That is really a good move on the part of the civic clubs to take the Cubs to the Cotton Bowl Game at Dallas, New Year's day. The Cubs have had a very successful season. They really have played the game, and deserve this treat.

The old town is taking on the Christmas atmosphere look fast as merchants begin displaying their Christmas wares in the store and in the show windows. It will not be necessary to shop elsewhere to find what you want for the entire family.

We understand that Colorado City was highly pleased with the efforts of our citizenship to entertain them here last Friday. While they won the game fair and square, there were no hard feelings as we can't win everytime. The Cubs put up a good fight, but the Wolves were just too much for them.

A movement is under way by the Chamber of Commerce to help the volunteer and drafted boys to find employment when they are discharged from the service something like a year from now. In many instances, National Guardsmen are being promised their old jobs when they return, and it is to be hoped the drafted boys will in as far as possible be given their jobs back when they are discharged. It is nothing but fair and just if it be possible to do so.

And while we are still on the subject of entertainment, the new comers in these parts are still talking about the party the two Chambers of Commerce gave them recently at the Auditorium. Let's not let that be the last effort to welcome the new folks. Remember on the streets, in your place of business, or wherever you see them, give them the glad hand and a word of greeting. You may not be able to recall their name, but that doesn't make any difference out here in west Texas.

This week we had a folder entitled "An Appeal to the Women in America from the Women of Poland." The conditions this leaflet describes is pitiful in the extreme. Not only are the men and boys killed off or sent into virtual slavery by their German masters, but the women and girls have to endure insult and debauchery like has not been heard of since the dark ages. There may come a day of reckoning, but let us hope for humanity's sake that German women and men don't have to endure such things. "Revengeance is Mine saith the Lord."

**Schools Enter Self-Evaluation Program**

A thorough self-evaluation program is getting under way in the Brownfield Public Schools at present. At a faculty meeting on Monday afternoon, December 9, eleven committees will make the first report of work done thus far. The self-evaluation program has been instigated in an attempt to find the scientific way, and form the found-weak points of the school in a ation for intelligent progress. Materials used are edited by the co-operative study of Secondary School Standards in Washington, D. C. The evaluation program contains 1100 points of measurement covering every possible phase of school work and is identical with the evaluation program advanced by the Southern Association of Colleges and Secondary Schools.

The local faculty is divided into these committees:

1. Philosophy and Objectives—Miss Reva Newsom, chairman; Miss Mildred Fouts.
2. Pupil Population and School Community—Mrs. Thelma Peacock, chairman, Mrs. Frank Weir, Mrs. J. B. Patterson.
3. Curriculum and Courses of Study—Jewel Edwards, chairman; John A. Bost; Mrs. Elmer Brownlee.
4. Pupil Activity Program—Marjetta Montgomery, chairman; Paul Peacock.
5. Library Service—Maude Joe Fields, chairman; Irene Adam; Mrs. Mozelle Fitzgerald.
6. Guidance Service — Mrs. Blanche Keyes, chairman; Thomas Neely; Mrs. Vivian Gore.
7. Instruction—Aubra Nooncaster, chairman; Bernice Doyle; Mrs. Alta Smith.
8. Outcome of the Educational Program—W. N. McBrayer, chairman; Mrs. Frances Brewer; Mrs. Burton Hackney.
9. School Staff—Virgil Keyes, chairman; Curtis Barrett; Mrs. P. R. Cates.
10. School Plant—Elmer Brownlee, chairman; William Amo; Viola Brown.
11. School Administration—Arthur Tyson, chairman; Mrs. Raymond Fitzgerald; Mrs. Josephine Lee.

Mrs. Wynona Newman and Mrs. Edna Mae Bost will collect data concerning educational, personal, and instructional qualifications on each member of the school staff. Mr. Vernon Brewer and Mr. W. M. Vernon will summarize the work done by all committees.

Recently Emmitt Smith, Supt. of Schools, had the privilege to see this evaluation program used in the Lubbock Public Schools. The actual scoring was done in two days and Mr. Smith was allowed to witness the introduction, the evaluation process, and the culmination of the program.

W. R. Bridges was a caller at the Herald office Wednesday to renew for his Herald and to also send it to his daughter, Mrs. Emily Bridges in Fairbanks, Alaska.

**Rural Mail Box Improvement**

During the past 3 years the Department has sponsored a movement for improvement in the condition and appearance of rural mail boxes and has each year designated a week to be observed as "Rural Mail Box Improvement Week". The reports received indicate that marked progress has been made, primarily through the efforts which have been put forth by postmasters, rural carriers, rural carrier organizations, civic organizations, and patrons, who have assisted in the movement, is very much appreciated by the Department.

It is realized, however, that there is still much to be done. Many boxes are not maintained in such condition that they properly protect mail placed therein, a great many boxes do not have the names of the owners inscribed on them and many boxes should be replaced with boxes of approved type, while others should be relocated so that they may be served by the carrier without his being required to leave his vehicle or to cross to the left-hand side of a road on which there is considerable automobile travel.

It is very desirable that, so far as practicable, postmasters and carriers continue their efforts to have patrons effect needed improvement in the condition, appearance and location of their mail boxes, wherever improvement is necessary.

Smith W. Purdum,  
Second Ass't. Postmaster Gen.

## The Quantes Get Their Quota of Deer

Chris Quante and 12 year old son, Odell, left last Wed. night for Ft. Davis to try for a buck apiece, and they got 'em, returning to Brownfield Saturday.

Chris got a ten pointer and Odell a six point buck. Chris has a mighty good ranch friend down in that section of Texas that he always stops with.

Chris stated to us that his friend would never let him pay anything, nor would he allow them to camp out, but must stay at the ranch house. While the friends will accept no money, Chris usually loads on a bunch of shelled grain for the saddle horses, carries a lot of candy and a stalk of bananas to the kids.

## MRS. PETERS TRANSFERRED TO BIG SPRING

Mrs. W. A. Peters who has been here with the old age assistance, division of the state department of public welfare has been transferred to Big Spring. She and Mr. Peters left here Sunday. ## DEPENDABLE FORTUNE TELLER

Theodore Roosevelt one said, "The only dependable fortune teller is the life insurance salesman. He tells you what is going to happen—and it does!"

That may not be pleasant to think about, but it's certainly true. Death comes to all, and old age to many. Death brings with it the obligation to leave behind economic security for one's self.

Life insurance is designed to meet both of those exigencies. You don't have to guess which one is going to be yours. Life insurance offers security as nearly free from human guesswork, as any plan the mind of man has yet devised.

Mr. and Mrs. Y. A. Haynes, Mr. and Mrs. Johnnie Haynes, Mr. and Mrs. Garland Aultman visited relatives in Hobbs Sunday.

### GOVERNOR O'DANIEL PROCLAIMS

AUSTIN, Dec. 3.—Governor W. Lee O'Daniel has proclaimed Sunday, December 8, being widely observed throughout the United States as Universal Bible Sunday, as Texas Bible Sunday.

Since the Bible is the one international book, having been translated in its entirety into 183 different languages and some part of it into a total of over 1,000 tongues, the American Bible Society has chosen for the theme for Universal Bible Sunday this year, the timely and appropriate phrase from the Bible, "For the Healing of the Nations." Tens of thousands of pastors will observe the occasion in their pulpits and parishes, calling particular attention to the grave responsibility which lies at our nation's door to see that this book, upon which America was founded, is kept in circulation among the distressed nations in these days of war.

In addition to the celebration in churches, there will be hundreds of broadcasts throughout the nation. The Columbia Broadcasting Company's popular Sunday morning program, "Wings Over Jordan," will present Dr. V. C. Hodges, Secretary of the Cleveland Division of the American Bible Society's colored Agency. At 9:15 A. M., EST. the Columbia Network will also carry the voice of Senator James J. Davis of Pennsylvania.

The American Bible Society, which this coming year will celebrate its 125th anniversary, has sponsored Universal Bible Sunday for many years. The response this year, with the world so desperately needing a guiding light, is overwhelming. For a day at least—December 8th—the nation will be Bible conscious as it has not for many years.

### Prizes For Christmas Decorations

We shall receive and pay prizes on the following displays for the Christmas Holidays (Homes Only):

General (outside) Display, 1st, \$10; 2nd, \$5.00.  
Window (Single or Double) 1st, \$5.00; 2nd, \$2.50.

Tree, 1st, \$5.00; 2nd, \$2.50.  
Entrance, 1st, \$5.00; 2nd, \$2.50.

You may enter in one of the contests, but not more than one. You can not enter a general display and then enter a tree, window or entrance in the same display. You may however have a general display and not enter the general display contest, but enter either a window, tree or an entrance out of the general display.

Your entrance must be in by the 10th day of December, and your display must be up by the 15th day of December. Your display must be lighted between the hours of 7:30 p. m. and 10:00 p. m. from the 15th to the 24th day of December, inclusive.

There will be three out-of-town judges to judge all displays. The judging will be done on some night between the 15th and 24th, and those in the contest will not know what night the judging will be done.

All displays will be judged as follows: Originality, 25 per cent; General Artistic Effect, 50 per cent; Ingenuity in Utilizing Surroundings, 15 per cent; Conformity to Spirit, 10 per cent.

### Christmas Seal Sale Making Headway

AUSTIN, Nov. 25.—With usual generosity, Texas and Texans are responding wholeheartedly to the 34th annual Christmas Seal sale which finances the fight against tuberculosis in every county and hamlet in America. Dr. Z. T. Scott, managing director of the Texas Tuberculosis Association, declared today.

Already the Christmas Seal sale launched last Monday is bringing in a heavy mail from persons in every walk of life from children orphaned by the disease to the highest figures in church, business, government and professional life. Dr. Scott and the staff of workers at state headquarters here disclosed.

County tuberculosis associations are reporting encouraging results throughout the state where each county with its association has a definite program in combatting the spread of the disease and the education of the public in preventing and curing the menace tuberculosis represents to the citizenship of America.

Rep. George Mahon Visiting In District

LUBBOCK—Congressman Geo. Mahon arrived in Lubbock Monday, returning from the session of Congress in Washington. He stated that there was no activity in the House of Representatives for the present and that he was anxious to get over the District as much as he could, visiting among the people and learning first hand about the attitude of the people on important public questions. With the exception of one month, Congress has been in session all or a part of each month for the past 23 months.

Mahon stated that his office in the Federal Building at Lubbock would be open until January 1 but that he himself might be called back to Washington, as members had been authorized to return to their Districts subject to the call of the Speaker.

He stated that Congress had given consideration during the session to many matters but that the perilous world situation had kept National Defense in the forefront. "To fortify our Nation and stay out of war is the object of our Congress," he said.

Miss Ruby Nell Smith, teacher in the Tahoka school, spent the past week end here with home-folks.

Mrs. L. M. Hogsett was a recent guest in the home of her niece, Mrs. W. S. Brumage and Dr. Brumage. Mrs. Hogsett is a lecturer and reviewer and was voted one of the five outstanding club women in Ft. Worth. Mrs. Hogsett is known as the Dorothy Dix of the South.

How One Woman Lost 26 Lbs. of Fat

—4 inches off Hips  
—3 inches off Bust  
—7 1/2 inches off Waist  
Writes "I Feel Fine and Look 10 Years Younger"

How would you like to lose 10 to 20 pounds of fat in a few weeks? How would you like to lose your double chin and your too-prominent hips and abdomen and along with it feel better perhaps than you have in years?

Get on the scales today and see how much you weigh. Take half a teaspoonful of Kruschen Salts in a glass of water first thing every morning. Cut out pastry and fatty meats—go light on potatoes, butter, cream and sugar. After 30 days weigh yourself again—now you'll know the easy, sensible way to lose fat.

Start today girls to get a more charming, attractive, slender figure. Kruschen comes in either the new pleasant, bubbling form or plain—a bottle usually lasts 4 weeks and is inexpensive.

Leading druggists all over America sell Kruschen Salts; if not supremely satisfied—money back.

Cong. Mahon Recalled To Washington

LUBBOCK—Congressman Mahon who spent last week in the District returned to Washington Saturday. Members of Congress had been authorized to return to their Districts, subject to the call of the Speaker of the House of Representatives. Mahon left for Washington immediately upon the receipt of a telegram from Speaker Rayburn advising that important legislation would be taken up by the House December 2nd.

Mahon's Lubbock office will remain open as he hopes to visit the District again before the new Congress convenes in January.

Pictures Life In England Today

WACO, Dec. 3—England is taking a beating, but will survive to see "all men's good be each man's rule and universal peace lie like a shaft across the land," just as their ancestor wrote it, so believe the grandson and nephew of Alfred Lord Tennyson.

With bombs falling all around them and the countryside in waste, they wrote the family friend, Dr. Christine Fall, a Baylor University English professor. The letters, just arrived, were dated Oct. 30.

"I would to God I could transport your nation here, your nation with it money," wrote Major Charles Arthur Tennyson, after a visit to London, "and let them see these poor folk, old and young and tottlers, men and women and children, laying a few sheets of the Daily Mail on the concrete platforms of the tube stations—at 5 p. m. of an afternoon to be there till 7 a. m. next morning—with a bundle of some sort for a pillow. All as plucky as you like. No home, gone. No hope, that gone. Just the present, that yet to be faced."

Then speaking of Essex, his home, "Only the other day a bomb fell on our major's house, only a few hundred yards from here. All gone, he, his wife, daughter-in-law, daughter, two kiddies, son home on leave! I wrote his obituary for his paper, which they published over my name.

"Only yesterday one of our fighters, a boy, in spit fire crashed a few yards from here, knocking off the corner of a house. He had taken in 20 Huns single handed, and had five bullet holes in his helmet. Please God he died before he crashed. Oh please God. Someone's son!

"He will pass unmentioned and unnoticed, but on such as he has Great Britain been built—woven into the fabric which God has

CASE OF TULAREMIA FOUND IN COUNTY A case of Tularemia was reported to the Health Unit this week in Terry County. This disease, also known as "rabbit fever," is quite unusual and uncommon although several cases are reported in Texas each year. This disease is usually contracted as a result of handling of rabbits or from contact with squirrels, prairie dogs, rats and other types of wild life. This disease primarily affects the lymph glands surrounding the point of inoculation of the germ and from there is spread into the blood stream causing long, continued fever. The disease is usually not fatal but causes prolonged illness from three to six weeks. BELIEVES SUGAR BEETS CAN BE RAISED PROFITABLY LUBBOCK, Dec. 3—Sugar beets are being harvested on Texas Tech farm this week, and samples of eight varieties under study during the year for testing purposes have been taken by a sugar company. Dr. C. W. Doxater, head of field operations for the sugar refinery informed Tech plant industry professors that he was "convinced beyond a doubt" that beets could be produced economically in this section for commercial use.

HOCKLEY FAVORS ROAD BOND ISSUE

LEVELLAND — The required two-thirds margin for passage of a \$345,000 road bond issue to finance a north-south highway through Hockley county was received in balloting Saturday.

C. D. Bass, county clerk, said the issue carried 710 votes to 161, with two small boxes, at Hodges and Clauene, not reported late tonight. Both boxes will aggregate not more than 40 votes, it was reported.

Grading and drainage on a portion of the road from Levelland south to the Terry county line has been completed. The road will connect Levelland with Brownfield on the south.

Work will begin in about 30 days or about the first of the year, officials said. The highway has been designated as state 51.

Included in the issue is financing of paving on four lateral farm-to-market roads.

chosen to weave in his foresight and wisdom to insure his destiny for the world against Satan—in the form of Hitler. And so the clear light burns."

The letters told of plans for Major Tennyson's wife and son to come to America as Miss Fall's guests for the duration of the war. Not until now has it been possible to arrange passage. Patricia, a daughter, unless some "wrangling" is possible, must stay in England due to a rule refusing exit permits to those between 16 and 60, except women caring for refugee children.

Taking cognizance of ever present danger, Major Tennyson closed the letter: "My furniture — and home — in a few seconds, all may go—with us."

Behind The Scenes In American Business

NEW YORK, Dec. 3—BUSINESS—Decks cleared after a November in which four holidays or semi-holidays—one every week—caused some slow-downs (Election day, Armistice day and two Thanksgivings), retail trade is plunging optimistically into a four-weeks drive leading to the top holiday of them all, Christmas. Many experts are predicting the period from now to Yuletide will see heaviest buying rush of its kind in 10 years. Expanding payrolls and increased employment, primed by increasing United States and British spending for arms, set the stage for a very busy December. National Retail Dry Goods association, surveying 5,700 leading stores, estimates cash registers will ring up \$1,350,000,000—an increase of eight per cent in dollar volume. Experts estimate that 2,000,000 persons previously unemployed have found jobs since the beginning of the year, and predict that at least that many more—probably a bigger number—will find work in 1941.

WAR ON THE FARMER What is the European conflict doing to agriculture? A whole continent of markets for U. S. farm produce is being annihilated—but America will spend five billion extra dollars on defense next year, and farmers expect added payrolls in defense industries will boost buying power tremendously and help sell many more bushels of apples and pecks of spinach right here at home. Losses in foreign markets are further offset by the increased efficiency of America's domestic surplus-disposal machine. An increasingly effective "producer-consumer" drive as conducted by chain stores to help market crop excesses. Marketing reports show "producer-consumer" drives staged by mass distributors at the request of growers have helped boost consumption of some farm products as much as 25 percent during emergency periods in the first eight months of 1940.

Mr. and Mrs. Leonard Campbell and children, Mary Mae and Walter Lee, have returned to Hollywood, California after spending two week visiting his parents and sister at Wellman, also visiting Mrs. Campbell's mother and relatives in Oklahoma City, Shawnee and Marlow. A very enjoyable visit with the studio boy at Shawnee was reported. Leonard has employment with RKO Studio in Hollywood.

An analysis of the election statistics produces some highly interesting facts. Most obvious of those facts is that Mr. Roosevelt's tremendous Electoral College majority gives no indication whatsoever of the closeness of the contest. Measured in popular votes, this was the closest election since 1916, when Wilson and Hughes were the standard bearers. With a total vote of close to 50,000,000, the President's plurality was under 5,000,000. The vote cast for Mr. Wilkie was the largest ever given a Republican candidate. The President's percentage of the total vote was about 54.5 per cent—which is a comparatively slim margin, inasmuch as he needed 52 per cent to win, because of the excessively heavy majorities the Democratic ticket always rolls up in the South.—Post, Texas Dispatch.

Yea, but Eddie, did you note that there were no "excessive heavy majorities" in the South. Did you note that Texas with a possible vote of 2,500,000 cast less than half that. Some of the old Southern state didn't cast a fourth

of possible votes. If, (note the IF) Texas and the rest of the Southern states had cast a vote equal in population to say, California, and they had run true to the Democratic party as what few did that were cast, FDR's majority would have been nearer ten million than five million.

The pecan tree produces two crops—shade and nuts—Sadie Hatfield, extension specialist in landscape gardening has pointed out. ### The Small Town

Clay County Leader. The small town is a place where there is not much to see—but the things you hear make up for that!

The small town is where everybody isn't three months behind with installments, and where the wild-life that stays up all night belongs to the cat family.

The small town is where you get the social status of the new family from the "wash on the line."

The small town is where the editor of the weekly paper gets results when he announces through his columns—that he is out of potatoes, and casually asks—"have you killed hogs yet?"

We would not dare ridicule the small town. We live one one; were born in one. Have spent forty years in them. We like them, have never envied you fellows who live in steel and concrete.

We have often wondered what you would do for your bank presi-

dents, the chairman of your board of directors, and your corporation executives and lawyers, if the small town did not supply them for you.

Most of the factories in this country would have to close down if the small town and rural buyers failed to show up. The small town buyers are real quantity and quality buyers.

The small town made America what it is today, the envy of every other nation on the face of the globe—and the small town retailer has played his part.

The small town is the place where everybody likes everybody, and they all get along peaceably and amicably; a place where few secrets are kept — because they have a way in the small town of learning things quickly and spreading the news; they all go to church and like to go; they pay their debts, have money in the bank and plenty of food in their pantry.

"If we can afford several hundred dollars a year to educate a child, we can afford 10 dollars a year to keep that child physically fit for study," Milo Perkins, administrator, Surplus Marketing Administration, said recently in a talk at the school lunch program.

### C. Of C. To Sponsor Christmas Party

Officials of the Chamber of Commerce have announced that they would again sponsor the Christmas Party. The party this year is to be along the same lines as the one of last year's. All Clubs or Organizations wishing to take part are asked to contact the Chamber of Commerce. Definite date has not been set, but tentative dates are the 18th and 19th of December.

### NEW COUNTY PAPER TO BE PUBLISHED AT DICKENS

The Dickens Press, edited by W. J. Hale and to be published at Dickens, will begin publication soon. Mr. and Mrs. Hale are owners, and moved to Dickens from Plains, Texas, where they published a paper.

Mr. and Mrs. Hale were pleasant callers at The Texas Spur office last week and we wish them well in their new field.—The Texas Spur.

The term "spud", once a popular equivalent for potato, originated from the initials of a dietitian, now deceased, called the Society for the Prevention of Unwholesome Diet.

### Texan Named

R. K. Shirley, a native Texan, who began as a clerk with the Freeport Sulphur Company in 1922 and worked his way up, has been elected vice-president and treasurer, Langbourne M. Williams, Jr., president, announced. Born in Gainesville, Texas, Mr. Shirley attended the schools of Grand Saline and Tyler, and studied accounting in night school. He was 23 when he started work with the sulphur company in Freeport, Texas. His wife is the former Seyvine Carpenter of Grand Saline. They have three children.

### CAN INSURE BASKET BALL SQUAD FOR 60c

AUSTIN, Dec. 2—It won't cost but 60 cents per man to insure your high school basket ball squad, University of Texas Interscholastic League officials announced this week.

For the first time this year members of the League basket ball tournament may obtain blanket policies to protect their teams, R. J. Kidd, League athletic director, said. Insurance must include all members of a squad under 20, or a minimum of 20 players for teams over that number.

Modeled after the blanket insurance policies issued high school football teams this year, basket ball policies will cover specified injuries, X-Rays, fractures, dislocations, sprains and lacerations.

Basket ball season this year—to open officially after football district championship are determined—will see more than 12,000 high school students, representing 1,533 teams, suiting out for practice sessions, Kidd said.

### What Kind of People Are Club Women?

COLLEGE STATION, Dec. 3 — How old are home demonstration club women? How many children do they have? How long have they been club members? What are their families' annual income?

These are some of the questions the Extension Service of Texas A. and M. College asked of home demonstration club women in 193 clubs in one county in each of the 12 extension districts. Findings of the study have been compiled by Louise Bryant, extension specialist in home management.

She found that 22 per cent of home demonstration club women in Texas are below 30 years of age, 29 per cent are between thirty and thirty-nine, 24 per cent are between forty and forty-nine, 17 per cent are between fifty and fifty-nine, and 8 per cent are over sixty years of age.

Forty-four per cent of the club women answering the questionnaire reported the family's net cash income for 1939 under \$500, while 31 per cent said their families' income was between \$500 and \$1,000. About 16 per cent said their families' incomes were between \$1,000 and \$2,000 for 1939, and only six per cent of the women listed their family incomes above \$2,000 for the last calendar year.

### BERLIN HAD VICTORY IN HER HAND

Ralph Ingersoll, editor of PM in New York City, just returned from a visit in London stated Germany had victory in her hands during the early part of September had she continued her full day time attack. The picture is different today and England is growing stronger every day.

Ingersoll pointed out it is possible to destroy airplane factories, airports, munition plants and other military objectives by daylight bombing whereas night bombings are very ineffective in that air men are shooting in the dark and cannot do effective bombing, since they are 5 or 6 miles above their targets.

A rather long winded article, as long and windy as C. Sears himself (in person) came in a bit too late to run this week. Watch for it next week.

### Such Pusillanimous Weather These Days

We've been having some very nasty weather of late—more than any fall since perhaps 1929, which reminds us of a story our old friend J. D. Roberts of Wellman told us recently. He went to Wellman rather early in the fall, and feeling a spell of weather prognostication coming on, he delivered himself as follows:

"This is going to be another 1929 so far as weather is concerned. You May look for two or three days of sunshine and about that many more of rainy, foggy weather the rest of each week." Whereupon, the good citizens of the city of Wellman ran him out of town. But Robert slips in now and then to say, "I told you so," and we suppose has to beat it again. Anyway, the past week end was everything to brag about. No Californian would have boasted of the amount of sunshine and no West Texan would have said that "it was a dry cold and didn't hurt."

### FRED A. WALKERS RETURN

Mr. and Mrs. Fred A. Walker have returned here from Seymour, where they have been living since last April. Brother Walker will hold services at the Presbyterian church Sunday and invites all the members to be present.

Mrs. M. E. Jacobson and Mrs. Roy Herod were Lubbock visitors Tuesday.

Mr. and Mrs. Homer Lively of Pampa were recent guests in the J. O. Gillham home.

BROWNFIELD FRIDAY-SATURDAY TEXAS

## City To Cooperate In Safety Campaign

Every good Texas citizen should have a part in pushing an aggressive campaign for safety on the highways. Continuation of such a campaign has been one of the major aims of the Texas Good Roads Association, which is sponsoring state-wide observance of Texas Highway Week, Dec. 2 to 6. It is the purpose of the Association to make safety crusading the aim of every good citizen of Texas, for all of our resources—natural or man made—the most important, and the one in terms of which all others have to be judged, is human life.

The ever mounting toll from traffic accidents on roads and streets has become one of the major problems of modern life in Texas and the nation. During the first observance of Texas Highway Week everyone should become 'super-safety conscious.'

In looking at the need of greater highway safety and increased traffic facilities three factors must be considered as involved in the problem of traffic safety—the car, the driver and the road. Three factors likewise enter into the achievement of greater traffic safety—engineering, education and enforcement.

Of the first three, the road is perhaps the most important, especially from the viewpoint of the contributions that effectively can be made by the state and federal governments in highway construction. Death has no holiday on hazardous or obsolete highways and the present condition of the main roads of Texas and the nation are one of the chief contributing factors to the enormous toll of life taken by traffic.

Because of financial limitations highway constructors have not been able to keep pace with the improvements in motor vehicles and the increased volume of traffic. Motor vehicle manufacturers are able to change their models and make improvements from year to year. But it is impossible, because of financial and physical obstacles, for the Highway Department to junk last year's highways and provide an entirely new system.

Thus 1940 vehicles are called on to travel over many roads that were designed to meet traffic conditions of the early 1920's.

It is impossible, of course, to estimate the number of lives that have been saved through incorporation of safety features in highways, which our highway department is pushing as fast as finances permit, or the number that could be saved if safety features were incorporated in all roads.

We can, however, take stock of the loss in traffic accidents in Texas last year through carelessness, recklessness, irresponsibility, unsafe highways, roads and streets.

One thousand, five hundred and eighty-five persons lost their lives on Texas streets and highways in traffic collisions and mishaps in 1939. The economic loss in these accidents—figured at \$425 for each personal injury accident, \$125 for each property damage accident and \$11,500 for each traffic death—totaled \$45,860,000.

In reviewing the causes it is revealed that irresponsibility played a major part and that the human element or equation was largely responsible—driving too fast for conditions or driving while intoxicated. In fact, the percentage of mishaps that could be called "accidental" is almost too negligible to mention, because the term, "accidental," means the occurrence of an event that is totally unavoidable. Thus, while safety needs to be engineered into our roads and streets in every way possible, it can never be put there to an extent that traffic mishaps will be entirely done away with. Texans, individually and collectively, need to join the Texas Good Roads Association's aggressive campaign for more safety.

In proclaiming Texas Highway Week, Governor W. Lee O'Daniel urged every citizen to "give serious thought to the future highway needs of the state so that Texas will continue to grow and prosper as its system of highway transportation is extended and improved." The Governor added that "safety on the highways has become a problem of increasing social and economic importance, the solution of which demands our immediate and constant attention."

Texans all can do their part by becoming safer drivers and pedestrians, by reaching at better understanding of what the Highway Department is doing to make our highways safer and less dangerous, and by using the highways in the safest manner possible.

**CHRISTMAS GIFT HEADQUARTERS!**

### STAMPS SHOULD BE AFFIXED TO MAIL DEPOSITED IN RURAL BOXES

In order to facilitate the collection and dispatch of mail matter on rural routes, particularly during the impending holiday season, all first- and third-class mail matter deposited in rural letter boxes for collection by the carrier should have stamps affixed at the proper rate of postage.

Postmasters at offices from which rural service originates are directed to see that rural carriers are provided a stamp supply sufficient to accomplish this objective.

Both postmasters and rural carriers should advise patrons, so far as practicable, without expense to the Department, of the desirability for their cooperation to the end that Christmas mail be handled as expeditiously as possible.

(The provisions of sec. 1020, par. 1, Postal Laws and Regulations, as amended Jan. 10, 1938, are not modified by the foregoing.)

### THANKS

I wish to take the opportunity to thank the many friends who supported me during the subscription campaign just ended. Even though I was not fortunate enough to win the first big award, I am extremely grateful for your willingness to give me your subscriptions as they enabled me to win the second award.

Mrs. Luther Malcolm

Mr. and Mrs. Austin Wood of Foster are the parents of twins born Tuesday, Nov. 26. A 6 1-2 pound girl and 6 pound son.

Mr. and Mrs. Marlin Hayhurst of Seminole were guests of his sister, Mrs. Jim Graves and Mr. Graves last week end.

Mrs. Bob Graves and daughters, Mrs. Jack Oldham and Mrs. Dell Smith of Seagraves were Lubbock visitors Monday.

### JOHN SPENCER TO GO TO SWAN ISLAND

The following article taken from the Sunday Lubbock Avalanche will be of interest to friends of Mrs. J. L. Randal of this city. John Spencer, the young man mentioned is her grandson:

John Spencer, who has been stationed with the United States Weather Bureau at Little Rock, Ark., is visiting his mother, Mrs. Percy Spencer, 1643 Thirteenth street. He is to go from here to Brownsville where he has been transferred and at a later date will go to Swan Island in the Caribbean sea where the government is establishing a new station. The new station will be located in the 'birthplace of hurricanes' of the Gulf of Mexico area. Spencer will be a member of a staff of three observers on the island, and will alternate with other employees of the bureau in six-months shifts.

Mr. and Mrs. John J. Kendrick and Bub Smith visited relatives in Lubbock Sunday.
