Versatile Corn Provides Local Industry

Food Corn Facility Expansion Starting

Early in 1977, Valley Grain Products, headquartered in California, announced plans to construct a food corn holding facility in Muleshoe. At the same time, the company announced future plans to

construct a masa (corn flour) plant to be constructed adjacent to the corn facility.

This week, Valley Grain Products announced immediate construction of eight more silos, capable of storing 22,400,000 pounds of corn. This will be approximately one-third increase in holding facilities, and bring the number of silos at their location southeast of Muleshoe to 34.

At the same time, they said the corn flour plant will be constructed in the future however, at this time, they are in the process of constructing such a facility in California.

Jeff Smith, manager of the local operation, said the masa plant under construction in California at this time is "a very unique construction". The design will allow the plant, or mill, to process 6,000 tons of masa per month, where the present mill only processed 2,000 tons each month.

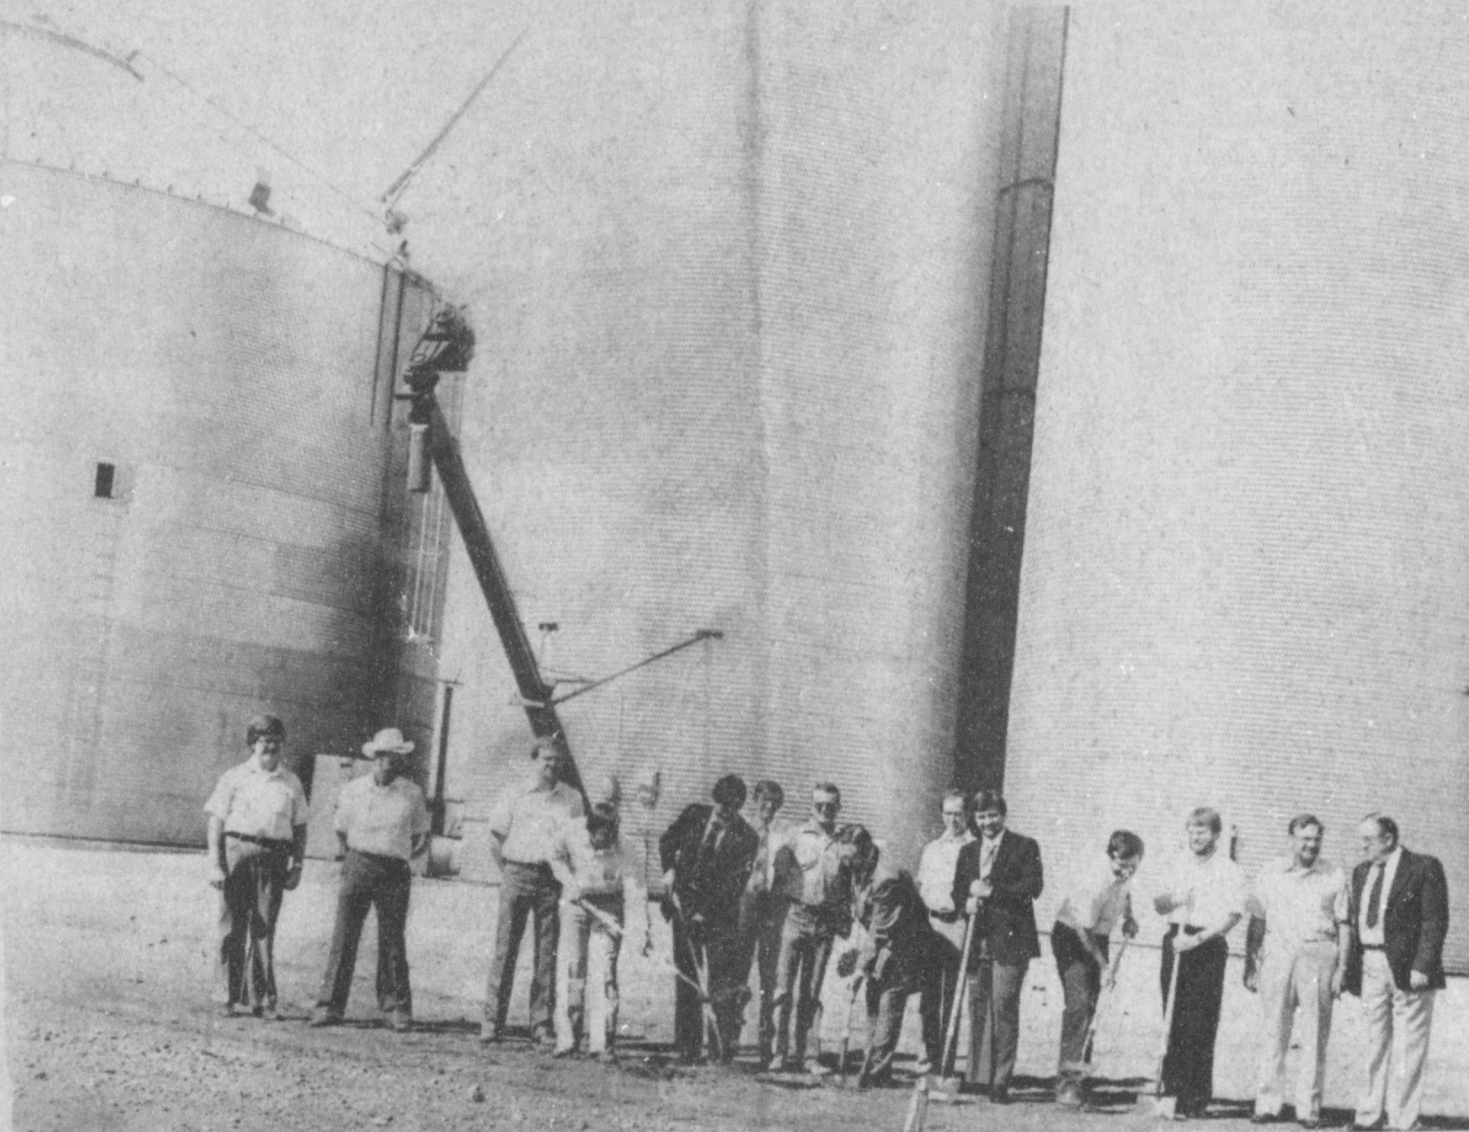

Smith said the demand for masa continues to grow, and there is more world demand for the product. He added that Valley Grain Products is currently shipping masa to eight countries.

Construction on the initial phase of construction on the facility in Muleshoe started in November, 1977, and the local corn handling and shipping location opened in 1978. Smith said the eight corn silos to be under construction at the location near Muleshoe are expected to be completed in time for the corn harvest this year. He said they will be constructed just north of the current silos and all eight will be built at the same time.

Founder and President of the Company is Willard Pitman, who constructed the first silos in California 24 years ago. He first started out with stock feed. Three years after starting the company, in 1955, he dropped the feed business and started producing high-quality corn.

In 1963, he constructed the first masa flour plant in

Cont. on Page 3 Col. 3

GROUND BREAKING FOR ALCOHOL PLANT... Wednesday morning, several members of the Muleshoe Chamber of Commerce and Agricultural, along with representatives of Charmec Corporation of Florida and Tagco of Hereford were at the site where a fuel alcohol plant will be constructed at Progress. Several shovels were used for the symbolic groundbreaking ceremonies for the plant, which is expected to be operational by October.

Fuel Alcohol Plant Construction Slated

Wednesday morning, Bailey County Judge Glen Williams officially turned the first shovel of dirt in groundbreaking ceremonies for a new fuel alcohol plant to be constructed at Progress.

Charmec Energy Corporation of Florida, with Gene McGuire, a lifetime Bailey County resident as president, will be constructing the new plant near Muleshoe.

Already on the site is a grain drying and storage system, and the fermentation building, distillation facility, dry silage storage, offices and alcohol storage will be constructed. The plant is expected to be operational in October, said McGuire, and will initially produce 2,400 gallons of alcohol per day, with expansion in six months to 7,200 gallons each day.

The alcohol will be used for the production of gasohol, a mixture of 10 percent ethanol and 90 percent unleaded gasoline.

McGuire said he has 25 acres of land at the site, and expects the location, adjacent to the Santa Fe Railway, to provide ample expansion room. Gasohol is currently being sold locally, and McGuire said an attachment is being manufactured to inject alcohol into diesel engines. The alcohol for use in farm machinery only has to 100 proof, he said, and is much cheaper to produce.

"During the alcohol production process," said McGuire, "valuable by-products are formed. The major by-product is Distillers Dried Grain (DDG). It is the remnant of the corn used to make the alcohol."

"The DDG is sold as a high protein feed for cattle. Another by-product is carbon dioxide. For every gallon of alcohol produced, 6.33 pounds of carbon dioxide is formed. Large quantities of carbon dioxide are used in older oil wells to

increase their production. It can also be sold as a welding supply, as dry ice, or used in fire extinguishers."

He also explained that several government options and incentives are available for alcohol producers. The Energy Tax Act of 1978 authorized a 10 percent additional investment tax credit for alcohol production equipment. This is an addition to the existing 10 percent tax credit. Also, gasohol is exempted from the four cent per gallon Federal Excise Tax on gasoline until 1992.

Gene McGuire has been a farmer in Bailey County all of his adult life. He is the son of Mr. and Mrs. A.R. Cont. on Page 3 Col. 3

Explosion, Fire Level Man's Home

Shortly after 12:30 a.m. Friday, calls started coming in to the Bailey County Law Enforcement Center, informing dispatcher Melba Cunningham that a house in Progress had exploded and was burning.

Arriving firemen found the only thing they could do was contain the fire in the immediate area, as the explosion and fire had leveled the home of Ed Haskins.

Haskins said he woke up and the house was afire. He said he was very frightened by the fire, so he jumped into his car and drove down the road. "I forgot to turn on my car lights," he said, "and drove off into a deep ditch."

The elderly man sobbed as he watched his only possessions go up in flames. Glass, window frames and screens were blown into the road and in some instances across the road from the blazing home.

The force of the explosion, which Haskins said he never heard, blew the north and east walls of the home outward, and the roof fell in. From the force of the explosion, one tree on the north side of the home broke off under the weight of the north outside wall of the home.

Haskins, who said he was not injured, also said his wife was a resident of the Muleshoe Nursing Home. Firemen attempted to get the Haskins vehicle out of the deep ditch, adjacent to a culvert, but were unable to remove the car. They remained at the fire scene for several hours.

One fireman said when they first arrived, they had to move debris which had blown into the road before they could get close enough to put any water on the fire. They were hampered by a lack of water, having only what water is carried on the regular fire trucks.

Haskins was taken to the apartment of some friend

Around Muleshoe

The sidewalk sale is coming!!!! All of Muleshoe will be geared up for the annual Sidewalk Sale on Saturday, June 28.

Watch the Thursday issue of the Muleshoe Journal for all the special bargains to be offered.

Adults (only) skating is scheduled for the Bailey County Exhibition Center on Monday, June 23 from 8-10 p.m.

Admission for the adult only skating will be \$1 per skater.

A Ladies Day scramble for members of the Ladies Golf Association is slated Wednesday, June 25. Tee off time is 9:30 a.m.

Teams will be A - B - C - D players and entry fee is \$1.

On Friday, June 27, a youth disco is scheduled at the Bailey County Exhibition Center and Coliseum. Admission is \$2 each for the 9-midnight dance. Disco sounds will be presented by Mickey Bear Enterprises of Portales.

Mike Windham, son of Mr. and Mrs. Scotty Windham of Lazbuddie, recently completed a week-long orientation course on the Ralston Purina Company's Chow division in St. Louis, Mo.

He attended the course with 41 other college juniors from across the nation. Mike has been assigned to work with a Purina Production Manager on a specific project for the remainder of the summer.

He will be a senior at Texas Tech University this fall, majoring in Agricultural Engineering.

County's Taxable Sales Showing Slight Increase

State Comptroller Bob Bullock reported gross sales in Texas for 1970 totaled more than \$213.8 billion. Bullock said a sales tax analysis of gross sales for **Holmes 'First' Republican, Female JP**

Two 'firsts' were recorded in Bailey County last Monday when Tana Holmes was administered the oath as Justice of the Peace for Precinct One.

Judge Holmes became the first female JP in the county, and at the same time, became the first Republican to hold an office on the county level.

A Bailey County resident for the past 17 years, Mrs. Holmes is married to Claude Holmes, a mechanic for Muleshoe Motor Co. and a member of the Muleshoe Fire Department.

She and her husband are the parents of Dana Jameson of Friona and Jimmy, a freshman at Muleshoe High School.

She said she will be maintaining office hours at the Bailey County Law Enforcement Center from 8 a.m.-5 p.m. Monday - Friday, and will be subject to call by local and county officers at night, weekends and on holidays.

Her oath was administered by Bailey County Judge Glen Williams at his office in the courthouse. She was named to fill a vacancy left when former Justice of the Peace K.B. Martin resigned April 1. In the interim, Judge Williams filled the capacity as

the year's last calendar quarter showed that gross sales reached \$66.9 billion, up \$14.4 billion over third quarter gross sales.

The gross sales figures were gathered from 329,405 reporting outlets across the state.

Out-of-state gross sales received from 5,867 reporting outlets for the same period totaled \$5 billion.

He said gross sales for Texas amounted to \$186 billion.

Bullock also released a computer analysis showing reported sales for each of the state's 254 counties and a sales tax analysis broken down by the state's Standard Metropolitan Statistical Areas.

From Bailey County, the 257 reporting outlets had reported sales of \$28,190,027 with \$28,190,027 being taxable sales and deductions of \$23,851,619 and use tax purchases of \$16,098 for \$4,354,506 being subject to taxation.

Castro County reported

Little League Team Pictures Are Scheduled

Pictures will be made of all Little League Teams, T-Ball, Minor and Major Leagues, on Thursday, June 26, at 5:30 p.m. at the Major League Park.

All players on all teams are required to be at Roger Miller Park in full uniform.

Persons who want individual pictures of team members must make arrangements in advance by calling Tommy Gunstream or Lynne Box or check with

gross sales of \$43,104,090 from 243 reporting outlets

Local Crops Re-Planted After Storm

Some three weeks ago, a blistering sandstorm virtually wiped out crops on drylands in southern Bailey County and inflicted heavy damage to young cotton all over Bailey County.

This week, most farmers have replanted, or are in the process of re-planting the devastated dryland farms. However, the land was not re-planted with cotton. Most of the farmers have planted grain sorghum, or in a few instances soybeans.

Karen Oxford at the Maple Grocery said most farmers have replanted although moisture is really in short supply. "We have received very little rain," she commented.

Bennie Claunch at Bula said at this time, the community has no crops, and most are re-planting in grain sorghum. Claunch said there is very little cotton left, and most of that is irrigated cotton. He said the Bula community is very dry.

Despite a solid week of rain in surrounding areas, and in some instances, damaging hail and wind, Bailey County was skipped by all of the moisture, with very light, intermittent showers.

In northern Bailey County, the irrigated crops are in excellent condition, the corn is rapidly growing. Slight damage was noted to

and deductions of \$38,900,781 with the use tax purchases determined at \$137,346. This made their amount subject to tax \$4,340,655.

Gross sales for Cochran County's 117 reporting outlets were a total of \$9,236,490, with deductions of \$7,751,933 and use tax purchases of \$7,024 for \$1,491,581 being subject to taxation.

In Lamb County, 511 reporting outlets had gross sales of \$57,592,158 with deductions of \$49,712,441 and use tax purchases of \$82,026. This left Lamb County's taxable amount of sales at \$7,961,743.

A total of 245 reporting

Cont. on Page 3 Col. 4

Community Survey Set Here Thursday

Jeff Smith, chairman of the Muleshoe Area Industrial Foundation said the long-awaited community survey will be made Thursday, June 26, beginning at 6:30 p.m. Members of Bailey County 4-H youth will be distributing the survey forms to all households in the city of Muleshoe.

An hour after the survey forms are distributed, the youths will again be knocking on doors to pick them up. The evening will be used to accumulate the completed survey forms to attempt to ascertain what basic community needs will take precedence.

In conjunction with the City of Muleshoe, the Industrial Foundation survey form will be used in an attempt

not receive a survey form may pick up a form at Muleshoe State Bank, First National Bank or Tri-County Savings and Loan Association. Although a house-to-house survey will not be conducted outside the city limits, Smith added that he would encourage all interested persons to complete a survey form at one of the banks and mail the completed form to Jeff Smith at Valley Grain Products.

Also, a separate survey will be made of local businesses. Business owners and operators will be asked to complete a survey form to be distributed during the week.

Results will be tabulated, with the South Plains Association of Governments

DRAWING JULY 4TH... Margaret Clements and her granddaughter are shown displaying a picture that will be given away July 4th.

Picture To Be Given Away

The Northwest Texas Chapter of the Myasthenia Gravis Foundation is offering a 20 x 24 picture to be given away at the fireworks during the 4th of July celebration here in Muleshoe.

This picture, a Texas bluebonnet scene taken on the LBJ Ranch in the Texas hill country, is photography art donated by Van Greene of Lubbock, a member of the N.W. Texas Chapter.

For a 50 cent donation to the Myasthenia Gravis Foundation, you will receive one chance to become the proud owner of this picture. The donations are being taken now, and will be taken all day at the Civic Center July 4th.

You may contact Margaret Clements at 4435 or Jenne McVicker at 4741 or see the picture on display at Albertson's.

The proceeds from these donations will be used to further research and educa-

tion in the constant fight to find the cause and cure of this dreaded disease, myasthenia gravis. "The N.W. Texas Chapter sincerely appreciates and thanks you for your help with this project," said a spokesman for Myasthenia Gravis.

LCHS Coach To Direct Camp

Dale Pectol, who coached the Lubbock Christian High School girls basketball team to a Texas Association of Private Schools state championship last season, will direct all three sessions of the Lubbock All-Girls Basketball Camp this summer.

The camp will be beginning its fifth year of existence, making it the city's oldest basketball camp.

One session will be held during the day, 8 a.m. to 5 p.m., June 30 - July 3. The other two sessions will be for overnight campers and will be held July 14-18 and July 21-25. Cost for the day camp is \$65 and includes instruction, a noon meal and a camp T-shirt. The overnight camp cost of \$97.50 includes three meals per day, a dormitory room at Lubbock Christian College, entertainment each night, instruction and a camp T-shirt.

Girls in the third grade

Texas Chamber Industrial Tour

The 1980 West Texas Chamber Industrial Tour will visit the cities of Detroit, Cleveland and Pittsburgh on September 2-5, according to Bob Brummal of Lubbock, chairman of the WTCC Private Enterprise Development Committee.

To Direct Camp

and up are eligible for the camp, provided they have not participated on a varsity athletic team. The camp does not affect ninth grade or junior varsity eligibility.

The basic fundamentals of offense, defense, shooting, dribbling and passing will be taught, with special emphasis being placed on defensive play, post play and jump shot techniques.

to contact industrialists in these midwestern cities to share the advantages of expanding or relocating their enterprises to West Texas. Those attending the luncheons will have expressed some interest in West Texas as a possible industrial site, and there

will be opportunities during the meetings for West Texas representatives to meet the prospects and explain the particular advantages of their hometowns.

Last year, West Texans representing twenty-one cities visited the Los Angeles and San Francisco areas hosting a total of 107 industrial prospects, according to Brummal. "Tour participants turned in excellent evaluations of the 1979 tour, and we anticipate the same kind of excellent response from businessmen in these cities looking for an alternative to

the high taxes, construction costs, labor costs and ener-

gy problems they experience in doing business where they live. West Texas has many advantages to offer," Brummal said.

Reservations for the 1980 tour are being accepted on a first-come, first-served basis through August 1, with participation limited due to hotel and airline space available for these dates. If interested in receiving further information on tour participation, call the WTCC administrative office in Abilene, (915) 677-4325, or write P.O. Box 1561, Abilene, Tx. 79604.

Hadley Reunion Held In Friona

The family of the late F.H. Hadley met Saturday, June 14, at the Friona Grade School Cafeteria for a reunion.

The last reunion was held on Fathers Day, June 20, 1965. Registration began Saturday at 10 a.m., with 74 signing the family record book.

Just before the noon meal, gifts were presented to the oldest family member, L.D. Cannon of Muleshoe, the youngest, Amanda Pope, daughter of Mr. and Mrs. Mike Pope of Friona. Also for the ones that came the longest distance and it went to Mr. and Mrs. Ronnie Cannon of Sand Spring, Oklahoma.

A floral arrangement was presented to the couple married the most years, that going to Mr. and Mrs. L.D. Cannon of Muleshoe, who celebrated their 60th wedding anniversary in February of this year.

After the dinner, the group spent the afternoon visiting, reminiscing, taking pictures and showing pictures.

Those attending were: Mrs. Jessie Hadley of Borger, Billy Hadley and Jo Riley of Grover, Phillip Hadley, Janice, Bill and Danny Fritz of Pampa, Mr. and Mrs. Marvin Gaddy and Terri of Duncanville, Mr. and Mrs. Albert Cannon of Clovis, Mr. and Mrs. Aubrey Cannon of Lubbock.

Also Mr. and Mrs. Ronny Cannon and family of Sand Springs, Okla., Mr. and Mrs. Tex Paris and daughters of Midland, Mr. and Mrs. Jay Spain and Betty Freeman of Hereford, Mr. and Mrs. Thomas Shoemaker and family of Hico, Mr. and Mrs. Otto Hutchens, Mr. and Mrs. Larry Pilgrim, Mrs. Shelia Manasco and Jeremy of Amarillo, Mr. and Mrs. Henry Sanders of Mangum, Ok., Mrs. Don Timms of Texico, N.M., Mr. and Mrs. Kenny Bails and family of Dimmitt, Mr. and Mrs.

L.D. Cannon, Mr. and Mrs. Gary Pope and Jeff of Muleshoe, Lynn Pope of Hereford.

Those attending from Friona were Ida Hadley, Mr. and Mrs. Ray Lee Hadley, Shasta Page and son, Irene Pope, Mr. and Mrs. A.D.

JOY Choir Metting

There were approximately 50 present Monday night, June 16, when members of J.O.Y. Choir of the First Baptist Church and their guests met in the fellowship hall for their regular monthly meeting.

The meal was served at 7 p.m., the prayer of thanks for the food was led by Cliff Goodrich.

After the meal, the group sang several songs and were entertained by special members presented by Carroll and Susie Rhodes and their guests. These guests were her parents, Rev. and Mrs. Harry Grantz of Breckenridge, where he is the pastor of the First Baptist Church. Also Susie Rhodes' brother and family, Mr. and Mrs. Bill Grantz and Amada of Jacksonville, Florida were guests.

Also present were Mrs. Pearl Vaughn of Bakersfield, Calif., sister of Mrs. Sherman Inman, Jeremy Boomer, grandson of Mr. and Mrs. Cliff Goodrich, Jeremy is from Denver, Colo. Visiting with Mrs. Raneta Dawson was her granddaughter, DaLynn Krebbs of Amarillo.

Crawford, Mr. and Mrs. Gerald Loftis and family, Mr. and Mrs. Alfred Beavers and sons, Carl Hadley, Mr. and Mrs. Gib Trigg, Mr. and Mrs. Mike Pope and Amanda, Mr. and Mrs. Leo Bails and Christopher Bails.

Present for the first time were Mr. and Mrs. Vic Benedict. Attending from the Muleshoe Nursing Home was Charlie Garth.

After singing their closing song, "Blest Be the Tie That Binds", the group was dismissed with a prayer led by Mr. Garth.

RECIPE

By Sarah Anne Sheridan

Dessert time comes around like clockwork—almost too regularly for the harassed meal planner. Here are two that should find favor with the homemaker.

Chocolate Almond Refrigerator Cake

- 1 c prepared whip cream substitute
- 1/2 c finely chopped chocolate covered almonds
- 16 Graham crackers
- 8 whole chocolate covered almonds

Add chopped almonds to 1/2 cup cream substitute. Spread on Graham crackers, place together to make a loaf. Wrap in plastic wrap. Chill overnight. Just before serving spread remaining cream on loaf. Garnish with whole almonds.

Alcohol Symposium To Probe Potential

According to McGuire's figures, the present corn holding facility will hold 7,200,000 pounds of corn, which is enough corn for four and one half months production.

This will be the first major fuel alcohol plant in this area.

Also in Muleshoe, for the groundbreaking were Mike McGuire and Ron Tomazewski, both of Charmec and Rim Gear, representing Tagco of Hereford, who will construct the new plant.

Sales ...

Con't from page 1

outlets in Parmer County said they had gross sales of \$22,328,453 and deductions of \$19,262,326. Use tax purchases for Parmer County were \$62,123 and the amount subject to tax for Parmer County was \$3,128,250.

Fourth quarter sales for Harris County were \$19.7 billion, as reported by 52,628 outlets, compared to sales of \$14.1 billion in the third quarter.

Gross sales reported in the state's other major urban areas included Dallas County, \$10.7 billion, reported by 39,128 outlets; Bexar County, \$3 billion reported by 19,255 outlets and Tarrant County, \$4.3 billion reported by 19,910 outlets.

FALLOUT & SERVICE

PASCO, WASH. -- Neither snow nor rain nor heat nor gloom of night may ever stay Postal Service couriers from their appointed rounds, but volcanic ash has. Postal deliveries have been stopped throughout eastern Washington and northern Idaho because of the fallout from Mount St. Helens. The planes, trains, trucks and buses that normally carry the mail have been halted.

An alcohol fuel symposium on "Small Scale Production of Ethanol from Grain" is scheduled July 1-2 at Texas A & M University.

Advance registration for the Symposium, to be held at the Rudder Theater, is underway now and will be accepted through June 23, says Spencer Tanksley, County Extension Agent. Registration is limited, and people are encouraged to register early by contacting the county Extension office for registration forms and more details.

"Many organizations of The Texas A & M University System -- including both the Texas Agricultural Experiment Station and Texas Agricultural Extension Service -- have joined forces to explore the various aspects of the ethanol issues," explained Tanksley.

The symposium will present latest information on feedstocks, preprocessing requirements, use as fuel in engines, by-product utilization, and legal, economic and financial aspects of ethanol production. Among speakers will be Dr. Neville P. Clark, Director, Texas Agricultural

DIGGS RESIGNS

Rep. Charles C. Diggs, facing up to three years in prison on conviction of taking payroll kickbacks, has resigned from the House of Representatives. The Michigan Democrat resigned "effective immediately" one day after the U.S. Supreme Court let his conviction stand by refusing to hear his appeal.

Have A Heart

The American Heart Association carries on a national educational campaign to create public awareness and recognition of the early signs of heart attack.

Heart attack is the greatest killer in the United States (more than 660,000 deaths annually). All should therefore be interested in the signs which give first indications of its approach.

The AHA says the most common are (1) Prolonged oppressive pain or discomfort in the center of the chest; (2) Pain radiation to the shoulder, arm, neck or jaw; (3) Sweating accompanying the pain, perhaps nausea, vomiting or shortness of breath.

Those symptoms, the AHA says, often subside and return at a later time. Those experiencing the symptoms should call a doctor at once.

The AHA specifies February as heart awareness month. Executives between 35 and 64 are most vulnerable.

Alcohol ...

Con't from page 1

McGuire and is married to the former Kerma Nickels. They are the parents of three sons.

Charmec Group Inc. has cited Muleshoe as a strong agricultural community with an abundant supply of the necessary resources required for alcohol production. The raw materials to be used for fermentation will be corn. McGuire said he will be producing some of the corn used for production of the ethanol, and the corporation will be purchasing corn from area farmers for the other production.

Food ...

Con't from page 1

North Hollywood. At the Berenda Research Center, the company is producing taco shells, tortilla chips and other finished food products. Pitman said the annual sales for his company are about \$25 million, and he plans expansion in some part of his California or Texas based corn handling facilities each two years.

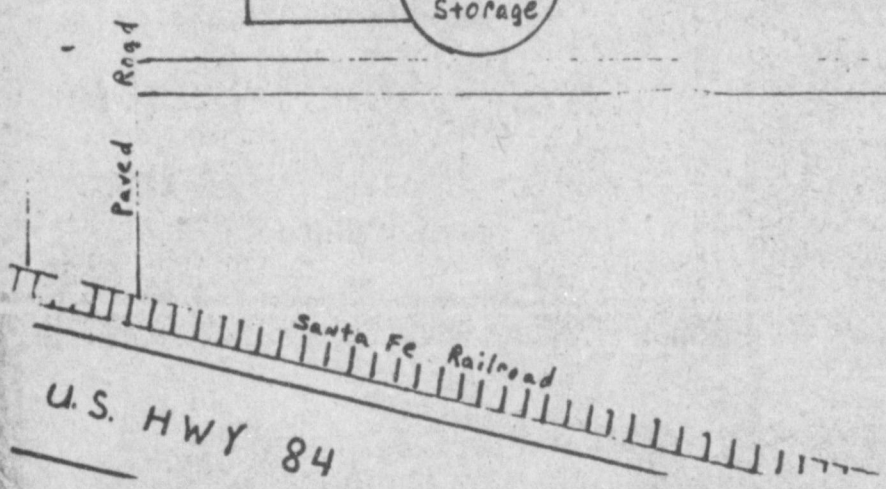

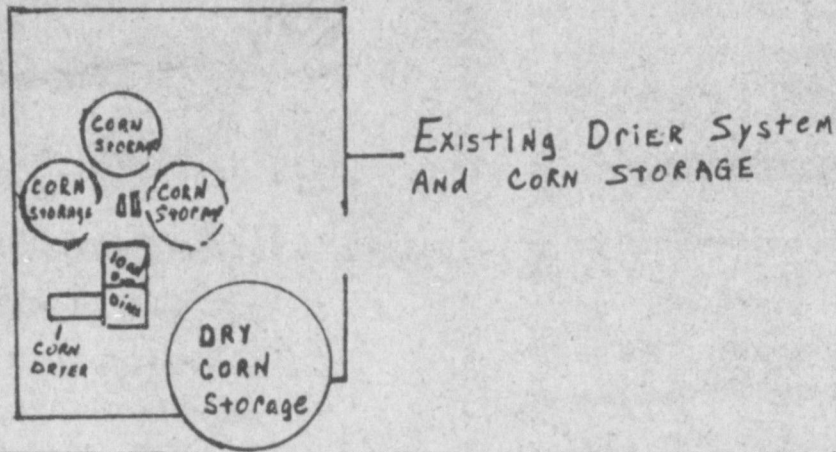

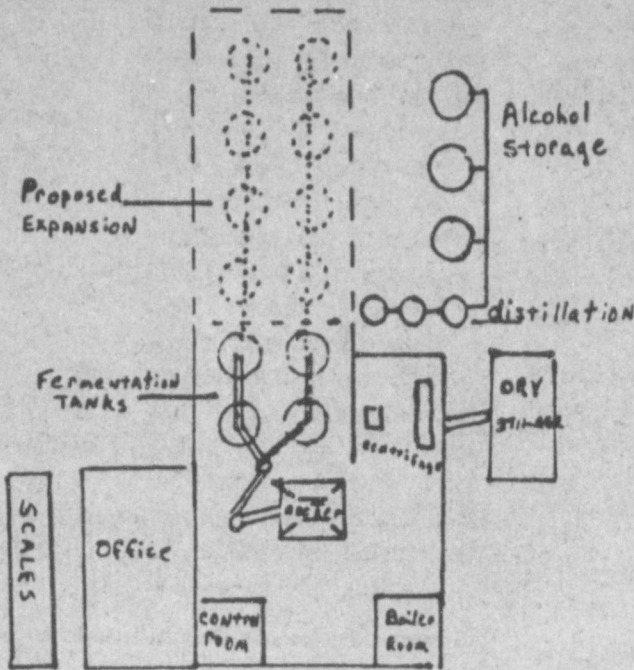

Locally, Valley Grain Products does not grow its own corn, but contracts it from local and area farmers. Smith said they provide a field program where the people from Valley Grain Products work with the corn producers. "We try to help the farmer produce more corn," explained Smith. "More corn makes a happier producer as he received more money."

After three years in Muleshoe, Smith indicated the company is very pleased they are facing an expansion program to handle the millions of pounds of corn to be moved to California to produce food.

MILITARY SALES

In a historic move, the Carter administration recently cleared the way for the first sales of military-related equipment and technology to the communist government of China.

The nearer we come to great men the more clearly we see that they are only men. Jean de la Bruyeres.

FUEL PLANT PLANS... Gene McGuire is president of Charmec Energy Corporation, and will be constructing a fuel alcohol plant at Progress, adjacent to the railroad track. Pictured is a plan of the initial construction, along with plans for future expansion of the plant.

ON THE ECONOMY

The government's economic forecasting index showed a record 4.8 percent decline in April, suggesting the nation is in for a steep but short recession this year, experts in and out of government said.

The heart of an energy efficient home.

♦ is the way people feel who live in it.

Some of the new homes built today will save more energy than others. Energy efficient homes (EEH) are built with tested and proven energy saving products and modern construction techniques.

Look for the Energy Efficient Home sign

Energy Efficient Homes are different because each has extra insulation added throughout the walls, floor, and attic. They are built as structurally tight as possible to minimize air infiltration and leakage while maximizing energy savings.

Consider installing the energy saving heat pump for heating and cooling the home. The heat pump operates efficiently by delivering more heat in winter than energy used to produce it.

People who live in Energy Efficient Homes save a lot to be happy about. It's good to know there are some things you can depend on.

Miss Rayniel Broussard, Bamert Married In Nome

Miss Rayniel Broussard became the bride of Nick Bamert at 7 p.m., Friday June 20, in Nome, Texas. Billy Sanders read the double ring vows.

Parents of the couple are Mr. and Mrs. Lee Broussard of Nome and Mr. and Mrs. Carl Bamert of Muleshoe.

The bride given in marriage by her mother and father, Mr. and Mrs. Lee Broussard, wore a gown of white organza. The high neck, with a cameo insert and a sheer yoke was enhanced by a fitted bodice of chantilly lace, with tiny seed pearls. The sleeves were long and full. The full A-line skirt had a multi-

tiered lace flounce, which swept into a full chapel length train. She chose a matching camelot headpiece with a cathedral length veil of illusion, trimmed with chantilly lace. She carried a white cascading bouquet with pink sweetheart roses.

Vows were read before two brass candelabras decorated with greenery and white flowers.

Patsy Martel of Nome, served as maid of honor. Jeri and Ruby Broussard, sisters of the bride, of Nome, were bridesmaids. They wore identical floral formal length dresses of pink and burgandy, featuring a flared skirt and

sheer capelet. The dresses were accented with a burgandy bow. They carried a nosegay of white carnations and pink sweetheart roses.

Misty Hillin, niece of the groom, of Levelland, was flower girl. She wore a dress identical to those of the bridesmaids and wore pink silk flowers trimmed in burgandy in her hair.

The groom was attired in a white tuxedo, with a white ruffled shirt accented with a boutonniere of pink sweetheart roses.

Robert Martin, Muleshoe, was best man and Tommy St. Clair and Matt Phelps, all of Muleshoe, were the groomsmen. They were attired in maroon tuxedos

with a pink ruffled shirt. Reese Hillin, nephew of the groom of Levelland, was ring bearer. He wore a tuxedo identical to the groomsmen.

Nick Walraven, College Station, and Matt Phelps of Muleshoe, were the ushers. Nick was also attired in a maroon tuxedo with pink ruffled shirt.

Greta Hillin, sister of the groom of Levelland, sang "We've Only Just Begun" and "Always and Forever". She wore a burgandy formal length gown of crepe with pink silk flowers trimmed in burgandy in her hair.

Mrs. Broussard, mother of the bride, chose a rose colored dress with a multi-colored pink corsage. The groom's mother chose a formal length gown of mauve silk.

A reception followed in the fellowship hall. Guests were registered by Tammy Hawley. Sheri Hawley, Tina Hawley and Jeanie Couch served at the bride's table. Karen Walraven and Janna St. Clair served at the groom's table.

The bride's table was skirted with burgandy taffeta and an overlay of pink organza edged in burgandy. A pink and burgandy floral arrangement in a silver candelabra and a three tiered white cake with pink roses, accented the table. Silver appointments were used.

A maroon antique satin cloth covered the groom's table. A brass coffee urn

and appointments were used. The sheet cake was topped with a miniature round cake decorated in shades of maroon and white.

After a wedding trip to Bermuda for ten days, they will reside at College Station until graduation in May 1981. Then they will be at home in Muleshoe.

The bride is attending Texas A & M University, where she is majoring in Food Science and Technology. The groom is at-

tending Texas A & M University and is an Agricultural major.

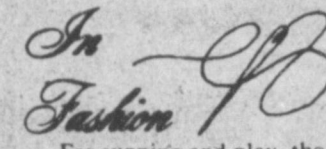

Out of town wedding guests included Mrs. Ollie Taylor and Mrs. Verona Bamert, Las Cruces, N.M., grandmothers of the groom Mr. and Mrs. Ernest Martin of Muleshoe and Mack Alexander of Levelland.

A rehearsal dinner was held June 19 at the Red Carpet Inn of Beaumont, Texas. The dinner was hosted by the groom's parents.

Hayes, Clements Vows Exchanged

Paul Sneed recited nuptial vows for Lynda Ann Hayes and Tommie Lynn Clements in a garden ceremony at the home of the bride's parents Mr. and Mrs. Bob Hayes in Amarillo on Saturday, June 14.

The bridegroom is the son of Iris Clements and Mr. and Mrs. Fred Clements of Muleshoe. He is the grandson of Madge Clements also of Muleshoe.

For sunning and play, the romper for the little miss (size 4 to 14) in soft cotton Terry is easy to care for. In cool summer white with colorful suspender straps and bindings accent the romper.

First Birthday Celebration

Brandi Lynn Bomer, daughter of Mr. and Mrs. Mike Bomer, celebrated her first birthday June 17th. She has a brother, Shannon, five years of age. Those helping her celebrate her birthday, other than her parents and brother were grandparents, Mr. and Mrs. Fred Stigault and Mr. and Mrs. Creston Faver.

Miss Donna Bentley Honored With Bridal Shower

Miss Donna Bentley, bride elect of Rickey Hayes was honored with a bridal shower Thursday, June 19, at 7:30 p.m. in the Bailey County Coliseum banquet room.

Guests were greeted by the honoree and her mother Mrs. Don Bentley, and the prospective groom's mother, Mrs. John Hayes.

The serving table was covered with a white lace trimmed tablecloth. A silk floral arrangement in the bride's chosen colors, peach and white, accented the table. Her corsage was peach and white fresh car-

nations. Special guests included Mrs. John Hayes, mother of the prospective groom, Mrs. Don Bentley, mother of the bride, Debra Beene, sister of the groom, Mrs. Steve Marshall, sister of the bride and Mrs. Travis Bentley, sister-in-law of the

bride.

The hostesses gifts were four place settings of dishes. Hostesses for the occasion were LaVayne Williams, Linda Mullin, Betty Campbell, Betty Bruns, Edith Wilt, Mrs. Lonnie Merriott, Mrs. James O'Grady, Mrs. Gor-

don Wilson, Mrs. James L. Brown, Mrs. Francis Gilbreath, Mrs. Clark McCamish, Mrs. Richard Rutner, Mrs. Butch Vandiver, Mrs. Joe Rhodes, Mrs. Kenneth Powell and Mrs. Claude Holmes.

Progressive Home Club

Oma Stratton entertained the Progressive Homes Club Wednesday, with five members present. Norene Thomas, president, presided over the meeting. Secretary, Roxie Hoover, called the roll, which was answered with hints, tips and a poem given by Vera Engleking entitled, "Just Like His Dad". The treasurer's report was by Vera Engleking.

Roxie Hoover drew the hostess gift. After the fellowship, refreshments were served to Vera Engleking, Norene Thomas, Roxie Hoover, Wenona Gibson, by the hostess, Oma Stratton.

W.W. PARKER CHARLIE GARTH

Lazbuddie Young Homemakers

The Lazbuddie Young Homemakers held their regular meeting in May to elect new officers for the 1980-81 year. Elected were: Mandi Seaton, President; Cindy Cargile, Vice-President; Cindy Hall, Secretary-Treasurer; Marca Morris, Historian; and Sheryl Engleking, Reporter.

The Young Homemakers also hosted a coke party for

the FHA girls, thanking them for babysitting during the meetings.

There will be a summer meeting, but the date has not been set. Secret Pals will continue through the summer and will be revealed next fall.

Members are: LaReta Barber, Janice Bradshaw, Vickie Burch, Cindy Cargile, Marsha Collum, Sheryl Engleking, Ellen Gallman, Cindy Hall, Joann McDonald, Debbie Magby, Billie Mason, Reta Mimms, Jenny Mitchell, Marca Morris, Debbie Nickels, Debbie Redwine, Charlotte Redwine, Rickie Seaton, Mandi Seaton, Debbie Smith, Nellie Vise and Debbie Weir.

TOPS Has Weekly Meeting

The TOPS Club met at 6 p.m. Thursday, in the meeting room of Bailey County Electric. Carlene Stroud, leader, opened the meeting with the TOPS song and pledge. Linda Vinson, weight recorder, called the roll, with 19 members present. Vickie Garner read the minutes, they were approved.

Best loser for the week was Rose Sain, Brenda Murphy was first runner-up and Randy Redwine was second runner-up. May Provence received material for three consecutive weeks weight loss. Nan Gatlin had a birthday and received a gift from the birthday box.

It was reported that Sue Murphey was in the Highland Hospital in Lubbock after an accident on a motorcycle.

Mona Spencer, TOPS coordinator from Plainview, is expected to be here July 10. The meeting was dismissed with the singing of the goodnight song.

MR. AND MRS. CECIL DAVIS

Fifty Golden Years Celebrated By Mr And Mrs Davis

Mr. and Mrs. Cecil Davis were honored with a reception in honor of their 50th wedding anniversary Sunday, June 15, in the fellowship hall of the Methodist Church.

Approximately 425 friends and relatives from eight states; California, Colorado, New Mexico, Texas, Oregon, Vermont, Arkansas and Kansas; signed the register. Melva said, "The 425 friends and relatives helped to make their 50th anniversary a most wonderful experience."

All of the relatives were

tags that designated which one (Cecil or Melva) were their relative. Mr. and Mrs. David Ware and family were special guests.

Davis came to Muleshoe in 1920 from Byers, Texas. He was a farmer and rancher for 60 years. Mrs. Davis came to Muleshoe, along with her parents, the late Mr. and Mrs. G.T. Gues in 1928 from Post, Texas. They farmed seven miles northwest of Muleshoe.

Cecil Davis and Melva Gues attended high school together, her junior and his senior year. They were married June 15, 1930 in Clovis, N.M.

They made their home in the Fairview Community, eight miles south of Muleshoe until 1964, when they

moved to Muleshoe, after his retirement from farming and ranching. Although he was semi-retired he was a book keeper for five or six years. He was Bailey County Chairman of the Historical Committee for 15 years. He is a member of the Lubbock Heritage Organization and a Mason, where he is Master Mason of the Masonic Lodge. Both Mr. and Mrs. Davis are members of Eastern Star. He was also a Director of Production Credit Association for nine consecutive years and served on various other gin and elevator boards.

Mr. and Mrs. Davis have attended the Methodist Church all of their married life and served on the official board many years.

Special Father's Day

Friday afternoon, the men of the Nursing Home were honored with a special Father's Day program. Terry Bouchelle of the Ave.

D Church of Christ read a Father's Day poem and lead several songs.

Maggie Rennels of Channel 6 TV interviewed Charlie Garth, Ed Parks, A.M. Bradley and W.W. Parker and she took their picture and put it on Cable TV.

A boutonniere was given to each father. The oldest father was Charlie Garth, who is 92 years of age. The youngest was W.W. Parker 72 years of age.

The flowers were given by Decorators. The Hospital and Nursing Home Aux. helped sponsor the program. Refreshments of home made ice cream, a decorated Father's Day cake, cookies and punch were served to all the residents and visitors.

Latest Arrivals

Billy Joe Galvan

Mr. and Mrs. Vincent Galvan of Farwell are the proud parents of a new son born June 16, at 6:52 p.m. in the West Plains Medical Center. He weighed 8 lbs. and 1 ounce and has been named Billy Joe.

The young man has two sisters Veronica; three and one half, and Monica; one and one half years of age.

Grandparents are Mr. and Mrs. Jose Galman of Farwell and Mr. and Mrs. Buck Howe of Louisiana. Petra Galman of Farwell is a great grandparent.

Rayo Pevon Estrada

Mr. and Mrs. Guillermo Estrada are the proud parents of a new daughter, Rayo Pevon, born June 17, at 4:33 p.m. She weighed 7 lbs. and 5 ounces.

"Grandparents" Baby Shower Honors Cook's

Mr. and Mrs. Marshall Cook were honored with a "Grandparents" baby shower Thursday, June 5 in the parlor of the Methodist Church. This will be the first grandchild for Mr. and Mrs. Cook.

The prospective parents are Mr. and Mrs. James Cook, who live in the Ft. Worth area.

Hostesses for the occasion were; Lela Ann Smith, Joyce Albertson, Betty Clayton, Mattie Hicks, Johnny Parker, Bobbie Bryant, Virginia Shultz, Ada Murrah, Marsha Rasco, Ivanelle Carlson, Arelia Morris, Evelyn Ziegenfuss, Norma Prather, Jackie Maritt, Jo Blackwell, and Pat Holland.

MR. AND MRS. MARSHALL COOK

Childrens Home Associates

The Portales Christian Children Home Associates met at Modine Elmore's home, with six members and a visitor present. The members present were; Lillie Barnhouse, Edith St. Clair, Ethel Julian, Ruth Williams, Oneta Cornelison, and Modine Elmore. Bettie Cox visited. Hot rolls, butter, honey, cake, jello, ice cream, tea and lemonaid were served.

Alcohol Fuel From Biomass Can Help Ease Liquid-Fuel Demand

By Robert L. Haney
TAES Science Writer

Alcohol fuel, manufactured from agricultural biomass, can help ease our present problems with liquid fuels. In fact, this may be our brightest short-term hope until we develop the technology to fully utilize our massive energy reserves in coal, lignite, shale oil, solar, and other options, according to research leaders at Texas A&M University.

"A crash program in synthetic liquid-fuel production is a stated objective of the U. S. government, further encouraged by tax breaks," says Dr. Edward A. Hiler, head of the Department of Agricultural Engineering and leader of the Alcohol Fuels Program at Texas A&M.

The President's recently-announced gasohol program for 1980-1990 establishes a goal of 500 million gallons of alcohol fuel capacity to be in place in 1981. About 80 million gallons of annual on-line capacity currently exists; 420 million gallons of additional capacity must be added this year and next to reach the President's goal.

"As a result of this encouragement, the Experiment Station and Extension Service are besieged by thousands of inquiries from purchasers of small alcohol-manufacturing units, with problems, or prospective buyers," Hiler says.

"The truth is that at present we can't answer some

of these questions, and neither can anyone else! Only added research can provide these much needed answers.

"It is evident to us that a large national commitment to ethanol production using grain as the only feedstock will inevitably lead to a food/fuel crisis.

"It is also certain that, initially, grain will have to be the major feedstock for ethanol production because knowledge is lacking for feedstocks other than grains. "The feedstock accounts for roughly two-thirds of the operating cost. Since grain prices will probably rise in the future, systems need to be able to handle alternate feedstocks, as well."

A very basic problem, for example, has been encountered by owners of small alcohol units, in finding that the product runs between 160 and 190 proof.

This means, it also has water in it and cannot be successfully blended as is with gasoline or diesel to make gasohol or dieselhol. Further expensive distillation is required to attain 200 proof alcohol, which can be blended.

Research is urgently needed, Hiler says, in these major areas:

First, is the determination of pre-processing requirements for non-grain feedstocks. Specific crops offering promise in this area include, among many others, sweet sorghum, sugar cane, sugar beets, sweet potatoes, and

cull fruits and vegetables.

At present, no one knows enough about needed adjustments in the fermentation and distillation operations and quality of stillage for animal feeding, when such materials are used.

Second, more information is needed about costs of alcohol made from these various feedstocks. This includes selecting a mix of feedstocks to take advantage of low cost and seasonal availability and determining the production cost for various alternatives.

Costs and annual hours of operation needed in order to get a proper return on investment must be determined.

Third, in order to avoid stillage drying, which uses large quantities of energy, cattle-feeding operations may have to convert to stillage-based rations. These are higher in moisture content than conventional grain rations.

Research is needed to find out the quantity and nutritional quality of various stillages that animals can consume, feed processing alternatives, degree of dewatering needed before feeding, and storage alternatives.

Fourth, since alcohol production plants will produce wastes if the stillage is not disposed of immediately (and it is yet to be determined if all the stillage can be fed), work may be needed to develop environmentally sound disposal systems.

Fifth, a very important area of research is the use of ethanol in internal combus-

tion engines. Particular emphasis should be placed on its use in diesel engines since these are most important in agricultural production systems. Vaporization of the ethanol and use in natural gas engines also has much promise.

Sixth, sweet sorghum has been widely acclaimed as an ideal feedstock for alcohol production because of its high yields, high sugar content, and wide area of adaptation.

However, methods of harvesting, handling, and pre-processing the crop in small-scale systems have not been demonstrated.

Seventh, biomass combustion or gasification potentially can be used to produce the process heat for operation of an alcohol system. Work in progress at the Texas Agricultural Experiment Station has shown that biomass can be combusted successfully in small processing units.

In order to hold down costs, such equipment needs to be interfaced with an alcohol system.

This could substitute a low-grade fuel for high-grade fuels such as natural gas or fuel oil presently used in small systems and would considerably improve both economic return and energy balance for small-scale plant operations.

Eighth, in order to insure safety to operators and adjoining property, procedures need to be developed for construction and operation of small-scale systems. Alcohol is flammable and can be dangerous if proper procedures are not followed. A proliferation of stills designed and

constructed by inexperienced persons could result in many serious accidents.

Ninth, environmental impacts resulting from ethanol production in small-scale systems need to be assessed.

"The foregoing is only a partial and simplified listing of problems associated with production of alcohol from biomass," said Dr. Neville Clarke, Director of the Texas Agricultural Experiment Station, "and we're already working on a number of them.

"Research in the area of alcohol production will likely be a continuing function of the Texas Agricultural Experiment Station.

"We expect to become a Center of Excellence in this research area and to that end have developed a broad-based research program under Hiler's leadership that marshals the scientific resources

of The Texas A&M University System.

"Much too long to detail there, this broad-based research will center on the Agricultural Experiment Station with the active support of the Agricultural Extension Service, Texas Engineering Experiment Station, and the Center for Energy and Mineral Resources of The Texas A&M University System.

"External support from the Texas Energy and Natural Resources Advisory Council, as well as private industry, is being sought to expedite this vital program.

"This research is expected to rapidly develop needed answers to problems associated with fuel production from agricultural biomass. This State has the potential to virtually free itself insofar as agriculture is concerned, of most of its dependency on petrochemicals," Clarke con-

cluded.

An alcohol-fuel symposium at Texas A&M University, July 1-2, will review present technology, problems, and potential of production of ethanol from grain and other agricultural products. Sponsors are the Texas Agricultural Experiment Station, the Texas Agricultural Extension Service, and the Center for Energy and Mineral Resources. Meeting starts at

9:30 AM, July 1 and ends at noon on July 2; for more information call your local research and extension center, your county agent, or Gary Arnold, College Station, Tel. 713/845-2211. Editor's Note: Any questions regarding this column should be addressed to Science Writer, Department of Agricultural Communications, Texas A&M University, College Station, Texas 77843.

BIBLE VERSE

"The kingdom of heaven is like unto a grain of mustard seed, which a man took, and sowed in his field."

1. Where is this verse found?
2. Who spoke these words?
3. Where were they spoken?
4. Is this parable found elsewhere in the Bible?

Answers To Bible Verse

1. Matthew 13:31.
2. Jesus.
3. From a boat by the seaside.
4. See Mark 4:30 and Luke 13:19.

Philosophy may teach us to bear with equanimity the misfortunes of our neighbors. -Oscar Wilde.

Bad Weather Kills Peaches

AUSTIN--Due to freezing temperatures and hail which destroyed much of the Texas peach crop this spring, total production of the favored fruit is expected to reach only 250,000 bushels this season, down 67 percent from a year ago.

Agriculture Commissioner Reagan V. Brown reported that East Texas growers were among the few who escaped the devastating effects of spring storms. Production in Central Texas, the state's major growing area, was lost completely in many orchards. Growers report that Gillespie County peaches will be sold locally but will not be shipped.

Considerable losses also occurred in North Texas and on the High Plains where cold fronts caught trees in full bloom.

Geothermal Energy Stored

Proposed changes in the federal "Emergency Building Temperature Restrictions" program (EBTR) would give building managers greater flexibility in conserving energy, it was announced by the U.S. Department of Energy today.

Under an alternate plan, building owners would be permitted to cool their buildings to 74 degrees Fahrenheit, rather than the present 78 degrees. In winter the temperature could be upped to 68 degrees, rather than the current 65 degrees.

The proposed regulations would permit a building manager to use an alternate plan, if that plan would achieve an energy savings equal to that resulting from full compliance with the current regulations. The current regulations remain in force until final rules are published this summer.

Actions that could be taken include reducing lighting wattage, changing

hours of building operations, installing insulation and weatherization, among others. The proposed regulations were published in the Federal Register on May 27, 1980. A 30-day public comment period ends on June 26, 1980.

Other changes and clarifications would affect senior citizens' centers, school, work place show and changing rooms, and circumstances where workers who are required to wear special or protective clothing may be endangered by the temperature regulations.

Further information about the proposed changes may be obtained by writing the EBTR Office (CE), Department of Energy, P.O. Box 35228, Dallas, Texas 75235. The telephone number is (214) 767-7777.

General information about the program may be obtained by telephoning the toll-free emergency conservation service hotline number in Washington, D.C., at 1-800-424-9122.

HOME RAZED BY EXPLOSION, FIRE.... Shortly after 12:30 a.m. Friday, the home of Ed Haskins at Progress was leveled by an explosion and fire. The force of the explosion blew glass, window screens and window frames into a field and across the street from the home. Haskins managed to escape from the house just before it exploded. He said he woke up and discovered the house was burning. He was not injured.

Smart people don't do all the talking.

Sudan News
By Evelyn Ritchie

Amy Beckett has been here from Midland to visit her aunts and families. Mr. and Mrs. Dwayne Powell and Mr. and Mrs. Butch Hall. Her grandmother, Mrs. Arnold Beckett, has been in the Muleshoe and Lubbock hospitals recently.

Mrs. Bruce Newman, Bonnie and Tena Newman spent the week with Rev. and Mrs. Bob Netherland and children in Midland.

Mr. and Mrs. M.H. Tollett have been in Beaumont to attend graduation exercises for their grandson, Raymond Shafer.

Mrs. Arnold Becket is a medical patient in the Methodist Hospital in Lubbock.

David Doty and Crystal of Littlefield visited during the weekend with his parents, Mr. and Mrs. Wayne Doty and other relatives.

Rev. Kerry Hurst attended the Northwest Texas conference of the United Methodist Church in Abilene last week. Cliff Stephens also attended the conference as a delegate from the local church.

F.M. Smith is a surgical patient in the Methodist Hospital in Lubbock.

Rev. Kerry Hurst has been in Abilene to attend the Northwest Texas Annual Conference of the Methodist Church. His wife and son visited in Tahoka with her parents while he was gone. Hurst was re-appointed to the Methodist Church here for another year.

Mr. and Mrs. Bob Summer and Shelia have been in Munday for summer harvest for the past few days.

Son Qualls has been visiting his sister in Littlefield.

Mrs. Jerry Ray was one of the sponsors for the senior trip to South Padre Island. While there, her daughter, Vicki Williams of Edinburg met them there for a visit.

Twilla Rudd has returned home from college and is employed at the denim plant in Littlefield.

Mrs. J.W. Olds visited in Lubbock this week with her daughter, Melba Bauldin.

Linda Murrell of Shreveport, La. visited recently with her parents, Mr. and Mrs. Frank Lane and her sister, Mr. and Mrs. Mike Nix and children.

Mrs. J.W. Olds was in Plainview last Sunday to attend a wedding reception for Mr. and Mrs. Bobby Bouldin.

Georgia Newcomes returned to her home in Houston Tuesday following a visit here with her parents Mr. and Mrs. Jerry Ray and Tanya and her sister, Mr. and Mrs. Roby Lynn and Jennifer.

Among those from Sudan who have been in the Amherst hospital recently are Dorothy Handley, Elbert Rasco, Griff Boyles, Hazel Savage and Ray Wood.

Recently visiting with Mr. and Mrs. Ray May and Raegon were Mr. and Mrs. Ray Hamilton, Chesa and Jason of Great Falls, Montana.

Faye Dorsey recently returned home from visiting friends in Carlsbad, N.M.

Mr. and Mrs. A.B. Knox returned home Wednesday from a fishing trip.

Mrs. W.T. Vereen attended the wedding Saturday for her grandson, Tommy Henson and Barbara Howard in Littlefield. Mr. and Mrs. Rex

Herring of Lubbock attended with Mrs. Vereen. Bertha Vereen, Mrs. J. W. Olds and Mrs. Rodney Nichols also attended the Howard and Henson wedding.

Mr. and Mrs. Eldon Nichols are home after an extended stay on Lake Falcon.

Mark Lane, senior and biomedical science major at West Texas State University has been named to the president's list with a 4.0 average. He is the son of Mr. and Mrs. Frank Lane.

Lisa Harper, Bert Byerley, Keith Downa and Laura Beene have been named to Texas Tech Dean's honor list for the spring semester.

Recently visiting Mr. and Mrs. Charles Logan have been their son Cary of Amarillo, their daughter, Mr. and Mrs. Roy Hunter and children also of Amarillo. Their grandson, Ben Logan has been here also for a visit.

Mary Powell and June Bartley have been attending a lunch room workers school this week in Lubbock.

Mr. and Mrs. Bonner Markham of Amarillo visited during the weekend with his parents, Mr. and Mrs. Joe Burt Markham and their son, Chip, returned home with them following a week's stay here with his grandparents.

Hayt Robertson has been fishing recently at Lake Brownwood.

Mr. and Mrs. J.C. Wells were in Abernathy Sunday to visit their daughter, Mary Wieliford, Rose and Rita.

Visiting Mr. and Mrs. Roy Day have been their daughters, Mrs. Robert Piland of Wichita Falls, Mr. and Mrs. Jack Noblett of Lubbock and other family members. It was reported that Mrs. Day is progressing very well.

Attention all band members: If you have not turned in your band uniform, it is most urgent that you do so immediately, along with a cleaning ticket. These may be turned in to Mrs. Connie Hill.

Mr. and Mrs. Larry Scheppe of Sorento, Ill. are parents of a new son, Joseph Kyle born at 2:55 p.m. Tuesday, June 10.

Joseph Kyle weighed six pounds, thirteen ounces and was 20 inches long. Grandparents are Mr. and Mrs. G.C. Churchman of Sudan and Mr. and Mrs. Joseph Wargola of New Douglas, Ill.

The infant has a three and one half year old brother, Larry Dean.

Happy Birthday Dorothy Drake!!!

Mr. and Mrs. D.W. Williamson have been vacationing at Lake Graham.

Mr. and Mrs. Wayne Rogers visited recently in Midland with her sister, Mr. and Mrs. B.L. Anderson.

Mr. and Mrs. Bob Drake visited recently in Tulia with relatives.

Cheryl Phillips and Gaylene Rogers left Tuesday for Nashville, Tenn. where they will attend musicals and tour points of interest.

Mr. and Mrs. B.A. Beauchamp, Jr., Derwin, Sharon Vickers and girls and Sherry Capers and Rebecca were in Muleshoe Wednesday evening for a dinner in honor of the Beauchamp's anniversary in the home of her sister, Mr. and Mrs. Ray Black.

Mr. and Mrs. A.C. Baker, Cedric and Eric of Arlington have been visiting her parents, Mr. and Mrs. Ed King and family.

Mrs. Ida Mae Beauchamp is visiting in Lubbock with her daughter.

Martin Maxwell has been a patient in the Littlefield

hospital.

Mr. and Mrs. Claud Kropp spent Father's Day with their children, Mr. and Mrs. John Kropp, Sonny and Blue and other family members.

Mrs. Gene Corley and Jim of Belen, N.M. visited recently with her sister-in-law Mr. and Mrs. G.C. Ritchie.

Mr. and Mrs. Bob Nelson returned from the lake recently.

Monte Rogers of Houston arrived home Thursday for a visit with his parents, Mr. and Mrs. Wayne Rogers. They all visited in Wheeler with relatives prior to going to Colorado for a few days vacation.

Mrs. Sharon Vickers, Kristie and Amy of Mansfield, Ohio and Mrs. Sherry Capers and Rebecca of Cadiz, Ohio will return Monday to their homes following a visit here with their parents and grandparents, Mr. and Mrs. B.A. Beauchamp, Jr. and Derwin.

Mr. and Mrs. Claud Kropp visited recently in Hereford and Amarillo with their children, Mr. and Mrs. Charles Mincheu and boys and Mr. and Mrs. Troy Waller and children.

Mr. and Mrs. Jack Enggram were in Amarillo during the weekend to attend the wedding of their grandson, Mickey Popejoy.

Cordless trimming?

Drop in for a look at the Toro cordless trimmer. Lets you trim where extension cords won't reach. It's got the power to do those tough trimming jobs under fences and around trees or shrubs. The battery pack lets you trim for up to 45 minutes before recharging. Weighs only 7 pounds so it won't tire you out. It has Toro's unique, fully-automatic line feed so you don't have to stop and feed out line by hand.

Haven't you done without a Toro long enough?™

TORO

PARA MOUNT Shearing MOD. 5503

A high performance trimmer with the muscle to handle tough cutting chores in big yards, farms, edges, sweeps, "scalps", trim your ivy and ground cover, even take up light hedges. A powerful 1/2 HP Permanent Magnet motor clears a full 15' path. Fresh cutting cord feeds out AUTOMATICALLY when you lift the head against the ground. The sturdy wrap around guard protects you from flying debris, and an automatic cord cutter built into the guard trims to perfect cutting length. The reel holds 50 ft. of heavy duty cutting cord, and it's easy to replace. Husky, comfortable handles give you firm, two-handed control for trimming in any plane. The entire unit is double insulated for your safety.

Air Cooled Gas Driven LINCOLN ELECTRIC LINCWELDER® 225

DC Portable Welder With AC Power Capacity...

THE IDEAL WELDER for contractors, mill and factory maintenance departments, machine for erection, utility work and all where power is not available.

DC Welding Output Characteristics for best arc characteristics for cutting, steel and hand welding electrodes.

225 Amps is enough for "general purpose" welding, shops and others who need a highly portable machine for erection, utility work and all where power is not available.

DC Welding Output Characteristics for best arc characteristics for cutting, steel and hand welding electrodes.

225 Amps is enough for "general purpose" welding, shops and others who need a highly portable machine for erection, utility work and all where power is not available.

Lightweight and easy to use... it is ideal for small yards and precise trimming

PARAMOUNT Shearing MOD. 5205

Here's all the versatility and safety of nylon cord trimming for people with smaller yards, or who live in trailer parks or condominiums. Weighing less than 3 lbs., it is so easy to control that nearly anyone can use it. It will clear out grass and light weeds along fences and flower beds, around trees and under shrubs... all those awkward places your lawn mower can't reach. A sturdy wrap-around guard protects you from flying debris. With a 20 hp motor, it cuts a full 9 inch path. The cutting cord is instantly adjustable without tools, and the speed knob, 2 1/2 ft. of spare cord. Replacement spools are easy to install. The big, contoured handle fits the hand perfectly, and features a convenient On-Off trigger switch. The entire unit is double insulated for your safety, and to permit the use of lighter, thinner 2-wire cords.

Bradley Services Held Friday

Funeral services for Sue J. Bradley, 66, of Lubbock were held at 10:30 a.m. Friday, in the Singleton Ellis Chapel of Chimes, with Rev. J.E. Meeks pastor of the First Baptist Church officiating. Interment was in the Muleshoe Cemetery under the direction of Singleton Ellis Funeral Home.

Mrs. Bradley died Wednesday, June 18, at 11:30 a.m., in the Methodist Hospital in Lubbock, after a lengthy illness.

She was born January 3, 1914, in Amarillo and had been a Lubbock resident since 1968, moving from Plainview. She resided in Muleshoe from 1921-1966, where she owned and operated Sue's Beauty Shop for many years. She was a retired beauty operator and a member of Eastern Star, Rebecca Lodge and the Baptist Church.

Survivors include a son; Jimmy Dale Beller of Pasadena, Texas; a sister; Wanda F. Fry of Lubbock; a brother; Jim Cox of Muleshoe and one grandchild.

Cotton Today

There's every reason to be optimistic about America's long-term energy outlook, an oil company executive told The Cotton Foundation's Sixth Annual Outlook Conference here in Scottsdale, Arizona June 10-11.

D.L. Bower, vice chairman of the board of Standard Oil Co. of California, said the U.S. has the technology to produce more coal, oil, gas, and nuclear energy.

"We also have the potential to become the world leader in developing synthetic fuel and alternate energy resources," he added.

For the short term, Bower said motor gasoline and diesel fuel for agriculture and other uses should be in ample supply, though at

Cotton Today

somewhat higher prices. Fuel price trends will continue upward, he predicted, due to increasing costs of imported oil and the price control phase-out on domestic production.

Bower said the challenge in the 80's is to free the nation's competitive market system from unnecessary control and restrictions that thwart maximum efficiency. This would allow the U.S. to establish the technical base for developing a much broader energy mix, he stated.

An equally optimistic outlook for cotton was reported by Dr. Arlie Bowling, National Cotton Council's economic and market research director. He said cotton is entering the 80's with its strongest competitive position in many years.

"The strongest fabric markets are still cottons," he said, "and history shows cotton fares better than

other fibers in a recessionary period such as our nation is entering."

Robert E. Coleman, chairman of the board, Riegel Textile Corp., also spoke about global trends in fiber use. "The U.S. must continue to view its textile industry as part of a global market," he said, "and aggressively pursue increased export opportunities."

He urged involvement in international Multi-Fiber Agreements which would define textile market shares according to a nation's

needs and abilities to produce. Domestically, Coleman predicted the textile industry's expansion this season marks the beginning of a strong growth period.

On another note, Dr. Jack Early of the National Agricultural Chemicals Assn., called for farmers to speak out on the essential role of pesticides in efficient food and fiber production. Citing the growing number of conflicting state and federal regulations, he said some states seem to be committed to outdo the federal government in environ-

mental and safety rule making. Other conference speakers reported on cotton exports, transportation, production techniques, cotton dust, machinery, and the Foundation's current research and educational programs.

Please "Excuse me, officer," said the meek-looking little man to the "cop," "but I've been waiting here for my wife for over a half an hour. Would you be good enough to order me to move on."

Kites: a toy serves as a tool of technology.

CAR-SENSE

Ed Edmiston

Though most of us hate to admit it, the sub-compact car is much more practical for today's driving than a large automobile. We are forced to drive at 55 m.p.h. to save fuel, plus, in a recent survey, only 3% of the miles driven in the United States were with more than 4 people in the car - and this included the children. Our engineers have accomplished an unbelievable obstacle in making the sub-compact ride, handle and drive just as well as the large automobile. Virtually the only thing in space sacrificed is the luggage compartment (and not this on all sub-compacts) and the engine compartment. Some sub-compacts have as much or more head-room as the large car and the arrangement of the seats have given just as much leg room. Before you buy a new car, take a good look at our sub-compacts.

fications for speaking out
on a subject is a basic
ignorance of it, I feel qual-
ified to talk about a new
Canadian law I read about
last night and to warn
against its spread to the
United States.

The law bans TV commer-
cials aimed at children 13 or
younger.

If it spreads to this country
the television industry will
go broke. Ninety percent of
its commercials, as best I
can judge, are aimed at
13-year-olds or younger.

For instance, for over a
year now an ex-movie star
has been straightening out
nervous people who drink
too much coffee of the
wrong brand. When they
switch to his, they settle
down to shooting better
golf, practicing better law,
etc. I had no idea there
were that many golfers and
lawyers with 13-year-old
minds.

Now that brand of coffee is
not to be confused with the
brand that's grown on a
mountain and picked one
bean at a time, hauled

down by a donkey and
shipped to every grocery
store in the United States.
I've never understood how
that donkey could make
that many trips. Maybe a
13-year-old could explain it
to me.

Now I won't go into the
mental age of soap com-
mercials, detergents, floor
waxes, baby diapers or cars
some ex-football player told
you to buy.

I feel sure no Congress-
man will read this letter
when it appears in The
Journal and it's a good
thing, because if one did
and thereafter got a bill
passed banning TV com-
mercials aimed at 13-year-
old minds or younger,
sooner or later the bill
would be expanded to in-
clude banning TV programs
of the same mental caliber,
and then what would we
have left?

What's on for tonight?
Somebody has misplace my
TV Guide.

Yours faithfully,
J.A.

Eleven Day Trip To Washington

July 9 is the last day to register and pay tuition for an 11-day trip to Washington, D.C. this summer sponsored by South Plains College in Levelland.

The trip scheduled for July 23 - August 2 will fulfill six hours of college credit in American government, along with three additional weeks classtime.

Tuition is \$39 for in-district students, \$45 for out-of-district and \$134 for out-of-state students, according to Jerry Barton, SPC dean of admissions and registrar.

Balance of the payment

Jaycees In Action

By Chuck Smith

The Muleshoe Jaycees are starting off the new year with several new projects. At the Monday meeting, several of the projects were discussed.

1. The Jaycees will be promoting highway safety and energy conservation, by urging all motorists to drive 55 mph. This is being done in conjunction with the Texas Jaycees and the Texas Highway Department. More details will be given later.

2. The Jaycees ran a toll booth at one of the city intersections on Saturday, June 21. Proceeds from the toll booth were to be donated to Muscular Dystrophy for 'Jerry's Kids'. Martin Nowlin was in charge of the project.

3. Vice President, Ricky Mata, discussed some of the Fourth of July activities that the Jaycees will sponsor. There will be a Marathon Race, chaired by Troy Stigmiller, and some other activities still being planned.

4. Other topics discussed by the Jaycees included; an August 23 retreat to Dallas to see the Cowboys and Oilers play; a family social at the Muleshoe Country Club on June 21 and the Texas Jaycee Summer Board meeting and Five Outstanding Young Texan presentation scheduled at Lubbock July 25, 26 and 27.

Allen Davis, voted Outstanding Young Farmer for 1979-80, received his plaque at the meeting. Jimmy Rogers received his Leadership Dynamics Certificate (and also volunteered to be flag chairman). Tommy Gunstream received the Spring Board award. Don Hovland reported on the disco held June 14 and was recognized for a job well done.

Attending last Monday's meeting were Galen Bock, Ricky Mata, Kent Kelly, Walter Little, Johnny St. Clair, Troy Stigmiller (newest member), Chuck Smith, Ernest Morvec, Jimmy Robers, Dan Hovland and Tommy Gunstream. Guests were Walter White, Allen Davis and Alex Williams.

must be made by July 16.

Total cost, including tuition, round trip airfare and housing, is \$724 for in-district students, \$730 for out-of-district students, and \$819 for out-of-state students.

Food and personal expenses will be extra.

Two weeks of class beforehand and a one-week class following the trip, planned by SPC social science chairman Travis Spears, also are required.

For more information, contact South Plains College at (806)894-9611, ext. 220.

Three Way News

By Mrs. H.W. Garvin

Mrs. H.W. Garvin was in Clovis Tuesday and Wednesday staying with her grandchildren.

Mr. and Mrs. Larry Tarvathan and boys from Canyon spent part of last week with the S.G. Longs.

Mr. and Mrs. Troy Tyson and children from Levelland visited the George Tysons Sunday.

Mr. and Mrs. Kenneth Box and children from Clovis spent Thursday until Monday with her mother, Mrs. H.W. Garvin. Rev. and Mrs. James Gillentine from Lubbock spent Friday night with her mother, Mrs. H.W. Garvin.

Mr. and Mrs. Robert Kindie and the Joey Kindles all from Maple and the Jerry Damrons from Needmore were dinner guests in the Bobby Kindie home Sunday.

Mr. and Mrs. Marvin Long from Amarillo visited the S.G. Longs Friday and Saturday.

Mr. and Mrs. Joe Sowder were in Clovis Saturday playing softball in a tournament. They spent Saturday night and Sunday with her father, A.G. Taylor in Muleshoe.

Mr. and Mrs. George Tyson were supper guests in the D.A. Williams home in Enochs Monday night.

Farmers in the community are busy planting their crop over and trying to save what little crop was left after the sandstorms.

Mr. and Mrs. W.M. Eubanks and Mr. and Mrs. George Tyson attended the Senior Citizens meeting in Portales Saturday evening.

The Consumer Alert

by Mark White
Attorney General

AUSTIN—NOTICE OF UNCLAIMED ACCOUNTS: If you happened to be reading the legal notice section of your newspaper during the month of May, you might have noticed local financial institutions publishing columns of names and addresses of individuals with unclaimed or dormant accounts. The notice also indicated that unclaimed amounts will be paid upon proof of ownership at the office of the financial institution within nine (9) months or they will be turned over to the State Treasurer.

During the last five years, almost \$18 million dollars of unclaimed accounts have been deposited with the State Treasurer. From that total, just over \$1 million dollars has ever been claimed. How do these funds come to the State Treasury and what rights do the original owners have if they want to get their money back?

The Texas Bank Escheat Law identifies dormant accounts as those which have been inactive for more than one (1) year. An account is considered to be inactive when there has been no money deposited or withdrawn within the past year, excluding interest or service charges that are added or subtracted by the institution itself. A dormant account will lose its status at any time that a deposit or withdrawal is made into or from the account.

It is a common misconception that after an extended period of dormancy, an institution may "absorb" the funds held in a dormant account. Many individuals believe that this is how the institution will get "paid" for keeping the account on their books during the period of dormancy. However, this is not the case. Once an account is determined to be dormant, it is against the law for an institution to transfer, convert, or reduce the account through service charges or assessments. The law requires that the institution maintain the account for a period of seven years. Once this period has elapsed, the institution is required to publish notices to persons with unclaimed accounts in a newspaper within the city or county where the account is being held. These notices appeared recently in local newspapers throughout the state, because the statute requires publication during the month of May. If no one has claimed the funds within nine months after the notice, the institution is then required to turn the money over to the State Treasurer. The institution is only allowed to charge an account a proportionate amount of the cost of the published notice.

Another misconception is that once the State Treasurer receives the money, each previous owner loses their claim. This also is not the case. The State Treasurer is required to maintain a special fund for payments to those who may at any time in the future establish their

ownership of funds that have been received from dormant accounts. The special fund, called the State Conservator Fund, is required to maintain at least a \$250,000 balance. Because considerably more

money is received each year into the fund than the balance requires, the additional funds left unclaimed by owners are transferred to the Available School Fund.

Even though the funds have been relinquished to the State Treasurer, an individual with a valid claim to funds left in a dormant account may still go to the institution where the funds were deposited in order to make their claim. If the amount claimed is \$100.00 or less, the bank may pay the claim and get reimbursed from the State Treasurer. However, if the amount claimed is greater than \$100.00, the payment must first be approved by the State Treasurer and the Attorney General.

If you have a question concerning the status of an account, contact the institution where the account is being maintained. Banks, savings associations and other financial institutions are generally very glad to close out or consolidate small inactive accounts. Many times accounts that have been forgotten or are no longer useful to the individuals must be maintained for years by the institutions at a considerable cost.

Responsibility
"Who's the responsible man here?" asked the caller. "If you mean the fellow who always gets the blame," answered the office boy, "you are speaking to him now."

agri-facts

By Bill Wooley

Have farmers done anything for you lately? Probably not. At least, not since your last meal. Figures developed by researchers with the USDA indicate that American farmers' production last year was high enough that each man farming produced enough to feed 57 people. In the European Common Market countries one farmer produced enough to feed 23 other people, the average of all developed countries was less than half the productivity in the U.S. and in Russia the average farmer produced enough to feed only about 8 others. Not only is the American productivity important in keeping us all well fed (most too well it's also significant in that it allows 96 out of every 100 people to work in areas outside food production. That makes possible the production of the wide variety of goods and services which constitute our unparalleled living standard. Keep it up farmers!

Free Balloons for kids. Sat. 28, Ralph the Wrangler clown will be present.
