# The Lieutenant Governor's Report

By Bill Hobby

AUSTIN—In a previous report to you, I mentioned that the state expects to have a \$1.5 billion surplus in the next biennium.

Much of this surplus can be attributed to inflation. We are collecting more sales taxes, not because of

greater productivity, but because of higher prices on the same goods.

Oil and gas production taxes also are contributing huge sums to the state coffers due to inflated

iating were Rev. E.K. Shepherd of Wilson, Texas and Rev. J.E. Moore of Abilene. Interment was in the Bailey County Memorial Park under the direction of Singleton-Ellis Funeral Home.

Active pallbearers were grandsons, Harvey Coffman, Randy Harvey, Terry Lee Harvey, Richard Harvey, Mike Harvey, and Ray Harvey. Honorary pallbearers were Pat Harvey and Larry Shuttlesworth.

Survivors include three daughters, Mrs. Claude Coffman and Mrs. Wilson Witherspoon, both of Muleshoe, and Mrs. Freda Shuttlesworth of Borger; four sons, Losmon Harvey of Muleshoe, Roger of Plainview, Clark of Lubbock, and Rudolph of Canadian; two sisters, Mrs. Gladys McWilliams of Cleburne and Mrs. Ollie Young of Sweetwater.

prices these energy products are commanding.

At first glance, the inflationary spiral might seem to be a blessing to the state. But every breadwinner and homemaker can testify that it is a curse.

The hard reality of inflation is now beginning to become only too clear as the Legislative Budget Board has begun studying its recommendations for

the next Legislature.

While the state doubtless will receive considerably more revenue, it will cost more to provide the same services.

Recently, the LBB approved for submission to the Legislature budgets from the Judiciary and the State Board of Insurance.

The Judiciary budget recommendation is for \$34 million in the next biennium, a 33 percent increase. The Board of Insurance is being recommended for a 26 percent budget increase to \$22.6 million for the next two fiscal years.

While frightening, these figures do not provide for vast expansion of these two arms of state government. Primarily, these budget increases come from salary adjustments to help these state employees gain back some of the ground they

have lost to runaway prices.

It is obvious from the budget requests submitted so far that the cost of doing the state's business is going to go up considerably.

It is more imperative than ever that we in state government do everything in our power to assure that each tax dollar is spent wisely.

The state must tighten its belt along with all its citizens.

We must not be fooled by projections of a large budget surplus. It may melt like ice in hot water.

The surplus may give rise to temptations to establish new programs or expand existing ones. I hope these temptations can be resisted.

With vigorous attention to economy and efficiency, I believe we can spare our citizens the burden of any new taxes for the next two years.

### ON CLEAN AIR

The Senate has passed a compromise bill that permits a slowing of air clean-up efforts to conserve scarce fuels.

### ON BUYING GOLD

It has been predicted that Americans will be able to purchase gold by the end of the year. Gold in bullion form was banned 41 years ago during the depression.

### ON UNEMPLOYMENT

Unemployment rose from 5 per cent in April to 5.2 per cent in May, according to the Labor Department. The increase was due to teenagers looking for summer employment.

## Try An Indor Garden

COLLEGE STATION---If you're looking for a way to beat today's high food prices, why not plant a vegetable garden inside your home this winter. "Homeowners as well as apartment dwellers who want to practice their gardening skills during the winter can produce tasty vegetables indoors," says Sam Cotner, vegetable specialist with the Texas Agricultural Extension Service. "The basic requirements for indoor gardening include suitable containers for plants, a

good soil mixture, adequate water and fertilizer, and sufficient space with enough light for plant growth."

Among the vegetables that do well indoors are chives, parsley, peppers, tomatoes, leaf lettuce and radishes, says the Texas A&M University System specialist.

Chives are an excellent crop for the kitchen garden and grow similar to green onions. They prefer cool conditions and good light and grow well on a window sill in the kitchen.

Plant seeds or bulbs one inch apart in six-to-eight-inch-deep pots. The leaves will be ready to eat in 10 to 12 weeks.

Parsley can be grown similarly to chives, with one plant per six or eight-inch pot.

Tiny Tim tomato plants can be grown in a 10-inch pot, while the Small Fry or Patio varieties do better when planted in three-to-five-gallon containers. Tomato should receive four to six hours of sunlight a day.

Peppers need warm conditions and adequate sunlight and will mature in about 10 weeks.

Leaf lettuce does best when planted in eight-to-ten-inch pots and grown in a relatively cool area which receives some sunlight. Many types of leaf lettuce will be ready to eat within five to six weeks after planting.

Radishes are quick and easy to grow. Use a six-to-eight-inch container and plant seeds one-fourth inch deep. Radishes will be ready to eat in four or five weeks.

"So, if you want to save a winter as well as enjoy a challenging and rewarding hobby, try indoor gardening," suggests Cotner.

**Market Report**

**COLLEGE STATION**--Meat prices are lower than they were a year ago, Mrs. Gwendolyn Clyatt reported this week.

The consumer marketing information specialist with the Texas Agricultural Extension Service, The Texas A&M University System, advised purchasing meat by weight--not by package size.

"Good beef choices include beef chuck roasts and steaks, round steaks, liver and ground beef."

"Pork economy centers on Boston butt roasts, smoked hams, picnics, frankfurters and liver."

"Lamb shoulder roasts are another good value," she added.

Some poultry prices are down a fraction, but chicken hens are the same--to slightly higher, and turkeys are showing "signs of importance now," the specialist said.

Egg prices are about the same--to a bit less than last week.

Vegetable buys this week include cabbage, carrots, dry yellow onions, cooking greens and rutabagas.

Fruits at moderate prices are apples, grapefruit, oranges, bananas, grapes, cranberries and tangerines.

"Texas red grapefruit is more plentiful with prices down. Buy it 'by the bag for greater economy."

**CONSUMER WATCHWORDS:** In fruit buying, low price isn't always the best buy.

Unless the low prices is a result of over-abundance, the so-called bargain may be undesirable--if the fruit is perishable. Buy only the amount of fruit you can use or store without waste.

**HAVING FUN AT HOEDOWN** . . . Mr. and Mrs. Odell Rasco, Mr. and Mrs. Jim Barnes, Mrs. and Mrs. H. E. Reeder, Mr. and Mrs. Larry Goree and Mr. and Mrs. Dick Kelton are shown at the Hoedown, Saturday, November 2, at the Catholic Center.

was held Thursday evening. Miss Deborah Oxford, Grand Worthy Advisor of the Grand Assembly of Texas, Order of the Rainbow for Girls, presented the traditional Rainbow Bible to Mrs. Patricia Majors Neinst, the newly-installed Worthy Grand Matron. Miss Oxford was accompanied by approximately

65 Rainbow Girls from the Houston Assemblies, and at the conclusion of the presentation, they sang "My Rainbow."

Grand Appointments received by Muleshoe members were: Wayne Williams, a member of Brilliance Committee; Mrs. Wyle Bullock, a member of Happy Highways Committee

Wyle Bullock, member of Founders Day Committee. Others attending from Muleshoe Chapter were: Mrs. Wayne Williams; Mrs. J.H. Clay, Worthy Matron; Mrs. Frank Hinkson and Mrs. Mary Farley.

The 1975 Session of Grand Chapter will be held in Dallas, October 6th thru October 9th.

**Arthritis Foundation Appoints New Director**

David Wood has been named Executive Director of the West Texas Chapter of the Arthritis Foundation, announced Mabry Peel, President of the Board of Directors.

The Foundation supports research in the over 100 rheumatic diseases which fall into the category of Arthritis. The Chapter also carries out public education programs and promotes seminars for further education of the medical profession throughout the 86 county area.

Mr. Wood attended Central High School in San Angelo and graduated from Angelo State University in 1968 with a B.B. A. degree. He is also doing postgraduate work at the University of Northern Colorado.

The father of a son, Tracy, eight, and daughter, Wendy, three, David is married to the former Pam Parr of San Angelo. He has been very active in Jaycees and is the Past President of the Brownwood Toastmasters. The Wood Plains Division is a part of the West Texas Chapter, Mrs. Sam chairman.

**Mrs. Parker TOPS Queen**

TOPS Chapter Number 34 met Thursday evening, October 31 at 6:00 p.m. in the meeting room of Bailey County Electric with 28 members weighing in.

Mrs. J.O. Parker was named weekly queen. First runner-up was Clara Crane and Second runner-up was Mrs. Buria Vinson.

Mrs. S.E. Hall was a renewal and Mrs. Lewis Shafer received a haircut for a steady six week weight loss.

The members had their Halloween workshop and all of them came dressed in costumes. The prettiest one was Mrs. Jeff Peeler, the scariest one of Mrs. Dan Vinson and then Mrs. Bobby Newman and Mrs. Claude Don Holmes won for third place.

Dear Subscriber,

*We need your help! Approximately five years ago the FCC made a rule that if a system carried two CBS, or two ABC, or two NBC stations, the station closest to the system could ask for exclusive carriage of their transmitted net work signal. This means the other same net work station would have to be cut off the system. Station KFWD Channel 12 of Clovis, New Mexico has petitioned the FCC to have Muleshoe Antenna Company cut Channel 13 KLBK of Lubbock off the system when both stations are carrying the same CBS Network program.*

*For years our customers have complained to me about KFWD losing video information and transmitting a microwave trouble sign or a station sign. Four years ago we tried to give KFWD protection by cutting off KLBK. You our customers, were so unhappy with having the only CBS Network you could watch going on and off that we ask the FCC to let us continue carrying KLBK until such time that KFWD could solve their microwave problem.*

*The FCC is now wanting to know why we shouldn't turn KLBK back off. If you have had difficulty watching KFWD of Clovis, New Mexico, please let me know by letter. If you do write me, please specify what program you were watching and what day or time and how long the problem existed. We need these letters very much if we are to have much of a case to present to the FCC, and we have only fourteen (14) days to reply. Without your help we believe our customers will not be able to watch KLBK Channel 13 on the cable.*

Sincerely,  
Merlyn Neel

## 1973 Cotton Production Largest Ever Produced

The 2,888,700 bale cotton crop on the High Plains in 1973 was the largest ever produced in the 25 counties represented

### Honey Flow Cut In Half By Weather

AUSTIN--Drought followed by heavy rains has cut this year's honey flow by about half, Agriculture Commissioner John C. White said recently.

This is affecting consumers already paying higher prices for honey, but not beekeepers trying to keep up with a world demand for the natural sweet.

White said most beekeepers are migratory, following the blossoms of certain plants from the Lower Rio Grande Valley all the way to Minnesota and the Dakotas.

"The crop depends to a great extent on climate and the right nectar-producing plants," White said. "This year's drought sharply reduced these plants, especially on the High Plains where cotton and alfalfa blooms were in short supply."

Rains following the drought in Texas and elsewhere also kept bees from working and prevented beekeepers from removing honey from the hives.

White said beekeepers transport hives from state to state in trucks. They place the hives in fields abundant with the blossoms of clover, mesquite, cat's claw and other plants. Honeybees collect the nectar and deposit it in a hive where a chemical process changes it into honey in a few hours.

The honey flow will continue as long as nectar is available in the plants. Five to 10 pounds of honey a day is regularly produced by most hives and under the right conditions 20-30 pounds can be produced.

by Plains Cotton Growers, exceeding by almost 450,000 bales the previous record of 2,443,900 bales produced in 1961. Per acre yield for 1973 averaged 498 pounds against the 513-pound record yield established in 1965. Average yield per acre in 1972 was 457 pounds and

inside feeder cattle COLLEGE STATION--"Higher feed costs, continued feedlot losses, and exceptionally large supplies of replacement animals mean lower prices for the feeder cattle market," says Dr. Ed Uvacek, livestock marketing specialist for the Texas Agricultural Extension Service. "Cattle placed on feed during August, 1974, were down 22 per cent in the seven major feeding states, which indicates no changed attitude among feeders," says the Texas A&M University System specialist.

Price differences between U.S. Good grade beef and U.S. Choice grade beef are expected to widen even further this fall. This price difference will be reflected in feeder prices, causing much larger discounts on plainer kinds of replacements. "Fed cattle will probably show further weakness through October because of the increasing number of non-feds available," predicts Uvacek. "However, prices during the remainder of the year should move upward."

Uvacek also expects feeder cattle prices to continue downward because of high feed costs and feedlot unprofitability.

On July 1 of this year there were about 5-1/2 million more replacement cattle available outside of feedlots than last year. This larger supply of feeders will continue to push down feeder prices. However, some recovery is expected by November and December as supplies thin out.

"The real key to the future of feeder prices is fed cattle prices," contends Uvacek. "Unless feedlots become profitable again, it will be hard to sell replacement animals--at any price."

### Savings Bond Sales Go Over 100%

In releasing Treasury figures, County Bond Chairman, Mrs. Dean Spraberry, announced today that sales of Series E and H United States Savings bonds in Bailey County during September totaled \$7,125,000. Sales for the nine-month period were \$61,643,000 for 103% of the yearly sales goal of \$60,000,000.

September sales in Texas amounted to \$19,110,753 compared to \$17,149,206 during the same period of 1973--an increase of 11%. Year-to-date sales totaled \$178,861,964 for 73% of the \$236.8 Million goal achieved.

## Heart Members Attend Shop

Volunteers from the Bailey County Division of the American Heart Association participated in the Region Two Campaign Workshop held on October 30 at Lubbock.

Dr. Joseph Sasano, M.D., was the keynote speaker at the special campaign planning meeting and he discussed the Heart Association's need for additional funds and how the money will be raised in Texas.

Attending this planning meeting were volunteer campaign officials and Publicity Chairpersons from American Heart Association Divisions in the surrounding counties.

Attending the Regional meeting from Muleshoe were Dr. and Mrs. Gary Albertson, Mrs. Steve Bass and Dean Spraberry.

The American Heart Association campaign will be conducted in Muleshoe and throughout the United States during the month of February, 1975.

"Announcement of a woefully inadequate loan level in a manner we consider completely outside the language and intent of the law emphasizes more than ever the need for speedy congressional action to effect changes in the current cotton program."

This was the reaction of Donald Johnson, Executive Vice President of Lubbock-based Plains Cotton Growers, Inc., to the announcement October 31 of a "preliminary" 1975-crop loan level of 34.27 cents, basis Middling one inch cotton at average location, 3.5 to 4.9 micronaire.

The 1974 Middling-inch loan is 25.26 cents per pound, "which is no more than half the average cost of production," Johnson maintains, "and the loan announced for 1975 again fails to offer producers any meaningful price protection."

Moreover, he continues, "there is no authority in the law for USDA to announce a 'preliminary' loan subject to change between now and the end of the marketing year on July 31, 1975."

PCG pointed out to USDA last year and again this year that farmers and others in the industry should not be asked to make planting and marketing decisions based on a loan which could be drastically lowered after such decisions are made. "The law as we read it," Johnson says, "clearly states that the loan shall be announced on or before November 1."

As a result of recent hearings before the House Cotton Subcommittee, chaired by Congressman B.F. Sisk of California, a National Cotton Marketing Study Committee is being appointed by Secretary of Agriculture Earl Butz. The committee will be divided into six subcommittees to study and make recommendations on (1) Spot Markets and USDA's Market News Service, (2) forward crop contracts, (3) seed cotton storage, (4) bale packaging, (5) sampling, classification and standards and (6) warehousing and transportation.

Johnson has been asked to serve on the Spot Markets and Market News Service Subcommittee, and PCG President Don Marble of South Plains has been appointed to the Subcommittee on sampling, classification and standards.

On the Senate side, Agriculture Committee Chairman Herman Talmadge of Georgia has announced hearings in January on the merits of higher target prices, loan levels, food and fiber reserves, and export licensing. These are areas treated by Amendment No. 1348 to S-2005, proposed by Senator Hubert Humphrey of Minnesota. The amendment, intended as a substitute for the original bill, among other things would increase target prices and loan levels for cotton, wheat and feed grains. The target price for cotton under Humphrey's proposal would go from 38 cents to 50 cents per pound. And whenever the estimated cotton supply fell below 5 million bales, the Bill would require a loan at no less than 90 per cent of the target price, or 45.5 cents per pound.

"With the many other provisions to be considered," Johnson commented, "endorsement or opposition to the entire measure is impractical; but it is obvious that both the loan and the target price for cotton need raising. From the recommendations of the House Study Committee and the testimony developed at Senate hearings, we are hoping to see congressional action in early 1975 to accomplish these purposes."

### Turkey Shoot Scheduled At Lazbuddie

The Lazbuddie Senior Class will sponsor a Turkey shoot, Saturday, November 9, beginning at 8:30 a.m. The shoot will be held at the North end of the football field. Shells may be purchased at the shoot. A concession stand will be set up to serve coffee, hot chocolate, sandwiches, etc. Winners may choose either a turkey or five dollars.

STATE CAPITAL Highlights AND Sidelights by Lyndell Williams TEXAS PRESS ASSOCIATION

AUSTIN — Regardless of whether voters were steamed up about the November 5 general election, it cost the candidates a bundle to run. Gov. Dolph Briscoe led the spending. His \$1.2 million in outlays topped that of his nearest rival, Republican Jim Granberry, two-to-one. Granberry listed contributions of \$521,462 and expenditures of \$536,545. Briscoe reported about \$1.3 million in contributions and loans, including \$645,000 of his own money. Second highest spending was in the heated race for state comptroller. Democrat Bob Bullock said he received \$130,701 in contributions and spent \$129,369. His Republican opponent, Nick Rowe, itemized \$36,274 in donations and \$31,877 in spending. Opposition from Republican Robert Holt caused veteran State Treasurer Jesse James to spend \$85,807 in a media campaign. James raised \$86,408. Holt spent \$32,124 and raised \$37,032. Even candidates with light opposition saw fit to put together sizable war-chests. Lt. Gov. Bill Hobby, for example, took in \$117,599 and spent \$101,420, although his Republican challenger Gaylord Marshall had only \$10,564 in donations and spent \$21,760. Atty. Gen. John Hill reported spending \$92,415 of \$99,822 contributed. Agriculture Commissioner John C. White spent \$57,810 and received \$58,643, while his GOP opponent, Zack Fisher of Memphis, settled for a \$47,000 campaign and less than \$40,000 in donations and loans. TEACHERS WANT RAISE —Texas State Teachers Association's legislative committee has voted to ask the legislature to raise the pay of teachers to about \$12,000 a year. Texas teachers want at least \$500 over the U.S. average beginning with the 1975-76 school year. The U.S. average in 1973-74 was \$10,573, but TSTA officials calculate it will go up to \$11,761 in 1975-76. Average teacher pay in Texas was \$8,967 last school year placing Texas in 37th place among 50 states. Another committee legislative proposal was for a 75

per cent increase in state funds for school bus transportation. DISCOUNTS PROMISED — Owners of 1975 model autos will get a 10 per cent collision insurance premium reduction due to better bumpers. Three import cars were approved for even higher bumper discounts, according to the State Insurance Board. Checker Marathon and Volvo models are eligible for a 20 per cent discount, and Saab 99 for a 15 per cent reduction. PLAZA OFFERED — The State Bar of Texas has offered to develop and give to the state a \$700,000 memorial plaza and underground parking facility in the capitol area. The plaza will be located near the proposed new \$5 million Texas Law Center, the State Bar's future headquarters which is just about to be constructed. Atty. Gen. John Hill, a member of the State Building Commission, recommended the legislature be asked to appropriate funds for two additional levels of parking under the scenic plaza in order to help relieve auto congestion in the crowded capitol area. COURTS SPEAK —The State Supreme Court upheld removal of Wichita County District Attorney Jimmie Phagan after disbarment. The high court threw out Nueces County law officers appeal of an injunction forbidding them from enforcing a new "handgun" law against an armored car service. Supreme Court justices divided five-to-four in affirming action of a Randall County judge who set trial of a suit on promissory note without notifying the defendant. The Court of Criminal Appeals reversed and remanded revocation of probation of an Hidalgo County man because the prosecution didn't prove a violation "by greater weight of evidence". The same court reversed and remanded life sentence of a Bexar County man for murder and a 35-year sentence of an Austin man who fired at a police officer. AC OPINIONS — A woman has the right to decide at the time of her marriage whether she wants her married name

or maiden name on her driver's license and other licenses, permits or personnel application, Atty. Gen. John Hill held. In other recent opinions, Hill concluded: The security charge is an element of lowest airline fares used in computation of reimbursable expenses for use of a personal vehicle. The legislature can enact legislation utilizing a formula of matching dollar-for-dollar all federal funds available for grants to Aid to Families with Dependent Children. But it has not given the Department of Public Welfare authority to prescribe policies by rules altering effect of state laws in conflict with federal statutes. A student's records at a teacher placement service are to be made available to her or him on request. Material supporting University of Texas regents' agenda for meetings is public information so far as it reflects factual matters. Material on the performance of a state university faculty member is available under the open records act. Federal office candidates do not have to file reports on campaign finances with the state other than copies of federally-required material. Certificate of deposit and cashiers checks deposited to satisfy the bail bondsman's licensing act should be executed in the name of the county treasurer. REVISION PUSHED — State Senator Bill Patman of Ganado, will ask the legislature next year to submit to voters at the November 1976 general election the proposed constitutional revision plan rejected (by three votes) at the 1974 Constitutional Convention. Patman said he settled on the 1976 vote, because an earlier special election might cost up to \$3 million. Meanwhile, the League of Women Voters of Texas served notice it will support passage of a bill or resolution calling for a new constitutional convention "as soon as possible." The League said it would "not turn its back on other methods of revision," however. SHORT SNORTS Texas Ranger Gene B. Graves received the second annual Lyndon Baines Johnson award as outstanding Department of Public Safety lawman for 1973. U.S. Law Enforcement Assistance Administration has approved two grants totalling \$7,290,000 for improvements in Texas criminal justice and corrections systems. An added market news service on fresh produce from the San Antonio terminal began last week.

Welfare Commissioner Raymond Vowell said Texas was rejected on a claim for \$82.7 million in federal welfare money because the state didn't have a Republican governor. The House Human Resources Committee will consider proposals November 12 for taking care of children who cannot be cared for at home. Texas' mini-convention, delegation contest is expected to be heard by a Democratic National Convention Committee in Houston November 7. Florida and Georgia, each with just one loss in Southeast Conference competition, do battle in Jacksonville. The Gators upset Auburn last Saturday to set the stage for this game that will eliminate one of the two from title possibilities. We'll pick Florida to just nip Georgia by a single point. On the West Coast, Southern California tussles with Stanford as the Trojans continue their bid for another Pacific 8 title and Rose Bowl appearance. The two teams are tied for the top spot in the conference, but Southern Cal should take over sole possession of the lead, beating the Indians by 10 points. And in the Harmon Crystal Ball Conference, the Right Ones still have a comfortable lead over the Wrong Ones. We've picked 1,116 on the sunny side and 375 shady ones with 38 ties. We're hitting .748 with three weeks left of the regular season. Before last Saturday, there were still five teams in the race for the Big 8 title and there are still four. This Saturday's games will decrease the group to three, Nebraska will remain in the picture with a 22-point win over Iowa State while Oklahoma State, still in contention, will up-end Kansas State by 26, Oklahoma will knock Missouri out of the championship race, beating the Tigers by 24 points. The Southwest Conference championship scramble should be narrowed down to just two teams after this week's games, Texas A&M and Texas. The Aggies are favored over S.M.U. by 16 points, and Texas will eliminate Baylor by the same margin, 16 points. Finally, the match-up in the Western Athletic Conference brings together conference leader Brigham Young and once-beaten-and-just-beaten-Arizona State. In spite of last week's upset, Arizona State should win by eight points.

Service Held Tuesday For Bessie Taylor

Mrs. Bessie L. Taylor, formerly of Clarksville, Texas, died in Plains Memorial Hospital in Dimmitt Thursday, October 31, at 5:30 p.m. Before hospitalization, she was making her home with her daughter, Mrs. Aubrey Quarles who resided at 409-B West 17th Street in Muleshoe. Funeral services were held Sunday, Nov. 3, at 2 p.m. in Jolley's Funeral Home Chapel with Rev. Wayland Boyd, pastor of the First Baptist Church of Clarksville, officiating. Burial was in the Lone Star Cemetery under the direction of Jolley's Funeral Home. She was a member of the North Side Baptist Church of Fort Stockton. Mrs. Taylor was born in Lamar County on January 19, 1891. She married Ernest F. Taylor on September 27, 1916 in Clarksville. He preceded her in death on August 14, 1945. She is survived by one son, Earle Taylor of Fort Lavaca, Texas; one daughter, Mrs. Aubrey Quarles of Muleshoe; one sister, Mrs. Fred Henry of Sulphur Springs, Texas, three grandchildren and four great-grandchildren.

The House Human Resources Committee will consider proposals November 12 for taking care of children who cannot be cared for at home. The two teams are tied for the top spot in the conference, but Southern Cal should take over sole possession of the lead, beating the Indians by 10 points. And in the Harmon Crystal Ball Conference, the Right Ones still have a comfortable lead over the Wrong Ones. We've picked 1,116 on the sunny side and 375 shady ones with 38 ties. We're hitting .748 with three weeks left of the regular season. Before last Saturday, there were still five teams in the race for the Big 8 title and there are still four. This Saturday's games will decrease the group to three, Nebraska will remain in the picture with a 22-point win over Iowa State while Oklahoma State, still in contention, will up-end Kansas State by 26, Oklahoma will knock Missouri out of the championship race, beating the Tigers by 24 points. The Southwest Conference championship scramble should be narrowed down to just two teams after this week's games, Texas A&M and Texas. The Aggies are favored over S.M.U. by 16 points, and Texas will eliminate Baylor by the same margin, 16 points. Finally, the match-up in the Western Athletic Conference brings together conference leader Brigham Young and once-beaten-and-just-beaten-Arizona State. In spite of last week's upset, Arizona State should win by eight points.

Water, Inc. To Have Leadership Rally

Workers in the 1974 Water, Inc., Membership Drive will converge on Lubbock Saturday (Nov. 9) for a leadership rally launching the organization's monthlong search for new members. The 10:30 a.m. get-together will be conducted in the Fifth Floor Meeting Room of the First National-Pioneer Building. Loyd Calhoun of Hobbs, chairman of the membership drive steering committee, said workers from throughout West Texas and Eastern New Mexico will be in Lubbock for the rally which marks the beginning to the intensive solicitation for members. He noted that there is more evidence of widespread support for Water, Inc., this year than in previous membership drives. Water, Inc., is a non-profit, membership-based organization which has been working for importation of water into the area since 1967. It was formed by 1,000 charter members and since its inception more than

5,000 individuals, firms and organizations have participated in its financing through membership dues. Water, Inc., President Geo. W. McCleskey, has called a meeting of the board of directors immediately preceding the leadership rally. Directors are expected to set a time and place for the annual membership meeting and to elect a nominating committee.

**The Sandhills Philosopher**

Editor's note: The sandhill Philosopher on his Johnson grass farm claims he has discovered something here to fore unknown, his letter this week indicates.

Dear Editor:  
According to an article I read last night in a newspaper I found on the road near this Johnson grass farm and brought it home to recycle the contents as I understand the energy czar wants us to do, a high Russian Official, I can't remember his name and couldn't spell it if I could and neither one of us could pronounce it anyway, has been fired because he was caught building a \$175,000 home out of materials he'd swiped from the government.

This almost bowled me over. I didn't know that they had human nature in Russia. I thought all the politicians over there worked night and day for the people and were satisfied if they got room and board and an occasional medal. All lying and cheating was done to other countries. You mean to tell me human nature is going to crop out, regardless of what form of government it's living under?

Speaking of other countries, I noticed that U.S. diplomats are always talking about improving our relations with other countries but nobody ever talks about other countries improving their relations with us. How come no other country once in a while at least isn't afraid of losing our friendship?

Changing the subject again, I understand Washington is considering adding a surcharge on incomes to get more tax money to fight inflation. I've got a better idea. If more tax money is the answer. Give all male government employees a week off, dress them in highway patrolmen's uniforms, and fine everybody driving over 55 miles an hour. At \$20 a fine, and with about 20 million cars on the road, that'd come to 400 million dollars a day, or about 3 billion dollars a week, counting those caught more than once. If that won't quite whip inflation lower the speed limit to 50 mph next week and double your take.

Remember, if at first you don't succeed, run for office. Yours faithfully, J.A.

Criticism springs from two sources - intelligent disapproval and emotional reactions.

**THE FAMILY LAWYER**

**Pet Coyote**

In their back yard, the Martins kept a pet coyote on a chain. Although they considered him harmless, they warned youngsters in the neighborhood to keep their distance. But one day a boy ventured too close and got bitten.

Sued afterward for damages, the Martins insisted in court that the coyote had never bitten anyone before. Nevertheless, the court held them liable. The court said the law is less interested in the characteristics of the individual animal than in the characteristics of the species.

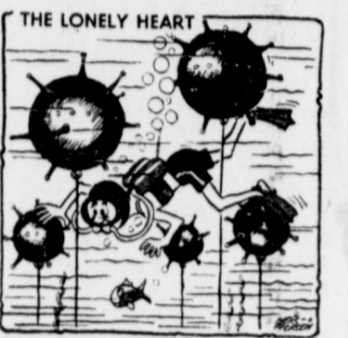

Even if the animal is classified as wild, the keeper will usually not be blamed for an injury to some one who was guilty of deliberate provocation or recklessness. In one case a youth disregarded the barrier and warning signs to approach a leopard in a cage. Slashed by the leopard, he later demanded damages from the animal's owner. But the court threw out his claim. The court said, effect, that the victim had gotten what he had asked for.

**Livestock Production Down ... Fewer Broilers, More Layers ... Harvest Progressing ... Ranges in Good Condition**

**CATTLE SALES** in Texas were down extensively the past two or three months, according to the Texas Crop and Livestock Reporting Service. In September, 449,000 head were sold through Texas auctions, 26 per cent below a year ago and eight per cent below sales in August. Sheep sales through auction barns were 67,000, compared to 75,000 a year ago and 74,000 the previous month; and goat sales in September in Texas auction barns were 23,000 head, which was 30 per cent below September, 1973 and 34 per cent below August sales. Hog sales were up to 43,000 in September, 1974, which was 16 per cent above the same month in 1973. During the three months of July, August, and September of this year, 755,000 head of cattle were placed on feed in Texas feedlots, and that was 29 per cent fewer than a year ago; and 933,000 head were sold from Texas feedlots during that time, 14 per cent below sales for the same period last year. On October 1, there were 1,599,000 head of cattle being fed for slaughter in feedlots, compared to 2,323,000 head at the same time in 1973, a decline of 31 per cent. During September, 1974, there were 131,848 head of cattle and calves shipped out of Texas and 98,122 head shipped in. Shipments out were 53 per cent below shipments out during the same period of 1973, and shipments in were 38 per cent below shipments in during the same period in 1973.

**THE HATCH** of egg-type chicks increased in September by 12 per cent over the same month a year ago, reaching 2,000,000; but the hatch of broilers dropped to 12,612,000, 11 per cent below September, 1973 and nine per cent below August's hatch. Heavy breed turkey poult hatched during the week ending October 19, 1974 totaled 113,000, which is 64 per cent more than the same time in 1973. Heavy breed turkey eggs set totaled 170,000, which was 16 per cent less than a year ago and four per cent less than the previous week. In nine turkey-producing states including Texas. There were 1,544,000 eggs set for turkey poults during the week ending October 19, 1974, compared to 1,741,000 at the same time last year. There were 756,000 turkey poults hatched in the same states during the same week, compared to 752,000 in 1973.

**DESPITE SOME** rainy weather, harvest of Texas crops continued during the last weeks of October. The harvest of the first crop of rice is complete and over a third of the second crop has gone to the dryers. Sorghum harvest is about two-thirds complete, despite the slow down on the High Plains due to rains and cold weather. Cotton harvest is about 26 per cent complete, soybean about 15 per cent complete, peanuts about 55 per cent, and pecan harvest is gaining speed. (Pecan prices are reported holding steady at 30 to 35 cents for natives and from 40 to 55 cents a pound for improved varieties.) In the Valley, picking of oranges and grapefruit continues, and planting of lettuce, onions and cabbage is going on. Harvest of lettuce and carrots resumed in the High Plains after the wet weather, and okra, tomatoes, beans, green onions, greens and collards are being harvested in North Texas. Cucumbers, bell peppers, and cabbage are being picked in the San Antonio-Winter Garden areas.

**AS MIGHT BE** expected, Texas ranges are in good condition and wheat and oats are making good progress. Hay baling is continuing in many areas of the State as weather permits. Most cattle are in good condition. Some new screwworm cases have been reported over the State, including one in the Cross-Timbers area. Cattlemen are urged to be on the lookout for screwworms, and to send samples of any suspected cases to the laboratory in Missi-
