NEW PITCHER HURLS GOOD GAME TUESDAY

Crockett defeated Thornton 4 to 1 Tuesday in the first of a three-game series at a city ball park. Bob Storey, tall right-hander with an underhand delivery and lots of speed, pitched his first game of the season and was in trouble but once, in the first inning when an error and infield hit put two on with no one out. He allowed but two hits, walked one batter and fanned nine. Leech struck out seven batters with his curves.

P. Leech drove a hit to right center in the fifth that hopped over the fence for a home run, giving Thornton the lead.

Pete Leech, the 18-year old high school twirler for Thornton, had pitched a strong game until the sixth. Powledge led off with a hit. Barbee drove the ball straight back at the pitcher's head. Leech knocked it down, saving himself serious injury, and threw Powledge out at second. Holleman singled down the third-base line. The pitcher missed Lewis' easy grounder, filling the bases. Gardner grounded to short and all hands were safe when the second baseman was off the bag, Barbee scoring. Monzingo fanned, but Storey singled to short, Holleman and Lewis scoring. In the 7th, Wakefield singled and went to second on the left fielder's error. Powledge fouled out to third. Barbee singled to center, Wake taking third. Barbee stole second, Holleman singled by third, Wakefield scoring. Lewis scratched a hit to short, scoring Barbee.

The line-ups were: Thornton—L. Leech cf, Mills ss, Cox 1b, Kidd lf, Rogers c, Forke 3b, Bryant rf, A. Leech 2b, P. Leech p. Crockett—Prince lf, Wakefield ss, Powledge cf, Barbee 2b, Holleman 1b, Lewis 3b, Gardner rf, Monzingo c, Storey p.

HOUSE BURGLARIZED IN EAST CROCKETT

A. R. Jackson, negro employed by Arnold Bros., who lives in east Crockett near Grace street on south Avenue A, formerly called Main street, reports that his home was ransacked and burglarized Monday, or Monday night, in the absence of his family. He states that trunks, suit cases and other items were gone through and left in a disheveled state. Among other items missed were a watch and chain, a flashlight and a purse containing some twenty-seven dollars in money.

Sheriff O. B. Hale made a thorough investigation, but found no clue to the identity of those committing the burglary. Neighbors report having seen no one enter the house during Monday.

New Levee District.

Petition was filed with County Judge L. L. Moore, the commissioners' court not being in session, on May 18 asking for the designation of levee improvement district No. 3 on the east bank of Trinity river, west from Grapeland, protecting the following acreages of land: Tracts owned by J. M. Murray of Grapeland of 337.5 acres and 1107.5 acres; tracts owned by A. E. Murray of Grapeland of 337.5 acres and 1107.5 acres; tracts owned by J. H. and F. A. Smith of Crockett of 215 acres each.

PROCEEDINGS OF THE ROAD MEETING

The Courier is this week publishing the proceedings of the road meeting held in the district court room Thursday night. The Courier always publishes the proceedings of mass meetings and conventions when the public interest is involved. We owe this much to our subscribers and to the community at large. However, when campaigns are on, the Courier cannot be expected to carry both sides, as the cost soon becomes a burden. When the cost of a newspaper campaign is assessed among the proponents or opponents of a measure, the cost falls on the shoulders of many contributors and, thus distributed, is not burdensome as when borne by the newspaper alone. For that reason the Courier always makes a charge for publishing advertising matter on either side during campaigns, excepting, as stated, proceedings of mass meetings and conventions in which the public is vitally interested.

CROCKETT IS MOST PROGRESSIVE TOWN

Cameron, Tex., June 6, 1925.
Mr. W. W. Aiken,
Crockett, Texas.

Dear Mr. Aiken:
Was sorry that I did not get to see you again before leaving Crockett the other day, but I found a man to drive with me as far as Bryan and we got a very early start, leaving Crockett at 7 in the morning.

The little visit at Crockett together with the meeting of a number of old friends was a very agreeable experience to me and I enjoyed being with you and the others a very great deal.

My recollections of Crockett 20 years ago have always been very pleasant, and it was very satisfactory and gratifying to note that Crockett has continued to grow and attain so many improvements which give her a pronounced cosmopolitan appearance. The fine streets, up to date business section, and many beautiful homes in the residence districts, all go to make up one of the most progressive towns that I have seen anywhere, and to me it appears that Crockett must be one of the most satisfactory towns in which to live. The country districts also show a wonderful improvement, and it appears to me that a new era of prosperity is coming to your county.

Kindly remember me to any friends you see, and if you come through this part of the country please look me up.

Sincerely yours,
W. T. Carter.

Appearances Are Misleading

The earth looks flat enough. That's why so many thousand years passed before our ancestors even suspected that the old globe was round. Their eyes deceived them.

All of which proves that appearances are sometimes misleading. Don't buy goods on the strength of looks alone. Merchandise with a well-known name has the call. Only the maker of a good product can afford to advertise his name. Attempts to popularize unworthy goods cannot succeed.

Wise merchants and manufacturers seek the good papers to tell the stories of their wares. The publishers seek the reputable advertising for their readers' guidance. Well-informed buyers seek news of good merchandise through the columns of the best papers.

This proves the value of advertising. Neither advertisers nor publishers can prosper without your patronage. Therefore, it is to their advantage to cater to you. They do it, too.

It is distinctly to your advantage to be guided by the messages they lay before you—the advertisements.

That plaintiff and those under whom it claims have had and held peaceable, continuous and adverse possession claiming under title and color of title, from and under the sovereignty of the soil, the land claimed and described in this petition for more than three years, for more than five years and for more than ten years after defendants' cause of action accrued, if any ever accrued, and before the commencement of this suit, claiming the same under deed and deeds duly recorded, cultivating, using and enjoying the same each and every year and paying the taxes thereon for a period of more than five years, and for more than a period of ten years before the commencement of this suit, and pleading the three, five and ten years statutes of limitation.

OPPONENTS OF THE \$2,000,000 ROAD BOND ISSUE

Hold an Enthusiastic Meeting in the Crockett Court House Thursday Night.

An enthusiastic road meeting was held in the court house Thursday night. Col. Earle Adams was chairman of the meeting and Captain N. H. Phillips secretary. The audience, which almost filled the district court room, was addressed by Col. Adams, Captain Phillips, W. A. Riall, representing the Grapeland delegation; G. Q. King, A. A. Aldrich, J. W. Madden, F. H. Bayne and others. Mr. King supplied the statistics that are given at the bottom of the address.

Captain Phillips, during the course of his remarks, read the following address to the voters of Houston county. Motion was made and seconded that the address be adopted as the sense of the meeting. "Yeas" and "nos" were called for by the chairman, and the motion carried by a unanimous vote. The address as read by Captain Phillips is as follows:

The voters of Houston County, in giving consideration to the question of authorizing the issuance of county road bonds, should view this in the light of the terms set forth in the petition asking for the election, namely: The amount of the bonds, \$2,000,000; the rate of interest, 5½ percent; and the term of thirty years in which to retire bonds. On these terms it will require for the first year \$110,000 for interest and \$66,666.66 for the sinking fund, or a total of \$176,666.66. On a valuation of \$8,000,000, the approximate valuation in 1924, it would require a rate of \$2.25 on the \$100.00 to meet the interest, pay for the assessing and collecting and provide the necessary sinking fund.

The voters should also give consideration to the fact that the county is now composed of eleven bonded districts, having a tax rate for retiring their bonds of from 20 cents to \$3.00 on the \$100.00, and that all of these districts would have an increased rate except Nos. 10 and 15, known as the Creek and Blue Lake districts, and these two districts under the proposal would get a reduction of about 75 cents each on their rate on the \$100.00. The time of payment of these bonds runs from eleven to thirty-five years.

It is also a fact that some of the road districts have now what they want in the way of roads and do not wish to be burdened further just at this time. Other districts have plans which they are endeavoring to carry out for the purpose of building and maintaining roads in their respective communities, but this new scheme will certainly interfere with these plans.

Crockett Special Road District has an unexpended balance in its

treasury from a recent bond issue and this balance, amounting to \$93,000.00, when properly supplemented by state funds, will reasonably care for the current program of the district; and there is no need apparent for building roads one year and tearing them up the next to build others, even if better ones, when they are all being built with twenty to thirty year bond money.

Grapeland Special Road District has recently voted a maintenance tax of 85 cents on the \$100.00 which, added to the 15 cents tax already levied, gives them a dollar rate and from this they hope to carry out an intelligent building program, which they think will take care of their needs without plunging the community in debt. They crave the opportunity to try their plan and, as we are all looking for some better way than the bond route, why not give them a chance to try out their plan at least and see how it works?

The proponents of the new two million dollar issue we understand talk concrete roads. We have just recently built some seven miles of concrete road west from the city, on the King's Highway, at a cost of more than \$40,000.00 per mile. Now let it be assumed that the bond issue carries as called for and that the whole \$2,000,000.00 can be issued. It will take some \$740,000.00 to retire the outstanding district bonds, and that sum being deducted leaves about \$1,260,000.00 for concrete roads, and at \$40,000.00 per mile that will build only 31½ miles of road. It is pertinent and proper to inquire before the bonds are voted where that road is to be built, if it is to be built, and if not, what is to be done with the money?

We do not oppose the improvement of our public roads, but we believe that many thinking people have reached the conclusion that the main highways should be built with funds derived from an increased gasoline tax supplemented by the automobile license fees and discontinued issuing non-taxable bonds secured by mortgage on our homes and other real estate.

It may be urged that by voting a large bond issue now, the county will receive a large state aid. We are already entitled to some state aid and have applications in for same at this time. The state has assumed the up-keep of certain designated highways of the county. We pay our automobile license fees and we tax ourselves for maintenance of roads; but we are unwilling just at this time to authorize a total road bonded indebtedness of \$2,000,000 when our constitutional limit, based on 25 percent of the assessed value of real estate in the county, will justify only about three-fourths of that amount or a total of \$1,500,000.00 at the present time. Such an authorization would very likely be taken as a suggestion and even a request to the present and future Commissioners Courts to raise real estate values so that the balance could be speedily issued.

We are not without a plan and the means of further road im-

provement. The Crockett Road District should, with the bonds and money it now has on hand, supplemented by state and federal aid, build a road seven miles south to the district limit; a road north seven miles to the district limit, and a road east about eight miles to the district limit. The Lovelady people, with the bonds and money that they now have available and the like aid from state and federal sources, can continue the road through their district to connect with the improved road through Trinity County. The Grapeland people can, and we believe will, find the way to continue the improvement, with the help they would reasonably expect from the state, to the Anderson County line; then, in an economical and conservative way, we favor the improvement of the roads leading to Kennard and Ratcliff, to Pennington and to Augusta and to other points in the county. We fear that if this large bond issue carries, the money will be mainly spent on one or two important highways of the county and the working out of the other important projects will be left to local initiative. This precludes any hope for future work on rural roads, for as a matter of fact, if this issue carries, the constitutional limit has been voted and no funds can be made available and of necessity our rural districts must suffer. Local officials have in fact but little authority now over the expenditure of the moneys set aside to the benefit of designated state highways.

We deplore the fact that the representatives of a certain bonding company have felt justified in coming into our county and in proposing to our commissioners' court that under certain conditions they would spend considerable sums of money to influence the results of this election; but, in this connection, we wish to compliment our commissioners' court for refusing to enter into a contract with them for the sale of the bonds to them in the event that the result of the election should be favorable to the issue of the bonds.

A Local Enterprise.

Smith Brothers have been building roads throughout the Southwest for more than fifteen years. They operate what is, no doubt, the largest contracting firm in the South. This concern maintains its own gravel pits, rock crushers and all modern

equipment and machinery for the construction of 20th century roads. Individual contracts of this company have run into the millions of dollars for the construction of roads that represent every approved style of modern construction. Projects under way extend from Virginia to California. Under the Smith Brothers' plan of operation, each

road building project is managed as a home or local industry would operate it throughout. Local workers are employed, thus keeping home money at home as much as possible and contributing economically to the growth of every community they serve. Local materials are given preference when the quality is right. —Southwestern Contractor.

CROCKETT SWEEPS GAMES WITH LUFKIN

After a disastrous series in Livingston Wednesday and Thursday in which games were dropped to Livingston by scores of 6 to 4 and 9 to 3, due to the fact that the defensive play was somewhat off color, the Crockett base ball club got back into a winning stride Saturday and Sunday on the home lot.

Snow Wins Close One.

Crockett defeated the Gulf Pipe Line Co. team from Lufkin Saturday afternoon before a small crowd by a score of 6 to 5.

Lefty Snow pitched a good game despite the fact that he was under a mental strain, he having received a message just before the game calling him to Mexia, due to the very serious illness of his father. Fenley pitched fair ball for Lufkin.

An error and a hit gave Lufkin a one-run lead in the third, four hits and two errors chalking up three tallies. Three hits and a pair of fielding bobbles counted two more for the locals in the fifth.

Lufkin fought back and made three hits, a walk and an error

count for three runs in the seventh. Lufkin tied the count in the first of the ninth, a walk and a hit being responsible.

With one out in Crockett's half of the ninth frame, Prince hastened out an infield hit and stole second. Wake got a hit when the shortstop tried for Prince at third, Prince beating the throw. Powledge sacrificed, Prince scoring.

Crockett Scores Shutout.

Crockett swamped Lufkin Sunday before hundreds of fans from all over east Texas by a 7 to 0 count. But four hits were made off Lynum, Wakefield making four catches that robbed batters, while Barbee stopped one drive that was labeled a hit.

In the first inning Wakefield beat out a hit to short and Powledge drove a home run over the left center field fence.

In the second inning Monzingo walked and was forced at second by Lynum. Prince then sent a homer over the right field barrier.

Doubles by Powledge and Barbee added a tally in the third round.

In the seventh inning Barbee was safe on an error. Lewis sacrificed. Gardner singled, scoring Barbee. Cone drove a hit through the third baseman and Gardner counted while the left fielder kicked the ball around.

Lynum fanned five and walked two. Davis whiffed five and walked a pair, also.

Breaking Chains of Habit.

Men may be divided into these two classes: Those who form habits and never break them; those who form habits and change them readily for something better. Successful men of every age are those who could change their minds—who were not bound by precedent—who thought for themselves rather than yielded to custom or tradition.

In advertising it is particularly important to keep in touch with the new ideas, new mediums, new methods and—if necessary to change good habits for better ones.

Advertisers know that this newspaper's editorial policy attracts a highly responsive type of reader. They have found, year after year, that the Courier is a "good puller."

They know that while all newspapers are more or less similar in appearance, they are no more alike than a good bank check is like a worthless one or a live electric wire is like a dead one.

Honesty in Publicity Discussed in Ad Meet.

The advertising profession should not aid any enterprise operating in violation of law, in the opinion of Jed Morrow, who spoke at the weekly meeting of

the Dallas Advertising League at the Y. W. C. A. Tuesday noon. "We play a dual role," Mr. Morrow asserted. "We are citizens first, then advertising men. It is our solemn duty as citizens not to use our talents as advertising men to prepare or publish advertisements when by so doing we become a party, however innocent, to breaking the law of the land. Ethics in our profession

prohibit our applying the power of publicity to help anything that is banned by law."

"QUIT NEWSPAPER ADVERTISING," GIVEN AS REASON

Champaign, Ill.—Withdrawal of all advertising several years ago from the Champaign News-Gazette is blamed as the chief contributing cause of the failure of Murdock Brothers, for 18 years a leading ladies' ready-to-wear store in the university city.

This blame is assumed by E. L. Murdock in a signed letter published in the News-Gazette, following the voluntary closing of the doors of the concern, to avert being thrown into bankruptcy.

The part of his letter touching upon his inability to hold the public's trade without using newspaper space follows:

"Another contributing cause, and perhaps the greatest contributing cause, is the fact that for years our firm, because we thought the rate was too high, withheld all advertising in the News-Gazette. For two years we were out of the paper. We were without proper means of getting messages about our store into the homes of our friends and buyers. The result was they soon forgot us. We tried other forms of advertising to supplant the News-Gazette but we found none that was as effective. Our business continued on the downgrade.

"After two years we saw the error of staying out of the News-Gazette. Arrangements were made again with the News-Gazette to carry Murdock Brothers' advertising into the homes in this community. The business began to thrive—but it was too late. Seemingly our friends had forgotten about us. The fault was ours. For too long a time we had failed to remind them about the splendid merchandise and values in our store."—Editor and Publisher.

Courier Needing Its Money.

The Courier has been in business a long time and during that time has accumulated many unpaid accounts on its books. Those who do not know will be surprised to learn just how this accumulation amounts to. We have been at heavy expense in carrying the Courier to its present level. We ask that those who have accounts come forward at the earliest date possible. We need, and need now, due us. There are some who believe that the Courier does not need its money and are therefore withholding payment. There are some who will never pay us, and will not only never pay us, but will never pay any other debt they owe that they can get out of. But we have not lost confidence in the majority, and we believe that the majority of people are honest and want

to pay their debts. The Courier has recently bought new equipment at heavy expense, and will have to collect its accounts up closely if we are to be able to pay out. We are therefore needing and will need what is due and will appreciate prompt settlement.

A Talk With Our Contributors.

The contributor is unfair to himself when he is late with his copy. While we have a shop well organized for mechanical efficiency, there are limits on what can be done by a given force of printers in a short period of crowded stress.

There is plenty of time during the week to give every contributor good service when copy is in early. The Courier believes that its contributors desire to be fair to our printers as well as themselves. We ask your cooperation for some of the following reasons:

Early copy means time for corrections, good typography, prompt delivery to the reader, fairness to the printers and normal overhead.

Late copy means little time for corrections, risk of poor typography, late delivery to the reader and unfair physical and mental strain.

Your cooperation will be greatly appreciated by the entire personnel of the Crockett Courier.

Whose Money Will You Spend?

Vacation time is here. Many of our citizens are planning for their yearly rest period and funtime. Hundreds of dollars will be expended by vacationists all over the United States, and it is as it should be.

But whose money will you spend this year? Will it be your own, or will it be money you justly owe that has been allowed to become long-past due?

However badly you need a rest, can you, with a clear conscience, spend a large sum that would go a long way toward settling up those old accounts, leaving your friend to "hold the bag."

Every man, woman and child is entitled to a rest period, a vacation. But every man who is a man should see to it that he pays his own way. Before you start out this year, make some kind of arrangements to meet your bills promptly, when due. It's never uphill to the man on the level.

A poor baseball player and a poor match are reasonably sure to strike out at a critical moment.

A great many people make their mark in this world owing to their inability to write.

Some people put their best foot forward so far that the other one never catches up.

As the twig is bent so is the small boy inclined to shoot out the back way.

Frequent Bilious Attacks

"I suffered with severe bilious attacks that came on two or three times each month," says Mr. J. P. Nevins, of Lawrenceburg, Ky. "I would get nauseated. I would have dizziness and couldn't work. I would take pills until I was worn-out with them. I didn't seem to get relief."

"A neighbor told me of

BLACK-DRAUGHT

Liver Medicine

and I began its use. I never have found so much relief as it gave me. I would not be without it for anything. It seemed to cleanse my whole system and made me feel like new. I would take a few doses—get rid of the bile and have my usual clear head, feel full of pep, and could do twice the work."

Bilious attacks are "seasonal" with many people. Millions have taken Theford's Black-Draught to ward off such attacks, and the good results they have reported should induce you to try it.

CROCKETT WINS THE SECOND; PLAY TODAY

Crockett nosed out Thornton 3 to 2 Wednesday in the second game of the series. It was a pitcher's battle between Runt Carroll for Crockett and Bryant for Thornton, Carroll having the edge. Neither allowed an earned run. Carroll fanned nine and walked one. Bryant struck out five and franked three to first.

Thornton scored in the first inning when Mills doubled to right, and after P. Leech had shied out to right and Cox had fanned, took third when L. Leech was safe on Lewis' error. L. Leech attempted to steal second and B. Wakefield missed Monty's peg. L. Leech taking third and Mills scoring.

Crockett evened the score in her half. B. Wakefield singled and started to second on a short passed ball. Rogers threw wildly and Wake went to third and scored when P. Leech missed a throw at third.

But one extra man faced Carroll in the next four innings. In the sixth Mills singled to right and took second on Gardner's error. B. Wake missed the throw to second and Mills took third. P. Leech popped up to first, but Cox sent a long fly to center and Mills scored after the catch.

Crockett threatened in almost every inning, but could not score again until the eighth. Lewis walked. Gardner hit to Bryant, who threw the ball away in attempting to force Lewis, both runners being safe. Cox fielded Lynum's bunt on the line and threw the ball into Lynum's back in attempting to throw him out, Lewis and Gardner scoring. Lewis, Monzingo and Holleman each hit twice, Holleman getting two doubles. B. Wakefield and G. Wakefield each hit a single.

The third and last game of the series will be played Thursday afternoon and a good game is expected.

Score by innings: R.H.E.
 Thornton 100 001 000 2 4 5
 Crockett 100 000 02* 3 8 5
 Batteries: Bryant and Rogers; Carroll and Monzingo.

Dance for Visitor.

Mrs. Byrde E. Wootters entertained with a dance party in the rooms of the Crockett Shrine Club Wednesday evening. The affair was complimentary to Ross Wright, a grandson of a former resident of Houston county, Mrs. J. O. Ross of Houston. Mr. Wright's home is in Houston. He is a guest in the home of Mrs. Wootters in this city. Other visitors present included Miss Gertrude Butler of Austin, guest of Miss Beth Lundy.

About fifty couples were present at Wednesday evening's hospitality honoring Mr. Wright. The music, played by a travelling orchestra, was entrancing, putting "pep" in the feet and enjoyment in the heart. For taste in decoration and cleverness in arrangement, the affair has seldom if ever been surpassed in Crockett. The beauty and taste in decoration and arrangement were carried out in the refreshments. The host was assisted in serving by her daughter, Mrs. Weldon Craddock, and by Mrs. Alfred Rogers.

The programs were conveniently arranged folders in Old English lettering with cords and pencils attached. The affair was complete in every detail and the source of great enjoyment by the participants. Mrs. Wootters is never happier than when adding to the pleasures of her friends and the young people. Wednesday evening's dance was in keeping with former affairs given by this delightful hostess.

Petition Granted.

The petition for the \$2,000,000 road bond election, before the commissioners' court for action Friday morning, was granted by the court. The petition bore the legal number of signatures and was properly presented and the court had no discretion but to grant the election. The date for the election was not set by the court and has not yet been set, the Courier was informed by County Judge Leroy Moore this week. A numerous signed petition against the road bond election was presented to the court.

Rain Coming.

Mr. M. Bromberg Tuesday commented that one of the most unusual predictions heard in Crockett in quite a long time was the statement of a travelling salesman that it would rain right away. Mr. Bromberg was outspoken in his hope that the drummer was not a false prophet.

Perennial War Begins To Rout Mosquitoes and Other Pests

"The time to fight mosquitoes and flies is when they are in the egg or larva stage, not after they have matured. An ounce of prevention will do the work of many fly traps and mosquito bars," declares Dr. J. Allen Patton, of Newark, N. J.

"Preventive work in the spring will wipe out the breeding places," says Dr. Patton, who is the medical director of the Prudential Insurance Company, "and will, to a large extent, eliminate these menaces to the public health."

The house fly feeds and breeds on every kind of filth, and is a remarkably efficient carrier of disease. It specializes in typhoid, dysentery, Asiatic cholera and other diseases, including tuberculosis. Swatting the fly is an acceptable means of annihilating the full grown pest, but not so effective in the end as preventive measures. For it is much easier to clear away the potential breeding place for a million flies than it is to swat or catch that million after they have

grown to a lively maturity. Filling in and draining are the two most effective means of eliminating mosquito hatching. Where these are not practicable the periodic use of coal oil to form a film on the surface of the water is advisable.

Community effort is necessary in any campaign against the house-fly or mosquito. It is not sufficient that your own stable and garbage pail are not fly incubators, and that you have no stagnant water in your yard to hatch mosquitoes. Your neighbors also must see that their yards are in condition, also your own efforts will have been wasted and they will share with you their mosquitoes and flies.

CRASH VICTIM DIES AT CROSBY STORE

J. V. Keen of Grapeland Injured Fatally When Auto Demolished at Crossing

Houston, June 8.—The body of J. V. Keen, 20, of Grapeland, Texas, who was injured fatally at 11:50 p. m. Saturday when an automobile in which he was riding was struck by an east bound freight train at Crosby, was sent to Grapeland by the Westheimer Undertaking company at 12:45 p. m. Sunday for burial there.

Keen had been to a dance at Crosby and had taken a woman companion home and was returning for a man who had accompanied him to Crosby when the accident occurred. According to bystanders, Keen drove his car directly in front of the oncoming freight train, which was traveling at about 20 miles an hour. The accident occurred at the crossing just a few feet from the Crosby station. Keen's car was demolished and he was thrown into the back seat by the

force of the impact. Several persons who were near the scene rescued Keen from the tangled wreckage of the car and took him to a nearby drug store where he died at 12:40, just a few minutes after the arrival of a Westheimer ambulance summoned from Houston. He is survived by his parents and several brothers and sisters of Grapeland.
