Marion Craig One of the Most Useful Citizens in Brownfield

Has Built a Business From the Ground Up in Our City. Lately Taken Nash Motor Co. Agency Here. Been a City Councilman for 12 Years.

Like many of the likable business men of Brownfield, one does not have to cross their fingers or hit on wood when writing a story about Marion Craig. Here's a man with a pleasing personality, a smile and good word for everyone and who never gets in too much of a hurry to listen to the story of anyone who is down and out. We have often thought that if the whole world was made up of such men that there would be no trouble; no trials and lawsuits, and no need for jails and for law enforcement officers.

Marion Craig came to Brownfield along about 1923 from Tatum, N. M., and he started to work here for Cicero Smith Lumber Co. He made a whale of a good hand, and the management hated to give him up, but he had a chance to go into business for himself with his long time partner and boyhood friend, L. E. McClish, who came here about that time from the Tatum area. They entered the Service Station business where Jim Miller is now located, and it was really and truly the first SERVICE station in Brownfield. Up to that time, one had to honk or yell to get attendants out to your car, but these boys started in real earnest and by the time your car stopped they were working on it or asking what you needed. It was something new in Brownfield to get this kind of service, and it was not long until some of their competitors were wondering what had suddenly happened to their business.

This business was a success, and it was not long until Mr. Craig was building a home, with the intention of really living in Brownfield. From 1924 to 1927, they remained in this building when a new service station and garage was built across the street by Will Adams. These boys leased this building, and moved to the new location. A bit later, these boys longed for their own building, built to their special order, and as a result, their present location was built upon lots they had purchased on west Main. Today they run separate businesses, Mr. Craig, with an automobile agency and Mr. McClish forming a partnership with Arlie Lowriemore, handling Star Tires and tubes. Mr. Craig took the agency some ten years ago for Plymouth and De Soto Cars, but recently gave them up, not because they were not good cars, but for one thing, for the ten years he had been in business, he never could succeed in getting national advertising on them in local papers.

About ten days ago, he took the agency here for the Nash Motor Co., and will handle those cars from this on. We are not taking Mr. Craig's word on this, but we are taking the word of people who know cars, and owners of Nash cars, that there is no better automobile made. Nash engineers, they say, are now turning out a car just above the lowest car price, that has the IT in it of the higher priced cars, with all the accessories and little do-dads so dear to motorists combined in to this near low priced car. We have also been told that this car will give more mileage per gallon of gas of any like weight car on the market and that it will run more miles without repair than any.

Should you want to have one of these cars demonstrated, Mr. Craig will be delighted to show you what a Nash will do, and not long about it. Mr. Craig will keep

Crops Below the Cap Not Much Ahead

In going to and from Athens this past week end, we took particular pains to watch the crops as we rolled along the concrete or asphalt. The northern route was traveled going via Dickens, Seymour, Jacksboro, etc. Through Dickens and Crosby, as well as Terry and Lubbock, there is a fair stand of both cotton and feed, with the exception of northeast Terry around Meadow. For many miles after leaving the cap there is not a great deal of farming, mostly ranching. Dark came on down this side of Jacksboro, and no crops could be seen much.

From Dallas and beyond, corn is much larger than here, of course, as it is planted in March or April, but all cotton is late, none being large enough to form squares. Really, we got a big surprise. And on the southern route through Mineral Wells Breckenridge, Albany, Anson, Rotan, etc., the surprise was really greater. Through Jones and Fisher, the two counties that usually stand well up to the top in cotton production have not planted any. If they have it isn't up and won't come up now following the big rains Sunday night, as the land is packed and water-logged.

Of course there are no crops through most of Kent and east Garza, as it is ranch country. We again saw the best crops and stands up on the cap between Post and Southland. But from then on past Slaton, they were drowned or hauled out some time Sunday night.

So, this is one time that we are just as far along with crop operations as most any section in West Texas, at least.

Pittman Brings In Ten Nice Gilts

About the nicest lot of two-months old gilts that we have seen in some time, were driven up before us in front of our office Wednesday morning, by R. A. Pittman local dairyman. Mr. Pittman had just returned from Childress where the pigs were purchased from Lon Alexander, prominent west Texas breeder of swine.

These pigs, which are intended for 4-H boys of Terry county, are not of the same litter, but all came from stock from both sire and dam that are not only registered, but championship stock. If club boys are wanting any of them, they should get in touch with Mr. Pittman at once.

Mr. Pittman informed us that they would be let to Club boys at absolute cost to him at Childress. He went after them in his own truck, and there will be no transportation charge.

Gulf Station Hijacked Saturday Night

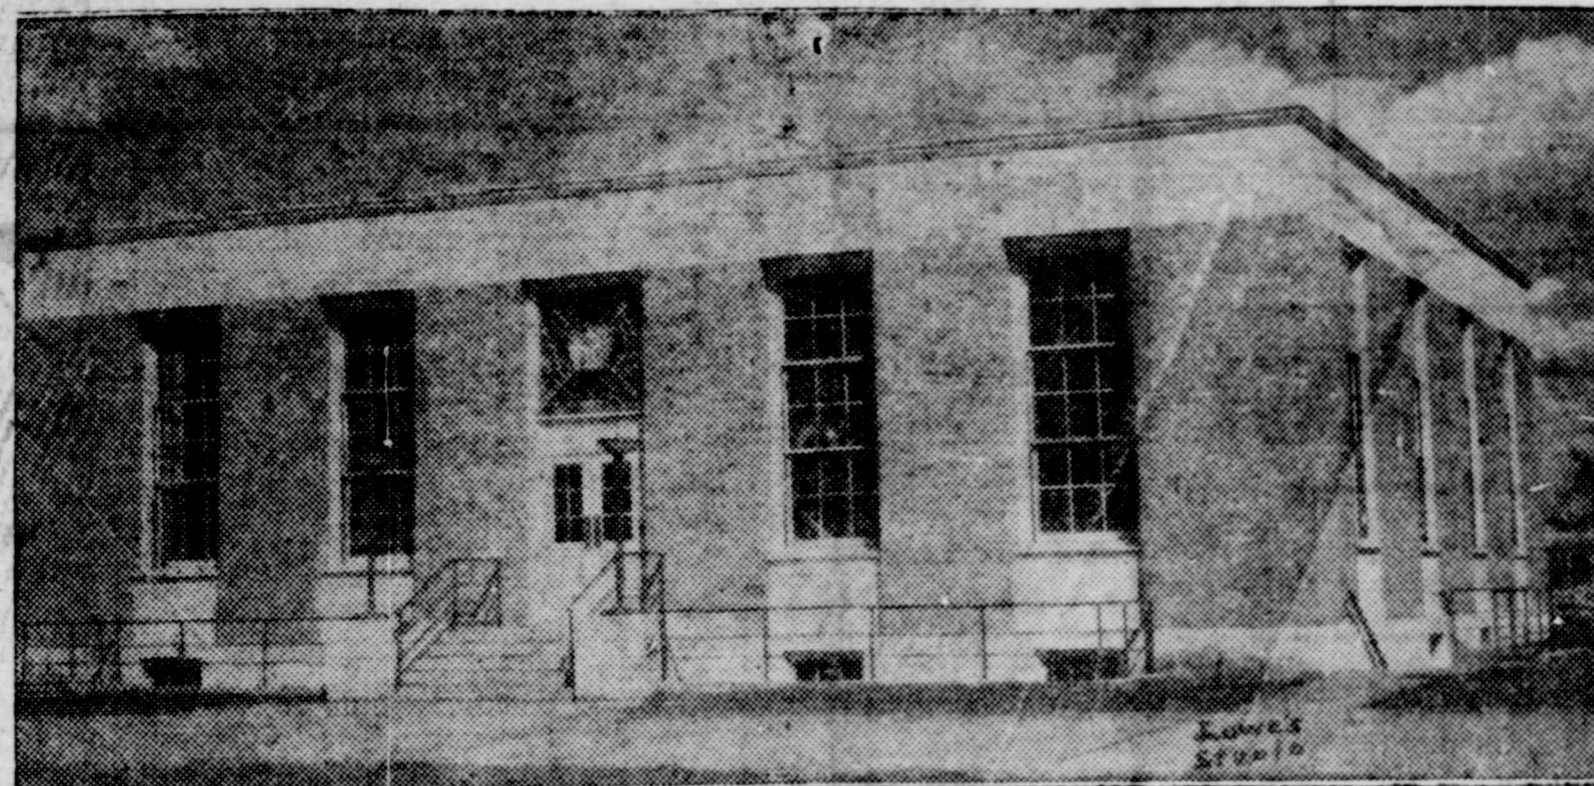

The Moore Gulf Station, corner highway 51 and Main street was hijacked Saturday night, the thieves making off with around \$18, the Herald was informed.

Officers stated to a representative that no trace of the hijackers has been obtained so far.

a full line of repairs and an expert repairman always on hand, so that should you need a car of any make serviced, he will always be on hand, but of course the Nash parts only will be kept.

Mr. Craig is married, and has three children, two boys and a girl, being, M. J. Jr., 16; Robert Lee, 13, and Bobbie Jean, 8. He is a member of the Methodist church, the Masonic lodge, and the American Legion. He is at present Post Commander of the Legion. Mr. Craig is now serving on his 12th year on the City Council, and has always taken an active part in the upbuilding of the city. His hobby is hunting and fishing.

A Mighty Fine Paving Job Is Completed

You don't see any better jobs of street paving any place than has just been completed on about 10 blocks on Tate and Broadway. Not only was a real base laid on these streets, but the curbing is the very best that can be made of concrete and sand. We have heard more compliments handed both the city council and contractors on this job than any we have ever seen laid.

In the first place, there is a ten inch base of caelche, thoroughly wet and rolled, in order that the street have a foundation that will carry heavy traffic. Then there was three layers of asphalt and rock to make them last and waterproof them. Mayor Clyde C. Coleman is expecting to hear from Washington most any day now granting the right to construct from 40 to 50 more blocks like those just completed. If there ever was a time when we should make an effort to get our fine little city out of the dust in dry weather and mud in wet weather, it is now. It will be better and cheaper now than most any future time perhaps.

By the way, speaking of crushed rock, it is our understanding that the rock used on our streets came from a pit out at Rich Lake, and it was found to be just as good crushed rock as any shipped in here, and one good thing about it, this rock is right at our back door.

Junior Chamber of Commerce Activities

The Junior Chamber of Commerce met for a business session last Friday night at the District court room. Main subject for discussion was the membership drive. A committee of seven was appointed to solicit dues.

The dance sponsored by the organization to help the city and Band Mothers club finance the continuation of band classes through the summer months was a success in every respect. An enjoyable time was reported by all.

Vernon Brewer, Jaycee Secretary, wife and son left Tuesday for a short stay in Dallas. While gone he intends to get the opinion of a Dallas Marketing Attorney concerning the issuance of bonds for the proposed football stadium. The Brewers are expected back Monday.

Persistent rumours were afoot Monday that contacts were being made to see if one of the West Texas-New Mexico baseball league teams, now located in a town,

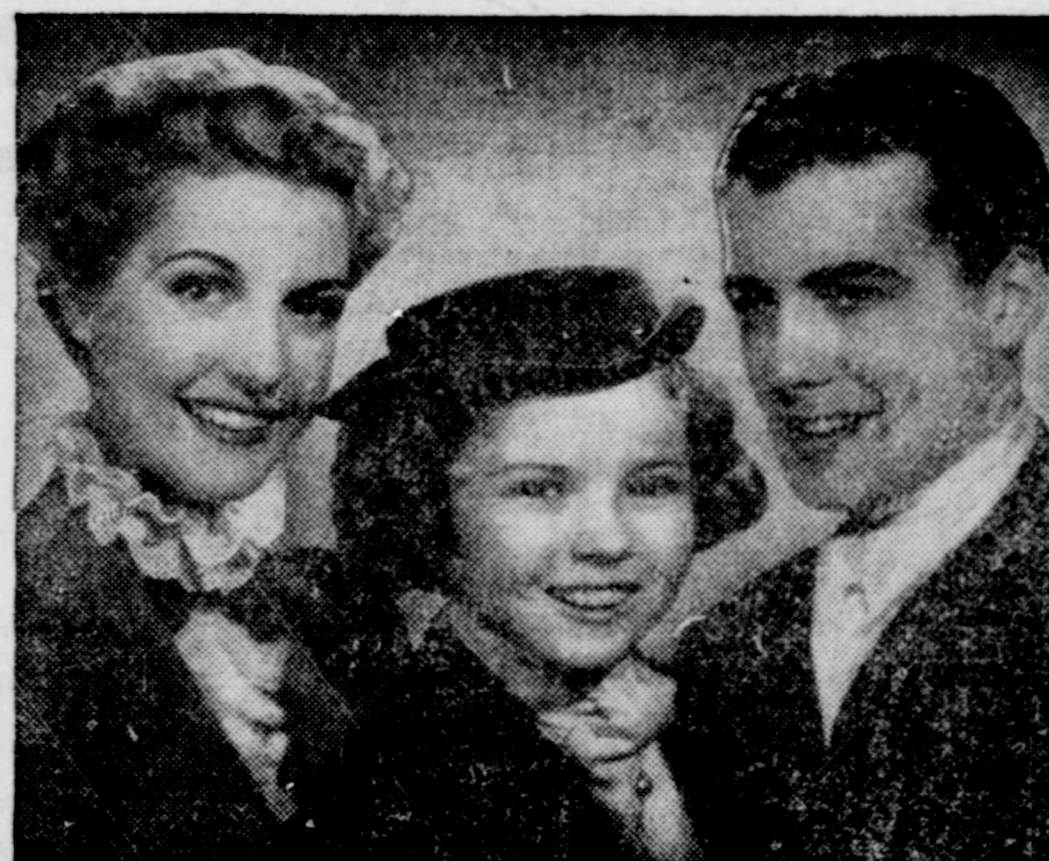

which according to round-about information, does not support it any too well, could be transferred. But it seems that the owner or owners asked for guarantees far in excess of what a town this size could pay. At the time this article was being prepared, all negotiations had been dropped and further developments are not likely to arise, if they should, the information will be found elsewhere in this issue.

Prominent Compress Owner Entertains Again on His Spacious Grounds Near Athens

Compress Men, Editors and a Few Prominent Texans Were the Guests of Archie Underwood at Lake Undy Lodge in Deep East Texas. A Great Time Reported

Some one might write that Archie Underwood "threw another party." But that would not be the facts in the case. While his parties are very informal generally, especially stag affairs, it could not be classed as "thrown" by any stretch of the imagination. In fact, at one of his parties, none of his many friends qualify Underwood with Mister. He is Archie to them, that is if they are near enough friends to be invited. A gentleman with as many friends as he, will perhaps always have a few uninvited if not unwanted guests. But you'd never guess it by watching him entertain.

Last week many editors over the south Plains, including Editors Frank Hill of the Lynn County News, Tahoka; Connally Baldwin, Reporter, Lamesa; J. M. Rankin, Slatonite, Slaton; Chas. A. Guy, Avalanche-Journal, Lubbock, and the writer, perhaps others that could not get away for the week end, were invited by Mr. Underwood, through his superintendents at the different compress locations, to spend the week end at Lake Undy Lodge about five miles from Athens, Texas. Now Athens, Texas is really in east Texas, and had there been no entertainment except just to lay around on the grass or under huge trees, it would have been sufficient. But there is no more noted privately owned lake and club house in Texas, perhaps, than that owned by Mr. Underwood near his old home town, and by the way one of the best towns in east Texas.

Our host for the trip, A. D. Repp, Supt. of the compress and warehouse here, picked us up about 12:30 p. m. Thursday. A brief pause was made at Lubbock, Mr. Darwin Prince, a prince of a fellow, and Editor Chas. A. Guy (Sharley) were picked up. Dudley knows how to put that Chevrolet down the road, in a safe, sane manner. He don't drive fast enough that a highway patrolman would ever stop him, but he just gets a gait and goes. Luckily on this trip, too, he didn't have a back or rear seat driver among the guests. Dallas was reached around ten, and a good night's rest at the Baker put us in trim for the trip to Athens and the lake.

You perhaps read of one of Mr. Underwood's parties not long ago in Life magazine, and know some of the tricks that are pulled on guests, but the way they come around, you'll bite in spite of all precautions. About the first one we bit on was that doggone trick chair that falls and explodes like a young cannon. The ceiling is rather high, but we think we reached it. But as soon as we saw that splendidly dressed lady in the bath room, we remembered seeing "her" in Life. But many of the men would retreat post haste back to the reception room. That night we were caught on another hot one. So used had we become to being fooled, when we were asked to go to the mike and tell the folks on the air what a nice time we were having, we did it with all the grace in the world with a sly grin and our fingers crossed. We had an idea the wire connecting that mike ran out to a big oak tree nearby and was lost to view in the grass.

But Dudley said we made a whale of a good talk about the wonderful entertainment Archie Underwood was giving his men and a bunch of country editors out there, but did we turn red when we found we were on a hook-up. Now then, if the other editors want to tell what they got into, well and good. We are putting it out only on ourself. It would take a much better landscape artist, or architect than a country editor to describe the buildings and grounds thereabout. But will state that it was not the intentions of the owner or the builders to put out something gaudy. Plenty of that in town. It rather gives you a pleasing idea of the rustic, with

Chevrolet Agency Change Hands Again

Having owned the Chevrolet Motor Co., agency here less than two months, Cye Tankersley sold it to the Teague-Bailey Motor Co., a firm composed of two of our hustling young business men, Messrs. Buddy Teague and Jack Bailey. Mr. Tankersley bought the business from Ralph Carter early in April.

Mr. Teague is well known here, having had a car agency here for some time, and is a hustling young business man. Jack Bailey has been here many years, and has probably sold more Chevrolet cars while employed by Mr. Carter than any other agent. The Herald hastens to join the other business men of the city in welcoming these young stalwarts of business ability into the ranks of the other business firms of the city.

The new firm members stated to a Herald representative that they anticipated a formal opening late next week, but at that time they were unable to set an exact date.

A large and complete stock of parts will be carried with able mechanics to care for their repair department. They have one of the most complete auto machine shops in this area.

Patsy Greenfield is the guest of Beverly Ann Duke in Lubbock this week.

everything nice and restful to make you forget the hot city streets of Dallas, Fort Worth or any other city. Did you know that a good builder can take pine logs and make a swell place with them? Now you have the idea and wish many of the fixtures and furniture lending harmony to the scene.

One of the pretties scenes is from the boat landing, looking up the steep incline to the club house. There is inspiration for the person with an artistic mind that can wield the painters brush. The steps are gentle, a few at a time, then a large section of terrace, all built of native rock of many colors. The whole hillside is covered with huge oak, shading a heavy carpeting of grass. Just makes you want to stop and spend time. Lay down on your back and forget the cares of the world. We caught several fish, but Connally Baldwin is the most persistent fisherman we ever saw. But deep east Texas has a lot of natural beauty to start with. Those of you who were invited and couldn't make the trip missed a treat. Next time strain a point to go. And if you are a better squirrel hunter than a fisherman, they have guns and dogs, and guides that know the deep woods.

Among some of the most prominent personages in attendance were Hon. Harry Hines, State Highway Commissioner, Hon. G. H. Nelson, State Senator from this district, and Sheriff Schmidt of Dallas, who is perhaps the biggest sheriff in Texas. There may have been others that briefly called while we were fishing, sightseeing or asleep. Senator Nelson is a good song leader, and enough tunesters, including some of the editors, notably Chas. Guy with his second tenor, struck up such favorites as Sweet Adaline, Let Me Call You Sweetheart, etc., before the breaking up of the party Saturday.

Now, just a word of our host. While he likes fun as well as any person you ever saw, refinement and good sportsmanship is written on every line of his face and movements. He is typically a gentleman. His Brownfield press is one of the best (high density) on the Plains, and he has storage capacity here for some 45,000 bales of cotton. He has lots of money invested here with a big payroll.

The Official Paper of Terry County and the City of Brownfield

Well, we are kissing good old May with its flowers and showers a farewell this week, but arise to welcome June with its college graduates and June brides. We have often puzzled why more brides accept June to get married and can't quite figure it out unless it is the month in which the girls get out of school or college, or perhaps from the school room, and are ready to take on the lad they think will reform and make something out of. Women sure are optimistic humans.

Welcome to the college boys and girls. We are glad to have you home and even more tickled if you were fortunate enough to make the grade of final exams. Folks, give them the glad hand when you meet them on the streets, show them that you are tickled to see them back home to help carry on the social and church work through the hot months. These boys and girls have been on nerve's edge for the past month getting ready for finals, and a word of cheer from their old friends will take a load of tingle out of their nervous system, and put a real fellow feeling in their hearts. Again, we welcome the college boys and girls home.

The Lubbock Chamber of Commerce through its manager, A. B. Davis, is urging the Press boys of Texas to be on hand June 8-9-10 at which time the Texas Press Association will gather in that city. A nice time with not too hot days and cool nights is promised the visiting newspapermen from all over the State. Personally we are not a member of the state association at present, but intend to be in Lubbock one or two days and renew as a member. We hope other newspapermen, especially from this immediate section, show up a good attendance record.

Of course we can never have the natural growth of native trees that they have in deep east Texas, but we can picture in our "mind eye" a thing of beauty and a joy forever down on our old Lost Draw, as we call it. Trees, if cared for will, in a few years reach great height, and will shade a large area, and grass can be made to grow and make the place lovely. Even stone cobbles or plain brick can be used to make a lovely pathway from a lake to a pictured club house upon the rise or the slope of the hill. Perhaps we can never expect a place to rival that of Archie Underwood's Lake Undy Lodge near Athens, but we can create a real city park. By the way, we were kinder non-plussed for a reason Archie's place is called Lake Undy, but learned that his late father, who started in the compress business was called "Undy" short for Underwood by his friends, and the name sticks to the lodge and lake area.

The Herald got a great kick out of the fact the Southern Baptist convention at Oklahoma City, went on record unanimously against the union of church and state in the United States. There was no misunderstanding their aim and motive. When the churches begin accepting the dole, or appropriation if you like, from the federal or state government, they are soon to be into trouble up to their necks. As it is, all men can worship God as they like in America, and the Protestant denominations at least can control their own school and church affairs. There are some religious bodies who do not care to send their children to public schools, which is their business, but if public schools are not good enough for their children, then they should not ask that general taxpayers foot the bill to pay for education in their privately owned

CITATION BY PUBLICATION

THE STATE OF TEXAS:
To the Sheriff or any Constable of Terry County, Greeting:
YOU ARE HEREBY COMMANDED to summon Jim Key, if he be living and the unknown heirs of Jim Key if he be deceased, by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in the nearest County where a newspaper is published, to appear at the next regular term of the District Court of Terry County, to be held at the Court House thereof, in Brownfield,

Texas, on the Fourth Monday in August A. D. 1939, the same being the 28th day of August A. D. 1939, then and there to answer a petition filed in said Court on the 19th day of May A. D. 1939, in a suit, numbered on the docket of said Court as No. 2359, wherein Ima Lee Martin, and her husband, T. Martin, Leona Knight and her husband, Winter Knight, and Jess Key are Plaintiffs, and Wm. H. Key, Earl A. Key, Boss L. Key, Jewell Black and her husband, Burl Black, Dock A. Key, Lastell McRaven and her husband, Haske McRaven, Velma Lee Rhinehart and husband, Roy Rhinehart, Anna Collum and her husband, Charlie Collum, H. M. Key and Key, if living, and if dead, the unknown heirs of Jim Key, deceased, are Defendants, and said petition alleging that the Plaintiff, Ima Lee Martin and the defendants Wm. H. Key, Earl A. Key, Boss L. Key, Jewell Black, Dock A. Key, Lastell McRaven, Velma Lee Rhinehart, Anna Collum, H. M. Key, and Jim Key, if living and if dead, the unknown heirs of Jim Key are the joint owners in fee simple and together are the sole owners of the W. half and S. E. 1/4 of Sec. 98, Blk. 4-X

containing 480 acres of land and all of Blk. 35 and 36 of the First Add. to the Town of Gomez, being part of Sec. No. 1, Blk. D-12, containing about 15 acres of land, all situated in Terry County, Texas, each owning an undivided 1-8 interest in said lands, and that the defendants Velma Lee Rhinehart and Lastell McRaven are the children and only children and heirs at law of Jim Key, deceased, and if the defendant is dead, and if the above named defendants are in fact the only children and heirs at law of the said Jim Key, they own jointly an undivided 1-8 interest in said real estate.

That said defendant Jim Key mysteriously disappeared and have not been heard of for more than seven years next before the filing of this suit and that the presumption at law is that said Jim Key is now deceased and that at the time and before his disappearance the defendant Anna Collum was the wife of Jim Key and that if he died, he died intestate, and that the defendant Anna Collum is claiming some right, title or interest in the 1-8 interest owned by the said Jim Key, if living, or his heirs and unknown heirs, if he be dead.

That such real estate is of the estimated value of \$10,000.00 that the said land and premises are in the possession of the defendants, or some of them with the consent of the plaintiffs and that the plaintiff Ima Lee Martin is entitled to an undivided 1-8 interest in and to the above described land and premises and an undivided 1-8 interest in and to all personal property owned by S. H. Key at the time of his death, plaintiff being the child and only heir at law of Mark Key, deceased and is entitled to said property, or an interest therein, by virtue of the last will and testament of her grandmother, Lucindy Key, deceased.

That plaintiffs Leona Knight and Jess Key being the children and only heirs at law of G. E. Key, deceased, have a valid and unsatisfied claim against the estate of Lucindy Key and S. H. Key, deceased, in that the last will of Lucindy Key and S. H. Key provided for the payment out of said estate to these plaintiffs the sum of \$50.00 each; that said claim has never been paid and that these plaintiffs are entitled to a lien against any property of the state, to secure the payment of such sum of money, and they pray for judgement against the state for the amount of their claim and the foreclosure of their lien.

Plaintiffs pray for a partition, and that upon final hearing they have judgement by the court determining whether or not the defendant Jim Key is dead or living and if dead, who are his heirs and only heirs at law; that said real estate be partitioned among such joint owners; that commissioners be appointed to divide and partition such real estate and personal property and an accounting be had for the rents and revenues of such property and that the plaintiffs Leona Knight and Jess Key have judgement against the defendants for the sum of \$100.00 with interest thereon; that a lien be declared against the joint owners of said real estate and that such lien be foreclosed and for cost of suit.

HEREIN FAIL NOT, and have you before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

GIVEN UNDER MY HAND AND Seal of said Court, at office in Brownfield, this 19th day of May, A. D. 1939.

The State of Texas,
To the Sheriff or any Constable of Terry County, Greeting:
YOU ARE HEREBY COMMANDED to summon Chas. C. Chapman, Adeline Maud Chapman, Ora A. Countryman, Guy A. Countryman, Helen L. Countryman, Freida A. Johnson, Emery D. Johnson and Helen G. Countryman, by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in the nearest County where a newspaper is published, to appear at the next regular term of the District Court of Terry County to be held at the Court House thereof, in Brownfield, on the Fourth Monday in August A. D. 1939, the same being

the 28th day of August A. D. 1939, then and there to answer amended motion for new trial filed in said Court on the 30th day of December A. D. 1938, in a suit, numbered on docket of said Court as No. 2200, wherein Chas. C. Chapman, Adeline Maud Chapman, Ora A. Countryman, Guy A. Countryman, Helen L. Countryman, Freida A. Johnson, Emery D. Johnson and Helen G. Countryman are Plaintiffs, and "John Sanns, Mrs. John Sanns, wife of John Sanns, an dthe unknown heirs of the above named parties, deceased, their heirs and legal representatives" were named as Defendants, and Jennie Sanns, Ralph Sanns and James E. Sanns file said amended motion as the heirs of said defendants; such motion further alleging:

They sue to set aside a judgement rendered in favor of the plaintiffs in this cause, dated January 18, 1938, against the defendants in this cause for title to and possession of the west half section Eleven, Block D-14, Terry County, Texas, wherein judgement was taken upon citation by publication, which judgement is alleged to be defective:

That affidavit for citation did not allege their names and residences were unknown, nor did it otherwise describe them, nor that they were non residents of the State, nor that the names of the heirs of John Sanns and Mrs. John Sanns were unknown.

That the citation published omitted from the names of plaintiffs that of Ora A. Countryman. That on trial, the evidence offered by plaintiffs did not connect them with the State, nor was defendant, nor these parties, nor was the judgement based on any statute of limitation.

That Case No. 1214 this court was relied on by the plaintiffs for such judgement, but such case was without service upon any defendant in any manner provided by law; especially that the writ expired before return was complete, and before statutory time of service, was by posting only, and not returnable to the judgement term, and time was incomplete at the returnable term, nor was it directed to any defendant therein, and being a tax suit.

That to procure the judgement herein plaintiffs relied on a judgement in No. 2172 this Court, but these parties were not parties to such judgement, nor did it tend to divest them of any title, nor their ancestors, nor any defendant herein.

That no defendant, nor these parties, have appeared nor answered in this suit nor in the two named suits.

That on trial, the evidence in this suit showed John Sanns as the owner of said land, and that he had never been divested of title nor possession.

That movants are all, and the only, children of John Sanns, deceased, and his widow, that he died without a will, and with no administration on his estate. 43c

D. Johnson and Helen G. Countryman. They pray such judgement of January 18, 1938, be set aside and a new trial granted.

HEREIN FAIL NOT, and have you before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

GIVEN UNDER MY HAND and the Seal of said Court, at office in Brownfield, Texas, this 16th day of April A. D. 1939.
Eldora A. White, Clerk, District Court, Terry County. 45c

BAPTIST CHURCH NEWS

Bible school attendance of 262 last Sunday was much below the average and the 568 who are enrolled in the school are urged to visit less often Sundays, and come to the Lord's house for study and worship. One addition by letter.

The proposition to enlarge and complete the church building to give the congregation added facilities and a good auditorium so much needed came up for discussion and settlement of same was deferred until next Sunday.

This improvement estimated to cost approximately thirty thousand dollars and with twelve thousand and cash in the bank to begin operations is a big undertaking

and many are hesitating and all agreed that additional money is needed before starting and the committee is active this week to see just what additional funds can be assured before the question comes up again next Sunday to definitely decide if this improvement will be undertaken at this time.

It is hoped that this committee will meet with much encouragement from every member of the church.

Brownfield is far below the average city of her population in church buildings and the city should be interested in every improvement that will bring credit to the community.

The best people before locating in a new home look out for the religious welfare of their families and investigate the religious as well as the educational advantages offered by the community and this very fact has already cost our city heavily and many have gone to Lubbock and built commodious homes that would not

have done so had we had better such facilities. Shall such losses continue?

Men who live in this community and are not members of any church would never have moved here if the churches were not here any they would soon leave if all the churches were removed and why should they try to think they have no responsibility in these problems. They have a social responsibility of helping to build and maintain such institutions but this is their least responsibility.

God holds them responsible to Him as much as he holds the member of the church responsible. The difference being the church member and religious man has in a measure if not fully recognized his responsibility and admitted it and the other seeks to avoid and sidestep his and often stays out and away from the church, refusing to admit any obligation, to his fellow citizen, his family and last of all his career.

If the people will rally and show some enthusiasm in this matter immediately this improvement can start, otherwise it will wait as it has been doing for so long.

RAISING WILD TURKEY IN 50 ACRE ENCLOSURES

AUSTIN, Texas, April 1 — A new method of raising wild turkey under semi-natural conditions being tested by the Game, Fish and Oyster Commission may pave the way to the stocking of many sections of Texas with the big game birds.

In cooperation with the United States Soil Conservation Service and the U. S. Farm Security Administration the Game Department has fenced a fifty-acre tract in the heart of the Fannin County land rehabilitation project area near Bonham. Forty-eight wild turkey trapped in Southwest Texas were released in the enclosure after their wings had been clipped.

Wild turkey do not thrive in pens, but it is believed that under the semi-natural conditions they have found in the fifty-acre tract they will prosper and propagate. A number of the hens have already nested. The birds are being given some food, but are foraging for most of their nourishment. When the young birds hatched

FACTS FAVOR FORD

1 The 1939 Ford V-8 is a beautiful, modern motor car. Its 85-horsepower engine gives you economical, well-balanced performance over the entire speed range — and the 60-horsepower engine is even more economical.

2 The structural strength of the Ford car — frame, bracing, axles, body — makes not only for safety, but durability and long life.

3 Ford hydraulic brakes are exceptionally large and strong in proportion to car weight.

4 The Ford car is stabilized for comfortable riding. Its springbase, the distance between front and rear suspension, is 123 inches. Seats are toward the center, perfectly balanced. The car does not bob or dip and can have very little sway.

These four points — power, strength, safety, comfort — are by far the most important essentials in any motor car. They form the basic value of your investment.

With this solid foundation to build on, the Ford V-8 has been made beautiful, spacious, easy to drive. It is richly upholstered and has all the modern features which add to the luxury and pleasure of motoring.

You can see these things when you take a trial drive, but do not forget that the main value is in the things you do not readily see — quality of materials, precision of manufacture, fundamental engineering.

on the area grow older it is expected they will fly over the fence. The older birds, when their wing feathers have grown out, will also leave the huge pen and will populate the surrounding territory.

Should the experiment prove successful it will be repeated in several areas of the State which provide the natural environment conducive to raising wild turkeys.

LIVE LONGER WITH MILK IN THE DIET

Proper diet pays a ten per cent dividend on the span of human life, in the opinion of Dr. H. C. Sherman, professor of chemistry at Columbia University and noted authority on nutrition.

Dr. Sherman's formula for lengthening life is simple: Increase the proportion of milk, vegetables and fruit in the diet. These are the "protective foods,"

those which supply the essential minerals and vitamins the body requires for efficient growth and prorestitution.

"For the general purposes, increasing the proportion of milk in the diet should add to the length of life," he says. "Intake of calcium and vitamins A, C and G is easily and economically secured by a moderately high percentage of the needed calories in the form of milk, fruit, vegetables and eggs. Milk supplies all four of these chemical factors."

Dr. Serman's deductions are based on years of laboratory research, particularly in experimental feeding of white rats. Some 65,000 rats have dined under his scientific supervision.

The R. L. Bowers family accompanied by Mrs. L. C. Wines visited Mrs. Wines' sister, in Houston, last week.

Kyle's Dad Explains His Side of Hunt

Last week we gave Kyle Graves' version of his squirrel hunt with his pa during his recent visit to old Erath county. In that article, we stated that if everything wasn't up to Hoyle that we had invited Mr. Graves to make reply. The answer came in Tuesday this week.

The funny side of the episode however, was that Kyle had not read his Herald when people begin teasing him about the hunt. Finally he asked how in the heck everyone heard about he and his dad going squirrel hunting. He then hunted up his paper and read the article.

We'll not give the version of Kyle's dad in full, but just a brief outline. Mr. Graves states that he and Kyle were out rabbit hunting the afternoon previous, and that Kyle did some tolerably respectable shooting, but that morning, he (Mr. Graves) took the pump shotgun to get the wild ones that tried to get in holes in the trees. But Kyle kept missing shots.

So finally Mr. Graves coached his son a bit about his "buck" or rather squirrel age, and got him "unlaxed" enough to shoot straight again. Whereupon, Mr. Graves left Kyle to his sport and returned to the car.

Another funny thing about the matter was that the yarn got out on Kyle that his dad had to hold the squirrels by the tail while Kyle shot them.

Jim Graves is having improvements made in the front of his Corner Drug Store. The old awning, a part of the Hotel Brownfield building, is being torn away, whether to be replaced with new awning, we failed to learn. Anyway, most of the new buildings now days do not have awnings. Jim always wants his place to look nice, and we'll bet it does when he finishes.

DEER EATING CHICKENS

The mystery of the "thefts" of small chicken from the farm of J. Stevens near Harper, Texas, was cleared up recently when Mrs. Stevens caught a young deer, of which the family had made a pet, devouring chicks.

Why deer, which are herbivorous, should turn away from their "vegetarian" diet is explained by State Game Department biologists as due to the lack of sufficient protein in their usual diet. The Stevens' pet was satisfying its craving for protein by consuming chickens.

ANNOUNCEMENT TEA

Mrs. Money Price announced the approaching marriage of Miss Orvalene Price to Mr. J. C. Rhader of Monahans, Texas, at an afternoon tea in the home of Mrs. A. J. Stricklin, Tuesday, May 30.

The home was beautifully decorated with soft shaded lights and gorgeous flowers carrying out the brides chosen colors of pink and orchid.

In the receiving line were the bride-elect in aqua blue sheer with corsage of pale pink carnations; the hostess, stately in rose flowered crepe, graciously introduced guests to other members of the house party: next in line came the bridesmaid, Miss Dona Leta Cook, in dainty chartreuse organza, and Mrs. Claude Hudgens of Levelland, very striking in salmon pink sheer and Miss Wynona Burnett, graceful in yellow satin.

The tea table covered with beautiful lace over blue satin and centered with pink and orchid sweet peas, over the reflector, flanked with miniature pots of pink roses, was presided over by the bride-elect's mother, Mrs. Lense Price, who was very lovely

in apricot sheer with lace and her aunt, Mrs. W. W. Price, very smart in black sheer. They were assisted by Mrs. W. W. Daniel, aunt, wearing blue sheer over crepe satin; Mrs. Earl McCutcheon, sister, in shell pink; Mrs. E. C. Davis in yellow net, and Dutch Marie Gracey in azure blue crepe.

Miniature newspapers placed on tea plates announced their wedding to take place June 17th. During the afternoon, Mrs. W. H. Dallas and Mrs. Mon Telford presided at the piano.

Other members of the house party were the bride-elect's grandmother, Mrs. T. J. Price; Mrs. Herman Trigg, Pampa; and Mrs. A. J. Stricklin.

About seventy-five guests called during the afternoon.

SHOWER FOR BRIDE

A lovely shower tea for Mrs. V. L. Patterson was given Friday, May 26, at the home of Mrs. Roy Wingerd.

In the receiving line were Mrs. Wingerd, Mrs. Cates, Miss Opal Sloan of Lubbock and the bride, Mrs. Patterson.

Delicious iced punch, dainty

open face sandwiches, ice box cookies and mints were served, and each guest was presented with a corsage of tiny pink roses.

A large number of friends called to wish the new bride happiness. She received many lovely gifts.

CHILD'S STUDY CLUB ORGANIZED

A group of ladies of the First Baptist church met last Wednesday afternoon at 4:00 o'clock and organized a Child's Study club for the Elementary department, Cradle Roll, Beginners, Primary and Juniors.

The purpose of the Child's Study club is to give parents and workers an opportunity to study together, that they may better understand how to deal with problems that must be met in leading the children to Christ and along the way of happy, wholesome living, and to bring the parents, themselves into close fellowship with their church and into deeper and more thorough understanding of its activities.

We invite, and urge that every officer, teacher and mother in this department bring the children and join this club, that meets the last Friday in each month, at 4 p. m.

Mrs. Bill Burson and small daughter of Persidio, Texas, came in Monday and will visit relatives a few days before entering Tech college for the summer term.

Mrs. W. D. Winn is entitled to pass to see at RIALTO Fri.-Sat.

All is being done, nothing overlooked, to make this a big gathering of happy, comfortable people, worshippers.

Leagues, Young People, and all will have their services on schedule time, 6:30 to 7:50 p. m.

TO THE NURSES AND ATTENDANT LADIES AT TREADAWAY DANIELL HOSPITAL

When God calls us all to our last account;

And assigns each one to his place of rest, Surely there's NONE to a higher place mounts;

In the eternal home of the blessed;

Than the white-robed forms in Hospital rooms;

Ever watchful and patient and kind;

They glide thru the halls and visit all the rooms;

Like Angels of Mercy they seek to find;

All the wants and to check all the calls;

With a re-assuring smile they come;

To your room and they glide thru the halls;

In response to a summon they run;

Their every demeanor bespeaks them true;

To their duties and love of their labors;

No menial service do they rue,

In assisting unfortunate neighbors;

God's choicest gifts shall embellish their hearts;

And surely we humans should seek to give;

Every token of love and cheer as our part,

To those Blessed Angels, now while they live.

—In Deepest Appreciation, from P. G. Stanford.

DAREN'T START DRY

EVEN if this is the camel that holds all records for going-without-more-drink, how long could he last if he had to start dry? Your car and your engine oil can't last either if you keep starting dry this Summer. But how can you help it?

You can't... not with any of these oils that are always in a rush to drain down to the crankcase completely.

You certainly can help it though, by getting your engine OIL-PLATED.

NEVER all down in the crankcase, no matter how long or how often you park your car, OIL-PLATING is lastingly close-knit to every inner engine surface by the action of Conoco Germ Processed oil. Patented Germ Processing creates the strong "power of attraction" that fastens non-detachable OIL-PLATING throughout your engine. Does chrome-plating drain down at a standstill? Neither does OIL-PLATING. Therefore actually in advance of starting, OIL-PLATING is ready to slide every working part into easy motion, without rasping dryness. And since OIL-PLATING doesn't fly off or fry up it helps your engine to shatter the record for going-without-more oil. That's why you want to OIL-PLATE today with Germ Processed oil, at Your Mileage Merchant's Conoco station. Continental Oil Company

NOBODY'S BUSINESS

By Julian Capers, Jr.

AUSTIN — The black shadow of next summer's political campaigns—which has never been very far in the background—fell athwart the legislative halls last week, as the two houses maneuvered for place.

The Senate, which has hammered away for four months with every tool in its kit to make the House accept its plan of foisting a \$50,000,000 sales tax constitutional amendment upon the people, and four times has been turned back by an undaunted House minority, opened the skirmish by adopting a resolution attempting to "reason" the House into doing what political sharpshooters, brute force, sulking and other tactics on the part of the upper body, have failed to accomplish. It recited the background of the social security program, cited precedent for fixing tax rates for pensions in the Constitution, and urged the House to pass its sales tax amendment.

House Hits Back

The House, as unconvinced by tardy "sweet reasonableness" by the Senate as it had been by repeated attempts to beat its ears down, promptly replied by adopting by an overwhelming vote, an omnibus tax bill calculated to raise, in the shape it left the House, about \$16,000,000 annually for social security. It ups the taxes on oil and gas, sulphur, and levies a 1 per cent sales tax on utility bills, motor car sales, and other "luxury" commodities. The vote was 110 to 25, as the sales tax bloc members scrambled to get on the band wagon, and write a record of "aiding the old folks." Rep. Ross Hardin tried to substitute the gross receipts tax bill for the measure, and Rep. W. N. Cory sought to kill it by striking out the enacting clause. The floor fight for it was led by G. C. Morris of Greenville, leader of the anti-sales tax bloc.

Thinks Senate Will Take It

What the Senate will do with the bill is problematical at this writing, but majority opinion inclines to the belief the House has put the Senate in a spot, and that the upper body will adopt the bill in some form, after considerable amendment. A loud howl from the taxed groups, especially the oil lobby, was being heard in the Senate lobby.

The House, belligerent after many weeks of battling, promptly rejected a Senate resolution for sine die adjournment June 3, and indicated it will "sit tight" until the Senate makes a record on the omnibus tax bill. Gov. O'Daniel, meanwhile, held his silence of the past few weeks, and there was much speculation as to what his strategic position will be when the legislative work is ended. Many observers here think the bitter controversy with the Legislature, and the apparent victory of the anti-sales tax group over the Governor has weakened O'Daniel with the people, and will make difficult his re-election. Others were a strongly of the opinion the Governor can "pour it on" the legislature for failure to give the old folks the \$30 a month he promised everybody, and win again the votes of the oldsters which was his biggest bloc in 1938. Only the future can give the answer—but the action of the next two weeks in the two legislative halls may give an accurate key to it.

Ferguson Raises Feeble Voice

The sales tax advocates have never given up the battle, and many of them still cling to the hope that the House may be pressured into accepting it at the last minute. Ex-Gov. Jim Ferguson raised his now feeble voice in behalf of the constitutional amendment program this week, with a letter to legislators, declaring there are 400,000 persons in Texas over 65, and it will require \$72,000,000 a year to pay them \$15 a month.

Still another black shadow was apparent in Austin, as underground channels reported the Federal Social Security administration will turn "thumbs down" on the liberalized pension law, which will admit from 50,000 to 100,000 new pensioners to the roll. Removal of the ability of relatives to support old folks as a test for eligibility is said to have drawn unofficial opinion from Federal pension moguls that Uncle Sam will retire from the pension alliance with Texas when it takes effect, because it does not meet the Federal requirement of pensions for the "needy aged." If that happens, the whole pension snarl will be worse snarled, and a special session to undo the disastrous work of the present session is regarded virtually a certainty. The hour of reckoning is fast approaching. The old folks are due to learn the hard truth in Texas pretty soon — and that is that neither the 46th Legislature, nor Gov. W. Lee O'Daniel has long white whiskers, or answers to the name of Santa Claus.

Names and News

Dr. Sidney M. Lister of Houston is new chairman of the State Prison Board, succeeding Joseph Wearden of Victoria, and Denver Chestnut of Kennedy, the popular South Texas newspaper publisher, became vice chairman... D. E. Blackburn of Victoria, past president of the Texas Bankers' Association, will head the South Texas C of C as president this year, while Ray Leeman, whose fine work in promoting all phases of South Texas development has been outstanding, was re-elected executive secretary for his 13th term... The poor old barber's price fixing bill, which got a second lease on life by withdrawal of a veto message after Gov. O'Daniel had signed it, was finally sunk when the governor again vetoed it, after Attorney General Gerald Mann held it unconstitutional a second time, after patchwork amendments failed to make it legal.

Cigaretts Yield Millions

Cigaret smokers of Texas, who will take another 1-cent a package tax rap if the House omnibus bill

is passed, contributed \$7,027,531 in tax money to the state's till in 1938, said Sam Kimberlin, comptroller's deputy who looks after the collections... Gov. O'Daniel also swung the veto ax on another bill by Clint Small designed to eliminate some appeals from district courts to Courts of Civil Appeals, on writs of error. Lobby talk was that Secretary of State Tom Beauchamp, who often advises O'Daniel on legal matters, didn't like the bill and advised a veto... It's a felony offense now to break out of jail in Texas. Final okay was given by the governor to the bill authored by Sen. W. E. Stone of Galveston, which grew out of a Galveston jail-break in which a guard was shot, and it was found the law provided no adequate penalty... The filibustering Senate, still trying to avoid a vote on the so-called fair trade act, took no final action on the county bond indebtedness bill, but debated the Clint Small substitute, already adopted, which would prevent a "grab" of millions by bond speculators, by repaying the counties only back payments on state-designated highway bonds, and leave the problem of the lateral road bonds to the counties to work out for themselves.

STATE POLICE ASK FOR STRONGER DRIVERS LICENSE LAW

AUSTIN, May 23. — Need for a strengthened driver's license law to weed out unfit drivers was emphasized as the Texas Traffic Officers Training School closed a two-week course at state police headquarters.

Among speakers who urged passage of the amended driver's license bill pending in the Texas Senate were Carl Rutland of Dallas, president of the Texas Safety Association, Inc., and Judge King S. Williamson of the Dallas corporation court.

"Suspension or revocation of a driver's license is no different from suspending a barber's license for example, or a beauty shop license for cause, or certain permits given operators by the Railroad Commission," Rutland pointed out. "If such provision is made in those fields, why not in the bigger one of safeguarding lives and property?"

Judge Williamson declared the privilege to drive "must be based on a driver's license law and examination of the individual on brains, physique, ability and knowledge of the law." He warned, "We've got to educate the man who thinks only 25 or 30 miles an hour to drive only 25 or 30 miles an hour," and advised the officers they are entering a new era in which "you'll use your head more and your feet less." Their main job, he said, will be to prevent crime instead of catching the culprit after the offense.

The training school, co-sponsored by state police and national safety men, closed with a comprehensive examination and a graduation luncheon. The school was the first of its kind ever held outside the auspices of a university or college and had Lieutenant Franklin M. Kreml of Evanston, Ill., the nation's outstanding traffic expert, as its main instructor.

Mr. and Mrs. Herman Trigg of Pampa, Texas, came in Sunday for a two week's visit with Mrs. Trigg's parents, Mr. and Mrs. A. J. Stricklin. They will visit Mr. Trigg's mother in Brownwood before going on to Chicago, where he will study under a famous band director.

"PAN-AMERICAN CORRIDOR" AT UNIVERSITY OF TEXAS

AUSTIN, Texas, May 23. — The University of Texas last week drew plaudits for its proposed "Pan-American Corridor" from a delegation of seven University of Chile students, swinging across this nation on a good-will tour.

Honor men at their 6,000-student campus, the delegation stopped on the Austin campus for two days and declared that fascist rumblings in South and Central America can best be hushed by a friendship-axis between the people of this hemisphere.

To open under the guidance of President-elect Homer P. Rainey to Washington.

In September and already tentatively approved by University regents, the school's Latin American Institute drew unanimous praise from the visiting Chileans as a "great stride in the right direction."

Designed to assume leadership in this country in cultural and educational relations between the Americas, the institute was labeled a "much needed culture barter" by Dr. Emilio Tagle Prouvare, University of Chile professor and director of the good-will group.

The delegation left Austin for a trek into North Texas, before moving to Chicago and thence east.

APRIL TRAFFIC DEATHS SLIGHTLY BELOW APRIL 1938

AUSTIN, May 22. — Traffic death toll for April was set at 90 fatalities as state police today rounded up statistics from the far corners of the state.

The total is somewhat below the April, 1938, figure of 94 deaths and is well below the official March, 1939 figure of 120 deaths, Colonel Homer Garrison, Jr., state police director, pointed out.

Actual fatalities occurring in March were 106, but 14 additional deaths were listed as unreported from preceding months for the same reason the April total will be augmented by one fatality previously unreported from February and seven deaths unreported from March.

"The reduction shows that safe driving can win over the most persistent highwayman of them all," Volonel Garrison declared. "Any way you want to figure it, at least 21 more persons are alive today because more people are driving safely."

Colonel Garrison pointed out that fatalities were reduced in the face of five weekends in April this year as compared with four week ends in the month of last year. Week ends generally exact the heaviest traffic toll.

STRANGE AUTO DEATHS

Sulins, Littlefield; O. A. Luallin, Tahoka; H. B. McCord, Tahoka; Carl Griffing, Tahoka.

There were 49 visitors representing 17 Chapters in different parts of the State. 46 members of the Brownfield Chapter and Council were present.

Two Companions, Geo. White, and O. B. Atkinson, both past 70 years of age, drove over 400 miles just to be at the meeting. Companion E. F. Brown, 87 years old drove 200 miles.

The Chapter was opened at 4 o'clock p. m. Tuesday evening and the Royal Arch degree was conferred upon Brothers Rollin McCord, Vernon F. Jones and Carlice Edwards from Tahoka, in response to a request from Tahoka Chapter No. 409.

Supper was then served "West Texas Style" in the Brownfield High School Gymnasium to about 65 Companions.

At 7:30 p. m., the meeting was called to order and Companion T. C. Redford introduced Grand High Priest Joe W. Pender of Denton, several Past Grand Officers and other noted visitors.

Companion Pender gave a 20 minute address on "Masonry and the Schools of Texas," which was intensely interesting, as Companion Pender has been associated with the North Texas State Teachers College at Denton for the past 26 years and has been a Mason over 40 years, so knows what he is talking about. His address was entirely too short for the satisfaction of his listeners.

After the above address the Royal Arch degree was conferred upon Brothers J. W. Sumpter and J. P. Aslin from Lamesa, in response to a request from Lamesa Chapter No. 339.

Wednesday morning, May 24th the Hall was opened at 9 o'clock a. m. for a visiting session with our visitors which seemed to be

thoroughly enjoyed by them all, as by our own Companions. This lasted until 2 o'clock p. m., when the Masters degree was conferred by the A. F. & A. M. Lodge on one of their candidates for the entertainment of the visitors. This gesture of friendship was certainly appreciated by the Council Companions.

At 4 o'clock, the Brownfield Council was opened and the Royal Masters degree conferred upon Companions Rollin McCord, H. B. McCord, O. A. Luallin, J. L. Nevills, Carlice Edwards and Prentice Walker of Tahoka and L. E. Sulins of Littlefield in response to requests from their Councils.

Supper was then served "Chuck Wagon Style" in Brownfield High School gymnasium, by several members of the Brownfield Eastern Star.

At 7:30 the Council was again called to order and the Select Masters degree was conferred upon the above Companions in regular form.

The Grand Master of the Council, J. D. Harrison, of Ovalo, was then introduced by Companion Joe Patterson, as was all the Past Grand Masters and other visitors.

Companion Harrison gave an interesting address on "What a Mason Should Do and Why," which was given the closest attention by the entire Assembly. Companions George White and O. B. Atkinson gave excellent talks along the same line. These talks by these old Masons were very instructive and we feel sure will make better men and better Masons out of all who heard them. Short talks were made by L. W. Dalby, F. O. Boles, H. J. McClellan and others.

The meeting was then closed by singing the old, old song, "In the Sweet Bye and Bye."

We had a good meeting last year, but everyone pronounced this one far better than it. Many of the visitors declaring it was the best they had ever attended.

Methodist To Hold Out Of Doors Meeting

According to Rev. John Hendrix, pastor of the Methodist church, who was in to see us Tuesday afternoon, the Methodist folks have decided to hold their revival out-of-doors, and have already taken the steps to do so. The location is in the rear of the church building, and has already been seated and lighted, with platform for the evangelist and singers.

Tuesday some thirty men, ac-

penters, electricians were assembled, and soon created the open air pavillion, where the meeting will be held with comfort to everyone. Rev Hendrix said the place will seat around 1,000 people comfortably. Even the piano underwent a tuning. The local lumber dealers very graciously furnished the lumber.

The revival proper will start Sunday with the arrival of Rev. Ray N. Johnson and wife, and the singer, Harry Armstrong, all of San Antonio. Rev. and Mrs. Johnson will have rooms at the J. B. Knight home. Rev. Johnson is reported to be a great preacher. You are invited to hear him.
