Kitty's Korner

By Kitty Montgomery

After many comments about this column being missing the past couple of weeks, I decider I had better get busy and get it out this week. I'm afraid I don't really have an excuse for the lapse except for an over-abundance of news and sheer laziness on my part. I must say, it's nice to be missed and comments to that effect are very gratifying.

I really felt sort of selfimportant until I started thinking about good misses and bad misses, and nobody made any distinction

I mention this, because when my son, Jim, was every bit of three years old we had several days of company in our home with many children.

It was very quite when they packed up and left, and thinking my little chick was probably lonely, when I put him to bed that night I asked, "Do you miss your company?" He said "Oh yes..... but it's a good miss." And throughout he missed with "good" or

even "miss" a headache when it goes away.

Here it is the eighth of March, and winter has turned to spring quite suddenly. We had a beautiful weekend, all warm and sunny. We've even had our first spring thunder storm, complete with hail. I don't think the hail here in town amounted to much but saw Joe Couch shortly after the deadline and he said the storm Tuesday night left 2½ inches of rain at his place west of town and hail piled up in draws and ditches so heavily that it was noon before it melted. We only had .37 of an inch of rain but then our hail wasn't so heavy either.

That's the trouble with the weather, you just have to take the good with the bad and there's no getting around it. We've likely not seen the end of really cold weather either.

It does seem like spring though, with all the track teams running, the tennis players hard at it, the roping club setting up its spring and summer schedule, and the fruit trees blossoming forth.

Buying a new car is really an experience these days. They have so many safety features it's frightening. And, of course, you have to take them whether you want them or not.

I almost wrecked my car the day I got it. I started the motor, put it in gear, and a siren went off with red lights calmed, I found that all this who sent cards and letters. was due to the fact that my

Public Hearing

Texas Parks and Wildlife Commission has announced a public hearing to be held in the district courtroom at the courthouse in Ozona on Monday, March 26, for the purpose of discussing hunting, fishing and trapping regulations for the coming seasons in this county.

The Texas Legislature has made the Parks and Wildlife Commission responsible for setting seasons, bag limits and means and methods for harvesting the state's wildlife resources annually. These public hearings are held to hear comments and suggestions from citizens

relative to such regulations. Several changes were put into effect in this county last year as a result of such hearing. Some changes were made in deer season periods and a split season on dove hunting inaugurated, among other changes.

All persons interested in any phase of hunting, fishing, trapping and regulations controlling the taking of wildlife resources are urged to attend the meeting.

Meeting time will be 8 p.m. March 26 in the district courtroom. Raymond Davee, game warden, will be in charge of the hearing.

Tuesday Storm Brings Hail, Wind And Rain

March not only "came in like a Lion, " it brought the first warm weather of the year

and the first hail storm. Weekend temperatures in Ozona were warm and most days featured a brisk wind since March arrived upon the scene. High temperatures for the day have ranged from 70 to 75 degrees.

A thunderstorm early Tuesday morning brought hail and .37 of an inch of rain to the

news that awaits ranchers at the Sheep Field Day here on March 15: animals just completing the 24th annual Ram Performance Test have exceeded those of all previous years in their daily gain, their staple length and their

wool production. And the ranchers will be able to inspect both the records and the 140 rams in the test, conducted by scientists of the Texas A&M University Agricultural Research Station, who are also hosts for the 1973 field day.

Of concern to Texas sheep ranchers are these other subjects to be discussed March.15; some techniques of pregnancy diagnosis, and the potential value of them to the industry; bitterweed, and some recommendations for at least partial control of this noxious plant that can cost producers up to \$5 per year per sheep, the present status of wool and mohair market and the outlook for both.

Lion Tracksters Make It Two In Row by Winning McCamey Meet

SPRING SPRUNG OVER THE WEEKEND and apricot blossoms came forth all over town, along with a few peach blooms. The mid 70's for two or three days running did not, however, fool the pecal tree in the background or the stubble of frozen hedge that's called evergreen. It remains to be seen if the fruit trees were optimistic. Chances are two to one they'll be nipped in the bud.

WOMEN'S LIB IN ACTION or maybe just "Lib in Action" would be a better caption. Employees of the Crockett County Water District have traditionally taken care of the community sign by the courthouse annex. With the male employees out of pocket, Mrs. Charles (Lib) Applewhite, who is at least five feet tall, takes over the job. She managed to re-do the sign from top to bottom without a bobble.

LITTLE RED RIDING HOOD

(A 1973 Revised Version)

Once upon a time, in an impacted area, there dwelt a minor child called Little Red Riding Hood. One day her liberated mother asked her to take a basket of food stamps to her ailing grandmother who lived in an urban development. It happened that a wolf smoking pot on the front steps overheard the conversation. He decided to take a short cut to grandmother's pad and get the trading stamps for himself to help support his habit. The wol? killed the grandmother, then dressed in her granny gown and jumped into bed to await the little girl.

When she arrived he made several nasty suggestions he had found in his High School English Book, "Catcher in the Rye" and then tried to attack her. The frightened child screamed. A woodcutter cat working nearby, who had been employed by the Urban Developers to remove all weeds in the neighborhood known as "trees," heard her cries and rushed to the rescue. With his trusty axe he felled the wolf, thereby saving Red Riding Hood's virginity, if not her life. All the people hurried to the scene of the attempted crime and proclaimed the woodcutter a hero.

But at the inquest, several facts emerged:

(1) The wolf had never been advised of his rights. (2) The woodcutter had made no warning swings before striking the blow. (3) The Civil Liberties Union declared that although the act of eating grandmother was in poor taste, the wolf was only doing his thing, and thus did not deserve to die. (4) The New Left contended that the killing of the grandmother should be considered self defense since she was over 30 and in any event the whole thing couldn't be taken seriously because the wolf was trying to make love, not war.

It was therefore decided that there was no valid basis for charges against the wolf because Little Red Riding Hood had not resisted his advances with sufficient vigor. The woodcutter was indicted for unaggravated assault with a deadly weapon and because his axe had not been registered.

One year from the date of the Happening, the urban development was made a shrine for the victim of non-police brutality -- the wolf. All the government aid officials spoke at the dedication. Red Riding Hood, in a most touching tribute, said that while she had at first been mistakingly grateful for the woodcutter's timely intervention, she realized in retrospect that he had over-reacted. As she knelt and placed a wreath in honor of the poor, underprivileged wolf, there was not a dry eye

Tips For Gardeners

From the Ozona Garden Club Mrs. Bailey Post

Though we have had very little spring-type weather as yet, Spring is just around the corner, and the lovely weekend just past was a reminder.

Perhaps a few ideas on how to make ornamental plants more useful will be helpful in your selection of shrubs.

You can put your garden's best-looking plants to work in the most practical ways. They can fill jobs like bug control, be bird havens, replace fences, insect control. The marigold, and produce food and support for other plants.

Choose some plants that encourage birds to linger in your area. Our winged friends make rapid work of bugs and at the same time will cheer you with their color, song and action. A few plants which encourage birds are honeysuckle, chokeberry, dogwood, elderberry, Russian olive, hawthorne, holly and sunflowers. Many of these provide fruit and cover for the birds.

The apple blossoms, a cheerful sign of spring, come attached to plants that decorate gardens and help feed the gardener.

Also include some ornamentals that produce food for your table. Make you selections for eye-appeal as well as for food value. The fast growing elderberry has a profusion of early spring blossoms then produces loads of sweet berries, rich in Vitamin C as well as flavor.

Others are the flowering quince, which blooms in many shades of pink, white and coral; Blakeney of San Angelo. the unique rugas, and a rose if you have plenty of room. Dwarf fruit trees are also nice.

Many of the herbs are useful for spices and flavoring, such as the upright Rosemary, which makes a good hedge. The Dwarf plant is fine for the rock garden.

Select some ornamentals to provide shade for other plants. Some vegetable crops do best in cool part shade. Particularly greens like lettuce iate area. No sales or colkale, Brussel sprouts, cauliflower and cabbage. Let vegetables that grow on tendrils, such as pole beans, squash and cucembers, use other plants

SORORITY MEETS

er of Beta Sigma Phi met Monday evening in the Civic Center for a business meeting.

It was reported that eighteen new books had been purchased for the Community Center for the use of the Kiddy Klub.

The sorority was pleased to announce the selection of Mrs. John Richey and Mrs. J. W. Lott as Valentine Sweetheart Runner Ups and were recently honored at a party.

Mrs. Sheryly McCleery presented the program of the evening on "To See and To Know." She commented that happiness is obtained thru our attitudes toward family, friends, and environment and with wider interest and lifes experiences our happiness increases and we learn to be happy. All members particapated in two interesting demonstrations on the awareness of what we see and remember.

Hostess for the evening was Mrs. Eddie Hale.

Those present were: Mrs. Joe Boy Chapman, Floyd Hokit, Charles Huffman, Terry McPherson, David Wallace, Tony Allen, Jack Bently, Sonny Kirklen, Johnny Meyers, Lane Scott, Alex Valverde, Johnny Hughes, Charles Spieker, Jim Williams, and Tommy Wilson.

for support, for example corn-

Front yards usually need an "eye catcher," a single flowering, bearing or unusual foliage plant. Often used are white and pink dogwood, hibiscus, flowering crab, butterfly bush, spiria, azaleas, crepe Myrtle, lilacs, forsythia,

Where there is a boundary, choose plants to make a living fence. They will curb noise, improve the air and give forth with delightful aromas. Some of these are mock orange, spirea, deutzia, lilac, holly, abelia, to mention a few.

Companion planting, as I have mentioned before, should assist a gardener with for instance, discourages the Mexican bean beetle from vegetable rows, may clear an area of wire worms, and discourage nematodes which attack potatoes, bulb plants and strawberries. Other flowers that help are cosmos, asters, mums, daisies and nasturtiums, all of which have strong

Calling All **HOME MAKERS**

By J. D. Brown

THERE IS A DIFFERENCE BETWEEN "DECORATING" AND "FURNISHING"

Decorating is that special touch which turns a "house" into a

'charming home". Decorating is a creative and imaginative art. It is the ability to transform furniture and other inanimate objects into a related pleasant

pattern. In the old days you would simply buy a living room, dining room and bedroom suite and your home would be

Today, people just don't buy "sets" of furniture if they really want to decorate.

Colors, fabrics, textures, arrangements, walls, floors, ceilings, windows, lighting, and accessories all have to be taken into consideration so that the entire picture will have coherence, utility and beauty. And, of course, with

it all, your home should reflect your likes and your personality. It's really not difficult to turn your house" into a "charming" home", and have a home that is not just

'furnished", but one that is smartly "decorated". We can give you a fine selection of furniture from which you can choose, and we offer vou free decorating help and ideas without cost or obligation. We invite you to come in.

Is now the time to buy land?

Acquiring that farm might seem more practical with financing through the Federal Land Bank. Land is easier to pay off when costs are amortized over extra years with a long-term Land Bank Loan. Your total cost of borrowing, too, can be less. Ask us for help: We know land values; we will inspect the property. We will then try to make a loan that meets your exact needs.
