VOLUME THIRTY-EIGHT

BROWNFIELD, TERRY COUNTY, TEXAS, FRIDAY, OCTOBER 16, 1942

NUMBER 11

Material Wanted For Hospital Supplies For Army-Navy Hospitals

Due to the increase in the number of hospitals established this year at U. S. army camps, naval training stations, aviation training camps flying schools, presents a problem in supplying all the comforts articles which have been requested in quantities far beyond those of former years. The local Red Cross has been asked to furnish as large amount as we can of supplies, to pay for the materials—inasmuch as we are short of funds just now, it has been decided to ask for material to be donated.

In the past you have responded nicely in cash donations—now we are asking you to donate material; we want unbleached muslin or bleached twill, bed ticking, sateen, indianhead, outing flannel in white or light shades. Washable materials in solid colors.

This chapter will be asked to make 100 bed pan covers, 50 bedside bags, 50 card table covers, (for hospital recreation room), 50 cushion covers, 50 ice bag covers, 550 pillow covers. We will just make the seven different items of the 24 listed that are needed.

Buy your materials in at least one yard lengths or more and as many yards as you want to donate. Bring them to the Red Cross sewing room in the old Legion Hall, east entrance, or if not convenient, mail them.

By asking for yardage the burden will not be great on anyone, and there are few people in Terry or Yoakum but what can give as much as a yard. Don't be afraid we will get too much material as headquarters would like for us to treble this quota, many, many times.

Get a fair grade of material—one that will launder well and have lasting qualities. Most stores have a fifteen cent grade of muslin that will do nicely. Come on, let's see how much material you will give to this cause. If our boys can die for us and others carry injuries and scars, and still others crippled for life—surely we can give up a few pennies to give the boys in the hospitals a few of the many comforts we enjoy each day.

Talk to some of the boys from the west coast who have come in contact with the boys coming to the hospitals from the battle fronts and you will not hesitate to buy a few yards of material. No sacrifice humanly possible could be greater than theirs.

There is now some 400 yards of material to be made into slips for ladies in our allied countries. We can use your spare time either cutting or sewing, sewing room open each evening Monday through Friday from 1:30 to 5 o'clock. You may take as many garments as you wish home to make.

School Children To Pick Cotton Half Day

In view of conditions generally and labor shortage, the trustees of the Brownfield Consolidated district met Wed. night, and agreed to turn out at noon each day until such time as it is thought that transient labor can handle the crop. Supt. Hancock stated that school would open at nine each morning and turn out at noon. Farmers wanting hands should call at the high school building at 1:00 P. M.

In view of the fact that the school has made this concession, the officials are asking that as many others as possible can join the school children in gathering this crop so that schools may get back on regular schedule as soon as possible. Those not in school may join the students at 1 o'clock to be transported to the cotton fields.

Mr. Hancock stated that students must attend the morning sessions of school, and in case of rain or bad weather, school would remain in session all day until weather conditions were better.

The new nickleless nickle is guaranteed to trip any slot machine.

Terry Is Still Leading Naval County

Hopeful of maintaining a steady flow of Navy volunteers from Brownfield and Terry County during October, the Navy recruiting service will continue to "set up in business" at the Brownfield Post Office each Tuesday. Quota for Terry county for October is 12 men.

An officers from the recruiting station at Lubbock, Yeoman Collier Parris, will be in Brownfield each Tuesday from about 10 a. m. until 5 p. m. for the purpose of interviewing applicants and taking applications, thus saving an extra trip to Lubbock for men planning to join this branch of the service.

One of the most "Navy minded" counties of the 15-county territory served by the Lubbock station, Terry county sent 16 men into Navy uniforms during the record-breaking month of September, and already has sent four men this month.

Those enlisting in September were Hubert B. Parks, Lonnie E. Downing, J. M. Chaney, William H. King, Lenn Baker, Hilliard Fuller, Coy Leon Maroney, Ralph P. Gorton, Thurman J. Hand, Ervin Ray Miller, Jake Flint, Louis Berl Goldston, Leon D. Hudler, Hollis D. Kizer, Charles R. Stevens, Jr., and Stewart B. Collier. Up for enlistment this month are E. G. Jones, Reuben S. Bingham, Edwin L. Helms and James A. Freeman.

Must Register All Kinds Of Trucks

County Agent A. L. Hartzog was in this week anent the coming registration of truck and other vehicles that use rubber tires and gasoline for registration is set for November 15th, and includes all trucks whether used on the farm or commercially, and for transportation of passengers.

Mr. Hartzog was not sure whether this would include trailers, but the advanced instruction, says, "and other rubber tired vehicles." In a few days, perhaps a week, he expects to have full information and registration certificates, which will be either issued at his office or the AAA office of Looie Miller.

In order to get gasoline or re-treads, it is very imperative that you register your truck or pickup. October 22, 23 and 24th have been designated as national farm truck registration days. Without these certificates, you cannot legally operate your truck or pickup.

Says Herald Really Doing A Service

The following letter, under date of Oct. 8th, was received by Mrs. Graham Smith, city secretary:

"I read in the Herald that Graham (Smith) was here. So I am writing to find where he is. Please send his address, will you. I am in my seventh week here. November 21 is graduation day. Then I will know my capabilities. Am I capable of being an officer, or will I finish the job as I started, an enlisted man? Wish me luck. You know that the old Terry County Herald does its stuff. Had Graham not seen my name in the paper when I was in the hospital at Wolters, he wouldn't have come to see me. I was glad to see him, believe me. And if I hadn't seen the article that he, too, was here at Fort Benning, I probably would never know.

Of course we don't find much time for visiting. However, if you will send me his address, surely I will find time.

Corp. Kenneth Hill, 38064132 14th Co. 3rd Bn OC. 107, 2nd Student Training Reg, Fort Benning, Ga.

Mr. and Mrs. Charley Copeland of Yoakum county, was here Monday.

Mr. and Mrs. Kenneth Lewis of El Paso, came in Monday to visit Mr. Lewis parents, Jim Wheatly and other relatives. Mr. Lewis is in service and stationed at Ft. Bliss.

Is There A Slacker In Terry County?

The word "slacker" was born with World War I. Just why that word was dug up and aimed at folks who failed or refused to do their share in the other war, we know not. The word is not found in many dictionaries, but the word "slack" means to loosen, so we guess that a fellow who does not keep his end of the rope taut, might, by his laziness or indifference, lose the war for us—if there were many. The Tribe is Scattering Here.

If there were "slackers" in Terry county last Wednesday, they were hidden. They young and old, big and little, high and low, town folks and farm folks were all on the job. In one way, with all the stores and banks and cafes closed, it was even tighter to get in and get something than it is on Sunday generally speaking. Those accustomed to that mid-morning or mid-afternoon coke or coffee just had to forgo the matter. Those that sold such were out gathering in junk. That barber that shaved you or cut your hair the day before, had on his overall and was either hauling in the junk, or helping to unload it at the dumping places. All were busy people, and they got results. Some Towns Reported "Slackers".

Some of the weakly papers that come to our exchange reports that there were many in their towns that were "slackers," but very few on the farms. It is true here that no town family could dig up as much junk metals as their country cousin, because such metals just don't accumulate as fast in the town home as the farm home, for reasons anyone should know, but they got what they could, and then scrambled into pickups and trucks for trips to farms that needed help in loading and moving their scrap to town. There were very few if any "slackers" in Terry county last Wednesday. All Deserve Much Praise.

Among the hardest workers of the day were the school faculties and student body, and this applied to both the rural and town schools. All were busy early and late getting in the junk. But like Judge Lincoln, we saw wrenches and other tools that some good farmer is going to look for in vane some of these days when they need 'em. Well by that time they may be on their way to some steel mill. Along with the school folks, we must commend the American Legion, the Service Clubs and the county and city officials. All worked like Trojans last Wednesday.

While the United Newspaper Scrap Drive got a lions share of the praise for the success of the effort, without the many organizations mentioned about and perhaps others, it would have been a dud. But the drive shows what publicity and co-ordination and co-operation will do.

M. & M. Rummage Sale Tomorrow

Besure and attend the annual rummage sale of the Maids and Matrons Club, tomorrow and help buy books for the library. Anyone having anything to donate to this cause please call or take to Mrs. Jno. R. Turner, Mrs. Tom Cobb, Mrs. Herman Heath, Mrs. R. B. Parish, Mrs. Jot Akers or Mrs. L. Nicholson.

If you have any books you would like to donate, they will be very acceptable by the library committee, Mesdames Jessie Randall, M. G. Tarpley or Mrs. Herman Heath.

In this rummage sale will be found good clothing at a very nominal price, be sure and attend, help keep the library in good books.

Mrs. G. E. Caudle of Hale Center was here on business, Tuesday. She has land holdings in Terry county.

Miss Elinor Gilham has returned to Lubbock where she will enter college. She has been in Brownfield recuperating from an appendicitis operation.

District Meeting of Texas Federated Music Clubs Friday and Saturday

HEADQUARTERS M. E. CHURCH BRIEF HIGHLIGHTS OF COMING EVENTS

Mrs. Bard W. Paul, State president of Dallas, will be a honor guest during convention. She is past Parliamentarian of State and a loyal officer for many years.

Mrs. I. D. Cole, of Amarillo, too, well known, but all say her presence is distinct joy at all music affairs. She is past State President, National Board member, and is now president of Lone Star District, which comprises Federations.

Mrs. Cole will address the convention Friday on "Music as a vital Force in our war Effort". She and Mrs. Paul are special dinner guest for the 7th District board dinner, Thursday.

Mrs. Glen W. Dolin, of Happy, President of 7th District of Music Clubs Federation, will preside at all meetings. She is a delightful person, a mother of two young sons, a teacher and a musician.

Mrs. W. O. Thompson, past 7th District president, of Hereford, will attend and lend her experience and helpfulness and is a ray of sunshine.

MRS. H. L. BROADWELL
Historian, Hereford

Mrs. H. L. Broadwell, Hereford, Historian, she has so capably filled her place, that she is now the permanent Historian of 7th District.

Mrs. Grank Matchett, acting President of Seagraves Music Club, during absence of Mrs. R. V. Oberholtzer, who is in the east for several months, will be a hostess of our convention and attend all meetings.

Mrs. Joe L. Briggs, Borger, 7th district Treasurer, Mrs. M. M. McLeod, Happy, corresponding secretary, will also be among our guest.

The Phi Beta Craesus Choral Club, a new junior organization, will appear on the Junior program, Saturday at 2 o'clock.

Lubbock will send a number of artist as will Amarilla, Hereford, Levelland, Canadian, Lamesa, Plainview, Memphis, Littlefield, Quitaque, Spearman and Gruver. Mrs. E. D. Jones, past president of Cen-Tex Music Club, will address the Juniors at luncheon Saturday. A clever luncheon plate is being served that will be a surprise.

Mr. John S. Powell, honorary member of local music club, will have one of the places of honor during the convention. He shares with the capable members who are responsible for courtesies. Mesdames Tommie Black, Jno. R. Turner, Roy Herod, C. T. Edwards, and Miss Maude Jo Fields, who share with Plains and Seagraves clubs in entertaining Friday 6:30 p. m.

We are especially indebted to our Mrs. J. M. Teague, and to all of our members who are proving their loyalty in making this an enjoyable event for Brownfield.

Mrs. D. P. Carter, Mrs. R. A. Brown, Miss Brown, and Miss Huff are Junior Club Councilors for entire day Saturday. Mrs. W. G. Hardin has charge of year book display; Mrs. E. E. Hancock, badges; Mesdames Walker, Hanks, Rodgers, Sullivan and Mr. Jno. S. Powell, assist in registration and other courtesies. Hear the Brownfield band play Saturday.

The general public is invited to these meetings. Help us build morale at home. As our National President states' Service is the rent we pay, for the space we occupy' Lets serve.

NOTICE

Each of you that has out Red Cross garments to make please finish and bring them at the very earliest date as we want to make a shipment. Our Store room is small so we have to keep it moving out and we want to send everything on hand now before we start on the new shipment of materials.

L. M. Wingerd returned home Saturday from Phoenix Arizona where he has been on business.

Man Seriously Hurt In Airplane-Truck Crash

A critical condition at the local hospital, after a low flying and stunting plane, said to be from the Lubbock Air Base struck the highway maintenance truck he was in eight miles north of Plains on Highway 214. Bob McDonald, also of Plains, who was driving the truck, was not seriously injured.

L. B. McPherson, Maintenance Superintendent for both Terry and Yoakum counties reported to the Herald that the two men in the truck were going out north of Plains to make some repairs, when they saw the plane coming at them. One remarked that it looked like the flier was trying to hit them, and they pulled clear off the highway.

Mr. McPherson said that if it had not been for a steel barrel behind the cab, both men might have been instantly killed. As it was the barrel was crushed and the cab wrecked. Both doors flew open and McClellan fell out on his head. As luck would have it, the "stunter" lost part of his landing gear in the collision, and it was an easy matter to locate him. He flew off toward Lubbock. He was an easy matter to locate him. He flew off toward Lubbock.

We learned late Tuesday that the cadet had been arrested at the Lubbock Army Air school base, and was being held pending the outcome of McClellan's battle for life. The name of the flier was not revealed to Mr. McPherson. Two army officers visited the hospital Tuesday.

PTA To Help In Cooking Fat Drive

According to Mrs. E. C. Davis, there will be a meeting of the West Ward PTA, in the high school auditorium, Monday, October 19, at 8 p. m. This is to be a family affair, and to do so, they have arranged supervised recreation night for the children in the gym.

The Parent-Teacher association are to take over the war time project in the conservation and collection of waste cooking fats of the town of Brownfield. The town will be zoned, and a definite portion assigned to collection agencies. It will be taken to central buying agencies, thence to be turned into explosives.

So, mothers, save every little bit of waste fats. Remember the old poetry you recited when a girl? "Little drops of water, little grains of sand, make a mighty ocean and the pleasant land."

Farm women, who have much more waste fat than town women, will, as heretofore, bring in their own individual savings, Mrs. Davis explained.

Market Association In Lubbock 17-19th

The fall and winter showing of Western Wholesale Market Association will be at Lubbock Saturday through Monday. Many wholesalers are opening show room at Hotel Lubbock, the largest number ever. Register in its history.

Complete lines of reasonable merchandise will be shown by a large number of wholesalers and manufacturers, and most of them say they can assure delivery of all items they are carrying.

A Letter From Corp. Senator Formby

Last week we had a card from Corp. Marshall Formby, who is also State Senator. He is located with Hq Co. NOSA, New Orleans, La.

Says he is enjoying army life, and that they have taken about 30 pounds of his avoirdupois, which is well enough. Sends regards to Terry county friends, and is tickled they have a good crop.

He did not state whether he would be able to get off for the legislature session in January or not.

To The Husbands In The Service

Last week, our initial letter in these series was from Judge C. L. Lincoln. This week, we have one from a lady whose husband is in the service. Usually we do not print letters without knowing the name of the writer, but as we are making an exception to this one, as there is nothing objectionable to anyone in it, and much to commend. She states in a personal letter, which she signed "A Weekly Reader and Friend," that she cannot use big words, but her letter is really from the heart, and that she is trying to carry on and do her part. With such wives and mothers in American, we cannot help but win. What a pity she does not use her real name. We feel that a lot of the men in the service would like to write her, commending her for her fine courage under trying circumstances. Her letter:

To The Husbands in the Services: I am writing not for only for myself, but for the millions of women like me. Women who have given up their husbands for the sake of their country.

We are trying to carry on and do the job here at home while you are away. When I say "we" I mean all of us wives. We are trying to take your place until you come back, and you will come back when your job "over there" is done. We are working for you, buying bonds and stamps; we write you letters and send pictures and packages—and always we are loving you. Just because we are all working and trying to carry on does not mean that we do not miss you, because we do. We miss you; worry about you and pray for you every minute of the day.

But all the while we are wishing for you to be with us. We are proud to wear our "service pens" that shows that we have given up everything dearest to our hearts, and we wouldn't trade for anything. When we see men that are left behind, we are a little sorry for them, because you are doing so much more. Yes, we are very proud, proud because you are fighting for us and our country we love so well.

Yes, we stick out our chins and hold up our heads and ask for more. But behind all our effort to be able to take your place, we are still women, and we know deep down in our hearts we cannot do it, and like all women, we sometimes wonder if we can go on another day. That feeling lasts only a minute. Even knowing that we cannot fill your place as well as you, we try to do our best, and we do.

So you service men everywhere that are worrying about the wife you left behind, please don't worry. Don't worry about us, we are making it fine. The thing to worry about is yourself. Take care of yourself and write to us as much as possible, because that helps next to seeing you. Stop worrying and in some ways forget about us. Forget about us in everyday except to love us with all your heart, and write us.

Then go on and win this war in a hurry and come back to us. First and foremost, remember always we are praying for you and loving you every minute.

We have our chins up—keep yours up too.

A Soldier's Wife.

Lynn Nelson Recruiting For Air Base

Lynn Nelson and wife were home over the week end from the Lubbock Army Flying School. When at home, Lynn who is a technical corporal, spends much of his time recruiting additional forces for LAFS. The following list is the young men he reported this week:

Hershel Bates Smith, Lee Roy Depoyster, Thomas Warner Buel, Norwood Maynard Browder, Lennie Reaford Warren, city and John Wyley Day, Seagraves.

Each month now 400,000 autos go into the junk heap—twice the pre-war rate.

Speaking of amendments, there is one that proposes to vote some \$20,000,000 to build a state office building, and stop paying rent on numerous offices in Austin. Might be a good thing in normal times, but these are far from normal times. We don't need any non-sensational debts just now. Let's kill this amendment.

While Mr. Leon Henderson and the OPA state that any try of evasion of the price control law challenges the war effort, including those who may try the black market route. There may be some cases of unintentional errors. Let us remember that many retailers did all in their power to control prices, and to keep down runs on certain groceries and scarce articles before the law went into effect. If therefore, these retailers had been out to make a "killing," they would have done so before the law. Now that we have the law, OPA should be certain before prosecuting that violations were made wilfully. As David Crockett is quoted: "Let's be sure we are right, then go ahead."

So far as we can learn, of the some five or six constitutional amendments, one is about all that has a shadow of a chance to pass. That one being the House Joint Resolution No. 1, which proposes to pay off the \$30,000,000 debt or overdraft of the general fund, and then keep the state out of debt. If this amendment becomes a law, future legislators will trim twice before they make some appropriation voluntarily or at the behest of pressure groups, when at the same time they would have to provide funds by extra taxes to take care of the appropriation. Business leaders generally are getting behind this amendment, as it is generally conceded that the state has no more right to give "cold" checks than individuals. In fact the state would prosecute individuals who persisted in the same thing. Voters when you go to the polls November 3, remember HJR No. 1, and give it your vote. Let's get Texas out of the "red" and keep it out. Vote for this anti-debt-resolution.

As stated in these columns some time ago, the West Texas Chamber of Commerce called off their big regional convention, and directors are voting on a twelve plank platform by mail. Among them is a study for postwar economy in order that we may avoid the pitfalls that followed World War I. Another is an endorsement of the Atlantic Charter, promulgated by President Roosevelt and Winston Churchill in August, 1941, which is a basis for world wide peace. We won the other war and lost the peace. Let's study this matter and be prepared to win the peace following the war. Let's do all we can to void and discourage future wars. We just don't need them.

Col. I. Heardit Dow, of the Wink Bulletin, was caught between love and duty during the scrap drive in his city. The Colonel was trying to do his patriotic duty to his nation by helping to gather junk. At the same time he had to keep his weather eye on his old jallory to keep some enthusiastic person from throwing it on the junk pile. That was one time when the Colonel needed an eye in the back of his head. Well, we were uneasy about our lawn mower and garden hose all day. Both are getting old, and we never use either, but the wife occasionally uses the hose.

NOW IT IS A TURKEY TOM GETTING PUBLICITY

There's never a dull moment on the F. M. Page farm. Things do happen.

A few months ago, surprised members of the Page family discovered their first freak—a "something" that was half duck and half chicken. Then a midget calf, which was small but perfectly proportioned.

To cap matters, Mr. Page discovered a Turkey Tom calmly taking over the usual function of the hens by setting on the eggs.

The gobler isn't averse to a battle if anyone tries to remove him from his chosen work.—O'Donnell Press.

We hereby "appoint" Editor Forgy a committee of one to investigate the strange goings-on at the Page farm. Maybe the female of the specie of the Page domestic fowls have either joined the WAVES or WAAC's. Or could they by any means be doing their part as welders? Ain't no tellin' what the shemales will do these days and times.

We note that Harry N. Stone, who has been a citizen of Seminole almost as long as we have been in Brownfield, has been appointed mayor of that city for the second time, following the resignation of the regularly elected mayor. Harry was for some 25 years editor of the Seminole Sentinel.

Shorty Forbus of Tiband, new Mexico, spent the week end here with his wife and daughter. He is a welder in a defense project.

President Ten Years

On September 1st L. O. Head completed ten years as President of the Railway Express Agency, with which he started as Local Agent in 1908.

He was first to introduce modern selling technique to the transportation business, including nation-wide advertising and educational campaigns. Part of his far-sighted program included a tie-up with Western Union whereby telegraph offices and messengers were made available for the acceptance of or special call for express shipments; the inauguration of an international express system with Pan American Airways and the unification of the major air lines into nation-wide Air Express with the co-ordination of Air and Rail express service.

Mr. and Mrs. Bob King of Midland are again making Brownfield their home. Mr. King has accepted bakery formans job at Haynes Dixie Star Bakery. Mr. Haynes will leave after the 1st of Nov. for Kelly Field, where he has enlisted as air pilot instructor.

Get Five More Volunteers From Terry County

The Lubbock recruiting office reports the following young men from Terry county have recently enlisted in the U. S. Army, all desiring to be Air Corps Specialists:

Willard Allen Brock and Julian Eugene Patterson, city; Lloyd Glen Jeter and Issac Arthur Beall, both of Meadow, and Dewey Finnis Pace, of Wellman.

Alfred Smith Now In Active Service

Alfred Smith, Son of Mr. and Mrs. Lee Smith, of this city, who entered the naval reserve seven months ago, has completed several schools and has gone into active service.

He has become a radio operator and has been assigned to a squadron of planes operating along the Atlantic coast.

Lost and found columns of Tokio newspapers are crowded these days. Every time an American buys a War Bond, the Japs lose face. Buy your 10% every pay day.

CITATION BY PUBLICATION

THE STATE OF TEXAS
TO: J. W. LANGSTON

GREETING:

You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 23rd day of November, A. D., 1942, at or before 10 o'clock A. M., before the Honorable District Court of Terry County, at the Court House in Brownfield, Texas.

Said plaintiff's petition was filed on the 10th day of October, 1942. The file number of said suit being No. 2807. The names of the parties in said suit are: Helen Langston as Plaintiff, and J. W. Langston as Defendant.

The nature of said suit being substantially as follows, to wit:

That plaintiff resides in Terry County, Texas; that defendant's residence is unknown to plaintiff; that plaintiff has resided in the State of Texas for 12 months and in Terry County for six months preceding the filing of this suit; that plaintiff and defendant were lawfully married on February 25, 1938; that plaintiff and defendant separated on or about April 15, 1939 on account of the cruel and harsh treatment and improper conduct of defendant toward plaintiff, since which time they have not lived together; that said marriage relations still exist; that defendant's action and conduct has rendered her further living together insupportable; that no child was born of said marriage.

Plaintiff prays for judgement for divorce, costs of suit, restoration of her maiden name.

Issued this 10th day of October, 1942.

Given under my hand and seal of said Court at office in Brownfield, Texas, this 10th day of October A. D., 1942.

Eldora A. White, Clerk, District Court, Terry County, Texas. 14c

(Seal)

BEGINNING TO FIGHT BACK AT FOES

The American people are fighting with their backs to the wall and they are rapidly realizing it. Each day it is becoming difficult to operator industries, individual businesses, and farms. Each day more men from the home front are sent to the military front. Each day sees new threats arise to basic American institutions.

But each day sees the ingenuity and resourcefulness of the American people reach new heights. The time for shoulder to shoulder fighting without superfluous words about unity is here. Capital and labor, industry and agriculture are going to have to abandon traditional dogmas. That they are beginning to do so is best evidenced in a recent bulletin of the Standard Oil Company of Indiana. Executives and employes of that company worked after hours during the summer helping farmers harvest crops. This single instance may not seem important. But it points the way to the kind of unity that is needed to win this war. If farmers can get a good look at a few men from industry in shirt sleeves and dispel the "city slicker" illusion, it will teach us more about the working of the American free enterprise system than all the propaganda in the world.

Election Notice

THE STATE OF TEXAS
COUNTY OF TERRY

This 14 day of September, 1942, came on to be considered by the county judge of Terry County, Texas, the petition of 100 freeholders of the said Terry County for an order of election in said county for the purpose of enabling the freeholders thereof to determine whether horses, mules, jacks, jennetts, and cattle shall be permitted to run at large therein, and also to determine whether hogs, sheep or goats shall be permitted to run at large therein, and it appearing to the undersigned judge of such court that such petition was filed with the commissioners' court of said county on September 12, 1942, and that such court thereafter at their next regular term, on the 14th day of September, 1942, heard and granted the same and ordered that such election be held on the 3rd day of November, 1942, and that the judge of said county issue an order therefor and cause public notice thereof to be given as required by law:

Now, therefore, by virtue of the authority vested in me under such order and of the laws of this state, I, C. L. Lincoln, County judge of Terry County, Texas, do hereby order that on the 3rd day of November, 1942, in the regular voting precincts of said Terry County, an election shall be held for the purpose of enabling the freeholders of such county to determine whether horses, mules, jacks, jennetts and cattle shall be permitted to run at large in such county and also to determine whether hogs, sheep or goats shall be permitted to run at large in said Terry County.

That polls shall be opened for such election at the regular voting boxes in said Terry county, and the officers of election, heretofore appointed by the commissioners' court to hold the general November elections in Terry county for the year 1942, are hereby reappointed and ordered to hold said election in accordance with law.

No person shall vote at such election unless he is a freeholder and is also a qualified voter under the constitution and laws of the State of Texas. All votes of such election shall be by ballot, and voters desiring to prevent the animals designated herein from running at large shall place upon their ballots the words, "For the Stock Law," and those in favor of allowing such animals to run at large, "Against the Stock Law."

On or before the tenth day after such election, the persons holding such election shall make due returns of all the votes cast at their respective voting places for and against said proposition to the county judge of said county.

Public notice of this order shall be given for at least thirty days before the date of such election by publication thereof in Terry County Herald, a news-paper published in said county.

Witness the hand of the county judge of Terry County, Texas, this 14th day of September, 1942.

C. L. Lincoln, County Judge, 13c Terry County, Texas.

Mrs. L. N. Parker and daughter, Alpha Joyce, Mrs. O. L. Foster, of Union community; Miss Kathryn Foster of Hobbs, N. M., spent the weekend in Littlefield the guests of Mr. and Mrs. Thurm Owens.

Help Your Gums Get Well

Are your gums unsightly? Do they itch? Do they burn? Druggists return money if first bottle of "LETO'S" fails to satisfy.

Nelson-Primm Drug Company

Not everybody with a dollar to spare can shoot a gun straight—but everybody can shoot straight to the bank and buy War Bonds. Buy your 10% every pay day.

COTTON'S BIGGEST YEAR

YES SIR, MR. FARMER, you have made a big CROP and you will get a good price for it.

KING COTTON COMING INTO HIS OWN

Not since many of us can remember, has cotton been in such demand as right now.

What with Silk and Rayon being in great demand for airplane and parachute production, with practically the entire virgin wool crop taken for our army and navy, we home folks will use and wear more cotton and like it.

Then there are your cotton seed, lots of them, the hulls and meal for feeding millions of head of livestock, and their seasonable oil for countless household and war activities, among them being the manufacture of TNT, Shortening margerine and countless other things.

Mr. Farmer, we the officers and stockholders of the Co-Op Gins heartly congratulate you on your bumper crop. You have produced for Victory, handicapped as you have been by lack of suitable labor.

We want to be of service to you in giving you the best possible ginning. Try our gins. You'll like our work and service.

CALL FOR NATIONAL BIBLE WEEK

**NATIONAL BIBLE WEEK
COMING
OCTOBER 12th-18th**

NEW YORK, Sept. 28—Americans everywhere will stand up and be counted during the week of October 12th-18th, when National Bible Week will be observed all over the nation. Maintaining that America lives because religion lives, the Laymen's National Committee announced today their sponsorship of a nation-wide Bible Week program to call attention again to the faith upon which America is founded.

The Committee, itself, was founded two years ago by 11 laymen who affirmed that the two factors that have built America were "man's consciousness of God" and his daily labor with its earnings.

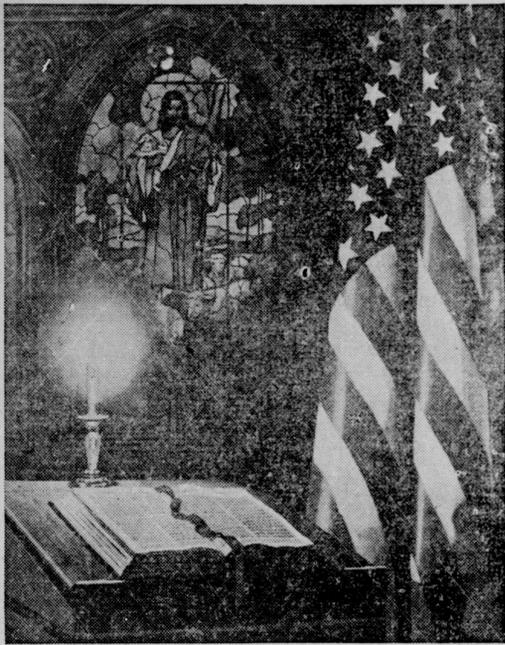

From 11 men, the group has grown into a nation-wide organization composed of representatives of Protestants, Roman Catholics and Jews. Its efforts to stimulate religious thinking by every means at its command have met with a success beyond all expectations, it was stressed.

Affirmation of Faith

"Now comes Second Annual Bible Week in an hour when religious thinking is of the utmost importance," the Committee's announcement continued. "Rightly supported, Second Annual Bible Week can be made a magnificent affirmation of our faith in the God of our fathers and a fundamental factor in strengthening the hearts of the millions of us who labor at home and the great host of us who fight at the front, on land, sea and air."

Particularly among the 50,000,000 Americans found not to be members of any church does the Committee hope to spread its word in turning "people's hearts to the faith of the Bible" and encouraging reading of the Scriptures. In upholding the unity of men and in reminding them that America's material progress is not enough—"when the spirit of God departs, Liberty dies" the National Bible Week poster says—the Committee feels that observance of these days, October 12 to 18, will go far.

"In Europe, the resistance of Britain to totalitarian revolution has been based upon the faith nurtured in the parish churches of England," the Committee's announcement continued. "In America, our ability to resist and preserve our democracy will in the last analysis rest upon the same foundation. The political structure of America was founded upon faith in God and was a prac-

Poster announcing the observance, October 12th-18th

tical expression of religion. Only in so far as America is spiritually strong will she be able to defend the political ideals for which the founders of our Republic pledged their lives."

Activities during the week of October 12 will include display in public places of an inspirational Bible Week poster; educational church services, sermons and newspaper advertising designed to encourage Bible reading; one minute radio broadcasts every day in the week in every state, as well as coast to coast hook-ups, upon which leading stage and screen stars will appear; community rallies and bookstore displays of the Bible and books on spiritual subjects; and the wide use of Bible Week stamps, special stickers for use on articles mailed.

Howard Chandler Christy is Chairman of the Laymen's National Committee. The Advisory Council in-

cludes: Francis Rufus Bellamy, Executive Vice Chairman; Howard Kirock, Executive Director; Sara B. De Forest, Treasurer; Dr. Paul S. Auchilles, Vice President, Psychological Corp.; Rear Admiral Reginald R. Belknap, U. S. Navy, Retired; Dr. George L. Brodhead; Walter Davidson, President, Greater New York Federation of Men's Bible Classes; Richard V. Goodwin, Vice President, Fireman's Fund Indemnity Company; Robert Lehman, Partner, Lehman Brothers, Bankers; B. Palmer Lewis, Director of Publications, State of New York, Christian Science Church; Ray Murphy, Past National Commander, American Legion; Robert F. Nelson, Vice President, Arma Corporation; Thomas M. Peters, Vice President, Phosphate Mining Company; H. C. Ramsey, Vice President, Worthington Pump & Machinery Corporation.

Paying Price for Foolish Scrapping of Arms

That the American people are now paying the price, which will be costly to us, for reactionary follies of the Republican administrations of 1921 and 1927, was made evident recently when, according to the New York Times, Rear Admiral Percy W. Foote, Texas material procurement officer for the Navy, estimated that the United States must provide 10,000,000 fighting men — and that half of them would be casualties.

"This is the first time I have ever ventured such an estimate," Rear Admiral Foote told the Optimist Club at Houston. "It is purely my own," he said.

"However, I base my opinion on the grim realities of having to build now, by necessity, the armed forces that we should have been building years ago by volition."

The "fool doctrine" of scrapping our weapons of war in the peace moves of 1921 and 1927 had brought us to our present predicament, he declared, said the New York Times.

"The notion that we can't get into trouble if we stay within the confines of our own shores has been the national policy for 150 years—and every so often that policy has proved foolish," he said in condemning isolationists.

Against realities now, our men must go to the far ends of the earth to defend our shores, with death and injuries inevitable, he concluded.

DEMOCRACY NOT ON TRIAL SAYS PRES. JONES

LUBBOCK—Warning students of their obligation to help protect and safeguard the concepts of government and the fundamentals of our democracy, President Clifford B. Jones in his annual opening address said that democracy was not on trial. "Its value, the soundness of its principles and ideologies, its compatibility with Christian morality, its justice, its fairness, its success," he said, "all have been amply demonstrated." And he continued: "Your individual welfare after the war, the welfare of these blessed United States will require at your hands clarity of thought, strength of purpose, fine discernment between the subtly camouflaged false from that which is true, and moral courage to a high degree."

"In this emergency, departures from sound, normal procedure are essential, but you must give careful consideration to the sound principle that government does not take charge of business. Certain-

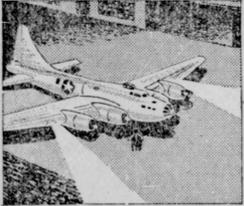

Mr. and Mrs. J. W. Rhyne and children spent Sunday visiting in Lamesa.

The Santa Fe railroad moved 39,142 cars last week compared to 32,692 for the same week in 1941.

D. D. Whitley of Gomez mistook camphorated oil for castor oil early Monday, and took a dose. He was rushed to the hospital and was very sick for a day or two. He was carried home Tuesday.

Wings of Victory

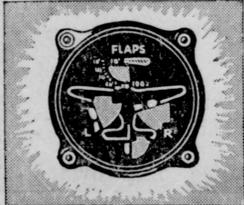

Electricity helps make America's war planes some of the world's most deadly weapons. Here are a few of the ways in which G-E equipment serves in the air.

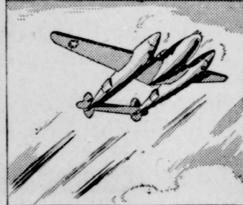

1. Lamps are the eyes of the plane at night, ranging in size from cockpit lamps no larger than a pea to landing lamps of more than half-a-million candlepower.

2. Radio combines the voice and the ears of the plane, allowing communication between the pilot and his squadron, and the ground and sea forces.

3. Instruments are the sensitive brain that relays messages to the pilot from all parts of the ship and helps him to control the plane in its flight.

4. Superchargers are the lungs of the plane, pumping extra oxygen to the carburetors, giving our planes the altitude so necessary to modern warfare.

General Electric believes that its first duty as a good citizen is to be a good soldier.

Why Do Isolationist Object to Facts

If the isolationist candidates are correct in their often repeated contention that 80 per cent of their constituents were with them in their position of denying aid to the countries that were fighting the Hitler triumphant advance in all directions, why should they now balk at having the account of their votes and speeches brought into the campaign? If

ly there should be suitable regulation, but government in business as such, except as an emergency measure, is not conformable either to careful thinking or to the concepts of government as laid down by your forebears."

80 per cent of those votes will decide who will come to the next Congress and who will be left out, are satisfied with that record, where is there any danger to the isolationist candidate? The questions answer themselves. It is not a matter of "purging" or "smearing," both of which expressions are to be found in every editorial or speech made in behalf of the men who want that page of official history expunged.

If they are proud of and not ashamed or afraid of the issue, they ought to be equally proud to have it broadcast to their respective districts.—Charles Michelson, Director of Publicity, Democratic National Committee.

Each Farm Should Produce Own Meat

College Station — Every farm family can be self sustaining in its home meat supply. The first step is to get a young calf and pig and feed them, says Roy W. Snyder, animal industries specialist of the Texas A. and M. College Extension Service.

Snyder advises against killing a five or six-month-old calf which weighs only about 300 pounds. Feed it until it weighs at least 500 for a much better quality of meat. Sweetbreads, tongue, heart, liver, brains and the tripe, as well as the intestinal fat should be saved when the animal is slaughtered, he says. Take extra care that the hide is not cut or scored during the skinning, because a perfect hide brings a better price and is most sought by tanners.

Finally, Snyder suggests processing beef or pork so that none may be lost by spoilage. County Extension agents are prepared to advise on home meat preservation.

Formation of a four-family meat ring is another efficient method of maintaining the home meat supply. Frequency of killing would depend upon the needs and facilities for storage of the families forming the ring. However, Snyder believes that slaughtering a 500 or 600-pound beef each two weeks, or once a month, would be ideal. An animal of that weight would provide each family with about 85 pounds of meat. But as a family averaging five persons probably wouldn't eat this quantity as fresh meat, he suggests canning some of the surplus for use during hot weather, and brining some for steak, boiling or even roasting.

A small meat ring reduces the amount of canning one family must resort to make full use of a whole beef, Snyder says.

STEADY INCREASE IN CANCER DEATHS

AUSTIN—A steady increase of deaths in Texas from all forms of cancer is disclosed by the fact that over 45,000 persons have died from this dreaded disease within the last ten years, according to Dr. Geo. W. Cox, State Health Officer.

"The public should be warned against cancer 'quacks' and so-called cancer cures," Dr. Cox said. "Advertising of medicines and so-called cancer doctors puts dangerous, misleading information before the public. 'Undoubtedly,' Dr. Cox declared, 'there are many persons who are being thus delayed in seeking proper medical advice unnecessarily losing their lives to this disease.'"

According to the State Health

PROMINENT CITIZEN PASSES

J. A. Drennan, 45, who for many years has been a prominent and respected citizen of the Union community, died at the local hospital about five o'clock last Wednesday morning. All funeral arrangements were not complete Thursday morning. We understood however that the services would be held at the family residence at Welch, with burial in the Union cemetery, with the Brownfield Funeral Home in charge of arrangements.

Mr. Drennan is survived by his wife and four children, Mrs. R. H. Ellis of the Union Community, Dewey R., Louis Lee and Jessie Ray, all at home.

Singing Convention At Wellman Sunday

Mack Thomason, president of Terry County Singing Convention, was in Wed. and stated that the quarterly convention will be held at Wellman this coming Sunday, the 18th.

Singing Convention will be held in the high school auditorium. Mack urges Terry county people to bring plenty lunch as many singers from out of the area is expected.

Mr. and Mrs. Jim Miller has moved back to Brownfield. Jim has been transferred to the glider base at Lamesa as a co-pilot. He and Buddie Norris will drive over to the base each day so we were informed, they could not find a place to live in Lamesa.

Officer there are two ways of treating cancer; namely, surgery and the use of radium and X-ray. Treatment must be started early and be carried out by a competent surgeon. In almost two-thirds of the cases surgery is relied upon to remove cancerous growths, while X-ray or radium is used to good advantage in approximately one-third of the cases successfully treated. Frequently the two methods are combined.

"The greatest defense against death by cancer is early diagnosis," Dr. Cox stated. "Every case is an emergency and it is unfortunate that the majority of those persons suffering from cancer do not seek medical advice until beyond permanent cure."

Dr. Cox pointed out that any unusual bleeding from any part of the body, any lump in the breast, or any surface sores, especially on the face and mouth, and even chronic indigestion may be symptoms denoting the presence of cancer.

"Where cancer is suspected, do not delay but consult your physician at once," Dr. Cox advised. "Self-medication serums, colored lights, salves, and diets are absolutely valueless."

R. C. Stevens At Naval Training Station

Dear Friends: Remember C. R. Stevens Jr.? well here he is again, but not in such a belligerent mood except for toward the — Japs. I want you to know that I haven't forgotten the swell people of Brownfield. Out here hundreds of miles from the sand hills you get quite a different perspective of things and believe me it is a sobering one.

I had quite a fine trip and I am now settled down to the business of becoming part of Uncle Sam's fighting forces. And if you don't think they don't give you the works. You should be here and go through the routine that we have each day. We are up each day at 5:30 A. M. and drill, march, and learn a thousand different things in one day. I even have to wash my clothes every day, one of the cleanest things I ever had to do.

There are more Texas boys out here than you can shake a stick at. They are all doing swell and I think that their folks back home should be proud of them. You can rest assured they are as good sailors as any that come in here, and that's from every state in the union. We do get a bit homesick and lonesome for Texas, but we realize there is one big job to be done; and we are going to help do it.

I think the Navy is swell, and I want all my friends to write me. My address is:

C. R. Stevens Jr., H. A. Co. 42-5455 U.S.N.T.S.

Sana Diego California.

P. S. I have the Terry County Herald sent to me each week and really do enjoy reading about what is going on back home.

POOL

Mr. and Mrs. H. H. Harben spent last week with Mrs. Harben's mother who lives in Oklahoma.

Mr. and Mrs. A. J. Ficer and Delores of Dalhart have been spending a few days with relatives here.

Miss Annie Lou Redding has returned from San Angelo where she has been working.

Mr. and Mrs. J. J. Gunter and Homer Britton spent Sunday with Mrs. L. D. Chambliss and family of Brownfield.

Miss Edna Redding has returned from Poolville where she has been visiting her sister, Mr. and Mrs. Aldridge and family.

Mrs. L. D. Chambliss, Marcus, Mrs. Ora Bell Arnett and Mary Lou, all of Brownfield, and Staff Sgt. J. W. Chambliss of Colorado Springs, Colo., spent Tuesday with Mr. and Mrs. J. J. Gunter and family.

Mr. S. V. Newsom, who is seriously ill, was carried to the hospital Monday morning.

J. H. O'Connor has just returned from Amarillo where he visited his daughter, Mrs. Lillian Rogers for the past two weeks. Uncle Jimmie says the town is full of soldiers and strangers, and as his daughter teaches in day time, he got rather lonesome.

The "Why" Makes The Difference

College Station — American people are willing to get along without a great many things if they know the why behind the shortage.

Louise Bryant, specialist in home management for the A. and M. College Extension Service, explains that the needs of war strike at some unexpected spots. Here are some examples.

The expanding of the air force requires an expanded supply of parachutes, and every one of them absorbs enough silk to make 185 pairs of stockings.

Until recently, when airplane motors were shipped abroad, they were coated in a heavy grease to protect them during shipment. When they arrived, the grease was removed. Now these motors are wrapped in cellophane and arrive in perfect condition. So cellophane may not continue to be so plentiful.

Meeting the production goals for 60,000 planes this year and twice that number next year, there will be no aluminum for cooking utensils. In fact, there is not enough aluminum, even when it is all taken away from the kitchen, so that plywood airplanes are now being used for training purposes.

Because a pair of Army shoes takes two and a half times as much leather as a pair of civilian oxfords, consumers are being urged to make last year's shoes last as long as possible.

Miss Bryant says the 200,000 patriotic rural Texans who have signed Victory Demonstrators pledge cards are ready and willing to make these war-time adjustments. But it's only fair that they should know why they must "Eat it up; wear it out; make it do; and do without."

Mining of gold by some 4,000 miners will be stopped by WPB, and they will be put to mining more essential metals, such as copper, zinc and manganese, now considered the "precious" metals.

The first eight months after Pearl Harbor, the US railroads had transported 4,400,000 soldiers, sailors and marines via Pullman sleepers, a style of travel no other nation would dream of.

Mrs. Elmer Bruce and baby joined Mr. Bruce in Los Angeles, last week, where he is employed in the Los Angeles ship yard at Long Beach.

Mr. and Mrs. Bill Gore and a friend, Sergeant Moore of the Lubbock Army Flying School, were guests in the home of Mr. and Mrs. Jack Bailey Saturday night.

Mesdames George Warren and Tommie Black, went to El Paso last Friday to take Mrs. Gail Willis and daughter, at which place she will join her husband who is with an oil company.

A. C. Copeland of Yoakum county, was brought in to the local hospital Tuesday afternoon suffering a slight stroke of paralysis.

A Few "??" to Ask the Printing Peddler

When the Peddler selling stationery and printing supplies solicits your business, there are a few questions which he should be willing to answer to your satisfaction.

Among them being:

Does he pay taxes in this community?

Does he donate space in his newspaper to the local community enterprises?

Does he pay wages to a force of employees located in this City or County?

Does his paper devote its entire space toward the betterment and upbuilding of this community?

Does he grant you every favor that you would ordinarily ask of a local newspaper?

Does the quality of his merchandise stand inspection—is it on quality paper stock and the printed matter attractively arranged?

Will he submit proof of your work before finishing and mailing it to you C. O. D.?

Does his price include postage and insurance charges?

Can he supply your order on short notice?

If he can answer all the questions in the affirmative, he is entitled to your business.

IF NOT . . . CONSULT

Home Guard Honors Attend Lion Zone Meeting At Plains

On Monday evening at eight, members of the Home Guard honored T. R. Black one of its sergeants who is leaving to take up his duties with the regular army, with a farewell party.

Members of the guard and their wives gathered at the Legion Hall where sandwiches, pickles and coffee were served.

Captain Edwards, Commandant of the guard presented a beautiful Hamilton wrist watch to the honor guest.

Out of town guests and former guard members were Burton Hackney and Troy Noel, both of the Lubbock Army Air School.

Lieutenant Black will report to New Orleans to take up his duties as a First Lieutenant in the transportation service.

Dick Chisholm and family will leave this week for Calif. where they will make their home.

PHI BETA CRAESUS DINNER

Members of Phi Beta Craesus club were the guests of Miss Barbeara Taylor for seven o'clock dinner on last Thursday evening at seven.

The girls met at the Grill where plates were laid for eighteen guests. Girls attending were: Caroline Harris, Wanda Hahn, Patsy Ballard, Wanda Joyce Finney, Glenna Fay Winston, Joyce Evelyn Dunningan, Glenna Fay Ross, Barbara Taylor, Dana Ruth McElroy, Dixie Jean Redford, Marion Wingerd, Dorothy Jean Henderson, Mary Ruth Sims, Frances Joyée Rambo, Peggy Lewis, and Nita Jean Worsham.

After the dinner the girls attended the show.

A regular business meeting of the club was held at the home of Frances Joyce Rambo on Tuesday afternoon.

I. D. CLUB

Members of the I. D. Club met at the home of Jennie Evelyn Jenkins, Monday, Oct. 10th. Club members sold scrap metal in the recent drive and with the proceeds they bought defense stamps.

After the meeting the members enjoyed a skating party at the roller rink. Those attending were: Jernelle Jones, Mary Nell Kizer, Reba Wayne Millner, Jennie Evelyn Jenkins, Murel Fitzgerald, Tressie Stocton, Billie McGuire, Opal Faye Price and Nedra Jones.

SOPHMORE CLASS

The Sophomore Class met Sept. 30 to select their sponsors for the following year. Mr. Wilhite and Miss Peterman were selected. The following were appointed as entertainment committee: Chairman - Morgan Copeland, Glynnia Faye Ross, Mildred Hamilton, James Clinton Rambo, Myron Harris, Bobby Bourk, Betty Noble.

The class decided to use the school colors red and white, for their colors.

Attend Lion Zone Meeting At Plains

Many Brownfield people were among the visitors who attended the Lion's zone meeting in Plains on Thursday evening, October 8th, and several local people appeared on the program which followed the banquet which was served in the High School Auditorium there.

Mrs. Bebe Brown sang a solo, Miss Kittle gave a violin solo. She was accompanied by Miss Huff at the piano. Betty Holmes gave a tap dance. Mrs. T. R. Black accompanied her at the piano.

Local people who attended included Mr. and Mrs. Leo Holmes and Betty Jean, Mr. and Mrs. Dennis Lilly, Mr. and Mrs. Johnnie Criswell, Mr. and Mrs. Fred Lowe, Mr. and Mrs. Paul Goodman, Mr. and Mrs. Tommie Black, Dr. and Mrs. McIlroy, Spencer Kendrick and Mr. Lloyd, Mr. and Mrs. Bob Brown and the young ladies who appeared on the program.

ACE-HI MEETS

Mrs. Ray Christopher was hostess to members of the Ace-Hi bridge club on last Friday afternoon at three o'clock.

The lovely table cuts were bottles of cologne and were won by Mrs. Mon Telford, Mrs. Vance Sibley, and Mrs. Jack Bailey.

High score was won by Mrs. Sibley, and she was presented with blackout lamps by the hostess. Second prize, a decorative bowl filled with ivy went to Mrs. Lawton Nicholson.

A delicious salad plate was served to the following ladies: Mesdames Roy Ballard, Orb Stice, Jack Bailey, Slick Collins, Vance Sibley, Jno. R. Turner, R. B. Parish, Lawton Nicholson, R. M. Kendrick, A. A. Sawyer, Mon Telford, and L. M. Wingerd.

EXECUTIVE BOARD MEETING, P. T. A.

The executive board meeting of the Brownfield Parent Teacher Association was held in the home of Mrs. E. C. Davis on Wednesday evening, October 7th.

Main business considered at the meeting was the recommendation of a new treasurer to the association, and the discussion of plans for the new recreation program, and defense projects.

Main wartime project of the P. T. A. will be the collection of fat which is most vital to the war effort. The town will be divided into zones and collectors appointed for each district. Housewives are urgently requested to cooperate in this work by saving all drippings and fats not in actual use.

Members present at the board meeting besides the hostess were: Mrs. N. T. House, Secretary, Mrs. E. L. Sturges, Magazine Chairman, Mrs. Tom Cobb, Recreation Chairman, Mrs. Frank Weir, and Mrs. Ralph Ferguson, Vice President.

URGES EARLY MAILING OF CHRISTMAS PACKAGES

Mail your Christmas packages for boys Overseas now—in October. Official regulations limit the size to an average shoe-box and weight to six pounds. But don't crowd the limits—the smaller the better. There is just so much shipping space available, and if too many people send large parcels many will be crowded out and miss their boats resulting in many a disappointed and lonely boy across the seas Christmas.—Will C. Brown.

ROTARY CLUB

All members but one of the Brownfield Rotary club were present on Friday at the noon luncheon to hear an interesting program on "Human Salvage." Mrs. L. M. Wingerd was the principal speaker on the subject, and at her suggestion, seconded by Superintendent Hancock, the members voted to send speakers from their number into the High School to talk to the students and to assist them in vocational guidance.

Two young students from the junior and senior classes made short talks. They were Miss Beverly Balfanz and Miss Jean Knight.

BAPTIST LADIES MEET IN CIRCLES

Five circles of the Baptist ladies Missionary Society met last Monday afternoon to gather up clothes and donations of all kinds for the Buckner Orphans Home. The Lucille Reagan circle met with Mrs. D. P. Carter. The Bargyby circle met in the home of Mrs. Jessie D. Cox, the Lottie Moon circle was entertained by Mrs. E. C. Ross; the Lois Glass circle met with Mrs. Nathan Evans and the Christian Chenn circle with Mrs. John Aldredge.

On next Monday afternoon three o'clock, there will be a joint meeting of all circles at the church at which time the box for the home will be packed.

Mrs. W. W. Price, Missionary President, reminds all Baptist ladies that offerings for State missions or home debt must be in by October 25th. Each member is pledged to contribute not less than \$1.00.

CHURCH OF CHRIST HAS WORK DAY.

Ladies of the Church of Christ met for their monthly workday on Friday afternoon, October 9th with Mrs. Herman Chasshir. Sixteen ladies were present and two quilts were finished for the needy. The next workday meeting will be held on the second Friday in November at the home of Mrs. J. D. Williamson.

The regular Bible study class was held at 3:30 on Tuesday afternoon at the church. Mrs. Jess Ferguson acted as teacher and the first twenty three verses of the tenth chapter of Luke was the subject of study. The chapter will be completed in next weeks study. Sixteen members of the class were present.

PRESBYTERIAN GUILD

Ladies of the Presbyterian Guild met Monday afternoon at the church for the business meeting directly preceding the close of the Guild year.

The election of new officers was the main business of the day. Mrs. James King was reelected President, Mrs. Ralph Ferguson was made vice president, and Mrs. W. B. Brown, Treasurer.

At the last meeting, a quilt was made and donated to the Red Cross. Plans were made for serving the Junior Music Club luncheon on Saturday.

Members brought dishes to donate to the church kitchen.

Next Monday's meeting will be devoted to missionary study, and a special offering for this purpose will be taken.

GREEN-MOORE WEDDING

In a morning wedding which was solemnized Friday, October 9th at the home of the brides parents, Mr. and Mrs. Lawrence Green, Miss Jimmy Green became the bride of Mr. Billie Moore, son of Mr. and Mrs. Lloyd Moore of this city. The beautiful double ring ceremony was performed by Bro. Avery Rodgers, and united two of Terry County's oldest families, the grand parents of both young people having moved to this country before the County was organized.

The house was decorated for the ten o'clock ceremony with baskets of fall flowers, with yellow and bronze chrysanthemums predominating. The bride wore a sea green suit with tan slippers and accessories.

The bride is a talented graduate of Brownfield High School, and she has since attended Wayland College and Texas Technological College at Lubbock. The groom also received his diploma from this high school where he played end on the local football team. He too was a student of Tech. The young couple left for a short honeymoon. Upon their return they will make their home in Brownfield.

CEN-TEX CLUB MEETS

The Cen-Tex Harmony club was entertained Tuesday October 14th in the home of Mrs. D. P. Carter. Reports pertaining to plans for the district convention were heard and final plans were laid. Brownfield hopes at this time to repay in a measure, all the lovely conventions held in our district at which delegates from Brownfield were delightfully entertained.

Mrs. J. M. Teague presided and reminded members of their responsibilities in this as well as in other things which have been undertaken.

The club will meet with Mrs. C. T. Edwards on October 27th at her country home near Challis.

CHRISTIAN CHURCH LADIES MEET

Eight members of the ladies group of the Christian church met Monday afternoon in the home of Mrs. L. D. Hamm for Bible study. The lesson was from Philippians. Next meeting will be in the home of Mrs. Holgate.

Mrs. R. N. McClain was a visitor in Lubbock Saturday and Sunday. She visited in the home of her mother.

Decoding Axis Secrets

Matching wits with Axis espionage, cryptographers of the F. B. I. schooled in every phase of code detection, ferret out and uncover the most ingenious messages the enemy can devise, says The March of Time in "The F. B. I. Front." Even the difficult "stencil" code shown in this scene from the film has been solved by G-Men.

Methodist Church

Church school at 9:45. Preaching at eleven. Subject, The Invisible Protecting Presence. The young people meet at 7:15. Preaching at eight. Subject, The Divine Power of a Purpose.

Come out and see your dressed up, preacher. The Fellowship class gave me a real nice suit of clothes. A good friend gave me a dandy pair of shoes. For all of which I am very thankful.

Let me urge each one who has pledged to the building fund, for paying off the debt, that you pay this as soon as possible. As you know, half of this was to be paid by the past Easter. The other was to be paid by November the tenth. So please see me or J. O. Gillham and pay this off. This is the best time we will ever have to pay our church out. The most of this has been pledged. Other have not pledged will please do your best. It can be done without any hardship on anyone. So let us do that task now.

H. W. Hanks, Pastor.

Cpl. M. E. Hopson, Btry E, 86th C. A. (A. A.) Camp Haan, Calif., was added to our fast growing list of soldier boys, this week, compliments of his father.

Texas Going Over Top In Bond Sales

AUSTIN, TEXAS. — A MILLION DOLLARS A DAY! Frank Scofield, War Bond Administrator for the State of Texas, is truly shouting those words today. TEXAS AND TEXANS HAVE DONE IT AGAIN, just as Frank Scofield has said they would. The quota for the month of September for the State of Texas was \$27,250,000.00. Texans for the month of September for the State of Texas bought \$30,571,090.25 in War Bonds.

Thus, you can see, Frank Scofield has two good reasons to swell with pride over the accomplishments of his native Texas. The quota figure has been exceeded by \$3,321,090.25, and his words "WE ARE GOING TO SELL A MILLION DOLLARS A DAY IN TEXAS" have come true.

Texas and the Nation in the past nine months given very heavy quotas. Every Texan has known from the beginning that it was going to take money in ever increasing figures to win the war, and each man, woman, and child in our great State have started to help Texas do its share. Frank Scofield has maintained where-

24-Hour Kodak Finishing

ALLEN STUDIO

ver he has gone, in Washington, throughout the Nation, and in every corner of the State, that Texas is today in the sale of War Bonds.

Renewed activity was noted during the month of September by theatres, schools, churches, women's organizations, farmers, and especially in regard to the Payroll Deduction Plan.

Our fighting men need never feel a battle-was lost because the people back home did not do their part in providing the necessary combat equipment.

Native Texans on the fighting fronts can be mighty proud of native Texans on the home front.

SKUNK FAT FOR SKUNKS SAYS CLERK

T. P. Lawdermilk, Irion County Clerk, might have something here. In a letter to the Game Department he points out that trappers of fur-bearing animals annually waste much of the fat from animals. The government needs fats for the manufacture of explosives. So why not ask each hunter and trapper to save the animal fat, turn it over to retail fur dealers, who in turn could take it to district rendering plants? And if a little skunk odor remains in the fat of the striped creatures, then, "why not fight the Skunks with a little skunk fat?" asks Mr. Lawdermilk.

Mrs. Henry Brenaman of Paris, Texas, came in Monday to visit her husband who is manager of Western Union.

BLANKETS

Due to Government priorities on most all wool and their use of more and more cotton, you should take this advantage to buy a supply of good blankets. We were fortunate in getting delivery on these but we may not be able to replace them.

Material Conserving Style for Patriotic Women...

ARISTOCRAT OF SUITS as worn in Hollywood by ANITA LOUISE Attractive Star of the Screen

This crisply tailored suit is a Hollywood creation and is its interpretation for tying in ultra style with wartime conservation.

Proclaimed an aristocrat of suits, its pedigreed smartness is evidenced in the exquisite fabric—pin-striped black bengaline—and contrasted with large reversed collar of snowy white bengaline. The long sleeves are desirable fashion features, as are the shallow pockets on each side of the jacket front. The skirt is smartly cut and carefully tailored, with pleats in front and back. It can be worn either with blouses or sweaters with equal effect, proving its practicality. Here is a suit that is a shining example of the fashionable, durable and economical clothes one should include in a "Victory Wardrobe." It answers all what-to-wear problems perfectly for the duration.

G-Men Check Seized Articles

All contraband seized from enemy aliens is carefully gone over in the F. B. I. laboratories in Washington, D. C. says The March of Time in "The F. B. I. Front." Hidden evidence is often exposed by such modern technical apparatus as black light, and the most innocent article may contain valuable information or even dangerous explosives.

Cooperate With F. B. I.

Working closely with the F. B. I. at all times are the Nation's law enforcement officers—sheriffs, constables, state troopers and city police—says The March of Time in "The F. B. I. Front." They find F. B. I. training invaluable in helping them to meet the burden imposed by additional wartime duties. Many take "refresher" courses.

GIRL SCOUTS

The regular semi-monthly meeting of the Girl Scouts was held Wednesday afternoon at the club rooms at five o'clock under the direction of Mrs. Frank Wier. The afternoon was spent carding buttons and sewing on buttons for the local chapter of the Red Cross.

war time project, and one very much needed as keys contain some of the most vital metals needed in war time.

The general public is invited to cooperate in sending all old keys and buttons to the school for collection.

Mr. and Mrs. Carl Stephenson were visitors in Lubbock, Tuesday.

BARGAIN DAYS

ARE HERE AGAIN

If you wish to keep abreast of the news of the world—State, National, and International—you will probably want one of the following daily newspapers.

With The Terry County Herald at the same old price, we are prepared to make the following combination offers for the people of Terry and adjoining counties:

Fort Worth Star-Telegram, daily with Sunday from now till November 1, 1943, and Terry County Herald, one year, - \$8.45

Fort Worth Star-Telegram, Daily except Sunday from now till November 1, 1943, and Terry County Herald, one year - \$7.25

Be Sure To Sell Good Germinating Seed

AUSTIN—"A seed dealer who sells untested and untagged seed is endangering our most vital war production, that of food and fiber," Commissioner of Agriculture J. E. McDonald said today, and reminded dealers they could avoid this at no cost to themselves by having their seed tested free at the State Seed Laboratory in Austin or Lubbock.

"Before the war, dealers who sold untested seed were breaking the state law which requires that each container of field seed bear an official Texas seed tag showing germination and purity," Linden Jones, chief of the Seed Laboratory Division, said. "Now, with our food production every day becoming a more serious problem, gambling the productivity of a farm and of the farmers' labor on unsafe seed shows lack of patriotism."

Farmers, too, must realize their responsibility in seeing that their seed is tested, the official stated. Formerly it was merely good business to help insure a crop by buying tested seed. But now it is the patriotic duty of every farmer, he said.

There is never a month in Texas when seed is not being planted in some section, Jones stated. "Therefore, the seed business is one of the largest in Texas. We need the cooperation of every seed dealer and farmer in the state to be sure seed planted in Texas produce crops to feed our fighting men and allies."

U. Of T. Footballer From Small Towns

Austin, Texas, Oct. — There certainly is place for small-town boys on the University of Texas football team.

Coach D. X. Bible's team this year lists only one man from one of the state's five major cities, the rest coming from middle-sized cities and towns throughout the state.

Max Minor, the Texas wing-back and a member of the sprint relay team, is from Tahoka, and Roy McKay, first string fullback and the Southwest Conference's best kickoff man is from Junction. Coy Warren comes from Cisco and Jack Sachse, a center, is an Electra product.

Jack Freeman, first string guard, is from Mexia and Fritz Lobpryes, who understudies him, is a Schulenburg boy. Harold Collins, another guard who played blocking back and called signals for Texas against Oklahoma Saturday comes from Breckenridge and George Watkins, a tackle, is from San Saoba.

Franklin Jeffers, an end, is a Belton High school product, and Lewis Mayne, a speed left end, came up from Cuero.

Only big city product on the Texas team is Paul Tracey who is a reserve guard.

Lt. Carruth At Midland Air School

2nd Lt. Fontella Carruth, whose home is near Meadow and a graduate of Lubbock General Hospital, has been transferred to the station hospital at the Midland Flying school.

Lt. Carruth is well known here in Terry county, at one time was employed in an abstract office here. She has been stationed with the Lubbock Flying school.

Mrs. J. L. Randal came in Tuesday from a visit with her daughter, Mrs. Percy Spencer, at Lubbock.

Our fighting men are doing their share. Here at home the least we can do is put 10% of our income in War Bonds for our share in America.

Drivers License Renewals Pour In

AUSTIN, Oct.—Curtailment of civilian driving has not slowed the renewal of Texas drivers' licenses, State Police Director Homer Garrison said today.

All operators' licenses issued before last September 30—that is, old licenses—expire November 1. Applications for renewal have been pouring in at a considerably accelerated rate, Drivers License Chief J. B. Draper said. A further increase is expected before the deadline.

A renewal ordinarily involves nothing more than submission of an application and the payment of a fifty cent fee, which pays for a license good for two years.

Anyone operating an automobile after his license has expired will be subject to a fine and will have to take a stiff examination before he can obtain a new license.

FARM QUESTION BOX

by ED W. MITCHELL Farm Advisor General Electric Station WGY

- Q. I want some information about growing carrots; also how to prevent white worms from getting into them. A. First, plant carrots on a fairly light, well-drained soil that has been plowed or spaded a foot deep and well reinforced with manure or fertilizer. Soak the seed a day or two so it will germinate more quickly. Keep clean, cultivated, and thin to 4 inches apart, and apply poison two or three times to control the maggot or little white carrot worm. I will send you a page telling how to do that.
- Q. What is a good spray for red raspberries? A. Use arsenate of lead in a 2-2-50 bordeaux (2 copper, 2 lime and 2 lead in 50 gallons of water) just before bloom and when berries are set.
- Q. Do White Rock and White Wyandotte hens both lay white eggs? A. No. All the Plymouth Rock and Wyandotte varieties lay a brown-shelled egg.
- Q. When should plum and cherry trees be sprayed? A. You should use a combination of either sulphur or copper along with arsenate of lead, because brown rot is likely to be as serious as any insect damage. Your stone fruits should get bordeaux and lead just before bloom; again when shucks fall, and then every 10 days or two weeks till fruit shows color. I will send you a bulletin on this.
- Q. Can sawdust be put on the floor of chicken coops and then later used on the garden? A. Yes. That will make fairly good litter and excellent manure. You should add some phosphate and potash to it to make it a more complete and better balanced plant food.
- Q. Please tell me how to make a home-made electric brooder for 300 chicks. A. For 300 chicks, your hover should be 3 or 4 feet in diameter, and it would be better to have two brooders 2 1/2 feet across and not put over 150 chicks in one flock. The size bulb depends a little on weather and how warm the brooder house is. Start with a 100-watt bulb two or three days before you put in the chicks, and test with a good thermometer to see that you have at least 90 degrees under the hover. The chicks will raise the temperature about five degrees; and from 95 degrees the first two or three days you can decrease about a degree a day until you get down to 70.
- Q. What can I use to get rid of large white grubs on iris bulbs? A. Use either arsenate of lead or mercuric chloride; in this case, the mercury is better. Dissolve a 5-grain tablet in 4 quarts of water and apply about a pint to a plant every week till damage from grubs ceases. You have to make these repeated, light applications to build up the tolerance of the plants.

ROAD TO VICTORY!
BELIEVE IT OR NOT
The World's Richest Man Found It Didn't Pay
By Robert Ripley

Ashurbanipal of Assyria, the richest man who ever lived, was worth a trillion and a half dollars—75 times as much gold as is held in the United States Treasury. Yet it availed him nothing! Neither he nor his son had the sense to use this wealth for the good of their people or for their protection.

And so it was comparatively easy for Nabopolassar and the King of the Medes to invade Assyria and enslave it. And finally, when defeat stared the great King in the face—when it was too late—Ashurbanipal, in terror,

had a tremendous platform built of polished wood, in the city of Nineveh, and on top of this he heaped all his wealth—142,000 tons of gold in 2,500,000 bricks (or ingots), each 7 by 28 inches in size, and each brick valued at 50,000 dollars. This treasure formed a pyramid of shining gold nearly one-hundred feet high, and in the intervening spaces he placed all of his jewels and personal belongings—his wives on golden beds—his children—even his pet dog.

And then a great quantity of oil was brought from Mosul and poured on top of this golden mass, and when the torch was applied, the king himself walked in and laid himself down among his wives—his family—his pet dog—and everything he valued in life. And so the great Ashurbanipal, the richest man in the world, was consumed in his own wealth—he immolated himself and became

part of this great conglomerated melted mass of money—and so ended the Empire of the Assyrians. And it never mounds marked the spot that was the glory of Ashurbanipal.

Why? Because Ashurbanipal, who had practically all the money in the world, didn't do anything with it! And he and his country were lost.

Even his conquerors—the Medes and the Persians—made the same mistake—they came, saw, conquered this great golden molten mass of money that was once the king's and the wealth of the great Empire of Assyria—what did they do with it?

Nothing! They melted it into money again—and remelted it—and in generations since it has been remelted a thousand times—until, Believe It or Not, it is a mathematical fact that every golden coin used in the world today contains in it some minute particle of Ashurbanipal himself, the King who had all the money in the world but didn't know what to do with it!

What are we going to do with our money today? Enemies threaten us the same as they threatened Ashurbanipal in 626 B. C. The United States of today, like the Assyria of Ashurbanipal, is the richest nation in the world. What will it avail us?

Nothing! Surely nothing more than it did Ashurbanipal unless we do something with it. And there is only one thing to do—and that is to BUY BONDS and WAR STAMPS and make our money directly available to our country—help our country—otherwise it will become a melted molten mass and we the people will be destroyed as Ashurbanipal was destroyed 2600 years ago.

BELIEVE IT OR NOT!
Mrs. E. B. George of South Terry, was in Tuesday.

I GIVE YOU TEXAS
by BOYCE HOUSE

To the man who killed my dog: Cherry, the little bird dog, almost without a fault, was killed by some man Tuesday night of last week while she was in her own back yard.

A better dispositioned dog never lived. She loved everyone and never thought of man as an enemy. Children could roll over her, pull her ears, play with her as they pleased, and her only desire was to make them happy and be happy herself.

It might have been that she was licking the man's hand when he killed her. At least she would have done so had he offered it, for she only thought of man as a friend. In the field, she would have hunted birds all day for this man if he had invited her. He could have taken his own good time going to her when she found them regardless of the delay, she would have kept them until he arrived. She would have even found his dead birds, brought them to him and placed them in his hand.

All she wanted in return was a little kindness—and that much she had learned to expect from all men, regardless of race, creed or color. Never once did she expect that, when you called her to the fence (whoever you are), your were going to fill her mouth and head full of shot. She only thought of the gun as something of joy, and the man behind it as the greatest friend in the world.

This little brown-eyed dog would have taken care of your babies (if you have babies) all day long, watching over them, romping with them, giving them pure joy. Had you invited her, she would have asked nothing in return but the few scraps left from your table and the kindness of a human being.

Yes, that is the kind of a little dog you called to the fence in her own back yard and shot while she was unsuspecting—a little dog that I had refused \$300 for.

Man, the next time you pick up a gun and look down its sights, I hope you will see a pair of soft brown eyes looking into your face for kindness and expecting a pat on the head instead of a load of shot. The next time you go hunting and the birds get up in front of you, I only hope you will see a little white-and-brown dog standing out there, rigid on point, her tail curled over her back, holding them for you, as much as to say, "Here they are, boss, come on and get them when you are ready," and when your birds fall out in front, stand in your tracks and imagine a little dog making a dash for them, as much as to say, "Boss, you don't have to move; I'll bring them to you and place them in your hand or your game bag."

Yes, the next time you look down a gun barrel, see a pair of soft brown eyes that were as innocent and friendly as would be a

baby's if it were holding out its chubby arms and asking to come to you—and then go ahead and pull the trigger.

Cherry (the little dog you called to the fence in her own back yard—the yard in which she was raised from puppyhood) was getting old. She didn't have many years ahead of her, but those years would have been filled with deeds of kindness to anyone who had been looking for such from a dumb animal, and yet could understand her wants and make hers known.

Whoever you are, you still have one spark of kindness that you should cultivate and let grow. You had the mercy to kill her instantly (even on grounds that were hers) instead of stooping so low as to use strychnine, which would have caused her hours, and maybe days of suffering. For that much, you have my thanks.

It isn't probable that there is a future "happy hunting ground" for kind, little brown-eyed dogs like Cherry. But if there is, she is over there trying to get to go hunting, or romp with someone. If this is so, you need not look for her any more, man, for you are not going her way. — From E. A. Carlock's Paducah Post.

Baptist Church News

Wednesday evening has been designated All Church Night, in which the different groups of the church will meet which is designed to save driving and tires and should be observed for the duration.

Half of the enrollment of the Bible school was present last Sunday, 338 having registered, but the enrollment and attendance should be greatly increased. The new teachers and officers have taken over and it is hoped next year will be a profitable one.

The church closed last year's work with all bills paid except the building debt of \$15,000. The grand total of all money raised last year for local work and expenses of every kind was \$11,964.73 and the amount raised for religious work of every kind, known as foreign work, largely missionary and orphanage work, was \$2841.64, making a grand total of all money raised and expended by the church of \$14,536.37. This is a very creditable showing and could not be done except by a people who feel deeply their responsibility to the community and in fact to all the world. If some read this who have not had a creditable part in this work, may they resolve now to share this responsibility with their fellow members.

Next Monday evening is the regular meeting of the Brotherhood and the new president is W. S. Patrick and it is hoped the men will take time to help him make the work successful.

We invite all Baptists who are missionary-minded to come with us and we will do them good.

Beware Coughs
from common colds
That Hang On

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

CREOMULSION
for Coughs, Chest Colds, Bronchitis

Businessmen — Let's talk about death! Let's not dodge the issue — let's face facts. A lot of good American fighting men may soon have to die for want of scrap!

**IF YOU FAIL
SOME BOY
WILL DIE!**

WERE talking facts, remember! Such as the fact that steel for every tank, ship, and gun must be made of 50% scrap. And the terrible fact that America's mills are starving for this scrap—without enough on hand for even 30 days more production!

Which puts it up to you!

Monday starts the big scrap metal drive. And you, as a businessman, have a double job to do. Clean out your home—and scour your place

of business, factory, office or store ... for every single bit of scrap.

And when you see the stockpile grow—for the mills to take when it's needed—be glad that you've done your part...that your work may have saved some boy from a needless death!

OUR CAR IS MORE VALUABLE TO-DAY!

You've got to take care of your car to make it last! We'll keep it in good repair... you drive it in here for frequent service and check-ups.

Brownfield **FRIDAY And SATURDAY** Texas

Low Grade Milks Must Not Be Sold

In the United States we use more than fifty billion quarts of milk a year. It is one of if not the most universally used foods. Milk and cream, either by themselves or in combination with other foodstuffs, make up about one-sixth, by weight, of all the food eaten by the average American family. Dr. E. V. McCollum of Johns Hopkins University stated that "The people who have achieved, who have become large, strong, vigorous people, who have reduced their infant mortality, who have the best trades in the world, who have an appreciation for art, literature, and music, who are progressive in science and in every activity of the human intellect, are the people who have used liberal amounts of milk and its products."

Public Health Problem
However, the fundamental necessity for public health milk control as to protect health by preventing milk-borne diseases and to promote health by increasing individual consumption. It is generally conceded that milk is one of the most important of all human foods, because it contains some of practically all elements which man requires for his sustenance, including certain vitamins. It constitutes his sole dependence throughout the first year of life, and is one of the most important foods for growing children as well for the sick and aged.

But while milk is second to no other food as an item of diet, yet it is second only to water as a vehicle of disease transmission. Diseases that are usually transmitted through impure milk are bovine tuberculosis, typhoid fever, scarlet fever, septic sore throat, diphtheria, undulant fever, and enteritis, a common infection of infancy. According to the U. S. Public Health Service enteritis "annually accounts for 65,000 deaths in the United States of children under the age of two years."

According to the statistics of milk-borne epidemics in Texas reported to the State Health Department covering the period of ten years from 1928 to 1937 inclusive, there were fifteen outbreaks, 12 of which were caused from grade D or unsupervised milk, with 601 cases of enteritis sickness and ten deaths. No milk-borne outbreaks were reported from pasteurized milk. Most of these outbreaks were reported in cities with no milk supervision.

In order to produce safe milk, it is necessary to use every precaution to prevent disease-producing bacteria from getting into the milk since it is impossible to get them out in case they do, and the only remedy would be to boil or pasteurize the milk. The United Public Health Service Standard Milk Ordinance is the only uniform milk sanitation program in the United States. It provides a standard which is designated to produce clean milk and to prevent its infection by disease-producing organisms during its production and subsequent handling, and for its labeling according to grade. The standard set is for grade A milk with provisions for three lower grades, B, C, and D. Because of the fact that protective measures against tuberculosis, typhoid fever, enteritis and other diseases are not required for grade C and D milk, these grades are considered potentially dangerous. Items of cleanliness also are not required. Considering these facts, housewives should use only grade A milk for their children. It is also the responsibility of the school boards to see to it that school children are provided with grade A milk. Some people buy lower grades of milk because

Unfair To The Paper And The Town

We are not mentioning names, but we saw this week the height of folly of too many small town business men. It appears that with the educational facilities all are familiar with these days, as well as examples of advertising facilities, that small town merchants would be as well educated to the benefits of advertising as are the merchant princes of the big cities, as they used to be known. But time don't seem to amend their ways.

Here is a sample. We picked up a small weekly published in a Panhandle county. Some 22 miles away is a fairly large town. The last issue of this small town paper had so many ads from the nearby place that we took the trouble to count the inches of advertising. The home town merchants carried 47 inches in that issue, while the big town merchants carried a total of 147 inches, more than three times as much as local merchants.

It is no wonder that the larger towns continue to get larger and the smaller ones smaller. With gas rationing the small town merchants has a chance to come into his own, if he has foresight enough to grasp the opportunity. If he'll advertise his goods, he can sell to local people.

It is a shame to let this trade go to larger town just because the local merchants are too lazy or indifferent to lay out ads.

• Supreme in Circulation •
they are cheaper, but these grades may prove to be very expensive in sickness, doctor's bills, and lower efficiency. Realizing these facts, the City of Brownfield is prohibiting the sale of grades "C" and "D" and ungraded milk.
Dr. J. R. Turner, City Health Officer.
