# IN CASE OF EMERGENCY

When you want a thing in a hurry you rush to a local store and get it. But do you realize that the existence of our stores depends upon continued business.

If every person in this community were to use the stores only for emergencies there would soon be no more places to satisfy those urgent needs.

You should do your part towards keeping local business alive and in a constant state of betterment by doing all your trading at home. It will be profitable to you as well as to the entire community.

Exhibiting crushed and broken bones as visible evidence, Dr. Charles Duval and Dr. John Lanford, pathologists, testified that scientific examination of the bodies of the two men showed that they had been tortured on a device "specially constructed for inflicting punishment."

That the man who halted the automobile party of which Daniel and Richards were members wore black hoods, was testified to by witnesses who felt the wrath of the raiders but were allowed to return to their homes after being flogged.

These were the outstanding features of a day of sensational testimony investigation undertaken under the direction of Governor John M. > Ponca, City, Okla., Jan. 6 .--Southbound Santa Fe passenger train No. 11, Kansas City to Galveston, was derailed four miles north of Orlando, Okla., at 7 o'clock this morning. No one

was injured seriously. All but one car left the tracks, but remained upright. The engine tender was damaged and the track for a quarter of a mile was torn up. The cause of the accident has not been ascertained.

Arrangements were made at a nearby farm house to care for the women and children on the wrecked train until another train can be put on.

Several of the cars were smashed, and railroad men said it was remarkable that no one was killed.

The train is said to be the fastest on the Santa Fe system.

### DO YOU REALLY MAKE **A WORTH-WHILE** SAVING?

Long distance buying is not always as profitable as it may appear. Your express charges, money order and fee, postage and stationery may come to almost as much as you would pay right here in town for the same merchandise.

And the time you spend getting your money order, writing your lefter and then waiting for your goods to come often makes the "sight unseen" method of buying the most expensive.

Compare that last lot of goods with the kind your local dealer could have sold you and see if you saved anything worth while.

The lumber yard of the Crockett Hardwood Lumber Company has been moved to the planing plant of the company south of the oil mill crossing. While the yard has been moved there will be no change in the plan of service to our customers.

It has always been our policy to help customers save money, avoid waste and get complete satisfaction in the purchase of all kinds of building material. When they tell us their plans, we tell them how to buy economically and what to use. When their plans are indefinite, we frequently make suggestions that suit their necessities,

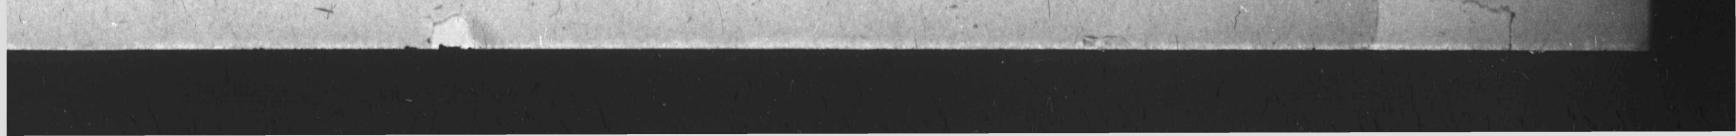

Our customers are our friends because we are friends to them first, last and all the time.

With high quality at a guaranteed fair price, our profits take care of themselves.
