## Get the facts

### Get The Facts

at first hand. Don't take anybody's word on the question of what your clothes ought to cost or what you ought to get for your money. It's YOUR pocketbook that's affected. Find out the truth direct. Dig for the bottom facts. Do a little window shopping and see what other stores are asking for ready made clothes mere machine-cut clothes, mind you. You'll find the prices mighty startling. Let the price tags tell their own story. A trip through our retail clothing store is the best advertisement in the world for Royal Tailoring. For when you wind up your little shopping constitutional by jogging down here to our store, you'll say, as thousands of others have said, "How in the world can you deliver such remarkable made-to-order clothes, in the face of to-days cost of forty to sixty five dollars?" You'll find the answer down here. Suit or Overcoat, made to your special order—\$40 to 65.

## ESTIMATE ON ONION CROP.

From reports received in the Bureau of Crop Estimates it is estimated that the condition of Bermuda onion seed beds on November 15, 1919, expressed in terms of a per cent of a normal or 100 per cent condition, in Texas is 73 per cent, as compared with 87 per cent on November 15, 1918; and in California 83 per cent, as compared with 70 per cent on November 15, 1918. The per cent of the plants which have been set in the fields to November 15, 1919, in Texas is estimated to be 2 per cent, as compared with 9 per cent on the same date last year.

## WEATHER WET AND COLD.

The weather continues to remain wet and cold. Clouds have hovered low all this week, a light mist falling which has kept roads in a sloppy condition, and retarded work on the farms where onion transplanting is going on. Tuesday and Wednesday freezing weather was predicted and the mercury came near reaching that point, but Thursday the temperature took an upward turn and once again frost was missed. Last Sunday morning there was a slight frost but very little damage was done.

## BAPTISTS DRIVE FAR PAST GOAL.

The Baptists of the Rio Grande Baptist Association in the campaign for \$100,000 of the \$75,000,000 drive, have gone past their goal, according to statements made yesterday to the Record by Rev. Skinner and King, local pastors. Cotulla Church was given a quota of \$8,000 which has been over subscribed. Millett church subscribed \$1,000; Gardendale \$500; Fowlerton \$1,000. In Dimmitt county Carrizo went over the top with \$8000 quota, Big Wells \$4,000. Revs. Skinner said the \$100,000.00 quota given this district was oversubscribed.

## LACEY-SMITH.

A quiet wedding was solemnized Sunday night when Mr. J. W. Lacey and Mrs. Bessie Smith were married at the home of the latter. Only close friends of the contracting parties were present, the marriage rites being read by Rev. J. M. Foster, pastor of the Methodist church. The ring service was used.

Mrs. Lacey is the daughter of Mr. E. E. Marriott and was raised at Bryan, Texas. She has lived in our city for several years and until recently was in charge of the Gilmer Hotel. Mr. Lacey has for a number of years been agent for the I. & G. N. at Cotulla.

## Still After Enumerators

H. P. Hornby, of Uvalde, Supervisor of the Census of the 15th Congressional District writes the Record that enumerators are wanted to take the census in La Salle county. No applicants have been received from Encinal, Artesia Wells, Fowlerton, or Millett. Men and women are eligible for this work and preference will be given ex-soldiers, where they are capable of performing the duty. Application should be sent to Mr. Hornby at once at Uvalde, as the census must be taken in January.

## LABOR SUPPLY TO BE CUT OFF.

The labor supply of Southwest Texas will be cut off soon if legislation is passed by the present Congress that is contemplated, and there is but little doubt that this immigration measure will be enacted into law.

The Carrizo Springs Javelin quotes an interview with Congressman John N. Garner in which he predicts the early passage of such a law and says it will be the most stringent the country has ever known. Its object will be to cut off Bolshevik element from Europe, and while an effort is being made to exempt Mexico from the act, this likely will not be accomplished. The proponents of the law would have every person in America, not already naturalized to become a citizen within a certain time, and also to learn to read, write and speak the English language. Those failing in this would be deported. It is figured that this would Americanize America.

This law would completely cut off laborers from crossing the Rio Grande, and the country would have to depend on the labor already within its borders which is greatly insufficient. At present there is a system whereby laborers can be brought across the river under bond, but this act will expire January 1st.

## Ranger Force To Be Increased.

Austin, Texas, Dec. 3.—Governor Hobby tonight instructed Adjutant General W. D. Cope to recruit the present Ranger companies to full strength and to organize as many more companies as the Adjutant General deems necessary to protect the Texas border. Information to this effect was made public tonight by Ralph Soape, executive secretary, who talked with Governor Hobby over the telephone, the Governor being ill in Dallas.

It was stated by the Governor that in his opinion the time had arrived for Texas to take decisive action to protect its citizens along the border and not have them subject to marauders. He expressed the belief that the Mexican situation has grown so serious that an imperative emergency exists for Texas to safeguard her citizens and their property, and for that reason he directed the Adjutant General to increase the Ranger force to adequate strength. There are about 75 rangers in the force at this time. Gen. Cope, who is in Austin, will proceed with the recruiting.

Appropriations were made to maintain the present Ranger force and the Governor will pay the new men out of the deficiency allowance, of which there is some \$65,000 remaining. The enlargement of the force is done under the act of the Legislature empowering the Governor and Adjutant General to increase the Rangers where an emergency arises.

## Ladies Auxiliary Entertained.

The Baptist Ladies Auxiliary were royally entertained last week by Mrs. Chas. Neal at her home. Several interesting contests, musical and social intercourses, delicious refreshments, consisting of Mexican dishes were served. There were twenty-five or more members of the Auxiliary with a few guests present. We are always pleased to meet at Mrs. Neal's hospitable home. One Present.

## C. E. CONVENTION ENDED SUNDAY.

The Christian Endeavor Convention of the San Antonio District came to a close Sunday night after an interesting three day session. There were not the number of delegates in attendance as was expected because of the extremely bad weather the first day or two, but there was a good attendance and the program as published last week was changed but little. Among the prominent persons in attendance were: Miss Jessie Grider Butts, State Field Worker; Miss Lydia Pagel, District President, Miss Emma Jean Southern, District Secretary and Treasurer; Miss Eda Koch and Mrs. Wilgus and Rev. M. H. Arnold, of Smithville.

On Saturday afternoon the local Endeavor entertained the visitors with a barbecue which was thoroughly enjoyed.

Just before adjournment of the Convention the following resolution was adopted:

"Be it Resolved: That we the San Antonio District, assembled at Cotulla, wish to express our deep appreciation of the hospitality of the Christian Endeavorers and the Citizens of Cotulla; that the inspiration of the meeting is due in great measure, to the preparation, by prayer and labor, for the convention.

"That we thank all who contributed to making the program so interesting and inspiring, especially Miss Butts for the enthusiasm which she brings to our gathering.

"That we express our appreciation of the spirit which prompted the pastor and congregation of the Methodist Church in foregoing their own service in order to attend the convention meeting.

"That we also thank the barbecue committee for giving us the rare opportunity of getting their goat, and we assure them that it was much enjoyed.

"And that, with the memory of the challenge to loyalty in mind, we may hear the call of the needs in lives of others—"Come on"—and may, in the name of the Master, respond—"Lets go."

## DIXON WARNS FARMERS.

Austin, Texas, Dec. 4.—Sam H. Dixon, head of the bureau of Markets of the Department of Markets and Warehouses, stated that he had procured information from an apparently reliable source, that certain speculators in cotton seed, were buying large quantities of gin-run cotton seed, in Northwest Texas, and shipping it to a well known point of pure seed production, for the supposed purpose of selling it to the farmers as pure seed.

"Steps are being taken to detect the farmers of this and other states against this scheme to deceive them. Close tabs is being made on all cotton seed shipped by these speculators and the public is being warned, said Mr. Dixon.

Thanksgiving services at the Baptist church were well attended on Thursday of last week. The singing was good and the sermon by Rev. W. L. Skinner was a stirring, most appropriate one for the occasion. Several remarked that they were the best services for years.

## Census Enumerators to Receive Greater Pay.

Washington, D. C. Dec. 4.—Increase of the rates of pay for enumerators of the 14th decennial census to 4 cents for each person enumerated and 30 cents for each farm reported, was announced today by Director Sam L. Rogers. Approximately 87,000 enumerators are affected. The new rates are the maximum authorized by law. Payment during the last census was at the rate of 2 to 3 cents per name and 20 cents per farm. The increase was necessary to attract properly qualified men and women, Mr. Rogers said. Enumerators will be paid 10 cents for each barn or enclosure containing live stock not on a farm, 30 cents for each manufacturing establishment enumerated and 50 cents for each irrigation or draining enterprise reported.

## 6 Per Cent Money 33 Year Payments

If you had money to operate your farm, or want to buy cattle or anything else, I can make arrangements for you to get as much as you need at 6 per cent and on easy terms. I represent the San Antonio Joint Stock Land Bank in Texas and will be glad to take your applications for the amount of money you want to borrow. Write or phone me.

REDUCTION IN ONION ACREAGE.

It now looks like there is going to be a considerable reduction in the onion acreage of Southwest Texas. Bad seed germination will cut the crop down considerably and it is now the opinion of well informed men that the total acreage will not exceed 10,000 acres. Onion plants are selling higher than ever known before, selling we are told in some places as high as \$60 per acre. This with inevitable high prices for growing the crop, high prices for crates and high freight, will necessitate a high selling price for the product. We understand contracts are being made now at \$2 per crate, which is the highest contract prices ever paid at this stage of the game. Not many farmers are contracting, however, a great majority of them preferring to wait developments. Last year onions retailed at the close of the season for \$3.25 and \$3.35.

Charges Republican Plot.

Luis Cabrera, who is Carranza's confidential adviser and minister of the treasurer of Mexico, published a statement in a Mexico City paper charges that the kidnaping of Jenkins is nothing more than a "frameup" to aid the Republican party. His statement follows: "When I first received information that Jenkins had not been kidnaped by Cordova, but that he had gone of his own volition I believed that an ordinary chantage of (blackmail) was being perpetrated by Jenkins against a nation where he has accumulated his fortune. But our expert accountants have found the mercantile establishment of Jenkins in the best of economic conditions and this leads me to the conclusion that Jenkins was not kidnaped and that he "framed up" for the purpose of rendering a service to the Republican party of the United States of which he is a member."

The Federal Fair Price Committee at San Antonio will take a peep into the profits that merchants of that city are making on clothing, especially, mens and womens suits, shoes, cloaks, underwear, etc., and if it is found that excessive profits are made the matter will be referred to the grand jury. Simultaneously with the public announcement of the committee we notice a great cutting of prices by some of the big stores. This may have been a coincident, but the reductions in many instances are considerable. For instance we noticed that some merchants were advertising that prices were cut one half. In other words a ladies coat that had been selling for \$100 would be sold for \$50. It is reasonable to be presumed that the goods are not being sold at a loss, and if such a reduction can be made it looks like profiteering. It seems that the people have forgotten of their war thrift and have gone spending mad, and there was never such an opportunity for profiteering. The higher priced an article is the quicker it can be sold, the average person taking it for granted that high prices, no matter how big, are a matter of course.

We do not see much preparation of land for next year's crops, nor do we know any reason why this work should not be going on now. The cotton crop is off and the sooner the stalks are gotten off the ground and the land plowed the better. Boll weevils were numerous the past season and there is going to be plenty of them next year, and the solution of the matter is to get your cotton in early and get a crop before the weevils get too thick to get it.

The sun does not do much shining on this part of the earth nowadays. We have seen the time when it was sunshine all the time, but it seems that day is past. This is a rainy country now, and we must put up with the clouds.

Pasture men are doing all they can to get cattle to stock up their pastures but owing to the scarcity of stock this is not a very easy job. Stock cattle are being bought on the Ft. Worth market and shipped here for winter pasturage.

The Baptists of the Rio Grande Association went over the top in their \$100,000 drive the past week. Practically every church in the district oversubscribed its quota. Cotulla church was given a quota of \$8,000, a pretty big sum for a little church, but the goal was passed. Cotulla has oversubscribed its quota in the drives of all denominations made this year.

A man's best pal is his smoke

"Let's do the darn job together"

—Ches. Field

WHY is it that more and more smokers (millions now) are getting together with Chesterfields?

First of all, fine tobaccos. Our own buyers in the Orient send us the pick of the finest Turkish varieties (Xanthi, Cavalla, Smyrna and Samsoun). We blend these by a secret method with specially choice Domestic leaf.

This method brings out new qualities of flavor—a smoothness, a richness, a mellowness that go right to the spot. That's the reason Chesterfields satisfy.

And remember—"Satisfy" is Chesterfield's secret, based on our own private formula, which cannot be copied.

Every package has a moisture-proof wrapping—another reason for Chesterfield's unchanging quality of flavor.

Rev. W. L. Skinner announces that at the regular Sunday services at the Baptist Church tomorrow the \$75,000,000 campaign will be closed. Cotulla church more than raised her quota of \$8,000.

Ed Henrichson came back from San Antonio Tuesday where he had been in the hospital for a week, and is now under the treatment of the doctor. He says a hospital is a mighty poor place to be in, but necessity requires it sometimes.

Harry H. Fletcher of St. Paul, Minn., was in the city one day this week on his return North after a stay at his ranch of several days. Mr. Fletcher owns a place on the Nueces 12 miles West of Cotulla and while here discovered that he had more grass than the stock on the place could make away with, so purchased 100 head of stockers at the San Antonio stock yards and shipped them down for pasturage this winter. Mr. Fletcher is interested in the oil prospects of this section of the state and firmly believes a big strike will be made some of these days. He says that in wells on his place there are strong oil indications and it is possible that he may arrange to make a deep well sometime in the future.

**The Most Welcome Tire That Ever Came to Market**

*Men Who Appreciate Superlative Values Prefer The Brunswick*

In every great tire factory, the chief question is: "How much can we give for the money?" And the product depends on the policy adopted.

Every man who has become acquainted with Brunswick Tires knows that Brunswick standards are again evident. This famous concern—noted as a leader in every line it entered since 1845—has once more proved that its policy is right.

A perfect tire is simply a matter of knowledge and standards and skill. No secrets nor patents prevent making an ideal tire.

But standards come first. For in tire making there is vast room for skimping, for subtle economies, for hidden shortcomings. Makers without the highest standards don't build high-grade tires.

The Brunswick organization of tire makers includes a brilliant staff of technical experts. Not a man among them has spent less than 20 years in handling rubber.

Each is a master of his craft. And the new ideas they bring to the attention of Brunswick directors receive sincere consideration.

Every proved betterment is adopted unanimously.

The Brunswick Tire is a combination of acknowledged features—plus Brunswick standards of manufacture.

The result is a super-tire, the like of which you have never known before. The kind of a tire you will gladly join in welcoming.

Yet Brunswicks cost no more than like-type tires.

Try ONE Brunswick. We promise a surprise. And we feel certain that you will want ALL Brunswicks.

Then good tires will have a new meaning to you.

Also for about 500 acres in Cotulla, Texas. Also good all-around man, with or without family, to work at Peacock School at \$50.00 a month, or more, according to work.

**Carload Tractors Arrived Yesterday.**  
A carload of Ford Tractors for Chas. E. Neals Auto Company arrived yesterday. This car has been expected for some time but has been delayed in transit. Several farmers who have been waiting to get to work, took tractors to their farm yesterday and begun work. It seems that the tractors are about as simple and easy to operate as a Ford car.  
Mr. Neal stated that practically all of the seven tractors in this carload had been spoken for but that another car was in transit and in that shipment were several unsold. Demonstrations will be made next week on some nearby farm.
