## We Get Off To A Rambling Starter

The old he and wife had just about decided that our rambling days for the duration was past, until two weeks ago, her nephew E. C. Roberts, and wife of Seagraves, invited us to a seat in their fine car, which was practically new for a week end jaunt to Alpine, which is at the top of the Big Bend proper. E. C. is also agent for Sinclair, and of course could manage far all the gas and oil necessary for the trip.

The "swimmen" cooked up a lot of stuff, so if the money ran low, we would not starve. We set out from Seagraves slightly after noon last Saturday, and took a due course for Odessa, thence to Monohans and Pecos, but as we had seen these burgs, that was just a coincident to the trip, as we had to pass through them if we kept a paved road. The road from Odessa through McCamey and Ft. Stockton, we understand, is not paved all the way, and is very rough.

After passing through Pecos, one begins to see alfalfa fields that are irrigated from large wells. Much of this was being cut, especially further south around Balmorhea. There was also quite a bit of irrigated cotton along the road, one field being half knee high. At Balmorhea, there is a state park with the largest outdoor swimming pool in the world, it was stated. The pool is fed by numerous strong springs that run off like a creek after a heavy rain. Coming out from under mountains, this water is clear and pure and stays near the same temperature the year round.

After passing Balmorhea, one soon enters the mountains, which while quite barren, except for grass, catclaw, cactus and century plants, rocks, etc., are quite interesting. On this trip one passes through of Fort Davis. Jeff Davis county was named or the president of the Confederacy. The old fort was first built about 1847, and had some six regiments of soldiers at one time. It was abandoned in 1861 during the war between the states, and reoccupied in 1867. While the soldiers' quarters are mostly adobe, and tumbling to ruin, the officers homes are still in fair shape, as far as the walls are concerned. Of course the roofs and floors are about gone. We imagine the old fort will be restored in part some time.

The walls of the officers homes were well finished, being of stone and two feet thick. It must have taken about all the Irish stone cutters and plasterers in America to do the job, as there are numbers of these homes. Some had dug wells in the rear, just a few feet deep, and water still stands in them, coming from under a nearby mountain. The old square wrought iron nails were used to put together the woodwork, and and they were no mean carpenters, as the work will show where not too much weather beaten.

We failed to see the little boot-heel cemetery, but we know in reason there was one nearby, where those who died with their boots on could be buried. A fort that large without men and women in those days was out of the question. The old cottonwoods on the parade ground are now large and are used as a park by the local people as well as tourists.

A little plaque near one of the officers homes that we went into, stated that the old fort was abandoned for good in 1891, "after bandits and marauding Indians had been stamped out." Jeff Davis county ranges in altitude from 4500 feet to one peak of more than 8300 feet in height. Old Fort Davis itself is more than a mile high. This is enough hash for this week. Maybe more next week for those who perhaps have never visited this section of our grand state.

## Turner Is Promoted To First Lieutenant

Mr. and Mrs. A. W. Turner of Brownfield have received notice that their son, Sec Lt. Kay Lance Turner of Hartford, Conn., was promoted to First Lieutenant June 1. Lt. Turner will be stationed at Hill Field Air Depot in Ogden, Utah, after June 28.

## USO Drive Making Slow Progress

Terry county was assigned the sum of \$2,000 to be raised in the USO drive. To date, we have contributed a bit over one-fourth of that amount, \$580.03. What is the trouble? Too much misunderstanding; too much use of the little hammers? What is the USO composed of? The Young Men's Christian Association; the Salvation Army; the Jewish and the Catholic organizations.

Why the consolidation of efforts? To keep down duplication and added expense of the work of entertaining our men in the service. You'd be surprised at the number of knocks and excuses not to contribute. Some say the USO serves beer. That is error number one. The army canteens issue beer in some camps; the USO has no more to do with that than a one-eared mule. Some mention an unheard of amount of girls being ruined near camps, but the informant will never state that such occurred at USO entertainment centers. To our way of thinking, a lot of this loose talk is plain hokey.

Like Mark Twain when informed of his reported death, "it has been greatly exaggerated." What burns us up, is that down in the German predominant counties in south Texas, they go over the top sometimes in less than two days. Yet, we delegate to ourselves as being the most patriotic citizens on earth. Take Camp Barkley. It is beyond walking distance from Abilene. There is a small village nearby. What do you expect those boys to do? Sit around, whittle and play mumble peg at leisure times?

We are in a war up to our necks. To keep our fighters from getting homesick and losing interest, some means of entertainment other than just drilling, fighting and jawing must be provided, and we, these boys' supposed friends are expected to furnish entertainment. Some say the government ought to furnish the entertainment. Uncle Sam has his hands full persecuting the war. Besides, between us and the gatepost, we think the US government is already running to much of the business that should be run by individuals.

Mrs. E. C. Davis, Terry county Chairman of the drive has already spoken to the Lions Club, and will speak to Rotarians today. She is clearing up a lot of misunderstandings in her talks. Below we give the results of the drive to date as reported by her:

Willow Wells, no report; Tokio, \$21.18; Gomez, no report; Chahlis, \$28.55; Wellman, no report; Union, \$3.50; Harmony, \$5.10; Pleasant Valley, \$9.50; Johnson, \$10.00; Foster, \$26.89; Lahey, \$6.60; Scudday, \$19.60; Girl Scout solicitors, \$14.66; Brownfield, \$412.77. Total, \$580.03.

## Latham Stock Damaged By Water Recently

Recently water pipes burst during the night upstairs over Latham Dry Goods store, and damaged to some degree a great deal of his large stock of dry goods and ready to wear.

Mr. Latham is offering some exceptional bargains in this slightly damaged stock by several thousand circulars and an ad in the Herald this week.

Much of these goods can be washed and ironed, or cleaned and pressed, and are as good as new. Better attend this sale early.

## Two Fires Reported In City Wednesday

The Brownfield Fire Department made two runs in the city limits Wednesday.

Mr. and Mrs. Bill Allmon's home on Fifth street was damaged by a fire believed to have started in a waste basket in their kitchen. Curtains in the kitchen were destroyed and wall paper was burned from the ceiling. Food cabinets were burned slightly, and the entire room was smoked up considerably.

A grass fire at the W. B. Tudor residence was extinguished by the fire department about noon Wednesday. Damage was slight.

## Those Victory Gardens Coming On Fine

Practically made every section of the city Monday afternoon, at a snail pace in the car in order to see the Victory Gardens, and folks there are plenty of them, and they are all looking top notch. True some are much older than others. Some gardens had yellow bunch beans as well as the green variety. Some had been eating beans from their gardens some time, and we heard of some that have already begun canning from their war gardens.

Of course it has been a bit dry this year part of the time, but thanks to the city dads, we have a very cheap water rate for irrigation purposes, and the gardens were looking fresh and flourishing. Some of them were just coming up, but will begin to bear in July or early August, and plenty of city water between rains will keep them fresh and going, no matter what some "in the know" wants to tell you how they will turn up.

If we were going to hand out any plums to any section of the city, it would go to north Brownfield, better known as the Santa Fe addition. They have very fertile land in that section, and there appears to be a garden at almost every house, and they are clean growing good.

This, however, is not saying there are not pretty gardens in other sections of town, but there are more of them, and especially more in the bearing age.

## Sheriff Price Has Fine Stock Liquors

Recently while at the courthouse Sheriff Joe Price took Mrs. Eldora White and this editor to jail, but just for an inspection. There was not a soul up there "except us and the other chickens." In fact the jail was empty with the exception of—

Some 200 cases of different brands of beer and wines, perhaps, and perhaps from 25 to 30 cases of good, bad and indifferent whiskey. In other words, the sheriff has a whale of a lot of evidence, enough to convince even a "wet" jury.

While Joe had no lodgers at that time, he had the jail nice and clean for the reception of any possible customers. The sheriff's department has just had another run-in with the Jehovah Witnesses, but didn't seem to amount to anything.

Barbara Stanwyck and Joel McCrea, the stars of "Union Pacific," are seen together in another excellent picture, "The Great Man's Lady," coming to the Rialto Sunday.

In a frontier setting, Miss Stanwyck is seen as the sweetheart of McCrea, and as the beautiful queen of the dance halls by whom Brian Donlevy is fascinated.

A story of the West when it was "wild," "The Great Man's Lady" offers Stanwyck and McCrea an opportunity to do some of their greatest acting in a setting best suited to them.

Among the recent renewals that have our thanks are, J. A. Dennis, Meadow; Mrs. T. A. Proctor, Tokio; Mrs. T. W. Bruton, city; L. E. McClish, city, for himself and his daughter, Mrs. Robt. Little of Wellman; R. C. Patton, Tokio; W. F. Green, city; R. E. Shugart, city; Mrs. A. O. Smith, Rt. 3, city.

## Rubber, Junk Drives Going Over Fine

We took a drive over the city late Monday afternoon for two reasons. First to see how the rubber, metal drive was going over the first day. If the first day was any yard stick to what can be expected for the full six days of the metal drive, and fourteen days for the rubber drive, there is going to be some whale of piles of tires, tubes, old hot water bottles, and various and sundry kinds of junk metal piled up here when the drive is over. Our second reason was to see how the Victory Gardens were coming along.

There is some attractive prizes being offered to the person bringing in the largest load, or rather heaviest load of both junk iron, steel, etc., as well as the heaviest load of junk rubber. All junk will be weighed on the public scales by Chris Quante free of all charge, and you are privileged to sell it to whosoever you wish.

C. T. Edwards, of the Brownfield Implement Co., is giving a \$25 war bond for the largest load of junk iron during the week, and you get paid for the iron besides. The following grain dealers are offering jointly another \$25 bond for the heaviest load of junk rubber. Grady Goodpasture, Ches Gore Grain Co., Brownfield Milling Co., and the E. D. Ballard Grain Co. The following 16 filling stations, auto dealers, and wholesale agents are offering \$2 in war stamps each, making \$2 in all: Farmers Co-Op Society; McSpadden Grocery and Service Station; Ray Christopher, Phillips 66; Hahn Motor Supply Co., Star Tire Store; L. O. Turner Petroleum Products; Gulf Oil Corporation; Patton's Phillips 66; James Warren's Gulf Station; Jordan Motor Co.; Fitzgerald Service Station; Mack's Oil Well; Snappy Tire Store; J. D. Miller Service Station; Tudor Sales Co.; Gene Gunn Tire Store. The Herald is offering a year's subscription each day for six days for the largest load of junk metal, either new or renewal.

At the several filling stations the old automobile, tractor and various kinds of tires were piling up fast with old rubber of all kinds. There was an especially large collection at the old Rafter-4 warehouse, being accumulated by American Legion. There was much junk iron there and another pile of old pipes and what have you just north and across the street from the city power plant. We saw several private junk yards that are getting it in a hurry.

In this connection, and just to find what an average farm can scrap to gether, Lence Price informed us that he did not think he had much scrap iron about his place, but he brought in between 800 and 900 pounds Tuesday. John Black, another farmer had an old tractor that was not giving good service. This was donated for "scrap for the Japs." We could go on and on, but will say there are few farms in Terry county that will not yield a few hundred pounds of scrap that is useless to the farm.

The Herald hopes next week to get a line up of the approximate weight of the metal and rubber collected in this county, Texas as well as the United States. We believe that the national accumulation will stop the talk of Ickes and Henderson of choking down oil wells for awhile to conserve rubber, and almost ruin business in Texas and southwest.

## A Correction

Some errors were caught in the Latham Dry Goods circulars too late for correction. In the first column is a heading over Miss Virginia and Nelly Don dresses that says "Children's Dresses." That head should go where "New Spring Dresses" appear in the second column that mentions Kate Greenway dresses.

The children's dress should be \$1.66 instead of \$4.96, which really is the price of the Ladies Dresses. In other words the headings and prices were reversed.

In the third column under Ladies Skirts the \$2.98 values should be \$2.36 instead of \$1.66. These errors will be corrected in the two-page spread in the paper.

## Fair Sized Crowd Greeted Jimmie Allred

Former Federal Judge, James V. Allred spoke to an interested crowd here last Thursday afternoon in the interest of his candidacy for the United States Senate. Supporters of Judge Allred were well pleased with the nice little crowd that heard him, considering the busy time, and short time to advertise the meeting. He had already spoken at Big Spring, Lamesa, O'Donnell and Tahoka.

His address was on the line of others, reading from the "Book of O'Daniell." Judge Allred stated that by his own admission, the Junior Senator could not get anything done in Washington. O'Daniell's crack the first day he was up there that Roosevelt was scared and left town to fish. Truth was that the President was then holding a conference with Prime Minister Winston Churchill on board a warship in mid-Atlantic.

Two cars of Allred men and ladies from Brownfield attended the banquet and speaking at Lubbock the same night. In the W. R. McDuffie car were; himself, R. M. Kendrick, J. O. Gillham and the writer. The E. O. McIver car had himself and wife, Bob Bowers and wife, and Burton G. Hackney. Most of these came home following the banquet as they had heard Judge Allred here.

The banquet speech of Judge Allred was not political, but rather a patriotic oration, in which he stressed the fact that all of us from the least to the greatest were engaged in a war with a ruthless enemy, and that all of us had a part to play in the war.

## Survivor Of Airplane Carrier Coming Home

Mrs. O. M. Minnix, of north Terry, was in Monday, very much thrilled by the fact they had received a telegram from their son, Kelly, a US sailor aboard the Lexington, sank during the battle of the Coral Sea, was to arrive in Lubbock the 17th on a furlough. Mrs. Minnix stated that her sister from Colorado City, was visiting them, and she was sure that she and husband and all the other kind would be in Lubbock long before Kelly is due to arrive.

By the way, it is now reported that while the Lexington was set on fire by Japs, that they really did not sink the ship. The fire became unmanageable, however, and to avoid a possibility on an explosion and further loss of life the ship was torpedoed and sank by U. S. forces.

## Thank Your Dad For The Paper Sam

Last week, we had a letter from Sam Chisholm, taking training at the US Naval Training station at Corpus Christi, working toward a commission as Ensign. The burden of his letter was anent our compliments of his efforts as a child, in high school, and in college, and now in his efforts to serve Uncle Sam.

Sam says he appreciated the kindly remarks we made about him, as well as the old home paper, which he states he came up on since a child. But Sam can thank his dad for the paper as he is paying for it. We'll try our best to perform our part of the deal however, in getting the paper to Sam each week.

The rest of the letter was purely personal, among them being some laughable sailor jokes.

## Brownfield Jaycees Attend State Meet

Ray Christopher, Wilson Collins, and Mr. and Mrs. J. E. (Bud) Gillham attended the state Junior Chamber of Commerce convention in Dallas this week. The convention was in session Tuesday, Wednesday and Thursday, and a special conference was held Monday.

The local delegates left Brownfield last Sunday and are expected to return next Sunday. The organization's national convention was also held in Dallas this week.

Piggly Wiggly announces that they will stop delivery of groceries after June 27th. Can't replace or have tires fixed.

## Food Handlers School Here In July

In a campaign conducted by the State Department of Health for the purpose of elevating health standards throughout the state, a series of schools for food handlers is being carried on at this time

DR. GEO. W. COX

In various Texas cities, it was announced today by Dr. Geo. W. Cox, State Health Officer.

"Nothing can be of greater importance to good health than the quality and dietetic value of food consumed daily," Doctor Cox asserted, "and the highest standards of cleanliness and sanitation in food handling are necessary to health protection."

In the schools conducted by the State Department of Health, a complete twelve-hour course is offered, covering bacteriology, communicable diseases, medical zoology, foods, disinfection, and sterilization, personal hygiene and sanitation.

Classes Open to All — The classes are conducted at such hours as will enable all food handlers to attend regardless of the shift they are working.

At the end of the course, those food handlers who have successfully completed the course will be awarded personal certificates by the State Health Department. Cafe owners whose entire personnel has completed the course will be given a placard of approval signed by the State Health Officer, the local Health Director, and bearing the seal of the State of Texas. This placard is to be displayed prominently in such cafes.

Doctor Cox pointed out the importance of all cafe owners requesting their personnel to attend these schools since their display of this placard is the highest mark of approval bestowed by the Department of Health.

## One of Many Services

"There is no charge or tuition fee of any kind attached to this school. It is one of the many services being rendered Texans by their State Department of Health," Doctor Cox stated.

It has been tentatively planned to bring such food handlers school to Brownfield in the near future. If these plans materialize, Dr. Cox said he would announce the opening date far enough in advance so that all food handlers can arrange to attend.

## To The Voters Of Constable Precinct 1

I take this means of announcing my candidacy for the office of Constable of Precinct No 1, subject to the action of the Democratic Primary July 25th. For the benefit of the voters, will state that I have lived in Brownfield since 1934, and have tried to make a good citizen.

Will state that I own my own home, and that I am a member of the church and an Odd Fellow. If I am your choice for this office, I promise faithful service, and to the best of my ability will cooperate with all the city, county, and state officers in the strict enforcement of the law.

I hope to be able to see most of the voters before the election, but if I fail to see you, please ask those that know me about my qualifications.

Sincerely yours, A. E. (Earl) Brazier.

Mrs. R. N. McClain was in Lubbock Monday.

## Pvt. Curtis Patton Home On Short Visit

This item was to have appeared last week, but the writer failed to get it in until this week.

Pvt. Curtis R. Patton was home recently on a short visit with his mother, Mrs. W. T. Patton, also his brothers and families, from Camp Barkley, near Abilene. His trip home and short stay was greatly enjoyed by Curtis and his family, and all regretted it very much that the time for him to go back came so soon.

He has always been a stay-at-home boy, and gadding about was not in his way of having a good time. He liked to see after things at home, yet he is trying to make the nation a good soldier. He attends church every time possible, when not on duty, and found the church people very nice to him.

Contributor then closes by saying he knows Curtis has many friends among the soldier boys, and offers a short prayer for Curtis and all the boys in the service, asking God to keep them in His care.

## Many Now Obtaining Sugar Canning Cards

The sugar rationing board of Terry county, is busy issuing sugar rationing cards for canning purposes. In order not to waste your time and that of the Rationing Board, it is best to keep at least three things in mind:

How many quarts you canned last year? How much stock of canned stuff do you have on hand at this time? How many cans of fruit do you plan on canning this year? It is not a bad idea also to keep an accurate record of the amount of canning you do this year as the board will want to know this when you apply for canning sugar.

Therefore, it is best to make an invoice of your last year's canning, etc., before you go before the board.

## Thanks Helpers

As chairman of the USO drive in Shallis Community, I'm taking this means of expressing my appreciation for the co-operative spirit shown in our drive. Each person contacted was ready and willing to show their patriotism by generously donating to a worthy cause—standing behind our fighting men one hundred percent in our battle for victory.

Our community donation of \$28.55 was the largest contribution of any rural community and your hearty co-operation made our work a pleasure.

I also extend thanks to my co-workers, Mrs. Money Price and Mrs. Langford for their untiring assistance.

Mrs. C. T. Edwards.

## Taking Course At Lubbock For Ground Work

A number of men from Brownfield are now going to Lubbock two nights each to take a course in ground work for flying school at the Lubbock Hotel. Courses are being taught by a Miss Miller.

Those taking courses are Pete Tiernan, Jimmy German, Lad Brownfield, Tobe Helms, Roy D. Harris, Elmer Bruce, Dr. E. C. Davis, Johnny Haynes, and Grady Goodpasture.

## Makes The Herald A Dad's Day Gift

Mrs. A. O. Smith of the Union community, was in this week to renew for her Herald for another year, and had us send the Herald to her father, C. C. Primm, of Lubbock.

Mrs. Smith stated that her dad always liked our writing, and she knew he would appreciate having the Herald come to him regularly.

## SIX BOYS GO TO CHURCH CAMP

Six boys of the Brownfield Baptist church attended a three-day camp at Ceta Canyon Monday, Tuesday, and Wednesday of this week. They were Tommy Adams, Le Roy Patterson, Carrol Heath, Mac Ross, Glenn Bearshar, and Marion Cardwell. Joe Patterson accompanied the boys.

Mrs. Nyles Morris has picked up the thread of editing the Tatam, N. M., News where her late husband left off. Mrs. Editor Morris is doing a real job, too, and we wish to congratulate her on her efforts.

The railroads are discontinuing their luxury trains for the duration in order to discourage unnecessary traffic. This is a good fat morsel for the railroads to spit out, but they are in to win the war the same as the rest of us.

As some have put it, the Japs have almost lost their pants trying to save face these days. First, they tried to save face from the Tokio et al bombing at Coral Seas and lost heavy. Next they tried a face lifting operation at Midway and lost more. Lastly they have tried the Aleutian conquest, and found a nasty mess of U. S. bombers pounding the hide off them there. Our prediction is, that within the next six months, there will be a wholesale number of harkaris of high up officers from the land of the Rising Sun.

And now comes the farm organizations with a very pertinent question to ask the powers that be, that if a ceiling is to be put on farm products, and another on finished cotton cloth, why should the CIO cotton workers be demanding a 41 percent increase in wages? It seems to the Herald that the government has no right to put ceilings on raw cotton and finished goods prices, and at the same time humor organized labor with a big wage boost. It just don't add up, according to our way of thinking.

U. S. Secretary of Agriculture is calling for more and more fats to be produced on the farms of the United States. One of the cheapest of these, as well as the best, and at the same to a high tonnage of needed fats—cottonseed oil—can be produced in the shortest length of time. In the face of this, Secretary Wickard refuses to allow cotton planters on the south Plains and west Texas in general, to plant acreages of cotton, that for one reason or another, could not be planted further east. At that time there was plenty of time to plant and mature his additional acreage in this section, that would have added tens of thousands of gallons of this very fine fat to the larder of the United Nations, and at the same time not have overdone the carryover, which is much less than last year. With an increasing consumption of cotton goods in the

U. S. and other friendly nations, this carryover should be greatly reduced again this year.

Hal Collins, the big hotel man and crystal salts manufacturer, that made a vicious and nasty attack on President Roosevelt at the Democratic State Convention in 1940, is asking Texas folks to elect him governor. Texas don't need such an off brand governor, especially at this time. Another their piece of shady collaboration pulled recently, was the resignation of Jerry Sadler as Railroad Commissioner at the very last minute, so that no one but his Man Friday, Jim Kilday would have time to file for a place on the ticket. But this shady deal failed to go over with Governor Coke Stevenson, who declined to accept Jerry's resignation, as of June 1st, or appoint Kilday to fill out his term until the next election in November. So, Jerry is mad and Jim is mad. The State Democratic Executive Committee extended the time for this office, and ten filed for a place on the ticket. Now Jim is contesting this with court action. Does Texas want a Hal Collins for governor, or a Jim Kilday for Rail Commissioner? Their names should be extra well blacked.

Wheat farmers of the Panhandle are wearying where they are going to store the new big wheat crop. All graineries are already full.

Mrs. W. F. Green was in this week for the sugar rationing and she also handed in one dollar on the Herald.

Marvin H. Post of Denver City, County Auditor of Yoakum county, was here on business this week.

Mrs. Kyle Graves, Mrs. Dube Pyeatt and Mrs. Lynn Nelson were Lubbock visitors Monday.

Mrs. Josie Scott of Lubbock was here Tuesday to have her brother, Dr. H. H. Hughes, do some dental work for her.

Miss Elizabeth Upton and Miss "Flax" Luker returned Saturday from a week's vacation in Corpus Christi.

Mr. and Mrs. James Souter of Wickett, visited relatives here Sunday.

Miss Minnie Lee Walton was ill at her home this week.

A stirring drama of Nazi hordes trying to subdue unconquerable French Canadians may be seen in "The Invaders," showing at the Rialto theatre today and tomorrow.

The cast is headed by Laurence Olivier, Leslie Howard, and Raymond Massey, and a new dramatic actress is presented, little Glynis Johns. Others in the cast include Anton Walbrook and Eric Portman.

A thrilling story told in an exciting way, "The Invaders" does not lack realistic qualities. It is a picture of German ruthlessness pitted against the Canadians' almost impudent bravery.

Miss Lizzie Dumas visited her sister, Mrs. Dogie Patterson and family at Seagraves last week. Thad Patterson was to have reported in Dallas yesterday and then on to Norfolk, Va.

Among the boys home from the various camps this week were Ross Brown, E. H. Farrer, and Clayton Fitz.

Clarence Hudgens, groceryman of Lamesa, was here on business Monday.

**SUPPLEMENTARY SCHOOL CENSUS**

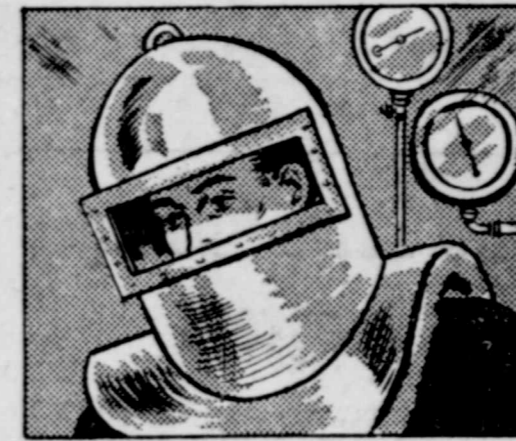

Any child living within the boundaries of Terry county that has not been rendered for school purposes in any county of Texas and who, on September 1, 1942, will be between the ages of six and seventeen inclusive, should be rendered to the County Superintendent. This should be done by June 27 as they must be reported to the Census Division of the State Department of Education at Austin, by July 1.

**Soldiers of Production**

America's "soldiers of production," men and women working in the plants of American industry, have their uniforms, too. Some uniforms worn by G-E workers on vital production jobs are shown below.

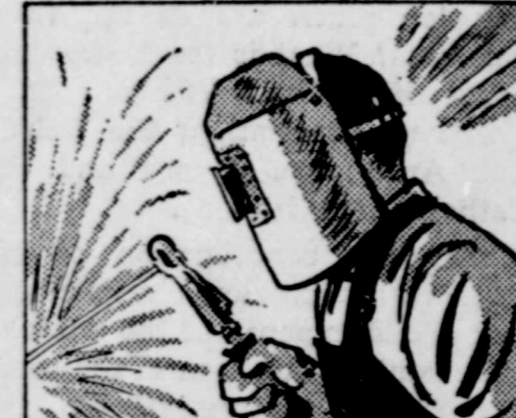

1. Not a gas mask, but a special nose mask to guard his breathing, is worn by this spray painter at his job in one of the General Electric plants.

2. Like a man from Mars, the "cold room" research man is a strange sight as he tests airplane instruments for high-altitude performance in a G-E laboratory.

3. Frankenstein? No, just another G-E worker. His job is sandblasting big turbine castings for Uncle Sam's ships at one of the General Electric plants.

4. The helmet he wears is to protect him from light! The rays from a welder's arc could cause blindness if he did not wear this strange headgear.

General Electric believes that its first duty as a good citizen is to be a good soldier.

Q. Which state has the oldest house, Texas, New Mexico, or Florida?—H. C. C., Chicago, Ill.

A. New Mexico has the ruins of houses built by the ancient Aztecs that antedate the old and yet preserved missions of the early years of the Eighteenth century in San Antonio and whatever still exists of structures erected by the first settlers in the Seventeenth century in St. Augustine, Florida.

**ANNIVERSARY:**—On January 15, 1942, the Texas Memorial Museum on the campus of the University of Texas, celebrated its fourth anniversary. A very cordial invitation has been extended by Director E. H. Sellards to the general public to visit the museum.

Q. What was the least amount of money spent by a candidate to win the office of Governor of Texas?—P. B.

A. Governor O. M. Roberts, under whose administration the present capitol building was financed and during whose last term the University of Texas was founded, claims the record for spending less than any candidate up to his time, and his record still stands. His campaign expense was exactly thirty-five cents. This was spent to pay for a telegram he sent from Tyler to Austin, accepting the nomination of the Texas State Democratic Convention, he not being present when he was nominated.

**CATTLE BUSINESS:**—The cattle business has existed in Texas since the very beginning of its occupation by the Spaniards. These people were born cattleman from the sun-drenched hills of Andalu-

**Around The Block**

The Jaycees threw quite a successful dance Saturday night—we particularly noticed Mr. and Mrs. Money Price's graceful waltzing and Mr. and Mrs. Roy Wingerd's expert "put-your-little-tooting." Spencer Murphy, on leave from the Marines, was there too, in uniform.

The L. R. Austins will be missed in Brownfield. They left this week but haven't decided where they will make their home.

Eleanor Gillham was looking radiant last week-end because the boy friend came to see her. His home is in Amarillo, but he is going to summer school at Tech. And speaking of Tech, we saw Bobbie Virginia Bowers and Tommy Hicks "doing the Avenue" (i.e., partaking of a soft drink in one of the Tech students' favorite hang-outs on College Avenue in Lubbock) Friday night. Bobbie has one of those new short hair cuts and it is very becoming.

Just here and there: did you notice how many patriotic citizens displayed flags in their front yards on Flag Day?—Why don't more bridge club members here try using the money they usually spend on refreshments for their parties to buy more defense stamps to be given as prizes to high score winners? Not serving refreshments helps save up that sugar, too—We noticed in the Lubbock paper that Truett Flache was identified as Mrs. Arthur Sawyer's son instead of son-in-law. The article just mentioned that he had received his commission at Ft. Sill—the Lubbock paper also mentioned Corp R. L. Clay's being stationed at the North Island Naval Air Station at San Diego.

In spite of the "rubber situation" Ruidoso remains a popular place to go for the weekend—And by the way, the last three week-ends have been pleasantly cool here, haven't they?

Joke of the week department: A lady walked into the Herald office Saturday and demanded her husband's pajamas. After being assured that nobody here had them, she admitted she had mistaken the place for a laundry. Mr. and Mrs. Stricklin Sr., recalled that someone once came down here to get some shoes repaired, and still another person thought this was a hospital. What we can't understand is how anyone could suspect a newspaper office of being any other place of business—we think they have a unique appearance.

When W. H. Collins was asked whether his young grandson could talk yet, the proud grandfather replied, "He doesn't have to talk—we anticipate his every wish. The baby was named Wade Hampton, after his grandfather."

We've heard more flattering comments on "To the Shores of Tripoli" than we have heard on any movie for a long time. One man said he wouldn't mind being in one of Uncle Sam's armed forces a bit after seeing that picture.

Frankie Powers, society editor of the Brownfield News, has been limping around because of an injured toe this week. A board laid on her foot Saturday night, and she was afraid to see a doctor because she thought he might tell her the toe was broken—Twilla Graham manages to display her vivacious personality even over the telephone—Bill McGowan was being kidded about being the on-

# Notice To Farmers

## STATE HEALTH DEPARTMENT REGULATION REQUIRES US TO MAKE SOME CHANGES IN THE OPERATION OF OUR LOCKER PLANT.

The New Regulation under which we are now required to operate, and the provisions of which must be complied with by us, requires that all meat stored in the lockers must be inspected if it is beef, pork, sheep or goat. The meat inspector will be at the plant each day between 11 and 12 and meat, to be stored, must be brought to the plant and be inspected at that time. A small inspection fee will be charged.

**HERE'S WHAT YOU MUST DO**  
When meat is brought for inspection and storage, the following items must be presented for inspection:

**ON BEEF**—Head complete, heart, lungs, liver and carcass, which may be cut into quarters.

**ON HOGS**—Carcass, can be cut into halves, head and all of insides.

**ON SHEEP AND GOATS**—Carcass, can be cut into halves, heart, lungs and liver.

The hours (11-12) must be complied with in presenting meat for storage. The above instructions on what to bring must be complied with before inspection can be completed.

## NOT OUR RULING!

We ask our farmer friends to please remember that this is not our ruling, but a regulation of the State Health Department with which we must comply in order to operate. (Reference is made to City Ordinance No. 1184 which is reprinted at the right.)

PLEASE REMEMBER, also, that this does not mean you cannot continue to butcher your animals, either at home or at the slaughter pen, but the meat must be presented clean for inspection and the items named above taken from the animals presented for inspection, must be brought along for examination by the inspector.

### Ordinance No. 1184

SECTION 12. UNLAWFUL TO SELL WITHOUT PERMITS, etc. It shall be unlawful for any person, firm, corporation, or association to have, keep, sell, or expose for sale or have in possession with intent to sell for human food within the limits of the City of Brownfield the meat or food products manufactured in whole or in part from the meat of any cattle, calves, sheep, swine or goats unless same shall have been slaughtered under the supervision of the Health Department of the City of Brownfield, in accordance with the provisions of this Ordinance provided, however, that this Ordinance shall not apply to the meat or food products manufactured from the meat of cattle, calves, sheep, swine, or goats slaughtered or inspected under the supervision of the United States Government in accordance with the regulations relating to the inspection of meats as prescribed by the Department of Agriculture of the United States, and bearing the stamp of such inspection or to any such meats slaughtered or inspected under the supervision of an official meat or food inspector of another City in this State in which the inspection of meat has been approved by the Health Department of this City and bearing the stamp showing that such meat has been inspected and passed by the meat and food inspector of such other City.

**Pen Roosters After Hatching Season**

With the government calling for increased egg production, and hot weather here, the Extension Department of the A&M college, poultry section, is calling on people to pen or can their roosters after the hatching season is over. As all people now know, fertile eggs will not keep more than half as long in hot weather as infertile ones. Uncle Sam needs millions of eggs weekly for the armed forces as well as the public in general. Not only that, but hundreds of egg cracking plants are springing up all over the country to supply powdered eggs to our allies.

Compared to the British inch, the American inch is two millionths of an inch too long; which is the least Americans have ever stretched anything.

**Baptist Church News**

The Vacation Bible School will begin next Monday, June 22, and will conduct a daily program of two hours and 30 minutes each day from 9:00 to 11:30 A. M.

Registration day is Friday, 3 P. M. of this week when refreshments will be served to those present and all children are invited to come, ages 5 to 17. It is intended to make this school educational and helpful and the child who misses it will be harmed and the reader is invited to carry the invitation to those who should avail themselves of this opportunity to study the Bible as more hours of study will be used in this school than in the regular Sunday School for a whole year.

Parents, have the children wear such clothing as they are accustomed to wearing in the day school. There is no collection or charge against the children as the church provides all expenses in order that everyone who desires may have this Bible study. Adults study the Bible very little and most of them testify to the fact that what they know about it was learned when they were young. Some may not be present at the registration Friday evening. However, they are invited to come-on to the school at its sessions from day to day.

We urge the importance of Bible study as what we think about the Bible is of little importance but what we know of it is of vital importance.

Sunday, August 16th is the date selected for the annual revival meeting and we are hoping to secure the pastor of the First Baptist church of El Paso, to whom an invitation has been extended and an answer is expected at an early date. Smaller attendance during hot weather is referred to as the "Summer Slump," but we should not have it this summer

and ask for regular attendance to avoid it. All can help. Bring your visitors with you to the church. They will enjoy the service.

**BRADLEY BROTHERS' MOTHER PASSES**

Mrs. J. L. Bradley, age 64, passed away at her home in Hollis, Oklahoma, June 9th after a long illness. Mrs. Bradley had four children living in and near Brownfield. They are Mrs. D. M. Linville, Mrs. Taylor Patterson, both of Brownfield; G. M. Bradley of Wellman and A. D. Bradley of Sundown. There were other children living at other places.

Those attending the funeral from here were the children and Joyce and Alva Lee Runnels. Funeral services were at the First Baptist church at Hollis. Body was laid to rest in the Hollis Memorial Cemetery.

**BAPTIST GIRLS ATTEND CAMP AT CETA CANYON**

Eleven girls of the Brownfield Baptist church will return today from a three-day camp at Ceta Canyon. They were accompanied by Mrs. C. E. Ross and Miss La-Rue Ross and Miss Louie Heath. Miss Ross returned to Brownfield Wednesday evening, but Mrs. Ross and Miss Heath remained.

Girls attending were Peggy Nelson, Mary Dean Stewart, Rio Rita Mullins, Janet Davis, Frances Patterson, Margaret Howell, Pauline Mullins, Wilma Mills, Lorene Rushing, Glenna Faye Rusk, and Gloria Jean Swan.

Mr. and Mrs. R. B. Bevers were over from Roswell, N. M., Tuesday night and Wednesday, visiting relatives and attending to business.

Too much money may go to a man's head; but it generally goes to a woman's back.

If you want to keep a lemon indefinitely, marry him.

Pictures of angels are represented as women because it doesn't embarrass a woman to flit around in nothing but a pair of wings.

Life is full of ups and downs; but the most difficult is to keep appearances up and expenses down.
