A WORD WITH OUR SUBSCRIBERS

The uncertainty of the cotton market is keeping cotton off of the market. The government has announced that it will set a price on cotton, as on wheat and some other things, but no one knows what that price will be and therefore the uncertainty of the market.

That good rain last week, followed by cooler weather, has relieved the dust and heat situation greatly. Turnips and such things have been planted.

Woman's Committee Organized.

The ladies of Houston county met September 17, 1918, and organized a Woman's Committee of the Council of Defense, electing the following officers:

Mrs. D. F. Arledge of Crockett, chairman; Mrs. J. O. Monday of Lovelady, first vice-chairman; Mrs. Charles Kennedy of Grapeland, second vice-chairman, and Mrs. Jack Beasley of Crockett, secretary and treasurer. The following executive committee was appointed: Mrs. Boykin, Mrs. Leverton, Mrs. Chas. Kennedy, Grapeland; Mrs. J. O. Monday, Mrs. R. L. Parker, Lovelady; Mrs. Claibe Latimer, Mrs. Jim Cook, Kennard; Mrs. Gary Mahoney, Mrs. Robt. Cohen, Ratcliff; Mrs. W. H. Holcomb, Mrs. A. S. Moore, Augusta; Mrs. Mary Belle Millar, Porter Springs; Mrs. Brailsford, Latexo; Mrs. Long, Mrs. Sam Beeson, Mrs. E. Carroll, Weldon; Mrs. Harris Brannen and Mrs. J. L. Cook, Holly; Mesdames I. W. Sweet, J. G. Beasley, Jno. McConnell, C. L. Edmiston, J. L. Jordan, W. H. Denny, J. H. Painter, W. A. Norris, S. L. Murchison and Jno. LeGory, Crockett.

The object of this organization is to be of assistance to each of the war units, such as Red Cross, Liberty Loan, War Savings, Y. W. C. A. and others, to act as a clearing house for any troubles arising in any of the special organizations and to bring about a closer relationship between those most interested in these special lines of war work.

Mrs. W. H. Denny explains about the drive for "Foreign Relief Work" from September 23 to 30 inclusive. Tells what will be accepted and urges every one to do their bit, for the women and children of Belgium and

Northern France are suffering pitifully for lack of proper clothing.

Mrs. D. F. Arledge reads an interesting article on Y. W. C. A. work. The government is asking for a drive to be launched on November 10 to raise \$13,000,000 for the Y. W. C. A., Y. M. C. A. Foreign Mission and Library Fund.

Meeting adjourned.
Respectfully submitted,
Mrs. Jack Beasley, Secretary.

HOUSTON CO. BOYS GETTING ON NICELY

Georgé Louis Payne of the Headquarters Detachment of the 180th Infantry Brigade of the American Expeditionary Forces, in a private letter to the Courier editor, under date of September 2, 1918, writes in part as follows: "This letter is not for publication; that is, not in a literal sense; you can tell the folks that I am getting on nicely, etc." Explaining why he has not written before he says: "About the time I ceased sending you articles from Camp Travis, I started on my journey over here. I am now in France, and under restrictions and regulations, inasmuch as I was no longer at Camp Travis, but either under foreign service regulations, or about to get under them, I found it out of the question sending you any more articles. This is why you have not heard from me in so long a time." Regarding himself and another Houston county boy he writes as follows: "I am still onto my old position. Loch Cook is here with me. He is in the signal

corps, you know, and is attached to these headquarters. I see him and am with him most every day. He and I have some good old times together, especially in talking about home. We wonder just how the new draft law is taking, and we can imagine in our own minds how it is affecting the people." Regarding the Y. M. C. A. he says: "The Y. M. C. A. follows us up. To a great extent it is doing what the war service recreation board is doing back in the states. It pulls off amateur theatrical performances. Back in a French village, 75 miles from here, I had the splendid opportunity of hearing a noted French actress in an improvised Y. M. C. A. building. She sang in both French and English." As the remainder of his letter is of a personal nature and not written for publication, it is herewith omitted. We hope we have violated no confidence in using these few extracts, as they contain no information that would be useful to the enemy.

During this war the minister who goes to the front and does the most to relieve human suffering, will establish himself first in the favor of his Maker and first in the love of the boys. That minister may be called by any one of the names that denote denominationalism.

ADDITIONAL MEN ARE SUMMONED

Eighteen More Colored Registrants Called—Camp Bowie Instead of Camp Travis.

A total of 130 colored registrants will entrain for Camp Bowie, Fort Worth, Friday of this week. In another place will be found the list of names as appeared last week, from which list one hundred were to be sent to Camp Travis. Since that time the Houston County Local Board has received instructions to send a total of 130 negroes and to send to Camp Bowie. Eighteen names from the June, 1918, registrations are therefore added to the list as follows:

- 135 Robert Johnson.
- 137 McKinley Carr.
- 138 Odee Dightman.
- 139 Cornelius Cooper.
- 140½ Maryland Polk.
- 145 Albert Willis.
- 147 Austin Young.
- 149 Willie Gibson.
- 151 Arthur Sanders.
- 154 Arthur Allen.
- 158 Emmett Washington.
- 160 Henry Foreman.
- 164 Elias Langrum.
- 165 Culbert Barrs.
- 169 Tommie Blackshear.
- 170 Robert Coleman.
- 176 Edward Brown.
- 177 Willie Jones Evans.

Advises Against Sacrifices.

Hon. J. W. Young left Saturday for Washington to represent Houston county in caucuses to be held regarding the fixing of a price for cotton. He wired back to Mr. Arch Baker on Tuesday that large delegations were there to represent the cotton growers and that in his opinion no price would be fixed for cotton. The Courier's opinion is that if a price should be fixed, it will be as reasonable a price for the cotton grower as for the manufacturer. Mr. Young asks that, in view of the outlook, farmers be advised to not sacrifice their cotton.

Saved the Wrong Way.

A stingy man fed his horse sawdust. He saved on feed, but lost his horse. That is the way with some subscribers. They subscribe for 25 cent newspapers and get sawdust. The Courier is published strictly in the interest of its subscribers, which in the end works to the interest of the publisher. Circulation follows the policy of first pleasing the subscriber and circulation pleases the publisher.

Although the operations of the Americans has been described as having "limited objectives," it nevertheless cannot but have a most important bearing on the future of the war. From the straightened line growing out of the obliteration of the St. Mihiel salient, the Americans now are in a splendid position to act with their brothers in arms on the sectors eastward when the time is ripe for a strike into Germany direct. Also, they are now aligned on territory from which it is possible to get behind both the Meuse and Moselle rivers and thus make null the reported plans of the Germans to stabilize their front along the Meuse should they be unable to hold the allies in the west in check.

Meanwhile the maneuverings on the west front around Cambrai and St. Quentin should not be lost sight of by reason of the present American offensive. Here the British and French daily are enlarging their gains in the process of outflanking and capturing these two important towns, which are all but within their grasp. Farther to the north, in Flanders, the British are also keeping up their encroachments in the region of La Bassée and Armentières, both of which places are imperiled.

HOW IT HAPPENS

It isn't moral delinquency that causes many druggists to put into prescriptions preparations that are too weak to be effective or too strong to be safe. It is carelessness. Time is required to do laboratory work carefully, and extra caution and cost to get pure materials. So the making of many important preparations is done in a haphazard manner.

WHAT THE U. S. GOVERNMENT SAYS ABOUT CHRISTMAS BUSINESS:

"The Retail Interests represented at the conference have agreed not to increase their working force by reason of Holiday business over the average force employed by them throughout the year and not to increase the normal working hours of their force during the Christmas season. They also agreed to use their utmost efforts to confine Christmas giving except for young children to useful articles and to spread the period for holiday purchases over the months of October, November and December, in order to relieve the transportation facilities of the country of congestion in the latter half of December which would be so hurtful to the interest of the Nation, that it cannot be permitted. The retail interests represented at this hearing have agreed to co-operate further in the campaign heretofore and now being carried on under the auspices of the War Industries Board to restrict deliveries and to induce their customers to carry their own packages wherever possible."

We expect to carry out this request and especially ask those who expect to buy holiday goods to do so as early as possible.

maximum flow of rich milk all winter. The silo will also save other crops like sorghum, kafir, peas and beans during a very dry season, and they all make excellent silage.

Then again, grazing can be provided during the winter by sowing a few acres of oats, rye or wheat.

In other words, with a silo, there is no such thing as failure to produce an abundant supply of the right sort of feed for dairy cows in this part of the country.

As to the sale of the dairy products, you all know that nothing that is produced on the farm is in greater demand and at more profitable prices. Cream has been selling right here in Crockett for the past two years from 33 to 40 cents per pound of butter fat, and the best butter is selling for 50 cents to 60 cents a pound at this time.

There is positively no risk in properly taking hold of the dairy feature of farming in Houston county. Your success is assured right from the start.

When a girl becomes a woman, when a woman becomes a mother, and when of middle life, are the three periods of life when health and strength are most needed to withstand the pain and distress often caused by severe organic disturbances. Many women in Texas would testify just as do the following:

HOUSTON HEIGHTS, TEXAS.—"My mother used Dr. Pierce's Favorite Prescription. She was in very ill health, was all run down and it seemed not to get anything to do her any good until she took this medicine. It did her more good than anything she tried and I am always willing to recommend it to friends who need a fine tonic."—Mrs. JULIA STRINSON.

FORT WORTH, TEXAS.—"I can recommend Dr. Pierce's Favorite Prescription to any woman suffering from woman's trouble or nervousness. I was very nervous and losing weight so fast I became alarmed over my condition. I could not do any housework. A friend told me about the 'Favorite Prescription' so I tried it and began gaining in weight at once."—Mrs. LIZZIE EYERSON, 1220 Gould Avenue.

DAIRY FARMING AND DRY SEASONS

How the Faithful Cow Saved a Community and How We Could Profit by Changing Our Methods.

A story in a recent issue of the Houston Post tells us of the experience of the farmers of the little settlement of Aldine, twelve miles north of Houston, that demonstrates the advisability of changing methods to conform to settled changed weather conditions.

Three years ago it would have been hard to find a community more discouraged than was this Aldine section. Cold weather had blasted the Satsuma orchards, frost had killed the fig trees and it is said that more than one hundred families had given up and moved away.

That was three years ago. Today it would be hard to find a more prosperous and contented settlement than Aldine. It has been one of the first to raise its quota in all of the war drives. Liberty bond campaigns, Red Cross drives and Y. M. C. A. solicitations have no terror for this community. The quota on each occasion has easily been raised with a surplus for good measure.

All this change has come about by a transformation in the way of doing business in the community. Now there is more money coming into that section each month than they formerly received in a year. The faithful farmers' friend, the milch cow, has made this wonderful change, from severe adversity caused by unfavorable weather conditions, to notable prosperity. It is the same old story, verified under different surroundings, but emphasizes the importance of adapting methods to circumstances that are essential to success, and making better use of the reliable features of dairy farming.

Applied to Our Own Community. Let us see if we cannot, with profit, apply some of the Aldine experience to our own case.

For the past three years Houston county, with an exceptional spot here and there, has received less than one-half of an average rain fall, reducing practically all farm crops in some ratio. High prices for the half crop that was raised saved our farmers from disaster. This was a fortunate occurrence that cannot be regularly depended upon.

From the standpoint that this reduced rainfall is to be a regular condition with us hereafter, it is the part of wise business management with us to change our methods to conform to these new conditions.

How Shall We Do This?

We believe that the same remedy that made Aldine a prosperous community can be effectively applied here. That is to say, dairying, properly conducted, will do it.

These are our reasons for making this statement. You notice we say that dairying "properly conducted" would do it. This means that a silo is the first essential to a proper start in this direction. A silo is positive insurance against the loss of your corn crop. No season is so dry but what the crop can be cut at a time that will make good ensilage, and this feed, with a small amount of cotton seed or peanut meal added, will keep up the minimum flow of rich milk all winter.

The silo will also save other crops during a very dry season, and they all make excellent silage. Then again, grazing can be provided during the winter by sowing a few acres of oats, rye or wheat.

In other words, with a silo, there is no such thing as failure to produce an abundant supply of the right sort

THE WHITE HOUSE
WASHINGTON

Again the Government comes to the people of the country with the request that they lend their money, and lend it upon a more liberal scale than ever before, in order that the great war for the rights of America and the liberties of the world may be prosecuted with ever increasing vigor to a victorious conclusion. And it makes the appeal with the greatest confidence because it knows that every day it is becoming clearer and clearer to thinking men throughout the nation that the economy of the war is an essential investment. The money that is held back now, will be of little use or value if the war is not won, and the selfish masters of Germany are permitted to dictate what

To the Sheriff or any Constable of Houston County, Greeting:

You are hereby commanded to summon George L. Gould, the unknown heirs of George L. Gould, Galveston Gossett, Lucy St. Amant and her husband, S. A. St. Amant, John Reagan, John Reagan Jr., Jeff Reagan, Ernest Reagan, Chester Reagan, whose residences are unknown, by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of the District Court of Houston County, to be held at the Court House of said Houston County, in the town of Crockett, on the fifth Monday after the first Monday in September, A. D. 1918, the same being the 7th day of October, A. D. 1918, then and there to answer a petition filed in said Court on the 4th day of September, A. D. 1918, in a suit, numbered on the docket of said Court No. 5754, wherein J. B. Ellis is plaintiff, and George L. Gould and the unknown heirs of George L. Gould, Galveston Gossett, heir of A. E. Gossett, deceased, Lucy St. Amant and her husband S. A. St. Amant, John Reagan, John Reagan Jr., Jeff Reagan, Ernest Reagan, Chester Reagan, whose residences are unknown, Mary Orr and her husband, who reside in Tarrant county, Texas, Chester Haile whose residence is in Wichita county, Texas, and Mrs. John Murchison, whose residence is in Bexar county, Texas, heirs of Sam C. Haile, deceased defendants, and said petition alleging that on or about the 1st day of January, 1918, plaintiff was lawfully seized and possessed of the herein-after described tract or lot of land, holding the same in fee simple, being lawfully seized and possessed of said land: Being a part of the A. E. Gossett Survey, situated about two miles east of Crockett and described as follows: Beginning at a stake, witness trees were marked W. H. but are now gone. Thence N. 74 E. 442 vrs. set stake in branch for corner. Thence down and with the meanders of said branch to where the line of S. C. Haile's 30 acre tract crosses said branch. Thence N. 16 W. with said line at 550 vrs. set stake on the Hodges League line. A P. O. mkd. X. Thence South 65 W. with the Hodges League line at 710 vrs. corner, mound. Thence S. 36 E. 1064 vrs. to the place of beginning, containing one hundred

and six acres, more or less.

Plaintiff sets out in his original petition all of the deeds and other instruments under and by virtue of which he claims title to said land.

Plaintiff alleges that he and those under whom he claims title to said land, have been in actual, continuous, peaceable and adverse possession thereof, under deeds, and paying all taxes due thereon, for a period of five and ten years before the filing of this suit, and plaintiff especially pleads the said five and ten years statutes of limitation in bar of any claim asserted by the defendants or either of them, to any part of said land.

Plaintiff alleges that there is no deed out of George L. Gould to said land, nor is there any deed from S. C. Haile to 31 acres of the above described land, all of which casts a cloud upon plaintiff's title.

Plaintiff prays judgment for said land, removing all clouds therefrom, substituting all missing deeds and for general and special relief.

Herein fail not, but have before said Court, at its aforesaid next regular term, this writ, with your return thereon, showing how you have executed the same.

Witness, John D. Morgan, Clerk of the District Court of Houston County.

Given under my hand and the seal of said court, at office in Crockett, this the 4th day of September, A. D. 1918.

Baugh, deceased, whose names are unknown; the heirs of T. E. Baugh, deceased, whose names are unknown; the heirs of J. L. Boggs, deceased, whose names are unknown; F. M. McDonald and Louvenia McDonald, to appear at the next regular term of the District Court of Houston county, to be held at the Court House in the City of Crockett on the 5th Monday after the first Monday in September, 1918, being the 7th day of October, A. D. 1918, then and there to answer a petition filed in said Court on 31st August, 1918, in cause Numbered 5751 wherein F. W. Haile is plaintiff, and the unknown heirs of Edward Allbright, deceased, the unknown heirs of Taffenius Allbright deceased, the unknown heirs of G. W. Allbright deceased, the unknown heirs of W. J. Boggs deceased, the unknown heirs of Lewis Atkinson deceased, the unknown heirs of Jose Miguel Musquez deceased, the unknown heirs of T. F. Gammage deceased, the unknown heirs of George B. Holmes deceased, the unknown heirs of F. W. Jackson deceased, the unknown heirs of J. H. Baugh deceased, the unknown heirs of T. E. Baugh deceased, the unknown heirs of J. L. Boggs deceased, F. M. McDonald and Louvenia McDonald, are defendants, the cause of action being alleged as follows:

1. That plaintiff is the owner in fee simple as is signed and possessed of the following described tract or parcel of land to wit: Situated in Houston county, Texas, about 16 miles S. W. of Crockett, being a part of the Edward Allbright league, and bounded and described as follows:

Beginning at the N. W. corner of the Boggs 228 acre tract out of said league of which this is a part. Thence S 25 W with the west boundary of said tract 645 6-10 vrs to Chandlers corner in same. Thence S 75 E with Chandlers N. B. line 1252 6-10 vrs to his N. E. corner on the east boundary line of said 228 acre tract. Thence N 15 E with said line 637 4-10 vrs. to the N. E. corner of same on the N. B. line of said league, a post oak bears S 29 W 5 vrs B Jack 12 in dia brs S 6 W 6 vrs mkd X. Thence N 75 W with said league line 1138 vrs to the place

of beginning, containing 114 acres of land more or less.

That plaintiff and those under whom he derains his title to said land have had and held peaceable and adverse possession of the same, cultivating, using and enjoying the same under deeds duly registered and paying all taxes due thereon, for a period of more than five years before the commencement of this suit, and he claims title to said land under the statute of limitation of five years. Plaintiff also claims title to said land under and by virtue of the statute of limitation of three years and the statute of limitation of ten years. He also claims title to said land under certain deeds and other instruments of writing set out in his original petition, among them being the following: Patent from the Republic of Texas, of date Jan. 26, 1841, granting Edward Allbright one league and labor of land. A deed from A. J. Thomasson to J. W. Haile of date June 11th, 1904, recorded in Book 54 Page 54 of Houston County Deed Records, a deed from John Henry High and wife Ida High, of date Dec. 11th, 1903, to J. W. Haile, recorded in Book 36 Page 179 of Houston County Deed Records.

The fact that there are no conveyances of record from Edward Allbright, or from G. W. Allbright and that the acknowledgements to some of the above mentioned deeds are defective, and that the Edward Allbright Survey conflicts with a pretended grant of land to Jose Miguel Musquez and the further fact that the defendants are setting up and asserting some kind of claim of title to the above described land, the nature of which is not known to plaintiff, creates and causes a cloud upon plaintiff's title to said land which he desires to have removed by a decree of the court.

Wherefore plaintiff sues and prays that the defendants be cited to answer this petition and that on hearing he have a judgment for the title and possession of said land, and removing all clouds caused by any claim of the defendants, or either of them, to the said land or any part thereof, and that he be quieted in his title and possession of same and he prays for general and special relief.

D. 1918, the same being the 7th day of October, A. D. 1918, then and there to answer a petition filed in said court on the 31st day of August, A. D. 1918, in a suit numbered on the docket of said court No. 5750 wherein W. L. Moody is plaintiff and the unknown heirs of Patrick H. Hayes deceased, B. R. Eaves and wife R. S. Eaves and all persons asserting and claiming any interest in the hereinafter described land are defendants.

Plaintiff alleging in his petition that he is the owner in fee simple of 51 9-10 acres more or less of the William Watson survey of 640 acres of land situated in Houston county, Texas, about 15 miles north 15 deg. west from the town of Crockett, and was lawfully seized and possessed of said land on or about the first day of August, A. D. 1918, holding and claiming in fee simple, and describing the same in his petition by field notes.

That the Plaintiff derains title to the land claimed by him and herein sued for as follows: Patent from the State of Texas to Patrick H. Hayes, assignee of William Watson granting by field notes 640 acres of land situated in Houston county, Texas, about 15 miles northwest from the town of Crockett.

Deed of B. R. Eaves and wife R. S. Eaves to J. E. Hollingsworth conveying the land in controversy.

Deed of J. E. Hollingsworth to Mrs. Eliza Kempner conveying the land in controversy.

Deed of Eliza Kempner to W. L. Moody and company conveying the land in controversy.

Deed of W. L. Moody Jr. and Frank B. Moody to W. L. Moody conveying the land in controversy.

The plaintiff further alleging that he and those under whom he claims have had and held peaceable, continuous and adverse possession, under title and color of title from and under the sovereignty of the soil the land claimed and described in his petition for more than three years after defendants cause of action accrued, if any ever accrued, and before the commencement of this suit.

whom he claims have had and held peaceable, continuous and adverse possession of the land claimed and described in his petition claiming the same under deed and deeds duly recorded, cultivating, using and enjoying the same each and every year, and paying the taxes thereon for a period of more than five years after defendants cause of action accrued, if any ever accrued, and before the commencement of this suit.

That plaintiff and those under whom he claims have had and held the peaceable, continuous and adverse possession of the land claimed and described in his petition, using, cultivating and enjoying the same each and every year for a period of more than ten years after defendants cause of action accrued, if any ever accrued, and before the commencement of this suit.

All of which plaintiff is ready to verify and pleads the three, five and ten years statutes of limitation.

That defendants are asserting and claiming an interest in said land which clouds the title of plaintiff, and praying that on proof being heard that he have judgment for the land sued for and quieting the title thereto, and removing all clouds therefrom and for such other orders and decrees as may be equitable.

Herein fail not but have before said court on said first day of next term thereof this writ with your return thereon showing how you have executed same.

Witness, John D. Morgan, Clerk of the District Court of Houston County, Texas.

OPPORTUNITY TO BECOME AN ARMY OFFICER.

Men about to leave their homes for Camp Travis who have any desire to become officers can increase their chances materially by a few days review of some of the subjects they have studied in grammar and high schools. All candidates for Officer's Training Schools are now compelled to take an examination in History, Geography and Arithmetic for the Infantry branch of the service, and to this is added Algebra, Geometry and Trigonometry for the Artillery branch of the service.

The questions are not such that would necessitate a thorough knowledge of any of the subjects for the officers in charge of the examinations are well aware of the fact that many men entering the camp have been out of school for some years, and it would take months of review to thoroughly grasp these subjects. For instance, it is advisable, since the United States and her allies are fighting the great world's war in France, that the candidate know something of the country on which all eyes are centered, its geographical location, the location of principal cities, historic rivers, of the adjoining countries, prominent ports, etc. This extends also into Italy and into Siberia. Ability to draw a rough map, locating principal rivers, cities, etc., is something that every successful soldier of today and more especially an officer should have.

Then the history of that country, its former rulers or warriors of prominence, such as Napoleon, or the Duke of Wellington. The former great battles of the world's history that have been fought, many in the same spot over which our own men are fighting today are valuable to remember. Also some of the history of our own United States and of the great conflicts in which this country has taken part are facts and matters that every person should well know whether examined upon or not.

In geography, only general questions are asked, such as draw a general outline of the course of the Mississippi River and its principal tributaries and name several cities of prominence on its banks; what is the principal wheat producing state or the principal corn producing state, or the biggest lake or the deepest ocean, etc.

The arithmetic problems are of the simplest, but a knowledge of conversion tables from gallons to pecks and ounces to pounds and bushels to quarts is invaluable at all times. A knowledge of fractions and decimals and a clear head will pass any of the arithmetic examinations. For those who contemplate artillery camps, a knowledge of the fundamentals of plane and solid geometry as well as trigonometry and algebra is required.

Those entering training camps have the prospect, if they remain, of being made officers in the army of the United States in four or five months time. Those whose ambitions may be to become an officer can do nothing better than to brush up on some of

these formerly despised and forgotten subjects and grasp the opportunity and the timely tip offered. It would be well for all those who have any books they care to study of the text book nature to bring them with them to camp. There are some books available, but not nearly enough for the demand and when you have completed the study of them they can be turned into the camp or Y. M. C. A. library and may help some other fellow get a commission.

THE END NOT YET.

There have been eight weeks of continual victory on the fields of France—but the end is by no means in sight.

The Germans have been forced back to the Hindenburg line and in some cases beyond it, but they are still fighting on French soil.

American soldiers are still 460 miles from Berlin.

German autocracy and German kaiser are still beyond the reach of the strong arm of Nemesis.

And those who predict an early end of the struggle are but fooling themselves and seeking to lull others into a sense of security that will, in some measure, throttle the country's efforts to prepare for the months of fighting that are yet to come.

It may be the end will come in 1919. God grant that it may.

But the men who are fighting, the men who are first-hand authorities on the war, do not believe the war will end in 1919. They predict that a long struggle is yet ahead; and they ask that the people of the United States prepare to sustain themselves and their allies for two, three, or even ten years if it shall require that long to win victory from Germany.

The nation will be better prepared for peace if it shall be prepared for a long war. The industrial and agricultural improvement that is sure to come of earnest and efficient preparation for a conflict that will reach into the years will give the people of this country an ability to meet the needs of peace as they never would have met those needs but for this preparation. Idle lands will be plowed and made to produce. Tractors will be introduced and made to perform the labors of thousands of men. Arid lands of the West will be irrigated; and the drought problem will be permanently solved. Vice, immorality and dissipation will give way to better things. The transportation problems of the country will be solved; and American shipping will again be known in the ports of the world. The people of America have come to think in terms of billions because of the war expenditures. They are not afraid of the necessary investments to meet the requirements of an efficient peace.

And the peace that will come because of ample preparations for a long war will be a peace that will bless all the people, both of America and Europe.

Let the end come as soon as all human endeavor can bring it; but there should be no cessation of the preparation for a long war.—Houston Post.

Little Resistance Offered to Advance of Americans.

London, Sept. 13.—The Daily Mail's correspondent at the American front sends the following description of the battle along the St. Mihiel sector:

"The First American Army, under personal command of General Pershing, for the first time went into action today in the St. Mihiel salient. Never before has there been such a large concentration of American troops for one operation and never have the Americans been in such complete control of their own operations."

"The event had long been anticipated. Some people assigned to it grandiose objectives, but in reality the attack is for limited objectives only."

"At one o'clock Thursday morning the artillery preparation began with a roar that could be heard many miles away. From all the roads that run parallel the flashes of innumerable guns told of the impending assault. Toward 5 o'clock—the hour of attack—the firing became even more rapid, and its sullen tone mingled strangely with the sound of the rain."

"At dawn whole fleets of tanks, manned by strong young Americans and French, were to be seen moving out of their shelters to lead the attack. They lumbered on, but the Germans offered little opposition. The American infantry followed in open order, plowing through the mud, but they were little troubled by the feeble artillery resistance."

"At one point near Seicheprey,

where the Americans had previously fought desperately with the Germans, machine gun and automatic fire swept down upon the Yanks' right flank, but the tanks and artillery quickly moved in that direction and the Americans went steadily forward."

"At 7 o'clock the tanks had disappeared amid a smoke cloud over the ridge in front of Seicheprey."

"The Germans have offered very little resistance to the advancing Americans. Occasionally a stray machine gun or automatic rifle has been discovered, but it is apparent the enemy has withdrawn main forces to a second line, which possibly he will defend with a certain degree of tenacity."

"His artillery has been firing from behind a ridge, which runs in front of the American line, but he is being pursued by tanks, which at one point lost only one out of forty-five and that stuck in the mud."

Better Than Medicine.

London, Sept. 14.—Premier Lloyd George has sent the following message from Manchester to General Pershing at the American front:

"I desire to offer to you and your brave armies heartiest congratulations on your great victory."

"The enemy has made many mistakes in this war, but none greater than when he underrated the valor, determination and intrepid spirit of the brave soldiers from the great democracy of the United States. Now that he has tested the mettle of the American armies the enemy knows

Certain-teed

Roofing

Certain-teed renders a war service.

Certain-teed saves war supplies, because it is made of materials which have no use in war products. It serves war needs because it provides our armies, and peoples everywhere, with efficient, economical roofing.

Certain-teed saves war transportation, because it is so compact that it takes minimum car space, and so easy to handle that it requires the minimum time to load and unload.

Certain-teed saves war labor. It can be laid in less time than any other type of roof; and no skill is required—anyone who will follow the simple directions that come packed in the center of roll can lay it correctly.

The durability and economy of *Certain-teed* are recognized the world over, as proved by its enormous sale. It is now the standard roof

for factories, office buildings, hotels, stores, warehouses, garages, farm buildings, etc.

Guaranteed 5, 10 or 15 years, according to thickness. Sold by best dealers everywhere.

Arrested for Bobbery.

Robert Walker, who has been known in Crockett as Bob Pullen, has been arrested by the local officers on the charge of burglarizing and robbing the ticket office at the railway passenger station. He is the second to be arrested for that Sunday night burglary, a negro having been arrested last week. Walker was arrested by Deputy W. A. Hooper and placed in jail Tuesday night.

Found Nothing Open.

R. E. Aiken returned Monday afternoon from Sherman and resumed his position as linotype operator on the Courier. As stated last week he went to Sherman, where his registration is with the local board, to ask to be inducted into some branch

of the service, but found nothing open to him. Holding a deferred classification on account of being engaged in a useful occupation, he has returned to work until the government needs him worse in the fighting than it does in his present occupation.

Died at San Angelo.

H. L. Horrison was called to San Angelo last week by the serious illness and death of his brother, Mr. Jack Morrison. Jack Morrison was general store manager for the Central Coal and Coke Company to which the mill commissary at Ratcliff belonged. He was well known in the lumber districts of Texas, Louisiana and Arkansas, and was universally popular, leaving many friends to mourn his passing.

PAPERS NOT PAID FOR UNMAILABLE.

Paper is essential: It has been placed on the priority list only on the express condition that all wastes be eliminated and every economy be practiced. In doing this the government will use its best efforts to provide sufficient paper for strictly needful purposes, but nothing more. Every distributor, converter or user of paper is notified that the continuance of his supply is dependent entirely upon the strict observance of the ruling of the War Industries Board, one of which is that paper must not be wasted. Failure to comply with this requirement will lead to the withdrawal of any or all priority privileges, without which the supply cannot be maintained. The ruling of the war industries board is that no newspaper which has not been paid for may be printed and mailed to a subscriber. Your co-operation during these trying times will help us all in our problems. We know you appreciate the gravity of the situation and will respond quickly in putting yourself on record to assist our government by doing everything within your power to eliminate waste. It means vast savings in fuel, transportation facilities and labor, all vital elements in the winning of the war.

At least a 15 per cent reduction must be made in the consumption of print paper, and all papers must, by government order, adopt the cash in advance system for subscription payments. Readers of The Times who are behind on their subscription may take it for granted—if their paper suddenly stops without further notice—that the government order has been received at this office and that it has been put into effect, as it will be as soon as received—Houston County Times.

Building Permits Necessary.

To the Citizens of Houston County: The Council of Defense of Houston County has just received instructions from the State Council of Defense, of which the following is an extract: "The War Industries Board has placed upon the Texas State Council of Defense and the various county councils the responsibility of passing upon the necessity of all building in the state not of a strictly war nature. In other words, a man proposing to build must submit to your committee a sworn statement of the purposes for which he desires to build, the cost, the necessity, etc. You will then in turn investigate the necessity of the construction and transmit your recommendation, together with the facts, to this office, and here all of these cases will be reviewed. I am handing you herewith a printed copy of Bulletin No. 113, from the Council of National Defense, on the curtailment of non-war construction. The chairman and secretary of your county council are designated by the state council as members in your county to pass upon these matters and will ask you to select the third member and report his name to this office immediately. This third man may either be a member of your council or an outsider, if you can find a better man from the outside.

MOORE & SHIVERS

In the larger cities you may have a larger committee."

We give you this notice through the press in order that every citizen of the county may be thoroughly informed on the matter, and to know that before erecting any buildings in the future it will be necessary for you to comply with the above order. You can rest assured of two facts. First is, that this committee is squarely behind the government in everything pertaining to this war, and which may be necessary in doing and winning the same, and the second, that we will not do anything which will work serious injury to any citizen of the county unless same is absolutely necessary for the best interest of the government. If you have any buildings or improvements to make in the future, we ask that you kindly comply with the above order and submit same to the undersigned, who will take the matter up for consideration by this committee.

J. W. Young, Secretary, County Council of Defense.

One More Chance to Get Seed Wheat.

The good rain that was quite general over the country last week created such additional interest in the wheat growing industry that the requests for seed after the date set for closing the list became so numerous and urgent that it was decided to place a second order, and those who wish to avail themselves of this opportunity can do so up to Thursday, October 3. Seed wheat ordered after that date should arrive in Crockett before the middle of the month, which is as early as the best authorities advise planting, and they agree that planting may be continued through the month of December.

It will be seen from these facts any farmer in Houston county who has not placed his order for seed wheat can yet do so, and be able to plant at the very beginning of the season.

The secretary would like to add one more earnest appeal to our farmers to enlist in this patriotic effort to grow enough wheat to provide for the requirements of the county.

It will be remembered by some that a year ago it was stated in these columns that those who did not grow wheat were liable to go without wheat flour the coming season. You all know this was partly verified as for several weeks at a time no flour was obtainable, and those who took a chance with the weather man and planted a few acres had flour all the time and were much envied by their less fortunate neighbors.

The information that goes forth this year is to the effect that no flour will be shipped into districts that can grow the wheat.

We demonstrated last season that wheat can be grown in Houston county. Now, the wise man knows what to do. H. A. Fisher, Secretary.

Draft Calls for 181,838 Men Are Announced.

Washington, Sept. 16.—Draft calls announced Monday by Provost Marshal General Crowder will send 181,838 men qualified for general military service to army camps before October 16. All States have quotas to fill. Of the total 142,000 will be white registrants who will entrain between October 7 and 11. The remainder will be negroes who will move in two groups, 20,016 entraining between September 25 and 27 and 10,752 on October 16.

Men who registered last Thursday may be needed in a few districts to fill the new quotas, it was said at the provost marshal general's office, but in most localities sufficient men remain in class 1 from the registrations of last June 5 and August 24 to meet the requirements.

States from which the white registrants were called, with their numbers and the camps to which they will go, include:

- Arkansas 1786, Camp Pike, Ark.
 - Louisiana 1466, Camp Travis, Tex.
 - Mississippi 593, Camp Travis.
 - Missouri 6910, Camp Pike.
 - Nebraska 295, Camp Pike; 3712 Camp Funston.
 - Oklahoma 2422, Camp Cody, N. M.
 - Tennessee 3882, Camp Greenleaf.
 - Texas 7941, Camp Travis.
 - Wisconsin 6000, Camp McArthur, Texas.
 - Total 142,000.
- Negro registrants will be mobilized October 16, as follows:
- Louisiana 259, Camp Travis, Texas.
 - Tennessee 1000, Camp Sherman.
 - Texas 1240, Camp Travis.
 - Total 10,752.

Pershing Before Metz.

Pershing's men stand before Metz and Conflans and against that new threat the enemy must gather reserves here on this new front at the very time when every available reserve division is sorely needed to meet the allied rush to the north. Signs of further withdrawals are manifest along wide sectors of the German front.

General March read a cablegram citing a general order issued by Major General H. L. Reed, commanding the Fifteenth Scottish Division, British army, praising the First Artillery Brigade of the First American Division, regulars, for work in co-operation with the Scots. The order said the Fifteenth had never received such perfect assistance in "taking over" operations, although it was realized that the American division at the time must have been under severe strain and had

suffered severe casualties.

Answering questions regarding specific American units, General March said the 114th Engineers of the Thirty-ninth Division (Arkansas, Mississippi and Louisiana National Guard troops) had just landed in France.

General March said the Ninetieth Division (Texas and Oklahoma National Army troops) is in the Vosges, while the Thirty-sixth (Texas and Oklahoma National Guard troops) is in a training sector with the French.

No commander has yet been selected for the Eighteenth Regular Division, which still is in training at Camp Travis, Texas.

Already allied airmen are heavily bombing the Moselle region around Metz and its outlying fortifications, having dropped many tons of bombs on the strategic railways leading from the great fortress, and it seemingly is not without reason to expect that, with apparent supremacy in the air, Metz and the surrounding country henceforth is to be badly harassed by the allied flying squadrons.

Rural Carrier Examination.

The United States Civil Service Commission has announced an examination for the county of Houston, Texas, to be held at Crockett, on October 26, 1918, to fill the position of rural carrier at Grapeland, and vacancies that may later occur on rural routes from other post offices in the above-mentioned county. The examination will be open only to male citizens who are actually domiciled in the territory of a post office in the county and who meet the other requirements set forth in Form No. 1877. This form and application blanks may be obtained from the offices mentioned above or from the United States Civil

Service Commission at Washington, D. C. Applications should be forwarded to the Commission at Washington at the earliest practicable date. During the continuance of the pres-

ent war the commission will, in accordance with the request of the Post Office Department, admit women to rural carrier examinations upon the same conditions as men.
