non-union men had commenced work in the mins complaints became prevalent about the unwholesome water supplied. Many cases of sickness were reported and all attributed to the impure water. So firmly impressed were the pysicians and officials of the company that the water was causing the sickness that a sup- Ledger, to Mayor Stuart: ply from other sources was secured and notices posted conspicuously warning employes to refrain from drinking the water. Despite these precautionary measures the sickness continued and soon it became current at Homestead that an epidemic was inclosure. A number were taken to hospitals for treatment and nearly all recover although many are still ill. A representative of the state board of health made an official investigation. He found the sanitary arrangements good, and attributed the sickness to the water. The first intimation the officers of the company had that the diagnesis of the physi,
