Long Distance Phone Circuits Improve

Parks Board Makes Recommendations

Lists Priority Items For Council Approval

After an inactive period, the Muleshoe Parks and Recreation Board is again meeting on a regular basis. The members, Joe King, chairman; Mrs. Sammie Lewis, Jerry Wennmuths, Mrs. John Agee, Mrs. Elizabeth Watson and Jene Leal made a list of recommendations they hope will be taken into consideration by the Council, concerning park policies as well as fiscal ties to park development.

During the last meeting of the Parks Board, members formulated some priority and long-range plans concerning park development for three of the parks within the City of Muleshoe.

One recommendation was a revised term schedule for Park Board members. The new schedule would enable three members to serve alternating two years.

Muleshoe Tri-State Rodeo Winners

The Muleshoe Tri-State High School Rodeo Team tallied the highest number of points and brought home the Team Trophy from the Hereford Tri-State Rodeo held last weekend, August 28-29-30. Eddie Mardis, son of Mr. and Mrs. Clifford Mardis, placed first in Calf Roping and first in Ribbon Roping, and together, he and Dan Ellis placed third and sixth in Team Roping.

Karen Mixon, daughter of Mr. and Mrs. Jack Mixon of Clovis, N.M., a member of the team.

Lions Sponsor Fish Fry Fri. Before Game

The Muleshoe Lions Club will hold a fish fry Friday, before the Muleshoe Football Game, beginning at 6 p.m. and serving until 7:30 p.m. Tickets will be \$2 and the fish fry will be held at the High School Cafeteria. This is an annual event sponsored by the Lions Club and everyone is urged to come out before the game and enjoy a good meal.

Bill Clayton Slates Bailey Visit

AUSTIN -- Bill Clayton, Speaker of the Texas House of Representatives, will be in Lamb and Bailey Counties on Monday, September 22, to discuss the proposed new Texas Constitution with area residents. One meeting will be held from 5:00 to 5:45 p.m. at the Sudan School. The Speaker will then meet from 6:00 to 7:00 p.m. in the Courtroom

of the Courthouse in Muleshoe. From 7:30 to 8:15 that evening, the Speaker will meet in the Springlake-Earth School Cafeteria.

Speaker Clayton, who is from Springlake, will comment on the proposed constitutional revisions and will answer any questions people might have on the new charter.

MULES WILL BE READY . . . Head Football Coach Chuck Stout says the Mules will be ready for the Dimmitt Bobcats Friday, September 5, at 8 p.m. when they meet at Bennie Douglas Stadium.

Mules-Bobcats Tangle Fri. For Football Season Open

The Muleshoe Mules will kickoff their 1975 Football Season this Friday night, September 5 at Bennie Douglas Stadium in Muleshoe, when they tangle with the Dimmitt Bobcats.

Head Football Coach Chuck Stout reports that the Mules have worked hard getting ready for their first game and have a good attitude this year. "The

kids are looking forward to Friday's game and I think they are all relieved that the pre-

Football Contest Underway

The Muleshoe Journal's Annual Back The Mules Football Contest kicks off in this edition of the Journal.

Readers are urged to try to pick the winners of 10 games and predict the scores of two tiebreakers. The tiebreakers will be counted as games picked. Entries must be turned into the Journal office by 5:30 p.m. on Fridays. Mailed entries must be postmarked no later than 5:30 p.m. Friday. Mailed entries should have FOOTBALL CONTEST written on the envelope.

Weekly cash prizes will be awarded. Cont. on Page 3, Col. 2.

season training program is about over," said the coach.

He pointed out that he is especially proud of the progress made by the young linemen, an area where they lost 11 people from end-to-end last year. "We really had to start from scratch there," said the coach.

"The backs have had a real good fall practice," he stated. Starting in the backfield will be Carey Sudduth as quarterback. Carey is a senior this year and runs on an option type offense and has since he was in junior high school. "He does an excellent job and throws the football real well," said Stout.

Right halfback will be Julian Dominguez, a junior, who has a great deal of quickness, good size, weighing about 175-180 pounds. "Julian has made tremendous improvement over last year," the coach commented.

The other halfback will be Tommy St. Clair, senior, who has had a good fall and will

be doing the punting. "I'm looking at three or four," he said.

SPAG Meeting Slated For September 9

The Board of Directors of the South Plains Association of Governments (SPAG) will meet at 10 a.m. Tuesday, September 9 at the Hilton Inn, Parlor B, 505 Avenue C, Lubbock, Texas.

The agenda includes: a project review docket; discussion of Manpower Subcontracts; Reconsideration of Bid Items on Conference Room Chairs; consideration of Work Program and Budget FY 75-76; out of state travel approval - SPAG President; affirmative Action Plan; Texas Youth Council - Community Assistance Program. Cont. on Page 3, Col. 6

83 Percent Increase By October 30, 1975

City Dads learned Tuesday, of an 83 percent increase in the number of long distance circuits between Muleshoe and Littlefield, is presently scheduled to be completed by October 30, 1975. This will include directionalized circuits which will make one-way circuits available from Muleshoe to Littlefield and help eliminate the present problem of customers reaching busy signals when dialing the operator.

This information was received in a letter from E. R. Richardson, district manager of the General Telephone Company of the Southwest, who was asked by the City Council to send them a letter containing a timetable of the improvements

being made by the telephone company.

The request from the City Council came about when General Telephone requested a rate increase in July and was turned down by the councilmen until the long distance service was improved. Sixty days after the improvements are made, the Council will then consider a rate increase.

Councilmen turned down the rate increase after receiving numerous complaints from local citizens and businessmen concerning the long distance service and not being able to get an operator. City Manager Dave Marr said General Telephone also received numerous complaints. Cont. on Page 3, Col. 1.

1974 Cotton Crop Smallest Since 1950

The 1,193,100 bale cotton crop on the High Plains in 1974 was the smallest produced in the 25 counties represented by Plains Cotton Growers since 1950 when the outturn totaled only 858,480. Per acre yield for 1974 averaged only 264 pounds against the 498 pound near-record yield of 1973, when total production came to just below 2.9 million.

In Bailey County planted acreage for the year 1970 was

84,400; 1971, 73,700; 1972, 92,900; 1973, 88,100 and 1974, 45,600. The five-year average totaled 76,340 while ten year average is 76,440.

Total number of acres harvested in 1970 amounted to 1,193,100. Cont. on Page 3, Col. 3.

Myastheme Clinic Set

The Northwest Texas Chapter of the Myasthenia Gravis Foundation, announces the forthcoming MELBA BANDY MASTERS MEMORIAL CLINIC for Myasthenia Gravis patients, Friday September 5, 1975, beginning at 8 o'clock in the morning, at the Hi-Plains Hospital, Hale Center, Texas. This free patient clinic is being funded by a Trust given by the E. E. Masters family of Cotton Center, in memory of Mrs. Melba Masters who was a victim of myasthenia gravis. It is hoped that many patients will benefit. Cont. on Page 3, Col. 5

CPR Course Is Scheduled

The Bailey County Division of the American Heart Association has announced that a Cardiopulmonary Resuscitation Training Course will be held September 14, 1975 at 1:30 p.m. in the Methodist Church Fellowship Hall, Muleshoe.

Dr. Gary Albertson of Muleshoe, will be conducting the program and will be assisted by Dr. Jerry Gregory.

They encourage all businessmen in Muleshoe and surrounding towns to send at least one employee to be trained in this life saving program.

"Some accidents or sickness can cause a person to stop breathing. A baby may suffocate if a plastic bag is over his head. A child may stop breathing. Cont. on Page 3, Col. 1.

Mule Race Golf Tournament

The Mule Race Golf Tournament, sponsored by the Muleshoe Country Club, directed by Ervin St. Clair will begin Saturday, September 6, at 1:30 p.m.

There will be 30 couples entered out of town and 30 couples entered in town. It is a husband and wife golf tournament and the winners will be eliminated by flights. Six flights eliminate one couple per hole.

After the golf tournament, dinner and a dance will follow to close the evening.

Police Report

The arrest docket at the Law Enforcement Center listed the following arrests: one for driving while intoxicated, one for assault, one for having no drivers license and one for being drunk.

College Football Off And Running

Always the start of another football season makes us feel a little like it's New Year's, Christmas, and 4th of July all rolled into one. So, starting our 19th year in this "butterflies - in - the - stomach" rat-race of grid forecasting, we're going to take time out right at the beginning and wish everyone "A Very Happy Football!" (Don't call the wagon . . . you have to be a nut to be in this business to begin with!)

It may be abbreviated, but the first week of college football should be very interesting. Last year's surprise power in the Southwest Conference, Baylor, takes on Mississippi. Georgia tussles with Pittsburgh in a North-South battle, and in a Monday night attraction, Alabama meets Missouri.

In addition, five of the seven teams that have just been pro-

moted to Division I status will be in action for the first time in their new roles as major college football teams.

The Mississippi Rebel has not been the strong man in the Southeast Conference that it once was, and it has a tough assignment against Baylor, our #7 team in 1975. Mississippi gets off to a poor start . . . the Bears will win by 17 points.

It should be almost a coin-flipper between the Panthers of Pitt and the Georgia Bulldogs. Georgia finished six and five during the regular season last year . . . Pitt was seven and four. Georgia is favored in the opener by two points.

Although the pro's don't take over Monday night football until later in September the Alabama-Missouri game will keep them from being mis- sed. The Tide, still shaken

after losing to Notre Dame in the Orange Bowl last January, will come back strong in this nationally televised contest. Mizzou, seven and four last fall, doesn't look to be quite ready to spring an upset this early. So . . . Alabama by ten points.

The five new additions to major college football that will see action Saturday are Arkansas State, Ball State, Central Michigan, Northeast Louisiana, and Southwest Louisiana. Central Michigan won the National Collegiate Division II championship last year, and in spite of heavy graduation losses, they should whip Western Michigan by 27 points. Southwest Louisiana is picked to be the only loser in the group as they're 9 point underdogs to Long Beach State.

BILL CLAYTON

MULESHOE HOSPITAL REPRESENTED AT RECRUITMENT DAY . . . Representatives of the West Plains Medical Center at Muleshoe met recently with graduate vocational nurses of South Plains College to discuss employment opportunities in the nursing profession. From left are Mrs. Gayle Richerson, director of nurses for the West Plains Medical Center, Mrs. Sheridan Scott of Levelland, G.V.N., Mrs. Marilyn Clark, certified operating room technician and assistant operating room surgical supervisor at West Plains, and Mrs. Bernarda Gomez of Levelland, G.V.N. The Muleshoe medical facility was one of about 11 hospitals and other facilities throughout the area represented at the recruitment day activities, sponsored by the SPC vocational nursing program.

letters from Muleshoe citizens and businessmen concerning the long distance service.

"We are also increasing the Littlefield to Lubbock toll circuits by approximately 35 percent," Richardson told the Council. "These circuits have already been placed in service. Another group of 10 circuits will be completed by September 15, 1975," he said.

Richardson further pointed out that General Telephone is in the process of converting to one-plus, direct distance dialing. This project is being coordinated with the Cooperative Telephone Companies, Bell Company, and General Telephone and is scheduled to be completed during the fourth quarter of 1976. This is a major undertaking requiring office building replacements and remodeling of the Littlefield Toll Center.

Cont. from Page 1.
Application for participation in the Festival should be made to Dr. C. Gwin Morris, Box 20, Wayland Baptist College, Plainview, Texas, 79072.

Mr. and Mrs. Charles Carter and son, Billy Wayne, from Abilene, visited her grandparents, Sunday, Mr. and Mrs. Scott Morris of Muleshoe.

Guests in the home of Mrs. Corda Taylor were her sister-in-law and brother-in-law, Mr. and Mrs. Earl Hardy of Post, Another brother-in-law, Bennie Taylor, from Snyder accompanied Mrs. Taylor to Pleasant Hill, N.M., to attend the family reunion.

Other relatives attending were Mr. and Mrs. Sammy Taylor of Denver City, Mr. and Mrs. Bub Hand, of Pleasant Hill, their daughter and family, Mr. and Mrs. Chilly Sanders and son, Chris, from Friona, Mr. and Mrs. Jerry Traylor and family, Scott, Shelley and Michael. Also, Wayne Taylor of Muleshoe attended.

Muleshoe Rotarians had as their guest speaker for Tuesday's meeting, Mule Football Coach Chuck Stout.

Coach Stout told the club that he was pleased with the teams progress and that the boys are working real hard. He said he was not as pleased as he would have liked to be with the Tullia and Abernathy scrimmages. He pointed out that Tullia has a good team, but the Mules improved at the Abernathy scrimmage. "We have a quick team, which is a good asset," Stout told the Rotarians. He pointed out that the Mule offense will be based on speed. Thirteen seniors graduated last year and almost the entire offense has had to be replaced this season. Lack in numbers and inexperience are the two main drawbacks the coach said.

Stout said they will open their football season playing against Dimmitt this Friday and they are looking forward to it.

Robert Shafer was the student guest of the Rotarians.

breathing if he is locked in an old refrigerator. An older person may have a heart attack. He may get a bad electric shock. Perhaps he may drown," said Dr. Albertson.

"You may be able to save a life if you begin rescue breathing immediately. This training will show you how to do it," he pointed out.

Other boys participating at the Hereford Rodeo and representing the Muleshoe team are Joe Bob Boone, son of Mrs. Jody Boone, Kim Black, son of Mr. and Mrs. Ralph Black, and Gary Herring, son of Mr. and Mrs. Cliff Buckner.

Cont. from Page 1.
four boys for the wingback position," said Stout, who is not ready to make that decision yet.

Billy Donaldson, junior, will start at right end, Billy played with the Junior Varsity most of last year and "has made tremendous strides as far as blocking is concerned," the coach said.

Starting at right tackle will be Rene Torres, a senior who Stout said is one of the team leaders. Stout is pleased with the hard work, leadership and dedication shown by Rene. In the right guard position will be Tom Pepper, a junior who also played junior varsity football last year. "Tom is little, but scrappy and does an excellent job," commented Coach Stout.

The center will be Robert Shafer, a senior and two-year letterman. Stout said Robert is an excellent competitor and a good team leader. James Cook will be at left guard. He is a senior, from the junior varsity last year and "has come a long way as offensive blocker," said Stout.

Billy Balderas, senior, is one of the team leaders and probably the strongest football players the team has, according to the coach. Billy is also a hard worker and will be starting at left tackle.

A split end will be Reuben Gonzales, who is "the fastest football player we have," said the coach. He pointed out that Reuben caught the ball real well and, "I guess he has had half the reception at the two scrimmages," stated Stout.

Juan Martinez will be a strong defensive tackle. Juan is up from the junior varsity and is very quick and very agile.

1974...
Cont. from Page 1.
76,500; 1971, 57,100; 1972, 82,500; 1973, 86,800 and 1974, 42,600 with a five year average of 69,100 and ten year average, 68,670.

The yield per harvested acre in 1970 was 314; 1971, 247; 1972, 421; 1973, 404 and 1974, 279, with a five year average of 333 and 10 year average at 361.

Total production in 480 pound net weight bales in 1970 was 50,100; 1971, 29,400; 1972, 72,300; and 1974, 24,800, making a five year average of 49,920 and 10 year average of 52,610.

In grade, the crop was 50% White, 44% Light Spot and 6% Spot, as compared to 75% White, 24% Light Spot and 1% Spot from the crop of 1973. Staple length for the 1974 season averaged 31.7 thirty-seconds of an inch, somewhat longer than the previous year's 31.06 thirty-seconds average. 49.3% of the 1974 crop stapled one inch or longer, compared to only 27.8% of the 1973 crop.

Microaire average for 1974 came to 3.07, well below the 4.13 average of the mature 1973 crop. Poor weather condition during the growing season was the primary factor in the decreased microaire average. 22.9% of the 1974 crop had microaire readings of 3.5 and above, as compared to 89.4% for the 1973 crop.

Pressley, or fiber strength (zero gauge) averaged 81,410 pounds PSI on the 1974 crop with 92.5% 75,000 pounds and above. Corresponding figures for the 1973 season were 81,940 PSI and 90.8%.

Elongation -- the percentage of stretch a given cotton will experience before breaking -- averaged 7.5% for 1974, the same as in 1973.

Mules...

Cont. from Page 1.
the coach pointed out.

Other defensive starters will be Larry Parker as weak safety. Larry is a senior and also the backup quarterback.

Rick Grogan, senior, and all district defensive back as a junior, will be playing strong safety.

Coach Stout is also undecided about the linebacker position. Speaking of the two scrimmages, at Tullia and Abernathy, Coach Stout said, "they showed us what areas we are weakest and where we need to concentrate practice." He said, "I feel like we improved a great deal in the Abernathy scrimmage, than when we scrimmaged against Tullia - progress is important."

The Mules will play their first game at home, against Dimmitt, Friday. "They have a good solid football team, two real good backs, both fair sized with good speed. They play real well," he stated. "Their offensive and defensive line-men also do a good job. As far as their passing, they throw the ball real well and most of their passes are play-action type passes."

"We are looking forward to a real good contest. I feel it will be a good football game and I think the Mules will be ready," Stout said.

He pointed out that there are 35 freshmen out this year, "they have had good practice, a lot of enthusiasm, a great deal of ability and is one of the better ninth grade classes we have had," said the coach.

He said, "One of our weaknesses is depth. We will run a pro-set offense almost exclusively, to utilize our quarterbacks ability to throw and keep the defense spread out for running room."

"On defense, we are running what is called 4-3-4, a similar alignment to what the pros use," concluded the coach. They will be playing against Olton, also a home game, on Sept. 12. Olton is one of the top rated AA teams in the state.

Mule fans are urged to get out and support their team Friday, and during the season.

Myasthenia...
Cont. from Page 1.

that the fund will be maintained through donations, enabling this free clinic to become an annual event and hopefully semi-annual. The trust fund is set up at the First National Bank of Hale Center, and memorials or contributions may be made directly to the account at the Bank.

If you are a victim of Myasthenia Gravis, or an interested person, you are urged to attend the Myasthenia Gravis Free Patient Clinic, Friday, September 5, 1975 beginning at 8 o'clock a.m. at the Hale Center Hospital, Hale Center, Texas. Appointments may be made by calling the hospital (806) 839-2471, ext. 36.

EXPANDED TRADE
The Senate has voted to permit expanded U.S. trade with Romania in the wake of increased Jewish emigration from that country.

HATHAWAY RESIGNS
Secretary of Interior Stanley K. Hathaway has resigned "for reasons of personal health."

Parks...

Cont. from Page 1.
year terms. The Board asked the Council to approve an ordinance amending the present ordinance to this effect.

With regard to the park development policies, the Parks Board will focus on the need for the particular parks, and let the city staff research the costs for budget purposes. The plans the Board would like the City Council to take under advisement include:

Priority items for the next fiscal year are restroom, storage and concession facilities located near the softball and football fields; eradication of bindweed on a continuing basis; eliminate drainage of water from Avenue G onto the softball field; two additional tennis courts; water fountain at the playground area; improved tennis court area parking and additional trees and plants at the tennis courts for windbreak purposes.

Other non-immediate items would include rest rooms in the tennis court area.

EAST SIDE PARK (Avenue C & E, 5th & E, 6th Street) Priority items recommended would include improvement of surface under the playground equipment; chain nets for basketball goals and eradication of weeds on a continuing basis.

PARK LOCATED NORTH OF LITTLE LEAGUE PARK, between Lenau and Country Club Addition (5 acres) - Priority items include filling in with dirt to bring above the flood level; establish grass, playground equipment, picnic tables, water fountains, trees and shrubs.

Fully realizing certain fiscal restraints on the part of the city for allocating funds to departments, the Board feels that the above goals are essential to the development of the City, not only as they see it but as other citizens see it who have commented to Board members. They ask the city dads to take their recommendations under consideration when they plan the budget for the next fiscal year.

Clayton...
Cont. from Page 1.

sent document. Under the leadership of Speaker Clayton and Lieutenant Governor Hobby, the Legislature built on the work of the Convention and agreed to give Texas voters the opportunity to vote yes or no on each of the revision proposals.

The election deciding the fate of the new constitution will be held November 4. This will be the first time since 1876 that Texas voters will have the opportunity to vote on a complete constitutional revision.

Citizens will be able to read and study the proposed constitution in full because every registered voter in the state will receive an information booklet on the constitutional revision. The booklet will contain the full text of the proposed constitution, background information, and an outline comparing the present and the proposed documents. It is being mailed the second week in September by the Secretary of State's office.

On Wall Street

By Bob Hill

The Russians will buy more wheat from the U.S. this year. In fact, there is a real probability that the Russians will be net importers of grains until at least 1985. Right now, the Russian shortfall of grain this year will exceed the 1972-73 shortfall when the Russians quietly picked up 29 million tons of grain and the price of food world-wide went through the roof.

Thus far the Russians have picked up 14 million tons of grain from the U.S., Canada and Australia. There isn't a great deal of excess grain left anywhere in the world but the U.S. Although Secretary of the Agriculture Butz is talking about selling 5 million additional tons to the Russians, current discussions now being held with the Russians are in the range of 8 million to 10 million tons. That would mean total U.S. grain sales to the

Russians this year of 18 million to 20 million tons, about the same as the 1972 sales. It would also mean another transportation shortage with grain having to be shipped in open freight cars, especially if the Longshoremen keep the St. Lawrence, Gulf Coast and East Coast ports closed for any length of time.

Much of the Longshoremen's refusal to load grain in ships bound for Russia is to force the Administration to withdraw opposition to legislation in Congress which would help the U.S. merchant marine become more competitive and also require more U.S. grain shipped to Russia carried in U.S. ships. Not only are the Russian grain purchases embarrassing to the Russians because of their obvious inability to cope with their needs, the Russians have also had to go borrow the money with which to pay for the grain.

The three reasons why we have a shortage of food in the world today are Russia, China and India. The agriculture industry in each of those three countries is a disaster area.

He reported on research findings to some 3,000 crop scientists meeting here today. The soil scientists are members of the American Society of Agronomy, Crop Science Society of America and the Soil Science Society of America attending the 67th annual meeting on Agronomic Research for Food.

An experiment was conducted under the direction of the Texas Tech professor of agronomy to determine nitrogen and water use efficiency of several different sorghum types.

"Four grain sorghum hybrids differing in seed color and endosperm texture were evaluated as to their response to nitrogen fertility and water stress. The nitrogen treatments included three rates applied twice in a factorial design," Krieg said. "Water stress was imposed during the late boot and bloom stages of development. Irrigation water was supplied based on daily leaf water potentials."

"Plant response was evaluated at six different stages of development. Yield responses were evaluated as a function of all yield components."

Generally, increasing rates of total nitrogen increased maximum leaf area expression and resulted in greater retention of leaves during the grain filling period, he said. Seed number increased in proportion to leaf area as a function of nitrogen treatment. Water stress resulted in reduced seed number primarily due to reduced head exertion.

The agronomist said, however, seed weight was inversely related to seed number.

SPAG...

From The Journal Files

10 Years Ago

Muleshoe Jaycees heard two youths who attended the recent Attorney General's Youth conference in Austin. Speaking at Monday's Jaycee luncheon were Dennis Burrows, son of Mr. and Mrs. Olan Burrows, Larry Meyers, son of Mr. and Mrs. Jinx Meyers. Jaycees contributed \$50 to expenses for the youths. The club also voted to join with other civic clubs in paying for a teacher appreciation luncheon held last Tuesday.

Three Muleshoe men who are members of the Agriculture committee of the West Texas Chamber of Commerce, met with the committee in Abilene last week. They were James Glaze, M.D. Gunstream and V. T. Tanner.

Mr. and Mrs. Howard Andrews, Childress, and Mr. and Mrs. Bob Etheredge, Fort Worth, visited Mr. and Mrs. J. G. Arnn this past week. Mrs. Andrews and Mrs. Arnn are sisters and Mrs. Etheredge is Mr. and Mrs. Arnn's daughter.

Two Muleshoe couples are reported to be enjoying their vacation trip to Vancouver, Can. Inez and Pat Bobo and Vera and Sam Fox are taking in the lovely scenery and interesting places. They especially find their trip most enjoyable because the people are so friendly and interesting. They will have several weeks vacationing before returning home.

Joanna and Roy Wrinkle and children have enjoyed a recent trip to Colorado mountains. Tuesday they returned from a visit with her parents in Tulia.

House guests in Muleshoe this week is Lyrtle Lenau, Hobart, Okla., a sister of Julian and Charles Lenau.

Debbie Wagon and Ann Newsom were initiated into the Muleshoe Assembly of Rainbow for Girls at the Masonic Hall here last Monday night.

Mrs. Joan Queby, grand visitor from Plainview and several Plainview Rainbow Girls attended the meeting along with several Eastern Stars and Masons.

20 Years Ago

Mr. and Mrs. Carol Ray, Jr., and son, Frankie, of Lawton, Okla., visited this week with her sister, Mrs. Bill Collins and family.

Mr. and Mrs. A. F. Robertson of 701 West 2nd spent

from Tuesday until Saturday at Fort Worth with their daughter and son-in-law, Rev. and Mrs. A.F. Thiessen and also visited at Milo, Okla.

Mmes. Clyde Holt, Russell Bryant, Harold King, Woodie Lambert and Charles Alsup attended the Inter-city golf tournament at Morton, Sunday afternoon.

Mr. and Mrs. T. L. Kent spent the past weekend in Abilene.

Mr. and Mrs. Clyde Waggoner and Mr. and Mrs. J.L. Waggoner were in Lubbock Sunday, where they attended the Hill County reunion and Walker family reunion.

Mr. and Mrs. Delma McCarty, Mr. and Mrs. Buford Butts and Patricia and Elizabeth Harden attended the graduation exercises Friday evening at Texas Tech, for Mrs. Fuston McCarty.

30 Years Ago

Mr. and Mrs. Vance Waggoner and children returned Saturday from Goldthwaite, where visited with Mr. and Mrs. H. C. Hennington.

High school principal and Mrs. Walter McGuire will make their home this winter in the former home of Mr. and Mrs. Chester Layne.

Neil Rockey was in El Paso Tuesday on business.

Among Muleshoe young people to attend Texas Tech, Lubbock, this fall are Miss Mary Sue Osborn, the daughter of Mr. and Mrs. Jesse Osborn and Miss Barbara Morris, the daughter of Mr. and Mrs. Arnold Morris, both being Seniors.

40 Years Ago

Francis Gilbreath left last Sunday morning for Canyon where he will enter West Texas State Teachers College.

J.B. Burkhead, Miriam Pool and Roy Jordan attended the baseball tournament in Clovis, N.M. last Monday.

Mr. and Mrs. Ophel Jennings of Lazbuddie, visited in Muleshoe Sunday afternoon with Mr. and Mrs. G.O. Jennings and family.

Mr. and Mrs. W. L. Boen of Clovis, N.M. spent the weekend in Muleshoe Sunday afternoon with Mr. and Mrs. G. O. Jennings and family.

Mr. and Mrs. Clyde Holt of Morton visited here Sunday with his parents, Mr. and Mrs. H. C. Holt and with her mother, Mrs. Irma Mitchell.

The question of where to park is becoming increasingly difficult.

Miss Hodges and Lindell Wilson

Judy Hodges, Wilson Honored With Shower

Miss Judy Hodges, bride-elect of Lindell Wilson, was honored with a bridal shower in the Muleshoe State Bank Community Room on August 30, 1975 from 3 to 4:30 p.m.

The special guests attending were Mrs. R. G. Wilson of Muleshoe, mother of the groom, Mrs. Ella Lindley of Littlefield, grandmother of the groom, and Mrs. Spencer McCarty of Plainview, aunt of the groom.

The serving table was covered with a white and blue out-work cloth. Crystal and silver appointments were used in serving. Golden punch and thumbprint cookies with blue

centers carried out the bride's chosen colors of blue and gold. The napkins were blue with Judy and Lindell printed in gold. The centerpiece was a cileus plant.

The hostess gifts were a blender, gold sheets, pillowcases and the centerpiece.

Hostesses were Mrs. Jack Oehnhaus, Mrs. Jesse Fox, Mrs. Guy Kendall, Mrs. Mabel Wolfe, Mrs. James Crane, Mrs. Tom Jinks, Mrs. Alden Henderson, Mrs. Kathleen Frances, Mrs. Kerry Moore, Mrs. Bill Wooley, Mrs. V. T. Tanner and Mrs. Dalton Mimms.

LOUISA'S LETTER

Dear Louisa,
We were very poor when I was a child but we lived in a large city and there were many free things we could see. The school I attended was not the best but I had a very good teacher who was interested in me and who helped me with books and later on with a scholarship to a college.

I taught school and married the principal of the school and we have had a very happy life. We have four children and I am eager to give these children the things I never had as a child. My husband thinks I carry that idea too far but I have a fund already set up to help with their education.

What do you think about this? Mother--Col.

Answer:
I think that many people who lacked luxuries and some necessities when they were young do go overboard in lavishing material things on their children. Youngsters can be happy with simple things.

Thinking ahead about your child's education is a different matter and it is simply good judgment on you and your husband's part to prepare for the children's future needs along that line. It usually pays big dividends when the time comes for them to choose a career.

Louisa.

Address: Louisa, Box 532 Orangeburg, S.C. 29115.

Will Be Hard
One of the hardest jobs of reconversion is making a school pupil out of a vacationer.
-Gerald, Boston.

Bridal Shower Honors Mrs. David Faver

Mrs. David Allen Faver, formerly Miss Anne Castleberry, was feted at a bridal shower, Thursday, August 28, from 8:00 to 9:30 p.m. in the Tri-County Community Room.

Special guests attending were Mrs. Lawrence Castleberry, mother of the bride, Mrs. Ronnie Proctor, sister of the bride, Mrs. Sue Proctor of Friona, mother-in-law of Mrs. Ronnie Proctor, Mrs. Joyce Faver, mother of the groom and his brother, Creston Paul of Portales, Mrs. Creston Faver of Muleshoe, her fiancée and his best man, Mark Barnes.

Linda Reed of Pampa registered the guests. The table decorations were carried out in pink, blue, and white, bordered cloth and centered with a vanilla candle under a globe, with blue wed-

ding bells and blue and white flowers around it. Pink punch with fingerprint cookies and nuts were served by Mrs. Ronnie Proctor, sister of the bride. Crystal appointments were used in serving.

Hostess gifts were the centerpiece on the serving table and a brown and gold quilted bedspread.

Hostesses for the occasion were Mrs. David Sudduth, Mrs. Alex Williams, Mrs. R. Wayne Williams, Mrs. E. Jim Shafer, Mrs. Frank Parker, Mrs. Ronnie Parker, Mrs. Clifton Finley, Mrs. Clinton Kennedy, Mrs. C. H. Long, Jr., Mrs. Olan Burrows, Mrs. Larry Combs, Mrs. Darrell Turner, Mrs. Orbie Chandler, Mrs. Jeff Bryant, Mrs. J. H. Lackey and Mrs. Bill Bruce.

"Protein -Of First Importance"

"Prime" meat does not provide better-quality protein than lesser grades of meat. The grade of meat refers to eating quality rather than to protein or nutritional quality. In fact, since "Prime" meat generally contains more fine marbling of fat it actually contains less protein than the "Good" grade.

Your protein needs, as an adult, are based on your weight (this should be your "ideal" weight) rather than on your caloric requirements. Under normal circumstances, you need a little less than 1 gram of protein per day for every 2.2 lbs. body weight. Of course, larger amounts are needed during periods of rapid growth. A pregnant woman needs about 30 extra grams per day.

Contrary to popular belief, athletes of persons engaged in strenuous physical activity do not need extra large amounts of protein -- namely, meat. Increased need for protein is only slight, due to loss of nitrogen in perspiration or during the initial period of heavy activity, when there may actually be more muscle tissue being formed.

It's important to remember that the need for protein is increased during and following periods of stress such as surgery, high fever, severe burns, infection, or other "wasting diseases." These result in actual tissue breakdown, requiring extra amounts of protein in order to rebuild or replace the destroyed tissues.

It is unfortunate that older persons frequently think they need less protein because their bodies are "slowing down." As we get older, we usually need fewer calories because we are less active and are utilizing less energy, but our protein needs do not decrease. In fact, older persons may need somewhat more protein due possibly to somewhat poorer utilization.

The word protein comes from a Greek work meaning "first place." Since the name seems very appropriate, it's "first place." Since protein is an essential part of all living substances -- including you -- the name seems very appropriate. It's well known that protein is needed for growth, but it is also needed even to maintain life.

ered high-quality proteins. The highest quality proteins are found in animal foods such as meats, eggs, fish, poultry, cheese and milk.

Soybean, garbanzo bean and peanut proteins are almost as good in quality. Green leafy vegetables furnish good quality protein also, but in extremely small amounts.

Plant proteins, in general,

are of poorer quality than animal proteins. However, they can supplement each other when combined at a meal or when combined with a small amount of animal protein. Good quality protein -- that is, a good balance of amino acids -- can be achieved by various combinations of cereals, legumes and nuts or by combining with milk or eggs. For example, rice with beans, legumes with nuts, cereal with milk, macaroni with cheese are all ways of providing good-quality protein at a meal.

Do we need to worry about getting enough high-quality protein? Most Americans don't because we are great meat lovers and have been blessed with an abundance. With rising food costs, however, there is some indication that we may be cutting back somewhat on the amount of meat we eat. Even so, surveys indicate that most of us eat more meat than we need.

The word protein comes from a Greek work meaning "first place." Since the name seems very appropriate, it's "first place." Since protein is an essential part of all living substances -- including you -- the name seems very appropriate. It's well known that protein is needed for growth, but it is also needed even to maintain life.

XI Omicron Portrays Bicentennial Theme

XI Omicron XI Chapter of Beta Sigma Phi held its "Beginning Day" Social in the home of Mrs. Doyce Turner, with the social committee, in charge of the salad supper, preceding the informal meeting. Mrs. Max King is the social chairman and Mrs. Turner and Mrs. John Neil Agee are members of the committee. Mrs. Paul Poyner is president of XI Omicron XI Chapter.

The yearbook committee distributed the 1975-76 yearbooks which portray the BI-CENTENNIAL Theme. The chosen program topic for the year is "Let Heritage Ring" and is concerned with "Woman and Her Heritage."

The first regular meeting for XI Omicron XI was held Tuesday, September 2, with Mrs. Don Rempe and Mrs. Curtis Walker as co-hostesses. Mrs. Doyce Turner and Mrs. Eric Smith introduced this year's program theme with a program on "Woman, Her Heritage, and Her Hope".

Members present in addition to the hostesses were Mrs. Marcia Henry, Mrs. Joe King, Mrs. Paul Poyner, Mrs. Charles Pummill, Mrs. Don Rempe, Mrs. Eric Smith, Mrs. Spencer Tanksley and Mrs. Curtis Walker.

First Baptist Plans Revival

Revival services at the First Baptist Church begin on Sunday, September 7. There will be an evening service during the revival at 7:30 p.m. with the exception of the Sunday evening services, held at 7:00 p.m.

Besides the evening services, there will be other services. There will be a breakfast for the men and boys on Monday morning, September 8, at 7:00 a.m., sponsored by the Baptist men. Noonday services will be from 12:00 to 1:00 p.m. on Tuesday, Wednesday and Thursday of the revival week. There will be a short, abbreviated service, in connection with each noon meal.

A Youth Tennis Tournament has been planned for Saturday, Sept. 13, from 2:00 to 5:00 p.m. with a pizza party planned at the the XIT Restaurant from 6:15 to 7:15 p.m.

During the vacation months an ice cream social was held in the home of Mrs. Max King. The scrapbook for the 1974-75 year, was awarded 3rd place in state competition and later presented to the past president, Mrs. Marcia Henry. The scrapbook committee was Mrs. Charles Pummill, Mrs. Don Rempe, and Mrs. Joe King. XI Omicron members who attended the state convention, in San Antonio, in June were Mr. and Mrs. Max King, Dr. and Mrs. Charles Pummill, and Mr. and Mrs. Doyce Turner.

Nursing Home News

by Myrtle Guinn
What a surprise I had today on my birthday. I received three roses in a vase from two dear people. Thanks very much for remembering me on my birthday.

The singers from West Church of Christ came with their minister and sang awhile for us.

Mrs. Harper, Mrs. Harbin and Mrs. Jackson still are in the hospital. Homer Johnson is also. We hope they have a speedy recovery.

Mrs. Lewis is better and back in her room. We are wishing better health for her and the others. Mrs. Bray and Mrs. Miller has also been sick.

Mrs. Myrtle Lathams daughter and her husband from Farwell came to see her Sunday afternoon.

"Aunt Dot" Wilterding receives lots of company everyday.

Mr. and Mrs. James Walker and Bennie of Oklahoma City, daughter of Dr. and Mrs. McDaniel came to see them over the week end. Their other daughter and husband, Mr. and Mrs. Kenneth Largent of Littlefield also came to visit.

Mrs. Lewis is in the hospital. She was taken on Friday and everyone hopes she will feel better soon.

BONNETT AND SHAW OVER ONE HUNDRED YEARS OLD . . . Left is Jeff Sliger, (centered) is Mrs. Ora Roberts of Muleshoe, and on the right of her, Timmy Sliger, sons' of Mr. and Mrs. Tommy Sliger of Muleshoe. Mrs. Roberts is a member of the Senior Citizens and won first place with her bonnet and shaw. These were Grandmother Poindexter's and they both are over one hundred years old.

TOPS Present Contest For Weight Loss

The TOPS Club met Thursday, August 28, in the Bailey County Co-op meeting room for their regular weekly meeting. There were 18 members weighed in. Mrs. Bobby Newman was in charge.

Mrs. Dee Clements was the weekly queen and first runner-up was Mrs. Buria Vinson. There were three ladies tied for second. They were Mrs. George Chandler, Mrs. Leon Spears and Mrs. Dan Vinson. Mrs. Lewis Shafer, Vivian

White and Mrs. Glenn Stroud presented a new contest at the meeting. The contest includes using baby jars with each one containing eight dimes. Each member will receive a jar with eight dimes. The looser will take a dime out of his jar, and the gainer will put two dimes in. At the end of the contest, the member who has the least dimes in her jar, will receive all the dimes in everybody's jars.

Vivian White is the assistant treasure and Mrs. Dan Vinson won the cancan and Mrs. Raleigh Mason gave a pep talk

urging each member to choose something to help them loose weight meal by meal.

Mrs. Taylor's Nephew

Heart Attack

Lynn Anderson was a recent guest of Mrs. Corda Taylor of Muleshoe. He stopped through on his way back from Phoenix, Arizona where he had attended funeral services of his and Mrs. Taylor's nephew Clayton Turner of Phoenix.

Clayton suffered a heart attack at his uncle's house, Lawrence Anderson of Anton. Turner had visited most of the summer in Pleasant Hill, N.M.

with relatives, Mr. and Mrs. Robert Servatius and others in Muleshoe and Anton.

Turner had planned on leaving for Nebraska the next day, when he suffered his heart attack. His body was flown back to Phoenix and his wife and son returned by car.

New Badges And Yearbooks Presented

The Alpha Zeta Pi Chapter of Beta Sigma Phi held its beginning day social, Tuesday, August 26, in the home of Mrs. Reagon Cox, with members of the social committee, Mrs. Dick Chitwood, Mrs. Danny Noble, Mrs. Ted Barnhill, Mrs. Clifford Black, and Mrs. Bob Finney, serving as co-hostesses.

This will be the sixth year for Alpha Zeta Pi and it now has 24 active members. Alpha Zeta Pi has made great strides as an asset to the community in sorority merits and has been an instrument toward many new friendships.

The theme for the beginning day social was based on this year's international theme which is "Let Heritage Ring" and the nation's bicentennial and all the members were asked to wear red, white or blue.

President, Mrs. Kearney Scoggin opened the meeting with the opening ritual. Executive officers and committee chairmen gave their reports. The program book for this year was presented and the new badges for the member's pins were passed out. Names of prospective rushees were announced. It was also announced that Alpha Zeta Pi's annual Bingo Carnival will be held November 20 at the Catholic Center.

Members attending were Mrs. Kearney Scoggin, Mrs. Garry Shipman, Mrs. Monty Dollar, Mrs. Reagon Cox, Mrs. Gene McGlaun, Mrs. Tommy Black, Mrs. Ted Barnhill, Mrs. Bob Finney, Mrs. Jerry Wenmohs, Mrs. Paul Wilbanks, Mrs. Dick Chitwood, Mrs. Mike Miller, Mrs. Eugene Howard, Mrs. Corky Green, Mrs. Jerry Gleason, Mrs. Danny Noble, Mrs. Don Chak, Mrs. Clifford Black, Mrs. Hilbert Wisian and Mrs. Tommy Merritt.

The yearbooks for this year were handed out and the President's message was read. The members of the yearbook committee are Mrs. Paul Wilbanks, Mrs. Dick Chitwood, Mrs. Louis Cardinal and Mrs.

Gene McGlaun.

The hostesses then served members refreshments of layered sandwich loaf, carrots, cucumbers, tomatoes, potato chips, cherry cheese cake, tea and coke from a table decorated in red, white and blue.

by the Screen Manufacturers Association

About 50% of the energy you pay for is used to heat and cool the air that sneaks into your home through cracks around doors, windows, foundations, and fireplaces.

Before you purchase a new high efficiency air conditioner and furnace, stop the leakage of air around and

through doors and windows. The money you invest in these new features is wasted unless you plug up the holes and cracks.

Now think about your furnace. If it is 10 or more years old, you might consider replacing it. Chances are that it is operating at somewhere below 50% efficiency. A new quality furnace should burn with an efficiency of 70%.

When you build, or add storm windows or doors to your house, don't be talked out of screens just because you will or do have air conditioning.

There are many days when cool weather will enable you to turn off the air conditioning, enjoy fresh air and save money—but only if you planned ahead by including screens in your purchase.

RELAX BENEATH WHISPERING PALMS . . . are L to R Mrs. Terry Parham, (center), Mrs. Johnny St. Clair and Mrs. Derrell Matthews, members of ESA urging everyone to attend the annual "Polynesian Paradise" luau held Friday, September 5, at the Catholic Center.

ESA Luau Festivities Set For September 5

The Muleshoe Catholic Center will be the scene for this year's ESA Luau, to be held Friday, September 5. The theme, "Polynesian Paradise", will be carried out to its fullest.

The festivities will begin at 8:00 p.m. with Happy Hour. You will relax beneath whispering palms as you listen to the music of the Electric Ear. Free drinks will be served until 9:00, at which time a variety of Hawaiian delicacies will be served buffet style.

Dancing and merriment will continue until 1:00 a.m. Supper will be served throughout the evening, so those arriving late will be able to eat.

Tickets will also be sold during Happy Hour for the raffle. Two savings bonds have been donated for this purpose; a \$25.00 bond by Muleshoe State Bank and a \$50.00 bond by the First National Bank. There will also be a third "surprise" given away.

We urge you all to come and get a taste of Hawaii in Texas. Tickets may be purchased from any ESA Member and will also be sold at the door. Admission will be \$10.00 per

couple and \$6.00 for singles, which includes Happy Hour, your meal, entertainment and set-ups.

Club Has Bazaar For Boys Ranch

The Progressive Homes Club will have a bazaar, bake sale and a rummage sale the 5th and 6th of September, at the old Western Auto building on 226 South Main.

All benefits will go to the Boy's Ranch at Pittite. Anyone having items to donate for this purpose call 272-3110.

Tensiometers Spotlited In Lubbock Field Day

LUBBOCK -- A sensitive instrument for monitoring soil moisture, the tensiometer, will be one of several experimental irrigation scheduling devices to be discussed when the Texas Agricultural Experiment Station commemorates its 66th Annual Field Day.

Set for Tuesday, September 9, field day activities begin at 1:00 p.m. and continue until 5:00 p.m.

Tensiometers, once used primarily in greenhouses, have increasingly come into use in field situations during recent years, report TAES researchers, Dr. Charles Wendt and Dr. Otto Wilke. A tensiometer, they explain, is a water filled plastic tube with a porous ceramic bulb on one end and a vacuum gauge on the other end.

"Tensiometers are made in different lengths so that the instruments can be installed in the most active root zone of different crops," Wilke and Wendt report.

The vacuum gauge is above the ground when in position and graduated so that it can be read in the range of zero to 100 centibars tension. Tension is a measurement of how strongly the soil retains water and how hard the plant must work to extract water from the soil. When the tensiometer is installed in the soil, it will initially read zero.

Soil in good condition and containing all the water it can hold will cause the gauge to

read ten centibars tension. If a crop is growing and the tensiometer is located in the root zone, the tension will begin to rise due to water going from the tensiometer through the porous bulb into the soil.

Research at the Lubbock station indicates that the tensiometers should be set at 12 to 18 inches, report Wilke and Wendt. In research tests, best yields of cotton and grain sorghum were obtained when the crops were irrigated at 50 centibars tension, corn at 40 centibars and potatoes irrigated at 20 or 30 centibars tension.

"Producers may not be able to irrigate at a particular tension level due to their irrigation system," conclude the scientists. "However, the tension rises at a fairly well established rate if no rain or cloudy weather occurs. If a producer requires a given number of days to get over this crop, he can start early enough so that the tension does not get too high."

Both scientists will be on hand during the field day to discuss any water use efficiency and irrigation problems visitors might be having.

Other instruments scheduled for discussion during the Lubbock field day are the pressure bomb to measure plant water status and neutron probe to measure plant water status and neutron probe to measure soil water content.

In addition, a summary of the results of the studies of water requirements of sunflowers using the different techniques will be highlighted at stops during field day tours at Lubbock on September 9 and the TAES at Halfway on September 11.

The field day at the Texas Agricultural Experiment Station at Halfway is set two days after the Lubbock field day on Thursday, September 11. The field day will spotlight corn and sunflower research along with weed control, water conservation, greenbug resistant sorghums, and cropping systems. Field Day activities kick off at 1:00 p.m., continuing until 5:00. The experiment station at Halfway is located 14 miles west of Plainview on Hwy. 70.

Vela Spurgeon Buried Wednesday

Funeral services were held Wednesday at 3 p.m. in Smith Funeral Home Chapel in Levelland for Vela Helen Spurgeon, 72, mother of J. D. Spurgeon of Muleshoe.

Mrs. Spurgeon died at 7 a.m. Monday, in Highland Hospital after an illness. Rev. Charles Gibson, pastor of the Levelland First Assembly of God Church officiated and burial was in the City of Levelland Cemetery.

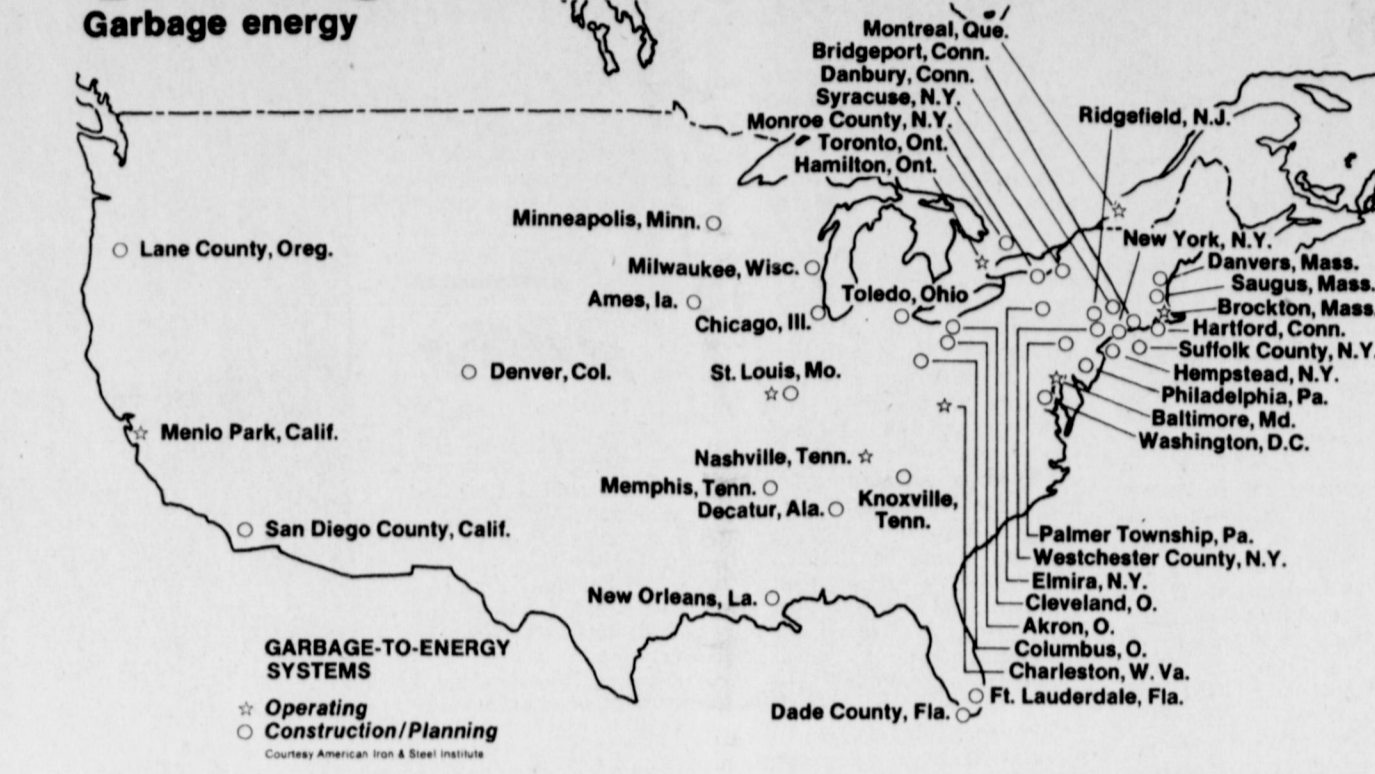

She had been a Levelland resident for the past 36 years and a member of the First Assembly of God Church.

Surviving her are eight daughters, Joyce Fay Lindsey of Idaho; Jerry Chadwell, Eula Belle Williams and Ann Garrett all of Lubbock, Naomi Garrett of Phoenix, Ariz., Inez Spence of Oklahoma City, Mary Ellen Sharp of Dallas and Charlene Eastwood of Levelland; six sons, Vernon and Johnny of Levelland; Ruben of Denver City, Kenneth of Lubbock, J. D. of Muleshoe, and B.J. of Dallas; 48 grandchildren; and 31 great-grandchildren.

Ben A. Yeager, et ux to Lanel R. Lane, et ux, all of the W/30,08' of lot No. 131 and all of the E/44,92' of Lot 132, Richland Hills.
Don Doyle Barnes, et ux to June Burhman, all of Lot 11, and the W/4' of Lot 12, Block 4, Highland Addition.

GARBAGE ENERGY is proposed for 40 American and Canadian cities where experts say that by recycling the refuse accumulated in these key cities, the two nations could produce the equivalent of two-thirds of total oil imports from Arab nations. Most centers call for reclamation of steel cans since the magnetic properties is easiest to recover. It is estimated more than 10 billion steel cans will be recovered by 1980 in participating cities in the "garbage to energy" system.

Screwworm Program Forced Change Sterile Fly Release

Great numbers of screwworm cases in Texas are forcing some changes in out methods of releasing sterile screwworm flies, reports Dr. M. E. Meadows, Director of the U.S. Department of Agriculture 925da0 screwworm Eradication Program, Mission, Texas.

"It has always been program policy to 'hotspot' each confirmed screwworm case three consecutive weeks with releases of 50,000 or more sterile flies per week," says Meadows. (Hotspotting is the actual release over the ranch where the case was found.)

"This year the first 'hot-spot treatment' has been by ground delivery of the flies, followed by aerial delivery the succeeding two weeks.

"With more than 500 cases from Texas ranges being confirmed by laboratory identification specialists each week, this policy is no longer practical for all cases. We will rely on aerial dispersal of flies for all three treatments when:

"The time involved in our delivering an ineffective sterile fly that won't mate successfully with fertile wild flies; and

"When costs of having state or federal personnel convey sterile flies to ranches for ground delivery is prohibitive."

Meadows explains that when it is possible to get a good healthy, sterile fly delivered to the ranch where the case occurred, ground release procedures will continue to be followed.

Discussing the current screwworm situation in Texas, Meadows says "tremendous amounts of moisture on Texas ranges this year have provided ideal environmental conditions for the screwworm fly." He expects case numbers to continue to increase until cold weather arrives.

Adding to the problem this year is the heaviest and most widespread population of Gulf Coast ticks since the Screwworm Eradication Program began in 1962. Bites these Bites these ticks make in ears of large animals make ideal wounds on which the female screwworm fly can lay her eggs.

Eggs hatch about 12 hours after being deposited on the wound and the tiny larvae immediately enter the wound to feed on live flesh. They remain in the wound for about five or six days while they

Naman Says Butz Uses 'Scare Tactics'

"Secretary of Agriculture Earl Butz has once again proven that he is 'public enemy number one' as far as farmers and consumers are concerned," Texas Farmers Union President Jay Naman said in Waco today.

"With the USDA's own crop report yesterday showing that we will have massive surpluses of both corn and wheat, it is inconceivable that the Secretary would resort to such 'scare tactics' as he did in calling for a halt in international trading of grain," Naman said.

The report issued yesterday by the USDA showed that there was a reduction of 3 percent in the corn crop and 2 percent in wheat production over the July estimates. However, the figures project a carry over of both crops for 1975-76, perhaps by 150 million bushels of wheat and 300 million bushels of corn.

"We believe that it is in the public interest that surplus grain be moved into international trade," the Farmers Union president said.

The Texas AFL-CIO has joined with the Farmers Union in expressing its support of the grain sales while also calling for the creation of a national food policy to protect both farmer and consumer.

"Exports are good for everyone. Exports help the farmer receive a decent price for his commodities. Exports provide jobs for workers and exports help our balance of trade," the farm leader said.

"In this context, it is grossly unfair -- and a breach of faith -- for either the government or the International Longshoremen to place an embargo on exports and prevent farmers from selling their crops in world markets," Naman said.

"The effect of a hold-back on exports, as advocated by Butz, would be punishing farmers for doing what the Secretary has urged them to do all along -- produce all out and rely on the free market," he said.

"In light of yesterday's crop forecast, and the Butz embargo, farm prices will have no place to go but down, and they are currently less than adequate in relation to production costs," Naman declared.

Henry Kissinger, Secretary of State, returning to Middle East: "We think there now is a good chance of success, or the President would not have authorized my return."

BUTLER KAN-SUN

CONTINUOUS FLOW GRAIN DRYER

Select One of Four Models to Match Your Harvest Rate

Now, the most respected name in in-bin drying offers America's finest continuous flow grain dryer... the Butler Kan-Sun. With the Butler Kan-Sun, you get safe, low-cost, automatic grain conditioning. There's a Kan-Sun model tailored to your specific needs... with drying capacities from 183 to 435 bushels per hour, depending on the model. See us today for details on the Kan-Sun... and the complete line of Butler grain storage and conditioning equipment.

MULESHOE, TEXAS

Small Producers And Ginners Will Be Able To Afford Seed Cotton Storage

RALEIGH -- Cotton Incorporated research engineers are experimenting with new cotton trailers designed to bring the economies and advantages of the module builder to every producer and ginner, regardless of size.

"We intend to make seed cotton storage available to everybody who wants it, no matter what the size of his cotton acreage or his gin operation," said Dr. W. F. (Bill) Lalor, manager of systems and cost engineering at the Cotton Incorporated Research Center here.

Lalor estimates that half the cotton in the United States is grown by producers whose own acreage alone cannot justify the cost of individual ownership of a complete module system of seed cotton storage. "We recognize that these small producers are willing to share the costs and benefits of the system with ginners in their producer-gin communities," said Lalor.

The engineer said that if current research succeeds in modifying conventional cotton trailers and gooseneck trailers for transferring cotton at the gin, ginyard modulating will become economically feasible for any producer-gin community.

"The hangup in a shared system of seed cotton storage for small producers and ginners has been the prohibitive cost of air transfer systems for moving seed cotton from trailers to a module builder at the ginyard," said Lalor.

"A year ago, we estimated that the fixed cost of putting 3,000 bales in storage on pallets would be \$8 a bale, using the air suction method," he said. "An additional \$4 a bale would go for labor and fuel. The total cost of storage would amount to \$12 a bale. Under most circumstances we did not believe we could justify this cost."

The proposed new transfer system could be owned and operated by a gin, Lalor explained. The gin could spread its cost over many bales. This would free individual producers from having to lay out high amounts of capital.

Lalor said Cotton Incorporated research on modifying

trailers currently is aimed at developing one that can haul seed cotton straight from the harvester to the ginyard, where it can be dumped by a hoist directly into a module builder.

Research engineers tried several methods other than air suction to transfer cotton from trailers into a module builder before concluding that a special trailer showed the most promise.

"We learned that the cost of a special trailer could be justified because it would make enough trips to the gin each year to cut ownership costs below the costs of a conventional trailer," Lalor said. "We would get quick trailer turnaround at the gin."

Research engineers are developing two versions of the trailer. In one, a special container that allows dumping by means of a hoist is substituted for the container of a conventional cotton trailer.

"The container is simply bolted onto the chassis in place of the regular one," said Lalor.

The second version of the special trailer works the same way, only it employs a gooseneck trailer instead of a conventional cotton trailer.

"In both," Lalor said, "pickers and strippers dump just as they dump into a conventional trailer. Tractors or trucks haul the trailers to the gin the same way, too."

Lalor added that, when not in use with the cotton crop, either version of the new trailer could be used for other farm purposes, just as standard versions of the trailers are now used.

Prototypes of both trailers have already been built at the Texas Agricultural Experiment Station. They are being field tested in south Texas. Later they will be tested on the High Plains of Texas.

Lalor said another reason behind efforts to develop new trailers was that they can tie in directly with mechanical gin feeding.

"At Cotton Incorporated we believe that mechanical gin feeding is based on seed cotton modules,"

Lalor said the modified Cotton Incorporated trailers

are designed so that they can be dumped into either a module builder or a gin feeder, whichever is appropriate.

"With the new trailers we retain the capability of unloading cotton under the suction pipe. We can use the trailers at suction-fed gins whenever storage is not called for."

The engineer said that where a mechanical gin feeder is in use at a gin, the capability of dumping from new trailers directly into the feeder would eliminate the need to form modules in preparation for mechanical feeding -- as is now the case.

"This would reduce the cost of feeding the gin mechanically when seed cotton is ginned direct from trailers," he said.

Lambert Wilkes of the Texas Agricultural Experiment Station is developing the new trailers. He is the man who led projects which developed the module builder and the first gin feeder, Lalor said.

A discussion of the new seed cotton trailers is contained in an "Agro-Industrial Report" entitled "Productivity and Profits in Ginning," newly published by Cotton Incorporated.

Dr. Lalor is one of the authors, along with J. K. ("Farmer") Jones, associate director of agricultural research for mechanization, and Dr. George A. Slater, vice president for agricultural research.

Copies of the report are available from Dr. Lalor at the Cotton Incorporated Research Center, 4505 Creedmoor Road, Raleigh, N.C. 27612.

CONVENTIONAL COTTON TRAILER GETS LIFT . . . An experimental variation of the conventional cotton trailer, under development by Cotton Incorporated, could allow producers to haul seed cotton to the gin, immediately transfer the cotton into a module builder, and return immediately to the field. The transfer takes place when the trailer is hoisted mechanically and tipped over to dump its load into the module builder. The trailer can be dumped in a similar manner direct into a mechanical gin feeder. It also can be unloaded under the suction pipe in the conventional manner.

Amount Of Sunlight Has Influence On Quality

KNOXVILLE, Tenn., Aug. 29, 1975--The amount of sunlight, water and nitrogen that grain sorghum receives has a direct influence on the quality and cost of beef on the consumer's plate.

How these environmental factors affect the growth and yield of several sorghum hybrids was reported to some 3,000 crop scientists meeting here today by J.M. Bennett, a Texas Tech University agronomy research specialist.

Bennett and Dr. Dan R. Krieg of the University's Agronomy Department conducted

research in West Texas to determine the effects of sunlight, nitrogen and water stress on yield components of grain sorghum, one of the region's top cash crops and a product used by the cattle feeding industry in the area.

Grain sorghum needs a maximum of direct sunlight to produce the best yield, Bennett said. In making their study, Bennett and Krieg conducted two separate experiments using several sorghum hybrids differing in seed characteristics.

In the first experiment,

three sorghums differing in seed tannin concentration were evaluated as to their response to light and water stress at various stages of plant development. Water stress was imposed during late boot through bloom and was estimated as a function of leaf water potentials, Bennett said.

Light stress shading periods beginning at panicle initiation and continuing to physiological maturity of the grain.

"Shading one to two weeks prior to bloom decreased the number of seed per head," Bennett said. "Shading two to three weeks after bloom decreased the weight of the seeds. The response to light stress seemed to be the same for all genotypes."

"A water stress, light intensity, genotype interaction

existed in that two of the three genotypes did not exhibit the reciprocal relationship between seed weight and seed number in the water stressed plots," he said.

In the second experiment the same water stress treatment was imposed on four sorghum hybrids differing in seed color and endosperm texture. The effect of rate and time of application of nitrogen was also evaluated. The genotype environmental stress interaction was evaluated as a function of yield and yield components, Bennett said.

The Sandhills Philosopher

Editor's note: The Sandhill Philosopher on his Johnson grass farm gives a scientific explanation of why Russia can't produce all the food it needs. Dear editor:

A neighbor the other day asked me a question. "Why," he said, "can't the Russians grow all the grain they need? They've got enough tractors, so why can't they feed themselves?"

Obviously, he doesn't understand the soil of Russia. You see Russian soil is not all the same.

For example, as you know, the state over there owns all

the land, and what a farmer produces on that land goes to the state, with one exception. Each farmer is allowed a small plot, maybe a fifth of an acre, maybe a half, but not more than one whole acre, on which he can grow what he pleases and keep it all himself or sell it and keep the money.

It's amazing how much better those small plots are than the rest of the farm. Why the average Russian farmer can grow ten times as much per square foot on his part than he can on the state's.

This has baffled the Soviet leaders. They just can't figure it out. The land is the same, they say, one part gets just as much or as little rain as the

rest, yet invariably the small plots out-produce. I understand this matter has come up before the Politburo year after year, but not a single Russian leader has found the answer. Even Russian scientists are baffled by the problem, or if they aren't baffled they ain't saying nothing. It's cold in Siberia.

I can see the Minister of Agriculture tackling the problem himself. "Ivan," he says, after Ivan has just come in from an 8-hour day on state-owned land driving a state-owned tractor that needs oil but he'll get around to that tomorrow or sometime, "how is it that you always produce better cabbage in your garden here than you do out there in the field?"

"I've always wondered about that myself," Ivan probably says. "It's hard to explain. Maybe the soil is better. Here, take this nice head of cabbage home to your wife and kids. Want some of these potatoes? They taste better than those field-grown ones."

There's a great opportunity in Russia for better soil scientists. Yours faithfully, J.A.

Bullock Says Veto Will Make Texans Losers

AUSTIN -- Comptroller Bob Bullock said Friday that federal decontrol of oil prices will cost Texans many times more than it will produce for the state treasury.

"Even as rich as Texas is in oil, Texans will come out the losers," Bullock said of President Ford's threatened veto of continued controls.

Bullock forecast that decontrol would cost Texas consumers during the next year \$625 million in higher gasoline prices and yield only \$170 mil-

lion to the state in additional tax revenues.

"A poor trade," Bullock said.

Bullock said that "the mammoth tax bill Texas faces in 1977 might be dented but it won't be knocked out by increased oil tax income."

Bullock said his projection on consumer gasoline costs were based on an eight-cent a gallon price rise "as a compromise between the three cents the Ford Administration talks about and the 15 cents it could be."

He said the oil estimates were based on oil prices of \$10.50 a barrel.

The estimate foresees only a slight decrease in consumption with an eight-cent price increase, Bullock said. He said that higher oil prices would increase market values for production tax purposes worth \$154 million and that "a rippling effect" on franchise taxes, sales taxes, utility taxes and state oil lands royalty earnings would bring in another \$16 million during the coming year.

"But whether it's additional taxes or additional gasoline prices, it all comes out of the same pocket -- and you know whose pocket that is," Bullock said.

Texas Vegetable Production May Be Worth \$5,566,000

AUSTIN -- Despite drought in some areas and excessive rain in others, Texas vegetable production during the 1975 spring quarter is expected to be worth \$5,566,000, Agriculture Commissioner John C. White reported.

According to recently released Texas Crop and Livestock Reporting Service figures,

Texas Taxes

By BOB BULLOCK

Austin--When someone owes \$10,000 in delinquent sales taxes, you can be sure it's no Mom-and-Pop operation.

Delinquent taxes of \$10,000 represents \$200,000 in total taxable retail sales. While \$200,000 in sales doesn't make one a business giant, it's plenty big enough to expect the business to be run properly, its book kept in order and its taxes paid.

I point this out to emphasize that in our current crackdown on delinquents we are not picking on "the little guys." The figures speak for themselves.

Between May 7 and August 15 we shut down 31 retail operations whose sales tax delinquencies totaled \$1.1 million. That represents \$22 million in total taxable sales--or an average of \$710,000 in sales each. This is not small potatoes.

Look at some of the individual cases which go into making that average: a San Antonio liquor dealer owed more than \$400,000 in delinquent taxes and had inventories on hand worth twice that. A Waco appliance dealer owed \$112,000, a Dallas concrete firm \$91,202, a Houston area pharmacy chain \$64,000 and an Austin tire dealer \$47,000.

By the same token, we did shut down some "small" operations who owed less than \$10,000 and I don't apologize or feel any need to explain. It is very simple that if a delinquent owed, say, \$1,500 last year and didn't do anything about it, he will owe probably \$2,500 this year--and if left alone will owe \$3,000 or \$3,500 a year from now.

This is your money, whether it's \$100 or \$10,000. To let it "ride" only means that many more of your dimes and quarters and dollars are going into pockets where they don't belong.

We will bring into the state and city treasuries the \$1.1 million owed by the 31 places we have visited--one way or another. Many of these businesses have already made satisfactory payoff arrangements with us and have been allowed to reopen.

This is particularly true of the "smaller" operations. One Houston restaurant shelled out \$9,500 cash in \$100 bills on the spot to keep its doors open. Since they had the money, I don't know why they let themselves go delinquent for the past four years! A drug store in Houston handed us \$7,000 from the cash register and got another \$2,000 from the bank to pay up and stay open.

The Austin tire dealer gave us \$12,000 in cash, agreed to pay \$2,000 a month and put up a bond to reopen his business.

I think that when the average working man and woman looks at these figures it is clear that we aren't talking about "little people". Even so, the mishandling of a small amount of the public's money is just as bad as the mishandling of a large amount. The law is equal and uniform, regardless of size, and I intend to see it enforced equally and uniformly.

Beyond the \$1.1 million worth of delinquencies we have had to seize, our crackdown has had good results with literally hundreds of accounts which were on the borderline of being seized.

Since sales tax money comes from the customer's pockets, there is no excuse for delinquencies. As long as there are delinquents, there is no excuse for not doing something about it.

res, Texas will lead the nation in production of cantaloups.

Total value of the 1975 Texas cantaloup crop is expected to be \$15.9 million, up from last year's \$11.2 million crop. Production will be approximately 1,020,000 pounds per hundredweight, compared with last year's production of 855,000 pounds per hundredweight. Harvested acreage is 8,500, down only slightly from last year. At the same time, yield per acre has jumped from 95 pounds per hundredweight last year to 120 pounds per hundredweight this year.

In addition, Texas is expected to rank second in production of watermelons, green peppers and carrots.

Harvested acres of Texas watermelons in 1975 is predicted to be 24,000, down 3,000 from last year. Production is 1,680,000 pounds per hundredweight, down 750,000 pounds per hundredweight from 1974. The smaller crop was caused by drought in some areas and hail in others, Commissioner White said. Value of the crop is placed at \$9,677,000 this year.

Production of green peppers is expected to be approximately 142,000 pounds per hundredweight, down slightly from 1974. Harvested acreage remains the same this year, at 2,000 acres. Value of this year's crop will be \$3.7 million, compared with nearly \$4.2 million in 1974.

Expected value of this year's carrot crop in Texas is \$5,379,000, compared with only \$4,471,000 last year. Harvested acreage has decreased from 5,100 in 1974 to 3,600 in 1975, yet yield per acre this year is 170 pounds per hundredweight, an increase of 20 over last year.

Production of cabbage is estimated at 690,000 pounds per hundredweight, a decrease of 156,000 pounds per hundredweight from 1974. Harvested acreage is down slightly, too, at 3,000 acres. Value of the 1975 crop is expected to be approximately \$3.8 million.

About 3,600 acres of tomatoes will be harvested this year in Texas, with a yield of 221,000 pounds per hundredweight, an increase over 1974 production. The 1975 crop is valued at \$5,748,000, compared with only \$5,179,000 last year.

Harvested acres of cucumbers will remain nearly the same as last year, at 2,700 acres, 100 acres less than in 1974. Production will be 127,000 pounds per hundredweight and value of the crop is expected to be \$1,765,000.

Sweet corn production in Texas is estimated at 111,000 pounds per hundredweight, down from last year's harvest of 126,000 pounds per hundredweight. Total value of the 1975 crop will be \$834,000, a decrease from last year's \$1,032,000 crop. Harvested acreage is only 1,700, compared with 2,800 in 1974, but yield per harvested acre has increased by 20 pounds per hundredweight to 65.

An increase in production is expected for honeydew melons. Production in Texas will be about 264,000 pounds per hundredweight, up by 33,000 pounds per hundredweight from 1974. Total value of the crop is expected to jump from only \$1,975,000 in 1974 to \$5,729,000 in 1975. Harvested acreage this year is 100 acres more than last year.

Earl L. Butz, Agriculture Secretary:

"If the unions... are so concerned about high food prices they should stop some of the feather-bedding practices that jack up those prices."

IN NEXT WEEK'S PAPER

Please write FOOTBALL CONTEST
Muleshoe Publishing Company
Box 449 Muleshoe, Texas
on envelope of mailed entry.

Read the rules... Start Winning
RULES OF THE CONTEST:

- The contestant must be 12 years or older.
 - Only one entry per person may be made for any one contest.
 - Weekly contests are open to everyone except employees and families of this newspaper; bring or mail your entries to the Journal office.
 - Mailed entries must be postmarked not later than 5:30 p.m. Friday; winners names will be published in this newspaper each Thursday following the close of the weekly contest.
 - Check the team you think will win; 10 points for 1st place, 6 points for 2nd place and 4 points for 3rd place determines the Grand Prize winner.
 - The tie-breakers will count as one of the games picked, the predicted scores will be used to determine the top three places in that week's contest, if necessary, and cash prizes and points will be divided between winners in event of ties. Please write FOOTBALL CONTEST on envelope of mailed entry.
- Decision of the Journal's scoring judges will be final.

Public Notice

Sealed bids addressed to the City of Muleshoe, Texas will be received at the City Hall until 8:30 a.m., September 16, 1975, and then publicly opened and read for furnishing all plant, labor, material and equipment, and performing all work required for installing a butyl rubber lining in the 1.0 million gallon concrete reservoir. Bids shall be submitted in sealed envelopes upon the blank form of the proposal attached hereto and marked in the upper left hand corner.

All proposals shall be accompanied by a cashier's check or certified check upon a national or state bank in the amount of five (5%) percent of the total maximum bid price payable without recourse to the City or a bid bond in the same amount from a reliable surety company, as a guarantee that bidder will enter into a contract and execute performance bond within ten days after notice of award of contract to him. The bid security must be enclosed in the same envelope with the bid. Bids without check or bid bond will not be considered.

The successful bidder must furnish performance and payment bonds upon the forms which are attached hereto in the amount of 100% of the contract price from an approved surety company holding a permit from the State of Texas to act as surety or other surety or sureties acceptable to the Owner.

The right is reserved to reject any and all bids and to waive any informality in bids received.

Plans, specifications and bidding documents may be secured from the office of the City Manager or at the office of Bill R. McMorries & Associates, Inc., 6300 Canyon Dr., Amarillo, Texas 79109, on deposit of Twenty-five (\$25.00) Dollars per set which sum so deposited will be refunded, provided: (1) All documents are returned in good condition to Bill R. McMorries & Associates, Inc. not later than 48 hours prior to the time for receiving bids; or (2) The Contractor submits a bid and all documents are returned in good condition to Bill R. McMorries & Associates, Inc. not later than five days after the time that bids are received.

Words on Water
TEXAS WATER QUALITY BOARD
AUSTIN, TEXAS 78711

THEY HAD A FUNERAL. BUT NOBODY DIED.

The year was 1914. Woodrow Wilson left his cabinet meeting to push a pearl-embossed button. Hundreds of miles away a cannon was electronically activated in the Bayou City. With that boom, a part of Buffalo Bayou officially was christened the Houston Ship Channel.

Houston grew as a major seaport (now third in the nation), as industries began building their plants along the channel banks. And as the city grew and industries multiplied, so did the wastes going into the channel.

But with progress came problems. In the mid-1960's systematic surveys of the channel revealed that there was no oxygen in the water and consequently no marine life.

So a clean-up campaign was launched. In December of 1965, the Texas Water Pollution Control Board, predecessor of the Texas Water Quality Board, adopted an order to control wastes going into the channel. But it was in 1967, when the Texas Water Quality Board was created, that strict requirements were instituted for cities and industries along the channel to clean up their waste discharges.

Even so, in December of 1970 some 100 persons gathered on the banks to pay their last respects to the Ship Channel, declared dead at the age of 55. Cause-suffocation. But the old girl was only sleeping. She was far from gone.

About two years later some industries began to find their intake lines clogged with shrimp, crabs, eels and other marine life. And by 1973 some oxygen was present in the entire length of the channel. Now, five years after the funeral, the Houston Ship Channel has come back to life. Seagulls again are regular visitors, feasting on delicacies in the channel—that umbilical cord which ties Texas to the rest of the world. The channel isn't as clean as it needs to be or as it will be, but we're working on it.

News Of Our Servicemen

Bobby D. Henry

U.S. AIR FORCE ACADEMY, Colo. -- Bobby D. Henry, son of Mrs. Marcia D. Henry of 124 W. Seventh St., Muleshoe, Tex., is among the more than 1,300 cadets who have entered their freshman year at the U.S. Air Force Academy, Colo.

Cadet Henry was accepted into the cadet wing after completing six weeks of intensive field training, physical conditioning and survival instruction. He now begins four years of academic study and military training that will lead to a bachelor of science degree and a commission as a second lieutenant.

The cadet is a 1975 graduate of Muleshoe High School.

Corn Growers May Lose Two Vital Insecticides

Unless corn growers, farmers and farm leaders act quickly, they may soon lose two more of their important weapons for fighting destructive and costly corn insects, warns Robert M. Morris, president and chairman of the board of Velsicol Chemical Corporation.

If the action taken recently by Russell Train of the EPA (Environmental Protection Agency) in his "Notice of intent to suspend" is upheld, sales of chlordane and heptachlor for crop use could be cut off com-

pletely in the next two to three months--and this, Morris continued, could wreak havoc with next spring's corn crop.

The need for concerted action is urgent, Morris said, because Train has resorted to the most expeditious measures possible. With this fast-handed approach, it is evident he hopes to keep resistance by farmers and consumers at a minimum.

Filing for public hearings immediately after Train's announcement, Velsicol is doing all in its power to help farmers save chlordane and heptachlor, Morris assured. The hearings, which started in mid-August, will help bring the facts before the public. However, they are limited to only 40 days of testimony--plus 10 more days at Russell Train's sole discretion.

With 25 years of accumulated scientific research data, it is obvious the hearings will have to be skimpy and sketchy, Morris said. This is why the help of every corn grower and farmer, and every interested farm organization, is needed. Telegrams and letters should be sent to individual congressmen and senators at once.

"First it was DDT. Then aldrin and dieldrin. Now chlordane and heptachlor are under fire. Already Russell Train has singled out his next target. Clearly the strategy of advocacy groups, fa-

tics and Train is to pick off these vital working tools of agriculture, one by one, stripping the farmer of all freedom of choice in how he runs his business," Morris explained. "Even if you do not use chlordane and heptachlor, you still have a stake in saving these two highly effective insecticides, because the insecticide you do use may very well be next."

Last spring, it's estimated over 1,500,000 acres of corn were damaged or destroyed by cutworms, wireworms and armyworms, due to a shortage of chlordane and heptachlor in some areas. This shortage was largely caused by the previous cancellation of aldrin and dieldrin.

Next spring, with no chlordane and heptachlor at all, the number of acres damaged or destroyed could run into many millions. This would be disastrous to thousands of corn growers, and eventually result in higher food costs for consumers.

"We're not fighting just because we manufacture chlordane and heptachlor," Morris asserted. "Actually, these two chemicals represent a relatively small part of our business. We're fighting because chlordane and heptachlor are essential to modern agriculture, and our farm friends and customers need them to produce corn profitably."

In 25 years of research there is no evidence that chlordane and heptachlor pose any significant threat to the well-being of people or animals, Morris continued. And a majority of the scientific community agrees.

Even though Velsicol has repeatedly urged Russell Train to cooperate in submitting all research data to a completely independent Scientific Advisory Committee for evaluation, he refuses. Thus it seems evident, Morris said, that Train is more interested in spectacular headlines, designed perhaps to coerce Congress into voting more funds, than in the facts. And more interested in a suspension action where he is the sole prosecutor, judge and jury, than in the unbiased truth.

But the real victims of such a bureaucratic ploy are the corn growers, Morris concluded, and they should lose no time in letting their congressmen and senators know how they feel.

Enochs News

By Mrs. J.D. Bayless

Mr. and Mrs. Kenneth Coats of Morton, and their children and families, Mr. and Mrs. Kenny Coats, and children, Kandy and Kerry of Levelland, Mr. and Mrs. Robert Jones of Clovis, Mr. and Mrs. Keith Coats home, spent a week at Tres Ritos. In route home, they stopped for a visit with her sister, Mrs. Alene Byrum, at Tucumcari, N.M.

Several men of the Baptist Church attended a prayer meeting for the crusade, Rev. Charlie Shaw, J. E. Layton, W.B. Peterson, E.N. McCall, C. C. Snitker, Carl Hall and J.C. Snitker. It was held at 7:00 a.m. The women met at 9:30 a.m. for prayer. Those attending were Mrs. J. W. Layton, Mrs. Johnny Cox, Mrs. Alma Altman, Mrs. Charlie Shaw, Mrs. E.N. McCall, Mrs. Chester Petree, Mrs. J. O. Dane, Mrs. Ray Seagler, Mrs. Dale Nichols, Mrs. H.B. King, Mrs. J. E. Layton, Mrs. Bill Key, Mrs. J.D. Bayless, and two visitors, Ranelle Shan from Calif. and Mrs. Clara Childres of Dumas.

Mrs. Charlie Shaw and Mrs. Jerry Nichols met Miss Tomdoy Kunesawa at the Amarillo airport Thursday, at 2:57 p.m. Tamydo is from Iwatsaw Ski Sainama Ken, Japan. She will be staying with the Shaws this school term and attending school at Three Way.

Mrs. Alma Altman attended the Old Settlers annual reunion in Littlefield. People attended from Calif. and Alaska, one-third of those attending were 70 or older. Mrs. Alma Altman drove to Tulla, the first of the week and spent till Friday with her daughter, Mr. and Mrs. Kenneth Millsap.

Rev. and Mrs. Ray Cunningham and son, Bill of Vincent, were dinner guests, in the home of her sister, the J.D. Bayless's Thursday and spent the night with them.

Mr. and Mrs. P. R. Pierce visited their daughter, Mr. and Mrs. Johnny Jackson in Lubbock Thursday.

Mr. and Mrs. Johnny Cox returned home Sunday. They attended the Cox family reunion, at the Lewisville Park and Lake.

Mr. and Mrs. Guy Sanders spent last Saturday till Thursday at Cortez, Colo. on vacation and visited friends, Mrs. T. E. Howell and Mrs. Roy Rucker.

Guests in the home of Mrs. G. R. Newman from Thursday till Friday was her sister, Mrs. Vida Shaffner, a niece, Mrs. Lole Standler and Mrs. Vergie Martin, all of Snyder.

Those attending the Crusade choir practice at the First Baptist Church in Lubbock, Friday night were, Mrs. Troy Price, Mrs. Harold Layton, Mrs. Bill Key, Mrs. Quinton Nichols, Mrs. J.W. Layton, Mrs. Chester Petree, Mr. and Mrs. W. B. Peterson, Mr. and Mrs. H. B. King and Clifford Snitker.

Mrs. Dale Nichols and Mrs. Chester Petree attended the open house all day for Mrs. Sallie Robinson on her 90th birthday. They served cake and punch to the guests.

Relatives visiting Mr. and Mrs. Dean Waltrip were Danny Meeks, Buster Cash and his fiancée, Sonya Hickey all of Fort Worth, Beverly Fincher of Amarillo, and Mrs. Faye Cox, from Fort Worth, returned home Friday.

Young things who race automobiles usually don't pay the repair bills.

QUICKY QUIZ ANSWER
A great deal of water pollution is natural pollution. For example, the Brazos River carries tons of salt into the Gulf of Mexico every day.

Retirement Plan Bonds Available

WASHINGTON -- The Department of the Treasury has placed on sale U. S. Individual Retirement Bonds. They are specifically designed for investment by persons who lack coverage by any other retirement plan. The Bonds are issued pursuant to the provisions of the Employee Retirement Income Security Act of 1974. They are sold at face value in denominations of \$50, \$100 and \$500. Interest accrues at the rate of six percent per year, compounded semiannually, and is payable upon redemption.

Individual Retirement Bonds may be purchased from any Federal Reserve Bank or Branch, or directly from the Treasury Department. They may be registered in either single ownership or beneficiary form, in the names of natural persons only. Individual Retirement Bonds are non-transferable; they cannot be sold or used as collateral.

The new Bonds permit persons, who work for employers unable to finance a pension plan, to set aside a portion of their annual income--up to a yearly limit of \$1,500, or 15 percent of gross income, whichever is less--for retirement. The amount set aside annually is deductible from gross income for federal income tax purposes.

Because they are designed to be used for personal retirement, the Bonds carry certain redemption restrictions. During the first year after issue, they may be redeemed without interest or penalty. They may be cashed, with a tax penalty, until the owner reaches age 59 - 1/2, after which the Bonds may be redeemed without penalty. The Bonds may, however, be cashed without penalty, at any time until maturity, for the purpose of changing investments. In addition, they may be cashed

without penalty before age 59 - 1/2, in cases of disability. The maturity date is the first day of the month in which the Bondowner reaches age 70 - 1/2, or five years after the date of the owner's death, whichever is earlier. Both principal and interest are reportable for federal income tax purposes, at time of redemption or maturity.

Complete regulations covering the Individual Retirement Bond may be found in Treasury Department Circular, Public Debt Series 1-75.

Newspapers shrink format to cut costs.
