NUMBER 42

Write-In Sparks Spirited Voting For Water Board

Three Board Members Returned In Record 303 Vote Total

An unexpectedly spirited write-in campaign developing in what ordinarily is an almost ignored election, that for members of the board of directors of the Crockett County Water Control and Improvement District, produced a record 303 votes in a late-hour spurt of balloting here Tuesday.

Three board members whose terms expire were swept back into their posts by the heaviest vote in the district's history. Sherman Taylor, board chairman, received 216 votes, W. E. Friend, Jr., 213 and Gene Williams 207 to retain their board positions for another two-year term. Hold-over members are Lowell Littleton and James Baggett.

Bud Coates and Boyd Baker received 84 votes each and Bud Harrison 83 as write-in candidates for the board positions. Other straggling votes were cast for three others via the write-in, two for Byron Stuart and one each for R. A. Harrell and T. J. Bailey.

Up to mid-afternoon, only about 35 votes had been cast in the annual balloting for the no-pay jobs. But a sudden quickening of voting was noted by the election judge and clerk and voters formed a line in the closing hour of voting as the total vote was pushed to the new record high.

Week-End Rains Total 2.20 In. of Moisture Here

Water-Logged Range Lands Facing Best Spring In Years

Good rains over the past week-end measuring 2.20 inches in Ozona brought hope that this year would be a bit wetter than was 1960 which produced only 15.20 inches of rainfall in Ozona last year.

1960's 15.20 inches, while drier than 1957, 58 and 59, was not among the drier years of the past decade, which saw all of the drought years except 1954, below the fifteen inch mark.

1954 recorded 24.70 inches but 12.46 fell in the week preceding the June 28th flood.

1960 broke down as follows: Jan. 2.09, Feb. 1.52, March .81, April .15, May 1.38, June .58, July 4.20, Aug. .56, Sept. .09, Oct. 2.28, Nov. .20 and Dec. 1.34.

A check shows that July was by far the wettest month of the year, with October second and January third. September proved to be the driest of the year with only .09 hundredths of an inch of rain and April was not much better with .15 hundredths.

The average rainfall in the county for the past thirty years is 18.53 and this mark of course was not reached this past year. The average which has been dropping since 1950 will fall once again as the result of the 1960 fall, even though the loss will be small.

January, with still three weeks to go, has already exceeded the 1960 fall in that month and with 1.34 inches in the past December the range over most of Crockett County is as wet as it has been in many years at this time of year.

The three days of rain and drizzle came to an end Sunday when a cold wave drove out the dripping clouds and dropped night time temperature in to the twenties even though the days have been pleasant.

Daughter of Ozonans Buried In Colorado Springs, Colo. Tuesday

Funeral services were held Thursday afternoon, Jan. 3 from the Skyway Baptist Church in Colorado Springs, Colo. for Mrs. Vera L. Richmond, 35, daughter of Mr. and Mrs. W. O. Strother of Ozona, who died Thursday in a Colorado Springs hospital.

The Revs. John Baker and Roy R. Baese officiated at the funeral rites and burial was in Evergreen Cemetery at Colorado Springs.

Mrs. Richmond was born Feb. 28, 1925, in Ashland, La., and had lived at Colorado Springs for three years. She was a bookkeeper for a plumbing firm there.

Survivors include her husband, John Richmond; a daughter, Linda Rose Richmond of Colorado Springs; three brothers, Harold Strother of Heidelberg, Miss., Clinton Strother of Ozona, Texas., and James Strother of Denver; two sisters, Mrs. Hazel Ratliff of Riverton, Wyo., and Mrs. Helen Clemens of Ozona; and her parents, Mr. and Mrs. W. O. Strother of Ozona.

Ozona FFA Chapter Plans Sixth Annual Livestock Show Feb. 4

The sixth annual FFA Commercial livestock show will be held by the Ozona chapter on Saturday, Feb. 4th at the Junior Livestock Show barn, M. A. Barber, vocational ag teacher in the Ozona schools, announced this week.

Twenty-seven FFA members are engaged in the commercial feeding program. They have on feed in preparation for the grading on Feb. 4 four calves for beef, 102 lambs for mutton, development of 37 Angora doe kids and 26 Angora buck kids.

Armer Earwood, Sonora rancher, will judge the Angora kid classes. Fred Igo, instructor of vocational agriculture at Sterling City, will grade the fat steers and fat lambs into slaughter market grades.

The chapter is planning a benefit barbecue dinner at noon on the day of the show. At 1:30 p. m. an invitational livestock judging contest will be held for Ozona chapter members and area FFA chapters.

Ozona High School Band Places Three On All-Area Band Group

The Ozona High School Band placed three members on the All Area band last week when three of Director Allen Morgan's five contestants were chosen in the 110-piece organization.

Vicki Carrol, Ozona alto saxophone player, made first chair and qualified for the competition for all-region band to be held in Stephenville next Saturday.

Aside from Ozona's Miss Carrol only twenty-two others from the 110 piece band were selected to go on to regional competition.

The Area II contest was held at McMurray College in Abilene last Saturday with over 300 musicians from all classes of schools including San Angelo and Abilene competing in the open competition.

Art Kyle, Ozona senior, made the first cornet section and made the band for the second year while Leon Drago, trying for the first time, was selected leader in the third clarinet section.

A climax of the competition came Saturday night when the Area II band held a concert at 7:30 p. m. One of the numbers featured on the program was a quintet called "Five Mellow Winds" in which Miss Carrol took part. Theme of the concert was a salute to Glen Miller, the famous band and orchestra leader killed in World War II.

Competition in Stephenville next Saturday will decide final contestants for the state band contest to be held later in the year.

BAND PARENTS MEET

Band Parents will meet tonight (Thursday) at the band hall at 7 p. m. All parents are urged to be present.

Pam Perner Miss "Congeniality" of Odessa

Pam Perner Miss Ozona Is 'Miss Congeniality' At Odessa's 1960 Show

Miss Pam Perner, daughter of Mr. and Mrs. P. C. Perner of Ozona, representing Ozona in the Sand Hills Hereford and Quarter Horse Show and Rodeo at Odessa last week, was named "Miss Congeniality" at the final performance of the show Saturday night.

Three West Texas beauties were recognized from a field of 20 contestants. Miss Midland was chosen Queen of the show, Miss Ozona, Miss Perner, was "Miss Congeniality" and Miss Seminole was "Miss Personality."

The girls were entertained at a dinner in the Cafe Room of the Lincoln Hotel in Odessa Saturday evening prior to the final performance of the rodeo at the Coliseum. The winning contestants were presented huge bouquets of red roses.

Miss Perner designs and makes her own Western costumes. Her costume for the Odessa show was a royal blue shirt and royal blue wool pants, with a white scarf, white hat and white boots. A junior in Ozona High School, Pam is a cheer leader.

Garden Club Plans On Entering Contests

Ozona Garden Club members met Monday afternoon in regular session in the home of Mrs. Floyd Henderson with Mrs. N. W. Graham as assisting hostess.

In the discussion program, the club reviewed its Christmas lighting contest, decided to enter its park project, the Liveoak Park in state competition. The club also decided to enter the state garden picture slide contest, entering slides made by Mrs. Ira Carson of the Hodges Garden in Louisiana, and the Magnolia, Middleton and Cypress Gardens of Charleston, S. C. Mrs. Bailey Post club president, presided.

Members present for the meeting were Mmes. Dub Pettit, Glenn Sutton, Jess Marley, Ica Carson, Ivy Mayfield, Tom Clegg, Allie Lock, Joe Clayton, L. E. Cox, Jr., Alice Baker, B. B. Ingham, Paul Perner, Evert White, Cecil Hubbard, Bailey Post and the hostesses.

Lockett School Cagers Drop Two Decisions In Non-Title Competition

Lockett dropped two games over the past week as they played as a non-title competing team in an area district for colored schools.

Ozona traveled to Big Lake last Tuesday night and dropped a 49 to 40 decision to Big Lake. Willie Fielder was the top point maker for Ozona, scoring 14 points while Oscar Earl Ransom hit for 10.

This week the Lockett team traveled to Crane to face Andrews and dropped a 68 to 48 decision only after two of Ozona's starters fouled out. At half time the Ozona team trailed by only four points and it was not until after the two regulars fouled out in the final period that Andrews was able to pull away. Ozona had seven players on its squad and Andrews had eighteen.

Lions Club To Honor All-Dist. Football Squad

Arlington Coach Speaker at Annual Dist. Banquet Here

The annual Ozona Lions Club All-District football banquet will be held at the Ozona High School Cafeteria Saturday night beginning at 7:30 p. m.

Honored guests at the dinner will be the members of the district 8-A all district teams and the Ozona football squad, some of whom made the team. All five district schools had boys selected on the offensive or defensive e-leveens for action during the past season which saw the district race end in a three-way tie between Eldorado, Ozona, and Sonora, the latter of whom won a flip end represented the district in bi-district play.

Cheena Gilstrap, head football coach and athletic director at Arlington State College, will be the principal speaker for the night. Mr. Gilstrap is a well known after-dinner speaker and has served as master of ceremonies at such notable events as the Hall of Fame Banquet in Dallas, and the South-westerner - of - the - year affair which is also held in Dallas annually.

Mr. Gilstrap has been a highly successful coach at the now State supported Arlington school, having won the Little Rose Bowl game several years ago after one of his successful seasons.

Ozona Lions Club President Dr. Joe Logan said this week that all the men of Ozona who have helped to support the Lions, and that included the Radar Base where many of the Lions most faithful fans reside, are invited and urged to be present Saturday night for the affair.

The banquet which has been held annually on Monday night was shifted this year to Saturday so as to avoid conflict with mid-term exams which are being given in many of the schools in the district next week.

Deep Wildcat In S' east Crockett County Spotted

Try May Extend Gas Production; Ingham Field Location

Cities Service Oil Co., Odessa, will drill a 10,500-foot wildcat in south Crockett County, 17 miles southeast of Ozona and 5 3/4 miles southeast of the recently opened Joe "T" (Strawn) gas field. It is the No. 1 Perner, on the Stephen Perner ranch.

Location is 660 feet from the north end 565.14 feet from the west lines of 8-G-GC&SF.

Southland Royalty Co., Midland, will drill a 900-foot wildcat as a southwest twin to its No. 1-11-B Cox Estate, 7,300 - foot Devonian failure, 1 1/2 miles west-northwest of the Ingham (Devonian gas-distillate) field. It is the No. 2-B Cox Estate.

Location is 4,270 feet from the most southerly southwest corner and 990 feet from the most southerly southeast line of 11-A. Lazo survey.

Crickett Oil Co., San Antonio will drill the No. 1 Scott, a 7,200-foot operation, in the Ingham (Devonian) field.

Location is 660 feet from the north end and west lines of 2-FFF-TCCR.

Odessa Natural Gasoline Co. No. 1 Davidson, in 13-F-GC&SF, 1 1/2 miles north-northwest of the opener of the Joe "T" (Strawn gas) field of Crockett County, 12 miles southeast of Ozona, flowed gas at the daily rate of 10,000 cubic feet daily.

Flow was from open hole between 8,940-990 feet, which had been acidized with 1,000 gallons. Re-acidizing was scheduled.

FULL BRACKET OF 16 TEAMS ARE ENTERED IN OZONA'S 30TH ANNUAL BASKETBALL TOURNEY

Lion Cagers To Open District Race Friday Night In Eldorado

By Ernie Boyd

The Ozona Lions were at work this week getting ready for their district opener in Eldorado Friday night with the Eldorado Eagles who will also be opening district play.

Coach Brooks Dozier will probably start Jim Freeman and Phillip Carnes at guards, with Hal Long, Carl Montgomery, and Van Miller in the front line, and with Pete Montgomery Wayne Albers, and Mike Stiles sure to see plenty of duty.

As has been the case for many years the Lions emerged from the Big Lake tourney a bit shaken over their poor showing. The Lions dropped a 36 to 38 game to Wall in their opener even though Wall was greatly weakened with one of its stars out due to illness.

In the first round of the consolation, the Lions hit only four of seventeen free throws in the first half of the game with Rankin, but did rally in the last half to win 49 to 27. In the next round, however, the Lions did nothing very well and lost to a so-so Garden City team by one point 44 to 45 in an over-time period.

The Lion attack was greatly hampered in the final contest by the loss of Van Miller for most of the contest due to too many fouls, but with Miller out the Lions were unable to score until Phillip Carnes broke out of a slump late in the contest.

The Lions poor showing in Big Lake should not be taken too seriously, however, since the Lions have a long record of looking bad in the Big Lake tourney, particularly in the old gym where two of the three games were played.

Eldorado has had a fair season thus far and has both size and shooting, even though they now have a fine court in place of the old tile floored hazard that worried the Lions for years.

The Friday operation in Eldorado is scheduled to be a big one with an opening freshman game, a B team game, a girls game, and then the boys game all beginning early in the afternoon with the final about 8 p. m.

Evenly Matched Teams In Area Assure Interesting Meet

By Ernie Boyd

A full bracket of 16 teams will be on hand this year for the 30th Annual Ozona Invitational Basketball Tournament scheduled to get under way at Davidson Gym at 11:30 a. m. Thursday when Eldorado and Mertzon clash in the opener.

A great deal of interest will be centered in this year's tourney with a number of the entries wanting another chance at an opponent who barely edged them in last week's big tourney in Big Lake.

Mertzon wants another chance at Brady, who edged them on two last second free throws; Brady would like another shot at Big Lake, and Wink felt it could have been among the finalist had it not missed a second round win by a narrow margin.

Brady, Mertzon, Wink, Bik Lake and possibly Wall and ACCHS will be the favored quintets, but others might edge in and a close, hard fought contest for the title is in prospect.

Ozona's Lions, as usual, did not look very impressive in the Reagan County tourney, losing to a weakened Wall 38 to 36, downing Rankin 49 to 27 after a very slow start, and then losing to unimpressive Garden City by one point to bow out of the consolation bracket.

The Lions, however, have had a long standing tradition of looking bad in the Big Lake Tourney and then coming back for a good season and maybe it will be the same this year.

For the readers who will want to be on hand for the beginning of the tourney next Thursday before the Stockman gets off the press, the following Thursday schedule is printed, the rest of the pairings will be in next week's paper.

First game, first round, Eldorado vs Mertzon at 11:30 a. m., Mertzon vs the tourney favorites and was barely edged out of the championship bracket by Brady last week in Big Lake.

Second game, Menard vs ACCHS 1:20 p. m. Menard has a big ball club and is currently leading in its new district in class B competition. (Continued on Page Five)

Doctors Report No Diphtheria Cases Yet In Ozona; Immunization Shots Said Effective Protection Against Disease

While Plainview and other Texas cities have faced the frightening possibility of a serious outbreak of diphtheria in their communities in recent weeks, Ozona to date has remained free of the disease, Ozona physicians reported this week. Several cases have been reported in San Angelo, one in a nearby town and one in Odessa in the last few days, physicians report.

Because of the uneasiness among Ozona parents and the frequent questions relative to the dread child disease being asked of local doctors, one has prepared a comprehensive statement of the local situation, described the disease process, immunization needs, modes of spread and other pertinent information which will be of interest to parents. Because of that interest and for the better guidance of parents in the event of a local outbreak, the Stockman quotes in full below the doctor's statement:

To The People of Crockett County: This is in reference to the many questions that have been presented regarding immunization against Diphtheria. There have been no cases of Diphtheria to date in Ozona, associated with the present "scare", and the following information is to help the people understand better the disease process.

immunization needs, contacts, carriers, and modes of spreading the disease.

This disease is an acute infection - usually of the tonsils, throat, and nose area, marked by a patch, or patches, of grayish membrane. This disease is serious only in children under the age of five, who have had no immunization. Fortunately, most of the children in this community have been immunized and are, therefore, protected against this disease.

It is felt by the State Department that in the event there is a situation in which there is active infection in a town, mass immunization should be undertaken. Parents of children whose boosters are up-to-date need not be alarmed about the present situation. In the event that there is a case of Diphtheria diagnosed in this community, then those children whose boosters are six months old, or older, should be inoculated with the Diphtheria Toxoid.

Diphtheria source of infection is from discharges and secretions from the nose and throat and rarely from the sores on the skin. Transmission of the disease is through contact with an infected person, or, with articles of clothing or utensils that have been soiled by the discharges of such persons. (Continued on Page Five)

SAUCE FOR THE GOOSE

No American is likely to question the propriety of President Eisenhower's termination of diplomatic relations with Cuba. It is obvious that reduction of the US Embassy staff to eleven, as demanded by Castro would, as the President said, "render impossible the conduct of normal diplomatic relations with that Government". It would also make it impossible for us to process visas for the increasing thousands of worthy Cubans who are striving desperately to flee their native land for sanctuary on the mainland, to join the more than 140,000 who have preceded them.

But many of us will question the timing of this official act. In delaying this severance for two long years after Castro's seizure of power, in withholding action while American properties were seized and destroyed, American citizens abused and humiliated; while the Communist pattern of the "revolution" became clear and the Reds, Russian and Chinese — began the physical investiture of their Cuban beachhead; and until this Kremlin puppet told us any action could have in our em-

THE USUAL FESTIVE spirit of a new session of the national legislature was some-what muted this week as the 87th Congress convened.

Although the Members renewed old friendships, made new acquaintances and went through the motions of the traditional opening ceremonies, the underlying mood was one of a rather grim uncertainty as the Members stood face-to-face with the issues they must grapple with, and try in the nation's best interest to resolve. The domestic problems that have been headlined for some months must be eventually confronted, but they have definitely been pushed into the background by more overriding issues. These vastly complex issues might be simply stated as war or peace; or as Communism or Freedom.

Uppermost in the minds of all of us, I think, as we took the oath of office was the Red-led turmoil in Laos and the Communist-created confusion in Cuba. As if that were not enough, there is the ferment in the Congo to consider and the prospect that Russia may soon test us again on the question of West Berlin.

IN LAOS, the "bad guys" armed with Communist arms shot at the "good guys" armed with weapons from the Free World, and while it is hard to realize that events in a tiny Kingdom remotely removed from the nerve centers of the world might be the key to the future of all Asia, it is none-the-less true. For that reason, the U. S. wheeled its military forces into strategic positions near the troubled, threatened area.

Hardly had the Congress accepted, what should be a gesture of warning on our part becomes in a sense an act of accommodation. We are unavoidably reminded of the fellow who, when his boss told him he was fired, retorted: "In that case, I quit."

"There is a limit to what the United States in self respect can endure. That limit has now been reached," said the Presidential understatement.

The first formal reaction to the diplomatic break was a statement from the Castro "cabinet" that might well have been written in the Kremlin, so faithfully did it follow the Khrushchev pattern of invective against "the administration of President Eisenhower" and proffer the same delicate hint that they might be able to do business later with President Kennedy.

It may, as the cabinet communique suggests, seem unusual that — after all we have taken from Castro through the months — the President would sever relations with only three weeks of office before him. But if Fidel has finally overstepped the limits of our official endurance, then so indeed has Khrushchev — over a much longer period of time.

In this situation, certainly, a sauce suitable for the goose is indicated for the gander.

ed its oath of obligation before the President announced we had taken the serious step of ending diplomatic relations with Cuba because, as Mr. Eisenhower said, we had reached the point where we had to act in order to maintain our self-respect. The turmoil in Cuba may lead to an attack on our U. S. Naval Base at Guantanamo. This is our oldest "overseas" base, having been in operation since 1903, and there is no doubt if such an attack should come we would fight to defend the installation. There is here in Congress the keen realization that should we be forced to fight in either Laos or Cuba, the might of the Soviet Union and Red China might be thrown against us.

There is also the problem of our diminishing gold reserves, which most of the public learned of only a few weeks ago, with which to contend. Add to this the normal uncertainty of a transition period between an outgoing Administration and a new, incoming President and you can see why the normal hail-fellow-well-met spirit usually so dominant on the opening day of a new Congress was not pronounced in this crisis-filled new year of 1961.

Public Affairs Topic For Woman's Club Meet

A discussion of public affairs featured the program of the Ozona Woman's Club which met in the home of Mrs. Stephen Perner Tuesday afternoon. Assisting Mrs. Perner as hostesses were Mrs. John Bailey and Mrs. Will Baggett.

The program, "An Honest Look at Public Affairs," was led by Mrs. Ivy Mayfield, who opened the meeting with a prayer for our day. A symposium of opinions on some complex problems was presented by County Attorney Dixon Mahon, Mrs. V. I. Pierce and Mrs. Taylor Word. Mr. Mahon talked on Tariffs and American Business, Mrs. Pierce on Farm Surpluses and Mrs. Word on Oil Imports and Our Economy.

A vocal solo, "I Walked Today Where Jesus Walked," by O'Hara was sung by Mrs. Brooks Dozier, who was accompanied by Miss Jan Pridemore.

Mrs. Taylor Word, president, presided over the business meeting. A letter of appreciation for a Christmas box sent by the club was received from the State Orphans Home at Corsicana. Others present were Mrs. J. W. Henderson, Mrs. J. B. Miller, Mrs. A. C. Hoover, Mrs. B. B. Ingham, Sr., Mrs. J. A. Fussell, Mrs. Floyd Henderson, Miss Lola Mae Daniel, Mrs. Roy Killingsworth and Mrs. L. B. Cox, Jr.

Mr. and Mrs. Bryan McDonald of Canyon, and Mr. and Mrs. W. J. Grimmer of Winfield, Iowa, were Ozona visitors last week. Mrs. Grimmer and Mrs. McDonald are sisters of Joe T. and Chas. E. Davidson, Jr., and Mrs. Frank McMullan, all of Ozona.

Diplomacy Is Topic For Woman's League

The Ozona Woman's League met Tuesday in the home of Mrs. Cecil Hubbard. Hostesses were Mrs. Perry Hubbard and Mrs. Jody Jones. Subject of discussion for the meeting was "Diplomacy" — given by Mrs. LeRoy O. Zunker.

"World in Orbit" is the topic of the course of study for the year 1960-61, which is to stimulate thinking on today's problems which have become intensified and enlarged with man's ever-increasing conquest of space. Some of the topics to be discussed at later meetings will be: "Causes of War"

"Road Towards Peace", "The World Court", "The United Nations" and "International Value of Exchange Students and Teachers".

Two members Mrs. Byron Cleere and Mrs. Roger Gotcher were introduced by Mrs. John R. Hunnicutt, President.

The results of the Christmas box donations were outstanding and all members were thanked by Mrs. John L. Henderson, Jr., who was chairman of the Christmas project. The Christmas program was held December 13 at the country club, to which each member brought five articles of clothing, toys, or food for distribution to needy families of Ozona.

Gifts between members were also exchanged. Hostesses for the December meeting were Mrs. J. L. Henderson, Jr., Mrs. Bill Carson, and Mrs. A. S. Lock.

Other members present for Tuesday's meeting were Mmes. Joe Bean, Ernie Boyd, James Chapman, Joe Couch, Bill Friend, Jerry Hayes, Armond Hoover, Jr., Dick Kirby, A. S. Lock, Tom Mitchell, C. A. North and H. M. Phillips, Jr.

First Bond Payment Level Reached As Rambler Sales Increase

34,324

U.S. SAVINGS BONDS ARE ON THE WAY TO DECEMBER RAMBLER BUYERS

39th Straight Record-Breaking Month Means Bonds for December Buyers of Ramblers and "Mets".

Now January Buyers Can Share, Too. Bonds are already on the way to the 34,324 customers who took delivery of new Ramblers in December (the 39th straight month in which Rambler sales set an all-time high over corresponding previous months). Metropolitan buyers also receive bonds. Both can share in future bond payments up to a cumulative total of \$125 (maturity value), as sales increase.

January Buyers Can Receive Bonds, Too. American Motors' Customer Progress Sharing Program is retroactive and cumulative.

If you take delivery of a new Rambler or Metropolitan this month, you can receive U.S. Savings Bonds, Series E, with maturity value of \$25 to \$125, as Rambler sales reach pre-set goals.

Join us in putting the spotlight on the necessity for sharing progress with ALL consumers if the whole nation is to prosper.

Ask your neighbor about his Rambler. Then see your Rambler dealer for the best car buy and full details on how you can share Rambler's success.

 Ozona, Texas

Votes Of 104 Crockett County Citizens Not Counted In Presidential Election Because Of Weird Texas Election Laws

104 Crockett County citizens failed to have their vote counted in the Ozona election November 8. The votes were disqualified mainly because the voters had failed to scratch out the Constitution and Prohibition Party candidates.

This figure, representing some 8 percent of the total vote of the county, and other statistical information pertaining to voting in this area, were released today from Republican State Headquarters in Houston. The results of the study have been revealed in an effort to apprise Texans of the dangers of careless voting, and to point up the peculiarities in our state election laws which have contributed to an abnormally high vote disqualification.

The report states that there are two election laws which contradict one another. Art. 6.06 of the Election Code provides that the voter shall mark out the names of all candidates he does not wish to vote for, but that the failure to do so shall not invalidate the ballot if the intention of the voter is clear in the opinion of the election judge. Art. 8.21, however, provides that no ballot shall be counted if the candidates for more than one party are left unscratched.

Since, apparently, both laws cannot be applied, the individual Precinct Judge is left with the burden of deciding which law is just. This inconsistency in the law has contributed to the irregular pattern of vote disqualification between not only counties, but precincts within counties.

For instance, within this county, returns from Precinct 2 showed 3 voters disqualified from a total of 178 votes cast, for a low rate of about 1 1/2 percent. Precinct 5 on the other hand had 7 votes "thrown out" of a total of 42 cast or about 16 percent disqualified.

Other illustrative figures in this county include Precinct 1 with 16% votes not counted; Precinct 9 with 0 per cent not counted; Precinct 4 with 9 per cent not counted; and Precinct 6 with 3% votes disqualified.

The report pointed out that even under ideal conditions it's reasonable to expect a small percentage of votes to be improperly marked. However, in the opinion of the investigating group, human error could not be responsible for such wild fluctuations in vote "throw out". Instead, they credit the ambiguous election laws for these wide variances.

In the whole state variations of from no "throw outs" in 411 precincts to as high as 63% of the votes disqualified in one precinct in Anderson County were cited.

The fact that only 1 1/2% of the votes were disqualified in Starr County as opposed to a 25 1/2 "throw out" in Waller County would further indicate that irregular interpretation of the Election Code was a factor.

Purpose of the report to each county from Republican Headquarters was described as non-partisan, and in no way intended to reflect on the recent election contest. The objectives of the report, which would benefit either party, were:

1. Make the public aware of the necessity of voting carefully and properly.

2. Arouse public sentiment for modernization and simplification of existing Texas election laws through action by the Texas Legislature.

NOTICE TO BIDDERS

Sealed Bids will be received in Court House, District Court Room, Ozona, Crockett County, Texas, Jan. 27 1961 until 2:00 p. m., CST, and be publicly opened and read, for the construction of additions to the Crockett County Jail.

In general, the main Addition will include a Bedroom, bath, closet and year around air conditioning and heating for the entire ground floor apartment.

The new construction shall be semi-fireproof construction with a concrete slab floor, hydrite masonry wall units, single hung aluminum windows, steel bar joist and steel deck roof structure finished with a 20 year bonded built-up roof, and a alum-a-grid fiber-glass ceiling for the entire ground floor Apartment.

The General construction, heating and air conditioning, plumbing, and electrical bids shall be included in the General Contractors bid.

Plans for the work may be obtained from Leta Powell, County Clerk, Crockett County, or from the Architect's Office at 2016 W. Beauregard, San Angelo, Texas, for a deposit of \$15.00. Deposit will be refunded when the plans are returned in good condition.

Attention is called to the fact that not less than the minimum wage rates prevailing in the locality in which the work is performed for work of a similar character, and not less than the general prevailing rate of per diem wage of legal holidays and overtime work, shall be paid to all laborers, workmen and mechanics employed in the construction of public works, and the general prevailing rate in the City of Ozona may be obtained from Houston S. Smith, County Judge— or from J. C. McDurmitt, Architect.

All bids must be accompanied by bid bond, certified check, cashiers check, money order, or Surety Bond in an amount not less than five percent (5%) of the amount bid. The successful Bidder will be required to furnish performance and payment Bonds in the amounts of 100% of the Contract, also he will be required to execute a formal Contract.

All questions or matters pertaining to the construction and contract shall be referred to Houston S. Smith, County Judge, Crockett County, Texas.

The Commissioners Court reserves the right to reject any or all bids submitted.

• Important news for new-car buyers— THE '61 CHEVY BRINGS

JET-SMOOTH TRAVEL DOWN TO EARTH

This is the Impala Sport Coupe — just one of 20 Jet-smooth Chevies!

HERE'S WHAT GIVES CHEVY ITS JET-SMOOTH RIDE—

- Full Coil suspension—Chevy's one of the few cars with a coil spring at every wheel. Precision-balanced wheels
- For smoother rolling with less vibration. Sound-hushing insulation—Sheet metal is carefully insulated against drumming and vibration. 51 built-in "shock absorbers"
- Cushion the chassis against shock and shake. Live rubber body mountings—Extra-large butyl rubber cushions that further isolate the ride from the road.

Better just circle your dealer's block the first time you try a Jet-smooth '61 Chevy. Get anywhere near an open highway and he's liable never to see you again.

What we mean, Chevy's ride whets your yen to travel. Wins you over with its delightful coil-spring smoothness, its hushed comfort and light steering. You find yourself feeling sorry for people who buy higher priced cars, thinking they have to pay premium prices for a luxury ride.

That may have been true at one time, but not any more. Chevrolet's ride, its roadability, just doesn't take second place to anybody's. Drive one soon and see.

See the new Chevrolet cars, Chevy Corvairs and the new Corvette at your local authorized Chevrolet dealer's

Diphtheria —

(Continued from Page One)

Usually the incubation period is two to five days, although it may in some cases be longer.

Period of contagiousness — if a person has an active infection, the length of time that one is contagious varies, but it is usually two weeks or less.

Susceptibility and resistance — babies born to immunized mothers are relatively immune because a certain degree of immunity occurs during pregnancy. Nursing mothers will also provide their babies with immunity and protection up until about the sixth month of life. For this reason it has been suggested that the injections for Diphtheria be started when the infant is two months old and according to your own physician's routine.

Control — the only effective control of Diphtheria is by actual immunization — that is, through the injections that are provided each month for a period of three injections and the subsequent booster doses as are required. These injections also include Whooping Cough and Tetanus and today we also include Polio with this series. At the present time there are

no near cases of Diphtheria and there have been two reported confirmed cases which were treated and well before the actual diagnosis was made in a nearby town. One confirmed case reported in Odessa, Texas, according to the Texas morbidity list which is prepared each month by the State Department of Health.

In the event that there is a confirmed diagnosis of Diphtheria within the confines of this community, the people of this community will be notified and those that fall in this category of needing immunization or boosters should contact their family physician.

Cage Tourney —

(Continued from Page One)

tion, three of last year's starters are back. ACCHS, always a crowd pleaser, will probably be strong again this year, even though some of its stars from last year will not be back.

Third game, Wink vs Wall, 2:30 p. m. Wink has a strong team this year and Wall had one of its top players missing in Big Lake and is expected to be a strong contender if their star is back and in form.

Fourth game, Junction vs Rock-springs, neither team expected to be too strong, but both have good shooters and this could develop into a real contest.

Second session, Thursday night, Brady vs Sonora, 6:00 p. m. Brady won third place in Big Lake, and felt it could have done better, it could do so here, big ball club. Sonora small hustling team featuring fine performer in West, team shooting good but short on rebound strength.

Second night game, Big Lake vs Bronte 7:30, Big Lake a finalist in own tourney, big team, good shooting and featuring fine performer in Bobby Hubbard, team slow as a group. Bronte apparently not too strong but have little advance information on them.

Third game Thursday night, Ozona vs Mason, 9:00 p. m. Ozona has good team height and speed, but lacks balanced scoring punch particularly from inside. Good defense, and out shooting. Mason usually tall but no information on team this year, other than they won the tourney last season.

3 Crockett Ranchers Seek To Participate In Great Plains Plan

The Crockett Soil Conservation District has received application for participation in the Great Plains Conservation Program from three ranchers in Crockett Co. for a total of 16,000 acres. These three ranchers, John Childress, Bill Clegg, and Troy Williams, at present have a basic conservation agreement with the Crockett Soil Conservation District. The Soil Conservation District technician, Dick Ketchum, is currently assisting these ranchers to convert their basic conservation agreement to a Great Plains Conservation Contract.

By law, the Great Plains Conservation Program under public law 1021 must be based on a ranch conservation plan of operations. The program guarantees Federal cost sharing for applying needed soil and water conservation practices for a period up to ten years. The plan of operations and land

treatment schedule is based on the ranchers own decisions. The rancher can utilize and coordinate the A. C. P. program with the Great Plains Conservation Program. The purpose of the program is to help the rancher carry out a plan of operations that will help to minimize climatic hazards, and protect the land from erosion and deterioration by natural causes.

West Crockett Gas Field Is Extended

The Ingham (Davonian) gas field of Crockett County was extended 3/8-mile southeast and the same distance north with completion of Jake L. Hamon, Dallas, No. 1-M University, nine miles east of Sheffield.

It was finalized for calculated, absolute open flow of 5.4 million cubic feet of gas daily through perforations between 6,967-7,063 feet, which had been acidized with 11,000 gallons.

Location is 1,980 feet from the west line and 990 feet from the south lines of 12-29-University.

DO YOU REALLY UNDERSTAND THE BIBLE

Many sincere people regard the Bible as the sole authority for Christian belief. And they reject the teachings of the age-old Catholic Church because these teachings and forms of Catholic worship are not mentioned by name in Holy Scripture.

"Where," some will ask, "does the Bible say anything about the Mass or Purgatory? And how about confession to a priest, praying to Mary, and those seven Sacraments Catholics talk about. They're not in My Bible."

Catholics say that their teachings are found in the Bible. She teaches nothing that is not found in Sacred Scripture. If you wish to know more about Catholic teachings, write for a free pamphlet explaining the Catholic Church. Write to: Home Study Center, Box 5644, Amarillo, Texas.

The News Reel

A re-run of "The Ozona Story" as gleaned from the files of The Ozona Stockman

From The Stockman, Jan. 14, 1932

Funeral services were conducted at 3:30 Saturday afternoon from the Ozona Methodist church for Mrs. L. B. Cox, Sr., who died at her home here Friday evening following an illness of several weeks. Active pallbearers were John Bailey, N. W. Graham, E. B. Baggett, Jr., P. L. Childress, Charles E. Davidson, Joe Pierce, J. M. Baggett and T. A. Kincaid.

C. W. Barbee, bookkeeper for the firm of Luther & Newberry, took a headlong dive into politics in Crockett County this week when he announced as a candidate for tax assessor, opposing the incumbent O. W. Smith.

After four fruitless efforts, teams of gridiron veterans of Ozona and Texon finally got together in Texon Sunday afternoon and in a spectacular game, the Ozona lads carried off final honors by the close margin of 3 to 0. Vic Montgomery kicked a field goal for the locals in the last two minutes of play after Jake Young had recovered a Texon fumble.

The Commercial Department of Ozona High School, inaugurated this year, has an enrollment of 35 pupils. Miss Ludee Mae Harrison is the teacher.

T. W. Patrick, one of Crockett county's oldest living first settlers celebrated his 82nd birthday Tuesday of this week. He has been a resident here 34 years, settling in the county in 1897.

Deathless Days

IN THE COUNTY COURT OF CROCKETT COUNTY, TEXAS IN RE: Guardianship of the Estate of Helen Henderson, a minor)

NO. 199

NOTICE

To all persons interested in the Estate of Helen Henderson, a minor:

You are notified that I have on the 12th day of January, 1961, filed with the County Clerk of Crockett County, Texas a written application asking for authority to lease property of the above estate for mineral exploration and development, such property being described as follows:

All of the interest of Helen Henderson, a minor, in the following described land in Crockett County, Texas:

An undivided 1/4th fully participating interest in all oil, gas and other minerals on, in and under all of Section 23, Block I. J., GC & SF Ry. Co. Survey, Abstract 3953, Certificate 4/1620.

You are further notified that the Judge of the County Court of Crockett County, Texas, did on the 12th day of January, 1961, enter an order designating Monday, the 23rd day of January, 1961 at 10 o'clock a. m., in the County Court Room of the County Court House of Crockett County, Texas, as the time and place of the hearing of such application.

Dated this 12th day of January, 1961.

Lucille Henderson Russell, Guardian of the Estate of Helen Henderson, a minor. ltc

If you love luxury and hate gas pumps

... then you'll love the Buick Special! You get Buick comfort, ride and go—plus real gas savings to boot!

The Buick Special is 100% Buick—with everything that means. Like Buick go, for example. A new 155-h.p. aluminum V-8 gives you more sizzle than many a big car. And, because aluminum turns deadweight into live action, the miles per gallon figures are most delightful. Then there's Buick comfort—big roomy comfort for heads, hips and legs. There's also

Buick's "all-day" ride, Buick's Clean Look of Action and Body by Fisher—all priced less than most models of the low-price field! Come guest-test the Special at your Buick dealer's—but come prepared to lose your heart!

BUICK SPECIAL

THE BEST OF BOTH WORLDS

Now for the first time...

Traditional Mercury values in the popular price range

1961 MERCURY MONTEREY 2-DOOR HARDTOP

TRADITIONAL MERCURY COMFORT Only Mercury has Cushion-Link Ride (standard on Monterey and Meteor 800)—a unique suspension system that absorbs jolts and jars that come through to you in other cars. It "gives" backward and forward as well as up and down. And Mercury has a longer wheelbase (120 inches) and greater weight (up to 241 pounds heavier) than other cars in its price range. Result: you enjoy a smooth, solid, steady big-car ride you'd expect to pay much more for. There's plenty of stretch-out room in Mercury, too—even more rear seat hip, shoulder and head room than in last year's spacious Mercury. Wider doors and more trunk space, too.

TRADITIONAL MERCURY VALUE There's extra value in Mercury's engine choice—all the way from the Super-Economy "6" (Mercury's first "6") to the powerful Marauder V-8's. And even the top-performing V-8's deliver up to 15% better gas mileage. There's extra value in Mercury's seven self-servicing features. From self-lubricating chassis to self-adjusting brakes, they save you money every mile you drive. Everywhere you look, the 1961 Mercury offers you traditional Mercury values. Now, for the price most people pay for a new car, you can own a Mercury. Take your pick of Mercury's three great series and drive it today!

LINCOLN-MERCURY DIVISION, Ford Motor Company.

1961 Mercurys— ALL IN THE POPULAR PRICE RANGE

- 1 MERCURY MONTEREY Finest, most luxurious of all 1961 Mercurys—America's lowest-priced luxury car.
- 2 MERCURY METEOR 800 Priced to compete with the top series in the low-price field.
- 3 MERCURY METEOR 600 Priced right in the heart of the low-price field.

WOODY MASON MOTOR CO. OZONA, TEXAS

I SAY— GET THE FACTS—LADY

...AND YOU WILL BUY A FLAMELESS Electric CLOTHES DRYER

THE FACTS:

- IT'S FLAMELESS and you can dry more than 500 loads of clothes electrically for the difference in the initial cost of an electric dryer and other types (fuel) of automatic dryers.
- AND REMEMBER, no expensive plumbing is needed to install an Electric Clothes Dryer.
- Check the FACTS direct—then buy Electric.
- about five cents a load, plus clean, safe, no flame drying.
- And here is another fact—Electric Clothes Drying is quite economical...

West Texas Utilities Company

NO MATTER WHAT FABRICS YOU DRY— YOU WILL WANT THE FRIGIDAIRE MODEL DDA 41 "WRINKLES-AWAY" Electric CLOTHES DRYER

THE Electric CLOTHES DRYER THAT DRIES EVERYTHING TERMS AS LOW AS \$5.00 PER MONTH

Notes From The County Agent's Office
By Pete W. Jacoby

More than 2,000 farmers and ranchers in 352 counties in the 10 Great Plains States made contracts with the U. S. Department of Agriculture to develop soil and water conservation plans for their lands during the fiscal year of 1960. These contracts covered more than 5 1/2 million acres, the USDA said.

This brought the number of plans and contracts to almost 4,900 covering over 13 million acres at the end of the fiscal year. An additional 3,084 applications covering nearly 2 million acres, had been filled at year's end.

The program is designed to speed-up soil and water conservation measures, through a complete farm or ranch plan of operations, that will bring about a greater degree of agricultural stability in the Great Plains where drought, high winds, blizzards, hail and hard rains are not infrequent. It applies to designated counties in Colorado, Kansas, Nebraska, New Mexico, North Dakota, Oklahoma, South Dakota, Texas and Wyoming.

Lynn Pittard, soil and water conservation specialist, Texas A-

gricultural Extension Service, said that currently, 915 farmers or ranchers in 85 Texas counties have applications on file and that active contracts total 2,157. These contracts cover approximately 4.1 million acres, Pittard said.

Included in the contracts and plans, developed with assistance from the Soil Conservation Service are such practices as converting cropland to grass, planned range reseeding and many other permanent-type conservation practices.

In carrying out their conservation plans, under contracts ranging from 3 to 10 years, participants established one or more of 24 practices eligible for cost sharing, Pittard said.

The Great Plains Conservation Program, Public Law 1021, became law August 7, 1956. First contracts and plans were signed in December 1957.

Crockett County became eligible to participate in the Great Plains Program, beginning this year. Anyone interested should contact the work unit conservatist of the local Soil Conservation Office for further information on the program.

Crown gall occurs in all areas of Texas, but is more of a problem in areas of limited rainfall, according to Harlan E. Smith, Extension Plant Pathologist, of Texas A&M College. It appears as

large, rough, roundish woody swellings or galls on the lower part of the trunk or roots of affected plants and is often discovered when dead trees or shrubs are being replanted.

The bacterial disease should not be confused with root knot nematode galls. The crown are as large or larger than walnuts while nematode galls are seldom larger than marbles. Affected plants may die slowly for over a period of months or even years and young plants are more seriously affected than older ones.

In garden or lawns, infected plants that are unproductive may be removed and destroyed. As many as possible of the infected roots should be removed and it is also worthwhile to remove the infected soil and replace with clean soil. Infected soil may also be fumigated but this should be done several weeks prior to transplanting. Use D-D, Garden Dofume, Vapom or other soil fumigants as the maker directs.

Ozona High Seniors Register For American College Test Program

Seniors in Ozona High School who are planning to enter college next autumn, are registering now for American College Testing program exams, said J. A. Pelt, principal of the school.

They want to make sure that their registration blanks are received in plenty of time for the closing date of registration, Saturday, February 4.

The three-hour tests, to be given Saturday, February 25 in 48 states and the District of Columbia, are required or recommended for admission to more than 500 colleges and universities in 23 states.

These 23 states, which have ACT-affiliated college testing programs, are Alabama, Alaska, Arkansas, California, Colorado, Idaho, Illinois, Iowa, Kansas, Kentucky, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, North Dakota, Ohio, Oklahoma, South Dakota, Tennessee, Texas and Wisconsin.

Participating colleges use ACT results for student guidance and admissions and for awarding scholarship aid to applicants, as well as for placing freshmen in classes or programs suited to their abilities.

The ACT test has four parts that yield five scores — a composite score indicating over-all college potential, and four separate scores indicating levels of general capability in English, mathematics, social studies and the natural sciences.

ACT scores and manuals explaining how results may be interpreted are furnished colleges indicated by students and are sent to the student's high school for his and the school's use in guidance.

Further information about ACT tests, taken by more than 125,000 high school seniors last year, may be obtained in the principal's office.

Make It With Wool Entries Featured In Forum Program

Members and guests of the Woman's Forum met at the Country Club last Wednesday for the annual Youth and Guest Day program which featured local girls in the "Make It Yourself With Wool" contest. Mrs. P. C. Perner, president, introduced Mrs. S. M. Harvick, State Chairman District 5, of the "Make It Yourself With Wool" contest, which is sponsored in Texas by the Texas Sheep and Goat Raisers Assn. Mrs. Harvick reviewed the rules for the contest, gave a brief history of the contest in Texas, and gave the rules for judging the garments. She introduced Mrs. Janie Hull, Home Economics teacher in the high school who presented the commentator, Miss Janet Mason.

Modeling the costumes they had made and entered in the Make It Yourself contest were: Misses Wanda McCaleb, Peggy Harvick, Charlotte Johnigan, Judy Ingham, Nancy Friend, Gracie Chandler, Frieda Kay Noelke, Irene Lackey, Anne Davidson, Barbara Barbee, Jan Pridemore, Marian Ross and Jackie Couch.

Several vocal selections were presented by the following voice students of Miss Cleona Quiett: Misses Mary Lou Zunker, Diana Couch, Carmen Childress, Ann Long, Linda Leath, Janice Paulk, Janice Walker and Mary Jane Dunlap. Miss Quiett played piano accompaniment for the style show.

Mrs. Bill Clegg, program chairman, was in charge of arrangements for the program, and hostesses for the tea hour were Mrs.

C. O. Walker, Mrs. T. J. Bailey, Mrs. Martin Harvick, and Mrs. P. L. Childress. One hundred twenty-five persons attended.

'61 FORD
...the only car
in its field
beautifully built to go...
30 000 0
miles between lubrications

30,000 is the most famous number of the year. It's every '61 Ford owner's license to save. How can Ford do it? Conventional chassis lubrication fittings have been replaced with metal plugs that help protect each lubrication point against abrasive mud, dirt and dust. And then, for only about \$4 and about 20 minutes your Ford is ready for another 30,000! This is just one of the many ways the '61 Ford is built to take care of itself. Your Ford Dealer can show you more.

HERE'S HOW THE '61 FORD TAKES CARE OF ITSELF
Lubricates itself—You'll normally go 30,000 miles between chassis lubrications (which cost only about \$4.00 and take about 20 minutes) because Ford has replaced conventional grease fittings with a sealed-in lubrication system.
Cleans its own oil—You'll go 4,000 miles between oil changes because Ford's Full-Flow oil filter gives you filtration through fibers... trapping more dirt than any other type of filter made.
Adjusts its own brakes—New Truck Size brakes adjust themselves—automatically.
Guards its own muffler—Ford mufflers are double-wrapped and aluminized to last three times as long as ordinary mufflers.
Protects its own body—All vital underbody parts are specially processed to resist rust and corrosion, even to galvanizing the body panels beneath the doors.
Takes care of its own finish—Just wash and clean Ford's new Diamond Lustre Finish and it continues to glisten like new. It never needs waxing.

Only **FORD** is beautifully built to take care of itself
