The South and Crime.

During the year 1890 there were committed in the United States 4200 murders, yet there were but 102 legal executions. Of these legal executions 82 were in the South and only 20 in the North, yet a very large majority of the murders were committed in the North. It is said that "figures will not lie," dyed-in-the wool republican sheet, the Chicago Tribune, they will probably be accepted as approximately correct, even by the most South, those who never tire of prating of "Southern lawlessness," and asserting that homicide is looked upon South of the Ohio more as a ing about organizing a board of divertisement than a crime. The Banner County of East Texas,

For variety and fertility of soils.

A vast forest of native woods, adapted to the manufacture of all grades and styles of furniture, vehicles and agricultural implements. Walnut, White Oak, Linn, Ash, Hickory of every variety, Post Oak, Cypress, Long and Short Leaf Pine, Curley Pine. Holly, Beach, Cherry, Magnolia and every other s cies of timber found in the woods of East Texas.

Houston County Took the Gold Medal

at the Fort Worth Spring Palace in 1890 for its magnificent display of timbers. The North-eastern, Northern and North-western sections of the County are rich in Iron ores of the Laminated and Brown Hematite varieties. Unlawful to get drunk. Fine Soils of every variety to be found in the state are to be found in Houston County, from the black waxy to the light sandy.

The Railroad Facilities of the County

Unlawful to disturb religious are splendid. The International & Great Northern runs through it directly North and South. The Trinity & Sabine belts it on the South; the Houston, East & West Texas on the East and the Kansas & Gulf Short Line on the North, thus affording to every section of the County easy and rapid means of transportation to and from market. Besides these two other lines are surveyed and projected through the County, running in a North-westerly and South-easterly direction. twenty-five nor more than one hun-Rivers, Creeks and streams of living water abound, furnishing through the dryest summers an abundance of pure, fresh water. The Trinity River is the County's boundary of the West and the Neches on the East.

The County School fund is perhaps

te Largest in the State

reaching the splendid sum total of \$70,000, from which is annually derived for available use in maintaining the schools of the County from four to five thousand dellars. This added to the amount raised by local taxation and that bestowed by the State furnishes the princely sum of thirty thousand dollars spent annually on the free schools of the County The population of the County is

-20,000 AND LARGELY WHITE .-

All denominations of Christians have organizations in the County.

FRUITS AND VEGETABLES

of every kind are produced here and the County yields to none in the State in adaptability of soils to the growth for market of peaches, pears, figs, plums spricots, grapes and alvarieties of berries.

The -: - Climate

and soil combine to make the growing of early fruits and vegetables for market easy and profitable. The proximity of large cities joined as they are to us by rapid transportation conveniences encourages the belief that in the near future the soils of Houston County along and adjacent to the I. & Gt. N. R. R., will be in great demand for early vegetable and fruit raising.

-: The Schools of Houston County:-

are unsurpassed by any in the State, in respect of efficiency and competency of Cachers, standard of scholarship and duration of free term. Its own unsurpassed permanent School Fund supplemented from other sources enables us to come nearer fulfilling the constitutional requirements of a six-months term than any other county. The debt and tax-rate of the County are almost nominal,

Its climate is mild and healthful, the temperature never reaching extremes in either Summer or Winter, Its water supply for both domestic use and manufacturing purposes is unexcelled. Springs and streams of never failing water are to be found in every section of the County. Running through the County in every direction are ever-flowing streams of water of the finest kind, and of such volume and power as to be very valuable for manufacturing purposes. No County in Texas can boast of as many

The area of the County embraces nearly seven hundred thousand acres of land, of which not more than one hundred and twenty-five thousand are in cultivation.
