Your Home Owned and Home Managed County Paper — Where Farming, Ranching and Oil Fields Bring Prosperity to Terry County People

VOLUME THIRTY-SIX

BROWNFIELD, TERRY COUNTY, TEXAS, FRIDAY, JULY 11, 1941

NUMBER 49

Aluminum To Be Collected From Farms

College Station, July, 7 —An appeal to rural people to contribute aluminum, in a drive announced recently by the Office of Civilian Defense, has been made by Director H. H. Williamson of the Texas Extension Service. Gov. W. Lee O'Daniel has called upon county judges to assume leadership of the campaign.

County Extension agents have been asked to assist with this work as it relates to rural areas. Gathering of aluminum is to begin during the week of July 21, and according to the plan, local committee of 4-H club members, home demonstration clubs, land use planning committees and other groups will call on farm homes in the community to collect the aluminum scrap.

Anything which is made of aluminum will do. Among the items suggested for donation are pots and pans, radio parts, toys, shakers, screening, old washing machine parts, picture frames, book ends, ice trays, measuring cups, camera equipment, kettles and double boilers, bottle and jars, refrigerator plates and electric appliances of all sorts.

Mothers Proud Of Sons Accomplishment

Recently two mothers of Terry county came in to tell us of the accomplishments of their sons. The first was Mrs. Dewey Murphy who has recently been out to California to visit her son, who is making a whale of a good gunner in the coast artillery. She showed us a picture of Dewey Jr., sighting one of the big field pieces, kinder camouflaged in the brush.

Then there is Tom Gracey, son of Mr. and Mrs. J. E. Gracey of the Needmore section, who is in the Marines. Tom is studying hard so that he can get in the air corps, and he is now eligible as he has had more than a year college work. Mrs. Gracey stated that his officers were giving him every encouragement.

Ross Motor Co. Open With New Cars

Ross Motor Co., is now open to the public at their place on east Main, formerly occupied by Teague-Bailey Chevrolet Co. Their opening announcement was featured in the Herald of last issue, and Mr. Ross tells us that he now has some new Pontiac cars in their show room, and is ready to demonstrate them.

A good supply of parts will be maintained at all times so there will be no need to wait when you have an accident, which is seldom with a new Pontiac. Heading the repair department, which is fully equipped, is T. S. Irwin, one of the best mechanics in the section, who fully understands and knows how to repair your car.

Mr. and Mrs. Earl McCutcheon and Misses Ruth Donathan and La Veta McQuarry were in Seagraves the Fourth.

Stevenson Has Come Up The Hard Way

No matter how they disagree in other political matters, nearly all Texan will join in enthusiastic cheers for and because of the man who is about to become governor.

As you know, he is Coke R. Stevenson of Junction, Kimble county. As lieutenant-governor, Mr. Stevenson's promotion will be automatic when Gov. O'Daniel become United States Senator.

It is highly appropriate that he should become governor because his position as lieutenant-governor undoubtedly has had a good deal to do with bringing about the changes soon to take place. Without question, many Texans who voted for O'Daniel for the Senate actually were voting for Stevenson for governor.

To most Texans, we believe, Mr. Stevenson will appear as just about the ideal man for the governorship at this time. There won't be anything fancy about this man from the cattle ranges and the wide open spaces. There will be nothing spectacular about him. He won't be squalling over the radio with every change of the moon that those who dare to disagree with him are criminal.

On the contrary, Mr. Stevenson will go into the governor's office of the Abraham Lincoln type who has achieved success, honor and distinction the "hard way".

He will take his seat as governor as the only man who ever has served two consecutive terms as speaker of the Texas House of Representatives, and who has presided with marked satisfaction and distinction as lieutenant-governor during two legislative sessions which have been the longest and among the most tumultuous in the history of Texas.

He has proved that he knows how to get along with the legislators — and most Texans will agree that a little harmony between the Legislature and the governor's office would not be hurtful to Texas at this time. He has proved in private and in public life that he appreciates the value of a dollar—which is another urgent need of Texas now.

A man like Coke Stevenson as governor encourages real hope of economy in government when and if he is given the opportunity to bring the powers of his office to the support of those who also favor economy. It is too late, of course, for him to undo the past and very recent extravagances of others.

In the aggregate, most of the people of Texas are expecting a great deal of Governor Stevenson. Perhaps they are expecting too much of mortal. Certainly they have placed him in a position—flattering though it may be—which is not to be envied. It is a responsibility and a confidence which must be nothing short of terrifying to this plain man who traces his origin to the log-cabin home of hardy pioneers in the "cow country" of West Texas.

Undoubtedly, it is a fearful responsibility. But with Divine guidance and with the aid that he must have and that he has every right to expect from his fellow citizens of Texas, Coke Stevenson impressed us as being the sort of man and the sort of governor who can shoulder and carry new burdens.—Lubbock Avalanche

Crops In Area Making Fine Progress

The several hot days of last week brought to the fore the crops of this area, with no hail or washing rains reported that done any great damage. Some damaging winds ahead of clouds made it hard on some of the sandier soils however.

The first drive Sunday was out the Tokio road to that place, north to the old Plains road, thence east to the road north to Johnson. This road was rather muddy, so we went back to the highway. While some of the cotton is rather late, all of it was looking good and make rapid growth with the advent of hotter weather.

The orchards appeared to be well loaded with fruit, and we saw some vegetable gardens that would be a credit to east Texas. Lots of peas and beans that will soon be in the bearing stage. We figure these crops are mostly on retired acreage. The pastures everywhere are as flush as a meadow, and stock of all kinds are fat.

Yes, sir, Bo, it looks mighty good to us.

Company D Bulletin Board

The Company is looking forward with pleasure to the Barbecue which will be given them in the near future. The event is to be sponsored by the American Legion, Board of Development, Jaycees and other organizations of the community.

Gene Hurt, who is stationed at Ft. Bliss, reports that the training received by George Cartwright in the Texas Defense Guard has helped George considerably in getting the bank of things in the regular army. Cartwright was the first member of Company D to be inducted into the service and the Company is very interested in his future in the army.

Terry County Gains 203 In Scholastics

While a number of the south Plains counties, not to mention a lot of them under the cap, were losing scholastics this year, Terry county will actually show an increase over 1940 of 203 pupils within the school age. In other words there were a total of 3302 this year, against 3199 last year.

This amount is what was actually enumerated in May, and includes 53 in county line districts that may be schooled in other counties. However, there may be about as many in some other counties that may be schooled in Terry county. Listed according to districts as follows:

County Line	53
Tokio	127
Meadow	730
Brownfield	1826
Wellman	399
Union	168
Total	3302

Mr. and Mrs. R. L. Bandy and Tommy and Mr. and Mrs. Floyd Ledbetter of Levelland spent the Fourth in Colorado.

Near Two & Quarter Million On Deposit

This week, we are presenting to the readers of the Herald the mighty fine seasonal statements of the First National Bank and the Brownfield State Bank. These banks are paying for these ads to run in the Herald, primarily to let their many customers know about their bank. Secondly, it is the law that they must be published.

Of course, being midsummer with no crops moving to speak of, the statements are off somewhat from the March 31 statements, but show a real good statement considering the time of year, and much ahead of the statements of a year ago.

Resources, 1941	\$2,421,849.84
Resources, 1940	1,940,998.36
Gain	480,851.48
Loans, 1941	1,039,792.73
Loans, 1940	714,199.69
Gain	325,593.04
Cash & Avail. 1941	1,348,691.85
For 1940	1,192,285.67
Gain	156,406.18

Installation Affair Has Big Turnout

Visitors from Amarillo, Plainview and other places and practically the entire membership of the local Junior Chamber of Commerce was present for the Installation of Officers of that organization Wednesday night. The affair was held in the Legion Hall.

Roy Parnell acted as Master of Ceremonies for a short but interesting program. After an introduction of visitors and local dignitaries, Thomas Wingate, Amarillo, with some brief but appropriate remarks, installed the officers of the local Jaycees for the coming year. Ray Christopher, retiring president, was presented a beautiful piece of luggage by the organization. Music for this part of the affair was rendered by the High School Orchestra under the direction of Mr. Horne.

Rural Equalization Board Has First Meeting

A meeting of the rural equalization board of the Brownfield Consolidated High School Building on the night of July 3rd. Bruce White, J. W. Hogue, E. C. Willis, W. E. Johnson, Frosty Ellington, Jim Langford, C. W. Waters, and Hosea Key were the members present.

The next meeting of this group will be held in the Brownfield High School Building at 9:00 A. M. on Saturday, July 19th, at which time actual work will be begun on the equalization of rural land in this school district.

Remodeling Of West Ward Postponed Until Summer '42

Bids were received by the Board of Education of the Brownfield Consolidated Independent School District for the remodeling of the West Ward building on the afternoon of June 30th. No contract was let for the reason that no contractor could guarantee completion of the job in less than 80 working days which would delay the opening of school until October.

Plans and specifications will soon be complete for the new primary building which will be erected on the 10 acre plot recently purchased from Arthur Sawyer which is located two blocks north and one east of the present school campus. The bus barn will also be located on this recently acquired land. The N. Y. A. shop located in the Industrial Arts Shop on the Brownfield school campus it at work repairing and refinishing the desks for the science department.

W P A Rolls Out More Than Half In This Area

WPA project employment will be reduced from 2,666 to 1,165 workers in the 24 counties comprising the Lubbock WPA district, it was announced by District Manager J. O. Jones.

The sharp curtailment in WPA employment is in line with national retrenchment, State Work Projects Administrator, H. P. Drought advised district managers in announcing the statewide employment cut.

WPA employment is being reduced nationally to 1,000,000 workers and in Texas from 73,310 to 36,500 workers. WPA certified national defense projects will be continued at full strength, necessitating greater reductions on other types of WPA projects, Jones was advised.

Because the reduced WPA employment makes it impossible to employ workers in localities where projects are scattered and the cost of supervision is relatively high work will be concentrated in areas where the relief load is the heaviest. It may be necessary to discontinue WPA activities, at least temporarily in certain counties in order to reduce supervisory costs, Drought told district managers.

SCHOOL TRANSFERS MUST BE MADE IN JULY

County Supt. Lee Fulton and his wife are vacationing in New Mexico, and he has not authorized us to say this, but knowing it is the law of the land, we are merely whispering the fact that if you wish to send your children to another school, the transfers must be made before August 1.

Otherwise, if you send your child or children to a higher school, he will be subject to a tuition unless this money is transferred to his account. Better tend to this matter next time you are in town.

JOHNSON COMMUNITY DINNER

The next in our series of Community dinners is to be held in the Johnson Community July 29. Mrs. Joyce, chairman advises us that their committee has been working on this affair for several days, and has reservations for more than 75 farmers. We would like to see the business men of Brownfield start making plans now to be present at that dinner.

Financial Policy Of School District Set

At a recent meeting of the school board of the Brownfield Consolidated Independent School District, Lanis Gross, an accountant who offices with the W. T. McKinney Insurance Company in the Brownfield State Bank Building was selected to audit the tax rolls of the Brownfield, Gomez, Pleasant Valley, Challas, Harmony, Johnson, Harris and Happy school districts for the past two years. This audit is in no way a reflection upon the people involved in the financial affairs of these districts but will be made in an effort to guide financial policy in the future.

An effort is being made by the school officials of the new consolidated district to establish a sound financial policy which will enable every tax-payer to know the financial condition of his school at any time. Striving in that direction, the board has established the policy of an annual audit. Mr. Lanis Gross, the accountant mentioned above, has been selected to audit the books of the Brownfield Consolidated Independent School District again on July 1, 1942, at which time the audit will be published.

Mr. Gross is a new business man in Brownfield in the accounting business and his business is growing rapidly. He comes highly recommended by the Business Administration Department at Texas Technological College from which he is a graduate. The audit for 1942 will include all school funds such as the local maintenance, available, building, activity, year-book typing, class, locker, and other funds common to schools in this area.

Mr. Paul Peacock, who will serve as part-time teacher and business manager will be in charge of bookkeeping on activity accounts of the school, and Mr. E. G. Akers, tax assessor and collector for the school district will be in charge of collecting and depositing all tax funds. Both men will be bonded by security bonding companies.

Terry County Cooperating In Home Defense

Governor O'Daniel has appointed Judge Lincoln to act as chairman of the drive to collect old aluminum in Terry county. It is estimated that out of the entire United States there can be collected enough old aluminum free for government uses sufficient for the building of 2000 planes.

All civic clubs and other organizations, including the Extension service and Boy Scouts are cooperating 100 per cent in this drive. According to Judge Lincoln he has worked out plans for the collecting of old aluminum in Brownfield and Meadow with the help of the 3 Scout Patrols, in Brownfield and the Troop in Meadow. Sometime during July 23 and 24th of July a Boy Scout will call on every house in town making his collections. You are urged to have any old pots or pans ready to be turned over to him.

Through the cooperation of the Home Demonstration agent and the various Home Demonstration clubs in the rural communities each home will be called on. Every individual is urged to cooperate in this campaign. The entire proceeds are to be used in Civilian Home Defense.

SACRED HARP SINGERS MET AT RALLS

A notice of the meeting of Sacred Hary singers should have appeared in these columns last week but our notebook was mislaid and we got out a day early toboot, and we missed it.

The singing was held Saturday and Sunday, July 5-6, at Ralls, Texas. Ed Ward, city, is the president and W. P. Pylon, secretary.

Mr. and Mrs. James Harley Dallas went through the Caverns Sunday.

Lawrence Woodard Killed Friday Night

The life of Lawrence Woodard, local youth was snuffed out here Friday night ardund ten-thirty, when a nautomobile driven by Mrs. C. A. Dempsey, hit the motorcycle in which Woodard and Miss Jo Oliver of Abilene were riding, returning from Lubbock. Miss Oliver had a leg broken and was otherwise badly bruised. She is recovering in the local hospital. Mrs. Dempsey was unhurt.

The fatal accident occurred just north of the city limits, where the Levelland road turns off the Lubbock road. Mrs. Dempsey was going to the oil field at Sundown after her husband, and turned from the left side of the Lubbock road into the Levelland highway, and met the motorcycle headon. Woodard, pinned under his motorcycle was said by local officers to have been dragged 75 feet. He was pronounced dead when the hospital was reached.

Lawrence was a fine young man, having worked for the past several years for grocery firms here, and was at the time of his death working for his brother-in-law, Joe Chisolm at the hatchery. Everyone who knew him, liked his courteous and straight-forward manner, and many regrets were expressed at his untimely passing. Miss Oliver is reported to be doing as well as could be expected.

Funeral services were held Sunday afternoon at the Wellman high school auditorium, where he attended school, and where his parents reside. Elder Roy Stephens of Roaring Springs, officiated. His body was laid to rest in the Seagraves cemetery, with the Brownfield Funeral Home in charge.

Proposed New Road To The Oil Fields

Since there will be about \$50, 000 left from the bond issue voted last winter to build a highway across the county from north to southeast, the question has arisen what will we do with the balance of the \$290,000.00? Shall we stop with the present contracts, or build some more roads? And if we build them, will it be a few miles here and a few miles yonder, or use it to build a real road where most needed.

This is a question that has come up for discussion by our commissioners court. A plan that has been discussed is to start in four miles west of Gomez on the road that goes 'via Johnson', and on north through the Pool section to Sundown, in the heart of the tri-county, oil fields of Hockley, Cochran and Terry counties.

At that point, it is hoped that a road can be built on to Morton, county seat of Cochran. It would connect at Sundown with a paved road to Levelland, county seat of Hockley county. No one seems to consider this a feasible project unless the state will designate and agree to maintain the road when completed.

Work on the Lamesa end of 137 is progressing nicely as the Moor Construction Co. now has many men and much machinery on the ground to 'put up' the grade and drain it, preparatory to a caliche base, and the final hot topping.

Seems That Trouble Never Comes Singly

Many will remember our nephew, Neal Stricklin, who died of heart failure here June 16th, and whose body we carried back to Tennessee for burial. If this was not shock enough for his aging mother, add to it this trouble:

Sunday June the 29th, his next to eldest sister's little six year old son Joe Jacobs, was badly burned with gasoline, and died in a Memphis hospital, Monday following. Neal's eldest sister, Mrs. Willie Maxwell, died of glandular trouble at the same hospital last Thursday.

Thus three members of the immediate family died within a period of eighteen days.

Ida May May is the guest of Linda Beth Stokes in Littlefield, this week.

New York : Chicago : Detroit : Atlanta : Phila.

Now folks, we have done four rather long editorials, something that has not come from these fertile brains in several weeks. We hope at least two of our readers read them. The first two calling us that they read them, will get a coke apiece, and the next eight, if that many will get a brand new pencil.

Well, most of the people everywhere were evidently somewhere the Fourth of July. They weren't in Coahoma, Big Spring, Lamesa or Tahoka. There were more people on the streets of Brownfield after our return home the Fourth just after dark than in any of the places mentioned. But, perhaps it was later and they, like we, had just returned from somewhere else. We have an idea, however that a lot of them in towns mentioned, were in cities, like Stamford, where there were some thrills. Many from here took in the affair at Denver City.

For many years, our motto has been, "flowers for the living". So, we held a large select spray back for Charley Guy, of the Lubbock Avalanche-Journal, while he played with death in a Lubbock hospital. We could not hear much from him, and really did not know for sure whether they were to be taken to his office or to the funeral. But as he escaped the cemetery gates, we now hand them to him at his office or convalescing room, (getting well room.) Charles is a swell guy, and a very interesting writer. We admit that we read his column pretty close in order, partly, to keep him straight. Lately, however, he has been a very good Democrat, and anti-Hitler. So we have had few occasions to discip-

According to the State Observer, the State Legislature adjourned the Glorious Fourth after 171 days of wrangling, with schoolboy frivolity, bantering and speechmaking, near fist fights, and frequent trips to the back room, supposedly to get Cocolas, but always coming out with renewed pep that cokes could hardly produce; tearing each others collars, ties and shirts off, are just some of the pranks reported. But we can't feature Marshall and Hop engaging in anything so undignified. It was the fellows, we imagine, from the deep woods of east Texas. We have a sneaking idea that the boys were secretly celebrating the departure of Papp and his Billyites to Washington. Anyway, even if they were there a long time, you'll have to admit they accomplished more than the regular session two years ago. Yes, you'll feel it when you pay your taxes, perhaps, but Mister, didn't you vote for the Social Security constitutional amendment? If so, now show the world that you can take it.

Mr. and Mrs. Cecil Burnett and Mrs. A. J. Burnett of Monahans spent the Fourth in Brownfield with Mr. and Mrs. John Burnett and Mr. and Mrs. James Parker Davis.

Curtiss Bass, Bill Broun and James Youngblood were among those local boys in the 112th Cavalry division at El Paso who were home for the week end.

line him. We really learn something, sometimes reading his column, and are truly glad that he is soon to be his old self again, 250 pounds and all. Hope he liked his bouquet.

The people of Ropesville seem to have made up their minds, according to the last issue of the Ropes Plainsman to live to themselves and die to themselves. In fact, they are really and truly isolationists, and we look for Wheeler and Lindburgh both to move to Ropes. The burden of their ads was to "keep Hockley county money in Hockley county". Of course they don't want any money from Terry, Lynn of Lubbock, counties all of which corner with Hockley near Ropes. We don't suppose the merchants of Ropes want to sell any of the outsiders anything or their cafes to feed them. Of course this will not affect Sundown, Anton or Leveland, as they are in Hockley. Personally, knowing many of the citizens of Ropes, we do not believe this is really their attitude. We have a faint idea that it was concocted by the fertile brain of Editor Morris to get some ads out of the merchants of Ropes. We don't believe the merchants of that town are afraid of any competition on earth.

SANTA FE CARLOADINGS

The Santa Fe railway system carloading for the week ending July 5, 1941, were 26,054 compared with 24,423 for the same week in 1940. Received from connections were 7,851 compared with 5,597 for the same week in 1940. The total cars moved were 33,905 compared with 30,020 for the same week in 1940. The Santa Fe handled a total of 35,238 cars during the preceding week of this year.

THE WHOLE COMPANY TO BE THERE

The colonel's wife sent the following note to Captain Brown: "Colonel and Mrs. White request the pleasure of Captain Brown's company to dinner on the 20th. Captain Brown's reply gave her quite a shock. It read: "With the exception of two sick men, Captain Brown's company have very great pleasure in accepting your kind invitation."—Santa Fe Magazine.

Mr. and Mrs. J. E. Spears sr., had as their holiday guests, their son Vance H. Spears of Albuquerque, New Mexico. He also visited his sister Mrs. Ruby Bomar and children of Lubbock, his brother Clyde Spears jr., and family. Vance says he still likes the army.

Dr. and Mrs. W. S. Brummage attended a golf tournament in Abilene on the Fourth.

"MAN AGED 94 walks to town most every day" says Oklahoma druggist. "Used ADLERIKA last 15 years." ADLERIKA contains 3 laxatives for quick bowel action, with 5 carminatives to relieve gas pains. Get ADLERIKA today.—Nelson-Primm Drug Co., Alexander Drug Co., Inc., and Palace Drug Store.

TRUCK ROLE IN AMERICAN LIFE

As solid as bedrock itself in the national business picture is the manufacture and scale of motor trucks, for a surprisingly large percentage of the national income is interdependent with dependable truck transportation in the opinion of W. E. Fish, manager of Chevrolet's commercial department.

"A thoroughly prosaic side of our business, yet one that annually merits increased attention, is the turnover of the used truck," points out "Chevrolet dealers in 1940 retailed 218,632 used trucks. Setting an average price of \$275 upon these hard working units, this represents a 'sideline' business source for the leader amounting to roughly 65 millions of dollars.

"Each year, with the greater value and longer life being built into our trucks, used truck values increase, and today, when such vast quantities of materials, supplies, and finished products must be transported from source to outlet, the old army slogan 'keep 'em rolling' applies equally well to highway transport.

"When you consider that more than 4,000,000 trucks are registered in this country; that some 48,000 American communities depend entirely upon the truck for import and export of goods; that more than four million persons are employed in truck transport-- virtually a tenth of all the workers in the country; that fully 25 per cent of all trucks are required by the farmer, you begin to grasp the scope of the truck's role in American life today.

INFANTILE PARALYSIS A SUMMER DISEASE

Austin, Texas, July 7.—Dr. Geo. W. Cox, State Health Officer, states that infantile paralysis is largely a summer disease. Although cases may occur during any time of the year, over half the total number of cases occur from July to October. Through June 30 thirty-one cases of poliomyelitis (Infantile Paralysis) have been reported to the State Health Department from city and county health officers over the state.

Direct contact between persons form the chief factor in the spread of infantile paralysis. Because of the seasonal prevalence of the disease, flies and other insects have been suspected of conveying the virus or germ. Insect transmission has not, however, been scientifically demonstrated. Although animals are subject to paralysis, they are seemingly not susceptible to the human type of this paralytic disease. Carriers are difficult to determine and this fact makes it advisable to reduce to a minimum all human contacts during any outbreaks of the disease.

Early symptoms of infantile paralysis are headache, fever, vomiting, drowsiness and irritability followed by stiffness in the neck and back. Prompt medical care, early recognition of the disease, and reporting of cases to local health authorities make possible the use of preventive and control measures.

After the acute state of the disease has passed and the patient is permitted to walk, it is most important that the affected part of the body not be fatigued. The secret of rehabilitation lies in the continuance of professional medical care and large doses of patience. Children under five years are most susceptible to the disease and all children under twelve should be watched for suspicious symptoms. Your family physician should be called immediately if infantile paralysis is indicated.

Local health authorities should be contacted immediately and patients isolated for at least twenty-one days. Children should not visit homes where the disease or symptoms of the disease exist. Promptness in diagnosis of poliomyelitis is one of the most important factors in its control measures.

BABY MOORE DOING AS WELL AS EXPECTED

The little three year old son of Mr. and Mrs. J. W. Moore of the Tokio community, is recovering as well as could be expected. He was run over in the streets by a local woman two weeks ago, while crossing a street near the school buildings.

Surgeons had some trouble getting the ends of the bones together in his thigh, so they would begin to knit. It is believed that has been adjusted, now, however. Mighty hard on so young a gentleman to be trussed up so long.

WORRY WART

There is one worry wart the American can eliminate, and that is the questionable merchant or firm that mails him a consignment of unordered merchandise with request that the merchandise either be paid for or returned.

"You are under no obligations to do either," says J. Howard Payne, postmaster at Dallas.

"It is noted," Mr. Payne explained, "that concerns and individuals in various sections of the country continue to do this. Where the material is returned to the sender, it is necessary, of course, for the addressee to pay the postage thereon, and, in such instances the addressee has been put to effort and expense, even though slight, which is unjust and usually annoying."

GAS-LESS SUNDAYS

It looks as though gas-less Sundays are coming.

To the people in our town who like to go motoring on Sunday or who use Sunday as a day to drive out to see relatives and friends, it would be a definite sacrifice at first to leave the car in the garage all day.

But many of us would welcome the opportunity to make such a sacrifice, if it was evident that by so doing we were strengthening our nation's defense.

As far as the people of this town go, gas-less Sundays would be taken in stride and there wouldn't be any complaining. But the small group in our town who happen to be in the gasoline business, running local stations, would suffer real hardship is their most prosperous business day was taken away from them.

The purpose of gas-less Sundays would be to reduce our consumption of gasoline and oil and that means taking dollars out of the pockets of the gasoline dealers. They, too, will be willing to make that sacrifice if the government finds that it is vital to do so, but we hope, if there are any other practical solutions to the oil problem, such as pipelines to the eastern coast, they will be adopted.

Any action which penalizes one group without affecting others is always distasteful to Americans. We know that one group after another, during the present emergency will be called upon to sacrifice, but we hope that none will be asked to do so unnecessarily.—The Canadian Record.

Mr. and Mrs. Bill Eubanks and daughters, Vivian and Billy, spent last week end in Brady.

Mr. and Mrs. Nelson Smith have moved into their new home.

Mrs. S. F. Rodgers and daughters, Janice and Joyce visited her father, Jim O'Connor and her sister, Mrs. Ed Hamilton, last week end. She was accompanied by Mrs. Clyde Slaughter and daughter, Laura Mae, and son, Bob. All are from Amarillo. Mrs. Hamilton accompanied the party to Carlsbad Caverns on the Fourth.

Two-thirds of the families in the United States live on less than \$1,500 per year and are dressing their families on less than \$160 per year, or \$40 per person.

Mrs. R. M. Kendrick and Mrs. Orb Stice spent Monday in Lubbock.

KIDNEY STAGNATION IS WORSE THAN CONSTIPATION!
Because We Treat Constipation at The Onset, While We Neglect Our Kidneys Indefinitely
No other organs in your body are as important as your kidneys. For more importance than your kidneys, there are none in your body. Kidneys which must work day and night to filter the fluids and keep the system free from wastes, acids, poisons which, if permitted to remain, may cause serious kidney and bladder troubles.
It is no wonder that nature sends signals for help to clean out the kidneys. So if you are troubled with Getting-Up-Nights, Leg Pains, Backache, Nervous Headache, Dizziness or Loss of Energy, due to functional kidney disorders, try KIDANS, the famous kidney remedy, which aids nature to flush out the kidneys, to filter all wastes, to prevent kidney stagnation.
KIDANS is Safe and Reliable. Thousands report entire satisfaction. Taken according to directions, KIDANS will give splendid results. Try KIDANS. Buy it at our Special Price Offer on two boxes. Use one box. If not satisfied, return unused box and GET YOUR MONEY BACK.
If your local druggist cannot supply you, send \$1.00 to The Kidans Company, Atlanta, Georgia, for two full-size boxes on a money-back guarantee.

WEST TEXAS Gas COMPANY

Akers To Play On The West Team

Plainview, July 7, —(Special) West Texas football fans will have a preview of the popular fall sport August 29, when picked teams from Class A and Class B high schools will perform as the closing event of the annual Plains Coaching School which opens here August 25.

From towns over a wide West Texas territory, football stars who are winding up their high school careers are being invited to participate in the All-Star classic which will bring the school to a fitting culmination.

Among the athletes who already accepted an invitation to perform here is M. J. Akers of Brownfield, who is listed as a tackle on the West squad.

The group of high school stars will be divided into two teams, the East and the West. The East team will be coached by Marty Karow, coach of the mighty A and M College backfield while the West will be tutored by Del Morgan, new Texas Tech grid mentor. These two outstanding coaches will conduct the football school for approximately 100 high school athletic directors who are expected to attend.

In addition to playing in the game Friday night, August 29, the boys are to demonstrate during the week various plays and formations that Karow and Morgan will present at the school.

Mr. and Mrs. Doyle Shillingburg are vacationing at Aspen, Colo., Doyle is the market man at the local Piggly-Wiggly.

Mr. and Mrs. A. D. Repp and Dudley spent Saturday visiting friends in Brownfield.

Mr. and Mrs. Jake Gore and Mr. and Mrs. Ches Gore left Sunday for Montezuma, Old Mexico where they will visit an Aunt and Uncle.

Mr. and Mrs. C. G. Gore were called to Lubbock Tuesday afternoon where their daughter, Mrs. Ollie Bruton was to be operated on. She is doing nicely.

Lloyd Turner of Ft. Bliss, El Paso, visited his parents Mr. and Mrs. L. O. Turner, over the week end.

Mr. and Mrs. Elmer Cain and Dr. and Mrs. E. C. Davis, were business visitors in Dallas the first of the week.

Mr. and Mrs. L. M. Wingerd and Miss Jane Brownfield and Mr. and Mrs. J. L. Cruce spent the Fourth in Corpus Christi. Boy Tarpley of Abilene accompanied the group.

Mrs. Earl Jones and Misses Earline Jones spent the first of the week in Dalas.

Miss Maude Bailey of Lubbock visited the Bailey family last week.

Murphy Well Plugged And Abandoned

The S. T. Murphy well in northwest Terry county, has been plugged and abandoned, after several weeks effort with shot and acid trying to make a producer of it. Some think that a small producer could have been made of the well, possibly 200 or 300 barrels.

Some also think that the Texas Company or others will start other wells in the area of that well, but so far this is mere rumor. Many, however, are of the opinion that there is oil in them tar hills, somewhere— a whole pool of it.

And while we are at it—we might say that very few people are aware that the oil well six miles southwest of Tokio in Yoakum county, is a small producer. Some two trucks of oil is taken from it daily and carted to the Bennett field where there is a pipeline.

FOUR BOYS ATTEND CETA GLENN CAMP

Four boys, members of the Royal Ambassadors of the First Baptist church, attended a camp the first of the week at Ceta-Glenn, near Canyon.

Rev. Avery Rogers accompanied the boys. Those going were Mac Ross, Tom Adams, Kenneth Daniels and Carroll Heath.

Misses Mamie Drennen, Cora Chambers and Vivian Mosier spent the 4th with parents of Miss Drennen in Hamlin.

Bill Jo McGowan, student in the University of Texas spent the holidays with his parents, Mr. and Mrs. J. J. McGowan.

Mrs. Lee O. Allen spent two days in Lubbock last week with her sister who was in a hospital.

Among the holiday fatal casualties was a nephew of Mrs. J. D. Williamson. He lived in Calif.

Mr. and Mrs. C. T. Edwards visited his parents in Dustin, Oklahoma, during the week end.

Mr. and Mrs. Barton McPherson and Mrs. J. W. McPherson attended the rodeo in Levelland on the Fourth.

Mr. and Mrs. Ralph Bellfanz are moving to Monahans where he will be associated with the Gulf oil company.

Miss Winnie Jo Hoser of Plainview is visiting Miss Evelyn Jones and Miss Jane Brownfield this week.

Mr. and Mrs. Aggie Thornton spent the week end with her parents, Mr. and Mrs. W. A. Tittle. Thornton is being transferred to Midland some time this week.

J. R. Jones and wife of Meadow and Mr. and Mrs. J. M. Jones of Brownfield spent the 4th in Aspermont, Texas, also took in the reunion at Stamford. All report a fine time.

Senator Formby Visits Our City

Brownfield had the honor Monday of a visit from our state senator, Marshall Formby of McAdoo. Of course he carried that inevitable smile that made him a favorite for years as County Judge of Dickens county, and put him in the runoff and final election last year. Sincerity of purpose is written all over Marshall's physiognomy, which makes his friends know that there is little of the insincere politician about him.

He just dropped over to report and see what the people here and in other counties thought of the long legislative session just past. He thinks there was nothing else for them to do except raise more taxes somehow for social security, as that was a constitutional amendment adopted by the voters several years ago and side stepped by following legislatures.

He was sorry that the present legislature could not agree any better with Governor O'Daniel. But he, Senator Formby, ran on a ticket pledged against sales or transaction taxes. O'Daniel wanted a transaction tax. Senator Formby cited one instance of a personal friend who came to Austin. This fellow was an ardent O'Daniel man, and Marshall informed him that a sales tax was to be past (kinder kidding, you know.) No, no, says the O'Daniel man. But, says the senator, you was a supporter of O'Daniel, and that is what he wants. I know, says the man, but I also voted for you because you was against a sales tax. Fine logic.

Anyway, the Herald had a fine visit from Senator Formby. He's always welcome to our shanty.

Hurt Settles Down At Bliss Again

Saturday evening

Dear Folks:

I am about to decide that Ft. "Bliss" is just an abbreviation for Ft. "Blister", the heat has been terrific and I am told by old timers that it is due to get hotter. Luckily, our nights are cool and comfortable. There are several good army swimming pools and our recreational activities include frequent opportunities to swim.

James King and his brother in law, Jack Rivers, who used to live at Brownfield, paid me a visit today. We drove through much of Ft Bliss and James was quite interested in the size and layout of the Post. Noticing several fellows dressed in blue denim with a white "P" on their backs he wanted to know what outfit they belonged to. I called his attention to the man in khaki carrying a pistol and shotgun, who was following them and he immediately realized that they were prisoners. When I told him that any guard who, through negligence, allowed a prisoner to escape had to serve the prisoners term he decided that he liked to work for Uncle Sam as a postal employee and wasn't interested in becoming a soldier and having to guard prisoners.

Most of the prisoners in the Stockade at Ft. Bliss are minor offenders serving terms for being absent without leave, for drunkenness and fighting or going to sleep on their post while on duty as a guard.

One boy who was a member of the Reception Center personell is now serving thirty days for sleeping on his post. Under military law he will have to serve thirty days after his enlistment expires as time served in the guard house is lost. It might have been worse since he could have lost all his pay. The Military Police are really kept busy over pay day and a few days following. George Cartwright has been working in the Military Police Headquarters office this past week and today he told me that he had been assigned to

Recipe for SUMMER COOLNESS

Serve REFRESHING Admiration ICED COFFEE and TEA

First in Flavor!

The summer season's beverage treat is... ADMIRATION Coffee or Tea iced. A grand, refreshing flavor makes either of these drinks the unanimous choice wherever iced beverages are served. ADMIRATION Coffee is pure, richly-flavored coffee at its tastiest best—the way it is roasted brings out its cinnamon-rich flavor. ADMIRATION Tea is carefully blended from only top quality, tender tea leaves—full-flavored refreshment in every sip.

that outfit and his transfer will probably come through on Monday. He told me that he was glad to stay here in El Paso and that he believed he would like the work fine.

Horace Beck pays us a visit frequently as does Pete Collier and the Dunn boys. Beck in an ordnance company handling gun parts. He said he hadn't seen a linotype yet and was finding grease about as hard to get off his fingers as printers ink. The Turner and DuBois boys are still in the Reception Center but will probably be transferred next week as we are due to receive 1500 new men by the end of this month.

We went from Field Rations to Garrison rations on the first and the food has really been fine since the change. Yesterday the menu included 1-2 spring chicken per man, baked potatoes, peas and carrots, lettuce salad tomatoes, watermelon, chicken soup, light rolls and grape-ade. Breakfast this morning was ham and eggs, dry cereal, grape jelly, toast, coffee and milk. You folks back home need not worry about your boys being underfed. We get good food and plenty of it. Incidentally the

army has adopted a new metal food tray which is divided into sections so we don't have slumgullion or hash for every meal as we did when we ate from our mess kits. Before they were put into service everything was simply sloshed together.

A couple of soldier friends are engaged in a hot game of checkers and I am to play the winner so I'd better say adios fo rthis time.

Sincerely
Gene Hurt

Mr. and Mrs. Elmer Cain and Dr. and Mrs. E. C. Davis visited friends in Fort Worth and Dallas during the week end. Doris Cain returned with her parents.

Prentis Walker, employee of McWilliams Furniture store who was hurt some three weeks ago in an automobile accident and later developed pneumonia, was able to be moved to his home from the local hospital, Monday.

Mr. and Mrs. Vernon Brewer and Vernon Jr., visited in Benjamin the past week. Mr. Brewer has returned home and Mrs. Brewer will stay on awhile. She will also go to Gien Rose for the baths while away.

Mrs. Basil Webb and Basil Jr., came down Tuesday to bring her brother Joe Hardin who has been visiting her in Levelland.

Warren Nobles spent the Fourth on Rendoak ranch near Colorado City.

Mr. and Mrs. C. McWilliams were in Dallas last week to purchase merchandise for McWilliams Furniture store.

Misses Christine and Jerry Boles of Lubbock visited friends in Brownfield this week.

Mr. and Mrs. Jack Hammock of Sherman are here visiting their cousins, John, Joe, Henry and Richard Chisholm, and Mrs. O. L. Walton, also in the home of her uncle and aunt Mr. and Mrs. G. W. Chisholm. They planned to go through Carlsbad Caverns Wednesday. This is their first trip to Brownfield and seem to be very favorably impressed.

"Blacky" Bownds, of Ralls joined the Herald force this week as linotyper. Bownds has had experience both with the Ralls Banner and the Pampa Tribune. "Blacky" takes the place of Roger, "Red" Curry called by the draft.

Gus Clements of Ft. Bliss is here on furlough to visit his parents, Mr. and Mrs. A. Clements.

Mr. and Mrs. Parker Ward came in Tuesday from their home in Houston, Texas to visit her sister, Mrs. Johnnie Haynes and Mr. Haynes.

Joe Price went to Waco Sunday arter two men. The men are charged with forgery.

Due to War conditions, we are forced to accept a lot of our staple winter merchandise now. In order to do this we are slashing prices for quick clearance on all summer merchandise.

RAILROAD CARS AREN'T WAREHOUSES

The railroads of this country have adequate facilities for handling today's record-breaking traffic. But railroad cars cannot be used as warehouses. That is a gist of a recent talk by Robert S. Henry of the Association of American Railroads.

Mr. Henry dealt with what he termed "the greatest combined job of transportation, marketing and storage which is done anywhere in the world—the movement of the winter wheat crop into storage". west in fleets, to insure that a started their preparations. By mid-May, empty cars were moving west in fleets, to insure that a sufficient supply would be built up in advance to the harvest. On May 30, the seven roads which handle the bulk of the winter wheat had a total of 19,614 such cars lined up—4631 more than were assembled for the grain movement on the same date last year. Thousands more cars are in current use in the grain belt, and other thousands still will be sent as needed.

The difficulty lies in the fact that this year's carry-over of old grain is the largest ever recorded. Elevators in the wheat belt were filled from one-half to three-quarters of their capacity before a grain of the new crop was moved. The problem, therefore, is to find somewhere to put the new wheat. And that is not a transportation problem.

To quote Mr. Henry again "Freight cars cannot be used for storage purposes—nor for grain or any other commodity. They are too valuable and too necessary as moving vehicles — vehicles of transportation. Those familiar red-painted boxes on wheels are not storage facilities. They are the moving red corpuscles of the stream of American life and the American defense effort".

In short, the railroads are in perfect readiness to handle the gigantic new wheat crop. The railroads cannot use and cannot be expected to use their vital facilities as warehouses. Their business is transportation—not storage.

Mrs. Loren Bozeman of Saper, Oklahoma, and two children are visiting Mrs. Bozeman's sister, Mrs. Clovis Kendrick, this week.

DICTATORS ARE WELL-ARMED BANDITS

Totalitarianism is by nature parasitic and predatory. It cannot live on its own resources, but must forever consume the wealth of its neighbors. The whole technique of German commercial policy is one of exploiting the assets of others. While the Nazi state grows ever more powerful, its citizens suffer continual reductions in their living standards. All totalitarian regimes must keep their peoples warlike and poor in order to hold them in line.

This essential sterility of the Fascist system is one explanation of its aggressiveness. The totalitarians are a group of bandits who have learned no useful trade or occupation but are well armed and have no scruples about attacking their neighbors.

Germany has, under Hitler, thrown away her possibilities of peaceful trade and understanding with all the world and has no option to go forward in the campaign of aggression.

She must not, in Hitler's words, "export or die"; she must fight or die. Under these circumstances it is completely useless to await any peaceful settlement of Europe's troubles.

The Nazis are not organized for peace. They are not prepared for it. They would not know what to do with it. Hitler dare not demobilize his armies or end his war economy. He has promised future war to boys too young to participate in the present struggle.

He has written in Mein Kampf, "The human race has grown great in war. In peace it would only decay."—Amarillo Times

150 TWINS ATTEND CONVENTION

Identical, mixed, good looking and other varieties of twins swarmed upon the Baylor University campus at Waco in May for two days of Baylor's third annual Texas College Twin-vention. In all, 150 sets of doubles attended the convention.

Dan Davis of Houston, son of Mr. and Mrs. Roy Davis, former residents of Terry county, is spending the summer with Mr. and Mrs. Tom Cobb.

Mr. and Mrs. Roy Herod and Billy Mac fished at Buffalo Lake near Lubbock last Wednesday.

U. S. RESPONSIBILITY
EASTPORT, MAINE.—A man in Brooklyn, N. Y., sends me a clipping containing a few words I had said about our responsibility as a nation, to the world, and comments on it in a little rhyme about "looking out for number one, before anything has begun." He thinks we haven't "plenty to spare" and can't "send it all over there."

It does seem to me that the gentleman misses the point. If we bend every effort now to produce necessary material help for those who are doing the fighting in a cause which we believe to be right, we may keep the war from our shores. If Great Britain, China and Russia lose, sooner or later, we will have to fight.

No matter how well prepared we are, 175,000,000 people in this hemisphere will have quite a struggle; first on the economic side and eventually on the military side.

We shall be pitted against 500,000,000 people in Europe and Japan, and heaven knows how many more if Russia is not able to hold out. I don't want war, but I think that every effort we can put into production and military preparation to aid those fighting Hitler is our best guarantee against war; and our only safety, should it come.

AN OLD FRIEND

One afternoon I went over to Lubec, Maine, to see my old friend, Dr. Bennet, who is now 90 years old. He is deeply troubled by the state of the world and kept repeating: "What has happened to the goodness in the world?" I think a good many of us would like to know the answer to that question.

We went in to see Dr. Bennet's son, who is also a doctor, and told him that there would be 30 young people in this house for five weeks. I think he may have to keep an eye on them now and then, and I reminded him of some of the escapades his father had pulled many of our people through in days gone by.

In the evening we read aloud from William Shirer's "War Diary." The book is a wonderful piece of vivid writing. It is extraordinary that he was able to do his work in Berlin, feeling as he did, and not get into serious trouble.

WAR EFFECTS

We have discovered up here that war makes a considerable difference

in the lives of the Canadian people. I wanted to buy what I could in Canada and need many things since 40 people in a house require a good many more household goods than 20. As usual, most of my kitchen utensils require replenishing also. Therefore, we took a large boat and went off one morning at nine o'clock.

We proceeded up the bay under rather gray skies, which was perhaps fortunate, since all of us got a wind burn, but not the uncomfortable sunburn which we might otherwise have had. After buying all we could in St. Andrews, we went across to a beach on a little island, cooked ourselves some scrambled eggs in the old frying pan, which has gone on so many picnics up here, and went back to St. Andrews to collect our purchases and to buy some lobsters in the pound, for one can not buy them now on the island.

We intended to go on to St. Stephen to buy the things we could not get in St. Andrews, but they are on what I call double daylight saving time in Canada, which is one hour ahead of our daylight saving time. We realized that we would be too late to find shops open, so we started back to Eastport. Just to make things seem thoroughly familiar, the engine overheated on the way back and we stopped. I had visions of lying helpless in the bay for some time, but after administering some nice cold salt water, Captain Cline coaxered the engine into action again, and we finished our shopping in Eastport.

One always forgets certain things and I am sure we shall have to do more shopping. We are busy putting everything we have bought into place.

MAINE INDUSTRY PROBLEM

The sardine factories in Eastport and Lubec, Maine, are running every day in the week, for this year the fish are kind and apparently making up for their absence in the last five years. In Eastport, however, a man told me they are facing a real problem. They provide coal for this section, even for many little islands off shore. The coal is bought and paid for, but it is in Norfolk, Va., and they have not been able to obtain a ship for transportation.

OFFER OF AID

I had a call one afternoon from Officer Sennett of the Canadian Mounted Police. He offered his services in case any of our young people are lost in the woods, or anything else occurs where he can be helpful. Since he is stationed on the island for the summer, I certainly hope that no one will be lost in the woods. However, such things have happened, and it is good to know there is some one who can be called upon in case of emergencies.

underwear and socks, shaving set, toilet articles and other such things," he said, "are all a selectee needs until he is outfitted by the army."

REPORT OF CONDITION

of Brownfield State Bank of Brownfield, Texas a member of the Federal Reserve System, at the close of business on June 30, 1941, published in accordance with a call made by the Federal Reserve bank if this district pursuant to the provisions of the Federal Reserve Act.

schoolhouse July 16 with Mrs. J. J. Gunter as hostess.

RURAL TRENDS

ROGER M. KYES Director, National Farm Youth Foundation

"STORM WARNINGS"

TODAY the American farmer faces his greatest test of wisdom. In this position he may well be compared to the captain of a great ship.

The mate of almost any ship can steer it when skies are clear and the sea runs smoothly. But the captain's experience and resultant skill enables him to read storm warnings and properly direct the ship's course when storms arise.

At this moment a storm of unprecedented proportions is heading in our direction. Whether he realizes it or not, every farmer must play the role of the wise captain during the months and years that make up the immediate future. Otherwise he may find himself wrecked upon the shoals of financial disaster.

Each of us is familiar with the national defense program and the extent of its progress. Industrial machinery is being set in motion and transportation is speeding up to meet the new demand for the movement of supplies. Capital considers its future possibilities, while labor moves to protect its interests. Translated, all this action spells "upswing."

Just as there are different types of hazards facing the ship's captain, so there are different types of "upswings" in economic life. The present one is filled with dangers for the unwary because of four facts:

- 1—People are having difficulty meeting the demands of ever-increasing taxation;
2—The ability of government to borrow through the issuance of bonds is becoming increasingly difficult as a result of the fact that the government bond market is approaching the saturation point;
3—This country is committed to programs including national defense which make it necessary for public expenditures to continue; and
4—We have the greatest amount of money in circulation in the history of this country. Much of this is now hoarded but is likely to come into circulation at any moment.

Increased economic activity under these conditions breeds inflationary characteristics. These symptoms can have far-reaching effects, particularly to the farmer whose operations are inflexible, therefore not easily adjusted to changing conditions. Things can happen during the "upswing" and also when the movement comes to a sudden end.

The production of armament is a man-made movement and is therefore subject to a sudden stop with an abrupt change of policy. The farmer and his village neighbors who went through 1920 will remember the sudden termination of armament demand that took place. Accompanying inflationary action also came to a halt. Many farmers who had expanded unwisely during that "upswing" suffered disastrous losses.

Despite efforts to control them, prices will tend to rise throughout the defense program. The trouble which results comes not from the rise in prices, but from the fact that THEY RISE UNEVENLY. During such a period the farmer who has little to buy and much to sell stands the greatest chance to benefit and the least chance to lose if he carefully observes storm warnings; providing he does not overproduce toward the end of the inflationary period.

The poultry, livestock and dairy farmer who buys his feed must be careful because feed costs usually rise faster than the market price of products of each of these types of farming.

The wise farmer today will keep in close touch with changing conditions. He must avoid the temptation of unwise speculation. He must take advantage of wise investments, keeping constantly in mind that defense is an industry made by man. It was turned on like a water faucet and turned off just as easily . . . each time before the average citizen realized it had happened.

It is of vital importance that whoever shall be charged with guiding our government during the coming year must realize at least one thing: the farmer will again face trouble unless farm prices are kept on a par with other prices.

LIGHTNING KILLED 199 BIRDS
A big oak tree was a treacherous shelter during the height of a cloudburst in Austin recently. A total of 198 sparrows and one blackbird were found dead under the tree after it had been struck by lightning. The birds had sought shelter from the storm in the big tree.

Miss Wanda Hendricks, daughter of Mr. and Mrs. G. D. Hendricks, has recently left for a Business College in Lubbock. There she is taking a course in General Business.

No Overalls—Big Splash

They meant business at Tyler town, Miss., when they ordered all local men to wear cotton overalls during National Cotton Week. Those who didn't were dunked in a nearby creek. Just going over for the big splash is one of the town's leading attorneys. Chief dunkers are a local newspaperman, the chancery clerk, and county tax assessor.

TO START TRAINING NEW STATE HIGHWAY POLICE

State Police officials moved quickly today to employ and train more than 100 highway patrolmen and drivers license examiners provided for in the new departmental appropriation bill signed Wednesday by Governor O'Daniel.

"Our forces are far overtaxed by internal security investigations and the enormous increase in traffic due to defense activities", said State Police Director Homer Garrison, jr. "These new men are desperately needed, and they will be placed in training immediately after the appropriation becomes effective September 1."

Garrison set July 28 as the deadline for mailing of form applications to the department. He said examinations will be given at highway patrol district offices around the middle of August (allowing only a few weeks for investigation of successful applicants before the 7-week training school begins at Camp Mabry.

"These appointments are decided strictly upon the individual's merit," Garrison said. All applications will

SAVING MONEY With Cotton Bags

Protect your bedding with covers made from Cotton Flour, Sugar, Feed or Meal Bags. The coil springs cover protects the mattress from rust stains caused by the springs. The mattress cover helps prevent the soiling and fading of the mattress. The quilted mattress pad shields the mattress from wear and helps to keep it clean — also makes a softer, smoother bed. Pillow protectors and pillow slips can also be made of Cotton Bags. All these covers can be washed easily and your bed will always be fresh and clean.

Other Cotton Bag Sewing ideas are illustrated in a free booklet. Write to National Cotton Council, Box 18, Memphis, or Textile Bags, 100 N. LaSalle St., Chicago.

BIRD KILLS 42 INCH SNAKE

Details of the efficient manner in which road runners or chapparals go about killing snakes, was contained in a report of a game warden to the Game Department recently. The warden got in on the start of the fight and remained until the close, exactly an hour and 21 minutes later.

The roadrunner was jogging down a small path through the brush when it stopped suddenly and started circling a bunch of cord grass. The warden approached to within twenty yards of the bird remained there while the chapparal proceeded to trim a 43 inch rattlesnake down to its size and then to dispatch it. Darting in and out, the roadrunner dug viciously at the rattler time and again and each time managed to evade the fangs of the six-button reptile. After 81 minutes the rattler was lifeless. The chapparal took two more vicious stabs at it, cocked his eye at the warden and nonchalantly strolled off into the brush.

Upon examining the reptile, the warden found a hole completely through the center of its head, three lacerations on its belly and the rattler was missing both its eyes.

A total of 1,493 head were exhibited by 500 breeders at 22 spring dairy shows in Texas this year.

Mr. and Mrs. Ned Self, and Edgard visited Mrs. Self's mother at Melrose, New Mexico, the 4th.

J. W. PEELER SEES SISTER AFTER 51 YEARS

Mrs. Anne Jackson of Faulkner, Miss., is visiting her brother, J. W. Peeler, it is the first time that they have seen each other in fifty-two years. It is her first visit to Texas, and she is charmed with this section of the country.—Meadow Star.

Farm Program News

By Looe Miller, Terry County A. C. A. Sec.

Many farmers have been inquiring about the planting of dried bean, there having been an editorial in the Brownfield News last week which stated Secretary Wickard had made the statement that we need an increase of 35 percent of dried beans.

I called the State Office with reference to this comment and was advised that the secretary did make the statement but he was referring to beans not normally produced in Texas and that there would be no change in the regulations governing the planting of beans in Texas. Therefore, we advised the producers not to plant beans on soil conserving acreage to be harvested dry.

Cotton

Terry county farmers who are issued red marketing cards because of overplanting cotton acreage

C. P. BUCHANAN HAD SOME BIG PEACHES

Our friend, C. P. Buchanan of the Tokio community had been hearing of some peaches we had seen, and so brought in the last one he had on an early tree that weighed 8 ounces, and was 9 1-2 inches in circumference. It was a white peach, with just a very faint red blush. So much rain this year made them taste watery, Mr. Buck stated.

He has plenty fruit, such as peaches and plums this year, and stated that he also had a good crop of fruit last year.

allotments in 1941 will be required to pay a penalty on excess cotton they market equivalent to one-half the basic loan rate to cotton. The penalty on cotton for the year 1941-42 had been set at 3c per pound but the recent amendment to the Agricultural Adjustment Act has increased this penalty. The exact amount of the penalty cannot be determined at this time since the basic loan rate for cotton has not been set for Texas but probably will be about 7c per pound.

Peanuts

Peanuts may be planted in Terry County on general acreage if used for crushing for oil. This is a new change in the regulations in reference to peanuts, however it does not effect the marketing quota program on peanuts. Under the marketing provisions of that program peanuts produced in excess of the farm quota must be delivered to a designated agency for oil process, in order to avoid payment of the marketing penalty.

Here's Quick Easy Way To Clean False Teeth

Get Rid of Stains

Just put your false teeth or bridges with a little Kleenite—in a glass of water and away goes blackest stains, tarnish, tobacco dullness. It's amazing how quickly and safely it acts. No messy brushing, no trouble at all. Get economical Kleenite today at all druggists. Money back if not delighted.

Someone has said, "Advertising begins when the crying child advertises his wants to his mother and ends only with the epitaph on the headstone in the village cemetery".

More Mexican Wisdom:

Wit without discretion is a sword in the hands of a fool.

Lock your doors so that you may keep your neighbors honest.

What is well said is said quickly.

At the foot of the lighthouse, one finds darkness.

Beware of silent men and dogs that don't bark.

The rich man's babble passes for maxims in this world.

Your columnist remembers hearing William Jennings Bryan say, "The speaker who needs an introduction doesn't deserve it and the one who deserves an introduction doesn't need it". Bryan liked to tell about the quiet little business man who always contributed generously to the Democratic Party and so he was nominated for Mayor. There happened to be a Democratic landslide that year and he was elected. When Bryan came to town, the mayor was scheduled to introduce him and somebody wrote out a speech which "his honor" memorized but when he saw the big crowd, he forgot it and blurted out:

"I have been asked to introduce William Jennings Bryan, who is to speak to you. I have done so and he will now do so".

Byron Utech, Fort Worth Star-Telegram correspondent in Austin, was a war correspondent in Mexico, riding side by side with Pancho Villa. There is a tradition that the newspaper correspondent in the motion picture, "Viva Villa" who was such a friend of the Mexican hero, actually was based on Utech.

An old-time tramp printer was given two pieces of "copy"—an account of a wedding and an auction of a farmers' property. In the absence of the editor from the office, the typesetter partook freely of a bottle of whiskey, with the following result:

"William Smith and Lucy Jones were disposed of at public auction at my farm one mile east of a beautiful cluster of roses and two white calves before a background of farm implements too numerous to mention in the presence of about sixty guests including two milch cows, six mules and one wagon. Rev. Jackson tied the nuptial knot, with about 200 feet of hay rope and the bridal party left on one good John Deere gang plow for an extended trip with terms to suit purchasers".

COTTON CLASSING SCHOOL AT TECH COLLEGE

Inquires indicate a large attendance at the annual cotton classing school offered by the Textile Engineering department at Texas Technological College. Dates are August 4 to 16. All instruction and laboratory practice will be held in the Textile Engineering Building.

All tuition expenses of the course will be covered by an initial registration fee of \$10. Room and board is available in the Tech Dormitories at \$1 and \$1.25 per day. Farmers, gin men, cotton buyers and others interested are eligible to take the course.

Cash M. Stanley, head of the Textile Engineering Department, will be in charge of class instruction. A cotton expert from the U. S. D. A. Cotton Marketing Service, Dallas Branch, is expected to be on the teaching staff. At the close of the session anyone qualified may take the government examination for a cotton classing license.

NEW TYPE FAST BOAT ADDED TO NAVY

A new type of fast boat, capable of transporting 75-mm guns and 25,000 pound tanks, is in mass production here, according to Major E. E. Linsert of the United States Marine Corps.

Major Linsert, who brought a sample tank and gun here for tests, said the boat is the first satisfactory one developed for use in carrying infantry and artillery. The navy awarded a contract for the boats which will be used by the Marine Corps.

Mrs. Gertrude Lees of the Lamb County Leader, Littlefield, visited home folks here over the week end.

Mr. and Mrs. Wilson Collins spent the 4th in Lamesa with Wilson's parents.

NOTICE TO BIDDERS

Bids will be received by Terry County Commissioners Court until 10 A. M. on the 18th day of July at the Court House at Brownfield, Texas for the purchase of one Five Yard Cable Controlled Scraper. And notice is hereby given that warrants will be issued in the maximum sum of Twenty-four Hundred Dollars, last maturity date not later than April 15, 1944. Warrants to bear interest of 4 1/2%, payable annually.

One used Adams No. 51 Motor Grader, serial number 132 to be traded in as part payment.

Also bids will be received on one used 10-foot Grader. Notice is given that warrants will be issued in the maximum sum of \$1100.00, last maturity date not later than May 1st, 1943. Warrants to bear interest of 4 1/2%, payable annually.

One use Adams No. 12 Grader to be traded in as partial payment of the above grader.

Signed, C. L. Lincoln, County Judge, Terry County 50c

Sunshine Cottons

THE IMMORTAL LINCOLN

While musing through the "Life of Lincoln" recently, I came across an apt expression of that great man which seems to fit aptly into the picture and scheme of present day affairs. Here is Lincoln's tribute to America:

"All the armies of Europe, Asia and Africa combined, with all the treasure of the earth—our own excepted—in their military chest, with a Bonaparte for a commander, could not by force take a drink from the Ohio or make a track on the Blue Ridge in a trial of a thousand years - - - At what point, then, is the danger to be expected? I answer, if it ever reaches us, it must spring up among us. It cannot come from abroad. If destruction be our lot, we must ourselves be its author and finisher".

May National Unity be our slogan. May we so conduct our affairs as to instill into the minds of each succeeding generation the love of home and country, and the desire for personal possession and the opportunity to grant that desire.—Clarendon Leader.

Mr. and Mrs. Robert Noble accompanied by Miss Margaret Travis and Mrs. Leo Holmes attended the rodeo in Levelland, the 4th.

Galveston A Most Interesting City

As most people who have studied Texas history know, Galveston Island was a rendezvous for pirates, the most famous or rather infamous of their leaders being Jean Lafitte (hope we spelt that right) long before there were many white people in the interior of the state. It was a favorite hangout for these sea robbers to lay in wait for heavily laden vessels that plied their commerce from New Spain (Mexico) and other central American states to old Spain. The report of much gold in those days really drew many vessels across the Atlantic and the Gulf Of Mexico. These harmless and unarmed vessels were no match for the well-armed pirates, and fell easy victims to them. Their cargoes were confiscated and sold, and the vessels, if good, transferred to the pirate fleet after being armed.

This trade of pirating became very distasteful to the young Republic of the USA, and there seemed to be indications of a real war, as with the Barbary states of north Africa, but the United States seems to have made some kind of compromise with Jean when the last war with England came up in 1812, and in New Orleans, at least Lafitte seems to be a hero to this day, as he ruined England's commerce in the Gulf. This historical part is written from memory, and dates may be wrong in some instances but in substance, they seem to be correct.

While Galveston seems to be prosperous and growing at this time, they have nothing of the whirlwind outlook of Houston and Corpus Christi. It has been a resort city so long, and the Chamber of Commerce seems to have such a hold on the people, that prices are not skyrocketed the moment that week end and vacation visitors enter the city. Besides, Galveston seems to be more of a year round resort city, and the mere coming of visitors excite no one, and prices remain the same. This should be taken into consideration, when planning a visit to the seacoast of Texas. Many towns have injured themselves right here in this oil section by boosting rents when new people begin to come in rapidly. Being on an island, there are less mosquitos.

Of course one of the biggest sights is the Galveston beach, a new moon arrangement that goes almost around the entire city, leaving only an entrance to the bay. There seems to always be a cool breeze blowing in from the gulf, and with few if any mosquitos, one can sleep well. There was not a great deal of bathing except at night, as it was still rather chilly nights in May. But there is nearly a half mile of all kinds of amusement attractions along the beach near the Buccaneer and Galvez hotels. You have your choice of spending a dime for this a nickel for that, or a penny for the other, or you may smuggle down on the beach and just watch the movements and antics of others and get a great kick.

A visit along the huge wharves with its miles of cotton and other warehouses; ships from the ports of the world and the loading of them, if you can get near enough, is amusement for a landlubber. But as some of the interned ships that German and Italians tried to sabotage were under repairs, strangers were kinder kept at arms length about the wharves. But these are unusual times. Another thing that one gets a kick out of at this time is to watch the gun practice along the beach early mornings of the soldiers from Fort Crockett. They were taking shots with sizeable guns at anchor or moving targets made up like ships out several miles in the gulf. Or the anti-aircraft guns popping at a dummy airplane being towed by a real ship overhead. It made a bird like us feel that we were almost in the midst of a serious conflict. And it was serious, and those soldiers were doing their best to make each bullet count.

While in that city, we had our first trip through a real modern brewery. We had often wanted to go through one, so, our party of four approached the Galveston-Houston Brewery that makes Southern Select and Magnolia beers, either bottled, keg, or cans.

FOR BABY'S COMFORT
McGee's Baby Elixir is intended for minor upsets of the stomach and bowels that result from over-eating, improper foods, or temporary over-acidity of the stomach. A bottle of McGee's Baby Elixir costs only 35c.

Company D Barbecue Announced for 22nd

July 22nd has been definitely set as the date for the barbecue honoring Company D of the Texas Defense Guard. The Committee composed of representatives from the various civic clubs is working hard to make this one of the best affairs of this kind ever held in Brownfield.

As Yoakum county is helping sponsor our Company the Commissioners Court from that county has been asked to be present, as well as the Battalion Staff and other Officers of the 34th Battalion.

Complete plans will be announced in next weeks paper.

Mrs. Ida Bruton, worthy matron, presided at the meeting.

Women present were Mrs. Alice May Stewart of Slaton, deputy grand of District Two, Section four; Mrs. Lillian Bernard, chairman of the by-laws of the grand chapter; F. M. Ellington, Mrs. Carolyn Ellington, Dick McGinney, Mrs. Thelma Peacock, Mrs. Faye Foot, Mrs. Bruton, Mrs. Cornelia Moore, Mrs. Della Thompson, Mrs. Ione Turner, Mrs. Viola Barrett, Mrs. Lois Dial, Mrs. Mattie Lou Graves and Miss Louise Cheek.

Mr. and Mrs. R. M. Kendrick and Mr. and Mrs. Richard Kendrick spent the week end attending a Bosque county reunion at Clifton.

SEWERS AND KNITTERS NEEDED

Mrs. T. L. Treadaway, local Red Cross Chairman asks all who will to come in at any time to the headquarters in the Cowart building and sew, knit or cut out the garments even tho you have only a short time to work it will be highly appreciated. This quota of garments are not being made as fast as they should. Everyone is welcome, don't wait for a personal invitation, this is your work to do in this crisis. You can take the work home with you or do it in the sewing room as there are several machines both electric and pedal. If you have a machine you can spare the sewing room could use it or if you have an extra ironing board bring it in. They could also use some chairs. There is plenty work, come join in and help get this quota ready on time.

Miss Queenelle Sawyer is in San Antonio visiting Mr. and Mrs. Bob Beckley. A house party composed of Mr. and Mrs. Beckley, Miss Queenelle and Lt. Truet Flache, will go to Tampico, Old Mex., and on the large ranch holdings of Mr. Beckley's father twenty miles out from Tampico. They will also visit friends in Monterey. The party will be gone about two weeks.

JOAN CONLEY HONORED BY MRS. ROY BALLARD

Mrs. Roy Ballard entertained Monday afternoon with a party for Joan Conley, house guest of Mrs. J. J. McGowan, from Quannah.

The girls were taken to McKenzie park in Lubbock.

Mrs. Gertrude Lees and Vicky of Littlefield visited her parents, Mr. and Mrs. W. H. Dallas, the Fourth.

Mr. and Mrs. Hardin Joyce and daughter Jewel Mac, were in shopping Wednesday.

Mrs. W. T. Ince of Lubbock spent Monday night with her parents, Mr. and Mrs. W. A. Bynum.

"TAKE TIME OUT FOR RHYTHM" . . . and romance! That seems to be the motto of Rudy Vallee, one of the many stars currently to be seen at the Rialto Theatre in Columbia's sensational new musical hit, "Time Out For Rhythm". Others in the film are lovely Ann Miller (twinkle-toed dancer to Vallee's left); Rosemary Lane, at his right and Joan Merrill, Broadway night club sensation. Allen Jenkins, Branda and Cobina, the Three Stooges and Glen Gray and his Casa Loma Band also figure prominently in the new film.

THE METHODIST CHURCH

Until our opening the first Sunday in August we will continue to meet in the high school building. Sunday School starts at 10 and church at 11 o'clock.

The finishing of our building is speeding right along and each day the progress shows and makes us prouder of the new structure.

The Missionary Society will have an "Our Heritage" program Monday with Mrs. Downing as leader.

Young people meet at 7:30 each Sunday night and church at 8:15.

BUILD HOUSE IN ONE HOUR

Waco News-Tribune: "A team of defense housing workers built a house, complete with furniture and utilities, in an hour. The house was erected at Avion village, a defense housing project near Dallas. The contest was staged to demonstrate the value of prefabrication and the speed which is possible in defense housing construction."

SONS OF THE LEGION

Until organization is completed the Sons of the Legion will meet each Friday night 8 o'clock at the Legion hall. The Drum and Bugle Corps will be organized Friday night July 11. Legionnaires are invited to come along with their sons.

MAN HELD FOR DRUNK DRIVING

A man is in the Terry county jail on charges of drunken driving on July 4, Joe Price, sheriff said this week.

Penalty under the new state law for the offense is a fine of \$50 to \$500, a jail sentence of from 10 days to two years of both, Price said.

LOVELY SCREEN heroine, Miss Lane appears as a night club singer in Columbia's "Time Out For Rhythm", new musical romance opening Today at the Rialto Theatre with Rudy Vallee and Ann Miller.

WE WOULD RATHER DIE ON OUR FEET THAN LIVE ON OUR KNEES

President Roosevelt in a message accepting an honorary degree conferred in absentia by Oxford University at an unprecedented ceremony at Harvard University, asserted that "we and all others who believe as we do, would rather die on our feet than live on our knees".

His statement was read by Major General Edward M. Watson, the President's military aide, after Viscount Halifax, British Ambassador to the United States and chancellor of Oxford University, had conferred at a special convocation the degree of Doctor of Civil Laws on Mr. Roosevelt, who was in Washington.

President Roosevelt's statement was a reply to the traditional "reason" offered by Lord Halifax, as chancellor for the conferring of the "honoris causa," the mark of honor.

MORE AND BETTER HOLIDAYS

Holidays are one of our greatest national institutions.

The people of this country who, spend the majority of their waking hours working in offices, stores, factories and in the fields look forward to holidays for weeks ahead.

Each year, most of us look over the new calendar and are pleased if we find a lot of holidays falling on Fridays or Mondays and disappointed if they fall otherwise.

So year after year many of us grumble over the unfortunate setup of the new year's calendar, but accept it as being as uncontrollable as rain or wind or sunshine.

But when we really analyze it, there is little reason why the calendar could not be changed. With this purpose in mind, The World Calendar association, supported by well known people in most every country, has for years been working for calendar reform a reform in which holidays would fall on Monday and each month-date would fall on the same weekday every year.

Under the proposed World Calendar the first of January would always begin on a Sunday, Christmas (still celebrated on the 25th of December) would always fall on a Monday. Easter would always be on the fifteenth Sunday in the year, which would always be April 8. Thanksgiving would always be Thursday, November 28, and non-religious holidays would all be changed to Mondays.—Littlefield Leader.

Miss Christine Hamilton spent the first of the week with her mother, Mrs. Nannie Hamilton and her grandfather, Jim O'Connor, this week. Miss Hamilton is a senior in West Texas State College at Canyon. She will receive her Bachelor of Arts degree there at the end of the summer term.

Farm Program News

By Loee Miller, Terry County
A. C. A. Sec.

Agriculture's part in the national defense program was the dominant thought at the national AAA conference held in Washington, recently. Texas delegates to the national meeting pointed out on their return, according to L. A. Brock, chairman of the Terry County AAA committee.

In developing recommendations for the 1942 National Farm Program the delegates considered carefully the important part the farm program must play in the defense program by encouraging greater conservation of the soil, giving greater assistance to the small farmer, and encouraging production of ample supplies of the foods needed both in this country and in other countries; the state AAA office has reported to the local committee.

The committee chairman declared that the conference gave a practical demonstration of the unity of agriculture in its determination to do its full share in the defense of the nation.

The conference, which was attended by farmer state committee-men and AAA officials from every state in the Union, adopted a number of resolutions relating to defense, including a recommendation that farmers avoid speculative expansion and reduce debts, and build up reserves of cash and farm commodities during the present period of industrial activity. As measures to prevent inflation, the conference urged higher taxes on excess profits, incomes and luxury items and more intense efforts to sell defense bonds and stamps. It also urged that, due to shortage of farm labor in some areas priority be given to production of farm machinery and parts, and that a balance be maintained between farm and industrial prices.

The national conference proposed a change in the method of computing farm payments, which would eliminate the payment made on general crops such as oats, barley and rye, and would make funds formerly used for this purpose available for carrying out additional soil conservation work. Farmers would still receive acreage allotments on such surplus crops as wheat, cotton and tobacco and earn payments for planting within their allotments of these crops, the AAA committee-man was informed.

Strengthening of the Ever-Normal granary and marketing quota provisions of the national farm program also were recommended, and new soil-building practices were proposed, including a special practice by which low-income families may receive seeds, plants, and fertilizers for use in increasing home food production. The cost of the materials would be deducted from the payments earned by such families. Under the practice low-income families could also earn additional payments for live-at-home practices.

The recommendations of the national conference were taken from suggestions made by farmers from all over the country through their community and county committees. All recommendations are subject to the approval of the Secretary of Agriculture.

WINGO RAISING ANOTHER BIG MELON CROP

Our friend W. J. Wingo told us to put in an ad some time ago that he had melon seed for sale, but a bunch of trouble came on, and we just let it drift out of our mind. Now it's too late.

Anyway, we hope he disposed of a lot of them anyway, as a great many had to plant over from washing rains and this and that. We understand Mr. Wingo will have another big patch of several hundred acres of the juicy fruit, and that they will be ripe and ready ere long.

Bids Will Be Received On Bus-Barn

This is notice that bids will be received by the Board of Education of the Brownfield Consolidated Independent School District at the Brownfield High School Building at 8:30 P. M., July 15th, on the erection and construction of a sheet metal bus barn, 60' x 96'. Any contractor who wishes to submit a bid on this structure may get the plans from Paul Peacock at the high school building.

OLD AGE PENSION CHECKS

Old age assistance checks averaging \$11.46 each were mailed in May to 133,569 needy Texans over 65 years old. State Welfare Director J. S. Murchison said. The April payment to 128,835 recipients averaged \$14.35.

Finest Textile School At Tech College

"We have, in my opinion, the finest textile school in the United States at Lubbock. It is undermanned and under-equipped. It is the 'neglected baby'. This observation was made by Walter Dillard, vice-president and general manager of the New Braunfels Textile Mills, in a speech delivered at the second Annual Cotton Research Congress at Waco June 26. Lewis B. Thomas, instructor in textile engineering at Tech, represented the college at the meeting.

Mr. Dillard said further: "I attempted to employ one or more men from Tech and was told that all of the boys had jobs and more jobs were waiting for them so you see that other parts of the country want Texas' brains. What Texas needs is some of the other parts of the country's money or vision enough to spend some of our own."

Mr. Dillard believes that one of the basic flaws in textile mill education is that we are training operators and not training leaders. Tech is an exception, however, as operators from the school are educated also for executive positions.

Mr. Dillard pointed out that Texas has all the advantages to encourage growth of the textile mill industry. It is the world's greatest cotton growing region. It has low living costs, intelligent labor, and a mild, healthful climate. There is no state income tax. There are many deep water ports and adequate power. A new anti-strike law has just been passed.

Thomas Doss of Ft. Bliss, visited his parents, Mr. and Mrs. T. S. Doss of the Gomez community.

Mrs. J. T. Gainer has returned from a two weeks visit to her son Paul Gainer and family and other friends at Tatum, N. M.

Called For County Court Jury Service

Deputy Sheriff Mon Telford handed the following list of jurymen who are called for County Court Jury duties. This is for the August term, and called for the first Monday in that month.

George Bentley, T. A. Caudle, Arlie Larimore, H. F. Brigrance, W. T. Briscoe, S. L. Greathouse, James Heartsill, Raymond Hinkle, Cecil O'Neal, J. B. Draper, Paul Young, C. W. Avery, J. F. Daniels, Gladys Patton, B. M. Tuttle, G. R. Alexander, J. K. Griffith, M. B. Childress.

DON'T ROCK THE BOAT

Austin, Tex., July 11—The fishing and boating season is well under way. Texas has been fortunate in having a dearth of fatal accidents on lakes and streams, but the executive secretary of the Game, Fish and Oyster Commission is issuing his annual don't-for fishermen and boaters. Observance of these simple rules by operators of all crafts, whether they be rowboats and canoes or larger boats, will do much in holding down the list of drownings.

Never overload a boat, nor allow occupants of a boat to stand up in it.

Do not use a motor of too large horsepower for the size of the boat. It is also unsafe to use a small horsepower motor on a large boat because in case of a storm the boat will be unmanageable.

Every boat should be equipped with one life preserver for each person in it, fire extinguisher, lights and good oars or paddles.

Every outboard motor should be equipped with a chain or good rope because motors will frequently come loose and be lost at the bottom of the lake or stream.

Never leave a motor unattended while it is running. The motor may give a quick turn and throw you into the water.

665,595 VISIT SAN JACINTO MONUMENT

Nearly two-thirds of a million persons have visited the San Jacinto monument since it was erected, said Director Ike Moore. The final count showed 665,595 visitors—348,840 the first year and 316,755 the second year. The average daily attendance during the two years was 916.

5,265,570 TOURISTS VISIT TEXAS

At least 5,265,570 tourists visited Texas last year, and spent \$306,264,265, according to an estimate which has been released by Philip Fuller, director of the Conoco Travel Bureau, the largest free service organization for motorists in the country.

DENSITY OF TEXAS POPULATION

There are 24.3 persons to every square mile in Texas, the Census Bureau reported in a survey of the density of our population. Little Rhode Island with 713,346 persons living on its 1058 square miles still has the most dense population in the country—674.2 persons per square mile.

SANTA FE NET INCOME RISES SHARPLY

The Santa Fe's net railway operating income for May was \$2,865,723, according to a statement released by President E. J. Engel today. This is an increase of \$2,234,086 in comparison with May, 1940. Gross for the System was \$17,877,267, an increase over May, 1940 of \$4,803,794 or 36.74 per cent. Operating expenses were \$12,870,291, an increase of \$1,652,124 or 14.73 per cent over the same month in 1940.

Railway tax accruals were \$2,144,365, an increase of \$887,787 or 70.92 per cent.

And most important of all: leave your bottle at home; water and alcohol do not mix.
