Banks Have Excellent Mid-Summer Showing

Despite the usual mid-summer slump of deposits in a non-wheat section, the deposits of the two Brownfield banks, the Brownfield State and First National show an increase of slightly more than \$100,000 over the statement of June 30, 1941, of deposits.

The only portions of the banking operation that showed a minus from last year, was loans and cash, loans being \$3,760.49 under same date last year. Resources show an increase of \$135,027.32; cash and available minus \$474,867.95; deposits a plus of \$101,259.17.

The combined showings of the two banks in resources, cash and available funds, deposits and loans as of June 30th, is given below:

Resources	\$2,556,877.16
Cash and Avail.	\$873,823.90
Deposits	\$2,322,497.82
Loans	\$1,036,032.24

Stopping The Slander Of Gov. Stevenson

Some of the muck raking candidates for governor, who seem to know nothing else, have been slandering in every way possible, our good old west Texas Governor, Coke Stevenson. They have accused him with a bit of everything, and people who have not studied that matter, as the Governor has paid little attention to the matter himself, merely stating that great and good men before him, including Washington and Lincoln, have been slandered. "But," he states, "I do not compare myself with them."

Three Hurt In Car Accident Saturday Night

Three Lubbock people returning to Lubbock Saturday night, were badly shaken up and injured when their car was hit from the rear by another Lubbock car with these men in it. Mr. E. N. Locke was driver of the car that was hit. His wife had a badly lacerated hand, a wrist and finger broken; her daughter, Mrs. W. A. Reece had a broken finger and her little 8 months old son a broken leg. All were brought to the local hospital, but have been released. Mr. Locke was uninjured, and two other children were not badly hurt. The accident happened out near the oil mill.

Straw Vote Of Senator's Race Being Taken

Up at Meadow last Saturday, Editor Afton Richards took a straw vote in the town, allowing all farmers and business men alike to cast their votes. Alfred and O'Daniel tied with 42 each; Moody was a poor third with 11; eight were undecided. Coke Stevenson beat out Hal Collins for governor 76 to 15.

The Hancock Are Liking California

Mr. and Mrs. B. C. Hancock, well known cafe people here for a number of years, have written in that they are liking California fine. They have an acre "ranch" at San Diego, and 1500 white leg-horn pullets, and say they are really living off the fat of the land.

Billie Simms With Douglas Aircraft Co.

Mrs. J. L. Simms of the Loop section, was in Saturday, and stated that she saw so much about what Terry county boys were doing in the war service, as well as in war plants, that she wanted the folks to know that they were also proud of their son, Billie, who is working for the Douglas Aircraft Co.

She stated that Billie was doing fine, and liking his work very much. He took a course at an areo school at Lubbock before going to the coast. Those who wish to write him will address their letters to Billie Sims, 2414—30th St., San Diego, Calif.

One More Week Until Election Day

Only one more week of that miserable feeling for the poor candidates, that is those who have any competition, and then the dear people will tell them which one is to serve them the next two years. All are fine men and women, and the men that have competition are going to be hard to decide on.

Faculty for Next School Year Is Announced

Three vacancies remain to be filled in the teaching staff of the Brownfield schools, according to E. E. Hancock, superintendent. Positions still open are for two physical education teachers and a band director in the high school. Mr. Hancock also stated that there may be another mathematics teacher in the high school.

How Your Scrap Rubber Is Reclaimed

Perhaps you have wondered, along with millions of other Americans, just how rubber salvaged from the current rubber drive will be used in the production of new rubber commodities. Well, the "Monthly News Bulletin" for July, a publication of the American Petroleum Industries Committee, gives, step by step, a highly interesting story of the reclamation.

How Your Scrap Rubber Is Reclaimed

Perhaps you have wondered, along with millions of other Americans, just how rubber salvaged from the current rubber drive will be used in the production of new rubber commodities. Well, the "Monthly News Bulletin" for July, a publication of the American Petroleum Industries Committee, gives, step by step, a highly interesting story of the reclamation.

John Smith's worn out tire is sent to a junk dealer and then is shipped in a box car to a reclaiming plant, where it is stacked with thousands of other tires outside the plant until the time comes to put it through the "alkali digestion process," the process most commonly used in the reclamation of rubber.

"The bead of the tire, which is composed largely of fabric and metal, is first cut off by a "dis-beading" machine. Then the tire is prepared for the "digestion" process by cutting and grinding into small pieces, in exactly the same way that food is prepared for digestion by the teeth.

"After the scrap is ground into minute pieces, it is passed over magnetic separators, which remove a large percentage of the magnetic particles, such as iron and steel.

"The remains of John Smith's tire are placed into a steam-jacketed vessel equipped with a stirring device. Caustic soda, water, and oils are added to serve as the "digestive juices" during the eight to twenty-four hours in which the rubber is being digested under pressure. Bus and giant truck tires require longer times than passenger tires, because they are generally tougher.

"The rubber from John Smith's erstwhile tire is now washed free of caustic and dirt, passed through a squeezing press to remove the water, and dried at a high temperature. Ingredients are then added to give the reclaimed rubber the specific qualities desired.

"After being rolled into a very fine sheet to eliminate and unsoftened pieces, the rubber from John Smith's tire is strained to remove the non-magnetic metals, such as brass and copper. It emerges from the strainer in spaghetti-like strings and then is rolled into a thin, uniform sheet of rubber in a rotating drum, from which it is cut to form a square slab. About 85 percent of usable rubber is obtained from John Smith's twenty-two-pound tire.

"About 209,000 long tons of reclaimed rubber were produced in 1940, according to the Rubber Manufacturers' Association, most of which came from automobile and truck tires. As of October, 1941, the rubber industry was using about 4.5 pounds of reclaimed rubber for every ten pounds of new rubber. Old tires turned in for reclaiming purposes are doing much to keep military and essential civilian vehicles rolling.—Southwestern Banking & Industry.

Ed Stevens and wife have been visiting relatives in Okiahoma. John Holmes and family, also Chick Holmes and family, have been visiting relatives in Cleburne County, Arkansas.

Arthur Stokes was in Big Spring on business Tuesday of last week. Hugh Harred, one of our progressive farmers and patriotic citizens, sold a bunch of calves and invested the \$200.00 in War Bonds.

This is one time when our country will not bury the hatchet until the Axis is buried.

Henry Wright has been helping his neighbors with their farm work. We know something else good to tell on Mr. Wright. He is supporting one of the Gold Dust Twins for U. S. Senator—in fact several of our fames are doing just that.

We have been wondering that if Senator O'Daniel has been sincere in his fight against the death penalty for desperadoes, why he does not rush back to Washington and have our National Government abolish capitol punishment, so the German spies, who are now on trial, would not be compelled to face the firing squad.

Maybe we should be thankful that O'Daniel is our Senator and not our President. For if he were our President, then those who are convicted of treason, spying, or the murder of our federal officers would have no need to fear the death penalty.

We wonder if the unpopular, half insane religious sect that met with a rough reception in Brownfield, is doing any more to weaken the morale of our soldiers and civilians than a man who is seeking a high office and who tells us that Washington City is an insane asylum and also tells us that the professional politicians got us in this war and says that the authorities in Washington are liable to put a muzzle on us and ration the air that we breathe.

While candidates Lester Boone and Baker Saulsbury of Amarillo are whaling good men, and good business men in their line, The Herald is of the opinion that right at this time is no time to try to beat Ernest O. Thompson of Amarillo for rail commissioner.

The Pool H. D. Club met July 13, in the home of Mrs. J. J. Gunter with the president in the chair.

Miss Blanton could not attend. After the business meeting, refreshments were served to 7 members, one new member, and 13 guests.

Why Eat Right?

Dorothy Faye Blanton
Terry County Home
Demonstration Agent

"To win the war, we must have strength, courage and efficiency. More than most people have realized, right eating is a first step toward becoming strong, courageous and efficient. That means many Americans must follow now ways of eating.

It's Patriotic to Eat Right

Modern science has greatly added to our knowledge regarding the nutritional needs of people and animals. We are told that generations which follow us will be a superior race of people if this knowledge is used.

The Texas Food Standard interprets this knowledge for every one. Follow it, and you may be assured that you have taken an important step toward buoyant health, greater efficiency and better spirits we all need so much now.

It's Fun to Eat Right

The Texas Food Standard was planned by Texans for Texans. Most of the foods it suggests grow abundantly in Texas. It recommends foods Texans like as well as those they should eat. Study the Food Standard. You will see that in most instances several foods are recommended in each group. You may select those you like and can afford.

There is a reason why you should eat some from each group of foods. Some contain large supplies of nutrients. Some are just good all-around foods. You can learn to like all of them. After all, eating is fun.

Follow These Tips

First on the list is milk which helps build bones and teeth and serves the body in many important ways.

Eat an Egg every day, if you can afford it. When prices are high you can leave them off occasionally, provided you eat lots of peas and beans.

Now about meat. Cheap cuts of meat are as nutritious as the more expensive. If possible, use some lean pork. An occasional serving of liver pays high dividends in health. If the budget is slim, remember that "Beans are the poor man's meat."

Potatoes are fillers in a good dependable way. Bake or boil them in their skins, for they retain the greatest amount of their original nutrients that way. Nutritionally speaking, Texas sweet potatoes are even better than Irish potatoes.

Get Vitamin A Insurance
Watch your diet carefully for the green and yellow vegetables. These are Vitamin A Insurance. Not a day should pass without your eating a liberal supply. Eat other vegetables, too . . . for variety and for small amounts of many nutrients. But remember that color counts in vegetables, and the green and yellow have special value.

For Vitamin C, use Texas citrus fruits, fresh or canned. Texas melons, cantaloupes especially, are valuable for the same reason. Useful between-season foods of the C group are tomatoes . . . fresh or canned. And cabbage, if you eat it raw. Other fruits, like other vegetables, add variety, flavor, and interest as well as additional food value.

Eat whole grain cereals for the "morale vitamin." When using

Baptist Church News

The pastor left Monday for Wichita Falls where he will preach in a meeting with one of the churches of that city and will not be in the service here next Sunday.

Dr. John Cobb of Plainview, preacher and teacher of Bible in Wayland College is expected to occupy the pulpit here Sunday morning and evening at the regular hours. If you have heard Dr. Cobb you will wish to hear him again but if you have not had the opportunity of hearing him you will no doubt wish to do so next Sunday.

The census of the city has been completed and is being placed in the hands of the departments and classes and its value will be measured by the manner in which these people are followed up and invited into the classes. Strangers always appreciate an invitation to the Bible study and services of the church as it makes them feel welcome.

The Brotherhood of the church will hold their monthly meeting next Monday evening and while these are busy times the men should be busy about their work and the regular program will be rendered.

The men have a work that will not be done by any but themselves and too often it has gone without being done as they could not be depended on.

Visitors will be welcome Sunday morning and evening as they come to hear the visiting preacher and teacher of Bible.

White flour or bread, use the enriched. Make it a rule to vary your cereals. Eating all corn, all rice, all white flour or bread is getting in a bad nutritional rut. The less money you have to spend on food, the more cereals you must use, so make sure your cereals are varied and of the highest nutritional value.

Some Sweets! These may be molasses, sorghum syrup, honey, maple sugar or suyrup, or corn syrup as well as cane sugar. Molasses and sorghum syrup have nutritional advantages above the other sweets.

Butter or margarine with vitamins added completes the Texas Food Standard, our daily guide to good eating.

For a Good Diet I Need Daily:
1 pt. to 1 qt. milk*
1 egg**
1 serving meat**, poultry, fish or cheese

1 serving Irish or sweet potatoes
1 serving green or yellow vegetables

1 other serving vegetable**

1 serving citrus, tomatoes, raw cabbage, strawberries, or melons

1 other serving fruit

1 serving whole grain products

Other cereals and bread as desired

Butter, or margarine with vitamins added

Some sweets

6 to 8 glasses of water

*Children under 16 need 3/4 to 1 qt.

**Dried beans, peas, or nuts may be substituted for eggs or meat; dried peas or beans may be the other serving of vegetable.

Feeding Dairy Cows For Profit

Unless a dairy cow is properly fed she will not produce at her best, according to R. N. McClain, county agent of Texas A & M College Extension service. Feeding is the starting point for all dairy herd improvement work. A high producing cow needs more feed than a low producing cow. No Dairyman should expect a half-fed cow to produce.

A dairy cow should have all the roughage she will clean up but should be fed grain according to production. A cow should receive about three pounds of grain for every gallon of milk she produces. Now that sudan is getting big enough to graze, the grain mixture should contain about 155 protein; when the grass begins to get mature and stemmy the protein content of the grain mixture should be increased to about 205. The protein content of grasses declines as the plant reaches maturity.

Terry county producers have set a goal of a 700,000 gallon increase in milk production in 1942 over that of 1941. This goal can be more nearly met of the above practice is adopted. Of course there are numerous other factors entering into the production of milk but feeding a balanced ration according to production is one of the most important.

Leaf Worm Insurance

Leaf worms could become a menace to our cotton crop again this year. A supply of poison sufficient to go over the crop at least once would be a good investment. Why not take out a few dollars worth of "leafworm insurance?"

RUSSIAN WAR RELIEF

Contribution of more than \$2,500,000 to the Russian War Relief Fund is testimony of America's appreciation of Russia's valiant war effort and the fortitude of the Russian people in the struggle against Nazi Germany. The money goes to alleviate the suffering of men, women and children who are sharing alike the ordeal of war in the Soviet Republic.

The largest contributions to the fund, announced at the recent rally in New York City, were: United States Steel Corporation, \$75,000; John D. Rockefeller, Jr., \$50,000, and Republic Steel Corporation, \$25,000. None of these donors is a sponsor of Communism, but Mr. Rockefeller's statement explained their attitude. He said that his gift was "an expression of my admiration of what the Russian Army is doing—their heroism, their courage and their sacrificial devotion to their homeland." Other contributions have been made by business organizations, labor unions and churches.

In admiring the magnificent fight which the Russians are making on one front and the Chinese are waging on another, the American people must have a sense of humility in the presence of the greatness of the Russian and Chinese people. Their valor and sacrificial devotion to homeland must be matched by our own people in the common cause for survival against a foe which gives no quarter.—Star Telegram.

Texas Has Over 100,000 Oil Wells

AUSTIN, July 11.—The Texas Railroad Commission's weekly well-drilling report today revealed that the state now has 100,062 producing oil wells.

How much oil they could produce is a matter of much speculation. They are operated under a pro-ration system that currently permits production of about 1,300,000 barrels of oil a day.

The 100,000th well was brought in in Hunt county near Greenville this week.

TSCW SALTILLO SCHOOL CREATES MUCH GOOD WILL

DENTON—An unusual experiment in inter-American education is being continued this summer at Saltillo, Mexico, by Texas State College for Women.

The month-long school, beginning July 17, gives students the advantages of studying Spanish in a Spanish-speaking community with Mexican instructors conducting conversational drills and conducting lectures.

It gives the students the opportunity to know Mexican people, their customs and culture, as well as their language. It gives the inhabitants of Saltillo an opportunity to know a group of rep- young women or the United States and to realize the keen interest of Anglo-Americans in Mexican culture and civilization.

Not just the sixty-one students at the school last summer, but their hundreds of pupils, their families, their friends, and their classmates are spreading the international good will. No member of these girls' families ever will be permitted to develop a distorted view of our neighbors to the south.

Organized by Dr. Jerome Moore and Dr. Rebecca Switzer, the educational plan was backed by Dr. L. H. Hubbard, president of the college. All have a strong love for Latin-America, its people, its culture, its ideals, and its architecture.

Canyon News—"Two wealthy men—anti-Roosevelt isolationists—have ganged up to fool the people. O'Daniel, the flour salesman, and Hal Collins, the laxative salesman, are touring the state. Their first appearances have not drawn crowds."

SEES POST-WAR TRANSPORTATION IN HUGE PLANES

AUSTIN—In the post-war world, air transportation will invade the heavy freight field of the railroads and the heavy cargo field of international shipping, predicts a University of Texas transportation expert.

D. J. H. Frederick, University professor of transportation and industry, who is also consultant on transportation for National Resources Planning Board, points out that only 40,000 planes of a size capacity already constructed—the B-19—would be required to equal the whole cargo capacity of all the ships of the United Nations.

Gliners, too, will enter the post-war transportation picture, he asserted. A "locomotive plane," towing a half dozen freight gliders

destined for different places, could drop off its cargo, glider by glider, without having to slow down or stop until the final destination should be reached.

Allen Shepherd and wife of Abilene, were here this week visiting his sister, Mrs. H. D. Leach, and his sister-in-law, Mrs. Bert Shepherd and families. Mr. Shepherd was a pioneer settler here, and was our tax-assessor when we arrived on the scene 33 years ago.

FISHERMEN RETURN FROM NEW MEXICO LAKE

Six local men returned from a fishing trip to Conchos Dam, near Tucumcari, N. M. They said fishing there was "fairly good," although a storm prevented their going out on the lake one day. The fishermen were Lee O. Allen, Dick McDuffie, Glen Akers, Clovis Kendrick, Everett Latham, and O. L. Peterman.

Pvt. Kenneth Hill of Camp Wolters has been visiting his mother, Mrs. Ben J. Hill here this week. He is convalescing after an appendicitis operation.

Mrs. H. H. Patterson and Mrs. Clifford Horn left Sunday for Wichita Falls, where they will visit their husbands at Sheppard Field. They were accompanied by Miss Grace Tarpley.

Harold Simms went to Lubbock Monday to enroll for the nine-week semester of summer school at Texas Tech.

Miss Virgella Nan Dunn returned to her home here Sunday. She has been attending summer school at Texas Tech.

Mrs. Louis B. Reed of Lamesa, was here this week in the interest of the candidacy of her husband, Judge Reed, for District Judge. Judge Reed, who is now a Lieut.-Colonel in the army, located at Fort Sill, Okla., has recently undergone minor surgery, but is recovering nicely.

ALEX. M. FERGUSON of Howe, Grayson County, Texas Candidate for Governor

Vote For Judge E. L. Pitts of Lubbock

FOR CHIEF JUSTICE COURT OF CIVIL APPEALS

He is endorsed and recommended by 100 South Plains Lawyers, including all the Terry County Lawyers, as follows:

BURTON G. HACKNEY
R. L. GRAVES
GEO. W. NEILL
JOE J. McGOWAN
H. B. VIRGIL CRAWFORD
L. C. HEATH
W. W. PRICE

Miss Jimmie Green returned Saturday from Lubbock where she has been going to summer school at Texas Tech.

G. D. Wade was in from his Union farm Saturday, and from all accounts, he was getting 'em told. Wade stated that while in business at Union, when asked who he was voting for, he would have to smile and squirm, and tell them he had hardly made up his mind, then agree that their man was perfect. Now he tells them that he is going to vote just like them, "as he @/!!** pleases."

Back in the early days, when this thinly settled county got a large family as settlers, we felt good. Such a family was that of J. A. and Mrs. Rushing, of Tokio community. Mr. Rushing and daughter, Miss Pearl, called on the Herald Saturday, and some of the old time subjects were discussed back some 30 years ago.

WARNING! Although a boy or girl under 16 has a social security card the board warns that one runs a risk working them, except of course on farms. A person under sixteen must secure such work permit from the county judge, they state.

Mrs. Geo. D. Brownlee and nephew, Cleon Dennison, left Wed. for their home in Jacksboro, Texas. They visited in the home of Mrs. Brownlee's sister, Mrs. Jess Smith, her brother, C. W. Dennison, and in the home of her brother-in-law, Elmer Brownlee, member of the Brownfield school faculty.

Fort Worth Star Telegram—"He (O'Daniel) has failed in such a manner and at such a time that he deserves only repudiation and rebuke at the hands of Texas voters."

Mrs. Joe E. Davis left Sunday to return to her home in Richmond, Calif., after visiting relatives here. She was accompanied home by her mother, Mrs. Ben Lee.

Walter Scudday of Fort Stockton, was here the past weekend visiting with old friends. Walter, a plumber, got most of his education in Brownfield during the early days of the county.

Mr. and Mrs. C. T. Edwards, accompanied by little Miss Jonelda Benson and Mrs. Stricklin, went to Brownwood Sautrdin, where the Edwards's visited their son, Curley and wife of Camp Bowie, who is to leave for parts unknown soon. Mrs. Stricklin will visit her daughter, Mrs. Herman Trigg and Mr. Trigg.

P. J. Sullivan says the local AAA is having trouble rounding up surveyors and chain carriers for the cotton acreage measurement. Last year that was no trouble, now with an advance in wages, there don't seem to be takers.

Warner Hayhurst, business man of Plains, was over this week to consult with physicians about one of his eye, that was paining him fearfully. Some sharp substance blew into his eye, recently.

Throwing lighted cigarets out of car windows is a violation of the law in California.

E. C. Neilson

Judge E. C. Neilson is a candidate for Chief Justice of the Court of Civil Appeals. This is one of the highest judicial offices in our State, one that demands the most thorough training and the widest possible experience. Judge Neilson has attended and graduated from the leading universities and law schools in our country, giving him an educational background of the highest order.

He taught school for five years before entering the legal profession, and served two years in the United States Army during World War I, fourteen months of his service being in France.

He has had a well-rounded legal experience. He has been a licensed attorney for more than 22 years. He has practiced law in all of our courts and has been judge of all courts of record up to the Court of Civil Appeals. As an appellate judge, he will be able, from his own experience, to review a case from the standpoint of both the practicing lawyer and the trial judge. He is now District Judge of the district composed of Potter, Randall, and Armstrong Counties, and his record as a trial judge is one of the best in the State.

Judge Neilson is 51 years old, just the right age to undertake the work of an appellate judge. He is old enough for maturity, experience, and judgment, and young enough for the years of hard work the position requires.

The size of the district has made it impossible for him to see all the people, but he solicits the vote and influence of all our citizens.

Around The Block

Several local fishermen are raving about a tasty dish prepared by their self-appointed cook, Lee O. Allen, at Conchos Dam last week. The concoction consisted of fish, potatoes, onions, and eggs, all fried. Another man we know gave us a recipe for scrambled egg fried pie—you scramble the eggs, crumble crisp bacon on them, put them in a pie crust, and fry like a fruit pie.

And while we're on the subject of unusual recipes, maybe you'd like to try a "dormitory special," devised by some local girls at Tech last year. It is a sandwich made preferably with crackers, and contains red beans, sardines, jelly, peanut butter and mustard. The stuff is actually edible, too.

Everyone is missing Mrs. Carlos Ferguson who moved to Midland last week. Mrs. Ferguson was a popular member of the bridge-playing bunch.

The Phi Beta Craesus girls have been doing their part for the war effort by selling bonds and working at the Red Cross sewing room.

Christine McDuffie is an attractive and popular young lady... Carroll Collier may be seen swimming, diving, and pushing unsuspecting people into the swimming pool almost any afternoon... Elizabeth Smith says she's really working hard this summer. She's doing secretarial work for her father at Cicero Smith Lumber Co... We imagine May Jean Lees is having a grand time in Tacoma. She plans to be there the rest of the summer... Grace Tarpley has probably had lots of fun this week. She went to Wichita Falls to see her boy friend who is stationed at Sheppard Field.

Mrs. Bertha Stahler named her beauty shop after her granddaughter, Sandra Sue Stahler... George and Calvin McLeroy were both home on leave last week. George is stationed at Brooks Field, San Antonio, and Calvin at Camp Sutton, N. C... Jim Cousineau, former Brownfield city employee, is at the Naval training station in Norfolk, Va.

Monterey Ashley, the New Mexico girl whose engagement was announced Sunday, is very attractive. Roy will get his commission in the army air corps a few days before they plan to be married... Mr. and Mrs. Paul Goodman are an attractive couple... Tom Prideaux and Mrs. Buster Moxley are a very affectionate brother and sister.

Bill McGowan has been dubbed "The Forgotten Man" because he has not yet been called into the service by the army air corps. He enlisted several months ago, and it seems that some of his friends who enlisted at the same time he did have already received their commissions, while he has never been notified to report for preliminary training... We've heard several local girls comment on Neil Walker's good looks. He's the naval recruiting officer from Lubbock who comes over here one day every week.

Mon Telford Jr. has had a hard time this summer. He got one of his eyes injured late last spring and several weeks ago, while he was vacationing at a ranch in New Mexico, he broke an arm and has had quite a bit of trouble with it... Clovis Kendrick who has just returned from a fishing trip, says he wants to go fishing again for about ten days so he can worry about the draft board. He declares he can't worry satisfactorily unless he's fishing.

We can't resist saying that we

DEFENSE GUARD MEMBERS RECEIVE PROMOTIONS

Several members of Company D of the Texas Defense Guard received promotions Tuesday night. Privates first class Virgil L. Bynum, Jessie E. Gillham, and William E. Latham were promoted to corporals, and Privates Marshal V. Loyd, Carl E. Marse, and Buford W. Young were advanced to the rank of Privates, first class.

ELSIE CLARE HAS BIRTHDAY PARTY

Miss Elsie Clare entertained several friends with a bridge and theatre party on her birthday Tuesday. The girls played cards and were served chicken salad, ice box cake, and bottled drinks at Miss Clare's home, then they went to a movie.

Guests were Misses Doris Cain, Nell Marie Eckert, Laurette Goin, Patsy Lewis and Christine McDuffie.

PRESBYTERIANS ATTEND PICNIC WEDNESDAY

Members of the Presbyterian church attended a picnic Wednesday evening. Supper was served in the lawn by the church. The picnic was a cooperative affair, according to Rev. F. A. Walker, pastor of the church. The women brought the food and the men brought carpenter's tools and began construction of a Sunday school building to be erected on the east side of the church. Only the foundation of the building had been laid previously.

Mr. and Mrs. Beverly Long of Amarillo are spending a vacation in Brownfield and Seagraves.

Mrs. Hugh Harrod has received word that her brother, Charles Beaver has been promoted to the rank of corporal. Cpl. Beaver is stationed at Gowen Field, Boise, Idaho.

A local boy and girl were married recently. It's sort of a secret—only their families and friends know about it. He is in the army, and she works here. We better not say where, because that would be a dead give away.

Hurrah For The Phi Beta Craesus Girls

The Phi Beta Craesus club girls, whatever all that means, are not pikers. Last week's Herald stated that they would sell war bonds and stamps Sat. They erected a booth in front of a local store, and made the rounds of the business houses.

It is reported to us that these girls, all "fryer size" beauties, sold around \$1,000 worth of bonds and stamps, which accomplishment also stamps them as definitely patriotic. Give us more such lasses.

MISS MCGUIRE ENTERTAINS WITH ICE CREAM SUPPER

Miss Billie McGuire entertained several friends with an ice cream supper Monday night, at the home of her sister, Mrs. Sam Montgomery, Jr.

Guests were Misses Nita Chaffin, Francis Lewis, and Charlie Mae Harold, and Monroe Rowden, Robert Ferguson, Ladell Nelson, and Harold Dolphin.

I GIVE YOU TEXAS by BOYCE HOUSE

Folks, old Boyce House is so busy that let's fill up the space this week with a quotation from a man who can really write—former Governor Pat M. Neff, my good friend, as he is the friend of all the 6,500,000 citizens of this state.

The hen, hatched and raised in the lowly environment of the barnyard, has scratched her way to fame and fortune. Though she lives and labors in humble surroundings, her cackle—like the voice of freedom—is heard around the world.

Hers is not the elfin grace of the swan. Hers is not the sweet song of the canary. Hers is not the colorful glory of the peacock. Hers is not the arrogant pride of the eagle. And yet all these feathered favorites combined do not rank as high in the affairs and the affections of men as does the placid, the diligent and the unpretentious hen.

"Pay as you go" is the hen's policy. She is self-sustaining. Not long ago, a carload of hens was shipped from Texas to New York and they laid enough eggs on the trip to pay for the freight.

This is an age of substitution. We substitute cotton for silk, oleomargarine for butter, and jazz for music; but there is no satisfactory substitute for the vitamin contents and mineral compounds of an egg. The hen has less than a teaspoonful of brains and she boasts of no college degree; yet she is the most expert alchemist of the ages. She mixes in her simple laboratory the elements of calcium, magnesium, iron, sodium, potassium, chlorine, sulphur, and phosphorized fats—mixes them into rich and well-balanced nutrients in a sanitary and protective shell. She defies the world to make a substitute.

The home is the hub of humanity. On its stability, civilization depends. The hen is a home-maker. She supplies the table, fills the wardrobe and lifts the mortgage. The farm wife of the henless home has no bank account. The hen is the only servant that can just "lay" around the house and still make money.

The hen, feathered aristocrat of the barnyard, the only billion-dollar bird beneath American skies, should be our national bird. No longer should the selfish, haughty arrogant eagle, which never earns an honest dollar, adorn the nation's coin. Contrary to the American spirit, the eagle makes war on smaller birds and steals its daily food from creatures too weak to protect their own. All you can say in favor of the eagle is that it flies above the clouds and builds its nest high on the mountain crag. Its meat, its feathers, its eggs and its offspring are worthless in both the homes and the marts of men.

The image of the honest, patient, efficient hen who, by picking up the scattered grain and turning it into gold, has made her business one of the biggest industries beneath the American flag—hers is the image that should go upon our coin. She graces alike the paltry meal of the plebeian and the epicurean board of the plutocrat. She cackles but she does not cower. Her daughters are everywhere; her sons never set. Hats off to the hen!

Thank you, Governor Neff.

WE, THE UNDERSIGNED CITIZENS OF TERRY COUNTY, TEXAS, ENDORSE THE CANDIDACY OF W. W. PRICE FOR DISTRICT JUDGE. JUDGE PRICE HAS BEEN ONE OF OUR BEST CITIZENS FOR 42 YEARS.

WE KNOW HIM AS A CHRISTIAN GENTLEMAN, LOYAL TO HIS COUNTRY.

Judge Price has the Highest Respect for the Soldier in Uniform. His only Son is in Our Nation's Army, Being Now in the Caribbean War Zone, Where he has Been Stationed for 21 Months, Having Enlisted as a Private at \$21.00 a Month.

We Present Judge Price as a Candidate Representing Him to be:

1. A MAN TRAINED IN THE LAW.
2. A MAN WITH A JUDICIAL MIND.
3. A MAN WITH PATIENCE.
4. A MAN THAT HAS CONTROL OF HIMSELF.
5. A MAN THAT WILL NOT SPEAK WHEN HE SHOULD BE LISTENING.
6. A MAN THAT HAS CONTROL OF HIS OWN MIND AND WILL ACT ON HIS OWN JUDGEMENT.
7. A MAN OF FIRMNESS, COUPLED WITH COMMON SENSE.
8. A MAN THAT WILL RULE WITH AN IRON HAND, GLOVED WITH DIPLOMACY.
9. A MAN THAT WILL SEE THAT THE RIGHTS OF MEN ARE SETTLED UNDER THE LAW.
10. A MAN THAT WILL INSIST THAT THE SPIRIT OF RIGHT PREVAIL IN THE COUNCIL OF THE JUDICIARY.
11. A MAN THAT CAN'T BE BOUGHT OR SOLD.
12. A MAN THAT WILL STAY IN THE MIDDLE OF THE ROAD, PLOWING DEEP TO DETERMINE THE RIGHTS BETWEEN MEN.
13. A MAN OF CHARACTER THAT LIVES AN EXEMPLARY LIFE

We feel that the District is entitled to a resident District Judge, and that our present District Judge is too far away to be of service to his constituents—that he cannot hold two positions. We represent that the Government is paying him well as an officer in the United States Army.

Join us in the election of Judge Price as District Judge.

Respectfully,
A. R. Brownfield, Jesse D. Cox (Mayor), Mrs. M. B. Sawyer, W. H. Collins, H. R. Winston, Tom Cobb, W. H. Dallas, Clyde C. Coleman (Ex-Mayor, City of Brownfield), Roy Moreman (City Marshal), J. B. This List Tells Whether Price Control Affects Your Business

Completing the price control program of the Office of Price Administration, a regulation covering consume services dealing with commodities has been issued, effective July 1.

In announcing the effective date of the consumer service price regulation, Max L. McCullough, region OPA administrator pointed out that services not covered by the ruling, as well as those covered, are listed in the regulation itself.

Some of the more common services which are affected and those which are not affected, follow:

- These Are Controlled**
- Shoe shines and repairs
 - Dry cleaning
 - Laundry work
 - Fur repairs and storage
 - Furniture repairs and storage
 - Radio repairs
 - Vacuum cleaner repairs
 - Sewing machine repairs
 - Washing machine repairs
 - Hosiery repairs
 - Clothing alterations, repairs
 - Fountain pen and camera repairs
 - Lawnmower sharpening
 - Hemstitching, tucking, pleating
 - Bicycle and luggage repairs.

These Are NOT Controlled

- Beauty parlors, barber shops
- Doctors' and dentists' fees
- Lawyers' fees
- Insurance rates
- Telephone and telegraph
- Gas and electricity
- Water rates
- Transportation rates
- Turkish baths and masseurs
- Notary publics' fees
- Employment agency rates
- Athletic and health club rates
- Tee surgery
- Express company rates
- Newspaper ad rates.

Summer time is on and radio stations of Amarillo are trying to make up the loss of national advertising by working the country towns for advertising. When national advertisers quit because summer time is poor for radio advertising, how do country merchants hope to receive any good from money spent in radio announcements? The tragedy is that most country merchants have only a limited amount of money for advertising. When they pay high prices for so-called advertising over the radio in a period that is admitted to be useless to national firms, such money is taken away from their local newspaper. The local newspaper is on the job 12 months every year and is getting results for local business

Texas Plainsman Air Unit Planned

Sixty West Texas youth have a chance to get into the Navy Air Corps and will be known as the Texas Plainsman Squadron. Lieut. Ralph Brinnon and Lieut. Charley Hawn members of the Naval Aviation Cadet Selection Board, Dallas, Texas, will be in Lubbock at the Navy Recruiting Office there to accept applications from West Texas boys who would like to try for the Texas Plainsman Squadron.

The squadron will go directly to Athens, Georgia, for three months of pre-flight training. Upon completion of this three months, the group will be transferred to Pensacola, Florida or to Corpus Christi, Texas, for flight training. Status of the trainees will be the same as midshipmen at the Naval Academy, with the ensign commission awaiting the successful completion of the flight training.

Applicants must be between the ages of 18 and 26, have a high school education and be able to pass a strict physical and mental examination. Applicants must also be unmarried.

Boys who live in Brownfield and in surrounding territory may see the Navy Recruiting Officer at the Post Office each Tuesday.

GOMEZ H D CLUB

Wednesday afternoon the Gomez H. D. Club met in the home of Mrs. H. B. Grant. The meeting was started by all members repeating the pledge and prayer. Mrs. Wes Key presided. Mrs. Denver Kelly, secretary, called the roll, each one answering with a hint on how to save space in the clothes closet. The club voted to change the time of meeting from 2:30 o'clock to 3:00 o'clock.

Mrs. H. B. Grant was appointed responsible for a game for the county-wide picnic, for our club.

Miss Blanton gave a demonstration on how to build and arrange clothes closets, and how to store unused clothing.

Those present were Mesdames Wes Key, Denver Kelly, Odie Kelly, Kenneth Furr, Kelly Sears, A. B. Buchanan, R. C. Guest, and Miss Blanton.

Our next meeting will be with Mrs. Kenneth Furr, July 22.

J. V. Lee of Camp Barkley visited his mother, Mrs. Ben Lee, and his sisters here last week-end.

Food Handlers Short Course Here July 20 To August 5

Dr. George W. Cox, State Health Officer, announced today that a school for food handlers conducted under the auspices of the local Health Department, in cooperation with the State Department of Health, will be held here beginning Monday, July 20th.

These classes have met with widespread and unanimous approval wherever held throughout the State, Dr. Cox revealed.

According to Doctor W. B. Patterson, local Health Director, the twelve-hour course is for the purpose of familiarizing food handlers with high standards of sanitation and cleanliness in preparing food for public consumption, and the work will cover bacteriology, communicable diseases, medical zoology, foods, disinfection and sterilization, personal hygiene and sanitation.

"There is no charge for tuition in connection with taking this course of instruction," Doctor Patterson stated, "and at its conclusion, all who have completed the training will be awarded certificates by the State Health Department. Cafe owners whose entire personnel has received these certificates will be awarded a placard of approval by the State Department of Health." It is planned to publish a list of the establishments whose personnel has satisfactorily completed the course of instruction.

Doctor Patterson stresses the importance of every cafe owner requesting his personnel to attend this school since his prominent display of this placard will inform the public that every food handler in his cafe has been trained by the State Health Department in the basic principles of sanitation as related to food preparation and service.

"The course will be taught by Mr. C. E. Saegart, of the State Health Department," Dr. Patterson stated, "and classes will be arranged so as to care for all who register regardless of what shift they are working." Arrangements have been made to hold the classes in the District Court Room at the County Court House.

Inquiry made at a number of local restaurants has established 9:30 A. M. and again at 7:30 P. M. on Monday and Wed. of each week as the most convenient time for the classes to be held.

"Although primarily designed for restaurant, soda fountain and grocery store personnel, it is felt that the course will be of invaluable service to all housewives and maids who have occasion to handle food," Doctor Patterson stated, and a large attendance is expected.

Registration for the course will begin at 9:00 A. M. on Monday, July 20 for those who plan to attend the morning classes, and again at 7:00 P. M. for the evening attendants.

Program for the entire course is given below. As stated before, the classes will be held Mondays and Wednesdays of each week, at 9:30 A. M. and 7:30 P. M.

ATTENTION FARMERS

NOW IS THE TIME TO GET YOUR POISONING SUPPLIES

We urge the farmers of Terry County to buy their poisoning supplies early, before the leaf worms get started. Don't wait until it's too late. Have everything ready when the time comes when you have to have this material or lose hundreds of dollars in lost crop production.

OUR STOCK OF POISONING SUPPLIES IS COMPLETE NOW . . . BUT IT MAY NOT LAST

Realizing the difficulties in getting all metal goods, we started early and kept trying until we got a fairly complete stock of nozzles, pipe, pumps, sprays and all other poisoning equipment. Our stock right now is fairly large, but it won't stand any short, heavy demand such as we experienced last year. We sincerely advise that you do not wait until the worms hit to start getting ready to poison. Delays such as we would experience then would prove far too costly to you in lost crop production

Should Be Freedom From Abuse Says Governor

AUSTIN—To the list of freedoms for which this nation is fighting a cruel war, Coke Stevenson, candidate for the Democratic nomination for governor expressed that hope that another freedom would be added—that of the right of public officials and candidates for public office to be free from personal abuse, vilification and slander during political campaigns.

"The Atlantic Charter of President Roosevelt and Prime Minister Winston Churchill gave a new emphasis to the desire in the hearts of men everywhere for spiritual, intellectual, political and economic freedom," Governor Stevenson commented. "We are now engaged in a grueling contest to determine whether these objectives can be attained.

"Some day in the enlightenment of human conscience another objective will be added to freedom's list, the right of public officials and candidates to be free from personal abuse, vilification and slander."

Asserting that the character of a man is his most precious asset, Governor Stevenson stated that "slander is the foulest whelp of sin. The man in whom this spirit enters is undone."

"It is apparent that the weapon of slander has been used by men who had no merit of their own in an attempt to destroy those who do have character and ability," Stevenson stated. "The tongue of slander has frequently been a convenient implement to spread the cankerous slime of falsehood and stain the reputation of an honest man. It is unfortunate that such sentiments exist in the human breast."

In one of his few political addresses of the current campaign, Stevenson pointed out that George Washington was slanderously assaulted by ambitious persons who wanted to displace him as commander-in-chief. They succeeded and placed Gates in command and forced Washington to take orders from him. However, when Gates took the field he was overwhelmingly defeated in battle and history records he was found 80 miles away and still retreating.

"During this time, scurrilous publications were circulated against Washington," Stevenson said. "He was accused of being a liquor hound and of gambling and of being a Tory at heart. If there had been oil in the country at that time, they would have charged him with being owned and controlled by the oil companies since he was a large landowner and oil might have been found under his land."

"His traducers and slanderers have been forgotten, while the name of Washington grows in purity, affection and esteem. He went right on with his job of winning the Revolutionary War. If a great man like Washington could not escape abuse and slander, then Coke Stevenson can hardly expect to. I believe, however, Texas people bitterly resent any man trying to win an office by such tactics.

"None of us now can measure up to the stature of Washington, and I make no pretense of being in his class. I can emulate his example, however, and ignore any of my political enemies who are circulating false and unfounded charges against me. I can further emulate his example by continuing to devote my time and efforts to the most important job before us, and that is the winning of the war in which we are now engaged."

Bowers To Take Glider Training At Lamesa

Had a letter from James Bowers this week that stated that the rounding up the Herald gave the people for not writing him certainly got good results.

He is leaving California for Baltimore by airliner to take a special course, and then for a glider course at Lamesa. And, he added, maybe will get to see all of you.

POSSUM STATISTICS

A Game Department survey shows that the annual take of opossums in Texas probably exceeds one million per year. The possum is this State's most numerous fur-bearing animal.

Of Throckmorton county, is a candidate for Lieutenant Governor. He has served as County Judge of his county, has been prominently connected with the State and National Democratic conventions, and sponsored the anti-strike bill in the legislature. Was a private and World War I.

BEAT AT THEIR OWN GAME

Prairie chickens, vain creatures, try to chase each other off the "booming grounds" when courtship begins in the spring, but recently a bunch of them got their hands called. A straggling ring-necked pheasant cock showed up while the prairie chickens were calling their mates on a booming ground in Wheeler County. The pheasant chased all the prairie chickens away after a thrilling fight, according to the Game Department biologist in that area.

The pheasant is not a native Texas bird. The straggler's appearance in Wheeler county probably was the result of the release of a number of ring-necks in the Canadian River bottoms several years ago.

Children Should Not rear Dentists

AUSTIN—A child by the time he is two and a half or three years of age should become acquainted with the atmosphere of a dental office and the ministrations of a dentist in the advice given by Doctor Geo. W. Cox, State Health Officer. It is of prime importance, according to Doctor Cox, that children look upon the family dentists as a friendly guardian of their health.

In stressing the importance of early dental care, Doctor Cox quoted the following from a bulletin of the American Dental Association:

"Parents should teach the child that the dentist is his friend. They should not allow him to receive the impression that a visit to the dentist means unpleasantness and pain. Such impressions are usually created in the child's mind before he ever sees the dentist.

"Parents can prevent fear in the child by taking him to the dentist before the teeth are decayed. Thus, the first visit will consist of an examination only. Subsequent visits will consist of a simple cleaning or, at the most, the painless filling of small cavities. It is a grave mistake to neglect a child's teeth that his first visit to the dentist must be associated with pain."

Dr. Cox said that the importance of good dental health had been called to national attention by recent selective service examinations and added that a great percentage of physical rejection for military service could have been avoided by dental care in the first few years of life.

O'DANIEL-TOWNSEND GROUP SPLIT IS PREDICTED

DALLAS, July 8—A rift between Sen. W. Lee O'Daniel and the pension-age group was seen here in a recent visit by Dr. Francis E. Townsend, originator of the Townsend old-age pension plan.

Dr. Townsend pointedly observed that the Townsend forces in the state were concerned about the war, that the organization was pushing the sale of war savings stamps and bonds. This is in contrast to the oft-repeated campaign statement by O'Daniel that he was not bothered about the war, that "we are over the hump."

While Dr. Townsend did not call names, the state president of the organization, Glen S. Wilson, had no such hesitation.

"We're not like O'Daniel," he declared. "We do not believe the war is over."

Dr. Townsend nodded his head in apparent agreement. The two Townsends were here to discuss a plan of their organization in accepting in stamps and bonds dues and contributions to the Townsend clubs.

"We want to do everything we can to win this war," Townsend declared.
