The Banner County of East Texas.

For variety and fertility of soils.

A vast foof native woods, adapted to the manufacture of all grades and styles of furniture, vehicles and agricultural implements. Walnut, ite Oak, Linu, Ash, Hickory of every variety, Post Oak, Cypress, Long and Short Leaf Pine, Curley Pine. Holly, Beach, Cherry, Magnolia and every of cies of timber found in the woods of East Texas.

Houston County Took the Gold Medal

at the Fort Worth Spring Palace in 1890 for its magnificent display of timbers. The North-eastern, Northern and North-western sections of the County are rich in iron ores of the Laminated and Brown Hematite varieties. Soils of every variety to be found in the state are to be found in Houston County, from the black waxy to the light sandy.

The Railroad Facilities of the Count

are splendid. The International & Great Northern runs through it directly North and South. The Trinity & Sabine belts it on the South, the Houston, East & West Texas on East and the Kansas & Gulf Short Line on the North, thus affording to every section of the County easy and rapid means of transportation to an from market. Besides these two other lines are surveyed and projected through the County, running in a North-westerly and South-easterly direction. Rivers, Creeks and streams of living water abound, furnishing through the dryest summers an abundance of pure, fresh water. The Trinity River is the County's boundary of

the West and the Neches on the East.

The County School fund is perhaps

are unsurpassed by any in the State, in respect of efficiency and competency of teachers, standard of scholarship and duration of free term. Its own unsurpassed permanent School Fund supplemented from other sources enables us to come nearer fulfilling the constitutional requirements of a six-months term than any other county. The debt and tax-rate of the County are almost nominal.

Its climate is mild and healthful, the temperature never reaching extremes in either Summer or Winter. Its water supply for both domestic use and manufacturing purposes is unexcelled. Springs and streams of never failing water are to be found in every section of the County. Running through the County in every direction are ever-flowing streams of water of the finest kind, and of such volume and power as to be very valuable for mannfacturing purposes. No County in Texas can boast of as many such streams. The medical qualities of some of these springs are highly prized by the invalid and health-

seeker. The area of the County embraces nearly seven hundred thousand acres of land, of which not more than one hundred and twenty-five thousand are in cultivation. We have as stated above every kind of soil to be found in the State. The black waxy, the chocolate, the red the loamy, the sandy and quite a number of others.
