## Charles E. Coombes Becomes W.T.U. District Manager As Henry Batjer Reaches Retirement

Changes in the personnel of the San Angelo District Office of West Texas Utilities Company were announced today by Cal Young, WTU President. The changes will be effective January 1 following the retirement of Henry H. Batjer, District Manager.

Chas. E. Coombes

Charles E. Coombes, Assistant District Manager in San Angelo since 1946 and employed by WTU more than 36 years, will succeed Batjer as District Manager.

Lloyd Cope, District Auditor for the San Angelo District will be promoted to Local Manager in San Angelo. J. B. Anderson, Jr., Assistant District Auditor will succeed Cope as District Auditor.

WTU's San Angelo District includes the cities and towns of San Angelo, Ozona, Sterling City, Eldorado, Sonora, Barnhart, Christoval, Carlsbad, Eola, Knickerbocker, Mereta, Mertzon, Sherwood, Tankersley, Veribest, Wall and Wester Valley.

Henry H. Batjer, District Manager in San Angelo since 1934, and an employee of the company for more than 32 years, retires from active service with WTU on January 1.

In February, 1928, Mr. Batjer was employed as a construction engineer on the San Angelo water works system which was then owned and operated by West Texas Utilities Company. The following year he was named commercial manager and assistant district manager, and assumed his duties as district manager in 1934.

Chas. E. Coombes, who will assume his new duties as District Manager January 1, began his long career with the Company in 1924 as a merchandise salesman in Ballinger. During the next four years he worked in Ballinger and Santa Anna and later moved to Menard.

When the Company's new district was organized in 1928 with Mason as district headquarters, Coombes moved to Mason to serve as district merchandise sales manager, and six months later was promoted to District Manager. In 1929 the new district was combined with the Ballinger District, and Coombes returned to Ballinger as district sales manager.

In 1935 he was transferred to Dalhart where he served as District Manager of the Company's Panhandle for 11 years. When the electric and ice properties in that area were sold to Southwestern Public Service Company in 1946, Coombes moved to San Angelo where he has served as Assistant District Manager for the past 14 years.

Born in Benjamin, Texas in 1902, Coombes is the son of the late Charles E. Coombes of Stamford, a pioneer West Texan, former mayor of Abilene, and one of West Texas' best known lawyers.

## SON TO REEVES

A son, Erwin Eugene Reeves, Jr., was born to Mr. and Mrs. Erwin Eugene Reeves, Sr., on December 22nd, at the Crockett County Hospital.

## Education Annex To First Baptist Church Completed

### New Building Addition Built At Cost Of \$109,800

At long last the education building of First Baptist Church has been completed. Hubert Brasher of Erasher — Goyette, architects and engineers, Lubbock, Texas, gave the final inspection last Monday.

The building was constructed by Jack Brewer at a cost of \$109,800. It houses the church office and the following departments: Nursery — birth through 3 years; Beginners — 4 and 5 years; Primary — 6 through 8 years; Junior — 9 through 12 and married Young People.

The present building is being remodeled for Intermediates 13 through 15; single Young People 16 through 24 and all adults.

A formal dedication and open house is planned for late January. Rev. Harry Trulove pastor, said this week.

## Few 'Skinned Fenders' Only Traffic Mishaps Despite Heavy Flow

In spite of an unusually heavy through traffic surge during the Christmas holiday week-end, Crockett county has so far escaped serious accidents on the highways and streets and "if our luck holds out over the New Year week-end" as a representative of the Crockett County Sheriff's Department put it, the county will get through the danger period without marring its record of 217 traffic deaths.

Only a few minor "skinned fenders" disturbed traffic officers during the holiday period to date, Deputy Sheriff Levon Parker reported at mid-week. Officers noted an extremely heavy flow of traffic on Highway 290 during the period, especially on Christmas Eve, Christmas day and the day after, the deputy said. Perhaps the frequent warnings by newspapers, radio and television of the holiday traffic hazards had something to do with it or perhaps it was just the density of the traffic that made people keep in line, but the record in this county remained unblemished to this morning.

## Lions To Resume Cage Play Friday On Menard Court

### Freeman Returns To Put Team Now At Full Strength

By Ernie Boyd

The Ozona Lions returned to the basketball court Tuesday and will travel to Menard Friday night to play Memard in a non-district contest.

Co-Captain Jim Freemann returned to the squad this week after missing all but the first of pre-Christmas games, and his return is expected to give the Lions a big boost, even though Pete Montgomery has come along very well and will continue to play a big role in the Lions guard play.

The Lions finished their pre-holiday play with a five won and four lost mark, winning their last four games, all over teams that had previously beaten them.

Menard, a long time member of district 8-A, is now playing class B ball but has largely the same team that split with the Lions last year in two over-time contests. The Lions, on the other hand, do not have a single starter from last year on the squad.

Coach Brooks Dozier will probably start the same unit that started the last game before the holidays in Ozona, Phillip Carnes and Pete Montgomery at guards, Wayne Albers, Mike Stiles, and Co-Captain Van Miller across the front line. Hal Long, is expected to be back in action soon to bolster the front line along with Carl Montgomery.

In the past two games the Lions have gotten outstanding rebounding efforts from Stiles and Albers while Carnes, Miller and Stiles have led the way in scoring.

Freeman was expected to be the play maker and bulwark of the defense when the year began, and his loss after the first game left the Lions severely crippled, until Pete Montgomery was shifted from the B team to take up the slack left at the guard post.

The Lions have been getting "out shooting" but so far had shown little ability to use their high post in their tandem offense. The frequent zone defenses, and the shortage at guard which had Long in the front line, and then a few other factors which developed along the way, have hampered this development but now with everyone back it is hoped that all of these problems can be worked out before district play begins.

Following Friday night's game, the Lions will entertain the tough Del Rio Wildcats in Ozona next Tuesday and fans who enjoy good basketball will enjoy seeing the Wildcats play even though they may not be a top power, they play colorful basketball.

There will be an A and a B game, with the first game starting at 6:30 and the second game at 8 p. m.

## Crockett 4-H Club Members Begin Show Circuit At Odessa

Crockett County 4-H Club members start off the show circuit on Sunday, January 1, when six members take their livestock to the Sand Hills Hereford and Quarter Horse Show at Odessa. Ten fine-wool show lambs will be exhibited by Penn Baggett, Bill Jacoby, Duwain Vinson, Jr., and David Jacoby. Bill and Larry Williams will show two Hereford steers.

Weighing and classifying of lambs will get underway at 1 p. m. Sunday, with the judging taking place on Monday at 8 a. m. Steers will be shown on Thursday, January 5th. Sale of prize winning livestock will be held on Saturday, January 7th.

Mark and Penn Baggett brought home the champion and reserve champion banners in the fat lamb show at Odessa last year, winning out over some 400 top qualified finewool show lambs.

## Ozona Welder Patents Sanitary Garbage Unit For Home, Business Installation; To Manufacture For Area Distribution

C. O. Spencer, Ozona welder, has perfected and filed for a patent on a unique garbage container unit which meets all sanitary requirements of city and county health departments and garbage collection agencies as well.

The garbage container units, consisting of two cans of specified size mounted on a steel post which is set in concrete in a permanent installation. The cans are easily removable from their mounting for emptying but the covers for the cans are permanently attached to the center post of the unit, thus preventing their damage or

loss in handling by garbage collectors.

The units are manufactured in two sizes, 20-gallon capacity and 26-gallon capacity and sell for \$19.95 for the 20-gallon and \$23.95 for the 26-gallon unit. The units are set in concrete 18 inches deep at a local charge of \$3.00 installation fee.

Mr. Spencer, who has applied for a patent on the invention, has already established markets for the garbage units in San Angelo and other area cities and is engaged in lining up sales representatives throughout the area.

## Ozona Student, Sightseeing In Congo, Beaten By Congolese Soldiers On Leopoldville Street U.N. Soldiers Look On; U.S. Embassy Ho-hums

Mercifully the news was slow in getting back to Ozona and that saved the Ozona parents of Roy Harrell a lot of agonizing worry had they known what was happening to him in early October in Leopoldville, the Congo, in Africa. Before the news had reached Ozona that Roy had been beaten by Congolese soldiers in the strifetorn country on two occasions, his parents had received a cablegram from him assuring them of his good health and at Christmas time they received a cablegram greetings from him in Southwest Africa.

But the incident in which he received rough treatment in the Congo was described in detail in the Atlanta (Georgia) Constitution in a dispatch received from its Congo correspondent, Mike Mahoney, who was writing a daily column for the Constitution from the Congo at the time.

How the Ozona parents finally received a copy of the article is something of a story itself.

Mrs. Howard Lemmons of Odessa, formerly of Ozona, has a brother living in North Carolina. The brother, in turn, has a son living in Atlanta. The article about an Ozonan attracted the son's attention, he sent a clipping to his father in North Carolina and the father sent it to Mrs. Lemmons in Odessa and she sent it to the Harrells in Ozona — and they finally got the details of what had happened to their son in Leopoldville. As told by the on-the-scene correspondent, here is the story as filed by Mahoney from Leopoldville, Republic of Congo —

Leopoldville, Republic of Congo — Sunday, Oct. 9, was definitely not a quiet Sunday for Roy A. Harrell Jr., 24, of Ozona, Tex. It started off pleasantly enough but ended up like a nightmare.

Harrell, a graduate student at the School of Advanced International Studies, Johns Hopkins University, Washington, D. C., was on his way from the United States to Stellenbosch University in the Union of South Africa to do research on Portuguese Africa. He had stopped off in Brazzaville, Congo Republic, on Saturday and decided to visit Leopoldville — just across the Congo River — on Sunday.

He chartered a taxi in Brazzaville and the taxi came across the river with him on the 6:30 a. m. ferry. When he landed on the Leopoldville side, he went through immigration and customs without any trouble, but the taxi driver was held up. The driver told Harrell to start walking towards the Boulevard Albert, Leopoldville's main street, and that he would meet him there in a few minutes.

"I had walked about three quarters of the way up the street," Harrell related, "when suddenly

MORE POWER TO THE CONGRESSMAN

If you don't want to be cozy with Mao Tse-tung, if you don't want to see the prestige of America yielded up under Communist threats to consign the faceless millions of mainland Chinese to unending slavery, if you don't want to sell Free China and Chiang Kai-shek down the River Styx, if you object to playing blind-man's-buff with Castro and the Latino fellow-travellers; if you are opposed to delegating our own national business to the UN (which is neither united nor composed of nations) and decision of our disputes to the "World Court" — tell the Congressman and our Senators before they go back to Washington.

These are all points on which the members of both houses of Congress will have to take a stand in the upcoming session. And regardless of his party or his personal convictions, it is a rare Congressman who has the fortitude to buck the Administration without some assurance from his constituents that they stand with him.

And if you question what the drift will be if left unchallenged by the folks back home, consider the crew that President - elect

Kennedy has assembled to mas- termind foreign policy. The chief, according to protocol at least, will be Dean Rusk, former pillar of the Institute of Public Relations and former advisor to President Truman on the Korean War strategy, a champion of sanctuary-for-the-enemy beyond the Yalu and an effective opponent of General MacArthur's win-the-war philosophy.

And at the UN, with the promise of new prestige and greater policy responsibility, will be the dilettante historian and politician from Abraham Lincoln's home town, who can't quite make up his mind whether he would rather be Bob Hope or Confucius, and who would "wage peace" by throwing at our enemies whatever they might ask for.

Finally, with Chester Bowles, whose Democratic convention platform was frankly concocted as a best-seller for the minority groups in the party's big-city strongholds, as Undersecretary of State — a man whose fondness for lavish foreign aid — especially for the Asian "neutralist" nations, and whose support of Red Chinese recognition are matters of record — the triumvirate of appeasement is complete!

In the face of this triple-threat, the plain citizen can look only to Congress to halt the debacle that is brewing. But he can do more than look and hope. He can speak and write to those who represent him. He can tell them he wants them to keep America out of the Communist conspiracy, to sustain and enforce Constitutional government and to keep our economic powder dry.

THE BATTLE LOOMS

The parents and the taxpayers of the nation are indebted, we think, to a gentleman named Fred E. Wright for a letter he wrote recently to the Philadelphia Evening Bulletin. He said:

"A curious imbecility has lately come to the fore as a political issue. Spawned by bureaucrats, fomented by misguided school teachers, lip-serviced by politicians, it has gained enough momentum . . . to reach disastrous proportions. . .

"I speak of the so-called need for Federal aid to education. I speak of Federally - approved school children attending Federally-approved school buildings, using Federally - approved textbooks,

riding Federally-approved school buses, eating Federally-approved menus in Federally-approved cafeterias, taught by Federally - approved school teachers using a Federally-prescribed curriculum. I speak of Pennsylvania supporting the schools of Arkansas, and Arkansas doing the same for South Dakota.

"Is it too much to hope that the American people will not let themselves fall for this unconstitutional solution to a problem which each community must face for itself? Is it too much to expect that Pennsylvania, and each other state, will decide what its own needs are in education and continue to solve its own problems in this field?"

But, let those who applaud Mr. Wright consider the forces with which they must contend, and arm themselves for battle. The busy-body era, in which we have lived for nearly 30 years, has entrenched a fat-cat bureaucracy supported "morally" by the tax-free fat-cat "teachers union" with its fat-cat bankroll for public hypnosis, and physically by fat-headed taxpayers. Further, the question, "Would you deny your children?" is as loaded as "Have you stopped beating your wife?"

Mr. and Mrs. Charles Womack are spending the holidays with their parents in Aransas Pass, Texas.

Mr. and Mrs. J. A. Pelto left Ozona Monday for Tyler where they will spend a few days with Mrs. Pelto's parents, Mr. and Mrs. De Montel of Tyler.

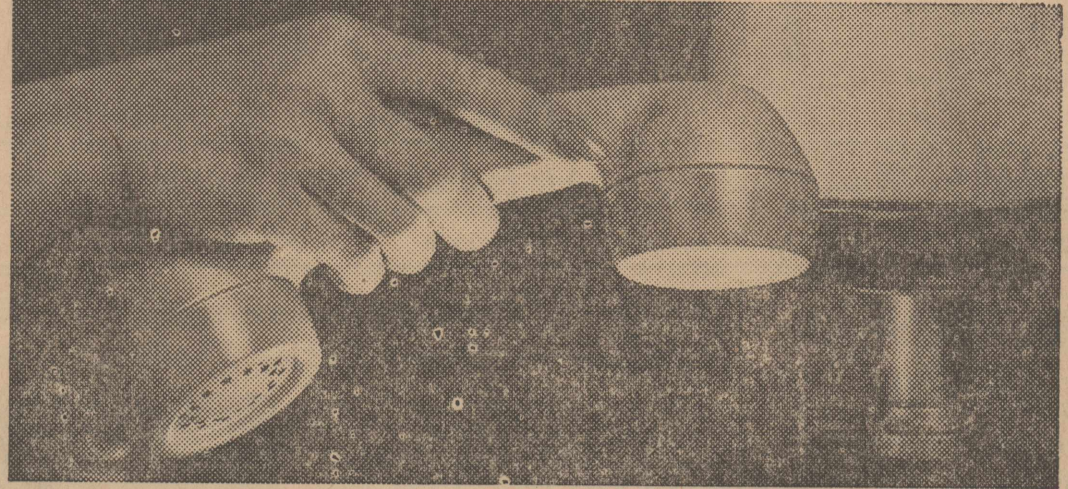

Mr. and Mrs. H. O. Hoover have returned to Ozona following a trip to Phoenix, Arizona where they spent the Christmas holidays with Mr. Hoover's brother.

### The News Reel

A re-run of "The Ozona Story" as gleaned from the files of The Ozona Stockman

From The Stockman, Dec. 31, 1931

Funeral services were held at 2 o'clock Saturday afternoon at Cedar Hill Cemetery for Mrs. W. D. Barton, 72-year-old pioneer West Texas resident, who died at her home here Friday afternoon. Graveside services were conducted by the Rev. J. H. Meredith, pastor of the Methodist Church.

A deal was reported completed here this week in which Mrs. S. E. Couch purchased a 10,000-acre ranch in Crockett county from W. T. Noelke. Consideration was reported to be \$100,000 in cash and notes.

What might have been a holiday tragedy was narrowly averted last Friday when Betty Ann Fulmer, 7-year-old daughter of Rev. and Mrs. M. M. Fulmer, was struck down by an automobile on a downtown street in Del Rio. The car was moving at a moderate rate

of speed and Betty Ann was bruised when knocked to the pavement but was not seriously injured.

Funeral services were conducted at Christoval cemetery Friday afternoon for Mrs. May Alice Doty, 70, wife of C. C. Doty of Eldorado and mother of Mrs. Stephen Perner of Ozona, who died at her home in Eldorado Thursday afternoon following a long illness.

With the highest rating accorded any school of whatever size or class, the Ozona High School has again been admitted to a place on the accredited list of the Southern Association of Secondary School and Colleges, according to a report just received by Supt. John L. Bishop.

Seventeen members of the 1931 Ozona High School football squad were presented football letters at exercises Tuesday morning. Presented their sweaters by Coach Ted White were B. B. Ingham, Chester Wilson, Lowell Schwalbe, Vic Montgomery, Joe Chandler, Fletcher Freeman, Ethard Glover, Philip

Lee Childress, Billy Baggett, S. W. Westfall, Massie Ray Smith, Conley Cox, Hop Hoover, Buddy Moore and Captain Miller Robison.

Mrs. L. B. Cox, Sr., was reported improved this morning after an illness of several days. Dr. George Cox of Del Rio, brother of the late L. B. Cox, Sr., is here attending her.

Adv. — Lower Barber Prices at A. J.'s New Shop: Haircuts, 35 cents; Shave, 20 cents; shampoo, 40 cents; shoe shine, 10 cents.

Bill Grimmer suffered a painful cut just above the knee Tuesday morning on the Chas. E. Davidson, Jr., ranch when a knife with which he was butchering a sheep slipped and struck his leg.

Mr. and Mrs. George Bunger went to Eden Tuesday to attend funeral services for Mr. Bunger's brother, Henry Bunger, who died there Monday night.

Mr. and Mrs. W. E. Friend, Jr., are the parents of a daughter born

Wednesday. The youngster weighed in at 9½ pounds.

Mr. and Mrs. Walter Capps are the parents of a son, Walter Capps, Jr., born Monday.

Mrs. D. D. Shipley of Floydada spent the holidays here as the guest of her sister, Mrs. L. B. Cox, Sr.

Winston Churchill, famous Bri-

tish statesman, got confused in New York traffic and was badly hurt when a car struck him.

IN RE: Guardianship of the Estate of Helen Henderson, a minor

NO. 199

**NOTICE**

TO ALL PERSONS INTERESTED IN THE ESTATE OF HELEN HENDERSON, A MINOR:

You are notified that I have on the 27th day of December, 1960 filed with the County Clerk of Crockett County, Texas, a written application asking for authority to lease property of the above estate for mineral exploration and development, such property being described as follows:

All of the interest of Helen Henderson, a minor, in the following tracts of land in Crockett County, Texas:

Tract 1: An undivided 1/4th fully participating interest in all oil, gas and other minerals on, in and under all of the following land in Crockett County, Texas, to-wit: All of Section 2, Block H, Abstract 4473, Certificate 4/1388, Frank F. Friend, Original Grantee, containing 640 acres, more or less; all of Section 20 1/2, Block G, Abstract 4797, Certificate 1833, H. J. Friend, Original Grantee, and containing 529 acres, more or less; and all of Section 10, Block 13P, Abstract 5117, Lee Henderson, Original

Grantee, and containing 318.7 acres, more or less;

Tract 2: An undivided 15/128th fully participating interest in all oil, gas and other minerals on, in and under all of the North 450.27 acres of Section 17, Block G, Abstract 3157, Certificate 4/1235, GC & SF RR. Survey, Crockett County, Texas.

You are further notified that the Judge of the County Court of Crockett County, Texas, did on the

27th day of December, 1960, enter an order designating Monday, the 9th day of January, 1961, at 10 o'clock a. m. in the County Court Room of the County Court House of Crockett County, Texas, as the time and place of the hearing of such application.

Dated this the 29th day of December, 1960.

Lucille Henderson Russell, Guardian of the Estate of Helen Henderson a minor

**Richardson - Butterfield Wedding Plans Told**

Mr. and Mrs. W. M. Richardson of Ozona announce the engagement and approaching marriage of their daughter, Molly Sue, to John Edward Butterfield, son of Mr. and Mrs. Charles E. Butterfield of Kermit, Texas, formerly of Ozona.

The couple have set January 14, 1961, as their wedding date. Vows will be exchanged in the Ozona

Methodist Church. Miss Richardson is a 1959 graduate of Ozona High School and has been employed at the Village Drug. The prospective bridegroom has recently received his discharge from the U. S. Navy after having returned in mid-December from a tour of duty in Japan. He was graduated from Ozona High School in 1955 and attended San Angelo College and Sul Ross State College in Alpine.

### Garbage Disposal Plans Outlined

In anticipation of the inauguration of a new type garbage collection and disposal system in Ozona, the Board of Directors of the Crockett County Water Control and Improvement District has authorized the following statement of policy and appeal for cooperation to the end that the system might find maximum favor among the people it seeks to serve:

To help us fight disease and keep our town clean, you are respectfully requested to closely observe the following regulations regarding proper disposal of garbage and refuse.

**Receptacle:**

Every home owner or tenant shall provide containers of sufficient size and number to hold a week's accumulation. Receptacle shall be constructed of a solid and durable grade metal not to exceed 32 gallons in capacity, the combined weight of the garbage and container shall not exceed 100 pounds. It shall be provided with a suitable close-fitting cover. Keep your garbage can in a sanitary condition at all times. It is recommended that racks be built for garbage cans and lids be secured by a light weight chain to the fence post or other stationary object. This will prevent damage and loss of lids.

Every owner, tenant or occupant is entitled to have garbage and refuse removed twice every week when prepared in accordance with local requirements, unless alleys are impassable.

**Preparation:**

Garbage must be kept as dry as possible by draining off all liquids and should be sacked or wrapped in paper placed in container.

**Other refuse:**

Tin cans, small quantities of broken glass, bottles, paper and other refuse of a similar nature should be placed in a container with garbage or in a disposable container such as cardboard box or heavy paper sack. Tree and shrub trimmings will be hauled when prepared in accordance with suggestions set out by Board of Directors and placed between the sidewalk and curb or in alley on the premises concerned. To have trees or shrubs hauled, call the water office, Phone 2-2730.

Construction or remodeling waste, wooden crates and furniture, rocks, bricks, broken concrete, plaster, droppings from animals or fowls will not be removed by the Sanitary Department. Heavy accumulations and industrial waste such as discarded automobile frames, bodies and other heavy bulky refuse and all industrial waste resulting from manufacturing operations must be disposed of by the owner or occupant of the building or premises where such industrial waste originates. It shall be disposed of in such a manner and at such a time as shall be designated by the Board. This shall also include accumulations from packing houses, killing and dressing plants for poultry and fowls, wholesale fruit and vegetable houses or storage.

**Location of containers:**

In residential area, receptacles as required shall be placed inside of the property line at the edge of the alley where there is no alley fence. Where there is an alley fence, receptacle or receptacles must be placed against the outside of the fence. Where there is no alley, receptacles must be placed in front of property between the sidewalk and curb at a place most accessible to the collectors. Where garbage containers are serviced from the alleys, house numbers should be painted on each can. Under no conditions will garbage vehicles be allowed to enter private property for the purpose of picking up garbage.

Business establishments are required to use the same type of container as that for residences and such containers shall be placed in the alleys, where there is an alley, and where there is no alley, containers must be on or near the curb line of such place of business. All boxes and cartons must be broken down and tied into bundles not exceeding 75 pounds in weight. Business establishments having such quantities of waste paper to make use of barrels impractical are requested to use paper balers or incinerators of a type as may be

**approved by the fire department.**

**Dump grounds:**  
The new dump grounds and sanitary fill is located just south of the town of Ozona. The dump ground will be open between the hours of 8 a. m. and 6 p. m. and there will be a man on duty at all times during the dumping hours. No change will be made for the use of this dump for the residents of the town of Ozona. All persons hauling waste material will be expected to handle the trash and refuse in such a manner as to prevent it from scattering on the highways and streets.

Nuisances and unsanitary conditions will be handled by the county health officer.

**Complaints:**  
Do not enter into controversy with workmen concerning garbage collection. To make a complaint call the Crockett County Water Control and Improvement District office, your Sanitary Department, Phone 2-2730. In making a complaint, be sure to give name and correct address.

The above suggestions, if met, will enable us to keep Ozona clean and give you more efficient service. We will appreciate your cooperation.

### School Cafeteria MENU

## ANNOUNCING PAYMENTS TO RAMBLER BUYERS AS RAMBLER'S SALES VOLUME INCREASES

# Why You Should Join Rambler's New Crusade For Adequate Progress Sharing With Customers

**GEORGE ROMNEY**  
President, American Motors Corporation

**"I believe participation by all consumers in economic progress is absolutely necessary in meeting the nation's economic needs."**

engineering advances such as the acid-proof, rustproof Ceramic-Armored muffler and tailpipe.

The Rambler line includes three basic sizes of compact cars—Rambler American, Rambler Classic and Ambassador, the latter two developed after the original American series.

**RAMBLER SALES SOAR**

In two years, Rambler's per cent of market has more than doubled. For the last 38 straight months, Rambler sales have established a new record for that month. We want to continue this growth by serving you even better.

**THE NEW RAMBLER CRUSADE**

Our new Rambler crusade, like our compact crusade, is based on sharing Rambler progress with car buyers.

We believe the new Rambler crusade has timely significance. Our country currently is experiencing a mild economic slowdown—with rising foreign competition and weakness of the dollar. Our larger competitors are considering partial manufacture and importation of cars for the U.S. market from abroad. There is a general profit squeeze.

We believe the greatest single economic cause is that relatively too much of the fruit of industrial effort has been going to a few well organized economic groups, not to the consumer.

**CUSTOMERS TO SHARE RAMBLER PROGRESS**

We decided there was something we could do. We decided to share future progress with ALL customers who take

**HOW PAYMENTS TO BUYERS WILL BE DETERMINED IN AMERICAN MOTORS' CUSTOMER PROGRESS SHARING PROGRAM**

IF SALES ARE UP over last year	BUYERS RECEIVE U.S. SAVINGS BONDS (Maturity Value)	BOND PAYMENT SALES LEVELS			
		DECEMBER (Dec. sales)	JANUARY (Dec.-Jan. total)	FEBRUARY (Dec.-Jan.-Feb. total)	MARCH (4-month total)
50%	\$125	45,247	97,671	140,139	195,946
40%	\$100	42,231	91,159	130,796	182,883
30%	\$ 75	39,214	84,648	121,453	169,820
20%	\$ 50	36,198	78,136	112,111	156,757
10%	\$ 25	33,181	71,625	102,768	143,694
<b>SALES FOR SAME PERIOD LAST YEAR</b>		<b>30,165</b>	<b>65,114</b>	<b>93,426</b>	<b>130,631</b>

NOTE: In all cases, "BUYER(S)" means a person who actually takes delivery, not places an order.

**WHY IT WILL PAY YOU TO BUY NOW.** This unique program is cumulative and retroactive. Early buyers can get more, but never less bonds, than buyers in succeeding months. Your Rambler dealer will be happy to give you the complete details of the plan but here is a quick example of how it works and keeps on working for you:

If December Rambler deliveries increase 20% over last December, December buyers of new Ramblers or Metropolitans will receive \$50 bonds. As the four-month period progresses, additional bonds will be mailed to the December buyers each time the cumulative sales reach a higher bond payment sales level.

Also, if sales increase for the four-month period exceeds 50%, proportionate additional payments will be made to all buyers during any of the four-months.

**BOTH CUSTOMERS AND AMERICAN MOTORS GAIN**

You have everything to gain and nothing to lose by joining this crusade. The same is true for us.

You can't lose because Ramblers are better than big cars and the best of the compacts. Ramblers are more trouble-free, more useful, lower priced.

You make your regular deal in the regular way for a new Rambler. You then may share proportionately in the economies and profits of higher Rambler volume in December, 1960, and the first three months of 1961.

We gain by acquiring more Rambler owners, which will make our growing market even larger in the future. That's because Rambler owners become Rambler salesmen and are the most loyal "repeat buyers" of any make.

Ask your neighbor all about his Rambler, then join the Rambler crusade. Join us in focusing the nation's attention on the essentiality of equitably sharing economic progress with ALL consumers if the WHOLE NATION is to prosper.

*George Romney*

**P.S.** Some may say one company can't do much about national problems as big and complex as those cited above. Well, that's what skeptics said about Rambler's first crusade. Let's remember, every great thing is born small. If this new Rambler crusade is right, it can succeed and spread, just as the compact car concept did.

Mr. Romney's recent New York Press Conference on "Customer Sharing and the Nation's Economy" attracted nationwide notice. For complete text of his statements, write American Motors, Box 29, Detroit 32, Mich

Monkeys are caught by filling a coconut shell with chopped coconut meat. The monkeys grasp a fistful and, unwilling to let any go, cannot withdraw their paws. So, they are easy victims. The U.S. consumer is not yet as scrawny as shown, but unless there is a more equitable division of the productivity increases, he will get that way. One of the three American groups must let go and set an example—or all will be captured and, along with the consumer, all will suffer.

**Notes From The County Agent's Office**  
By Pete W. Jacoby

Beef cattle need a liberal supply of minerals for proper bone development and growth according to Extension Animal Husbandmen at Texas A&M College. They say that mineral supplements are no cure-all, but they are necessary for successful grassland cattle production in areas where soils are deficient in minerals. Minerals most likely to be needed by cattle are sodium, chlorine, phosphorus and calcium. You can supply sodium and chlorine by feeding common salt. The other two — phosphorus and calcium — can be furnished through mineral supplements. Phosphorus deficiency may occur in any part of the State at any time, but in some sections it is present at all times. A year round supplement feeding program should be carried out if mineral deficiency exists all the time. Supplemental feeding of minerals to all livestock during winter months and dry periods in this area of Texas is recommended for best production results.

Root knot disease occurs in all areas of Texas, but is more common in sandy or loam type soils.

It is caused by several different kinds of microscopic nematodes or worms that live in the soil. This condition should not be confused with root nodules that form on roots.

Many people discover the disease on old plants at this time of the year when replacin shrubs or trees that have died. Half-rotted knots about the size of marbles or smaller may be found on smaller roots of diseased shrubs or trees. Affected shrubs or trees that lack vigor and die slowly over a period of several months or years is a common symptom, also a die-back condition of limbs may also be present.

Root knot nematodes are commonly found on many ornamental plants including boxwood, begonia, clematis, coleus, dahlia, European elm, fig, gardenia, hollyhock, peach peony, rose, sweet pea, violet and weeping mulberry.

Several cultural practices and chemicals can be used for control, primarily as preventive measures.

Care should be taken in selecting nursery stock to avoid getting infestations of root knot nematode. Cultural practices such as drying out of the soils may be employed. If chemical control is desired such nematocides as ethylene dibromide, dichloropene, methyl bromide, vapam, VPM, Nema X, nemagone, fumazone and others may be used.

Dealing with a reliable nurseryman on your nursery stock will usually eliminate most of these troubles. They will sell you only healthy plants and will make good those that do not live, if such diseases do exist in the plants.

**MATH SOCIETY PLEDGE**

Lubbock — Texas Tech's chapter of Kappa Mu Epsilon, honorary math society, has announced its new pledges.

To be eligible for membership, pledges must have completed at least 18 hours of math with a 2.5 (B+) grade average and must have maintained at least a 2.0 (B) overall grade average. Pledges include Johnathan S. Burton of Ozona.
