continuing to address them as boy Its Advantages and Attractions for the Mar of Capital and the Home-Seeker.

For variety and fertility of soils. A vast forest of native woods, adapted to the manufacture of all grades and styles of furniture, vehicles and agricultural implements. Walnut, White Oak, Linn, Ash, Hickory of every variety, Post Oak, Cypress, Long and Short Leaf Pine Curley Pine, Holly, Beach, Cherry, Magnolia and all other species of timber found in the woods of East Texas.

Houston Co. took the Gold Medal

At the Fort Worth Spring Palace in 1890 for its magnificent display of timbers. The North-eastern, Northern and North-western sections of the County are rich in iron of the Laminated and Brown Hematite varieties. Soils of every variety to be found in the state are to be found in Houston County, from the black waxy to the light sandy.

The Railroads of the County

are splendid. The International & Great Northern runs through it directly North and South. The Trinity & Sabine belt on the South, the Houston, East & West Texas on the East and the Kansas & Gulf Short Line on the North, thus affording to every section of the County easy and rapid means of transportation to and from market. Besides there are two other lines surveyed and projected through the County, running in a North-westerly and South-easterly direction. Rivers, Creeks and streams of living water abound, furnishing through the dryest summer an abundance of pure, fresh water. The Trinit River is the County's boundary on the West and the Nechas on the custom of bride chasing is quite com- and Scottish silver coins. There was thinking of nothing. At such times. Druggles thought School fund is perhaps the

reaching the splendid sum total of \$70,000, from which is annually derived for available use in maintaining the schools of the County from four to five thousand dollars. This added to the amount raised by lo cal taxation and that bestowed by the State furnishes the princely sum of thirty thousand dollars spent annually on the free schools of the County. The population of the County is 20,000 and largely white

FRUI S AND VEGETABLES

of every variety are produced here and the County yields to none in the State in adaptability of soils to the growth for market of peaches, pears, figs, plums, apricots, grapes and berries.

Houstn Cunty's Schools

are unsurpassed by any in the State, in respect of efficiency and competency of teachers, standard of scholarship and duration of free term. Its own unsurpassed permanent School Fund supplemented from other sources enables us to come nearer fulfilling the constitutional requirements of a six-months term than any other county. The debt and br. WARD & CO., 117 H. 8th St., St. Louis, Me. tax-rate of the County are almost nominal. Its climate is mild and healthful, the temperature never reaching extremes in either Summer or Winter. Its water supply for both domestic use and manufacturing purposes is unexcelled. Springs and streams of never failing water are to be found in every section of the county.

County Products

are cotton, corn, oats and other small grain, sorghum, ribbon camfruits and vegetables of every variety, hay, and in some places rice etc

the county seat of Houston County, is situated on the I. & G. N. R. N. It has a population of 2000. The people of the town have recently voted to take charge of its schools and support them by taxation, nine months in the year. The City Council have assumed control and established graded schools for both white and black. Handsome and commodious brick school buildings with all the modern appointments are under construction. The town is destined to become the education-
