OIL GOES OVER DERRICK OF OWENS WELL

IMPERIAL OFFICER KU KLUX KLAN TO VISIT FORT WORTH

The Fort Worth Star-Telegram received the following letter from the Ku Klux Klan Monday morning: Star-Telegram, Fort Worth, Texas, Gentlemen:

The following is submitted to you for publication:

Dr. C. A. Ridley, imperial officer of the Knights of the Ku Klux Klan and prominent Baptist minister of Atlanta, Georgia, will deliver an address Saturday night, August the Thirtieth, Nineteen Hundred and Twenty-One, at eight o'clock in the Auditorium of the Fort Worth Chamber of Commerce, Fort Worth, Texas. His subject will be: "The Principles of the Knights of the Ku Klux Klan." The public is invited to hear this address. Men and women are welcome.

Knights of the Ku Klux Klan. While the letter is clear, however, there is still a bit of mystery around the coming of the speaker. It is not known when he will arrive, where he will stay while in the city, who will introduce him to his audience, providing anyone introduces him, or where he will go from here.

For several days the Klan has not been very active in Texas but Saturday night a Fort Worth man was taken out and given a second flogging. His first experience was a month ago, when he was tarred and feathered and returned to Fort Worth released. This makes the fourth of the Klan to Fort Worth.

Reports published in various papers in Texas that the Klan was organizing in many parts of the country were confirmed by the Klan's stationery on which a communication to The Star-Telegram was written. This stationery bears the mark of "Klan No. 101" which indicates that 101 klans had been organized up to the time the Fort Worth klans was formed. It was rumored several months ago that the Knights of the Ku Klux Klan was being formed with several thousand members.

Utmost secrecy apparently surrounds the order. Its communications are signed only as "Knights of the Ku Klux Klan." The only officers made known are the imperial officers at Atlanta, headquarters of the knights.

A communication purporting to be from officials of the Fort Worth branch of the Ku Klux Klan denied all responsibility for the attack made upon Benny Pinto, who was taken from his brother's place of business and after being taken into the country, stripped, whipped and then ordered to leave the State within forty-eight hours.

The communication declares that the organization is against all forms of violence and in no instance counsances its following interfering with officers performing their duty. His statement was made after it was learned that the members of the masked band who seized Pinto Saturday night, held officers at bay with drawn revolvers while Pinto is placed in an automobile and driven away.

TELEPHONE COMPANY EXTENDS LINES

The Oil Fields Telegraph and Telephone Company, which for some time has had its lines completed in Graham through South Bend, Dallasville, and Ivan to Breckenridge, has extended its service to Crystal Falls and Jinkum. The manager, Mr. Moore, states that the line will be extended from Jinkum to Breckenridge at an early date.

This is a new company in this section and has filled a long felt want in the telephone line. Mr. Moore is very popular with the people served by his company.

John E. Meyer returned yesterday from Comanche, Texas.

LOCAL MERCHANTS DESERVE PATRONAGE OF LOYAL CITIZENS

Our merchants are offering rare bargains to the Graham trade territory and our people should avail themselves of the opportunity to buy reasonable goods at the reduced prices offered.

Statements from buyers in different sections of the state who have returned from the markets say that the price of goods is slightly more than it was in the spring. The unprecedented drop in prices, after the local merchants had bought their goods last fall, caused them to lose heavily on all dry goods. The merchants met the loss and to make room for the fall stocks which will be arriving soon are sacrificing the stocks now on hand.

If there was ever a time when we need to help each other it is the present. The big mail order houses are reporting a decline in their sales. There ought to be a greater reduction in sales of these companies as they never contribute in taxes or otherwise to the support of local institutions. These are trying times and no money should be sent away from the community that can be kept here. This is equally true for labor. Employ home men even if it costs a little more; they spend their money here.

J. T. CARTER BUILDS NEW RESIDENCE ON EAST THIRD STREET

J. T. Carter is rebuilding his house which was burned several weeks ago. He is building a better house than the one that burned. The work on the house is being pushed and before many days it will be ready to move in.

The building trade in Graham is not very active at present, due to the financial depression but those who are building are putting up good houses. We have often spoken of the Graham spirit—the best for Graham. In building his new home Mr. Carter has kept up the standard. His house is not large but is neat, attractive and substantial.

Large Pumpkins Attract Attention

Two large pumpkins in the window of the Sanitary Grocery on the east side of the square have attracted the attention of all who have seen them. A guessing contest has added interest in them. The management of the Grocery has a book in which every one is given the opportunity to record his guess at the combined weight of the two pumpkins.

A glance at the wide range of guesses shows that many of us have little idea of the weight of articles. Some have guessed as low as fifteen pounds while some guess at 100 pounds.

These pumpkins were raised by Uncle Johnnie Ware at his home in East Graham. He has a long row of the finest pumpkins the editor ever saw. Uncle John has a fine place in the edge of town and is growing almost everything to eat. He is still planting and will continue to have fresh vegetables until frost.

The Graham ball team has been playing some good ball recently. The team defeated Newcastle and Jermyn this week. It will play Ivan Sunday. A part of the proceeds of the game will be given to the American Legion.

VALUATION GRAHAM SCHOOL DISTRICT IS \$3,378,284.00

Valuation of the Graham Independent School District is \$3,378,284.00, according to the tax rolls just completed by J. T. Rickman. This will produce sufficient revenue to maintain the schools for the next session. The school has been falling behind each year until there is an indebtedness of several thousand dollars against the school at present. If this indebtedness can be taken care of the schools would be in position to go forward as the valuation this year will render enough money to pay the current expenses of the school.

Graham has one of the best schools in Texas and our people will continue to co-operate with the school board as they have always done. With the present indebtedness taken care of there would be nothing in the way and it is hoped that with the beginning of the present session some way can be devised whereby the debt can be paid.

An audit of the school affairs was published in the Leader several weeks ago which showed that the funds have been handled in an economical way, but the unusual times during the war and the burning of the building caused the deficit.

FIRE DAMAGES WOOLFOLK HOME ON EAST STREET

The Graham fire department made one of the best runs Thursday night that it has ever made. The fire alarm was turned in from Floyd Woolfolk's residence on East Street about one mile from the station. The boys were on the scene in a very few minutes and with the use of the chemical tanks and their smoke masks the flames were soon extinguished.

The house was occupied by Frank Forbes and family but no one was at home when the fire broke out. The fire was well under way when the alarm was turned in and considering the distance from the station and the fact that the water plug was 1,000 feet from the house the Leader thinks the boys made a fine record in saving the house. The damage is estimated to be about \$1,000 or 1,200, which we understand covered by insurance.

Mrs. Forbes is unable to determine the cause of the fire as she had not had any fire in the house since morning and the blaze was at 10 o'clock at night.

FORMER CITIZEN WRITES JOHN SAYE

Sheriff Saye had occasion recently to write to the Sheriff of Armstrong county relative to some matter pertaining to his office. R. F. Smith, deputy sheriff of that county answered Mr. Saye's letter. Mr. Smith once lived in this county and we reproduce a paragraph of the letter: "I lived in Young county from 1883 to 1893 on head of Fish Creek and was in the horse business. W. L. Chandler's first wife and my wife were sisters. I knew most all the old timers. Helped elect Henry Williams sheriff, also voted for Marion Wallace, the one the Marlow boys killed. Know young Marion and Ed Wallace, Dan Cusenbary and Joe Flint. In fact all the old timers."

LITTLE DAUGHTER DIES SATURDAY

Eva Jane, the year old daughter of Mr. and Mrs. John J. Cragen, died at the family residence on Southview street, Saturday at eleven o'clock and was buried in Oak Grove cemetery Sunday afternoon at four o'clock.

Reverend Father Dreling of Henrietta conducted the funeral services.

WORKMEN BUSY INSTALLING GAS LINES IN GRAHAM

Workmen are now busily engaged installing the pipes for gas in Graham. The welding department is at work in East Graham getting the pipe ready to be placed in the ditches as soon as they are dug. The ditching machine has been delayed in transit but it is expected tonight. With this machine at work it will not be long until the entire system will be installed. It is now believed by J. B. Owen, vice president and general manager of the Ranger Gas Company and J. M. Monie, secretary of the Monie-Dunbar Construction Company, who is working in conjunction with Mr. Owen in the installation of the system that our people will be using gas before the first of October.

Eighteen cars of 6-inch pipe for main line from South Bend to Graham has been shipped and is expected soon. It has been stated in previous issues of the Leader that the piping of the houses should not be delayed. When gas is turned into the mains everyone will want connection at once and unless the houses are piped before the gas is turned on there will be such a rush that many will have to wait.

Mr. Owen states that he is already receiving many inquiries. He will be glad to talk to all interested in installing gas. His office is on the first floor of the Lynch building, facing Third street.

REV. B. A. SNODDY RETURNS FROM A GREAT MEETING

Reverend B. A. Snoddy returned last Monday from Midway in Bell county where he had been assisting Rev. R. J. LaPrade in a meeting. Brother Snoddy says they had a great meeting. There were twenty-seven conversions, reclamations and additions to the church. The church and community were greatly benefited by the meeting.

Brother Snoddy enjoyed the meeting although he preached two and three times a day. He fell in love with the people and the country.

MRS. CHERRYHOLMES DIES WEDNESDAY

The sad news of the death of Mrs. G. T. Cherryholmes spread rapidly over Graham and Young county yesterday. She was on the streets yesterday morning talking with friends and the announcement of her death came as a shock to the entire town. She has had throat trouble some time and decided to have her tonsils removed hoping to get relief. She was in poor physical condition from many months of trouble and suffering and was anxious for relief. She was given a very light local anesthetic and the surgeon soon saw that she would not be able to undergo the operation. The surgeons and nurses did all that could be done for her but her heart action was too weak to undergo the strain.

Mrs. Cherryholmes was the widow of the late G. T. Cherryholmes who died defending the records of the county. The bereaved children have the sympathy of the entire town and community in this sad hour.

SADDLE THIEVES VISIT THROCKMORTON

Throckmorton was visited Monday night by a bunch of thieves. They broke into Frank Rhodes' barn and got a saddle, they got a bridle and blanket from Tom Parrott and from here they went to the Bill Daws ranch and got two saddles and two pairs of leather leggings. They were trailed almost to Eliasville by Sheriff Darden, but he failed to catch the Officers at that place are watching for them and they have some hopes of locating them. — Throckmorton News.

GREAT EXCITEMENT IN BUNGER FIELD THIS WEEK

GRAHAM TOWNSITE OIL SYNDICATE TO DRILL WELL SOON

The Graham Townsite Oil Syndicate has about perfected plans for the drilling of a well on the F. B. Lowery land, B. R. I. survey No. 116 abstract No. 1905. The Syndicate have the east 100 acres of this tract and the east 40 acres of the J. H. Fisher land adjoining. Other transfers are being made and the Syndicate hopes to soon have a choice acreage. C. A. Graves, rig builder, is moving material to the ground which is just west of Graham and according to G. A. Bryant, Trustee, will begin the erection of the rig at an early date.

All of the preferred certificate holders, about fifty in number, constitute the board of directors.

CONTRACTS LET FOR NEW OIL WELLS IN PALO PINTO FIELD

Contracts have been let for eleven new wells on the L. E. Seaman ranch in the Western part of Palo Pinto county and for three on the Hart ranch in the same pool, according to advices received here. Three of the Seaman wells are to be drilled by the Henderson Oil Co., Consolidated, which acquired 400 acres from Mr. Seaman. It is understood the same company is dickering for an additional thousand acres. The wells are to be spudded in within the next sixty days.

The town of Jim Corbett on the Jim Corbett ranch adjoining the Seaman and Hart properties, has been started and a post office secured. It is announced by R. Q. Lee, president of the Cisco & Northeastern railway, that an extension of the road into the new field is contemplated. "I firmly believe that one of the greatest pools in the country is in the making in this section," Mr. Lee stated recently.

Large Crowd In Town Last Monday

Big Monday was observed in old time fashion Monday. There was a large crowd here, the people coming from all sections of the country. Some trading took place but the day is not given over so much to trading as it was before the day of automobiles.

Automobiles make it possible for people to come from all sections of the country and return the same day and many of our citizens take advantage of this and come to town on these big Mondays to meet their friends. If we had good roads this could be made a sure enough big day every month. Those people who have been visiting in other counties where there are good roads ought to tell their neighbors about them and it seems that we could create enough interest and enthusiasm in Young county to vote bonds and build some good roads here. We have good road dirt and roads could be built as cheaply here as in other counties and much cheaper than in many.

The Leader makes a motion that Young county people give good roads some serious consideration and we believe that if this is done that bonds could be voted, good roads built and then everybody could come to town and make the Big Monday a really big day.

The sheriff's department arrested W. L. Lacey Saturday afternoon charged with stealing a tent from the Bowers place north of town.

Much interest has been created here this week when the test being put down by Ross & Tyrrell on the Owen land, survey 38 ran into some gas on Monday night and on Tuesday morning hit an oil sand at 1900 feet that looks to be good for a big well. The oil sand was only drilled into about three inches and began to show oil at once and the well was shut down immediately but the oil continued to rise in the hole and on Tuesday night was flowing over the casing by its own head, yesterday morning it went over the derrick. About a million cubic feet of gas was coming out of the ten-inch casing also which was said to be of excellent quality with plenty of gasoline content.

Ross & Tyrrell are both on the ground and feel confident the well will make a good producer and ordered storage and flow tanks to be erected at once. When these are set up the well will be drilled a little deeper and then watched with great interest.

The Owen lease is located about seven miles south of Graham and one and one-half miles south of Bunger in virgin oil territory long thought to contain oil from its proximity to the South Bend field from three to six miles west. This 1900-foot sand at the Owens corresponds to the 1900-foot sand in the South Bend field where wells like the Hemphill have recently been brought in at a thousand barrels.

The well has been drilled by Jackson & Cathart, Breckenridge contractors, who drilled it in 34 working days. The well was spudded in July 2 and the water was completely shut off with the ten-inch casing so that every opportunity will be given the oil sand to do its best.

The well is the result of much patience and long waiting on the part of C. W. DeFrest and M. G. Cheney who have owned the Bunger section since 1917 when the Lisle well was drilled in a block of acreage taken by Mr. DeFrest and geologized by Mr. Cheney. These gentlemen own the offset acreage to the Owen well consisting of 80 acres and contributed 40 acres out of the Owen lease toward the Ross & Tyrrell test. The Gulf also contributed 20 acres out of the Grimshaw survey and C. W. DeFrest contributed another 20 acres out of the Dowdle survey.

Ross and Tyrrell are well known Fort Worth operators and able to develop the property in the best possible manner.

When the writer had the pleasure of visiting the well on Monday the gas was streaming out of the hole and everybody busy doing something. The oil was gradually rising in the hole and was within 300 feet of the top. It is the same gravity oil found at South Bend and will no doubt test about 38 gravity.

This opens a new oil era for Graham as the Bunger district has looked promising for some time and is just now becoming a reality.

There are seven wells now drilling in the Bunger section and all but one are said to be the result of Cheney & DeFrest's efforts and belief in the oil possibilities of that section and we are glad to see our fellow townsmen realize on their hopes and expectations.

This is the first drilling venture in the county for Ross & Tyrrell and we congratulate them.

This fall should see a large amount of development going on in the Bunger section which will mean a lot to Graham and the business houses of the town.

Lightning visited the South Bend oil field this week and destroyed the complete rig for the Mid-Tex No. 1 and destroyed twenty barrels of oil for the Godley Oil and Gas Company and 350 barrels for the Seaboard. The loss is estimated at \$10,000.

SAVINGS AND HOME-OWNING
Big savings accounts in the banks are ordinarily to be welcomed. They are evidences of thrift and prosperity among the people. They tend to counteract the impression that Americans are extravagant. Everybody will agree that all should save a part of their income.

Mr. Hoover's theory that too large appropriation of the people's savings has been going into bank accounts and securities and too little into homes is something worth thinking about, however. He says that this has gone on until there are now 111 families to every 100 homes in the United States, and the disastrous housing shortage is the result. He suggests that the saving funds of the country be made available for use in building more homes and relieving the housing shortage.

Perhaps, Mr. Hoover and the financiers can work out a plan whereby such diversion of savings funds can be made. At present there is a lack of capital and credit for necessary building, and providing access to a new reservoir of funds would be an important development in relieving the housing crisis.

But whether any steps in that direction be taken or not, Mr. Hoover has certainly called attention to a defect in the American system of saving. The home should have first call on the family's savings. A savings account in a bank is a fine thing, but it is a better thing after the family's home has been paid for. Every family's first savings account should be represented by a home, something which has a moral and social value infinitely greater than a sum of money lying in a bank drawing a small interest return.

Heretofore, Southern people have been more inclined to put their savings into homes than have the people in the Northern and Eastern industrial centers. With the rapid growth of Southern cities in recent years, however, savings accounts have expanded at the expense of home-owning here in the South, also, and the South consequently has been affected by the housing shortage, and the increase of tenancy.

Saving and buying a home is a somewhat more difficult task than merely saving without a particular end in view. It requires courage, concentration of purpose, constant industry and sometimes inconvenience to buy a home and pay it out, but the process of self-denial builds character and makes a better citizen of the home-owner in the end.

As between the two classes of savers, those who save money and those who save homes, the latter are to be preferred. But as the Post suggested the other day, it will require more than money to stimulate home-building in America today. A revival of the home-owning instinct must come first. While devising means for securing the funds for home-building, the matter of conducting a campaign of education and inspiration on home-owning must be given equal attention.—Houston Post.

WE THINK THINGS

When a man takes a cigar out of his mouth to tell the editor to stop his paper because he "can't afford it," the editor may say nothing but he thinks a great deal. When he orders his paper stopped because he hasn't time to read, and then goes down and whittles a dry goods box for two hours, the editor may not say much, but he thinks a great deal. When he stops his paper because an item did not suit him and then pesters his neighbors by borrowing the paper, the editor may say nothing, but he thinks a great deal.

Our neighboring city Seymour began paving her streets last week. Fifteen cars of brick are already on the ground and the contractors are promised that there will be no delay. It is planned to complete the work before winter begins so that the people will not have to suffer the inconveniences of torn up streets during the winter months. Seymour is to be congratulated on this forward step. There is nothing that adds to a town more than good streets and sidewalks.

The Masonic Lodge of Breckenridge has passed resolutions looking to the suppression of profanity on the streets and in the business district of that city. In these resolutions the lodge asked the co-operation of the churches, schools, and newspaper of that city in gaining the united support of the best citizenship of the whole community. This is a splendid movement and is worthy of emulation in other sections of the State. Profanity is the most useless habit known among men. It does not elevate, it does not show refinement nor culture and is repulsive to the best and highest manhood. Very few men will use profanity in the presence of ladies or in their homes. This proves it is not necessary, for if profanity can be dispensed with in certain company it can be dispensed with in all company. The motives and aims of the Masonic lodge is to bring out the best that is in men and the fact that some Masons swear does not brand the order as being silent on the subject at all. Some church-members swear, yet nobody believes that the church is not opposed to swearing. Of late years there has been a decided drop in public morals on the question of profanity, much to our detriment and some are so careless and calloused in their habit as to swear openly in the presence of children and ladies. It has even been hinted that young ladies and some older ones are using words never intended to punctuate the English language, which proves they have heard so much profanity from men that it no longer holds a repugnance for them. If profanity can be curbed on the streets and in the business district it will be a long step in the right direction, as there is where most of it occurs. The Masonic lodge has always stood against swearing and it is refreshing to see a lodge imbued with the spirit of the order so that it calls for a halt on this increasing evil. The English language is an able conveyer of thought. Profanity is superfluous and no gentleman can afford to let it become a habit of his life. If a gentleman can't, there is no need to mention a lady. Mats off to the Masons of Breckenridge, and may their aim be speedily realized.—Clarendon News.

Herbert Hoover, Secretary of Commerce in the cabinet of President Harding, adds his endorsement of the building and loan associations. Mr. Hoover does the country a great service in urging people to save their money and have a home. The man who has a home and an interest in the community more than to merely get a salary, is a better employee, a better husband and a better citizen. One of the best remedies of poor understanding, between employee and employes, is for the employee to have some real estate—a home, and a family. Such an employee seldom has to ask for a raise in salary. He is better than the average employee and he is worth more as an employee, and he usually can have a job.

After the slow down of 1907 merchants and manufacturers in numbers admitted that they had been in need of an opportunity to go over neglected problems as related to costs and the proper handling of their product. That when the larger sales came again they would be ready to handle the business with exactness. During the dull period they had been able to think out and wring out features too long overlooked.—William Post.

COURTESY

Courtesy is capital and can be secured and used in any line of business by any one. You don't have to go to a bank and borrow it nor does it cost you any interest for using it. It is the only kind of capital that pays the user an interest for the purpose of being used. But it isn't individual courtesy that we desire to stress in this article. There's a lack of community courtesy in Mineral Wells that should be corrected. Just recently one of our citizens was driving and noticed a stranger walking a few blocks off. The invitation was accepted and the stranger said: "You do not live here do you?" "Sure I do, why do you ask?" "Well, I've been here three weeks, have walked over your city most every day; I've been invited to ride by a few people passing in cars and in every instance they were visitors in the city. You're the first one living here who's had the courtesy to ask me to ride."

This set our citizen to thinking with the result that he ask the Index to call attention to this lack of courtesy on our part which is noticeable to our visitors.

Let's organize a Community Courtesy Club and include in its functions that of asking people to ride to town with us whenever there's room or as you're going out just for a drive to ask some visitor to come along and show them the city. There's no danger in doing this and our visitors who are here without cars would enjoy it and go home spreading the good news of the splendid courtesy shown them while here.—Index.

What Would Have Happened?—Today I am wondering what would have happened to me by now, if fifty years ago, some fluent talker had converted me to the theory of the eight-hour day and convinced me that it was not fair to my fellow-workers to put forth my best efforts in my work. I am glad that the eight-hour day had not been invented when I was a young man. If my life had been made up of eight-hour days I don't believe I could have accomplished a great deal. The country would not amount to as much as it does if the young man of fifty years ago had been afraid they might earn more than they were paid. There were some shirkers in those days, to be sure, but they didn't boast of it. The shirker tried to conceal or excuse his shiftlessness and lack of ambition.—Thomas A. Edison.

A cuckoo is a bird that never builds its own nest, but usually lays its egg in the nest of some other bird. Our country is crowded with cuckoos, all very busy laying eggs. They meet and plot. They harangue each other. They curse the house of Uncle Sam. They ask, "Who was George Washington anyhow?" They tell each other that private property is highway robbery. That is merely because they haven't any and want yours and mine without working for it.—Owen Wister.

The American pugilist who did not kiss King Albert's hand because he felt he did not know him well enough certainly felt about like most of the rest of us would have.

Insurance companies are charged with having made hazardous investments on the stock market. The damage in burning up money like that may be largely from water.

It is getting to be so difficult to procure the remedy that it is hardly worth while any more to get sick.

HUSBANDS IN THE KITCHEN

That Long Island man who was sentenced by a magistrate to a week in the kitchen must have about served his time by this time. Someone ought to interview him and see how he stood the strain and ascertain his latest views on which is the harder; man's or woman's work.

It will be recalled that the man who had been unemployed for some time was complained of by his wife, who said he had been staying out at night to unseasonably hours. Furthermore she charged: "He makes a lot of trouble around the house and doesn't give me any money to support myself and the children." The husband's defense that he was unemployed brought the remark from the court that "It is perfectly proper for you to look for a job, but you don't have to keep it up until 2 o'clock in the morning." And so the magistrate sentenced him to "put on a white apron and help your wife around the house one week. If you don't I'll send you to the workhouse."

Probably if every husband in a household where servants are not kept could serve a week's apprenticeship in performing domestic duties there would be a keener realization of the burden borne by the average housewife and more sympathy with her lot. It is true that electrical and other modern devices have helped to alleviate the labors of housekeeping, but they have not yet ushered in the 8-hour day, the 44-hour week and similar ameliorations of the workingman's lot. Nor do housewives enjoy more or less frequent periods of idleness due to strikes. There is no dull season during which they may recuperate from the fatigue of toil.

Perhaps if husbands generally were forced to undergo the experience of the Long Island brother they would be more inclined to help their wives during their hours at home.

NUECES SCHOLASTIC CENSUS COMPLETED

Austin, Aug. 6.—The census enumerators of the state department of education have completed their work in Nueces county and have made a report as to the scholastic enumeration of the entire county, the figures of which were given out by State Superintendent Annie Webb Blanton today.

In the common school districts and independent school districts of Nueces county, exclusive of Corpus Christi and Robstown, a difference of ten children was found in the total enumeration for the county, between the enumeration taken in March and the one taken by the department of education enumerators in July.

There were small variations of figures in the different districts but no indications of any attempt whatever at fraud. The department enumerators found seventy-two children in Robstown fewer than the number enumerated by the March census, but found evidence that forty-seven pupils belonged in the district who were not there when the July census was taken. They found sixty-nine children in the district whose names did not appear in the March enumeration.

State Superintendent Blanton has notified the Corpus Christi school board that the enumerators from the department of education found a total of 2,096 school children in that city, there being a difference of 3,947 children between this enumeration and the one taken by the board's census enumerator. Miss Blanton says that "it is out of all the bounds of possibility for any one to suppose that nearly 4,000 children have disappeared from the Corpus Christi district since the month of March," and she has notified the Corpus Christi school board that if it does nothing to clear up the matter, she shall take the number 2,096 as the official census enumeration for the present year.

MISSIONARY SOCIETY NOTES

The Ladies Missionary Society of Indian Mound met at our regular meeting in July at the home of Mrs. Easterling. Meeting opened by singing Revive Us Again, and Count Your Blessings. Prayer by Mrs. Cox. Devotional led by Mrs. Ball. Chapter of Matthew read and commented on. Last half of Genesis was studied for lesson and not a question had to be read from the Bible. Had a fine lesson. The story of Ruth with readings will be our next lesson.

Eleven present, offering \$2.50. After the business session the Society elected by ballot officers for the next year. Mrs. G. W. McComas, president; Mrs. H. C. Kunkel, secretary and treasurer; Mrs. T. F. Kindley, vice president were elected unanimously. The new officers after thanking the ladies for their kindness received the glad promise of the Society's very best support for the next year with the average attendance of 12 or 14 and the leadership of our able president, Mrs. McComas, and the assurance of God's blessings we hope to do some great things for the Master next year.

PIGEONS ARE USED TO CARRY DRUGS TO ADDICTS

New York, Aug. 4.—Carrier pigeons are the latest aids pressed into service by New York drug vendors to supply imprisoned customers, it was revealed today.

Detective Quigley, who yesterday arrested Anthony Adams, an alleged drug vendor, and confiscated \$4,000 worth of drugs and a pigeon, said there were at least two cases on record in which pigeons had taken drugs to addicts held at Blackwell's Island.

Adams refused to admit that his pigeon was a drug carrier.

CURIOS RELICS OF OLD MEXICO WILL BE SHOWN AT STATE FAIR OF TEXAS DURING SEASON OF 1921

RECENT DISCOVERIES TEND TO SHOW THAT THE MEXICO OF PAST AGES HAD INTERCOURSE WITH ASIA (SUPPOSED CRADLE OF HUMAN RACE) AND THAT CHINESE ACTUALLY SETTLED THERE.

In the dim ages that lie behind us comes evidence constantly of races that have passed on before—types of humanity which enjoyed a civilization peculiarly their own, yet interesting to all of us to a rare degree. These remnants or excavated discoveries, picture in partial fashion the progress of the human race toward the higher civilizations, touching to the quick the lively, healthy curiosity we all bear toward our common origin.

There are few areas on the two American continents richer in the relics of the past than the Republic of Mexico, and few countries have pursued the study of past civilization with a greater degree of success than Mexico and the Mexican scholars.

It is this group that are now working avidly on the constantly developing theory that Mexico has had, at one time in the ages past, intercourse with Asia, and that Chinese explorers or settlers left a distinct impression on the civilization they found there. The age in which these Chinese came is not definitely known, but indications are first found about the time of the birth of Christ. Mongolian symbols and Mongolian character are also expressed in Aztec sculpture of a date not more than one thousand years ago.

The accompanying picture clearly

shows the resemblance of Mexican discoveries to the ancient Chinese and Mongolian eras—when the Chinese was the leading civilization of the world, and the Mongol the most hardy explorer and daring warrior in all Asia. There is a startlingly distinct resemblance to Asiatic customs in the head dress, in the designs, and in the writing.

These things were found in the Toltec stratum (or depth of earth) in an exploration near the city of Mexico. The Toltecs were a hardy race, supposed to be the native people of that area.

The Aztecs, a fierce and warlike race, came to Mexico on a mysterious migration when the Toltecs were at their best, and swiftly conquered the heart of Mexico. The Toltecs were swept from existence by this wave of hardy fighters, who built a wonderful empire, and held it until Cortez and his Spaniards came and wrested it from them.

Who were these Chinese? Perhaps the mysterious Chinese relics that were imbedded in the earth by a vanished race of Toltecs, were brought to them by Asiatic explorers, who made their way back to Asia and told of a great continent. Could these Aztecs have been a branch of the then mighty Mongolian race of North-

ern Asia? Did a great tribe of them boldly launch forth on a migration of 2,000 miles by land (round through Northern Asia by the Bering Straits, and across a few miles of water to this continent) which took them perhaps a half-century? Did they follow the wild coast of the Pacific and its mountain ranges straight into the heart of Mexico, where their fierce warriors soon carved out an empire?

These are curious questions indeed, and the study of the past stir in us all a desire for more knowledge. This can easily be obtained at the great Mexican National Exhibit at the State Fair of Texas, October 8 to 23. There the government of Mexico will place before us all a wonderful study of curios that have been collected painstakingly by scholarly men. These tell an eloquent story of the past. Every one should see them, as it is one of the rare sights of the world, and a collection that seldom leaves Mexico City itself.

The Mexican National Exhibit will be one of the features of the great State Fair of 1921. It will show the development of Mexico in an artistic and industrial way, and illustrate the great fund of raw resources that country has in store for the world's use. It is certain to be one of the principal attractions of this season's Fair, and well worth seeing in itself,

NEW DORMITORY FOR EDUCATIONAL ENCAMPMENTS

DORMITORY

So important has become the work of the State Fair educational encampments for the boys' and girls' clubs, that the State Fair of Texas this year erected a cottage dormitory building especially for their use. This building is a modern one in every particular, and will comfortably house five hundred students at the time. Each

Fair season the State Fair entertains a large group of boys and girls, on separate encampments, as its guests. They are royally entertained, and have free access to amusements as well as the educational features of the Fair. These trips to the State Fair are a reward for merit in club work, the contests being staged each season.

appropriations made by the Legislature of 1911 for the two succeeding fiscal years totaled less than ten million dollars, while those of the Legislature of 1919 ran up to \$37, \$21,560. During the twelve years preceding 1919 the traveling expenses of the employees of the State climbed from approximately twenty-four thousand dollars to almost one million dollars. One becomes dazed and amazed in scanning the lengthy appropriation bills heretofore passed in the name of governmental expense. Our government is top heavy. Departments overlap each other. We have too many departments and too many employees."

HE DID NOT KNOW IT

As Governor Neff and two of his friends left the capitol one day this month to start an automobile trip to Neff's Park, in Coryell county, where the Governor made an address, an old man stopped them and inquired the way to the Governor's office.

"First door to the right as you enter the capitol," replied the Governor, "but is there anything I can do for you? I am Pat Neff."

"Nope, thanks," replied the old man, moving off. "I've got to see Governor Hobby himself."

It took the combined efforts of the two friends and the Governor to convince the aged man that Texas had had an election and that the ship of state had changed captains.

CHIROPRACTIC AGAIN JUSTIFIED

Practicing Chiropractor Arrested Upon Charge of Practicing Medicine in All of Its Branches Without a License. Special Jury Returns a Verdict of "Not Guilty"

Graham, Texas, August 5.--The Science of Chiropractic again won a sweeping victory here yesterday when one of the local chiropractors, namely Claude Greene, was hauled into court and charged with practicing medicine in all of its branches without a license. Said charges preferred on complaint of one H. E. Griffin practicing M. D. in this city. Friends of Chiropractic were especially pleased with the jury's verdict of "Not Guilty" as they felt that the trial was conducted in a fair and impartial manner, the state having summoned and placed upon the witness stand, most of the leading local physicians, all of whom professed to know little or nothing of Chiropractic, but when questioned concerning its merits they all said they believed it to be of no benefit to the sick and afflicted. Their evidence was sustained by the presiding judge, but the defense was refused the right to place any witnesses upon the stand to disprove or refute their statements. There were numerous patients of the defendant present who were willing and anxious to go upon the witness stand to prove the worth and the necessity of this wonderful science. One amusing incident which proved very interesting was that the court room was full of the Chiropractors friends and patients among whom was an epileptic, a patient of one of the local chiropractors. Under the stress and excitement of the trial this patient was seized with and fell upon the floor in a fit. The chiropractor calmly rolled him over upon his face and gave him an adjustment or two which in a few seconds like magic and the boy got up from the floor in normal condition.

Now Chiropractic has no quarrel with either medicine or surgery and have been striving to have some law passed which recognizes this science, where one wishing to practice might be able to get a State Board examination and obtain a license, but thus far such legislation has been denied them. Chiropractors do not wish to prescribe medicine, nor do they wish to perform surgical operations for under their treatment medicine is not necessary, and where surgery is

needed we have surgeons to take care of such cases. So why should they be compelled to put in years of study and spend time and money learning that which they will never use in their practice.

Chiropractic is and has been proved to be a useful profession and is daily accomplishing the relief and cure of many human ailments. In many states some thirty-six out of forty-eight now have laws recognizing and giving Chiropractors the right to take an examination and obtain a license to practice their profession. When such a case as this one was tried and lost in the lower courts and appealed to the Supreme Courts of the State of Tennessee, Ohio, Illinois, Kansas and other states, they found upon investigation and due consideration of the Medical Practice Act such laws were void and invalid for they were unreasonable and discriminatory legislation, which is contrary to the due process clause of the 14th Amendment of the Federal Constitution, and those states have made laws which apply to and recognize chiropractic as a useful and legal method of healing the sick and cannot be classed along with chorolataies and fakirs, or their method of treatment as dangerous to the human body.

This case as all such cases has proven to be one of the best advertisements chiropractic can have, for every knock is a boost and if there is nothing to chiropractic as our learned friends the M. D.s would have us believe it would shortly die for want of merit. But it is not so, so chiropractic is growing by leaps and bounds and the Medical Profession and Drug Syndicate see and recognize it as a grave menace to their financial powers hence the prosecutions and persecutions for violations of the existing law drafted and passed to protect but their own profession. However they need not be alarmed for the chiropractors can find patients enough to keep them employed in those Medicine and Surgery cannot heal.

The state of Texas wishes to be regarded as a progressive state so let us all fall in line and demand some sort of legislation which will enable this wonderful science to come to the aid of suffering humanity, for if the writer is not mistaken Texas is on record as one of the States having the greatest percentage of Tuberculosis, and Chiropractic can do much to lessen this percentage. REV. T. E. BOWMAN AND FAMILY ON VACATION

Rev. T. E. Bowman and family left this week for a short vacation. They will visit relatives and friends in Dallas and several other places.

Brother Bowman has been strenuously engaged for some time and deserves a vacation. He has been giving his personal attention to the beautiful church building now being erected on Third street.

This building will stand as a monument to Brother Bowman and the Methodist congregation for many years to come. When completed it will be the best house of worship in the city. Not only the Methodist people will be proud of the building but the entire citizenship rejoice with them.

Brother Bowman asks the Leader to state that there will be no preaching services at the Methodist church Sunday.

IVAN

Cecil Alane, the infant daughter of Mr. and Mrs. Will Cooney of Ivan, died last Wednesday morning August 3rd. This baby was about a year old at the time of her death, which followed a long seige of typhoid fever. She was an exceedingly bright and lovely child and was the idol of her parents and beloved by all who knew her. We deeply sympathize with these good people in the loss of their only child.

The weather continues dry and hot. Stock water is getting scarce in many places. Some are breaking land preparatory to sowing the fall crop.

Drilling still continues in several wells in Ivan and vicinity.

D. A. Upham of the Cedar Creek community is improving his place by building a new barn.

A good shower fell in the Cedar Creek community last Sunday afternoon. It was of little importance in farming interests as it didn't extend far but furnished a new supply of stock water to some in the community.

Mr. and Mrs. S. M. Gann near Ivan, are rejoicing over the arrival of a new boy at their house.

Mrs. I. W. Steele and her son and daughter, Walter and Charity, spent a few days last week visiting friends and relatives on Cedar Creek.

Mrs. E. L. Cretsing and children of Veale's Creek are visiting her brother, S. M. Gann, and family near Ivan.

Misses Edna and Lily Cretsing visited a couple of days this week with their aunt, Mrs. I. W. Steele, and family of Ivan.

FAMILY SWIMMING PARTY AND PICNIC

J. T. Rickman and family, N. S. Farmer and family, Mrs. J. C. Short, S. A. McCoy, and R. F. Short and son, Dr. Short, of Dallas enjoyed a swimming party and picnic on the Brazos Friday evening. Messrs. Short and Rickman served as swimming instructors for the party.

After the swim the party was ready for the dinner which had been carried along. All enjoyed the evening. There is some talk of employing R. F. Short of Dallas to remain the remainder of the summer as swimming instructor for the large numbers who go to the Brazos daily.

Chiropractor Not Guilty, Says Jury

After a six minutes conference a verdict of not guilty was returned last Thursday by jurymen in the case of Claude Green, Chiropractor, charged by Dr. H. E. Griffin with "having practised medicine without a license."

Regardless of the warm weather unusual public interest was awakened and a large crowd was in attendance during the two day trial. Many women spared time to attend the trial and from the outburst of applause when the verdict was returned it was evident that the sentiment of those present was very strong for the lady chiropractor.

Evidence presented failed to convince the jury that medicine was practised by the Chiropractor, and soon after the beginning of the trial it was evident that the large crowd was in sympathy with the lady on trial.

Lawyer John B. Rhea, recently moved from Fort Worth, defended the chiropractor.

J. W. PROFFIT MAKES VISIT

J. W. Proffitt, a pioneer citizen of this county who has been residing in California for the past few years, spent the first of the week with old friends in Graham and at Newcastle, and left yesterday morning for Weatherford where he will spend Friday and Saturday attending the reunion of the State Rangers of the 60's, with whom he served for years. While in the city Mr. Proffitt called and renewed for The Leader to be sent to his address in the Golden State for another year. In speaking of his visit here at this time he said that a part of his mission was to locate the grave of Negro Britt, who was killed with three other negroes in a fight with Indians in 1871 and buried on the battleground which was about three miles north of town on Salt creek. There are only two others in the county, R. J. Johnson and Henry Williams, who were here at the time of the burial, and the three failed in their attempt to locate the grave. When the grave is located, it is the intention of those seeking the spot to erect a monument to the memory of the negro, a free slave, who played an important part in the early history of this section and won respect of the few white settlers for bravery in fighting the Indians, who learned to fear him. Mr. Proffitt said that a more

SHERIFF ARRESTS (?) COUNTY OFFICIALS TUESDAY AFTERNOON

Tuesday afternoon, about 2:30 p. m., by order of County Judge Reeves all Court House employees and officials, all innocent bystanders in and about the Court House, together with Miss Eula McCain, Morris Lively, Gus Matthews and other abstracters, were rounded up by Sheriff John Saye and brought before His Honor Judge Reeves.

About the time the aforesaid "culprits" were haled before the "Bar of Justice" the County Commissioners were also arrested and brought in.

Charges of being over-heated and working too hard were filed against each and every "criminal." They were thereupon and without being allowed the right to sue for a writ of habeas corpus, or without defense of an attorney-at-law, adjudged guilty and sentenced to eat four gallons of home made ice cream and a large pineapple cake, the cream and cake having been prepared by Mrs. Reeves.

Ex-Judge W. P. Stinson seeing a crowd around the Judge's office, came over to find out why the commotion, and when he had seen the ice cream and cake he filed an injunction and trespass rights and showed how he should be allowed to partake of the refreshments by the Statutes of Limitation.

All present voted Judge and Mrs. Reeves excellent entertainers and it is the hope of the 'criminals' tried and thusly convicted that they be rounded up every now and then by Judge Reeves and wife and Sheriff John Saye.

thorough search for the grave will be made in a short while and he believes the spot can be located. The section where the negro was buried has undergone a great change since Mr. Proffitt was there and the only spot he can recall as being near the place, is a barren mound upon which there were several live oaks in the early 70's. Mr. Proffitt came to Young county in 1860 and made it his home until a few years ago when he moved to Fresno, California. His experiences in the early days of the county would make an interesting chapter in history.

Dr. R. A. Pettet writes from 514 Cascade street, Colorado Springs, Colorado and asks that his Leader be sent to this address. He states that many tourists are in that country and that the climate is fine. He invites the editor to visit Colorado but wants him to send the Leader first as he is anxious to get the news from home.

Mr. and Mrs. G. C. Masey and little son returned Saturday evening from a 4300 mile automobile trip over Southwest Texas. They visited San Antonio and Galveston and were away from home three months. Although much of the trip was over rough roads, they had no car trouble and but one puncture, according to Mr. Masey.

CARD OF THANKS

I wish to thank those who came to my rescue and testified in my interest during my recent trial, and especially do I want to thank the three doctors who so gallantly testified at that time.

BLAND-HIGHTOWER WEDDING MONDAY

At the home of the bride's parents, Mr. and Mrs. W. T. Hightower, a few miles west of town, about ten o'clock Monday night, Mr. Chester Bland and Miss Mary Hightower were united in marriage, Rev. Taylor, pastor of the Baptist church at Graham performing the ceremony.

Mr. Bland was at one time a resident of this city, having lived here with his parents several years ago, but for the past two or three years he has been serving his country in the Navy, and is stationed at Charleston, South Carolina, at which point the happy couple will make their home in future.

The bride is the youngest daughter of Mr. and Mrs. W. T. Hightower, well known and pioneer residents of this section. She is a young lady of many graces and much personal charm, and she is certain to make Chester a good wife.

They will leave this morning for Wortham, Texas, to spend a few weeks visiting the groom's parents and then will return to Charleston to live.

The Enterprise joins their host of mutual friends here in wishing for them a long and happy married life. Our only regret is that Miss Mary will go away from our city to live.—Olney Enterprise

ELROD-LINCOLN

The marriage of Miss Laurene Elrod, daughter of Mr. and Mrs. I. N. Elrod of Alvord, and Robert D. Lincoln of Graham was solemnized at the home of the bride's parents, the morning of August 2 at 7:30 o'clock, Rev. W. N. Oliver of the Methodist church officiating. The home was simply but artistically decorated in flowers and ferns.

The bride was gowned in navy blue crepe, with accessories in harmony.

After a wedding breakfast, Mr. and Mrs. Lincoln left immediately on a wedding trip overland to Wichita Falls and Graham. The bride wore a modish traveling suit of khaki.

Mr. and Mrs. Lincoln will leave shortly for Chicago where they will make their home.

DIXON-SCHLITTLER

Joe Dixon and Miss Etta Schlittler were united in marriage at the Christian church in Graham Sunday afternoon by Rev. J. E. Evans, pastor of the Christian church.

The coming of this happy event was not generally known but the intimate friends of the couple have known about it some time.

The bride is the talented daughter of Mr. and Mrs. Henry Schlittler, Sr. She has been reared in Graham and has many friends who wish for her much happiness. She has been a successful teacher in the county.

The groom lives in the Murray community where he is popular. He formerly lived east of Graham and has many friends here who are congratulating him on winning such an attractive and accomplished life companion.

The happy couple left immediately after the ceremony for their home in the Murray community.

Sheriff Saye arrested three men and boys Saturday near the Goose-neck bridge across the Brazos. The men are charged with stealing watermelons from Mr. Simpson's field in Goose-neck Bend. One of the men claims that he was out of work and not being able to get work was trying to get hold of some money so that he could relieve his sick wife. It was his purpose to sell the melons in order to get money.

Miss Ina Lipscomb, teacher in the A. & M. College, College Station and her sister, Miss Lola, deputy county clerk at Breckenridge, are in the city visiting Mr. and Mrs. R. E. Lynch on South Elm street.

Sam Goldwater returned yesterday from Dallas where he went to attend a meeting of the representatives of the United Home Builders of which he is the efficient representative of this county.

P. H. Phillips left this morning for Northern Arkansas, where he will spend the remainder of the summer.

CITATION BY PUBLICATION

THE STATE OF TEXAS To the Sheriff or any Constable of Young County—Greeting:

YOU ARE HERBY COMMANDED to summon D. C. Cook by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the 30th Judicial District, but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said 30th Judicial District, to appear at the next regular term of the District Court of Young County, to be holden at the Court House thereof, in Graham on the 1st Monday in September A. D. 1921, the same being the 5th day of September A. D. 1921, then and there to answer a petition filed in said court on the 16 day of May A. D. 1921, in a suit number on the docket of said Court No. 6402, wherein Barbara Cook, is Plaintiff, and D. C. Cook is Defendant and said petition alleging that plaintiff is a bona fide inhabitant of the State of Texas and has been for more than one year next preceding the filing of this suit, and has resided in Young County, Texas for more than six months next preceding the filing of this suit. That plaintiff and defendant were legally married to each other in the State of Georgia on or about the 5th day of November, 1896, and lived together as husband and wife until on or about the 9th day of April, 1921, when they separated. That as an issue of their said marriage they have two minor children to-wit: Lawson Cook, a boy age 8 years old, and James Cook, a boy 5 years old. That plaintiff was at all times kind to her said husband and did all she could to make him a kind and loving wife, but that the defendant disregarding the solemnity of his marriage vows within the period of about three years to their said separation began a course of cruel and harsh treatment toward this plaintiff which lasted with slight intermissions until their final separation. That on divers occasions while plaintiff lived defendant he was guilty of excessive cruel treatment toward this plaintiff and showed a total disregard for this plaintiff's health and life by refusing to maintain support for her as well as her minor children. That such conduct on part of defendant renders their further living together as husband and wife insupportable. Wherefore she prays judgment of the court dissolving the bonds of matrimony existing between plaintiff and defendant and for the care and custody of her said minor children and for costs, etc.

Herein Fall Not, but have before said Court, at its aforesaid next regular term this writ with your return thereon, showing how you have executed the same.

Witness, Willie Riggs, Clerk of the District Court of—Young County.

Given under my hand and the Seal of said Court, at office in (L. S.) Graham, this 10 day of August A. D. 1921.

Fordson Farm Tractor

When Henry Ford set about building the Fordson tractor, he had a thorough understanding of just what it should be and what it should do. His early life on the farm gave him a deep insight into the daily life of the farmer; his mechanical genius saw the type of tractor needed. And for more than twelve years he experimented over more than 7,000 acres of land in different kinds of soil with different crops.

So he built the Fordson. It is so simple that a schoolboy can operate it. It is low in first cost. It is lowest in operating cost and Fordson parts and Fordson service are always to be had promptly from the dealer.

The Fordson is a profitable investment. It can be used every working day in the year. It is an inexpensive power plant and it will lighten your work.

Don't delay ordering your Fordson tractor. The demand is greater than the supply. Made by Henry Ford & Son and sold by

Ready Reference Books For Writers

The following list of books is given as a ready reference for the book shelf of a writer. This is only suggestive and is not intended as comprehensive. Some one else might give an entirely different list but most people agree the list given below is good:

Using as a base Webster's New International Dictionary, get Synonyms and Antonyms," by F. Sturge Allen (Harper), Wilstach's "Dictionary of Similes" (Little, Brown), the only book of its kind, and I don't see how there can be another until someone has thought up 17,000 more similes to take the place of those he lists. MacCracken and Sandison's "Manual of Good English" (Macmillan) is a small book with more accurate and easily reached information on written and printed English than any other book near its size. "The Sounds of Standard English," by T. Nicklin (Oxford), is a detailed but not technical treatment of the problems of pronunciation. For one with an interest and curiosity as to the origin and transmutations of words the most interesting book is also the latest, "An Etymological Dictionary of Modern English," by Ernest Weekley, the American edition just brought out by Dutton. This includes foreign elements and a reasonable amount of slang. Bartlett's "Familiar Quotations" (Little, Brown), now in its tenth edition, holds its own not only for size—1,400 pages—but for possible speed in reaching the quotation needed. If you want a ready reference for dates of historic events, Putnam's "Tabular View of Universal History." For biography there has just appeared the "Concise Dictionary of National Biography," edited by Sidney Lee (Oxford), an abridgement of the main work, so epitomized that its shelf room is brought down to two inches in the India paper edition, two and a half ordinary paper. If this writer uses the desk for fiction, let him watch for the appearance in book form of "The Note Books of Ghekhov," promised by Huebsch. A more suggestive work for a young novelist or short-story writer it would be hard to find. It would be no use to try to write stories from this material, but it would give any one with two eyes and a heart an idea how to use them to get material for himself. Another book, just published by Knopf, could be in such a library to advantage—Gilbert Tucker's "American English," much smaller than Mr. Mencken's massive work, but covering the ground well enough for the general reader.

LUMBER CUT IN 1920 PROBABLY LESS THAN IN PREVIOUS YEARS

The 1920 lumber cut of the United States varied little from that of 1919, but incomplete returns indicate that it was slightly less, state officials of the Forest Service, United States Department of Agriculture. This opinion is based on reports received from 927 large mills, representing about one-half of the annual cut of the country, compared with reports from the same mills in 1919, as reported to the Bureau of the Census. The total reported cut of these mills was 16,709,115 M feet in 1920, as against 16,254,812 M feet during 1919—an increase of 3.4 per cent. A heavy increase in cut is reported from Washington, Oregon, California, Idaho, and Montana. The New York cut also increased. But there are indications of a 10 per cent decrease in the cut of the Lake States, and also a general falling off in the production of southern pine, except in Georgia and South Carolina.

D. 1921, in a suit numbered on the docket of said Court No. 6525, wherein Mrs. Pearl Oder is Plaintiff, and Lowell E. Oder is Defendant and said petition alleging that Plaintiff and Defendant were lawfully married on or about March 4th, 1919, and lived together as husband and wife until on or about the 20th day of December, 1920, when by reason of the cruel treatment of Defendant toward Plaintiff, she was forced to permanently abandon him, since which time they have not lived together as husband and wife. That Plaintiff at all times, was kind and affectionate to him and conducted herself as a faithful, true and loving wife should, but Defendant about one year prior to the time of said separation, began a course of unkind, harsh, cruel and tyrannical treatment towards her until she was forced to abandon him. That Defendant often cursed and abused Plaintiff and called her a "she devil" and a "man chaser" and other ugly names. That on or about December 19th, 1920, in Cisco, Texas, he cursed and abused her and called her a "prostitute" and publicly accused her of living in adultery with another man other than himself, all of which were false and untrue; that Defendant's actions and conduct toward her are of such a nature as to render their further living together as man and wife insupportable. That Defendant be cited to appear and answer herein, and for judgment dissolving said marriage relations, for costs of suit, etc.

HEREIN FAIL NOT, but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Clerk District Court Young County, Texas.

Plaintiff alleges that during the time he and Defendant lived together as aforesaid, he was kind and affectionate to her and always provided for her support, but Defendant unmindful of the duties and obligations of her marital vows, immediately after they were married began to continuously "nag" at him, and accused him of improper relations with other women; that she repeatedly refused and would not cook his meals for him; and that her jealous temperament was of such a nature together with her cruel and tyrannical treatment, that Plaintiff was forced and compelled to abandon Defendant; that Defendant often struck and abused Plaintiff and called him the vilest kind of names; that said marriage relations between Plaintiff and Defendant still exist.

WHEREFORE Plaintiff prays the court that Defendant be cited to appear and answer herein and for judgment dissolving said marriage relations, for costs of suit and for such other and further relief, special and general, in law and in equity, that he may be justly entitled to.

HEREIN FAIL NOT, but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

McGee by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, to appear at the next regular term of the District Court of Young County, to be held at the Court House thereof, in Graham, Texas, on the First Monday in September A. D. 1921, the same being the 5th day of September A. D. 1921, then and there to answer a petition filed in said Court on the 3rd day of August A. D. 1921, in a suit numbered on the docket of said Court No. 6528, wherein Morrison-Smith Lumber Company, a corporation duly organized and existing under and by virtue of the laws of Texas, W. C. Bell, R. E. Lynch, L. L. Kinnebrew, G. B. Johnson, Ed Matthews, and T. T. Garrett are Plaintiffs, and B. H. Mason and J. E. McGee are Defendants, and said petition alleging that Plaintiff Morrison-Smith Lumber Company, in February, 1921, sold and delivered to Defendants certain lumber, nails, and other building material to be used and actually used in the construction of a two-story building upon East fifty (50) feet of Lots 1, 2, and 3 of Block 43 of the City of Graham in Young County, Texas; said building being commonly known as the "Dance Hall," and also furnished labor and drayage for transportation of said material; labor and drayage being of the aggregate value of Four Thousand Three Hundred Thirteen and 55/100 (\$4,313.55) Dollars, which amount Defendants agreed to pay said Plaintiff therefor; and to secure payment of said indebtedness said Plaintiff duly and seasonably fixed and now claims and holds a Constitutional and Statutory Materialman's Lien upon said building, as shown by Volume 2, at pages 137 and 138 of the Mechanics Lien Records of Young County.

HEREIN FAIL NOT, but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Witness Willie Riggs, Clerk of the District Court of Young County, Texas.
Given under my hand and the Seal of said Court, at office in (L.S.) Graham, Texas, this 27th day of August A. D. 1921.

To the Sheriff or any Constable of Young County—Greeting:

YOU ARE HEREBY COMMANDED to summon Lowell E. Oder by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, to appear at the next regular term of the District Court of Young County, to be held at the Court House thereof, in Graham, on the First Monday in September, A. D. 1921, the same being the 5th day of September, A. D. 1921, then and there to answer a petition filed in said Court on the 3rd day of August A. D. 1921, in a suit numbered on the docket of said Court No. 6525, wherein Mrs. Pearl Oder is Plaintiff, and Lowell E. Oder is Defendant and said petition alleging that Plaintiff and Defendant were lawfully married on or about March 4th, 1919, and lived together as husband and wife until on or about the 20th day of December, 1920, when by reason of the cruel treatment of Defendant toward Plaintiff, she was forced to permanently abandon him, since which time they have not lived together as husband and wife. That Plaintiff at all times, was kind and affectionate to him and conducted herself as a faithful, true and loving wife should, but Defendant about one year prior to the time of said separation, began a course of unkind, harsh, cruel and tyrannical treatment towards her until she was forced to abandon him. That Defendant often cursed and abused Plaintiff and called her a "she devil" and a "man chaser" and other ugly names. That on or about December 19th, 1920, in Cisco, Texas, he cursed and abused her and called her a "prostitute" and publicly accused her of living in adultery with another man other than himself, all of which were false and untrue; that Defendant's actions and conduct toward her are of such a nature as to render their further living together as man and wife insupportable. That Defendant be cited to appear and answer herein, and for judgment dissolving said marriage relations, for costs of suit, etc.

HEREIN FAIL NOT, but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

HENRY FORD MAKES LARGE PROFITS DESPITE PRICE CUT

People who were worrying a while back over reports that Henry Ford was about to go broke, and thought of getting up a subscription for him, can now take their hands out of their pockets. For Henry, in spite of keen competition and general business depression, does not dodge his grocer and the collector for his pressing club is not asked to call again.

According to the former editor of the Ford paper, the Ford Motor Company profits for May exceeded those of any other month in its history, reaching to sum of \$18,000,000. The May production was 97,914 cars and the profit on each car was \$189.16. Because of this profit the price of the car was reduced again, but in spite of the June profits, when all bookkeeping is completed, promise to exceed those of May.

On the first of last month, all outstanding bills were paid, current bills provided for, and a surplus of over six millions accumulated. Kind hearted folks need not worry about Henry Ford. He is getting along very well, thank you.

And there will be very little envy of his propriety. He sells his automobiles at low prices and he pays his workmen top wages. We do not recall that there has ever been any labor troubles in his plants, and he has not been accused of using unfair business methods.

Mr. Ford's success makes one wonder what is the matter with some other big business men. Is it because they do not follow his methods, or is it because he has been particularly lucky in picking out the thing to manufacture and sell?

ALL FOR HEALTH FOR ALL

By Dr. M. M. Carrick
State Health Officer

Few people who "get mad" live to be old. Anger and worry are the two great shorteners of life.

The people who live to be old are usually those to whom nature has given at least one sharp warning—a warning which they have heeded.

The greater proportion of people are born healthy, and their ways of living make them sick.

We all have our playthings. Happy are they who are contented with those they can obtain; those are spent in the wisest manner that can easiest shade the ills of life, and are the least productive of ill consequence.—Lady Montague.

A baby in the home may mean shorter nights and longer days for its dad and mother, less money in the bank and less gadding around in society for a time. But a baby in the home also means love ties strengthened, home made happier, the past forgotten and the future worth living for.

Good habits are always a legal tender for good health.

Moderate muscular exercise in the open air to the extent of slight fatigue, or until there is a perceptible perspiration is a greater preventive of disease than the whole apothecary shop.

Wherever community nursing is undertaken by a competent nurse with a reasonable amount of public support, the work grows rapidly and the community readily recognizes the value of the service. It is prophesied by the more farseeing public health authorities that, in another ten years, no town, city or county, endowed with reasonable vision, will attempt to conduct its public health and philanthropic affairs without nursing service.

OWEN BROTHERS LEAD STATE

J. V. and E. B. Owen, local insurance men, led the entire state in June in writing insurance for their company. The company has salesmen all over Texas and a prize is given each month to the men who sell the most insurance. It speaks highly of the local men's ability to be able to head the list of their company's men.—Vernon Times.

Both the above gentlemen are Young county boys and their friends rejoice to learn of their success. They have a brother, J. C. Owen, in Graham who is an insurance man with a reputation for doing big business.

MUST PUBLISH ALL LEGAL NOTICES IN THE FUTURE

All notices heretofore required to be posted, must now be printed in some newspaper in the same county and for the same length of time as it was formerly necessary to post such notices. The posting of such notice is not now required, and is only that much extra trouble, as they have no legal value or significance. Act of 1917, Sec. 4, Art. 60, 1921. Note particularly that posted notice is not legal notice, and no bond or other election is valid unless same is published as required by law.

HOUSTON JUDGE ORDERS INVESTIGATION OF KLAN

Houston, Aug. 1.—Declaring that "we are facing a condition verging on anarchy worse than Russia ever felt" and branding practices of taking men out without giving them a fair trial and subjecting them to indignities as "damnable, cowardly procedure," Judge C. W. Robinson in Criminal Court today charged the new grand jury to investigate "every unlawful transaction in this county."

After inquiring if any member of the jury belonged to any organization which would prevent his going deeply into the crime situation, Judge Robinson launched forth into one of the strongest charges delivered a grand jury here in recent years.

"If we want tar and feathers as a punishment for crime," he declared, "we should write that into the statutes."

"A mask is not necessary to show that a man is a true American."

There have been about six or seven known "tar and feather parties" in Houston in the last three months and the Goose Creek community is known to be aroused on the subject of the K. K. K., a large anti-K. K. K. having been formed there.

WHEN GOSSIPS TALK

"Talk is cheap when you get it from a gossip," says an exchange. But it isn't. Talk that comes from a gossip is expensive. It kills time, it kills truthfulness, it kills decency, and it kills morality.

A reputation that has been built up by a lifetime of correct living may be blasted in a day by the talk of a gossip. The milk of human kindness is curdled when it comes in contact with the tongue of the gossip.

The gossip sets but little that is good and much that is bad in human nature. And gossips will talk, and people will listen, and believe, and condemn.

It is not only expensive, but it is demoralizing and degrading.

WALLACE MALONE IS ARRESTED ON LIQUOR CHARGE

Austin, Aug. 6.—Wallace Malone, member of the lower house of the Thirty-seventh Legislature from Fort Worth, was arrested last week charged with having in his possession intoxicants in violation of the Volstead act. Representative Malone

was released on giving \$500 bond. Speaking in the House today on a point of personal privilege, Malone requested the members not to censure him and to withhold judgment until "he shows that he is not guilty, which can be easily done."

SUPREME FLOUR—The People's Choice

Time shows development from small things to great. Not but one quarter of a century ago "SUPREME" was only a community flour; today it is used in thousands of homes in Texas as well as in foreign lands. Then—the question—why its growth? Because of its unfailing uniformity. This Company has worked conscientiously, carefully, and painstakingly to excel in quality. You are due to yourself to take advantage of an extraordinary quality flour when offered. "SUPREME" is no longer a chance, but a sure hit.

RANCH FOR SALE

I wish to retire from an active business life; I will sell my ranch of 8,842 acres in Bailey county at a bargain. Small payment down and the balance in twenty annual payments at six per cent interest. I will sell in any size tracts of equal subdivision, but would rather sell the entire tract and will give an extra low price on such offers. All fenced and cross fenced; plenty of fine water; fair ranch improvements; 125 acres in cultivation. This is fine agricultural land, but I will price it right to meet the low price of cattle. If interested write for further information, but don't do it unless you mean business, for life is short and time is valuable.

CITATION BY PUBLICATION THE STATE OF TEXAS

To the Sheriff or any Constable of Young County—Greeting:

YOU ARE HEREBY COMMANDED to summon B. H. Mason and J. E. McGee by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in a newspaper published in the nearest County where a newspaper is published, to appear at the next regular term of the District Court of Young County, to be holden at the Court House thereof, in Graham, Texas, on the First Monday in September A. D. 1921, the same being the 5th day of September A. D. 1921, then and there to answer a petition filed in said Court on the 3rd day of August A. D. 1921, in a suit numbered on the docket of said Court No. 6528, wherein Morrison-Smith Lumber Company, a corporation duly organized and existing under and by virtue of the laws of Texas, W. C. Bell, R. E. Lynch, L. L. Kinnebrew, G. B. Johnson, Ed Matthews, and T. T. Garrett are Plaintiffs, and B. H. Mason and J. E. McGee are Defendants, and said petition alleging that Plaintiff Morrison-Smith Lumber Company, in February, 1921, sold and delivered to Defendants certain lumber, nails, and other building material to be used and actually used in the construction of a two-story building upon East fifty (50) feet of Lots 1, 2, and 3 of Block 43 of the City of Graham in Young County, Texas; said building being commonly known as the "Dance Hall," and also furnished labor and drayage for transportation of said material; labor and drayage

being of the aggregate value of Four Thousand Three Hundred Thirteen and 55/100 (\$4,313.55) Dollars, which amount Defendants agreed to pay said Plaintiff therefore; and to secure payment of said indebtedness said Plaintiff duly and seasonably fixed and now claims and holds a Constitutional and Statutory Materialman's Lien upon said building, as shown by Volume 2, at pages 137 and 138 of the Mechanics Lien Records of Young county, Texas.

That prior to April 1, 1921, H. M. Hatter and various other persons performed labor upon said building in the construction thereof, but were not paid therefor, and that to secure payments of the amounts owing to them, respectively, therefor, each of said laborers within the time and in the manner required by law, fixed a statutory lien upon said building to secure payment of the indebtedness so owing to him, such items of indebtedness aggregating Three Thousand Four Hundred Thirty One and 90-100 (\$3,431.90) Dollars; that for valuable consideration then paid to them, respectively, by plaintiffs other than said corporation, said laborers, respectively, sold and assigned to said plaintiffs said items of indebtedness and securities,

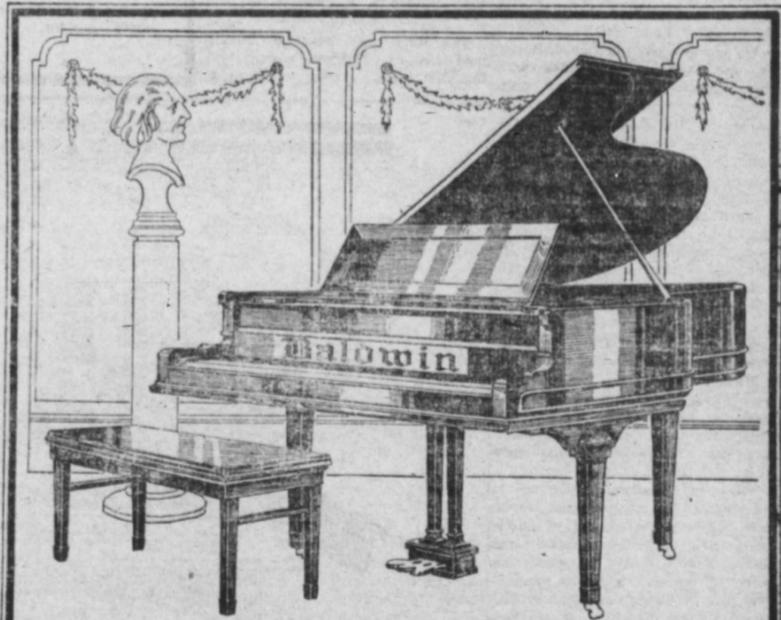

respectively, as follows, viz: to W. C. Bell, \$1091.10; to R. E. Lynch, \$332.75; to L. L. Kinnebrew, \$302.95; to G. B. Johnson, \$118.25; to Ed Matthews, \$95.50; to T. T. Garrett, \$59.45; and also severally sold, assigned, transferred and conveyed to said plaintiffs the aforesaid liens securing same. That said liens are valid and subsisting liens upon said building securing payment of said indebtedness as hereinabove shown.

Wherefore plaintiffs sue and pray for citation by publication and for judgment upon final trial for their debt as aforesaid and for foreclosure of their respective materialman's and laborer's liens as aforesaid; and for full relief, general and special, legal and equitable.

HEREIN FAIL NOT, but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Witness, Willie Riggs, Clerk of the District Court of Young County. Given under my hand and the Seal of said Court, at office in (L. S.) Graham, Texas, this the 3rd day of August A. D. 1921.

OIL GOES OVER DERRICK OF OWENS WELL

IMPERIAL OFFICER KU KLUX KLAN TO VISIT FORT WORTH

The Fort Worth Star-Telegram received the following letter from the Ku Klux Klan Monday morning: Star-Telegram, Fort Worth, Texas, Gentlemen: The following is submitted to you for publication: Dr. C. A. Ridley, imperial officer of the Knights of the Ku Klux Klan and prominent Baptist minister of Atlanta, Georgia, will deliver an address Saturday night, August the Thirteenth, Nineteen Hundred and Twenty-One, at eight o'clock in the Auditorium of the Fort Worth Chamber of Commerce, Fort Worth, Texas. His subject will be: "The Principles of the Knights of the Ku Klux Klan." The public is invited to hear this address. Men and women are welcome.

While the letter is clear, however, there is still a bit of mystery around the coming of the speaker. It is not known when he will arrive, where he will stay while in the city, who will introduce him to his audience, providing anyone introduces him, or where he will go from here.

For several days the Klan has not been very active in Texas but Saturday night at Fort Worth man was taken out and given a second flogging. His first experience was a month ago, when he was tarred and feathered and returned to Fort Worth and released. This makes the second visit of the Klan to Fort Worth.

Reports published in various parts of Texas that the Klan was organizing in many parts of the country were confirmed by the Klan's stationery on which a communication to The Star-Telegram was written. The stationery bears the mark of "Klan No. 101" which indicates that the Klan had been organized up to a time the Fort Worth Klan was formed. It was rumored several months ago that the Knights of the Ku Klux Klan was being formed with several thousand members.

Utmost secrecy apparently surrounds the order. Its communications are signed only as "Knights of the Ku Klux Klan." The only officers made known are the imperial officers at Atlanta, headquarters of the knights.

A communication purporting to be from officials of the Fort Worth branch of the Ku Klux Klan denied all responsibility for the attack made upon Benny Pinto, who was taken from his brother's place of business and after being taken into the country, stripped, whipped and then ordered to leave the State within forty-eight hours.

The communication declares that organization is against all forms of violence and in no instance countenances its following interfering in officers performing their duty. His statement was made after it was learned that the members of the masked band who seized Pinto Saturday night, held officers at bay drawn revolvers while Pinto was placed in an automobile and hurried away.

TELEPHONE COMPANY EXTENDS LINES

The Oil Fields Telegraph and Telephone Company, which for some time has had its lines completed from Graham through South Bend, Eliasville, and Ivan to Breckenridge, has extended its service to Crystal Falls and Jimkurn. The manager, Mr. Moore, states that the line will be extended from Jimkurn to Breckenridge at an early date. A new company in this section was filled a long felt want there was a telephone line. Mr. Moore is popular with the people and is well liked by his company.

John E. Meyer returned yesterday from Comanche, Texas.

VALUATION GRAHAM SCHOOL DISTRICT IS \$3,378,284.00

Valuation of the Graham Independent School District is \$3,378,284.00, according to the tax rolls just completed by J. T. Rickman. This will produce sufficient revenue to maintain the schools for the next session. The school has been falling behind each year until there is an indebtedness of several thousand dollars against the school at present. If this indebtedness can be taken care of the schools would be in position to go forward as the valuation this year will render enough money to pay the current expenses of the school.

Graham has one of the best schools in Texas and our people will continue to co-operate with the school board as they have always done. With the present indebtedness taken care of there would be nothing in the way and it is hoped that at the beginning of the present session some way can be devised whereby the debt can be paid.

An audit of the school affairs was published in the Leader several weeks ago which showed that the funds have been handled in an economical way, but the unusual times during the war and the burning of the building caused the deficit.

FIRE DAMAGES WOOLFOLK HOME ON EAST STREET

The Graham fire department made one of the best runs Thursday night that it has ever made. The fire alarm was turned in from Floyd Woolfolk's residence on East street about one mile from the station. The boys were on the scene in a very few minutes and with the use of the chemical tanks and their smoke masks the flames were soon extinguished.

The house was occupied by Frank Forbes and family but no one was at home when the fire broke out. The fire was well under way when the alarm was turned in and considering the distance from the station and the fact that the water plug was 1,000 feet from the house the Leader thinks the boys made a fine record in saving the house. The damage is estimated to be about \$1,000 or 1,200, which we understand covered by insurance.

Mrs. Forbes is unable to determine the cause of the fire as she had not had any fire in the house since morning and the blaze was at 10 o'clock at night.

FORMER CITIZEN WRITES JOHN SAYE

Sheriff Saye had occasion recently to write to the Sheriff of Armstrong county relative to some matter pertaining to his office. R. F. Smith, deputy sheriff of that county answered Mr. Saye's letter. Mr. Smith once lived in this county and we reproduce a paragraph of the letter: "I lived in Young county from 1883 to 1893 on head of Fish Creek and was in the horse business. W. L. Chandler's first wife and my wife were sisters. I knew most all the old timers. Helped elect Henry Williams sheriff, also voted for Marion Wallace, the one the Marlow boys killed. Know young Marion and Ed Wallace, Dan Cusenbary and Joe Flint. In fact all the old timers.

LITTLE DAUGHTER DIES SATURDAY

Eva Jane, the year old daughter of Mr. and Mrs. John J. Cragen, died at the family residence on Southview street, Saturday at eleven o'clock and was buried in Oak Grove cemetery Sunday afternoon at four o'clock.

Reverend Father Dreiling of Henrietta conducted the funeral services.

WORKMEN BUSY INSTALLING GAS LINES IN GRAHAM

Workmen are now busily engaged installing the pipes for gas in Graham. The welding department is at work in East Graham getting the pipe ready to be placed in the ditches as soon as they are dug. The ditching machine has been delayed in transit but it is expected tonight. With this machine at work it will not be long until the entire system will be installed. It is now believed by J. B. Owen, vice president and general manager of the Ranger Gas Company and J. M. Monie, secretary of the Monie-Dunbar Construction Company, who is working in conjunction with Mr. Owen in the installation of the system that our people will be using gas before the first of October.

Eighteen cars of 6-inch pipe for main line from South Bend to Graham has been shipped and is expected soon. It has been stated in previous issues of the Leader that the piping of the houses should not be delayed. When gas is turned into the mains everyone will want connection at once and unless the houses are piped before the gas is turned on there will be such a rush that many will have to wait.

Mr. Owen states that he is already receiving many inquiries. He will be glad to talk to all interested in installing gas. His office is on the first floor of the Lynch building, facing Third street.

REV. B. A. SNODDY RETURNS FROM A GREAT MEETING

Reverend B. A. Snoddy returned last Monday from Midway in Bell county where he had been assisting Rev. R. J. LaPrade in a meeting. Brother Snoddy says they had a great meeting. There were twenty-seven conversions, reclamations and additions to the church. The church and community were greatly benefited by the meeting. Brother Snoddy enjoyed the meeting although he preached two and three time a day. He fell in love with the people and the country.

MRS. CHERRYHOLMES DIES WEDNESDAY

The sad news of the death of Mrs. G. T. Cherryholmes spread rapidly over Graham and Young county yesterday. She was on the streets yesterday morning talking with friends and the announcement of her death came as a shock to the entire town.

She has had throat trouble some time and decided to have her tonsils removed hoping to get relief. She was in poor physical condition from many months of trouble and suffering and was anxious for relief. She was given a very light local anesthetic and the surgeon soon said that she would not be able to undergo the operation. The surgeons and nurses did all that could be done for her but her heart action was too weak to undergo the strain.

Mrs. Cherryholmes was the widow of the late G. T. Cherryholmes who died defending the records of the county. The bereaved children have the sympathy of the entire town and community in this sad hour.

SADDLE THIEVES VISIT THROCKMORTON

Throckmorton was visited Monday night by a bunch of thieves. They broke into Frank Rhodes' barn and got a saddle, they got a bridle and blanket from Tom Parrott and from here they went to the Bill Daws ranch and got two saddles and two pairs of leather leggings. They were trailed almost to Eliasville by Sheriff Darden, but he failed to catch the Officers at that place are watching for them and they have some hopes of locating them. — Throckmorton News.

GREAT EXCITEMENT IN BUNGER FIELD THIS WEEK

GRAHAM TOWNSITE OIL SYNDICATE TO DRILL WELL SOON

The Graham Townsite Oil Syndicate has about perfected plans for the drilling of a well on the F. B. Lowery land, B. R. I. survey No. 116 abstract No. 1903. The Syndicate have the east 100 acres of this tract and the east 40 acres of the J. H. Fisher land adjoining. Other transfers are being made and the Syndicate hopes to soon have a choice acreage. C. A. Graves, rig builder, is moving material to the ground which is just west of Graham and according to G. A. Bryant, Trustee, will begin the erection of the rig at an early date. All of the preferred certificate holders, about fifty in number, constitute the board of directors.

CONTRACTS LET FOR NEW OIL WELLS IN PALO PINTO FIELD

Contracts have been let for eleven new wells on the L. E. Seaman ranch in the Western part of Palo Pinto county and for three on the Hart ranch in the same pool, according to advices received here. Three of the Seaman wells are to be drilled by the Henderson Oil Co., Consolidated, which acquired 400 acres from Mr. Seaman. It is understood the same company is dickering for an additional thousand acres. The wells are to be spudded in within the next sixty days.

The town of Jim Corbett on the Jim Corbett ranch adjoining the Seaman and Hart properties, has been started and a post office secured. It is announced by R. Q. Lee, president of the Cisco & Northeastern railway, that an extension of the road into the new field is contemplated. "I firmly believe that one of the greatest pools in the country is in the making in this section," Mr. Lee stated recently.

Large Crowd In Town Last Monday

Big Monday was observed in old time fashion Monday. There was a large crowd here, the people coming from all sections of the country. Some trading took place but the day is not given over so much to trading as it was before the day of automobiles.

Automobiles make it possible for people to come from all sections of the country and return the same day and many of our citizens take advantage of this and come to town on these big Mondays to meet their friends. If we had good roads this could be made a sure enough big day every month. Those people who have been visiting in other counties where there are good roads ought to tell their neighbors about them and it seems that we could create enough interest and enthusiasm in Young county to vote bonds and build some good roads here. We have good road dirt and roads could be built as cheaply here as in other counties and much cheaper than in many.

The Leader makes a motion that Young county people give good roads some serious consideration and we believe that if this is done that bonds could be voted, good roads built and then everybody could come to town and make the Big Monday a really big day.

The sheriff's department arrested W. L. Lacefield Saturday afternoon charged with stealing a tent from the Bowers place north of town.

Much interest has been created here this week when the test being put down by Ross & Tyrrell on the Owen land, survey 38 ran into some gas on Monday night and on Tuesday morning hit an oil sand at a depth that looks to be good for well. The oil sand was only a few feet into about three inches and began to show oil at once and the well was shut down immediately but the oil continued to rise in the hole and on Tuesday night was flowing over the casing by its own head, yesterday morning it went over the derrick. About a million cubic feet of gas was coming out of the ten-inch casing, also which was said to be of excellent quality with plenty of gas content.

Ross & Tyrrell are both confident the well will make a good producer and ordered storage and flow tanks to be erected at once. When these are set up the well will be drilled a little deeper and then watched with great interest.

The Owen lease is located about seven miles south of Graham and one and one-half miles south of Bunger in virgin oil territory long thought to contain oil from its proximity to the South Bend field from three to six miles west. This 1900-foot sand at the Owens corresponds to the 1900-foot sand in the South Bend field where wells like the Hemphill have recently been brought in at a thousand barrels.

The well has been drilled by Jackson & Cathart, Breckenridge contractors, who drilled it in 34 working days. The well was spudded in July 2 and the water was completely shut off with the ten-inch casing so that every opportunity will be given the oil sand to do its best.

The well is the result of much patience and long waiting on the part of C. W. DeFrest and M. G. Cheney who have tenured in the Bunger section since 1917 when the well was drilled in a block of land taken by Mr. DeFrest and Cheney. The men own the offset acreage. Owen well consisting of 40 acres out of lease toward the Ross & Tyrrell. The Gulf also contributed out of the Grimshaw survey. W. DeFrest contributed 20 acres out of the DeFrest. Ross and Tyrrell are now developing the property in a possible manner.

When the writer had the opportunity of visiting the well on the gas was streaming out of the hole and everybody busy doing something. The oil was gushing in the hole and was with a roar out of the top. It is the same oil found at South Bend and will doubt test about 38 gravity.

This opens a new oil era for Graham as the Bunger district has looked promising for some time and is just now becoming a reality.

There are seven wells now drilling in the Bunger section and all but one are said to be the result of Cheney & DeFrest's efforts and belief in the oil possibilities of that section and we are glad to see our fell townsmen realize on their hopes and expectations.

This is the first time the county for Ross & Tyrrell we congratulate them.

This fall should see a large amount of development going on in the Bunger section which will mean to Graham and the business of the town.

Lightning struck the oil field this week and completely destroyed the rig and destroyed the well. The company and the board. The loss was \$10,000.

SAVINGS AND HOME-OWNING
Big savings accounts in the banks are ordinarily to be welcomed. They are evidences of thrift and prosperity among the people. They tend to counteract the impression that Americans are extravagant. Everybody will agree that all should save a part of their income.
Mr. Hoover's theory that too large appropriation of the people's savings has been going into bank accounts and securities and too little into homes is something worth thinking about, however. He says that this has gone on until there are now 111 families to every 100 homes in the United States, and the disastrous housing shortage is the result. He suggests that the saving funds of the country be made available for use in building more homes and relieving the housing shortage.

Perhaps, Mr. Hoover and the financiers can work out a plan whereby such diversion of savings funds can be made. At present there is surely a lack of capital and credit necessary building, and providing access to a new reservoir of funds would be an important development in relieving the housing crisis.
But whether any steps in that direction be taken or not, Mr. Hoover has certainly called attention to a defect in the American system of saving. The home should have first claim on the family's savings. A savings account in a bank is a fine thing, but it is a better thing after the family's home has been paid for. Every family's first savings account should be represented by a home, something which has a moral and social value infinitely greater than a sum of money lying in a bank drawing a small interest return.

Heretofore, Southern people have been more inclined to put their savings into homes than have the people in the Northern and Eastern industrial centers. With the rapid growth of Southern cities in recent years, however, savings accounts have expanded at the expense of home-owning here in the South, also, and the South consequently has been affected by the housing shortage, and the increase of tenancy.

Saving and buying a home is a somewhat more difficult task than merely saving without a particular end in view. It requires courage, concentration of purpose, constant industry and sometimes inconvenience to buy a home and pay it out, but the process of self-denial builds character and makes a better citizen of the home-owner in the end.

As between the two classes of savers, those who save money and those who save homes, the latter are to be preferred. But as the Post suggested the other day, it will require more than money to stimulate home-building in America to a revival of the home-owning must come first. While de-emphasizing the matter of saving, a campaign of education and inspiration on home-owning must be given equal attention.—Houston Post.

WE THINK THINGS

When a man takes a cigar out of his mouth to tell the editor to stop his paper because he "can't afford it," the editor may say nothing but he thinks a great deal. When he orders his paper stopped because he hasn't time to read, and then goes down and whittles a dry goods box for two hours, the editor may not say anything, but he thinks a great deal. When a man steps his paper because he doesn't like it, and then tells his neighbors by borrowing the paper, the editor may say nothing, but he thinks a great deal.

In a neighboring city Seymour is having her streets last week. The cars of brick are already on the ground and the contractors are advised that there will be no delay. It is planned to complete the work before winter begins so that the people will not have to suffer the inconveniences of torn up streets during the winter months. Seymour is to be congratulated on this forward step. There is nothing that adds to a town more than good streets and sidewalks.

COURTESY
Courtesy is rapidly becoming a thing of the past. It is a line of business by any one. You don't have to go to a bank and borrow, it not does it cost you any interest for using it. It is the only kind of capital that pays the user an interest for the purpose of being used. But it isn't individual courtesy that we desire to stress in this article. There's a lack of community courtesy in Mineral Wells that should be corrected. Just recently one of our citizens was driving and noticed a stranger walking a few blocks off. The invitation was accepted and the stranger said: "You do not live here do you?" "Sure I do, why do you ask?" "Well, I've been here three weeks, have walked over your city most every day; I've been invited to ride by a few people passing in cars and in every instance they were visitors in the city. You're the first one living here who's had the courtesy to ask me to ride."

This set our citizen to thinking with the result that he ask the Index to call attention to this lack of courtesy on our part which is noticeable to our visitors.
Let's organize a Community Courtesy Club and include in its functions that of asking people to ride to town with us whenever there's room or as you're going out just for a drive to ask some visitor to come along and show them the city. There's no danger in doing this and our visitors who are here without cars would enjoy it and go home spreading the good news of the splendid courtesy shown them while here.—Index.

What Would Have Happened?
Today I am wondering what would have happened to me by now, if fifty years ago, some fluent talker had converted me to the theory of the eight-hour day and convinced me that it was not fair to my fellow-workers to put forth my best efforts in my work. I am glad that the eight-hour day had not been invented when I was a young man. If my life had been made up of eight-hour days I don't believe I could have accomplished a great deal. The country would not amount to as much as it does if the young man of fifty years ago had been afraid they might earn more than they were paid. There were some shirkers in those days, to be sure, but they didn't boast of it. The shirker tried to conceal or excuse his shiftlessness and lack of ambition.—Thomas A. Edison.

Herbert Hoover, Secretary of Commerce in the cabinet of President Harding, adds his endorsement of the building and loan associations. Mr. Hoover does the country a great service in urging people to save their money and have a home. The man who has a home and an interest in the community more than to merely get a salary, is a better employee, a better husband and a better citizen. One of the best remedies of poor understanding, between employee and employes, is for the employee to have some real estate—a home, and a family. Such an employee seldom has to ask for a raise in salary. He is better than the average employee and he is worth more as an employee, and he usually can have a job.

After the slow down of 1907 merchants and manufacturers in numbers admitted that they had been in need of an opportunity to go over neglected problems as related to costs and the proper handling of their product. That when the larger sales came again they would be ready to handle the business with exactness. During the dull period they had been able to think out and wring out features too long overlooked.—William Post.

HUSBANDS IN THE KITCHEN

That Long Island man who was sentenced by a magistrate to a week in the kitchen must have about served his time by this time. Someone ought to interview him and see how he stood the strain and ascertain his latest views on which is the harder; man's or woman's work.
It will be recalled that the man who had been unemployed for some time was complained of by his wife, who said he had been staying out at night to unseemly hours. Furthermore she charged: "He makes a lot of trouble around the house and doesn't give me any money to support myself and the children." The husband's defense that he was unemployed brought the remark from the court that "It is perfectly proper for you to look for a job, but you don't have to keep it up until 2 o'clock in the morning." And so the magistrate sentenced him to "put on a white apron and help your wife around the house one week. If you don't I'll send you to the workhouse."

Probably if every husband in a household where servants are not kept could serve a week's apprenticeship in performing domestic duties there would be a keener realization of the burden borne by the average housewife and more sympathy with her lot. It is true that electrical and other modern devices have helped to alleviate the labors of housekeeping, but they have not yet ushered in the 8-hour day, the 44-hour week and similar ameliorations of the workingman's lot. Nor do housewives enjoy more or less frequent periods of idleness due to strikes. There is no dull season during which they may recuperate from the fatigue of toil.
Perhaps if husbands generally were forced to undergo the experience of the Long Island brother they would be more inclined to help their wives during their hours at home.

A cuckoo is a bird that never builds its own nest, but always lays its egg in the nest of some other bird. Our country is crowded with cuckoos, all very busy laying eggs. They meet and plot. They harangue each other. They curse the house of Uncle Sam. They ask, "Who was George Washington anyhow?" They tell each other that private property is highway robbery. That is merely because they haven't any and want yours and mine without working for it.—Owen Wister.

SCHOLASTIC CENSUS COMPLETED

Aug. 6.—The census enumerators of the state department of education have completed their work in Nueces county and have made a report as to the scholastic enumeration of the entire county, the figures of which were given out by State Superintendent Annie Webb Blanton today.

In the common school districts and independent school districts of Nueces county, exclusive of Corpus Christi and Robstown, a difference of only ten children was found in total enumeration for the county, between the enumeration taken in March and the one taken by the department of education enumerators in August.

There were small variations of children in the different districts but indications of any attempt whatsoever at fraud. The department enumerators found seventy-two children in Robstown fewer than the number enumerated by the March census, but found evidence that forty-seven pupils belonged in the district who were not there when the July census was taken. They found sixty-nine children in the district whose names did not appear in the March enumeration.

MISSIONARY SOCIETY NOTES

The Ladies Missionary Society of Indian Mound met at our regular meeting in July at the home of Mrs. Easterling. Meeting opened by singing Revive Us Again, and Count Your Blessings. Prayer by Mrs. C. Devotional led by Mrs. Ball, the chapter of Matthew read and commented on. Last half of Genesis studied for lesson and not a portion had to be read from the Bible. Had a fine lesson. The story of Ruth with readings will be our next lesson.

Eleven present, offering \$2.50. After the business session the Society elected by ballot officers for the next year. Mrs. G. W. McComas, president; Mrs. H. C. Kunkel, secretary and treasurer; Mrs. T. F. Kindley, vice president were elected unanimously. The new officers after thanking the lay for their kindness received the promise of the Society's very best support for the next year with the average attendance of 12 or 14 and the leadership of our able president, Mrs. McComas, and the assurance of God's blessings we hope to do some great things for the Master next year.

PIGEONS ARE USED TO CARRY DRUGS TO ADDICTS

New York, Aug. 4.—Carrier pigeons are the latest aids pressed into service by New York drug vendors to supply imprisoned customers, it was revealed today.

Detective Quigley, who yesterday arrested Anthony Adams, an alleged drug vendor, and confiscated \$4,000 worth of drugs and a pigeon, said there were at least two cases on record in which pigeons had taken drugs to addicts held at Blackwell's Island.

Adams refused to admit that his pigeon was a drug carrier.

CURIOS RELICS OF OLD MEXICO WILL BE SHOWN AT STATE FAIR OF TEXAS DURING SEASON OF 1921

This route from Mongolia to Mexico is not beyond the bounds of possibility for a determined people on migration. Did a horde of Mongolians sweep down this pathway to Mexico to leave their traces there?

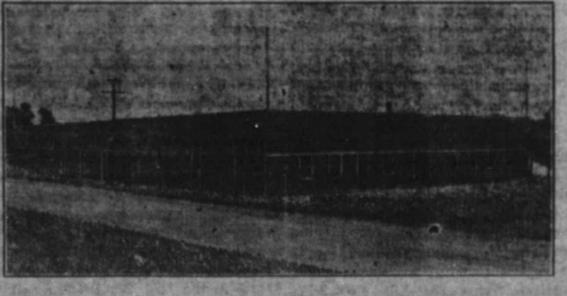

RECENT DISCOVERIES TEND TO SHOW THAT THE MEXICO OF PAST AGES HAD INTERCOURSE WITH ASIA (SUPPOSED CRADLE OF HUMAN RACE) AND THAT CHINESE ACTUALLY SETTLED THERE.

In the dim ages that lie behind us comes evidences constantly of races that have passed on before—types of humanity which enjoyed a civilization peculiarly their own, yet interesting to all of us to a rare degree. These remnants or excavated discoveries picture in partial fashion the progress of the human race toward the higher civilizations, touching to the quick the lively, healthy curiosity we all bear toward our common origin.

There are few areas on the two American continents richer in the relics of the past than the Republic of Mexico, and few countries have pursued the study of past civilization with a greater degree of success than Mexico and the Mexican scholars.

It is this group that are now working avidly on the constantly developing theory that Mexico had, at one time in the ages past, intercourse with Asia, and that Chinese explorers or settlers left a distinct impression on the civilization they found there.

NEW DORMITORY FOR EDUCATIONAL ENCAMPMENTS

So important has become the work of the State Fair educational encampments for the boys' and girls' clubs, that the State Fair of Texas this year erected a cottage dormitory building especially for their use. This building is a modern one in every particular, and will comfortably house five hundred students at the time. Each

Paragraph From Governor's Message

The following paragraph is taken from the Governor's message and a careful reading of same will convince any one that the expenditures are increasing too rapidly. The Governor is insisting upon a more economical administration of the State's affairs: "According to the Federal census

Fair season the State Fair entertains a large group of boys and girls, on separate encampments, as its guests. They are royally entertained, and have free access to amusements as well as the educational features of the Fair. These trips to the State Fair are a reward for merit in club work, the contacts being staged each season.

of 1920, the population of Texas during the past ten years increased 21 per cent, while the wealth of Texas increased 33 per cent. During the ten-year period intervening between 1910 and 1920, inclusive, our State ad valorem tax rate increased from 4 cents on the \$100 of assessed valuation to 35 cents on the \$100. You will observe that while our population increased only 21 per cent, our tax rate increased 775 per cent. The

appropriations made by the Legislature of 1911 for the two succeeding fiscal years totaled less than ten million dollars, while those of the Legislature of 1919 ran up to \$37,321,860. During the twelve years preceding 1919 the total expenses of the employees of the State climbed from approximately twenty-four thousand dollars to almost one million dollars. One becomes dazed and amazed in scanning the lengthy appropriation bills heretofore passed in the name of governmental expense. Our government is top heavy. Departments overlap each other. We have too many departments and too many employees."

HE DID NOT KNOW IT

As Governor Neff and two of his friends left the capitol one day this month to start an automobile trip to Neff's Park, in Coryell county, where the Governor made an address, an old man stopped them and inquired the way to the Governor's office. "First door to the right as you enter the capitol," replied the Governor, "but is there anything I can do for you? I am Pat Neff." "Nope, thanks," replied the old man, moving off. "I've got to see Governor Hobby himself."

CHIROPRACTIC AGAIN JUSTIFIED

Practicing Chiropractor Arrested Upon Charge of Practicing Medicine in All of Its Branches Without a License. Special Jury Returns a Verdict of "Not Guilty"

Graham, Texas, August 5.—The case of Chiropractic again won a sweeping victory here yesterday when one of the local chiropractors, namely Claude Greene, was hauled into court and charged with practicing medicine in all of its branches without a license. Said charges were based upon complaint of one H. E. Griffin practicing M. D. in this city. Friends of Chiropractic were especially pleased with the jury's verdict of "Not Guilty" as they felt that a trial was conducted in a fair and impartial manner, the state having placed upon the leading local physicians and most of whom professed to be nothing of Chiropractic when questioned concerning their belief in the right to the sick and evidence was presented before the jury.

WE THINK THIS

When a man takes a certain step, he is bound to take the consequences. The editor of this paper because he "can't see his way out" of his predicament, has ordered his paper stopped because he hasn't time to read, and the editor has whittled a dry good for two hours, the editor has stopped his paper because he doesn't suit him and his neighbors by borrowing a patient, the editor may as well epileptic, a patient he thinks a great deal of his neighboring city Seymour was seized with a fit. The cars of brick are also rolled him over and the contractor gave him an address that there will be a which in a few days planned to complete and the boy got from the boys in normal conditions will no.

Chiropractic has no quarrel with either medicine or surgery and has been striving to have some law which recognizes this science, to a town more wishing to practice might get a State Board examination and obtain a license, but thus legislation has been denied. Chiropractors do not wish to practice medicine, nor do they wish to perform medical operations for treatment medicine where surgery is

needed we have surgeons to take care of such cases. So why should they be compelled to put in years of study and spend time and money learning that which they will never use in their practice.

Chiropractic is and has been proved to be a useful profession and is daily accomplishing the relief and cure of many human ailments. In many states some thirty-six out of forty-eight now have laws recognizing and giving Chiropractors the right to take an examination and obtain a license to practice their profession. When such a case as this one was tried and lost in the lower courts and appealed to the Supreme Courts of the State of Tennessee, Ohio, Illinois, Kansas and other states, they found upon investigation and due consideration of the Medical Practice Act such laws were void and invalid for they were unreasonable and discriminatory legislation, which is contrary to the due process clause of the 14th Amendment of the Federal Constitution, and those states have made laws which apply to and recognize chiropractic as a useful and legal method of healing the sick and cannot be classed along with charlatans and fakirs, or their method of treatment as dangerous to the human body.

This case as all such cases has proven to be one of the best advertisements chiropractic can have, for every knock is a boost and if there is nothing to chiropractic as our learned friends the M. D.s. would have us believe it would shortly die for want of merit. But it is not so, chiropractic is growing by leaps and bounds and the Medical Profession and Drug Syndicate see and recognize it as a grave menace to their financial powers hence the prosecutions and persecutions for violations of the existing law drafted and passed to protect but their own profession. However they need not be alarmed for the chiropractors can find patients enough to keep them employed in those Medicines and Surgery cannot heal.

The state of Texas wishes to be regarded as a progressive state so let us all fall in line and demand some sort of legislation which will enable this wonderful science to come to the aid of suffering humanity, for if the writer is not mistaken Texas is a record as one of the States having the greatest percentage of Tuberculosis, and Chiropractic can do much to lessen this percentage. REV. T. E. BOWMAN AND FAMILY ON VACATION

Rev. T. E. Bowman and family left this week for a short vacation. They will visit relatives and friends in Dallas and several other places.

Brother Bowman has been strenuously engaged for some time and deserves a vacation. He has been giving his personal attention to the beautiful church building now being erected on Third street.

This building will stand as a monument to Brother Bowman and the Methodist congregation for many years to come. When completed it will be the best house of worship in the city. Not only the Methodist people will be proud of the building but the entire citizenship rejoice with them.

Brother Bowman asks the Leader to state that there will be no preaching services at the Methodist church Sunday.

Denton, Aug. 8.—Several dwellings and barns were destroyed and a horse and several calves were killed by lightning which accompanied a severe rain and electrical storm here last night.

CONSTABLE'S SALE THE STATE OF TEXAS

County of Young
By virtue of an Execution issued out of the Honorable Justice Court of Young County, Precinct No. One on the 4th day of August, 1921, by the Justice of the Peace of Precinct No. One, in the case of H. E. Griffin vs. F. T. Kobus No. 2181, and to me, as Constable, directed and delivered, I will proceed to sell, within the hours prescribed by law for Constable's Sales, on the 22 day of August, 1921, at Louis Bower's Feed Store in Graham Texas, in said County, the following described property, to-wit:

One Bread Mixer and One Rising Box levied on as the property of F. T. Kobus to satisfy a judgment amounting to \$43.00 in favor of H. E. Griffin and costs of suit.

Given under my hand, this 9th day of August, 1921.

J. D. DAWSON, Constable Precinct No. 1, Young County, Texas.

Byron Rickman made a business trip to Waco this week.

IVAN

Cecil Alane, the infant daughter of Mr. and Mrs. Will Cooney of Ivan, died last Wednesday morning August 3rd. This baby was about a year old at the time of her death, which followed a long seige of typhoid fever. She was an exceedingly bright and lovely child and was the idol of her parents and beloved by all who knew her. We deeply sympathize with these good people in the loss of their only child.

The weather continues dry and hot. Stock water is getting scarce in many places. Some are breaking land preparatory to sowing the fall crop.

Drilling still continues in several wells in Ivan and vicinity.

D. A. Upham of the Cedar Creek community is improving his place by building a new barn.

A good shower fell in the Cedar Creek community last Sunday afternoon. It was of little importance in farming interests as it didn't extend far but furnished a new supply of stock water to some in the community.

Mr. and Mrs. S. M. Gann near Ivan, are rejoicing over the arrival of a new boy at their house.

Mrs. I. W. Steele and her son and daughter, Walter and Charity, spent a few days last week visiting friends and relatives on Cedar Creek.

Mrs. E. L. Cretzinger and children of Veale's Creek are visiting her brother, S. M. Gann, and family near Ivan.

Misses Edna and Lily Cretzinger visited a couple of days this week with their aunt, Mrs. I. W. Steele, and family of Ivan.

FAMILY SWIMMING PARTY AND PICNIC

J. T. Rickman and family, N. S. Farmer and family, Mrs. J. C. Short, S. A. McCoy, and R. F. Short and son, Dr. Short, of Dallas enjoyed a swimming party and picnic on the Brazos Friday evening. Messrs. Short and Rickman served as swimming instructors for the party.

After the swim the party was ready for the dinner which had been carried along. All enjoyed the evening. There is some talk of employing R. F. Short of Dallas to remain the remainder of the summer as swimming instructor for the large numbers who go to the Brazos daily.

Chiropractor Not Guilty, Says Jury

After a six minutes conference a verdict of not guilty was returned last Thursday by jurymen in the case of Claude Green, Chiropractor, charged by Dr. H. E. Griffin with "having practised medicine without a license."

Regardless of the warm weather unusual public interest was awakened and a large crowd was in attendance during the two day trial. Many women spared time to attend the trial and from the outburst of applause when the verdict was returned it was evident that the sentiment of those present was very strong for the lady chiropractor.

Evidence presented failed to convince the jury that medicine was practised by the Chiropractor, and soon after the beginning of the trial it was evident that the large crowd was in sympathy with the lady on trial.

Lawyer John B. Rhea, recently moved from Fort Worth, defended the chiropractor.

J. W. PROFFIT MAKES VISIT

J. W. Proffitt, a pioneer citizen of this county who has been residing in California for the past few years, spent the first of the week with old friends in Graham and at Newcastle, and left yesterday morning for Weatherford where he will spend Friday and Saturday attending the reunion of the State Rangers of the 60's, with whom he served for years. While in the city Mr. Proffitt called and renewed for The Leader to be sent to his address in the Golden State for another year. In speaking of his visit here at this time he said that a part of his mission was to locate the grave of Negro Britt, who was killed with three other negroes in a fight with Indians in 1871 and buried on the battleground which was about three miles north of town on Salt creek. There are only two others in the county, R. J. Johnson and Henry Williams, who were here at the time of the burial, and the three failed in their attempt to locate the grave. When the grave is located, it is the intention of those seeking the spot to erect a monument to the memory of the negro, a free slave, who played an important part in the early history of this section and won respect of the few white settlers for bravery in fighting the Indians, who learned to fear him. Mr. Proffitt said that a more

SHERIFF ARRESTS (?) COUNTY OFFICIALS TUESDAY AFTERNOON

Tuesday afternoon, about 2:30 p. m., by order of County Judge Reeves all Court House employees and officials, all innocent bystanders in and about the Court House, together with Miss Eula McCain, Morris Lively, Gus Matthews and other abstracters, were rounded up by Sheriff John Saye and brought before His Honor Judge Reeves.

About the time the aforesaid "culprits" were hauled before the "Baw of Justice" the County Commissioners were also arrested and brought in.

Charges of being over-heated and working too hard were filed against each and every "criminal." They were thereupon and without being allowed the right to sue for a writ of habeas corpus, or without defense of an attorney-at-law, adjudged guilty and sentenced to eat four gallons of home made ice cream and a large pineapple cake, the cream and cake having been prepared by Mrs. Reeves.

Ex-Judge W. P. Stinson seeing a crowd around the Judge's office, came over to find out why the commotion, and when he had seen the ice cream and cake he filed an injunction and trespass rights and showed how he should be allowed to partake of the refreshments by the Statutes of Limitation.

All present voted Judge and Mrs. Reeves excellent entertainers and it is the hope of the 'criminals' tried and thually convicted that they be rounded up every now-and then by Judge Reeves and wife and Sheriff John Saye.

thorough search for the grave will be made in a short while and he believes the spot can be located. A section where the negro was buried has undergone a great change. Mr. Proffitt was there and the only spot he can recall as being near the place, is a barren moor upon which there were several live oaks in the early 70's. Mr. Proffitt came to Young county in 1860 and made it his home until a few years ago when he moved to Fresno, California. His experiences in the early days of the county would make an interesting chapter in history.

BLAND-HIGHTOWER WEDDING MONDAY

At the home of the bride's parents, Mr. and Mrs. W. T. Hightower, a few miles west of town, about ten o'clock Monday night, Mr. Chester Bland and Miss Mary Hightower were united in marriage, Rev. Taylor, pastor of the Baptist church at Graham performing the ceremony. Mr. Bland was at one time a resident of this city, having lived here with his parents several years ago, but for the past two or three years he has been serving his country in the Navy, and is stationed at Charleston, South Carolina, at which point the happy couple will make their home in future.

The bride is the youngest daughter of Mr. and Mrs. W. T. Hightower, well known and pioneer residents of this section. She is a young lady of many graces and much personal charm, and she is certain to make Chester a good wife.

They will leave this morning for Wortham, Texas, to spend a few weeks visiting the groom's parents and then will return to Charleston to live.

The Enterprise joins their host of mutual friends here in wishing for them a long and happy married life. Our only regret is that Miss Mary will go away from our city to live.—Olney Enterprise

ELROD-LINCOLN

The marriage of Miss Laurene Elrod, daughter of Mr. and Mrs. I. N. Elrod of Alvord, and Robert D. Lincoln of Graham was solemnized at the home of the bride's parents, the morning of August 2 at 7:30 o'clock, Rev. W. N. Oliver of the Methodist church officiating. The home was simply but artistically decorated in flowers and ferns.

The bride was gowned in navy blue crepe, with accessories in harmony.

After a wedding breakfast, Mr. and Mrs. Lincoln left immediately on a wedding trip overland to Wichita Falls and Graham. The bride wore a modish traveling suit of khaki.

Mr. and Mrs. Lincoln will leave shortly for Chicago where they will make their home.

DIXON-SCHLITTLER

Joe Dixon and Miss Etta Schlittler were united in marriage at the Christian church in Graham Sunday afternoon by Rev. J. E. Evans, pastor of the Christian church.

The coming of this happy event was not generally known but the intimate friends of the couple have known about it some time.

The bride is the talented daughter of Mr. and Mrs. Henry Schlittler, Sr. She has been reared in Graham and has many friends who wish for her much happiness. She has been a successful teacher in the county.

The groom lives in the Murray community where he is popular. He formerly lived east of Graham and has many friends here who are congratulating him on winning such an attractive and accomplished life companion.

The happy couple left immediately after the ceremony for their home in the Murray community.

Sheriff Saye arrested three men and boys Saturday near the Goose-neck bridge across the Brazos. The men are charged with stealing water-melons from Mr. Simpson's field in Goose-neck Bend. One of the men claims that he was out of work and not being able to get work was trying to get hold of some money so that he could relieve his sick wife. It was his purpose to sell the melons in order to get money.

Miss Ina Lipscomb, teacher in the A. & M. College, College Station and her sister, Miss Lola, deputy county clerk at Breckenridge, are in the city visiting Mr. and Mrs. R. E. Lynch on South Elm street.

Sam Goldwater returned yesterday from Dallas where he went to attend a meeting of the representatives of the United Home Builders of which he is the efficient representative of this county.

P. H. Phillips left this morning for Northern Arkansas, where he will spend the remainder of the summer.

CITATION BY PUBLICATION

THE STATE OF TEXAS
To the Sheriff or any Constable of Young County—Greeting:

YOU ARE HERBY COMMANDED to summon D. C. Cook by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the 30th Judicial District, but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said 30th Judicial District, to appear at the next regular term of the District Court of Young County, to be holden at the Court House thereof, in Graham on the 1st Monday in September A. D. 1921, the same being the 5th day of September A. D. 1921, then and there to answer a petition filed in said court on the 16-day of May A. D. 1921, in a suit number on the docket of said Court No. 6402, wherein Barbara Cook, is Plaintiff, and D. C. Cook is Defendant and said petition alleging that plaintiff is a bona fide inhabitant of the State of Texas and has been for more than one year next preceeding the filing of this suit, and has resided in Young County, Texas for more more than six months next preceeding the filing of this suit. That plaintiff and defendant were legally married to each other in the State of Georgia on or about the 5th day of November, 1896, and lived together as husband and wife until on or about the 9th day of April, 1921, when they separated. That as an issue of their said marriage they have two minor children to-wit: Lawson Cook, a boy age 8 years old, and James Cook, a boy 5 years old. That plaintiff was at all times kind to her said husband and did all she could to make him a kind and loving wife, but that the defendant disregarding the solemnity of his marriage vows within the period of about three prior to their said separation began a course of cruel and harsh treatment toward this plaintiff which lasted with slight intermissions until their final separation. That on divers occasions while plaintiff lived defendant he was guilty of excessive cruel treatment toward this plaintiff and showed a total disregard for this plaintiff's health and life by refusing to maintain support for her as well as her minor children. That such conduct on part of defendant renders their further living together as husband and wife insupportable. Wherefore she prays judgment of the court dissolving the bonds of matrimony existing between plaintiff and defendant and for the care and custody of her said minor children and for costs, etc.

Herein Fail Not, but have before said Court, at its aforesaid next regular term this writ with your return thereon, showing how you have executed the same.

Witness, Willie Riggs, Clerk of the District Court of Young County.

Given under my hand and the Seal of said Court, at office in (L. S.) Graham, this the 10 day of August—A. D. 1921.

Fordson Farm Tractor

When Henry Ford set about building the Fordson tractor, he had a thorough understanding of just what it should be and what it should do. His early life on the farm gave him a deep insight into the daily life of the farmer; his mechanical genius saw the type of tractor needed. And for more than twenty years he experimented over more than 7,000 acres of land in different kinds of different crops.

So he built the Fordson. It is the tractor that a schoolboy can operate in first cost. It is lowest in cost and Fordson parts and Fordson repairs are always to be had promptly from the Fordson Company.

The Fordson is a profitable tractor. It can be used every working day. It is an inexpensive power tractor that will lighten your work.

Don't delay ordering your Fordson tractor. The demand is greater than the supply. Made by Henry Ford & Sons.

Reference Books For Writers

A list of books is given for reference for the book writer. This is only suggestive and is not intended as conclusive. Some one else might have entirely different list but people agree the list given is good:

As a base Webster's New International Dictionary, get Synonyms, by F. Sturges, Wiltshire's "Dictionary" (Little, Brown), the only kind, and I don't see how to be another until someone has up 17,000 more similes in place of those he lists. Sanderson's "Manual English" (Macmillan) is a with more accurate and information on written English than any other size. "The Sounds of English," by T. Nicklin is a detailed but not technical of the problems of pronunciation. For one with an inquiring curiosity as to the origin and migration of words the interesting book is also the "An Etymological Dictionary of English" by Ernest Weekes.

LUMBER CUT IN 1920 PROBABLY LESS THAN IN PREVIOUS YEARS

The 1920 lumber cut of the United States varied little from that of 1919, but incomplete returns indicate that it was slightly less, state officials of the Forest Service, United States Department of Agriculture. This opinion is based on reports received from 927 large mills, representing about one-half of the annual cut of the country, compared with reports from the same mills in 1919, as reported to the Bureau of the Census. The total reported cut of these mills was 16,709,115 M feet in 1920, as against 16,254,812 M feet during 1919—an increase of 3.4 per cent.

A heavy increase in cut is reported from Washington, Oregon, California, Idaho, and Montana. The New York cut also increased. But there are indications of a 10 per cent decrease in the cut of the Lake States, and also a general falling off in the production of southern pine, except in Georgia and South Carolina.

That Defendant be cited to appear and answer herein, and for judgment dissolving said marriage relations, for costs of suit, etc.

HEREIN FAIL NOT, but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Witness Willie Riggs, Clerk of the District Court of Young County. Given under my hand and the Seal of said Court, at office in (L.S.) Graham, Texas, this the 3rd day of August A. D. 1921. WILLIE RIGGS, Clerk District Court Young County, Texas.

HENRY FORD MAKES LARGE PROFITS DESPITE PRICE CUT

People who were worrying a while back over reports that Henry Ford was about to go broke, and thought of getting up a subscription for him, can now take their hands out of their pockets. For Henry, in spite of keen competition and general business depression, does not dodge his grocer and the collector for his pressing club is not asked to call again.

According to the former editor of the Ford paper, the Ford Motor Company profits for May exceeded those of any other month in its history, reaching a sum of \$18,000,000. The May production was 97,914 cars and the profit on each car was \$189.16. Because of this profit the price of the car was reduced again, but in spite of the June profits, when all bookkeeping is completed, promise to exceed those of May.

On the first of last month, all outstanding bills were paid, current bills provided for, and a surplus of over six millions accumulated. Kind hearted folks need not worry about Henry Ford. He is getting along very well, thank you.

And there will be very little envy of his propriety. He sells his automobiles at low prices and he pays his workmen top wages. We do not recall that there has ever been any labor troubles in his plants; and he has not been accused of using unfair business methods.

Mr. Ford's success makes one wonder what is the matter with some other big business men. Is it because they do not follow his methods, or is it because he has been particularly lucky in picking out the thing to manufacture and sell?

ALL FOR HEALTH FOR ALL

By Dr. M. M. Carrick
State Health Officer

Few people who "get mad" live to be old. Anger and worry are the two great shorteners of life.

The people who live to be old are usually those to whom nature has given at least one sharp warning—a warning which they have heeded.

The greater proportion of people are born healthy, and their ways of living make them sick.

We all have our playthings. Happy are they who are contented with those they can obtain; those are spent in the wisest manner that can easiest shade the ills of life, and are the least productive of ill consequence.—Lady Montague.

A baby in the home may mean shorter nights and longer days for its dad and mother, less money in the bank and less gadding around in society for a time. But a baby in the home also means love ties strengthened, home-made happier, the past forgotten and the future worth living for.

Good habits are always a legal tender for good health.

Moderate muscular exercise in the open air to the extent of slight fatigue, or until there is a perceptible perspiration is a greater preventive of disease than the whole apothecary shop.

Wherever community nursing is undertaken by a competent nurse with a reasonable amount of public support, the work grows rapidly and the community readily recognizes the value of the service. It is prophesied by the more farseeing public health authorities that, in another ten years, no town, city or county, endowed with reasonable vision, will attempt to conduct its public health and philanthropic affairs without nursing service.

OWEN BROTHERS LEAD STATE

J. V. and E. B. Owen, local insurance men, led the entire state in June in writing insurance for their company. The company has salesmen all over Texas and a prize is given each month to the man who sells the most insurance. It speaks highly of the local men's ability to be able to head the list of their company's men.—Vernon Times.

Both the above gentlemen are Young county boys and their friends rejoice to learn of their success. They have a brother, J. C. Owen, in Graham who is an insurance man with a reputation for doing big business.

MUST PUBLISH ALL LEGAL NOTICES IN THE FUTURE

All notices heretofore required to be posted, must now be printed in some newspaper in the same county and for the same length of time as it was formerly necessary to post such notices. The posting of such notice is not now required, and is only that much extra trouble, as they have no legal value or significance. Act of 1917, Sec. 4, Art. 60, 1921. Note particularly that posted notice is not legal notice, and no bond or other election is valid unless same is published as required by law.

JUDGE ORDER INVESTIGATION OF

Houston, Aug. 5.—Declaring that "we are facing a condition, verging on anarchy worse than Russia ever felt" and branding practices of taking men out without giving them a fair trial and subjecting them to indignities as "damnable, cowardly procedure," Judge C. W. Robinson in Criminal Court today charged the new grand jury to investigate "every unlawful transaction in this county."

After inquiring if any member of the jury belonged to any organization which would prevent his going deeply into the crime situation, Judge Robinson launched forth into one of the strongest charges delivered a grand jury here in recent years.

"If we want tar and feathers as a punishment for crime," he declared, "we should write that into the statutes."

"A mask is not necessary to show that a man is a true American."

There have been about six or seven known "tar and feather parties" in Houston in the last three months and the Goose Creek community is known to be aroused on the subject of the K. K. K., a large anti-K. K. K. having been formed there.

WHEN GOSSIPS TALK

"Talk is cheap when you get it from a gossip," says an exchange. But it isn't. Talk that comes from a gossip is expensive. It kills time, it kills truthfulness, it kills decency, and it kills morality.

A reputation that has been built up by a lifetime of correct living may be blasted in a day by the talk of a gossip. The milk of human kindness is curdled when it comes in contact with the tongue of the gossip.

The gossip sets but little that is good and much that is bad in human nature. And gossips will talk, and people will listen, and believe, and condemn.

It is not only expensive, but it is demoralizing and degrading.

ARRESTED ON LIQUOR CHARGE

Austin, Aug. 5.—Wallace Malone, member of the lower house of the Thirty-seventh Legislature from Fort Worth, was arrested last week charged with having in his possession intoxicants in violation of the Volstead act. Representative Malone

Kept to the work you know best.

Speaking in the House today on a point of personal privilege, Malone requested the members not to censure him and to withhold judgment until he shows that he is not guilty, which can be easily done.

SUPREME FLOUR--The People's Choice

Time shows development from small things to great. Not but one quarter of a century ago "SUPREME" was only a community flour; today it is used in thousands of homes in Texas as well as in foreign lands. Then—the question—why its growth? Because of its unfailing uniformity. This Company has worked conscientiously, carefully, and painstakingly to excel in quality. You are due it to yourself to take advantage of an extraordinary quality flour when offered. "SUPREME" is no longer a chance, but a sure hit.

WANT TO RENT

Wish to retire from an active life; I will sell my ranch of 42 acres in Bailey county at a bargain. Small payment down and balance in twenty annual payments at six per cent interest. I will sell in any size tracts of equal division, but would rather sell entire tract and will give an extra low price on such offers. All fences fenced; plenty of fair ranch improvements; in cultivation. This is rural land, but I will price to meet the low price of interest write for further details, but don't do it unless business, for life is short and valuable.

CITATION BY PUBLICATION THE STATE OF TEXAS

To the Sheriff or any Constable of Young County—Greeting: YOU ARE HEREBY COMMANDED to summon B. H. Mason and J. E. McGee by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in a newspaper published in the nearest County where a newspaper is published, to appear at the next regular term of the District Court of Young County, to be held at the Court House thereof, in Graham, Texas, on the First Monday in September A. D. 1921, the same being the 5th day of September A. D. 1921, then and there to answer a petition filed in said Court on the 3rd day of August A. D. 1921, in a suit numbered on the docket of said Court No. 6528, wherein Morrison-Smith Lumber Company, a corporation duly organized and existing under and by virtue of the laws of Texas, W. C. Bell, R. E. Lynch, L. E. Kinnebrew, G. B. Johnson, Ed Matthews, and T. T. Garrett are Plaintiffs, and B. H. Mason and J. E. McGee are Defendants, and said petition alleging that Plaintiff Morrison-Smith Lumber Company, in February, 1921, sold and delivered to Defendants certain lumber, nails, and other building material to be used and actually used in the construction of a two-story building upon East fifty (50) feet of Lots 1, 2, and 3 of Block 43 of the City of Graham in Young County, Texas; said building being commonly known as the "Dance Hall," and also furnished labor and drayage for transportation of said material; labor and drayage

being of the aggregate value of Four Thousand Three Hundred Thirteen and 55/100 (\$4,313.55) Dollars, which amount Defendants agreed to pay said Plaintiff therefor; and to secure payment of said indebtedness said Plaintiff duly and seasonably fixed and now claims and holds a Constitutional and Statutory Materialman's Lien upon said building, as shown by Volume 2, at pages 137 and 138 of the Mechanics Lien Records of Young county, Texas.

That prior to April 1, 1921, H. M. Hatter and various other persons performed labor upon said building in the construction thereof, but were not paid therefor, and that to secure payments of the amounts owing to them, respectively, therefor, each of said laborers within the time and in the manner required by law, fixed a statutory lien upon said building to secure payment of the indebtedness so owing to him, such items of indebtedness aggregating Three Thousand Four Hundred Thirty One and 90/100 (\$3,431.90) Dollars; that for valuable consideration then paid to them, respectively, by plaintiffs other than said corporation, said laborers, respectively, sold and assigned to said plaintiffs said items of indebtedness and securities,

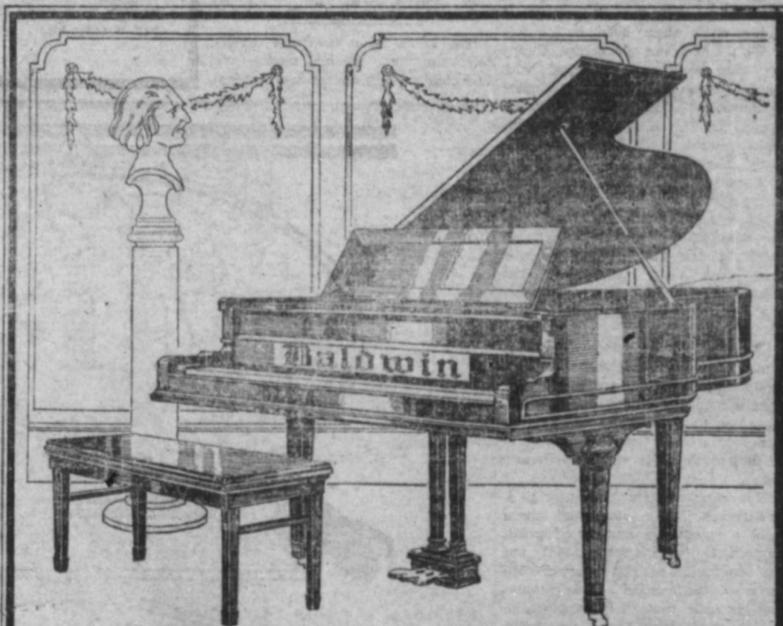

respectively, as follows, viz: to W. C. Bell, \$1091.10; to R. E. Lynch, \$332.75; to L. L. Kinnebrew, \$202.90; to G. B. Johnson, \$118.25; to Ed Matthews, \$95.50; to T. T. Garrett, \$59.45; and also severally sold, assigned, transferred and conveyed to said plaintiffs the aforesaid liens securing same. That said liens are valid and subsisting liens upon said building securing payment of said indebtedness as hereinabove shows.

Wherefore plaintiffs sue and pray for citation by publication and for judgment upon final trial for their debt as aforesaid and for foreclosure of their respective materialman's and laborer's liens as aforesaid; and for full relief, general and special, legal and equitable.

HEREIN FAIL NOT, but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Witness, Willie Riggs, Clerk of the District Court of Young County. Given under my hand and the Seal of said Court, at office in (L. S.) Graham, Texas, this 5th day of August A. D. 1921.

49-52c WILLIE RIGGS, Clerk District Court Young County, Texas.
