

Hail Tuesday Rips Out Broad Swath

We complained elsewhere in this paper earlier in the week, that the clouds were all bluff. Well, we had one Tuesday afternoon that had plenty vim, vigor and vitality, mixed with flood-like rain and too doggone much hail. R. N. McClain, county agent, and Tommie Black, Board of Development secretary, made most of the hail area Wed. afternoon, and reported some literally wiped out and others badly damaged.

It seems that the hail struck in damaging quantities just north and west of Harmony, and followed a course south averaging three miles wide and around 11 miles in length. Some of it of course will come out, but many will have to plant their entire crop over. The south end seems to be in the neighborhood of the big grainery on the Sawyer place.

Here in town considerable hail fell, but its damaging path was about a mile west of town. Water ran over the highways in two or three places where they cross the draw. A total of 1.83 inches fell in the gauge kept by the writer Tuesday afternoon, followed by a half inch during the night making a total of 2.35 inches.

Farmers are making ready to start replanting as soon as the ground is dry enough. Indeed, Mr. McClain reported that some were already trying it Wednesday afternoon, but their tractors were miring and stalling. This was a hard blow, as it followed one of the best farming sections in the county.

Smith and Moreman Winners In Election

Mrs. Jewel Smith for City Secretary and Roy Moreman, present police chief under the old setup, for City Marshal under the new setup, were the successful candidates in the special election held last Tuesday, at which a pretty heavy vote of 836 ballots were cast.

As we understand it, Mrs. Smith and Mr. Moreman will take their oaths of office August 1, and will hold it until the regular city election in April, 1944. The following is the unofficial vote, but was obtained from election officials, is regarded as accurate:

City Secretary	
Mrs. Jewel Smith	322
Miss Shirley Bond	162
Ernie Greenfield	59
Grady Goin	292
City Marshal	
Frank Denton	116
Luther Jones	20
Houston Hamilton	179
G. H. Holmes	61
Roy Moreman	334
Slim Chavis	124

The Passing Of Editor O. P. Gaymon

Editor O. P. Gaymon, editor and publisher of the Canal Winchester (Ohio) Times and News, was reported to have died last week end according to a wire received here by B. Martin, who's son is on the Gaymon place in west Terry. His wife passed on around about the Christmas holidays.

The Gaymons came in possession of a couple of good Terry county sections of land way back in the Seventies, when railroads were peddling land in the north they had taken in for building new railroad. Up to the last few years they had been frequent visitors here.

Mr. Gaymon, we understand, had been in a hospital for some time. They had been readers of the Herald for more than 33 years.

Fifth Registration June 20, 1942

Plans are under way to register the boys of Terry County who were born on or after January 1, 1922, and on or before June 30, 1924. These will be required to register between 7 a. m. and 9 p. m. of June 30, 1942.

Registration booths are being set up in the Court House of Brownfield, Terry County, Texas, and in Meadow, Terry County, Texas for this purpose.

Terry County Local Board.

The Old He Rambles About A Bit More

We Believe we chopped off our harangue somewhere about old Fort Davis last week, the mile high town. From that point on, and this side of Balmorhea, it is ranch and more ranches. There is a bit of timber along the fast rushing mountain stream, but scarcely any on the mountains, but at that time the grass and weeds were green, making them look more refreshing to the eye than the barren ones.

The highway is well paved, but of course like all mountain areas, there are plenty of curves, climbs and dips, depending on which way you are going. Didn't see any Little Rocks to speak of, but there were some thundering Big Rocks, in fact, there were almost perpendicular walls of them that ran into dizzy heights. This scenery is worth looking at, once at least.

The little city of Alpine was reached slightly before sundown, and we gave it the once over, with a promise of a more thorough job next day. We had expected a town much larger than Brownfield, it was much less. Then we could not figure why the State had located one of its teacher colleges in such a thinly settled region, that will, unless oil or mining is developed, remain a thin settlement, and hard for the centers of population to get to. However, it is a pretty, clean town, and the people are typically western, white and Mexican. Practically all the people outside the business men and women wear boots and big hats, but sans six shooters.

Later, we found that the Sul Ross State College had more scholastics during the summer sessions than long sessions. Reason: Many young folks go to college in the level sections of the state, but go to Sul Ross during the summer sessions, as the high altitude, more than 4000 feet, coupled with mountain scenery, act as a vacation for those from less scenic places. The college stands on a high eminence overlooking the city. Donkey and pony riding over the mountain trails adds to the zest of the pupil from the low lands.

The main object of the weekend visit was to visit in the home of Mrs. Bob McKinley, who have recently moved there from Kansas to make it their home. Mrs. McKinley is a sister of Mr. Roberts and a niece of Mrs. Stricklin. They have just completed a beautiful rock stucco home, elegantly finished and furnished on the inside. Living with them, is an uncle of Mr. McKinley, Uncle Jim Hood. They have a home anyone should be proud of, and they know how to entertain their guests.

While there, we also visited in the home of Elder and Mrs. James A. Fry, and many will remember that he worked for the local church of Christ more than three years. Four of the older children are now grown, and some are attending college. On the return trip, we also visited that optimist of optimists, J. H. Killion and wife at Monohans. He is holding his own fairly well, but is still a very sick man, but still liking his jokes.

The Old He and wife enjoyed to the fullest this fine trip at the expense of Mr. and Mrs. Roberts, and we know we enjoyed being their guests more than they can realize.

Trying Hard To Rain But Failed So Far

What appeared to be a rain cloud here Saturday night, according to those who were here, seemed to blow a fuse with mostly wind. Another trial Sunday afternoon proved a sprinkle.

Monday morning it was really cool, and looked like there were enough clouds for rain, but cleared in the afternoon, and became hot again. Cloudy again Tuesday morning, but it may be just a bluff.

Mr. and Mrs. Wendell Smith and family of Lubbock visited his parents, Mr. and Mrs. Fred Smith, and sister, Miss Elizabeth Smith, here last week end.

Fifth National Registration To Be June 30

Plans are under way to register approximately 220,000 young Texans between the ages of eighteen and twenty, inclusive, on June 30, General J. Watt Page, State Selective Service Director, announced recently.

All men who were born on or after January 1, 1922, and on or before June 30, 1924, must register between 7 a. m. and 9 p. m., on Tuesday June 30, General Page warned, and they must be careful to give their correct addresses where official communications will reach them without delay. Registration will be held in Brownfield at the local board office.

Gen. Page said, "This fifth registration will complete the inventory of the nation's potential manpower, although, under current policy, men under twenty are not subject to induction for combat duty."

"While anyone who is unavoidably away from his home on June 30 may register at the registration place most convenient on that day, all registrants are urged to make every effort to register with their own local boards to avoid possible confusion in the future. Any person who must register away from home is warned to specify his home address so that his registration card may be forwarded promptly to his own local board.

"A registrant who has more than one place of residence may choose which one he wants recorded as his place of residence, and in making the choice he designates the local board which will always have jurisdiction over him."

Says Railroad Is Railroading These Days

Uncle Jimmie O'Conner had a letter from his son, Eustace, of Bakersfield, Calif., recently, the son being a railroad dispatcher. In the first place, he apologizes to his Dad for the infrequency of his letters, then sets out to tell why.

With the war going on, and the heaviest traffic over railroads in the history of the country, he stated they started with three shifts of nine men and two substitutes, and now have five shifts of fifteen men and two subs. No time to train others, as there is no time to spare from real work. He cited one chap that came out from the east but in a few days stated "too much work for him," and went back home.

Eustace informed his dad that he had a hobby that somewhat relieved the monotony, rock cutting and polishing, which he learned in a school last winter, and named a number he had cut and polished, among them being a smokey topaz, opal, agate, onyx, Jasper, etc. He informed his dad that there was no telling when he could get off to see him, but would do so if he possibly could. His hours are from 4 p. m. to midnight.

Dick Myers Reports To Randolph

RANDOLPH FIELD, Texas.—A neat sign, "To Cadet Headquarters," pointed the way to another milestone en route to Axis countries this week as the new class of Aviation Cadets, 42-1, reported to the oldest and largest basic flying school. Student Officers and Aviation Cadets, they're here for the second phase of their training as Army Air Force fighting and bombing pilots.

After nine weeks of military training at the "West Point of the Air," they will go next to advanced flying school where they will win their Air Force "Wings" and commissions. Lt. Dick Myers, 25, a petroleum engineer graduated from the University of Oklahoma, was an ordinance officer at the bombardier school, Midland, before he got "wings" fever. Formerly of Dallas, he is the son of Mr. and Mrs. R. D. Myers, Brownfield.

Mary Alice Tidwell is vacationing in Quahna.

Improved Grassland Pays Off This Year

College Station—Texas ranchmen have been getting ready for just such an emergency as 1942 presents.

With ranchmen and farmers engaged in the biggest food and feed production job in history as their part in total war, grassland which has been restored to former grazing capacity will pay off in livestock production this year, declares Howard Kingsbery, state AAA committeeman and ranchman from Santa Anna.

Prices carried out most extensively under the 1941 range conservation program, as in former years, include contour furrowing, deferred grazing, and eradication of noxious plants.

Cooperating under last year's program, 7,394 Texas ranchmen cleared 1,671,155 acres of prickly pear, cedar, mesquite, and lechugilla. Of the total acreage from which the noxious plants were cleared, 1,147,590 represented prickley while 381,548 represented cedar.

Approximately 282,583,971 feet of furrows and spreader terraces were constructed. Object of these practices is to control water and keep it out of creeks and gullies, catch grass seed which otherwise would be lost, and help prevent erosion.

More than 4,689,638 acres were devoted to natural and artificial reseeding while approximately 11,470,224 cubic yards of dirt were used in construction of spreader dams and earthen tanks on 3,378 ranches.

Resume of 1941 range program indicates 13,895 Texas ranchmen signed 62,462,200 acres under the program. Approximately \$3,695-366 were paid cooperators to offset heavy investments made in rebuilding grassland, Kingsbery said.

Why Not Write To James Bowers

Sgt. James A. Bowers, writes to us from the Oakland, Calif., Municipal Airport under date of June 18th, and says he is proud each week to get his Herald, and especially since no one will answer his letters from here. Well, the Herald is going to try to answer some of James' questions the most costly way. We could have batted off a short letter, put a three cent stamp on it, and let it go at that. But we want others to hear about young Bowers and what he is doing, so we are taking a more expensive route to print his letter, or extracts from it.

James states that he has written about eight letters to people here, and none answered, and asks: "Has all the people left?" Yes, a lot of them have left, James, many like you in the service; many others to munitions centers and airplane factories. Small towns like your old home town (Brownfield) has been hit hard. However, we don't believe all the eight people you have written could possibly be gone, and why they don't answer a soldier's letter, is beyond us. They are either indifferent or lazy.

James stated that he was going to Long Beach soon to see his folks, and hoped to see Tom Rowden, who is located near there. If we are not mistaken, James and Tom played with the Cubs about the same time. You asked about your subscription date. Your paper expired June 2, 1942, at about the same time you left Riverside, and we failed to get your new address. We are putting you on the list with you new address.

James states that he expects to leave for the east coast soon, and thence, perhaps, somewhere in Europe. Take care of yourself, young fellow. For the benefit of those who may like to write him at this late date, his address is, Sgt. James A. Bowers, Box "A", Municipal Airport, Oakland, Calif.

Tommie Black received a card from Sawyer, Graham this week. Graham is at Fort Warren, Wyo., and is an acting sergeant.

Mrs. W. F. Baker of Rosenberg, Texas, is the guest of her brother, J. F. Winston and Mrs. Winston.

The Old He Takes Another Spin

The Old He and She, accompanied by Mrs. Bill Lyle of Lubbock, the honorable grandson, Master Jack Taylor Stricklin, and little Miss Johnelda Benson, hit the pike last Friday morning for Brownwood, where the Stricklins visited Mr. and Mrs. Herman Trigg; Mrs. Lyle her Mother-in-law and sister-in-law, and Johnelda her mother Mrs. Ethelda Edwards and husband. Also we saw Don Herbor and wife, and baby, Larry.

This time we went via Lamesa, Big Spring, San Angelo and Brady. This route is slightly further than the other, but as we had never been this way, we took it going, arriving in Brownwood in plenty of time to rest and see about awhile before nightfall. Found the folks all well, and acted as if they were real proud we came.

Brownwood is as full of soldiers as a green persimmon tree is of bellyaches. When we left there the last time, December 7, the day the rats attacked Pearl Harbor, it was estimated there were 30,000 men training there. Since then the grounds and buildings have been practically doubled. That morning of the 7th, all one had to do to drive over the grounds was to feed the gas to your car, and drive in, around and out. Now, one has to be well identified and have a pass.

From Big Spring to Brownwood that way, it is mostly a sheep, goat and cattle country, except some irrigation farming in the San Angelo area, and considerable dry farming in McCulloch county around Brady. Crops looked good in most places, as they have had abundance of rain. Down in that section too, one finds some kind of air school at nearly every important place, and one is hardly out of sight of a training plane anywhere. The drive between Brownwood and Brady is real scenic.

Came home via Coleman, Abilene, Sweetwater, Snyder, Post and Tahoka. Wheat harvest is well under way in the Coleman-Abilene section, and the harvest seems to be fair. Cotton is making good growth, as well as row crops, such as maize, etc. There were good crops in the Roscoe-Snyder area, and the latter town was all decorated with flags and bunting for this weekend rodeo. Crops through Garza, Lynn and Terry seemed to be about the same, except hail damage in places.

Yep, we had a great time with the younguns, but boy it was hot down there, especially at night. Didn't seem to be much hotter in day time than here, but don't seem to cool up at night. Got to see USO places in operation. They have two in Brownwood; one built outright in the residence section, that covers half a block. It was literally crowded with soldiers, who seemed to be having a lot of fun. Then they have a down town four story building that was going full blast Saturday night.

And the kids remembered that Sunday was Father's day. They combined, the Triggs and Herborms, to present us a summer bathrobe, when and if we ever take a bath. We had a winterun but no summerun.

USO Drive Slowly Moving Forward

With collection up to Wednesday reported at \$822.11, Terry county is still around \$1200 short of its quota, and Saturday is the last day of the drive, according to Mrs. E. C. Davis, county chairman. By some hook or crook, Needmore was left off the list last week, and the same thing happened to them in the Red Cross drive. Needmore usually comes in beautifully with its part of any drive, but seems to get the jinx in publicity.

The following is the standing at present:

Willow Wells, no report; Needmore, \$22.68; Tokio, \$21.18; Gomez, no report; Meadow, no report; Challis, \$28.55; Wellman, no report; Union, \$3.50; Harmony, \$6.10; Pleasant Valley, \$9.50; Johnson, \$10.00; Forrester, \$26.89; Lahey, \$6.60; Scudday, \$19.60; Girl Scout Solicitation, \$81.46; Cub Scouts Den 1, \$6.59; Brownfield, \$579.56; Total, \$822.11.

Gospel Meeting June 20-July 12

W. WALLACE LAYTON

The Herald is requested to announce that W. Wallace Layton, of Silver City, N. M., will begin a Gospel meeting at the church of Christ at Main and Third, Monday night, June 29th. Evangelist Layton is a capable speaker, and an able exponent of the Bible truths. He held a meeting here two years ago.

Daman Smith, of San Saba, able Gospel singer, will be here and conduct the song services. He was with us last year, and was recognized as an able song leader. Morning services at 10 A. M., and evening meetings at 9 P. M.

All are cordially invited to attend these services each day. Come and enjoy good Gospel singing and preaching.

Sister Arrives From Honolulu Tuesday

Mrs. Chas. Limer, in the Hawaiian Islands since last October, arrived in Brownfield Monday, and will spend a few days here with her sister, Mrs. Stricklin, Sr., before going on to Brownwood to visit her daughter, Mrs. Don Herborn, husband and baby.

Mrs. Limer reports an uneventful voyage, except that it was zigzaggy, leaving there the 11th, and landing in San Diego the 18th. Mrs. Limer reports that instead of the Japs making the people jittery on Dec. 7th, that many stood on the "sidelines" as we say about a football game, and cheered the sailors and soldiers as they fought the Japs.

She also stated that the Japs are very poor gunners, and miss things that look like they couldn't help hitting. In fact, she stated, most of them have poor vision.

Reports The Texas Guard Picking Up

Capt. C. T. Edwards of the Texas Defense Guard stated this week that the local unit, Company D, is really picking up. Forty-one new members were out Tuesday night for drill.

Many of these men will sooner or later be called to the colors, and it is just as well that they get the practice in drilling. It will be much easier on them when they are inducted.

Local Pupils At JTAC Make Good Grades

STEPHENVILLE, June 22—Among the students making the honor roll at John Tarleton Agricultural College were Earl Burnett and Doris Sherman (Lundgren) of Brownfield.

The Honor Roll was announced by the registrar, T. V. Counse, on a recent date. To be eligible for this honor a student must make at least 80 on every subject for the semester.

Good Old Arkansaw Heard From Again

Our old friend and reader, L. E. Bryant, address, Mena, Ark., sent in his bat hide to the "Old He" this week, and told us to keep 'er comin' for the time a dollar will pay for.

By that time, L. E. states that he hopes to see us, and MIGHT bring us a fat possum, or a big trout, as they have plenty of both there, he stated.

Metal-Rubber Drive Going Over Fine

In conversation with C. T. Edwards this week, he informed a representative of the Herald that as one of the committee for the drive, he was unusually well pleased, and believed he spoke the sentiments of the other two committees, Messrs. Bob Bowers and County Agent R. N. McClain. Mr. Edwards stated that the people had co-operated with the committee mightily well.

The drive will be over this week, he stated, and we hope to greatly increase the amount received thus far. Mr. Edwards stated that Legionnaires had been active in the campaign, especially in the metal drive, as they fully understand the importance of getting metal and more metal to the steel mills.

86,000 Pounds of Rubber
Up to Saturday night there had been delivered to collectors, 86,000 pounds of scrap rubber, of which 60,000 pounds had been bought by Chris Quante, and 20,000 pounds to various tire dealers and service stations of various oil companies.

Some two cars of metal was also delivered to the Legion, and an undetermined amount to other dealers in the city. In all there may at the windup be some five tons of old rubber, and three cars of metal. Much of the metal was donated to the Legion, Mr. Edwards stated.

Newt Copeland Killed In California

Newt Copeland, about 48 and a pioneer of Terry county, was killed Wednesday in a car wreck in California. Newt had made his home in Lubbock and the Ropes section for several years. Funeral arrangements have not been completed at this time.

Newt was the son of the late Judge W. N. Copeland and wife. Judge Copeland was the first county judge of Terry county, and also served several years as county commissioner here. We understand that Newt has a family, but not certain about the number of children. He also has three brothers and a sister, Otis, Charley, and Harry Copeland, and Mrs. Irene Crosby.

Walker Commissioned Second Lieutenant

Willie G. Walker, of route 4, this city, graduated June 23, from the Victorville Army Flying School as a pilot, and was commissioned a Second Lieutenant, according to advices received from Capt. Edward E. Peeler of the Army Air Forces, at Victorville, Calif. He is the son of Mrs. Lee Walker.

Lt. Walker graduated from the Brownfield High School in 1937, later attending the Los Angeles City college. Before entering the Victorville Flying School, he attended the following flying schools: Rankin Aero Academy, Tulare, Calif., and Minter Field, Bakersfield, Calif.

MORE RED CROSS SEWING MATERIAL ARRIVES

There has been received at the Red Cross Sewing rooms 796 yards of cloth to be made into ladies and childrens blouses.

We will need all the help we can get, so come in this next week and do your part toward this vital need for our war torn allies.

Mrs. T. L. Treadaway, Chairman, Terry-Yoakum Chapter, American Red Cross.

Mrs. C. D. Moore and daughter, Merle, returned Wednesday from a trip to California. They visited their son and brother, Kenneth, in San Diego, and stayed several days in Long Beach, Artesia and San Pedro. They were accompanied home by Mrs. R. W. Rambo and Mrs. Bruce Moore.

Lt. Eugene Ellis, who is being transferred from Florida to the northwest, was here this week visiting friends. Lieutenant Ellis is a former Cub Football player.

Dr. and Mrs. R. B. Parish and children have returned from a visit to his parents in Minnesota.

The Santa Fe railway, through its Amarillo offices, has recently presented the Herald with a very nice automatic pencil, which is a genuine Dixon "rite rite." This pencil has our own autograph in gold letters, which makes us doubly proud of it. We thank Uncle John for this fine present.

Texas at the present time is growing more than 80 million pounds of wool annually, which is one-fifth that of the entire nation. Sheep growers of Texas, with

a peak price, sold the spring wool crop for better than 30 million dollars. This is aside from the income from mutton sold from the ranches. Just what the mohair crop brought, was not stated, but it should have been enormous.

It is said that the second quarterly payment of income taxes went over this time with the least borrowing or drawing on savings accounts. This installment brought into the US Treasury a sum said to be around two and a fourth billion dollars.

While a number of big fairs are folding up for the duration, including the State Fair at Dallas, the 4-H boys and girls need not lessen their efforts, as the nation is in need of more and better meat. Then, there is still medals for county victors, watches for state winners, and four fine trips and three \$200 college scholarships, according to Chairman Thomas E. Wilson of the Boys and Girls Work committee.

The REA is the latest of the government alphabetical departments to be turned over the bench for a paddling. It is claimed that the REA is using precious material such as copper, claiming to be aiding the war effort with more power, when as a matter of fact they are not creating any additional kilowatts. We hold no briefs for the utility companies, but if the effort is just to fight them, then the REA is out of order.

The nation's civilian population must do without some petting and pampering of doctors and nurses for the duration. This also includes dentists. America is the best doctored and nursed nation in the world, but we must sacrifice some of this professional care of our health to our boys at the front. Most of us should be pretty well posted on how to care for ourselves except in extreme cases.

The Herald wishes to congratulate Editor Clyde Warwick and the Canyon News on being designated the best weekly newspaper in Texas, as well as having the best set 30 inch ad. The Dallas News loving cup was awarded the Canyon paper, published by the Secretary of our own Panhandle Press Association. Thus, all of us South Plains and Panhandle editors can take some pride in the achievement of Editor Warwick and his paper.

Here is some of the good and bad things gasoline rationing has done for the eastern seaboard. It cut fatal traffic accidents 40%

it shaved down greatly juvenile delinquency, as dad would not let junior have the car. Toll bridges suffered a 75 percent drop, and many gas stations had to close, 50 percent in Rhode Island. Ball games, resorts and beaches also felt the hand of rationing.

One person lately returned from the Hawaiian Islands and writing for his home town paper gives us a graphic reason for USO drives and the entertainment for soldiers this money provides. We have heard much of the drunkenness of soldiers and sailors on Saturday night, December 6th. There was some, this writer states, around 32 rounded up by MP's out of some 20,000 stationed on the island. There was no place where they could get decent entertainment, and they had to fold their hands in the barracks or lean against light posts. The other alternative was the low, beer dives in the cheaper parts of the city of Honolulu. Don't you think we had better provide better amusement places for our fighting men?

Suppose some week the Herald should announce in its columns that Meadow had been leveled to the ground, its name abolished and no one ever allowed to repeat it. That the men of that little city had all been shot, the women carried to concentration camps, and the children put in so-called "educational institutions?" That is just about what happened to Lidice (pronounced Leed-eet-say) over in Czecho-Slovakia. It was a prosperous little town with just about as many people as Meadow, (500) with its schools and churches. But someone of the village put a fatal shot or two into the body of the meanest, lowdown hangman and murderer of innocents in the world's history. That sealed the fate of the little city. Old Adolph Hitler made and executed the above order. It is the hope of the Herald that rich men in this and other Democratic nations combine in restoring the little town after this conflict, stone by stone, and that some kind of gruesome monument is erected to constantly remind cut throats of the future that it is not safe to massacre people and destroy their homes and property.

I GIVE YOU TEXAS
by **BOYCE HOUSE**

Texas occupies all of the North American continent except the small part set aside for Canada, Mexico and the rest of the United States.

The chief pursuit of Texans used to be Indians. That was back when Texas was so wild that not even the law of gravitation was obeyed.

Texans are so proud of their State that they can't sleep at night. If a Texan's head was opened, you would find a map of the Lone Star State printed on his brain.

Texas owns the north bank of the Rio Grande—the only river in the world navigable for pedestrians.

Texas is so huge that if you used the northern line of the Panhandle for a hinge, You'd place Brownsville so close to the Arctic Circle that the hot tamale vendors would be able to swap their wares with the Eskimos for polar bear steaks.

Texas is so titanic that it is bounded on the north by the Aurora Borealis, on the south by the invisible lines equinox, on the east by primeval chaos and on the west by Judgement Day.

If all the mules in Texas could be made into one mule, he could kick the "man" out of the moon. If all the bales of cotton produced in Texas were made into one stack, you would have a stairway reaching to the pearly gates. If all the hogs in Texas could be made into one hog, he could dig the Panama Canal at a single root of his mighty snout.

And if all the steers in Texas could be made into one steer, he could stand with his front feet in the Gulf of Mexico, one hind leg in Lake Michigan and the other in Hudson's Bay and, with his tail, brush the Northern Lights out of the Alaskan skies.

I Give You Texas!

Ed Thompson reported Wed. afternoon that hail wiped his crop out, lock, stock and barrel, and we'd just been bragging that we would soon get some roasting ears from that farm.

RECOGNIZE THE GENTLEMAN ON THE RIGHT?—This hitherto unpublished photograph shows Gen. Douglas MacArthur as Texans last saw him, in April, 1937, when MacArthur accompanied President Manuel Quezon of the Philippines, at left, on a good-will trip through Texas to Mexico. James V. Allred, center, then governor, welcomed the visitors to the state. Then a major general and American advisor to the Filipino army, MacArthur wore a business suit as impeccably as the military dress with which Americans are more familiar now.

From where I sit
by Joe Marsh

MAYBE I shouldn't admit it, but there are a few things about this writing job I really like.

For instance, I like the part where ... after all the writin' and the routine is done ... I just set back and think about things in general. (Oh, yes, that's part of the job, too.)

Doesn't matter much what I think about. Sometimes I concentrate on one thing. Sometimes I think of lots of things, one right after the other.

Usually, when I get to thinkin', I send down for some beer. Seems a glass of beer not only touches the spot but it also sort of helps the thinkin' mood along.

It's such a peaceful, friendly beverage. Sort of honest and human. And it tastes good.

I like to hold my glass of beer up to the light and look through it. That beautiful, golden-amber color kind of fascinates me. Reminds me of the sunny barley fields where beer gets its start.

After all ... when you stop to think about it ... beer is a simple, natural thing. I read somewhere that all it's made of is good, wholesome farm grains and water and a little yeast ... with hops for flavor. Nature's process of fermentation and the age-old art of the brewer does the rest.

I guess that's why beer is so wholesome. It really is the beverage of moderation. You just can't imagine anybody getting into trouble drinking a few glasses of beer.

Well, here I am ... going on and on thinking and talking about beer. Probably could go on for hours. That's the way I am when I set back and get to thinking about things.

And by the way, taking it easy and "just thinkin'" is fun. Try it sometime ... quiet and comfortable like.

NOW! You Can Have a "QUICK CASH" Pre-Arranged Funeral Payment Plan

WHEN DEATH COMES there is an immediate need for cash to cover the cost of Funeral and other "Last" expenses.

THIS "QUICK CASH" (Pre-Arranged) Funeral Payment Plan, which we now offer you, provides the immediate cash when most needed.

WE HAVE ADOPTED THIS PLAN—and now earnestly recommended it for your consideration, because—

1st. IT IS A CASH PLAN—one that will permit you to call the Funeral Director of your choice.

2nd. IT IS PAYABLE TO YOU ANYWHERE IN THE GOOD OLD U. S. A.

3rd. IT IS AN EASY MONTHLY PAYMENT PLAN—within the means of every family.

4th. IT IS AVAILABLE TO FAMILY GROUPS OR INDIVIDUALS—and without medical examination.

The West Texas Burial Association was organized by a group of Funeral Directors in West Texas for the purpose of offering to their friends a Safe, Dependable, Low-Rate protection that all could afford. This is not a so-called "Service Policy," but a CASH POLICY—one that may spend part or spend all with the one you wish to handle your loved ones whenever the Death Angel may call. We invite you to visit our office in the Knight Furniture Store, first door west of the Brownfield State Bank. We will be glad to give you any further information regarding our plan.

Save Fats In The Kitchen

College Station, June 25—Conserving kitchen fats and oils is a wartime "must" for every housewife, says Hazel Phipps, specialist in food preparation of the A. and M. College Extension Service. "Don't waste fats and spoil foods cooked in fats with too much heat."

When fat starts to smoke it starts to break down chemically. Food cooked in smoking fat will be harder to digest and may be irritating to the digestive tract. Once fat reaches the smoking stage it gets rancid more quickly if saved for future use. Many fats may be saved and reused. For example, fat used for deep fat frying may be saved and used several times afterward if it is strained each time before being put away. For this purpose several thicknesses of cheese cloth or other clean white cloth are suitable.

Miss Phipps advises using fats while fresh. But she cautions against adding fat on top of fat continuously and letting that poured up first (on the bottom of the can) get rancid.

Every bit of surplus fat, unless it is too strong in flavor or has been scorched, may be used for cooking," Miss Phipps says. Fats which have objectionable odors, tastes and colors easily may be clarified at home. To do this, melt the fat with an equal volume of water, heating at a moderate temperature for a short time, stirring occasionally, and then cooling until congealed. The fat then can be lifted from the water surface.

All fats should be stored in closely covered containers in a dark place and away from strongly flavored foods. Table fats should be kept very cool, in a refrigerator if possible.

WELLMAN HD CLUB HOLDS MEETING

(Delayed)

Members of the Wellman Home Demonstration Club will be glad to dispose of your scrap iron for you if you have any to donate to a worthy cause. Leave the iron on the Griffith elevator lots and the proceeds from the same will be used to buy defense stamps.

The club met June 9th at the home of Mrs. Gib Phillips with fourteen ladies present.

Miss Blanton gave some rules for canning with sugar substitutes and demonstrated the selection of wall and floor coverings.

Anyone interested in canning pineapple should see Mesdames C. H. Heafner, Miller Rich or W. M. Schroeder.

The club will meet with Mrs. W. B. Bennett June 23rd. The subject is: "Fruits in Desserts and Beverages." If anyone has a new way of serving fruits with a sugar substitute or combination, please bring a sample. Plans for the county-wide picnic of Home Demonstration Clubs will also be made at this meeting and Mrs. Bennett will demonstrate rug making.

CARD OF THANKS

MEADOW H. D. MET WITH MRS. FULFORD

The Meadow Home Demonstration Club met in the home of Mrs. J. T. Fulford Tuesday afternoon, June 16. Thirteen members were present and Miss Blanton, Roll call was answered with, "An Act of Courtesy I Appreciate." There will be a call meeting June 30 at 2:30 in the home of Mrs. Moss. She will give a demonstration of canning of pineapple.

Miss Blanton gave an interesting demonstration on "Backgrounds, and Selecting the Wall and Floor Coverings." She gave some helpful hints and suggestions.

The next meeting will be Tuesday afternoon at 3:00 o'clock, July 7, in the home of Mrs. Preston. All members be present and bring some one with you.

Mrs. J. T. Fulford, Reporter.

The South Plains is going to be hard hit for representation in the Legislature when it convenes again next January. Our Senator is in the Army and our Representative will be in the Air Corps, so we will have no one voting for us. It is not right, but I will let some one else suggest the remedy.—Meadow Star.

It does seem that it leaves the Jumbo Districts in a pickle. With a Representative district of some 130,000 people and a Senatorial district of even more, compared to some with 30,000 to 40,000 further on down east, and no redistricting since 1920, and no representation present and voting for our interests. But it seems like it is a kind of fad to get into the service and politics at the same time these days. A wiser guy than this writer will have to figure

it out. However, this is an off year for senatorial election.

A FAVORED CLASS

Labor unions are among the biggest businesses in the United States. Their total income from initiation fees and monthly dues, reaches an astronomical figure.

These unions, however are very different in certain vital respects from other enterprises. They are not subject to regulation. They do not have to register with the government or make periodic financial statements. Their take is not subject to taxation.

Spokesmen for labor have bitterly fought the mildest proposals for requiring the unions to register with the government, and to publish public statements of their

financial standings, as required of other businesses. The unions demand special privileges not accorded other businesses. The want to remain a favored class.

E. C. Preston of Stamford, is here visiting his son and family, C. I. Preston of the Meadow community.

Mr. and Mrs. Herman Heath spent Sunday in Lubbock. They attended the dedication service at the Twin Engine Air Base Sunday afternoon.

Total cars moved by the Santa Fe system last week was 34,934, compared to 32,561 same week last year.

FEDERATED MISSIONARY SOCIETY TO MEET MONDAY

The Federated Missionary society of Brownfield will meet Monday afternoon at 3 o'clock in the First Christian Church. The future of the organization will be discussed, and Mrs. C. M. Chapman, program chairman, will announce the general theme for this year's Christian Fellowship program.

The theme of the meeting Monday will be "Jesus, the Friend of All Mankind." Mrs. Roy Herod and Mrs. Mon Telford will present a vocal duet, "There's No Friend Like Jesus." The devotional, on the subject of "Unfailing Friendship," will be read by Mrs. N. T. House. Mrs. S. P. Veasey will speak on "The Love of our Divine Friend," and the subject of a talk by Mrs. W. W. Price will be "Christ, the Serving Friend." Two songs "What a Friend We Have in Jesus" and "No, Not One" will be sung by the group.

The Federated Missionary Society is composed of missionary societies from several local churches.

IDEAL CLUB MEETS AT AKERS HOME

Mrs. E. G. Akers was host to the Ideal club at a bridge party Wednesday afternoon. Prizes for high and second high score were defense stamps, and the prize for low score was a jar of preserves.

Refreshments of a salad and sherbet were served to Mesdames Tommie Black, J. H. Dallas, Roy Herod, Dick McDuffie, Lee O. Allen, O. L. Peterman, Dick Myer, R. L. Bowers, Ray Christopher, F. A. Scott, Joe J. McGowan and John Boyle.

JOSEPHINE EUDY WEDS CORP. TOMMIE REEVES

Announcement has been received here of the marriage of Miss Josephine Eudy, daughter of Mr. and Mrs. Joe Eudy of Medford, Oregon, to Corp. Tommie Reeves, son of Mrs. Etta Huffman of Hico, La. The wedding took place June 4 in Wichita Falls.

The couple exchanged vows in the Owen-Brumley chapel at Sheppard Field. Chaplain Hardin of the U. S. Army read the double ring ceremony.

The bride was dressed in a light blue suit. Her accessories were navy and white.

Mrs. Reeves is a 1938 graduate of Brownfield High school. Prior to her marriage she was employed at the J. C. Penny store in Medford.

Corp. Reeves was employed in the Jones Theatres in Brownfield before entering the Army. He is now chief projectionist at the War Department theatre at Sheppard Field.

Mr. and Mrs. Reeves are at home in Wichita Falls.

GROUP ENTERTAINS WITH BUFFET SUPPER, DANCE

Employees from this area of the Stanolind Oil and Gas company entertained with a buffet supper and dance Saturday night at the American Legion Hall.

Hosts were company employees from Brownfield, Cedar Lake, and Sundown. Several employees of the Stanolind company from the Stanolind company from Odessa were special guests.

A similar social function is held twice a year by the office here.

Around The Block

We've been noticing the Lee O. Allen, W. R. McDuffie, and Clovis Kendrick's joint Victory Garden on the lot by the McDuffie's house. The story is that Mr. Kendrick prepared the ground for the garden, Mr. McDuffie planted the seeds, and Mr. Allen keeps it worked out by digging for fishing worms. Lots of people have been bragging about eating beans and onions they have grown themselves. Wonder why some of the weed-covered vacant lots in town, that are such a menace to hay fever sufferers, couldn't be converted into Victory Gardens?

Did you hear that Emery Longbrake had been promoted to Technical Sergeant? He has been transferred from Haan Field, California, to Swift Field in Ft. Worth, too. He is the son of Mr. and Mrs. Harry Longbrake of Brownfield. Champ C. Perkins, son of Mr. and Mrs. L. H. Perkins, who is in the Air Force, has gone to Niagara Falls for special training. He was recently graduated from Chanut Field, Illinois.

It must be round-up time in West Texas again. We always get a thrill out of rodeos. And don't their advertisements sound romantic?—"Re-live the days of rough riding, wild west Texas." However, our editor points out, realistically, that he knows there hasn't been much six-gun totin' in this part of the country for at least 50 years.

The local rubber and metal drive seems to have been pretty successful. Did anyone try "mining" rubber here? We heard the technique was to jump up and down until you found a place where you bounced. Then if you dug deep enough you would find a pile of rubber.

The Brownfield Girl Scouts should be complimented for their work in the drive for funds for the USO. They've been a lot of help.

We wonder whether any local fishing enthusiasts have tried out the new Possum Kingdom Lake? It is located near Graham, and was opened about two weeks ago. It's supposed to be a fisherman's paradise.

People: We like Joan Jones's sparkling eyes. She's the niece of Mrs. Harold Jones, and is spending the summer with her aunt. Her home is in Oklahoma City. Dorothy Schaffen is an expert bicycle rider, as well as being a very pretty girl. G. T. Merriwether is frequently kidded about being such a ladies' man. We've never heard Vyrain Patrick sing, but everyone says she has a lovely voice. Bill Price plans to further his musical ambitions by attending the Chicago Conservatory of Music next year. His specialty is playing the trap drums, and he has played with Jack York's orchestra in Lubbock and with Horn's High Hatters here. Mrs. Bertha Stahler always manages to look smart and cool even on the hottest days. Lyneve Chapman, little daughter of Mr. and Mrs. Morris Chapman, is named for her mother, but in order to avoid the confusion of calling both of them Evelyn, they put the second syllable first in the daughter's name.

We heard a joke the other day

Don't Miss Her!

Come in and have your reading by the Indian Woman. She will tell you the PAST, PRESENT, and FUTURE.

PHI BETA CRAESUS MEETS WITH PATSY BALLARD

Phi Beta Craesus club, a social organization of high school girls, met Tuesday afternoon at the home of Patsy Ballard. After a business meeting refreshments of iced tea and cookies were served.

Officers of the club, which was organized last week, are Wanda Hahn, president; Patsy Ballard, vice president; Frances Rambo, secretary-treasurer; Joyce Dungan, reporter, and Glenna Faye Ross, publicity agent.

Members other than officers attending the meeting were Peggy Lewis, Carolyn Harris, Ida Mae May, Mary Ray Simms, and Wanda Finney.

Barbecue Party Is Wartime Fun For Everyone

Even picnics take on a patriotic tone this year. For the nearer home you find your fun, the greater the saving of tires, gas and wear and tear on your car. If you can manage to have a good time in your back yard so much the better. If you haven't one, there are the nearby parks, the beach, and the open country.

If you have a barbecue in your own yard, your popularity with the gang is apt to reach a new high. It's so much fun to cook food out-of-doors. Plenty of hearty food, eaten out in the open air is just what you need to enable you to work harder in whatever line of duty your country assigns you.

If you haven't a barbecue pit, you can obtain an inexpensive barbecue grill to take with you, and set up wherever you decide to have your picnic.

Barbecues can be economical. While steaks and chops are usually the first thought for broiling outdoors, other cuts of meat, such as short ribs of beef, or lamb shanks, or breast, all fine in flavor, can easily be prepared the same way. Often cuts of meat are allowed to stand in a marinade of oil and vinegar for additional flavor.

A good barbecue sauce is always welcome, and this can be prepared in the kitchen and brought with you. Make it as spicy and "hot" as you prefer. Here is a good recipe:

- Barbecue Sauce**
- 1 medium sized onion
 - 2 tablespoons butter
 - 2 tablespoons vinegar
 - 2 tablespoons brown sugar
 - 4 tablespoons lemon juice
 - 1 cup catsup
 - 3 tablespoons Worcestershire

There Is No Shortage In Printing Papers

There is not now, nor has there been a shortage of printing paper, from the kind this paper is printed on to the finest bonds or coated stock. Many got the impression from the collection of waste paper recently that a shortage existed. Perhaps from a patriotic feeling you did without or put off having some printing done that you really needed. No need to do that—

KEEP THE PRESSES ROLLING

The shortage was for waste material from which packing boxes or corrugate board boxes are made. That shortage has long ago been met for that purpose. In fact there are some two car loads right here in Brownfield that was collected during that drive that can't be sold today. No one wants it.

Let us have your order for any kind of printing as usual. We have on hand or can get the paper you wish.

Timely Warnings To Vacationists

AUSTIN—Some timely advice to vacationists concerning the proper precautions to be used in water sports was released from the State Health Department today by Dr. Geo. W. Cox, State Health Officer.

It was pointed out, that in view of wartime restrictions, vacation pleasures are apt to be limited to excursions and picnics at nearby lakes, rivers, and ponds of unfamiliar depths and currents, and without the usual lifeguard supervision associated with bathing beaches and commercial swimming pools.

"Swimming and water sports are beneficial to good health provided one's physical condition justifies this type of exercise," Dr. Cox asserted; "nevertheless, they possess dangerous possibilities if the rules of safety through carelessness or thoughtlessness, are disregarded."

The State Health Officer outlined the following simple rules for bathing and swimming in safety:

1. At least one hour should elapse after a meal before entering the water.
2. Upon the first indication of fatigue, come ashore and call it a day. Don't re-enter the water.
3. If becoming chilled, leave the

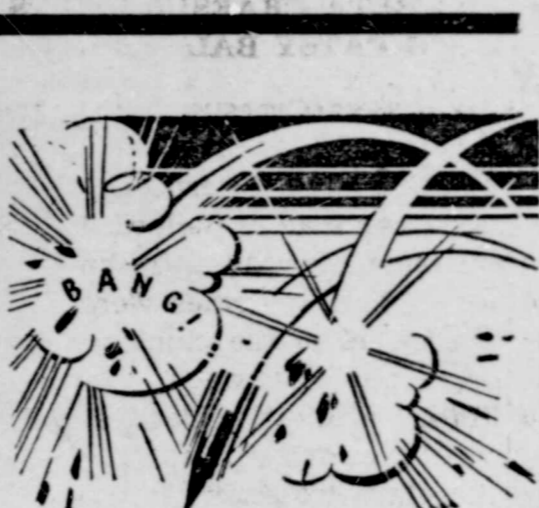

water immediately.

4. Do not enter the water when overheated.
5. Learn to float. This is most important.
6. Never attempt to rock a boat in a spirit of fun.
7. Never swim in water that may be polluted. Swimming close to or even a few miles below sewage outlets is inviting the possibility of acquiring disease.

"Excursions, picnics, and swimming parties contribute much to a healthy, happy, normal life, which is especially desirable at this particular time when the whole nation is tense and under a strain," Dr. Cox said. "It is by no means advisable to eliminate these excursions from our summer program, but it is important that they prove beneficial and not disastrous."

Mr. and Mrs. Earl Alexander of Plainview were here last week before leaving for Toronto, Canada, where Mr. Alexander will be a delegate to the Rotary International convention. They will visit their daughter, Mrs. Hughes Jackson in Dayton, Ohio, before returning. They visited Mr. and Mrs. Jimmy German here.

DISTINGUISHED-SERVICE CROSS

The Distinguished-Service Cross is awarded to persons who, while serving in any capacity with the Army of the United States, distinguished themselves by extraordinary heroism in connection with military operations against an armed enemy. This decoration was instituted by executive order in January, 1918, and confirmed by Congress July 9, 1918.

It is a cross of bronze with an eagle in the center and a scroll below the eagle bearing the inscription "For Valor." On the reverse is space for the recipient's name. The cross is suspended by a ring from a watered-silk ribbon, composed of a band of red, white, blue, white, and red. (Blue, an inch in width, predominates.)

"I AM AN AMERICAN"

As always in a time of national crisis, the country is waking up to a relation of its "oneness." The same people who, when asked what they were a few months ago, proudly said, "I am a New Yorker, a Californian, a Kentuckian," now with one voice proclaim, "I am an American."

But, what is an American? If it were dependent upon birthplace alone, America would collapse as over-heavy structure. If it were a mere matter of nationality, America would soon be one with Tyre and Sidon, were it conditioned upon race, America would fall as did the Mongol Empire and all other countries founded upon racism.

Anyone—no matter of what race, nationality or color—can be an American. Accident of birth does not make an American. And an American-by-choice (wrongly called foreign born) is oftentimes a better citizen than the native born or American by birth and frequently more conscious of the importance and value of that citizenship.

To be an American is not just a matter of declaration; it is a

challenge to act. Like almost all things worth while, being an American is not always easy. To be an American is a thing of the spirit. It has nothing to do with birthplace, race, color or religious beliefs. It is a creed in which to believe, a standard by which to live, an ideal toward which to strive, a faith for which to die. And it is that spirit animating its citizens which will make America endure.—The Mission Times.

Air Force Said To Be First Line Of Offense

LUBBOCK, June 22—"Tradition says that the navy is America's first line of defense, but our air forces are our first line of offense," said Major-General H. R. Harmon, commanding officer of the Gulf Coast Training Area, before a crowd of approximately 35,000 gathered at the large Lubbock Army Flying School for the formal dedication of the field on Sunday, June 21.

General Harmon went on to point out that from Lubbock alone the present field and the new South Plains Training School will turn out more fliers every three months than there were in the whole United States air forces in 1939.

Gathering long before the gates of the Lubbock Field were scheduled to open, the huge crowd saw the behind-the-scenes life of an army camp as they inspected barracks of both cadets and enlisted men, day rooms, theater, post exchange, and the flying line itself. At one end of the large, airy hangar the Lubbock Army Flying School Band under the leadership of Warrant Officer George P. Attridge played a varied program.

During the actual dedicatory services Colonel Thomas L. Gilbert, commanding officer of the Lubbock school, spoke briefly and introduced General Harmon who said, "Although we are now formally dedicating the field for practical purposes the field was dedicated when the first class was graduated." Representing the civilian public of Lubbock and surrounding area, George Dupree of Lubbock spoke and placed war responsibility squarely on civilians as well as soldiers.

After the formal dedication the sky above the Lubbock Field was literally aswirl with planes flown by flying officers and cadets in various formations and routine flights. Because of the press of war time business, General Harmon was forced to cut short his visit at Lubbock and flew away to meet previous commitments.

TYPOGRAPHICAL ERROR

Despite the war bulletins which flow across his desk every hour, President Roosevelt can still break the White House tension with a laugh. Ernest Lindley tells us that a Washington newspaper, in its first edition, published a headline reading: "President Kept to Rooms by Coed." The presses were stopped after 980 copies had been run, the typographical error corrected and all 980 copies recalled before distribution. But when told about the misprint, the President was so amused that he ordered 11 of the original copies to pass out among his friends.

The headline first should have read: "President Kept to Rooms by Coed."

Met Kyle Graves at a stop light at Sweetwater Sunday afternoon, headed to Stephenville to visit his dad and mother. Our wife remarked they wouldn't look so fresh after they got down in the sticks and its sticky heat.

Mr. and Mrs. C. T. Edwards were in Roswell Sunday attending the World's Championship Roping Contest. C. T. said it was great.

REGISTRATION OF SUGAR FOR HOME CANNING

For the benefit of those that did not get to register during the registration period, may come in and register July 7th. This will probably be the last day for registration for canning sugar, so we urge everyone who has not registered to come July 7th.

There has been some question as to what should be done with sugar cards for those people who pass away and also those who leave for the army. We wish to instruct the people that these sugar cards must be turned in to the War Price and Rationing Board within a few days after the death or leaving for the army.

Let Everybody Know You're Investing 10 Percent of Your Income in War Bonds

The attractive red, white and blue window sticker, pictured above, is the new yardstick of patriotism in the War Bond drive throughout the nation. With the slogan, "Everybody every pay day, ten percent," sweeping the country, patriotic Americans on the home front are rallying to their Government's appeal for funds with which to help finance the war. The home which displays the "ten percent" sticker is doing its share toward Victory for America and the United Nations. The stickers are being distributed through local War Savings Chairmen.

CAN TAKE OUR MEDICINE

Writing in a recent issue of "Time," Rev. Russell C. Stroup of Lynchburg, Va., states:

"Some of us are getting sick and tired of the wail from Washington, that suggests that we, the people, are unaware of the war. What do you want us to do? You say we are awake. You say we are working. What do you want us to do? Shall we stand ranting in the streets tearing our shirts like any Congressman to convince you we are serious? Wars are not won by words but by work and sacrifice. We are working. We are willing to sacrifice.

Our sons have gone and are going gladly and we have proudly watched them go. Do you think the families of men in service are unaware that there is a war? Our way of living has been and is being curtailed and most of us have heard only cheerful acceptance of growing restrictions that affect our daily lives. In many sections such as ours, where there is little or no defense work our economic security is severely threatened but there have been mighty few complaints. I have heard scores of men whose livelihood is gone completely, say with a smile 'That's O. K., we can take it.'

"Perhaps our critics thinking of themselves are only surprised that we make no complaints. Perhaps they are suspicious of a silence and acceptance that they cannot understand. Perhaps they do not know the infinite capacity of the people of America to quietly and without heroics give to their country. Perhaps they have lost contact with the people.

C. L. Horn, former band director of Brownfield High school, left last week to enlist in the Army Air Corps.

Mr. and Mrs. Bill Collins of Lubbock visited Mr. Collins's parents, Mr. and Mrs. W. H. Collins here Sunday.

War Didn't Stop Cowboy Reunion

STAMFORD, June 22—Highlight of the Texas Cowboy Reunion to hundreds of veteran cowhands is the annual meeting of the Texas Cowboy Reunion Association. The roster of this organization totals approximately 1,800, representing 16 states, according to Chas. E. Coombes, secretary-treasurer, and includes old-timers from all sections of the Southwest.

Entrance fee to this group requires that one must have served as an active hand on the range 35 or more years ago. Some of the most colorful names in ranching history are included in the list of members, men who helped build and develop the ranching industry, men who know the romance and the hardships that were a part of the "good old days."

These pioneer cowpunchers and ranchers will meet again this year when the thirteenth annual Texas Cowboy Reunion is held here July 2, 3 and 4. Many tall tales will be told of yester-years, when the West was wild and woolly and when a man's best friends were his six-shooter and his pony.

Members of the Association pay small annual dues and receive badges which admit them to each rodeo performance and entitle them to a free chuck wagon meal each noon of the Reunion.

Small things seem to be significant to some people, is in the candidacy for the office of Governor. Hope Wheeler seems to think it very vital that the people know that he was a "chamber maid" to cows when a boy. He is publishing this story continuously in his own newspaper. Just how many people will vote for him because of this qualification, is not known to us, or to him. But it seems evident that this particular candidate sets this out as one of the major qualifications of a Texas governor. If bossy could vote, it might have greater weight in the July primary.—Wink Bulletin.

We have an idea, Editor Dow, that Governor Coke Stevenson has milked as many cows as Mr. Wheeler, and dehorned and "tailed up" a lot more than the Arlington-Dallas-Fort Worth editor. If acting as nurse maid is any qualification for governor of Texas, Coke is tops, and he is tops and a real Texan. He has heard the rattle of horns and the bleat of sheep from infancy. Yes, we have a mighty fine man for governor—to keep as governor.

Can You Prove You Are A Citizen?

AUSTIN—Are you a citizen of the United States? Can you prove it?

The easiest and sometimes the only way you can definitely prove native-born citizenship is by a birth certificate showing that your birth is on record at the State Department of Health.

Dr. Geo. W. Cox, State Health Officer, this week re-emphasized the importance of every American citizen being in possession of his birth certificate and outlined the simple procedure for obtaining this vital record.

"Requests for certified copies should be made direct to the State Health Department, Bureau of Vital Statistics," Dr. Cox said. "There is no charge except the fifty cents necessary to pay for making a search of the records and a photostatic copy if the record is on file."

Birth certificates are doubly important in the national emergency, serving as proof of citizenship which is necessary for entrance to our armed forces or for employment in any national defense industry. A record of birth is also useful in establishing the time and place of birth as well as parentage and can be of great assistance in the settlement of estates and other legal matters.

"American people are beginning to realize the importance of birth records since our entry into the war," Dr. Cox declared. "In the month of March alone, the Bureau of Vital Statistics received 19,810 requests for copies of birth records; and in April and May, the requests have continued to increase steadily."

YOU GUESSED WRONG! HE'S IN THE INFANTRY!—In modern warfare infantrymen fight with other arms than the traditional rifle. This soldier operates a 37-millimeter gun and among his comrades on foot are mechanics, cyclists, telephone operators, ski troopers, "walkie-talkie" radio men, parachute troops and airborne infantry. Off to each flock of infantry troops, mounted in a speeding armored car or crouched behind his well-concealed weapon at a road junction is the 37-millimeter gunner. Primarily, in modern warfare, he has but one target: enemy tanks and armored vehicles. His first shot must be a direct hit for armored vehicles travel at a high rate of speed and a miss means precious seconds lost.

Baptist Church News

The Daily Vacation Bible School was opened Monday morning and will continue through next week and with more than a hundred already enrolled and with a fine supply of helpers and teachers it should be a very successful session.

If you have it in your heart to make an offering on the building note there are only two more Sundays in which it can be done in time to meet the installment of \$1400, and as the time is short mark your check "building fund" and bring or send it to the church. When this installment is paid the debt will be reduced to fifteen thousand dollars and it was twenty thousand to start with. You appreciate this building in the community and will invest some money in it and will feel better by having done so. The men in the service are fighting for freedom of worship and it is worth fighting for but some refuse support to religious institutions and refuse to worship God their creator and so far as we are concerned we would not deny them that privilege afforded by freedom of thought in this country, but the God which we worship and reverence will call on them to account in His own good time.

The religious census of our city is about complete and is being taken to find Baptist families who may have moved here and have failed to identify themselves with our church and the invitation is out to them and will be delivered personally to attend our Bible study each Sunday morning and worship with us. Many of these people were once active in their churches but have moved among us and do not know how long they will remain here, but they should honor their Lord while they are here. Visitors are always welcome.

Dr. and Mrs. J. D. Sanders are in San Saba visiting. Mrs. Sanders will remain for a longer visit.

AIM TO GET THE BEST OUT OF YOUR COOKING

Follow These Rules:

- Roast meat at low temperature in your Gas oven and reduce shrinkage.
- Remember that the flexible Gas flame can be regulated to any degree of heat you need, eliminating scorching and overcooking of food.
- Use any remaining vegetable liquids in soups, gravies, sauces, or cold in tomato juice.
- Plan one casserole dish a week to use left-overs.
- Cook vegetables by the "waterless" method for which your Gas range is especially suited. The flexible Gas flame will give you the exact degree of heat you need.
- Bring vegetables to boiling point quickly over full Gas flame, then turn flame low and cook gently.
- Keep utensils covered and do not use soda in vegetables. Do not pre-heat your Gas oven or broiler too long. Remember, Gas is fast.
- Plan complete oven and broiler meals, to make full use of Gas.
- Avoid using small pans on large or giant top burners.

Santa Fe and your WINTER WHEAT

Once more the miracle of the winter wheat harvest is with us. Nature has been kind, in Santa Fe territory, and another bumper crop is indicated. Prices, too, are good.

That is a happy prospect, but it brings serious problems with it—both for you who raise the grain, and for us who move it.

You face a shortage of harvest labor, and a serious lack of storage space, at terminals and in rural bins, because of the unprecedented carry-over of old wheat. We face the job of moving a vast grain tonnage, in a short time, on top of the greatest railroad traffic load in history.

For example, in April, 1941, Santa Fe freight cars moved 108,131,891 miles. In April, 1942, that mileage had leaped to 142,823,878. A great part of that 32% jump represented war freight, that *must* move first.

Santa Fe pledges every possible help in moving 1942 wheat to points where it can be accepted and placed for use. Of you we ask prompt loading and unloading, and that no car be used for storage, even temporarily. Let's pull together and whip this war-born transportation problem, as we have so many others in the long years we've worked together.

AT YOUR SERVICE—Talk over your transportation problems with your Santa Fe representative. He'll be glad to help with practical suggestions.

Cake Recipe

Through the courtesy of Mrs. Walter Gracy, we give you a tried recipe for cake and filling made of White Karo. Mrs. Gracy says she knows the cake is good because she has baked three.

- KARO CAKE**
- 2 1-2 cups flour, (sift then measure).
 - 2 1-2 teaspoons baking powder.
 - 1-4 teaspoon salt.
- Sift these three items together three times.
- 1-2 cup butter or other shortening.
 - 1 cup White Karo.
 - 2 eggs, unbeaten.
 - 1-2 cup milk.
 - 1teaspoon flavoring.

Cream shortening and add syrup gradually, beating after each addition of syrup, put in 1-4 of flour and beat until smooth, then beat in the eggs one at a time, then alternately beat in the remaining flour and milk. Makes 2 nice layers.

- SNOW TOP ICING**
- 2 egg whites
 - 1 cup White Karo
- Put above in top of double boiler and beat with rotary beater

until it peaks up, then put in 8 marshmallows, which will have to be beaten up with a spoon, and beaten until they are melted.

Guests in the J. W. Fitzgerald home last week were Mrs. S. W. Reynolds of Dyersburg, Tenn., and Miss Jewel Hudson of Quinlan. Miss Hudson taught in the Albuquerque public schools last year. She left Brownfield Saturday to go to Denver, where she will attend a meeting of the National Education Association.

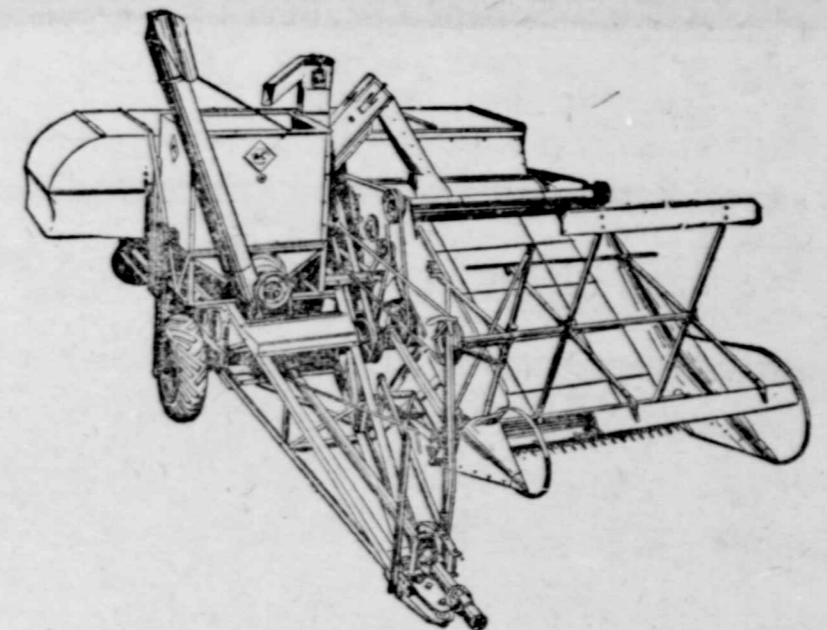

Mrs. James D. Taylor has returned from Tipton, Okla., where she visited relatives.

Mr. and Mrs. Walter Butts went to Winters last week to attend the funeral of Mr. Butts' father. They returned Monday. Mr. Butts is employed at the West Texas Cottonoil company.

Mr. and Mrs. J. B. Knight and family, R. L. Knight, Mr. and Mrs. Joe J. McGowan, and Bill McGowan returned this week from Ruidoso.

Uncle Tom Chisholm, aged minister, of El Paso, is here visiting his nephew, G. W. Chisholm and family. While Uncle Tom's movements are a bit slower, his mind is still clear.

GET YOUR COMBINE READY FOR HARVEST

Now is the time to start getting your combine ready for the harvest while parts are still available. Due to the large acreage and the scarcity of new machines, it's important to get the old combines fixed now. We have a few completely rebuilt harvesters for sale.

WILL O'DANIEL DEFEND HIS RECORD?

In the public press and on the political platform both Dan Moody and James V. Allred have been assailing the record made by Senator W. Lee O'Daniel in the United States Senate.

Repeatedly Dan Moody has made this charge: "On the second day of your service in the United States Senate, you (Senator O'Daniel) made a speech on the floor of the Senate in opposition to extending the service of men who had been called under the Selective Service Act and said: 'I am sure that the Congress would make another serious blunder if it should enact legislation arbitrarily extending the draft beyond the twelve months' time originally understood. Please do not do it.'"

"President Roosevelt, the Secretary of War, and Chief of Staff Marshall had appealed to Congress to extend the draft," Says Moody. "You said: 'I oppose extending the period . . . one day.'"

"Our ships were then being sunk at sea. War was all around us. Your speech and vote were to disband the trained army and send it home. That was exactly what enemies who had planned our destruction for ten years wanted. In four months Pearl Harbor was attacked, and this country was at war around the world. Will you describe to the people of Texas what would have been the fate of this nation if your position on this question had prevailed?"

Senator O'Daniel made the opening speech of his campaign at Waco Friday night and he completely ignored this and other questions which had been propounded to him by Mr. Moody. He made no allusion to them.

James V. Allred also had repeatedly made the same criticism of O'Daniel's record and stated further that when the matter came to a vote, O'Daniel lined up with Senators Wheeler and Nye and Clark and Vandenberg and other isolationists against President Roosevelt and most of his Democratic colleagues in the Senate and voted in effect to send the army home.

Mr. Allred further quoted the prepared statement which Senator O'Daniel was about to broadcast over the radio boasting or facetiously stating that upon his arrival in Washington President Roosevelt had left town in fear of meeting him but friends got wind of O'Daniel's intentions and induced him to refrain from broadcasting the criticism. That this did occur was published in all the daily newspapers at the time and became a matter of public knowledge. Allred cited this incident to accentuate the fact that O'Daniel was then parading his opposition to the President, in spite of the fact that in the campaign last summer he declared his purpose to support the President in his foreign policy.

In his opening speech Friday night, Senator O'Daniel ignored these criticisms also, but he made some comment about his opponents wanting to go to Washington to help Roosevelt win the war and then wise-cracked: "That's funny. Whoever had the idea that the President needed any help?"

We are wondering if O'Daniel will be able to strum and hill-billy his way back to the Senate. We seriously doubt it.—Tahoka News.

Mrs. Scott Dalton honored her son, John Earl, on his 13th birthday with a party Tuesday night, June 23rd. Games were played, gifts were opened and refreshments were served to Twenty-one guests.

SENTRIES PATROL PACIFIC COAST

ALONG the pebbled and sandy beaches of British Columbia, where thousands of Americans have enjoyed vacations, the Canadian army now maintains a ceaseless patrol. Thousands of men, with their faces turned westward keep vigil from sentry posts, while up and down the beaches, Bren Gun carriers rumble on patrol, night and day. Under Canada's system of voluntary enlistment for service anywhere in the world, every two minutes of every day since the outbreak of war, a man has volunteered and has been accepted for service in Canada's Navy, Army or Air Force. Such enlistments now exceed 400,000. This number is supplemented by the men called up under Canada's draft system for national defense. After these men are given four months' training, they are detailed for duty with the army in Canada until the end of the war. Any draftee has the right at any time to volunteer for service outside of Canada and thousands have taken advantage of this privilege.
