Entered at the Post-Office in Crockett, Texas, as Second-Class Matter.

Subscription Price, \$1.50 Per Year.

W. E. PAGE, Editor.

FRIDAY, MAY 19, 1893.

PROFITS OF AN OIL MILL.

We published last week a summary showing what the Rockdale Oil Mill did the first year of their operation. Besides a large amount invested in betterments and improvements they declared a splendid dividend. An analysis of their operations shows that they didn't handle exceeding a hundred and twenty thousand bushels of seed, from which they expressed 91,000 gallons of oil and sold 784 tons of meal and 570 tons of hulls.

A mill with the capacity of crushing 20 tons per day with machinery power for all possible future increase of business would seem to be all that is necessary at present for the Crockett mill.

A convincing evidence of the profits in such business is to be found in the fact or facts that nearly every town in the state the size of Crockett, and many smaller, have gone or are going into the business. Even Beville and Golind are putting up oil mills.

This Fellow Built a Storm House. ATLANTA, Ga., May 10.—Bob Paterson of Bright Star had a close call last night. He had, like many others, recently built a storm house. Last Saturday night a heavy wind and rain came up and Mr. Paterson proceeded to occupy his pit for the first time. As he stepped into the pit he was terrified to feel the bottom give away and he was precipitated eighteen or twenty feet to the bottom of an old well which had been filled up and forgotten years ago.

Stock in the oil-mill continues to be taken and our people are beginning to see that the investment is a good one. Subscribers since our last issue are J. K. Chandler for \$500; Rev. J. B. Smith who had already taken \$500 has increased his subscription to \$1000 and R. T. Murchison who had taken \$100 increased his to \$250. There are others who will take more stock. See the call for a meeting signed by S. C. Arledge, Pres't pro tem, and A. H. Wootters, Sec'y pro tem, published elsewhere. Amount of stock subscribed to date \$17,000. About \$2,000 more is necessary.

Notice to Stockholders. All subscribers to stock in the Houston County Oil Mill are hereby notified that there will be a meeting of said stockholders on Friday, May 26th, at 4 p. m.

The City Council decided to close the city schools this week. The session then will be made two weeks shorter. The reason for doing so is based on a strictly business principle—to put the school on a safe cash basis. Everything will be in first-class shape for the beginning next fall and a full nine months' term will be inaugurated, with a full corps of teachers and in a condition to pay cash to every teacher as the salaries become due.

The Farmers Alliance it seems to be succeeded or supplemented by a new organization—called the Farmers' Association. Lecturers are now organizing clubs, one being organized last week in the northern part of the county.

GROVER AND CRISP.

The Tax on State Banks is Going and the Income Tax Coming. WASHINGTON, May 12.—Special.] Ex-Speaker Crisp called on the president several days ago, as noted before, and remained to dinner with Mr. Cleveland and Mrs. Cleveland. No other persons were present and there were no swallow tail coats or other evidence that it was any but a home affair. Mr. Crisp spoke freely to the news-correspondent to day in regard to it and expressed his general admiration not only for Mr. Cleveland as a president but as a domestic man.

What does the president think of the proposition? The correspondent asked, and he replied: "I do not know how he stands on all of them, but he certainly is in favor of a reduction of the tariff and the repeal of the 10 per cent state bank tax."

That is a subject he is giving a most serious thought. I cannot state how he stands on it, but a few days ago a congressman who is a strong believer in it and who was a farmer's candidate besides being a democrat, called on him and had a long talk with him on the income tax. This congressman carried with him a speech on the income tax delivered by Robert Reed from which he quoted. Mr. Cleveland was much interested and stated that as the book containing the speech was not in the white house library he would like for the congressman to leave him his copy for inspection, which was done.

Further Proceedings of the Commissioners' Court. Court and Court House Notes. One hundred and sixty dollars were allowed for paupers. N. Fant's note for \$2000 due May, same being purchase money for school lands, came up on petition of N. Fant for extension of time. He was granted till May, 1894 to pay same.

The road leading from Lovelady and Holly road, four miles east of Lovelady was ordered abandoned. Petition of W. F. Hunt and others for new road was rejected. Road from Coltharp to Pennington was ordered changed as per petition. Leave was granted County Judge to leave county at any time, not to exceed thirty days.

On a Cash Basis. The City Council decided to close the city schools this week.

The order for levying tax for sinking fund and interest on Court House bonds was revoked and a tax of five cents on the hundred dollars levied to create a sinking fund to liquidate court-house bonds. Also a tax of 10 cents on the hundred dollars was levied for road and bridge purposes.

Mr. H. W. Moore of your city dealt out legal lore before the Justice court last Saturday. Miss Ora Anthony has been quite sick this week but we are glad to state that she is better. Mr. Norris left last week for Georgia with his little boy, an infant, whom he takes back to his family to care for.

Several of our townsmen attended the "picnic" on Ioni last Friday. They report a splendid good time. Work will begin on the New Hotel about 15th of next month; material is being laid on the ground now and it promises to be a splendid building.

LOVELADY.

Lovelady is still in the ring and while we are not on any boom, we are steadily marching on and improvements continue to go up. J. A. Monday and Judge R. T. Payne have made new houses out of their old ones and have them artistically painted which gives that part of the town quite an improved appearance.

Dr. Tom Sherman's new residence is nearing completion and will when finished be quite an addition to that part of the city. Prof. Sam Karrington and his bride (formerly Miss Sallas) now occupy the residence lately occupied by the family of G. B. Lunday.

The Ladies' Aid Society of the Baptist Church have recently presented their church with a new organ. The Ladies Aid Society of the Methodist Church assisted by the members of the Presbyterian Church, have made up the money to pay for a new organ which has been ordered and is expected to be here in a few days.

Health is good in this community. We have had but one death and that was a doctor who perished to death and more expected to go the same way. We think short crops last year was a great advantage to this locality. I think it will make good farmers out of hunters, fishermen and ex-candidates. I notice nearly all hunters are offering to trade their guns for farming tools.

Some are chopping out cotton and some are not done planting yet. We are having plenty of rain now. Mr. Ike Murchison paid Creek a visit. Dr. W. J. Bever has returned from Galveston where he has been attending the Medical Association. A class will go from Creek to the singing convention. Miss Beaver will at the close of her school here give a closing exercise of singing and speeches by her scholars.

SHILOH'S VITALIZER is what you need for Dyspepsia, Torpid Liver, Yellow Skin or Kidney Trouble. It is guaranteed to give you satisfaction. Price 75c. Sold by J. G. Haring. Lost, strayed or stolen. From my pasture last week one small bay mare mule, about 12 years old, gear marks on each side and shoulders, had when left a small bell with raw-hide collar. Will pay \$5.00 for her return.

GRAPELAND. A very heavy rain fell here yesterday. The farms are flooded and too wet to work. If it continues much longer crops will be in a bad shape. Miss Mollie Duren of Crockett is in the city this week visiting Miss. Cora Martin. Messrs Jesse Duren and Robt. Aldrich were in town last Saturday attending court. Mr. Chas. Stokes called upon his many friends this week. He makes many inquiries as to what people own and possess.

WE TELL YOU. Nothing new when we state that it pays to engage in a permanent, most healthy and pleasant work, that returns a profit for every day's work. We teach them how to make money rapidly, and guarantee every one who follows our instructions faithfully the making of \$200.00 a month.

DR. C. O. WEBB, DENTIST. Over Shivers building North side of public square. CROCKETT, TEXAS. J. L. & W. C. LIPSCOMB, Physicians and Surgeons, CROCKETT, TEXAS.

The school will give a nice little entertainment at its close which will be about 10th of June. The health of our community is at present very good. KEYSER. Hacks and Buggies. If you want a new buggy or hack, I have them now in stock and at low prices. J. R. FOSTER, Agent.

IN MEMORIAM.

The angel of death has been here and carried away a jewel from our home, a vacant chair is around our hearthstone and we with hearts almost breaking are left on the shore to which she can never return but we can meet her in the city of the new Jerusalem. Mrs. Eva J. Rodgers, daughter of W. J. and M. H. Harkins, was born near Coltharp, Houston county, Texas, Aug. 5th, 1870; was married to Mr. W. T. Rodgers June 5th, 1892 and quietly passed away at her father's home at Tacomar, April 29th, 1893. She was buried at Old Zion by the side of her infant that was buried there a few days before her death. As a daughter she was loving and affectionate, as a sister she was kind and obedient, as a wife she was faithful and devoted and as a friend she was true and unchangeable. And now as darling Eva has passed over the river we must remember that she is not dead but is on the other shore waiting and watching for us. We bid her Eva farewell, for a while she is gone but not for ever.

Dearest sister that art left, Here thy loss we deeply feel; But 'twas God who hath bereft us, He can all our sorrow heal. Yet again we hope to meet thee, When the day of life has fled, And in heaven we hope to greet thee, Where no farewell tear is shed. —J. T. HARKINS.

CREEK.

Health is good in this community. We have had but one death and that was a doctor who perished to death and more expected to go the same way. We think short crops last year was a great advantage to this locality. I think it will make good farmers out of hunters, fishermen and ex-candidates. I notice nearly all hunters are offering to trade their guns for farming tools. There has been a good deal of corn planted and most of it in good fix. Some are chopping out cotton and some are not done planting yet. We are having plenty of rain now. Mr. Ike Murchison paid Creek a visit. Dr. W. J. Bever has returned from Galveston where he has been attending the Medical Association. A class will go from Creek to the singing convention. Miss Beaver will at the close of her school here give a closing exercise of singing and speeches by her scholars.

SHILOH'S VITALIZER is what you need for Dyspepsia, Torpid Liver, Yellow Skin or Kidney Trouble. It is guaranteed to give you satisfaction. Price 75c. Sold by J. G. Haring. Lost, strayed or stolen. From my pasture last week one small bay mare mule, about 12 years old, gear marks on each side and shoulders, had when left a small bell with raw-hide collar. Will pay \$5.00 for her return.

"German Syrup"

My acquaintance with Boecher's German Syrup was made about fourteen years ago. I contracted a cold which resulted in a hoarseness and cough which disabled me from filling my pulpit for a number of Sabbaths. After trying a physician, without obtaining relief, I saw the advertisement of your remedy and obtained a bottle. I received quick and permanent help. I never hesitate to tell my experience. Rev. W. H. Haggerty, Martinsville, N. J.

LANE'S MEDICINE

The BEST MOODING, STIMULATING AND TONIC. It acts upon the stomach, liver and bowels, and gives a general tonic to the whole system. LANE'S MEDICINE is a perfect Baby Health.

Perfect Baby Health

ought to mean glowing health throughout childhood, and robust health in the years to come. When we see in children tendencies to weakness, we know they are missing the life of food taken. This loss is overcome by

Scott's Emulsion

of Cod Liver Oil, with Hypophosphites, a fat-food that builds up appetite and produces flesh at a rate that appears magical. Almost as palatable as milk.

W. L. DOUGLAS \$3 SHOE

Do you wear them? When need is truly, they give you more comfort and service for the money than any other shoe. Best in the world.

WORLD'S EXPOSITION

SCENES OF ACTIVITY IN THE GREAT WHITE CITY.

Street in Cairo Faithfully Reproduced on Midway Plaisance—Mosaics and Minaret—Pagners and Dancers Girls Galore—Turkish Geogues.

Y FEAR THE MOST interesting group of foreigners at the World's Fair Grounds is that which took up its abode on the midway plaisance the other day. It came all the way from the territory of the Nile. The principal members of the group are from Cairo. They came to occupy the Egyptian city which for a year had been in course of construction at the fair grounds. The street in Cairo is faithfully reproduced in every particular, including the theater and hotel. The Egyptians are 148 in number, thirty-two of them being women, who

A BIG LIBERTY BELL

It will be Made of Historic Metal for the Fair.

Arrangements have been completed here for the casting of the great Liberty bell for the World's Fair. It will be made of metal with which will be mixed gold, silver and precious stones of various kinds.

for the bell. Miss Lulu Gordon has secured a silver spoon used by John C. Calhoun. Alfred H. Love, President of the Union, has given a silver knife, once the property of George Washington.

THE LIBERTY BELL

Station. The bell will be rung for the first time July 4, under the supervision of the Board of Lady Managers, in whose care it will remain while in Chicago. At the close of the exposition, the bell will be taken to Washington, where it will be in the keeping of the Society of the Daughters of the American Revolution.

TO MEASURE A RIVER

Anybody can measure, approximately, the breadth of a river without a surveyor's compass or any mechanical means whatever. The man who desires to make the experiment should place himself at the edge of the stream, then stand perfectly still, face the opposite bank and lower the brim of his hat until it just touches the opposite bank.

LONGSTRETCH BAR LOBBES

Mr. Charles Hase, in the course of a paper descriptive of the highlands of the West, which he read before the Geographical Society recently, gave an account of the practice among the native mothers of slaking high rings through their daughters' ears at the age of eight months up, eventually increasing them to the weight of two pounds each. By the time, in fact, that a girl has come to maturity her ears reach almost to her elbows, and Mr. Hase has seen one put her head through one of these elongated ear lobes.

FOR THE TOP OF A TUNIS MINARET

theater where the dancers will be seen in their sensuous movements. Two tall Arabs are now at work in a hot room of one of the buildings, chiseling intricate designs in plaster of Paris for the windows of the more pretentious houses. They wear their blue caps that fall to the floor when they bow to the easels to avoid a young Carpenter for his mismanagement of the stove. Much of the master's used in the construction of the village was taken from buildings in Egypt, the white work of the windows being

orient rare, and in richness as the world of Ormus. The piece measures fifteen yards and is made of a fine silk with a pattern of commercial fabric. The ground of the fabric is black, but is only in rare spots and designs, and designers permit it to manifest itself. Over the somewhat hairy and fibrous ground are vines and flowers in shimmering opalescent shades.

ABOUT NEW DRESS FABRICS

Figured, short and striped effects are added to the plain ribbed textiles of a year ago. Some have satin stripes in rich colors about two inches apart. Noticeable also among the handsome importations is a very light weight of shaggy tweeds, chevrons, and camel's hair goods which, on account of their delicate quality, are rendered most desirable for stylish yet serviceable spring costumes for walking and traveling.

THE MODISH SLEEVES

The modish sleeves of the moment differ only in these respects from those that have been the vogue for some time past. They drop instead of standing erect at the shoulder, and are fuller and broader. As to general shape, they remain the same. For example, the sleeve with the upper portion a huge puff and the lower portion a close-fitting cuff is as much in vogue as ever, although not so high is more pronounced than ever.

HELPING THE CAUSE

Mamma—Did you put that dollar in the contribution box to-day? Mamma—You said you wanted it for the heathen. Mamma—Yes, but one dollar wouldn't do much good. I'm going to send them a whole lot of Bibles.

ONE OF THE LATEST WRITERS

were rampant and no better than they were above the elbow. These sleeves are, by the way, at the present moment in special favor with those who are wearing the new blouse. They are used together for the bodice wraps, either like the suit which has been worn of late, or the blouse which is a more graceful sleeve than the one with the big balloon-like upper portion. Especially good for the satin sleeve that is in vogue is the modification of the leg o'mutton shape.

BLACK VERY MUCH THE MODE

Black is exceedingly fashionable this season, but fortunately for many not exclusively so. Black is in very many cases eminently and undeniably becoming. Black suits for both women and ways "complimentary." Black in other rich fabrics, like brocade and striped silk, jet or velvet trimmed, is likewise most becoming. In other instances, however, it proves very much the reverse, being frequently far more uncomplimentary in its effect. It is in colors, for, while eminently refined and ladylike as a dress, it has in scores of instances a tendency to accentuate paleness or sallowness, to give a decidedly gray tinge to a colorless complexion and to add years to the wearer's appearance.

THE HUMAN FORM DIVINE

The human form divine is now made by the dressmaker. A few months ago all women had shoulders square and broad, and also in width any previous announcement or the vouching of any reason, as it were, in the twinkling of an eye all this was changed. The human form in the fashionable world, each and every one of them, dropped quite as if they had been struck by lightning.

A SOUTH DAKOTA COURT

A South Dakota court is trying a liquor case which involves the question of the state boundary line. The channel of the Missouri river has shifted since the line was surveyed and the defendant declares that his saloon is situated on a strip of ground that is not within the jurisdiction of either state.

CHINESE LEAD

A German authority says that almost a third of humanity speak the Chinese language; that the Hindoo language is spoken by more than 100,000,000, the Russian by 89,000,000, while the German is spoken by 87,000,000 tongues and the Spanish by 48,000,000.

BLACK VERY MUCH THE MODE

Black is exceedingly fashionable this season, but fortunately for many not exclusively so. Black is in very many cases eminently and undeniably becoming. Black suits for both women and ways "complimentary." Black in other rich fabrics, like brocade and striped silk, jet or velvet trimmed, is likewise most becoming. In other instances, however, it proves very much the reverse, being frequently far more uncomplimentary in its effect. It is in colors, for, while eminently refined and ladylike as a dress, it has in scores of instances a tendency to accentuate paleness or sallowness, to give a decidedly gray tinge to a colorless complexion and to add years to the wearer's appearance.

THE HUMAN FORM DIVINE

The human form divine is now made by the dressmaker. A few months ago all women had shoulders square and broad, and also in width any previous announcement or the vouching of any reason, as it were, in the twinkling of an eye all this was changed. The human form in the fashionable world, each and every one of them, dropped quite as if they had been struck by lightning.

A SOUTH DAKOTA COURT

A South Dakota court is trying a liquor case which involves the question of the state boundary line. The channel of the Missouri river has shifted since the line was surveyed and the defendant declares that his saloon is situated on a strip of ground that is not within the jurisdiction of either state.

CHINESE LEAD

A German authority says that almost a third of humanity speak the Chinese language; that the Hindoo language is spoken by more than 100,000,000, the Russian by 89,000,000, while the German is spoken by 87,000,000 tongues and the Spanish by 48,000,000.

NOTES OF THE MODES

LOVELY WOMAN DONS HER SPRINGTIME STYLES

Some Fair Features of the Latest Things for Feminine Wear—The Cozy, Greater Grades for the Wealthy—Other Novelties.

The New Grandees.

There are grandees, you there is not one piece of prize grandee in all New York. It is imported from India presumably, and is called Indian and its colors are the "barbaric pearls of green."

A GEMMINE GOWN

orient rare, and in richness as the world of Ormus. The piece measures fifteen yards and is made of a fine silk with a pattern of commercial fabric. The ground of the fabric is black, but is only in rare spots and designs, and designers permit it to manifest itself. Over the somewhat hairy and fibrous ground are vines and flowers in shimmering opalescent shades.

ABOUT NEW DRESS FABRICS

Figured, short and striped effects are added to the plain ribbed textiles of a year ago. Some have satin stripes in rich colors about two inches apart. Noticeable also among the handsome importations is a very light weight of shaggy tweeds, chevrons, and camel's hair goods which, on account of their delicate quality, are rendered most desirable for stylish yet serviceable spring costumes for walking and traveling.

Noticeable also among the handsome importations is a very light weight of shaggy tweeds, chevrons, and camel's hair goods which, on account of their delicate quality, are rendered most desirable for stylish yet serviceable spring costumes for walking and traveling.

THE MODISH SLEEVES

The modish sleeves of the moment differ only in these respects from those that have been the vogue for some time past. They drop instead of standing erect at the shoulder, and are fuller and broader. As to general shape, they remain the same. For example, the sleeve with the upper portion a huge puff and the lower portion a close-fitting cuff is as much in vogue as ever, although not so high is more pronounced than ever.

HELPING THE CAUSE

Mamma—Did you put that dollar in the contribution box to-day? Mamma—You said you wanted it for the heathen. Mamma—Yes, but one dollar wouldn't do much good. I'm going to send them a whole lot of Bibles.

ONE OF THE LATEST WRITERS

were rampant and no better than they were above the elbow. These sleeves are, by the way, at the present moment in special favor with those who are wearing the new blouse. They are used together for the bodice wraps, either like the suit which has been worn of late, or the blouse which is a more graceful sleeve than the one with the big balloon-like upper portion. Especially good for the satin sleeve that is in vogue is the modification of the leg o'mutton shape.

BLACK VERY MUCH THE MODE

A German authority says that almost a third of humanity speak the Chinese language; that the Hindoo language is spoken by more than 100,000,000, the Russian by 89,000,000, while the German is spoken by 87,000,000 tongues and the Spanish by 48,000,000.

Housekeepers Should Remember

The Government Chemists, after having analyzed all the principal brands of baking powder in the market, in their reports placed the "Royal" at the head of the list for strength, purity and wholesomeness; and thousands of tests all over the country have further demonstrated the fact that its quality are, in every respect, unrivaled. Avoid all baking powders sold with a gift or prize, or at a lower price than the Royal, as they invariably contain alum, lime or sulphuric acid, and render the food unwholesome.

Patent Postage Stamp

About the last thing that one would think of patenting seems to be a postage stamp, but a bright Virginian has thought of that, and patented a device for one, too. The idea is simple enough. It is merely this: Discontinue the manufacture of stamps of an odd denomination, and let the even denominations—2 cent stamps, for instance—be composed of two small 1 cent stamps, perforated down the middle, with the 2 over the perforated line. Then you buy only 2 cent stamps, and when you want a 1 cent stamp separate a 2. The two stamps as a unit are not as large as one of the Columbian stamps now in use. With these stamps it is an easy matter to make the proper change. It will also prove much more economical to the government, for it will reduce the contracts one-half.

An Old Soldier

Nicior Balliol, one of the few surviving veterans of the French army at Waterloo, has just celebrated his 100th anniversary in his native village in the Yonne. His first fight was in the Prussian campaign under Marshal Davoust, and took part in the siege of Hamburg. On the retreat from Moscow he withdrew with the rest of his regiment to Belgium.

I Cure Constipation and Dropsy

Dr. Sheep's Restorative Nerve Pills sent free with Medical Book, "What to do About Constipation, Dropsy, Biliousness and Indigestion." Dr. Sheep's Restorative Nerve Pills sent free with Medical Book, "What to do About Constipation, Dropsy, Biliousness and Indigestion."
