## Varying Amounts Fall Wednesday

A heavy thunderstorm moved through the Bailey County area early Wednesday morning bringing some high winds and varied amounts of moisture.

Area residents were awakened between 2 and 4 a.m. Wednesday morning by the rumbling electrical storm that deposited rain in amounts of a half inch to one and a half inches across the area.

Southern Bailey County seems

to have caught the largest amounts of rain.

Bailey County Agent Spencer Tanksley reports that the southern part of the county was the portion that really needed the moisture, especially on the dry-land crops.

Tanksley stated that the cotton crops are now in real good condition considering the hot, dry August this year.

He said that the recent showers have been very beneficial to the cotton crops, but farmers would like to see some warmer temperatures now to mature the cotton. This week's low has been 59 degrees. Tanksley said what the farmers need now is 100 degree temperatures during the day and 76 degree temperatures at night for a while to make high quality cotton.

Grain sorghum, said Tanksley, should really benefit from the showers as the moisture should increase yields, especially in the late planted grain sorghum.

There is still quite a bit of grain sorghum left to make, with about 50 per cent already made.

The county agent explained that the corn harvest may be delayed some by the rain Wednesday.

# First Full Football Weekend On Tap For This Coming Weekend

The appetizer was served last Saturday...the entire and dessert will on the table this week as both colleges and the pro's move into the first full football weekend of 1973. For many wives, it was a short baseball season!

Los Angeles against the Razorbacks of Arkansas. The Hogs had a very disappointing season last fall, but are hoping to rebound on the strength of talented newcomers. The Trojans, loaded with lettermen and Anthony Davis, appear quite awesome at this point. The spread is big, Southern Cal by 31 points. Number tow last fall, Oklahoma opens the season against

Baylor. Like Nebraska, the so-nomers lost quite heavily through graduation, and they'll meet a much-improved Baylor team. However, it will take more than just improvement for the Bears to win this one... Oklahoma by 29 points. Bear Bryant's Crimson Tide from Ruscaloosa meets California in the curtain-raiser for both clubs. Alabama finished third

nationally last fall, and is one of the favorites again in the Southeast Conference. The California Bear will lose by 31. And the year of revenge begins for 6th-ranked Michigan. Beaten out of both a Big Ten championship and a Rose Bowl trip by a season-ending upset loss to Ohio State, the Wolves start out against Iowa. Michigan

is a 27 point favorite. In addition to Alabama, there were three more Southeast Conference powerhouses in 1972. They finishes seven, eight, and nine in our final national rankings, and all three will be quite busy this Saturday. Auburn, the biggest loser by graduation, is favored over Oregon State by 31 points. Tennessee opens against Duke, and the Vols

should win it by twenty-one. LSU has certainly the toughest assignment...14th-ranked Colorado. Both the Buffs and the Tigers will eventually be in the thick of title fights within their respective conferences, but this game is rather a must for each on the national level. After gazing at the tea leaves, we'll go with Colorado by just two points.

MISSIONARY TO SPEAK AT CALVARY CHURCH... Rev. Shelby Mayor who has just returned from Indonesia will be the guest speaker at the Calvary Baptist Church, 18th and Avenue C in Muleshoe, on Sunday, September 16, at 7 p.m.

## Post High School Grants Being Offered

Robin Taylor, Bailey County Home Demonstration Agent, reports that high school graduates desiring to further their education and who need financial assistance to do so may now apply for grants to fund part of this training.

Under a new federal program, the Basic Educational Opportunity Grants Programs, interested students may apply for grants that will pay up to one-half of their educational costs, points out Dr. Warren Mauk, 4-H and Youth Specialist for the Texas Agricultural Extension Service.

The Extension Service, through its county agents, has applications for the grants as well as additional information on the program. Applications are also available at post offices, high schools and state employment offices.

"The new program provides an excellent opportunity for students to enroll in colleges and universities as well as in vocational or technical schools," says Mauk. "However, the program in which the student enrolls must require a high school diploma and must be at least six month in duration."

"Students must be entering a post-secondary educational program for the first time after July 1, 1973 and on a full-time basis. And grants must be applied for annually. Applications for the 1973-74 school year may be submitted until next February."

According to the Texas A&M University System specialist, the amount of the grants are based on the cost of the program in which the student enrolls and the ability of the student or his family to pay for the training. The issuance of the grants will not be influenced by scholarships or other sources of funding available to the student.

The grants are designed to pay for tuition, student service fees, board and room, books and certain other expenses.

"This program provides a tremendous opportunity for high school students to obtain further education and training," says Mauk. "And it's not a 'poverty' program. Individual situations will be considered in awarding the grants."

nesday morning. He anticipated that the corn harvest will begin next week and by the last of September, it should be in full swing.

He also stated that the recent rains were beneficial for the range country in this county, as they were needing a boost for the native grasses to allow cattle to graze longer without any supplemental

feed.

Tanksley concluded by saying that the rains were much needed as the area went the whole month of August without any moisture.

A rain check over the area Wednesday morning showed varying reports of moisture.

Clarence Albus, at Pep, reported they received one inch of rain with very little wind.

Harold Allison, who lives eight miles east of Muleshoe on the Plainview Highway, reported that he received .9 of an inch between 2 and 3 a.m. Wednesday.

Mrs. J.D. Bayless who lives two miles north of Enochs, reported that they received 1.10 inches of rain with very little wind.

W.B. Kittrell reported 1.5 inches of rain with little wind, but no crop damage from the wind. He lives eight and a half miles south of Muleshoe.

# Miss Cherry, Chadwick Wed

MRS JAMES CHADWICK  
nee MISS TANYA CHERRY

Miss Tanya Lynn Cherry and James Elwyn Chadwick of Farwell were united in marriage August 31 at 7:00 p.m. at the First Baptist Church in Farwell. Rev. Cliff Ennen officiated in the double ring ceremony.

Rarents of the couple are Mrs. Lucille Cherry and the Late Alton Cherry and Mr. and Mrs. W. O. Chadwick of Farwell.

The couple stood before a candle arch flanked by two candelabras featuring orchid tapers, greenery and ribbons. Musical selections were "The Twelfth of Never" and "The Lords Prayer". Wayne Anderson, soloist, presented the numbers and was accompanied by Stephen Sanderson, organist.

Candlelighters were Buddy Lunsford and Johnny Franse of Farwell.

Given in marriage by her brother, Wayne Cherry, the bride wore a formal length gown of chiffon over satin accented the two rows of lace on gown and back of the gown. She carried a "Tranquility" bouquet of daisies and English ivy surrounding an orchid atop a Bible. Following tradition, the bride carried a Bible under her bouquet as something old; she wore her gown as something new; a diamond necklace as something borrowed; and a garter as something blue.

Mrs. Stephan Sanderson of Lubbock attended the bride as matron of honor. Miss Jackie Schaeffer of Lubbock was bridesmaid. Flower girl was Miss Michael Russell. The attendant's

were attired in floor length gowns of orchid dotted swiss over Satin, featuring empire waists, round neck, a double ruffle trimmed in purple satin and a purple satin sash. They wore miniature veils of purple tulle gathered on a purple satin bow and carried a bouquet of orchid daisies.

Bobby Chadwick of Farwell served his brother as best man. Groomsman was Ronald Byrd, brother-in-law of the groom, of Farwell. Ushers were Buddy Lunsford and Johnny Franse both of Farwell.

Mother of the bride wore a floor length green dress trimmed in gold pearls with a white carnation corsage. Mother of the groom wore a blue lace double knit floor length dress accented by a white carnation corsage.

A reception followed the ceremony at the Baptist Church. The hall was decorated with candelabras featuring orchid candles. The table was laid with orchid net over satin cloth. Centering the table was a three tiered wedding cake decorated with orchid flowers. Presiding at the table were Mrs. Derrill Matthews, Miss Pam Swint, Miss Janet Ellis and Miss Marilyn McAlister.

For a wedding trip to Colorado Springs, Colorado the bride chose matching purple slacks and vest accented by an orchid double knit blouse. Her orchid corsage lifted from the bridal bouquet. Mr. and Mrs. James Chadwick will reside at 500 5th Street in Farwell.

The bride is a 1970 graduate of Muleshoe High School and has attended North Texas State University and Texas Tech. She is presently employed at the Muleshoe First National Bank. The groom has attended STSI in Amarillo and South Plains Jr. College. He is presently farming.

Out-of-town guests were Mr. and Mrs. Duane Houck of Altus Oklahoma and Mr. and Mrs. Wayne Cherry of Dallas.

A rehearsal dinner was hosted by the groom's parents at Clara's Restaurant in Farwell on August 30.

"How are you this morning?"  
"All right."  
"Well, you ought to notify your face."

## Save Money

Just because tenderizers make meat tender, they won't tenderize people's stomachs. Mrs. Robin Taylor county Extension agent reported this week.

Although many consumers worry about the question of safety in meat tenderizers, they can go ahead and tenderize those less tender, less expensive cuts of meat.

The actual tenderizer is a natural plant enzyme called papain.

It's obtained from the papaya fruit and is generally recognized as safe to use on foods that will be cooked.

Papain is readily destroyed by the heat needed to cook meat. Even if all the papain weren't destroyed by heat, the stomach's gastric juices would finish the job easily.

Many people are confused about usage and safety of another chemical used in food—monosodium glutamate (MSG).

It simply improves natural flavors—it's neither a tenderizer nor a preservative.

It's also safe. Made from an amino acid—which is one of the "building blocks" of proteins, MSG usually comes from the vegetable proteins in soy beans, wheat and corn.

Some canned vegetables and canned tuna are processed with MSG, as are mayonnaise, French dressing and salad dressing and salad dressing if the label lists it as an ingredient. Also, consumers can buy it to add to foods at home.

## A Big Question

"What," someone asked a Congressional candidate, "will you do if you're elected?"  
"Good gracious!" exclaimed the startled candidate. "What will I do if I'm not?"

## Fair Entry Dates

LUBBOCK--New entry times have been established for all divisions in the 56th annual panhandle South Plains Fair's popular Women's Department, according to Steve L. Lewis, general manager.

And for the first time in the fair's long history, "Flower Festival" entries will be received and judged prior to the fair opening. In previous years, the show entries were judged on opening day.

Lewis said that many of the changes were necessitated by the expansion of the fair's run from six to eight days, including two Saturdays and a Sunday card.

"Flower Festival" entries will be received from 10 a.m. to 1 p.m. on Sept. 21 and judging will start promptly at 1:30 p.m. Consequently, Lewis said that no late entries could be accepted. The fair is slated Sept. 22-29.

Entries in the following divisions will be accepted from 9 a.m. until 6 p.m. on Wednesday, Sept. 19, and from 9 a.m. to 1 p.m. on Thursday, Sept. 20: textile; crafts and hobbies; crocheting, knitting, tatting and weaving; youth department; fine arts; relics and antiques; and culinary, except based goods.

Baked goods, including cake, bread, cookies and candy, will be received from 9 a.m. until 1 p.m. on Friday, Sept. 21.

Women's Department superintendents include Mrs. Bill Burton, Mrs. Harold Raff, Mrs. Lon Lindecum, Mrs. Donald Myatt, Mrs. Leroy Gravander, Mrs. Ralph Robinson, Mrs. Claude Martin, Mrs. T. C. Horne and Mrs. John Darby.

The Women's Building perennially is one of the top attractions of the fair and has been molded over the years by a corps of volunteer workers.

The biggest show in the history of the fair also has been scheduled to spice the eight-day run.

Lobo and the Earl Scruggs Revue open the action on Sept. 22, followed by the Vincente Fernandez Show on Sept. 23, the first Sunday slate in his-

tory. Then comes Mac Davis and Donna Fargo on Sept. 24-25; Lynn Anderson and the Statler Brothers, Sept. 26-27; "Dawn" featuring Tony Orlando plus Raina English and Guy Hovis on Sept. 28 and Mel Tillis and Jody Miller on closing day, Sept. 29.

Tickets for all shows--slated at 5:30 p.m. and 8:30 p.m. daily--are priced at \$2.50, \$3.50, and \$4.50, and may be purchased at Fair Park Coliseum box office from 9 a.m. until 5 p.m. Monday through Friday.

## Children's Rainwear

COLLEGE STATION --- "Brighten up" those rainy days with cheerful, sporty rainwear for children.

"Nylon, vinyl, cotton poplin, patent leather and polyester fabrics highlight the all-weather cover-up scene for fall," according to Marilyn Brown consumer education - clothing and textiles specialist, Texas Agricultural Extension Service, Texas A&M University System.

"Short Jackets and above-the-knee length coats complement skirts and pants--making them popular with children of all ages."

Besides style, consider fit and comfort when selecting rainwear.

Raincoats too large or small hinder a child's activity," the specialist noted.

"The shoulders should be roomy enough for free arm movement--yet small enough that seams stay in place.

"Well-fitting garment sleeves and armholes also allow free movement."

The coat neckline and collar should fit low enough in front to prevent binding -- with the back snug so it won't ride up or slip down.

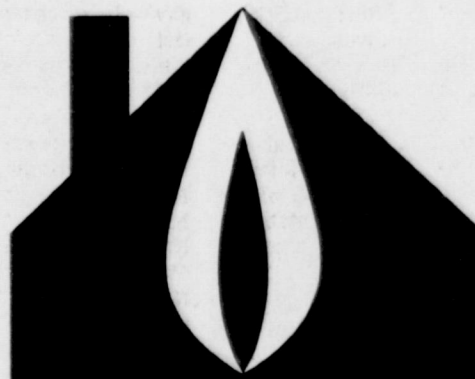

Other important selection factors involve fabric, Miss Brown continued.

"Consider fabric durability, weight and colorfastness. Does the fabric show soil readily? Does it have a water-repellent finish?"

"Check permanent care labels before buying rainwear," she advised.

Most rainwear--even some vinyls--can be washed and dried automatically. However, some can't--so, read labels beforehand.

To clean plastics which can't be machine washed, wipe with a damp, soapy sponge, the specialist suggested.

A Natural Energy Home uses natural gas for heating, cooling, water heating, cooking and clothes drying to save you money and help conserve our cleanest natural energy resource... natural gas.

That's because electricity in West Texas is generated by burning natural gas, and in the process of generating and transmitting electricity to your home, 2/3 of the gas energy is lost.

So, by using gas directly in the home for the jobs it can do, you're helping to conserve it and you're getting more energy for your money.

## Waco Site Of 1973 THDA Meet

COLLEGE STATION --- Waco Convention Center will house the Texas Home Demonstration Association's 47th annual state meeting Sept. 18-20.

More than 700 members of Home Demonstration Clubs throughout Texas are expected to attend the 1973 meeting, according to Mrs. Toy Smith of College Station, organization specialist with the Texas Agricultural Extension Service, Texas A&M University System, and advisor to the statewide association of homemakers.

Open to the public, the meeting will feature three keynote speakers during general assemblies along with two days of workshops for THDA members. Workshops will concern citizenship, family life, 4-H, health, cultural arts, recreation, safety and publicity, Mrs. Smith said.

"Also, THDA county chairmen and THDA official delegates will attend workshops dealing with their primary areas of responsibility," the advisor added.

Addressing the public assemblies in keynote addresses will

be U.S. Rep. Omar Burleson (D-Tex.) of Anson, The Rev. Peter McLeod of the First Baptist Church in Waco, and Mrs. Florence W. Low, assistant director for home economics with the Texas Agricultural Extension Service.

McLeod will discuss "Home-A Beacon Light" in a speech titled after the convention theme, and Mrs. Low will outline "Present Trends in Family Living."

Special guests at the meeting will be Claudia G. Williams of College Station, state home demonstration agent with the Texas Agricultural Extension Service, along with Mr. Low and Mrs. Smith.

Frederick McClure of San

Augustine, Tex., immediate past president of the Texas Future Farmer of America, will be featured in a special program during the concluding banquet Sept. 20, according to Mrs. Bill Hardy of Rotan, Tex., THDA president.

Home demonstration clubs, numbering 1,397 in Texas with more than 20,000 members, are sponsored by the Texas Agricultural Extension Service, The Texas A&M University System and the U.S. Department of Agriculture cooperating.

"Extension Service sponsors local clubs throughout Texas--which focus on the needs homemakers in their counties--as part of a statewide educational effort to bring the latest information on homemaking to all families in Texas," Mrs. Smith noted.

Misinterpreted  
Constable (to motorist)--  
"Take it easy; don't you see that sign, 'Slow Down Here?'"  
Motorist--Yes, officer, but I thought it was describing the village.

Really III  
Tommy--Did you have influenza as bad as I did? I had to stay away from school for three weeks.  
John--I had it much worse than that--I had it in the holidays.

### At Muleshoe Junior High

## Eighth Grade Ball Workouts Underway

The eighth grade football workouts began Tuesday, August 27. These Athletes are getting ready for the first game against Morton. They're working hard to make this the best season MJHS has ever had. The following is the 1973 MJHS football schedule:  
September 13, Morton, here, 4:30 p.m.  
September 20, Olton, there, 5:30 p.m.  
September 27, Farwell, there, 5:00 p.m.

Mrs. Evelyn Northcutt

### New Face At MJHS

We would like to welcome Mrs. Evelyn Northcutt to the faculty of MJHS. She received an AA Degree from South Plains College and a BS degree in Education from Texas Tech this last spring, with a major in Elementary Education and a minor in math. She teaches sixth grade math. Her husband, Edward, is office manager and accountant at Chow Tex Feed Lot.

### Activity Period Brings Happiness

Mr. Ethridge announced Wednesday, August 29, that the Junior High students would be allowed to drink Cokes and eat candy during activity period. This was under one condition, that the students would not make messes or make noise.  
MJHS now has two Coke machines and four snack machines. When the activity period bell rings, students flock to these machines in hopes that they won't break down or run out. They have been having problems with the new Coke machine and students are urged to use only a nickel and a dime.

### MJHS Library Now Open

By Shari Harlin  
Come one come all! The library is now open, and well underway for another school year.  
Mrs. Griffin, the librarian, tells us she has new shelves and to fill them are many new books.  
The library opened last Monday, September 3, at 8:30 a.m. The library hours are from 8:30 a.m. until 4 p.m. each school day. You may check books out before and after school, at activity period, and at your regularly scheduled class period. You may check two books out at a time.  
We hope each student will make good use of the library and it's materials. It is an excellent source for all kinds of information.  
Balance your life as you would balance your bank account.

### Students Take Reading Tests

August 30, the Muleshoe Junior High students took the California Reading Test. This test is given each year at the beginning and end of school.

### New Paneling For Rooms

Muleshoe Junior High Journalism Staff would like to bring to your attention the beautiful paneling put in four different rooms. The paneling was put up in late July and early August.  
The rooms that were paneled are Mr. Parrish's, Mr. Weis', Mr. Richardson's, and room 12.  
The paneling in the rooms make it more pleasant doing your assignments. The paneling is very pretty and makes the room look much better than the old painted walls.

The first test is to give the teachers an idea of what each student needs to work on. The test is given again at the end of the year to see how much the student has improved.  
The test consist of five sections. Each section is timed and covers a specific area such as vocabulary, or reading comprehension. Most people don't enjoy the test, but it is necessary. It is beneficial to the teachers because it indicates the areas in which each student needs help.

The member's of the staff this year are Dave Poyner, Shri Harlin, Shelly McGlaun, Dickey Sudduth, Edwin Watson, Mark Washington, Vicki Williams, Cherylerye Bryant, Rhonda King, and Jamie Small. These students will be filling you in on Junior High news all year.

### Staff Of '73

This years journalism staff consists of 10 students, four seventh graders and six eighth graders.
