- Sheriff, A. W. Phillips.
- County superintendent, J. F. Mangum.
- Commissioner, precinct 1, S. H. Lively.
- Commissioner, precinct 2, G. R. Murchison.
- Commissioner, precinct 3, Commissioner, precinct 4, J. M. Creasy.
- Justice of the peace, precinct 1, E. M. Callier.
- Constable, precinct 1, Bob Spence.

Foley Kidney Pills

Tonic in quality and action, quick in results. For backache, headache, dizziness, nervousness, urinary irregularities and rheumatism.

Proposed Amendment

TO THE STATE CONSTITUTION AUTHORIZING THE ESTABLISHMENT OF A HOME FOR WIVES AND WIDOWS OF CONFEDERATE SOLDIERS AND SAILORS.

HOUSE JOINT RESOLUTION NO. 7.
Joint Resolution to amend Section 51 of Article 3 of the Constitution of the State of Texas, as amended in 1903, so as to authorize the grant of aid in the establishment and maintenance of a home for the disabled and dependent wives and widows of Confederate soldiers and sailors and such women as aided the Confederacy, and making an appropriation.

Be it Resolved by the Legislature of the State of Texas:

Section 1. That Section 51 of Article 3 of the Constitution of the State of Texas, as amended in 1903, be so amended as to hereafter read as follows:

Article 3. Section 51. The Legislature shall have no power to make any grant or authorize the making of any grant of public money to any individual, associations of individuals, municipal or other corporations whatsoever; provided, however, the Legislature may grant aid to indigent and disabled Confederate soldiers and sailors who came to Texas prior to January 1, 1880, and who are either over sixty years of age or whose disability is the proximate result of actual service in the Confederate army for a period of at least three months, their widows in indigent circumstances who have never remarried and who have been bona fide residents of the State of Texas since March 1, 1880, and who were married to such soldiers or sailors anterior to March 1, 1880; provided, said aid shall not exceed eight dollars per month, and provided further, that no appropriations shall ever be made for the purpose hereinbefore specified in the excess of five hundred thousand dollars for any one year. And also grant aid to the establishment and maintenance of a home for said soldiers and sailors, their wives and widows and women who aided in the Confederacy, under such regulations and limitations as may be provided by law; provided, the grant to aid said home shall not exceed one hundred and fifty thousand dollars for any one year, and no inmate of said home shall be entitled to any other aid from the State; the Legislature may provide for husband and wife to remain

together in the home; and provided further, that the provisions of this Section shall not be construed to prevent the grant of aid in case of public calamity.

Sec. 2. The Governor of the State is hereby directed to issue the necessary proclamation for the submission of the amendment to the qualified voters of the State of Texas at the regular election of State officers, in November, 1910.

The sum of five thousand dollars, or so much thereof as may be necessary, is hereby appropriated to pay the expenses of carrying out the provisions of this Resolution. W. B. Townsend, Secretary of State.

NO REASON FOR IT

When Crockett Citizens Show the Certain Way Out.

There can be no just reason why any reader of this will continue to suffer the tortures of an aching back, the annoyance of urinary disorders, the danger of diabetes, of any kidney ills when relief is so near at hand and the most positive proof given that they can be cured. Read what a Crockett citizen says:

J. R. Bennett, of Crockett, Tex., says: "At times my kidneys did not do their work properly and my back ached so badly I could scarcely straighten. When suffering in this way I heard of Doan's Kidney Pills, and procured a box at I. W. Sweet's Drug Store. I had taken about one-half the contents when my trouble stopped and two months have since passed without any sign of its return."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Killing of Rangers is Detailed.

Austin, Texas, July 22.—Captain J. H. Rogers, commander of the ranger company stationed here, who has been detailed to make an investigation of the killing of a man at Navasota and look into the attempted assassination of Ranger Avriett, today gave out a statement concerning the affair which was to the effect that when the two men in a buggy were commanded to halt and throw up their hands, which was 12 miles south of Navasota, by Ranger Avriett and Special Officer John

Cuthrell, one of them held up one hand, while the other drew his pistol, and as he brought the weapon around in a position to shoot both officers fired one shot each, killing him instantly.

Acute or Chronic—Which?

No matter if your kidney trouble is acute or chronic Foley's Kidney Remedy will reach your case. Mr. Claude Brown, Reynoldsville, Ill., writes us that he suffered many months with kidney complaint which baffled all treatment. At last he tried Foley's Kidney Remedy and a few large bottles effected a complete cure. He says, "It has been of inestimable value to me." Will McLean.

Legal Notice.

The Orange and Northwestern Railroad Company. Special Stockholders Meeting. Notice is hereby given that a special meeting of the stockholders of the Orange and Northwestern Railroad Company, duly called by the Board of Directors of said Company, will be held at the principal office of said Company in the City of Orange, State of Texas, on Tuesday the 6th day of September, A. D. 1910, at ten o'clock in the forenoon of that day.

(a) To consider and to authorize the issuance and disposal of the bonds of this Company to be known as its First Mortgage Six Per Cent Gold Bonds, to bear date of May 1, 1910, to be payable the first day of May, 1940, in gold coin of the United States of America, of or equal to the present standard of weight and fineness, with interest from the date thereof at the rate of six per centum per annum, payable semi-annually on the first day of May and of November in each year in like gold coin, and both principal and interest to be payable at the office or agency of this Company in the City of New York, and both as to principal and interest free from any tax or taxes which this Company may be required to pay thereon or retain therefrom by or under any present or future law of the United States or of any State, county or municipality therein. Said bonds to be of such denominations as may hereafter be determined, and the issue of said bonds shall not exceed at any one time the aggregate principal amount of Ten Million Dollars, (\$10,000,000).

(b) To direct and authorize the execution on the part of this Company for the purpose of securing the payment of said bonds, of a mortgage and deed of trust of all the railroads and interests in railroads, equipments, franchises and property of this Company whether now owned by this Company or which may hereafter be acquired by it by the use of any of said First Mortgage Six Per Cent Gold Bonds:

(c) To authorize the Board of Directors to adopt and use such form of mortgage as they may deem proper, and to ratify the proceedings of the Board of Directors of said Company in authorizing said bonds and the use to be made thereof; and

(d) To consider and act upon such other business as may properly be transacted at the meeting.

By order of the Board of Directors.
Dated, Orange, Texas, June 24th, 1910.
The Orange and Northwestern Railroad Company.
By J. H. Elliott, Vice-President.
Attest: J. O. Sims, Secretary. 9t.

From Sickness to "Excellent Health"

So says Mrs. Chas. Lyon, Peora, Ill.: "I found in your Foley Kidney Pills a prompt and speedy cure for backache and kidney trouble which bothered me for many months. I am now enjoying excellent health which I owe to Foley Kidney Pills." Will McLean.

THE UNIVERSITY OF TEXAS.

Co-Educational. Tuition Free.

They Have a Definite Purpose

Foley Kidney Pills give quick relief in cases of kidney and bladder ailments. Mrs. Rose Glaser, Terre Haute, Ind., tells the result in her case. "After suffering for many years from a serious kidney trouble and spending much money for so called cures, I found Foley Kidney Pills the only medicine that gave me a permanent cure. I am again able to be up and attend to my work. I shall never hesitate to recommend them." Will McLean.

MOMUS RESUMES VOYAGE

FIRE OUT AND STEAMER ON WAY TO NEW ORLEANS.

Passengers on the Comus—Transfer Was Made Without Mishap—Alamo Assisted.

Savannah, Ga.—After fighting a stubborn fire in her afterhold for more than thirty-four hours the crew of the Morgan Line steamer Momus, which Saturday was forced to transfer her passengers to the Comus near Cape Canaveral, off the Florida coast, succeeded in extinguishing the flames shortly after noon Sunday and the steamer proceeded on her way to New Orleans under her own steam.

Key West, Fla.—Wireless messages received Sunday from the big Morgan liner Momus, which experienced a rather dangerous fire in her afterhold early Saturday morning while off the Florida coast en route from New York to New Orleans, are to the effect that the fire was still burning at noon Sunday, though practically under control. After transferring her sixty passengers and baggage to the steamer Comus without mishap, the Momus anchored off Cape Canaveral, 335 miles north of Key West, and the crew of 120 was at once put to work fighting the flames. Although the Comus continued to stand by, the crew of the Momus was using her pumps with telling effect and it was soon realized that the conflagration would not be serious.

Captain Rysk of the Mallory liner Alamo, which arrived Sunday, reported that Saturday morning the Alamo picked up the wireless "S. O. S." of the Momus and immediately offered to take off the passengers and transfer them to Mobile. Within a few minutes she received a message of thanks, but advising that the Comus was standing by and taking off her passengers.

Extinguished at 12:15 p. m.

Savannah, Ga.—A message via the United Wireless to this port says: "Fire extinguished at 12:15 o'clock this afternoon on the steamer Momus, full speed for New Orleans."

Making Good Time.

Tampa, Fla.—At 9 p. m. the local wireless station picked up a message from the steamship Momus saying all was well and that good time was being made toward New Orleans.

Texas Banks Reports.

Washington.—The reports of 485 national banks in Texas at the close of business on June 30 show loans and discounts \$113,105,703, a gain of \$4,102,368 over the statement of April 21. Overdrafts, \$1,857,611, a decrease of \$4,862,976; specie and legal tender on hand, \$8,809,530, a decrease of \$1,444,498; surplus funds, \$14,796,705, a gain of \$259,502; net undivided profits, \$5,921,580, a decrease of \$57,209; individual deposits, \$95,410,994, a decrease of \$8,910,191. The percentage of legal reserve to deposits was 18.69 per cent against 18.05 per cent in April, and the percentage deposits of cash on hand, redemption fund and use from reserve agents was 26.97, against 29.27 in April.

Engineer Killed in Wreck.

San Antonio, Tex.—Engineer J. A. Williams was killed and Engineer Hamlin, Fireman C. E. Scruggs and Brake-man J. E. Harris, all of Yoakum, were injured in a head-on collision between Tanglewood and Lexington, on the Waco division of the San Antonio & Arkansas Pass Saturday. Both engines were badly damaged. The wreck took fire, burning seven cars of freight and four empty cars. Four other cars were damaged.

Madriz Victory Announced.

Managua.—President Madriz announces a victory by General Vasquez, occupying Comalapa, over the insurgents. General Vasquez, in command of 200 men, was attacked by 400 provisionals. During the course of the engagement General Valdez with reinforcements, surprised the provisionals, attacking them from the rear. The battle lasted four hours, and many were killed or wounded on both sides. General Valdez suffered serious injuries.

Brownsville Population 10,517.

Washington.—The census returns made public Saturday gave the city of Brownsville a population of 10,517, against 6,305 in 1900. This is a gain of 4,212, or 66.45 per cent in ten years. Childress County, which had 2,138 population in 1900, has 9,530, against a gain of 7,400, or 34 per cent, in ten years.

Paige Creamery.

Paige, Tex.—Work on the Paige creamery is progressing rapidly and it will be completed by the 1st of August, at which time it is expected to go into operation.

SKIN TROUBLES

A Healing Ointment With a Wide Range of Usefulness

A letter from Mrs. I. E. Cameron, Graduate Nurse, Augusta, Me., says: "I must write and tell you the good Resinol Ointment has done. I applied it to an ulcerated leg of six months' standing. Almost everything had been tried to heal it. Resinol was applied twice a day for four weeks, and the ulcers are entirely healed. It is now six months since the treatment and no indication of a return of the trouble. I have used Resinol for eruptions on children's faces, and for everything that seemed to need an ointment, with satisfactory results in every case."

Mrs. F. Cox, Chicago, Ill., says in another letter: "I cannot speak too highly of Resinol Ointment and Soap. They cured my baby boy of Eczema. He had a very severe case. Numerous other remedies had been tried and failed to do any good. I would not be without them in the house."

The first application will relieve the itching and irritation in skin diseases, and stop the pain in burns or scalds. Chafing, Sunburn, Poison Ivy eruptions are often cured by an overnight application.

Resinol Ointment, Resinol Soap and Resinol Medicated Shaving Stick are sold at all Drug Stores. Ask for booklet on care of the Skin and Complexion, or send stamp to us for sample and booklet. Resinol Chemical Co., Baltimore, Md.

LEADING MISTAKES IN LIFE

Writer Has Recorded Ten, of Which Most of Us Assuredly Have Our Share.

Some of us may be glad to be told that there are only 10 life mistakes, for there seem to be so many more, but a recent writer has catalogued them. Perhaps these are only the 10 leading ones from which the smaller errors arise. Let's look over the list and see how many of them are ours: First, to set up our own standard of right and wrong and judge people accordingly; second, to measure the enjoyment of others by our own; third, to expect uniformity of opinion in this world; fourth, to look for judgment and experience in youth; fifth, to endeavor to mold all dispositions alike; sixth, to look for perfection in our own actions; seventh, to worry ourselves and others with what can not be remedied; eighth, to refuse to yield in immaterial matters; ninth, to refuse to alleviate, so far as it lies in our power, all which needs alleviation; tenth, to refuse to make allowance for the infirmities of others.

Silenced the Critic.

Charles Sumner, when in London, gave a ready reply. At a dinner given in his honor, he spoke of "the ashes" of some dead hero. "Ashes! What American English!" rudely broke in an Englishman; "dust you mean, Mr. Sumner. We don't burn our dead in this country." "Yet," instantly replied Mr. Sumner, with a courteous smile, "your poet Gray tells us that 'Even in our ashes live their wonted fires.'" The American was not criticized again that evening.

Diagnosis.

"Do you see that man going along with his head in the air, sniffing with his nose?"

"Yes, I know him."

"I suppose he believes in taking in the good, pure ozone?"

"No; he's hunting for a motor garage, I believe."—Tit-Bits.

Important to Mothers

Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it bears the

Signature of *Wm. C. Little*
In Use For Over 30 Years.
The Kind You Have Always Bought.

A Dreamer.

"You say your boy Josh is a dreamer" said the literary lady. "Does he write poetry or romances?"

"Oh," replied Farmer Cornstossel, "he don't write anything. But he jest natchelly refuses to get up till 9 o'clock."

If You Are a Trifle Sensitive

About the size of your shoes, many people wear smaller shoes by using Allen's Foot-Ease, the Antiseptic Powder to shake into the shoes. It cures Tired, Swollen, Aching Feet and gives rest and comfort. Just the thing for breaking in new shoes. Sold everywhere. See Sample sent FREE. Address, Allen S. Olmsted, Le Roy, N. Y.

Where He Came In.

"Have you ever figured in a divorce suit?"

"No; the lawyers did the figuring. I just paid the bills."

TOO SHORT A TIME.

Wise—Why did that woman's club disband?

Sharpe—The majority adopted a resolution limiting the time of each member for speaking on any topic to two hours.

An Easy Fit.

A number of years ago there lived in northern New Hampshire a notorious woman-hater. It was before the day of ready-made clothing, and wanting a new suit, he was obliged to take the material to the village tailor. She took his measurements, and when she cut the coat, made a liberal allowance on each seam.

The man's dislike of women in general prevented his having a fitting. He took the finished garment without trying it on. It was much too large, and his disgust was apparent in the answer he made to the friendly loafer on his first visit to the postoffice, when he wore the despised article.

"Got a new coat, Obed?" said the loafer.

"No, I hain't!" said Obed. "I've got seven yards of cloth wropped round me."—Youth's Companion.

Qualified.

"How does your new book go?"

"Great! I am convinced that it is a classic."

"A classic? What convinces you of that?"

"Everybody has either seen it or heard of it, but nobody has read it."

Plenty of Material.

"Son," said the press-humorist, "you have inherited some of my humor."

"Not enough to make a living with, dad."

"Never mind. I'm going to leave you all of my jokes."

Women's Secrets

There is one man in the United States who has perhaps heard more women's secrets than any other man or woman in the country. These secrets are not secrets of guilt or shame, but the secrets of suffering, and they have been confided to Dr. R. V. Pierce in the hope and expectation of advice and help. That few of these women have been disappointed in their expectations is proved by the fact that ninety-eight per cent. of all women treated by Dr. Pierce have been absolutely and altogether cured. Such a record would be remarkable if the cases treated were numbered by hundreds only. But when that record applies to the treatment of more than half-a-million women, in a practice of over 40 years, it is phenomenal, and entitles Dr. Pierce to the gratitude accorded him by women, as the first of specialists in the treatment of women's diseases.

Every sick woman may consult Dr. Pierce by letter, absolutely without charge. All replies are mailed, sealed in perfectly plain envelopes, without any printing or advertising whatever, upon them. Write without fear as without fee, to World's Dispensary Medical Association, Dr. R. V. Pierce, Pres., Buffalo, N. Y.

DR. PIERCE'S FAVORITE PRESCRIPTION
Makes Weak Women Strong,
Sick Women Well.

A Knowing Girl.

When young Lord Stanleigh came to visit an American family, the mistress told the servants that in addressing him they should always say "Your Grace." When the young gentleman one morning met one of the pretty house servants in the hallway and told her that she was so attractive looking he thought he would kiss her, she demurely replied, clasping her hands on her bosom and looking up into his face with a beautiful expression, "O Lord, for this blessing we are about to receive, we thank thee."—Lippincott's.

Red, Weak, Weary, Watery Eyes. Relieved By Murine Eye Remedy. Try Murine For Your Eye Troubles. You Will Like Murine. It Soothes. See at Your Druggists. Write For Eye Book. Free. Murine Eye Remedy Co., Chicago.

The saddest case in this world is when one thinks the almighty has destined him to be happy at the price of another's misery.

Mrs. Winslow's Soothing Syrup. For children teething, softens the gums, reduces inflammation, allays pain, cures wind colic. See a bottle.

A thick head is apt to generate a multitude of thin ideas.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar coated, tiny, granules, easy to take. Do not grip.

Knock and the world will join in the anvil chorus.

Immense Saving Possible. In a preliminary bulletin on the cost of maintaining a tuberculosis sanatorium, the National Association for the Study and Prevention of Tuberculosis announces that the average cost per patient per day in thirty semi-charitable sanatoria scattered in all parts of the United States is \$1.669. These institutions represent an annual expenditure of over \$1,300,000 and over 815,000 days of treatment given each year. The bulletin, which is part of an extensive study the National association is making for its bureau of information, points out that the country could save annually at least \$150,000,000 if the indigent consumptives were properly segregated.

If there is plenty of room at the top, why do people who get there continue to fall off?

NEWS, WHEN IT IS

FOR ALL.

DOINGS OF DAY AND WEEK

Happenings the Wide World Over of Important Events Condensed to Good Reading.

DOMESTIC.

The department of agriculture Friday requested State Veterinarian Forbes to allow the hog demonstration train, in charge of Secretary Matthews of the Stock Yards Association of Fort Worth, to proceed in and out of Dayton, China, Liberty and Beaumont. These places are said to be under a stock quarantine because of the prevalence of charbon in that section of the state, and the officials of the demonstration train desire to visit the places on the tour in an effort to interest the people in hog raising.

A bill against the so-called "bath-tub" trust was filed in the United States circuit court at Baltimore, Md., Saturday by Edw. P. Grosvenor, special assistant to Attorney General Wickersham, who drew the petition, and Jos. Garling, special agent of the department, who made the investigation. It was discovered according to the government's bill, that the defendants had entered into a combination for the purpose of controlling the prices and terms of sales of their product throughout the United States. It is alleged that they refused to sell their goods to jobbers who refused to sign contracts.

The Russo-Chinese Bank of New York, one of the most powerful financial institutions of the Far East, is short \$70,000 in negotiable bonds which disappeared from its branch office some time last week, and there is no clew to the thief.

Hugh Smith, one of the best known saloon keepers of New Orleans, and prominent in the sporting world, having backed many prize fighters, was shot to death by his sweetheart because she caught him in company with another girl Friday evening.

Joseph Bush, the alleged leader of the mob which hanged Carl Etherington at Newark July 8, was arrested at Harper, Ohio, Friday. Bush has been in hiding at the home of his brother-in-law, Charles Huston, and was prepared to resist arrest.

Senator Albert B. Cummins of Iowa, in a speech before a Chautauqua audience at Council Grove, Kansas, Friday asserted that the pledge of the republican national platform for a revision of the tariff was not fulfilled and that Senator Aldrich and Speaker Cannon and the others who took the lead in framing the tariff bill had never attempted and never intended to keep the pledges of the party.

Five negroes were killed and two others were wounded in Elliott, Miss., Thursday, when seven negroes, taking issue with Deputy Sheriff Sid Cauley, who was endeavoring to take them into custody on a minor charge, advanced on the officer with farming implements as weapons and with the avowed intention of cutting him down. Cauley opened fire with two revolvers before the negroes came within striking distance killing five.

Mr. and Mrs. M. Smith of Hutcheson, Kan., were drowned at Corpus Christi Thursday. They were preparing to cruise and were taking goods from a wharf to a sailboat in a skiff rowed by a sailor named Oscar Lawson. The heavy sea capsized the skiff drowning both.

Work on the Colleagueport extension of the St. Louis, Brownsville & Mexico Railway is being pushed to completion. The 53-pound steel rail used in the construction of the branch line is being taken out of the main line between Algoa and Bay City and replaced with new 85-pound steel. Trains will be operating into Colleagueport during the latter part of the present month. Some four new stations will be opened up on this branch road between Buckeye, on the main line, and Colleagueport.

The Katy limited was derailed four miles south of Georgetown Thursday, throwing the engine, baggage cars and all of the coaches and sleepers off the track. A good portion of the train was turned over, but by some miracle no one was killed.

The largest shipments of peaches ever received in St. Louis within twenty-four hours glutted the market on Tuesday. Besides 130 cars for through trade, 100 cars were received for local consumption, causing prices to drop to bedrock. The receipts consist almost entirely of Elbertas from Texas, Georgia and Arkansas.

J. T. Macknight was arrested in Birmingham Friday by United States deputy marshals and released on \$15,000 bond. At the same time John H. Miller was arrested in Decatur and taken to Huntsville where he was expected to give bond. Both men were members of the bankrupt cotton firm of Steele, Miller & Co. of Corinth, Miss., and they are charged with sending forged bills of lading through the mails.

Special dispatches from the northern part of the state of Wisconsin tell of havoc being wrought by forest fires in the small lumbering towns. Manawa, a town of 400, and Heineman, a town of 500, were destroyed. Forest fires are raging in the vicinity of Wittenberg, and a large amount of timber has been destroyed.

Theodore Roosevelt hopes the republicans in Ohio will adopt a progressive platform, but taking an attitude in line with that of President Taft he declines to exert influence for any candidate in the anti-convention situation. He made this plain in New York Tuesday after a conference with Judge Reynolds Kinkade of Toledo, who is regarded as the second choice of those Ohio republicans who are supporting James R. Garfield for the gubernatorial nomination.

Finger marks found on a rifled safe in Liege, Belgium, last January, and duplicated in a little photograph print sent from Liege to the central office in New York, and finger marks freshly imprinted before the central office detectives Tuesday, led to the detention of a man giving the name of Louis Mendelbaum. He is charged with robbery.

Whitfield McKimley, a negro real estate agent of Washington, has been appointed collector of customs, the technical designation of the office being the port of Georgetown, D. C.

Thirty-three sacks of rough rice, the first of the new crop, was sold at the Board of Trade at New Orleans Monday at \$6 per barrel. The lot was shipped by P. A. Conrad of New Iberia who is said to have been the first for several seasons to get rice into the market.

Old Tom Blue, Harris County's oldest negro and said to be a former bodyguard to General Sam Houston, died Sunday at his home at Harrisburg at the age of 120 years. Blue was an old slave and was brought from Tennessee by General Houston shortly after the battle of San Jacinto.

Following Sunday's wreck on the St. Louis & San Francisco Railroad near Tolar, Tex., in which Engineer Decamp was killed, two small boys confessed Monday that they drove spikes in the ties next to the rail to "see what would happen." The boys are Harvey Davis, 13, and Daniel Gage, 14.

FOREIGN.

Antonio Maura, former Spanish premier, was wounded at Barcelona, Friday by a would-be assassin. His assailant was arrested. His name is Manuel Posa, and he is a native of Barcelona. Posa fired five shots at Senator Maura as he was leaving a train, wounding him in the leg. The ex-premier was hurried on board the steamer Miramar, where a doctor dressed his wounds, which are said to be very slight. He left immediately on board the steamer for the Island of Majorca.

It was reported at Hamburg Saturday that thieves on board the Hamburg-American Line steamer Amerika robbed Eva Stradford of New Jersey of jewelry valued at \$40,000. The Hamburg police authorities believe that the thieves belong to an international band said to be working on trans-Atlantic liners, members of which, it is alleged, committed a robbery on another Hamburg-American liner a few days ago.

A young woman who committed suicide at a hotel in Bourges, France, on July 13 is now believed to have been Ethel Clara Le Neve, the companion of Dr. Crippen. There are striking points of resemblance. The woman was a foreigner and gave the name of Jennie Maze. The police of Paris and London have been notified.

In the house of commons in London Wednesday Winston Spencer Churchill, the home secretary, outlined intended sweeping reforms in the prison system which are to be inaugurated, partly by administrative order and partly by new bills in parliament. His object, Mr. Churchill explained in an impassioned speech which greatly impressed the house, is to treat criminals with more humanitarian methods and as far as possible, to prevent their degradation by prison life.

Francisco I. Madero, candidate of the anti-re-electionist party for president of Mexico, who has been held in prison at San Luis Potosi, Mexico, on a charge of defaming President Diaz, was released on a bond of \$8,000 Wednesday.

COLQUITT NOMINATED FOR GOVERNOR OF TEXAS

LATEST RETURNS FROM 166 COUNTIES GIVE HIM A PLURALITY OF 60,000.

SUBMISSION CARRIED BY 20,000

Lane Has Lead for Controller--Harper Leads for Criminal Appeals Judge. Mayfield Safe for Railroad Commissioner--Lieutenant Governorship Yet in Doubt.

The latest returns from the primaries in Texas give Mr. Colquitt a plurality of 36,335 for governor over Poindexter, with Johnson only 1,400 votes behind Judge Poindexter. Colquitt's plurality probably will be in the neighborhood of 60,000.

The returns leave the race for lieutenant governor in doubt, with Davidson slightly in the lead.

Lane has a lead of 6,000 for controller over Teague and Barker, both of whom are nearly tied.

Harper leads Turner about 9,000 for judge of the court of criminal appeals, and is probably nominated.

Submission has made but a slight gain in the new returns, now leading by 12,900, and indicating a probable majority of 20,000.

Mayfield is thoroughly nominated for railroad commissioner.

Sparks is nominated for treasurer and Robertson for land commissioner.

Returns now show an average of about three to one in Beall's favor.

In the Seventh District Hon. A. W. Gregg defeated his opponent, State Senator C. C. Stokes—9,389 to 4,984—with all reports in excepting a few small boxes.

Congressman C. B. Randell was nominated in the Fourth District over B. Q. Evans by a decisive vote in all counties. With incomplete reports, Hunt was the only county showing a close vote in this district. The totals received showed, Randell 14,823, Evans 7,627.

In the Third District Hon. R. M. Lively was elected to fill the unexpired term of Congressman Gordon Russell, recently resigned. James Young was nominated for the regular term at the last report, the vote being: Young 5,772, Geddle 3,447, Andrews 1,905, Beavers 1,636.

Legislative Vote.

Reports from the various legislative districts have been so few and so scattering as to make it advisable to leave each to stand by itself rather than guess at results.

In the One Hundred and Seventh all reports show that McDaniel is running easily ahead of Shield and Sackett.

Broughton's election in the Twenty-eighth is said to be assured. Burleson County's vote for Rankin and Kraithan shows the latter just two votes ahead, with one small box to hear from.

Six boxes out of twelve in Liberty County show: For representative from the Twenty-first District—Harmon 161, Stevens 440.

In the Thirty-third District Vaughn and Nichols are running a close race, from partial returns. A report from Greenville says that in the special election to fill the unexpired term of Representative Westbrook, place No. 2, former Senator B. F. Looney was elected over Captain Cunningham by a vote of three to one.

In Ellis County's vote for representative from the Thirty-ninth, Anderson, Cox and White are shown running very close together, the latter a bit ahead.

The returns from all districts are, so far, very incomplete. With five small boxes to hear from, Galveston County gives Gregg 2,756, Stokes 4,574.

It is reported from Austin that Robertson has defeated Milton Everett.

In the florial race in Robertson and Milam, Leroy Hilyer of Milam is nominated.

The Congressmen.

In the congressional districts there was opposition in five districts, the incumbents in the other eleven being given another term without opposition.

The unopposed congressmen are:

First District—Morris Sheppard, Texarkana, Bowie county (re-election.)

Second District—Martin Dies, Beaumont, Jefferson county (re-election.)

Sixth District—Rurus Hardy, Corsicana, Navarro county (re-election.)

Eighth District—John M. Moore, Comand, Fort Bend county (re-election.)

Ninth District—George F. Burgess, Gonzales, Gonzales county (re-election.)

Tenth District—Albert Sidney Burleson, Austin, Travis county (re-election.)

Eleventh District—Robert L. Henry, Waco, McLennan county (re-election.)

Thirteenth District—John H. Stephens, Vernon, Wilbarger county (re-election.)

Fourteenth District—James L. Slayden, San Antonio, Bexar county (re-election.)

Fifteenth District—John N. Garner, Uvalde, Uvalde county (re-election.)

Sixteenth District—W. R. Smith, Colorado, Mitchell county (re-election.)

In the Third district J. H. Beavers and R. G. Andrews, both of Wood county, have made a thorough canvass for the seat formerly held by Gordon Russell; the contest for the unexpired term has already been settled.

DESERVED IT.

Rastus—Playin' poker hands las' night I accidentally threw five aces. Sambo—What did de oddsers do? Rastus—Threw me outer de window.

EPIDEMIC OF ITCH IN WELSH VILLAGE

"In Dowlais, South Wales, about fifteen years ago, families were stricken wholesale by a disease known as the itch. Believe me, it is the most terrible disease of its kind that I know of, as it itches all through your body and makes your life an inferno. Sleep is out of the question and you feel as if a million mosquitoes were attacking you at the same time. I knew a dozen families that were so affected.

"The doctors did their best, but their remedies were of no avail whatever. Then the families tried a druggist who was noted far and wide for his remarkable cures. People came to him from all parts of the country for treatment, but his medicine made matters still worse, as a last resort they were advised by a friend to use the Cuticura Remedies. I am glad to tell you that after a few days' treatment with Cuticura Soap, Ointment and Resolvent, the effect was wonderful and the result was a perfect cure in all cases.

"I may add that my three brothers, three sisters, myself and all our families have been users of the Cuticura Remedies for fifteen years. Thomas Hugh, 1650 West Huron St., Chicago, Ill., June 29, 1909."

How He Kept the Law.

"I noticed," said the friend-who-could-be-trusted, after a trip through the factory where preserves are made, "that a white powder is first put in the cans, and that the preserves are then put in the white powder."

"Yes," explained the proprietor to the friend-who-could-be-trusted, "that white powder is a preservative. You see we are compelled to put the preservative in a preservative because an idiotic requirement of the government makes it unlawful for us to put a preservative in the preserves."

Advice.

"Father," queried Bob, just home from college, "you've worked for me pretty hard nearly all my life, haven't you?"

"Quite right, quite right, son," mused father retrospectively.

"Just so," returned Bob, briskly. "Now, you had better get busy and work for yourself a bit—eh, dad?"—LIFE.

She's a Free Lance.

"Would you have a pickpocket arrested if you detected one in the act of going through your pockets?"

"With one exception."

"What's that?"

"Not if it was my wife."

As He Remembered It.

"Johnny, what did the minister preach about today?"

"It was about something that stings like an adder and bites like a multiplier."

There's vitality, snap and "go" In a breakfast of

Grape-Nuts

and cream.

Why? Because nature stores up In wheat and barley The Potassium Phosphate In such form as to Nourish brain and nerves. The food expert who originated

Grape-Nuts

Retained this valuable Element in the food. "There's a Reason" Read the famous little book, "The Road to Wellville," Found in Packages.

POSTUM CEREAL COMPANY, Limited, Battle Creek, Michigan.

O. B. COLQUITT.

The totals follow:

For Governor.

Poindexter	63,806
Davidson	44,258
Colquitt	114,930
Johnson	62,352

For Lieutenant Governor.

Thomas	68,995
Hawkins	32,930
Davidson	75,749

For Controller.

Lane	45,884
Burkes	27,171
Teague	37,030
Waller	15,108
Barker	39,281

For Court of Criminal Appeals.

Harper	59,492
McCord	42,157
Turner	47,329
For Submission	94,317
Against submission	80,481

Congressional Vote.

Returns from the various congressional districts show the nomination of Hon. C. B. Randell of the Fourth District, Hon. Jack Beal of the Fifth, Hon. A. W. Gregg of the Seventh, and Hon. John H. Stevens of the Thirteenth. None of the returns are complete, but they are so nearly so, and so decisive, that the results are practically certain. The only doubt seems to be in the Twelfth District, where Hon. Oscar Gillespie, the present incumbent, according to the latest returns, had received something like two hundred votes less than Oscar Callaway. The third candidate in this district, former State Senator D. M. Alexander, at the last count had received 3,261 vote, Galloway 5,187, and Gillespie 4,958.

In the "jumbo" Panhandle district (the Thirteenth) Congressman Stephens was nominated by an overwhelming vote. The count now gives Stephens 17,812 to Veale's 4,892.

Hon. Jack Beal was nominated by about the same proportion over his opponent, Dwight L. Lewelling, in the Fifth District.

Where Are Your Interests

Are they in this community?
 Are they among the people
 with whom you associate?
 Are they with the neighbors
 and friends with whom you do
 business?

If so you want to know what is happening in
 this community. You want to know the
 goings and comings of the people with whom
 you associate, the little news items of your
 neighbors and friends—now don't you?

That is what this paper gives you
 in every issue. It is printed for
 that purpose. It represents your
 interests and the interests of this
 town. Is your name on our sub-
 scription books? If not, you owe
 it to yourself to see that it is put
 there. To do so

Will Be To Your Interest

PROFITABLE DAIRYING
 By HUGH G. VAN PELT
 Dairy Expert Iowa State Dairy Association

Experience Is Invaluable

Unless the dairyman has had considerable experience in breeding, feeding and caring for dairy cows, it is not advisable for him to start in heavily with expensive, pure-bred animals. Experience teaches that a great many who have been desirous of building up excellent herds of pure-bred dairy cattle have spent fortunes in securing them, only to be disappointed, due to the fact that they have not given them the proper care and attention that animals of such improved nature demand. On the other hand, there have been those who have started in with a small number of pure-bred animals who have made great success, and I have in mind at this time one breeder who is perhaps one of the most popular breeders of dairy cattle in the United States, who boasts of the fact that he never bought but one cow. This was a great many years ago. He

actually not paying for the feed they consumed. He did not do this because it was his desire to do so, but he was not aware that there was so much difference between the different individuals in his herd. Today the wise farmer and breeder has had it proven to him that the above method is the only one by which he can accurately determine the true producing value of his cows. In the future the farmer who is paying close attention to his business and deriving from it the greatest of profits will weigh and test the milk produced by each of his cows, and those animals which are sold as surplus of the herd will be the inferior animals rather than the good ones.

Thus, by continually breeding better animals and saving the best that are produced, it is only a course of a short time until the dairy herd will be

A Poor Barn for Any Purpose.

writes me that he sold in one sale 90 head of cows, calves, etc., which brought him over \$8,000, and since that time he has sold six head of proper care is taken of these animals calves for \$550. The number of descendants from the one cow up to 1907 was between six and seven hundred. Besides this his letter reads that he has paid for his farm and raised his family from the products and offspring of this one cow, Golden Eye, which cow cost him when she was young \$300. He still has on his farm one cow that is a granddaughter of the old, original cow that is nearly twenty years old and has produced for him a dozen calves and, to use his expression, "has been what would be called a first-class cow for eighteen years."

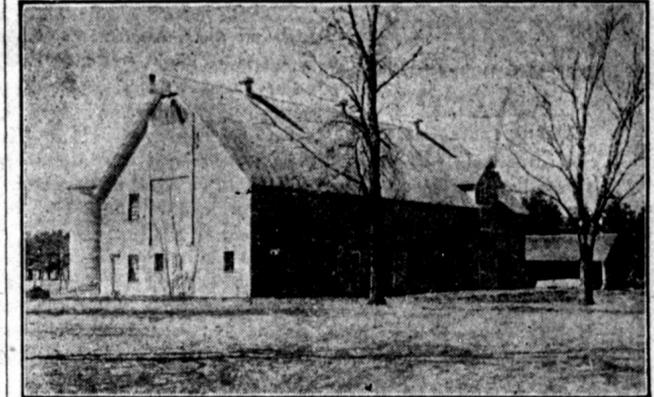

Keep the Boy and Girl on the Farm.

One of the chief problems of the farmer today is how to keep his sons on the farm and interested in the business. I know of no way more advisable than to give him a well-bred dairy helper or cow and allow him to care for and raise the female offspring, paying all expenses by the sale of the dairy products and male calves. It will be very surprising to note that if and proper attention is paid to the character of the sires used, in the course of twenty years' time, allowing a ten per cent. death loss in both the cows and the calves, that there is a possibility of the young man's owning a herd amounting in numbers to nearly 2,000 head. By so building up the pure-bred herd, the dairyman grows with the business and becomes educated in the best methods of caring for the cows, keeping the records, etc., as the herd increases, and I do not hesitate to say that the best herds which we have in the world today have been built up in this manner rather than by the purchasing of a large, pure-bred herd to begin with. By thus slowly increasing the herd it is possible for the breeder to keep close watch of his cows, always knowing which are the profitable ones and which are the unprofitable. It is true that even though the best of cows are used as a foundation and though the greatest of care is used in the selection of sires with which to mate them, there are always more or less disappointments which can only be found by the use of the scales and the Babcock test. By weighing each cow's milk at each milking period and by testing a day's yield once a month to determine the percentage of butter-fat, it is a very simple matter for the farmer to know at the end of the year how much milk and butter-fat each of his cows have produced. During the years gone by, it has been common policy for the farmer to sell his good cows and in many instances keep those cows on his farm which were

one of the greatest sources of profit on the farm. One of the great objections to dairy farming in the west at this time as well as one of the reasons why the dairy herds in this country do not produce more largely than they do is because the arrangement of the farm is not convenient for the business. We are now undergoing the transition period between grain and stock farming to stock farming and dairying, and more or less time will be consumed in rearranging the farms and equipment to make them suitable for dairying.

Better Barns.

In the first place, it is necessary to have better barns for dairy cattle than are customarily used for beef cattle. The dairy cow is confined to the barn for a large portion of the year and consequently the barn should be well ventilated, well lighted and sanitary in its construction if a good quality of

Main Portion of Dairy Barn at Iowa State College. (Planned by the Writer.)

milk is to be produced in large quantities. Owing to the fact that the cow converts her feed into milk and butter-fat rather than into beef, it is necessary for her to have better shelter because she cannot withstand the cold weather as can the beef steer whose body is at all times covered with a thick covering of fat which acts as a protection from the cold.

Seven Points Worth Considering.

In a barn for dairy cows the following points should be observed as essentials: Convenience, light, heat, ventilation, sanitation, confinement of odors and cost. From the standpoint of convenience, the cows should face feeding alley ways that are wide enough for both grain and roughage to be taken to them in the easiest and quickest possible manner. As a rule, it is advisable to have two feed alley ways with the cows facing outward. At the four ends of these two feeding

alley ways should be placed the grain-room, hay chutes and the silos. Light and sunshine are very essential in the dairy barn and they, together with heat, keep the barn dry and make it impossible for germ life and bacteria to grow.

Sunshine is a better destroyer of germs and bacteria than any commercial disinfectant. In planning the barn, the architect should provide for window space amounting to six square feet per cow. The dairy barn will be warm enough providing too much air space is not allowed for each cow and providing that it is possible to close the doors and do away with the customary wide cracks that are to be found so often in barns of the west at the present time. If the barn is kept as warm as it should be thorough ventilation is necessary.

Milk Should Be Clean.

When we call to mind the fact that milk is produced for the purpose of human consumption, we are impressed with the fact that it should be produced by sanitary methods and always kept scrupulously clean and free from dirt and dust particles which are so frequently permitted to gain access to the milk. If the barn is properly constructed this is not a difficult matter. The interior of the dairy barn should be as simple as possible and one of the secrets of providing the proper interior of a dairy barn is to have it as free from fixtures which will gather dirt and dust and, in consequence, germs and bacteria, as possible. All floor surfaces should be of cement because this is not only the most sanitary construction but in the long run it is the cheapest construction as it costs little more than wood to begin with and lasts for a lifetime. The stalls and partitions should all be made of iron gas pipe, comparatively inexpensive to begin with and, like the cement, once installed it remains for a lifetime, and even though the outside of the barn were to burn down the floor, stalls and stanchions would remain intact. This construction admits very little accumulation of dirt and dust and is very easily kept clean. In fact, in most sanitary barns that are constructed in this manner it is customary at intervals and in many instances every day to scrub the barn from one end to the other. Every portion of the barn should be set off by itself and especially should the cows be kept in their particular portion and all odor kept away.

Poor Butter.

It is a fact that the butter produced in the west is poorer in quality than the butter that was produced 15 or 20 years ago, and this is due largely to the fact that the milk is not cared for in the same manner that the butter-maker in the creamery in the past cared for the milk before separating it. By keeping the separator clean and by cooling down the cream or the milk as the case may be, and keeping it cool, it is possible to make even better butter today than ever before because butter-makers as a rule are more efficient and skillful in their operations than in the past.

The matter of cost is always to be considered as an essential point in the construction of any of our farm buildings, but the question is ever prevalent whether or not the barn built with the least cost is in the long run the least expensive. It is true that the best barn that can possibly be

The Modern Idea.
 "And you don't love him?"
 "No."
 "Then why marry him?"
 "Oh, I might as well. Every girl has to have a foolish marriage or two before she really settles down."

Aiding Horse

Hot Weather Hints for Dumb Animal

By P. EVAN JONES

FORSES become greatly fatigued the second day of a hot spell, the third day always causes some heat prostrations or sun-strokes, and each successive day brings more in a greatly increased ratio.

The fatigue of the second day increases until the horse is completely prostrated, soon becoming insensible, and dying in an hour or two unless he receives very prompt attention.

Panting, usually accompanied by profuse sweating, dilation of the nostrils, hanging of the head, drooping ears, slowing up, loss of animation and bloodshot eyes are the first symptoms of heat prostration. If the horse is forced along, he ceases to perspire, staggers and goes down.

Don't overfeed. It is generally believed that horses which die from sunstroke are suffering from indigestion. To keep the stomach in good order the best of hay and oats should be used, and a double handful of dry bran should be mixed with each feed of oats. It is best to feed a little less in hot weather than the horse has been accustomed to.

Don't overwork. It is the overworked horse that usually gets sun-struck. He is not able to do as much in hot as in mild or cold weather, and consequently should not be loaded as heavily, nor driven as fast nor as far.

Don't neglect to water often. Horses should be watered every hour or so on a hot day. When a horse begins to pant and show signs of weariness he should be allowed to stop in the shade and rest for half an hour.

See that the horse is provided with some protection for his head. A driver should no more think of leaving the barn on a hot day without a sponge than he would without a blanket in winter. When stopping to water the horses it takes but a moment to wipe off their faces and heads with the moist sponge, and it refreshes the animals wonderfully.

Never let pass an opportunity to leave your horses standing in the shade. Make your stops periods of rest to your coworker. If your horse is greatly overheated he should have some light covering thrown over him when left in the shade to prevent congestion.

In this hot weather be careful as never before of letting the wheels get into a rut. If in spite of all precautions this happens, jump down and put your shoulder to the wheel. Others will fall in line to assist you and three or four can easily life a wheel out of a place from which it is practically impossible for a horse to pull it.

Do not neglect the horse's feet in summer. Many seem to think that as there are no slippery pavements the way is easy. The heat generated in the shoe by constant friction with the heated pavement is transmitted through the protecting horn of the hoof to the sensitive inner parts and causes great distress. Take advantage of every opportunity to let the shoes cool off.

Never take "steaming" horses to the barn. Let them cool off the latter part of the way in, going very slowly. They should be sponged off, watered and rested before being fed.

Pranks of Some of Our Frisky Students

By ADOLPH C. VOGELER

Certainly no thoughtful person in his right mind, most assuredly no well-bred student or fond graduate of our glorious American institutions of learning, will for one moment think of denying the civilizing, elevating, spiritualizing influence of the hazings, rushes and initiations of some of our frisky students.

No callous, ignorant, prejudiced outside barbarian can ever learn to appreciate the wonderful, far-reaching results flowing from this reformatory work of our earnest student bodies exercised upon each other, supported by equally earnest faculties in

their laudable efforts to raise the standard of citizenship.

They improve morals, develop gentle manners, teach discipline, foster scholarship and learning, promote brotherhood, inculcate self-respect and respect for the rights of others and supreme respect for the law, insure peace, raise the social standard, engender friendship—oh, well, what's the use?

No mortal mind can ever hope to formulate all the grand things welling out of these excesses indulged in by our American students in their ebullient enthusiasm and connived at, condoned and fostered by wickedly weak, cowardly or self-blinded authorities in their mad desire to out rival in student numbers.

This state of things educates a set of selfish individuals who in subsequent years in business, in politics and in daily life may utilize their sharpened wits to ride roughshod over everything and everybody in their unrestrained lust for money, power and pleasure.

Dangers Lurking in Common Cup

By MARY LUELLA SHAW
Saratoga Springs, N. Y.

While my daughter and I were on our way from Albany to Saratoga Springs the other day a sick woman was carried on board the train who appeared to be in the last stages of consumption.

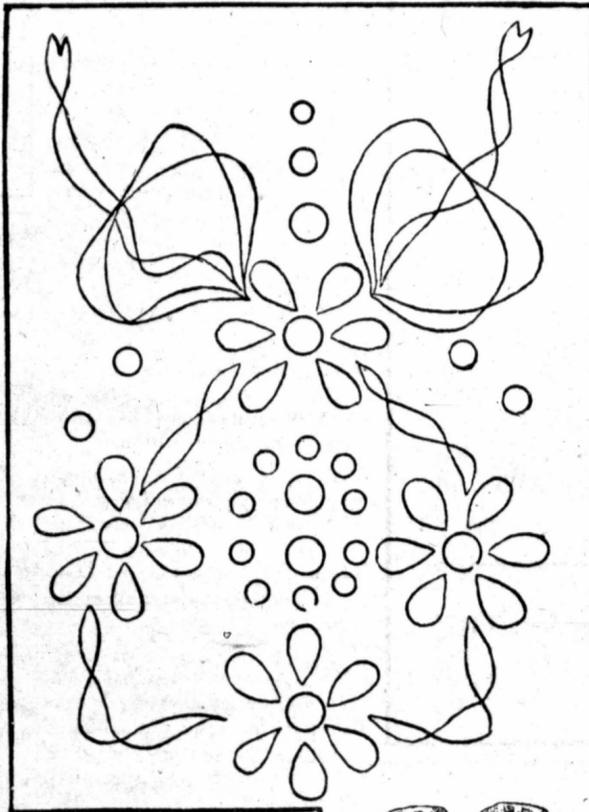

She was unable to speak above a whisper, but every few moments requested a drink, using the glass which was placed under the ice-water tank for the use of all passengers.

We could not help thinking of the many little children who, through the carelessness or ignorance of their parents, would in all probability drink from that

same glass, laden with the germs of the dreaded tuberculosis.

I write this as a warning to all travelers to provide themselves with collapsible drinking cups.

Dainty Embroidery

A DAINTY bit of embroidery to pick up at odd moments is a little white apron for sewing, chafing dish, or afternoon tea wear. These are not meant for real utility, these wisps of lace and muslin—they are merely delightfully feminine little creations which women like to don, especially when they stir things up with a spoon in the popular chafing dish. Then, too, they do protect the gown a little, especially a light summery one.

The apron must above all else be the last word in fineness and exquisite daintiness—even though very simple the materials must be fine.

Hand embroidered aprons are the prettiest models in the whole apron family, and any girl or woman who knows how to embroider should lose no time in adding one of these attractive trifles to her summer outfit, or make one or two for the coming winter.

The apron sketched is a becoming shape, and easily made. The three panels are joined by strips of lace and edged with a frill of valenciennes. The belt is of fine lace beading through which a blue or pink satin ribbon is run, which forms the strings to tie the apron.

The material may be fine handkerchief linen, muslin or batiste, as one fancies. To transfer the design lay the paper on a board or table with the design side up, place the fabric over it, and pin firmly in each corner. The design will show through the material; with a sharp lead pencil trace over every line, which will leave a neat, clear tracing of the design on the fabric.

Embroider in French embroidery for the dots and flowers and a wee Kensington outline stitch for the bow-knot. The thread should be the finest mercerized cotton.

THE ALWAYS USEFUL SERGE

Here is Model for Dress That Will Make Up Admirably in That Material.

A serge dress, as well as being smart and wearing well, is always useful. The princess part of our model is

taken to just pass the hips, where the plaited skirt is joined to it under a hem. Straps with pointed ends are taken across the shoulder and brought

through openings which are cut each side front and buttonholed or bound. The material over-sleeves are quite plain; the under-sleeves and yoke are of lace.

Hat with velvet brim, edged with straw; it has a chiffon crown and is trimmed with roses and an aigrette.

Materials required: Six yards serge 48 inches wide, 1 3/4 yards lace.

DAINTY IDEA IN LINGERIE

Combination Garment of Corset Cover and Drawers Both Useful and Practical.

Among the bargains in lingerie to be found in the shops just now is a combination garment of corset cover and drawers that is both dainty and practical. The material is a soft nainsook, sheer but firm, neatly fashioned, with neck and sleeves edged with scalloped embroidery and the drawers finished with a ruffle of scalloped embroidery.

A pretty waist of dressy description, though by no means elaborate, is of cable net, black, made over a foundation of Japanese silk. Tucks of the net alternating with bands of black silk trim the waist lengthwise.

Tucks, headed by the silk bands, run around the arms and the long, close-fitting cuffs are trimmed prettily with the silk.

An accordion pleated ruffle (graduated) finishes the front.

This is an especially good model for an elderly woman, and one that will be serviceable for many occasions.

Saving a Petticoat.

A good muslin petticoat rarely wears out at the top as quickly as does its ruffle. When the edge of the embroidery frays cut it off in an even edge, hem on the narrowest hemmer of a machine and add a ruffle of torchon or linen lace.

An expert on the machine can hem and sew lace at the same time. The lace should not be ruffled, but held in enough to prevent puckering.

AFTER FOUR YEARS OF MISERY

Cured by Lydia E. Pinkham's Vegetable Compound

Baltimore, Md.—"For four years my life was a misery to me. I suffered from irregularities, terrible dragging sensations, extreme nervousness, and that all gone feeling in my stomach. I had given up hope of ever being well when I began to take Lydia E. Pinkham's Vegetable Compound. Then I felt as though new life had been given me, and I am recommending it to all my friends."—Mrs. W. S. Ford, 2207 W. Franklin St., Baltimore, Md.

The most successful remedy in this country for the cure of all forms of female complaints is Lydia E. Pinkham's Vegetable Compound. It has stood the test of years and to-day is more widely and successfully used than any other female remedy. It has cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, and nervous prostration, after all other means had failed.

If you are suffering from any of these ailments, don't give up hope until you have given Lydia E. Pinkham's Vegetable Compound a trial.

If you would like special advice write to Mrs. Pinkham, Lynn, Mass., for it. She has guided thousands to health, free of charge.

WARFIELD BROTHERS,

Office North Side Public Square,
Crockett, Texas

Mr. and Mrs. Louis Miller arrived in Crockett Saturday night from New York, coming by way of the Mallory line to Galveston. Mr. Miller is manager for Swift & Co. in Crockett and was only recently married to a very charming little lady of Buffalo, N. Y.

To the Public.

Please take notice that no dinners or other meals will be sent out from the Harris hotel without an extra charge of 50 cents for each meal sent out. The price of meals at the hotel is 50 cents each. Frank Harris, Proprietor.

A Card of Thanks.

I wish to thank the good people of Houston county for the nice majority I received on the 23rd. I feel very grateful to my friends who stood by me so loyally; and to those who did not support me I have no ill feelings. I shall endeavor to show my appreciation of your support by a faithful performance of my duties in office, when elected. O. C. Goodwin.

Mary Allen Seminary.

The new president of Mary Allen Seminary to succeed the late Rev. J. B. Smith, D. D., is Rev. H. P. V. Bogue, D. D., of Alliance, Nebraska. He is expected to arrive in Crockett in a few days to take charge of the work of this institution for colored girls. He is well recommended to me and I hope will commend himself to our citizens.

S. F. Tenney.

A Card of Thanks.

I take this means of thanking those who supported me and voted for me in the democratic primary of last Saturday. I sincerely appreciate every vote that was given me and all the work that was done for me. With this feeling of gratitude there is also a feeling of the great responsibility that has been placed upon me. I shall work with all my might to make an efficient officer during the next two years. Gratefully yours, J. F. Mangum.

Dysentery is a dangerous disease but can be cured. Chamberlain's Colic, Cholera and Diarrhoea Remedy has been successfully used in nine epidemics of dysentery. It has never been known to fail. It is equally valuable for children and adults, and when reduced with water and sweetened, it is pleasant to take. Sold by Murchison-Beasley Drug Co.

Society Notes.

Mrs. J. H. Painter was hostess to a few friends on Wednesday evening from 9 to 12, complimentary to Mrs. P. R. Denman of Lufkin, and Mr. and Mrs. Willis Higginbotham of Stephenville.

Another delightful social function with the same honorees was given by Mr. and Mrs. J. S. Wootters on Friday morning. On this occasion Mrs. Wootters was hostess to the O. T. club. Progressive 42 was the theme, and many interesting and short games were enjoyed.

A menu of real loaf, tomato with mayonaise, sandwiches, crackers and iced tea was served.

Mr. and Mrs. J. D. Woodson and Mrs. Jno. Foster entertained Friday night complimenting Mr. and Mrs. Higginbotham, Mrs. P. R. Denman, Mrs. Jno. Foster, Jr., and Miss Turner.

Mr. and Mrs. A. M. Decuir entertained on Monday night complimentary to Mrs. W. R. Jordan of Louisiana and Mrs. H. C. Moore of Houston. Military forty two was enjoyed. Forts were named for home towns of guests as follows: Fort Stephenville, Lufkin, Crockett, Houston and Lake Charles. The game was a fight between Louisiana and Texas, Louisiana being victorious. A salad course was served and then ices. X.

Be sure and take a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy with you when starting on your trip this summer. It cannot be obtained on board the trains or steamers. Changes of water and climate often cause sudden attacks of diarrhoea, and it is best to be prepared. Sold by Murchison-Beasley Drug Co.

Kryptok Invisible Bifocal Glasses

The only near and far glasses that can be universally worn without discomfort, and without that suggestively old appearance. Bifocals that look and wear like plain glasses, but give you perfect double service.

Office at Dr. Beasley's residence until Saturday, Aug. 6.

Soda Water You'll Like

There isn't any better soda water than we make, because we have the fountain that keeps it ice cold, we know how to make it, how to serve it and what to put in it.

People like our fountain because of its attractive beverages. You'll like it, too, if you are not already one of its patrons. Not a bit of trick about it, only careful attention to giving you the best beverages.

Precinct Convention.

Proceedings of Democratic Convention held in precinct No. 2, July 23rd, Houston County, Texas:

Convention was called to order at 2 o'clock p. m. by C. L. Edmiston, chairman, who announced that nominations for permanent chairman were in order. C. L. Edmiston was placed in nomination which was duly seconded and on motion was unanimously elected permanent chairman.

Arch Baker was then nominated and on motion elected secretary.

A motion was made that the chairman appoint a committee of five to select delegates to the county convention. An amendment was offered that the committee to select delegates be composed of one supporter of each of the five candidates for governor. The amendment being put before the house was lost.

The chairman then appointed the following committee to select delegates: J. E. Downes, Thos. Self, T. H. Leaverton, John I. Moore and C. W. Moore. The committee then submitted the following report:

We your committee appointed to select delegates to county convention submit the following names: T. H. Leaverton, C. L. Edmiston, Thos. Self, J. E. Downes, Steve Hester, Bony Satterwhite, Henry Rice, Geo. Rosser, T. W. Thompson, W. B. Wall, John I. Moore and Jack Cash; which on motion was adopted. Motion made and duly carried that the delegates to the county convention be instructed for submission.

The following resolution was offered and adopted:

Resolved that the delegates from this convention to the county convention be instructed to present and urge the adoption of the following resolutions:

Whereas, one of the candidates for governor has publicly declared that the plan of securing the submission of a constitutional amendment prohibiting the sale of intoxicating liquors through a primary election and by platform demand is unconstitutional and that he will oppose the submission of such an amendment to the constitution by the legislature even if the proposition for submission should carry in the primary election and should it become a platform demand.

Therefore, be it resolved by the democracy of Houston county in convention assembled:

1. That we believe in the inviolability of platform demands, and that political platforms should declare the real policies and principles for which a party stands and that they are not mere subterfuges for getting votes:

2. That our delegates to the State convention be and they are hereby instructed to insist upon action by said convention that will compel the nominees of said convention and of the primary election to accept and endorse the entire platform of said convention.

And in the event any nominees of said convention should refuse to endorse and support any part of such platform that democratic voters in the general election shall be absolved from the obligation to support him in said general election.

On motion the convention then adjourned.

C. L. Edmiston, Chairman,
Arch Baker, Secretary.

Percilla Convention.

Saturday, July 23, 1910.

The Percilla precinct convention was called to order by chairman G. R. Sewell, and R. T. Lively was elected chairman and G. R. Sewell secretary for the ensuing two years.

R. T. Lively and G. R. Sewell were elected delegates to the county convention to be held July 30, 1910, with Dr J. W. Hayes and H. F. Newman as alternates. The delegates were instructed to try to send a delegate from our part of the country to the gubernatorial convention.

On motion of S. S. Elliott secretary was requested to send minutes of the convention to the Courier for publication.

G. R. Sewell, Sec.

When the digestion is all right, the action of the bowels regular, there is a natural craving and relish for food. When this is lacking you may know that you need a dose of Chamberlain's Stomach and Liver Tablets. They strengthen the digestive organs, improve the appetite and regulate the bowels. Mr. and Mrs. Mainor of Trinity attended the band concert and cream supper here Friday night.

Mr. Siah McConnell visited Lovelady Sunday.

Col. W. W. Davis Dead.

Col. W. W. Davis, perhaps the oldest living native citizen of Houston county, died at his home in this city on last Thursday night, after a prolonged illness, during which he gradually grew worse.

Col. Davis was born at Augusta, in the northern part of Houston county, during the early days when Texas history was being made, his parents being pioneers in Texas. At that time the Indians had not yet been driven out, the whistle of the steam locomotive was unheard and the weapons of modern defense were little dreamed of. Schools and churches were far apart and social privations were many. The forests were limitless and game abundant. With such environments Col. Davis grew to a vigorous manhood, commanding the love and respect of the old settlers as well as all new-comers. During his early married life he made Augusta his home, but later moved to Crockett and engaged in mercantile pursuits and here resided until his death. He was a devout member of the Methodist church, at which he was a regular attendant until becoming too enfeebled by ill health.

The remains were laid to rest in Glenwood cemetery Friday afternoon, the obsequies being largely attended not only by the citizenship of Crockett, but by people from all over Houston county.

To the Public.

After filling for years the position of county clerk, I feel that in accepting the result of an adverse vote at the recent primary I should indeed be unworthy of the trust and confidence which my friends for many years bestowed on me, if I failed to express to them collectively and individually the sentiments of a heart overflowing with appreciation and gratitude. You have indeed honored me and I do indeed in full measure appreciate it, and in whatever field I may be called in the future to labor for a living I shall carry with me a full and grateful sense of the loyalty and devotion of those who stood by me through the years agone.

And to those who in the exercise of their sovereign right of suffrage felt that they could not support me I wish to say that I bear and cherish no unkind, vindictive feeling, but accord them the same right to vote for whomsoever they pleased that I exercised myself. I can not forget that many of those, too, constituting the recent adverse vote were for years among my most zealous and enthusiastic supporters.

And to one and all, now in conclusion and farewell, you have my best wishes for a long life, and a prosperous and happy future.

Faithfully yours,
Nat E. Allbright.

Mrs. C. L. Edmiston, Mrs. Johnson Arledge and Mrs. Geo. W. Crook entertained on last Thursday evening for Miss Hillie Hart Johnson and Mr. Jamie Collins of Marlin. The entertainment was in the nature of a lawn party and was on the Edmiston-Johnson lawn. Games were played and refreshments served and the evening was most enjoyably spent. About thirty-five couples were in attendance.
