Your Home Owned and Home Managed County Paper — Where Farming, Ranching and Oil Fields Bring Prosperity to Terry County People

VOLUME THIRTY-EIGHT

BROWNFIELD, TERRY COUNTY, TEXAS, FRIDAY, AUGUST 28, 1942

NUMBER 4

Early Day Sheriff Of County Passes

With the passing early Monday of Geo. E. Tiernan, went another of the old pioneer settlers of Terry County. George was almost the first Sheriff of Terry county, Sheriff Bess serving from the county seat and officers

GEO. E. TIERNAN

election in June, 1904, until the regular election that November, at which time George was elected and took his office in January, 1905, and held it against all comers until 1915, when he voluntarily retired.

George, as he was always called by old timers, was serving his second term when the writer arrived here in 1909, and many the time we have heard people say that he was one of the best peace officers they ever saw. It was the rarest things to see him with a gun on unless he was leaving to return a prisoner, and a prisoner was a rare thing in those days. It is true that people "fell out" just like they do now, but George usually got wind of it before anything serious happened, and soon had the matter settled and friendship established. So, there was no need to brandish a gun after the deed had happened.

Deceased had no known relatives living. He was left an orphan at 9 years of age, but obtained jobs, living part of the time with the Wolfarth family at Jacksboro, before they moved to Lubbock. He was at home in the saddle from boyhood, and cattle was his hobby. Until a few years ago, he always kept a nice herd and in younger days worked with some of the biggest ranches in Texas. He helped to drive many Texas herds through the Indian Territory, as Oklahoma was then known, to Kansas. He was a typical west Texas gentleman, as polite as a Virginia squire, and as gentle by nature as a lady. His purse was always open to those worthy and in need. He was a friend to everybody.

In 1902 the Tiernan family moved to Terry County, 2 years before organization took place. He was living in Gomez when the county was organized, but established his home in Brownfield after election as sheriff and tax-collector.

He was born Sept. 10, 1870, and therefore lacked from August 24 to that date being 72 years of age. In 1899, he was married to Miss Sallie Hunter in Dundee in Archer county. To this union was born five sons, two dying in childhood, and Frank was killed about 1913, when he slipped from a heavy chuck wagon, the wheels passing over his head. He was about ten years of age. Survivors are his wife and two sons, Jack of Lubbock, and Ellwood (Pete) of this city.

Funeral was held at the Methodist church with Rev. Ed Tharp, of Ralls, former pastor, officiating, assisted by the pastor, Rev. Hanks. Deceased was converted and joined the Methodist church during the Abe Mulkey revival here some 32 years ago. Following services at the church, the Masonic lodge took charge of the body, and burial took place with their honors in the Brownfield cemetery. Brownfield Funeral Home was in charge of arrangements.

Active pall bearers were Irvin Rambo, Ches. Gore, Clovis Ken-

Winner In Scrap Drive Announced

Jim Cunningham, of Yoakum county, address, Tokio, brought in the most scrap iron in the other drive here, and Sam Montgomery of just north of the city, brought in the most scrap rubber. In view of the fact that the weights of the amount of rubber was not available, the Herald decided not to print the amount of either.

Mr. Cunningham has only to see Mr. C. T. Edwards and collect the \$25.00 War Bond. Mr. Cunningham has also been credited with another year's subscription to the Herald.

Mr. Montgomery will call at Goodpasture Grain for a \$25.00 bond given by Goodpasture Grain, E. D. Ballard Grain, Ches. Gore Grain, and Brownfield Milling Co., and then he has a little tougher task, unless some good Samaritan will take the job of collecting for him. However, if Mr. Montgomery will call on the following firms, they will gladly pay him \$2.00 each, for having the biggest load and poundage of scrap rubber during the drive.

Ray Christopher, Farmer's Co-Op Society, McSpadden Grocery, L. O. Turner, Hahn Motor Supply, Star Tire Store, Gulf Oil Corp., Patton Phillips 66, James Warren Gulf Sta., Jordan Motor Co., Fitzgerald Service Sta., Mack's Oil Well, Snappy Tire Store, Miller Service Sta., Tudor Sales Co., Gene Gunn Tire Store.

We have credited Mr. Montgomery with another year of the Herald.

Old Time Terryite Passes

Miss Bulah Page informed us recently of the death of Uncle Bora Jones, 84, who was living at Hot Springs, N. M., at the time, but had lived most of the past 35 years in Big Spring. Mr. Jones had settled in Terry county in the early days, but removed to Big Spring, Texas, in 1905, where he made his home until a few years ago.

Mr. Jones had been in failing health since 1940. He was the father of Mrs. Lottie Head, who was a resident of Brownfield for many years. His wife, four daughters and one son survive, as follows: Mrs. Mamie Earnest, Odessa; Mrs. Lottie Head, National City, Calif.; Mrs. Lee and Mrs. Ada Hefferman of Hot Springs, N. M., and Ray Jones of that city.

He was buried at Hot Springs, N. M., Sunday, August 16, at 2 P. M.

Scrap Mass Meeting Put Off A Week

We feel sure that C. T. Edwards, chairman of the junk drive, had forgotten that Saturday was election day, and the vicinity of the courthouse would be crowded, so that it would be next to impossible to hold a real junk mass meeting. We, too, had forgotten it.

So, the next best thing was to set another day, which will be tomorrow, Saturday, August 30, at the same time, 3 P. M. If you are in for helping in every way possible to win this war, you are invited to be on hand at that time.

Even if you are no speaker, maybe you have some good suggestion to offer in helping to make this drive a real success in Terry county.

Most any business man can handle a big deal, but at takes an executive to dispose of the little deals.

drick, W. R. McDuffie, A. T. Fowler and Will Fitzgerald.

Other relatives of Mrs. Tiernan attending the funeral were: Mr. and Mrs. R. C. Brewer and son, R. C., Jr., of Megargel, Texas; Miss Gladys Whisenant, Wichita Falls, a niece by marriage; Mr. Sheridan Hunter, and son Ray and wife of Lubbock. Many old friends from surrounding counties attended the funeral.

Citizens Asked To Loan Guns in Case Of Emergency

Will you loan your gun to the Texas Defense Guard in the event of an emergency? This request is not being made by the Defense Guard, but by the U. S. Government. Guns would be given the best of care while in possession of the Guard and returned immediately when the emergency had subsided. The Guard would be responsible for the gun while it was in the Guard's possession.

The Guard is now partially equipped with Thompson sub-machine guns and riot shotguns.

Rifles and shotguns of all calibers and gauges can be used. For your convenience, use coupon below; cut out and bring or mail to Company D headquarters, located in the Board of Development office. Coupons mailed in should be sent in care of Sgt. Tommy Black.

This report will be confidential and will not be used later to compel owners of firearms to secure permits or pay taxes in on them.

I am willing to loan the Texas Defense Guard the use of the firearm or firearms listed below. I fully understand conditions under which the loan will be made:

RIFLES—
Serial No. _____
Make _____
Model _____ Caliber _____
SHOTGUNS—
Serial No. _____
Make _____
Model _____ Gauge _____
() Check if other guns are available.

I could also supply _____ rounds of _____ caliber rifle ammunition and/or _____ rounds of _____ gauge shotgun ammunition.

Signed _____

V-Mail Gives Big Saving In Space

Mrs. Marie Dallas, acting Postmaster, stated this week that the postal department was urging everyone to use the new V-Mail, lately perfected especially to soldiers that are in the British Isles, Australia, India and Hawaii, where for the present most of our soldiers who have left our shores are quartered.

It is stated that photostatic copies of the letters are made upon films, which will contain from 1500 to 2000 letters. The saving in space is more than doubled, as 97 of these letters weigh only one pound against 40 regular letters. With this saving, many letters can be rushed across the seas in transport planes and even bombers.

The process is rather hard to explain to the uninitiated, but we imagine it is something like the banks make in copying customer's checks and deposit slips.

The best plan, if interested, is to ask about them at your post-office.

Terry, Yoakumites Getting Degrees

Texas Technological college recently gave summer term degrees to 157 students, among them were three from Brownfield and one from Plains:

Brownfield—Imogene Wall Redford, bs in ed., prim ed.; Grace Franks Wright, bs in ed., prim ed.; Cordia Mae Shepherd Cates, bs in ed., elem. ed.

Plains—Sallie Lynn Forrest, bba.

Bill McKinney Sells Business To Turner

Bill McKinney, who established the McKinney Service Insurance Agency here, and was doing a fine business despite the fact there were many older firms, has sold his business to A. W. Turner, another local insurance man.

Evidently, Bill has received a glowing offer of some kind in Amarillo, as he has already left for that place, but we failed to learn the nature of his work.

Theatres To Raise Billion Dollars

The thousands of theatres throughout the United States set a huge task of raising a billion dollars by selling War Bonds and Stamps during the month of September, according to Mrs. Ethel Jones, proprietor of the Rialto, Ritz and Rio theatres of this city.

The great drive is to start next Tuesday night, Sept. 1. Bonds may be had both at the Rialto and Ritz, and Mrs. Jones is asking as a special favor that her friends buy bonds and stamps from one of these shows that night, or for that matter any night during the drive.

Promptly at 9 P. M., the first show will be over, and the bond and stamp sales will start and last until each patron is given a chance to buy one. She will then wire results to her headquarters, previously designated. The second show will then start.

A good show for that night at both theatres is promised, and Mrs. Jones hopes that you will come prepared to buy a bond, or at least some stamps.

McLeroy Fixing To Ship Out Too

Had a letter under date of August 14, addressed to this paper and helpers, wanting his "much looked forward to" paper sent to his address in care New York postmaster. Generally speaking, this means that Pfc Calvin McLeroy is to soon cross the briny deep. The rest of the letter we quote:

"I have just finished reading 'The Terry County Herald' and will say that it is really a morale builder. Yes, when I get a horizontal position on my bunk and start reading about all my friends that are either getting married or drafted, I just seem to be back in good ole Brownfield again.

"Well, I see that it is about time for chow, so in closing, will say, 'Just keep up the good work for I know that all the other Terry County boys that are in the service enjoy reading the Herald too.'"

Yours truly,

Calvin McLeroy.

Pvt. Joe Broun Enjoys Visit To Home Folks

Pvt. Joe E. Broun was home recently visiting his parents, Mr. and Mrs. B. B. Broun. He has been in the army now 6 months and this was his first visit home. He only had one day here, but from the many hand shakings and good wishes, he went back to camp feeling that he had lots of good friends in and around Brownfield. He has been in North Carolina, but is now stationed at Camp Carson, Colorado.

He says that if anyone wishes to drop him a line, his address is: Pvt. Joe E. Broun, Btry C, 99th FA Bn, Camp Carson, Colorado, U. S. Army.

Sugar Stamp No. 8 Good For 5 Pounds

WASHINGTON, Aug. 20—Sugar ration stamps No. 8 will be good for five pounds of sugar in the ten-week-period beginning Aug. 23 and ending October 31, the Office of Price Administration announced Saturday.

While not changing the basic ration of one-half pound per person per week, it will enable consumers to make purchases in large units and facilitate the disposal of five, ten and 25-pound packages.

Derington Boys Home Visiting

Seaman Jack Derington, trainee at San Diego as a U. S. Sailor, was home last week visiting his parents, Mr. and Mrs. Derington. Sr. Mrs. Derington reported that Jack was liking the Navy fine.

Another son, O. L. Jr., is also here from Filmore Calif., where he has been working, but will soon enter the army.

Down The Road To Union Town

Been some time since we were down the road to Union, so drove out Tuesday afternoon. Crops are just fair through the hauled out section, and mighty weedy in places. Feed and cotton young, but the feed promises much where clean. Also, saw some mighty good fields of corn.

Drove up to Ed Evans' filling station, and the attendant said he thought Ed was over at the house. Drove over there and honked a few times, but if they were at home, they didn't let on perhaps fearing that we might come in for supper.

Union was not celebrating the O'Daniel's victory as we could see. However, saw two cars that had to be pushed off, and thought perhaps gasoline rationing had hit the community, or else the spark plugs were drowned out with a big rain Sunday night. We learned that Ed has the gin up in fine shape for the season run.

Came back the old Lamesa road and saw some mighty fine crops, some of the best maize we ever saw. Crops are especially fine on the east and north side of the draw. Many fields of peanuts in the deep sand. Pulled up one bunch with none mature. They'll have to hump themselves to mature before frost, and woe will be the blow next year.

Cpl. Brown Enjoys Life In Army

Cpl. T. W. H. Brown, son of Mr. and Mrs. W. H. Brown, was home for a short furlough recently. He stated that army life was not half bad if one applied themselves, and tried to do their duty. Soon after entering the army, W. H. was put in the culinary department, where he has steadily risen, and now has charge of the kitchen serving the surgical group.

During his furlough at home, he pitched in and helped mother in many ways about the home and kitchen, something he had never done before, perhaps. This is one great lesson soldiers are learning, and along with it, obedience and punctuality.

For instance, so anxious was this boy to get to Ft. Sam Houston in time, that he left here in plenty of time to be on duty when his time came. He writes, however, that his old crew had been shipped out when he arrived.

Otis Draper Helping To Build Powder Plant

Otis Draper former local contractor, sent us a copy of "The NOOWS" which of course is a combination of the word news, and the initials of Oklahoma Ordnance Works. The magazine, printed on book paper, was very interesting, showing several pictures passed by the censor, of shell loading operations.

The plant is located near Vinita, Oklahoma, and Otis says that it is the fourth plant he has helped to build. One in Indiana, he stated, turns out 600,000 pounds of powder per day.

Moorhead Is Now On His Way

A short letter came in a few days ago from Pvt. T. B. Moorhead, who has been training with the U. S. Army General Hospital at Camp Bowie, Brownwood, asking for a change of address, which is in care of the New York Postmaster. This generally means that a voyage is in the offing.

He says he is sorry that he has to ask us to change his paper so often. This is ok, as we are always willing to aid the boys in the service any way we can. As a rejoinder, he says, "I would tell you where I am going, but I don't know myself."

The Herald had a letter this week from Jimmie Altered in which he thanked all the voters in Terry county who supported him in either or both primaries.

O'Daniel Elected By Small Majority

The Saturday Democratic Primary, which is equivalent to election in Texas, gave Senator O'Daniel 17,592 lead over Judge Allred, Pappy receiving some 51 percent and Jimmie 49, which is the closest race the fiddling Senator has ever had in Texas. Thus he goes back to Washington with a lot of wind out of his sails.

In the Lieutenant Governor race, John Lee Smith of Throckmorton was a easy winner over Harold Beck of Texarkana. Thus all west Texas can rejoice that they have both the governor and the lieutenant governor.

Jesse James was also an overwhelming victor over Gregory Hatcher of Dallas for State Treasurer. Jester of Corsicana was also winner for rail commissioner, unexpired term, over his opponent, Pierce Brooks of Dallas.

Judge E. L. Pitts of Lubbock, won the nomination for Chief Justice, Court of Civil Appeals over Judge Nelson of Amarillo. The following is the totals in the Terry county vote, unofficial:

U. S. Senator:
Allred 892
O'Daniel 1166
Lieutenant Governor:
John L. Smith 1482
Harold Beck 421
State Treasurer:
Jesse James 1319
Gregory Hatcher 519
Rail Commissioner:
Beauford Jester 932
Pierce Brooks 1013
Civil Appeals Court
Judge Pitts 1551
Judge Nelson 385

As there were no county run-offs, the vote was very light in this county, lacking more than 600 being up with the July primary.

Hancocks Still Thrilled With Calif.

A letter was received this week from Mrs. Bruce Hancock of San Diego, Calif., which was glowing in tone, and might make some of the rest of the folks here want to coop their chickens and move. They now have 1700 chickens, and eggs are 50c per dozen. But they did not state what they had to pay for chicken feed—plenty we guess.

Here is the best angle, however, Mrs. Hancock has regained her health, and gained 19 pounds, and that is the main thing after all—good health. They send greetings to all their old friends here.

Miss Peterman Gets Hutchinson Scholarship

We are pleased to announce that Miss Marie Peterman, who will be a Junior this year at Tech college, has been awarded the \$100 Mrs. J. T. Hutchinson Scholarship, that Marie made in her sophomore year. Her friends are offering congratulations.

Miss Marie was society page editor of the Herald from the time she got out of college about June 1, to August 1, when she took her vacation. As we understand it, she made the high grade of 2.95, majoring in journalism.

Miss Rasco Hopes 13 Is Lucky

Had a letter this week from Miss Gertrude Rasco, who spends her vacation with her parents at Memphis, Texas, each year, with her announcements enclosed for opening of her music class here this fall for the 13th time, and she is hoping that 13 will be her lucky year.

She states that 13 was her mother's lucky number, and hopes it will continue with her daughter. Anyway, Miss Rasco states that she is tickled to be returning to Brownfield as we have such wonderful people.

Mr and Mrs. J. E. Spears, Sr., had as their guests this week, their son, Raymond Spears and wife from Houston, also their son, Clyde Spears and wife from Hobbs, New Mexico.

A Frank Statement From Supt. Hancock

We are entering upon a new school year in the most critical time in all American history. This new year carries with it challenges and responsibilities far beyond those of normal times. We have done our best under these conditions to prepare for it with unusual care. The curriculum of schools throughout the nation is undergoing considerable and perhaps even drastic changes, for in many cases we are unable to employ teachers for courses we think are much needed. As expected, the war is having its effect upon the school and it is clear that we will be expected to make adjustments. We must safeguard our youth.

We are requesting students who expect to participate in football and band to register on Friday and Saturday, August 28th and 29th at the high school building. School buses will not run on Monday, August 31st but will make their routes on Tuesday, September 1st. All grade students will register Tuesday, Juniors and Seniors in high school will register Wednesday, the 2nd. It will not be necessary for these students to report Tuesday; Juniors and Seniors will not report Wednesday. All students will meet classes Thursday, September 3rd for a full days work.

Again, I am asking each high school student to discuss your future plans with your parents and at least have some idea as to what you expect to do to make a living when you are through with public school. In this way we may be of a greater service in guiding you in selecting your courses.

E. E. Hancock.

Seeking Students For Air Craft Work

Mr. H. D. Bearden of Lubbock was in our city last week in the interest of the Lubbock National Defense School, which he stated trained men and women in a few weeks to where they could handle positions in airplane factories.

This school, he stated, was government accredited, and capable of training about 100 per month. If interested, Address United States Employment Service, 1207, 13th Street, Lubbock for particulars.

Wants Pictures Of Boys In Service

The American Legion would like to have a 3x5 picture of each Terry County boy serving in Uncle Sam's armed forces. These pictures will be permanently displayed in glass cases placed on the walls throughout the Legion building.

Pictures sent in should also be accompanied by the boy's name, rank and organization. If a 3x5 picture cannot be supplied, one as near that size as possible is desired.

Sgt. Longbrake Visits Home Folks

Sgt. Emery Longbrake visited his parents, Mr and Mrs. H. O. Longbrake here last weekend on his way to Camp Swift, at Eastrop, Texas. He was accompanied by Pvt. Wm.H. Robinson, Sgt. Ralph Wallace, and Sgt. Geo T. Self, who were guests of the Longbrakes while here.

The Longbrakes entertained with two chicken barbecues while the boys were here, in honor of the birthday of Emery's sister, Miss Betty Longbrake.

Meeting Starts Tonight At Johnson

We are requested to announce that the summer protracted meeting of the church of Christ at Johnson school house will start tonight and run over two Sundays.

Minister McIlroy of Wolffarth will do the preaching. It is stated that he is a young man, but a very interesting preacher. Everyone invited.

Amos Harper in his "Drilling Colyum" in the Seagraves Reporter tells us that he is going to get out of debt if he has to borrow the money. If you make the rifle, Amos, call us collect, giving name and address.

Now that the elections are off our minds until November, maybe we can devote more time and talent to winning the war, boost junk drives, bond sales, etc. The Herald hardly ever wins more than half our candidates, as we never stop to consider which is the popular side. We have a habit of choosing our man, no matter if he don't make first base. However, we split exactly 50-50 in the runoff. So we figure we are improving some.

A typewriter man called this week, and as we had been asked to refer the next one that called to a couple of young ladies who wanted typewriters, we asked about them. Says he, "we can't even sell a second hand typewriter, much less a new one, but we can rent one 30 days at a time, and renew the rental, provided it is not called in." Also coming is the end of singing and birthday telegrams, as the government is needing the wires more and more, and we are soon to see spiceless spice cake and perhaps meatless days. Yep, the fact that we are in a death struggle is coming home to us almost daily with sledge hammer blows.

Let's all back up our leaders in the drive for junk metals, rubber, etc. These things are badly needed to supply the steel mills to keep them operating at capacity. We must have steel, brass copper, aluminum and other metals to back up our fighters on many fronts with the implements of

war they need to thrash the Huns and Japs. We stay-at-homes will get along just fine. It is the fighting man that needs the help from us. No, our business is nothing like it was even a year ago; is yours? That is not here nor there. The question is, we must win this war, or we won't have any business. Some one remarked lately that we were in the worst war in all our history, but that we haven't got hardly ankle deep in it yet, and unless we wade in up to our necks, we are likely to lose it and become slaves of Hitler and Hirohito. Yes, Tojo could dictate peace terms in the White House, and don't forget it, unless we show some spunk at home.

"The Spoilers," an exciting new film version of Rex Beaches red-blooded saga of the Klondike gold rush days. The highlight is the fight between John Wayne and Randolph Scott, which is the biggest, most realistic and brutal fist fight ever filmed. Marlene Dietrich as the barroom queen is excellent. Coming to the Rialto Friday and Saturday.

Announcement

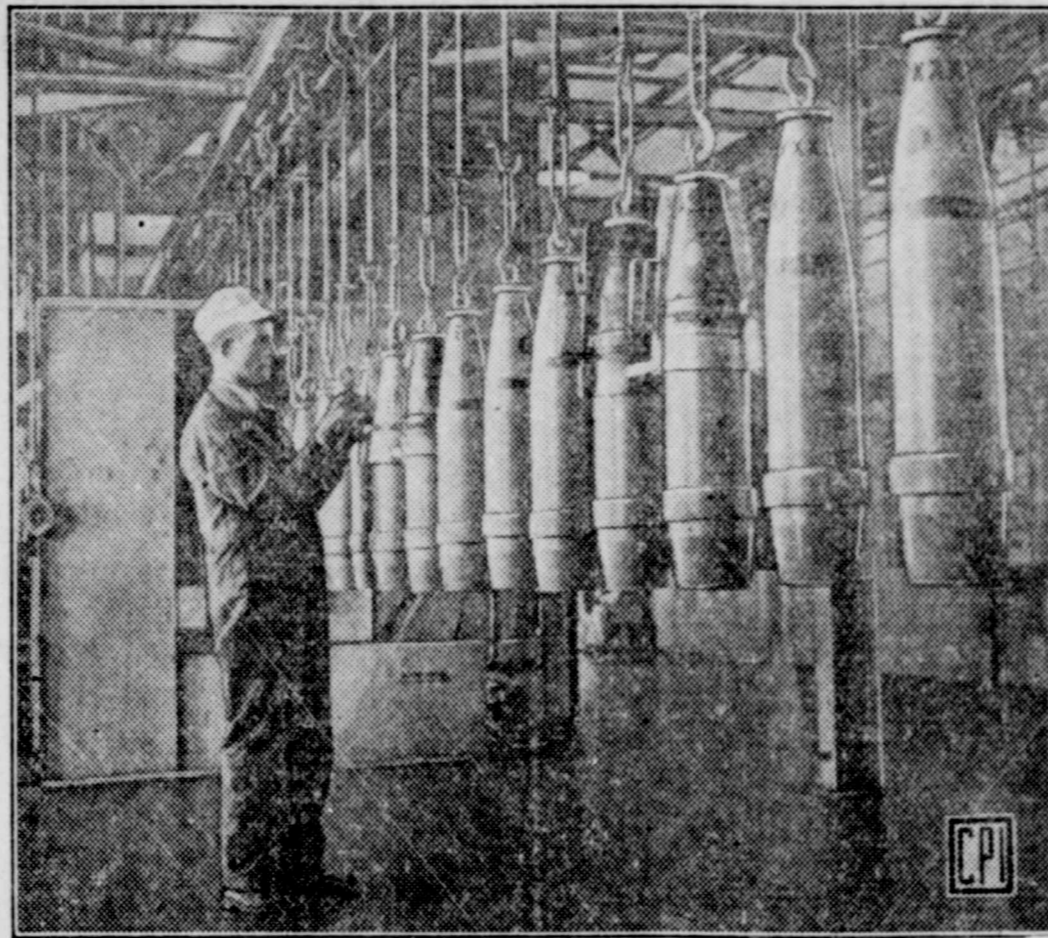

We wish to advise that we have purchased the McKinney Service Insurance Agency and have moved to room 208, Brownfield State Bank Building.

We handle all forms of insurance needs. Call us for your insurance needs.

E. V. Bigham and wife of Freestone county, and daughter, Miss Carrie Lee Bigham and Miss Jack Mitchell of Dallas, visited in the Home of his brother, B. B. Broun this week. They had just returned from San Diego, Calif, where they had been to see their son, who is in the Marine Corps.

BUNDLES FOR BOCHES

Passed by Censor

THESE 7.2-inch monsters are one of 30 types of shells produced in Canada's munitions factories. Slowly revolving on the endless trolley these are nearing the end of the production line where they will be crated and sent on their way to strike another blow in the crusade against Hitlerism. The workman in this photograph is stenciling each shell with an identifying mark. The coating of anti-rust varnish which covers each shell brings it precisely to the dimensions required by the gun. Perfected in Canadian laboratories to

Getting Cotton To Gine To Be Discussed

LUBBOCK—Mark McGee, State Director, Office of Price Administration, has called a South Plains wide farm tire meeting in Lubbock for Tuesday afternoon, Sept. 8, at 1:30 o'clock, to consider ways and means of moving this year's cotton crop from the farms to the gins.

Mr. McGee will, personally, be in charge of the meeting and will have with him the heads of the departments dealing directly with tire allocation and rationing. All members of county rationing boards, representative farmers from every school district and voting precinct on the South Plains, editors, bankers, county farm agents, Chamber of Commerce officials, County Judges, Mayors, and others, are being urged to attend this meeting.

The moving of the South Plains cotton crop from the farms to the gins this year is the greatest problem that has ever confronted the people of the South Plains. A survey shows that a large percentage of the trailers and trucks to be used in hauling cotton from the farms to the gins are without tires. It is a definitely established fact that tires for all these trailers and trucks cannot possibly be obtained.

The purpose of the September 8 meeting is to advise farmers and others interested (and everyone is interested) of the actual situation regarding tires and try to work out ways and means to get the cotton crop to the gins.

The meeting has been arranged by the Lubbock Chamber of Com-

S. W. Ahead Of Average In U. S. Army Construction

DALLAS—While carrying more than one-fifth of the total Army construction in the entire United States, the Southwestern Division, U. S. Engineers on July 31, 1942, had more jobs on schedule or ahead of schedule than the average for the nation, Colonel Stanley, L. Scott, Division Engineer, was informed today.

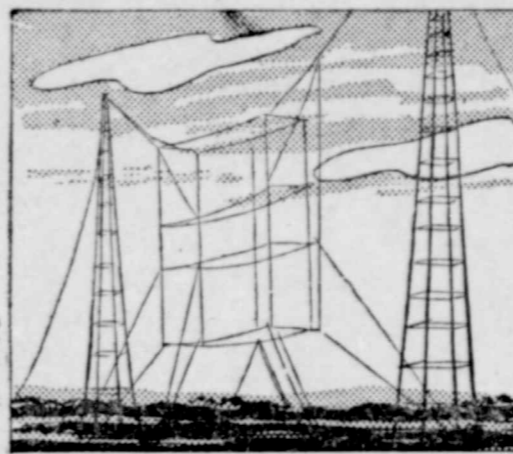

The announcement of this exceptional record from the Office, Chief of Engineers, included the following: "I think your Division has made a really remarkable record in keeping so close to schedule in view of the enormous amount of construction you are carrying compared to the resources of your area."

"Since April of this year the value of construction supervised by the Southwestern Division has risen approximately 325 percent," Colonel Scott stated. "New work placed in July amounted to more than one hundred fifty million dollars or approximately 6 times the total normal, peace time construction in this area."

"Credit for this exceptional record is due to the cooperation of all concerned," Colonel Scott said. "District Engineers, contractors and labor are all putting their shoulders to the wheel with one aim in view—to get the job

Towers of Truth

Chinese, Finnish, Tagalog, Dutch, Spanish—programs in more than a dozen tongues go out from the towers of General Electric stations WGEA and WGEQ, Schenectady, and KGEL, San Francisco.

1. They provide authentic war information for news-starved peoples around the globe, entertainment for U. S. forces abroad. These G-E short-wave stations . . .

2. . . have special antennas "pointed" at Australia, South America, China, Europe—making reception there almost as strong as from local stations.

3. They provided the only U. S. programs that reached Bataan. People in conquered lands risk their lives to listen. Smuggled letters say they bring hope of release.

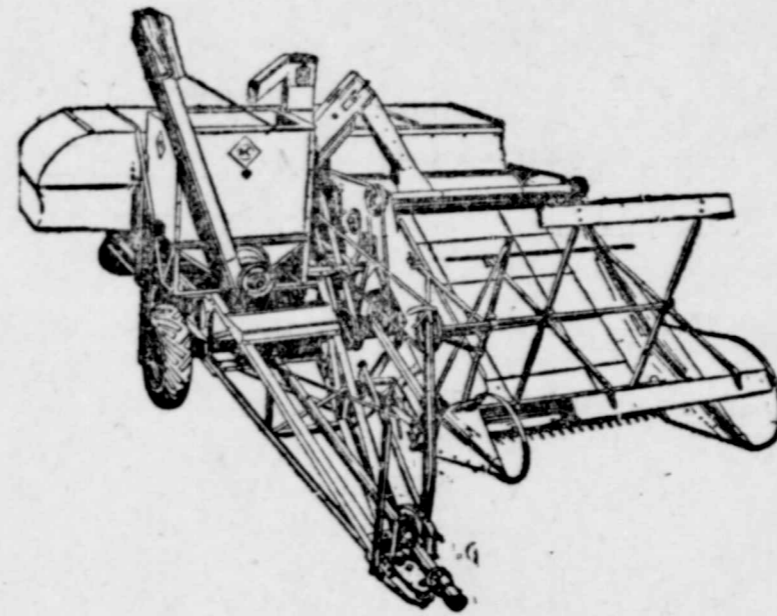

4. Some announcers are regular G-E production employees, working on war work. They tell people in their native lands that America is determined on victory.

General Electric believes that its first duty as a good citizen is to be a good soldier.

General Electric Company, Schenectady, N. Y.

GENERAL ELECTRIC

GET YOUR COMBINE READY FOR HARVEST

Now is the time to start getting your combine ready for the harvest while parts are still available. Due to the large acreage and the scarcity of new machines, it's important to get the old combines fixed now. We have a few completely rebuilt harvesters for sale.

KNIGHT MACHINERY

done as rapidly and as satisfactorily as possible. While it would appear difficult to surpass this high record of performance, present indications are that the August record will surpass that of July.

WHAT IS PENNY MILK?

College Station—Thousands of Texans are familiar with the community school lunch program, and in time they may become equally familiar with the school milk program which is being expanded by the Agricultural Marketing Administration.

Details of the plan recently were explained to the home demonstration staff of the Texas A. and M. Extension Service by Grace I. Neely, nutritionist for AMA's southern region. Formerly, Miss Neely was an extension specialist.

Milk used is purchased from local farmers and dairymen, who receive the price prevailing locally for unprocessed milk which is sold for fluid consumption. The USDA Agricultural Marketing Administration pays the farmer's price for the milk to local schools, which in turn pay the dairymen. Schools participating in the program make arrangements with dairies for supplying, processing, and delivering the milk, and provide for serving milk to the children. In addition, schools must arrange for payment to the pro-

cessor of the difference between the price of unprocessed milk delivered to the school. Co-sponsors, such as Parent-Teacher, Associations, may bear this expense. All children in schools taking part in the new school milk program will be eligible to receive a half a pint of milk each day. The school may charge up to one cent a half pint to defray the school's cost of the program. That's why the project often is called "the penny milk program."

Messrs Spencer Kendrick, J. O. Gillham and W. R. McDuffie plan to leave Saturday to attend a Banking School at the University of Texas in Austin.

CICERO SMITH LUMBER CO.

UNION NEWS

(By Jacob Sandage)

After quite a lengthy dry spell the Union community has had some good showers. Some farm-ettes are sowing turnips, while others are trying to kill leaf worms.

Our genial friend, R. R. Benton says his wife and children have worked his crop well, while he—R. R. has been spending his vacation at Hobbs, New Mexico. Chech Holmes, our big law, made a trip to North Texas, and to Oklahoma a short time back. Edd Evans, our common citizens gin manager, has been getting the gin in shape for some good ginning.

Some of the Union boys left Monday of this week for Ft. Sill, Oklahoma. These boys will soon be making history. What are we the citizens of the greatest State in the Union, doing to help bring about the defeat of the Axis powers?

Elmer Davis says we are not yet ankle deep in the war. If we are not lets do our part to get in chin deep and try to have our boys back home in time to vote in the next Senatorial primary which will be in 1948.

We have been told that it takes a big man to admit that he is or was wrong, and that it takes nerve to change from the popular to the unpopular side, so we have decided that Doc Townsend must be a giant, and must have enough nerve to win at least one half of the war, for when he realized that a certain candidate for the Senate ain't what he once 'thunk' he was, he did not hesitate to tell the people so, even tho' he knew that it was not what the people wanted to hear, and he also knew that some would say that he had sold out to another candidate. Strange that if one supported a certain candidate, for the Senate, he was accused of being interested in a "slush fund", while if he voted for the other candidate, no one doubted his sincerity. The writer knew nothing about a slush fund, and we will state that

POOL

The Community Social will be Sept. 4, at 8:30 P. M. Mr. Breedlove of Brownfield will have charge of the program. Every one is invited to attend.

Miss Gladys Drennan of Dickens spent the week-end with her sister, Mrs. Irvin Duncan.

Mrs. J. W. Young spent the past week at McCamey visiting her daughter and family, Mrs. Ethel Alexander.

Edna Redding is visiting relatives at Pooleville, Tex.

Mr. and Mrs. Marvin Grissom and baby and Mrs. Pearl Ticer of Dalhart spent Friday night with the H. H. Harben family.

Mr. and Mrs. Shelby Stanfield of Seagraves visited Mr. Clara Britton and family Sunday, also Mr. and Mrs. Vernon Britton and family of Needmore.

Mrs. Ethel Young's mother, Mrs. Mullins of Dickens is visiting her. Little Janey Brown is visiting relatives at New Home this week.

Mrs. Clara Britton had as her guests the past week her granddaughter, Lela Dell Britton of Abernathy and a friend, Bernice Stanfield of Seagraves.

Mr. Roy Young and Miss Amy Redding, both of this community, were married Aug. 15 at Lubbock. Roy leaves for the Army Monday, Aug. 24.

Flois Gunter, Reporter.

We did not even get any postage free envelopes from either candidate, and that is more than a certain man over in Mississippi can say.

When I think of some of the harsh things that have been said about some of our newspaper men, I realize that only the ignoble, the shameful, and the base can be suppressed, either by threat of boycott or otherwise. Ever since the days of Ku Kluxism, and the days of Hooverism, we have had a great mistrust of any one who is intolerant minded, and who doubts the sincerity of any one who differs from them either politically or religiously.

We should remember that opposition, debate, and differences of opinion must prevail if we are to continue to have a democracy. We Allred supporters are men who can take it on the chin. If we couldn't, we wouldn't hang our chins out. We are also democratic enough to favor a majority rule, whether the majority be large or small, and we have no criticism for anyone who did not see fit to vote as we did. The fact that we favor a majority rule, does not mean that we think that after a person has been elected by a majority, that his record or attitude should never be criticised. As much as we love and respect President Roosevelt, we are glad that those who differ with him are permitted to criticize him. Certainly there are times when he should be criticised. He should have been criticised when he "hid out" when he learned a certain Senator had arrived in town. Our Commander-in-Chief should have more nerve than that. No wonder Japan thought we did not have the guts to fight for our rights. We have just been told that married men are soon to be drafted in the Army. Married men

SURE THERE'S A DIFFERENCE
No Ma'am All lemons are not alike!
TEXSUN LEMONS
70% MORE JUICE
IDENTIFIED FOR YOUR PROTECTION
fresh from Keith's
THERE'S A BIG DIFFERENCE
You see, TEXSUN LEMONS, raised in the fertile, alluvial soils of the Rio Grande Valley of Texas, contain 70% more juice and 50% more citric acid. Just give TEXSUN LEMONS a trial and you'll always use 'em. They're a "must" in every shopping basket.

Texas A Factor In Lemon Market

This year, for the first time, Texas becomes a factor in the lemon market of the nation, with the introduction of Texsun Meyer Lemons. The deal started in a very small way when the first shipment was made on August 18. Dependent on weather conditions, peak movement should be about September 15 to 25.

The history of the Meyer Lemon in the Rio Grande Valley is a little uncertain. From the best sources, it appears that Mr. Frank Meyer, of the U. S. Department of Agriculture, shipped buds to a Florida nursery about 25 years ago. These buds were inserted in sour orange stock and a number of small trees were grown. About 32 of these trees from Florida were planted in a grove near Weslaco, in the Rio Grande Valley. Out of the 32 trees only four turned out to be of value and it is from these four trees that the present Meyer Lemon orchards were started in the Valley.

The Texsun Meyer Lemons have all the good qualities of the finest lemon and stand as low a temperature as the standard oranges and grapefruit, something no other variety of lemon will do. Its shape is uniform, skin very smooth, when cured it is of the proper lemon color, and when raised in the Rio Grande Valley the Meyer Lemon is said to contain 70 percent more juice and 50 percent more citric acid than the lemons from other sections. For the first time in the history of the Texas citrus industry, Texsun Meyer Lemons will be pro-

perly cured, colored, graded as to quality, waxed and polished, sized and packed in new white pine standard lemon boxes. They will be picked only when mature by gloved hands, and will be clipped—not pulled—from the stem to avoid bruising.

The Rio Grande Valley Citrus Exchange controls an estimated tonnage of between twenty and twenty-five thousand field boxes of these lemons to be marketed under their Texsun and Tex-Maid brands. This tonnage will pack out fifteen to twenty thousand and packed boxes, running heavy in sizes 300 to 360's which are standard sizes of California lemons.

This season will mark a big step forward in the Texas citrus industry, already renowned for its fine quality grapefruit and oranges. The lemon is the most versatile of all citrus fruits. Besides lemons being used for beverages, garnish, flavoring for fish, meat and vegetables; it has been termed "Vitamin C Insurance"; and is indispensable for its many household uses, and as a war-time beauty aid.

Notice Of City Budgeting Wed.

Due notice is hereby given that there will be a budgeting committee of the city of Brownfield, that will be in session at the city hall next Wednesday, September 2, 1942.

This meeting will be open to the public and all are invited to call and offer their help or ideas. Jesse D. Cox, Mayor, City of Brownfield. 1c

Mrs. George W. Brown of Booneville, Mississippi and Miss Effie Mae Brown of Guntown, Miss., left Wednesday for their homes after a two week's visit with relatives. While here they visited Mr. and Mrs. J. W. Ball and family of the Harmony community, Mr. and Mrs. Lester Caswell of Loop, and Mr. and Mrs. Hadley Kern and baby of the Happy community. Mrs. Brown is a teacher in the Booneville schools.

Jim Cousineau has been transferred to Bremerton, Washington.

Mrs. J. H. Parrish is visiting in Brownwood with her daughter, Mrs. J. D. Shoemaker and family. Mr. and Mrs. Shoemaker are the parents of a baby girl, born Saturday, August 29th.

Mr. and Mrs. Walter Breedlove and children, Jane and Dean, visited in Austin last week. Mr. Breedlove attended the Directors and Sanitariums of the State Health Department meeting.

Civilization will have arrived when a man tells you where you can buy a good book instead of where you can get a good meal.

Bomb 'em with JUNK

Let's blast Japan—and Germany—and Italy—with the chain lightning of destruction that can be built from the scrap in our cellars, attics and garages, on our farms and in our places of business.

Scrap iron and steel, other metals, rubber and waste materials. It will all be used to make tanks, ships, planes and the fighting weapons our boys must have. It is needed at once.

Sell it to a Junk dealer—give it to a charity or collection agency—take it yourself to the nearest collection point—or consult the Local Salvage Committee... If you live on a farm, and have found no means of disposing of your Junk, get in touch with the County War Board or your farm implement dealer.

Throw YOUR scrap into the fight!

This message approved by Conservation Division

Phone 207

JUNK NEEDED FOR WAR
Scrap Iron and Steel

Needed for all machines and arms of war. Fifty per cent of every tank, ship and gun is made of scrap iron and steel.

Other Metals—Rubber—Rags—Manila Rope—Burlap Bags

Needed for making bombs, fuses, binoculars; planes; tires for jeeps; gas masks; barrage balloons; wiping rags for guns; parachute flares; insulation for electric wiring.

WASTE COOKING FATS—When you get a pound or more, strain into a large tin can and sell to your meat dealer.
NEEDED ONLY IN CERTAIN LOCALITIES—Waste paper and tin cans—wanted only in certain areas, as announced locally.
NOT NEEDED (at this time)—Razor blades—glass.

BANKS AND SMALL BUSINESS

Much has been heard in Washington about the necessity for protecting the small business man during the economic turmoil of war—but, according to a spokesman for small business, very little has actually been done by the government.

Instead, some of the most effective work to help adjust small business to the war program is being done by a private enterprise—banking.

Banks in all parts of the country are offering small business an invaluable service which has two distinct phases. First, whenever possible they are making loans to convert plants to war work. Second, and equally important, they are in a position to give small business accurate advice on how it may fit itself into the war picture.

The small business man hasn't the facilities for dealing with all the intricacies involved in obtaining war contracts. He simply doesn't understand how to go about it. The banks do—and their advice is free for the asking.

Compress Men in Brownfield Monday

Arch Underwood and A. D. Repp, of Lubbock, were pleasant callers at the Herald office, Monday. Mr. Underwood is owner of the local as well as numerous other compresses in this section, and Mr. Repp is an employee in the general offices in Lubbock, and former Supt. of the local plant.

Mr. Underwood was well pleased with the outlook for a cotton crop over the south Plains.

We're getting closer to the time when America will be famous for articles made in America.

A girl may wear a golf outfit when she can't play golf, and a bathing suit when she can't swim, but when she puts on a wedding gown, she means business.

Schemes rarely take the place of good, hard work in the lives of those who succeed.

New Courses For Store Employees Are Scheduled Here

Miss Laura J. Wilson, with the University of Texas, Retail Training Division, is coming to Brownfield to conduct a series of retail training courses for local merchants and their employees. Her work here is sponsored by the Brownfield High School and the Terry County Board of Development.

Wartime training courses are to be stressed by Miss Wilson. This series will include:

Wartime Emergency Training for New Store Workers—Which is a part-time employment replacement training program to provide trained workers to replace those who have entered military service or who have gone into defense industries.

Special Wartime Training for Experience Store Employees—To familiarize them with war regulations and adjustments affecting the sale of merchandise and the services of store and the maintenance of customer morale.

A Training Program for Store Supervisors and Department Heads and Store Managers—To assist them in the induction and in-service training of the large number of new persons who are entering retailing as replacements, and to train experienced salespersons to serve customers in wartime.

Miss Wilson will be in Brownfield beginning September 1. She will be glad to give further information concerning these wartime courses. Call her at the office of Terry County Board of Development.

Mrs. C. B. Quante is visiting her daughter in Fort Worth this week.

Rev. H. D. Heath, Sr., was a pleasant caller at the Herald office, Wed. Pretty good crops on the big Heath farms in Yoakum county, this year, we understand.

It is difficult for other people to see a man who is wrapped up in himself.

It might be a good idea to get up a poll to see how much attention people pay to polls.

According to a publisher, only a person who has suffered can write a modern novel. Read a modern novel and you can write one.

Stylish Corduroy

Wide wale cotton corduroy, designed in strict accord with WPB rules, takes a long step toward conservation of fabric without sacrifice of style. The trim, figure-flattering jacket and gored skirt may be worn with a variety of blouses and accessories to serve as a "basic" costume for many fall occasions.

A young woman in Boston dislocated her neck by yawning. We hope we never meet the bore who gave her such a pain in the neck.

One great trouble with a checkered career is, it's always your move.

When you keep running around, it's difficult for a thought to strike you.

One of the best hints on reducing: How often have you seen a fat mail carrier?

The gossip of small towns is just about the same as that in large towns but more unanimous.

There is only one time for any individual to take a forward stride: immediately.

Those who repeat everything they hear do so because they haven't anywhere to keep it.

Sonny Walls, Mon Telford, Jr., and Lee Hughes spent the weekend in Abilene.

Even Marines Must Sleep

Two hardy United States Marines of a Leatherneck tank brigade stretch out on the steel deck of their tank to snatch a few hours of "shut-eye" while on war maneuvers.

Revival In Progress At Baptist Church

Good congregations are greeting Dr. I. L. Yearby as he brings from God's Word messages of vital interest.

He brings great messages of comfort and hope to the children of God as well as warnings of danger and death to those who are rejecting Christ as God's greatest gift to man

The following are his subjects for discussion during the remainder of the meeting:

"Sin's Only Solvent," Friday, 8:45 P. M.; "Dead Men Do Tell Tales," Saturday, 8:45 P. M.; "Heaven and How to Get There," Sunday morning, 11 o'clock; "God's Last Call to People of Brownfield," Sunday evening, 8:45.

It is desired to exceed the attendance of Last Sunday in the Bible School Sunday morning, 9:45.

In behalf of the church we would urge the people to take this opportunity to hear these last sermons of Dr. Yearby as they may never again have the chance to hear him.

We would urge upon men and women who are rejecting Christ to attend these last services of the meeting and give their earnest attention to these messages from this man of God.

We Nab Some Peaches At Stallings Farm

R. L. Stallings was in from the farm some 12 miles west of the city Wed., and casually hinted that Mrs. Stallings had some large peaches if we'd come out. Quizzed further, he said maybe we could buy a bushel. We went out that afternoon, and really got two bushels of as fine Elbertas as anyone ever saw, and at a price much less than any peaches had been offered here.

The Stallings have a fine farm, laying high upon a rise, but the farm itself is level and pretty. They have a seven room and bath rock veneer home, with all the modern conveniences found in any city, such as modern plumbing, electricity, butane gas, Electrolux, etc. The entire home is well furnished.

The best of livestock, such as cows, hogs and chickens run about the place, with a fine wind-break of Chinese elm in every direction. Flanking the home on the north is a fine orchard. Earlier peaches and plums are gone, as well as most of the Elberta

Soldier Boys Given Rousing Farewell

Some thirty-odd boys, the largest delegation Terry county had sent to reception centers up to that time, were honored with a meeting originally intended to be held in the courthouse park, Monday morning, but on account of rain, switched to the district courtroom.

The building was comfortably filled with relatives and friends of the boys. Raymond Simms, secretary of the board, made a few pleasing remarks, and called the roll, asking each boy to stand. All were present. He then introduced Atty. Burton G. Hackney, who told the boys that he expected to join them somewhere about Christmas. While his talk was cheerful, he did not mince words about the great task before the armed forces of the United Nations.

Mayor Jesse D. Cox was then introduced by Mr. Simms, and after a short talk, had two girl ushers hand each man a nice lithographed certificate of appreciation from the city of Brownfield. The certificate was topped by the Stars and Stripes in natural colors.

FEDERATED MISSIONARY SOCIETY TO MEET

The Federated Missionary Society of Brownfield will meet at 3:00 P. M., Aug. 31, in the Presbyterian Church. There will be a business meeting, a program, and a social hour. The outline of the program is as follows:

Hymn, "Sweet Hour of Prayer"; Scripture and Devotional Talk, Mrs. W. S. Patrick; Prayer, Mrs. Avery Rogers; Solo, "Someone Had Prayed"; Talk, Mrs. D. L. Patton; Pageant, "Pray For Us," by Mesdames M. E. Brown, W. R. McDuffie, Tobe Power, J. H. Carpenter, Mills Roberts, Frank Wier, and the music by Mrs. W. H. Dallas; Musical Benediction.

Richard McDuffie is visiting Fred Youree and family in Lubbock this week.

A few people do make a success of taking things easy—kleptomaniacs, for instance.

A bowlegged man can always be thankful he wasn't born a girl.

crop, but there are a few trees that have an abundance of small cleareseed peaches.

Evidently the Stallings family live and board at the same place as well as most of the Elberta

BROWNFIELD COUPLE ARE WED

Mr. Elbert Bradley and Miss Norma Shield, both of Brownfield, were united in marriage Sunday evening, August 16th, at 9:30, at the Brownfield Foursquare church, with Rev. Viola Hunt performing a single ring ceremony.

A lovely white arch was erected, which was decorated with fern, pink and white roses, from which the vows were read. The church decorations were fern and garden flowers, with a hint of national colors. One white basket of flowers was made up in red, white and blue, by having a white basket with a big blue bow and red flowers. The windows also were decorated with the national colors.

The Bride was gowned in a lovely white sheer of silk. Her dress was fashioned with a semi-princess and full skirt, which had a slight train, the veil being held with an orange blossom halo, and flowing the length of the dress train. She wore a shoulder corsage of roses, and carried a white Bible which was decorated with streamers of white ribbons ending with a white sweet pea blossom.

For something old, she wore earrings of Mrs. Hardy's; for something borrowed, she wore Mrs. Bradley's yellow gold watch; for the blue, a big bow of blue on the drop skirt to her gown.

She was given in marriage by her father, Mr. I. O. Shield. The attendants were Miss Alvis Bradley, sister of the groom, dressed in shell pink with blue ribbon bow at the neck of her dress. He colonial bouquet was of garden flowers, and streamers of blue ribbon.

Miss Nona Lee Carver, a cousin of the bride, was gowned in lemon yellow, with orchid ribbon bow, and streamers, also a bow in her hair. She carried a colonial bouquet of garden flowers with streamers of orchid.

Next was Miss Tressie Bryan, who wore pale blue, with pink accessories, and a bouquet of garden flowers and pink ribbon streamers.

Mrs. T. B. Wood wore a deli-

Mrs. Regis Quinlan and son, Bill and Pat, are visiting W. A. Bell and family this week.

Miss Eula Sale of Caldwell, Texas, is visiting Mrs. Lee Balfanz and family this week.

Notice

Gertrude Rasco will be in her Grade School Piano Studio Saturday afternoon from 2 to 5, Sept 5th, to arrange lesson periods for pupils. The pupils are asked to please bring their school schedules with them, so lesson periods can be worked out correctly. 5c

Mrs. Woody Inman has moved to Plains where she is working in the Triple-A office. She is wearing a white dress with yellow accessories, her bouquet also being of garden flowers, and ribbon streamers of yellow.

The Groom's attendants were: Mr. Loran Bradley brother of the Groom who served as best man; Mr. Tom Carter, escorting Miss Norma Lee Carver; Mr. Delbert Norris, escort to Miss Tressie Bryan; and Mr. T. B. Wood, escorting his wife, Mrs. T. B. Wood. Little Imogene Elleitt, the flower girl, wore a lovely rose dress made on colonial style, and Rudolph Jones, a cousin to the Bride, served as ring bearer.

Miss Ramona Carver was gowned in a powder blue taffeta gown made on colonial fashion, the skirt having hoops and the fullness being held in place by red roses. She wore a corsage of red roses, which were very becoming to her dark hair and eyes. Miss Carver sang "I Love You Truly."

Mrs. Ed Spears presided at the piano, also playing the "Wedding March." Pictures were made of the wedding party before leaving the church.

A wedding cake was provided by the lady attendants, and ice cream by the male attendants. The refreshments were served at the parsonage.

The couple left immediately for a short trip, after which they will be at home at 512 2nd Street, in Brownfield.

Calling All Women

With the Army and Navy calling for 3,000 nurses a month to attend to the needs of our fighting men, the demand for women to serve as Red Cross Volunteer Nurse's Aides grows greater daily.

Only those who have had the need for a trained nurse know how acute the shortage is in that field. And only those who have been in hospitals where Volunteers Nurse's Aides are serving know the important part these women play in filling the gap created by registered nurses joining the armed forces.

Throughout the nation there are many young women who would like to aid in the war effort. They are women who cannot leave their communities, but who wish to do something really important. Opportunity to perform the highest type of service—the relief of human suffering—beckons them in the form of Red Cross Volunteer Nurse's Aide training program.

Requirements for such service are simple. Applicants must be between the ages of 18 and 50, and in good physical condition. They should have the equivalent of a high school education. They must be willing to undergo an intensive 80-hour training course and agree to serve as aides for a minimum of 150 hours a year.

Upon completion of their training they will serve as assistants to nurses in hospital wards (clinics, public health nursing agencies, and in the OCD emergency medical units in the event of enemy action. They will be qualified to relieve nurses of the routine tasks that take up so much time, yet mean so much to the comfort of the sick.

Hospital facilities are required for part of the training. Inquire of your local Red Cross Chapter if training courses are available. If they are, tell them you want to become a Volunteer Nurse's Aide, our contribution will be worthwhile.

Rev. Pat Morse from Sugarland, Texas, is visiting his brother "Rusty" Morse this week.

\$2.50 felt hats, special price, \$1.49 The Toggery. 1c

Most men devote a lot of their spare time trying to find a match.

Around The Block

We pay tribute to Mrs. Jesse D. Cox this week. Mrs. Cox moved to Brownfield almost a total stranger, but she sends a box to each of our Brownfield men now in the Army, she makes up the boxes each day but sends them off only once a week. Knowing but very few of the men, Mrs. Cox goes to the draft board to get each man's name and address. Somewhere around the number of forty of our Brownfield men left Monday for the United States Army. The street in front of Nelson-Primm was packed and jammed, from the courthouse right out into the street and up on the sidewalks. Parents, relatives and friends were down to see them off. It was touching to see these brave mothers and fathers telling their sons good-bye with such high courage.

Comes Monday and once again our Brownfield schools will start off in high gear. Those good old High school days, the classes, the band, and all those good old football games where everyone got so hoarse because they yelled too loud, and all the other things that go into making high school one of the prize memories of one's life.

The privilege of the youthful—to enjoy life with a free, unburdened mind. Unofficial football practice must have started. One can always see several of our boys "practicing up a bit" out there by the grade school. The general consensus of opinion seems to be that Brownfield is due to have the best team it has ever had. Our team has always been good on the ground, but now it seems the already accomplished Deverelle Lewis is adding the ability to pass as well as out-dodge and out-run any football boy with the idea of keeping him from a touchdown. Yes, Sir, we're going to have a good team this year, one of the best.

We caught a glimpse of a Model-T Ford bouncing down town the other day with those in the rumble seat having a wonderful time. Wondering—who could be having such an obviously hilariously and wonderful time we continued our walk around the block only to run, or rather collide with the Ford whizzing around the corner and coming slightly upon the curb, and who should the laughing threesome be but the Edwards gal, Glynola Murphy, and Billy Greenfield! Due to the speed of the high-powered automobile we were unable to catch a glimpse of those in the front but if laughter means a good-time, they too, were enjoying the ride!

Doesn't it make you feel good to always see someone like Mrs.

A. W. Turner—someone that is always friendly and in a good humor

Our joke for the week: Two Americans were sitting in Central Park, New York. They were evidently strangers to each other, but after a time one of them began to mumble to himself in a low voice: "I have dreaded this moment all my life. I knew my hearing was getting worse, but I never thought that I would suddenly go stone-deaf. Here this guy's been talking to me for the last 10 minutes, and I've not heard a word he said." "Me talking to you!" exclaimed the other man. "I should waste my time like that? Listen my friend, I'm talking to nobody. I'm just chewing gum."

That certainly is a spiffy little Defense Stamp booth the Sub-Debs have erected. Saw Christene McDuffie making a sale Saturday in it.

You know, the Bill Price Dixie Band is good! They really can swing out on some of those pieces, but they can also make it soft and low. Bill has made all necessary arrangements to go to Ill., to a swanky music school, you know. Our food for thought this week is a quotation from J. Ruskin—"Is there but one day of judgement? Why, for us every day is a day of judgement, every day is a dies irae, and writes its irrevocable verdict in the flame of its west. Think you that judgement waits till the doors of the grave are opened? It waits at the doors of your house, it waits at the corners of your streets."

JANELLE TURNER HOSTESS TO PHI BETA CRAESUS

The Phi Beta Craesus Club met with Janelle Turner Tuesday afternoon at 3:00 o'clock. The president, Miss Wanda Hahn presided. The USO benefit dance was discussed. The members are making corsages of defense stamps for the dance. The colors are red and white. The members voted to postpone their getting club pins for the duration. They decided on their club motto, S. S. S.—Spirit, Style, and Step

Sandwiches, olives, potato chips, cookies and punch were served to the following: Joyce Dungan, Frances Rambo, Glynola Ross, Carolyn Harris, Mary Raye Simms, Ida May May, Wanda Finney, Barbara Taylor, Wanda Hahn, and the hostess.

Mrs. Claude Lasiter and Mr. and Mrs. Buck Lasiter are visiting Mrs. Claude Lasiter's daughter, Mrs. Boyce Holden.

A person of real courage and daring is one who will come right out and say he doesn't like grand opera.

Wayne Stallings left for his home, Wed., at Vinita, Okla. He had been helping his uncle, R. L. Stallings with the crop.

PATSY CARTER HOSTESS TO SUB-DEBS

The Sub-Deb Club met Tuesday afternoon at the home of Patsy Carter. Miss Jean Knight, the club president, presided at the meeting. The members discussed quilting and rolling bandages for the Red Cross. At present the members have erected a tiny booth where they sell War Stamps every Saturday.

Combination sandwiches, potato chips, pickles and ice tea were served to Misses Glynola Murphy, Janette Edwards, Charlie Mae Harold, Juanda Turner, Christene McDuffie, Gloria Hughes, Jean Knight, Nita Inez Chaffin, Beverly Balfanz, and the hostess.

Odell Quante is visiting Sonny Repp in Lubbock this week.

W. H. Hight and family of Morton, were down last week visiting old friends. They moved to that section last spring, and are farming northwest of the city, and report a good crop.

Information On WAAC Now Available

The Herald has on hand a very limited number of booklets in which is contained information regarding the Women's Auxiliary Army Corps. Women between the ages of 21 and 45 who are interested in this newest branch of the United States Army may get one of these free booklets by calling at the Herald office any time after noon today. As the supply is very limited, it is advisable to call as quickly as possible. The booklets are free.

Mr. and Mrs. R. L. Bowers and daughter, Bobbie Virginian, are visiting in Dallas this week.

Mrs. Lee O. Allen is visiting her mother R. W. Robertson of Lorenzo.

Nowadays so many people need sympathy that you shouldn't waste any on yourself.

Mr. and Mrs. W. H. Collins are vacationing in Mineral Wells this week.

Would Oil Companies Ruin Own Business

To argue that the oil industry is trying to prevent the manufacture of synthetic rubber from any process whatsoever, whether it involves the use of petroleum or not, amounts to arguing that this industry is hell-bent on its own destruction.

The situation is simple enough. The very life of the oil industry depends upon the maintenance of motor car transportation. The industry has big war orders, of course—but civilian consumption of gasoline and lubricants are still the foundation of its business. And when the war is over, the motor car will represent the principal market. It is clear to oil men, as well as the rest of us, that the industry can't continue to sell

to motorists unless they can obtain cars.

Even if every ounce of synthetic rubber were manufactured from petroleum products, the money value to the oil industry would be microscopic in the light of its total business. And, in many instances, the industry is operating government-owned synthetic rubber plants without profit. From the purely commercial point of view, rubber simply represents a means to an end so far as the oil industry is concerned—and the end is the sale of gas and lubricants. It is in the oil business—not the tire business.

There are many synthetic rubber formulas, and some involve the use of petroleum, and some do not. Only the chemists and the engineers can decide which is the best, quickest and most practical. The position of the oil industry is one of complete cooperation with any program which promises to solve the critical rubber problem. It is devoting all its resources and facilities toward that goal.

HOW MUCH IS A BILLION DOLLARS

It has been said that nobody knows how much is a billion dollars. This explanation, however, will give a hint as to its spending power:

If you had started at the beginning of the Christian era to spend at the rate of \$1,000 a day, and had kept it up continuously, your total expenditures to August 1, 1942, would amount to about \$709,163,000.

To reach the billion-dollar total at this rate, you would have to go on spending \$1000 a day for 796 years, or until A. D. 2739.

PLACID CANDOR

A clerk at Kelly Field, Texas, was helping an old negro to fill out application papers for a Civil Service janitor job. The clerk would read off the questions and write down the answers.

"Do you belong," asked the clerk, "to the Nazi Bund, or any political party that plans to overthrow the government?"

"Yassuh," said the negro. "Which one?" asked the clerk, taken aback by the applicant's placid candor.

"De Democrats," 'was the earnest reply.

Says Bob Burns: "I'm quite an inventor. I invented a spot remover that removes spots left by spot removers. I've got a cellophane newspaper so a wife can see her husband at breakfast. I also invented a cereal box without any cereal for people who hate cereal but like to save box tops. One of my best inventions is hollow soap—when you use it up, there are no little pieces left.

ation with any program which promises to solve the critical rubber problem. It is devoting all its resources and facilities toward that goal.

YOU'RE RIGHT tootin'

Says William Allen White
"The Sage of Emporia"
about America's Railroads

"You ask me whether I think the American railroads are doing their jobs in this grave crisis. Well, I would say, you're right tootin', they are and tootin' is the word!"

"I live six city blocks north of the Santa Fe main lines. All trains between Chicago and Galveston, between Chicago and Los Angeles and San Diego east or west, go right by my door and you should hear them toot. Try to sleep with your south windows open on a summer night and you will certainly hear them toot . . .

"It's a continuous procession of swift passenger trains laden with soldiers and long grumbling, rumbling freight trains often with two engines and all night they sound like some cosmic rooster crowing to spell the dawn of the day of doom for America's enemies.

"No other service in the United States is doing such a swell job as the American railroads. They were ready for it. When the warning came in '39 after we repealed the embargo clause of the Neutrality Law, the railroads knew what was coming. They are now equipped with cars and with rails. Their roundhouses are full but not clogged. They keep the wheels moving.

"The American capacity for organization under crisis never was exemplified so splendidly as the American railroads have proved their worth and excellence. It is a great job well done. It is a sort of thing that Americans do better than anything else. Our hard common sense, our indomitable purpose to achieve, all these are back of our effort. The railroads have done their work without friction with either labor or capital. They have responded to a great emergency with splendid intelligence.

"And are they doing their job? You're just right tootin' they are!"

Let's All Pull Together

Increasingly, under war conditions, the railroads must furnish mass transportation, military and civilian, for the nation. The load is already great—and growing steadily. Military movements come first, without question. You can do much to help us maintain adequate rail service for civilian needs as well, in these ways: When you travel, make your reservations and buy your tickets early; cancel reservations promptly, if necessary; check all personal baggage not actually needed in passenger cars; and spread the travel load by avoiding week-end and holiday rush periods. When you make shipments, order freight cars only to your actual current requirements; load them to capacity; and release them promptly.

AT YOUR SERVICE—Why not talk over your transportation problems with your Santa Fe representative? He'll be glad to help you with practical suggestions.

Remember!

We Must ALL Help Win This WAR

THE CONSCIENTIOUS OBJECTOR

We have heard of quite a few cases of men objecting to service in the armed forces of the United States because of conscientious reasons. We wonder sometimes what these men base their claims on.

Some may be objectors, but we doubt the conscientious part of the statement.

These men, who publicly vow that if this country were to be invaded by our enemies, they would not lift one finger in resistance, and if these same enemies entered their home, attacked their wives and killed their children, they would stand by refusing to kill to protect them, fearing the wrath of God.

Now we would like to ask these men what they would do if a mad dog suddenly attacked their babies? Would they stand by and allow the mad dog to slaughter as he pleased? No, of course he wouldn't, he would do all in his power to kill the dog. This is the practical example of what we are up against today. Instead of dogs it is men, mad men, far more dangerous and cruel.

How can these men refuse to serve knowing that if this war is lost all the freedoms and liberties that they have enjoyed in this nation will be forever forfeited. How can they rest, knowing they will always be branded as slackers, and make such objections?

These men are letting down the builders of our nation, the brave settlers at Jamestown. The father of our country, George Washington, Patrick Henry, who in reply to the unscrupulous rule of the British Monarchs, uttered these immortal words when faced by conditions similar to those now facing us: "I know not what course others may take, but as for me, give me liberty or give me death." Such men as these were willing to fight and die

speech at Gettysburg, stated, "Four score and seven years ago, our forefathers set forth on this continent a new nation, conceived in liberty and dedicated to the proposition that all men are created free and equal." Yes, we are created equal, but should these objectors be considered to be upon an equal basis with those that die that they might have the freedom and liberty to express these objections?

With the courageous background of fighting, liberty loving American men and women, and then object because of conscientious reasons to fight causes us to wonder as to whether these men are to be considered Americans, or whether they are just, yellow, self concerned draft dodgers.

These men who claim to fear the wrath of God if they kill to protect the rights of freedom, if they stand by hoping to be glorified in the sight of God, had better instead prepare for torments of an everlasting Hell for what use would God have for such men?

Lt.-Gen. Joseph Stilwell

IRREDUCIBLE MINIMUM

Both bride and groom had requested that the ceremony be just as short as the minister could make it. Turning to the groom the minister said:
"Have'er?"
"Yes."
"Have him?" (Turning to the bride).
"Yes."
"Yes."
"Hitched for better or worse."

"Take at Letter Darling" reverses the order of male boss-attractive girl secretary, with Rosalind Russell playing a high-powered advertising executive who hires a handsome male secretary, Fred McMurray, for strictly business reasons. Can she help it if she falls in love with him? A gay, fast-paced comedy with sparkling dialogue and clever situations, highly entertaining. Coming to the Rialto Sunday.

SHOULD HAVE SCHOOL CHILDREN EXAMINED

AUSTIN, Aug. 24—The State Health Department urges all parents to have their children undergo a thorough physical examination before entering school next month.

The importance of such examinations can not be over-emphasized according to Dr. Geo. W. Cox, State Health Officer, who declares that the health of a child has a direct bearing on its progress in school.

"It is advisable to have school children examined several days or even weeks before school begins," Dr. Cox asserted, "so that minor ailments can be corrected and any possible serious ones placed under treatment."

Dr. Cox also advised parents to take their children to a dentist for a thorough dental check-up and cautioned that an examination of the eyes be not neglected.

"In the old days it was considered only necessary to have school children provided with necessary books and some new fall clothing," Dr. Cox said, "but today we recognize that it is more important to be sure that his health has been properly safeguarded."

Immunization for protection against communicable diseases should be effected before a child enters school, where he spends most of his time indoors with a large group of children, which facilitates the spread of infectious diseases. The student who has immunized and whose health is under the observation of the family physician, whose eyes have been examined for corrective treatment, and whose teeth have been cared for by a competent dentist stands a much better chance of success in school than does a student who is handicapped by one or more physical defects.

Miss Rowena Hulse was in last week to renew for her Herald and informed us that she would teach again this year at Jal, N. M. She stated that teachers salaries had not been cut there.

The Santa Fe system moved 35,438 cars last week compared to 30,905 same week in 1941.

Mr. and Mrs. T. L. Lowe spent the week-end in Abilene.

MISQUOTED

Hirohito: "When we win this war I shall rule the world."
Mussolini: "You're wrong. I shall rule it. You recall the Lord said, 'the meek shall inherit the earth.'"
Hitler: "That's a lie. I never said anything of the kind."

PATIENCE PERSONIFIED

Waiter (to patron who has been kept waiting for some time): "What do you wish, sir?"
Patron (sarcastically): "Well, what I originally came for was breakfast, but if dinner's ready now, I'll take supper."

Sgt. V. H. Spears, son of Mr. and Mrs. J. E. Spears, Sr., has been heard from. Reports he is doing fine. Sgt. Spears is somewhere in the Pacific.

Mail Christmas Boxes To Boys Abroad No. 1st

Those citizens who have friends in the fighting forces in other lands must mail Christmas packages on or before November 1. Christmas packages to foreign lands will not be accepted after November 1, according to announcement of the Postoffice Department.

It was urged that parcels be held to ordinary shoe box size, with weight not in excess of six pounds. There is a Department restriction on overseas parcel post of 11 pounds, 18 inches in length and 42 inches combined length and girth.

Articles should be easily portable and useful in any climate, it was stated, while food should not be sent, and clothing only if it has been specifically requested.

A scientist says he has proof that life began on this planet in hot water. Did he say **BEGAN?**
Our pet idea: That the manager of a country store uses about the same amount of brains that is required to be the head of a big corporation.

Lubbock Army Flying School Band Being Recruited

A War Department announcement will be welcome news to men between the ages of 45 and 50, who are otherwise qualified, to fill vacancies in the Army Air Force Bands.

The West Texas Recruiting District has a quota of 28 musicians to be filled for the Lubbock Army Flying School at Lubbock by September 21.

Each band will consist of the following personnel and instruments: Flute-Piccolo; Bb Trumpets, French Horns, Tenor Trombones, Bb Clarinets, Alto Saxophone, Tenor Saxophone, Baritone Saxophone, Bb Cornets, Bb Baritone, Bb Basses, Snare Drum, Bass Drum.

Qualified musicians should see their nearest Army Recruiting Station before this quota is filled.

This is the chance for men over 45, who have heretofore been above the age limit for enlistment in the Armed Service, have been waiting. This is their chance to serve their country.

Further information may be secured at any of the following U. S. Army Recruiting Stations, Lubbock, Amarillo, Plainview, Pampa, Odessa, Big Spring, Sweetwater, El Paso, and Fort Bliss.

Guests in the E. Brown home recently were all the children except Glen, who is in training at Camp Haan, Calif. The children were Mrs. Frank Turner, Snyder, Okla.; Mrs. Don Hill and children, Corpus Christi; Roland, Grady, Terry and Bonnie Brown of Dumas, Texas.

Mrs. J. C. Rhader of Monohans, Texas, was here the past week visiting her parents, Mr. and Mrs. Lense Price and other relatives. She stated to the Herald that she would not teach this term, as she and husband were moving to Beaumont after this week.

Mrs. E. A. Graham has returned home from a lengthy visit with her daughter, Mrs. Bill Amo, and Mr. Amo, of New Jersey, near New York. Mrs. Graham saw much of the big city while up there. She returned via Texas City for a visit with her son, Tight and wife.

CHURCH UNIVERSAL NEED

To say that I don't need the church is mere bravado. I needed it when my father died; I needed it when we were married and when our babies were taken from us; and I shall need it again sooner or later, and need it badly. I am in good health now and I could, I suppose, get along very nicely for a time without the aid of clergymen, or choir, or even prayer; but what sort of a man is he who scorns and neglects and despises his best friends until his hour of tribulation.—Edgar A. Guest.

THREAT CAME TRUE

Lovesick Swain: "If you refuse me I shall die."
She did refuse him, and he died as he predicted—60 years later—after he had married another girl and lived happy ever after.

Opportunist: One who gets a haircut and shampoo when he has a bad cold because it always gives him a bad cold anyway.

Truth is a good thing, but you should be careful how you handle it.
