THE TRUTH ABOUT PARDONS

One of the first official acts of the Neff administration was the abolition of the state pardon board. This would a warped vision, is unable to look seem to indicate that the Governor is determined to avoid abuse of the power of executive clemency. But let us see whether this abuse can be place. placed directly upon the shoulders of the chief executive or whether it is the fault of the people.

In the first place the Governor is elected to office by a direct vote of the people. Powerful political organizations and agencies, directed by prominent men, extend into every county, city, town and village in the state. These organizations, which have a large influence over the mind of the public, are set to work in the interest of some particular man. Should their candidate be elected, step upward Monday when Postmasthen the powers that be usually feel ter W. S. Officers of the police and sheriff's department in Graham are to be complimented on the manner in which they are apprehending violators of the law. Automobile thieves, bunco men, check artists and even persons who attempt to beat their board bills are being arrested and landed in jail.

Strict vigilance on the part of officers has become necessary during the last few months. They are forced to contend with additional problems created through the oil boom, and the manner in which they have met these problems has been prompt and

"MASTER MINDS"

Personally, if you ask us, we can't inderstand why the press of the ountry should continually refer to notorious crooks as "master minds." Yet in every bank robbery, in every stock swindling scheme and in every instance where the innocent public is imposed upon by degraded scoundrels with warped minds, there is always a so-called "master minil."

Our definition of a master mind is the man who toils eight hours per day for his living. He is the man you see making his way home in the evening after an honest day's work. He is the man who stays within the law, rears a family, pays his debts, contributes to the upkeep of church and school and makes himself an asset generally to society

No man with a master mind could possess so little imagination as the crook. For the crook, being afflict- ed!" ed as he is with a deranged mind and into the future and see the inevitable outcome of his acts. All roads of fraud and crookery lead to the same

Henry Starr, notorious Oklahoma outlaw, has paid the price. Charles Ponzi, the so-called "master mind," is now in the penitentiary. The robbers of the Dallas postoffice are bound for the same place, and it will be the same with all their ilk. Therefore, instead of calling crooks "master minds," it would be appropriate and more to the point if they were called "warped minds."

Graham took another important engage carriers to meet immediate It therefore happens that those who demands. Your Mood Changes

TIRED! Nervous? Worried? Put a Re-CREATION on the New Edison, relax into a chair, let the music flood the room with melody-and comfort.

The music produces a mood change. Mr. Edison has devised a Mood Change Chart by which you can register your reactions to music. Come in and get your supply. Make the experiment in your own home. Have every member of your family, also your friends fill out charts. It's more interesting than the Ouija board.

Mr. Edison would like to study your charts in connection with his great research into the effects of music on the minds and moods of men.

If you don't own a New Edison, come into our store and fill out a Mood Change Chart. Get Mr. Edison all the Mood Change Charts he needs.

HOUSES PICKED UP AND **MOVED THROUGH STREETS**

One notable feature in connection with the growth of Graham is the number of houses that are being picked up bodily and moved from one section of the city to another. This custom has grown to be an almost daily occurrence. Many old structures are forced to give way to more modern buildings, and the pressing need for houses prevents the old buildings from being torn down.

SOUTH BEND NOW **MECCA FOR MANY BUSINESS FIRMS**

South Bend, Texas, Feb. 23 .-South Bend, the baby oil city of Texas, is today the cynosure of all eyes, as well as the mecca of oil scouts, big and little operators—live wires of the business world seeking locations and real estate speculation.

Located ten miles southwest of Graham on the Clear Fork of the Brazos River, this embryo city has grown in two months time from a village, comprised of two stores, a garage and a few houses, to a typical Texas oil town of 1,500 live citizens and is still growing.

South Bend boasts of a class of

business men not surpassed by those of any city of its age or size in the country and they are all live wire boosters for their adopted city having its welfare at heart at all times. Several weeks ago a Chamber of Commerce was organized that put lots of "pep" into it, and it started func-

tioning. The results have been wonderful, as evidenced by electric lights twinkling in the homes and business houses, a water works system being installed, fire plugs about to be placed, mains about to be laid for a gas supply and a jail built. These are just few of the achievements of the commerce body under the guidance of F. E. Cage, president,

R. H. Clark, representing the South Bend Townsite Company, gave ten thousand dollars to secure the Wichita Falls & Southern railroad for the town. Clark has just received a letter from the chief engineer of the road advising that there would be no stops on the road between South Bend and Eliasville. Clark has for his motto, "South Bend first, last and forevermore."

and O. A. McBrayer, secretary.

South Bend stands a chance to be a second Burkburnett inasmuch as the Young County Oil Syndicate is drilling a well on the townsite on the O. A. McBrayer property. Should this well come in a producer, which is very likely, South Bend will undoubtedly be the livest town in the

South Bend has every modern convenience and a live bunch of boost ers. "Co-operation" is the byword and such men as Jas. C. Timmons, Moore of the Bijo Cafe, McBrayer of the bank, Joe Timmons, R. L. Fain of the South Bend Garage, Teasdale and the Young County Welding Co., having the latest and most modern machinery, are making South Bend a town with a future.

That South Bend is thoroughly upto-date city is further evidenced by the fact that deposits of more than \$100,000 have been receivede by the

T. Coleman Banking Company. One of the largest grocery concerns in the field is operating here under the style of Roff & Lefwitch. Rippy of Ranger fame has opened up the Rippy Cafe and is doing a landslide business. Herman & Co. of the Wite House Cafe ie also dong a nice business

E. C. Stovall has opened up one of the nicest districts yet offered to the public. Edgewater Addition is across the river from South Bend and no better place could be selected for a home as the river breeze in the summer will be delightful. Stovall has the irrigation rights here and the soil of his new addition is suitable for gardens, fruts, flowers and really an ideal place.

GRAHAM GROCERY CO. READY FOR BUSINESS

The Grahaam Grocery Company, located on the east side of the square and next to the Majestic Theatre, has installed a complete line of groceries and opened its doors to the public. J. A. Sims and J. G. Harris, both of Abilene, are owners and proprietors. D. A. Smith, well known local man, will be connected with the firm. Both Mr. Harris and Mr. Sims have

made quite a reputation in the grocery business at Abilene and their presence here adds two substantial business men to the city.

TEXAS STARS IN MOVIES

It seems that Texas is doing her share, as in everything else, towards contributing talent to the moving picture industry.

In looking over a list of prominent screen people one firms such names as Bretram Bracken, Bebe Daniels, Corinne Griffith, Eileen and Josie Sedwick and Lucy Cotton, all hailing

And the last to be added to the list is Joe King, born in Austin, Texas, and educated at the University of Texas. He plays the part of Carter in the Rex Beach picture, "The North Wind's Malice," coming to the National Theatre Monday and Tuesday, February 28 and March 1.

"Let us not permit anger over another matter to govern us in considering this bill," Mr. Curtis said. Judge Perkins concurred in Mr. Curtis' sentiments. He said there were many degrees of different opinion over the suspended sentence law and that he did not favor killing the bill without due and deliberate consid-

"No feeling of strife, ill-will or excitement should find place in the mind, much less the action, of an honest representative of the State," Judge Perkins said. "Let us approach this question in a spirit of fairness. I know some unfortunate incidents have occurred the last few days. I have taken no part in them and my feelings have remained unmoved. I asked to print the statement of Mr. Crumpton as a matter of fairness in the journal, although I had been on the other side of the question. Besides, it is Saturday afternoon and the House wants to

IT COSTS \$60 AN HOUR TO OPERATE AN AIRPLANE TODAY

The cost of operation of airplanes is very great, the average at this time being about \$60 an hour, and is about 20 to 50 per cent more for seaplanes. In fact, seaplanes, or flying-boats, are the most expensive aircraft to operate.

Of course, seaplanes have the advantage of being able to land in many places not provided with airdromes. This is particularly so in Canada, where a very great percentage of the surface of the country is covered with water and lakes,

In fact, seaplanes can fly all over Canada and almost always have a landing place within gliding distnce. On the other hand, seaplanes are worthless in the winter time, when the lakes and rivers are frozen or have floating ice on them,

It is estimated that carrying passengers costs almost 70 cents per mile.

The great advantage about airplanes is their speed; and it has been found that the higher one is able to get, the greater the speed that can be obtained, on account of the lessened resistance of the air. At 30,000 feet, speed of over 200 miles an hour have been obtained, with ordinary equipment, merely adapted for that purpose and not

constructed specifically for it. The way that these high altitudes are obtained is by the use of a turbo-booster in connections with the gasoline engine. The turbo-booster is a turbine which is actuated by the exhaust from the engine, this in turn works an air compressor, or air pump that delivers compressed air.

Most Remarkable Price Reductions

The Short Mercantile Company's store is known throughout the north, central section of Texas for its high-grade merchandise. The stock today evidences the keen knowledge of thoroughly trained dry goods, clothing and shoe men and the desire of the former management to have the patronage of the best and most discriminating trade.

It's really a pleasure for the present management to have the opportunity to dispose of such high-grade and well assorted line. We are buying large and medium sized stocks of merchandise in Texas and adjoining states and make quick action in closing them out wherever we go. Our investments are confined to stocks that can be had for cash at nothing short of ridiculously low prices. We then cut the prices so much lower than any regular dealer can afford to make, that any economically inclined person cannot resist the inclination to buy.

We have not stopped with reducing prices to one-half that formerly asked, but have on hundreds of items cut to the tempting limit of three-fourths off the regular price.

Men---Bring the Ladies with you to the big Bankrupt Sale, they will enjoy it!

They will enjoy the carnival of price cutting and we are willing for them to pass judgment on the quality, style and price of the Short Co. goods in its final disposition.

BEGIN YOUR BUYING OPENING DAY

Many sales people will be here to assist you in finding what you want. They will be instructed to give you the best possible attention. Prices will be marked in plain figures and well displayed. We are glad to be in Graham these few days and when we go, we want to leave the people with the satisfaction of mind that we have given every one A SQUARE FAIR DEAL.
