR HEALTH TO WORK WITH PROPER EASE.

thing wrong—that he is committing some fundamental error that is shortening his life and rendering him, less able to enjoy the time he does live. The purpose of this article is to point out some of these mistakes and suggest a few remedies.

**Wrong Eating.** Man is by nature a vegetarian. From this healthy and natural custom, however, he has departed and preyed like a wild beast upon his brother animals. When we take the flesh of another animal into our bodies we must take in the uric acid, the toxic carbon dioxide and carbon monoxide poisons that reside in all flesh food. This adds greatly to the same poisons that are residual in our own bodies. Inability of the system to throw off these poisons causes disease and shortens life.

Instead of studying our diet as we would our business and balancing our food as we would our cash, we eat at haphazard. It is a system of guesswork and the most skillful mechanics and the most learned of our population are called upon to construct our houses and machinery, to cut and make our clothes, but the most ignorant of our population lay out our diet.

The city people are fed from subcellars. The food is selected, prepared and combined by uneducated persons who neither know nor care anything about the harmonious chemistry of the things they serve. The one primary object is to appeal to the taste, which causes people to eat more than they should.

**Food Should Suit Age.** Bread is the great American staple of diet, and yet cereal starch—that is everything made out of corn, wheat, rye, oats, barley or rice—is

difficult of all foods to digest and convert into energy. Food should suit age.

These cereal products are composed largely of starch. The principal purpose of starch is to make bone, cartilage and teeth. When a person is grown, middle aged or old he needs but very little of these foods, and yet starch composes probably 50 per cent of the human diet. Inability of the body, therefore, to cast out this great excess of unused matter is the cause of a tremendous amount of disease, such as stomach and intestinal fermentation, intestinal gas, rheumatism, Bright's disease, sclerosis of the arteries and liver and consequent nervousness and insomnia. A book could be written upon the evil effects of cereal starch, and the subject would not be exhausted.

The overconsumption of acid fruits is another fundamental error in nutrition. If we were living in the tropics, where the pores of the skin were constantly open, the body could eliminate and volatilize a great deal of acid, but in our northern climate such articles as grape fruit, lemons, limes, pineapple, apricots and all sour fruits should never be taken except in exceedingly hot weather. When taken at other times the tendency is to ferment other foods, crystallize the starch atom which makes the blood crystal, which in its turn makes rheumatism, gout, lumbago, knotted hands and feet, stiffness and premature old age.

The overconsumption of sweets is another mistake in our diet. The carbohydrate (starch and sugar) element is prominent in nearly all of our foods, and when we add to this pure concentrated cane sugar in any quantity, especially in the hundreds of combinations which compose the desserts on the average table, we are burdening the digestion and assimilation of our food and especially the elimination of waste and the failure of the body to utilize sweets and throw off the excess is a most prolific source of disease.

**Overeating.** Overeating is one of the greatest enemies of civilized people. There is nothing more conducive to this habit than the average "good dinner," composed of six to a dozen courses. We eat all that we should of probably some good, plain food, then we change from one thing to another, appealing to a different set of taste buds with each change, until we have laden the stomach with twice or perhaps three times as much food as the body needs.

If the stomach cannot dispose of its indigestion, fermentation and sour stomach result. This poisons every ounce of food that passes through the intestinal tract. If the stomach can dispose of it and it is taken into the cells it becomes a superfluous load, with adipose tissue that we do not need and that it loses no item of strength to

its support. It is as much a burden as carrying so much brick on our shoulder day in and day out.

The surplus fat accumulates around the vital organs, limiting the capacity of the lungs to purify the blood. It also accumulates around the heart, making the action of that much overworked organ more and more difficult. This is why fat people have no endurance and often fall down with vertigo and dizziness.

Endurance is measured almost entirely by the ability of the lungs to oxidize and purify the blood.

**Wrong Drinking.** In addition to man's "civilized" errors in eating, he has made nearly as many mistakes in his drinking habits. Pure water, designed by nature as the great universal solvent, the helper, the digester of foods, the maker of good blood, is the last thing man seems to want to drink. Instead of this purifying, life giving beverage, he takes whiskey, brandy, cordial, rum, gin, beer, wine of a hundred kinds, fermented grape juice and the hundreds of soda fountain concoctions, bubbling, sparkling vehicles, sharp tasting carbonated waters, anything and everything except the pure article.

In addition to these mistakes the old dieticians have told him for a hundred years not to drink with his meals, the hypospasis of these good old teachers being that water diluted the gastric juice. Modern science shows that this is the very thing that should be done; that man does not take enough water with his food.

The normal human body is composed of 65 per cent water, and the average man is composed of only 25 to 30 per cent water. If this difference is not made up by drinking pure water, then the stomach calls to its aid a large amount of gastric juice, which robs the body of its normal amount of moisture and sours and ferments the food. Every meal, therefore, should be composed of 60 per cent water, but the liquid should be water, nothing but water.

**Tobacco and Liquor.** The tobacco and liquor habits are probably the most universal and the most injurious vices of civilized people. Liquor is a stimulant that not only debilitates the reason, but poisons the body, and thus the heart action is quickened in the effort of nature to oxidize and cast out these poisons. While tobacco is a sedative which paralyzes, as it were, and slows down the action of the heart and the general circulatory and vital processes.

All the mistakes and errors I have mentioned are difficult, troublesome, expensive and worse than useless. Man's health would be as much superior to what it now is as pure water is superior to beer and whisky if he would obey the simple laws of his organization, and his period of life would gradually increase until in a few generations he could live out his natural period of 200 years if he would obey the three great fundamental laws of life—natural eating, natural exercise and natural breathing.

# "LIV-VER-LAX" FOR SICK HEADACHE.

It is Your Inactive Liver and Clogged Bowels, Liv-ver-Lax is the Panacea For all Liver Troubles and Constipation.

You are bilious, your thirty feet of bowels become clogged up, poisonous gasses are generated in the bowels and thrown out in the system, your head aches, you have chills and fever, you are nervous and ill tempered, your system is full of bile not properly passed off, your disordered stomach and biliousness cannot be regulated until you remove the cause.

It is not your stomach's fault. Your stomach is as good as any. Try Liv-ver-Lax, it is purely vegetable, do not resort to harsh physics and calomel which ruins the system and softens the bones. Liv-ver-Lax acts gently, yet positively on the liver, stomach and bowels, it is pleasant to take, and does not gripe or sicken.

It is recommended for grown ups and babies alike.

You will be surprised at the amount of bile a bottle of Liv-ver-Lax will clean out of your system.

Buy a regular 50c or \$1.00 bottle from N. C. Windrow's and be convinced on our guarantee. Manufactured by Lebanon Co-operative Medicine Co., Lebanon Tenn.

None genuine without the likeness and signature of L. K. Grisby.

## All Bound Round with a Telephone Line

In a Bell connected community it's not "how far is it to neighbor Perkins?" But "Is neighbor Perkins' ring three?" The ring of a bell and you have him. In marketing, in matters of farm routine, in emergencies, the telephone adds to the farmer's ease and profit. Are you connected with the Bell system? Ask our nearest Manager for information or write to THE SOUTHWESTERN TELEGRAPH AND COMPANY, DALLAS, TEXAS.

# Somerset Oil Field

Are You Interested in Oil Speculations

If so, now is the time to buy lots in the SOMERSET OIL FIELD. With the present amount of oil that the one well is pumping would justify you in buying a lot at the present price, \$30.00. Others have made fortunes on small investments. WHY NOT YOU?

## SEE OUR GUARANTEE

THE NASH OIL COMPANY has given a bond of \$5,000.00 to guarantee the sinking of this well, thereby assuring all that buy lots that this well will be put down to the depth of 1100 feet, providing oil is not found in paying quantities at less depth. We further give to all parties buying these lots an interest in the well to be put down. We also have four expert drillers who will look personally to the interest of drilling this well. Should they fail to get oil they will lose their entire time, so it is strictly an oil proposition.

## SEE OUR LOCATION

We join the SOMERSET OIL FIELD on the southwest, which has been pronounced to be the choicest located tract in the field. We are about 2000 feet from the well being sunk in the townsite. We have 24 acres divided into lots 25x50, with a 10-foot driveway. Should any of the several wells now being drilled come in, you could not buy one of these lots for several times what we are offering them for now.

**WE WANT LIVE AGENTS  
Pay You to Investigate**

CORN CROP OF BROWNSVILLE IS A BUMPER  
AVERAGE YIELD IN LOWER RIO GRANDE VALLEY AROUND SEVENTY BUSHELS.

Brownsville, Tex., Sept. 9.—The heaviest corn crop of any section of Texas is now being harvested in the Brownsville country. The yield averages from sixty to seventy bushels per acre, while the ears of corn are large, well filled and of excellent quality. The farmers are now busily engaged in gathering the crop, for which they have at all times had a ready market bringing good prices. From every railroad station in the Lower Rio Grande Valley carloads of corn are being shipped daily.

Just so soon as the corn crop is harvested, the farmers will compare the land for the next crop. In May and February, the truck crop to be followed by another crop of corn which will be ready to be harvested by the time the prices of corn have reached the high water mark.

Five years ago it was claimed by many that this would never be a corn country; that only the native Mexican June corn could be grown here with any degree of satisfaction. However, a few optimistic farmers believing otherwise, imported corn seed from the Northern corn belts and to their satisfaction found that corn, as good as can be found anywhere in the United States, could be produced here. Their example was followed by others until it has been demonstrated that the Brownsville country will produce corn that will compare with that produced by any other section and that by means of irrigation, all fears of a drought are dispelled and while the crops in other sections of the country have been ruined by long and continued drouth, the Brownsville country produces bumper crops that bring high prices to the farmers.

Sutherland Springs, Tex., Sept. 9.—A shower here this afternoon laid the dust nicely and cooled the atmosphere. The oft recurring showers of the past few weeks have gone far toward insuring a fall crop of feed, and there is some hope of a top crop of cotton, if frost does not come earlier than usual.

Elgin, Tex., Sept. 9.—The weather for crop gathering continues propitious in this section and the farmers are pushing the work to the utmost. The cotton is being gathered as rapidly as possible and the gin hands are kept busy both day and night. Much fall planting has been going on for the past week.

Marfa, Tex., Sept. 9.—Rain has fallen in this vicinity almost incessantly for three days and nights. Sediment in the history of Marfa has so much rain fallen here at this season.

Potter, Tex., Sept. 9.—A light rain fell here Saturday, accompanied by a strong wind, but little damage was done. Cotton pickers are in great demand. Everybody is anxious to get his cotton picked before the rains damage it.

Gollad, Tex., Sept. 9.—It is conservatively estimated that the cotton yield over Gollad county this season will not average a bale to five acres. Some fields in portions of the county are yielding a half-bale an acre, and considerable acreage is turning out a quarter and better, but on the other hand there are fields on which the crop amounts to practically nothing. The northern end of the county is perhaps hit the hardest, the weevil being very destructive there. The best crops are along the San Antonio River valley. The cotton so far has been extra fine quality and the crop comparatively an inexpensive one. Up to Saturday about 2250 bales had been ginned here by the three gins, and 1000 bales turned out at the Riverdale gin, with cotton still coming in at a lively rate. Twelve and three-eighths for lint cotton was the price being paid here Saturday. Cotton pickers are at a premium, hands just cannot be procured.

**CITATION BY PUBLICATION.**  
J. T. Fulshar, Plaintiff  
Versus  
Mrs. Cynthia R. Burris, A. S. Burris, her husband, the unknown heirs of William Clary, deceased, George W. Clary and the unknown heirs of George W. Clary, deceased. Defendants.

In the District Court of LaSalle County, Texas, 49th Judicial District.

**THE STATE OF TEXAS:**  
To the Sheriff or any Constable of LaSalle County, GREETING:

You are hereby commanded that by making publication of this Citation in some newspaper published in the County of LaSalle, once in each week for eight consecutive weeks previous to the return day hereof, you summon Mrs. Cynthia R. Burris, A. S. Burris, her husband, the unknown heirs of George W. Clary, deceased, George W. Clary and the unknown heirs of William Clary, deceased, to be and appear at the regular term of the District Court of the 49th Judicial District of Texas, to be held at the Court House of said LaSalle County, on the 21st day of March, A. D., 1931, in a suit numbered on the docket of said Court No. 1064, wherein J. T. Fulshar, Plaintiff, vs. Mrs. Cynthia R. Burris and her husband, A. S. Burris, the unknown heirs of William Clary, deceased, George W. Clary and the unknown heirs of George W. Clary, deceased, defendants, said petition alleging substantially as follows, to-wit:

That the plaintiff is the owner in fee simple of a certain parcel of land and premises, situated in LaSalle County, Texas, and was such owner on the 1st day of November, A. D., 1913, and on March 24, 1913, in a suit numbered on the docket of said Court No. 1064, wherein J. T. Fulshar, Plaintiff, vs. Mrs. Cynthia R. Burris and her husband, A. S. Burris, the unknown heirs of William Clary, deceased, George W. Clary and the unknown heirs of George W. Clary, deceased, defendants, said petition alleging substantially as follows, to-wit:

That the plaintiff is the owner in fee simple of a certain parcel of land and premises, situated in LaSalle County, Texas, and was such owner on the 1st day of November, A. D., 1913, and on March 24, 1913, in a suit numbered on the docket of said Court No. 1064, wherein J. T. Fulshar, Plaintiff, vs. Mrs. Cynthia R. Burris and her husband, A. S. Burris, the unknown heirs of William Clary, deceased, George W. Clary and the unknown heirs of George W. Clary, deceased, defendants, said petition alleging substantially as follows, to-wit:

Application by Dan DeSpain to purchase said land addressed to the Commissioner of the General Land Office, recommended by obligation to pay the State of Texas \$500.00 on or before forty years from date, with interest payable annually at the rate of three per centum per annum, and with cash payment of one-fourteenth of one per centum per annum, and obligation dated December 7th, 1917, and awarded April 22, 1928, by Baker, Commissioner General Land Office.

Quit claim deed executed by Dan DeSpain and wife, Ellen 14th day of January, A. D., 1922, conveying this tract as an undivided whole to W. D. Lee and Mrs. M. E. Clary.

Quit claim deed executed by W. D. Lee and wife, Effie Lee, December 27th, A. D., 1922, conveying undivided one-half interest in said tract to B. A. Gilmer.

Quit claim deed by Robert A. Gilmer, December 10th, A. D., 1922, conveying to John H. Coleman his undivided one-half interest in said tract, and retaining vendor's lien to secure payment of one rate for \$20.00 due six months after date, dated 10th day of December, A. D., 1922, signed by John H. Coleman, payable to Robert A. Gilmer and bearing eight per cent interest.

Release of said vendor's lien by Mrs. Joan M. Gilmer, executrix, and B. Willdenhall, executor of the estate of Robert A. Gilmer, deceased, executed by said parties, dated July, A. D., 1926, said parties having daily applied for probate of said will, and testament of Robert A. Gilmer, deceased, in the County Court of LaSalle County, Texas, twenty-seventh day of April, A. D., 1926, and said parties having been daily appointed by J. C. Thomas, County Judge of LaSalle County, Texas, and said Mrs. Joan M. Gilmer and B. Willdenhall having been daily appointed by him executrix and executor respectively, July, A. D., 1926.

Warranty deed executed by John H. Coleman and wife, M. E. Coleman, conveying to S. R. Anderson one-half undivided interest in said tract, and retaining Special Warranty deed executed by M. E. Clary, a feme sole, the twenty-seventh day of May, A. D., 1926, conveying to S. R. Anderson all of her undivided one-half interest in said Section 86, and warranting against every person, singular or otherwise, claiming or to claim the same, or any part thereof by through or under the said S. R. Anderson and wife, Mary Anderson, fifth day of July, A. D., 1926, conveying to J.

D. Abney, executor of the estate of N. T. Abney, deceased, all of Section 86, retaining vendor's lien to secure payment of one rate of even date due one year from date, for twelve hundred dollars (\$1200.00), signed by J. D. Abney, executor, payable to S. R. Anderson or order.

Transfer to Cotulla State Bank of said land, executed by S. R. Anderson, twenty-fifth day of January, A. D., 1927.

Release of said lien executed by Cotulla State Bank to J. D. Abney, executor, fourth day of February, A. D., 1927.

Decree of partition, rendered in District Court, Hill County, Texas, fourteenth day of February, A. D., 1928, setting aside to Jack Transportation Co., LaSalle County, Texas, said Section 86, Certificate 121, Texas, (besides other property said decree being rendered in conformity with the provisions of the will of Mrs. N. T. Abney, deceased, as recorded in deed records of LaSalle County, Texas, Vol. "P-1," page 286-288, and in conformity to report of commissioners of partition duly appointed in Cause No. 8056, District Court, Hill County, Texas.

Warranty deed executed by J. D. Abney, twenty-fourth day of December, A. D., 1926, conveying to L. B. Haines all of Section 86, Certificate No. 121, Rusk Tr. Co., LaSalle County, Texas.

Warranty deed executed by L. B. Haines and wife, sixteenth day of October, A. D., 1923, conveying to J. T. Fulshar of the County of Guadalupe, State of Texas, all of section 86, Cert. 121, Rusk Tr. Co., LaSalle County, Texas.

S. R. Anderson paid Mrs. M. E. Clary at the time he purchased from her the one-half interest in said Section 86 owned by her, the full reasonable cash market value of said one-half interest at that time. At the time she sold such half interest to the community of Mrs. M. E. Clary and her deceased husband, William Clary, she was hopelessly insolvent, J. D. Abner paid S. R. Anderson, at the time he purchased the Section from him, the full reasonable cash market value of same at that time. At the time she sold such half interest to the community of Mrs. M. E. Clary and her deceased husband, William Clary, she was hopelessly insolvent, J. D. Abner paid S. R. Anderson, at the time he purchased the Section from him, the full reasonable cash market value of same at that time.

The claim of the defendants so far as known to plaintiff is as follows:—They assert title to this land as the heirs of William Clary, deceased, who was the father of George W. Clary and of Mrs. M. E. Clary, at the time that said Mrs. M. E. Clary at the time she was the wife of George W. Clary, the same being the known heirs assert title by inheritance from or through him, William Clary died on the twenty-eighth day of June, A. D., 1903, intestate, and said George W. Clary was at that time living. The deed of conveyance to Mrs. M. E. Clary, et al., to the title to this land as her separate property and, taking advantage of this omission, would represent that it was community property of Mrs. M. E. Clary and William Clary, and not the separate property of Mrs. M. E. Clary, her husband, now deceased, but that in truth, the same was divided interest in and to such tract conveyed to Mrs. M. E. Clary by Dan DeSpain and wife, Ellen at the time that said fourth day of January, A. D., 1922, was by them conveyed to her as her own sole separate property, to be and to be held by her for her own sole and separate use and benefit free from any other right, title or interest in any other person, singular or otherwise, claiming or to claim the same, as bought by Mrs. M. E. Clary herself in

per own name for herself for sole and separate use and benefit and was paid for entirely by her out of her own separate property.

If it should appear to the Court that any of the separate funds of William Clary or any of the community funds of William Clary and Mrs. M. E. Clary were used in paying for said tract, plaintiff prays that said funds so used were a gift from William Clary to his wife, the said Mrs. M. E. Clary.

It was expressly or impliedly agreed and understood by and between Mrs. M. E. Clary and William Clary and the heirs of said William Clary and all other parties, having an interest therein, that the interest in said Section 86 conveyed to Mrs. M. E. Clary, whether purchased with separate funds of William Clary or community funds of William Clary and Mrs. M. E. Clary, or any other funds whatever, was to be and remain the sole and separate property of Mrs. M. E. Clary. The failure of the deed of conveyance to designate as her separate property was due entirely to mistake or omission of one of the parties preparing said deed.

Plaintiff prays that the Court decree that the interest in said Section 86 conveyed to Mrs. M. E. Clary, whether purchased with separate funds of William Clary or community funds of William Clary and Mrs. M. E. Clary, or any other funds whatever, was to be and remain the sole and separate property of Mrs. M. E. Clary, and that the interest in said Section 86 conveyed to Mrs. M. E. Clary, whether purchased with separate funds of William Clary or community funds of William Clary and Mrs. M. E. Clary, or any other funds whatever, was to be and remain the sole and separate property of Mrs. M. E. Clary, and that the interest in said Section 86 conveyed to Mrs. M. E. Clary, whether purchased with separate funds of William Clary or community funds of William Clary and Mrs. M. E. Clary, or any other funds whatever, was to be and remain the sole and separate property of Mrs. M. E. Clary, and that the interest in said Section 86 conveyed to Mrs. M. E. Clary, whether purchased with separate funds of William Clary or community funds of William Clary and Mrs. M. E. Clary, or any other funds whatever, was to be and remain the sole and separate property of Mrs. M. E. Clary.

Plaintiff prays that the Court decree that the interest in said Section 86 conveyed to Mrs. M. E. Clary, whether purchased with separate funds of William Clary or community funds of William Clary and Mrs. M. E. Clary, or any other funds whatever, was to be and remain the sole and separate property of Mrs. M. E. Clary, and that the interest in said Section 86 conveyed to Mrs. M. E. Clary, whether purchased with separate funds of William Clary or community funds of William Clary and Mrs. M. E. Clary, or any other funds whatever, was to be and remain the sole and separate property of Mrs. M. E. Clary.

## JOHNSON TO STAY AWAY

LONDON, England, Sept. 2.—Jack Johnson, the negro pugilist, has come to fill London theater engagements. On his arrival Johnson was not backward in voicing his indignation toward Americans for their treatment of him. He said they cheated him out of \$100,000 by continued persecution. Asked if he intended to return to America Johnson said: "No, I have enough property in France and I am going to settle there. I have many friends in America, but when I meet them I hope it will be in heaven, not in America."

## VITALIZED MINERAL ORE

A NEW DISCOVERY—THE GIFT OF LIFE—A MONUMENT OF HEALTH—A HOOD TO THE SICK—A MINERAL SPRING AT YOUR DOOR.

An old mine digging away, day in and day out, year after year, in a dark, dreary and desolate mine in the bowels of the mountains in the State of Georgia, accidentally discovered a mineral ore more valuable to him than the most dazzling, sparkling diamonds that ever glittered for it gave him health.

This man was cured of Rheumatism, Stomach, Kidney and Bladder troubles of 19 years' duration by drinking the water which came from the ore bed from which this great mineral is taken.

Here is the analysis of the ore made by the State Chemist of Georgia, Prof. E. P. White:

Carbonate of Iron	68.87
Carbonate of Calcium	4.53
Carbonate of Sodium	1.12
Carbonate of Lithium	1.26
Carbonate of Strontium	2.26
Carbonate of Magnesium	2.23
Sulphate of Magnesium	3.02
Sulphate of Sodium	3.57
Chloride of Sodium	2.30
Sulphate of Potassium	2.51
Sulphate of Iron	5.91
Sulphate of Silicon	2.25
Sulphate of Aluminum	Trace
Organic matter	2.54

This wonderful mineral has been tested and is now being prescribed by many leading physicians for the treatment of Rheumatism, Kidney, Bladder and Stomach troubles, Female Weakness, Piles, Inflamed Sore Eyes and many other diseases caused by impure blood. Write for testimonials.

A package containing one month's treatment by mail for one dollar.

VITALIZED MINERAL ORE CO.  
Box 262, Galveston, Texas.

## EX-KING MANUEL MARRIES A PRINCESS

**Wedding of Manuel and Augustine Victoria at Sigmaringen Is Brilliant Affair.**

Sigmaringen, Germany, Sept. 9.—Manuel, former king of Portugal, and Princess Augustine Victoria, daughter of Prince William of Hohenzollern, were married here.

Sigmaringen had never before been the scene of such an assemblage of princes and princesses. At the church they formed a brilliant group in their varied uniforms, glittering with orders, and they were surrounded by many prominent military and civil personages, also in gala costumes.

The persons of royal blood present included the queen mother, Amelie, of Portugal; the prince of Wales, representing King George of England; Prince Eitel Friedrich, representing the German emperor, the duke and duchess of Coburg; Infante and Infanta Carlos of Spain, representing the king and queen of Spain; the duke of Genoa, and the duke and duchess of Oosta, representing the Italian royal family; the duke and duchess of Vendome, and the duke of Montpensier, representing the Bourbon family; the duke of Oporto, uncle of King Manuel; Prince Carlo and Princess Elizabeth, Prince and Princess Henry XXXIII of Reuss; Princess Friederich of Hohenzollern, the grand duke and grand duchess of Baden, several members of the royal Wurttemberg family and of the Portuguese royalty.

Immediately after the performance of the ceremony at the church a homily was addressed to the newly married couple by the Prince Abbot of Einsiedeln.

After the return to the palace ex-King Manuel and his bride received depositions representing the various classes of citizens, who presented congratulations and wedding gifts.

The reception was followed by a luncheon, after which the pair departed on their honeymoon. The royal guests remained at the castle, where a gala dinner was arranged for the evening.

## REPORTED THAT HUERTA PLANS TO RESIGN

**Reported Huerta Plans to Resign. Developments Are Expected Rapidly—W. B. Hale Lays Results of Mexican Trip Before President Wilson Today.**

WASHINGTON, Sept. 9.—William Bayard Hale, who spent the last three months studying the political conditions in Mexico, laid before President Wilson today information he gathered about the Huerta government and also conferred with Secretary Bryan. It was understood he gave them an intimate description of the negotiations conducted by John Lind and the Huerta officials up to a week ago today when he left Mexico City.

Dispatches from Mexico City saying prominent Mexicans believed Huerta would resign in favor of Geronimo Trevino and thus make himself an eligible candidate for the presidency lacked confirmation here, but the news was not surprising to administration officials.

While they are still hoping for definite assurance that Huerta will not be a candidate, they realize that a plan to install him in the presidency has been under way for some time.

No inkling has been given as to the administration's future policy should Mr. Lind's efforts prove fruitless, but developments either of an affirmative or negative character are expected soon, which will affect the Washington government's policy.

## HUERTA TO RESIGN?

News Comes From Mexico City to This Effect—Trevino to Succeed. City of Mexico, Sept. 9.—The General Victoriano Huerta intends to quit the presidency in favor of General Trevino and become a candidate at the October elections is the statement made last night by a well-known Mexican close to the administration.

General Trevino is making his way to the capital and little effort has been made to disguise the fact that he has been officially summoned. Just how the contemplated succession is to be brought about has not been disclosed.

There are persistent rumors of impending changes in the cabinet and it is said that General Trevino is to be made minister of foreign relations in order legally to succeed to the presidency. He was reported to be at Tampico Tuesday night and is expected to reach the City of Mexico today.

The American exodus appears to be practically at an end. Only a small per cent of the American residents of the capital have left. Consul General Shanklin has been advised that the Mexican steamship Tamaulpas will leave Vera Cruz Sunday for New Orleans, carrying a number of Americans in the first and second cabins. Consul Canada, at Vera Cruz has been authorized to pay \$25 in gold in behalf of each passenger. The first class passage is \$50 and the second class \$30.

## HUBBY GOES HOME TO PAPA

La Crosse, Wis., Sept. 2.—Alleging that his wife is in the habit of beating him so severely that he fears for his life, Charles Englestad, a young married man of this city, has gone home to "father" and started divorce proceedings. Plaintiff alleges that on one occasion his athletic wife, Senna Englestad, beat him into unconsciousness.

## THIS MOTHER IN PRISON LONGS FOR HER BABY

**"I am Innocent," Declared Mrs. Flowers Charged With a Killing.**

**"WASN'T EVEN AT HOME WHEN SHOT WAS FIRED"**  
"The Only Thing I Am Worried About is My Children." She Said. Failed to Secure Bail Relative to Charges Filed in Dallas.

DALLAS, Tex., Sept. 9.—Having failed to secure bail Mrs. A. W. Flowers, arrested Tuesday on a charge of killing Jack Coley at a house on Gaston Avenue last week, is still in the county jail. She probably will have a hearing Thursday. When seen Wednesday Mrs. Flowers declared she was not worried about coming clear of the charge, that her only worries now were for her children.

"I am not worrying about coming clear of this," she said, "for I am innocent. I know nothing about what occurred before the shot was fired and when I reached the place Tiny was at the telephone trying to call the Emergency hospital."

"The only thing I am worried about is my children. Last Saturday they came and took the baby from me. They ransacked my house and everything and I can't see what right they had to do that when I had nothing to do with the shooting."

Mrs. Flowers was bitter in her denunciation of the officers for questions asked her at the court house. Mrs. Flowers said:

"They asked me questions that I knew nothing about and when I answered that I didn't know anything about what they were asking they filed the charges against me. I can't see why they had any right to charge me with this killing when I wasn't even at home when the shot was fired."

Last Saturday a charge was filed against Mrs. Tiny McDaniel in connection with the killing. Tuesday afternoon she was given a preliminary hearing and was released on \$1000. Although accused of being an accomplice, Mrs. Polwers is charged with the actual killing.

Mrs. McDaniel admits having fired the shot, but claims it was accidental, that she did not know the pistol was loaded.

## PELLAGRA DISCUSSED

**Southern Physicians Consider the Disease at Spartanburg.**

Spartanburg, S. C., Sept. 9.—Pelagra, its agencies of dissemination and possible preventatives formed the subject of a conference of 200 students of the disease, convened from practically every state, was present. Dr. Louis W. Sambon, head of the school of tropical medicine at Indianapolis, said that three cases had been discovered in the British Isles. Hundreds of others, he added, probably existed, but had been identified because of the general ignorance of physicians in regard to the disease. He declared that many cases of insanity, in his opinion, have their origin in pellagra infection.

## POLICE BREAK UP SMOOTH SWINDLER

**TEXAS BANKERS WILL PROSECUTE MEN ARRESTED AT INDIANAPOLIS.**

Terre Haute, Ind., Sept. 9.—With the arrest here today of George Reed, John Collins and Hugh McGinnis, Indianapolis, on complaint of Cary Shaw, former president of the Second National Bank of Houston, Tex., the police declare they have ended the operations of a gang that in the last year has swindled wealthy men out of nearly a quarter of a million dollars. The work of the gang, the officials say, closely resembled that of the Mahany swindle syndicate and included "fake" prizefights.

Mr. Shaw lost \$7500, according to the police, which he was induced to place in a safety deposit box here. He had brought the money from Houston to invest in a deal for 20,000 acres of Missouri land. Upon his arrival he was shown a large amount of money by the alleged confidence men and asked to place his money with theirs and put it in the box while he and two of the men went to inspect the land. The authorities say that en route to St. Louis Shaw was induced to give up the key to the box containing the money and his companions disappeared.

Another Texas banker, said to have been swindled by the alleged gang, is Ray Cunningham of Franklin, who is now on his way here to aid in the prosecution of the men. Both Cunningham and Shaw met the "smooth" for the alleged gang in their home towns. The operations of the gang, the authorities assert, were carried on in Arkansas as well as Indiana, and many victims from both States are said to have filed complaints of swindles. The police expect other arrests to be made in several cities soon, they say.

## RECORD RAIN AT HOUSTON.

**Heaviest Rain in Weather Service History Fell Sunday.**

Houston, Tex., Sept. 9.—For an hour and twenty minutes Sunday afternoon Houston was visited by the heaviest rain in the history of its weather service. During that period there were times, several minutes in duration, when the water came down with little short of cloudburst intensity, and in the entire period mentioned the precipitation amounted to nearly four inches.

## LIGHTNING IN THE WINTER

Is a queer phenomenon, but there is nothing queer about the quick relief given to rheumatism by Hunt's Lightning Oil. John Coffman, Route 5, Shawnee, Okla., says: "My wife is over 66 years old and had Rheumatism in her neck and the first application did the work, and we will keep it on hand always. 25 and 50c bottles."

## THE PATH OF FAILURE RUNS ALONG THE STREAM OF PROCRESTINATION

The path of failure runs along the stream of procrastination.

## TREASURER EDWARDS ISSUES STATEMENTS

**Amount on Hand at End of Fiscal Year Is Given at \$795,370.41, Is Report.**

AUSTIN, Tex., Sept. 9.—Treasurer Edwards issued a statement showing that there remained in the cash fund at the close of the fiscal year, Aug. 31, \$795,370.41, while the total of bonds was \$20,127,720.28. The distribution is as follows:

General revenue, \$332,615.64; available school fund, \$213,522.41; permanent school fund, \$106,632.10; bonds of this fund, \$18,815,195.78; available university fund, \$15,915.43; permanent university fund, \$15,413.18; bonds, \$603,600; permanent blind asylum land sales, \$1,597.45; bonds, \$133,400; permanent deaf and dumb asylum land sales, \$1,738.41; bonds, \$110,890; permanent lunatic asylum land sales, \$978.39; bonds, \$129,300; permanent orphan asylum land sales, \$1,752.94; bonds, \$40,000; A. and M. College fund, \$1,795; bonds, \$205,000; unorganized county tax fund, \$16,369.29; redemption of land in unorganized counties, \$2,679,320; available university fund, medical branch, \$4,524.33; cost of advertising lands in unorganized counties, \$633.14; pro rata indebtedness fund, \$2,185.63; escheated estates account, \$5,548.67; bonds, \$375; settlement of estates, \$15,791.55; fish and oyster fund, \$7,499.00; excess purchase price, etc., account, \$2,431.35; pure food law, \$178.72; endowment fund medical branch, \$751.87; bonds, \$5,000; Winkler County special juror tax, \$15.79; Upton County special tax, \$17.39; Bailey County special tax, \$4.58; game, fish and oyster fund, \$5,774.41; prison commission account, \$792.65; Loving County special tax, \$6,623.49. Total cash, \$795,370.41. Bonds, \$20,127,720.28.

Chicago Has 2,388,500 People.

Chicago, Sept. 9.—The estimated population of Chicago is 2,388,500, an increase of 62,000 over September, 1912, according to the city directory issued today.

## BEST WAY TO WASH CARPET.

**Use Warm Water, Soap and Piece of Flannel, Drying Well With Towel.**

To wash the carpet thoroughly you will require a bucket of warm water, a cake of carpet soap, a piece of house flannel, and if you are going to tackle a fair-sized piece of carpet at once, a supply of dry cloths.

Do not begin near the door, as you may require to leave the room for fresh water, and it is unwise to walk on the carpet when damp. Make up your mind to do without the room till all is dry. Start washing as far from the door as possible, and work towards it. The flannel is wetted, and a portion of the carpet is bed.

It must not be overdone, only wetted sufficiently to secure a good lather by rubbing the carpet soap ball well in. Then with the clean wet flannel remove the soap. Well rinse the flannel afterwards, so that it is quite soapless when you begin again, later on another piece.

No soap must be left in the carpet when the final rubbing commences. Take a dry towel, and rub to your best. Though you cannot get rid of all dampness, you can almost dry the patch with friction, and this brings up the nap beautifully, also the colors.

## ANOTHER EARTHQUAKE.

**Inhabitants of Messina Get Fresh Fright From Five-Second Quake.**

Messina, Sicily, Sept. 9.—Another slight earthquake was felt here this afternoon and created fresh panic among the inhabitants. The shock lasted five seconds.

## HERE'S A DELICIOUS SAUCE.

Made of Rice, Ham and Tomatoes, With a Little of the Several Other Things.

Pick over and wash and drain one cupful of raw rice. Boil in a large kettle of salted water until the grains feel tender when a few are rubbed between the thumb and fingers. Have ready a cupful or more of finely chopped parsley. Make a tomato sauce by simmering together for 20 minutes a half can of tomatoes, four cloves and one cupful of boiling water, a sprig of parsley, one slice of onion and a stalk of celery; rub through a sieve, return to the fire and thicken with two scant tablespoonfuls of flour rubbed to a smooth paste with a little cold water. Add salt and pepper to taste and simmer for five minutes. Spread half of the rice on a hot dish, sprinkle over half of the ham and with a spoon moisten with a portion of the sauce. Add the remainder of each and over all sprinkle the parsley.

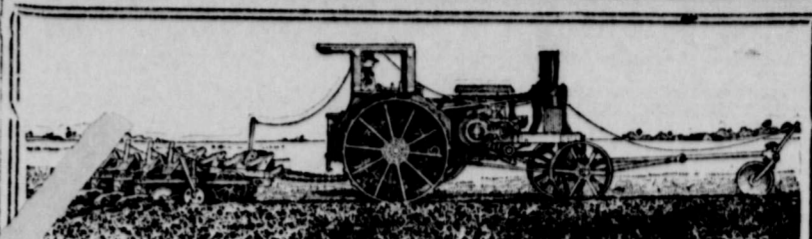

## RECORD RAIN AT HOUSTON.

**Heaviest Rain in Weather Service History Fell Sunday.**

Houston, Tex., Sept. 9.—For an hour and twenty minutes Sunday afternoon Houston was visited by the heaviest rain in the history of its weather service. During that period there were times, several minutes in duration, when the water came down with little short of cloudburst intensity, and in the entire period mentioned the precipitation amounted to nearly four inches.

## LIGHTNING IN THE WINTER

Is a queer phenomenon, but there is nothing queer about the quick relief given to rheumatism by Hunt's Lightning Oil. ## LOCAL AND PERSONAL NOTES

Nearly two inches of rain this week.

Yesterday we had the first foggy morning of the season.

Rev. Wilson is conducting a revival at the Methodist church.

For Sale--No 7 Cook Stove in good condition.--T. F. McClain.

Miss Pearl Landrum of Laredo is in the city visiting friends and relatives.

For Sale.--About 100 head of hogs and pigs.--T. E. Presley, Cotulla, Texas.

Miss Rosa Lee Hurley of Artesia Wells is here attending school.

N. C. Windrow, is headquarters for LIV-VER-LAX. adv

Automobile livery service day or night. Phone 23. H. E. Plummer.

Miss Margaret Haile of San Antonio is teacher of the Rockwood school this year. Miss Christie Steele is teacher of the Maltzberger school.

For Sale.--About 20 pounds of onion seed at \$1.05 per pound. Call at Cotulla Merc. Co.--T. E. Presley.

Why be constipated when you can buy LIV-VER-LAX from N. C. Windrow. adv.

Phone me day or night when in need of Coffins, Caskets or Burial Robes, Complete stock H. B. Stedham.

A. A. Simpson made an auto trip to San Marcos, Sutherland Springs and other points this week.

Wanted--1000 cords of good mesquite wood, can use some of it green. Consumers Ice & Fuel Co., Laredo, Texas.

H. G. Foster left Wednesday for Brookshire where he went with the expectation of making a contract to manage a plantation.

R. S. Sutton, stockman of Fowlerton, was here Tuesday. He was on his way to the ranch from San Antonio and stopped over one night with his brother J. W. Sutton.

T. R. Keek and family returned Monday from a week's auto trip to the central part of the state. Mr. Keek said they had a delightful trip and that it was made without a puncture.

Dr. E. M. Talbott, who has been in Missouri for the past three months returned home yesterday morning. He looks like he was glad to get back, and in fact expressed himself to the editor.

Ned Lann was in the office last week and had his name put on our subscription list. He said he had been borrowing the paper and felt real mean every time he did it and he had decided that he would abandon the habit before he got caught by the editor.

C. C. Hurley, president of the Artesia Wells Mercantile Company, was in the city Tuesday. Mr. Hurley stated that some rain had fallen in his section of the county but that more was needed.

When in need of Coffins, Caskets or Burial Robes, H. B. Stedham will appreciate a call day or night.

Very little rain has fallen in the extreme Southeastern part of the county the past few days. Reports from the ranches in that section state that only light showers have fallen. The fall has been good in nearly all other portions of the county.

Miss Annie Merriman returned to her home in Hondo Tuesday. She was accompanied by Mrs. Jas. Merriman.

Rev. Geo. W. Keeling and family arrived here Saturday last to make Cotulla their home. Rev. Keeling is the new pastor of the Baptist Church and Cotulla welcomes him and his family into our midst.

Gaddis' Pharmacy shipped quite a lot of books to Pearsall Monday. The Mercer Drug Company, depository for books at Pearsall, burned Sunday morning and all of the books were lost. By getting a few at Cotulla, Devine, Hondo and San Antonio, School was opened as planned.

H. W. Earnest reports conditions very good in the Northern part of the county, and says the farmers around Millett have done well this year. Over one thousand bales of cotton has already been ginned at the Millett gin, and there will be considerable more unless the heavy rains of this week beats it out and into the ground.

Mrs. A. Mewhirter is back at home after a three weeks absence in Chicago where she was called to the bedside of a sick daughter. On arrival there Mrs. Mewhirter found her much better and on the road to recovery. Mr. Mewhirter, who sustained serious injuries more than a month ago by falling from a load of hay is getting along very well but is not able to be out much.

Mrs. J. T. Rees, formerly of Cotulla renews subscription to the Record, and says the family feels interest in Cotulla. Paul and the girls want to come back. The family is now living at Albany, Ind., where Mr. Rees is Sec-Treas. of the Stoner Cement Silo Company, and he hopes to interest some of his acquaintances in cement silos this winter.

Mrs. E. L. Armstrong and children of Hebronville visited at Judge Earnest's home during the week.

Henry Redding and family have moved back to Stockdale. During their brief residence here they made many friends who regret their departure.

Miss Stuckey, in charge of K. Burwell's Millinery department will be ready to show her street hats Wednesday in new stand.

The Mexican school got started off in excellent style Monday morning with Misses Alma Mendal and Adele Wildenthal as teachers. The attendance was below normal, but this is on account of a great many Mexican children being in the cotton fields. They are expected to return within a few weeks.

The school trustees had the big cisterns at the school house emptied of water and thoroughly cleaned before school started, and the rain of the past ten days has filled them with fresh, good water, therefore there will be no trouble about water on the school grounds this year. Last year the water was bad and was not used by a majority of the children.

Gardendale has had an abundance of rain the past ten days. It seems that every cloud that has bobbed up held its contents until over Gardendale and then let loose. There is no record of the rainfall but we dare say that it has been six or eight inches since the first of the month. Mustang creek which runs through the Eastern part of town and one prong of which heads East and another West of Gardendale has been running almost continuously for a week.

Mrs. Jas. Murray has returned from a visit to New Braunfels.

The torrential rain Wednesday evening did considerable damage to some of the streets that were already getting in bad condition. Now is the opportune time for the city dads to get busy on the streets and put some of them in shape. On center as well as Front street the water cut across in places and this will not have to be repeated more than once or twice before damage will result that will require many times the expenditure to repair that it will now. We hope there will be no further delay on this street work as every condition is now favorable for doing it.

The faculty of the High School this year is almost an entirely new one. Prof. Willson, superintendent, is a brother of our townsman John W. Willson, and comes from Huntsville, Texas. Miss Rosa Potter, Principal, is from Waco; Miss Ethel Louise Renich, Domestic Science, and primary teacher, is from Fayetteville, Ark.; Miss Bessie Durham from Bladco, Texas, Mr. Roy Lewis, Wabash, Ind., but has lived at Cotulla for two years. Miss Fannie Woolls is the only teacher of last year's faculty. All of the books of the higher grades are not yet obtainable, and as soon as matters are straightened out another teacher will be employed for high school work.

## COTULLA BAPTIST CHURCH. CALENDER
