Ozona To Host W. T. Golfers At Week-End Tourney

Over 100 Players Expected For Invitational Meet

West Texas golfers will converge on Ozona Saturday and Sunday for the Ozona Country Club Invitation Golf Tournament which is to be run off during the two-day meet.

Qualifying rounds are being played this week and the deadline for entries is 6 p. m. Friday, August 19. Championship flights will be 18-hole matches, starting at 8 a. m. each day. Other flights will be run at 30-minute intervals. About 100 golfers are expected to take part.

An elaborate entertainment schedule has been mapped by Club officials and W. E. Ramsey, pro. Saturday evening at 6 p. m. there will be a cocktail party followed by a buffet supper at 7 p. m. and an informal dance beginning at 9 o'clock. Jack Free and his orchestra has been engaged for the dance.

Especially for the ladies, there will be bridge and canasta games Saturday afternoon starting at 2 in the club house. Sunday morning at 9 there will be a private swimming party at the north pool and bridge and canasta Sunday afternoon starting at 2. A champagne party is set for 5 p. m. Sunday. At 6 Sunday evening, winners will be awarded their prizes in club house award ceremonies.

Ozona Red Birds And Grandfalls Eagles Play Off Tie Here Aug. 28

Ozona Red Birds, Latin-American baseball team, will meet one of the hottest teams in West Texas, the Grandfalls Eagles, in Red Bird park here at 3 p. m. Sunday, August 28.

The Grandfalls Eagles had lost only one game this season when the Red Birds from Ozona invaded Grandfalls last Sunday. The two teams battled to an 8-to-8 tie before the game had to be called on account of darkness. The decision will be made here a week from next Sunday when the Eagles will come to Ozona.

Next Sunday, August 21, the Red Birds are scheduled to play in Sanderson. The Birds are managed by Tony Garza and Palano Gomez.

Electric Service Cut Set Friday To Make Changeover

WTU To Rush Work So Minimum Interruption Will Result

West Texas Utilities Co. officials called attention of Ozona users of electric power again this week to the company's plan to interrupt electric service here Friday afternoon while final changeover are being made to convert the local distribution system to double its present capacity for power output.

Plans call for an interruption in service starting at 1 p. m. Friday and continuing possibly as late as 6 p. m.

By massing working crews and equipment, the company hopes to cut the time of service interruption to a minimum but users are urged to make provision for the service cut the full period.

When the changeover is completed, some work remaining still to be done at the sub-station following the Friday change, Ozona will have room to grow electrically to double its present size, company officials have explained. The installation of additional equipment, which has been under way for several weeks, has upped the voltage potential of the system to increase its capacity to serve a growing community and eliminate the possibility of low voltage resulting from overloaded lines.

4-H Club Members To Attend Week-End Camp In New Mexico

Ten members of the Crockett County 4-H Club, accompanied by three adults, will leave Friday to spend four days attending a summer camp at Scott Able 4-H Club camp in New Mexico.

Located in the Sacramento Mountains about 90 miles west of Artesia, N. M., the camp is the site of the District 6 4-H Encampment.

The group will return Monday. Carl Conklin, who is district 4-H Club chairman, will be in charge of the program. George Bunger and Erby Chandler will represent Crockett County on the District 4-H Club Council.

While at the camp, the program calls for rifle shooting, hikes, baseball, basketball and other outdoor sports, plus trips to nearby points of interest.

Other 4-H Clubbers to make the trip, in addition to those mentioned above are Bill and Steve Fish, Chris Hagelstein, Mark and Penn Baggett, Bill Jacoby and B. B. Ingham. Accompanying the boys will be County Agent Pete Jacoby, Assistant Agent Tommy Holmig and Bill Baggett.

W. E. Ramsey Resigns As Ozona Golf Pro For Big Spring Post

W. E. Ramsey, pro at the Ozona Country Club for the past five years, has resigned effective Sept. 1 and will be replaced by Bob Hodges of Littlefield.

Ramsey, a hard-working pro, will retain his professional status and will handle the Ozona Invitational Tournament this weekend.

"I have enjoyed my stay here in Ozona, working with fine people but I feel that this offer is just too good to turn down. I will miss Ozona for I have had a good time here," Ramsey said.

Ramsey took the Ozona Country Club in its infancy and built it into one of the finest small town links in West Texas.

At Big Spring, Ramsey will be manager of the new Cosden Refinery Hunting and Fishing Club.

Hodges has been associated with the A&B Office Supply for the past year in Littlefield. He is a native of Big Spring. His wife will assist him with the management of the club activities.

Federal Land Bank Law Change Raises Individual Loan Limit

Loans up to \$200,000 to any one person are now possible through the Federal Land Bank system, P. T. Robison of Ozona, vice president of the Sonora National Farm Loan Assn., said yesterday after receiving notification of this and other changes in the laws governing the Federal Land Bank system.

Previously the loans had been restricted to \$100,000 to any one person, raised from the original \$50,000. The new rule, approved by Congress in the closing days of the recent session, will open the federal loans to an enlarged group of land owners.

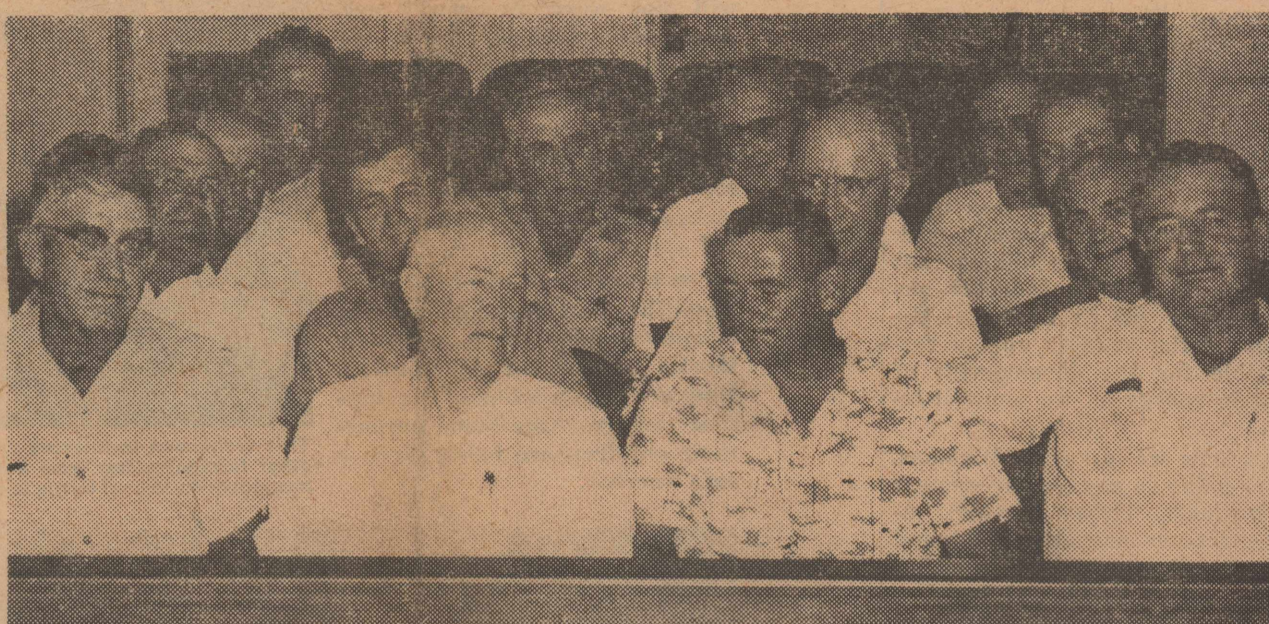

Another change in the system affects appraisals, Mr. Robison said. This change authorizes local associations to close loans on appraisals made by a person other than a land bank appraiser. This means, Mr. Robison said, that appraisals can now be made by members of a local association, familiar with the land values in the area of its operation.

SING CONVENTION SUNDAY

Crockett County Singing convention will be held next Sunday afternoon, starting at 2:30 o'clock, in the North Elementary school auditorium. Everybody interested in singing is invited to attend.

HAVE NEW DAUGHTER

Mr. and Mrs. Luther R. Rainwater of Midland are the parents of a daughter born August 6. Maternal grandparents are Mr. and Mrs. A. F. Krause of Pecos; former residents of Ozona. Mrs. Rainwater is the former Mary Ann Krause who was graduated from Ozona High School.

FLOOD CONTROL CONFAB — Pictured above are the Crockett County men who recently kicked off planning for a flood control program on Johnson Draw after a conference with H. N. Smith of Temple, State Conservationist, Soil Conservation Service. At the invitation of the Commissioners Court, the group, including Soil District supervisors and special flood control committees, conferred with the court and mutually agreed on a

plan to advance funds for an immediate survey by the SCS and to call a bond issue this fall to provide the county's part in the total cost of the flood project.

In the picture, by rows from front to back and starting at left, are Chas. E. Davidson, Jr., chairman SCD Board; Commissioner Bill Miller; Sherman Taylor, member flood committee; and D. C. Ratliff, county engineer. Second row, County Judge Houston Smith,

R. A. Harrell, member SCD board; and Commissioner Rusty Smith. Third row, Bill Clegg, member SCD board; Wayne West, banker and chairman of the special flood control committee; and Commissioner Ralph Jones. Fourth row, Commissioner Jake Young; Lowell Littleton, active vice president of the Ozona National Bank; Bob Scott, Work Unit Conservationist, SCS and Evert White, editor. (Photo by Hickman)

Deep Wildcat Set In Farmer Field Of Crockett Co.

Noelke Gas Test Spotted; World Field Extended by Strike

Plymouth Oil Co. has filed application to drill a 5,000-foot re-ary wildcat in Crockett County, 1 3/4 miles north of production in the Farmers (San Andres) field, and nine miles south of Big Lake. It will be drilled as the No. 1-O University.

Location, on a 329-acre lease, is 330 feet from the north and east lines of the southwest quarter of 13-49-University.

The Farmers (San Andres) field produces from the average depth of 2,440 feet.

B. Stratton has filed application to drill a 2,500-foot test 1 3/4 miles south southeast of the Noelke, Northeast (Gas) field of Crockett County, 10 miles southeast of Iraan. It will be drilled as the No. 1-F Shannon Estate.

Location, on a 160-acre lease, is 3,300 feet from the south and 1,900 feet from the east lines of 2-GG-Archer csl.

A 3/4-mile southwest and southeast, extension to the World, west (Strawn) field of Crockett County has been assured with flowing of oil on a drillstem test at Cities Service Oil Co. No. 2-E Shannon, in 18-Q-BHRR, 15 miles southwest of Big Lake.

On a one-hour and 45-minute drillstem test between 8,050-8,150 feet gas surfaced in three minutes, mud in 12 minutes, and oil in 17 minutes. The project flowed 51 barrels of oil and 33 barrels of water in one hour and 20 minutes. Gas-oil ratio was 3,430-1.

Operator then reversed out recovery. There was no breakdown. Flowing pressure was 840-1,260 pounds; 20-minute shut-in pressure was 200 pounds.

Shallow Wildcat In North Crockett Set

Harper & Huffman has filed application to drill a 3,000 foot wildcat, in Crockett County, 11 miles south of Big Lake. It will be drilled as the No. 1 Maggie Neal.

Operations are slated to begin Aug. 25.

Location, on a 160-acre lease, is 330 feet from the south and 990 feet from the west lines of 2-Georgetown RR survey.

The project is 3/4-mile northwest of Slick Oil Co. Ltd. and Findley W. Holdbrook No. 1 V. V. Weger, et al, recently completed Grayburg and San Andres discovery, fined for a daily pumping potential of 93 barrels of 30 gravity oil, no water, through perforations between 2,282-302 feet.

R. J. Cooke Celebrates 78th Birthday With Reunion Of Children

R. J. Cooke, a resident of Crockett county 58 years, was honored on his 78th birthday at a family reunion and dinner Sunday at his home south of Ozona.

Six of Mr. Cooke's children and their families were here Sunday for a family reunion and dinner which was Tuesday, August 16.

Present were Mr. and Mrs. Edgar Schwartz, Mr. and Mrs. Edgar Schwartz, Jr., and son Brad, and Lucy Ann Schwartz, all of Boerne; Mr. and Mrs. J. H. Sawyer and children, Glenn D. and John Lee Sawyer, all of San Antonio, and Mr. Sawyer's mother from Uvalde; Mrs. Virgil Oden of San Antonio; Virgil Oden, Jr., of San Angelo; Mr. and Mrs. Greene Cooke, Peggy Cooke, Mrs. Dudley Harrison and children, Robbie Lee, Damon and Martha, all of Sanderson; Mr. and Mrs. Morris Black of Iraan; Mr. and Mrs. Jackie Glasscock and children, Judy and Ann, of McCamey; and Mr. and Mrs. Cleophas Cooke and children, Cecilia, Bob and David Cooke, of Ozona.

Mr. Cooke was born August 16, 1877, in Glen Rose, Texas. He came to Crockett county in September of 1897 and soon after started in the meat market business. He continued in that business in Ozona until his retirement a few years ago. He has since been operating an irrigated stockfarm on the south edge of Ozona with marked success. Mr. Cooke made West Texas barbecue famous with his invention of the Cooke barbecue house. The product from this scientifically designed barbecue house, sold exclusively for many years in Ozona, became so famous that Mr. Cooke was besieged by other market owners for a similar cooker and he intalled several hundred of the houses throughout West Texas. His son, Cleophas, carries on the barbecue tradition at the grocery and market he operates in Ozona.

Mr. Cooke married Miss Lucinda Patrick, daughter of the late Mr. and Mrs. J. T. Patrick, in Ozona in 1898. Mrs. Cooke died Jan. 7, 1920.

Ozona Drug Closes While Remodeling Of Store Is Under Way

Stock and fixtures were being moved out yesterday at the Ozona Drug in preparation for the beginning of a remodeling program slated to begin this morning.

The store is to have a new and modern glass and masonry front, new flooring and extensive interior redecorating and arrangement.

The store will be closed for a few days while the work is in progress, or until it reaches a point where the business can re-open, Gordon Aikman, owner, said.

Band Practice To Start August 22; Prep For School

Director Gray Issues Summon For Daily Band Practice

Ozona High School band, under the direction of Byron Gray, should be in readiness for its first public appearance at the opening football game.

Director Gray has issued a call to all band members to report for the first band practice in preparation for the coming school term at 8:30 o'clock Monday morning, August 22.

All prospective members of the school's A band are especially urged to be present for this first practice, Director Gray said. Members last year's B band who expect to be in the A band should report for practice at the same time.

Band practice will continue each morning until the opening of school, Mr. Gray said. The band will practice with new music and will begin to prepare for its half-time drills for this fall's football season.

Majorettes have been in practice all this week under the supervision of Mrs. Lagaytha Gothard of El Paso, a champion twirler who was engaged last summer for the first time to work with Ozona twirlers and majorettes. This year's majorettes are Caroline Stuart, Elizabeth Pearson, Beverly Killingsworth, Mary Lou Johnson, Lou Nelle Beall and Aleane Young.

Eight members of the band attended summer schools at two different college locations this summer.

Band members who have music checked out for the summer should return it to the band library by next Monday, Director Gray said.

Texas-Pacific To Drill Deep Wildcat West of Farmer Field

Texas Pacific Coal & Oil Co., Fort Worth, will drill a deep wildcat in Crockett County, 12 miles southwest of Big Lake and four miles west of the Farmers (San Andres) field. It will be the No. 1-M University.

The project will be drilled with rotary to 9,800 feet with operations beginning when permit is granted.

Location, on a 170.35-acre lease, is 660 feet from the north and west lines of 36-12-University.

It is 2 3/4 miles north and slightly east of Lion Oil Co. No. 1 Neal, wildcat failure abandoned April 16, 1952, at 9,910 feet. The following tops were reported on elevation of 2,613 feet: Cisco, 8,550 feet; Strawn, 8,770 feet; and Bend, 8,874 feet.

Washington Okays Planning Survey Of Johnson Draw

Crew To Start Survey Work Here By September 12

Tentative approval from the office of the Administrator, Soil Conservation Service in Washington, secured by telephone the day of the recent conference of Texas SCS officials and local flood control committees, has been made official and the go-ahead signal issued for the survey and planning of the flood control program on Johnson Draw watershed.

The survey party has been ordered to report here to begin the survey work by September 12. The work is expected to take five months to complete.

A telegram received yesterday by Bob Scott, Work Unit Conservationist of the SCS stationed here, from H. N. Smith of Temple, State Conservationist, confirmed all agreements reached at and following the conference.

"Approval received today from Administrator, Soil Conservation Service, to provide planning assistance on the Johnson Draw watershed with funds provided under trust agreement," the telegram from Mr. Smith read. "Planning party will be assigned September 12. Paul Kenner, Party Leader, will begin making administrative agreements in a few days, and will need your assistance in preliminary planning for the survey. Please notify county and district officials."

Under the trust agreement between the Soil Conservation Service and Crockett County, the county put up a fund of \$25,000 for use of the service in making the survey and planning. By this action, since Texas SCS funds had already been committed for the balance of this year, the survey and final completion of the dam was speeded up by a whole year, officials estimated.

While the survey is under way, possibly in October, Crockett county voters will pass on a \$200,000 bond issue for the purpose of providing this county's share in the total estimated cost of the flood control project. If this issue is approved by the voters, and local backers of the plan see little chance of anything but a top-heavy vote in favor of the issue, the way will be cleared, after completion of the survey and plan, for the project to be submitted to Congress at its 1956 session.

By this time, costs will have been determined and the percentage of such cost that Crockett county will have to share also determined, thus paving the way for submission of the matter to Congress for appropriation of the government's part in the project, under Public Law 566. The total cost of the series of dams which would control at least half of the overflow of the watershed area has been estimated at \$800,000 of which this county has agreed to share 25 percent or not to exceed \$200,000.

Water Users Asked To Cut Consumption During Electric Cut

With an interruption in electric service for a possible five hours scheduled Friday afternoon, the cooperation of Ozona water users is sought by the Crockett County Water Control District in conserving the water supply during that period to prevent the necessity for emergency measures.

There is no danger of running out of water in that time, W. D. Cooper, manager, said, but if water users should continue the full rate of irrigation of lawns during the period, it might seriously deplete the water reserves and necessitate the use of the district's stand-by electric generating equipment.

If residents will shut off hydrants during the period of interruption in electric service, there will be a safe storage of water in case of fire and will assure uninterrupted service, Cooper said.

THURSDAY, AUGUST 18, 1955

SWINDLE OF THE CENTURY

The active public power promoter is often a highly articulate individual whose mental agility borders on the acrobatic. The success of the unremitting propaganda campaign carried on by these people is graphically illustrated by the astonishing growth of federally owned electric generating facilities, which accounted for seven-tenths of one per cent of the nation's capacity in 1933, and 12.4 per cent just 20 years later, in 1953.

If projects already authorized are completed, the federal government's share of the nation's electric generating capacity will be 17 per cent.

This whole empire is built on the shakiest of foundations. Federal power enjoys the use of treasury interest free and further cuts its operating costs through the avoidance of most of the taxes which private electric utilities have to pay, including the federal income tax. Taxes take nearly 23 cents of every private power com-

pany's income dollar. Special privilege attaches to public plants through the preference which municipalities and cooperatives get over private utilities in the allocation of federal power.

If the highly qualified Hoover Commission has accurately appraised the situation, less than 10 per cent of the people will benefit directly from the tax outlay of all the rest of the country's citizens when all presently authorized federal power projects are completed. The whole thing is a giant swindle in which 90 per cent of the American people are the victims. The remarkable thing about it is that the promotional activity has been so successfully and continuously carried on that a great many Americans look upon federal power development with complete faith, not realizing that the private electric industry has consistently grown ahead of the needs of the country and is responsible for the development of electric energy as we know it today.

It's time we lost some illusions. We're going to pay for government in business, either through increased taxes or greater debt and depreciated money, and in either case through decreased freedom and opportunity for the individual citizen. Federal power is no gift horse and it is time we looked it squarely in the month.

Strict Tests Through Every Process Assure Safety of Salk Polio Vaccine

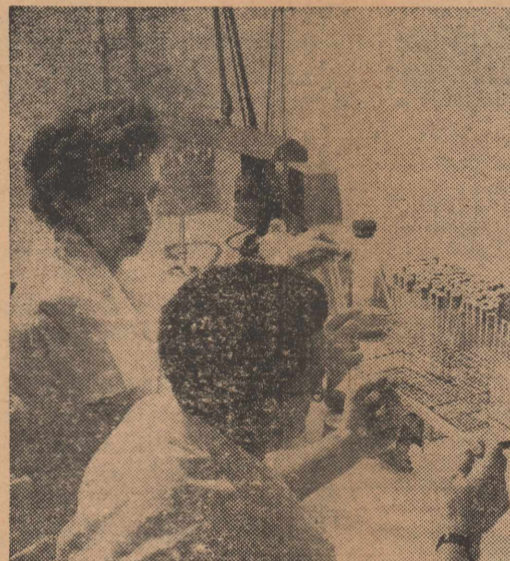

For the first time in history, a vaccine is protecting millions of human beings from paralytic polio. While the Salk vaccine will not work in every case, American children are being safeguarded against the dread disease, with no more risk than they would take in a vaccination against smallpox or a typhoid shot. The Salk vaccine must pass elaborate tests under the watchful eye of a government inspector at every stage of production. Then the final packaged vaccine is approved by the U.S. Public Health Service for distribution. Here are shown a few of the steps that assure American parents their children are being given a safe vaccine.

This technician is filtering dead cells and all other foreign matter from polio virus after it has grown on animal tissue in glass containers.

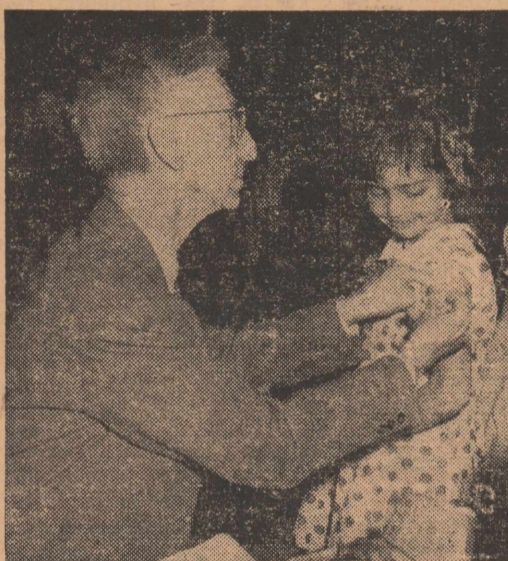

Virus is "cooked" in tank with formaldehyde (from bottle) until it is rendered harmless, after which it must pass exacting safety tests.

Animal tissue in tubes is inoculated with vaccine and let stand. If any live virus remains, it will multiply here, hence can be detected.

This expert is examining tissue after contact with vaccine, to determine absence of live virus.

It's all over and it didn't hurt a bit! Salk vaccine makes this little girl safer now from paralytic polio. And her parents feel better too!

Look! we've never made it easier for you to say "yes"

Our high allowances for trades are based on higher volume (Mercury sales are breaking all records). Our terms have never been easier (tailored to fit any budget). And remember—Mercury prices start below 13 models in the low-price field.* So why settle for a smaller, less powerful car when it's so easy to own this big 188-horsepower Mercury? Stop in and hear our offer today.

*Based on comparison of manufacturers' suggested list or factory retail prices, using a Mercury Custom 2-door Sedan.

SEE WHAT YOU GET WHEN YOU MOVE UP TO MERCURY

- **Exclusive styling.** Mercury's beauty is fresh, distinctive—shared by no other car.
- **A bigger car all over.** Far bigger than "low-price" cars—in length, width and wheelbase.
- **Super power and torque.** The lowest cost Mercury (the 188-horsepower Custom shown above) is the most powerful car at its price. And you get 198 horsepower in the Montclair series. This is usable power (torque)—and it's up as much as 30% in all speed ranges for brilliant new pickup and passing power.
- **Extra luxury.** Instead of ordinary upholstery, you get special fabrics, patterns and color combinations.
- **Extra-value features at no extra cost.** Dual exhausts on 8 out of 11 models, 4 barrel carburetors, new anti-fouling spark plugs, ball-joint front suspension—and many others.
- **High future trade-in value.** Mercury consistently leads its field for resale value.

IT PAYS TO OWN A

OZONA — TEXAS

Area Baptist Churches Plan Mission Schools Week Of Sept. 11-16

Churches in the Castle Gap Baptist association will join 1,800 other Southern Baptist churches in Texas this fall in a mammoth program of Schools of Missions and Stewardship. During the week of study, one night will be set aside for a "church and denomination" program.

Highlighting this week of emphasis on missions and steward-

ship, most of the churches will have as guest speakers one of Southern Baptists' 1,002 foreign missionaries, one of the denomination's 1,100 home missionaries, denominational leaders and stewardship speakers. The programs will also include films and other visual presentations.

Rev. R. Elmer Dunham, director of the schools for the Baptist General Convention of Texas, said the stewardship phase of the schools is particularly significant now because most of the churches will subscribe their annual budgets fol-

lowing the week of study. Next year, Texas Baptists will give an estimated \$72 million through their local communities.

The area churches cooperating in the stewardship program include: First Baptist and Calvary Baptist in Crane, First Baptist Churches of Grand Falls, Iraan, Ozona, Rankin, Royalty, Sheffield, and First Baptist and Eastside Baptist in McCamey.

The date for this School of Missions and Stewardship in Castle Gap Association is September 11-16. Services will begin in all

churches at 7:30 p. m. during the week.

Accurate and Complete

RANCH RECORD

Are More Important Today Than Ever

Government regulations and heavy tax programs are destined to be a part of the American way of doing business for a long time. For that reason, it is more important today that every business keep accurate records of its operations.

The ranch business is no exception. With the stiff federal taxes, you will want to take advantage of every saving item in your expense account and at the same time have clear and convincing records available for inspection by tax agents to prove up any item on your income tax return.

Start now to keep a complete record covering all operations in your business with the Stockman's RANCH RECORD BOOK. Your cancelled checks or your present records can be transcribed to this handy record book, together with your income and inventory records and you can have your entire record in a simplified form contained in one volume.

THE STOCKMAN RANCH RECORD BOOK

**LET'S TALK
LIVESTOCK
BY TED GOULDY**

Fort Worth — Packers showed little liking for the fat cows at Fort Worth, but boning types of cattle were strong, including canner and cutter cows. Bulls held steady. Slaughter calves and stocker and feeder cattle and calves ruled steady.

Comparative prices: Medium to good slaughter steers and yearlings \$16.00 to \$20.00; choice quotable to \$22.00 to \$23.00. Commoner kinds \$10.00 to \$15.00. Fat cows \$10.50 to \$12.00; canners and cutters \$7.00 to \$15.00. Bulls \$10.00 to \$13.75; slaughter calves good and choice \$16.00 to \$19.00; common and medium \$12.00 to \$15.00; culls \$9.00 to \$11.00. Stocker steer calves \$20.50 down; steer yearlings \$18.50 down; stocker cows \$8.00 to \$11.00.

Unprecedented Demand For Feeder Animals Looms

Bumper crops of feed being produced in most sections of the country portend heavy livestock feeding operations in the next few months. Concentration will be on hogs and cattle, with heavy poultry operations likely also.

USDA officials in Washington are reported highly concerned over the whole price support program. Seems that last year only about 35 per cent of the crop went into the program. About the same figure appears destined to be sealed this year.

They say that at least 45 to 50 per cent should be in the program, or it cannot work. It is a case of the tail trying to wag the dog when such a small per cent of the producers cooperate in the loan and support program.

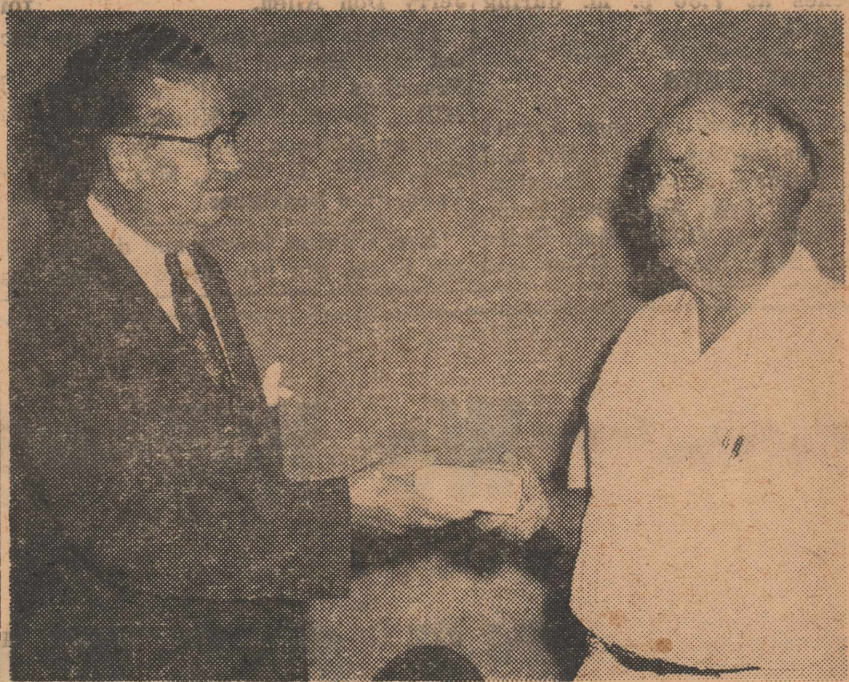

Situation is aggravated by huge barley, oats, grain sorghum crops. Soy beans in excessive supply, the last estimate on cotton indicated more protein there than anticipated.

Professional feeders, who buy everything are expected to slow operations if the situation remains the same. However, farmers with feed stuffs are expected to market it as meat or poultry.

Corn Belt reports oats selling at 50 cents and predicts \$1 or cheaper corn in liberal supply. Grain sorghums are now selling around \$1.50, may go lower. We heard about 500 tons laid down near Fort Worth at \$1.62½ this week.

Demand for feeders should be tremendous as Fall progresses.

Sheep and Lambs Strong,
Good and choice fat Spring lambs topped at \$18 to \$19.50 at Fort Worth Monday. Medium and lower grades sold around \$12 to \$17. Feeder lambs cashed at \$13 to \$15.50, strong to 50 cents higher. Old ewes sold for \$4 to \$5.50; old wethers drew \$7 to \$12. Fat yearlings cashed at \$14 to \$16.

On completion of 25 years consecutive service with Commercial Standard Insurance Co., E. Bright Baggett receives an appreciation token, a gold wrist watch, from Branch Manager A. P. Scrimshire of Abilene. A group of 20 relatives and friends of Mr. Baggett and four high company officials were present for the occasion, a luncheon at The House of Flowers. (Hickman Photo)

lower grades \$8 to \$13. Old bucks sold around \$4 to \$4.50. Breeding ewes scarce and in very strong demand. —oOo— Mrs. Thadd Tabb is recuperating in Crockett County Hospital after recent surgery. —oOo— **FOR SALE** — 1933 Chev. new paint, motor in excellent condition Price \$100, Phone 361-W

NEW BAPTIST CHURCH — Nearing completion is the new Baptist church in the Latin-American section of Ozona. Pictured above with a view of the building are a group of the prime movers in the construction. Third from left is Rev. Gonzales, the pastor, with Mrs. Gonzales on his left. Erected mostly with volunteer labor, others in the picture are a part of the labor crew. At extreme left is Cuco Zamarrillas and next to Rev. Gonzales, Mrs. Zamarrillas. Others from left are Mrs. Santos Cervantez, Macedonio Rios, Santos Cervantez and Samuel Cervantez. (Photo by Hickman)

Mr. and Mrs. Haskell Leath have returned after a vacation trip to South Texas, visiting friends, in Corpus Christi, Austin and other points.

Mr. and Mrs. Joe Pierce had as guests last week, Mrs. Pierce's sister, Mrs. Ada Phillips of Bay City and Mrs. Phillip's daughter, Mrs. Larry Young and daughter, Nancy, from Houston.

Illegal Hunting May Result In Heavy Fine, Game Dept Warns

AUSTIN — Maximum patrol has been ordered by the Director of Law Enforcement for the Texas Game and Fish Commission to discourage pre-season hunting.

He said he acted after indications "some people are not aware that severe penalties are mandatory under the law for persons breaking the game laws".

The Director said wardens have reported cases of shooting deer,

white-winged doves, mourning doves and quail.

"The temptation will increase now as the legal hunting period approaches," said the Director. "And I just wanted to caution people hunting before the legal period that our men are on the alert."

The Director said he has been assured by "countless Justices of the Peace" that they will enthusiastically cooperate in seeing that justice is applied. Hunters caught breaking the game laws face heavy fines or jail sentences and also may lose their hunting privileges.

He went on to say that all but a small segment of the hunting population cooperate and await the legal seasons, and urged the predominant majority to cooperate with their local game wardens in pin pointing the comparatively few who shoot out of season.

Several \$100 fines were meted out for pre-season shooting according to the latest arrest report. Four men from one small far-west Texas town were fined for shooting quail.

"Many of the doves still are nesting," he said, "and potshooting an adult dove now could mean the loss of its young."

LADIES GOLF ASSN.

The Ladies Golf Assn. met Tuesday at the country club for the monthly golf play, luncheon and bridge.

In golf during the morning, winners were Velma Marley, Donna Beth Davidson, Pauline Montgomery, Jean Scheuber and Gladys Pierce. Bridge winners in afternoon play were Liz Williams and Pauline Montgomery. A gift was

presented to Marge Ramsey who is leaving for Big Spring next month.

Attending were Katy Jones, Eileen Childress, Blanche Walker, Marge McMullan, Dorothy Pierce, Wanda Stuart, Jonsey Williams, Charlotte Phillips, Gladys Pierce, Alice McMullan, Dorothy Mont-

gomery, Marge Ramsey, Donna Beth Davidson, Pauline Montgomery, Velma Marley, Jean Scheuber, Liz Williams and Eda Robison of Marfa.

Golf play next Tuesday will be at 8:30 a. m. All golfers are urged to be present.

Chick Womack Gets Masters Degree From A&I At Kingsville

KINGSVILLE — Charles Robby Womack of Ozona is a candidate for the degree of Master of Science to be awarded at the summer commencement exercises of Texas A&I College.

The office of Dean J. C. Jernigan reported the names of 265 candidates for degrees of whom 148 are seeking the master's degree and 117 baccalaureate degrees.

Dr. O. R. Nielsen, former dean of Teas A&I and now dean of the School of Education at Texas Christian University, will speak at commencement exercises in Jones Auditorium at 6:30 p. m. Friday, August 26. Dr. Nielsen has also served as director of research for the Hogg Foundation and on the faculties of the University of Texas and the University of Chicago graduate school.

Immediately following the commencement exercises, a reception for graduates will be held in the Student Union Building, with families and friends of graduates invited to attend.

Charles (Chick) Womack is a teacher in Ozona Junior High School and Junior High and track coach.

Mrs. Coralie Meinecke left the first of the week for Glorieta, N. M., where she will spend a few days vacation and visiting her son-in-law and daughter, Mr. and Mrs. Bill Melton and Larry.

Cunningham Family Reunion Held Near Comanche August 14

Over 300 members of the Cunningham family, descendants of Capt. and Mrs. James Cunningham, pioneers of the Comanche area, attended the annual family reunion held Sunday, Aug. 14, on Mercer Creek, 7 miles southeast of Comanche.

This year's reunion was the 55th for the family and the occasion also was the 100th anniversary of construction of the Cunningham

ranch home. A tour of the old homestead was included in the reunion program.

The family now numbers 867, with 17 births and five deaths recorded during the past year.

Attending the reunion from Ozona were Mr. and Mrs. Earl Cunningham, Fushie Cunningham, Mr. and Mrs. J. G. (Gib) Armentrout and son, Jim, Mr. and Mrs. Bruce Mayfield and children, Sandra, Richard and Bobby, and Mr. and Mrs. Lee Roy Story and children, Charlotte Joe and David, from San Angelo.

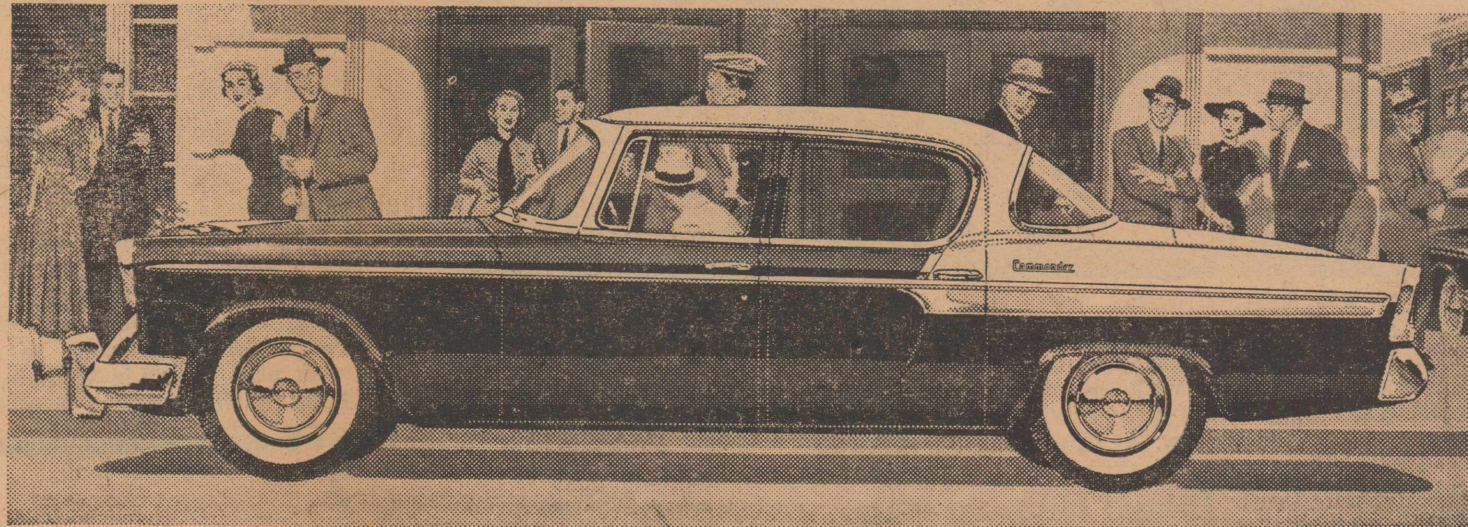

Old Newspapers Said Needed As Source Of Data For Historians

AUSTIN, — That old newspaper in the attic — the one grandpa saved because it contained a paragraph about grandpa's election as sergeant-at-arms of his lodge — could have lasting value in a permanent depository at the University of Texas.

Dr. H. Bailey Carroll, history professor and Texas State Historical Association director, says these "fugitive items" could help

history students and other scholars reconstruct the life that has gone on in a community. Your copy of the old newspaper might very well be the only one in existence. "The University's Newspaper Collection is already the greatest in the state," Dr. Carroll pointed out. "It could be tremendously increased in value."

**To Users Of Electricity
In Ozona:**

As you, no doubt, have already heard through press announcements, the West Texas Utilities Co. is just completing a citywide installation of equipment which when placed in operation will double our present capacity to meet Ozona's needs for electric power, thus providing a capacity to serve a growing Ozona for many years to come.

We regret that in the process of making this improvement to our Ozona distribution system it will be necessary to interrupt service for a few hours while the final connections are made to the new system. To make this interruption as brief as possible, we have assembled all the manpower and equipment that was available so that the work of making the final tie-in can proceed simultaneously all over town.

**Power Will Be Cut Off From
1 to 6 p. m. Friday - August 19**

We sincerely hope that by being forewarned, our customers will suffer a minimum of inconvenience. We suggest that business firms, such as filling stations and others who depend upon power for dispensing their products, make advance plans for the period of interrupted service.

A minimum of use of your refrigerator or home freezer while the power is off will insure you against spoilage. We appreciate your cooperation and your patience and promise our best efforts to keep the interruption of service to a minimum of time.

**HIGHLIGHTS
AND
SIDELIGHTS
From State Capitol**

By Vern Sanford
Texas Press Association

Austin, Texas — Depite "go slow" warnings from top state officials, 28 or more Texas schools have announced plans for complete or partial racial integration.

Gov. Allan Shivers, in setting up a statewide advisory committee, cautioned against "hasty, ill-advised action." Earlier Atty. Gen. John Ben Shepperd had warned schools against "rushing headlong" into desegregation ahead of legislative action.

Though the Texas Education Agency makes no recommendations to schools, it is keeping tab on locally-decided policies. Its file of newspaper clippings from over the state shows that about 36 schools have definite plans, either pro or con.

In numerous other districts studies are being made by bi-racial committees. Questionnaires are measuring sentiment in some areas.

Texas Citizens Councils, similar to an anti-integration organization in Mississippi, have sprung up in some East Texas areas. Dallas and Kilgore have councils pledged to "fight desegregation by every legal means."

Austin last week was the largest city with a high percentage of Negro students to plan integration this fall. It will begin in the top three grades which are 15 per cent Negro. A liberal transfer policy is expected to ease adjustment.

San Antonio, with 7.7 per cent Negro students, is the largest school system to plan immediate integration. All grades will be included here.

Other towns adopting immediate across-the-board integration include Corpus Christi, Lubbock, San Angelo, El Paso, Crystal City, Carrizo Springs, LaFeria Mission and Brownsville.

More popular is a partial desegregation policy, such as Austin's. It begins usually on the high school level with a staggered schedule for lower grades.

Cities favoring this include San Marcos, Robstown, Bishop, Port Lavaca, Brownwood, Kerrville, Weslaco, Harlingen, Sinton, Amarillo, Kingsville, Friona, Rockport, Aransas Pass, Karnes City, Kenedy and Runge.

When it hears of a school planning to desegregate, the Education Agency writes local officials for a blueprint of the plan. These are made available to undecided school leaders who want to know how others are solving the problem.

Vaccine Shipment Expected
Arrival of 50,838 shots of Salk

polio vaccine was expected by the State Health Department this week.

This is part of Texas allotment of 1,177,069 shots in addition to the vaccine given free to first and second grade school children.

Under the "volunteer control" plan adopted by the State Polio Vaccine Committee, 83 per cent will be allocated for commercial use, 17 per cent for public agencies.

This week's shipment was to

come from the Wyeth Laboratories in Marietta, Pa.

Meanwhile, Health Department figures showed polio on the increase. Forty-five new cases were reported during the past week, bringing the 1955 total of 939.

Of the victims 45 had received Salk vaccine.

Rev. and Mrs. Troy Hickman and John are enjoying a few days vacation in the Texas coastal area this week.

LOST — Sheaffer Lifetime pocket size fountain pen. Mingled maroon barrel. Gold band around center. Reward for return to Moore Oil Co. 1c

Janet North, daughter of Mr. and Mrs. Hilton North, is visiting in Houston with her aunt, Mrs. Karl Kremer, and Mr. Kremer.

Mrs. George Harrell is under treatment in a San Angelo hospital this week.

For a penny

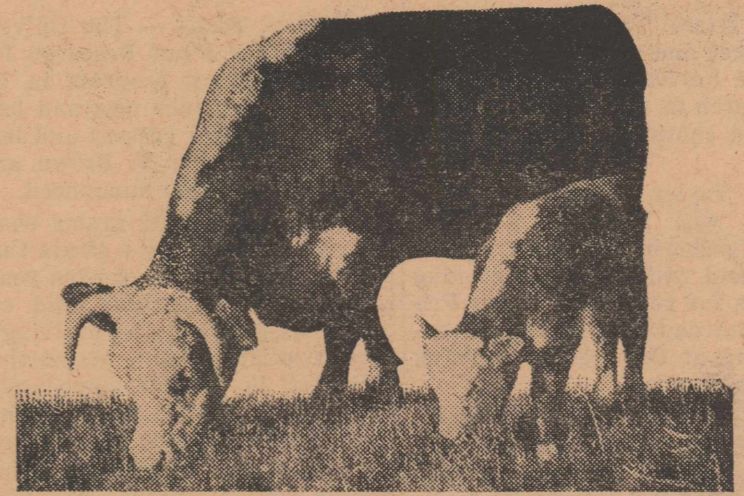

**electricity
does a day's dishes**

That's all it costs for electricity to wash and dry two loads of dishes in an electric dishwasher*. All over your home, electricity works in many ways, for mere pennies a day. It washes, cooks, cleans, lights.

Electric service is the biggest bargain in your family budget. And the men and women of your electric company work constantly to keep it that way.

*For makes with a thirty-minute cycle.

**West Texas Utilities
Company**

**calves on the ground are like
MONEY IN THE BANK**

It costs a lot of money to keep a cow. A lot of that money is lost if she fails to settle or drops small, weak calves that die or develop into "tail-enders."

BIG CROPS of husky calves are a must, if a fellow is going to make money ranching. This is especially true when the price of cattle is off.

Your range needs help. It takes more than grass alone to give your cows what they need to grow and drop the kind of calves that will bring top prices next fall.

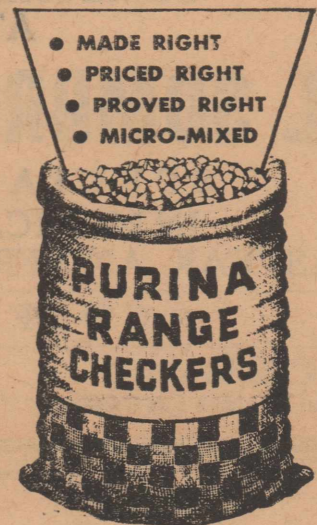

PURINA RANGE CHECKERS have proved their worth in research tests and on thousands of ranches. This favorite range supplement has what it takes. Cattle love Checkers, do well on them. Cows stay up in good shape at calving time, have lots of milk for the calves, too.

More and more Southern cattlemen are planning their breeding program so that calves come in the late fall. These calves are ready to eat early grass—hit the early market, which is usually best.

Feed for big calf crops the Purina Way. Purina Range Checkers can help you keep your operation on the profit side of the ledger.

COME IN. We'll visit about Purina Range Checkers and profitable ranch management. Make it soon!

Youth Revival At Baptist Church Led By Rev. Darrel Taylor

Rev. Darrel Taylor, outstanding TV singer and preacher, will lead a Youth Revival at the First Baptist Church in Ozona starting Friday and continuing through Sunday.

Rev. Taylor assisted by Mrs. Taylor, will lead the youth in special gatherings daily during the series and will preach at evening services for youth and adults Friday, Saturday and Sunday evenings and at the regular morning services Sunday.

Rev. Taylor conducts a program on television titled, "Songs from a Country Chapel" to be seen on station KDUB-TV, Lubbock. He maintains a counselling office in Lubbock. A former Californian, Rev. Taylor was at one time with the Old Fashioned Revival Hour, an internationally broadcast radio program originating in California.

A retreat will be held at the P. L. Childress ranch Saturday morning from 7 to 11 o'clock, with fun and food promised to all. Youth fellowship meetings will be held each evening after the evening services. Everybody is invited, young and old, the pastor, Rev. Troy Dale, said.

Mr. and Mrs. Chris Perner are in Lubbock where Chris will be a student at Texas Tech during the term starting in September.

Mrs. Ulmer Busby and children, Billy Strick and Lane, are here from Kingsville for a visit with Mrs. Busby's mother, Mrs. S. M. Harvick.

Plant Research Body Makes Study Of Texas Native Range Grasses

AUSTIN, Texas — The University of Texas Plant Research Institute is making progress in its attempts to produce new and better Southwestern grasses and legumes, Drs. Walter V. Brown and W. Gordon Whaley announced.

Plants of side-oats grama show promise of producing a strain that grows well in winter or even year-round. The researchers said experiments give hope for evolving a drought resistant hairy grama that will grow in underdeveloped soils on limestone hills. Other grama crosses may produce late flowering strains that maintain a higher protein content through the summer, reproduce more efficiently and provide more seed.

Three strains of curly mesquite grass with 80-per-cent fertility have been found in Southern Arizona and are under investigation. Sterility has been a big drawback in collecting seed necessary for experiments with curly mesquite that grows in Texas' less arid regions. The scientists also are developing a curly mesquite hybrid with increased foliage.

Studies of needlegrass, a South and Central Texas winter forage, may result in isolation of types that will grow elsewhere in the State. Other research indicates good possibilities for evolving a bristleglass that remains green well into summer. Bristleglass is found mostly in hot, dry parts of the Southwest.

The Institute reports some success in developing hybrids of les-

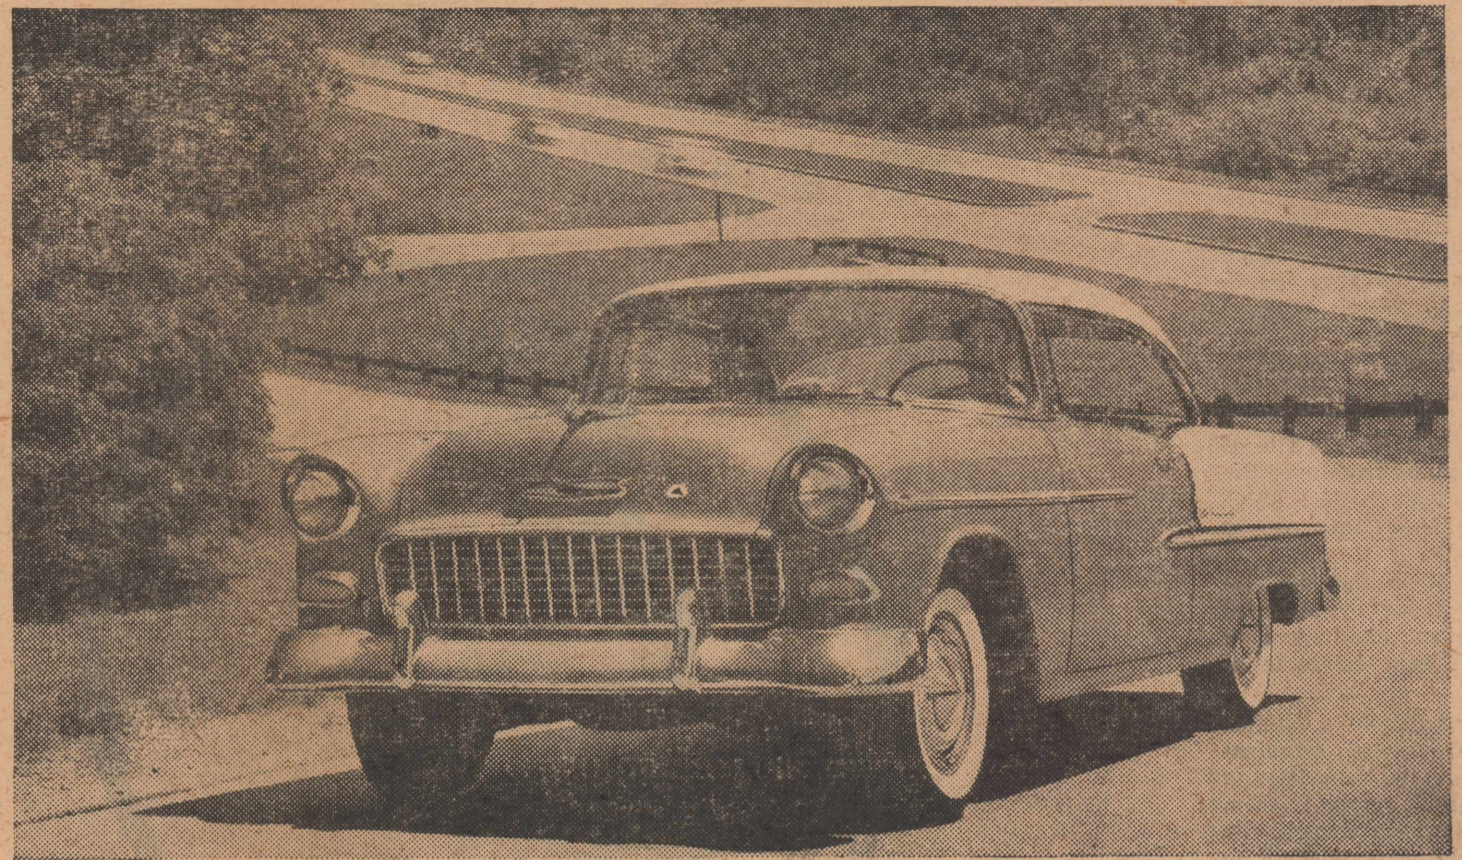

pedeza, a popular Southwestern legume. Many other grasses and legumes are being grown and studied under controlled conditions.

Construction is under way on a new business building being built by P. C. Perner on property across the street from the Foxworth-Gal-

braith Lumber Co. The building will house the Hilton North Grocery store. Completion is expected about October 1.

Roy Henderson underwent minor surgery in a San Angelo hospital last Friday. He is reported doing well.
