ALL THE GOODNESS YOU'VE COME TO EXPECT NOW IN Cloverlake

Extras earned it for Cloverlake. Extra care. Extra effort. Extra quality. You see, the Quality Chekd people are as particular as their name implies. They are an international group of more than 100 independent dairies dedicated to extra quality. And they look for the same dedication in new members. Like Cloverlake.

Cloverlake has been producing extra quality dairy products for 39 years. Testing. Re-testing. Constantly improving. To meet their own high standards over and above those of the government. The dairy thus earned the right to take the final tests given by the Quality Chekd Dairy Products Association: 38 extra "special exams" for everything from cows to cartons.

Cloverlake passed with honors. They'll be undergoing the same tests periodically. And submitting samples regularly to the Quality Chekd testing laboratories. To insure extra quality.

Chilympiad Set In San Marcos

Kids, as well as adults seem to be always out in a big way for parades and the Fifth Republic of Texas Chilympiad in San Marcos promises the largest parade ever in the history of this city's state cook-off festivities.

Parade organizer Alan Greiner announced this week that about 140 entries have been logged in with more coming in everyday from throughout the state.

This year's colorful extravaganza has been changed from its regular date on Friday afternoon to Saturday

morning, Sept. 21, beginning in downtown San Marcos at 9:30 a. m. Greiner explained the reason for the change was because chili heads have added an extra day to the zany activities of Chilympiad, beginning on Thursday instead of Friday. "Area high school bands and drill teams as well as colleges couldn't make it on the first day of Chilympiad because of school—thus we moved it to Saturday morning.

Saturday morning seems best anyway since this will get the chili bowls stirring right after the parade for the heated competition for the coveted state chili bowl and championship for the year. And, with the Saturday parade, Greiner has experienced many more entries than before, and at an earlier date.

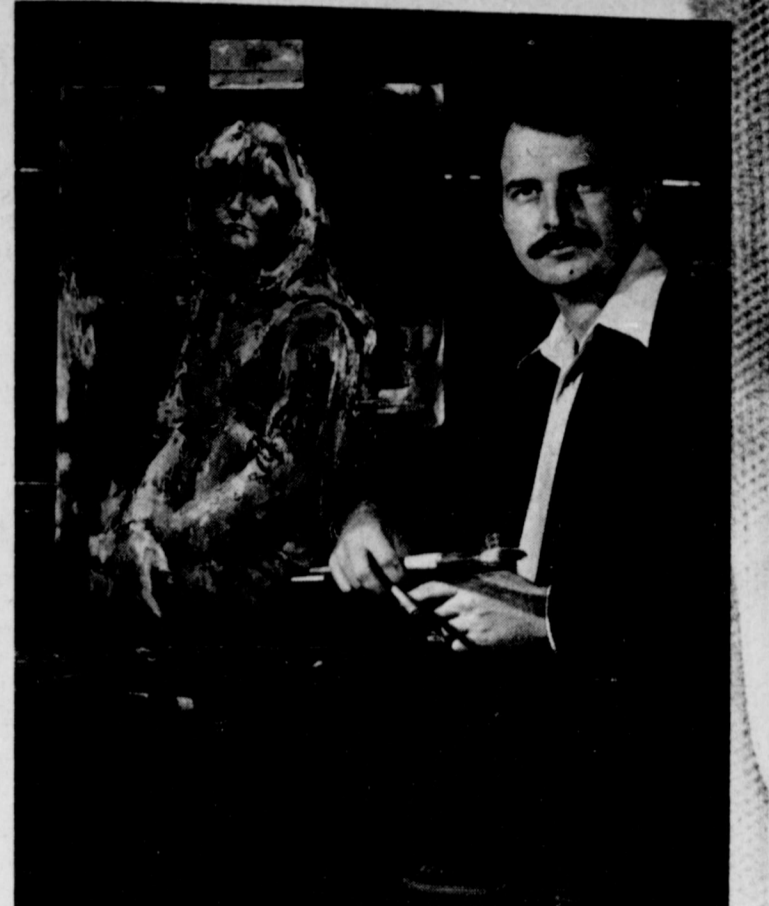

Leading this year's colorful motocross and marching musicians throughout the state chili headquarters city are "El Jefe Primero" Nat Henderson and "El Patron Grande" Bob Thornton. Henderson is known as one of the founding fathers of Chilympiad and has defended the state's tridition of fine chili in his writing for the Austin American. Thornton spends his weekdays heading a bank in San Marcos, while enjoying and working for chili and its color during his leisure hours.

Close to 100,000 fun seeking adventurers from every walk of life are expected to the four-day event on Chilympiad's new site, the Hays County Civic Center complex.

Asprawling 50-acre complex is awaiting chili heads to break in with a show barn reserved to stage some of the hottest and largest dances ever produced in Central

shown by Darrell Turner. The film will be showing at the downtown theatre October 2-5.

The \$5.00 room count was won by Mrs. Crane's class at Richland Hills and Mrs. Clines class at Mary DeShazo.

David Rindlisbacher Appear In Muleshoe

David Rindlisbacher, instructor at W.T.S.U. will be appearing in Muleshoe by the courtesy of the Friends of Fine Arts Department at W.T.S.U. on Friday, September 13, at 2:00 p.m. in the Muleshoe State Bank.

Rindlisbacher received the Bachelor of Fine Arts degree from BYU in 1971 and the Master of Fine Arts in 1973. He joined the W.T.S.U. art department last fall.

He held a graduate teaching assistantship at Brigham Young for nearly two years and also

taught at the Eldred Center in Utah and at Utah Technical College.

Rindlisbacher is a member of Phi Kappa Phi and the Utah State Institute of Fine Arts and has had work published in "Mormon Arts."

Rindlisbacher theorized about the Panhandle's interest in art. "This land is harsh, it is not the verdant, pastoral landscape, I think it is natural here for an interest in beautiful things."

"Where the land is so soft and more notable picturesque there is not the need for art. He says, "My art is a search. I have not arrived at anything. I do not understand what is meant by style. I understand what searching and investigating means."

Quiet, to quick bosoms, is a hell.

BIBLE VERSE

"To every thing there is a season, and a time to every purpose under the heaven."

1. Who made the above statement?
2. Whose son was he?
3. What was the theme of the book from which it was taken?
4. Where was this statement be found?

Answers to Bible Verse

1. Most scholars agree that it was Solomon.
2. The son of David.
3. How man may obtain real, substantial happiness.
4. Ecclesiastes 3:1.

Gifted Aliens

Our immigration laws, which set quotas for entry into the United States, also provide loopholes for special situations. One of these loopholes allows preferential visas for aliens who have "exceptional ability in the sciences or the arts."

What does this mean? Take the case of a woman golfer, born in Australia, who applied not long ago for a preferential visa.

Was her ability "exceptional"? Yes, ruled the Immigration Service, because as a professional competitor she had won many major tournaments.

Was golf an "art"? Yes, ruled the Service, because it provided entertainment for millions of spectators.

Result: the visa was granted. By similar reasoning, a preferential visa was granted to a brilliant Japanese puppeteer and a spell-binding Australian lecturer.

But the standards of excellence under this provision are high indeed.

Another case involved a Korean singer who was part of a duet. She was able to point to some favorable reviews by critics, but none that singled her out as an individual performer.

The Immigration Service decided that while she was doubtless capable as a vocalist, she was not

"exceptional" enough to qualify for a preferential visa.

Furthermore, the skill itself must be one that is difficult to master. At one time or another, an Italian broommaker, a Philippine auto mechanic, and an Italian hair stylist have all been turned down on the ground that their particular skill was too easily attainable.

As a commissioner explained in the broommaker case, he was not convinced that the services of the applicant "would be substantially beneficial to the national economy, cultural interest, or welfare of the United States."

No teacher can do much with the brain of a pupil who doesn't want to learn.

The deliberate misuse of freedoms is as dangerous as their suppression.

Why not make up your mind to do something every day to improve yourself?

Football '74 Raises Big Curtain

Football '74 raises its big curtain this week with just about everybody getting in the act. From 'probationed' Oklahoma and 'miffed' Michigan to bowl champions Ohio State and Nebraska, the college scene sort of explodes.

Southern California, already looking toward a repeat appearance in the Rose Bowl, returns with powerful credentials. They meet Arkansas in the opener for both clubs. The Trojans, whipped by Ohio State last January, are favored by 16 points.

And speaking of the Buckeyes, last year's Big Ten co-champions play Minnesota in Minneapolis. The Gophers finished third in the conference in '73, but it just isn't in the cards that they can keep up with Ohio State, another 1973 powerhouse that will continue to roll in Oklahoma. Baylor tangles with the Sooners Saturday, and it looks to be a one-sided match-up. The Bears are underdogs to Oklahoma by a whopping 49 points.

The strong Big Eight Conference will be challenged by the Southeast Conference on two fronts as Missouri visits Mississippi and Colorado travels to L.S.U. All four teams are tabbed for high national ranking again this year, and we're picking each conference to chalk up a win in the double tango. Missouri will beat Mississippi by eleven, and L.S.U. will

trip Colorado by just two. Atlantic Coast and Southeast Conference bump head-on as Maryland meets Alabama. The Terps fielded a stronger team in '73 than they have in many years, but facing Bear Bryant and his crew at the start of '74 will be a toughie. The Crimson Tide should beat Maryland by 19 points.

Penn State, one of the independent powers, plays Stanford. The Nittany Lions, playing at home, will win by 17. Texas Tech, the "almost" the past few years in the Southwest Conference, runs into Iowa State. The Red Raiders are rated just five point favorites.

Nebraska, Texas and Michigan all open their seasons Saturday. The Wolverines move right into conference play against Iowa, and the Hawks will lose by 43 points. Nebraska looks west to Oregon and Texas looks east to Boston College. The Cornhuskers are heavy favorites - the spread over the Ducks is 23 points. And the Longhorns will up-end Boston College, by the same 23-point margin.

CHICAGO--University of Chicago researchers claim to have found an eye test that can identify persons prone to schizophrenia before they get sick.

The Sandhills Philosopher

Editor's note: The Sandhills Philosopher on his Johnson grass farm takes another look at the problem of inflation this week.

Dear editor:
As I understand it from reading the newspapers that turn up out here, the economists are saying that in our fight against inflation everybody is simply going to have to tighten his belt, which is hard to do if you're wearing overalls, not to mention those new-fangled double-knit slacks that don't even have belt loops. Also, it would be wise to make sure your belt is in good shape before you take it up a notch because if you break it you'll find a new one has tripled in price.

However, my favorite way to fight the effects of inflation is the idea hit on by a big airline. It says the tremendous increase in the price of fuel, repairs, maintenance, salaries, etc. has caused it to lose millions and it's facing bankruptcy and therefore the Federal government should lend it 10 million dollars a month, retroactive to several months back.

SHOWS RESERVE CHAMP . . . Steven Griswald showed the Reserve Champion gelding at the Progress 4-H Horse show on Saturday, Sept. 7, held at the Muleshoe Rodeo arena. Steven is the son of Mr. and Mrs. Dale Griswald and is a first grader at Richland Hills School.

That's the answer. Anybody who can't make ends meet is entitled to a government loan and I'd like to find out where I can apply before the line stretches from Washington to Muleshoe and four times around the block here. If the government will lend me money for every month in the past I failed to make ends meet and for all months in the future the same thing happens, I'll guarantee to arrange my operations to be a steady customer from now on.

A rancher friend of mine said cattlemen already have half-withdrawn. They're getting half what their cattle are worth and paying twice as much to raise them. Said if cattle go down a little bit more he's going to have to start paying buyers to take em.

Yours faithfully,
J.A.

STATE CAPITAL Highlights AND Sidelights

by Lyndell Williams

TEXAS PRESS ASSOCIATION

AUSTIN—Rep. Bill Clayton, moving fast to round up votes over the Labor Day weekend, staked claim last week to more than 100 votes in the House Speaker's race. With 76 the minimum needed to win, Clayton, a 45-year-old farmer and rancher from Springlake (population about 300) in Lamb County, indeed, appeared to have the speaker's job racked up.

But Rep. Carl Parker, 40, of Port Arthur refused to concede defeat.

Rep. Fred Head of Athens set the stage for Clayton's apparent victory by withdrawing from the contest and throwing 15 votes to the West Texan.

While Parker was still checking the pledge cards, Rep. Jim Nugent of Kerrville also withdrew and announced — along with 14 others — he would back Clayton.

Then, Rep. David Finney of Fort Worth released his five remaining backers to do as they pleased.

Parker claimed the Clayton coalition — which includes staunch conservatives, staunch liberals and down-the-middle moderates — is hastily and insecurely glued together.

He said he still hopes to shake it apart by emphasizing to liberals his own voting record, particularly on House reform, minority, labor, consumer and ecology legislation.

Most legislators appeared to agree with Clayton that: "For all intents and purposes, the ballgame is over."

CRC TO MEET—The 37-member Texas Constitutional Revision Commission plans an October 4 meeting here to take a look at possible future means of getting a new state constitution.

The January-July Constitutional Convention, with the legislature sitting as delegates, ended in failure. CRC recommended a revision draft to the convention which has drawn wide praise as a sound document.

The blue ribbon commission, which conducted a 10-months' study in 1973, is now officially disbanded and must make the trip to Austin at members own expense. Many have proposed that the legislature take the CRC revision draft and other recommendations and try next year to come up with a document which can be submitted to voters.

TYC-OVERHAUL ORDERED—U. S. District Judge William Wayne Justice in a 200-page opinion issued in Sherman ordered massive changes in operations of the state agency dealing with youth offenders.

Justice directed that Gatesville State School for Boys and Mountain View maximum security unit near Gatesville must be "phased out" as quickly as possible. He cited records of cruelty to youthful inmates there.

Texas Youth Council members voted to appeal the order because it did not "take into account improvements (during) the past year."

TAX CUT TALKED—Both Governor Dolph Briscoe and Lieutenant Governor Bill Hobby have suggested sales tax rate cuts next year.

Briscoe called for elimination of the four per cent tax on utility bills.

Hobby, in a speech here, said he thinks the projected \$1.5 billion general revenue surplus will lead legislators to consider "very seriously" lowering the state sales levy

in 1975.

Briscoe's proposal would take an \$80 million annual load off utility bills.

The three-day September hearings — airing objections and answers of publishers — are the first step in the annual adoption process. The State Board of Education will have the final say when it votes on the books November 9. The board will also hold a special public hearing here November 8 to hear objections to specific books and any claims of misconduct or procedural irregularities.

POPULATION BOOMING—Texas population is growing by 30,000 a year due to migrations from other states, and nearly 250,000 new baby Texans are born annually.

But the most important factor in growth and decline of cities, according to a new report by Robert I. Ryan, editor of Texas Business Review at The University of Texas, is not birth rates but job opportunities or lack of them. One hundred and eighty-five of the 254 counties actually lost population through migration in the last decade. The Negro population increased during the sixties at a 55 per cent higher rate than the white population.

STATE JOBS TO INCREASE—State employment will increase substantially during the next half dozen years, according to Texas Research League.

The League, a privately-supported research group, predicted non-educational employees will increase from 58,700 to between 78,000 and 95,000 by the fiscal year 1980. The average cost per

employee is estimated by TRL to increase from \$9,174 (a 1972 figure) to more than \$12,000.

SHORT SHORTS
September 16-21 has been designated Voter Registration Week.

Senator Jim Wallace of Houston served as governor-for-a-day Saturday. Senator Peyton McKnight of Tyler was honored Monday at special "McKnight Day" ceremonies in Tyler.

Obey the rules of the road if you want to live longer.

BOOK HEARINGS ON—More than a dozen individuals and groups this week presented 484 objections to public school textbooks submitted for state adoption in 1975.

The three-day September hearings — airing objections and answers of publishers — are the first step in the annual adoption process. The State Board of Education will have the final say when it votes on the books November 9. The board will also hold a special public hearing here November 8 to hear objections to specific books and any claims of misconduct or procedural irregularities.

One hundred and eighty-five of the 254 counties actually lost population through migration in the last decade. The Negro population increased during the sixties at a 55 per cent higher rate than the white population.

State employment will increase substantially during the next half dozen years, according to Texas Research League.

The League, a privately-supported research group, predicted non-educational employees will increase from 58,700 to between 78,000 and 95,000 by the fiscal year 1980. The average cost per employee is estimated by TRL to increase from \$9,174 (a 1972 figure) to more than \$12,000.

September 16-21 has been designated Voter Registration Week.

Senator Jim Wallace of Houston served as governor-for-a-day Saturday. Senator Peyton McKnight of Tyler was honored Monday at special "McKnight Day" ceremonies in Tyler.

Support for Peanuts ... Cotton Harvest Speeding ... Citrus Coming ... Rice Being Harvested

NATIONAL AVERAGE support level for peanuts has been announced by the U.S. Agriculture Department as \$366 per short ton. This compares to \$328.50 per ton support level in 1973, and is \$7.50 per ton more than the preliminary minimum announced earlier. The support level for average type Southwest Spanish peanuts, the kind most Texans probably grow, is \$356.21 per ton. Price schedules may be obtained from Southwestern Peanut Growers Association, Gorman, Texas. Harvest of the 1974 peanut crop is estimated between five and 10 per cent complete, slightly behind last year's harvest on account of delays from rain on the Upper Gulf Coast and in Southwest Texas. Yields have been described as disappointing.

COTTON HARVEST is speeding up over the State where rains have not fallen recently. Harvesting is moving toward a peak in the Central Texas area and is nearing completion in the Rio Grande Valley. It is estimated that the cotton harvest over the entire State is six per cent complete, compared to two per cent at the same time last year. Boll weevil, cotton bollworm, and tobacco budworm infestations are reported in many fields over Texas, and insecticides are being applied in many areas. Heavy boll weevil infestations are reported in Knox and Wilbarger counties, light in Baylor, Cottle, Clay, Stonewall and Young counties and variable in counties around San Angelo. Cotton bollworms and tobacco budworms are reported damaging fields in Brazos, Burleson, and Robertson Counties and are problems elsewhere in the State. However, beneficial insects are reported keeping bollworm damage down in Rolling Plains fields.

REPORTS ARE that the first shipments of oranges and grapefruit from the 1974-75 crop in the Valley can be expected any day, and may have been made by the time this is in print. Elsewhere in the Valley and in the San Antonio-Winter Garden area, farmers are getting ready to plant or are planting fall and winter vegetable crops. Sugar cane is reported being irrigated in the Valley. Harvest of most summer vegetable crops is nearing completion over the State, although cabbage, carrots, tomatoes, peppers, peas and beans are reported progressing well on the High Plains. Production of most vegetables in the Central Texas area has been about average.

RICE FARMERS who have not completed harvest keep a wary eye on the Gulf this time of year, fearing storms and hurricanes which come from that direction. Texas Crop and Livestock Reporting Service said that about 63 per cent of the first rice crop had been harvested before August 19, compared to about 25 per cent at the same time last year. Yields are reported disappointing but the quality is said to be good. Some producers have already been watering for the second rice crop of the year. Rice ranks Number 3 in Texas field crops, behind cotton and sorghum.

THE NEW Southern United States Trade Association (SUSTA) is planning to open an office in the International Trade Mart in New Orleans to promote export of Southern agricultural products. Texas Department of Agriculture Commissioner John C. White is vice president of SUSTA, and Florida Commissioner Doyle Conner is president. And speaking of exports, Texas shipped a total of 213,201 head of cattle to other states during July, compared to 369,731 in July, 1973.
