

Boys and Girls May Obtain FSA Loans

Farm boys and girls in Terry and Yoakum counties will be enabled to participate in 4-H Club and FFA junior educational and demonstrational farm projects for 1940 with loans advanced by the Farm Security Administration.

New regulations making such loans possible were announced by Dennis Q. Lilly, FSA rehabilitation supervisor in Terry and Yoakum counties.

“All young people enrolled in these junior farm groups, and whose parents are among FSA borrowers,” Mr. Lilly said, “may secure loans of not more than \$75 for purchase of a calf, sow, poultry or other young livestock as well as seed, plants and fertilizer, for projects approved by the county extension agent or Smith-Hughes instructors in charge of the projects.”

Mr. Lilly said that making the loans available to young people with no other source of credit, the program is expected to bring the families more into normal community life, sponsor useful farm projects, and contribute to rehabilitation.

He explained the new loan will enable county agents and vocational agriculture teachers to broaden their activities and reach a larger number of rural young people who heretofore had been unable to participate in such projects because of limited funds.

Loan applications must be made to the county FSA supervisor and approved by the project leaders. Security on loans will include a note signed jointly with parents and chattel or crop mortgages, with interest at five per cent.

Dental Health Puppet Show Coming Soon

Dr. Brumage of the Five-County Health Unit was informed late this week that the Morrey-Towse Dental Health Puppet Show will be at several schools in the county next week. He, as well as the Herald regrets that the announcement came too late for much publicity. But this is the schedule: Brownfield, March 14, 8:45 a. m.; Meadow at 11:00 a. m.; Johnson, 2 p. m. March 15, Wellman, 3:45 a. m., and Union, 11:00 a. m. See it at the nearest place.

Proprietor of Piggly Wiggly Here, Tuesday

W. H. Humphries, one of the proprietors of the Piggly Wiggly stores in Lubbock and Brownfield, as well as other towns in the area; also the Davis-Humphries Wholesale Co., were in our city Tuesday with C. T. Williams, their general manager. Mr. Williams is here quite often.

Mr. Humphries stated that they had opened two new stores in Lubbock recently, each one having a great opening. He also stated that the Brownfield store was doing a good business, and that they were really proud of Pat Patterson and his staff here.

BUSINESS AND PROFESSIONAL WOMEN TO MEET

The prospective members of the Business and Professional Women's club will meet Tuesday evening at 7:30 at the Wines Hotel private dining room for the election of officers.

N. E. Townsend of route 5, favored us with his renewal recently. Thanks a lot, pal.

Annual C of C Banquet At High School Gym

By J. E. Shelton, Secretary

It has been definitely decided to hold the annual banquet of the Brownfield Chamber of Commerce on Tuesday night, March 12 at the high school gymnasium at 8 p. m. The date had been held in abeyance for several weeks as we were undertaking to procure an outstanding speaker for the event. In fact we first undertook to get Hon. Brady Gentry, Chairman of the Texas Highway Commission, then Elliott Roosevelt and afterwards being informed that the Hon. Pat Neff, President of Baylor University was to be in Lamesa during the present week we undertook to procure his services for Friday night of this week but his schedule was such that he was not able to accept our invitation. However by setting the affair for next Tuesday we will be able to arrange for a man prominent in Texas affairs and who has the reputation for being an outstanding speaker and well worth listening to.

The committee was appointed to canvass the vote for directors of the chamber of commerce has completed its work and the following were elected for the two year term: C. C. Coleman, W. R. McDuffie, C. J. Smith, L. Nicholson, H. R. Winston, R. L. Bowers, and with Tom May, R. A. Simms, J. O. Gillham, J. B. Knight, R. E. Self, I. M. Bailey and E. G. Akers, will compose the board for the next year.

The books of the secretary were audited and found in order and while the income showed an increase over that of the last several years, it is still considered inadequate for the purpose and a drive for new members will be made as soon after the new officials are installed as is possible, but probably not until after the annual banquet. Tickets for the banquet are being printed and will probably be on sale the latter part of this week and in any event by Monday morning. A program committee has been appointed and has promised to produce something new in the way of entertainment.

The hotel committee also hopes to be able to report favorable progress upon the construction of a modern hotel which we are all desirous of procuring.

The Man From Boot-hill Coming Soon

A three-act play, with a laugh and a thrill in every line, entitled “The Man From Boot-hill” written and directed by Charles Long, will be staged under the sponsorship of the local high school student council in the Brownfield High School auditorium on the nights of March 11 and 12. Admission prices are 15c for all students and 35c for all adults.

This play is unusual—more mysterious than “The Cat and the Canary,” more ghastly than Frankenstein. It is built around a story of Texas in the days of Roy Bean, and carries historical value as well as entertainment. Mr. Long is well known in this territory for his stage settings, and the set for the play is above the average in excellence. All characters are local people. Austin and Helen Green, Mrs. Fowler Carroll, David Mitchell, S. F. Coker, Mrs. Florence Perry, Mr. Long and Virginia Stroup make up the cast.

During the two nights of production, at least \$50 worth of merchandise will be given away free. The local merchants have cooperated splendidly with this program and have subscribed some 40 or more prizes ranging from a basket of groceries to a permanent wave.

Every cent that is taken in at the door goes to local people. Mr. Long pays his cast a percentage of the gate receipts for their months of faithful practice and a large per cent will go to the local high school student council, which has played a very important role in the school this year.

Mr. and Mrs. G. L. Dauherty have returned from Ballinger, Tex. where they visited her mother.

City to Buy Another Large Engine Monday

As you will note by a notice now running in the Herald, the City Council at a regular session, Monday, will receive bids for an engine to be installed in the city power and light plant, capable of developing 700 kw. To a lay electrician, this statement means little, so we asked some of the city officials to state the size in horsepower if possible. Mayor Coleman stated that it would be rated at something between 1100 and 1200 horsepower.

Mayor Clyde C. Coleman, and Eunice Jones, utility superintendent, made a trip to Oklahoma this week, where they actually saw a few of the type of engine which they propose to purchase, and according to Mr. Coleman, are very efficient. The new engine, if the deal is made, will use natural gas like most of the others in the plant, as a change to a diesel would cost considerable money. The city is getting a satisfactory rate from the West Texas Gas Company at present for the use of gas as a fuel.

Mr. Coleman could not state whether one of the smaller engines would be displaced to make room for the new engine, or additional space built for it. That will perhaps be left somewhat to the advise of the city engineer. But Mr. Coleman did state that an addition to the present plant would very likely be built, as with rapid growth of the city such as the past few years and at present, it will be only four or five years until additional power would have to be provided.

Rotarians View Film On Sulphur

As a departure from the usual type of programs, the local Rotary club was entertained with a 15-minute all-color and all-sound movie last Friday entitled “The Romance of Sulphur.” While this film was sponsored by the Texas Gulf Sulphur Co., it was presented in a strictly non-commercial manner.

The film dealt with the extraction, storage, transportation, and uses of sulphur. It also depicted the excellent living conditions of the employees of the sulphur companies.

The film was shown by D. S. Parker, company representative, who travels with the film and equipment. It is understood that the film is being exhibited before various schools and civic clubs throughout this section.

Dell Smith in Charge of Seagraves Texaco

Recently Adams & Smith dissolved partnership in the Texaco wholesale business here, W. M. Adams retaining the wholesale business here, and Mr. W. C. Smith taking the wholesale plant in Seagraves. Messrs. Adams and Smith had been partners in this business here around 20 years.

Dell Smith, son of W. C., will move his family to Seagraves to take charge of the wholesale business in that city. Dell is a fine boy, has a splendid wife and little daughter, who will be greatly missed here, but their friends wish them much prosperity in their new home.

Don't know what Mr. Smith intends doing, perhaps take a long needed rest, and maybe do a bit of rambling.

Transit Grain Co. Prepares for WT Truckers

The Transit Grain & Commission Co., of Fort Worth, has notified the Herald that they have made a 40-foot truck dump at their 300,000 bushel elevator in that city, which will be a real saving of time and convenience to West Texas truckers.

They have also installed one of the largest and best seed cleaners manufactured in the United States, built new warehouses and a feed plant so that truckers may take a load back if they wish. Note their ad now running in these columns.

Says Herald a Whale of an Ad Medium

You don't have to leave Brownfield to find the Herald is a great advertising medium. In fact, right on the square or, as in this case, a block from it, you will find real good firms who are ready to voluntarily chime in that as an advertising medium, the Herald is it. Among this number this week is that firm with growing pains, the Star Tire Store, L. E. McClish and Arlie Lowrimore, proprietors.

Arlie speaking: “I want to tell you that advertising in the Herald really pays. We had the biggest week end last week that we have ever had in our history, and it was a cash business, following our big ad last week. Both Friday and Saturday were real big days, keeping us on the go at just about capacity. Then Sunday, we didn't aim to open our place, but happened to come down town and had to work until 2 p. m. before getting off.”

This young and growing firm did right around \$100 worth of advertising in 1939, but state that they are really going places this year with their advertising. Why not? It pays them, and they are just the kind of men that are pigs enough to want your business but men enough to appreciate it.

We don't say it boastfully, but we believe the Herald is one of the most thoroughly read papers in this section.

President Approves City Park Project

Late Bulletin: Mayor C. C. Coleman received a wire late Wednesday from Congressman Geo. Mahon stating that President Roosevelt had approved the city park project supposedly for the full amount asked for, \$11,000.00.

Mayor Coleman is getting in touch with state authorities and expects to have the project under way soon.

To Announce Opening Date of Locker Plant

In conversation with Noah Phillips, official of the Farmers' Co-operative Society, he informed us that no date could be set at this time for the formal opening of the Brownfield Locker and Cold Storage plant being built by the Co-operatives just west of the railroad on their property. The building, which is semi-fireproof, has the roof on, the walls finished and the finishing touches are now being put on the interior.

Mr. Phillips reminded us that the machinery would be installed next week, and that means that the opening date won't be long now. Which reminds us to give just a brief history of the refrigerator food lockers. They were first started in the Pacific Northwest, in the states of Oregon, Washington and Idaho. A few years ago, a group of Hale county farmers toured that section mainly to see about the agricultural methods.

These men kept running into locker plants, and came home very enthusiastic about them, and the first one was established soon thereafter in the city of Plainview. Since then plants have been built at Floydada, Ralls, Petersburg, Tahoka, New Home in Lynn county, and the one under construction here. They are also beginning to be scattered in other sections of the state, according to the A. & M. College Extension Service, which also gives some of the good features of the locker plant. They state there have been no bad features to this time.

Advantages claimed for the refrigerated food locker system include: Saves family \$50 to \$100 a year. Makes fresh meat, vegetables and fruit available the year around. Aids in providing balanced diet. Makes for improved health.

Louis-Godoy Fight Pictures Next Week

The Louis-Godoy fight recently at New York, can be seen here next Friday and Saturday, March 15-16 at the Rialto Theatre, according to Mrs. Earl Jones, proprietor of the Rialto, Rio and Ritz theatres. This will be in addition to the regular feature for those nights, Charley McCarthy in “Detective.”

This will give you a chance to see this now famous fight in which the South American stayed the full 15 rounds with the champion, and got one vote from the judges as winner. See it round by round, blow by blow. Then make your decision as to which won the fight.

Mrs. Jones also has the famous “Gone With the Wind” listed for an early appearance here, as well as the almost equally famous “Grapes of Wrath.” So hold your horses and see these shows at home. Announcement of dates will appear soon in these columns.

Wants Honor of Whipping the Editor

There is an old timer who lives out west of Gomez and walks with a stick who let us in on a little secret this week. Said he had a neighbor by the name of Ed Thompson that had been trying to frame up with him and give us a licking.

Now this man with a “hand me down my walking cane” thinks that guy Thompson wants to put him forward, walk out on him and get him licked.

We sent word to Thompson by the cane man that as soon as hot weather came and we sweat out a bunch of rheumatism, we'd be pleased to take him on for a fifteen round battle, win, lose or draw.

Mrs. Eunice Franks is in Lamesa this week to be with her mother, Mrs. Tankersley, who is quite ill.

Mr. and Mrs. Jack Omer and Mr. and Mrs. B. E. Brown went to Cedar Lake, Sunday, to look over the oil field.

Practical Dirt Farmer Writes About Borers

By your permission I would like to use a small space in your paper to describe an enemy of the Terry county farmer. I refer to the corn borer.

When I landed in Terry county, December, 1920, I was led to believe this to be a good corn country, as indicated by many huge ricks of corn to be found in many places in the county at that time. It was evident then that corn was the major farm crop in Terry county, as was evidenced by the 135 cars of corn that were shipped from Brownfield during the fall and winter of 1920 and spring of 1921. But only a few years after this, there was a perceptible falling off of the corn yields of the county, on practically all farms. It was not until recent years that a few farmers began to speak of the ravages of the corn borer, but it seems that the talk was about all that happened, except that the discussions about them caused a few farmers to investigate and found this pest to be general on nearly all farms of the county, but so far as I know, nothing in the way of control has been accomplished.

During the past ten years, the farmers here have lost much in a financial way due to the pest which caused many to turn to cotton, which was not much in demand in the markets. Besides, owing to the sandy nature of many farms, cotton either cannot grow at all, or at best gives but meager returns.

Many of your readers are new comers and may not know much about the corn borer. At the beginning the corn miller deposits an egg on the tender blade of corn, where it later hatches as a tiny worm. It lives and ranges on the blade and soon develops into a worm large enough to bore into the stalk not far from the ground. When it reaches the pith of the stalk, it works its way downward till it reaches the crown of the corn root. By this time it has destroyed about all the pith of the stalk. The worm, by this time, is fully grown and about one inch long, and ready to go into winter quarters, deep in the root of the stalk, until warm weather in late spring. It emerges as a miller ready to produce a new crop of borers.

Sandy farms that grow corn as a major crop every year, have a greater infestation than the farmers that carry all crops. From investigations made, I have found on the farm that I occupy at least 90 per cent of the stalks infested. As to control of the pest, I have little to suggest. On January 20, this year, I pulled up twelve old stalks of corn, placed them out in an open space and exposed to all weather and left them 20 days. I then split open the stalks near the ground and found eleven dead borers and only one alive. These twelve had been exposed to no temperature that reached lower than ten degrees above zero.

I also on same date, found the borers alive in the stalks that had not been plowed up. I wonder if it would not be worth our time and effort, to change our methods of late listing of land and begin that work, say, about December 1, and expose all stalks to the low temperature of winter. To say the least this subject should arouse the attention of all farmers interested in corn production and in the prosperity of all Terry county farmers. I shall feel amply rewarded for writing this article if I can enlist other farmers. Let us hear from you.

May Need More Census Enumerators

The Bureau of Census is responsible for the information that while there has been a lot of applications for the job of enumerators, that in some counties it is believed there will not be enough.

So, if you can qualify it might be a good idea to get in touch with the proper authorities for further information.

Weatherman Cuts Peculiar Capers

Yes sir, the Weatherman has acted up in an unusual fashion this year. Sometimes when it is balmy—well, sorter balmy in Alaska—the thermometer has played around the cypher here. Indeed, Editor Willard Jones, of Snyder, reminded us that for at least one day, the mercury here in Brownfield dived under what it was for the same day in Alaska.

Now comes a reader in Ohio, our good friend, W. D. Weaver, of Hanover, who states, after telling us that he was poking a dollar fifty in the envelope for another year of “the old rag”, is you, (us-uns) sometimes call it, and how much he appreciated its weekly visits, he ‘ows as how, that during one cold spell recently, while the mercury sizzled around 3 above at Hanover, 200 miles south it stood below zero by a few points.

W. D., it would not surprise this typewriter puncher, formerly referred to by editors as pencil pusher, that some day oranges will be growing in Ohio and buckwheat in Florida. But when that old boy goes on a rampage he hits all the places, high and low, north or south, east or west. It is said that during the recent cold spell in Florida, where many of the hotels have no heating facilities, the owners furnished guests Scotch, Bourbon, or Rye, their choice to keep them comfortable.

Mr. Weaver suggests, however, that maybe the New Deal had something to do with the weather freaks just to tease the fault finders. If so, it didn't pan out according to Hoyle in Ohio, as two of their congressional districts in recent special elections, went to the GOP's.

Mayor and 2 Councilmen to be Elected

The annual city election is called for the second day of April, which is the first Tuesday in the month, as usual, to be held at the city hall, at which time a mayor and two aldermen or as we call them, councilmen, will be elected.

The councilmen whose terms expire are Ike Bailey and Tom Cobb. We have not learned whether or not these two men will stand for re-election, but they have made good as councilmen:

Nor have we learned whether or not other names will be certified on the ballot. Mayor Clyde C. Coleman, in offering for re-election as mayor, undoubtedly will not have an opponent, as his has been a very successful administration the past two years, with a great deal done toward the beauty, convenience and utility of the city as a place to reside. Those with any grievance, no matter how small, have not gone to him but he was willing to listen. We know this to be true from personal contact. He is willing to go with one and see and hear from them any complaint, large or trivial. And he never gets riled or argues the matter, and if possible an adjustment is made satisfactory to the complainant. With such a record of being fair to all during his first term, the city could hardly do otherwise, than re-elect him.

Lubbock Parties Buy Terry's White Kitchen

Mr. and Mrs. John Coccaougher of Lubbock, have purchased Terry's White Kitchen from Mr. and Mrs. W. W. Terry and took active charge Friday of last week.

Mr. and Mrs. Terry have moved to Post, where they have leased the Algeria Hotel and Coffee Shop. They have been here for several years in the hotel and cafe business.

Mrs. O. E. Johnson breezed in one day this week and stated that she had simply let renewal slip her mind, but she produced two bat hides to run 'er up to 1941.

FOR MAYOR, City of Brownfield
Clyde C. Coleman, re-election.

Accidents such as we had here Sunday night, February 25, should cause all of us to pause and contemplate the reason for such accidents. Personally, we believe the highway patrol should release their findings to the newspapers, and let those to blame, if any, be known. A little of such publicity perhaps would cause some otherwise fat and reckless drivers to stop and reason.

Down state there is a bright boy who sends out free space dog in the hopes that he will break into print with his paid propaganda for some lame duck politician. His heading: "I Give You Texas!" Not so long ago, this same yahoo was advertising manager for Casa Manana. He elected to use the radio and bill boards rather than newspaper advertising. Now he wants the newspaper boys to "free space" him into public office.—Dorley County Leader.

Scientists have figured that the impact of running two automobiles together at 50 miles per hour is about equal to one driving his car off the top of a five story building to the sidewalks below. Well, you say, you just would not drive off a five story building. Nor do you want a collision with another

car, but carelessness, sleepiness or drunkenness cause many of the fatal highway and street collisions. Night driving becomes more dangerous as twilight and darkness comes on, so with the highway safety department we say: "Slow down at sundown."
According to J. M. West's Austin Tribune, which claims to be the daily paper mouthpiece of Gov. W. Lee O'Daniel in Texas, says country weeklies were not classed with the big dailies in O'Daniel's denunciation of the press recently, yea on several former occasions. We don't remember that there was any distinction made in the tirade against the press, but included all newspapers. Mr. West, or perhaps we should say Publisher West, it will be remembered, campaigned for Alf M. Landon for President four years ago, and was O'Daniel's choice for a place on the insurance and banking board, but the Senate sat down on him—hard.

The State Motor Transport Association is preparing to train all truck drivers in rendering first aid in case they run onto car wrecks or collisions. Truckers are learning fast as well as the railroads that they can't high-hat the public and get by with it. A few years ago, truckers deliberately took a bit more than half of the highways, and wouldn't give an inch for any one to pass them. Now, they give fully half the road; in fact you never see them on the other half, and are courteous in every way. If a driver does happen to get smart, a report of the matter to his employer gets a layoff for him, and a new man gets the job.

The Brewers' Industrial educational ads that have appeared in this and other publications recently, complain that requests for their booklet has not had the desired response from this section. This looks like the Herald and other newspapers hereabouts have had little drawing power, but let's remember that this is a "dry" area, and people are not supposed to know beer, see beer, feel beer, or hear about it. Yet the fact remains that some of our little used lanes hereabouts are piled high with beer cans along the fence rows, nearly all one brand, which seems to be the buyers special. But, if and when the brewers quit selling to low-class places, they have accomplished much in an educational way. It is really hard for the liquor enforcement bunch to stop such sales, as long as they have licenses to sell, but when brewers and wholesalers stop their sales—well, honkytonks just don't seem to go over on soft drinks.

State Press of the Dallas News recently tried to get us in bad with the "Wimmin." He copied an article which we had rewritten from a Santa Fe report on wheat in the Panhandle and wheat makes bread. But State Press in his comment jumped from bread to clothes. He loves to tease the wimmin about wearing from 8 to 10 cotton underthings in order to help the cotton farmer. In fact that subject along with dogs is his long suit, and we don't mean long-handled suits for himself. We suspect he wears silk or rayon shirts and shorts winter and summer. While we like to help the cotton farmer, S. P. is not going to get us in trouble with the wimmin by advocating that they wear anything. In the meantime we'll do our share to help the cotton growers by wearing long-handled unions from November to May, and BVD's the rest of the time. Also suits with tails reaching our knees, if possible.

Many of the legislators and the would-be legislators are now coming out squarely for an increase in truck load limit. For many years the railroads have gotten a sop from the law-makers in the shape of a light truck load limit, to hedge the operation of trucks as much as possible. But, in Texas, particularly, the sentiment of the people seems to be changing, and this automatically changes the sentiment of the law-making bodies. Railroads seem to persist in pouring it on Texas and other southern states on rates, backed by the I. C. C. Then, just at this time the Frisco system, which own the Ft. Worth, Denver and Colorado & Southern, are trying to tie the former to the latter in a lease. The F. W. & D. is paying road; the C. & S. a consistent loser. Not only that, but they propose to move the general headquarters of the F. W. & D. from Fort Worth and the shops at Childress to the smaller and less freight-producing

Representative Dies, chairman of the Committee to investigate un-American activities, could find work closer to home now, if he were looking for some real un-American activities. We refer to efforts of officials of the Ford Motor plant at Dallas to tar and feather labor organizers, as brought out in testimony at Dallas this week. American court officials are to honor for us to permit any such high-handed violence. If Mr. Dies is really interested in preserving real Americanism, let him get busy.—Anton News.
We have an idea, Editor Richards, the Ford plant at Dallas did not want a CIO organization, which is a step-sister, apparently in their minds to Communism. We happened to be in Dallas just after those riots, and found that

Ford employees, who get good pay and short hours, were satisfied with their lot, and did not want to get into a position where they would be called out on long, losing strikes. Strikes, like wars, are never won by either side. Do you remember that the communist flag was lowered as Dictator John L. Lewis spoke recently? He is supposed to have raised old billy about the matter but just keep denouncing the powers that be at Washington.
Perhaps you noted that the wind blew here Wednesday. If not, ask a neighbor. Space won't permit covering the story in this issue. Yep! Spring is here.

Officers Say Motor Vehicles Must be Registered in County
County Attorney Burton G. Hackney told the Herald in an interview Tuesday morning that he had been instructed by the Commissioners' Court to advise every motor vehicle owner of Terry county of the rules and regulations concerning the registration of motor vehicles.
Article 6675a-2 of the Civil Statutes provides in part: "Every owner of a motor vehicle, trailer or semi-trailer used or to be used upon the public highways of this state * * * shall apply each year to the State Highway Department

through the County Tax Collector of the county in which he resides, for the registration of each such vehicle owned or controlled by him. * * * for the ensuing or calendar year or unexpired portion thereof."
Article 6686, subdivision e, reads as follows: "All registration fees shall be paid in the county in which the owner lives at the time of registration of said motor vehicle", and subdivision f of the same article provides: "Any person found guilty of violating any of the provisions of this law shall upon conviction, be fined not less than Fifty (50.00) Dollars and not more than One Hundred Fifty (\$150.00) Dollars, and all costs of court."
Horace Beck visited Homer Parker and wife at O'Donnell, over the week end. That is he was supposed to visit them at O'Donnell, but we understand that Sheriff Parker at Tahoka had to stand the chuck bill.

HOW ONE WOMAN LOST 20 POUNDS OF FAT
Lost Her Double Chin—Lost Her Prominent Hips—Lost Her Sluggishness
Gained a More Shapely Figure and the Increase in Physical Vigor and Vivaciousness Which So Often Comes With Excess Fat Reduction.

Thousands of women are getting fat and losing their appeal just because they do not know what to do.
Why not be smart—do what thousands of women have done to get off pounds of unwanted fat. Take a half teaspoonful of Kruschen in a glass of hot water first thing every morning to gently activate liver, bowels and kidneys. Cut down your caloric intake. Eat wisely and satisfyingly — there need never be a hungry moment!
Keep this plan up for 30 days. Then weigh yourself and see if you haven't lost pounds of ugly fat. Just see if this doesn't prove to be the surprise of your life and make you feel like shouting the good news to other fat people. And best of all a jar of Kruschen that will last you for 4 weeks costs but little. If not joyfully satisfied—money back.—Nelson-Primm Drug Co. (No. 4)

Railroad Commissioner Ernest O. Thompson contributes an illuminating comment to the controversy over removal of the Fort Worth & Denver City offices from Fort Worth. If the technical measure, lease of the Fort Worth & Denver City to the Colorado & Southern, is carried out, Commissioner Thompson says that Texas will repeal the 7,000-pound truckload limit law, "which the railroad lobby saddled on Texas taxpayers."

In a series of news articles on the Fort Worth case, The News has also considered this possibility.

Texas supports Fort Worth's campaign to hold the Fort Worth & Denver City for ample reasons which have been summarized in these columns. It may be that Texas should materially alter its truck load limit. More had more opinion inclines that way. But any change in the law should have a better basis than spleen over railroad shifts in balance of local investments.

If, as Commissioner Thompson states so badly, the truckload limit is on the statute books merely to give the railroads an advantage over highway competition, then it has no business on the books at all.

Again and again it must be reaffirmed that regulations governing Texas highway transport must be fair. The only consideration involved in applying size, load and even speed limitations is public interest in maintenance of the roads and in safety of accompanying travel. That interest should be determined at all times by impartial scientific investigation, entirely free of either rail or highway coercion.—Dallas News.

The total value of all farm land and buildings in the country increased about five billion dollars from 1933 to 1938.

The number of forced farm sales through foreclosures and other causes declined 70 per cent from 1933 to 1939.

How To Relieve Bronchitis

Bronchitis, acute or chronic, is an inflammatory condition of the mucous membranes lining the bronchial tubes. Creomulsion goes right to the seat of the trouble to loosen germ laden phlegm, increase secretion and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding that you are to like the way it quickly allays the cough or you are to have your money back.

Put your money in the car that's

BIG IN MORE THAN SIZE!

Try a new Ford yourself! Not only in actual measurements, but in looks and feel and ride and action, you'll find it bigger money's worth than you ever thought low price would buy!

BIG IN MEASUREMENTS! Longer and roomier than any Ford car has ever been. Up to 4 inches more legroom in sedans.

BIG IN RIDE! Springbase in a Ford is longer than in any other low-priced car. In addition, longer, softer springs (on 85 h.p. models) and improved, self-sealing shock absorbers give a soft but steady big-car ride.

BIG IN "FEEL"! Gears shift easily and quietly, with fingertip gearshift on steering post.

Brakes are the biggest hydraulics ever used on a low-priced car.

BIG IN ACTION! Learn for yourself what a difference 8 cylinders make . . . why they are used so extensively in the more costly cars. Own a Ford and you enjoy 8 cylinder performance . . . at low operating cost.

We Take a Short Week End Ramble

While the rheumatics have had a foul hold on us for the past several weeks, and the "She" has had a great time getting us off the town section, she finally persuaded us off late last Saturday to Snyder to see the kids, Herman and Sallie. As we had to take our Saturday night Jiggs after leaving the office, some four hours earlier than is our custom, it was some six when we left, but reached Snyder without mishap before 8. Paved all the way now, and 98 miles.

Will say that we believe that fully 95 per cent of the farm land has been broken between here and the caprock this side of Post, which is about all the farming you see until you get well into Scurry county. Overtook a lot of trucks loaded to the brim with Terry county feed, headed for Central West Texas, where little feed was made last year.

The kids have a thriving sandwich, hot dog and drinks, (soft, very soft) business, that was rushing until about ten that night, and then let up and got as quiet as a Quaker meeting. So, just prior to the Sunday mark the Old He and She retired. They have an apartment in the back of the store, but aim to curtain off the rooms as soon as they get to it.

Well sir, about one p. m. it seemed that hell broke loose among the yearlings. The midnight matinee or preview of the shows were over, and while Herman and Sallie declared that there were not more than 50 youngsters congregated in the front end, it sounded like 150, but you know three coyotes can make you think there are two dozen. With their high pitched conversation and giggling to be understood above the capacity volume of the automatic phonograph, from our bed in the rear it sounded like a Kansas cyclone had hit the place.

The kids have a hard time keeping the youngsters from dancing, but as he is a member of the school faculty, and Snyder, like Brown, is a good old religious burg, that can't be permitted.
To home Sunday night by eight, and hitting the grit Monday as usual.

Mr. and Mrs. Sam Cates, Willie Vaughn, Artie Moore and Mrs. Chumbley of Lamesa were guests of Mrs. Marie Williams, Sunday.
Mr. and Mrs. Frank Szloski and children visited relatives in Crosbyton, Sunday.

HARMONY
Well, we are first snowed under, then sanded under. No, we don't like sand storms either, but say, isn't it fine when the sand quits blowing? Why we have the best county in Texas.

How to Judge a Washer

• The best test of a washer is its performance in your own home. Your best guarantee is the reputation of the washer itself. Maytag's fifteen years of World Leadership, the endorsement of three million owners, assure satisfaction.
The Maytag will do a large washing in one hour—wash everything clean without hand-rubbing or boiling. It gives you washings at lower cost for more years, and the clothes last longer and look better.
Investigate the one-piece, cast-aluminum tub, Gyrafoam washing action, sediment trap, and other Maytag advantages. Maytags are available with gasoline Multi-Motor.
Ask for a demonstration. • If it doesn't sell itself, don't keep it

IST PRESBYTERIAN CHURCH Fred A. Walker, Pastor

Sunday School --- 10:00 o'clock Morning Worship --- 11:00 o'clock Evening Worship --- 7:30 o'clock Topics for Sunday's sermons: "The Invisible Christ," and "Vipers in Camp." Sunday night we continue our study of heroes from the Bible as we hear stories of Moses. We invite you to make this church your church.

BAPTIST CHURCH

There was a registered attendance of 328 in the Bible school last Sunday and the best congregation at the preaching hour we have had since the first of the year. All teachers and classes are urged to not only raise their enrollments but their average grade and in so doing they will contribute to a better and more efficient school.

Progress is being made in our building and in raising funds for its completion but much cash must be secured during the next few weeks in order to keep the work going to full completion as we much desire. Pews in keeping with the building must be purchased and several thousand dollars are needed to pay for them and surely there is no one who will be content to allow their brethren to shoulder all the load.

The W. M. U. met in circles last Monday evening with 47 women present in their meetings. They will meet in circles again next Monday 3 p. m. to study the book "Things We Should Know", as follows:

Lockett, with Mrs. Elco Evans, Lottie Moon with Mrs. D. L. Patton, Blanche Rose Walker with Mrs. G. H. Holmes, Lois Glass with Mrs. Gladys Green, Christine Chin with Mrs. Tipton. A class will be taught next week by Mrs. Aurburg on "Give Ye Them to Eat."

Sunday March 17th is the date set by the Brownfield association for all their churches to begin their enlargement campaign for their Sunday schools. Here is a quotation from an editorial in the Ft. Worth Star-Telegram, entitled "Decline in Religious Education."

"Several juvenile welfare groups have cited with considerable apprehension that the material decline in religious education of the children in this country. These groups have estimated that sixteen million out of thirty million children and youths between the ages of 5 and 17 years have received no religious instruction whatever. These sixteen million will become adults unacquainted with a faith which has been described as the foundation of democracy. They will have missed one of the world's richest literatures, the Bible."

Is it an accident that crime increases among the young steadily when parents neglect the teaching of the Bible to their children? Let us all bring our children into the church and invite our neighbors to do so.

Mrs. B. D. Cooksey, Mrs. Birdie Standifer, Miss Bobbie Standifer and Jimmy Hill of Seagraves were Brownfield visitors, Sunday.

studying ways of making a living at home. They are studying about pigs, cows and how to sharpen tools. The Industries Arts classes have been cleaning up the shop, making notebook backs out of wood, also magazine racks and tables as projects.

In Junior Business they are studying the means of transportation. In Salesmanship they are studying presentation of sales.

The Biology class is making their own notebooks.

In Typing they are typing letters and are trying to finish their notebooks.

The Vocal Music class is studying key signatures, sharps and flats.

The General Science class has been studying the planets but now are studying soils and seeds.

The Foods 2 class is planning to serve a lucheon to some of the faculty members, Thursday.

During the Activity period some of the Sophomores are trying to do various things. Some are coming out for literary events, and some of the boys are coming out for track.

WHAT THE JUNIOR CLASS IS STUDYING

In Geometry they are studying a chapter on inequalities, and proving figures are unequal.

The American Literature class is studying selections of poetry by such famous authors as Emerson, Longfellow and Lowell. One of the most well-known poems studied the past week has been The Psalm of Life by Longfellow.

The girls' P. T. classes have taken up a new unit on safety. Safety posters will climax the unit.

The Industrial Arts pupils have finished the hurdles to be used for track and have been working on other projects.

In the American History class they have been studying International law, labor problems, and soil conservation.

WHAT THE SENIORS ARE STUDYING

The senior literature class enjoyed a picture show Tuesday afternoon on Hamlet by Shakespeare after they had been studying it. The senior grammar class will complete the study of verbs this six weeks. Friday they enjoyed a picture on the mining of sulphur.

Mr. Brewer's Economic classes visited the banks of Brownfield. The morning class visited the State Bank and the afternoon class visited the First National Bank. The seniors said they learned many interesting things about the banking system and enjoyed the trip.

WEST WARD NEWS

The Picture Memory teams are doing nice work. We hope to make a showing at least in the County Meet.

Several pupil have been out of school because of illness, but are back this week.

Thirteen members of the Music Memory team plan to take the Music Appreciation test in Lubbock, March 16.

Mrs. Hackney was out last week on account of illness. We are glad to have her back again.

SENIORS HAVE WORK DAY

On Monday, March 4, the seniors were dismissed from their classes in order to work and earn a dollar for their senior project. The day was a success and the seniors all turned in their dollars. Monday was a quieter day at school without the seniors.

W. O. Hart's conscience got to hurting him this week, and his pocketbook got heavy. Thus a new reader.

AROUND THE KAMPUS

The Members of the Annual Staff and their sponsor are finishing the pages for the annual this week, so the students will be able to have their annuals earlier this year than in former years.

Several of the teachers and some of the high school students were seen at the Palace in Lubbock, Saturday afternoon enjoying "Gone With the Wind". Mr. and Mrs. Emmitt Smith, Mr. and Mrs. Vernon Brewer, Mr. and Mrs. Johnnie Bost, Miss Fields, and Miss Edwards and possibly some of the other teachers. Some of the students were Jo Pete May, Virginia Bowers, Elizabeth Smith, Wanda Hahn, Ray Elliott and others.

BAND BOYS PLAY AT LITTLEFIELD

The following band boys attended the band clinic at Littlefield Friday, March 1: Ray Elliott, Larry Miller, Richard Elliott, Ulee McPherson and Buford Milner. The picture of the Brownfield band was on the front page of "The Wildcat," the Littlefield High School newspaper which was dedicated to the band clinic.

JUNIOR CLASS TO PRESENT PROGRAM

Friday, March 22, the junior class of Brownfield High school will present the Stamps-Baxter Quartet in a big variety concert consisting of sacred songs, popular songs, spirituals and comedy. The admission is fifteen and twenty-five cents. Everybody is urged to attend and have the time of their lives. Plenty of laughs are guaranteed. The proceeds of this program will go to the junior-senior banquet fund.

HOW JIM GETS BY

Jim: "Here are my cards, mother."

Mother: "I told you to make good grades this month."

Jim: "I forgot to tell my teacher that I thought her hair was beautiful."

Mother: "Jim, have you been telling your teachers that?"

Jim: "All you have to do, is tell her she looks so pleasant."

Mother: "If I were your teacher, the first time you told me that you thought I looked pleasant, you would get slapped."

Jim: "Mother, can I go to the show tonight?"

Mother: "No! You will have to get your lessons."

Jim: "Mother, I didn't notice your hair being so beautiful."

Mother: "Do you really like it this way?"

Jim: "I sure do. Please let me go to the show tonight."

Mother: "You may go if you'll be back before 12:00."

Jim: "Mother you're so sweet."

Mother: "Jim, you don't stay out late."

Jim: "I'll be back before long."

Mother: "You'd better be."

Jim: "Oh boy! Did I get her told. She is as easy to fool as my teacher."

L. F. Hudgens of Lubbock was a business visitors here, Tuesday.

POULTRY SHIPMENTS DROP IN JANUARY

AUSTIN, March 5.—A fourth less poultry moved from Texas farms to interstate points in January than during January 1939, figures compiled by the University of Texas Bureau of Business Research show.

Shipments of eggs, on the other hand, gained 50 per cent to 24 cars.

A total of 31 cars of chickens was shipped, 38 per cent less than in January a year ago, while turkey shipments totaled 13 cars, a gain of 44.4 per cent.

MAJORITY ALLOW HUNTING

The false impression that all game preserve demonstrations set up in Texas by A. & M. College are closed to hunting still persists, but should be dispelled by the annual report of the College, which shows that of the 23,280 farmers and ranchers who are cooperating only 7,017 do not allow hunting at the present time. That leaves the land owned by 16,163 co-operators open to sportsmen for controlled hunting and fishing. Hunting should be better on the areas in the demonstration program because landowners are pledged to improve their cover for game birds and animals and to provide proper food. Many of the demonstrators are making a charge for hunting and fishing rights.

MCLEROY HONORED IN MEAT ANIMAL ACTIVITY

4-H club members and friends in Terry county have real cause to be proud of the attention they have received through the receipt by County Agent, R. N. McClain, of a specially embossed watch fob to be presented to Calvin McLeroy for receiving the highest scoring in the county and National 4-H meat animal activity.

The contest was conducted by the extension service for the tenth season and also provides a handsome gold watch for the state winner who also becomes eligible to the National 4-H Club Congress and a college scholarship, all the gifts of Thomas E. Wilson.

Calvin is 19 years old and has successfully completed 3 years in club work. He lives in the Gomez community and is the son of C. J. McLeroy.
