Youth Football Registration Set

Local Youth Strongly Urged To Participate

Jaycees Present Check To O.P.I., Inc.

The Youth Football Board of Trustees has announced that the 1974 season registration and physical examinations will be held at the Muleshoe Junior High School Gymnasium on Sunday, August 18 at 2:00 p.m.

Spokesman for the board, Bob Finney advised that "youth football is for fifth and sixth grade boys from the ages of eleven through thirteen. The age does have limitation however; and they are as follows: the boys must be eleven by September 1, 1974 and not over thirteen before September 1, 1974. Any boy who cannot attend the regular registration is advised to contact one of the members of the board of trustees."

The members are: Bob Finney, Curtis Waker, Darrell Oliver, John Fuston and Glen Watkins. The first practice session for the small fry gridders will be held during the first week of school. The games will be held on Sunday afternoons at 2:00 p.m. with the first one scheduled for September 8. Finney explained that "there will be four teams, each having six games and then at the end of the regular games, the Senior Super Bowl will be scheduled."

Each team will have at least two coaches and the board advises that the only equipment required by the players will be shoes. For some reason, a youth cannot obtain his shoes, a board member should be contacted for arrangements. Finney stated, "We strongly encourage each and every boy who is eligible and interested to come out for this activity. The teams are formed with the idea in mind of teaching the fundamentals of football and good sportsmanship."

Youth Football, Incorporated was organized by the Muleshoe Jaycees; however, it is a separate corporation run by the board of trustees. Finney further stated that "The Muleshoe Jaycee project has been the outstanding state project for the past five years and that the Jaycees feel that it is very beneficial to the boys of this age group because it helps to prevent on page 3, col.5

Brucellosis Reactors Indemnity Approved

Texas cattlemen will now be able to receive federal indemnity payments from the U.S. Department of Agriculture for brucellosis reactors in their breeding herds when the infected animals are marketed for slaughter. At present about 99 per cent of the nation's cattle are free of the disease, but the remaining one per cent continue to threaten the livestock industry. A large percentage of the infected herds are in southern and southwestern states, adds Tanksley. The indemnity -- \$50 on grade cows and \$100 on registered cows and bulls -- will be paid on reactors bled on or after July 1. No indemnity is allowed for grade bulls, steers or spayed heifers. Reactors will be branded with the letter "B" on the left jaw and will be tagged in the left ear. They must go to slaughter directly after the test. According to Tanksley, indemnity claims will be initiated by state or federal regulatory officials or accredited veterinarians. First indemnity payments may be delayed several months after claims are received, but such delays should be eliminated once the program becomes established. This information comes from a veterinarian.

COTTON TALKS

FROM PLAINS COTTON GROWERS, INC.

The Board of Directors of Plains Cotton Growers, Inc. met in Lubbock July 24, heard staff reports and adopted a budget of \$213,100 for the fiscal year 1974-75 to finance the 25-county organization's research, promotion, services and market development activity.

The new budget is \$13,200 above the budget for 1973-74, which according to PCG President Don Marble of South Plains, reflects "the increased cost of doing business in every walk of life."

Finance Committee Chairman Lloyd Cline of Lamesa also noted that the budget calls for spending considerably more than the organization can expect to receive in dues from the 1974 crop. Acreage totals and the condition of area cotton fields are such that no more than half the 2.9 million bales harvested in 1973 can be expected in 1974. Almost all PCG dues are paid out a per-bale basis, "so a year of low production automatically means a year of low revenue for the organization," Cline said, "making a certain amount of deficit spending a necessity if the organization is not to neglect its obligations to the membership."

The 1973-74 PCG budget of \$199,900 was underspent by over \$28,000 as a result of economizing that became possible after its adoption. Actual expenditures for the year, Cline told the Board, were \$171,124 compared to total revenue of \$257,466. "This has helped to build a reserve with which we can continue PCG's agricultural and utilization research programs, fiber research, services and reports, legislative services and market development efforts," said Cline.

The items named by Cline, along with advertising, publications, travel and salaries comprise the major portion of the PCG budget.

In addition to the adoption of the budget the Board heard staff reports on PCG actions taken in connection with farm program disaster payments and farm safety regulations proposed by the Occupational Safety and Health Administration.

Ed Dean, PCG Field Service Director, reported that PCG had requested hearings on the proposed OSHA regulations and was continuing its efforts to see that final regulations when issued are fair and equitable. He said hearings were expected to be held in the near future.

One of the most pressing problems facing area farmers in recent weeks has been what PCG terms the "inequitable" administration of the current farm program's disaster provisions. "By using Federal Crop Insurance Corporation appraisal methods and by the adoption of an unfair formula for figuring disaster payments when one allotment crop is substituted for another," reported Executive Assistant Cotton Fanning, "USDA is denying full disaster relief and forcing uneconomical farming practices in areas hard hit by hail, wind and drought."

Noting that the disaster clause of the present law was included largely as a result of PCG insistence when the program was being written in 1973, he went on to say "we have objected loudly and clearly in Washington to the inequitable treatment being received by area farmers and will continue to do so."

Fanning advised the Board that a delegation of High and Rolling Plains farmers were meeting in Washington July 25 with Undersecretary of Agriculture Phil Campbell, Congressmen George Mahon, Bob Poage and Omar Burleson, Senators Lloyd Bentsen and John Tower and perhaps others in the latest attempt to rectify the disaster payments situation.

In the delegation were PCG Board Chairman Ray Joe Riley of Hart, board member and past president Donnell Echols of Patricia, Donovan Phipps of Welch and C.A. Daugherty of Fluvanna. With the exception of Riley's expenses cost of the trip was borne by Chambers of Commerce in Lamesa and Snyder.

Last Call For 4-H RecordBooks

County Extension Agent Spencer Tanksley reminds all 4-H members that their record books must be in his office no later than August 1 in order to be eligible for entry in the District Competition.

Turning in a record book assures the 4-H'er of an invitation to the annual achievement banquet held in the fall.

Tanksley also stressed the importance of keeping records as a means of determining what your projects cost, how you have advanced, and the means used to obtain your goals.

MISS KIM FARMER

Kim Farmer Receives Award

"Encouraging others is as important as winning", says a nine year old Muleshoe cowgirl. Kim Farmer is the daughter of Mr. and Mrs. Charles E. Farmer of Muleshoe.

She is a member of the Progress 4-H Horse Club and is also active in other club projects.

On Sunday, July 28 she won the "1974 Sportsmanship Award of the Year" given by the Eastern New Mexico Humane Society at their Clovis Rodeo Playday. The award was presented by Tony Salazar.

Presentation of the award was determined by the display of good sportsmanship, a good attitude toward fellow contestants and outstanding horsemanship.

Salazar complimented the young lady on her "friendli-

ness, cooperation, respectfulness of others, sharp appearance, riding ability and treatment and handling of her horse."

Kim has worked hard on her horse project this year and has been rewarded for her efforts by a number of first place trophies and belt buckles, as well as an All-Around Cowgirl award. She participates in all running events, as well as an occasional steer riding.

She feels that her horse Doble is more than something to ride. To her, he is a friend and companion. She says, "if I treat him good, he treats me good and does a good job."

At her young age, she has already decided that she wants "to be a horse trainer and raise quarter horses." Kim also says that "Cowgirls are here to stay."
