Commissioners' Court Lets Contract Tuesday To Hard Surface Levelland Road

Denton Firm Takes Job for \$65,857.75. Flexible Base and Double Asphalt Surface. Work Starts At Once and To Be Completed In About 100 Days.

At a setting of the commissioners' court Tuesday, a contract was entered into with the Public Construction Co., of Denton, Texas, to finish 14.4 miles of highway from Brownfield to the Hockley county line on State Highway 51. The sum of \$65,857.75 was the bid for the job, which will include a flexible base and double asphalt surface, and is to comply in every way with the State Highway Department requirements, according to Joe E. Ward, consulting engineers on the job, located in Brownfield.

There were seven bidders, ranging in price from that of the Public Construction Co., to \$91,427.32. Other bidders were Lee C. Moore & Co., Earnest Lloyd, J. E. Barnhill, Cocke & Braden, Thomas & Ratchick and Gage Bros. Work is to start immediately, according to County Judge C. L. Lincoln, as the company is in position to do so, and the job is expected to be completed within 100 days.

The contractor stated that he would use all the unskilled local labor possible. One of his big jobs is to find caliche in any quantities north of the city. Commissioner Bill Settle stated that Jewell Bell thought there was a bed in his place, but it will have to be analyzed to see that it meets state requirements.

In the meantime, the County Engineer, Mr. Tucker, is going forward with the surveying and staking of the Brownfield-Dawson county highway, which is State No. 137. Possibly it will be ready to let the contract before 51 is finished, and it is hoped that both roads can be completed in 1941. Mr. Lincoln stated that abundance of good caliche is to be found all along the right-of-way of the Lamesa road.

When these jobs are completed, Brownfield will be well healed for highways of the first class, one being able to leave the city in six different directions over good, well paved highways.

Young Blair Making Good In Army

Mr. and Mrs. Mike Blair have a letter from their son, Willard A., who is located at Camp Bullis, San Antonio, that he recently got a rating, and a raise in salary to \$40 per month. He is in the culinary department.

Willard is only 16, but got in the army with the consent of his parents, and writes that he will get another rating in 15 days and possibly another raise in pay. At that time he expects to be transferred to Fort Worth.

Many people here thought the little girl was their only child and that the boy was a younger brother. Mike stated that there was nine years difference in the age of their two children.

Ray Christopher Given Jaycee Award

Last night at a banquet of the Jaycees, presentation of the civic service award was made to Ray Christopher.

This award is made under the sponsorship of the United States Jaycees and is made to a deserving young man, not necessarily a member of the Jaycees.

Judge R. A. Simms made the principal address, Emmitt Smith presided as master of ceremonies and Eugene Hurt made the presentation of the award.

Terry County Honor Roll

We are having nice response to our request that parents and relatives give us information on the young men that are in military service.

This week we have received the following:

L. Z. Barrett, Willard A. Blair, Jerry V. Cargil, Terrell Fowler, Foster R. Hinson, Buster Holder, Claude Dean Huckleberry, Dan Joe Huckleberry, Willis R. Huckleberry, Dewey Murphy, Jr., Robert Leon Rhyne, James H. Travis, Jr.

The Herald will run these names each week and we ask that you go by the chamber of commerce and give them the information that they want concerning these men. We have complete information on Blair, Travis and the Huckleberry boys and would appreciate having some of the others. If you can furnish any information about them go by the chamber of commerce office.

"Infantile Paralysis Sunday" Designated

Sunday, January 26, has been designated as "Infantile Paralysis Sunday" in Texas. Leading Texas divines have joined up with outstanding religionists of the county in calling for an observance of the day in every church throughout the nation. Dr. Daniel A. Poling, president of International Society of Christian Endeavor, well known in almost every city and town in Texas, is a leader in the movement to bring about unanimous observances by all faiths.

In issuing the call for observance of the day Dr. Poling said: "No

Under new slogans—"Help the Youngster Around Your Own Corner"—and—"Enlist in our National Defense Against Infantile Paralysis"—this boy and girl are marching forward in the 1941 "Fight Infantile Paralysis" campaign. Known to millions, this picture is again being used by the Committee for the Celebration of the President's Birthday on posters, birthday cards, coin collectors and buttons as the emblem of the appeal for funds to fight the crippling disease, infantile paralysis.

cause more deeply moves the heart of America than the national campaign for the assistance of victims of infantile paralysis. Christian Endeavors throughout America will give their eager general support to this program."

The call for Texas churches to join in the celebration is issued by William L. Clayton, Houston, chairman of the Texas Committee for the Celebration of the President's Birthday. On the night of January 30, when President Roosevelt will be 59, all sorts of entertainments will be given in thousands of Texas cities and communities to raise funds to fight infantile paralysis.

Mrs. Herman Trigg and Miss Horrence Leath of Snyder were guests of Mrs. Trigg's parents, Mr. and Mrs. A. J. Stricklin Friday and Saturday of last week.

Officers Chosen For Birthday Celebration

Terry county's permanent organization to direct the President's birthday celebration, January 30, has been announced by Jack Bailey, county chairman. On the official staff is Mrs. L. M. Winger, county vice chairman to promote and encourage women's activities; Roy Wicker, executive secretary and J. O. Ollham, treasurer, all of Brownfield.

In announcing the appointments the county chairman issued a call to the people of the county to lend all energy to furthering the celebration in every community, because of the prevalence of infantile paralysis in Texas and over the nation.

Fifty per cent of the net proceeds from the celebration will be retained by the county organization, the chairman said, and the remaining fifty per cent will be forwarded to state headquarters at Dallas.

George Waverley Briggs, vice chairman and director of organization, and Mrs. George Pittman, vice chairman and director of women's activities, Dallas, are pushing the drive in a hope that Texas this year will supply a very substantial fund to help finance the campaign against the dread disease. In some states the disease has reached a near-epidemic stage and in Texas there is a most urgent demand for funds to curb its spread.

The dance will be held next Thursday night, Jan. 30, at the Venitian Auditorium, beginning at 9 p. m. A good orchestra has been secured.

Judge, Commissioners Leave For Austin

County Judge C. L. Lincoln and Commissioners Tom Warren, Bill Settle, J. F. Malcolm and B. Martin left Wednesday morning for Austin to attend the Association of County Judges and Commissioners which assembles in that city today, Friday. Of course, they wish to attend the convention, and at the same time, they have an audience with the State Highway Commission.

It is believed that the J. & C. Association will again endorse the State Assumption act to take over roads built by counties that have voted bonds for that purpose. The State Highway Commission had already advised the local officials that was the only way to get our two roads finished immediately. As to the legislative act, that is another question, as it is believed there is going to be strong opposition this year.

However, Judge Lincoln informed us that he and the commissioners were going to do all they could while down there to dispell all the opposition possible, as the building of more and better highways is one way to make Texas more easily defended, as soldiers can use them to get places quickly.

He stated that west Texas might have to do some trading with the boys from the piney woods, but he felt sure that there would be a way open to again have the law re-instated another year to take up bonds, at least those covering State Highways, and our Levelland and Lamesa roads both have state designations.

The Boys Decide To Take A Car This Time

About two weeks ago we chronicled the fact that two boys were caught after breaking into the Texas Utilities Ice Plant, and had been released to their parents, who promised to see that they behaved themselves.

Their good behavior did not last long, as they took a car from the Teague-Bailey lots last week, and beat it out of town. Officers soon overtook them out in the country, and brought them and the stolen car back.

Judge Lincoln sentenced the eldest to the Reformatory at Gatesville, and released the other under suspended sentence to his parents, who will make another effort to control him.

Mr. and Mrs. Horace Smith of Odessa visited her parents, Mr. and Mrs. G. R. Arnett Sunday.

Negro Drivers Run Down A Man Friday

While walking home along the curb on north Fifth street last Friday night about 7:30, R. L. Blocker was hit by a car, or rather two of them, and is confined in the local hospital, and while painfully injured, his condition was reported as satisfactory.

He was just ahead of a parked car, and the negroes hit the parked car which knocked Mr. Blocker down, and then before he could get up and out of the way, the car they were in, hit him. The negroes fled, leaving Mr. Blocker pinned under the car they were driving.

It was not long however, until city and county officers had rounded up the reckless blacks, and they are now languishing in the jail, and perhaps will be there a long time yet, and should the worst come to their victim, will probably spend several years at Huntsville.

There are some smart drivers in Brownfield, both white and black, and it is a wonder more people are not hurt. Last Thursday night as we came to our work from supper, two cars passed us like bullets coming toward the business district down Main street. One of them would run around the other and kinder slow down, and then the other would whirl around it like mad.

Such people should be rounded up by the officers and thrown in jail, no matter how prominent they are. It would teach them a lesson. A local officer told us recently that the highway patrolmen were saying that traffic was not being watched closely enough in Brownfield and Terry county was the reason we are having so many accidents.

District Court Opened Here Monday

The January term of district court was opened here Monday morning by District Judge Louis B. Reed of Lamesa. He empaneled and gave oath to the Grand Jury just about the time that FDR was taking the oath as president of the U. S. for the third term.

District Attorney Rollin McCord of Tahoka is on the job for the first time in Terry county. Our understanding is that the docket will not be unusually heavy this term.

There are no petit jurors called for this week, and non jury civil cases and divorces will be tried before Judge Reed this week.

LET'S NOT PERMIT THE RURAL PEOPLE TO DO ALL THE VISITING

The Herald Heartily Endorses the Move of the Chamber of Commerce Toward a Better Mutual Understanding Between the Town and Rural Citizenship.

In its monthly Bulletin, distributed last week, the Chamber of Commerce made some very pertinent and important announcements, more as a trial balloon than an actuality, at the present time, perhaps, but these suggestions appealed to us greatly. Secretary Pat Patterson has asked us to comment some on them this week, which we do with pleasure.

As suggested in these headlines, let's not let the rural people do all the visiting. They come to town week after week through the year, visit us in our stores, offices and what have you, or ask about the health of the family, or how they are getting along breaking or planting or gathering as the case may be. But neither really have time to visit as we should. Sometimes some of us drive out in the afternoon on Sunday, visit a short time, get a few mellons, peas or beans, maybe a fryer and head for home.

What the Chamber of Commerce is suggesting will work to two or more advantages. We will get to meet and eat and be entertained along with our rural neighbors, and at the same time, the ladies of those communities, like their town sisters, always a bit pressed for money to meet improvements on or inside the school buildings, will have a chance to cash in a bit without a maximum of trouble or work. As we understand it, the County Agent and the Home Demonstrator are to contact each community, set a date for the affair, and the business men of the town are to come out and pay not only for his meal, but the meal of a farmer friend in that community. Then the next month the same program is to be repeated in another community, taking more than a year to get around.

The community is to furnish not only the eats, but their local talent the entertainment in any way they choose. Songs, readings, skits, tap dancing, instrumental music. In fact they are to get up their own programs. The town people are to eat and listen, and pay the fiddler, which will not hurt anyone once a month, and in this way, we will get acquainted with each other, and therefore understand each other better. They are also to furnish the master of ceremonies, but both groups are to appoint "Tail Twisters" to see that peace is kept, and should anyone so forget himself as to talk "twisters," the extra dimes the "twisters" collect would also go into the funds of the Demonstration Club, the PTA or other organizations sponsoring the entertainment.

Yes, sir, the Herald heartily agrees with the leaders of our city that something on the above order should not be neglected another day, but we should get busy at once and contact the first place to visit, and in the next few months we could have a bunch of communities lined up. And we'll all get a great kick out of these affairs. The Chamber of Commerce wants to know what you think about it? Won't some of our rural readers, man or woman, send in an article for next week's paper? Have your say whether you endorse the move or not.

Let's Hustle Up Some On City Delivery

In conversation Monday with Postmaster James H. Dallas, he stated that it appeared that the business interests of the city were lagging a bit on putting over the city mail delivery proposition. He did not state whether or not there was a time limit in getting the street names up, and the houses numbered, and mail boxes in place at the residences and business houses.

Now of course James Harley is sore at no one. He knows that the business just has to get under way before the move really takes hold. Most of us are always ready to let George do it or let the Joneses set the stride. Of course most of us expect the city to take the lead in street naming and numbering of the houses. Really, the streets all have names, but what we mean is to put up the signs. Also, houses that were here ten years ago or soon thereafter are already numbered, if anyone remembers what his number was. All the new additions homes, and homes that have been built among those here ten years ago, will have to be numbered.

In this connection let us state that the J. B. Knight Hardware and possibly some other places in the city have the mail boxes on sale. Better see them and get one up. Maybe you will set the pace in your block.

Our Senator On Inaugural Committee

One of the five Senators named on the Committee to inaugurate Governor W. Lee O'Daniel and Lt. Governor Coke Stevenson Tuesday of this week was State Senator Marshall Formby of McAdoo, who took oath of office on January 14th, was on the Committee that escorted the Governor and Lt. Governor through the Inauguration.

Secretaries named by Senator Formby for the 120-day session are Miss Fay Davis of Kent County, and Miss Edna Earle Lasater of Lubbock County. Miss Davis is the daughter of a pioneer Kent County family. Miss Lasater has been employed for some time at Lubbock in the office of Judge Homer Pharr and in the office of a land company. Both are experienced stenographers.

Senator Formby succeeds G. H. Nelson of Lubbock. He represents 24 Counties, including this county. Population for the 24 counties, according to the 1940 census, is 251,018, a district which votes about 61,000 ballots. Formby was County Judge of Dickens County for four years, relinquishing his office on January 1st to Edwin H. Boedeker. He is a farmer, a former newspaperman, and at 29 is the youngest member of the State Senate. He is unmarried.

January 31 Last Day To Pay Poll Tax

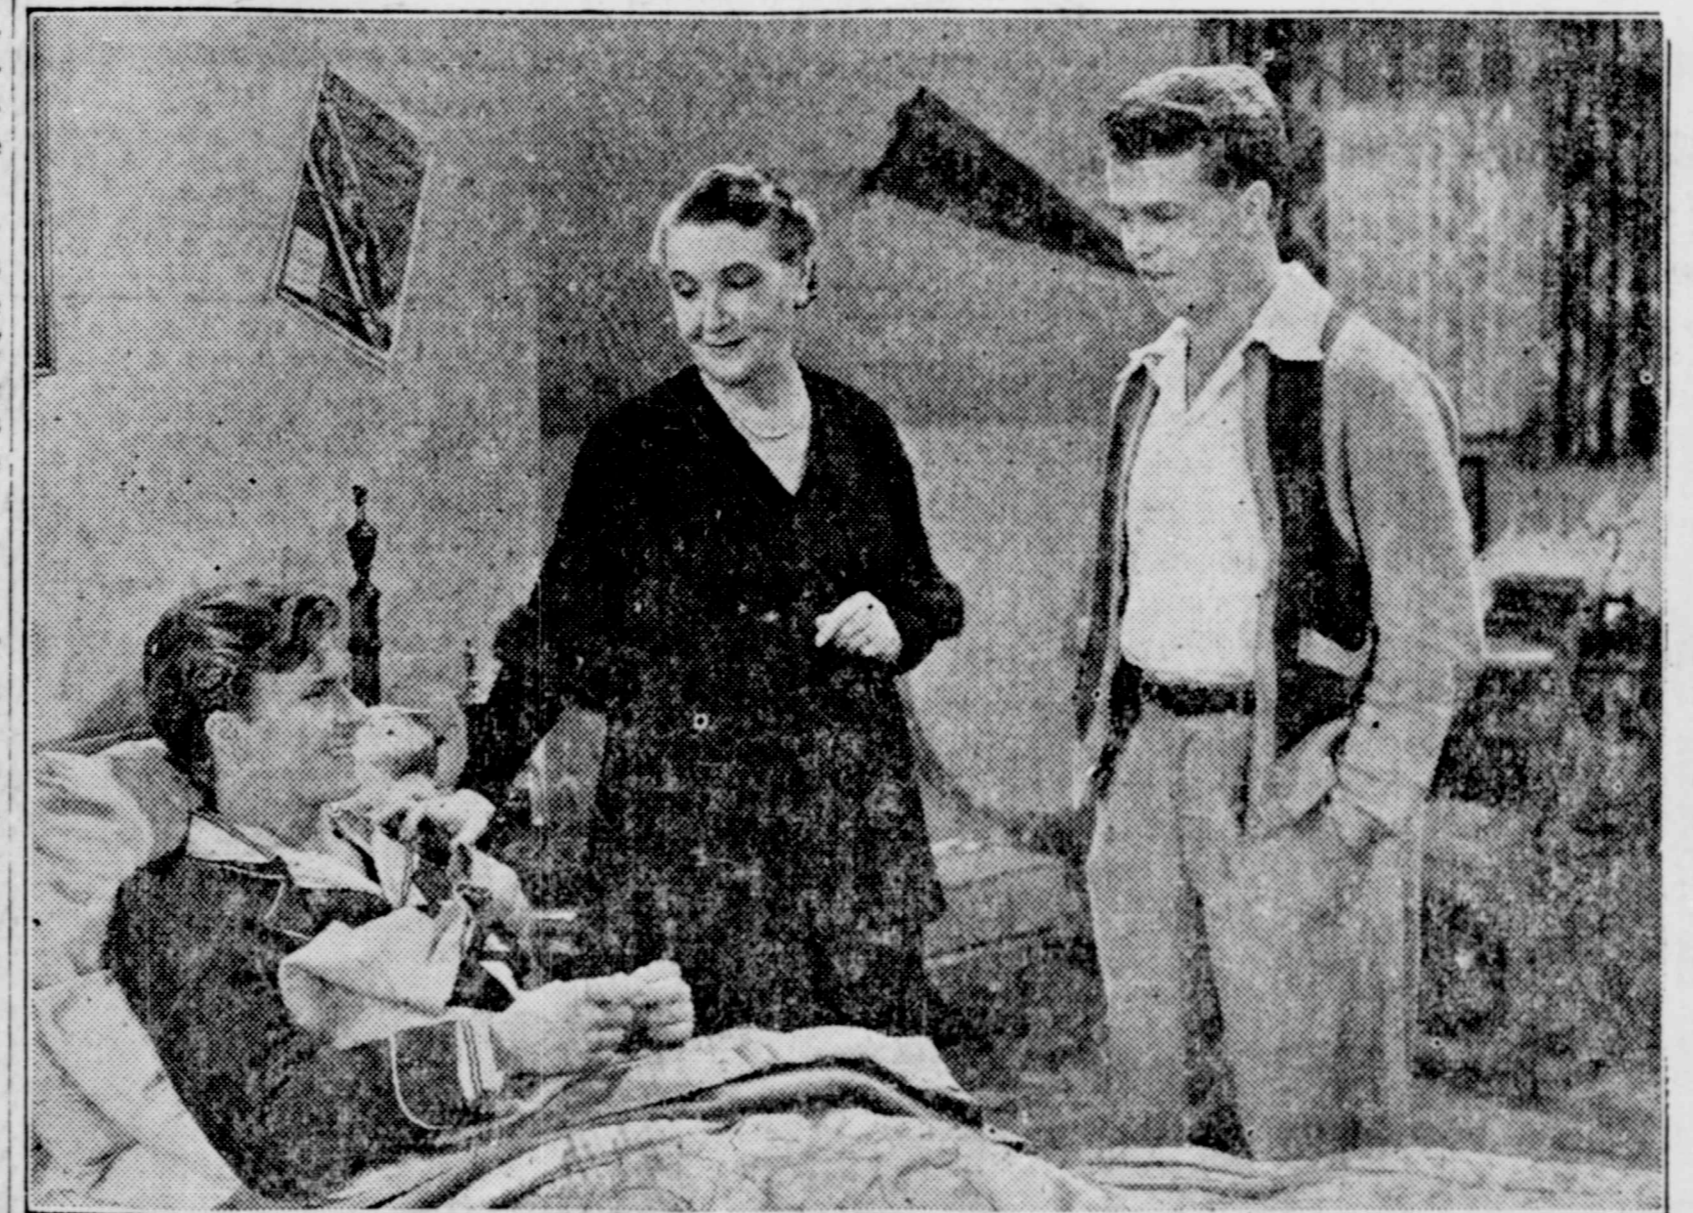

Virgil Burnett, tax assessor and collector informed a Herald representative Tuesday that 911 poll tax receipts have been issued up to January 21. At this time last year 2398 had been issued. Poll taxes can be purchased up to January 31st. You just can't vote in Texas without a poll tax receipt.

Mr. and Mrs. C. W. Roberts, Jr., city, and Miss Annis Fowler of Lubbock spent the past week end in El Paso and visited their brothers who are stationed at Ft. Bliss.

W. H. Eubank of Holbrook, Arizona is visiting his parents, Mr. and Mrs. W. H. Eubank and his sister, Mrs. Lois Taylor.

Mr. and Mrs. Marlin Hayhurst of Seminole were week end guests of his sister, Mrs. Jim Graves and Mr. Graves.

Chisholm Hdwe. to Bring Hollywood Picture, 'Melody Comes to Town'

Free to the farmers of the Brownfield trade area is the big John Deere Day program to be held here next Friday, January 31, under auspices of Chisholm Hardware, local dealers of the John Deere Implements. Farmers have a cordial invitation to come in and spend the day.

If the weather is permissible, there will be a tractor demonstration on some farm near town in the morning. At noon, there will be a light lunch at the store, and the show at the Rialto Theatre will start about one P. M. You don't have to have a ticket; they know whether or not you are a farmer of this area.

The movie attraction, "Melody Comes to Town," has a full Hollywood cast, and is all talking. Three other interesting pictures will be shown, including, "The Road to Happiness," "The Sheppards Take a Vacation," and "The Control of Quality."

Be sure to spend the day as a guest of the Chisholm Hardware Co., next Friday. You'll enjoy it. You'll learn a lot.

The Official Paper of Terry County and the City of Brownfield

We thank Senator Marshall Formby for his invitation to attend the inauguration of Gov. O'Daniel and Lieutenant Governor Stephenson at Austin Thursday as his guest. But we fear we would have felt just a bit out of place in that crowd, as we have never supported Gov. O'Daniel in the primary. We imagine we would have felt just about like Hamilton Fish would at FDR's inaugural.

There is nothing that Old Hitler and Old Mussolini fear more than the mass production of American factories. They realize that the out turn from these factories is going to be enormous when they once get "looled up." When this is done, according to Dean W. R. Woolrich, of the University of Texas, engineering department, and regional defense manager, we'll really go places. And if we can keep down unnecessary strikes and tie-ups, by next year we can fill the air full of planes over Hitlerland and Mussoland. There is another big advantage, states Woolrich. The American plane is so much better tooled and finished that its lasting qualities is greatly superior to the factory production of the dictators. For, whereas, the German bomber has to be reconditioned after from 50 to 100 hours of flying, the American bomber can go from 400 to 700 hours flying without reconditioning. If England and the other free people can hold them boys until next winter, their cakes will be all dough.

We are very sorry to report that our old and tried friend, E. H. Green, is moving his family to Hockley county. However, he is just moving to a place west of the "settlement" at Ropes, and we may see him occasionally. The Herald will follow the family.

Claud Harvey, Mo. Sheriff, Dies

Claud Harvey, 49, died at his home in Rolla, Missouri, Tuesday, January 9, after an illness of several weeks. Member of one of Phelps County's oldest and most highly respected families, Claud was known as the proprietor of Nagogami Lodge, popular resort on the Gasconade River, and founder of Harvey's Restaurant now operated by his son, Pryor, in Rolla.

Mr. Harvey was elected by the voters of Phelps County to the office of Sheriff last November by the highest number of votes cast for any candidate for any office. He was sworn into office last Wednesday, on New Years Day. The people of this county looked forward to his term in public office, knowing that he would serve them as a conscientious public servant.

A congenial, sociable, loyal friend and good citizen has passed. Claud's father, Judge James C. Harvey of Rolla's Police Court was elected sheriff of this county in 1896, serving four years. He is survived by his widow, formerly Miss Emma Lee Pryor of Phelps County, one son, Pryor of Rolla, one daughter, Mrs. Robert Campbell of St. Charles, Mo., and four grandchildren, Bobby Campbell, Charles Lee Harvey, Alice Ann Harvey, and Laura Claudette Harvey; one brother, B. T. Harvey, Rolla, and one sister, Mrs. P. C. Kellar, St. Louis, and his father, Judge James C. Harvey.

Funeral services were conducted under the auspices of McCaw Funeral Home, by Rev. H. P. Hunter at the Methodist Church at 2:00 o'clock Thursday afternoon. Following the church service Rolla Lodge of Masons with C. D. Hazelwood acting as Master took charge with Knight Templar escort and representatives of Rolla Chapter of Royal Arch Masons in line, he was buried with all Masonic honors.
Sheriff Harvey was a nephew of A. C. Harvey of this county.

Cross Breeding Of Dairy Cattle Harmful

College Station, Jan 20—Reliable sources report 60 per cent of Texas dairy cows are being bred to beef bulls. But, cautions W. V. Maddox, Extension Service dairy manufacturing specialist for Texas A. and M. College, "This practice not only is breeding the state out of the dairy business but is hurting the beef industry as well."

Most producers who have adopted this course, he says, failed to figure where tomorrow's dairy replacements are coming from. Statistics for 1939 show a decline in dairy heifers of seven percent over the previous year, and it is estimated that 1940 will show a 15 percent decline. This will mean approximately 60,000 less dairy heifers in Texas at present.

The replacement of cotton acreage by feed has encouraged more livestock on the farm, but the price of beef has caused not only farmers to go into the beef cattle business, but has induced many milk producers to breed out of the dairy business.

The 69 counties east of a line formed by Cooke, Tarrant, McLennan, Travis and Harris counties, which has been considered a large dairy cow section, has increased 119 percent in beef cattle in the last few years. A large percentage of this increase has been achieved by cross breeding dairy cows with beef bulls.

How To Detect Counterfeit Coins

It is rumored that again counterfeit coins, as well as notes have been found in circulation. The Treasury Department has issued the following rules for detecting counterfeit coins:

1. Genuine coins have a clear bell-like 'ring', counterfeits dull.
2. Most counterfeits feel 'greasy'.
3. Compare reeding (corrugated outer edge). On genuine coins they are distinct and evenly spaced; on counterfeits this reeding is poorly spaced and irregular.
4. Most counterfeits are soft and can easily be cut with a knife.
5. Scratch surface of coin and

apply a drop of 'Silver Test' acid, which your druggist can prepare for a few cents. Acid will turn a counterfeit coin black, will not affect genuine coin.

YOUTH KILLED DEER WITH AX

Twelve-year-old Carthar Harris should receive some sort of medal for being the hero of the most unusual hunting incident in Texas since an Ozona minister killed a deer with a rock several years ago. Young Harris killed his deer the day before Christmas with an ax.

Young Harris was resting on his father's automobile, when he was surprised by a noise and saw a buck fall backward after running into a railroad fence right at the car. The youth grabbed an ax and felled the deer before it could get up off the ground. The incident occurred near Blix Junction of the Angelina and Neches Railroad and Southern Pine Timber Tram Line in Angelina County.

POST GIRL GETS JOB WITH MAHON

LUBBOCK, Tex., Jan. 20—Miss Rose Jean Rodgers of Post has gone to Washington, D. C., to accept a position in the office of Congressman George Mahon of Colorado City and Lubbock. She was graduated from Texas Technological college in June, majoring in speech. While enrolled, she worked part time in the college registrar's office and was active in campus organizations.

Mrs. Billie Wicks and her mother-in-law of Ralls were guests of Mrs. Lal Copeland Saturday.

Mr. and Mrs. A. M. Brownfield left Saturday for Corpus Christi and Florida on a vacation.

Mr. and Mrs. Beryl Griffin of Ralls and her mother, Mrs. Abel of Lubbock were Brownfield visitors Monday. Mr. and Mrs. Griffin visited Mr. and Mrs. Lal Copeland while here.

Behind The Scenes In American Business

By John Craddock

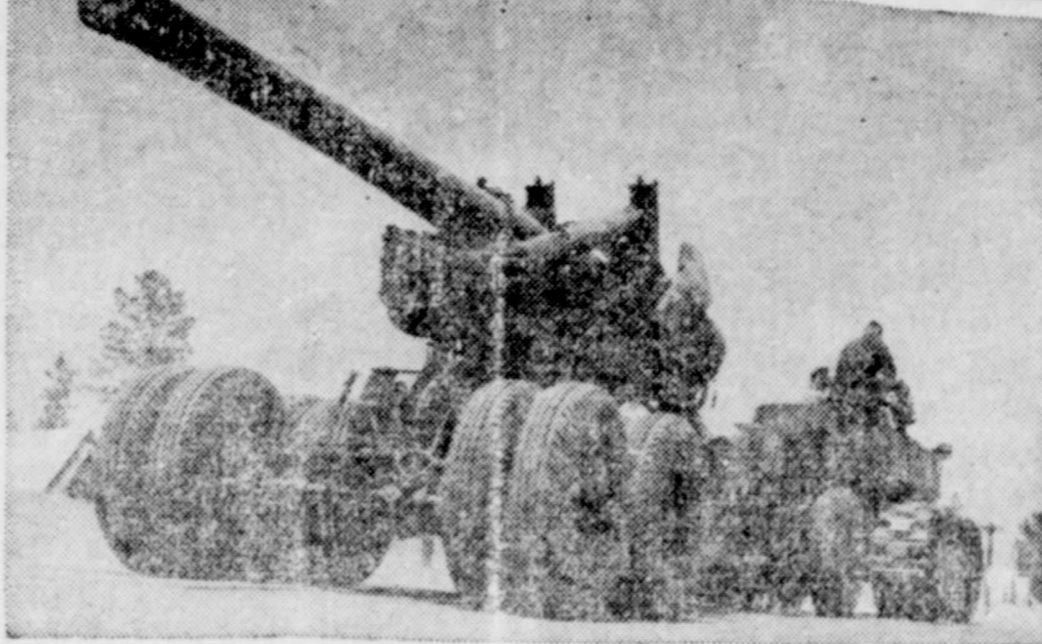

NEW YORK, Jan. 20—BUSINESS—Looks as though we're rapidly approaching the time when we'll have to take down the "business as usual" sign over the doors of many of our industries. It's been contended for months that Uncle Sam couldn't go into the armament business—for himself and for nations elsewhere that are fighting what is often described as our battles—on the scale that now seems necessary, and still have the time, talent and materials necessary to carry on everything else at normal speed and in normal volume.

Dislocation appears just around the corner, with official acceptance of the above view. And it is beginning to appear, to economists studying the situation with an eye to the future, that along with passing of the "business as usual" status will come, to a noticeable extent, the passing of profits on some usual—that is, peacetime—businesses. Washington economists have arrived at the inescapable conclusion that, for example, if automobile production must be curtailed in order to provide needed steel for armament, other businesses which lean heavily on the auto industry will be greatly affected because of the curtailment of purchases by this top-notch peacetime customer of theirs.

Counterbalance—Next question is: Will the defense work make up for the normal business thus shoved aside? Consensus is that, in the over-all picture, it will more than do that; for most companies, such as aircraft, steel, ship-building, copper and aluminum, it assuredly will do so; that for others, notably motors, the answer is "probably," and that for some others, like building materials, agriculture, and household appliances, it's "probably not."

No Show—Just what's going to happen with respect to the auto industry's production of cars and changes of models, in view of defense demands, is the question that gets most attention of the layman, outside of the question about how the defense drive itself is coming along. Indication that something will happen in this field, though, came last week when the Automobile Manufacturers Association cancelled the National Auto show booked for next October in New York. It was pointed out that this action will not control

Machines Protect America

Machines play the leading role in modern defense. Shown above are machines for soil defense and national defense. The cannon is one of a number of U. S. guns capable of long-range destruction. The earth-moving equipment at top is of a type used by many farmers in building dams and reservoirs. In 1939 farmers moved more than 11 million cubic yards of earth in performing this conservation practice, equivalent to the volume of material going into Columbia river's huge Grand Coulee dam.

JAMES FENIMORE COOPER DESCRIBED EARLY MARINES

Tales of the American Indian have been admirably told by J. Fenimore Cooper whose stories have delighted untold generations of Americans from 1821 to the present day.

Yet, few persons know that the author of "The Last of the Mohicans," "Pathfinder," "Deerslayer," and other stories of the American aborigines was also familiar with the sea and the sailing ships which were once the pride of the U. S. Navy.

Cooper's experience as a seaman on a merchant vessel and as a midshipman in the U. S. Navy gave him a wealth of seagoing lore which occasionally may be found in his writings.

More than a century ago he described the U. S. Marines of that period as "Strictly infantry soldiers who were trained to serve afloat; and their discipline, equipment, spirit and character and esprit de corps are altogether those of an army."

Harking back to still earlier times Cooper wrote in part: "At no period of naval history of the world is it probable that the marines were more important than during the war of the Revolution. The history of the navy abounds with instances of the gallantry and self-devotion of this body of soldiers."

The author of the Leatherstocking Tales had ample opportunities to note the deportment of the sea soldiers, as he served in the Navy from 1808 until 1811. His fame as a writer came several years later.

Mrs. Bill Lyle and Miss Patsy Wharton of Lubbock were here Friday. Mrs. Lyle visited Mrs. A. J. Stricklin and Miss Wharton attended the tea, given for Mrs. Sam Teague at the Clyde Coleman home.

PLEA FOR SAFER TEXAS STREETS AND HIGHWAYS

AUSTIN, Jan. 20—A joint appeal to the Senate and House of Representatives for the enactment of legislation to make Texas streets and highways safer was delivered to the Legislators Wednesday by the Texas Safety Association and 20 co-operating organizations. The appeal was signed by presidents of the statewide organizations.

"Today," the message to the legislators read, "there are more drivers, more motor vehicles on our roads than ever before. With military, commercial and civilian traffic increasing daily under the National Defense program, the use of our streets and highways has expanded to an all time high.

"Unless modern traffic control laws are passed by this session, man-power and economic resources will continue to be squandered through automobile accidents in the hour of the Nation's greatest crisis."

Despite unprecedented safety efforts on the part of civic organizations and public officials, it was pointed out that since the 46th Legislature convened in 1939, the traffic accident toll in Texas has resulted in 3,300 deaths, 100,000 persons injured and an economic loss of \$90,000,000.

The appeal asks passage of the 5-point legislative program sponsored by the 21 state-wide organizations representing a membership of over a million Texans. The enactment of similar laws in other states has helped reduce the traffic deaths by as much as 35 per cent.

The legislation requested is: A standard driver's license law; an increased Texas Highway Patrol; a strengthened drunk driving law; a revision of the obsolete speed law; uniform reporting of serious accidents.

J. L. Presley, of Lubbock, was a visitor in our city this week and a caller at the Herald office. He is sales representative of the Goodrich Tire and Rubber Company, of 21 south Plains counties. They also handle batteries.

Sheriff Ed Hofacker of Hockley county, has returned Frank Dice from Oklahoma, where he was captured. He is wanted for the burglary of the Santa Fe depot in Ropes some four years ago. Dice had been serving a sentence in the Oklahoma pen, and was nabbed when released by Hofacker. Thirty-four other cases in Texas stand against Dice.

**None Too Early To
Start On County Fair**

Last year the people of the city
and county brought up the subject
of a County Fair just about six
months too late, and when we
began to cast about for appropriate
buildings to hold the exhibits
they weren't here. We might could
have rented the fair grounds at
some of the neighboring county
seats, but we would have really
had no Terry county fair. We are
glad the Chamber of Commerce
is delving into this business in
January instead of September.

The plans have already taken
some shape by the appointment
of C. T. Edwards as Chairman;
Leo Holmes, Vice-Chairman; T.
L. Patterson as Secretary and
Spencer Kendrick as Treasurer to
start the work. Assisting the
group, R. N. McClain, J. E. Shel-
ton and Ray Christopher have
been named. These men are all
anxious for a fair, and will leave
no stones unturned to assure us
one, and it will be a good one.

Let's all get squarely behind
these gentlemen, and encourage
them in every way possible. They
will work like beavers providing
we show them we too are inter-
ested.

FINE RAIMENT

Uncle Andy Jack Stricklin,
ramrod of the Terry County Her-
ald down at Brownfield has fin-
ally gained a well-deserved re-
cognition. Judge J. W. Oliver of
his town gave Andrew Jackson
Stricklin a shirt—a brand new
one at that. The recipient at the
head of his editorial column bursts
forth with true West Texas ap-
preciation in this sentence: "The
editor of this sheet is wearing a
nice shirt this week for the first
time, complimentary of Judge J.
W. Oliver, our fine Justice of the
Peace. It was a Christmas pres-
ent, and wholly unexpected." Go-
ing without a shirt for a half
century in that sandstorm belt is
"some" feat, believe you me! The
Apostle was ramrod of the Lov-
ington Leader across the state line
just west of Brownfield more than
twenty years ago. He knows just
how scarce shirts were in that
section. They were an oddity—es-
pecially a nice one like Jack's.

Back in our pioneer days in that
section, it was no uncommon sight
to see a real "he man, armed with
a club, racing across the sand-
hills in his shirtless garb chasing
the elusive jackrabbit. The mol-
lhars were too slow for practice.
Being from Tennessee, Jack will
readily recognize the "cotton mol-
lyhare."—Old Apostle in Claren-
don Leader.

Yes, sir Apostle, we know what
a "mollycottontail" is—both the
hill and swamp varieties. Also, as
you probably lived on rabbits
several years in New Mexico, you
perhaps know all the habits of the
little "doghole rabbit." No doubt
you trained down until you could
beat them to their hole nine out
of ten trials. As for the shirt, we
visited Lovington in 1917 for the
first time, about the time you were
there, we believe, to see big pic-
nic-rodeo celebration, and if we
are any judge of matters, one
could have lost his shirt easily
during any of the rodeo sessions,
as they would gamble not only
whether or not the cowboy would
ride the steer or horse, but how
many jumps he'd stay on. And
they made no bones about their
betting. After the rodeo, we heard
that some would bet you whether
or not the sun would rise next
day. We heard you lost all your
shirts and had to leave, as nudity
was one thing they wouldn't stand
for.

**MRS. H. W. McSPADEN
MUCH IMPROVED**

Mrs. H. W. McSpadden who has
been critically ill with asthma is
reported well on the way to re-
covery. During her illness her
daughter, Miss Gladys McSpad-
den of Bay City, a daughter-in-
law, Mrs. Jessie Wade McSpadden
and children of Silverton, a grand-
daughter, Mrs. Jim Slaven and Mr.
Slavin of Austin were at her bed-
side. All have returned to their
homes.

Chad Tarpley of Abilene visited
his parents, Mr. and Mrs. M. G.

MRS. DOBSON PASSES

Mrs. Mary Dobson, 77, mother
of Mrs. J. L. Sims of the Loop
section in Terry county, passed
away the 9th. Mrs. Dobson was
taken ill on Christmas Day and
was brought to the local hospital,
where her illness was found to be
pneumonia, complicated with kid-
ney trouble.

The body was taken in charge
by the Brownfield Funeral Home
and carried to Decatur, and fol-
lowing funeral services, the body
was laid to rest in the old family
cemetery near Decatur.

Besides Mr. Sims, she leaves
three other daughters and two
sons to mourn her departure. She
had been making her home with
Mrs. Sims for some time.

**Home-Killed Meats
For The Table**

COLLEGE STATION, Jan 20—
While there are thousands of Tex-
as farm and ranch families with
access to cold storage and freezer
lockers, there still remain thou-
sands more who must wait until
cold weather sets in before they
have home-killed meat for the
table.

Variety in preparation, even of
the same food, keeps appetites
keen, so farm and ranch families
should plan for all possible ways
of preserving their meat, says
Grace I. Neely, specialist in food
preservation for the A. and M.
College Extension Service.

She suggests curing hams and
bacon and storing them in cotton
seed oil; making a generous supply
of sausage, canning some, freezing
some, or curing some, according to
the family's preference; making
pickled pigs feet and head cheese;
and canning or freezing pork
roasts.

The loin, sometimes called the
choice cut of any animal can be
cured and made into Canadian ba-
con. Or it can be canned for roasts
or frozen for pork chops, the
specialist says.

Beef can be preserved in as
many different and interesting
ways as pork. Just now, chili
seems to be one of the most pop-
ular canned beef products in
Texas.

**THE LOWLY PEANUT
NOW HAS A WEEK**

Texas peanuts, which are mea-
sured by the ton when the farmers
sell them, are getting special at-
tention this week in stores, lunch
rooms and candy counters from
coast to coast, in a gigantic sales
campaign to help the farmers mar-
ket a crop which means millions
of dollars to the people of this
state.

Chain stores and independent
merchants are cooperating in this
sales effort, known as National
Peanut Week, which was organ-
ized under the sponsorship of the
National Peanut Council, with
headquarters in Suffolk, Va. Dur-
ing National Peanut Week, Jan-
uary 23 to 31, peanuts and peanut
products are being featured in
advertisements and sales cam-
paigns all over the nation.

To Texas agriculture, this cam-
paign has great importance. Texas
produced some 80,000 tons of pea-
nuts in its last crop, or about 10
per cent of the total of the nation.
From these 80,000 tons it is esti-
mated that Texas farmers will
receive between \$4,500,000 and
\$5,000,000 with money going into
widely separated growing areas in
West, South and Northeast Texas.
Only four states—Georgia, North
Carolina, Virginia, and Alabama—
produce more peanuts than Texas.

Realizing the growing impor-
tance of the peanut industry in the
Southwest, a group of farmers in
Texas organized the Southwestern
Peanut Growers Association in
1937. This year this farmer-owned,
farmer - controlled organization,
which has headquarters in Gor-
man, Texas, and warehouses in 23
towns in Texas, Oklahoma and
New Mexico, will market about 50
per cent of the Texas crop.

**Epidemic of Measles
Threatens Brownfield**

During the past week there have
been many cases of measles among
children reported to the local
Health Unit office. All cases re-
ported have been visited by the
health nurse or doctor and a mod-
ified quarantine has been set up
in the homes. No child from a
home where there is a case of
measles should be allowed to go
to school.

Measles is a very widespread,
highly contagious disease causing
ten thousand deaths each year
among very young children. One
never knows at the beginning how
serious an attack of measles will
prove to be. So, a physician should
always be called the moment mea-
sles is suspected. It is certainly
not better to have measles early
"to get it over with." Health auth-
orities tell us that nine-tenths of
all measles deaths occur in child-
ren under five, and that the older
the child grows the less likely
he is to suffer a severe attack of
the disease. So, the longer your
baby is protected, the better it
will be for him.

If your child shows signs of
measles—running nose, sneezing,
eyes red and watery—put him to
bed at once. Then call the doctor.
While waiting for the doctor, see
that the child is kept warm. Ar-
range the windows so that the
room is ventilated but glare and
draughts are prevented. Give only
a light diet of milk, soup, and ce-
real. Prevent constipation. Don't
let others come near the sick
child.

**MANY FARM SONS AND
DAUGHTERS ATTEND U. OF T.**

AUSTIN, Jan 20—Texas may be
rapidly changing from an agricul-
tural to an industrial state, but
you'd never guess it to ask the
University of Texas' 11,000 stu-
dents what kind of money sends
them to school.

For farmers' sons and daughters
outnumber those from any other
occupational environment, a re-
cent registrar's survey reveals.

Last year, for example, 953 stu-
dents listed their parents' occupa-
tion as farming. Merchants' child-
ren came second—789—while law-
yers' and salesmen's offspring
ranked third and fourth—506 and
502, respectively.

Ranchers, cattlemen and stock-
men sent 401 students to the Uni-
versity.

NO APPEASEMENT HERE

"Appeasement" has become a shameful word during the last year or two—and justly so. Today almost all of Europe is a tragic monument to the futility of attempting to appease the dictator powers. The appeasers may have been sincere, but they were terribly wrong. Dictators' ambitions know no limits. And each fresh attempt at appeasing the dictators simply gave them more confidence and led to still greater demands.

In this country, the majority of the people are opposed to any efforts to appease those who may threaten the destruction of our way of life—which is the democratic way of life, with free men working under a free system. But there is a minority whose thoughts turn to the possibility of appeasement. "All over the world," their argument runs, "liberty has been abrogated, and government has been made supreme. Civil rights have been dissipated like leaves in a storm. It is logical to expect that we shall see a similar trend take root at home. So we might as well make the best of it. After all, even total governments must have the services of men with brains—there will always be jobs. So let's see if we can get on more friendly terms with our political enemies."

A child can see what that argument must lead to, once accepted by the people. It would lead to a dictatorship as brutal and as thorough as any in Europe. For democracy is one thing that can't go half-way. Weaken it, and you are helping dig its grave. No nation, said Lincoln, can exist half slave and half free. And no nation can hope to strike a balance between representative government and total government. It must choose between one or the other with no "ifs, ands, or buts" involved.

A system worth having is a system worth fighting for. The United States prays for peace—but the United States was never a country to give an inch to its possible enemies. If the appeasers should have their way, we will go the way France went—and all that America has stood for in the past will become meaningless. Let's make up our minds that this is one corner of the world where democracy, social and economic will be defended to the last ditch.—Industrial News-Review.

PATIENCE WORN THIN

One of the most interesting parts of the President's speech of December 29 was that in which he dealt with the role of labor in national defense. These sentences were especially significant: "If our capacity to produce is limited by machines, it must ever be remembered that these machines are operated by the skill and the stamina of the workers. As the government is determined to protect the rights of workers, so the nation has a right to expect that the men who man the machines will discharge their full responsibilities to the urgent needs of defense."

"The nation expects our defense industries to continue operation without interruption by strikes or lock-outs. It expects and insists that management and workers will reconcile their differences by voluntary or legal means, to continue the supplies that are so sorely needed."

The American people are patient. But patience has worn thin when it comes to the labor racketeer or the profiteering industrialist. There is no just difference of opinion between management and labor which cannot be settled by arbitration. There is absolutely no excuse for a strike in a defense industry today—and no excuse for that insidious form of sabotage which is called the "slow-down."—Industrial News-Review.

BLOOD FOR BRITAIN SAVING HUNDREDS

NEW YORK CITY—Commenting on American Red Cross shipments to England, Ben Robertson, London correspondent for the newspaper PM, said that blood plasma has been one of the "most valuable" items the British have received from America.

"Believe me," he wrote, "the blood which Americans have given for Britain, has saved hundreds of British lives and up to now has been one of the most valuable helps we have given the British. Britain had stored up its own blood plasma supplies before the blitz began, but these rapidly diminished when the Germans began bombing British cities. Britain then began using its American supply."

"Blood transfusions are one of the first treatments given bombed victims as many of them have been buried perhaps six to eight hours beneath debris and very often, they have lost much blood before being rescued."

THEY DO READ IT

Ordinarily one thinks the number of families reading a newspaper is the number of families that subscribe for it.

That isn't so. Traveling 58 miles on a rural route that extends some 15 or 18 miles from Sleepy Eye, Ollie Neudecker recently contacted 16 families who were not subscribers to the Herald-Dispatch.

Seven of them said they read the paper regularly at the home of parents or neighbors.

That is one of the striking differences between newspapers and handbills. The paper is passed from hand to hand, even from family to family, remains somewhere about the house ready for reference for three or four days after it is received.

Quite frequently the hand-bill is passed from the mail box to the waste basket or the kitchen stove.

Who ever heard of anyone calling on neighbors or relatives to read the circulars received during the week?—Sleepy Eye (Minn.) Herald-Dispatch.

INJURED BY FIRECRACKER

Some of The Boys Skied On Their Ears

A number of local men and their wives went over to Ruidosa N. M., last week end to try their luck skiing. Among them were Messrs. and Mesdames V. L. Patterson, Burton G. Hackney, Jake Gore, Virgil Keyes, Tom Neeley and Crede Gore.

They drove over after business hours Saturday night, did their skiing and bobsledding Sunday morning and returned home Sunday afternoon.

From the looks of some of the men, they must have skied on their ears, noses and lips. V. L. Patterson acknowledged, however, that he was skinned all over.

John N. Garner will retire from the Vice-Presidency next Monday, closing a tenure of eight years. He virtually retired early last fall. It is regrettable that he skulked in his tent and lay down on his job following the election last November, thus subjecting himself to much criticism, which most of us admit was well deserved. There were other ways in which he could have emphasized his disapproval of Roosevelt's election to a third term without being churlish and childish about it. The manner in which he acted during the last few months of his tenure brought him to the end of his official life under something of a cloud. It is regrettable, for up until he persisted in making the ill-fated race against President Roosevelt he was one of the most popular men in public life. It is strange that, shrewd and practical politician that he is, he could not see that he had no chance to defeat his chief and that the effort could only bring him somewhat into disrepute. It is only just to say, however, that John Garner has been a very useful man in the Congress and as President of the Senate of the United States. Shrewd, level-headed, and capable, he has been a power in our national legislative body. In our disapproval of his course in these last days of his public career, let us not forget the distinguished services that he has rendered through many years of public life.—Lynn County News.

Hardly a week passes that some new publication does not come to the desk of the Texas newspaper editor. Each new publication represents hopes and expectations of those responsible for its birth. In many cases the infant languishes and dies before reaching maturity; occasionally one grows lusty and strong. At any rate, Volume 1, No. 1 always intrigues a reader.

The Junior Historian, published by the Texas State Historical Association, made its appearance in January. It is distinctive among Texas publications, and possibly in the nation, because of the unique assumption on which it is based. It is founded on the assumption that there is need for a magazine which will publish the writings of Texas boys and girls of high school and early college age. Ordinarily such a magazine would have scant prospect of success because young people cannot compete with their elders in the field of literature and art. The Junior Historian may well succeed because it proposes to publish what the young people write about the history and tradition of their own community and the state. Young people can write, and write well, about their homeland; they can tell the stories that old people have told them; they can describe with freshness and beauty of their pilgrimages to historic places. The Junior Historian offers an outlet for their best products, and it is the only medium in this field. It deserves to succeed and it has the best wishes of every intelligent Texan.

"I want you to pose for my great picture to be hung in the town hall," said the celebrated artist to a tramp he met on the road. "Will you do it? I'll pay you well."

"What's it about?" asked the mendicant suspiciously. "It's to be called 'The Return of the Prodigal Son'. You know, the story of the father who killed the fatted calf because he was so pleased his boy had come back."

"I can't do it," the tramp replied. "But why? It's not hard," urged the artist.

"No, veal don't agree with me," replied the tramp.

Meadow Opens Mattress Center

The mattress making center at Meadow, Texas opened January 20, in the one-story hollow tile building across the street from the Red and White Store. Twenty-eight mattresses are scheduled to be made during the ten days the center is to be open according to Mrs. S. H. Kelsey and Mr. Hartzog, vocational agriculture teacher of the Meadow School, chairman of the program.

The Meadow women who have volunteered to supervise the making of the mattresses attended an all-day trainers' meeting January 18, beginning at nine o'clock a. m., at which meeting demonstration in mattress making was conducted by the county home demonstration agent.

The mattress applicants from the Meadow and Challis communities are being notified on which days each will be expected to come to the center and make their mattress, and it is most important that the family come on the days designated and that four or five persons be brought to help make the mattress.

The mattress making program is a government project established by the Surplus Commodities Administration to use to the best advantage some of the nation's surplus cotton as one means of stabilizing the price. The Triple-A and the Extension Service are responsible for conducting the program in each county. The scope of the program is limited to groups financially unable to purchase mattresses from commercial concerns and will interfere in no way with the sale of mattresses through commercial concerns.

DON'T JOIN EVERYTHING

The case of Verne Miller, Iowa newspaper editor, and his No Foreign War Committee should reach us all to be just a little bit leary of the scores of organizations and "movements" which have sprung up since the beginning of the European War.

We have no facts on which to base an indictment of Mr. Miller's motives, but we do know that it cost many people a goodly sum of money in sending telegrams, etc., before investigators revealed his movement to be inept if not detrimental to the true cause of peace.

For one thing some of his backers were found to be men who have made their pile in international war finance finagling, and these associates caused such isolationists as Col. Lindbergh, Senator Wheeler, and others to quickly cut away from any semblance of connection with the movement.

There will be other "good causes" to come along in the future. Let's not get worked up over some enthusiast's brainstorm, some promoter's ideas of how to save the world. Let's not join everything. — Plainview Community Weekly.

Clark Gable has his hair pulled in one of his comedy rough-house scenes with Hedy Lamarr in "Comrade X", widely-heralded attraction, coming to the Rialto screen Sunday and Monday. Terry County Roads Being Improved

We will try to bring you a picture of the work being done by the County Commissioners on the roads in their respective precincts.

Starting with precinct 1 we will try to get around to the others as fast as possible. The commissioners deserve a lot of credit for the fine work they are doing in building and maintaining our roads.

On Monday morning the officials of the Chamber of Commerce and the County erected two new signs to direct traffic over a new road to Ashmore and Cedar Lake. This road is in good condition and is one mile nearer Ashmore and Cedar Lake than the old one.

Mr. T. D. Warren, Commissioner of Precinct One, then drove over some of the new roads that have been opened up in the last two years and showed us what he was doing. Approximately 100 miles of new roads have been opened in precinct one in the past two years. About 90 miles of the old roads have been re-worked and good clay beds have been put on these roads. Corners of old cross roads have been cleared so that traffic is visible where it was not before. Mr. Warren has two maintainers that are at work constantly repairing and grading the roads throughout his precinct. In the very near future we will try to give you information on the roads in the other precincts.

WHY PASS A "FAIR TRADE ACT" NOW?

GALVESTON, Jan 20—Why with the federal government doing all it can do to prevent profiteering and keep prices down—should the Texas government be petitioned to pass a price-fixing, price-raising law such as the Fair Trade Act, C. P. Evans, of Galveston, president of the Texas Merchants Association, asked here today?

Mr. Evans owns food stores in Galveston, Beaumont, Edna, Wharton and other Gulf Coast points. The Texas Merchants Association is composed of local chain stores owned by Texans and doing business only in Texas.

"This newly proposed Fair Trade Act is essentially the same proposal that was vetoed by Gov. W. Lee O'Daniel two years ago after Attorney General Gerald Mann ruled it was in conflict with our anti-trust laws," said Mr. Evans. "It still binds contract made between any one retailer and a manufacturer of the product involved."

"This is a dangerous law. It obviously is an attempt to set aside the Texas anti-trust laws."

"In other states this has resulted in fixed and frozen prices on all 'Fair Trade' contracted items. These prices almost invariably have been fixed upward. You can't need laws to lower prices."

"The Fair Trade Act, therefore, completely disregards the welfare of consumers and is in direct conflict with the frequently expressed wishes of President Roosevelt and the federal government that prices stay at a normal level during these trying times."

Mrs. Burton Hackney entered the local hospital for medical treatment Wednesday.

Mr. and Mrs. Wayne Brown and Mr. and Mrs. Tobe Helms were Lubbock visitors Sunday.

Mrs. C. O. Paschall of Breckenridge visited her sister, Mrs. Chas. Leonard, over the week end. Mr. and Mrs. Leonard took Mrs. Paschall to Lubbock Monday afternoon where she will visit her son a few days before returning home.

Mr. and Mrs. Bill McKinney, Mr. and Mrs. J. J. Gaston, Mrs. T. W. Bruton and Charlie Lou Gaston were Denver City visitors Sunday.

Mrs. Daniel Davis is now working in the office of Virgil Burnett, Tax Assessor. Mrs. Davis was formerly employed at the First National Bank.

Mr. and Mrs. Joe Young are the parents of a daughter, born Friday, January 17 at 1 o'clock a. m. at their home.

Mr. and Mrs. Dale Wren and baby of Crosbyton visited his uncle, J. B. Huckabee and Mrs. Huckabee, last week end.

Garden Club For Brownfield Organized

In Brownfield, Texas on Saturday, January 11, 1941, a number of ladies met in the home of Mrs. R. B. Parish and organized a Garden Club for Brownfield. The following were elected to hold office: Mrs. R. B. Parish, President; Mrs. J. R. Turner, Vice President; Mrs. Joe J. McGowan, Secretary; Mrs. Mon Telford, Treasurer.

Mrs. Parish appointed the following committee to act as members on the program committee: Mrs. J. R. Turner, chairman; to be assisted by Mrs. W. H. Collins and Mrs. McGowan.

A By Laws Committee will be appointed later to meet with Mrs. Parish and draw up rules and regulations as to dues, etc., that the club will later vote on.

The club will meet once a month, on the second Thursday of each month, at 2:30 p. m. This club was organized to help beautify the yards of Brownfield and create an interest in the beautification of the town in general. It will be affiliated with the Texas Federated Garden Clubs.

BAPTIST CHURCH NEWS

We had present in time to count for our Bible school study last Sunday morning 349 which is not a very creditable showing for an enrollment of 668 and we are anxious to increase the attendance at the Bible study hour.

No family should ignore the study of God's Word and if you have been guilty begin now during the first month of the year and amend your ways.

New people are moving into our community as fast as they are able to secure places to live and we urged upon you not to neglect giving them a warm invitation to worship with us, as they will appreciate it and we have a place of service for them.

Many neglect the evening service of the church and seem to forget that their presence will be worth something to the service, and you have this opportunity to bring your unsaved friend and this service should glow with evangelism.

The attendance upon the regular meeting of the Brotherhood Monday evening was better and should be greatly improved.

There will be a District meeting of the brotherhood church organizations next Tuesday evening at Lubbock, and a large number should attend this meeting at which prominent laymen of the churches will speak and our men should receive inspiration from these speakers.

People who attend worship to put something into the service receive inspiration and are blessed but the critic gets little and gives nothing. Visitors always welcome here.

O. E. S.

On January 21 the O. E. S. met for a regular business meeting after which refreshments were served at Nelson-Primm Drug store, with Mr. and Mrs. F. M. Ellington and Mrs. Ilean Carson as hosts. At the next meeting February 4, Mrs. Robbie Dyer, Worthy Grand Matron of Amarillo, will meet with us. All members are urged to attend.

REV. FRED A. WALKER CONDUCTS SECOND OF P. T. A. STUDY SERIES

"It Is A Small World" was the topic for the second session of the P. T. A. study course on the general theme "This World of Ours", which is being conducted by Rev. Fred A. Walker every Thursday at 4:00 o'clock in the High School Auditorium. Rev. Walker, in an interesting lecture, showed how the world has become relatively small with the development of speedy methods of communication and rapid modes of travel. He pointed out that, through the influences of radio, television, movies, and air travel, the children of today have a thousand times better chance to know what the world is like than the children of a generation ago. He brought out the significant fact that parents and teachers must keep up with what is going on in this relatively small world in order to understand the modern child and you and their problems.

Mrs. H. G. Stinnett, President of 14th District of Texas Congress of Parents and Teachers, was present at the study session and commended the local P. T. A. units for the interest shown in the study course.

The Mother-Singers group was organized immediately after the study session with Mrs. A. L. Bruce as director, and Miss Maudie Jo Fields as assistant director. Some twenty parents and teachers have expressed the desire to help develop a good P. T. A. chorus.

P. T. A. DISTRICT PRESIDENT GUEST OF LOCAL P. T. A.

Mrs. H. G. Stinnett, Jr., of Plainview, President of the 14th District of the Texas Congress of Parents and Teachers, was the guest of the local Parent-Teacher units for two days last week, January 16 and 17.

Mrs. Stinnett met with the executive committees of both P. T. A. units on Thursday, January 16 at 2:30 o'clock. She outlined many helpful suggestions for planning and executing plans for the 13th Annual P. T. A. District Conference which will meet in Brownfield on April 25 and 26. Mrs. Stinnett stated that some 500 out-of-town guests may be expected to attend the conference.

Mrs. Stinnett also very graciously answered questions asked by members of the executive committees concerning courtesies extended by the hostess city to such a conference. Mrs. Stinnett and members of the local P. T. A. units are anxious that the 13th District Conference be an event of which all Brownfield citizens can be proud. It is the first meeting of this kind which Brownfield has been privileged to entertain in several years; and many residents have expressed the desire to help make it a success.

Mrs. Stinnett was accompanied by her daughter, Joyce, and both were guest in the home of Mrs. Will Adams during their two day stay in Brownfield.

HARMONY H. D. CLUB

Harmony Home Demonstration Club met for the first time in the new year, Thursday afternoon, January 16 in the home of Mrs. John Garner with nine members present and Mrs. R. H. Tudor as a new member.

Mrs. Francis Hobbs took over her duties as new club president. She presented each member present with the new year book.

Miss Holloway was present as this meeting and gave an interesting program on "Planning the Vegetable Phase of the Food Budget", also gave a vegetable dish demonstration which was lovely to look at as well as delicious.

Mrs. Garner and daughter, Clea, served cake, peaches and hot chocolate to all present.

We are all so glad Mrs. E. F. Smotherman was able to be with us and hope her health will permit her to meet regularly with us.

Our next meeting will be February 6th in the home of Mrs. Earnest Patton. All ladies of our community are invited to attend the club.

MUSIC CLUBS TO PROMOTE GROUP SINGING

As one of the stimulus groups co-operating with the National Defense committee, the National Federation of Music Clubs, through the State and district branches of the organization, is co-operating in the educational campaign being launched to stimulate and give extra impetus to the preparedness program of our national government.

In no group do we find better examples of American man and womanhood than in the rural communities of our country; so it is to this group that the music federation makes special appeal to promote group singing among the school children; particularly of patriotic songs and drills that renewed interest may be aroused.

Music is being used extensively in the war-torn countries of Europe to help to keep up the morale of the people. We do not need such stimulation in America, but we do need an awakened sense of what we possess in this land of the free. Music is the common denominator of man, and we in America need to be drawn into a common enterprise of promoting and upholding democracy. So come on America, LET'S SING.

FIRST PRESBYTERIAN CHURCH

Rev. Fred A. Walker, Pastor

Sunday School—10 a. m.; Junior Christian Endeavor—4:00 p. m.; Vesper Preaching Service 5:00 p. m.

Sunday morning the sermon will be on "The Laws of Strength," based on Paul's words, "Quit you like men, be strong." Americans have been accused of growing soft and weak in recent years. What is the best way of growing strong, both as individuals and as a nation?

At the five o'clock service the Pastor will bring the second in a series of talks on faith as he speaks on the topic, "Beliefs that Matter."

There will be special music at both services. You will enjoy hearing our choirs. Bring a friend with you.

NOVEMBER WEDDING ANNOUNCED

Miss Jewel Decker became the bride of Mr. Jack Key of Lovington, N. M., Friday, November 22. The couple were married by Rev. George A. Dale, Baptist pastor at Tahoka. They were accompanied by Miss Geraldine Key of Lubbock. Mrs. Key is the daughter of Mr. and Mrs. R. H. Decker of Brownfield, Rt. 4. Mr. Key is the son of Mr. and Mrs. L. B. Key of Tatum. The couple will make their home in Lovington.

O. E. S.

In a meeting of the O. E. S. Jan. 7, Mrs. Roberta Elliott was inducted into the order. Mrs. Thelma Peacock presided as Worthy Matron. Mrs. Jewel Smith, Mrs. Cornelia Moore and Miss Fannie Day served refreshments of sandwiches, potato chips, wafers, cookies and cocoa to the thirty four members.

TOKIO HOME DEMONSTRATION CLUB

The H. D. Club met in the home of Mrs. Claude Merritt on January 14.

Each member discussed different phases of the work accomplished since demonstration work began in Texas.

After a short business discussion, the year books were filled out under the direction of the president. Nine ladies were present.

MAIDS AND MATRONS CLUB MEETS WITH MRS. PARISH

Mrs. R. B. Parish, hostess to the Maids and Matrons Club Tuesday afternoon, was most gracious in her lovely new home. Mrs. Flache, her mother, and other club members assisted.

Guest speaker, Mrs. Storey of Littlefield, who is District Chairman of "Indian Welfare and Indian Lore," presented various products of Indian workmanship in a generous display of baskets, vases, trays and other articles in pottery and painting. Mrs. Storey was thoroughly conversant and with her knowledge of Indian life, tribes and manner, brought to the club very vivid pictures from earliest era to present time. The club is deeply grateful to those who were instrumental in bringing so helpful and so charming a person to entertain in this special department of Federation work.

The President, Mrs. Ruth Moore, welcomed members and friends, then Mrs. Heath, chairman, presided during the following program:

The "Gallup Ceremonial", Mrs. I. M. Bailey, who brought with geographic illustrations an interesting part of Indians' recreations at Gallup, N. M.; Exhibit, Mrs. Money Price, Mrs. E. C. Davis; "As Long As The Grass Shall Grow", (review), Mrs. Cobb.

Members attending were Bailey, Davis, Fitzgerald, Dallas Brownfield, Heath, McGowan, Moore, Nicholson, Holmes, Price, Randal, Smith, Tarpley, Turner, Teague and Telford. Special Guests were Mesdames Cowart, Miller, Gregg, Flache, Storey, Bowers, Stahler, and Knight.

Delicious cake and coffee was served the guests.

AN APPEAL FOR MISSION STUDY

In preparation for our March Week of Prayer program, the ladies of the First Baptist Church will study "The Trail of Seed", by Mrs. Una Roberts Lawrence.

This is one of the most genuinely interesting books yet offered by our study. There are beckonings of new opportunities among the immigrants, in military camps, at the new bases in the Caribbean and Panama. Members will find information and inspiration as they prepare to pray and give during the week of prayer.

Let us urge you to go to one of the five circles in our town and study with us, Monday, January 27.

ATTEND SPRING MARKET

Mrs. W. E. Latham and Mrs. A. W. Turner, salesladies at Latham Dry Goods, left Friday for Dallas to purchase spring merchandise for the store. Mr. Latham and Mr. Turner will join them there Sunday.

Miss Thelma Trimble of Lubbock spent the week end in the home of her nephew, M. E. Brown.

BRIDE TO BE HONORED AT MAY HOME FRIDAY

Mrs. Tom Neely, the former Miss Mattie Jo Gracey, will be honored with a tea and gift shower, Friday afternoon (today) at the home of Mrs. Tom May. Co-hostesses with Mrs. May will be Meses. Terry Redford, Wendall Smith and Misses Wanda Graham and Ethelda May.

Ann Sothorn in the jail sequence of "Maisie Was a Lady," latest of the popular "Maisie" series, which opens Tuesday on the Rialto screen. Lew Ayres, Maureen O'Sullivan and C. Aubrey Smith are featured with the star.

PUPILS TO PLAY AT LUBBOCK

Minnie Lee Walton, pupil of Gertrude Rasco, will play on the Junior-Senior Sonata Program, sponsored by South Plains Music Teachers Association, January 27, 7:30 o'clock at Lubbock Senior High School auditorium.

Minnie Lee will play the three movements of Sonata Op. 20 No. 1 by Kuhlman.

March 28 she will play one number from each of the classics, Romantic and Modern group as outlined in the State Applied Music Bulletin.

Then in April Minnie Lee will represent Brownfield School in the Applied Music Piano Division of the Interscholastic Regional meet in Canyon.

At this time she will play the first movement of the Sonata op. 48, No. 1 by Beethoven, and Prelude No. 7 by Heller.

Census Settles On Figures For Area

The final figures for the city of Brownfield recently received from the U. S. Census Bureau, gave this city exactly 4,009 inhabitants, instead of 4,016, as in the preliminary figures. This was a gain of 2,102 over the figures of 1930, which was one of the heaviest gains of any town in the section with the exception of purely oil field towns.

Some of the towns and cities in the area, and some of the cities, notably Plainview and Big Spring, actually lost a few people, while some made quite substantial gains, even in the smaller town class, like O'Donnell and Meadow, for instance. Brownfield accounted for all but 175 of the gain in Terry county, which rose from 8,883 to 11,160 in the ten year period.

Below we give the present population of a number of towns of the area:

Lubbock	31,853
Big Spring	12,604
Plainview	8,263
Lamesa	6,038
Brownfield	4,009
Levelland	3,091
Littlefield	3,817
Seagraves	3,225
Slaton	3,587
Snyder	3,815
Crosbyton	1,615
Lockney	1,231
Meadow	408
O'Donnell	1,187
Post	2,046
Ralls	1,512
Seminole	1,761
Spur	2,136
Tahoka	2,129

These figures, are, of course for or as of April 1. Brownfield is several hundred larger now, and possibly some of the other towns, while some are smaller.

Mr. and Mrs. C. T. Edwards were Lubbock visitors Monday.

Z. B. Covington of Lamesa was the guest of his sister, Mrs. M. G. Tarpley and Mr. Tarpley, the first of the week.

Attention To All Farmers

We are calling a meeting for next Saturday, January 25th, at 2:00 p. m. at the Courthouse, for the purpose of electing new officers to carry on this work in Terry County, which is so vital to our farmers and to all who are depending on agriculture for a livelihood. Mr. Tilson and I attended the State Convention January 15th-16th at Dallas, and by action of the Convention Delegates, the name, "Texas Agriculture Association", was changed to Texas Farm Bureau Federation.

Mr. Edward A. O'Neal, President of the American Farm Bureau Federation made the keynote address of the two days meeting. It was through the Farm Bureau Federation and the fight led by Mr. O'Neal in our National Congress that the appropriations for this years Parity Payments were available, and that only by some help he had secured from the Labor Organization. Even though we farmers voted to carry on our Program, the money has to be appropriated from year to year, while we farmers sleep on the job and expect the other fellow to carry on. Had it not been for the well organized labor group that came to Mr. O'Neal's assistance, in the pinch of time we wouldn't have received a Parity Check this year. Labor represents only 6% of our population, while agriculture 25%, and for us to have to call on Labor to be strong enough in Washington to secure agriculture appropriations, it simply shows our mental weakness.

Are we willing to run this narrow risk to get our Parity appropriation from year to year? The American Farm Bureau Federation into which we merged our Texas Farm Organization is fairly strong in the eastern states and on the west coast, and since we are all under the same program, why not pool our efforts in one body like Labor and Industry, and be strong enough to demand our rights and get them. We are only getting 85% Parity this year, but for 1942 we are going to demand 100 percent Parity. Had our Agriculture Organization been strong enough this year, we could have secured that 15% we lost, so Brother Farmer, figure it out for yourself. Can you afford to lose 15% and maybe all our Parity for the sake of \$2.00, membership fees in the Texas Farm Bureau Federation, who is lined up with other states in asking and demanding that Agriculture gets the same consideration in Congress as Labor and Industry?

Mr. O'Neal is a personal friend of President Roosevelt, having been appointed by the President to report to him on Agriculture, along with three other men on Labor, Industry and Commerce. At the beginning of our preparedness program, Mr. O'Neal reported to the President that Agriculture was the only branch of National Defense who was ahead of the program. Agriculture had a surplus of most everything on storage and that surplus was a liability to the farmer, but was a great asset to the Nation as a whole.

Terry County, last year through your fine cooperation boasted more new members than any other county in our district of nineteen (19) counties. Thanks to you and to our efficient secretary, Bill Tilson, who has worked unceasingly at his job. For this record, we nominated Bill to be our District Director, and he was elected. Thanks so much to the business men of Brownfield for your cooperation, even some of you have paid your dues in our Farm Organization. We are in the near future, going to arrange for a Farmer-Business Men Banquet in Brownfield, and I am sure our new District Director, Mr. Tillman, will provide us with an able speaker for the occasion. Those of you who belong to our Organization be sure to be on hand, and those who do not belong, come line up and help carry on the fight for 100% Parity for 1942. Otherwise, it may be cut more than 15% next year. For instance; if your Parity was \$400.00 this year, your cut was \$60.00. If at least 50% or more farmers would line up and get 100% you could pay in \$2.00 for your dues to the Texas Farm Bureau Federation, and put \$58.00 in your pocket according to this year's Program. Your for better cooperation,
L. L. Brock, President.

Mr. and Mrs. Joe Bailey and children of Lubbock, Mr. and Mrs. Lee Brownfield and Miss Jane Brownfield, city, plan to go to Santa Fe to ski this week end.

Regular Army Needs More Men

Word has been received by the officials of the Chamber of Commerce from Major Walter Jessee, Recruiting Officer of the United States Army Recruiting Station at Lubbock that the regular Army is needing men from the ages of eighteen to thirty-five for three year enlistment in the regular army.

The recruiting service is appealing to postmasters, newspaper editors, and all civic organizations to give them such aid as they can in securing recruits. This must continue regardless of the induction of the National Guard into the Federal Service and the bringing in of the Selective Service men.

The need for bringing up the Army to its maximum strength and maintaining it there is greater than ever. In addition to its furnishing an emergency combat force, they must furnish trained cadets and instructors for the larger Selective Service Army. Hence, the urgent need for the Regular Army three-year enlistments now.

In addition to rendering patriotic service to his country and finding an interesting life, the soldier is well paid and well cared for, and the opportunity for advancement in the Regular Army now is better than ever before and with technical occupations open to the ambitious youngster.

Any man between the ages of eighteen and thirty-five that is interested may secure full information by writing to Major Walter Jessee at the Army Recruiting Station, 203 Post Office Building, Lubbock, Texas.

Mr. and Mrs. Don King of Lubbock spent the week end here with his parents, Mr. and Mrs. John King.

Mrs. G. I. Nelson of Prescott, Arkansas is visiting her daughter, Mrs. Harold Denton.

We Seed The Sights In The Country Sunday

The Senior and Junior ramrods of this sheet, accompanied by Roger (Red) Curry, employee, took a little spin out in the north-westward section of old Terry Sunday afternoon, to just be driving around and seeing what was going on along the peaceful country lanes, and to see how Ed Thompson and his gang was situated on their new place, which they rented from Ralph Carter.

They have only three rooms at present, but the owner is to add two more soon. Off hand, we believe they have a better place than last year, with some 220 acres in cultivation, and 100 acres in good grass, which is going to be a big help. We believe his farm land is as good or better than the other place, and it is a good one. It sold recently, the owner from Lynn county moving on it.

Considerably land is being prepared for another crop, but we saw some cotton and much corn still in the fields. One thing to the good is that most farmers have a better coverage on their land than for years, and there is a possibility that there will be less blowing this spring than for years, provided the land is handled right until sandstorm time is over.

One of the saddest things about most rural homes is the lack of trees about the place, and they are so easily grown here. Trees keep a place looking more homey, and from looking so utterly lonesome. Landlords can obtain trees at reasonable prices at the local nursery, and we believe that most renters would be willing to put them out and care for them. After the first year, Chinese elms will almost care for themselves.

NAVY RECRUITERS TO BE IN LUBBOCK

Young men between the ages of 17 and 31, if you are interested in learning a trade and at the same time serving your country in a clean honorable position that pays a good salary and offers you a future which is secure, you will have an opportunity to submit your application on Friday and Saturday, January 24th and 25th. The Navy Recruiting Station in Abilene has arranged for recruiters to accept applications at the Post Office in Lubbock on these days.

Mr. and Mrs. Earl Alexander of Plainview attended business here Monday and visited their daughter, Mrs. Jimmie German and Mr. German.

Little Miss Joan Cave of Seagraves spent last week here as the guest of Miss Patsy Carter.

KIDNEY STAGNATION IS WORSE THAN CONSTIPATION!

Because We Treat Constipation at the Onset, While We Neglect Our Kidneys Indefinitely

No other organ in your body is of more importance than your kidneys. For in your kidneys there are nine million tubes which must work day and night to filter the fluids and keep the system free from wastes, acids, poisons which, if permitted to remain, may cause serious kidney and bladder troubles.

It is no wonder then that Nature often calls for help to clean out the kidneys. So if you are troubled with Getting-Up-Nights, Leg Pains, Backache, Nervous Headache, Dizziness or Loss of Energy, due to functional kidney disorders, try KIDANS, the famous kidney remedy, which aids Nature to flush out the kidneys, to filter all wastes, to prevent kidney stagnation.

KIDANS is Safe and Reliable. Thousands report entire satisfaction. Taken according to directions, KIDANS will give splendid results. Try KIDANS, Buy it at our Special Price Offer on two boxes. Use one box. If not satisfied, return unopened box and GET YOUR MONEY BACK.

BROWNFIELD FRIDAY — SATURDAY TEXAS

Farmers, Ranchmen Own Land Bank

HOUSTON, Jan. 20—For the second time since its organization in 1917, Texas' largest bank, The Federal Land Bank of Houston, is owned entirely by the farmers and ranchmen of Texas. According to advice received from Sterling C. Evans, President of the bank, all Government-owned stock has been retired and all of the capital stock of this cooperative credit institution is in the hands of those who use its facilities.

Originally capitalized by Congress, The Federal Land Bank of Houston was established in 1917 to provide farmers and ranchers in Texas with a source of long-term, amortized, low-cost farm mortgage loans made through national farm loan associations. Wise management of the cooperative credit system coupled with members' favorable repayment record made it possible to retire the capital stock invested in The Federal Land Bank of Houston by the Federal Treasury, it was explained.

This marks the second time that national farm loan associations have owned all of the capital stock of The Federal Land Bank of Houston. The first time was in 1923. To enable the bank to meet emergency refinancing demands in 1932, the capital stock of the bank was increased by treasury subscriptions.

A growing appreciation on the part of farmers of the advantages offered by Land Bank loans is indicated by the fact that the volume of Land Bank loans closed increased nearly two and a half million dollars in 1940 over 1939, and the volume of Commissioner loans increased almost two million dollars. At the end of December, there were outstanding \$189,289,645 in Land Bank loans and \$45,095,902 in Commissioner loans, or a total of \$234,385,547 in land mortgage loans to Texas farmers and ranchers.

Continental Allots Big Share Of Ads To Weeklies

PONCA CITY, Okla., Jan 20—Continental Oil Company in 1941 is again allocating to newspapers a major portion of its yearly advertising budget, it was announced at the company's general offices here today.

Although Continental uses almost every kind of advertising medium, the company has for several years spent the greater part of its advertising dollar with newspapers. More than 1,300 newspapers throughout the United States will share in this year's expenditures, it was stated, and the advertising is expected to reach more than 35,000,000 readers. Small town newspapers will again share in the company's plan as extensively as metropolitan newspapers.

For the past several years the company's advertising campaign has been conducted primarily to assist the local distributor of Conoco products. The 1941 advertisements will continue to feature the quality products and outstanding service of the company's local "mileage merchant."

LAMESA IN LEAGUE

Lamesa will definitely be in the Texas-New Mexico baseball league again this year, and Hack Miller, Lubbock Hubber catcher last year, may be the player-manager. Some talk of dropping the franchise was heard there, owing to lack of support and finance.

THEY'RE NOT SHELLED

"Waitress, what's wrong with these eggs?"
"I don't know, I only laid the table."

NOTHING TO NOBODY

An illiterate person, who always volunteered to "go around with the hat," but was suspected of spurring his own pocket, overhearing once a hint to that effect, replied, "Other gentlemen puts down what they think proper, and so do I. Charity's a private concern, and what I give is nothing to nobody."

THE SIGN OF THE 'POSSUM

"Got your Christmas turkey yet, Uncle Mose?"

"I knows whar deys one ter be got," replied the old man, "but I've gwine out ter try an' git a 'possum fust. Ef de good Lawd He send dat 'possum my way, I'll know dat it ain't right fer me ter hab turkey."

It seems that Hitler is in hot water. Not one move that he has made of late has helped his cause in anyway. Italy has proven herself to be a liability. Japan can't care for her own self. He hasn't been able to invade England and his sea raiders have lost their rabbits foot. Spain refused to join him in the war, and France is getting very contrary. Cold and hunger are beating him in the face and the countries he has conquered are giving him plenty of trouble. British bombers are wrecking his ammunition dumps and oil storage tanks, his factories and his railroads, his sea ports and his airbases. Mr. Hitler—the handwriting is on the wall—your head will soon be in the basket, along with the heads of many of your criminal associates.—Jayton Chronicle.

Mrs. W. L. Bandy spent the past week end with her daughter, Mrs. E. L. Flippin, and Mr. Flippin in Breckenridge.

Mr. and Mrs. Jack Tiernan and her parents, Mr. and Mrs. Briscoe were Lubbock visitors Saturday evening.

G. S. Webber was a business visitor in Lamesa Monday. He was accompanied by Denzil Jeffries.

Mrs. Rex Miller of Denver City visited her sister, Miss Viola Brown and her aunt, Mrs. Ruth Moore the past week end.

School Children Urged To Stay Off Lawns

Residents near the school are complaining that the school children are making paths across their lawns and in some cases damaging shrubbery and flowers. The Herald has been asked to urge the children to keep to the sidewalks, and to stay off of lawns. Parents, should instill in children, the importance of not trespassing.

"MEANEST MAN" STRIKES AGAIN

HOUSTON, Jan 14—A candidate for the title of "the meanest man" broke into the room of E. E. Jordan, 68, early today and stole his artificial leg.

He will have to use crutches until he gets a new leg, Jordan said.

RETURNED PRESENT

"Well, Willie, your sister has given herself to me for a Christmas present. What do you think of that?"
"That's what she done for Mr. Bunker last year, an' he give her back 'fore Easter. I bet you'll do the same."

Mr. and Mrs. Peté Crump were Seagraves and Denver City visitors Sunday.

Mr. and Mrs. J. M. Telford and son, Mon, visited her mother in Adamsville Sunday.

Mr. and Mrs. Harold Denton are the parents of a 7-pound son, born Thursday, January 16 at Treadaway-Daniell Hospital.

Spurgeon King spent the past week end with his parents in Hamlin.

Mr. and Mrs. John King of Lamesa visited their son, Jay King, and Mrs. King Sunday.

Giles Proposes Time Extension On School Land

AUSTIN, Jan. 20—Stating that there is no investment on which School Funds could get a higher return, Bascom Giles, Commissioner of the General Land Office Saturday recommended to Governor W. Lee O'Daniel and members of the legislature that the time for payment of principal on all School Land sales and contracts which are due or will become due before November 1, 1951, should be extended to that date.

The extension would give the state the interest on \$12,410,939 principal on 17,904 accounts on purchases before 1911 for several more years. "Such an extension is good business for the state and its school fund," Commissioner Giles said, "and would also be of material assistance to many of the State's purchasers whose contracts will become due during this period. We are now in the midst of a National emergency which will make it difficult for landowners to meet their principal payments, and the School Fund could not find a better source of revenue from its assets than interest on the sale of its lands," Commissioner Giles added.

The Commissioner made his recommendation as a result of numerous land holders' asking for the extension and their assurance that they would avail themselves of it.
