GRAHAM, TEXAS, FRIDAY, OCTOBER 30, 1914.

Number 6

ALARM SYSTEM NOW INSTALLED

Punch his face and hear him yell! Not exactly these instructions, but it amounts to about the same thing. It's just a little round glass with the words: "In case of fire break this glass." And for your convenience a little brass hammer has been provided.

This is the outside part of the new fire alarm system recently installed by the city, under the supervision of Mr. J. H. Thomas, local manager of the Southwestern Telephone Co.

The installation was completed yesterday and at 10:30 a. m. the City Council was invited to the electric light plant to inspect the inner workings of the plant. Mayor S. B. Street was handed an instrument and told to break the glass and turn in the alarm.

The glass was broken, and the indicator said there was a fire in Ward One. The system was completed—and worked.

Mr. Thomas smiled. And he had reason to, for it has been no light task to put in this new alarm system over the city.

The City Council and the citizens of Graham are greatly indebted to Mr. Thomas for the interest and time he has spent on this work. He has the welfare of Graham at heart and has given his entire time necessary to install the alarm system, to the city without charge.

The town has been divided into six wards and when an alarm is turned in from the different wards the indicator at the light plant will show from what ward the alarm comes. At the same instant a bell will ring in eight of the firemen's homes. By this means valuable time will be saved, as the firemen will receive the warning at the same time it is given at the plant.

When an alarm is turned in the wild cat whistle will be blown, indicating there is a fire, then a straight blast will be blown to show in which ward the fire is located, one time for the first ward, two for the second, etc. Should a false alarm be turned in the whistle will blow a long blast and two short ones in quick succession. This signal will also be used to show the fire has been put out.

At the present time there are twenty boxes installed in the city and these will be added from time to time until it is thought the system is adequate.

Mr. Thomas, who has been made Director of Fire Alarm System for the city requests that when a fire alarm is given over the telephone instead of by the alarm system, to please designate in which ward of the city the fire occurs. Valuable minutes may thus be saved for the firemen will know immediately where to go.

The work of installing this new fire alarm system has been done principally by Mr. Thomas, with the help of Roy Walker of the Graham Electric Co.

The Electric Co. furnished the poles upon which to string the wires, and current for ringing the bells, and will keep the system in good shape in the future.

Should at any time in the future an alarm box be accidentally broken, or otherwise become defective, Mr. Thomas will repair same if notified. He requests the public to keep him informed.

The division of the city into wards is as follows:

WARD ONE

Composed of Blocks 1, 2, 3, 4, 6, 11, 12, north half of 16 and Court House.

WARD TWO

Blocks 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, College Hill and Twin Mountains.

WARD THREE

Blocks 7, 8, 9, 10, 18, 19, 31, 32, 33, north half of 34, north half of 35, high school block and two blocks east of block 33.

WARD FOUR

South half of blocks 34 and 35, southeast quarter of 36, two blocks east of block 34 and block 7 in College Heights Addition.

WARD FIVE

North half of block 36, southwest quarter of 36, 37, east half of 38, east half of 54, and 55.

WARD SIX

Blocks 13, 14, 25, south half of 16, 17, west half of 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, and west half of 54.

Community Co-Operation

COPYRIGHTED FARM AND RANCH-HOLLAND'S MAGAZINE

Every once in a while we read of or happen to be acquainted with some person who has made a fortune from real estate investments—buying in undeveloped sections at low prices and holding until demand, resulting from community growth and improvement, has forced values up.

Ever stop to think that enhancement of farm and city property is directly dependent upon surrounding development, and that practically all rural development is a natural result of the growth of towns and cities in the immediate locality?

If this town grows and prospers every citizen in this community will share in the prosperity. Your farm and town interests will increase in value, there will be adequate social, religious and educational facilities. In all this will be a pleasant as well as a profitable community in which to live.

On the other hand if we stand still, or go back, every individual interest in this trade territory will be affected likewise.

Upon the commercial activities of this community depend our future happiness and prosperity. Our local commercial institutions are dependent upon our patronage and we in turn are dependent upon them.

LES HIBOUX

Why not wear a cotton hat.

Laugh and the world laughs with you—unless you are telling one of your favorite jokes.

We hate to miss the Dallas Fair this year, but those who are going from here didn't spend their money with us, so we are left behind. They can tell us about it, however, upon their return, and we will be just about as happy as they are, knowing that they enjoyed the trip.

The Reporter is in entire sympathy with the farmer who raises cotton that costs him about 10 cents a pound and then has to sell it for six cents per pound. Plant more "grunts and squeals" and diversification of crops is the only key to the situation, and then pay cash for every article they buy.

Twenty years ago cotton was selling at five cents. There have followed years of prosperity, when the staple has topped sixteen cents, and the Texas farmer has held his own. The depression will pass and we will be none the worse from having learned the value of a dollar.

The French soldiers wear brilliant scarlet trousers which prove a splendid target for the enemy as is proved by the fact that most of the wounded soldiers are shot in the leg. We believe, under the circumstances, we would choose a quieter, more retiring color.

Even if cotton is selling at six cents, there is no reason why you should not do your Christmas shopping early.

Some one with plenty of time has figured out the fact that the war in Europe is costing America about two million dollars a day. This computation is made on the present selling of cotton, which is estimated at a loss of about \$25 a bale. A further loss is inflicted by the increase in interest rates. There are dividends suspended, business enterprises wrecked, thousands of unemployed throughout the country, all directly due to the disturbance in Europe.

"The German colors now fly over Antwerp, Brussels, Ostend, and the mattle cry is "On to Calais." Antwerp and Brussels each are 125 miles from the English coast. Ostend is 75 miles, while memorable Calais is only 20, directly across to Dover, England. This latter vantage point, if gained, will doubtless be a great menace to the English people.

The Panama Canal was closed on the 14th by a great slide of loose earth and rock, at the Culebra Cut. There were two or three ships in the canal when the slide occurred. Two days later, fourteen vessels were awaiting entrance at the terminals. Colonel Goethals issued a statement that the canal would be again ready for use by the latter part of this month although a longer time will be required to complete the entire dredging to its former state. One hundred vessels have passed through the canal up to this time.

Mrs. Percy V. Pennybacker, president of the National Federation of Women's Clubs, appeals to all women to wear cotton and pray for peace. A true-hearted Southern woman could certainly pray with more devotion in a cotton gown than in a dress of any other material, under existing circumstances.—East Texas Register.

Beware, Girls.

Before any girl marries any man our advice to her is to find out how much he cares about his mother and sister. It is a sure key to the secret working of a man's heart.—The Gainsville Journal.

And if the girl discovers that the young man permits his mother and sister to support him, she should tell him the next time he comes to see her that she has decided to be a bachelorette. Few girls, bless their innocent and throbbing hearts, have any idea of how many nice looking young fellows there are who do not earn enough to support themselves. They sponge on the family. Sometimes the family consists of a mother who has a little income and perhaps a daughter who works, and the son boards with ma and borrows from sis. A woman who marries that kind of man would have been wiser if she had elected to fore-swear matrimony forever and tote a motto in a suffragette parade.—Dallas News.

Evidences of Returning Confidence Seen in Several Directions.

Improvement of a decided character was evident in the cotton situation yesterday and evidences of returning confidence and activity were numerous. Following the announcement of Great Britain that cotton would not be considered contraband of war was the statement that the German Government and bankers acting for it had entered the market and that large purchases had already been made.

The decision to start the new reserve banking system in the middle of November and the belief that the cotton problem is in process of a satisfactory solution were also potent influences. Foreign exchange showed a sensational decline, the

quotations being lower than at any time since a week before the outbreak of the war. Another factor is the development of inquiries by northern and eastern capitalists as to making investments in cotton for the purpose of holding for the advance which they evidently believe is sure to come. These inquiries related to prices, warehousing facilities, insurance rates and other details necessary to investors. In the New York Cotton Exchange there was evidence of a growing sentiment for an early opening. Locally the market advanced 1-6c and buying orders are reported to be increasing with heavy purchases.—Dallas News.

Dallas News on Increased Pay for Legislators.

Sunday's papers printed a communication from Professor Potts of the school of government in the University advocating the adoption of the pending constitutional amendment to increase the pay of members of the Legislature. If this amendment should be adopted the pay of a member would be \$1,200 for the first year of his term and \$5 a day during any extraordinary session that might be called during the second year of his term. The argument which Professor Potts made must, it seems to us, be absolutely convincing with any mind that has not been made impervious to reasoning by prejudice. The only objection it is possible to urge to this proposal is that it would increase the cost of lawmaking. Even if cost were a worthy objection, it could be answered that the increase in cost would be very much less than is popularly imagined. A circumstance commonly overlooked is that we have from two to four extraordinary sessions of every Legislature, and the rate of pay during these extraordinary sessions is greater than is proposed by this amendment. If we had any reason to suppose that our experience in the future will be contrary to what it has been in the past, some validity might be conceded to this objection. But we have no reason for that supposition. All reason, on the contrary, tells us that the legislative tasks that accumulate during two years can not be disposed of properly, or even improperly, in sixty days, and that we shall have from two to four extraordinary sessions in the future just as certainly as we have had them in the past. Hence the increased cost of lawmaking resulting from the adoption of this amendment would be very much less than is popularly imagined.

But of course, at best, the argument of increased cost is of no force whatever. The 75 a day we now pay to every member of the Legislature, multiplied by the number of members and then by the days they are in session, falls far short of showing the cost of lawmaking. Far a greater item of expense, an incomparably greater item, is to be found in the consequence of those blunders that are frequent and inevitable so long as laws are made in the present pell-mell and riotous way. Looked at in this broader way, the cost of lawmaking would not be increased, but decreased, by the adoption of the reform proposed by this amendment. Neither would it result, as some have asserted, that we should have a larger legislative output. The output would be smaller, but inestimably better, for the reason that the lawmaking would become a deliberative process instead of, as it is now, a combined scrimmage and barter. The present system was doubtless adequate to the needs of the time when it was adopted, which was forty years ago; but the interests of Texas have become too diverse to make it possible that due consideration can be given to the legislatives needs of this State in sixty days every two years. The adoption of this amendment would mark a genuine advance in the affairs of Texas. As a reform it is neither so comprehensive or fundamental as we should like to have it; but it is the best obtainable now, and the accomplishment of it would not obstruct any efforts that may be made to bring about further reforms. The pendency of this amendment is a sufficient reason why every citizen of the State should go to the polls next Tuesday.—Dallas News.

Will Raise Peanuts.

After reading all I could get to read about peanuts I have concluded they will beat raising cotton. As hogs will fatten on them and will get as fat as the speculator does off the cotton crop, so why not raise peanuts and pigs? Have we got a Commercial Club in Graham? What is it for, if it is not there to build up Graham and to help the farmers? We could raise peanuts and make money raising them if we had a market for them. Why can't the Commercial Club get us a market or build us a peanut factory in Graham? As most children and a few grown people like parched peanuts, peanut butter and peanut candy, why does Young county buy all of its peanuts when it can make one hundred dollars an acre raising them? Young county has as good soil as Eastland county and they are raising peanuts on land that never did produce over five bales of cotton to every twenty-five acres of land. Last year this same 25 acres of land produced \$2,600 in peanuts and about the same this year. Now don't that beat cotton? But everybody that raised cotton this year will not be able to meet their debts with cotton, so why not raise something next year that will pay this year's debts? Let's organize a peanut club and if Graham don't furnish us with a market for them ship them by the train loads to the market. I suggest that we all plant at least one acre next year and try it and if we can't get a market for them turn our pigs on them in August and kill hogs off of them in November and sell hogs and peanuts all at the same time. Now let's hear from all the Correspondents and farmers and all the Doubting Thomases through The Reporter. I am sure The Reporter will help us.

Now, Mr. Editor, if peanuts turns The Reporter from the newsiest paper in Texas to the best farm paper in America you won't object will you? We are in earnest about this and hope no one will turn from cotton to peanuts who is getting rich raising cotton. As there is only a living coming to we farmers let us try it on other things, as a living from the cotton crop this year is like no living at all, it is just existing, that's all. So come ahead with your peanuts, either for or against.

Yours for peanuts,
Mr. and Mrs. W. M. Goode.

Cotton Consumption Is Being Stimulated by Low Prices.

The sooner the South dismisses from consideration the wholly visionary and impractical schemes advanced by business men or by men in public life to eliminate all cotton production next year, the sooner will this section come to a proper understanding of how to handle the present situation. It is difficult to conceive of any greater absurdity from any intelligent point of view than that of forbidding the raising of cotton during the coming year by legislative enactment, national or State. From every point of view it is unwise. There are millions of acres of land in the South better adapted to cotton raising than to anything else. There are tens of thousands of farmers who, by raising their foodstuffs, can produce cotton at a price low enough to justify a continued cultivation of this staple without calling on bankers or merchants for financial assistance.—Exchange.

OAKLAND

How is everybody enjoying this winter weather we are having?

It makes us hunt winter clothes for a while, and if it don't warm up it will be bad on those who have to pick cotton and that is what the most of us are doing I suppose.

This being Mr. Massey's first visit to Young county he seemed highly pleased with the country.

Yes Trixie, I thought Bryson a dry town, but some way your people get plenty.

Yes, Silver Bell, Dreamy Eyes can come this way. We have cotton patches over this way that don't look like a brushy knob and we had rain until we hadn't seen the sun in so long we all shouted over the sight of the sun. Dreamy Eyes must have been dreaming when she was complaining about the road, or either don't have anything to pay taxes on or else

has more money than the most of us; for we have some awful rough roads in our county and we can not pay any more taxes to build good roads and only get six cents for our cotton.

Well as it is near mail time I will say adieu and hand my pencil to Gander.

Bro. Lee Stricklin went to Wrenom Saturday to fill his appointment at that place.

The Union gin had a breakdown one day last week that delayed the work for more than half the day. George Jones

went to Graham and got repairs and soon had things going again.

The Simmons gin also had a breakdown that caused some delay. Don't know for how long.

John Stratton of Jermyn was here on business Saturday.

Lee Mayes received a message the first of the week that his father, R. K. Mayes, was seriously ill, but later had another message stating him much better.

D. F. Ford has moved into town for the winter and is now living in the Lee Drum house.

Mrs. Rob Laster returned from Olney Monday (today) and was met at the train and taken to the home of Mrs. C. T. Story, where a bountiful dinner had been prepared for her. Mr. Laster accompanied her to Olney to visit his brother, who lives nine miles from that place.

MIDWAY

We have had another nice rain since I last wrote. It is fine on wheat and oats. The box supper at Midway

We are extremely anxious to increase the feeding of

MEAL AND HULLS

among our farmer friends, and as an inducement to this end we offer for a limited time only the following unprecedented bargains in

Exchanging Meal and Hulls for Cotton Seed

For One Thousand Pounds of Seed

We will give 1200 pounds of Hulls and 400 pounds of Meal

You have the seed, we have the hulls and meal. We want to buy your seed. We want to sell hulls and meal. You need meal and hulls, for though you have other feeds at home, meal and hulls at these prices, make better and cheaper feed than anything grown or made for any kind of farm stock.

For Feeding Horses and Mules

Fattening cattle, hogs or any kind of poultry.

One pound of Meal is worth--

3 pounds of corn--

2 pounds of oats--

4 pounds of wheat bran--

For Producing Milk and Butter

One pound of meal and hulls mixed one to four

is worth--2 pounds of corn--

2 pounds of wheat bran--

2 pounds of cotton seed--

4 pounds of best hay--

You get about one thousand pounds of seed to every bale of cotton ginned. If you have used meal and hulls you know it is better feed than seed. It will make more milk, more butter, better milk and better butter, more flesh and more fat, and keep your cows or steers in better feed than cotton seed. If you have not used it, catch one bale of seed, bring it to us and take home on this basis: 1400 pounds of hulls and 400 pounds of meal, being 1800 pounds of mixed feed. Worth more pound for pound, in feeding value than cotton seed, corn or hay. Feed it to any stock on your place, and if you do not find it a better and cheaper feed, pound for pound, come and say so and we will pay for the seed. You may be the judge and there will be no "back talk."

Some wheat is up to a pretty stand and looking very well before our Saturday night's rain, and this will give wheat here moisture enough to run it a long time, in case it doesn't rain again soon.

Candy Kid, you may think your letter wasn't missed but it sure was.

Mountain Boomer, we welcome you to our happy band of Correspondents.

I was asked today, by a good business man of Graham why the Boomer didn't buy himself a bale of that ten cent cotton. He said that Boomer had as

FLAT ROCK

I've just finished reading some of the Reporter letters. They are all good and I enjoy every one.

Jolly Girl, we too, have been expecting Jack Frost, but he hasn't arrived yet, and believe me I'm not very anxious for his arrival.

Sunday school wasn't very well attended Sunday on account of the disagreeable weather. They reported an interesting lesson and a splendid sermon delivered by Rev. Roark. The Candy Kid was among the absentees.

There is quite a lot of sickness in our community at this writing. Hope to report better news next week.

Jolly Girl, you are lucky to have sweet milk to crumble your cornbread in. That made me wish I could come to see you, when I read it, for we don't have enough sweet milk for that, since the anthrax finished its course.

Mrs. Corley and little daughter, Corene, spent Monday night with Mrs. Lily Alford.

Brit Mayes and daughter, Anna, called at Mr. Hazelton's Sunday afternoon.

Will have to make my letter short as I'm in a hurry. Candy Kid.

Oh, yes, Honeysuckle 2nd, you may change your name and some one else's also, but please don't talk that friend of mine into the notion of staying up there always, for I do want to see her so very bad.

PICKWICK

Hello there Silver Bell and Johnnie Dolittle, glad to have you with us again.

Mrs. Matthew Costello was laid to rest last Friday afternoon in the McAdam Cemetery. She had resided in Palo Pinto county for some time and was about 70 years of age. She leaves a husband, two daughters, four sons and a host of grandchildren and friends to mourn her death.

Mrs. Kate Mellin is spending a few days with her daughter, Mrs. Pont Perrin.

No prayer meeting tonight. My, wasn't the Reporter fine last week.

Yes, Johnnie Dolittle, I guess I am the only one that picks cotton, but I don't think it any disgrace, so I am not ashamed to tell how much I pick. This week I only picked two and a half days but I got 762 pounds.

R. A. Anderson and T. F. Weldon went to Graford yesterday (Saturday).

Jordan Keith, Jim Nixon and Bob Anderson called at T. F. Weldon's Sunday morning.

Edgar Anderson and family and Mrs. Jennie Merchant and children of Jack county were visiting relatives and friends here last week.

W. J. Nixon went to town yesterday (Saturday).

Mr. Dendy and family of the County Line community visited Mr. Carmack and family Friday.

Now look here Silver Bell, you are talking mighty loud and plain again. That wasn't me making that date over the phone to meet at the river. That was Johnnie—well I won't tell the rest of her name—but you know, don't you?

Say, why don't you send your letters down and mail them at Pickwick when J. W. comes up there and is in a hurry to get back just send it down by him and let it leave here on Monday and the good editor will get it in time to print.

Come on Plow Boy with another good letter; you also Kid and Salemite.

Mrs. John Stokes and daughter of Oran are picking cotton for her brother, Att Davis.

Plow Boy, you said that you had not seen a gold piece of money in three years and had not seen any one who had. Just you come down and look at Beauty and you will see one who has seen some gold in less than three years.

Ben Weldon worked for G. W. Weldon part of last week.

Misses Catherine and Ruby Weldon called at Mrs. Nixon's Friday afternoon.

Mr. and Mrs. L. Z. Weldon spent the day with Uncle Tom Weldon's family Saturday.

Mrs. Daisy Nicklas visited homefolks last week.

Miss Lura Mae Dendy is visiting her cousin, Miss Rena Camric, this week.

Mrs. W. A. Underwood called on Mrs. Lettie Weldon Sunday afternoon.

Mrs. Silas Wester is on the sick list this week. She wasn't able to come to Sunday school this afternoon.

Miss Catherine Weldon called on Mrs. Daisy Nicklas Sunday afternoon.

If you want any watermelons just call on Misses Rena and Lura Mae.

Roe Davis visited his uncle, Att Davis, Sunday.

Charley Chick was riding around down in this part of the country today. I wonder what the attraction was.

Well, Jolly Girl, you said you were not going to grumble as long as you had cornbread to crumble in your sweet milk. I don't blame you, but what if you didn't have either cornbread nor sweet milk?

Oh, yes, Honeysuckle 2nd, you may change your name and some one else's also, but please don't talk that friend of mine into the notion of staying up there always, for I do want to see her so very bad.

SALEM

Old Jack Frost is knocking at the door tonight (Monday).

A good slow rain fell here Saturday night. It was not a tank filler but it put a good season in the ground.

The wild geese looped the loop here Monday morning, but their searchlight equipment was so perfect that one shot was all we got.

Miss Sarah Hatfield was bitten by a spider last Friday, since which time she has been dangerously ill. We are glad to say that slight improvement is reported in her case.

Well, after all the bills and all the amendments, the law-makers down at Austin handed the cotton producer a very expensive lemon. It would be far better if all the work and money, worse than wasted, had been used in the "buy a bale" plan.

The boll weevils are numerous here now and this is the first season they have injured cotton to any extent. In competition with the law-makers, I believe the boll weevils will prove easy winners before the game is played out.

Bono, if your motion carries, I am with you in the expedition to Mexico. We will soon settle affairs down there and then the "patient and watchful waiting" will soon be a thing of the past. I heartily endorse Plow Boy for supreme chief, but I want it distinctly understood that no one in the expedition is to play the role of Villa, for I don't want to get into a hornet's nest down there and have to stand up and face an adobe wall. However, I stand ready to live or die for my country; but to be right honest about it I very much prefer the former. I am very grateful to you for offering me the office of quarter-master but I believe Buster is the best qualified man in the expedition for that office, for like Charles Dickens, in his writings, Buster has much to say about good things to eat, and with Buster in charge we would all be well fed and that counts for a heap. We are equipped for the work and can give them any kind of a government they want down there. If they want a Sunday school in every community in Mexico we have the workers to organize and put them in motion in short order, and we know that would please Kid. The only bother he would have would be in pronouncing the strange, twisting, gimlet-like, names of the little greasers down there, but he could manage that like we do Russian names, for when we come to one of them we just cough and sneeze and then say sky and it brings the answer every time.

Yes we are ready to go. Want to get away from here before we see five-cent cotton.

Our Editor is ever generous, ask Honeysuckle if this is not true. We sincerely hope that Honeysuckle 2nd will grasp this great opportunity and change two names instead of one, and that he may not go outside our little band of Correspondents to find the fair one who will agree to a change of her name. We know he will have no regrets when he hears the wedding bells ringing out all the wretchedness of a single life and ringing in a life of joy and bliss "until death do us part." Now it won't do to say it takes two to make a bargain, or that cotton is very low, for others are venturing out on the matrimonial sea, and why not Honeysuckle 2nd?

Please put me down on the negative side of the amendment question. The state is divided into 127 representative districts. Dallas county alone makes up the 44th district, and owing to her large population has four representatives in the legislature. And owing to an excess of population in other districts the total number of representatives is brought up to 142. Surely 142 law-makers in the lower house is double the number necessary to make all the laws we need in this State. If the State was re-districted in a way so as to give 71 instead of 142 members in the lower

house then I would vote for the amendment. By this means the salary of each member could be doubled with no extra expense to the State, and each member would have a larger district and more varied interests to represent we believe broader and better work would be done, and that there would be less wrangling about it. We would make no change in the number of senators. In this, the 29th senatorial district, we have 49 counties and our one senator fills the office chock full and does all that a half dozen could do. All the interests of a single county with from one to four representatives are surely well looked after, and there are counties in the state whose only, or main, interest is cotton.

I join Honeysuckle 2nd, in the plea that I am not posted on this question and want to hear from others. True the election is very near at hand, but we can hold an inquest over the remains of the "dear departed."

Feels the Same.
Madge—Do you really like motoring as well as sleigh riding?
Marjorie—I don't see much difference since Charley has learned to run the car with one hand.—Judge.

KEYSER

We are enjoying fair health in this community.

Some few of the young folks of this community attended the party at Mr. and Mrs. Bob Eatherley's. They reported a swell time.

Miss Lerah Sampley and Wendell West attended church at Mountain Home Sunday.

Misses Fannie and Dora Everett, Hattie Shuck and Mr. Willard Witte called on George Martin Sunday.

The Misses Ballow entertained a few of their friends Sunday.

Nelson Martin was a pleasant caller on Miss Clemmie Nichols Sunday evening.

J. N. Ballow was shopping in Bryson Saturday afternoon.

George Martin went to Jacksboro. We were told that he went to get his life insured.

Miss Minnie Rhodes spent Saturday night with her brother, Floyd Rhodes and family.

Mr. and Mrs. W. A. Woods spent Sunday with his mother, Mrs. Lee Woods, who is on the puny list.

Nelson Martin was in Jacksboro Tuesday.

Mrs. S. J. N. Martin called on Mrs. Sanders Monday.

Sure proud to see Jackie, the "ladies man" back once more. Now Jack o' Diamonds, I was surprised that you could not get up anything but a little handful of criticism in two weeks' time. If I had to boost some one up to get their assistance as you have done I would just raise the flag of peace and quit. Now, Jackie, the ladies man, speaking of Ball, you must remember that he is a lost Ball.

Silver Bell I was not crawling. I was fishing for suckers and caught some, too.

Oh, say, Jack, perhaps I'll be at Flint Creek 2nd Sunday and I want to hear some of that fine singing. Am proud you have fine singers at that place.

Here Uno is my pencil.
Red Wing.

LUCILLE

It has been trying to rain for a week. Maybe it will succeed after a while. I guess it has knocked Beauty out of picking cotton.

There is a right smart of sickness in our community at present.

We were sorry to hear of Grandma Costello's death which occurred Thursday, October 22.

Yes, Plow Boy, I saw the comet several mornings and if you will look in the west about an hour after dark you will see it again, only the tail don't show quite as plain.

Mr. McAvoy has returned home but has not improved very much in health.

Joe Shields and family of Palo Pinto visited Mrs. Shield's parents, Mr. and Mrs. Bob Chick, from Saturday till Sunday.

A. Storm and daughter, Besie, made a business trip over to Mineral Wells Wednesday.

Roy Barron of Cedar Creek spent the night at A. Storm's Thursday night. He came down to attend Grandma Costello's funeral.

Say Beauty, did you ever see a soft-shell pumpkin? If you did you beat me.

Virgil Chick and wife of near Mineral Wells visited his father from Friday till Sunday.

We had a nice shower last night and this morning (Sunday) but not enough to wet the ground so the farmers can sow

wheat. If it would rain there would be lots of wheat sown down here.

Say German, you are not the only one that is going in the hog business. Al Storm is fencing his hog pasture with net wire. Says he keeps the hog in the pasture now. Oh, that good old hog and hominy.

Come on Dago with some more good letters. We miss your letter. In fact, we miss every one when they fail to write.

George Weldon has bought a new thresher. Maybe he will get his threshing done now.

Dreamy Eyes, when that young man sees Silver Bell's letter he will never talk about snakes any more.

Did you ever hear of so many weddings as there were this week? Seems like they are all going off on the sea of matrimony.

Had no Sunday school today on account of it being so bad.

One of Jim Reed's children has been quite sick for the past week with something like scarlet fever.

Mrs. A. Storm has been quite sick for two weeks with la grippe and chills. Hope to be able to report her well at next writing.

What was the matter with Reporter Staff poem I failed to see it this week? Do you reckon the Editor misunderstood and thought we were tired of reading them.

Joe Mason and family spent Sunday night with their daughter, Mrs. Willie McAvoy.

George Spurlock and wife spent the day Sunday at Dave Teague's.

Oscar Newberry and Other McPherson took Sunday dinner at Lester Spurlock's.

Bono, I will second the motion if you will let Silver Bell, Dreamy Eyes, Beauty and I go along and be in the eating but not in the fighting.

Silver Bell, I see where you are right on the road question. That is the trouble with this country today. Taxing the people for roads for the big bug to ride over and if the old backwoods farmer gets to town he can get there the best he can. There are places right here that it takes four good horses or mules to pull anything like a load out of, but when we get in five or six miles of town, oh, those pike roads. And who receives the benefit of these good roads? The town people of course and the farmer raises six cent cotton to pay for them.

Marion Cooper was out hunting seed wheat this (Monday) morning, but failed to find any, as most every one sold their wheat the first of the month.

Hugh Bailey and family spent Sunday at Bob Chick's.

All you writers and the Editor come down Sunday week. That is Johnnie Dolittle's birthday and we will put the big pot in the little one, and will have a big time if you will come.

John Lemley and Bill Lemley went over to the city of Gtford today (Monday).

Mr. McAvoy has three sick children. I failed to learn what the trouble was.

Clayton Bridges was out riding around in his new rubber-tired buggy. He sure looked fine this (Monday) morning.

Mr. Coffman of Carter Bend is picking cotton for Mr. Bridges this week.

They had a regular old-time candy pulling over at Mr. Bridges' yesterday (Sunday). All report a nice time.

Here, take my pencil Carrie Nation and come on with a letter.

Johnnie Dolittle,

MOUNT PLEASANT

Our community was thrown into a gloom of sadness last Tuesday evening when it was announced over the wire that S. E. Turner was dead. Uncle Sam, as he was familiarly called, had been sick in bed for nearly a year, and while the end was no surprise, yet we are all grieved when we reflect that we shall no more meet his pleasant face on earth, or enjoy his warm handshake. But if we are so fortunate as to get to the glory land, there we confidentially expect, to strike hands with Uncle Sam Turner.

The mortal remains were laid to rest in Medlan Chapel Cemetery. Impressive, appropriate funeral services were conducted by Elder J. H. Fisher.

Beg pardon Dreamy Eyes, but didn't you get kinder mixed up last week in your eulogy to the farmer? You had him in the right place all right—with "a nation on his back," but surely you made a let when you named him "a king." True, as you say, "he supplies the bread and meat and the clothes, he keeps the wheels of industry and the current of commerce in motion," but after all he is a kind of "beast of burden." I mean the real farmer, the man who actually guides the plow. Yes, he is the burden bearer of all. Now really, is he not Dreamy Eyes? Kings do not carry nations on their backs. But the country, the nation, carries the king on its back. The farmer is the foundation, the very mud-sill, of civilization. The highest title he can wear is the "hero of the soil" and we are not entitled to that as long as we are so ignorant, and so mean to our brother farmers, particularly the tenant farmers. If the tenant farmer had not been as ignorant, almost as cattle, he would never have supported Ferguson for governor. Ferguson only offered us an opportunity to keep renting, while Col. Ball proposed a chance for us to own the land we cultivate.

It seems to me that our Socialist friends should get a pretty good lesson out of the result of the race between Ball and Ferguson, and do away with the "home owning" plank in their platform and substitute therefor a "good rent" plank, as the coming general election will without a doubt disclose the fact that a goodly per cent of the Socialists went into the primaries and supported Ferguson, not altogether on account of his "good rent" plank though, but partly because he is an anti-prohibitionist. And what do you say to that my dear Socialist prohibition friend, Silver Bell? If you don't believe it watch the result of the election due now in a few days.

Say now, Bono, I am not the least bit mad at the Mexicans, no sir, not me. Neither do I care much for "fashion" so I beg to be excused when you talk about fighting or leading a fight. "Faith and Old rather be called a coward than to be a corps the rest uv me loife."

I never dreamed that anyone would take seriously what I said about 20 cent cotton under the Wilson administration, because presidents do not buy cotton. Oh no, I was just baiting for a sucker and I hung a dandy, only it happened to be a mud cat. Didn't you see the mud boil when he took hold of the bait?

Now who even intimated that it is impossible to have good schools in the rural districts? I did say we do not have them, as a rule. Of course we could have good schools in the country, but we are making miserable headway in that direction—about like the Dutchman's cat climbing out of the well—we move up one notch and slip back two. When the country people really want good schools we will have them and not before.

Why to be sure, wouldn't I love to vote to increase the pay of those Jack-leg lawyers calling themselves "representatives." I would sooner vote for an amendment forbidding them to meet at Austin only once every

four years, and making ten days a regular session at that.

Oh some say increase the pay of our legislators and thus induce better men to aspire to the office, but the old clown said "one man is as good as another and a whole lot better," and I believe it.

Some even want the governor's salary raised for the same reason, when we had somewhere between 12 and 20 of the greatest men that the world ever saw in the race for governor of the greatest state in the union. If the pay was increased I guess we would all run, and then who would raise six cent cotton? Yes vote to increase the legislator's pay, and then cuss some more about high taxes.

Rev. O. E. Dickson filled his regular appointment Saturday and Sunday.

Mr. Hughes and family visited at the home of Mr. and Mrs. Martin last Sunday.

Mr. and Mrs. W. R. Brown of Pleasant Hill visited home folks here Saturday and Sunday.

Welcome Mountain Boomer, and thanks for your compliment.

Kid's letter was beautiful last week; nearly half of it was concerning Plow Boy. So charitable too (?) He doesn't seem to know the primary election is over.

Mrs. Wragg spent the day Tuesday with her mother, Mrs. Brown.

John Timmons and family went to Tonk Valley Tuesday.

At last the thresher is in our community. It is Mr. Wess Shannon's machine.

Miss Vashti Timmons spent the evening with Mrs. Brown last Thursday. Plow Boy.

BRYSON CENTER

Dear Editor and Correspondents, will you allow me a little space in the Correspondents' circle? If so I will tell you the happenings of the past week of our little town of Bryson.

Health is good except a few cases of bad colds.

Dr. Ben L. McCloud has had several calls of late to the home of Mr. George Heirgood of Salt Creek, whose wife and child have typhoid fever. The doctor reports them as being in a critical condition.

The "Cheap John" of Bridgeport is in town today (Saturday) displaying quite a variety of dry goods.

D. R. Sewell, wife and baby visited relatives here Thursday. Mrs. Sewell's mother, Mrs. Mary Bryson, returned home with them.

Mr. and Mrs. Jay left Friday morning for Denton and other places to spend the winter with Mrs. Jay's relatives.

Mr. Turner and family went to the Dallas fair Friday.

Dr. T. C. McCloud and wife and Miss Agnes Sampley of Jermy came down early Wednesday morning and took the train for Dallas to attend the fair. They returned home Friday night.

H. A. Bryson went to Jacksboro Friday and purchased a team from Dan Sewell.

A. J. Bentley is at work at Perrin this week.

Miss Ethel Bryson went to Jacksboro today to attend the institute. She goes from there to Perrin to begin her school.

We still have our picture show which draws large crowds despite the cry of hard times.

Well, who has been elected Governor, or has anybody succeeded yet? How has the Sunday school question been decided? It has been several days since I have had the pleasure of reading The Reporter so I am behind on what is going on.

If this misses the wa' basket and the dead letter office I may come again. Brysonite.

COUNTY LINE

Hello Correspondents, I suppose I may as well step into The Reporter once, although my old sunbonnet and blue calico apron are not very handsome looking. However, it doesn't matter as I am "hardly to be noticed."

First, I'll say that I very

seldom make apologies, but Jack o' Diamonds I think I'm due you apologies, in what I said to Red Wing. However I have not taken as much privilege as you think I have. My items read thus: "And to ease your mind will tell you I have pledged myself to vote for Jack o' Diamonds." While they should have read thus, "And to ease your mind will tell you I have pledged myself to vote for the last paper, however I'm very glad to know that you did not see fit to rebuke me for my carelessness, and I humbly ask your pardon and promise to be more careful in the future."

Threshing is the order of the day now. The Burgess thresher and the Pickard thresher are both in Sorghum Flat at work.

Asbury Caudill and mother made a trip to Graham Monday.

B. P. Ritchey, Lila and Dewey visited relatives at Sorghum Flat Sunday.

Anyone wanting to know how to get chicken and bread just ask Smith and Henry, for they know "chicken and bread boys."

Red Wing, as you are not going to "notice me" please "splain" what you meant. I'll step behind this curtain so you won't have to "notice me." You say my pro is backed up by the bootleggers. Allow me to inform you that NO pro is backed by a bootlegger. Any eight year old child would know better than that. And Red Wing, if you will get a copy of "The American Circus" written by W. S. Margain, and read it over carefully I think you will decide to place something else where you are continually placing the "Grand Old Lone Star State." Yes grand the name I suppose—the land of the free, land of fine churches and 180,000 licensed saloons. Yes, grand "where they make bologna out of dogs, canned beef out of horses and sick cows and corpses out of people who eat it."

Grand, oh! Little do you know about old Silver Bell if you thought she would take a back seat and play shut mouth just because she's not to be hurt or hardly noticed by Red Wing.

Frank Rickles, Smith Gann and Rob Newby, all of this community are helping thresh in Sorghum Flat this week.

Josh Burgess of this place returned home Sunday night from Fort Worth, where he spent a week.

Mrs. Dora Ribble and Lila Ritchey called on Mrs. Grace Rickles Monday afternoon.

Your pardon granted Plow Boy. You wrote a good letter with my pencil, all right, if we do not agree on some subjects.

Yes, Jack o' Diamonds, I need my pencil now, for I'm ready to write those few words, but don't think you will "hardly" want my backing, as you see I'm "hardly noticed," in the Grand Lone Star State of Texas, so I have been in informed.

Well now, Johnnie Dolittle, I might meet you on halfway ground if you will promise not to disappoint me like you did some else a few Sundays ago. About it, reckon you could?

Mrs. Bill Barron and little daughter, Naomi, spent part of last week visiting home folks on Cedar Creek.

Come on Countrywoman with another good letter. Don't pay attention to Plow Boy and Dreamy Eyes. They just naturally are easily tickled. W. scribers just let them laugh at us all they want to, so come again soon.

Beauty, "vide" up please with your pecans. I think you ought to. And as to borrowing the horse, I'm quite sure that John would not lend his "old family horse" to me, however I am not afraid of being thrown. I have gotten used to being thrown by horses, but the hardest fall I ever got by being thrown from a horse was just the other side of the Set ranch, in among those large rocks. If you were ever over there you

can imagine what a hard fall it was. Not a bit like falling on feathers.

Homeite, I can't see why you ask me to not get mad. I am sure you have not said or done anything to offend me in any way. As for what you said about me getting gay in my old days, I'm quite sure I did not care for that, for I've already told the Correspondents how old I was, what color my hair is, how tall I am and how much I weigh; although the Goose or Gander one, I do not remember, which one it was, talked as if they hardly believed me. Perhaps they will take your word though.

Miss Maggie Reed and brothers of this place are picking cotton for Edd Richardson of the Copeland vicinity this week.

Mr. Moran and family returned to their home at this place Tuesday from the Copeland community, where they have been picking cotton for the past two weeks.

Thanks Pilot, I'm real glad that someone can agree with me. However, Silver Bell has a head of her own and just "prattles" away whether anyone agrees with her or not.

The singing at the Perry Nicklas home Sunday was a success and enjoyed by all present.

Mrs. Fannie Theadford of Mineral Wells is visiting relatives in this community this week.

Dreamy Eyes, the next time you are visiting your sister just come on to see me or whistle and I'll come to see you.

Well Beauty, as the Correspondents seem to be rather backward in telling you how much cotton they picked I'll tell you how much I picked in four days. I picked 100 pounds and while it doesn't show up by the side of yours, it is "heap big" for me. I'm some cotton picker myself, don't you think?

Well, guess you are all tired listening to my "prattle" so I will step out and let some one else take my place.

Silver Bell.

(For the information of Silver Bell and others interested, we will say that the mistake referred to above was not Silver Bell's. As our machine casts a line of type at a time it sometimes happens that a line is left out inadvertently, as was the case in this instance and the proof reader in his rush of work incident to getting out the paper failed to catch the omission.—Editor).

MING BEND

Once again I enter into the happy band. Mr. Editor, how do you and the Correspondents like the rainy weather? We certainly have had some bad weather for cotton picking.

Mrs. Newby has been on the sick list but glad to report her up.

Pat Smith, wife, sister and brother, have been picking cotton for Riley Sims. They picked quite a lot of cotton. Pat picked 402 pounds one day and Mrs. Smith and Miss Georgie Smith picked something over 400 pounds apiece. Bill Smith picked something over 300 pounds. Bill picked something over 1500 pounds in three days and a half.

Joe Sims picked 361 pounds one day. I failed to get what the others picked.

Wylie Sims went to Graham after some hogs that Tom Choate shipped him Saturday but they failed to arrive.

W. L. Newby says he wants to furnish the people with seed rye.

Gilbert and Gant Newby spent Sunday with Roger and Floyd Lisle.

Roger Lisle was quite sick a few days this week. Glad to report him improving rapidly.

Mrs. Doll Owen spent Saturday with homefolks.

Earl Pickard and Joe Smith visited homefolks Saturday night and returned to Graham Sunday afternoon.

W. A. Pickard and mother-in-law, W. L. Newby and wife went to Graham Saturday.

Miss Reuby Newby spent Saturday night with Miss Margie Ribble.

Bill Sims and Walter Beach left last Sunday for Oklahoma to pick cotton.

Riley Sims went to Bunger Saturday.

Everett Newby spent Sunday night with his sister, Mrs. Ribble.

Quite a number attended the party at Mr. Pickards Saturday night. All report a nice time.

Messrs. Walter and John James have been picking cotton the past week in the Goosecreek community.

Mrs. Cunningham spent last Monday with Mrs. Newby.

Miss Winnie Davis is visiting a few days with her cousin, Mrs. Mollie Williams.

R. M. Williams and wife of Graham visited his son, Sam, Friday.

Mrs. Reeves spent Saturday with Mrs. Ribble.

Now Snowflake, that high-top buggy was all right. You don't want to say anything about it.

Yes Beauty, Mrs. James' death was a sad occurrence. She had many friends wherever she went. Rainy Day.

HENRY CHAPEL

It's awful to have to work all the time and not be able to find time to write to The Reporter. I always had a great dislike for that word work. It makes a sorter tantalizing ringing in my head. I can't hardly sleep at night for thinking about having to get up and go to work next morning. If it was not for getting so hungry don't believe I'd work any more. But that reminds me of what our Editor told me there in the Reporter office one day. He told me he had a bad stomach trouble and couldn't eat hardly anything. Poor fellow, I feel sorry for him. I've had a stomach trouble all my life. I took my old shotgun down to the lot the other day and decided that I would commit suicide by killing a pig, but after I sized him up I decided there wasn't enough filling between his hide and bones to cure a stomach trouble, so we came back still complaining of the same old disease.

Sometimes I think this old world would be a pretty good place to live in if one could get some clothes and wasn't bothered with that old stomach trouble. But as long as we have to raise six-cent cotton we will have to wear patched britches and put up with the old disease. Salemite was at the gin last

Saturday and said we needed a good rain to sow wheat. I suppose he meant dust mulch but we got the rain Sunday instead. Our school building is most complete. Our school will begin Monday after the institute, November 16th.

Bro. Cook preached his farewell sermon Sunday unless sent back by conference. Hope he will be sent back on this work another year.

Beauty, you are a little mistaken as to my house being on the side of the mountain. It is on a high prairie. From where you live it does look to be as you described it. I don't wonder at you being the champion cotton picker among the Correspondents. If I mistake not you live at the place where they keep the light burning all night, as I never go to bed so late or get up so early but what you have a light.

Most of the cotton crop has been gathered in this section. The worms and weevils have destroyed at least one half the grown bolls.

L. P. Moren is still suffering from rheumatism. Hope he may soon recover.

The young folks enjoyed a party at Eddie Ribbles' Saturday night.

There will be considerable wheat and oats sown and the rain Sunday is very beneficial.

Plow Boy, you asked why it was that the moon varied north and south both in winter and summer. If you will tell me why the good Lord made the sun to shine in daytime instead of night I will tell you why the moon varies north and south in winter and summer. I am no astronomer either, Plow Boy but I think it one of the greatest studies there is. One might as well tell me the sun has no effect upon growing vegetation as to tell me the moon has no effect upon the weather changes. If you will notice the moon travels the same distance north and south every twenty-eight days as does the sun every twelve months. Again you will notice we always have our full moon's south in summer time and north in winter time. You party-going young folks notice our full moon's will be straight over head through the long winter nights and next summer when you attend the big meetings the same full moon will hang away south in the heavens. The moon in her swing north and south has to cross the celestial equator twice each month, while the sun crosses twice each year. Plow Boy, we have taken up a great subject, so I must quit before the Editor yells to cut it out.

Mr. Editor, if you are not going to pull off that reunion dinner pretty soon I invite you to come down, as we have dug our sweet potatoes, and one of our neighbors killed a beef and divided with us. A good beef roast with taters laid thereon affords temporary relief for those suffering with our trouble. Good luck to all you Correspondents. Your letters have been fine. Dago.

(Thanks, awfully, for the invitation, Dago, but judging from your letter this week it would do me no good to accept, as you would very likely have all the beef eaten and there would be only taters left for me and I just can't stand taters.—Editor.)

ORTH

D. J. E. Clark, wife and little grandson, Noel, spent Thursday night and Friday and Friday night with M. E. Clark and family.

Well, Kid, I didn't know what you was talking about on the start but I know now. Now don't you think I have got more sense than go to "Whiskey-taw" Falls with a couple of pros like you and Jack o' Diamonds? It is hard enough to get an anti away from a place like that. If you two were up there the cops couldn't handle us. Now as for Ferguson, he and I would make a team. Kid, we have men up here hunting work. Some are bricklayers, some carpenter and some railroaders. If this were the only place it wouldn't be so bad but look

everywhere and you can see the same thing. Now think of putting 30,000 more men out of employment and how would things be?

Plow Boy, who told you that Uno believed in being clothed again with flesh? I do believe however, in a Bible resurrection. "It is sown a natural body; it is raised a spiritual body." I Cor. 15:44, not (reincarnated). But as you left off what you was going to say about the Bible, I will also leave off right here. Well, Plow Boy I am a witness to the comet. If anyone will look in the northwest after the sun has been down about two hours they can see it now.

Well, Mr. Editor don't freeze to death this spell for it is a forerunner of what's to come.

Leo Colley and a young lady by the name of Ledbetter were married the 18th inst. We wish them success through life.

Jno. and Elmo Clark have ordered them a set of bicycle tires. The are going to ride a while now.

There wasn't much cotton picked this week on account of the misty weather. Uno.

LONE OAK

A good rain fell here last Saturday night. It will be a great help to the late feed but cotton picking will be delayed a little bit.

Wasn't that a brisk norther that arrived Monday morning? Seemed kinder like winter time sure enough, didn't it?

Mr. Gordon Elliott and Miss Medora Jordan of Shinola, accompanied by Mr. Jesse Kilpatrick and Miss Robinson also of that place, called at the home of Rev. R. E. Boyle Sunday afternoon where Mr. Elliott and Miss Jordan were married at 5 o'clock, Rev. Boyle officiating. These young people are very well-known in this community

and have our best wishes for a long and prosperous voyage through life.

Plow Boy, I for one saw the comet you spoke about. Mother and I saw them several times and I intended to speak to you Correspondents about them but just kept forgetting it.

Dr. Roy W. Rutherford and wife called at C. C. McBride's Monday morning.

If anyone wishes to know the latest method of driving cattle call on Emmet Alexander and Horace Stewart.

No that wasn't a dream either Pilot, it was facts. I haven't a doubt but what you could prove most anything by your "friend" as he was not in a very respectable condition himself.

You spoke like some of the "fair sex" had been using intoxicating drinks but I don't think we have any ladies who would do such a thing. Speaking for myself, I have never tasted anything stronger than home-made grape wine.

Misses Lula Willis and Mattie Orr were the guests of Miss Irene Orr Sunday.

Goodness but this is cool weather for cotton picking, but it has to be done.

Mr. Editor you and the Correspondents should have been here last Thursday. Dad killed a shoat and you may think Brunette didn't get her share of the "sparebones" and "back-ribs" as Kid calls them.

Lum McBride had the misfortune of getting one of his horses cut on the wire last Monday.

Mr. Editor you and the Correspondents should have been here last Thursday. Dad killed a shoat and you may think Brunette didn't get her share of the "sparebones" and "back-ribs" as Kid calls them.

R. J. Robertson, son and little daughter were visitors to Mr. and Mrs. Bill Porter Sunday.

Homer Brashears has been looking mad all this week. What is the trouble Homer?

Rambling Rose.

HAWKINS CHAPEL

Messrs. A. E. and Jim Oatman went to Graham Sunday afternoon.

There was no Sunday school Sunday on account of bad weather.

Little J. W. Oatman has been chilling the past week.

Mr. Whited and family were the guests of Arthur Hawkins and family Wednesday and Thursday.

The Messrs. Baker were in Loving Saturday morning.

Robert Miller had some cotton pickers in his patch last week.

Jesse Oatman called at his brother's Sunday afternoon.

We had a bad spell of weather the last of the week which stopped a few days, and it still continues bad today (Monday.)

Messrs. Frank Loftin and Ollie Baker were out driving last Sunday.

Master Eugene Whited is still unable to walk on account of his knee which was bruised early in the fall.

I will quit, as I haven't time to write more and news is very scarce.

Violet.

Found a silver ring.

Come on Plow Boy with some more good letters. I enjoy reading all the letters. I can't hardly wait until Saturday comes to read the dear old Reporter.

Mr. Editor how much longer are you going to put that reunion off? I hope it surely won't be long for I am getting hungry waiting for the reunion.

Eugene Whittaker called at Mr. Vines' Tuesday.

Olin Morgan went to Graham last Saturday returning Sunday.

Candy Kid, I have an idea who you are.

News is scarce so I guess I had better quit writing and wait till next week.

Hollyhock.

DAKIN

E. M. Brewton went to the fair Tuesday and returned Thursday.

A. J. Bryan made a business trip to town Tuesday.

Cotton picking has been the order of the day for the past week, but a good rain fell Saturday night which will delay pickers for a day or two and will cause the cotton buyer to get the farmers' cotton cheaper than ever. The farmer loses everything and the monied man nothing.

There has only been 7000 bales of cotton less shipped this year than there were this time last year. There is a snake in the grass somewhere.

L. J. Bryan has been making trips to town every few nights here of late. Leland says if there is not a girl one place there is another.

Miss Juanita and Mrs. Bryan and Miss Hattie Belle Reed went to town Wednesday afternoon.

Mrs. Garrett called on Mrs. W. C. Reed Saturday afternoon.

MOUNTAIN HOME

Hello there Mr. Editor and Correspondents, how are you all enjoying this rainy weather? It has been threatening rain all this week.

Mr. and Mrs. Earl Clark, Elder D. J. E. Clark and grandson, Willie, of Dakin attended church down here Sunday.

Misses Fannie and Dora Everett, Hattie Shuck and Lerah Sampley, all of Keyser, attended church here Sunday.

Hurrah! for Plow Boy not allowing himself to be called a socialist. I glory in your spunk.

Pilot, how do you know Jesus saved his people from their sins?

Thank you Red Wing for your pen. Red Wing, why didn't you come up third Sunday? I looked for you.

Brunette, just let them romp if they want to for you know the Gray-eyed Girl is a sharp one. You ask Red Wing and Pansy.

O yes, next second Sunday, I think I will go up to Flint Creek and see how Jack o' Diamonds is getting along.

Now, come on Jack o' Diamonds. We will have to look over Red Wing, she is awful high tempered, isn't she Pansy? Now don't none of you tell her what I said about her.—I know she won't read this.

Miss Anis Matlock and sister-in-law, Mrs. Stella Matlock, spent Saturday eve at the home of Mrs. Ella Robbins.

Kid, a fool can ask questions a smart person can't answer. All that secret organizations are for the almighty dollar, and so is the long-coated preacher who gets up and teaches Sunday school.

Many thanks to you Augusta for your pen.

Gray-eyed Girl.

A Noisy Kid.

"That's a fine solid baby of yours, Middleton," said a friend who was admiring the first baby.

"Do you think he's solid," asked Middleton, rather disconsolately. "It seems to me as if he were all holler."—Stray Stories.
