## COTTON SEED FLOUR BREAD

### Rich in Elements Which Create New Tissues and Enrich the Blood.

The following is an address delivered by Dr. Wm. W. Moore of Yoakum before the Texas Cotton Seed Crushers' Association convention at San Antonio on July 4th, 1910:

Mr. President and Other Members of the Texas Cotton Seed Crushers' Association:

I was requested by your efficient and aggressive Chairman of the Bureau of Publicity, Brother Allison, to address you upon the curative and reconstructive benefits to be derived from the uses of Cotton Seed Flour as an article of diet for humanity.

Having been at one time a practicing physician, and knowing the deficiencies of the proper elements which go to make up the greater bulk of our different food products and the necessity of including the almost prohibitive animal flesh to render the average man's diet a balanced ration, I have oftentimes pondered over the question of the future source of the food of the masses, and hailed with delight the announcement of Col. Allison through the different papers of the United States, his experience with Cotton Seed Flour as a palatable article of diet for long-suffering humanity; and I have followed with keenest interest all that has been written upon the subject, and have upon every occasion which has presented itself added my puny efforts towards the ultimate outcome of this movement, which means more to humanity than any like movement ever before promulgated.

In the past the medical fraternity has been groping blindly for a concentrated article of diet which they could feed patients suffering with the wasting diseases, such as Tuberculosis, Anaemia, Chlorosis, Typhoid Fever and Diabetes. In tuberculosis the demand has been for a food easy of assimilation and high in reconstructive elements. What single article of diet in all the world is better fitted to meet this requirement than is Cotton Seed Flour? Six times the strength of wheat bread, twice that of meat and eggs, and twice that of cod liver oil, and ninety-nine times more palatable. Most all tubercular patients have an aversion to any of the fatty foods, nor can they properly digest the necessary amount of the different articles of diet to make up for the destructive changes going on in their bodies. Cotton Seed Flour is the ark of safety in which these poor helpless victims may ride to physical perfection. In the treatment of Anaemia and Chlorosis we have to overcome an impoverished state of the blood, a condition which causes a general debility of the stomach and the other organs of the body, necessarily demanding that the patient should be supplied with a food not too bulky, but one rich in those elements which create new tissues and enrich the blood. Cotton Seed Flour Bread is the diet par excellence.

In the person of the one now addressing you, you see a living example of the excellent results to be obtained from the use of Cotton Seed Flour in the treatment of Diabetes. Four months ago I was upon what I then thought was my death-bed, and the attending physician said that I had but a short time to live. An analysis of my urine revealed to me the startling knowledge that I was afflicted with Bright's Disease. Just at this time I read an extract from one of the magazines of the day, setting forth the claims that Cot-

ton Seed Flour Bread was an excellent and palatable food; and knowing that the medical profession has tabooed all starchy foods in the treatment of my malady, I at once grasped at this straw held out to me by Brother Allison. I immediately commenced eating Cotton Seed Flour Bread, and wonderful to relate the change in my condition was miraculous. The most distressing of my symptoms left me at once. I rapidly gained in strength, and today am fourteen pounds heavier than I was at that time. I sleep like a log, while previous to that time my rest was interrupted by nightly attacks of insomnia. I have not for the past two months had a single attack of gastritis or indigestion, nor have I had a single attack of heart palpitation, two conditions with which I suffered two years previous to the time I took up the use of Cotton Seed Flour. Long may Col. Allison's memory live in the minds of the future races of mankind. He is the Moses that will lead the millions of humanity suffering with Tuberculosis, Bright's Disease and the half-starved and underfed paupers of our cities to the promised land of physical excellence, and the delightful feeling of a well filled stomach, in which there lurks not one single germ of pellagra, insomnia, hookworm nor poverty. I thank you, gentlemen.

### For Quick Relief from Hay Fever

Asthma and summer bronchitis, take Foley's Honey and Tar. It quickly relieves the discomfort and suffering and the annoying symptoms disappear. It soothes and heals the inflamed air passages of the head, throat and bronchial tubes. It contains no opiates and no harmful drugs. Refuse substitutes. Will McLean.

### From Sickness to "Excellent Health"

So says Mrs. Chas. Lyon, Peora, Ill.: "I found in your Foley Kidney Pills a prompt and speedy cure for backache and kidney trouble which bothered me for many months. I am now enjoying excellent health which I owe to Foley Kidney Pills." Will McLean.

In buying a cough medicine, don't be afraid to get Chamberlain's Cough Remedy. There is no danger from it, and relief is sure to follow. Especially recommended for coughs, colds and whooping cough. Sold by Murchison-Beasley Drug Co.

If your liver is sluggish and out of tone, and you feel dull, bilious, constipated, take a dose of Chamberlain's Stomach and Liver Tablets tonight before retiring and you will feel all right in the morning. Sold by Murchison-Beasley Drug Co.

### Ready For the Next One.

A generous and brave but very eccentric Virginia planter named Hill Carter, who had once been an officer in the United States navy, had a hand to hand battle at fistcuffs one day with his plantation overseer and came off second best. He therefore challenged the overseer to a formal duel, but the latter declined on the ground that, being a husband and father, he was under obligation not to risk leaving his family destitute. Carter at once removed that objection by settling upon the family a comfortable annuity. Then everything was got ready for the fight, but just as the two men faced each other the sheriff arrived on the scene, took them into custody and had them bound over to keep the peace. Mr. Carter did not, however, change the deed of gift with which he had provided for the overseer's family, remarking that he might wish some time to resume the interrupted fight and hence would rather keep everything in readiness for prompt action.—New York Post.

## Senator Stokes No More.

At the convening of the special session of the legislature, Senator Stokes was in his seat and ready for the duties devolving upon a law-maker, although worn out from the fatigue of a strenuous campaign and on the verge of an illness of a fatal termination, as later and sorrowful developments attest. Senator Stokes was a martyr to duty. His friends felt that he needed rest and so advised him, but Stokes felt that his time belonged first to the people and to himself afterwards. He could not be induced to leave his desk when important legislation was pending that required his attention, his approval or disapproval as the case might be. But no man can long master his physical being and there comes a time when the strongest will power is outdone. His nerves shattered, his brain racked and the hot, feverish breath that foreboded ill already upon him, he was compelled to take to his bed and it was only a few days until his condition was given out as serious. He was conveyed from Austin to a sanitarium at San Antonio, where the best skill known to the medical profession could be availed of, but the fever would not be cooled, the pallor forestalled nor the fatal malady successfully combatted. Crockett

was advised by wire Thursday night that Senator Stokes' life was despaired of. Dr. E. B. Stokes of this city, a brother of the senator, left immediately by train for San Antonio, but before he reached his destination the end of a life full of righteous ambition and loyal courage had come and Senator Stokes was no more except in the memory of those who loved and admired him. With him at the time of his death were his wife and his sister, Mrs. Hattie Cunyus of this city. The remains were prepared for burial and shipped to Austin, where arrangements were made to have the body lie in state in the senate chamber Friday afternoon. All members of the senate, the officers of the senate and many members of the house were at the Austin station to receive the body and escort it to the senate chamber, where many tributes were paid to the memory of the departed senator. His desk was draped in mourning and when the senate adjourned for the day it was out of respect for the departed member. A committee from the senate, composed of Senators Rathiff, Kellie, Adams and Perkins, was appointed by the presiding officer to accompany the remains to Crockett. The speaker of the house appointed also a committee, composed of the following representatives, Chester H. Terrell, Porter, Luce, Geo. B. Terrell, Fuller and Strickland, to accompany the remains to Crockett. Leaving Austin Friday night the party reached Crockett Saturday morning and the funeral occurred from the late home of Senator Stokes Saturday afternoon at 5 o'clock. The ministers paying tribute to the memory of the deceased were Rev. S. F. Tenney of the Presbyterian church and Rev. F. M. Boyles of the Methodist church. Following the ministers Representative Terrell of San Antonio and Senator Perkins spoke of the high regard in which the deceased was held, his worth in the law-making body and of the loss in his death to the state. The Masonic order, assisted by the Knights Templar branch, then took charge of the remains and conducted them to Glenwood cemetery, where the last sad rites were administered.

Senator Stokes was born near

Crockett, reared to manhood in here Crockett and he resided, with the exception of the time spent at Austin and previously in school, until his death. He was 36 years of age. A few years ago he had the misfortune to lose his first wife, who was Miss Etta Adams. His surviving wife was Miss Hillier of Austin. He is also survived by his father and mother, Mr. and Mrs. Chas. Stokes, two brothers, Dr. E. B. and R. C. Stokes, and three sisters, Mrs. Hattie Cunyus, Mrs. T. R. Deupree and Miss Annie Stokes. He was a leader in the Methodist church and taught a class in the Methodist Sunday school. His life was one truly worthy of emulation by young men and no doubt the example he set will have a good effect for many years to come. As a public citizen his ideals were the highest and as a personal friend he was grateful and true. His death has cast a gloom wherever he was known.

Be sure and take a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy with you when starting on your trip this summer. It cannot be obtained on board the trains or steamers. Changes of water and climate often cause sudden attacks of diarrhoea, and it is best to be prepared. Sold by Murchison-Beasley Drug Co.

## Developing Occupations

Productive occupations are important factors in our development. Any occupation or effort that seeks to substitute brain for brawn ought to be encouraged. Among this class of occupations we will mention the agriculturists and the inventor. These occupations build empires just as the carpenter and the brick mason build houses. The term agriculturists used in this discussion means the man who thinks as he plows. As an agriculturist Mr. Burbank has given us some two or three hundred improved varieties of fruits and vegetables, and in many instances enabled the producer to double production without effort or expense.

In no country are the processes of nature so easily interpreted and the hidden veins of new and bountiful industries so easily tapped as in Texas, and the man who can reason with nature—plan as he plows—will find Texas a profitable field of endeavor.

Plowing and Planning.

Our land has not yet felt the modifying influence of human skill in shaping its agricultural destinies, and the farmer who thinks as he plows is the man of the hour in Texas.

Men who give over their wealth to the advancement of education, establishing libraries and public institutions, do noble deeds, but the man who will make an acre of land double production or reduce the cost of production is by far the greatest benefactor of all mankind.

Next in importance to the agriculturist is the inventor. Eli Whitney, in giving us the cotton gin, reduced the cost of preparing cotton for the market \$120.00 per bale.

The Cotton Gin.

Every producer and consumer of cotton goods, past, present and future, has profited and will profit by the bright intellect of Eli Whitney. To develop our land we must first develop our men, and Texas presents glorious opportunities for bright young men who study and think as they work.

L. Murchison is plaintiff, and the unknown heirs of J. R. Burleson, deceased, the unknown heirs of James E. Night, deceased, the unknown heirs of John E. Nite, deceased, the unknown heirs of John C. Oliver, deceased, the unknown heirs of Griffin A. Bynum, deceased, the unknown heirs of Wm. A. Bynum, deceased, Jacob Bowdoin and R. L. Bowdoin and J. J. Bynum are defendants, the cause of action being alleged as follows:

Suit to remove cloud from plaintiff's title to the following described tract or parcel of land, to-wit:

Situated in Houston County, Texas, about 11 miles west from the city of Crockett, being a part of the J. R. Burleson survey, same being the Wm. A. Bynum 160 acre tract out of said Burleson survey, and being the north half of a 320 acre tract out of said Burleson survey known as the Oliver tract, all of which is a part of the J. R. Burleson 1048 acre survey, and bounded and described as follows:

Beginning at the N. W. corner of the S. half of said 320 acre tract, a red oak 14 in. brs—36 E. 5 vrs. Thence N. 35 W. with the Fernando del Valle 11 league line, at 645 1-2 vrs, corner on the Box or J. R. Smith 185 acre tract. Thence N. 55 W. with the S. bdy line of said Box or Smith survey 1500 vrs to the S. E. corner of same. Thence S. 35 E. with said Oliver E. B. line at 645 1-2 vrs to the N. E. corner of the S. 1-2 of said Oliver 320 acre tract. Thence S. 55 W. with the division line of the 320 acre tract at 1500 varas to the place of beginning, containing 160 acres of land.

That plaintiff claims title to said land under a chain of title as set out in said original petition. Plaintiff also alleges that he and those through whom he claims title to said land have had peaceable and adverse possession of the same, cultivating, using and enjoying the same under title and color of title from the sovereignty of the soil, for a period of more than three years, next, before the commencement of this suit.

Plaintiff also alleges that he and those under whom he claims title to said land have had peaceable and adverse possession of the same, cultivating, using and enjoying the same under deeds duly registered and paying all taxes due thereon for a period of more than five years, next, before the commencement of this suit.

Plaintiff also alleges that he and those under whom he claims title to said land, claiming to have a good and perfect title thereto have had peaceable and adverse possession to the same for a period of more than ten years, next, before the commencement of this suit, cultivating, using and enjoying the same and in addition to his title as set out in his petition he claims title to said land under and by virtue of the statute of limitation of three years, the statute of limitation of five years and the statute of limitation for ten years.

That the loss of deeds and records and the pretended claim set up by defendants, the nature of which is unknown to plaintiff, creates a cloud upon the title of plaintiff to said land which he seeks to have removed by this suit.

You are further commanded to serve this citation by publishing the same once in each week for eight successive weeks previous to the return day hereof, in a newspaper published in your county; but if no newspaper is published in said county, then in the nearest county where a newspaper is published.

Herein fail not, but have you before said court, on the said first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

Witness J. B. Stanton, clerk of the District Court of Houston County.

Given under my hand and seal of said court, in the city of Crockett this 8th day of August, A. D. 1910.

## DIED A HERO'S DEATH

MAYOR AND FIREMAN DEAD,  
FOUR INJURED.

## CRUSHED BY FALLING WALLS

Mayor Ran Within Danger Line to  
Caution Firemen—Three Others  
Hurt—Fire Loss \$300,000.

El Paso, Tex.—With the mayor of the city and one fireman dead, four firemen injured and one of the handsomest buildings and the largest dry goods stock in the city in ashes, El Paso is now in gloom. Smoke was seen issuing from the basement of the Calisher Dry Goods Company, in the Buckler Block Sunday morning. The fire department was promptly on the scene and fought the unseen fire for three hours, when the flames finally burst through the roof. All efforts were then directed to confine the fire to the Buckler building.

The tragedy came at 9:50 when the falling walls buried Mayor Robinson, who had run within the danger line to beg the firemen to get away, and the six firemen he was trying to save. The mayor and fireman Todd Ware, were instantly killed and Assistant Fire Chief Dave Sullivan and Fireman Robinson are seriously injured. Firemen Smith and Cook escaped without injury by crowding into the entrance of the building. A great crowd on their way to and from church witnessed the tragedy, among them being Mayor Robinson's wife and two children.

The dead: Mayor William F. Robinson, every bone in his body broken; died instantly; Fireman Todd Ware, of Sabinal, both legs and both arms broken and skull crushed; died instantly.

The injured: Assistant Fire Chief Dave Sullivan, scalp wounds and bruises; will recover. Fireman William Robinson, leg and arm broken, internal injuries; serious. Fireman Arthur Hull and L. E. Barber, slight. The total loss will amount to not less than \$300,000, as follows: Mrs. C. N. Buckler, on building, \$60,000; insurance, \$30,000; Calisher Dry Goods Company, stock and fixtures, \$200,000; insurance, \$125,000. American National Bank, which had temporary quarters in the building while its new building was being erected, \$1,500; insured. There were twenty-nine other tenants occupying offices and rooms in the building, all of whom except one lost everything because of their confidence in the ability of the firemen to confine the fire to the basement.

## MILLIONS OF DOLLARS LOSS

Appalling Devastation by Floods in Japan.

Tokio.—The devastation wrought throughout many districts by the recent floods is appalling. Whole villages and towns have been washed away and many lives have been lost. In sections of Tokio alone 30,000 houses are submerged. Communication by railroad throughout the flooded area has been interrupted. The loss amounts to millions of dollars.

## A HUNDRED CARLOADS SYRUP.

Fort Bend County Firm Receives Contract for Large Shipment of Sweetness.

Richmond, Tex.—Fort Bend County has the honor of having recently made one of the largest contracts ever made in the state. Ten brothers, three of the most successful planters in the county, were awarded the contract to furnish 100 carloads of syrup to a Northern jobbing firm.

## Selling Ranch Lands.

Taylor, Tex.—A couple of land deals involving nearly \$50,000 were consummated Saturday when Francis A. Allison sold 246 acres of the San Gabriel ranch tract to Joe Huser of near Granger for \$29,200, and 223 acres of the same ranch tract to John Hubz for \$16,500.

## Had Lost Faith In Doctors and Medicines

"I wish to thank you for the sample of Resinol Soap sent me several weeks ago," writes Mrs. M. F. Clemmer, Sunbury, Pa. "At that time my baby's face was like a raw and bleeding piece of meat. Medicine from three different physicians, besides various salves recommended by friends, all seemed to make the Eczema worse. Then another mother recommended Resinol Ointment which I procured at once, although I had no more faith in it than in the rest I had tried; but never did I spend fifty cents to better advantage. The first and second days I noticed a remarkable change, and now at the end of the third week, my pretty blue-eyed, rosy-cheeked baby is perfectly well again. I think the cure was surely something remarkable. Resinol Ointment and Soap did in three weeks what everything else failed to do in four months. My baby had been positively disfigured, now his complexion is all right again."

Resinol Ointment cures all skin troubles, from pimples to the most disfiguring eruptions and rashes. The first application stops the intense itching of Eczema, Itching Piles, Pruritus, etc., and subdues the pain of a burn or scald instantaneously. It is sold in every leading drug store in the world.

Booklet on Care of the Skin and Complexion sent free. Write for it. Resinol Chemical Co., Baltimore, Md.

## TOO LATE.

Dr. Pillem—There must be something radically wrong with your system to have your hair fall out so. You will have to diet.  
Skantlox—Dye it? I'm afraid, doc, there's not enough of it left to dye.

## LEG A MASS OF HUMOR

"About seven years ago a small abrasion appeared on my right leg just above my ankle. It irritated me so that I began to scratch it, and it began to spread until my leg from my ankle to the knee was one solid scale like a scab. The irritation was always worse at night and would not allow me to sleep, or my wife either, and it was completely undermining our health. I lost fifty pounds in weight and was almost out of my mind with pain and chagrin as no matter where the irritation came, at work, on the street or in the presence of company, I would have to scratch it until I had the blood running down into my shoe. I simply cannot describe my suffering during those seven years. The pain, mortification, loss of sleep, both to myself and wife is simply indescribable on paper and one has to experience it to know what it is.

"I tried all kinds of doctors and remedies but I might as well have thrown my money down a sewer. They would dry up for a little while and fill me with hope only to break out again just as bad if not worse. I had given up hope of ever being cured when I was induced by my wife to give the Cuticura Remedies a trial. After taking the Cuticura Remedies for a little while I began to see a change, and after taking a dozen bottles of Cuticura Resolvent in conjunction with the Cuticura Soap and Cuticura Ointment, the trouble had entirely disappeared and my leg was as fine as the day I was born. Now after a lapse of six months with no signs of a recurrence I feel perfectly safe in extending to you my heartfelt thanks for the good the Cuticura Remedies have done for me. I shall always recommend them to my friends. W. H. White, 312 E. Cabot St., Philadelphia, Pa., Feb. 4 and Apr. 13, 1909."

## DRIVEN ALMOST CRAZY.

Bakersfield, Cal., Woman's Awful Suffering.

Mrs. H. W. Heagy, 1515 L St., Bakersfield, Cal., says: "Doctors failed to help me and I was in despair. The kidney secretions scalded terribly and passed too freely. I often staggered as if drunk. I could not lie in bed over half an hour. My side was numb, sight affected, and a tingling sensation covered my body. It actually seemed as if I would go crazy. I was saved from fatal Bright's disease by Doan's Kidney Pills and my health improved wonderfully."

## In the Desert.

Here is a glimpse of the horrors of a western desert, taken from the Goldfield (Nev.) News: "Another desert victim is reported, and Archie Campbell, manager of the Last Chance mining property near Death valley, came to Goldfield yesterday to endeavor to establish the identity of the unfortunate.

"Mr. Campbell encountered the unknown man on the desert in a frightful condition. He was in the last stages of desert-exhaustion, devoid of clothing, sunburned, blistered and crazed, with his tongue swollen enormously, a pitiable object, and unable to speak.

"He was tenderly conveyed to camp and everything possible done for him, but kind aid came too late, for an hour after he had absorbed the first cup of water he expired."

## A Bernhardt Trick.

Mme. Sarah Bernhardt, who is supposed to be something of an artist as well as an actress, was recently called upon in one of her marvelous creations to enact the role of a sculptor, and to model a certain bust in view of the audience. This fairly electrified the critics, but when going into rhapsodies over the technical skill in handling the clay which Mme. Bernhardt exhibited they showed that they knew little of the artistic tricks of actors and actresses; as a matter of fact, she does nothing of the kind. The bust is modeled and baked, and over it is placed damp clay of the same color. The talented actress merely pulls off, exposing the beautifully modeled head underneath.

## More Likely.

It is said that the Nicaraguans would rather fight than eat. But don't jump at the conclusion that this is an indication of great courage. It may mean poor cooking.

## Keeping It Dry.

An old woman of a wealthy New Jersey family was going visiting. The coachman, who had not been in this country long, had just been equipped with a new uniform and a new silk hat. Before they had gone far it began to sprinkle, and the old woman told the coachman to fasten down the side curtains of the wagonette.

He drove up to a hitching post beside the road and, dismounting, hung his new hat on the post, and began to fasten the curtains.

The old woman noticed his bare head and asked him where his hat was.

"Oh took it off me head, mum, so as it wouldn't get wet," the coachman replied.

### DOMESTIC.

As a result of cerebral hemorrhage, Ex-Senator G. C. Stokes of the Thirteenth District died in San Antonio Friday. He was stricken at Austin ten days ago and was rushed to San Antonio for treatment. On reaching there he was unconscious and remained in that state until he died.

An arraignment of President Thomas L. Lewis, international organizer and the executive board of the United Mine Workers, and a complaint of the disbursements of the funds, by Frank Feehan, president of the Pittsburgh district, occupied most of Saturday's session of the National Convention of Mine Workers at Indianapolis.

Saturday thirty-seven members of the Columbus, Ohio, police force flatly refused to obey orders to serve as guards on street cars. The other men who finally acceded to Mayor Marshall's demand and went on duty are seriously disaffected. The mutineers were not assigned to other duty and Mayor Marshall said they would be dismissed from the force.

Surpassing even the success of the pageant of last year's cotton carnival, which was then pronounced one of the finest civic parades ever beheld in the South, the civic parade Friday, as it wound its way through avenues filled with more than thirty thousand people, was a revelation of beauty and structural detail to the citizens and visitors of Galveston. About one hour was consumed in passing a given point, and as creation after ceation of the brain and handiwork of man came into view, the citizen felt justifiable pride in the pageant spread out before the eyes of his guests.

Lawyers' expense accounts, running as high as \$300,000, a single fee already paid amounting to \$750,000 and contingent fees still pending that would aggregate about \$5,000,000 figured in the investigation of the Indian land affairs by the special committee appointed by the house of representatives at Sulphur, Oklahoma, Saturday.

Joseph Wendling, who was returned to Louisville Saturday after a remarkable chase, to stand trial on the charge of killing little Alma Kellner, is a prisoner of the commonwealth of Kentucky, for the jurisdiction of Chief of Detectives John P. Carney, who made the long distance race for his prisoner, and of the Louisville police, ceased when Jailer Pfanzner received the noted prisoner at the Jefferson County jail.

With the selection of Denver for the conclave of 1913 and the election of officers, headed by William B. Meish of Cincinnati as grand commander the business of the thirty-first triennial conclave of the Knights Templar was practically concluded at Chicago Thursday. It required three ballots to gain the coveted prize. First—Denver 111, Los Angeles, 106, New Orleans 76. Some of the New Orleans strength went to Denver on the second vote, which was Denver 130, Los Angeles 105, New Orleans 45. On the last ballot New Orleans withdrew in favor of the leader and the count made Denver the winner, 160 to 100 for Los Angeles.

General Sebastian Salinas and Dr. Barrios, representatives at Washington of the Madriz faction in Nicaragua, had an interview at the state department Saturday with Huntington Wilson, acting secretary of state, and presented a formal representation, which, if accepted, in their opinion would bring about a settlement of the troubles which have been seething in the Central American republic.

The fourth annual meeting of the South Texas Gardeners commenced in Brownsville Friday. Rev. J. W. Rowland of the Methodist Church delivered the invocation. Mayor Kowalski followed with a speech of welcome to the gardeners. He spoke of the great development of the valley brought about by these thrifty gardeners. J. H. Arbense of Sarita replied to the mayor's address, after which the program was taken up.

The first bale of cotton to be raised in Harris County was received in Houston Wednesday. The bale weighed 545 pounds and was raised by S. D. Frazier at Allief and was classed strictly middling.

More than a hundred negro ministers of Washington, in a mass meeting Wednesday denounced Southern lynchings and appealed to the American people to rally to uplift the negro race in the South, but when W. E. Stewart of Little Rock took up a collection, after a fervent appeal for aid for the Arkansas Baptist College (colored), he got only 30c.

The schedules in the case of Heaton & Polk, druggists and bankers of Humble, who were adjudged bankrupts last week, were filed in the offices of the federal court in Houston Tuesday and in the schedules their liabilities are placed at \$34,840.60, with assets claimed to be worth \$53,995.36, of which amount property to the value of \$570 is claimed as exempt under the bankrupt laws of the state of Texas. The schedules show accommodation paper to the amount of \$300.

The theory that William L. Rice, the wealthy attorney whose body was found near his Euclid Heights home in Cleveland, Ohio, on Friday night, was assassinated for revenge was abandoned by the police Monday. The discovery of new clues, all of which point to attempted robbery being the motive of the crime, have confirmed their opinion that hold-up men are responsible for the lawyer's death.

The funeral in Austin of Walter F. Colquitt, the little son of Hon. O. B. Colquitt, was held Monday. The services were conducted by Rev. W. D. Bradfield of Dallas, a long-time friend of the family, assisted by Rev. V. A. Godbey, pastor of the Tenth Street Methodist Church.

With the election of officers and the transaction of other business, the sixth annual convention of the Commercial Employing Printers of Texas, held at Galveston, finished their work and adjourned Saturday.

Two men are dead and seven are badly hurt as the result of an explosion on the sixth floor of the corn house of the Corn Products Refining Company at Granite City, Ill., Saturday. The sixth floor was completely wrecked and it was almost half an hour before the men could be taken out.

### FOREIGN.

Arrest and extradition of Ira Briscoe, nephew of George I. Ham, president of the failed United States Banking Company, of Mexico and formerly his assistant in the management of the bank's affairs, were formally asked for Friday by Judge Miramon of the seventh court of instruction of the City of Mexico. The charges against Briscoe grew out of testimony given by Ham, now a prisoner awaiting trial on charges of abuse of confidence and fraud in connection with the handling of the bank's funds.

Hubert Latham, coming from Bouy, flew over Paris at a high altitude Friday and landed at Issy les Moulineaux. The four aviators, Paulhan, Weymann, Latham and Withe, are now engaged in a final effort to capture the London Daily Mail's prize of \$5,000 for the longest total of cross-country flights made during the year ending Aug. 14.

Lesnyn, the aviator, fell with his aeroplane from a height of 100 feet Saturday at Charleroi, Belgium, and suffered injuries that will probably prove fatal.

Hsi-Liang, viceroy of Manchuria, has formally demanded of the Japanese consul the withdrawal of all the Japanese staying at Kai Ping, in Ch' Li province, and other places not open to the residency of foreigners.

General Estrada, accompanied by General Chamorro, left Bluefields on Thursday for the interior, after receiving ammunition and guns from the yacht Hornet, which arrived on Tuesday. General Estrada with a considerable body of troops, will form a junction with General Mena at Acoyapa. General Duron has been left in charge of the military operations around Bluefields.

It is reported in London that the authorities have discovered a clew to the certain identity of the body unearthed in the Hilldrop Crescent home of Dr. H. H. Crippen. The clew was obtained during an exhaustive examination of the body made by Professor Pepper, who, it is said, has obtained conclusive evidence that the sex was feminine. The analysis, so far as the prison theory is concerned, was not completed, but it is reported that the physician found evidences that at some period the woman had undergone a surgical operation. If this can be established the authorities claim they will have gone a long way in proving that the victim was Belle Elmore.

Advices from Costa Rica say there was a severe hurricane last week on the Atlantic coast, destroying bananas worth more than \$1,000,000 and belonging principally to the United Fruit company. The telephone and telegraph wires from Limon to San Jose are down and traffic was suspended for several days.

# SPECIAL SESSION OF THE LEGISLATURE

## WHAT THEY ARE DOING

### In the House.

Austin, Tex.—Shortly after the secretary of the senate announced in the house the passage of Senator Hudspeth's bill repealing the present fire rating board law the house Saturday voted favorably on the measure submitted by its committee creating a new fire rating board, the vote being 69 to 32.

In the house Saturday a free conference committee report on the state bond refunding bill by Senator Ward was adopted. A call of the house was necessary to secure a quorum of the members.

This conference report is an entirely new bill. It provides for the issuance of a batch of new bonds, 1910 bonds, which take up an issue of 1870, due July 1, 1910, and an issue of 1879, due Sept. 1, 1910, amounting to \$1,353,500. The new bill fixes the rate of interest born by the bonds at 3 per cent.

The house bill provided at 4 1-2 per cent interest rate. The bonds mature in forty years, with a twenty-year redemption option.

The house adopted a free conference committee report on the Bowles prize fight pictures bill. The measure was passed by both branches of the legislature last week, but was returned by the governor Friday for minor corrections, the principal change being to make the caption and the body of the bill conform.

The Denison city charter bill, providing a commission form of government and permitting a majority of the city commissioners to elect certain municipal officers over the opposition, if any, of the mayor, was passed.

The Van Zandt County road law, reducing the length of time required by citizens to work on the county roads from ten to five days, was passed.

A bill by Messrs. Robertson of Travis and Schluter, appropriating \$1,200 to repair three boilers in the state deaf and dumb institute, was passed.

The senate bill appropriating \$2,500 for the North Texas asylum for the insane, was passed to a third reading.

### New House Bills.

Bills introduced in the house were: By Looney—Prohibiting the sale, gift or exchange of intoxicants in bawdy and assignation houses, defining such places, and making each violation of this act a misdemeanor, punishable as such. By Gilmore and Currey—Van Zandt County road law.

Substitute for Car Shed Bill. Subcommittee substitute bill for the house car shed measure was favorably reported by the house committee on labor Saturday. The new bill eliminates a constitutional question raised against the original bill by a correction. It also cuts out a provision of the original bill which excluded from those protected by the act car inspectors.

Governor Signed West Texas Bill. Governor Campbell Saturday signed the house bill passed by the special session of the legislature providing for the reorganization of the seventh judicial district, a West Texas district. He has had an opportunity to sign very few bills during the present special session, as few have yet come to him.

### Ten-Mile Law.

Austin, Tex.—In the senate Friday a resolution of sorrow in the death of Senator C. C. Stokes of Crockett was adopted as the first order.

Senator Cofer and his prohibition associates offered a resolution to require that judiciary committee No. 2 report the house ten-mile law, which was laid to rest by the committee on Thursday.

Senator Cofer spoke at length in favor of the adoption of the resolution. After concluding his speech, Senator Cofer was roundly applauded.

Senator Meachum moved to table, and said that the anti, following the opinion of the distinguished gentleman from Cooke County only recently nominated for the presidency by the State convention, would not discuss the question.

The resolution was then tabled by a vote of 16 to 14, thus finally disposing of the ten-mile law at this session.

### Until After Adjournment.

The senate judiciary committee No. 2 Thursday postponed action on the house bill in favor of the ten-mile law until August 18, which date is several days after the necessary adjournment of the special session of the legislature.

### Senate Killed Quart Bill.

Austin, Tex.—When the senate convened Saturday after recess the pending business was the quart bill signed by fifteen senators. It held the unlucky calendar number of 13 and was killed in exactly ten minutes. There were two reports on it, an adverse majority and a favorable minority report. Without debate the motion to adopt the minority report was lost by a vote of 11 to 12 and the majority report adopted by a vote of 13 to 11.

The bill signed by fifteen senators requiring the saloons to be closed from 7 p. m. to 7 a. m. was, at the request of Senator Meachum, leader of the anti, allowed to lie on the table subject to call.

Then came the senate bill prohibiting the sale of liquor within ten miles of the State University, its branches, and the A. and M. College. The motion to adopt the favorable minority report thereon was lost, 10 ayes and 15 noes. The alignment was the same as on other votes except Senator Holsey, who voted no, saying: "I believe this bill is unconstitutional."

"I congratulate the senator from Lamar (Mr. Sturgeon)," said Senator Weinert, "for he has converted one vote to our side." The remark was received with laughter and the adverse majority report was then adopted, 15 to 10, killing the bill.

Next on the calendar was the Cofer bill amending the election law so as to provide for the nomination of state officers by majority vote instead of by the present plurality method. The senate killed it without discussion, the adverse majority report being adopted by this vote:

Ayes—Harper, Hudspeth, Hume, Kauffman, Meachum, Murray, Paulus, Peeler, Real, Senter Terrell of McLennan, Watson, Weinert, Willacy—14.

Noes—Alexander, Brachfield, Bryan, Cofer, Greer, Holsey, Mayfield, Sturgeon, Terrell of Bowie, Terrell of Wise, Veale, Ward—12.

### Two Bills Signed.

Governor Campbell signed two bills Thursday. The first was the pure food bill, securing a considerable sum of money for the Agricultural and Mechanical college, and the second provides for the refunding of more than \$1,000,000 State bonds.

Austin, Tex.—The following messages from Governor Campbell were received in the house of representatives Thursday:

To the Legislature: By virtue of authority vested in me by section 40, article 3, of the constitution of the state of Texas, I hereby designate and present to you for your consideration the following subjects and suggest legislation thereon:

1. Legislation providing for the incorporation of the city of San Antonio, Bexar county, Tex., and to grant it a new charter; to provide for a commission form of government; to define its powers and to prescribe its duties and liabilities and to provide for the approval of said charter by the qualified electors of said city, and to declare an emergency and to repeal all acts in conflict therewith.

2. The enactment of a law to repeal chapter 72 of the special laws of the thirty-first legislature creating a special road law for Lamar County, approved March 17, 1909, and to enact a law authorizing and empowering Lamar County or any political subdivision of said county by a vote of two-thirds majority of the resident property tax payers, qualified voters of such county, or political division thereof, voting thereon, to issue bonds and levy and collect taxes, to pay the interest on such bonds and to provide a sinking fund for the redemption thereof, for the purpose of constructing, maintaining and operating macadamized, graveled or paved roads and turnpikes, and such other legislation in respect thereto as may be deemed appropriate. Very respectfully,

T. M. CAMPBELL,

Governor of Texas.

To the House of Representatives: Complying with concurrent resolution No. 5, I herewith have the honor to return for amendment and correction house bill No. 5, entitled "An act to prohibit the exhibition of prize fight or glove contests and obscene, indecent or immoral show or exhibition, by means of moving picture films or other devices in moving picture shows, theatres or any other place whatever, etc." and declaring an emergency. Very respectfully,

T. M. CAMPBELL,  
Governor of Texas.

**Leonard Wood**

Reprinted from an article by Theodore Roosevelt in The Outlook, by special arrangement with The Outlook, of which Theodore Roosevelt is Contributing Editor. Copyright, 1910, by The Outlook Company. All Rights Reserved.

Gen. Leonard Wood has just returned from South America to take up his duties as chief of the general staff of the United States army, the highest military position which the service affords.

Nearly 12 years ago, when Leonard Wood was acting as governor of Santiago, I wrote in the Outlook about what he had already achieved, and what he could be trusted to achieve. During the intervening 12 years he has played a very conspicuous part among the men who have rendered signal service to the country by the way in which they have enabled it to grapple with the duties and responsibilities incurred by the Spanish war. What has been accomplished in the Philippines, in Cuba, in Porto Rico, in Panama, and in San Domingo during these 12 years represents a sum of achievement of which this nation has a right to be extremely proud. In each locality the problem has been different, in each locality it has been solved with signal success. Of course there have been mistakes and shortcomings, but on the whole it would be difficult to find anywhere a finer record of successful accomplishment. This record is primarily due to the admirable quality of the men put at the head of affairs in the different places. Messrs. Taft, Luke Wright, Smith and Forbes, Messrs. Hunt, Winthrop, Post and Colton, Governor Magoon, Colonel Goethals—to these and their colleagues and subordinates the country owes a heavy debt of obligation.

Most of those I have mentioned are civilians. Colonel Goethals, under whom the gigantic work of the Panama canal is being accomplished, with literally astounding rapidity and success, is a representative of the army. The share of the army in the honor roll is very large. The importance of work like that of General Bell in the Philippines, of General Barry in Cuba, can hardly be overestimated; but, as a whole, of all the work of the army officers, the greatest in amount, and the greatest in variety of achievement, must be credited to General Wood. And, moreover, he has at times combined with singular success the functions of civil administrator and military commandant. The part played by the United States in Cuba has been one of the most honorable ever played by any nation in dealing with a weaker power, one of the most satisfactory in all respects; and to General Wood more than to any other one man is due the credit of starting this work and conducting it to a successful conclusion during the earliest and most difficult years. Like almost all of the men mentioned, as well as their colleagues, General Wood of course incurred the violent hatred of many dishonest schemers and unscrupulous adventurers, and of a few

more or less well-meaning persons who were misled by these schemers and adventurers; but it is astounding to any one acquainted with the facts to realize, not merely what he accomplished, but how he succeeded in gaining the good will of the enormous majority of the men whose good will could be won only in honorable fashion. Spaniards and Cubans, Christian Filipinos and Moros, Catholic ecclesiastics and Protestant missionaries—in each case the great majority of those whose opinion was best worth having—grew to regard General Wood as their special champion and ablest friend, as the man who more than any others understood and sympathized with their peculiar needs and was anxious and able to render them the help they most needed.

His administration was as signally successful in the Moro country as in Cuba. In each case alike it brought in its train peace, an increase in material prosperity, and a rigid adherence to honesty as the only policy tolerated among officials. His opportunity for military service has not been great, either in the Philippines or while he was the governor of Cuba. Still, on several occasions he was obliged to carry on operations against hostile tribes of Moros, and in each case he did his work with skill, energy, and efficiency; and, once it was done, he showed as much humanity in dealing with the vanquished as he had shown capacity to vanquish them. In our country there are some kinds of success which receive an altogether disproportionate financial reward; but in no other country is the financial reward so small for the kind of service done by Leonard Wood and by the other men whose names I have given above. General Wood is an army officer with nothing but an army officer's pay, and we accept it as a matter of course that he should have received practically no pecuniary reward for those services which he rendered in positions not such as an army officer usually occupies. There is not another big country in the world where he would not have received a substantial reward such as here no one even thinks of his receiving. Yet, after all, the reward for which he most cares is the opportunity to render service, and this opportunity has been given him once and again. He now stands as chief-of-staff of the American army, the man in which he was serving in a subordinate position as surgeon 13 years ago. His rise has been astonishing, and it has been due purely to his own striking qualification and striking achievements. Again and again he has rendered great service to the American people; and he will continue to render such service in the position he now holds.

**IS TOO MUCH HANDSHAKING?**

Other Ways of Greeting Friends That Are Much Preferable, According to Writer.

Although a few have suffered the unpleasant experience of the man in the case recently reported, the bones of whose hands were forced out of place by the vise-like grasp of a too vigorous and unduly demonstrative friend, most people will be inspired by their personal recollections to sympathize with this victim of a misdirected ardor. Everyone knows people who seek to express the sincerity and earnestness of their good-will by squeezing the hand they take as though they were trying to break every one of the score or so of bones which the human hand comprises, and every one on such occasions must have wished that some other form of salutation than the one most in vogue had been devised and were generally practiced.

Shaking hands is a relic of barbarism anyhow. It became the custom in the days when every one carried a dagger in his belt and when one friend meeting another thought it necessary to attest the peacefulness of his intentions by extending an open palm. Then the other man could do no less than make a similarly reassuring demonstration and the grasp of these two extended hands naturally followed. Subsequently, by a logical process of evolution the handshake grew to be the conventional form of greeting and the refusal of a proffered hand was regarded as one of those insults whose dishonor can only be wiped out with blood. Now the custom is too firmly and widely established for its abandonment to be conceivable, and

yet there are various things about it which render it unsatisfactory.

Rather surprisingly it has thus far escaped the denunciations of the doctors, who have spared no little else, as a possible occasion for the communication of injurious microbes, but one does not have to be a President of the United States, nor even a popular politician engaged in a canvass for votes, not sometimes to have wished that the handshaking habit had never been contracted. There are so many ways of shaking hands that are objectionable and there are so many different kinds of hands whose touch communicates a sensation not exactly pleasant. Hands that are too hot or too cold, too moist or too dry, or whose inertness communicates an uncomplimentary sense of indifference on the part of their possessors.

Every one is familiar with the handshake in which all the shaking has to be done by the party of the first part, in which the hand one grasps lies limp and lifeless in one's own, to be taken or left, to be squeezed or let drop, as one pleases, while the attitude of the owner suggests an absolute lack of interest in the proceedings. Behold, that also is vanity and vexation of spirit. So is the question which recurrently arises, and which it may be suspected is the source of much secret embarrassment, the question of to shake or not to shake. Etiquette has its rules for this, but no rules etiquette can formulate will cover every case that may arise, and to determine the right thing may not always be easy.

It will be seen that the Chinese plan has its advantages. The Chinaman you meet does not shake your hand. He bows and shakes his own.—Philadelphia Inquirer.

HERE is no sweeter of play like the consciousness of work well done; with all who obey her duty has a habit of reinforcing delight.—J. R. Miller.

**DIET HINTS.**

A good complexion is worth striving for. An inactive liver, the cause of many complexion ills, is a condition that may be remedied, if not cured, by close attention to diet and exercise. The making of beds, is said by those who know, to be the best of exercise for the liver. Those who sit a great deal are apt to have sluggish liver. A good rule to observe is to stand at least half an hour after eating, walking slowly is better; the food has thus a better chance to digest.

A cup of hot water taken on rising, is recommended by some physicians, and a glass of cold water on retiring. As to foods that will remedy this state of liver, fruits, such as apples, prunes, figs, dates and strawberries are essentials of daily living. One physician advocates the use of a few ounces of plain molasses candy at the end of a meal. Fruits may be eaten at any time. All broths except mutton are good; poultry and beef, vegetable and vegetable soups are desirable on this dietary list.

No treatment that is limited to the diet alone will show any beneficial results unless exercises are taken in connection. Walking briskly should be regarded as part of the treatment. At least an hour each day should be spent in this healthful exercise. Night and morning, when unrestrained by tight clothing, different exercises should be taken. An excellent one to quicken the action of the liver is to stand or sit twisting the body first to one side and then the other as far around as it can go without one's moving on the seat; the object is to pull cords and muscles in the abdominal region. Many exercises unless carefully followed are decidedly harmful instead of helpful.

AS THE uncouth oyster, that lies beneath the deep, With in its rough and homely shell a precious pearl may keep—As gems of precious value and veins of richest gold May lie beneath the surface of a naked, bloomless mould—So God oft hides a heart with the noblest traits endowed In one to whom he hath no outward grace allowed.

—James Gardner.

**FRUIT SIRUPS AND JUICES.**

Fruit sirups for sauces, drinks, ices, ice creams and other desserts is one of the most desirable of ways to preserve fruit. Almost any fruit can be used. Care must be taken not to boil the juice too long as it destroys the color. If carefully put up in sterilized bottles well sealed, it keeps the year round.

One recipe will answer for all fruit juices and may be bottled with or without sugar. Currant juice if sterilized and canned may be used at any time of year for making jelly, adding sugar and cooking the required time. The amount of sugar to use in the fruit sirup depends upon the fruit used, for grape juice a cupful of sugar is sufficient for a quart of the juice; currants require more, a pint of sugar to a quart of juice. The only difference between juices and sirups is that more sugar is used in sirups.

**Sardine and Toast Salad.**

Skin a dozen large French sardines and shred finely. Toast as many long narrow strips of white bread thoroughly brown, cover with olive oil and let stand an hour to season. When ready to serve mix the bread and fish together, season with salt, cayenne and a little lemon juice, rub a small piece of toast with garlic and remove just before serving.

**Fig Salad.**

This dish may more properly be called a dessert than a salad. Steam a dozen pulled figs until soft, pour over them a cupful of strained honey. Let the dish stand on ice until serving time. To two cupfuls of whipped cream add a quarter of a cupful of fruit sirup and serve.

Give the baby orange juice several times a day. It may be given to very young babies. It is a hard thing not to make a baby a plaything, but the parents who really care for their children let them lie for hours alone, and they are handled only when being cared for.

A vanilla bean kept in the loaf sugar box imparts a delicate flavor.

Galveston, Texas.—The State democratic convention came to a close Wednesday after an interesting session, featured by the complete annihilation of the opponents of O. B. Colquitt and his policies and debate over the platform and by the endorsement of Senator Joseph W. Bailey for the nomination for the presidency in 1912.

Senator Bailey made an address in defense of the platform against a minority report submitted by Cone Johnson and his followers.

JOSEPH W. BAILEY.

It was a glorious day for the Colquitt forces from the minute that Chairman Phillips rapped for order at 11 o'clock in the morning until final adjournment at night. Every step in the proceedings was a triumph for him. Caught in the maelstrom of an overwhelming majority, the opposition fought bitterly; but the more joyful were the Colquitt forces as they swept along, nominating him for governor and carrying all before them.

It was also a day of triumphs for Senator Bailey, having for a climax the enthusiastic endorsement of the convention for the nomination to the presidency of 1912.

The Colquitt platform, carrying all his policies and including a resolution calling upon the legislature to act upon the fire insurance law and go home, was adopted by viva voce vote that shook the building after the opposition had twice been overwhelmed in a division vote on the minority report read by Cone Johnson and signed by himself and three other minority members of the platform and resolutions committee.

Although this minority report included several proposed amendments to the majority report incorporating Johnson's ideas and the Randell plank relating to public servants and public service corporations, the Johnson contingent centered its fight upon section 9, seeking to have an amendment added indorsing to a certain extent the administration of Governor Campbell and the present course of the administration.

#### Democratic State Platform.

Following is the text of the majority report of the platform committee, which was adopted by the convention:

#### Representative Government.

We believe that a representative democracy is the most perfect form of government ever devised by the wisdom of man and we are unalterably opposed to every attempt to destroy or impair the excellent system established by our wise and patriotic fathers. We hold it to be the first and highest duty of every representative to faithfully execute the will of his constituency fairly ascertained.

#### Strict Construction of Constitution.

2. We hold the constitution to be a solemn compact between the government and the people adopted for the protection of individuals and minorities, and we insist upon a strict con-

struction of its letter as well as a faithful observance of its spirit.

#### For Local Self-Government.

3. We believe in maintaining the federal government in its full constitutional vigor; in preserving the rights of the states of the union; in the time-honored doctrine of local self-government and in simple, economical and honest administration of the government in all its departments.

#### Tariff for Revenue.

4. We reaffirm the tariff declarations of the democratic state and national platforms of 1896 and we expressly condemn the proposition to remove all duties from the manufacturer's raw material so long as such duties remain on the manufacturer's finished product.

#### Against Extraordinary Legislative Sessions.

5. Whereas, Section 8 of article 4 of the constitution of the state of Texas limits the power of the executive to convene the legislature in special session to "extraordinary occasions," we declare the calling of the extra sessions of that body on other than "extraordinary occasions" unjust to the tax payers of the state and unauthorized either by the latter or the spirit of that instrument.

#### Declare for Submission.

6. In obedience to the instructions given in the democratic primary of July 23, 1910, we call upon the thirty-second legislature of Texas to submit to the people for their rejection or approval a constitutional amendment prohibiting the manufacture and sale of intoxicating liquors in this state, but we declare that a vote upon such amendment should not be a test of democracy.

#### Liberal Educational Policy.

7. Believing that an educated citizenship is the best assurance of good government and good conduct, and recalling the wise and generous provision made by the fathers of the republic of Texas for the establishment of a complete system of public education from the primary school to the university, we remind the legislature that our school system has not kept pace with the educational progress of the times, but has suffered in organization and maintenance.

We demand, therefore, the perfection of the common school system of this state and the adequate provision for the upbuilding of the university, the agricultural and mechanical college, the normal schools and the other educational institutions controlled by the state. Provision should be made for efficient county organizations and rural high schools, encouragement of manual training for district or county agricultural training schools and the separation of the agricultural and mechanical college from the State University. Provision for a liberal and independent income for the state institutions of higher learning should be made.

#### Reform in Prison Management.

8. We favor divorcing the management of the penitentiaries and our eleemosynary institutions from political control to the end that they will not suffer the disturbance of changes in administrations, and we recommend independent boards of control with tenure of office so arranged as to prevent a complete change of management at any time. We insist upon a faithful application of the wise and merciful policy of moral reform and mental and manual training in all penal institutions.

#### Political Peace—Adjourn and Go Home.

9. We believe that the general welfare demands that the people shall not be annoyed by constant political agitation, and they should be relieved therefrom in order that they may undisturbed pursue their usual avocations to the end that they may be contented and prosperous, and we promise an intelligent and strict enforcement of the law as it is by lawful judicial laws, only as absolutely necessary to protect the public and the rights and liberties of the people, and we recommend that the thirty-first legislature, now in special session, dispose of the fire rating board law, adjourn and go home.

#### Square Deal Policy.

10. Realizing that the development and prosperity of Texas require that there shall be harmony between the producers, the merchants, farmers, manufacturers, laborers and capitalists, and that no such harmony can exist except under just and equal laws, we pledge ourselves to the enactment and enforcement of such laws.

#### For Confederate Women's Home.

11. We favor the adoption of a constitutional amendment making provision for the establishment of a home for the widows of confederate soldiers.

#### Indorse Democratic Administrations.

12. We congratulate ourselves that the democratic party has controlled the government of the state for nearly forty years, and that during that time no scandal has ever marked its administration, and we expressly commend the present state administration for writing into the statutes of the state the platform pledges of the party.

#### Appeal to People.

13. With renewed hope in the principles of democracy and a firm and abiding faith in the capacity of the people for self-government we, again appeal with confidence to the intelligence and patriotism of the voters of Texas.

#### Resolutions.

We heartily indorse the work now being done by our State Industrial Congress and commend it to the generous support and aid of the people of our entire state."

"Resolved, by the assembled representatives of the democratic party of Texas, That we profoundly regret the illness of our distinguished senior United States senator, Hon. Charles A. Culberson, and hope for him a speedy recovery to his wonted health and vigor and we unqualifiedly indorse the faithful and able service of Senators Culberson and Bailey in the American congress.

"Resolved, That we disapprove of laws requiring a citizen of Texas to leave the county of his residence and attend court at Austin to defend suits involving the title to school lands and recommend to the thirty-second legislature that all such suits in behalf of the state shall be tried in the county where the lands is situated, as required in other land suits.

"Resolved, That we indorse and commend to the favorable consideration of the people of Texas the great industrial and educational movement inaugurated and successfully led in this state by Judge V. W. Grubbs of Hunt County, who has unselfishly devoted many years of his life and a comfortable fortune to the cause of better education in Texas.

"Resolved, That the law providing for a criminal district court for Harris and Galveston counties be so changed that such court shall remain established in Harris County only. In lieu thereof the district courts, or one of them, and the county court in Galveston County shall exercise such criminal jurisdiction as is conferred upon such court by the constitution and laws, and the said criminal district court shall be abolished as to Galveston County."

#### Text of Minority Report.

Following is the text of the minority report, which was rejected by the convention:

The undersigned, a minority of your committee on platform and resolutions, beg leave to report as follows: We recommend that the platform and resolutions submitted by the majority of the committee be amended in the following particulars:

1. Amend section 4 of the platform by substituting therefor the following:

"That we hereby affirm our allegiance to the Denver national democratic platform of 1908 on the tariff question as sound and democratic and to the best interest of the people."

2. Amend the platform submitted by the majority by striking out section 9 of the same.

3. Amend the platform submitted

by the majority by adding another section to read as follows:

"We favor a law to prohibit public officials from accepting fees or emoluments from the public service corporations while they hold a commission from the people, to the end that they may be free from any suspicion of wrongdoing."

4. Resolved, That we indorse the course of Hon. Charles A. Culberson and those representatives in congress from Texas for voting in favor of free lumber and free iron ore, and commend them for obeying the provisions of the Denver democratic platform. (Substitute for resolution of majority indorsing Culberson and Bailey.)

5. Amend the majority report by adding thereto the following:

"The absolute obedience to instruction of the people by those holding their office in indispensable to the integrity of representative government. We regard it as a wholesome text for civil instruction and as a touchstone by which to test the service of those we trust, and we declare that those who accept the people's office and refuse to obey their instructions are embezzlers of power."

#### Doll House Library.

A search for a child's short story, "The Griffin and the Minor Canon." In a volume all by itself revealed to a persistent city shopper the thought and money that are expended on the furnishing of dolls' houses. Book stores had not the story in a single volume, but in a department store one young woman interviewed had recently been transferred from the toy department and was able to contribute a helpful hint.

"I think," she said, "you can find it in one of the dolls' houses downstairs." Curiosity had by that time become a sauce to literature, so the shopper hurried downstairs to inspect the doll houses. Three of the most expensive houses contained libraries consisting of a score of diminutive books and each book contained a child's story complete. One of them was "The Griffin and the Minor Canon."

### Resolutions.

Whereas, Almighty God, in his infinite wisdom and inscrutable providence has called away our beloved brother, Charles Collins Stokes, in the prime of life and in the midst of a brilliant and useful career, and

Whereas, in his life our departed brother exemplified the loftiest qualities of the citizen, friend and Pythian manhood; therefore be it Resolved by Davy Crockett Lodge 193 Knights of Pythias, that in the death of brother Charles Collins Stokes, Pythianism has lost a member whose splendid character reflected true glory upon the order to which he belonged.

Resolved that Texas and Houston county have lost a citizen whose public and private life have contributed to the true welfare of the country;

Resolved that the cause of Christianity has lost a true follower of the Master whose gentle demeanor proclaimed his genuine discipleship;

Resolved that we mourn his loss, but not as they who have no hope;

Resolved that a copy of these resolutions be spread upon the minutes of this lodge; that a copy be furnished the Crockett Courier and Houston County Times for publication and that a copy be sent to the family of our departed brother.

### Another Death Saddens the town.

Already saddened with grief, the hearts of our people were again made to bleed Saturday morning by the intelligence that death had again visited our midst and this time removed from among us the beloved wife of the pastor of the First Methodist church, Rev. Geo. W. Davis. Mrs. Davis expired at 4:30 o'clock Saturday morning. She was a victim of appendicitis, from which malady she had suffered for about a week. The attendant physician had called to his aid on the previous day Dr. Jameson of Palestine for the purpose of performing an operation, but it was decided on the arrival of the Palestine physician that the condition of the patient was not such as to permit an operation. Mrs. Davis continued to grow worse until the end came early Saturday morning. The remains were prepared for shipment to Bowie, the old home, and on Saturday night were started on the long and sad journey, accompanied by the sorrowing husband. Although not long a resident of our city, Mrs. Davis had made many friends since coming here, and there is universal sorrow among our people. She leaves behind a devoted husband and two young children, who have the heart-felt sympathy of this community in their loss.

### Tried an Experiment.

Mr. N. Avery, Delhi, N. Y., had two houses exactly alike, and painted them: one Devoe lead-and-zinc; the other barytes-and-zinc. He paid same price for both paints.

He used six gallons of lead-and-zinc, 12 gallons barytes-and-zinc. He paid \$18 for painting lead-and-zinc, \$36 for painting barytes-and-zinc.

The total cost of the lead-and-zinc job was \$27; the total cost of the barytes-and-zinc job was \$54.

He didn't know he was buying barytes; the dealer told him that paint was as good as Devoe.

A fair example of how it generally comes-out, when you buy "something just as good." Better go by the name: the name; and the name is Devoe.

### Acute or Chronic—Which?

No matter if your kidney trouble is acute or chronic Foley's Kidney Remedy will reach your case. Mr. Claude Brown, Reynoldsville, Ill., writes us that he suffered many months with kidney complaint which baffled all treatment. At last he tried Foley's Kidney Remedy and a few large bottles effected a complete cure. He says, "It has been of inestimable value to me." Will McLean.

### Resolution.

Whereas, this house has learned with profound regret of the death of Hon. C. C. Stokes, Senator from the 13th Senatorial District and former member of the House of Representatives, and

Whereas, we deeply deplore the untimely death of this distinguished citizen and faithful public servant of the people who has been cut down in the prime of life. In his death the State has lost a faithful official whose motto was "A public office is a public trust." Society has lost a faithful champion of civic virtue and his family a faithful and devoted husband.

Therefore, be it resolved, by the House of Representatives, that we extend our heartfelt sympathy to the family of the deceased in their great bereavement and that a copy of this resolution be spread upon the Journal of the House and a copy forwarded to the family of the deceased.

Resolved further, that a committee of five members of the house be appointed by the Speaker to attend the funeral of Senator Stokes at his home in Crockett, and that when the house adjourns to-day that it do so out of respect to the memory of the deceased.

### Democratic Prohibition Mass Meeting.

At a conference of prohibition democrats from all five counties, composing the 13th Senatorial district, held at Palestine on August 15, it was decided that it would be wise to have a mass meeting of all prohibition democrats in said district to be held at Palestine at an early day. The purpose of such mass meeting will be to agree upon some prohibition democrat who will be acceptable to all the prohibitionists in said district to make the race for the nomination of Senator to fill the vacancy caused by the death of Senator Stokes. It is important that as many prohibition democrats as possible attend said mass meeting and we earnestly urge them to be prepared to go on short notice as the date of said mass meeting will be announced in a few days. It is our opinion that the selection of a good, able prohibitionist democrat should be the first consideration of this mass meeting and we urge the friends of prohibition in advance to lay aside their prejudices and go there prepared to select a man who will be acceptable to the prohibition democrats generally.

### A LETTER.

Read before the Interstate Cotton-seed Crushers' Association at Their General Convention in Little Rock, Ark., May 24-25-26, 1910.

130 West Fifty-ninth Street,  
New York, May 17, 1910.

Jo W. Allison, Esq.,  
Ennis, Texas.

Dear Sir:—Having for many years made diabetics a special study, I have been particularly interested in the kinds of food suitable for their use. The withdrawal for a time of starchy food is one of the most important elements in their treatment. This means depriving the patient, among other things, of all kinds of bread. This is a considerable hardship to the patient, and we are, therefore, continually on the outlook for some sort of food that may be substituted for the ordinary bread, and may be both nutritious and pleasing to the patient without introducing the starch which to him is so harmful.

On theoretical grounds Cotton Seed Flour should afford a satisfactory food for diabetics. Analyses made in my laboratory show that it contains no starch, and only a very small quantity of digestible carbohydrates with a high content of protein and fat, which, if present in a form suitable for easy digestion, mark it as a food of very high nutritive value. The high fat percentage makes it particularly desirable as a diabetic food, and I am quite sure that the fat, at any rate, is present in a form suitable for nutritive purposes.

I am at present conducting some feeding experiments which should throw further light on the question of its food value.

Another important factor is the cheapness of this food. As you are no doubt aware the Proteins and Fats are as a rule far more expensive in proportion to their energy furnishing capacity than the carbohydrates. The price at which this fat protein food can be marketed makes its economic aspects of considerable importance,

not only to the diabetic, but to all who are able to use it.

I have succeeded in making some fairly palatable bread without the addition of other kinds of flour. I have great hopes that cotton seed flour will prove as useful in practice as the chemical analyses seem to indicate its value in theory.

I remain yours very truly,  
(Signed) T. Stuart Hart, M. D.  
Associate in medicine, College of Physicians and Surgeons, Columbia University, New York.

### CAN'T BE SEPARATED.

Some Crockett People Have Learned How to Get Rid of Both.

Backache and kidney ache are twin brothers.

You can't separate them. And you can't get rid of the backache until you cure the kidney ache.

If the kidneys are well and strong, the rest of the system is pretty sure to be in vigorous health.

Doan's Kidney Pills make strong, healthy kidneys.

J. F. Leathers, of Crockett, Texas, says: "A soreness across my kidneys made me miserable, and when I heard that an acquaintance had been cured of a similar trouble by Doan's Kidney Pills, I began using the remedy. One box fixed me up in good shape. Doan's Kidney Pills were procured at Sweet's Drug store, and I take pleasure in giving them my endorsement."

For sale by all dealers. Price 50 cents. Foster Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Dysentery is a dangerous disease but can be cured. Chamberlain's Colic, Cholera and Diarrhoea Remedy has been successfully used in nine epidemics of dysentery. It has never been known to fail. It is equally valuable for children and adults, and when reduced with water and sweetened, it is pleasant to take. Sold by Murchison-Beasley Drug Co.
