This newspaper is dedicated to giving community news without partiality to any segment of the population or the community. We have consistently fought injustice in any manner wherever we found it without regard to the consequences. We will continue to do so. We have never, nor will we ever be, a mouthpiece for any kind of propaganda. We do not speak for one segment of the community, but for the community as a whole. We do not publish meetings without charge unless it is a community endeavor where all will be welcome.

We believe our subscribers will realize this has been a consistent policy of the Stockman for many years. We do not want to see a return to separatism and will be a formidable foe to those who take up the banner to isolate any part of this community. We see no good coming from this kind of action for the individual or for the community.

We realize we have a very responsible position in the community, an almost frightening position, considering the fact that we must decide what is news, what is not, and all the editorial opinion must be decided and/or written by personnel of this newspaper, let the chips fall where they may. We accept this responsibility and understand that we must be devoted to serving the public. We hope other individuals in the community will allow ever they have chosen to serve. Our letters to the editor column is open to all dissenters, and this is the only section of this newspaper where views

may be aired. We make every effort to be fair, and have not changed our position one twit, in spite of anonymous letters, phone calls, (some threatening), irate phone calls to our home in the late hours of the night or letters to the editor in a daily newspaper.

A number of Ozonans were honored Tuesday, as award ceremonies were held at the Texas Highway Department Maintenance Offices here. Presenting the awards was District Engineer D.R. Watson of San Angelo. Ozona Resident Engineer William F. Dixon and his personnel met jointly with Supervisor Scottie A. Houston and his forces.

The awards represent the attainment of outstanding safety records for those who operate State motor vehicles in the course of their duties. These awards are given under a stringent set of rules established by the Highway Department Insurance Division, extending even to accidents caused by poor loads and mechanical failure, which means the entire Department must work as a team. Prior to 1970, such awards were made only to those operating two ton or larger trucks, but now include operators of all motor vehicles. These Driver No-Accident Awards represent the years of accident free driving

for each person. Those who received awards from the Residency Office of

Engineer William F. Dixon are: Charles W. Roberts, 1 year; Robert A. Barfield, 2 years; William F. Dixon, 3 years; John A. Lowe, Donald F. Mahannah, James C. Montgomery, Freddie R. Nicks, Julius C. Schroeder, Jessie S. Segars, and L.B.

Northcutt, Mrs. J.B. Parker and Mrs. E. H. Chandler, met with hospital board members and hospital administrator Keith Peters last week and made the decision.

The fund, which was started shortly after Dr. Tandy's death in late 1960, has just over \$9,000 in it at the present time. The furnishing of the recreation room will also include a piano and Dr. Tandy's portrait, which now hangs in the hospital, will be hung in

the room. Dr. Tandy, who served as family physician for Ozonans from July, 1933, until his death November 14, 1960, was instrumental in building a hospital where the courthouse annex now stands and was largely responsible for the building of the present hospital. storm lasted well into the He dreamed of a modern rest home facility for Ozona, and following his death, the Dr. Tandy Memorial Fund was started toward that aim. Letters ToThe Editor

To Kitty Montgomery: As a newspaper woman, I thought that you would be a more broad-minded person than what you recently showed, by denying to print the article given to you by the Mex-Ame-

I don't know where you have gotten your information, pertaining to MACO, (probably from gossip) but I know that you have never attended one of the meetings, to at least know something about this organization.

The MACO is a very new thing in our community and already you have bad judgements about it, without knowing its purposes or goals.

At least give us a 50-50 chance to prove that we are a good thing for our community, or as you said, and I quote, "are we going back to the days of racists?"

If you so desire a copy of our by-laws and constitution can be sent to you, and then you can let us know what is radical about it.

Thank you. Robert Flores P.S. Since you went through the trouble of finding out that I could not run for commissioner in Prec. 1, I'll let you in on a secret, I never had planned to run, but it's not because I don't live in the precinct I would represent. I would not be the first living out of my precinct. This letter is for you, so if you don't

print it it's O.K.

ED. NOTE: This newspaper published the proposed organization of MACO, the first meeting of MACO and the election of officers for MACO, we called it the closet under in spite of the fact we were unable to get information about the organization. When inquiries were made, we were the other fellow's blessings told that we would not be turned away from the meetings, but that if we did not have a likely to get nothing out of it. Not once did the organizer, afford. any officer or any member come to this office to give official details and purposes. We received press releases, brought to us by Blas Vargas, without signature or even a telephone number to check with the writer, yet we did publish these articles. When we received the editorialtype article mentioned in the letter above, we chose not to publish it. It was not news and this newspaper has editorialized to the point of nagging on the importance of registering and exercising the right to vote. All notices of meetings of dues-paying organizations in this newspaper are paid weekly or monthly at regular advertising rates. The P. S. is in reference to an article published in the San Angelo Standard Times, and our statement was made to correct facts. It is never any trouble for us to do a little research before we print something, just to be sure we have Desire is half of life; indiffethe facts. We endeavor to be responsible and to report facts.

We would like to keep an open mind and would welcome 29-.44 magnum. 4 inch bara clear-cut report on how MACO plans to improve and aid the entire community.

Governor Briscoe is pondering whether to approve (or again veto) a bill which opponents in the Senate charged would raise interest further on real estate loans.

The bill (HB 351 by Rep. Ben Munson of Denison) would provide for spreading all interest charges, including "points" now paid in advance over the life of real estate loans. It also would permit loans of \$500,000 or more for interim construction or real estate financing to individuals at greater than 10 per cent interest.

Briscoe indicated he may sign because the bill appears to be more specific on the type loan to which it applies than the 1973 bill which he

Trouble over appointments flared like brush fires for the Governor in the Senate. First, he had to withdraw

the nomination of Bryan oilman Ford Albritton Jr. for the College Coordinating Board in the face of almost certain rejection. Then, some liberal senators opposed confirmation of Walter G. Sterling, 73 - year - old Houston manufacturer and son of former Gov. Ross Sterling, as a University of Texas regent, after Sterling admitted a brief membership in the John Birch Society.

Meanwhile, Sen. D. Roy Harrington of Port Arthur had threatened rejection of Mrs. W. Smythe Shepherd of Beaumont to the Lamar University board of regents. About the same time, two liberal senators threatened to vote against former Sen. Dorsey Hardeman of San Angelo if he is reappointed to Texas Water Rights Com-

Three bills to create a state utilities commission to regulate rates and services landed in a Senate subcommittee after a hearing which stretched over a week in three separate sessions. Utilities spokesmen at-

## Cattle Feeding Down, Number Up In Texas

Cattle feeding is down in Texas but the number of cows and calves is up. While cattle feeding has remained under pressure during the past two years, the breeding herd should be under pressure to be reduced in 1975, according to a livestock marketing specialist for the Texas Agricultural Extension Service.

"In Texas cattle feeding on Feb. 1 was 47 per cent below levels last year, " points out Dr. Ed Uvacek. "At the same time feeding levels were down 37 per cent in the seven major cattle feeding states. "

Uvacek says that placement of cattle and calves into Texas feedlots has also dropped considerably--being down 56 per cent in January compared to the same month a year ago. Placements were down 42 per cent in the seven major feeding ment only. Call 392-2292.

"With most feedlots facing a breakeven cost for Choice steers of about \$42-45 per hundredweight--and market prices nowhere near that levelthe feeding industry will continue at a crisis level, " contends Uvacek.

On the other hand, the number of breeding cows in the United States is up four per cent over last year, with cow and heifer numbers up six per cent in Texas.

"This means a large calf crop in 1975 that will continue to add to the woes of the cowcalf operator, " notes the specialist.

#### Tips For Gardeners

From the Ozona Garden Club Mrs. Bailey Post

All around our city it seems most everyone is busy with some phase of gardening, repair or painting to freshen up for spring and summer outdoor living. The pleasant days we are having in March is a change for us from the usually windy and dusty fronts that come through. I hope all the preparations and plantings will not be in vain.

Good Friday is an excellent day for planting flower seeds, putting out new plants or your vegetable garden.

Move house plants from stronger sunshine if they prefer subdued lighting. Most plants that do not bloom are in this class, along with African violets. Keep plants turned to avoid all foliage facing one side, and begin grooming for the flower show next month.

You should take pride in your house plants when they are healthy, and attractive, and remain that way. If one of them should droop and die, we feel we have somehow been negligent. Many of us are doomed to failure because of selecting prima donna varieties whose survival depends upon negligent. Many of us are whose survival depends upon extra-special care and super growing conditions. To name several that usually respond to moderate care and there are

Hoya carnosa (waxplant)--Does better if kept cool and slightly dry during the winter. Remove from direct sunlight.

Cissus Rhombifolia (grape ivy) -- Makes a great hanging plant because of its long, trailing growth. Prefers fairly good light and virtually pest proof. Trim ends to keep from getting too shaggy. Mist occasionally, but let dry out com-pletely between waterings.

Plectranthus australis (Swedish ivy) -- Robust and fast growing, will trail 4 to 6 feet. Prefers direct sun, but can get along without it if necessary. Keep moist, but will not die if allowed to dry out.

Draecena marginata (Madagascar dragon tree) is a tough and adaptable plant that is also uncommonly good looking. Doesn't like too much water,

Oddly enough, many people don't give enough attention to selecting the coffee and end tables in their homes.

\*\*\*\*\*\*\*\*

Actually, there are more sizes, shapes, and types to choose from today than ever before, and a different coffee or end table can add new beauty and distictiveness to your

For example, if you've always had a rectangular coffee table in front of your sofa, why not try a round, square or

You might also think about "bunching" or "piggy-back" coffee tables than can be used as one unit, or separated to give you extra tables when needed around the room.

When it comes to end tables, you'd be surprised how many people have tables that are not right for them or their room. Many of those end tables are either too big or too small for the space and the job the table is supposed to do.

Also, there's no law that says your end tables have to match each other. You might consider making your room decorative by using two entirely different tables on either end of your sofa.

In any case, you don't have to settle for ineffective coffee and end tables, regardless of your budget. You can get ones that will help your room, and we'll be happy to aid you in your selection.

isn't fussy about light, but does prefer a cool location. Will grow very tall.

Draecena deremensis--A sturdy plant that can grow 15 feet tall with leaves up to 2 feet long. It thrives on very little light and enjoys soil on the dry side. Trim to height you prefer.

Philodendron selloum is a good-natured charmer that will adjust to most indoor environments. It prefers good sunlight, but will do well under lightless conditions. Keep moist and it will keep a corner of a room

Dieffenbachia amoena--Requires light, but not direct sunlight. Water thoroughly, then not again until plant is

Chlorophytum (spider plant) likes good light and even

Sansevieria (snake plant) --

and needs little water. Aechmea fasciata -- A decorative bromeliad, produces a flower spike bearing pinkish bracts that can last up to 5 months. Roots require infrequent watering, but the center well that's formed by leaves

should always be full of water.

որորդություն March 21 and 22 will be the Third Annual "Bake and Take" days. The Texas Wheat Producers Board sponsors the two days to do "something special for someone special."

This is an opportunity for you to show love and concern by "Baking" your favorite cake, bread or cookie and "Taking" it to shut-ins, senior citizens, residents of nursing or convalescent homes or just to neighbors and friends.

The personal satisfaction for you for the expression of thoughtfulness and remembrance shown to others will far outweigh the joy created in the hearts of the recipients.

## Flowering Vines Add Color To Landscape

One way to add color and variety to your home landscape Janne. is with annual flowering vines, says one expert in landscape horticulture.

"All that is needed to grow flowering vines is a wooden lattice, woven wire fencing or string to support the plants, ' says Everett Janne with the Texas Agricultural Extension Service. "These vines can be used to shade a porch or add color and interest to a particu-

vines and black-eyed Susans. The morning glory is colorful with white, blue or red flowers. It grows to a height of up to 15 feet.

Start the vines in four-inch pots and transplant them two or three weeks after the usual last frost date. Be sure they are planted in a well-drained, sunny location, emphasizes

"Don't plant morning glories in rich soil or use fertilizer, as this will produce vigorous vines but few flowers, says the horticulturist with the Texas A&M University System.

Cathedral bells grow up to a height of 20 feet and produce bell-shaped, blue or violet flowers. "These vines are free of insect and disease problems and can be planted in either a

Legend has it that, long ago, the dogwood came into bloom on Calvary and that, afterwards, a cross was implanted into the flower itself, to remain for all time. You can see it if you look closely, rust brown against the white of each individual blossom. Many of us carry crosses, faint like the dogwood's emblem but with us, nevertheless. Somehow, in this Lenten season, we become particularly conscious of them and of our need for help-a certain kind of help, that can be found only through the things we learn The Church doesn't pretend to banish our cares and woes. But, its teachings realistically consider the experiences of life itself. No matter what our personal cross may be, we seem able to bear its burden with more strength. Lent is a wonderful time in which to begin making church-going a regular part of your life-if you haven't already. Monday Tuesday Wednesday
