The Age of Lead.

We are wont to speak of this era as the "age of iron," and there is no gainsaying that, industrially speaking, iron is a "precious metal."

Nevertheless, few people realize how useful, if not absolutely necessary, to modern civilization, is that other metal, lead. Soft, yielding, pliable, it is not much like its sister metal, but those distinguishing qualiplace in the arts and industries.

tight joints, would be almost impos- crusts formed where the breaking out sible without lead pipe. The great was. form opens up.

that necessary material which keeps comb, Iowa, Oct. 1, 1905." our houses looking pretty-inside and out-and preserves them from

How many of us thank metallic lead for the comforts of paint? Yet the best house paint is nothing but metallic lead corroded by acid to a white powder known as "white lead." Of course, there are many imitations of "white lead," some of which are sold as white lead and some which are offered by the name of ready-prepared paint under the familiar pretense that they are "just as good" as white lead. But all good paint is made of the metal, lead, corroded and ground to a fine white powder and mixed with linseed oil.

White lead is also used in the coating of fine oil cloths and for many of Hunt's Cure. purposes besides paint.

"Red lead" is another product of metallic lead and is what is known as an oxide of lead, being produced by burning the metal. Red lead is the best paint known to preserve iron, steel or tin, and is used largely in painting metal structures, such as skyscraper skeletons, mills and bridges.

There are many other products of the metal lead, such as litharge, orange mineral, etc., which are essential to many of the arts in which we never imagine that lead would be of the least use.

Verily, we live in an age of lead as well as of iron.

Rather Rough.

Above the stairway there flickered a candle and then a deep voice called from the shadows:

"Katherine, Katherine. Who is that sandpapering the wall this hour of the night?'

A long stillness and then: "No one down here, father, dear guess it must be next door."

The candle vanished and then from the gloom of the parlor:

"George, you big goose, I told you never to call on me unless you had been shaved."

Nothing Succeeds Like "EGG-O-SEE." Physicians Recommend Castoria

CASTORIA has met with pronounced favor on the part of physicians, pharmaceutical societies and medical authorities. ceutical societies and medical authorities. It is used by physicians with results most gratifying. The extended use of Castoria is unquestionably the result of three facts: First-The indisputable evidence that it is harmless: second—That it not only allays stomach pains and quiets the nerves, but assimilates the food: Third—It is an agreeable and perfect substitute for Castor Oil. It is absolutely safe. It does not contain any Opium, Morphine, or other narcotic and does not stupefy. It is unlike Soothing Syrups, Bateman's Drops, Godfrey's Cordial, etc. This is a good deal for a Medical Journal to say. Our duty, however, is to expose danger and record the means of advancing health. The day for poisoning innocent children through greed or ignorance ought to end. To our knowledge, Castoria is a remedy which produces composure and health, by regulating the system-not by stupefying it-and our readers are entitled to the information. - Hall's Journal of Health.

Letters from Prominent Physicians addressed to Chas. H. Fletcher.

Dr. B. Halstead Scott, of Chicago, Ills., says: "I have prescribed your Castoria often for infants during my practice, and find it very satisfactory." Dr. William Belmont, of Cleveland, Ohio, says: "Your Castoria stands first in its class. In my thirty years of practice I can say I never have found anything that so filled the place."

Dr. J. H. Taft, of Brooklyn, N. Y., says: "I have used your Castoria and found it an excellent remedy in my household and private practice for many years. The formula is excellent."

Dr. R. J. Hamlen, of Detroit, Mich., says: "I prescribe your Castoria extensively, as I have never found anything to equal it for children's troubles. I am aware that there are imitations in the field, but I always see that my patients get Fletcher's."

Dr. Wm. J McCrann, of Omaha, Neb., says: "As the father of thirteen children I certainly know something about your great medicine, and aside from my own family experience I have in my years of practice found Castoria a popular and efficient remedy in almost every home."

Dr. J. R. Clausen, of Philadelphia, Pa., says: "The name that your Castoria has made for itself in the tens of thousands of homes blessed by the presence of children, scarcely needs to be supplemented by the endorsement of the medical profession, but I, for one, most heartily endorse it and believe it an excellent remedy."

Dr. R. M. Ward, of Kansas City, Mo., says: "Physicians generally do not prescribe proprietary preparations, but in the case of Castoria my experience, like that of many other physicians, has taught me to make an exception. I prescribe your Castoria in my practice because I have found it to be a thoroughly reliable remedy for children's complaints. Any physician who has raised a family, as I have, will join me in heartlest recommendation of Castoria."

GENUINE CASTORIA Bears the Signature of The Kind You Have Always Bought In Use For Over 30 Years.

Men Who Won Independence From Spain Strive to Save Disrupted Country.

Havana-A report that General Menocal, who is using his influence to establish peace between the government and the insurgents, has an eye on the presidency, is vigorously denied by the leader of the Cuban

Menocal adds that he does not seek the overthrow of President Palma or the moderate administration, but desires solely to see the republic at peace. Personal ambitions, political and otherwise, should be set aside for the good of all.

Gen. Menocal's arrival has raised the hopes of peace. President Palma gave him carte blanche to investigate the situation, and emissaries were immediately sent to the principal insurgent chiefs to ask for an armistice.

Brig.-Gen. Guzman, commanding the rebel forces in the Santa Clara province, is said to have received orders from Gen. Pino Guerra to avoid an engagement until after September 15, when Guzman is directed to begin an energetic campaign.

Committees of veterans have started to visit the insurgents in Santa Clara, Havana and Pinar del Rio provinces, to learn whether they are willing to make peace on the basis of municipal election within 60 days and a special session of congress to pass a new general election providing for for everybody in the revolt.

JOE GANS GIVEN THE DECISION.

Negro Boy Awarded Fight On Foul by Battling Nelson.

Goldfield, Nevada-Joe Gans got the decision over Battling Nelson in the forty-second round of the prize fight they fought Monday afternoon. The battle was one of the fiercest and longest ever engaged in by men of their weight, each of them scaling less than 133 pounds. The negro, Gans, broke his hand in the thirty-third round. In the earlier stages of the game the Dane, Nelson, was apparently almost beaten, but his wonderful recuperative powers saved him a knockout. In the last round Nelson deliberately struck Gans a vicious blow in the groin, causing the negro to collapse. Referee Siler unhesitatingly gave the decision to Gans, and the thousands

who looked on shouted their approval. SU LONG AS HE IS SPEAKER.

Cornering Mexican Cocoa. Mexico City, Mexico.-Dealers in

Mexican cocoa have bought up all the available supply of that product in this country and have advanced the price 25 per cent in the last few days. It is reported that the dealers are working in conjunction with a New York city commission firm which is seeking to control the world's supply of cocoa.

A Skeleton Under the Floor. Sault Ste. Marie, Michigan .-Under the floor in a lonely hut occupied by a hermit named James James, near here, the skeleton of a man was discovered. The hermit committed spicide, and the authorities, in searching the place in which James had lived alone for years, made their

ghastly find. Quarantine Raised.

ANXIOUS THE GERMANS LOSE OUT

CHALLENGERS FOP ROOSEVELT CUP LEFT FAR IN REAR.

Winner of the Races For the Sonder Klasse at Kiel Last to Cross the Line.

Marblehead, Mass.-Three American boats sailed across the finish line in Wednesday's race for the Roosevelt cup well in advance of the three German challengers. Vim, designed by William Gardner, and owned by Commander T. L. Park, of the American Yacht club, of New York, won the contest through her brilliant windward work, coupled with splendid running qualities. Clifford Buckman, her amateur skipper, sailed the craft perfectly the second time over the course, although he lost during the first time by taking a long hitch in shore with the tide.

The Caramba, owned by C. H. Foster, was the second boat, finishing 32 seconds behind Vim. while Aux. winner of Monday's race, was third to finish, 22 second behind Caramba.

Of the three German challengers, Wannssee did the best work, but at that not one of them seemed to have a chance with the American yachts at any stage of the race. Wannssee finished the race 3 minutes and 20 seconds behind Vim, and was 37 seconds ahead of the Glueckauf IV., the fifth racer to finish. The Tilly VI., the pride of the German fleet, and winner of nearly all the races for the Sonder Klasse at Kiel, Germany, was the last boat to cross the finish line.

The German yachtsmen expressed themselves as much surprised at the results of the races that have been sailed, but do not admit yet that their chances of lifting the Roosevelt cup are gone. They said they would be in Thursday's race, and hoped to make a good showing.

THE BACK STAMP ON LETTERS.

By Leaving It Off, Chicago Expedites Mail Delivery.

Washington-An experiment with a view not only to the saving of expense, but to the economizing of time, is being tried in the Chicago post office. It is the elimination of the use of the back stamp on letters, which indicates to the recipient of a letter the precise time of its arrival in the delivering office from the sending point. The services of about thirty clerks has been saved, and the time of the delivery of the letter mail to the recipients, from the hour of its arrival in the Chicago post office, has been reduced from twenty minutes to two hours. It is proposed now to try the experiment in other large post offices. If it should be as successful as it has been in the Chicago office, the use of the back stamp probably will be eliminated entirely.

I do not know what first got world, from Alaska to South Africa, er thought I needed the benefits of redad to drink absinthe and I don't know and we marveled at the work of man what it is, but it looks like soap suds and prayed that we be permitted to get here, so near Heaven, in an elevator tastes like seed cookies and smells like down off that wheel alive, and not be which I will bet \$10 will break and vermifuge. But it gets there just the spilled down through the rarified Chi- kill us all before we get down to Paris, same and the result of drinking it is cago atmosphere and flattened on the I want you to prepare me for the hereabout the same as the result of drink- pavement so thin we would have to be after quick." ing anything in France-it makes you scraped up off the pavement with a want to hug somebody.

At home when a man get full on sticks to the griddle. whisky, he wants to hug the man he drinks with and weep on his collar, cried when our sentence to ride in the jammed, but I'll never leave this and then hit him on the head with a Ferris wheel expired, and the jailer of place until I am a pious man, and you bottle; but here every kind of drink puts the drinker in condition to want to hug. Dad says he never knew he had a brain until he learned-to drink absinthe, but now he can close his eyes and see things worse than any mince pie nightmare, and when we go out among people he never sees a man at all, but when a woman passes along, dad's eyes begin to take turns winking at them and it is all I can do to keep him from proposing marriage to every woman he sees.

I thought I would break him of this woman foolishness, so I told everybody dad was a Mormon bishop, and had a grand palace at Salt Lake City, and owned millions of gold mines and tabernacles and wanted to marry a thousand women and take them to Utah and place them at the head of homes of their own, and he would just call once in Utah was better than a Turkish har-

we hired a carriage and went to the has been drinking.

to see the bunch of women that were there to meet dad. "What's the matter here?" said dad, as he saw the crowd of women, looking like they were after an hour or so we got to the top. there in answer to an advertisement for nurses. I told dad to stand up in cago, and hold out his hands and say: "Bless you, my children," and when reporter, which could talk French, said for all the women who wanted to be Mormon wives to get into the carriage with the bishop and be sealed for life.

Well, sir, you'd a thought it was a into the carriage with dad, and about 400 couldn't get in, but when the scared about the political campaign that is driver started up the horses, they all raging at home, and when I read it to followed the carriage, and then the mounted police surrounded the whole up on campaign whisky and yell for his bunch and moved them off towards the police station, and dad under the wagfind any whisky, so he has not tried to on load of females, each one trying to carry any precincts of Paris for our get the nearest to him, so as to be his favorite wife.

It got noised around that a foreign potent-ate nad been arrested with his whole harem for conduct unbecoming to a potent-ate, and so when we got to the jail dad had to be rescued from his wives, and they were driven into a side street by the police, and dad was locked up to save his life. The reporter and I went to the jail to get him out, but we had to buy a new suit of clothes for him, as everything was torn off him in the Mormon rush. Dad was a sight when we found him in jail, and he thought his bones were broken, and he wanted to know what was the cause of his sudden popularity with the fair sex, and I told him it all came from his looking so confounded distinguished and his flirting with women. He said he would swear he never looked at one of those women in a tone of voice that would deceive a the 50 people who went up with us, Sunday school teacher, and he felt as though he was being misunderstood in France. We told him the only way to lect a drink that is appropriate for any get out of jail was to say he was a stage of a campaign. When the nom- crowned head from Oshkosh, traveling nations are first made you are not ex- incog, and when he began to stand on cited and beer and cheese sandwiches his dignity and demand that a messeem to fit the case. A little later, senger be sent for the president of the roof of their mouths. All they could when the orators begin to come out France, to apologize for the treatment into the open and shake their hair, you he had received, the jailer and police take cocktails and your eyes begin to begged his pardon and we dressed him resemble those of a caged rat, and you | up in his new clothes and got him out, are ready to quarrel with an opponent. and we went to the Eiffel tower to get

it, and dad had been drinking absinthe ing up awhile dad said he wouldn't go and he thought the badge was a kind up more than a mile or so at first, and of sign of nobility. Well, you'd adide asked the man to let him off at the 3,000-foot level, but the elevator man said dad had got to take all the degrees and dad said: "Let her went," and

Gee! but I thought dad would fall dead right there, when he looked off the carriage, like Dowie does in Chi- at Paris and the world beyond. The flies we had seen at the top before starting had changed to human beings, dad got up to bless them, the reporter all looking pale and scared, and the and I got out of the carriage, and the human beings on the ground had changed into flies and bugs, for all you could see of a man on the ground was his feet with a flattened plug hat someway fastened on the ankles, and a woman looked like a spoonful of raspremnant sale! More than a dozen got berry jam dropped on the pavement,

THERE WAS A SALVATION ARMY MAN AND WOMAN IN THE CROWD, AND DAD WENT UP TO THEM. HE TOOK OUT A FIVE-DOLLAR BILL AND PUT IT IN THE TAMBOURINE OF THE LASSIE.

the ground in a mysterious way. I do not know as the Eiffel tower was intended to act as a Keeley cure, but of half of them were so full their back teeth were floating, including dad and the guide, but when we got to the top and they got a view of the awful height to which we had come, it seemed as though every man got sober at once, and their tongues seemed to cleave to do was to look off at the city and the view in the distance, and choke up, and look sorry about something.

I couldn't help thinking of what sort of a pulp a man would be if he fell off the top of the tower and struck a fat woman on the pavement, cause it plenty of it the campaign may be said the Eiffel tower, on the advertisements seemed to me you couldn't tell which to be open, and you wear black eyes of breakfast food in your grocery, but was fat woman and which was man, and lose your teeth, and you you can form no idea of the height and I never saw such a change in a wear strange oaths, and smell of magnificence of the tower by studying man as there was in dad, after he got his second wind and got his He looked like a man who had made up his mind to at once for a week, shout hoarsely and syrup and soap, give you the benefit of lead a different life and begin right there. There was a Salvation Army man and woman in the crowd and dad went up to them. He took out a fivedollar bill and put it in the tambourine Ferris wheel at the Chicago world's of the lassie, and said to the man and woman: "Now, look a here, I want to the which we shall see the now. I have been a bad man, and nevligious training, but since I got up

Some of the other fellows laughed at case knife, like a buckwheat cake that | dad, and the Salvation Army people looked as though dad was drunk, but You remember, old man, how you he continued: "You can laugh and be Salvation Army people have got to enlist me in your army, for I am scared plum to death. Go ahead and convert me, while we wait." The Salvation Army captain put his hand on dad's head, the girl held out the tambourine for another contribution, and dad felt a sweet peace come over him, and we went down in the elevator and took a hack to the hotel, and dad's lips worked as though in pain.

Electric-Wave Clocks.

The distinguished maker of scientific instruments in Paris, Bigourdan, has experimentally demonstrated the practicability of operating a system of clocks by wireless telegraph signals. The method, he claims, would be both simpler and cheaper than the present system, which requires the use of underground wires. The new plan uses a central clock, operating every second an electric contact which actuates an oscillator. The signals are transmitgraph band, and recording pen the signals can be read within two one-hundredths of a second. The experiments were made over a distance of one mile

books were alike? Mrs. Newed So did I; but this perfect gem gives 200 ways of entertaining

COTTON BEING WASTED.

Cannot Get the Pickers to Gather it in Brazos Bottom.

Houston, Tex.: In many places throughout the Brazos bottoms cotton section-there is such a dearth of cotton pickers that whole patches of the staple are going to waste, according to E. H. Marmsby, a labor contractor, who was in Houston Saturday for the purpose of accupulating all the labor he could induce to go. He contracts with cotton planters to furnish cotton pickers and was here to find pickers in order to fill his contract. On Saturday morning's train he sent or a splash of current jelly moving on up to Navasota three white men. six Mexicans and nearly a score of negroes. All these men were purchased tickets and sent on their way. Mr. Harmsby says he will be thankful if one-half of them reach their destination, for other pickers are offering superfor inducements and may succeed in filching his men before they strike the cotton patches for which they are bound.

On account of the absolute necessity that the cotton be picked, in some localities the price per hundred pounds has gone to a figure nearly double what it was last year. In some instances cotton pickers are making as much as \$3 and \$4 per day; including board, but these are exceptionally fine pickers. The average wage 4s \$2 or \$2.25, with board. The board cuts but little figure, inasmuch as it is not of the finest, although said to be better this year than last on account of the demand for better food on the part of the pickers.

And while the cotton patches are turning from white to black for lack of some one to strip the fiber, there is a howl going up from all the larger cities because the colored help has been taken to the cotton field and there is none to do the cooking and washing. For a month and a half yet there will still be this outcry, but then the colored folks will begin to drift back to the cities and there will be too many of them. In the meantime, housewives are doing their own work while waiting for the colored folks to come back to town from the Brazos and other sections where they are at work.

KILLED BY A TROLLEY CAR.

Negro Run Down West of Trinity River Bridge, Dallas.

Dallas, Tex.: Henry Nathaniel, a negro, aged about 38 years, was run over and instantly killed early Saturday morning by an Interurban railway car. The accident occurred west of the Trinity River bridge. The man was seen just before the car struck him and is said to have raised his head as the car was upon him. In the darkness of the early morning he was not discovered in time to avert the disaster. The body was badly mangled. The negro fived at Kosse, Texas.

Weevils as Guinea Food.

Paris, Tex.: A farmer who was in town Saturday suggested the raising of flocks of guineas as a solution to the boll weevil pests, which have appeared in this section this year for the first time in considerable numbers. He has a flock of guineas and says that they are "the hot stuff" for exterminating the weevils. He says that they will run along the rows and gobble up every weevil in sight and will fly up in the stalks after them.

Negroes from Anti-Lyon Club.

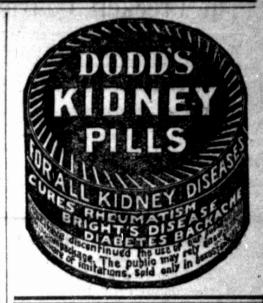

San Antonio, Tex.: The negroes of the county have organized a big Green Gibson club and will fight Cecil Lyon and all men who have his indorsement. The negroes indorsed County Judge Green, Democratic nominee for the senate, as oposed to County Judge Real of Kerr county, the candidate of the Lyon faction.

Robbed of \$200 in Dallas.

Dalas, Tex.: J. P. Hope, who re sides on St. Mary and Hendarson avenues, reported to the detestives on Saturday night that he had been held up at St. Mary and Santa Fe avenues, one block from his home, and robbed of about \$200. Search by the department failed to develop the assailants. The man was not injured.

Prosper Merchant Assigned.

Prosper, Tex.: R. E. McElhannon, dealer in general merchandise in this town, made a voluntary assignment Saturday for the benefit of his creditors with Sanger Bros. named as trustees. Assets, \$5,000; liabilities, \$6,500.

SECOND HAND MAIL BOXES.

Why a Little Village May Have Big Numbers in Its Post Office.

The man who was spending his summer vacation in the country was lcoking quizzically at the mail boxes in the rural post office.

"I did not know this was such a large place," he said. "I thought it had a population of only about 4,000, but the mail box numbers run much higher than that, and I don't suppose every one in town rents a box either." The postmaster peered out of his

little barred window. "I can explain that," he said. "You see the country post offices never get new boxes, but we have those left over when the city establishments make over their offices and get new boxes. So you see lots of country places are bound to have high number boxes.

"Although our numbers run over 4,000, you won't find any less than 1,000, some other country post office drew the lower ones. I myself would rather get the big numbers, for it makes us seem like a bustling little city."

Subject for Another Lecture. "Oh, dear," exclaimed Mrs. Slapdash, when they were finally seated in the carriage, "I've only got one of my earrings on. I left the other on my dressing table."

"Huh!" grunted her husband, "just like my lectures on your carelessness -in one ear and out the other."

Just because a man gives up a dollar to hear a lecture downtown it doesn't signify that he cares for free lectures at home.

Hasty Chewing of Food the Cause of Dyspepsia

If your teeth are fit, chew, chew, chew, until the food is liquid and insists on being swallowed.

If teeth are faulty, soften Grape-Nuts with hot milk or cream, or allow to stand a minute soaking in cold cream.

"There's a reason," as follows: Grape-Nuts food is in the form of hard and brittle granules, intended to be ground up by the teeth; that work not only preserves the teeth but brings down the saliva from the gums so necessary in the primary work of digestion.

Many people say (and it is true) that when they eat Grape-Nuts they seem able to digest not only that food but other kinds which formerly made trouble when eaten without Grape-Nuts.

Chew!! "There's a reason" for

urape-

HAY FEVER

"Having used Peruna for catarrh and hay fever, I can recommend it to all who are suffering with the above diseases. I em happy to be able to say it has helped me wonderfully."

-Mayme E. Smith.

MISS MAYME SMITH. 444 E. Mound Street, Columbus, Ohio, Y FEVER is endemic catarrh. It is caused by some irritating sub-stance in the atmosphere during the te summer months. It is generally ought that the pollen of certain weeds

and flowers is the cause of it. Change of locality seems to be the only rational cure. The use of Peruna, however, stimulates the nervous system to resist the effect of the poisonous anations and sometimes carries the wictim through the hay fever season without an attack of the disease.

A large number of people rely upon Peruna for this purpose. Those who do not find it convenient to change their location to avoid Hay Fever, would do well to give Peruna a trial. It has proven of priceless value to many people.

And no mere man knows what it is o be a woman.

A Household Necessity.

would almost as soon think of running my farm without implements as the liniments I have ever used, for both man and beast, it is the quickest in action and richest in results. For burns and fresh cuts it is absolutely wonderful. I regard it as a household necessity.

Yours truly, S. Harrison, Kosciusko, Miss. No Fear.

"Bridget," said Mrs. Hiram Offer, sternly, "on my way home just now I saw that policeman who was in the kitchen with you so long last evening. and I took occasion to speak to him-"Oh! shure, that's all roight, ma'am,"

interrupted Bridget, "Oi'm not jealous, Oi hov him cinched."

Something Wrong.

"Why did you fail to show up for the performance last night?" asked the soubrette. "Were you sick?"

"No," replied the comedian, "I wasn't exactly sick, but I felt funny."

STOMACH PAINS

Dr. Williams' Pink Pills Brought Relief, and Cure for Splitting Headaches as Well.

Dr. Williams' Pink Pills, a remedy which has been before the American people for a generation, is still accomplish. ing wonderful results as is evidenced by the following interview with Mrs. Rachael Gardner, of Wilsey, Kans.

"It was very strange," she says, "I never could tell what caused it and neither could anybody else. Far a long time I had bad spells with my stomach. The pain would commence about my heart and was so deadly agonizing that I would have to scream aloud. Sometimes it would last several hours and I would have to take laudanum to stop it. Besides this I had a headache almost constantly, day and night, that nearly crazed me, so you see I suffered a great deal. And when I think of the agony I endured it still makes me shudder.

" 'Doctors,' did you say? Their medicine made me sicker. I couldn't take it and I kept growing worse until a friend dvised me to take Dr. Williams' Pink Pills, and I did. I began to feel better and was soon wholly converted to this erful medicine. It did me more ed than I had ever hoped for. I kept on with the pills and now I recommend

Dr. Williams' Pink Pills have cured vers cases of indigestion, bloodlessness, stica, neuralgia, nervousness spinal weakness. The genuine Dr. Hiams' Pink Pills are guaranteed to free from opiates or any harmful grand cannot in jure the most delicate

A BULL SCRAMBLE.

Wild Scenes on the New Orleans Cotton Exchange.

New Orleans, La. Sept. 11 .- One minute after the government report on the condition of the cotton crop was read on the floor of the New Orleans Cotton Exchange the scene became a wild scramble of the buil operators to secure control of the market. Bull speculators jumped into the ring and boosted futures until December gained 23 points in a few minutes after the figures were ticked over the wires, and sold as high as 9.25c. The same bullish speculation seized October and January. December had been at 9:02c just before the report was read.

This was the first time at the New Orleans exchange that the government condition report and the census bureau on the amount of cotton ginned to September 1 were read on the same day. Yesterday's condition figure of 77.3, showing a decline of 3.6 per cent from July, is interpreted as very bullish. As conditions up to the present time, officially stated, are 16.8 per cent less than those of the record breaking crop of 1904, it is therefore argued that this year's crop should be one of 11,379,000 bales, and in the same way, compared with the crop of last year, it is 11.4 per cent better, or promises to be one of 12,639,000. Compared with the crop of 1904, this year's crop is 10 per cent less in acreage and 6.8 per cent less in condition, or a total of 16.8 per cent less than 13,556,000 bales. Compared with last year's crop, this crop is 13 per cent better, the increase in acreage of this year's crop over last year being 6.2 per cent and the condition of this year's crop being 5.2 per cent higher.

BOUCHT 214,000 ACRES.

M. H. Lamb States That He Made Purchase of Southwest Texas Land.

San Antonio, Tex.: M. H. Lamb, head of the real estate department of the Rudd-McQueeny Company, Kansas City, is here for a few days. He says he has purchased 214,000 acres in two tracts within a hundred miles of San Antonio and will settle it with without Hunt's Lightning Oil. Of all | colonists. One tract is within fortyfive miles of San Antonio and the other about ninety miles.

There is such a big demand for land in Southwest Texas that he thinks there will be no dofficulty in inducing the farmers from Missouri to come here in great numbers.

Mr. Lamb himself is greatly impressed with the great possibilities of this section and believed that all that is necessary to bring thousands of people here is to let them know what the section offers.

Jim Dees Killed.

Pittsburg, Tex.: Jim Dees was shot and killed two miles west of town at 5 o'clock yesterday afternoon. M. Buckalow confessed to the killing and surrendered. A shotgun was used, one load entering the right side and the other his face. The tragedy was the outcome of a disagreement about the picking of a cotton crop in which both were interested. Buckslow claims self-defense.

Hunter Wounded in the Arm.

San Antonio, Tex .: The first hunting accident of the season occurred here Sunday. Robert Daugherty, who works in one of the breweries, was accidentally shot, receiving a bad but not dangerous wound in the arm. He had been in the woods hunting and in getting out of his buggy with a loaded shotgun it was accidentally discharged.

Both Legs Cut Off.

San Antonio, Tex.: W. O. Keith, an International & Great Northern switchman, fell from the running board of a switch engine last night and both legs were severed from his body. Little hopes are entertained for his recovery. He has a large family.

Changed from Dry to Wet.

Henrietta, Tex.: A local option election was held in this county Saturday and changed from dry to wet by a majority of 30.

Taylor, Tex.: Upward of 400 bales of cotton were marketed in Taylor Saturday, bringing an immense crowd of farmers and cotton pickers to town, and traffic in all mercantie lines of business was exceedingly lively. All Taylor merchants report good business Saturday.

Br. an. Tex.: Bryan's cotton receipts by wagons to date aggregate 7,110 hales. About 750 bales were received again Saturday, this being the record for two successive Saturdays.

Doomed to Torment. Mr. P. G. Keever, Aberdeen, Miss.,

writes:

"For years I suffered from a form of Eczema which made life a burden. thought I was doomed to perpetual torment here below, but your Hunt's Cure rescued me. One box did the work, and the trouble has never returned. Many, many thanks."

Hunt's Cure is guaranteed. Price

Tact. He had crossed her and she was

in a dangerous mood. "See!" she hissed, pointing her finger at him, "see how you have worked up my feelings. Why, I am purple with rage."

But the young man only smiled. "So becoming," he mused, softly. "What is becoming, sir?"

"Why, the purple. It just matches that purple waist you have on."

And the next moment she was all smiles and telling her girl friends that George was the cleverest chap in the

J. L. WARD MEDICINE CO., Big Springs, Texas.

Three Great Conversationalists. The three greatest conversational

ists with whom it has been my good fortune to come into touch were Mazzini, Dr. Oliver Wendell Holmes and Bismark.

Of these, Dr. Holmes was the most spirited in the bel esprit sense; Bismarck the most imposing and at the same time the most entertaining in point of wit, sarcasm, anecdote and narrative of historical interest. brought out with rushing vivacity and with lightning-like illumination of conditions, facts and men.

In Mazzini words there breathed such a warmth and depth of conviction, such enthusiasm of faith in the sacredness of the principles professed and of the aims pursued by him, that it was difficult to resist such a power of fascination.-Carl Schurz, in McClure's Magazine.

Swords Into a Plow.

During the centennial celebration in Philadelphia in 1876 the members of the Universal Peace union assembled andshoots the south anniversary of the foundation of the order.

A number of officers and descendants of officers gave their swords to be made into a plow as a symbol of peace. The weapons were afterward fashioned into a homely agricultural implement, which, however, instead of being a plow, took the shape of the ordinary, field cultivator.

This cultivator may now be seen in the hall at Geneva, Switzerland. Over it is an inscription giving the history of the implement.

HOW MANY OF US?

Fail to Select Food Nature Demands

to Ward Off Ailments. A Ky. lady, speaking about food,

says: "I was accustomed to eating all kinds of ordinary food until, for some reason, indigestion and nervous prostration set in.

"After I had run down seriously my attention was called to the necessity of some change in my diet, and I discontinued my ordinary breakfast and began using Grape-Nuts with a good quantity of rich cream.

"In a few days my condition changed in a remarkable way, and I began to have a strength that I had never been possessed of before, a vigor of body and a poise of mind that amazed me. It was entirely new in my experience.

"My former attacks of indigestion had been accompanied by heat flashes, and many times my condition was distressing, with blind spells of dizziness, rush of blood to the head and neural-

gic pains in the chest. "Since using Grape-Nuts alone for breakfast I have been free from these troubles, except at times when I have indulged in rich, greasy foods in quantity, then I would be warned by a pain under the left shoulder blade, and unless I heeded the warning the old trouble would come back, but when I finally got to know where these troubles originated I returned to my Grape-Nuts and cream and the pain and disturbance left very quickly.

"I am now in prime health as a re-sult of my use of Grape-Nuts." Name given by Postum Co., Battle Creek,

We cannot expect the pleasure of friendship without the duty, the privilege without the responsibility .-Hugh Black, M. A.

STOP, WOMAN!

AND CONSIDER THE

ALL-IMPORTANT FACT That in addressing Mrs. Pinkham you

are confiding your private ills to a woman -a woman whose experience with women's diseases covers twenty-five years. The present Mrs. Pinkham is the daughter-in-law of Lydia E. Pinkham, and for many years under her direction, and since her decease, her advice has been freely given to sick women.

Many women suffer in silence and drift along from bad to worse, knowing full well that they ought to have immediate assistance, but a natural modesty impels them to shrink from exposing themselves to the questions and probable examinations of even their family physician. It is unnecessary. Without money or price you can consult a woman whose knowledge from actual experience is great.

Mrs. Pinkham's Standing Invitation:

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham at Lynn, Mass. All letters are received, opened, read and answered by women only. A woman can freely talk of her private illness to a woman; thus has been established the eternal confidence between Mrs. Pinkham and the women of America which has never been broken. Out of the vast volume of experience which she has to draw from, it is more than possible that she has gained the very knowledge that will help your case. She asks nothing in return except your good-will, and her advice has relieved thousands. Surely any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.—Lydia E. Pinkham Medicine Co., Lynn, Mass.

ters from a woman who accep- said I must have an operation or I could not ted this invitation. Note the live. I then wrote you, telling you my ailresult:

the government for something: If the government is going into the railroad business, why not EDITOR COURIER: also buy up all the factories owned by the corporations and then buy up all the stores selling corporation-made goods? The government can accomplish more by a

In an editorial dealing with the race problem in the North, the Houston Post says: "Two condi-North parallel like conditions in the South. For instance, there is a strong averson on the part of white people to have negroes near of bales would have reached up in them and the negroes are invaria- the hundreds. bly flocking to the cities. The greatest difficulty which confronts those who desire to improve the conditions of the Northern negroes is the fact that their opportunities to labor are restricted. The Northern cities are pretty well in the grip of the labor unions and the working classes hate negroes bitterly. Nowhere in the South is there such bitter hatred lif's battle among the friends of of negroes as among the white la- his boyhood days. boring classes of the North. Out of this antipathy grow the numerous race riots which have from time to time taxed the energy of the police." The Post is right. ing. The working classes are bitter in their hatred of the negro and never lose an opportunity to show it.

The Fort Worth Record says that "judging from representative newspaper expressions and interviews-and more particularly by the ominous silence in many influential quarters-it appears at present that Mr. Bryan has turned the party back into the wilderness." The Record adds: "The democratic harmony which was about to crystalize about Mr. Bryan is already fractured and if the party be united in 1908 the union is yet to be effected. The first little fracture developed when from abroad Mr. Bryan sent a peremptory demand for the retirement of Roger Sullivan, national committeeman from Illinois. That looked a little like bossism, but it was hoped that the action of the illinois state convention in refusing to endorse Mr. Bryan's demand and endorsing Mr. Bryan himself would be accepted as an adjustment of the incident. However, Mr. Bryan on reaching Illinois reiterated his demand and drove the wedge deeper into the rent. As a consequence Illinois democrats are divided. Meanwhile, the Madison Square speech, with its declaration of government ownership of railroads, startled the orthodox democrats who could only hope that the matter would end with the expression of a personal conviction. But Mr. Bryan in subsequent speeches insisted upon the advocacy of this radical doctrine and apparently intends to campaign for a positive declara- Chamberlain's Cough Remedy Acts tion. Whereupon sterling democrats like Bailey, Folk and Bacon are so disconcerted that they can not in good conscience further advocate Mr. Bryan's nomination,

Augusta Letter.

Augusta, Sept. 9, 1906.

After an absence of a week it becomes a very pleasant task to us to again fill our accustomed space in the columns of the Cou-

There has been nothing of import transpired since our last that would be any ways edifying to your readers, and while local and society news is seemingly scarce, we are at our wits end to know what to indite.

Cotton has been coming in pretty lively and had not a delay of several days in making repairs on the Halcomb gin the number

Mr. Bud McMillan, a long-time resident of this place, has sold out his farm and all of its accoutrements to Mr. Hugh Long, and left Thursday evening for Bosque county, where he claims he will reside until the longing for the scenes of his childhood home steals over him, when he expects to return and commence again

Mr. Frank Mahair's two little girls, Rosetta and Tolitha, have been quite sick the past week but are both improving at this writ-

During our stay in Augusta it has been our pleasure to make the acquaintance of several friends who have extended us invitations to visit their homes, and while it has not been consistent with us to avail ourselves of the pleasure we know that would have been accorded us, our neglect in so doing was not intentional. We have been your correspondent from this place since the first of March last and with the exception of two omissions have endeavored to keep the COURTER posted of all important events that have come under our personal observa-Courier and its management have been of the most pleasant nature and we feel a hesitancy in giving up our reportorial duties, but it is seemingly conducive to us that our efforts to keep the Courier posted of the general news from this place has not come up to our expectations and we shall ask you, Mr. Editor, to relieve us from any further obligations. It is our aim to still remain here indefinitely, and if anything of an unusual interest should occur we shall take pleasure in reporting

To the good people of Augusta we shall ever have a warm attachment and when our time is up here and wherever our footsteps may wander the reminiscences of the happy days spent in your little village will cling to us as long as memory lasts. To each and all we kindly bid you an affectionate adieu. Ever thine,

on Nature's Plan-

DONNELLA.

The most successful medicines are those that aid nature. Chamberlain's Cough Remedy acts on this plan. Take it when you have a cold and it will allay the cough, relieve the lungs, aid expectoration, open the secretions and aid nature in restoring the system to a healthy condition. Thousands have testified to its superior excellence. It counteracts any tendency of a cold to result in pneumonia. Price 25 cents. Large size, 50 cents. For sale by Murchison & Beasley.

The laxative effect of Chamberlain's Stomach and Liver Tablets is so agreeable and so natural you can hardly realize that it is produced by a medicine. These tablets also cure indigestion and biliousness. Price 25 cents. Samoles free at Murchtson & Beasley
