## SCHOOL TEACHERS MUST WAIT FOR PAY.

### Failure of Payment of Interest on School Land Leaves Treasury Depleted---No Relief Before Jan. 1st.

A sixteen inch shell from the European battlefield landed squarely in the camp of La Salle county school teachers this week.

On account of the financial depression caused by the war the parties who several years ago purchased the County School land, notified County Judge Thomas that they were unable to pay the interest, amounting to \$4,428 and due this month. A representative of the company visited Cotulla and set forth that the interest could not be paid until there was a general "loosening up," and resulted in the acceptance of a note by the county authorities for the amount of interest due. This note was made payable in February, 1915.

Since the sale of the School Land the interest money has always been available for payment of teachers salaries as soon as the first vouchers were issued, but all is disarranged this year, and the responsibility is easily fixed on the Kaiser, the Czar and the Emperor. There is every indication that there will be no money in sight for payment of vouchers before January 1st, and it even may be at a later date than that, as tax paying will be slower than ever this year.

If the banks were in position to make loans the matter would not be so bad, as the vouchers are good security, but when the financial institutions all over the country are closed up like a clam, the chance for the school teacher to get any money without considerable sacrifice seems mighty slim.

## Sudden Death of Old Time Citizen.

James F. Ray, age 60 years an old time citizen of La Salle county, died suddenly of heart trouble Wednesday afternoon at the Calicut ranch, west of Millett. Mr. Ray had been in bad health for some time, but apparently was better, and had decided to take a little overland trip in hopes that it would benefit him, and at the time of his death was on his way to see his son, at Brackett.

The remains were brought to Millett and interred in the Millett cemetery Thursday afternoon, Rev. M. L. Leno conducting the funeral services.

Deceased is survived by his wife and several step-children, three sons and three daughters.

Good rains fell Sunday and Monday nights in the lower part of the county. At Escobal and Artesia the fall ranged from 2 to 3 inches. At Cotulla both rains aggregated three quarters of an inch.

## WHERE ARE THESE MEXICANS GOING?

### Steady Stream of Big Sombreroed, Red Blanket Fellows Passing Northward.

For nearly three weeks now there has been a steady stream of big sombreroed, blanket Mexicans headed North. Where are they going? No one seems to know. They appear to be provided for temporary necessities, and are not looking for "trabajo" for they have been often tried and found wanting.

The passage of these Mexicans has aroused considerable excitement among many of the local Mexicans, especially some that are living peacefully and doing well on surrounding farms and ranches. There are various sorts of stories being circulated. Inquiry of the passing strangers, brought out one story that they were going somewhere near the center of Texas, where they would meet a general to command them, and at the proper time Mexico would declare war on Texas, and lo and behold before Texas was ready this Mexican army 2000 strong, would overwhelm the populace. It is this story that has excited some of our local Mexicans. One farmer, who has several hard working Mexicans on his place, said they were very much worked up, and asked him in case such should happen, what the white people would do to them. The farmer promptly informed the laborers that such a story was absurd, but in the event of trouble between Mexico and the United States, peaceful Mexicans would be protected by the American. Another story is that the Mexicans are Villa sympathizers and are on their way to Eagle Pass, or some other border point where they can cross to the Villa ranks.

How many hundred have passed this point is not known. Workmen on the Nueces bridge counted 60 go by one forenoon this week. It is probable that they are recruits of some revolutionist who expects to explode in the near future, and will concentrate his army somewhere up the Rio Grande, and at some unexpected dark hour cross to the other side.

## "TIZ" FOR TIRED SORE, ACHING FEET

Ah! what relief. No more tired feet; no more burning feet, swell, red, smarting, sweaty feet. No more pain in corns, callouses or bunions. No matter what ails your feet or what under the sun you've tried without getting relief, just use "TIZ."

"TIZ" draws out all the poisonous exudations which puff up the feet; "TIZ" is magical; "TIZ" is grand; "TIZ" will ease your feet, soothe your feet, soothe your feet, soothe your feet.

Get a 25 cent box at any drug or department store, and get relief.

## NO DECISIVE RESULTS ON BLOODY BATTEFIELDS

The war situation in Northern France remains about the same as far as the outside world knows. Apparently the gigantic opposing armies are slaughtering each other by the thousands without accomplishing any decisive results. The Germans are taking the Belgium coast towns and will likely try to take the coast towns in Northern France to enable her to better strike at England. Here some of the bloodiest battles will take place.

## Narrow Escape from Under Train Wheels.

An elderly gentleman named Patterson from Catarina narrowly escaped a violent death Monday morning just as the Southbound passenger train was pulling out. He came to Cotulla on the Northbound train and expected to return on the Southbound. The train was moving out rather lively when he made an effort to catch the chair car at a point just opposite the depot. The speed of the train jerked his hand-hold loose before he could get his feet on the step and he was thrown violently to the ground along side the train and a very few inches from the rail. The fall dazed him for an instant and he did not move which was probably fortunate, and bystanders caught him and pulled him out of danger. The train stopped and then let him aboard.

## AGED MEXICAN WOMAN DEAD.

Filomena Gonzalez, mother of Tomas Gonzalez, died Saturday night, from an infection contracted a week previous. The woman received a scratch from a wire on her left arm. In a day or two the place showed infection, and she gradually got worse until death relieved her.

## SOURCE OF TROUBLE IN AMERICAN JAIL.

### Mexican Commander Who Caused Arrest of Marines at Tampico Pinched as "Vagrant" in San Antonio.

Colonel Ramon Hinojosa, who was commander of the Mexican Federals at Tampico last April, and was responsible for the arrest of five American Marines, is in jail in San Antonio, charged with "vagrancy." Secret service men have discovered that Hinojosa fled from Vera Cruz when orders were issued for the removal of United States troops from that point, and entered the United States under an assumed name. It is likely that deportation proceedings will be instituted. The immigration law provides that an alien can be deported when "unlawfully entering the United States under an assumed name."

The immigration officials at San Antonio also have under arrest Antonio Hernandez, the captor of Consul Jno. R. Silliman at Saltillo and it is likely he will also be deported.

The United States cannot punish these Mexicans for the crimes they have committed in their own land against Americans, but if they are ordered deported, they will fall into the hands of the Constitutionalists, and then they will likely get what is coming to them.

It is understood that a list is being made up of undesirable who have flocked to this side since the overthrow of Huerta, and there will be many more arrests in the near future.

## DISTRICT COURT OPENS MONDAY.

### Full Two Weeks Term Will Be Held as Civil Docket is Heavy---Special Venire For Sarli Murder Case.

The fall term of District Court will convene in Cotulla Monday. This bids fair to be one of the busiest terms of court held here in many years as there are numerous cases on the civil docket, and one or two criminal cases will also come up for trial. It is understood that the next session of the Legislature will be asked to allow a three weeks term of District Court in La Salle county instead of two, as the business cannot be disposed of in two weeks. If all of the cases on the docket at present were tried it would take a month. The list of Grand Jurors and also Petit Jurors for the first and second week is published on another page of this issue.

The case of Alejandro Sarli, charged with accomplice to murder is set for 26th, and a special venire of 75 men have been summoned. Numerous witnesses will also be here from McMullen county.

# NETTLETON'S Are In Town. AN IDEAL TEST:

If you could wear a NETTLETON SHOE on one foot and a Shoe of some other make, but similar

in style and appearance on the other, you would have the strongest kind of proof of the truth of our claim that the NETTLETON wears longer, holds their shape better and are more comfortable than the ordinary shoes.

It would be less troublesome and almost as convincing to buy a pair of NETTLETON SHOES which have just arrived and wear both of them at the same time. WHY NOT?

YAQUI INDIANS UNDER MAYTORDNA

ARE MAKING STRONG FIGHT AGAINST CARRANZA MEN NEAR AGUA PRIETA. ZAPATA'S FOLLOWERS ACTIVE

Douglas, Ariz.—Fighting between the Yaqui Indians of Maytorena's command from Naco and Nogales and the Carranza forces in the Agua Prieta garrison started again Monday night. The fight has been in progress since the Yaqui Indians arrived from Naco in the afternoon and 800 surrounded the town.

City of Mexico.—An attack made on the night of Oct. 19 on San Angel, Xochimilco and other suburbs of the City of Mexico by adherents of Emiliano Zapata caused a reign of terror in the capital until Monday. The suspense was relieved when it was officially announced that Zapata's followers had agreed to cease all fighting until the termination of the peace conference between the northern and southern constitutionalist generals at Aguascalientes.

Charges that General Villa has published a manifesto inviting the people and the army to join him in overthrowing Carranza are contained in a telegram received Monday at El Paso, Texas, from the Carranza press bureau in the City of Mexico.

Naco, Ariz.—American and Mexican troops fired at each other Sunday. The international friction at Naco resulted from a night attack on the Naco (Sonora) trenches by Maytorena's troops early Sunday morning. A frontal assault was ordered by Villa's commander and the Yaqui Indians, as usual, led the attack.

Two Americans, Lee Hall and Corporal McAllister, Troop B, United States Cavalry, were struck by stray bullets. McAllister was shot through the hand. Hall and McAllister make the total American victims of Mexican fire to date five. Trooper Wilson, shot last Monday, died later. Trooper Leroy Bradford was seriously wounded Tuesday. The same day an unidentified boy was shot through the hand.

Washington.—A commission form of government for Mexico until order is restored has been suggested at the informal discussions at Aguas Calientes, preceding the formal meeting between representatives of Carranza and Villa. This was reported to the state department Saturday and met with prompt recognition as a possible solution of the vexing problems of the southern republic.

Further reports of distress on the west coast of Mexico came Friday from Admiral Howard. Lack of food or any central authority, he said, caused continual conflict between the people and the soldiers. The food shortage there has been called to the attention of the American Red Cross and steps to relieve it probably will result.

# FEEDERS PROMINENT

Farmers National Congress Will Attend Fort Worth Show.

Feeder cattle probably will play a big part in the National Feeders and Breeders' show, which will be held in Fort Worth October 10 to 17.

At least 2,000 to 3,000 farmers and stock-farmers, gathered from every section of the United States, will gather in Fort Worth on that date.

No detail for making the fall exhibition the greatest in the history of the National Feeders and Breeders' show has been overlooked. Not only has every class of livestock that is produced in the Southwest been given ample consideration but numerous forms of entertainment, not allied with the stock exhibit, have been secured.

The seventeen railroads which make Fort Worth the virtual center of the state have offered splendid rates, which will afford everyone a chance to visit the show.

## Paint or Not.

Is a horse worth more or less after feed? Hay and oats are high today; shall I wait today and feed him tomorrow?

That's how men do about painting their houses and barns and fences. Paint has been high for several years; and so they have waited. Some are still waiting.

Their property drops a trifle a year and the next job of paint creeps up, creeps up, creeps up; it'll take more paint by a good deal a year; they don't save a cent, and the property goes on suffering.

## GOOD LITERATURE.

By Isaac H. Hughes. It is hoped that what is given may prove pleasant and profitable to readers of the RECORD.

Thirty-eight years after last week's poem was written, the "spreading chestnut tree" had been cut down (1876) and some of its wood made into a beautiful arm chair, which the school children of Cambridge, Mass., presented to Longfellow on his seventy-second birthday (1879.) For this presentation the poet wrote the following poem, in which you'll find many echoes of "The Village Blacksmith."

## FROM MY ARM CHAIR.

Am I a king, that I should call my own This splendid ebon throne? Or by what reason, or what right divine, Can I proclaim it mine? Only, perhaps, by right divine of song It may to me belong; Only because the spreading chestnut-tree Of old was sung by me.

Well I remember it in all its prime, When in the summer-time The affluent foliage of its branches made A cavern of cool shade. There, by the blacksmith's forge, beside the street, Its blossoms white and sweet Enticed the bees, until it seemed alive, And murmured like a hive.

And when the leaves of Autumn, with a shout, Tossed its great arms about, The shining chestnuts, bursting from the sheath, Dropped to the ground beneath. And now some fragrant of its branches bare, Shaped as a stately chair, Have by my hearthstone found a home at last. And whisper of the past. The Danish King could not in all his pride Repel the ocean tide. But, seated in this chair, I can in rhyme Roll back the tide of Time.

I see again, as one in vision sees, The blossoms and the bees, And hear the children's voices shout and chaff, And the brown chestnuts fall. I see the smithy with its fires aglow, I hear the bellows blow, And the shrill hammers on the anvil beat. The iron white with heat! And thus, dear children, have ye made for me This day a jubilee, And to my more than threescore year and ten Brought back my youth again.

The heart hath its own memory, like the mind, And in it are enshrined The precious keepsakes, into which is wrought The giver's loving thought. Only your love and your remembrance could Give life to this dead wood, And makes these branches, leafless now so long, Blossom again in song.

## EAT LESS AND TAKE SALTS FOR KIDNEYS

Take a glass of Salts before breakfast if your Back hurts or Bladder bothers you.

The American men and women must guard constantly against Kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out; they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health. When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headaches or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders. Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.

**Summary of War News to Date.**

The occupation of Antwerp by the Germans has been followed, according to the latest reports, by the occupation of Ghent, which would seem to confirm the German plan, as it had already been outlined, of a movement toward the coast, with Ostend as its objective.

It is pointed out by British military experts that it is Germany's intention to make a permanent stronghold of Antwerp in order to hold Belgium in her grip and in this way gain a position within easy reach of the English coast.

The fighting along the great line extending almost from the North Sea to the German province of Lorraine, continues with indefinite results, for the actual operations in the northern section of France are not divulged to any extent in the official statements issued by the French war department. Where the British reinforcements have been sent is a matter of conjecture, but it is believed a considerable force is already in the neighborhood of Ostend.

German submarines have again come into prominence by the sinking of the Russian armored cruiser Pallada in the Baltic Sea. The Pallada, with the Admiral Makarov and the Bayan, have been engaged in patrolling the Baltic. The German submarines made an attempt against the Admiral Makarov on Oct. 10 without success, but on the following day one of them succeeded in torpedoing the Pallada, which sank almost immediately, according to the Russian official report, with all of her crew, consisting of nearly 600 officers and men.

Recruiting in England is again being actively pushed, for the need of men is recognized, and the requirements for service in the infantry have been lowered to insure a large supply of recruits.

Similarly Great Britain is taking precautions against raids over English towns by German airships, this action probably resulting from the recent attacks on Paris by aeroplanes. Just what measures the British government has devised to repulse such attacks has not been divulged, but it is understood the aviation corps is ready to take the air at the first sign of German airships.

Berlin officially reports the situation in France as satisfactory, as far as her army is concerned, and other official reports indicate that the German and Austrian armies have made impressive progress in the Russian campaign. Russia is reported to have abandoned the siege of Przemysl, the important Austrian fortress in Galicia, and is lining up to meet a threatened attack by the Austro-German army.

Marquis di San Giuliano, the Italian minister for foreign affairs, is reported to be dying. Should his death occur, it is possible it may have an important effect on the attitude of Italy.

The forty-four lists of losses in the Prussian army, which have been published, contain a total of 21,000 killed, wounded and missing, according to a Reuter dispatch from Amsterdam. The lists do not include losses among the Bavarians, Saxons and Wurttembergians.

Neutral sources report that cholera is spreading in Austria.

From Germany alone came anything concerning the surrendered city of Antwerp. This was to the effect that the entire city as well as all the forts now are in the hands of the Germans.

General von Beseler, the German commander at Antwerp, issued a proclamation that citizens might return to their vocations without fear of harm befalling them and that property would be respected. The German report said little damage had been done to any except public buildings in Antwerp.

The strength of the allies at Ostend is not known. It is possible that British reinforcements which were unable to reach Antwerp in time to help in the defense of that city are now in Ostend.

German airmen dropped two bombs in Paris Monday. The missiles struck in the yards of the Northern Railway station, but failed to explode.

London reports that Germany has imposed a fine of \$100,000,000 on Antwerp as a war indemnity.

German aeroplanes again have made a dash over Paris, dropping bombs. Three persons were killed, fourteen injured and considerable damage to property was done. One missile fell on the roof of the famous Notre Dame Cathedral, but failed to explode. French airmen gave chase to the invaders, but whether they caught any of them is not known.

Except that a rear guard action between Russians and Germans southeast of Wirballen was in progress, nothing came through concerning the fighting in the eastern war theater.

In the south the Montenegrins claim to have defeated with heavy losses an Austrian army operating against Sarajevo. A traveler from Belgrade reports that city almost destroyed by the continuous Austrian tilt, but that the Servians are holding out gamely. From the east the Japanese report that they have silenced Fort Iltis at Kiauchau and otherwise are gaining ground on the Germans.

The Turks are strongly fortifying various places in Syria, Palestine and North Arabia.

A news agency dispatch says cholera is spreading over Austria-Hungary.

An Amsterdam correspondent says a message has been received at Amsterdam from Berlin stating that Prince Joachim, wounded in battle, has recovered and rejoined the army.

A dispatch from Rome says King Victor Emmanuel has named General Zupelli to succeed General Brandi as minister of war. General Brandi resigned because of newspaper criticism.

British aeroplanes again have visited Dusseldorf, Germany. A British official report says an aerial squadron succeeded in blowing up a Zeppelin airship shed in Dusseldorf and destroying a dirigible balloon in it. Three aviators engaged in the raid and escaped, but lost their machines.

The Germans, while attempting to cross the Scheldt, southwest of Antwerp, made their main attack from the east and broke some days ago, with the aid of their sixteen-inch guns, through the first line of forts. Between the first and second belt of forts, according to their own accounts, they defeated the Belgian army and captured a number of guns.

At the same time six Zeppelin dirigibles flew over the city, dropping bombs, but it has been impossible as yet to ascertain the damage they have done.

According to a Reuter dispatch from Bucharest, the death of King Charles of Roumania occurred at 6:30 a. m. Saturday at his country seat at Sinala, in Wallachia.

Belgium has protested to the Washington government against Germany's alleged action in commandeering all food supplies in Brussels and "reducing the native population to famine."

In the east the Russians claim to have repulsed with heavy losses the German attacks near Wirballen and Philippoff, Russian Poland. They declare also that some of the principal forts of Przemysl in Galicia have been taken by the forces of Emperor Nicholas and that the Germans have been driven out of Klockawek in Poland, across the border from the fortress of Thorn, East Prussia.

From the south came a report from Cetinje that the Servians had defeated the Austrians and occupied Bilek, Herzegovina.

**Large Stores Taken at Antwerp.**

London.—The following official statement has been received from Berlin by the Marconi Wireless Telegraph Company:

"Enormous quantities of provision of all kinds were captured in Antwerp. The garrison of the northern fort and 13,000 English fled to Holland where they were disarmed. The English themselves are said to have blown up ten of the Antwerp forts. The Belgians estimate they lost 20,000 men as prisoners. When the fall of Antwerp was made known to the allies the French cavalry was withdrawn in the direction of Arras.

"The interrupted artillery engagement in the Woivre region was resumed Oct. 11. At the same time the German fighting wing and center resumed the bombardment of Rheims.

"On the whole the situation of the Germans is favorable.

"Before his departure for the front Emperor William promoted Prince Joachim (youngest son of the emperor) to the rank of cavalry captain.

"It is reported that a Russian fleet of eight large vessels and ten small ships was sighted Saturday near Kustendje (a seaport on the Black Sea), steaming in a southerly direction."

**Germans Control Forts.**

London.—The following wireless dispatch was received Sunday from Berlin by the Marconi Company:

"An official report from Antwerp says all the forts there are in German hands.

"Main headquarters reports that the Belgians accepted the German offer to spare all historical monuments and that the day before the bombardment plans showing the positions of the principal architectural features of the city were handed through the American minister to every German artillery commander. They showed the greatest possible consideration.

The dispatch adds that the Brazilian minister in Berlin has requested his countrymen in the German capital to inform their relatives in Brazil that they are safe and free and that conditions in Germany are absolutely normal.

**German Regiment Flag Falls.**

From the Battle Front, via Paris.—

A notable advance by the allies occurred Sunday near the center of the battle line, where they stormed and captured an important German position. Near Lassigny also the fighting was severe. The allies and Germans came to close quarters and a German regimental flag was taken in a bayonet charge. Lassigny forms an angle of the allies' line, which from there turns almost directly north. The Germans are holding their ground tenaciously at this place, where they have a considerable number of big guns in strong positions in the quarries.

The allied cavalry during a heavy mist carried out a daring raid, in the course of which they cut off a German supply convoy proceeding to Roye. They captured 850 Germans, who constituted the escort, as well as several quick-firers and a large amount of ammunition.

The French aviators, who are performing brilliant work along the front, indicated the approach of the Germans, who, when attacked, offered a long and fierce resistance, but eventually surrendered.

On the eastern wing the German bombardment of the French position continues without interruption and much material damage is being done. The cannonading is accentuated because of the echoing and re-echoing among the surrounding hills.

**German Gunboats Sunk.**

New York.—The East and West News Bureau Thursday announced that it had received a cable message from Tokio as follows:

"Tokio, Oct. 7.—The war department issues the following official announcement:

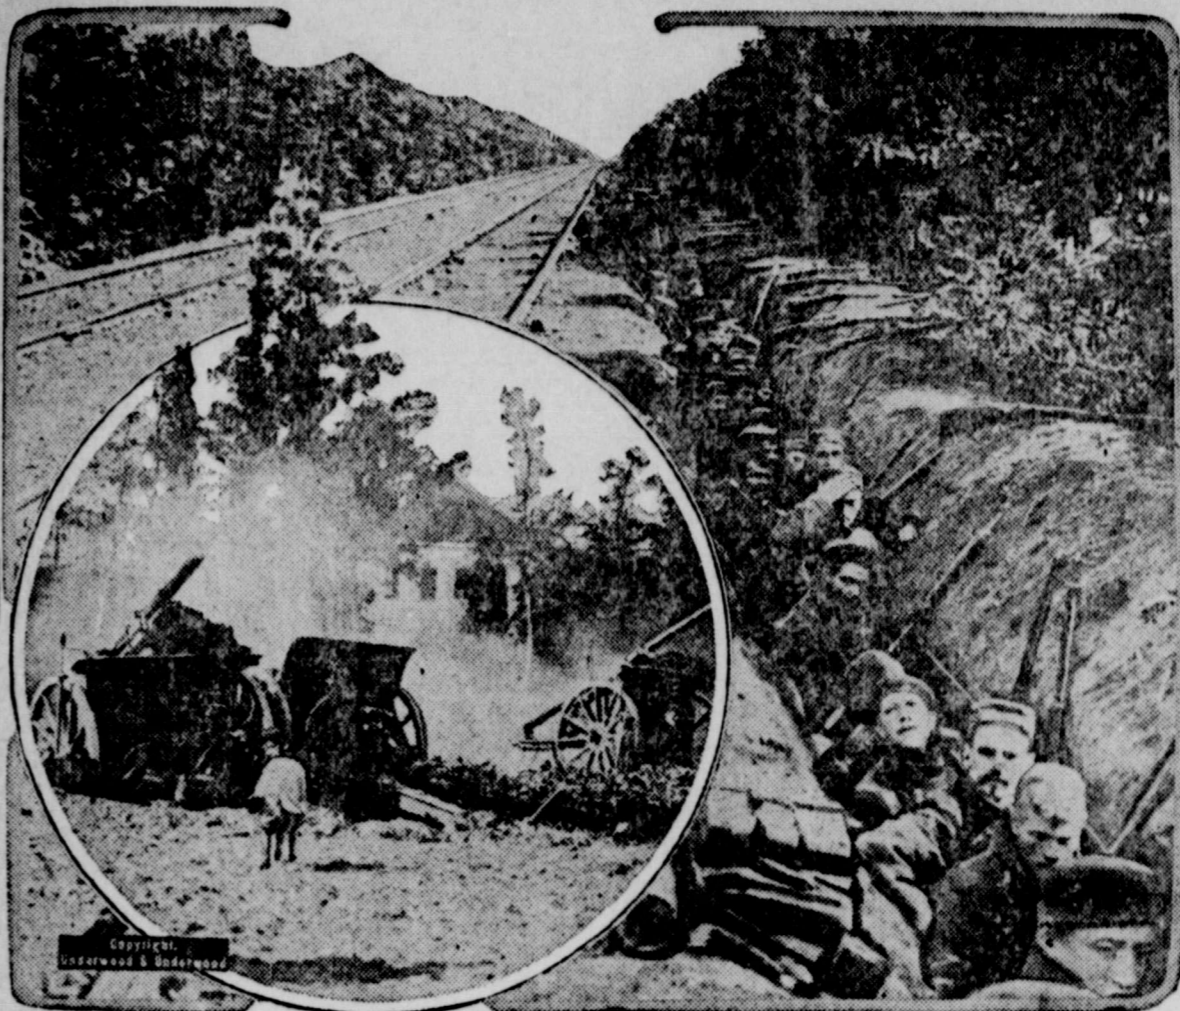

"After examining the reports received from various sources, it is inferred that among the enemy's warships in the Bay of Kiauchau, in addition to the Kormoran, two other gunboats have been sunk, as nothing has been seen of them since Oct. 3.

"On Oct. 6 a Japanese regiment made a midnight advance along the Shan Tung railway as far as Chinan. About thirty locomotives, in addition to some 700 passenger and freight cars, fell into the hands of the Japanese soldiers. A German gunboat, probably the Iltis, was seriously damaged by the shots from the Japanese field guns on Oct. 4. She fled, towed by two other boats, into the Bay of Kiauchau, but sank shortly afterward. At present there are three gunboats within the bay, including the Kaiserin Elizabeth.

Russia is said to have refused to withdraw her troops from Northwest Persia, but at the same time advised Persia she had no intention of taking Persian territory.

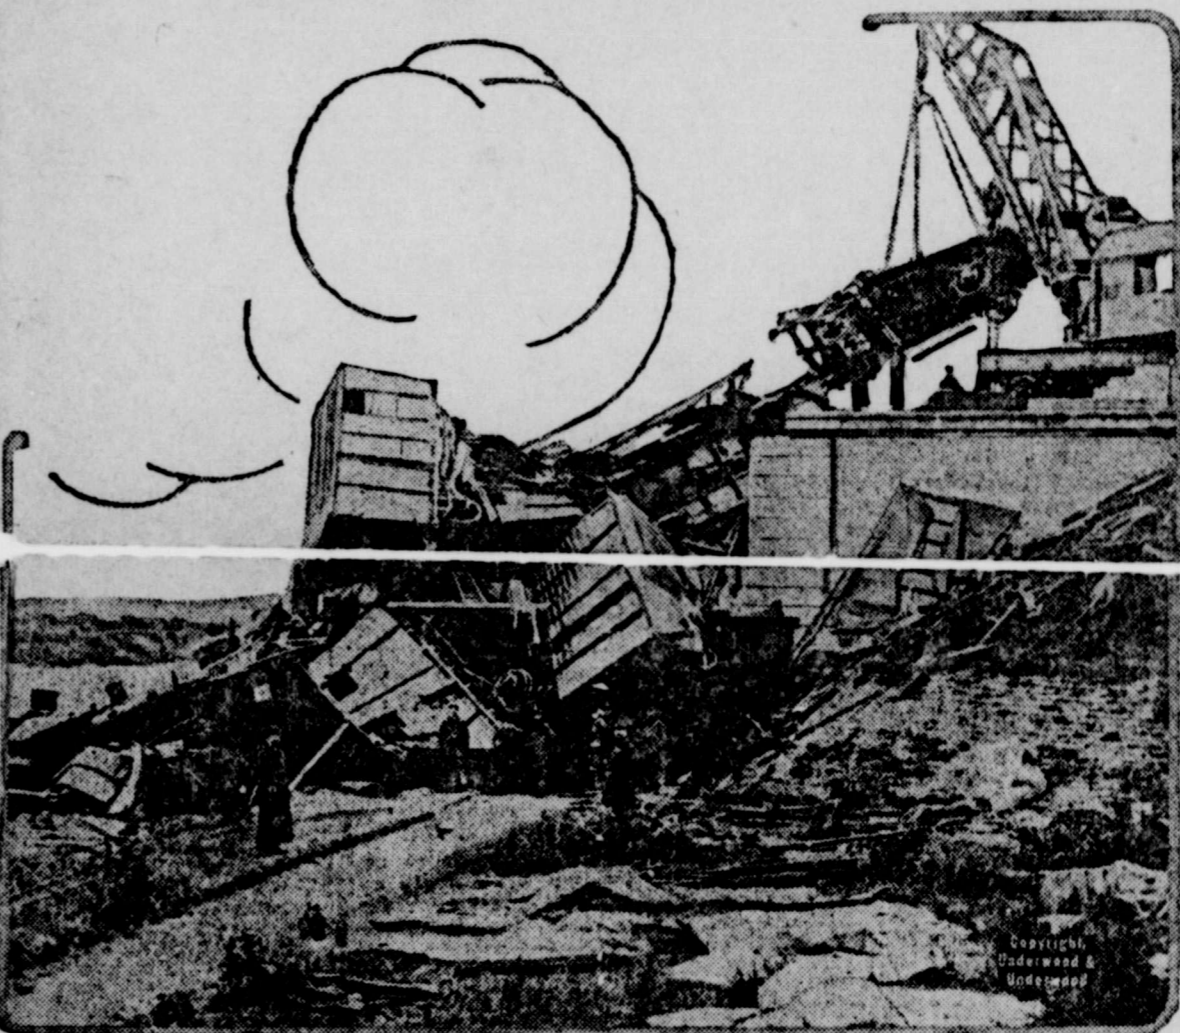

"We everywhere have maintained our position," sums up the claims of the French war office. At all points except one, that in the Woivre district, German attacks are said to have been repulsed or held. In the center between the Oise and Rheims slight advances by the allies are chronicled. In the Woivre district the Germans have delivered violent attacks. Whether they resulted favorably or unfavorably is not stated.

**SCENES AT THE BATTLE OF HOFSTADE**

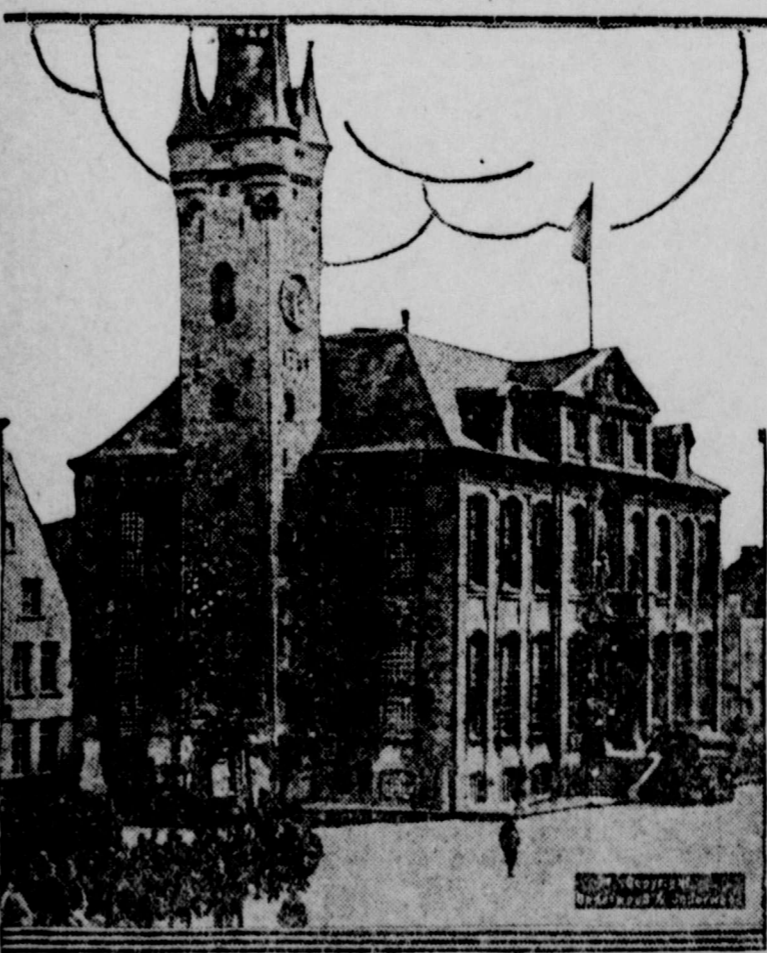

Belgian soldiers in the deep trenches along the railway from which they repulsed the Germans at the battle of Hofstade. At the left are shown some of the big Belgian field guns which checked the advance of the kaiser's troops in the same conflict.

**TERRIBLE WRECK OF A RED CROSS TRAIN**

First photograph of the dreadful wreck of a Red Cross train at the Mary bridge across the Marne, in which many wounded French and English soldiers were killed. The bridge had been destroyed by the Germans and the train went into the river.

**HEADQUARTERS OF KING OF BELGIUM**

This is the ancient town hall at Lierre, which the king of Belgium has been using as his headquarters. In the courtyard are some men of the famous "black devil" regiment of carbiniers, which lost two-thirds of its members in action.

**HARNESSING UP A WAR DOG**

Belgian trooper harnessing one of the dogs that are used to haul the small mitrailleuse guns.

**Crawls Back to Death.**

Ostend.—Lieutenant Steele-Perkins of the King's Own was lifted from the trenches at Mons, wounded four times. Protesting, the British soldier crawled back and was mortally wounded.

District Court will convene Monday. This announcement does not mean much these days—at least not near as much as it did in these parts a dozen years ago. In those days of rustlers, desperados, and tin horn gamblers, the assembling of the grand jury meant a scattering to the "tall timber" of those who knew too much, and was likely to result in evidence. "Going on the dodge" was a popular term in those days.

In mentioning the change of the local freight division to Pearsall last week, we stated that the "Grasshopper" would make the round trip from Laredo to Pearsall and return the same day. This was an error. The train remains over night at Pearsall, consequently this end of the road has a local only every other day. Business men say this will greatly inconvenience them and there is a possibility of the matter being taken up with the Railroad Commission.

D. E. Colp and party who made the moving pictures in all the towns along the line between San Antonio and Laredo last Saturday, returned from Laredo Monday, and while here made some pictures of bucking burros. On Saturday the party had considerable tire trouble and did not arrive here until 2 o'clock in the afternoon. At the time scheduled for their arrival there were many people on the streets and many farm wagons, but a large number of these disappeared before the picture men arrived. The pictures will be shown here in a few days.

Lee Keithley was up from the Dobie ranch during the week and denied point blank the statements made some time back by Jack Baylor and Eldridge Dobie and explained that the charge by these gentlemen that he had abandoned altogether the honorable pursuit of labor, was due to the fact that he had frequent invitations to escort a fair visitor at the ranch to the shady places along the limpid waters of the Nueces where the fish delighted to bite, and that it was a case of "sour grapes" and a frame-up pure and simple by the conspirators.

## The Lapse of Enoch Wentworth

By ISABEL GORDON CURTIS  
Author of "The Woman from Wolverton"  
Illustrations by Ellsworth Young

This story is now appearing in the RECORD. Back copies will be furnished subscribers without cost.

W. P. Mulholland endorsed a check Thursday evening and for the same party Dr. Grahm accepted a \$12 check for two prescriptions and gave \$10 in change. A little later it developed that the checks were n. g. and then began the scramble to "recover." The slick gent had invested part of his proceeds in cheer-liquid and was on the eve of celebrating in good style. Luck was against him however, for the two gentlemen who had been uncooed went through him and recovered most of the cash, and then confiscated \$4.50 worth of whiskey, that he had purchased and intended to make his escape with; this they "cashed in" at the bar where it was purchased. Messrs Mulholland and Graham got out right, but they have both sworn off—never again.

While in town this week Lee Keithley arranged with C. B. Jones for the writing of a story the title of which is the "Disappearance of a pair of Trousers," in which Eldridge Dobie plays the leading role. Mr. Jones is entirely familiar with the details of the affair as it was his trousers that disappeared, while he was at the Dobie ranch doing some paper hanging work. After several days of vigilant search the trousers turn up in the possession of Eldridge Dobie, who had been wearing them, totally unconscious of the fact, although they were three numbers too small for him around the waist Lee says he has heard of Cupid's microbes working on fellows until they forgot to eat regular, but that ain't a patchin' to the case Eldridge has got, and all of this will be interwoven in the story to make it complete, and which will be ready for publication probably by next week.

## THE FORD.

The Ford is my auto, I shall not want. It maketh me lie down in green pastures; It leadeth me into much trouble. It draweth on my purse; I go into the paths of debt for its sake. Yea, though I understand my Ford perfectly, I fear much evil for the radius rods or axle might break. It has a blowout in the presence of mine enemies; I annoy the tire with a patch; the radiator boileth over. Surely this thing will not follow me all the days of my life, or I will dwell in the house of poverty forever.  
Moral: Equip your Ford with one of the new cockoo clocks. When the thing reaches twenty miles an hour the bird will come out and sing, "Near-er My God To The."—Ex.

## WYETH'S SAGE TEA TO DARKEN HAIR

She made up a mixture of Sage Tea and Sulphur to bring back color, gloss, thickness.

Common garden sage brewed into a heavy tea with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant, remove every bit of dandruff, stop scalp itching and falling hair. Just a few applications will prove a revelation if your hair is fading, gray or dry, scraggly and thin. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use tonic, costing about 50 cents a large bottle at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of fuss.  
While wispy, gray, faded hair is not what we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.
