A Good Law. The Georgia senate has passed a bill making it a penal offense for any person to make remarks or write articles reflecting upon the good name of a woman. The bill calls to mind that in the old days there were laws against scolding and tattling, as well as laws against slander, and that the ducking-stool was in high favor as an inducer of polite conversation.

Sun tays in February. It is only possible for February to have five Sundays three times in each century, unless, through some chronological freak the century comes in with a leap year with the first day of February a Sunday. The five Sunday Februarys of this century have been those of 1824, 1852 and 1880. The next time this oddity will occur will be in the year 1920.
