Dam Worker Hurt When Water Truck Passes Over Body

Billy Stephenson Suffers Broken Pelvis In Job Accident

Billy Stephenson, employed by the Frank Montgomery Construction Co., contractors on the Johnson Draw flood detention dam No. 5 north of Ozona, counted himself lucky Sunday when he fell under a loaded water truck at the dam site and suffered only a broken pelvic bone.

Stephenson and other workers on the job were attempting to free the water truck, which had become mired in the soft dirt on the dam structure. When the truck began to move under the pull of fowing vehicles, Stephenson attempted to mount the truck and his foot slipped.

He fell under the rear wheels of the truck, the wheel passing over one hip. Fellow workers declared that Stephenson escaped even more serious injury because of the soft ground where the accident occurred.

Mr. Stephenson was brought to the Crockett County Hospital where he received treatment.

Ozona Boys Attend Junction Range Camp

Junction, August 11 — The fourth annual Range Camp for outstanding 4-H and FFA boys of Texas opened this morning with registration at the A. & M. Adjunct near here. The camp is sponsored by the Texas Section of the American Society of Range Management.

The boys were selected on basis of outstanding 4-H and FFA work and interest in or projects with range management. Expenses for each boy attending the camp were secured from local banks, chambers of commerce, service clubs, soil conservation districts, and other organizations.

The week's camp is designed to give outstanding range and ranch boys an opportunity for additional training in range management, leadership and recreation. The program will include study, judging range conditions, wildlife management, ranch planning and field trips to the Roger Landers Ranch in Menard County, the Sonora Experiment Station and the Victor Marshall Ranch in Kimble County. A well planned recreational and entertainment program is planned for the group between instruction periods. Bob Childress and Herbie Noelke are attending the camp from Crockett County.

Ozona Coaches Attend Annual Coaching School

Grid Practice Sessions Slated To Begin For Squad Aug. 25

The Annual Texas High School Coaching School closed in Houston Saturday night and marked the rapid approach of another football season in Texas.

Ozona Football Coach Fred Hickman returned to Ozona Sunday to begin plans for the coming season and the opening practice sessions which are scheduled to begin Aug. 25th.

Also in attendance at the school was Ozona Junior High Coach Chick Womack who plans to return to Ozona in the next week or so.

The annual all-star games which feature the schools closing saw the North continue its domination by upsetting the favored South squad in a tight basketball game and then down the South as it was favored to do in a fine football game Saturday night.

From all appearances Coaches Fred Hickman and Sonny Cleere will be greeted by about forty candidates for the 1958 team when practice time rolls around.

Trotter Says Barnhart Scales, Pens Open All Hours Despite Rumors

Ezra Trotter, Barnhart feed and livestock dealer and manager of the O-B Trap Co. pens and scales on the Santa Fe siding, said this week that despite rumors being circulated, mostly by certain sheep buyers, that the Barnhart scales and pens are locked such is not the case and never will be as long as he is in charge of the facilities.

"Area ranchmen have told me that they are being forced to ship their lambs to San Angelo or Ft. Stockton for weighing on advice that the Barnhart scales are locked," Trotter said. "This, naturally, for sheepmen in this area at least, is more expensive, in shrink and freight charges.

"The Barnhart scales and pens are never locked, night or day. The O-B Trap Co. has a 99-year concession from the Santa Fe railroad, successors to the original contractors, the Orient, for the independent management of the pens and scales and they can never be locked by the railroad. They are the only pens on the railroad that can not be locked.

"As long as I am here (Trotter operates the scales under lease from O-B Trap Co.) I am representing the ranchmen and I can assure them that the scales will never be locked."

Citizens March For Gonzales Foundation Planned In September

Gonzales, — An urgent appeal for willing workers from Ozona to give a single evening of effort to an emergency statewide "Citizens' March" for the Gonzales Warm Springs Foundation (now the Texas Rehabilitation Center) is being made by R. I. Payne of Dallas, Foundation president.

Unless financial help is forthcoming in the very near future, the famous Texas rehabilitation center is faced with the probability of having to close its doors.

"We earnestly hope there is a civic, church, women's, Scout, or school group in Ozona which would like to volunteer for this one evening's Citizens' March," Payne said. If so, its officers are urged to contact the Foundation's executive director, Walter H. Richter, P. O. Box 58, Gonzales, Texas, as soon as possible.

"It would be a tragedy," Payne observed, "if these remarkable facilities, built by and for all Texans, were lost to the thousands of citizens crippled in car wrecks and other accidents and by strokes, arthritis, cerebral palsy, and many other handicapping conditions."

Only about 30 per cent of the patients at the center are still polio victims, and there are few agencies, such as polio's March of Dimes, which can help finance the non-polio patients. Of the non-polio patients, more than 90 per cent must have some if not total financial assistance from the Foundation's welfare program.

The Citizens March will be scheduled some night in September and will follow an intensive public information campaign designed to tell the people of Texas about the Foundation's new program.

"We believe a lot of Texans who want to keep this fine work going will turn on their porch lights when the signal is given," Payne said.

Girl Scout Troop Gets Travel Badges

Eleven members of Girl Scout Troop No. 6, Ozona Community Center, received travel badges last week.

They are Mickey Vargas, Ann Tobar, Erlinda Cervantez, Lurdes Garza, Yvonne Martinez, Sandra Martinez, Rosa Linda Garza, Yolanda Cardenas, Gloria Cervantez, Vivian Gallegos and Amalia Ramirez.

Awards were made by leaders, Mrs. Napoleon Vitela, Miss Ethel R. Wolf and Miss Dorothy Price. Half the group went to Carlsbad Caverns, N. M., and the other half went to Austin, where they toured the Capitol.

El Paso, B&B Tied In Race For Second Half Play

Sudden Death Playoff Sat. Night; El Paso Won 1st Half

By Ernie Boyd

The El Paso Natural Gas team threw the second half softball race into a tie Tuesday night by downing B and B Grocery 6 to 1 in a well played contest in the Ozona Park.

B and B's loss to the El Paso Club left the two clubs tied for the lead in the second half and calls for a second game to be unreeled Saturday night.

In the event B and B wins the game the two teams will engage in a best two of three games beginning Monday night since El Paso is the first half winner.

Tuesday game was closer than the score indicates with neither team able to score until the last of the fourth when El Paso put together an error, a wild pitch and a single by O. D. Paulk to get one run.

The explosion came in the last of the fifth when, Rader, Young, Gilliam and Maness all collected base hits to push across four runs and sew up the ball game.

B and B collected its only tally in the final frame when they put together a triple and a single to score and left the bases loaded at the final out.

Two New Crockett Fields Designated By Texas RR Commission

The Texas Railroad Commission, Oil & Gas Division, recently announced designation and allowance for two new fields in Crockett County, in District 7-C.

The Buckhorn (Ellenburger gas) field of Crockett County was opened July 25 with completion of Willets & Craig No. 1-16 Melissa Childers Smith, in 16-AB-University re-entered project, 11 miles northeast of Ozona.

It was finaled for a calculated daily absolute open flow of 46 million cubic feet of gas, with gas-distillate ratio 23.9-1 through perforations between 7,952-8,086 feet.

The Block 51 (San Andres) field of Crockett County was opened Feb. 28 with completion of Christ to Ray Petroleum Co. No. 1 University, in 7-51-University, 20 miles northwest of Ozona.

It was finaled for a daily pumping potential of 8.38 barrels of 24 gravity oil, plus two-tenths of one per cent water, through perforations between 2,387-427 feet.

Daily allowable is eight barrels of oil.

CROCKETT HOSPITAL NEWS

Patients admitted to hospital since August 5th: Mrs. Wm. H. Otte, Rankin, Texas — medical; Mrs. Leon Brock, Ozona, surgical; Billie W. Stephenson, Ozona, accident; Mrs. Robert Martinez, Ozona, obstetrical; Tommy Joe Allen, Ozona, surgical; Mrs. W. R. Phillips, Ozona, surgical; Molly Sue Richardson, Ozona, surgical; Mrs. Presiliano Gomez, Ozona, surgical; Mrs. Neely Wright, Ozona, obstetrical; and Mrs. W. G. Patrick, Ozona, surgical.

Patients dismissed: J. D. Pike, Frank Tijerina, Mrs. J. C. Mankin, Francisco Constancio, J. D. Bishop, Mrs. Rudy Vargas and infant daughter, Mrs. Wm. H. Otte and Billie W. Stephenson.

WOMAN HURT IN CRASH

A negro woman suffered facial cuts but was not seriously hurt in a car-pickup truck collision north of Ozona Tuesday night. The other occupant of the car, a negro man employed by the Frank Montgomery Construction Co. at Johnson Draw dam site No. 5, was uninjured as was John Coates, driver of the pickup. Both vehicles were traveling north on Highway 163 and the collision occurred when the driver of the car made a left turn to the road leading to the dam project.

Deadline Near For Exercising Options On 1958 Football Tickets

Ozona football fans who held reserved seat tickets last year and who wish to exercise their options to buy the same seats for the 1958 season are reminded that this is the last week in which these options will be held open.

All reserved seat tickets will go on sale to the general public next Monday, August 18, Mrs. Frank McMullan, school secretary, said this week. Holders of reserved seats last year were notified by letter of the sale tickets and invited to send in their applications for the same seats. Many have done so, Mrs. McMullan reports, but others may have forgotten and she issued the reminder in the hope that all who wish to have the same seats will notify her before the end of this week.

Reserved seat tickets for the five home games sell for \$5, no more than single admission price with the added advantage of being sure of a seat no matter when you get to the games.

Perdue Sells Burned Store Building, Lot

Doyle Perdue, whose grocery and market in the north part of Ozona was destroyed by fire last week, announced this week that he had sold the building and lot and would not attempt to reopen the store.

Buyer of the property was Tom Allen, automobile body repair man, who plans to repair the building and move his body shop business from its present location in the Smith building, next to Johnson draw bridge, on Highway 290, to the former grocery store location.

Ozona's Bailey Is Runner-Up In Alpine Golf Meet

Ozona Delegation Of 21 Golfers Tops Entry List

T. J. Bailey, Ozona's perennial champion of West Texas golf tournaments, was runner-up at the annual Alpine golf tourney last weekend. Bailey came from behind in the final round to nose out another contender for the second place slot but couldn't reach the former A&M College champion, Marceline Moreno of Midland, the Alpine champ. Moreno, by the way, will attend the University of California at Los Angeles on a golfing scholarship next year, working toward his Masters degree.

Ozona had the largest delegation of entries of any town in the tournament. Twenty-one Ozonans competed in the meet with seven of the group winning places in the matches. Other winners besides Bailey were Beecher Montgomery, Byron Stuart, John Childress, Jim Dudley, L. A. Greer and Joe Williams.

More Summer Showers Bring Needed Moisture And Relief From Heat

Frequent summer showers continue to romp around the Ozona area to bring much needed moisture to range lands dried out by August heat and relief to residents from the high temperatures.

In a series of showers last Saturday and Sunday and again Tuesday afternoon, Ozona received nearly an inch of moisture. The rain last Sunday produced 2½ inches of moisture in the western part of the county, Ernest Dunlap reporting that measure on his ranch 35 miles west. The heaviest part of the fall, however, covered a strip about eight miles wide in that vicinity.

Scattered showers have been hop-skipping over West Texas during the past week. San Angelo reported a heavy shower and high winds Tuesday afternoon. Ozona received a light shower as an aftermath of that disturbance and heavy clouds were building up in the same area late Wednesday.

New Members Sought For Renewals to Ozona Lions Booster Club

New membership cards for the new year in the Lion Booster Club were delivered Tuesday and a drive for new members and renewed memberships was launched yesterday.

The announced goal of 200 members was being sought by members of the club taking part in the drive. J. P. Pogue at Ozona Oil, Oscar Kost at the Saddle Shop, O. D. Paulk at El Paso Gas, Quibe Alford at Continental and Ernie Boyd were all pushing the ticket drive this week.

Men of the community who desire to join are urged to contact one of these men whether they have been approached or not.

Oliver Jackson, distinguished track coach and speaker from Abilene Christian College, is scheduled to be the featured speaker at the September kickoff barbecue at the Girls' Gym.

Another meeting honoring the basketball and track team is being planned in connection with expanding the program this year.

Jackson has become a nationally known track mentor with his star pupil, Bobby Morrow, having captured three gold medals at the last World Olympics held in Australia.

Concho Hereford Assn. Plans Stocker-Feeder Calf Sale August 19

A Hereford Stocker-Feeder calf sale will be held in San Angelo, Livestock Auction Company, Tuesday, August 19, 1958.

The sale is sponsored by the Concho Hereford Association. Its purpose is to provide a better market for the better quality Hereford calves, especially for the intermediate and smaller producer. All calves will be sold at auction and sellers will get the full benefit of higher quality.

Steers and heifers will be shown in groups of 10, 20 and carloads of 40 for judging and awards. Producers may show in any group they desire but do not need to show to consign calves in the sale.

The judging will begin at 7 a. m. Tuesday. The sale will begin at 11:00 a. m. August 19.

Although prior entry is not required, entry blanks may be obtained from the Concho Hereford Association, Box 804, San Angelo.

N. Mexico Game Chief Predicts Good Hunting For Texans This Fall

Seven out of ten Texans who hunt in New Mexico this fall will bag their deer, and all will have an opportunity to take a bear and a wild turkey.

That figure was supplied by Fred Patton, Chief of the New Mexico Department of Game and Fish, Information and Education Division, who stopped off briefly in Ozona last week.

Mr. Patton was on what he described as a good-will tour of Texas as an official ambassador of his State's official game agency.

He based his estimate of how many Texas hunters would be successful in New Mexico this year on last year's statistics.

Patton said at least 80 per cent of the 4,000 nonresident hunters who trekked the high mountain big game country of New Mexico in 1957 were from the Lone Star State. And his department's official records show that 70 per cent of the nonresident hunters in New Mexico last year were successful in bagging their deer. In fact, they were 20 per cent more successful than resident New Mexico hunters, he said.

CROCKETT COUNTY HOSPITAL MEMORIAL FUND

List of donors to the Hospital Memorial Fund since July 9, 1958:

Mr. and Mrs. Early Baggett in memory of Mrs. Ned Friend and in memory of Mr. Bert Couch.

Mrs. Alice West Baker in memory of Mr. George Bean.

Mr. and Mrs. Oscar Kost in memory of Mrs. Ned Friend and in memory of Mr. George Bean and in memory of Mrs. George Harrell.

Schools To Open Sept. 2; Faculty Is Near Complete

First Faculty Meeting Called For Monday, Sept. 1

Ozona schools will open for the new 1958-59 term here on Tuesday, September 2, Supt. L. B. T. Sikes announced this week. Notices were in the mails to faculty members calling them to be on hand for the first faculty meeting to be held on Monday, Sept. 1, preceding the opening of the regular term.

The opening day of school will be a full day of classroom work for pupils. High school students will register in advance of the school opening, and will go immediately into classroom work. Pupils in the grades will be enrolled on opening day and also will spend a full day in classes on opening day. Dates for the high school registration will be announced perhaps next week.

Only a few vacancies remained in the faculty this week, Supt. Sikes said. He left early in the week for a trip to Dallas, Denton and other points to interview applicants for places still unfilled in the faculty. No difficulty was foreseen in filling the remaining posts.

Principals in all schools will go on duty August 18 to prepare schedules, teacher assignments, sort books and materials and otherwise prepare for full blast operations when school classes begin.

Supt. Sikes and High School Principal J. A. Pelto will attend an area conference of high school principals and superintendents to be held in Pecos, Texas, next Monday, August 18.

The football coaching staff will get down to the serious business of training for the coming season on August 25. Prospective football squad members will be given the time for reporting for the first practice session on that date.

Isbell Transferred To Local Manager Post For Gas Co. At Brady

James Isbell, local manager for the Pioneer Natural Gas Co., and a resident of Ozona since 1951, when he came here as manager for the Empire Southern Gas Co., recently purchased by Pioneer, will leave soon for Brady where he is to become local manager for the same firm.

Mr. Isbell has been employed by the gas company for the past twelve years. He came here from Big Spring to assume management of the new system installed by Empire Southern in the fall of 1951. First natural gas for Ozona was turned into the mains in December of that year.

Isbell will be succeeded as local manager here by Dorris Haire, who has been employed as assistant manager for the past 3½ years. He is a native of Ozona.

Mr. Isbell will succeed Billy D. Grant, who is being transferred from Brady to Big Spring where he will become division engineer for the Empire Southern division of Pioneer Natural Gas Co.

Magnolia-Baggett Wildcat Shows Gas In Testing Strawn

Test South of Ozona Drilling Ahead To 10,500 Contract

Magnolia Petroleum Co. No. 1 E. G. Baggett, in 24-F-GC&SF, Crockett County wildcat, 9½ miles southwest of Ozona, flowed a small amount of gas on a drillstem test in the Strawn.

On the 2½-hour drillstem test between 9,100-145 feet, gas surfaced in 15 minutes at the rate of 369,000 cubic feet per day. Recovery was an unreported amount of gas-cut mud, no water.

The project, scheduled to 10,500 feet, was drilling below 9,209 feet in lime.

THURSDAY, AUG. 14, 1958

"GEORGE" CAN'T DO IT

At his first press conference in five weeks, President Eisenhower predicted, in answer to a question about his plans to curb inflation, that unless management and labor held profits and wages in check, "the American consumer is going to rebel . . . in a big way and there will be real trouble and we will get something that we don't want."

Most Americans, we think, were under the impression that there had been something of a rebellion in recent months — even by those who were seeking higher wages at the same time — and that we have had in the recession, "something that we don't want." However, perhaps shoppers have not yet rebelled "in a big way"; maybe we haven't yet seen any "real trouble"; and most of us realize that a full-blown depression is something we want even less than what we have had.

But we fail to see where Government is making reasonable effort to check a headlong decline in the worth of our folding money. Gov-

ernment has continued its long discredited policy of massive largesse to friend and foe, has reiterated its demand for extended "reciprocal" trade — that has been more disastrous than reciprocal.

Government has rejected all efforts at tax reform that would stimulate business by restoring waning incentive to workers, managers and investors. Government has made no sincere effort to curb its own extravagance, eliminate duplication and useless activities, to remove it self from highly uneconomical competition with tax-

paying business.

On the contrary, Government has steadily added new functions, agencies, commissions and personnel. It has sought to strengthen the grip of unions on the economy and to further harass management. The budget deficit for the current year is estimated at \$12 billion. The House has approved increasing the "permanent" debt ceiling to \$285 billion and authorized a further temporary boost to \$288 billion until June 30, 1960. The Senate will no doubt follow suit.

While the President named man-

agement and labor as coequally responsible with the Government for the existing situation and the threat to our economic future, it is actually the people, all the people — whether classified as labor or management or capital or professionals or housewives or students — who have failed in their job of making democracy work. Political interest has flared up quadrennially, only to be quenched by campaign promises. There has been no follow-through on those

promises. Honest legislators and high-minded administrators found themselves without support after the votes were counted.

Today, leaders in all walks of life — and notably in business — are determined to rouse the people, not to rebel (as the President fears they may) but to rise in their sacred duty and accept their part in the management of their country. It is the 11th hour. But it still may not be too late.

Miss Helen Hayes in visiting her grandmother, Mrs. W. W. West, in Ruidoso, N. M., this week. They will both return home this weekend.

FOR SALE — Used Frigidaire Automatic Washing Machine. In good operating condition. Call 2-2034.

Mr. and Mrs. George Bunger have been in Ruidoso, N. M., for a few days, to attend the races.

POWER TEAM

Doesn't it stand to reason that a gasoline and a motor oil — engineered to go together — should be used together?

Cosden's 10 W 30 multi-viscosity motor oil is made to reach deep down into engines, to rout out friction, releasing the power of gasoline.

Cosden's gasolines — either Higher Octane Regular or Premium Ethyl — are refined to give you more mileage per gallon, which means more miles per dollar.

Together — motor oil and motor fuel — this Cosden Power Team will give you smooth power, passing power, sure starts and quick get-away.

They're made to go together!

COSDEN PETROLEUM CORPORATION

Big Spring, Texas

The News Reel

A re-run of "The Ozona Story" as gleaned from the files of The Ozona Stockman

From The Stockman, Aug. 15, 1929

A prairie fire of unknown origin burned off approximately 50 acres of grass on the Dan Wills and Tip Smith pastures Tuesday afternoon. A group of volunteers from Ozona rushed to the scene and assisted in bringing the blaze under control.

Members of the Lions Club were taken on a tour of the northwest states and into Canada at their noon luncheon when Houston Smith, who has just returned from a 7,000-mile tour of the area, described some of the things to be seen.

The Crockett county tax rate will remain the same this year as last. The Commissioners Court this week set the rate at \$1.50 on the \$100 valuation.

Early action toward installation of a sewer system in Ozona was promised here this week by W. H. Whitley, field representative of the Southwest Sewer Co. of Dallas, franchise holder for a system in Ozona.

Miss Louise Henderson has returned from Kerrville where she has been attending Camp Mystic.

Claude Meadows, Jr., of Waco, star quarterback on last year's University of Texas football team, is the guest this week of Mr. and Mrs. S. E. Couch. Meadows is Mrs. Couch's grandson.

Albert Kay and Madden Read returned Saturday night from a fishing trip to Devil's River.

Mr. and Mrs. Bob Austin of Fort Worth are the parents of a daughter born Aug. 10. The baby is a granddaughter of Mr. and Mrs. J. R. Kersey of Ozona.

Mrs. Birdie J. Easterling of Del Rio, Worthy Grand Matron of the Order of the Eastern Star, and Mrs. Gussie Edens, Deputy Worthy Grand Matron, will visit the Ozona Chapter on August 23.

L. J. Kittle was painfully injured Wednesday afternoon while roping a horse. His injuries, consisting of painful cuts and bruises,

were treated here by Dr. G. Miller. Mrs. Floyd Henderson and children and Mrs. Scott Peters have returned from a vacation trip to California.

Mrs. H. B. Cox is here from Marfa to visit her parents, Mr. and Mrs. S. E. Couch.

A great ocean-to-ocean joy ride, carrying cargoes of goodwill will get under way Oct. 3 at St. Augustine, Fla., and end Oct. 14 at San Diego, Cal., across the continent. The occasion will be the Old Spanish Trail motorcade from Florida to California. At least 100 Florida cars will leave St. Augustine Oct. 3 and will be joined by hundreds of other cars along the route to bring publicity to Florida, the Southwest and the Old Spanish Trail.

MAN OR WOMAN — to take over route of established customers in Ozona. Weekly profits of \$50.00 or more at start possible. No car or other investment necessary. Will help you get started. Write C. R. Ruble, Dept. 8-2, The J. R. Watkins Company, Memphis 2, Tenn.

PUREBRED YEARLING Angora Billies for sale. May be seen in Ozona about August 15. \$35 per head. See Lindsey Hicks, Phone EX 2-2292.

CITATION
THE STATE OF TEXAS TO ANY SHERIFF OR CONSTABLE WITHIN THE STATE OF TEXAS,

GREETING:
You are hereby COMMANDED to cause to be published once each week for four consecutive weeks, the first publication to be at least twenty-eight (28) days before the return date thereof, in a newspaper printed in Crockett County, Texas, the accompanying citation of which the hereinbelow following is a true copy:

CITATION BY PUBLICATION THE STATE OF TEXAS
To Oliver A. Eylar and all persons claiming any title or interest in the land hereinafter described under the land scrip certificate heretofore assigned to Oliver A. Eylar, dated March 22, 1881, and bearing certificate No. 431, and, if the defendant hereinbefore named is now deceased, then also included herein as defendants are the unknown heirs of said named defendant and the legal representatives of said named defendants,

and, if any of the unknown heirs of the said named defendant are now deceased, then included herein as defendants are the unknown heirs of the unknown heirs of the defendant hereinabove named and the legal representatives of the unknown heirs of the defendant herein named, all defendants in the hereinafter styled and numbered cause,

GREETING:
You are hereby COMMANDED to appear before the Honorable District Court, 112th Judicial District of Crockett County, Texas, at the Court House thereof in Ozona, Texas, by filing a written answer at or before 10:00 o'clock a. m. of the first Monday next after the expiration of forty-two (42) days from the date of the issuance of this citation, the same being the 15th day of September, 1958, to Plaintiff's petition filed in said Court on the 8th day of May, 1958, in this cause, numbered 3049 on the docket of said Court, and styled Paul Perner, Plaintiff, vs Oliver A. Eylar, et al, Defendants.

A brief statement of the nature

of this suit is as follows, to-wit: A trespass to try title suit in which Plaintiff, for cause of action, would respectfully show that on or about the first day of January, 1958, he was lawfully seized and possessed of the following described land and premises situated in Crockett County, Texas, holding and claiming the same in fee simple, to-wit:

Survey No. 47, Certificate No. 431, Block ST, M.K.&T.R.R. Co., in Crockett County, Texas, situated on the divide between the Howard and Pecos Rivers, about 23 miles S. 80 degrees West of Ozona, and BEGINNING at a stake and mound, the N. W. corner of Survey No. 40, Certificate No. 4710, Block 2, I. and G. N. Ry. Co. for the S. W. corner of this tract;

THENCE E. 1002 varas to a stake and mound for the S. E. corner of this tract;

THENCE N. 977 varas to a stake and mound for the N. E. corner of this tract;

THENCE W. 1002 varas to a stake and mound for the N. W. corner of this tract;

THENCE S. 977 varas to the place of beginning, and containing 173.5 acres of land, more or less.

That thereafter Defendant unlawfully entered upon said premises and ejected Plaintiff therefrom and unlawfully withholds from him the possession hereof, to his damage. Plaintiff prays for judgment for title and possession of said land and other and further relief to which he is entitled, as is more fully shown by Plaintiff's petition on file in this suit. If this citation is not served within ninety (90) days from the date of its issuance, it shall be returned unserved.

The officer executing his return shall promptly serve the same according to the requirements of law and the mandates hereof, and make due return as the law directs.

Issued and given under my hand and seal of said Court, in Ozona, Texas, this 30th day of July, 1958. Leta Powell, District Clerk, 112th Judicial District of Crockett County, Texas. 19-4tc

Don't run — just reach for that phone call!

WHY be rooms away, most of the time, when your telephone rings? Why not have it within reach — always — by having additional phones in several convenient places? You can have a handy phone very happily located in your bathroom—your bedroom—your kitchen. Surely your convenience and step-saving is worth the pennies-a-day cost! Call our Business Office now and tell us where you'd like those wonderful additional phones.

GENERAL TELEPHONE SYSTEM
America's Fastest-Growing Telephone System

SO YOU'RE IN the midst of a hot, slow moving summer and nothing much is happening? If you want action, just look toward Washington.

With the end of the session figured to be not more than three weeks off at this writing — and possibly only a week off — the annual year-end legislative jam is being broken up by fast action.

In one day this week: The House, needing a two-thirds vote to suspend the rules and pass a farm bill, could not get the required majority (the vote: 210 to 186, with Republicans voting generally against, Democrats for) and farm legislation for this session appears to be dead.

Conferees of the House and Senate accepted a \$39.6 billion appropriations bill for Defense funds, an all-time high and some \$5 billion higher than last year, with new accent on preparing for "small wars," i.e. the Mideast crisis.

The House voted, 286 to 108, to raise the National Debt Limit to an all-time peak of \$283 billion, at the request of President Eisenhower.

The Senate passed, for the third time in nine-years, a bill to give "home rule" to voteless District of Columbia residents, but the House is expected — as usual — not to act on the measure, therefore dooming it.

The House voted passage of a bill to require disclosures of facts relating to pension and welfare funds of labor and management.

Teamster leader Jimmy Hoffa, before the Senate Rackets Investigating Subcommittee, denied knowing anything of a reported \$17,500 bribe given the Teamsters by Detroit laundrymen; could not explain some \$60,000 he said he won betting on horse races.

Bernard Goldfine, sometimes known as the "New England fabricator," wrote Members of Congress what he said are the full facts concerning his citation for contempt of Congress by the Legislative Oversight Committee; a few hours earlier sent letters to the administrative assistants of all Congressmen asking them to put his letter "near the top of the stack on your boss' desk."

And President Eisenhower warned both management and labor that if prices continue to rise there will be consumer's revolt that will lead us to "real trouble."

Other than these actions — and for mail, office work and Committee meetings — Members of Congress had a pretty dull day!

WITH ADJOURNMENT Looming closer, several major measures will not be acted on this session, in spite of the stepped-up pace

LONGHORN CAVERN QUEEN Mary Ann Ward of Austin, Texas receives her crown from Texas State Parks Board Chairman Maurice Turner of Huntsville at the "Queen's Throne" in Texas Longhorn Cavern near Burnet, Texas. The crowning highlighted the Silver Anniversary Celebration of the Longhorn Cavern State Park.

Frontier News Flashes

Department of Journalism & Graphic Arts
University of Houston

August 10-16, 1858
("Intense Southernism" in 1858)
We again caution the old line

in the chambers of both the House and Senate.

Barring the unexpected, these measures will probably die when the current session comes to an end: Premerger notification; exemption from the antitrust laws for most types of professional sports; a Federal fair trade law; "good faith" as a defense in price discrimination, statehood for Hawaii; labor reform legislation; the farm bill.

Still undecided at the moment: fate of the House-passed bill to liberalize Social Security; the railroad retirement measure; major legislation for small business, to name a few. Of course, the situation could change overnight but that's the outlook at the moment.

Democracy against that restless, constantly working something, who sometimes are called "Young South," sometimes "fire eaters" and sometimes open disunionists, but who are forever seeking to establish a new party under the name of intense "Southernism." They are forever seeking new issues.

The Gonzales Inquirer says that a runaway negro of Gen. T. N. Waul was found dead in the river the other day with 15 buckshot in his body and an arm broken. No clue has been found to the perpetrator of the killing.

The Lavaca Herald contradicts the report that yellow fever has become epidemic on the bay at Galveston, and says:

"Commercial intercourse and the trade between Lavaca and the country will not in the least be impeded by the prevalence of fever here."

Two more light draft steamers will soon be put upon the line, to run in connection with the Robert Waterman, from New Orleans to Port Lavaca.

THE OZONA STOCKMAN

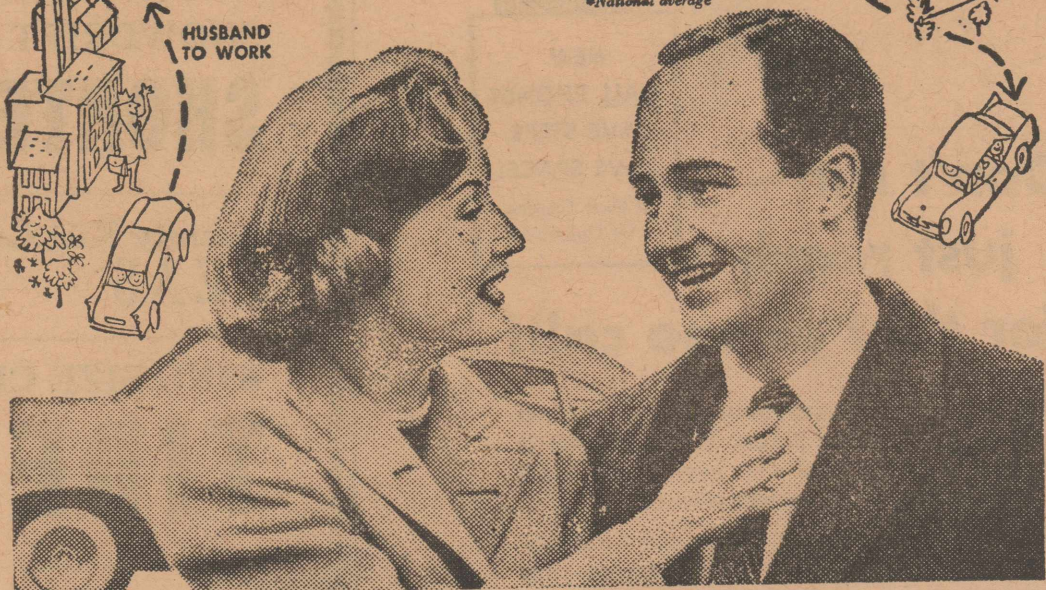

Honey, What a bargain I drove today!

The gasoline I buy gives me "more for my money." For only pennies I spend a busy day in my car taking good care of my husband, children and home.

Higher taxes now add 8.8¢ cents to the price of every gallon of gasoline. The price of gasoline itself has gone up only 17% in the last decade. Yet today's regular gasoline is the same as premium was 5 years ago. Today's premium is as powerful as aviation gasoline of the last war.

Long List Of Texas Plant Pests Do Damage To Wool & Mohair By Clinging To Fleeces

By Bob Scott, S. C. S.

Early spring rains, following the severe drought, produced an abundance of plants which are picked up in wool and mohair. Information furnished by wool buyers indicates that wool is usually docked 5 to 15 cents per pound, and mohair is docked up to 50 per cent, depending on the infestation with vegetable matter.

Fortunately, most of the plants causing damage to wool and mohair are invaders on rangeland. A combination of range practices including proper use, and deferred grazing will give best control for most of the harmful plants.

Following is a list of plants commonly infesting wool and mohair in the Ozona and general Edwards Plateau area.

Solanum rostratum Dunal — Buffalo bur. Family: Solanaceae (nightshade).

Plant is abundant in Edwards Plateau during wet springs following drought or on over grazed ranges. Matures seed in mid-summer, and will often stick to wool or mohair in fall and winter. Plant is found in all Texas.

Mentzelia oligosperma Nutt. — Chickthief Mentzelia. Family: Loasaceae (Loasa).

Found throughout most of Texas, but usually rare in grazed rangeland. The green leaves readily cling to wool mohair or clothing, but would normally be lost from the surface after becoming brittle. Seed pods might be found in wool, but not common.

Heberopogon contortus (L.) Beauv. Tanglehead or Black Needle. Family: Gramineae (Grass).

Perennial grass occurring in South Texas near Rio Grande River area, and in Big Bend area of Texas. In the Crockett Soil Conservation District it is found on rough hills along the Pecos River.

A good forage plant that is normally eaten by sheep, cattle and goats, and rarely occurs in wool or mohair.

Stipa leucarricha Trin & Rur. Texas Wintergrass or Texas Needlegrass Family. Gramineae (Grass)

Winter growing perennial grass

which usually produces seed in May or June, normally after sheep and goats are shown. Mature seed get in wool, mohair and legs and faces of sheep for approximately 30 days in spring. Common in eastern half of Edwards Plateau area, central and South Texas.

Aristida longiseta Steud. — Red threeawn or Red Needlegrass Family: Gramineae (grass).

Early spring perennial grass common to much of Texas, particularly on overgrazed ranges. Seeds in April, May or June, but usually after shearing. Legs and bellies of lambs sometimes shorn in summer when infestation is heavy.

Aristida wrightii Nash — Wright threeawn Family: Gramineae (grass)

Early spring perennial grass common to most sheep and goat producing areas of Texas. Seeds in April, May or June, and is occasionally found in wool, but not as common as other species of *Aristida*.

Daucus pusillus Michx. — Southwestern carrot or Beggarlice Family: Umbelliferae (Parsley).

A winter annual weed common to most of Texas. The forage is normally grazed by sheep and few seed are produced. Sheep are normally shorn before plant matures seed in June; however, the fall clip of mohair may often contain beggarlice.

Genus: unconfirmed Family: Umbelliferae (Parsley).

Plant is probably *Ammoselium popew* T&G or *Spermolepis echinata* (Nutt.) Heller, both of which occur in waste areas in most of Texas. Very rare on rangeland in Edwards Plateau, but seed would readily stick in wool. Plant is winter annual that matures seed in May or June.

Lappula texana (Scheele) Britton. Cupseed Stickseed or Hairy Stickseed Family: Boraginaceae (Borage).

A small insignificant, early spring weed which is usually uncommon on Edwards Plateau rangeland except during abnormal-

ly wet springs. Matures seed in April or May. Found throughout sheep and goat producing area of Texas.

Bromus catharticus Vahl. Rescue Grass Family: Gramineae (grasses).

Winter annual common during wet winters in most of Texas. Seed normally mature in April or May in Edwards Plateau area, and falling seed have slight tendency to stick in wool. Plant is fairly uncommon in quantity in Edwards Plateau.

Hordeum pusillum Nutt. — Little Barley Family: Gramineae (grass). Winter annual occurring over central and western Texas during occasional wet winter and spring seasons. Plant not generally found on rangeland in quantity. Mature seed will stick in wool.

Erodium cicutarium (L.) L'Her. Californian Filaree or Alfilaria Family: Geraniaceae (Geranium).

Winter annual weed common to central and west Texas. Matures seed in April, May and June. Seed twist spirally and become imbedded in wool.

Erodium texanum A. Gray — Texas Filaree Family: Geraniaceae (Geranium).

Winter annual weed common to central and west Texas. Matures seed in April, May and June. Seed twist spirally and become imbedded in wool.

Marrubium vulgare L. — Hoarhound Family: Labitae (Mint).

Common to most of Texas, but is a particular problem of central and southwest Texas wool and mohair producing areas. Ranchmen in the Edwards Plateau have controlled hoarhound for many years, but with wet years following extreme recent drought an extensive spraying and pulling program has become necessary. In most of Ed-

wards Plateau area wool and spring mohair is shown before hoarhound seed mature, but the fall clip of mohair is infested where the plant is not controlled.

Cenchrus pauciflorus Benth. — Mat sandbur or grassbur Family: Gramineae (grass).

Annual warm season plant common to all of Texas. Often problem in wool and mohair from areas south and east of Edwards Plateau. Plants are common on roads, waste areas, and overgrazed rangelands in Edwards Plateau but not common on most ranching units.

Centaurea melitensis L. — Malta Centaurea Family: Compositae (Composite).

An introduced annual weed which matures a spiny bur capsule in April or May. Common along roads and in waste areas of Texas.

Two other plants that cause damage to wool and mohair that are not listed but known by everyone are cocklebur and pricklypear.

Mr. and Mrs. Martin E. Dowdy and daughter, Joleta, spent the week-end here visiting their parents, Mr. and Mrs. Leon Dowdy and Mr. and Mrs. Ed Cranfill.

Mr. and Mrs. Ted M. White accompanied Mr. and Mrs. E. F. Ray to Galveston last Tuesday. Mr. Ray, Mrs. White's brother, has been ill for a month. He spent three days in John Sealy Clinic in Galveston.

FOR SALE — Used Frigidaire Automatic Washing Machine. In good operating condition. Call 2-2034.

TWO GOOD USED TV Sets. 17-inch screens. Priced at a bargain.

Mr. and Mrs. Roy Pearson and son, Dennie, are spending this week in Dallas, the guests of her sister and family.

Mr. and Mrs. Roy Killingsworth, Beverly and R. Neil, have returned from a trip to Red River, N. M., and Colorado.

Miss Mary Grace Chandler is visiting in Stephenville with her grandmother, Mrs. E. H. Chandler, and her aunt and uncle, Mr. and Mrs. Carl Colwick.

REFRIGERATOR-FREEZER that needs NO DEFROSTING

MADE BY **FRIGIDAIRE**

FROST-PROOF FOOD KEEPING — WHERE YOU NEVER DEFROST AGAIN

In the Flowing-Cold Refrigerator...

Flowing Cold means super-fast, more uniform chilling for all your fresh foods no matter where you store them — in the refrigerator section or on the door — regardless of outside temperatures.

And Flowing Cold means no more frost! Here's how it works: Fresh warm air enters the refrigerator section every time you open the door — and is drawn by a fan up and over the hidden Refrig-a-Plate that cools it and removes the excess moisture after which it comes back in at the top as Flowing Cold.

Best of all, the moisture removed is evaporated automatically — there's nothing you have to do!

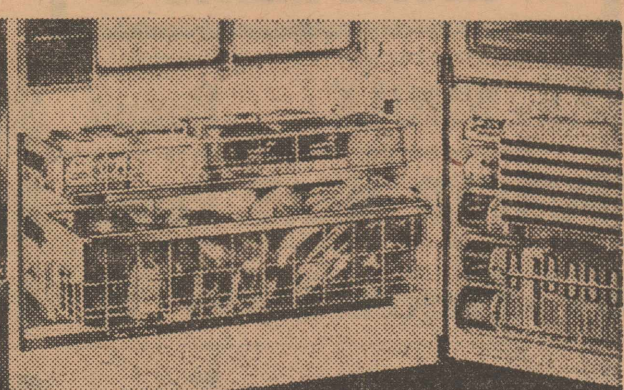

FROSTED-UP! Ordinary freezer chest after 30 days. Everything has liberal coating of frost! Some types demand do-it-yourself defrosting. Others apply electric heat to freezer to melt frost. Sometimes frost water drips down on food — refreezes on packages. Foods may thaw, then refreeze — lose flavor and vitamins!

In the Frost-Proof Freezer...

Completely new and revolutionary — completely different from so-called "automatic" defrosting systems. Frigidaire patented Frost-Proof Freezing actually whisks away heat and moisture before frost can form!

Frost-Proof Cold enters at the top, rear, cooling and removing moisture from the entire freezer. Then this warmer, moist air is drawn out of the freezer across sub-zero freezing plate underneath and completely separate from the freezer, where the air is re-chilled, changing warm air into dry, sub-zero Frost-Proof Cold!

And the moisture, of course, evaporates automatically. Frost never accumulates on freezer walls or on food. No more chipping, scraping at a stubborn ice crust. No more melting frost, no more pans to spill!

FROST-FREE! Frigidaire Frost-Proof Freezer after months or even years! Not a whisker of frost in sight! The secret is a new kind of circulating cold — dry, sub-zero cold — that's hungry for heat and thirsty for moisture. Carries away warm air and moisture before frost can form! Freezes foods faster — keeps them frozen.

See This Refrigerator-Freezer At **West Texas Utilities Company**

Decrease In Demand Cited As Reason For Lower Prices For Wool

College Station— Why are wool prices so low?

This question is foremost in the minds of many wool producers, for prices received in March, 1958, were 21 percent lower than in March, 1957, and in June, 1958, prices were 32 percent below June of 1957.

John G. McHaney, extension economist, says the lower level of prices mainly has been caused by a decrease in the demand for wool in the United States and in the world. In January, 1958, the seasonally adjusted rate of mill used wool in the U. S. was 35 percent lower than a year earlier and 45 percent lower than when the decline began the summer of 1956.

In January and February, 1958, McHaney says the total quantity of fiber (including wool) used by the wool textile industry in the spinning of yarn, other than carpet, was down 24 percent. This decline was mostly in wool. The use of man-made fiber by the wool industry was down only five percent.

During the early part of 1958, McHaney points out that cuttings for men were 23 percent below those for the same period in 1957, and 24 percent less than in 1956. The decline was much greater in suits containing predominantly wool than in suits containing less than 50 percent wool. Cuttings of most women's outerwear garments also declined early in 1958. Too,

he says, mill activity has declined because of the general decline in economic activity and the uncertainty as to prospective consumer demand.

McHaney predicts that wool production in the U. S. will be slightly more in 1958 than 1957 because there are about three percent more sheep and lambs on farms and ranches, and ranges are in good condition.

He says it now appears that prices received during the 1958-59 marketing year (April, 1958 to March 31, 1959) will likely average less than in 1957-58. But he points out that the incentive program still exists, and mill activity could pick up because of the recent inventory liquidation and the fact that wool prices are lower. Too, if the mid-East situation should become more serious, chances are wool demand and prices will rise.

SON TO WRIGHTS

Mr. and Mrs. Neeley T. Wright are the parents of a son born Monday at the Crockett County Hospital.

Don Ray of Brownwood is visiting his cousin, Mark White, at Rancho Blanco.
