The Debate in the Senate Will Be Spun Out
By the Silver Men.

PROPOSED AMENDMENT TO GEARY LAW.

Iron-oremen Charge Cattle and the Secondary Question Will Be by the Texas-Mexican Commission.

WASHINGTON, Sept. 12.—There is a good deal of speculation as to how long the debate on the repeal bill now in progress will last. It is generally expected that thirty senators have arranged to speak and that besides these ten or a dozen others may decide to take a hand before the conclusion of the debate. Should this be true it is more than probable that the matter will be flying before the matter is settled. Even if a compromise is ultimately agreed upon, a final vote will not be taken earlier than the 1st of October. The silver senators will insist that a vote cannot be reached at all without a cloture rule. Under the rules of the senate there is no provision whatever for shutting off debate and it is not probable that such rules will be adopted now.

Cleveland Will Not Compromise.

WASHINGTON, Sept. 11.—President Cleveland absolutely refuses to grant any concession in the silver fight. More than this, he will not promise to agree to any recognition of silver even should the repeal bill be passed by congress. This is the sum and substance of his position as reported by the senators who had conferences with him Saturday. It has renewed the confidence of the friends of unconditional repeal, who assert their unwavering faith in the final passage of the measure. With the understanding that the president is upon a platform of unconditional repeal or nothing, the senators have settled themselves down for a long siege. In the meanwhile the Democrats in the senate who are concerned for their party will make a careful canvass and see if votes cannot be secured for some measure that will command sufficient votes to insure its passage.

They Must Go.

WASHINGTON, Sept. 11.—There appears to be little, if any, doubt that the present administration intends to enforce the Geary Chinese exclusion act, and in case the law is not enforced Yang Yu, the new Chinese minister to this country, will, it is said, withdraw to China. For the past three days he has been besieged with telegrams from Chinese subjects throughout the country asking for verification of the report that President Cleveland and his cabinet had decided to put the Geary act into effect. The Chinese Six Companies in San Francisco have been in communication with him ever since his arrival in Washington. The attorney general, it is stated, will instruct the United States marshals to enforce the law and bring every unregistered Chinaman in their districts to the designated ports of deportation.

Geary Law Amendment.

WASHINGTON, Sept. 12.—A bill amending the Geary law was introduced in the senate yesterday by Mr. Hoar, providing that the time for the registration of Chinese laborers now in the United States be extended three months after the passage of the proposed act. It also amends the law by repealing the portion requiring witnesses in law cases against Chinese to be white persons, so as to give the Chinaman accused of violation of the law the benefit of the full power of law. The bill continues in force the first six sections of the Geary act until a treaty can be made with China for the regulation of Chinese immigration.

Reservations to Be Opened.

WASHINGTON, Sept. 11.—The opening of two more Indian reservations is under consideration in the interior department with the conditions practically the same as those under which the Cherokee strip is to be opened. The opening of the Kickapoo reservation, in the Indiana Territory, has already been decided upon. The allotments are now being made. The next reservation to be opened, it is believed, is the Uncompahgre and Tushnet, in Utah. Each contains about 2,000,000 acres. In the latter valuable minerals are abundant, while each comprises rich farming land. The Colville reservation, in Washington state, will probably be opened to settlers early next year. This contains about 3,000,000 acres.

Mexican Sheep Case.

WASHINGTON, Sept. 12.—For the present the trouble growing out of the seizure of sheep by Mexican customs officials on what is claimed to be Texas soil is brought to an end. After Secretary Gresham and the president had several conferences over the matter an agreement was reached by which it was decided to authorize Major Keys to surrender to the Mexican officials. This will leave the sheep in possession of the owners. The question of definite location of the boundary line will, it is expected, be referred to the mixed commission.

Hearing Arguments.

WASHINGTON, Sept. 7.—The committee on ways and means yesterday morning heard arguments by manufacturers of bedsteads and upholsterers' hardware in favor of the retention of present duties on the above mentioned articles and a modification of duties on raw materials entering into them. A. J. Toomey, treasurer and secretary of the Columbia mattress company of New York, was next heard in the interest of the mattress industry of this country.

Boston Manufacturers.

WASHINGTON, Sept. 8.—Messrs. H. A. Knight of East Hampton, Mass., and N. Newell of Springfield, Mass., before the ways and means committee yesterday afternoon in behalf of the duty on buttons. C. W. Blabon, representing the manufacturers of cloth buttons, followed.

Bill of Congressmen.

WASHINGTON, Sept. 8.—When the senate met yesterday Mr. Cullon introduced a bill to repeal all acts providing for the creation or maintenance of a sinking fund.

ENDS HER EXISTENCE.

Mrs. Mary Newberry Charged With the Murder of Three Grand-Children Suiicides.

HUNG HERSELF WITH HER STOCKINGS.

Set Left a Message—A Crying Parson Has a Fight as the Way to Church—A Fisherman Drowned.

CLEBURNE, Tex., Sept. 12.—Mrs. Mary Newberry, who was tried here for the murder of her three grand-children, committed suicide Sunday night in her cell in the county jail by hanging herself with her stockings over the iron window shutter. Streams of people visited the jail to see the remains. She left no letter or word stating why she hanged herself. She was dressed in her night clothes, as though she had retired, and after ward concluded to end her existence. James Barnard, the son of Mrs. Mary Newberry, came down on receiving the telegram announcing her suicide. He carried her remains back to Joshua, where they were interred in the Caddo cemetery. He refused to sanction the post mortem examination of her brain. Hardly had the excitement over the suicide of Mrs. Newberry gotten to the point where a messenger came from the Robinson Branch neighborhood after Justice Wright to hold an inquest over a man named Maxon, who had killed himself by poisoning. It seems from reports that Maxon had attempted suicide before. The cause could not be learned.

Killed His Friend.

MINNOLA, Tex., Sept. 8.—Hase Finley was shot and instantly killed at the county convict farm near Quitman Wednesday night. The superintendent of the convict farm was expecting an attempt to be made to liberate some of the county convicts and had sent for Finley to come and assist in guarding the jail on the farm, and instructed him to come in the front way. From some cause Finley came to the back way behind the stockade or guardhouse. He was halted by Guard Williams, but Finley failed to stop. Williams then fired one barrel into the air and Finley then ran toward Williams, who fired again, killing Finley here. Williams thought he had killed one of the attacking party until the body was examined and found to be his friend Finley. Both Finley and Williams were raised in this county near Quitman.

Carless Sheriff.

TERRELL, Tex., Sept. 11.—Sheriff Love of Wood county, Tex., having in charge a man who had been adjudged insane in that county and ordered confined in the asylum at this place. He got as far as Willis Point with his charge without incident. At that place the sheriff got on the train to get his man some medicine, when the train pulled out, leaving his charge to travel to Terrell unattended. The sheriff telegraphed Marshall Keller to be on the lookout for a crazy man on the incoming train. On the arrival of the train the crazy man gathered his baggage together and alighted at the depot as one in full possession of his mental faculties. He was taken in charge by Marshal Keller until the sheriff arrived on the next train and took him over to the asylum.

A Crying Parson.

GAINESVILLE, Tex., Sept. 12.—Jim and John Bewly and Rev. D. G. Dudley became engaged in a difficult Sunday while on their way to church, a large pile of stones. Rev. Mr. Bewly was badly beaten up, and yesterday they were all three arrested. The two Bewlys are charged with aggravated assault and carrying brass knuckles, and the Rev. Mr. Dudley is charged with currying and fighting in a public place. They were all released on bond.

Fatally Hurt.

STEPHENVILLE, Tex., Sept. 8.—Dudley Newberry was terribly mangled Wednesday by his team running away. He was near town when the horses took fright. He was thrown from the wagon and overcame a large pile of stones. His skull was fractured, and his jaw bones broken. His physician has no hopes of his recovery.

Killed in the Act.

SEALY, Tex., Sept. 12.—Sunday night Joe Sillas fired two shots at a night Joe Sillas fired two shots at a night Joe Sillas was trying to get into his house. Yesterday morning barefoot track was found beneath the window and Paul Wilms was found dead near Sillas' house. A gunshot wound was in his back and he was barefooted.

Fisherman Drowned.

CORPUS CHRISTI, Tex., Sept. 12.—Yesterday a Greek fisherman known as McMorris was drowned in the bay at this place. He fell overboard from his boat while fishing and his body was found upright in the water near the boat.

Made Friends and Died.

WACO, Tex., Sept. 6.—Charles Nide died yesterday from the effects of wounds received in an affray a week ago. Before dying he sent for William Mitchell who was under bond to answer to the charge of firing the fatal shot and the two men made friends. Charles Nide died with his head on Mitchell's breast.

Charged With Forgery.

TILES, Tex., Sept. 12.—A. A. Simons, a colored politician of local note, was arrested here Saturday on a charge of having forged the name of R. H. Mitchell, another colored man, for \$25.

Cats Come High.

LAREDO, Tex., Sept. 11.—Dr. T. J. Turbin of his city, who shot and killed a stray cat in his back yard, was fined \$4.50 by the mayor for unlawfully discharging firearms in the city limits.

As Embarrassed Neighbor.

DALLAS, Tex., Sept. 3.—Thursday night one of the drivers of the Dallas Transfer and Cab company's horses carried a young woman from one of

FRIDAY, SEPTEMBER 15, 1893.

SENATOR COKE is reported to have made a magnificent speech on Monday against the repeal of the Sherman law.

THERE are men in all parties whose loyalty to party and country is measured by the depth to which they can plunge their arms in the pork barrel.

THERE are those who criticize Mr. Cleveland because they allege, he has repudiated the Chicago platform. Yet these same people criticized this same platform last year because, they alleged, it did not come out squarely in favor of free-coinage.

WOULD you believe it? The Third Party congressmen themselves split when the vote on the repeal of the Sherman act came round. What do you say to that, ye men, who have entered on a crusade to reform this country from Buzzard's Bay to Yuba Dam?

REVOLUTIONS, revolts, cyclones, tornadoes, collisions on land and sea, ships sunk with all on board, trains plunging through broken bridges, riots, famine, disastrous fires, epidemics, short crops, panics, bankruptcy—such is the record of 1893 and the end is not yet. The democrats, according to some people, are responsible for all these things.

MEMBERS of the last congress are very justly criticized for their extravagance with the people's money in voting each one of themselves a private secretary and paying for such services out of the public fund. About all that eight per cent of the congressmen can do while there is to perform just such service themselves.

THE democratic factions of Texas have got to get together or get licked. It is getting time too, for the unifying work to begin. What delays it? Waller Baker, the chairman of the regular organization, has declared in favor of a policy of conciliation and harmony. Other Hogg leaders have done the same. Some of the Clark leaders are equally pronounced in favor of such a policy. What says Chairman Matlock? Is he in favor of it? If so the time has come for him to let it be known.

Replying to an inquiry of the COURIER the Palestine Advocate says: The Crockett Courier is by these presents hereby assured that Hon. John H. Reagan is not a candidate for governor of Texas. This is semi-official as it were.

Very good as far as it goes. We have never suspected that the Judge was an open candidate. There is quite a difference, however, between not being an avowed candidate and yet willing to permit one's friends to use his name. We haven't a doubt that Judge Reagan would accept the nomination if tendered him.

It can not be denied that there is great distress throughout the country. This is true of several years past with a great many people. Yet there are those who are chronic complainers and growlers it matters not how the winds blow. They get in a habit of it and complain from sheer habit, even when they are doing well. We hear of a case in this county in point. The man sold his farm for \$1600 and had saved up from his earnings \$2400 more in money—a total of \$4000 in all. Yet this man's daily life was a tale of lamentation over hard times, "cussing" and kicking at the government, the democratic party and everything in sight.

Did the farmers of the country ever think of it? They are interested in getting cheap clothes, cheap shoes, cheap salt, cheap plow tools, cheap wagons, cheap table and kitchen ware etc. The men who make all these things want to make as much as they can on them and are interested in their selling high. The wool-grower wants a big price for his wool; the leather dealer and shoemaker want a big price for shoes and so on with the others. Now in such a conflict, contrary, contradiction and conglomeration of confounded and compounded interests how in the thunder can every class and everybody get on top and stay there in the embrace of mutual admiration, profit, contentment and esteem?

We can not believe that the level-headed, conservative-minded members of the Third Party endorse Stump 'Arby's' declaration in favor of a division of land every fifty years. Yet it has been several weeks since Ashby made this speech and we have yet to see a word from any Third Party man repudiating such a doctrine.

ONLY A SUGGESTION.

If one half the members in the House of Representatives at Washington would act as private secretaries for the other half the service rendered the country by them would be just as good or better than it is now, and besides, there would be a saving right there at one stroke of over a million dollars. As the COURIER doesn't circulate in that latitude, will some of the big dailies make the suggestion?

The Henderson County Times says: District court convened at Athens Monday morning, Judge A. B. Watkins on the bench. In due time the Judge delivered his charge to the grand jury, which was pronounced by those who heard it, as able and learned from beginning to end. During the week Judge Watkins has been dispatching business with a readiness that clearly demonstrates his fitness for the position. We predict a brilliant record for Judge Watkins during his term of office.

D. A. Nunn, Jr., is making this district a splendid district attorney. Talented, and always on the lookout, he is a terror to law-breakers.

How the Senate Stands.

The following poll of the senate on the repeal bill has been given out.

For repeal: Messrs. Against repeal: Messrs. Allen, Bate, Berry, Cockrell, Coke, Colquitt, Daniel, Duboise, George, Harris, Irby, Jones of Arkansas, Jones of Nevada, Kyle, Martin, Mitchell of Oregon, Peffer, Perkins, Pettigrew, Power, Pugh, Roach, Shoup, Stewart, Teller, Vance, Vest, Waller, White of California and Wolcott—30.

Culberson's Bill for Expansion of the Currency.

WASHINGTON, Sept. 6.—It seems to be certain now that the revenue under the present system of taxation will not be sufficient to meet the requirements of the government. If this be so it is very evident that a reduction of taxation as contemplated by the democrats will increase the deficiency. Something must be done to bridge over the chasm between the probable revenues to be derived under the democratic system and the expenses of the government until the democrats can get time to conform the taxation to the necessities of the government. It may also be said that no great amount of silver will be coined during this administration, nor will an income tax be adopted by this congress. In order to bridge over these difficulties and supply the volume of circulation as well as a needed increase of money, Mr. Culberson will introduce a bill substantially as follows: Section 1. Be it enacted, etc., that the secretary of the treasury be and he is hereby authorized and directed to have prepared for issuing \$200,000,000 of legal tender notes of like form and denomination as the legal tender notes issued under the act of 1872, commonly known as greenbacks. Sec. 2. That whenever a deficiency may occur during the present or next fiscal year by the reduction of taxation or otherwise, the secretary of the treasury is hereby authorized to supply such deficiency from such notes. Sec. 3. The notes which may be issued or paid out by authority of this act shall be redeemed in the same manner as the legal tender notes issued under the act of 1872 are now by law required to be redeemed, and when so redeemed may be reissued and kept in circulation, and for the purpose of such redemption the secretary of the treasury may strengthen the reserve fund from time to time from the current receipts of the government.

This is one of the many bills that will be offered for the expansion of the currency just as soon as congress gets through with the silver matter and settles down to the work of trying to do something to make up for the act wiping the Sherman law from the statute books. Mr. Culberson has been one of the chief silver men in this present fight and his proposed bill becomes of interest not only because of its contents, but because it may contain the ideas of the silver men on what should be done when the Sherman law is repealed and the conditions prevent silver legislation.

GRAPELAND.

The dry weather still continues and not a sign of rain occurs to cheer the thirsty soil.

Our school opened up this week, under the management of Prof. J. J. Joss formerly of Galveston, with most favorable prospects for the future. The trustees have secured the services of Prof. Paris of Huntville as assistant. These gentlemen come with high reputations as educators and we expect to have one of the best schools in the state. Several families are moving into town for the benefit of the school, among whom are Messrs. J. C. A. and Ed. Davis who have recently bought residences.

Mr. Will Totty has moved back from the Wells at Elkhart and has opened up his new hotel which he will run in the most approved style.

Miss Linnie Garret has moved her millinery shop from the Burson house to the Brooks house.

Dr. Douglass of Palestine, performed here last week one of the most serious operations in surgery with success. It is known as Hysterectomy. He was assisted by Dr. J. J. Joss, Link and Manly of Palestine; Dr. Abner of Franklin; Dr. Stokes of Elkhart; Dr. Patton of Daly and Dr. Meriwether and Woodard of Grapeland.

Mr. Geo. E. Darcey returned last week from the World's Fair. Geo. says Chicago is some larger than Grapeland and the Fair is the biggest thing he ever tackled.

Miss Mattie Stephens of Trinity spent a few days in our town this week.

Mr. Chas. Lively and Miss D. Sheridan of Augusta were married at Mr. Jake Lively's last Thursday evening, Elder G. M. Hollingsworth officiating.

Rev. Tom Smith of Palestine, assisted by Rev. Fowler of Crockett, have just closed a successful meeting here.

Mr. Jno. R. Sheridan was in town last week.

If those persons who fired their pistols and yelled so much after preaching the other night knew how badly it sounded I believe they would regret it. It is certainly no evidence of good manners.

The health of our community is very good.

Office of J. F. GREER, COUNTY JUDGE, GREEN COVE SPRINGS, CLAY CO., FLA., May 23d, 1891.

Gentlemen:

Twenty-three years ago I was attacked with inflammatory rheumatism. I was attended by the most eminent physicians in the land. I visited the great Saratoga Springs, N. Y., and the noted Hot Springs of Arkansas, and many other watering places, and always consulting with the local physician for directions; finally came to Florida ten years ago.

About two years ago I had a severe attack of rheumatism, was confined to my room for twelve weeks and during the time I was induced to try P. P. P. (Pierky Ash, Poke Root and Potassium), knowing that each ingredient was good for impurities of the blood, after using two small bottles I was relieved; at four different times since I have had slight attacks and I have each time taken two small bottles of P. P. P., and been relieved, and I consider it the best medicine of its kind.

Respectfully, J. F. GREER.

RHEUMATISM.

Is emphatically a blood disorder caused by inability of the kidneys to throw off certain poisons which accumulate in the tissues about the joints and muscles.

P. P. P., very simple, quickly and surely cures this disease neutralizing impurities in the blood. Experience and science both endorse P. P. P. as the only infallible blood purifier known.
