Reporter. with disrespect then as at any later Round

Though quiet and most amiable he had great pluck and determination. I remember that in one of our convivial meetings we had the laugh upon him for some cause, an occurrence so rare that the bantering was carried too far. After bearing it awhile Hawthorne singled out the one among us who had the reputation of being the best pugilist, and in a few words quietly told him that he and there was so much of danger in his eye, that no one afterward allud--ed to the offensive subject in his pres-This characteristic was notably displayed several years later, when a lady incited him to quarrel with one of his best friends on account of a groundless pique of hers. He went to Washington for the purpose of challenging the gentleman, and though ample explanations were made, showing that his friend had of four miles an hour the other afterbehaved with entire honor, it was with difficulty that Pierce and Cilley, who were his advisers, could persuade him to be satisfied without a fight. The lady had appealed to him to reall the passengers and everybody dress her fancied wrongs and he was sprang up. Among them was a too chivalrous to decline the service. motherly looking woman, with a Hawthorne, with rare strength of dozen eggs in a basket. After she character, had yet a gentleness and had ascertained what had happened unselfishness which endeared him she sat down and remarked greatly to his friends. Even

The syntax is at once provokingly elaborate and perplexingly obscure. It possesses fifteen distinct cases and four and twenty differentiated infinitive forms, but on the other hand there is no real distinction between nouns, adjectives, adverbs, prepositions, infinitives and participles, so that the student must not be startled by finding infinitives regularly de-

clined like nouns, and nouns taking upon them degrees of comparison like adjectives. -- Anthenaum. The Job Was Done. It was a big Fairfield rooster and he regularly patrolled the track of the Waterville and Fairfield horse

railroad Half a dozen times each day the drivers would halt their cars in order to allow the perverse fowl to stalk serenely off the track. In time the rooster became a sort of railroad specter, and he was talked about around the stables with particularly lively hatred. One day a substitute driver took a

car for a trip. When he returned to the stable his face beamed with exultant malice and he proudly announced. "I've killed that dad-quiz zied old rooster; cut his head plum off, got him right and run over him on purpose."

This was pleasant until the new driver heard the sequel. The trouble some old rooster belonged to his father, and he found the family lament ing when he went home to dinner. He had been away from home for a few months, and was not posted upon the personnel of the old gentleman's

poultry stock -- Lewiston Journal. CURES RHEUMATIS A Horse's Attachment to a Companion Two Hanoverian horses had long served together during the Peninsular war in a German brigade of artillery. They had assisted in drawing the same gun, and had been inseparable companions in many battles. One of them was at last killed, and after the engagement the survivor was pick eted as usual and his food brought to him. He refused, however, to eat, and was constantly turning around his head to look for his companion, sometimes neighing as if to call him. All the care that was bestowed upon him was of no avail. He was surrounded Druggina, Lipy man's Flock, BAVARNAH, GA by other horses, but he did not notice them, and he shortly afterward died, not having once tasted food from the

time his former associate was killed -London Tit-Bits. The Cutty.

It is not generally known that the word cutty, as applied to a species of clay pipe very much used, is a corruption of Kutaich, a city in Asia Minor, where a species of soft white stone is found, which is exported by the Turks to Germany for the manufacture of tobacco pipes .- All the Year Round.

Health Item

eaching the splendid sum total of \$70,000, from which is annually derived for available use in maintaining the schools of the County from four to five thonsand dollars. This added to the amount raised by local taxation and that bestowed by the State furnishes the princely sum of thirty thousand dollars spent annually on the free schools of the County. The population of the County is 20,000 and largely white.

THE

fevery variety are produced here and the County yields to none in the State in adaptability of soils to the growth for market of peaches, pears, figs, plums, apricots, grapes and berries.

Houston County's Schools

are unsurpassed by any in the State, in respect of efficiency and competency of teachers, standard of scholarship and duration of free term. Its own unsurpassed permanent School Fund supplemented from other sources enables us to come nearer fulfilling the constitutional requirements of a six-months term than any other county. The debt and tax-rate of the County are almost nominal. Its climate is mild and healthful, the temperature never reaching extremes in either Summer or Winter. Its water supply for both domestic use and manufacturing purposes is unexcelled. Springs and streams of never failing water are to be found in every section of the county.

County Products

are cotton, corn, oats and other small grain, sorghum, ribbon fruits and vegetables of every variety, hay, and in some places rice et-
