WHO WILL IT BE?

When the clock strikes nine Saturday night, who will it be? This is the burning question of the hour and is the one big question that everybody is wondering about as the Terry County Herald's big "Better Times" campaign hovers around the closing hour.

This news cannot be imparted at this time, as there are still two big days to go and much can be accomplished in that length of time. But it is safe to state here that the winners will be those who have a little grit and nerve and the ability to overcome all opposition. The race is so close between the chief contenders for the motor car, that the final outcome is very much in doubt. Grit and nerve are the two paramount factors in the race now and the ones who put forth the best efforts and turn in the biggest reports will be the ones that will carry off first honors.

No votes are published today. Only the names of the workers are shown. They are NOT listed in the order in which they stand. The votes that have been published from week to week will have no bearing on the final results of this race. The votes were published for the sole purpose of indicating who the main workers were, what progress they were making, and to stimulate interest with the reading public. Each candidate knows their own vote score but not of any other worker. It is a conclusion that those who expect to win will have to make a real showing at the end.

HERE THEY ARE:

Mrs. Jack (Bugs) Bailey, Brownfield
Bill Burleson, Plains
Mrs. Lorn Walters, Brownfield
Miss Nadine Pool, Brownfield
Mrs. Floyd Copeland, Meadow
J. C. (Uncle Jimmie) Green, Brownfield
Mrs. Luther Malcolm, Tokio
Mrs. Y. M. (Grace) Mason, Brownfield
Mrs. Richard Whitley, Gomez

HOW WILL THEY FINISH?

Notice To Our Old Subscribers

Some of the candidates on the subscription drive have reported to us that some of the old subscribers a year or more in arrears have refused to renew, saying they get the paper anyway.

This is to notify you that on and after the closing of this campaign that if you have not renewed, or explained to us why you have not, your name will be dropped from our list.

We have kept the paper going the last two years on account of short crops. But most of you have had a crop this year, or good employment if you live in town, and we cannot carry your name free. It costs real money to issue a paper the size of the Herald, and with its present circulation. So, if you wish the Herald continued to your address after next Saturday, drop in or see one of the solicitors.

Local Phone Company Had Much Damage

In conversation with E. C. Throop, district manager of the Southwestern Associated Telephone Co., he stated that they had a great deal of damage to their line north and east of Vega and Dalhart during the Saturday-Sunday storm. He stated that it would likely take two months to get back to normal.

The cities of Amarillo, Borger and Pampa are covered by the Bell system and also have great damage. The Southwestern Associated covers the rest of the Panhandle section. Both companies have rushed extra crews to this section.

Christmas Gift Opening Day Dec. 7th

All local stores are asked to cooperate in an "Opening Day for Christmas Shopping." Date has been set as December 7th, which is the first Saturday in December. Merchants are asked to have all their Christmas goods on display by that time. Most of the merchants have already started stocking their shelves with Christmas goods.

The Chamber of Commerce is sponsoring the plan, and it is hoped that by having an opening day wherein all merchants cooperated it would help stimulate the sales.

NEW CHIROPRACTOR LOCATES IN BROWNFIELD

The Herald is privileged to announce that J. E. Nelms, D. C., has located in our city, coming here from Lubbock. He has offices in the Brownfield State Bank building, where he invites you to consult with him about your health troubles.

Dr. Nelms is a Carver graduate, a college widely recognized. He has the only Brevethorn on the South Plains. Examinations are free.

Signs To Welcome Colorado City

The Chamber of Commerce is having a large street sign painted to welcome Colorado City when they come here to play. The Junior Chamber of Commerce is working on plans to paint signs downtown welcoming visitors.

Important Notice To Registrants

There have been this day mailed to you Questionnaires which you are required by the Selective Training and Service Act of 1940 to execute and return within five days from the date hereof.

Failure to complete and return your Questionnaire is an offense punishable by imprisonment and fine.

Any registrant whose order number is included below and who seeks a deferred classification, may, within 5 days from the date hereof, submit proper affidavits to this Local Board. He may submit such affidavits in the space provided in his Questionnaire or submit them separately. Any other qualified person seeking deferred classification for the registrant shall use Form 42 (Claim for Deferred Classification by Dependent, Employer, or Other Person), or other applicable forms available at the office of this Local Board.

Failure of the registrant or any other person concerned to exercise this right or privilege within the time authorized by the Selective Service Regulations or within an extension of time granted by the Local Board, may constitute a waiver of such right or privilege.

Well Equipped Chiropractor's Office

The Herald likes to give its advertisers a boost now and then that is not charged out. In other words a free-will boost that may help our neighbor along the way of life in a business way and then perhaps help some one really needing help. It is with this last thought in mind that we are telling our hundreds of readers what really is in store for them if they are ailing.

Tuesday afternoon of this week, we had the privilege of visiting the chiropractic studios of Dr. T. H. McIlroy, principally to see a new machine for this city at least, known as the Colon Therapy Unit. The machine, as well as the X-ray machine of the laboratory is operated by Mrs. V. V. Smith, an X-ray technician. This machine, which probably costs hundreds of dollars, reminds of a hotwater heater, only greatly more complicated. It keeps water to an even degree of temperature, and thoroughly irrigates the colon, the refuse water going directly from the patient to the sewerage. The machine was in actual operation while we were there.

This irrigation of the colon takes the unevenness out of the large intestine, and with massages that follow, is expected to correct colon trouble. Hundreds of people in the area are perhaps suffering from some stricture or misplacement of the colon and don't know it. An X-ray will reveal the trouble. In what Dr. McIlroy calls his own studio, he had a blood pressure testing as well as a heart testing machine the like of which we have never seen. We took the test, and could hear our own heart beat as plain as day, and even the gurgle of the blood. He stated that our heart was hitting on all six, and blood pressure none too high. If you are ailing, and don't seem to get relief, perhaps a call on Dr. McIlroy will reveal your trouble.

Mr. and Mrs. German New Citizens Here

The Herald welcomes Mr. and Mrs. Jimmy German, who have just the past few days arrived here from Plainview. Mrs. German will be remembered as the daughter of Mr. and Mrs. Earl G. Alexander, early residents and druggists of this city, being the second child, (Kathleen). Mrs. German stated that it was almost like returning home, even if they couldn't get an apartment.

For the past two years, Mr. German has been playing professional football on the Pacific coast, but has decided to settle down to a bit quieter life. Welcome to our city.

Mr. German will be in charge of the jewelry department of the Alexander Drug Store here, which is managed by Gladys Green. The Alexanders have a drug store in Plainview, and interested in one here, at Levelland and Littlefield.

District Meet of Soil Conservationists

The District Supervisors of Cochran, Yoakum, and Terry Soil Conservation District held their second meeting in Brownfield last Friday. The purpose of their meeting was to make preparations for the District Program, which is information regarding the three counties that will be used as a basis of the work plan to be followed in the District.

In addition to the District Supervisors, all governmental agencies represented in the three counties were invited to meet with the District Board to present the information concerning the physical conditions of the land, economic conditions prevailing in the District, and also present social conditions.

The District Board is composed of Willie McDonald and Lee Brownfield of Terry County, W. W. Smith and W. A. Woods of Cochran County, and F. M. Cox of Yoakum County. Mr. McDonald is Chairman of the Board.

Representatives of State and Federal agencies who were present were:

- Soil Conservation Service, E. R. Steen, M. W. Howard, B. W. Carmichael, O. T. Williams.
 - Farm Security Administration, D. Q. Lilly, Miss Mabel Whitney.
 - Vocational Agriculture Teachers, W. B. McAllister, Arlin Hartzog.
 - Extension Service, Roy Hickman, R. N. McClain.
 - State Game, Fish & Oyster Commission, Charles Friley.
 - Agricultural Adjustment Administration, Looie Miller.
- The next meeting of the Board will be held in Brownfield on December 6.

Brownfield Cubs Put It On Olton

The Brownfield Cubs waltzed over the Olton bunch on their home grounds Turkey Day to the tune of 25 to 6. A local man called us after the game and gave us the 19 to 6 score, but he says he wasn't drunk. Those who saw the game say it was a good clean game.

And now perhaps, after cleaning Slaton and Olton, some of the "also played" teams in the section, or their fans, at last are satisfied that the Cubs are a real fighting bunch. Some of the sports writers of the area are still maintaining their team won.

And, the sports writer of the Lynn County News, Tahoka, said Slaton outplayed Brownfield, despite the score, basing their decision on first downs. They might with just as good argument say that Olton won, and that Snyder won from Colorado despite a 40 to 3 score.

On the other hand, the Levelland sports writer is contending that Levelland won from Brownfield on a tie score, despite two extra first downs for Brownfield. We know it is hard for some of the towns to be defeated year after year. But they can at last be good sports.

Man Takes Life Here Monday Noon

A man by the name of H. E. Wagoner, employed as porter at a local barber shop, went to his rooming place Monday noon, took a dose of carboic acid, and informed his landlady to tell his sister at Plainview "that he couldn't make it."

J. W. Oliver, J. P., who held the inquest, informed the Herald that the man was suspected of being an alcohol addict, and meant he couldn't quit it. The body was carried to Plainview for burial by a Plainview funeral home.

RACE IS VERY CLOSE AND WINNERS WILL BE DECIDED BY FINAL WORK

SUBSCRIBE NOW AND HELP YOUR FAVORITE

Saturday night, promptly at 9 o'clock, one of the greatest subscription drives for one of the most elaborate and expensive lists of prizes ever awarded in Brownfield, will come to an end.

Never before in the history of this community has such enthusiasm been displayed—never before has such interest in the candidates been manifested by the public at large, and never before have the votes been so evenly divided. It merely proves what has been said many times previously, that no candidate in the race has a lead that cannot be overcome with a little determination and effort.

And here is food for thought for all candidates. If in your own mind you have won a good position in the vote column, you may absolutely depend upon it that some other candidate wants that position, and is working hard to get it. If you are in line for one of the major awards that is indeed a very envious position, but the clearest thing about the race is that several other workers in the campaign want that position. Each one is perfectly satisfied that you should have it now, providing that he or she will have it when the final count is made Saturday night.

There is only one thing that you know beyond peradventure, and that is your own vote score. The score of every other candidate is a mystery to you—so is your position to them—but yet there is a factor in today's situation which must be clear to you as it is a most open fact in regard to the outcome of this campaign.

It is certain that you cannot expect to hold your present position unless you meet the next few hours' competition. We do not know of any candidate the race who is so far ahead of his or her competitor that they can rest easy. Every worker is crowded from behind by an eager pursuer. If you want one of the big awards when the winners are announced, then by all means meet today's situation with courage.

To Lecture Here On Fire Prevention

Eunice Jones, fire chief and utility superintendent, informed us this week that Mr. G. K. Hawthorne, brilliant lecturer and for many years associated with the fire departments in some of the larger cities, would be here Wednesday, Dec. 4th. While not sponsored by the fire department, local firemen are none the less interested in getting as many people to hear Mr. Hawthorne as possible.

Mr. Hawthorne will lecture to school children on the dangers of fires, and fire prevention in the afternoon of the fourth, and to an adult audience in the Brownfield High School Auditorium at night, at which time, movies of fires and prevention methods will be shown FREE. In fact, both lectures and the movies will be free.

400 Entertained At The Auditorium

Around 400 men, old timers and new comers, enjoyed the stag feed at the Venetian Auditorium last Wednesday night, when the Senior and Junior Chambers of Commerce entertained with a barbecue in honor of the newcomers now in business here.

Several talks were made by the new business men, as well as the old timers, following the feed, and several expressions we have heard from new people who attended lead us to believe they enjoyed it very much.

Representatives from Lubbock, Denver City, Seminole and Seagraves were present.

City Proud of Banner Location Here

The Herald joins with the citizenship of the city in welcoming the Banner Ice Cream Co., to our city. They have a very nice location and building on Lubbock Avenue, in which they distribute such products as ice, milk and cream, all bearing the Banner

Local Manager Banner
Distributing Plant.

Brand. They have some ten or twelve production plants in West Texas, with some 30 distributing plants, the parent house being at Abilene.

Mr. J. F. Hall, manager of the local plant, was a pleasant caller at the Herald office Tuesday. Mr. Hall is no new comer to this section of West Texas, having lived both in Big Spring and Seagraves. He built the first ice plant in Seagraves, where he lived until the plant was built here. He is a director in the Seagraves Chamber of Commerce, has already become an active member here, is a Rotarian and prominent in Masonic circles.

Mr. Hall stated that he was glad to become a part of the city of Brownfield, which he believed is destined to make rapid growth, and become one of the best cities in this entire section. On the other hand, we feel sure that our people welcome him and family along with their plant to our city, and hope they like Brownfield and its people.

A Trip Down To Old Howard

The past week end the Old He together with Jack Jr. and family made a trip to Coahoma in Howard county, to fill up again on Joe and Rosetta Roberts. Didn't see much as it was raining or fogging all the way down there and back, but the crops on the roads seemed to be all in, practically.

Conditions are pretty good in Howard this year, as they made a very good crop of both cotton and feed. Just got out of the house long enough Saturday night while down there to get a shave. It was wet two ways, the weather, and then the citizens decided Saturday by more than 600 majority to keep whiskey and beer legalized in that county.

The Old He's wife seems to be doing a nice job of resting and gaining strength under the direction of her sister, Mrs. Roberts.

We have wondered if cabling telephone and telegraph wires in the Panhandle where they frequently have misty freezes would help matters, or would it be too expensive? It seems that it is very costly to rebuild lines every few years. And, we'll bet Amarillo takes the precaution to install a few diesel engines near their pumping station from now on—just in case.

**"This Land of Ours"
Shown In Movie**

Every one of us has at some time or another had the desire to take a trip throughout our great land to view its many places of beauty and interest. But very few of us ever realize our ambition—we either can't afford it or we haven't the time.

The Brownfield Implement Co., your Minneapolis-Moline Dealer, is now inviting you to take this trip with him free of charge by seeing "This Land of Ours", a free movie production which your M-M Dealer is showing at Brownfield, Texas on Thursday, Dec. 5th. "THIS LAND OF OURS" takes you through our beautiful national parks, shows you our beautiful mountains, lakes and waterfalls, and takes you to such points of interest as the World's Fair, our largest industrial cities, the great iron mines of Northern Minnesota, and many points of historical interest.

In addition, "THIS LAND OF OURS" gives you an insight into farming methods in all parts of our country and shows Minneapolis-Moline modern tractors and farm machines at work on all types of farms. All scenery in "THIS LAND OF OURS", is in its natural beauty, since the movie is in full natu-

Hospital Notes

Mrs. F. M. Cornblise of Lahey is being treated for pneumonia. George Cranford, who was recently injured in a car wreck, had major surgery on his leg Tuesday. Wesley Meek of Durango, Colo., entered Saturday and is being treated for pneumonia.

E. C. Groves, Rt. 2, is a medical patient.

Deverelle Lewis who recently underwent major surgery was able to be moved home Wednesday.

Tom May, Homer Winston, J. B. Knight, Ned Self and Clyde C. Coleman left Wednesday for Marathon on a deer hunt.

LETTERMEN MAY GO TO COTTON BOWL GAME

Efforts are underway by the Chamber of Commerce and other civic organizations to send the Cub lettermen to the Cotton Bowl game in Dallas, New Year's.

It has sound and musical accompaniment, and a guide explains all points of interest.

This is a show you'll want your whole family to enjoy. It's free to all farmers. Also see picture of dual tire farming demonstration of 10 tractors in the field, all day. —Brownfield Implement Co. Brownfield, Texas.

IN MEMORY OF OUR OLD FRIEND H. H. HARKINS

Recently our old friend H. H. Harkins passed from this vale of tears, and as we had sickness in our family at the time, we failed to get any notes with which to write an obituary, and no one else supplied them. This week we found a bit of poetry that to us fits the life of that grand old man. It is written in the present tense as we knew him, but as he is gone, you can change the reading to the past tense if you like:

I know a kind old man
Whose form is old and bent,
Whose steps are growing slower
He's lived his three score-ten.
He has borne his share of trouble
Of toil and hopes and fears
His hair with frost is covered
With many changing years.
Yet his face is always smiling:

And his eyes are always bright
Always he seems looking
Toward a shining light
Ah, man, who taught you thus to smile,

It seems that I can see
A likeness in that kind old face,
To that "Man of Galilee."

Mr. and Mrs. Earl Denton returned Sunday from Trinidad, where they visited relatives. They were accompanied by Travis Denton, who remained there.

Easy Pleasant Way TO LOSE FAT

How would you like to lose ten or more pounds in a month and at the same time feel better perhaps than you have for years?

How would you like to lose your double chin and your too-prominent hips and at the same time feel more youthful and be more attractive?

Get on the scales today and see how much you weigh; then get a bottle of Kruschen Salts which will last 4 weeks and is inexpensive—take one-half teaspoonful in a glass of hot water before breakfast every morning—cut out pastry and fatty meats—go light on potatoes, butter, cream and sugar. When you have finished this first bottle, weigh yourself again.

Start today girls to get a more graceful, charming, slender figure. Leading druggists all over America sell Kruschen Salts—plain or new effervescent—pleasant, sparkling. Try one bottle—if not supremely satisfied money back.

Nelson-Primm Drug Co.

Miss Josephine Nolen of Midland will spend this week end here with Mrs. Laura Copeland.

Mr. and Mrs. Carl Lewis were Lubbock visitors Sunday.

A letter from Guy Chesney, Colorado City, this week, states that a large delegation of Colorado City people will follow the Wolves up here Friday to witness their tussle with the Cubs.

Norma Shearer, Robert Taylor In Hit!

The new romance and dramatic team of Norma Shearer and Robert Taylor makes its first film appearance in "Escape," picturization of the Ethel Vance best-seller which opens Sat. Preview at the Rialto Theatre for a 2-day engagement.

Surrounding these two stars is a "name" cast of almost unprecedented brilliance, including Conrad Veidt, star of European films; silent film star, Nazimova; Felix Bressart and Albert Bassermann, who were outstanding figures of the Continental stage; Philip Dorn, young Dutch leading man; Bonita Granville, Edgar Barriar, Elsa Bassermann and Blanche Yurka. Miss Shearer, who last scored

Together for First Time in "Escape," Filmization of Best Seller Novel

in "The Women," now appears in the much-coveted role of Countess von Treck, American by birth but European by choice, who finds herself much against her will involved in the desperate attempt of American artist Mark Preysing to rescue his ex-actress mother, Emmy Ritter, from a concentration camp where she has been sentenced to execution. As Preysing, Taylor is given a characterization even more dramatic than that of his Capt. Cronin in "Waterloo Bridge."

Nazimova returns to the screen for the first time in fifteen years as Emmy Ritter, Conrad Veidt portrays the General, lover of the Countess and ultimate menace to Emmy's escape. Bressart is the stubborn but loyal family servant, Fritz; Bassermann the aged and fearful attorney, Henning, who refuses to help Mark; Dorn is Dr. Ditten, concentration camp physician who makes it possible for Emmy to be carried out in a coffin; Bonita Granville is Ursula, leader among the Countess' schoolgirls; Blanche Yurka portrays the brutal prison nurse, Mervyn LeRoy, who filmed "Waterloo Bridge" directed "Escape."

BAPTIST CHURCH

Last Sunday was a day to test the loyalty of members of any church in this community and we were able to count 168 out of our school enrollment of 650. The pastor announced that next Sunday would be termed Loyalty Day in our church but the writer believes last Sunday was a better test of loyalty with cold and wet weather as anybody can be present when the sun shines but so many are becoming soft when there are difficulties to overcome.

The Brownfield Association has been conducting this week a school of missions and have had ten missionaries at home on furlough visiting their churches, present the successes, difficulties and needs of their various fields to the different churches each evening. The people supporting our missions in our churches are glad to meet and hear the missionaries and learn from them first hand about the progress and prospect of the work we are doing.

It is inspiring to know that Southern Baptists are supporting more than eight hundred missionaries in their fields of labor and while that is a small contribution comparable to their ability, yet it is noteworthy that we believe the command of the Master is as binding to us as it was on the early churches. The matter of supporting this work with our money does not compare with that of the missionaries who go afield to strange lands and live among the people to whom they are sent, far from their own homeland, some of them never to return to the country of their birth, yet they go joyfully not counting the hardship, while some claiming to be Christians refuse their support.

We are expected to have one of these missionaries preach in our church here next Sunday and all visitors will be welcome.

Pneumonia Weather

AUSTIN, Nov. 26.—From now on until after March, Dr. Geo. W. Cox, State Health Officer, states that every one must be on guard against pneumonia. Last year 3,551 Texans died of this disease, and it is believed that many of these deaths could have been prevented had the patient called a physician early.

The onset of lobar pneumonia is usually sudden and is characterized by chills, fever, severe pains in chest, and coughing up of rust-colored sputum.

A person who has suffered an attack of pneumonia does not need to be told how swiftly it attacks. One can be feeling simply chilly and languid. During the next day or two these disagreeable sensations continue, and the average person pays little attention to them. If one has been coughing for several days, he attributes everything to the cold. Then comes a chill, and with it comes pain—not a stitch, but a stab, a continued rhythmic stabbing with every catching breath.

New treatments for pneumonia have been perfected, but to give

any of these methods a fair chance of accomplishing a cure, a diagnosis must be made early, preferably before the first chill or at least soon after its appearance.

Pneumonia is spread by contact, but this type of germ does not live long outside the human body. There are thirty types of this germ. Many persons do not realize that pneumonia is a catching disease. Relatives and friends will visit freely the person who is convalescing from pneumonia, although they would not think of sitting in the sickroom of a small-pox patient. Both are communicable and dangerous diseases. Having a physician early when any of the symptoms appear is the best method of stopping this needless loss of life.

Union men who have struck in the huge airplane plant in California are piling up troubles for American laborers to an extent the like of which they can hardly realize. We would not presume to pass on the rights and wrongs of what they are doing. Other laborers in the "secondary" stratas are amazed and alarmed. Some fine morning they'll be told where to work, how much to work for, and what to do. Remember, there is a law now. But the authority is in Washington, not where your work is!—Floydada Hespian.

Tough on the Republicans! Mr. Wilkie's popularity in the State of Texas works a hardship on the party for 1942, and they will have a primary instead of meeting at the court house and filling out the blanks Mr. Creager sends them from Brownsville. Maybe they will be lucky by the time the national campaign comes around in 1944. They're probably hoping their candidates in 1942 won't get many votes and they can just hold a bit of a caucus at the court house and

ANCIENT MAN UNEARTHED IN HOCKLEY COUNTY

LUBBOCK, Nov. 26.—Remains of a skeleton unearthed in a gravel pit several miles northwest of Whitehall in Hockley county last week are believed to be those of prehistoric man, although conclusive evidence that this was the long-sought Folsom man was lacking, Dr. W. C. Holden, curator of the Tech Museum, said.

Amount of fossilization of the skeleton was similar to that on elephant, camel and horse bones found in the same strata, possibly 20,000 years old, he said. But due to disturbance of layers immediately above the grave by excavations of the gravel pit, proof was missing.

A portion of the skeleton was excavated and brought to the museum for study and measurement.

Man in swimming: "Are you sure there are no crocodiles about here?"

The reason there are fewer railroad accidents than automobile accidents is because the engineer isn't hugging the fireman all the time.

Girl, after a horseback ride: "I never knew anything so full of hay could be so hard."

Mr. and Mrs. S. T. Miller of the Needmore community will leave Saturday for Temple where Mr. Miller will undergo treatment.

That's all there'll be to it for the 1944 campaign. Especially happy that time will be if the wheel of fortune spins around and gives them a national ticket that wins. —Floydada Hespian.

Despite Warnings, Accident Increase

The cooperation of every man, woman and child is necessary to stop the increasing number of crossing and other highway accidents, J. A. Gillies, general manager of the Santa Fe Railway Western line, asserted today in a widespread appeal for traffic safety observance.

"Despite mechanical safety measures aimed at absolute protection, accidents, generally, seem to be on the increase," he said. "It takes cooperation of the individual to fulfill these safety aims, yet where the individual can best be protected there appears to be a lack of respect for personal safety."

"With crossing signals and other warnings there should be positive prevention against motor accidents at railway crossings, yet reports of mishaps and worse are constantly growing.

"We have been proud of our railway safety records in the past but are appalled by the recent increase in accidents and call on the public to aid us regain the highest degree of safety. Not only do our train crews have safety apertures in mind but a staff of experts on safety is continually instructing employee groups. Safety demands the cooperation of the public and without that we can never hope to lessen crossing tolls.

"It is difficult to ascertain the actual reason for these accidents, aside from carelessness or pre-occupation of those operating automobiles. Investigation shows that many motorists drive onto railroad crossings without observing warning signals, slowing or stopping to judge whether a train is approaching, oftentimes with tragic results.

"The railroads are trying to do their part toward maintaining perfect safety records and we earnestly appeal to the motoring public, for mutual protection, to pay the strictest attention to safe and sane driving."

Veneral Disease Control for Army

AUSTIN, Nov. 18.—The Texas State Health Department will cooperate with the Army, Navy, and United States Public Health Service in active control of veneral disease in areas where armed forces and national defense employees are concentrated.

Dr. Geo. W. Cox, State Health Officer, announced cooperation in the program which is outlined in an agreement with the War and Navy Departments, the Federal Security Agency, and the State and Territorial Health Officers Conference.

Doctor Cox pointed out that "infections among military personnel originate in the civilian communities. Recent experience indicates that the veneral disease rate in a given military command reflects the efficiency of the veneral disease control program in adjacent communities.

"Effectively carried out," Doctor Cox said, "the eight-point cooperative program will contribute substantially to the physical fitness of men in the armed and industrial defense forces."

Doctor Cox quoted statistics showing that 350,000 officers and men—the equivalent of 23 divisions of 15,000 men each—were treated for veneral disease during World War No. 1. "More than six-and-a-half million man-days were lost to the Army because of syphilis and gonorrhoea. Much of that lost time could have been avoided," Doctor Cox emphasized, "if facilities had been provided for proper veneral disease control."

Ground work for the veneral disease control program in the areas surrounding Texas cantonments where military forces will be concentrated has already been established. Local city and county health departments are cooperating with the State Health Department and the U. S. Army officials in setting up a series of control measures.

"It was agreed by the Surgeon Generals of the Army, Navy, and U. S. Public Health Service," Dr. Cox stated, "that the legal responsibility for the repression of prostitution rests upon the local police and sheriff's departments."

How Winter OIL-PLATING maintains needed lubricant in advance for Safe Quick Starts

Any good timely oil ad tells you the one same truth... your Winter oil ought to flow fast. For it must come groping up from the bottom of your engine, to all inner surfaces—a total area bigger than a windshield, but tough for the oil to reach. The sooner the oil could get there, the more safely you'd start up.

That's what's at stake. And that's why many stop depending on fast flow alone, as they learn that their engines can be OIL-PLATED to lubricate "faster than instantly" at every Winter start. Simply changing to Conoco Germ Processed oil brings your engine OIL-PLATING, which

cannot be late getting started, because it's always PLATED UP where needed, before you even step out of the house.

OIL-PLATING, you see, isn't all draining down during long cold standstills. The extra man-made substance in Germ Processed oil—patented—bonds OIL-PLATING to engine parts lastingly. It stays there. And lubricant couldn't be prompter than that in smoothing the way for precious parts, instead of letting them grind. THE DAY OF DAYS

All Eyes Are Focused On The Closing Days Of The Big "BETTER TIMES" Campaign As The FINAL EFFORTS Of The Candidates Will Determine Their Right To A Fortune In Prizes

Details Of The FINAL COUNT

Terry County Herald's "BETTER TIMES", Club

In order to maintain the strictest secrecy as to the number of subscriptions turned in by each individual candidate during this, the final days of the campaign, the race will be brought to a close under a sealed ballot box.

No subscriptions whatever will be accepted through the campaign department during the last three days of the race, but instead, candidates themselves will deposit their final collections and reserve credits in the ballot box, located at the Herald office.

By so doing, no one, not even the campaign manager, can possibly know the exact voting strength of the respective candidates, which precludes any possibility of favoritism and insures fairness to the most minute degree.

Locked and sealed, the ballot box will remain in the Herald office until the closing minute 9 p. m. Saturday, Nov. 30th.

When the final hour arrives, the campaign will be declared closed. The judges will then break the seals, unlock the box, and immediately thereafter, or as soon as credits can be issued on subscriptions contained therein, the count will begin. The winners will be determined by merely adding the reserve credits held by each contestant to those found in the ballot box the final week. There will be no waiting, no complicated count; simply a matter of adding credit totals and naming the winner.

It is calculated that it will require about one hour to canvass the findings in the box and to determine the winners. The prizes will be awarded "then and there on the spot." The official results will be announced by the judges Saturday night and the same will be published in the Terry County Herald, December 6th.

All subscriptions deposited in the sealed ballot box must be accompanied by full amount to cover and in the form of cash, money order or certified check.

No personal checks, over \$5.00 in value, will be accepted from anyone. Absolutely no money will be refunded on any subscription turned in.

This ruling is made in fairness to all candidates and will be strictly adhered to.

All credits for subscriptions must be in the Sealed Box before 9 p. m. Saturday, November 30th.

THE JUDGES

Members of the Advisory Board, selected for their honesty and integrity, will be asked to act as judges, canvass the findings in the box and to award the prizes.

The personnel of the board is as follows:

R. A. SIMMS

Secretary Draft Board

DICK McDUFFIE

Cashier First National Bank

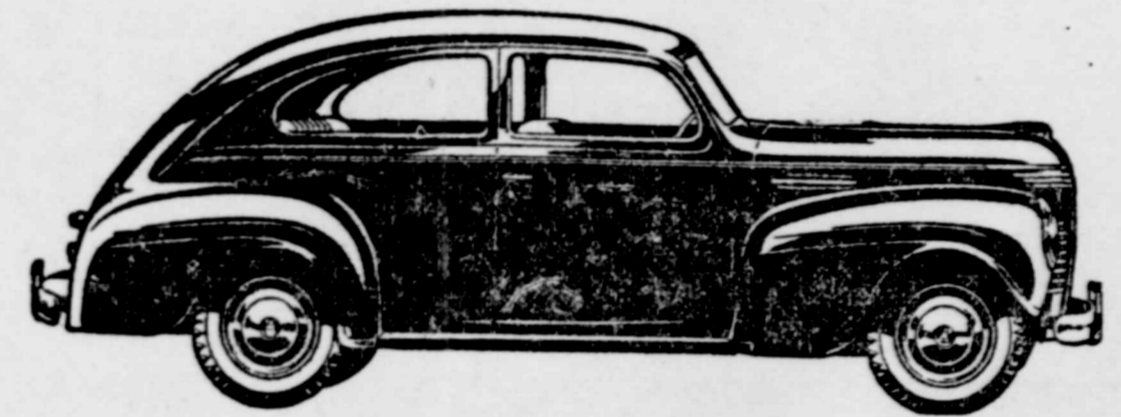

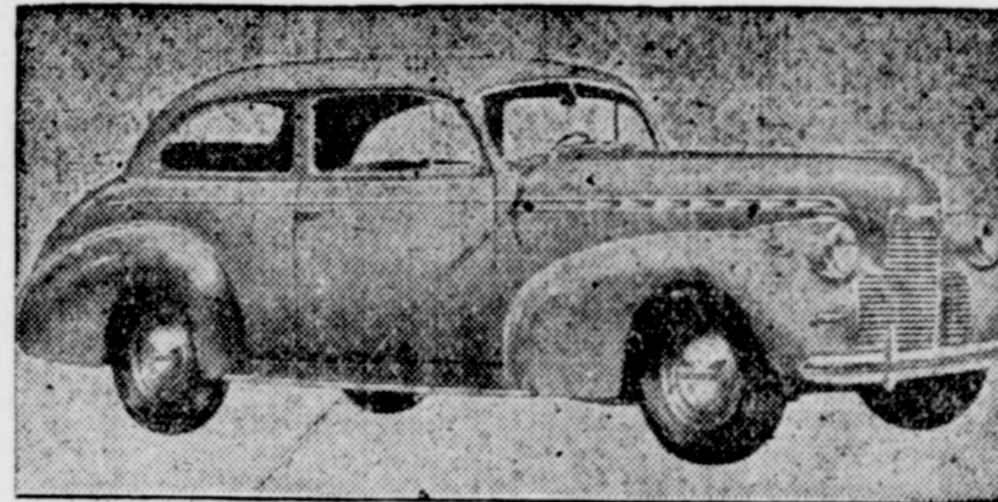

LEO HOLMES

Cashier Brownfield State Bank

CAMPAIGN MANAGER

All of these gentlemen are well known in Brownfield and surrounding territory and the final results, as given out by them, will be final and beyond dispute.

Will The Scales Be Tipped In Your Favor?

In just two days one of the greatest battles of ballots ever staged in this territory will come to an end and one candidate will be made happy with a beautiful motor car or cash while seven others will come into possession of elegant awards for their remarkable efforts during the Herald's big subscription drive. Two more days, all too short, will roll rapidly by and at 9 o'clock p. m., Saturday, this great campaign will be declared closed.

And the candidates, working with every ounce of energy at their command, are going to surprise even themselves at the results they will obtain during the closing days. The campaign has been so widely advertised that the American instinct, the desire to help the person who shows a disposition to help himself or herself, is sure to assert itself, and many who failed to subscribe earlier in the campaign, or who promised to subscribe at a later date, are now in that enthusiastic state of mind when they are not only willing but anxious to get into the game and support their favorite by taking a subscription which may bring him or her the very votes needed to win bigger and better prizes.

The goal that these busy workers have been striving for is about to be reached. People who desire to assist them to win a prize before the end comes are asked to get in touch with the candidates at once or leave their remittances at the Herald office.

The race will end as stated, at 9 p. m., Saturday, and the wide awake candidates will not waste one minute of the intervening time. As a well known paragrapher has said, "It's never too late to do your level best. Hope isn't worth a hurrah without some personal assistance. When in doubt, dare."

The closing of this campaign marks one of the most successful and sensational races ever staged by any newspaper. All candidates are now on the final dash to victory, and when the final count is registered it will probably reveal some big surprises.

Servants Should Have Health Certificate

All the physicians and health authorities realize the importance of health examinations of household servants and other such employees.

Most cities require regular examinations of all food handlers and it is equally important that this examination include household servants.

Monday because of bad roads and the weather.

Rev. L. C. Morrison visited in several homes of the community Sunday.

hold servants.

Such diseases as tuberculosis, typhoid fever, dysentery, syphilis and many others can be transmitted to the children in the family or to the adults. Many children have contracted tuberculosis from an apparently healthy servant. If the servant happens to be a typhoid carrier, all the members of the household are constantly in danger of contacting this disease. Smaller children and babies especially are in danger because of their close contact with the servant.

Everyone should require their servant to have a health examination by the physician or by the Health Unit, before they are allowed to work.

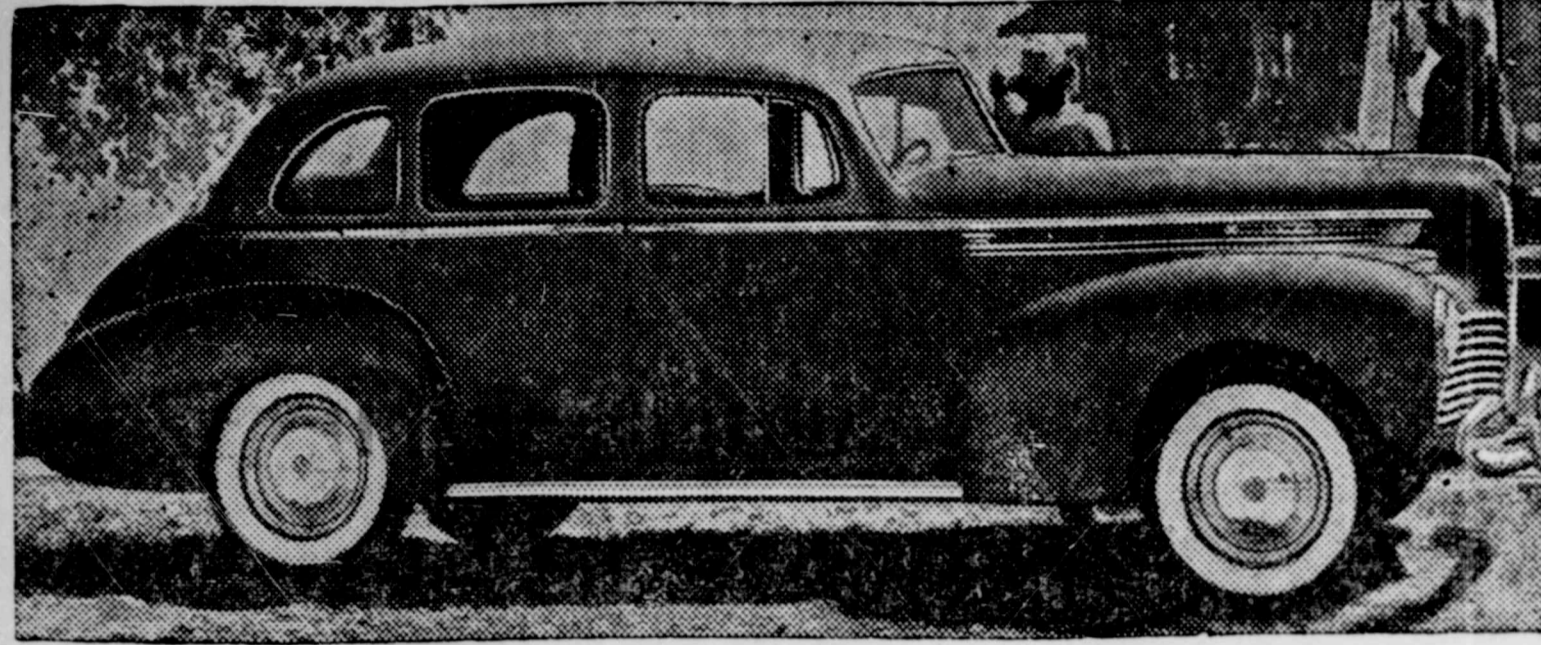

All examinations should, of course, include a blood test for syphilis.

Area Director of NYA Here Wednesday

Jack D. Wester, Area Director for the National Youth Administration, dropped in this week to see us. He was in town looking over the NYA workshop conducted here in connection with the high school and supervised by Mr. Bost.

He reported that the boys were busy, were putting out some mighty fine work, and seemed to be enjoying it. He feels like the shop here can accommodate some fifteen more boys, and he hopes that many more will enroll soon.

Youths between the ages of 17 and 25, single, not in school and at present unemployed are eligible for the work. They are paid 20¢ an hour and may work as many as 10 days each month. They are given work experience under trained and capable supervisors. Mr. Wester is stationed at Lamesa and has twelve counties under his direction. He will make Brownfield twice each month. He declares he cannot escape a feeling of being at home in Brownfield.

Mr. and Mrs. Frank Dixon and daughter June have come here from Odessa to make their home. Mr. Dixon is connected with the Magnolia Co. They are at home in the H. F. Heath house on E. Cardwell. Mr. and Mrs. Heath have moved into their recently completed duplex.

BROWNFIELD FRIDAY-SATURDAY TEXAS

What's Happening At The Postoffice

In the first place, the first Christmas package was mailed out this week from the Brownfield postoffice this year. According to Postmaster James H. Dallas, the package went to relatives of the mailer somewhere in Alaska, and it will take the package all that while to make the journey.

Mr. Dallas also stated that there was an internal revenue collector here, evidently rounding up social security business.

But about the most interesting bit of information he handed out was the trip he and the postmasters as Seagraves and Denver City made to Hobbs, N. M., to consult with the postmaster in that city in regards to getting a direct mail route extended from Denver City on to Hobbs, there connecting with two air mail routes.

Mr. Dallas stated that with the exception of about 14 miles, the entire route from Brownfield to Hobbs, via Seagraves and Denver City was paved, and bonds have been voted to pave that small section of unpaved road.

Another thing, the postal receipts here are going to top the receipts of last year by a great deal. In fact, the receipts up to November 16th had already topped all the year 1939, and we have the rest of November and the holiday season to go.

CARD OF THANKS

We wish to thank our many friends for their kindness and sympathy during our recent bereavement in this our loss of husband, father and brother. We appreciated so much the many beautiful floral offerings, the lovely luncheon furnished by the Maids and Matrons Club on Thursday, the consolation of the special music by Emmitt Smith, and the splendid cooperation of the telephone operators.

Company Employee Returns From Evansville

Euland C. Eaves, service manager, J. B. Knight Hardware and Furniture, has been at the Servel Electrolux factory in Evansville, Ind., where he has been studying the latest developments in gas refrigeration. Mr. Eaves was one of a selected group chosen for their ability and interest in their work.

The course at the school consisted of a thorough study of the theories and principles of refrigeration, refrigerator design and construction, laboratory and production technique, engineering and production testing, features of the 1941 Servel Electrolux models and approved installation procedure.

While at the school the students were taken on several tours through the factory to give them first hand knowledge of how a Servel Electrolux is constructed, and how cold is produced from heat.

The Servel factory is the largest one in the United States devoted exclusively to the production of automatic refrigerators, covering an area of 59 acres.
