4-H Scholarship Given Locker System Now South Terry Oil Well Keeping Faith with **Open For Business Miss Redell Parks**

College Station, March 25.-The highest honor that can come to Harlingen. Miss Higdon will receive the Texas Home Demonstration's \$300 scholarship. She is a lege at Kingsville.

Redell Parks, Tokio, Yoakum County, and Virginia Robinson of

Finally, after more than a year to the new oil well being drilled of hard work, much planning by a Texas 4-H Club girl goes this this one and that one, the Brownyear to Nina Ruth Higdon, of field Co-op Cold Storage and Locker plant is a demonstratable fact. It is now ready for your inspection, and the locker boxes are student at Texas A. and I. Col- being rented fast. In fact, around 200 of them had been rented be-

fore the plant opened, according to Roy Phillips, manager. That Gainesville will each receive \$250 individual showed us through the shining, clean sanitary plant Mon-

> day afternoon, and explained its workings.

Before we say very much about the local plant, we wish to stress the importance in which such plants are held by the Extension Department of the Texas A. and M. College. In fact, a great amount of their press releases of late has been about the plants. The A. and M. is thoroughly sold on them, tion. and are unreservedly recommending them to all communities, as a

saving in money, as a protection to health, and as a rare convenience to people who may be able to butcher whole carcasses any

ease of keeping the plant sanitary.

the series of meetings. Many got a kick out of hearing Colin Smith, especially, as he gave a fine description of that country on the other side of the world from us, and whose seasons are in reverse of ours. But while his use of the English language is radically different from ours, he said the customs and ideals of his people were much more like America than England.

That was demonstrated during the World War. Our Texas boys meeting Australians "over there" iked those boys from another cow and sheep country on the other de of the earth.

Mr. and Mrs. Trotter Rone of Floydada were here last week to be with their daughter, Mrs. Logan Redford, who underwent minor surgery Thursday, at the Treadaway-Daniell hospital.

Baptists May Get in the Lubbock churches concludes New Chuch by May 5

K. W. Howell, one of the leading members of the First Baptist church, informed us this week that the contractors thought they could turn the new church over to them by the first Sunday in May, which is the 5th. However, all the finishing and furnishings may not be in place by that time. The pews are being manufactured at this time, and will cost around \$4500. The seating capacity of the main auditorium will be around 1000. Mr. Howell stated. Another thing

that might be of interest to other church members is the fact that at a recent meeting of officers of the First Baptist church held this week, they agreed to donate a like amount to any church built in the future here, dollar for dollar with interest, for donations from members of the other churches to the First Baptist church.

Local Health Unit **Gives Health Tips**

The Governor of Texas has proclaimed the week of March 31 to April 7 as Health Clean-up and Safety Week.

Your local Five-County Health Unit, as a representative of the Texas State Department of Health, would like to point out some suggested activities for the promotion of health.

Each child should be actively immunized against diphtheria before the age of one year with diphtheria toxoid. Every child should be vaccinated against smallpox in early infancy and again upon entering school. Every person should be immunized by vaccination against typhoid fever. Since this disease is more prevalent in the summer, now is a good time to secure this protection. Consult your family doctor now and see if you or your family have not received protection from these diseases. Home sanitation should be in-

vestigated now before hot weather sets in. Screens should be repaired, thers always welcome. breeding places for flies eliminated, and garbage disposal cans should be well covered. Potential water hazards which might be breeding places for mosquitos should be eliminated. Every pri-

vate and public water supply should be analyzed for safety. Your County Health Unit will be glad to give service to you in this matter. Every home should be connected with the city sewage system if possible; if it is not available, a septic tank or an approved sanitary privy should be constructed. Plans for an approved sanitary privy can be obtained from your health unit. A clean-up campaign should be instituted in every community to improve sanitation.

Everyone should check up on

James Black Selected For A.C.C. Chorus

ABILENE, March 27.-James F. Black, Jr., son of Elder and Mrs. James F. Black of Brownfield has been selected as one of the 22 members from the Abilene Christion collge a capella chorus which will make a tour through East Texas, March 31 to April 5.

Special try-outs were staged to determine this select group from back on the job immediately. the regular chorus of 50 voices. This was done to facilitate transportation since the college bus will carry only a few more than twenty.

Four appearances will be given daily. Concert programs will be presented during the day in high school auditoriums and special arranged groups of religious songs will be sung each evening in the

churches along the route.

Free Assistance to Housekeeping Projects wheel in the car, which they

The WPA Housekeeping Aide Project located at Brownfield, gives free home assistance in housework and care of children in the homes of the needy. This project is sponsored by Terry county. During the current month WPA has expended \$505.78. Sponsors contributions amounted to \$33.50. There are twelve workers assigned to the project including Mrs. Golda Blackstock, who is the Project Supt. One day each week training is given the workers at the project center. A frame garden has been built by the workers using mostly scrap lumber. This encourages needy families in growing their own vegetables. These vegetables then are available early and late in the season at a very low cost.

O. D. soon had the officers after the car and men which he described and in which they beat a hasty retreat. They were caught in the eastern part of town as they perhaps thought no one was looking for them. They had another claimed was given them. They were thrown in jail, after telling officers they were from O'Donnell. Officers say it is a very hard matter to catch tire thieves, unless the officer is very familiar with the car that is being stripped.

Road Building Requires Effort on **Our Part**

By J. E. Shelton, Sec'y., C. of C.

As near as can be judged by the figures that were furnished to this office by the wholesale companies. Terry County is paying \$75,000 annually in gasoline taxes. 1 cent of this is a Federal tax and 4 cents state tax. Under the constitution of the state the public school system is allowed 1 cent, the Highway Bond Assumption Law 1 cent, leaving 2 cents for highway construction and law enforcement and other expenses of the Texas Safety Commission and we have been informed by a very reliable source that after enforcement expenses are met that only about 11/4 cents is left for actual construction and as the state has approximately 23,-000 miles of designated highways with 5,500 miles worn out, 5,500 miles of gaps in other highways, it can be readily seen that they have a difficult job financing the construction of additional highways with the funds that are at their disposal.

Now in the case of our own county, we have a grading and drainage project on Highway 51 between Brownfield and the Hockley county line, which is soon to

be completed, but up to this time no arrangement has been made to have it hardsurfaced, but a delegation, composed of members of the commissioners court and a committee out of the chamber of commerce are going to Austin the latter part of the week to request the Highway Commission to arrange for completion of it and it is not a "cinch" by any means that we will get the job done but we do feel hopeful to say the least of it. However we have one other nighway connection that there is not any chance of our getting constructed at any time within the near future, unless we do something about it ourselves in the way of financing and it is known as Highway 137 between Brownfield and the Dawson County line. Other highways that are not now on the state system but are important and are needed, is one eading from Meadow toward the west side of the county and the other is from Brownfield, south toward Cedar Lake. Now the only way that we will be able to get these connections, is by way of a road bond issue and if we will get busy and vote some road bonds and get our highways constructed it is only a question of time until the state will take them over just as they have done for a large majority of other counties in the state. Dallas county has \$9,763,700 in bonds, Harris county \$11,904,000, Tarrant county \$5,000,000, Bexar county \$2,671,000, the majority of them being issued for construction of state highways and getting closer to home, Lubbock county has \$577,000, Dawson \$78,000, Gaines \$380,000, with \$100,000 to be voted within the next few weeks. Yoakum county \$240,000, Cochran county \$114,000, and the State has assumed or will assume the payment of them, while we are sitting up here paying one cen or approximately \$15,000 of our

B. W. Stinson

With the passing of Mrs. B. W Stinson, Monday morning at the age of 74, there goes from us another fine mother and wife. Mrs. Stinson had not been in good health for some time, but she was thought to be doing fairly well until a recent illness. She died suddenly, posibly of heart stroke,

Funeral services were conducted at the church of Christ, Tuesday afternoon by Elder James F. Black. The body was laid to rest in the Brownfield cemetery, under direction of the Brownfield Funeral Home.

Mrs. Stinson is survived by her

Adam R. Johnson, Director of the State Department of Public Welfare, who has the responsibility for the selection of boys for mately 4000 boys would be needed
