**Stamps 15-16 Good
For Canning Sugar**

WASHINGTON, May 21 — Housewives will be able to get sugar for home canning by using stamps 15 and 16 in ration book 1, the Office of Price Administration announced today.

The revised program wipes out a plan of applying to local ration boards for coupons as previously announced.

Each stamp becomes valid next Monday and is good for five pounds each for canning sugar until Oct. 31.

Families who require more than 10 pounds of sugar a person for home canning will apply to the rationing boards, the OPA explained. The 10-pounds-a-person allowance secured by using stamps 15 and 16 will provide each person with 40 quarts of canned fruit, the OPA estimated.

This allotment of sugar for canning does not interfere with the regular sugar allowances, it was pointed out, and an OPA spokesman said stamp No. 13 would become valid June 1 to Aug. 15 for five pounds.

NIFTY NEEDLERS

Mrs. B. L. McPherson entertained the Nifty Needlers Wednesday afternoon. A pleasant time was had by the guests doing their needle work.

DECORATION DAY

SUNDAY
MAY 30th
1943

This is truly a memorable Decoration Day. For many years now on this occasion we have honored those who fought valiantly in past wars. Today we honor those who fight TODAY, as well, under the glorious red-white-and blue.

See them march to war! The sons and brothers, husbands and nephews, from our own homes. Their marching feet, together with the treads of tanks on the land—the prows of ships on the sea—and the wings of planes in the air—make a pattern around the world. A pattern by which new freedom shall be cut for men and women, boys and girls everywhere to wear joyously: a pattern which by the same token, shall prove the fascist's shroud, wherever he may lurk!

Food to Allies Saved US Lives in Africa

Schenectady, N. Y. — Many American lives were saved in the successful North African campaign because last year six per cent of our total food was sent to our allies, Buell Maben of New York City, regional administrator of the U. S. Department of Agriculture food distribution administration, declared in a General Electric Farm Forum address here.

"The food we sent to the liberated people in North Africa paid us dividends we could not buy otherwise," Mr. Maben said. "Food helped us gain the friendship and support of those people. Their help saved many American lives."

"The food we have shipped to English civilians has helped to keep them producing guns and planes. These guns and planes together with British fighting men in North Africa hastened victory and therefore saved more American lives."

"Most of the food we have sent to Russia has gone directly to the Red Army—and this army stretched along a 2,000 mile front tied many German divisions to this same front. They were not available to shoot at our men in North Africa."

"These dividends are priceless—and to a great extent they came from the difference between an adequate diet here at home and the amount of food we would like to eat."

"And last year only six per cent of our total food went to our allies. Was it worth it?" Mr. Maben concluded.

18 YEAR OLDERS MUST CARRY DRAFT CARDS

Selective Service registrants who were 18 years old on or before November 13, 1942, must have their local board classification cards (Selective Service form No. 57,) as well as their registration certificate (Form 2), in their possession after May 13. Men without both cards are liable to fine and imprisonment, Selective Service headquarters warned.

Seeing Some Of The Victory Gardens

The Old He and the better half used up some of the "A" Sunday afternoon driving over the city to see the Victory Gardens, and there is a world of them. They range all the way from garden "sassy" just coming up, to those in production, and at least partly supplying the owners' tables.

One of the best we saw was that of Grandma T. J. Price, now in her eighties, but seems to still be going strong. There, were, however, lots of other good gardens.

Mr. and Mrs. J. O. Gillham left last Saturday for Fort Worth for the Bankers convention. While gone they will visit in Meneral Wells, Greenville and other surrounding towns. They expect to be gone a week.

Messrs. Leo Holmes, Clovis Kendrick, Lee O. Allen and Dick McDuffie, left Tuesday Morning to attend the Bankers convention in Fort Worth. They will return Saturday.

Enjoy The Herald But Wanta Come Home

Had a letter under date of May 23, from Mrs. John Bowers, of Oakland, Calif. She stated that she and hubby were both working up to 58 hours a week, but not Saturdays and Sundays. They stated that their son, S/Sgt. James, with the U. S. Navy airforce was still somewhere in England, and doing fine. They enclosed money to renew for his Herald.

Mrs. Bowers stated that they read the paper over two or three times, then layed it aside until the next one arrived. She enclosed a clipping from a paper that showed Shipfitter John Bowers doing his stuff, but he is called Jack in the picture. Mrs. Bowers was sure that James was enjoying the Herald in England, just as well as they. She believes R. L. Clay is located in England near James.

They are having ideal weather in California, she stated, with plenty of sunshine and warm in day time, but gets cool at night.

BETTER GET A TYPHOID SHOT SAYS COX

AUSTIN—"If you have not been vaccinated against typhoid fever within the last two or three years, go to your doctor and secure this protection at once," Dr. Geo. W. Cox, State Health Officer, advises prospective campers, Boy and Girl Scouts, and other summer vacationists as the out-of-door season approaches.

"Typhoid fever," he continued, "is unnecessary and preventable. Every case is due either to community negligence or to the ignorance or carelessness of some individual. There would be no deaths from typhoid if every person were protected by typhoid shots."

Some of the most serious and far reaching outbreaks of the disease have been caused by drinking milk or eating foods that have been handled by carriers. A typhoid carrier is a person who has had typhoid at some time and who even after recovery carries the germs of the disease in the urine and the discharges from the intestinal tract. Carriers who are careless in their personal habits are likely to infect any food they handle with unwashed hands.

Dr. Cox explained that typhoid germs are picked up and spread from person to person by water, milk, flies, fingers, food. Every case of typhoid is contracted by way of mouth and the digestive system. "The only way to be absolutely sure of typhoid prevention is by immunization," he declared.

Mrs. Sam Montgomery of Hobbs, N. M., was called to Brownfield over the weekend due to the serious condition of her son, Sam Jr. He is in the hospital seriously ill with pneumonia.

Cotton provides more clothes and cloth for mankind than all the world's other textiles put together.

Cotton fabrics are playing a leading role in the packaging of chemicals as replacements in some instances for steel containers. Some of the bags are made from cotton sheeting or onasburg, a strong plain weave cotton fabric.

You can have your tires recapped only if you don't wait too long. Because when you permit a tire to wear down too thin, it CAN'T be recapped. It's only fit for scrap—and that's just a waste of rubber that could have been saved by recapping in time! And a waste of thousands of more miles you could get out of your tire . . . by recapping in time!

YOU can't tell when it's time to recap, unless you're a tire expert. Drive around—and let us tell you how your tires are wearing—and WHEN TO RECAP for the longest mileage, and for rubber saving economy.

Baptist Church News

Congregations were smaller here last Sunday at all of the services and we notice that on fair Sundays attendance is often smaller because of visiting, which should not occur on the Lord's Day as it was designed for the good of man as a day of worship.

A matter of great interest to Baptist is the liquidation of indebtedness against the agencies through which our missionary work is carried on.

Our own Baptist State Convention finished paying their debts of long standing last year. The Foreign Mission Board through which Southern Baptists manage their mission work in foreign lands and which owed at one time nearly two million dollars is now out of debt and ready to do a greater work with more workers than ever before and they now employ nearly five hundred missionaries to many countries beside native workers.

We have some institutions that are not yet debt free but these great mission boards some of them over a hundred years old, which our fathers and their fathers helped to build and support and through which thousands have come to know about Christ until our mission stations are in almost every benighted country of the earth, are free of debt and now prepared to send more workers to every field if the churches will assist them to go.

GRAND OFFICERS OF TEXAS VISIT EASTERN STAR CHAPTER OF BROWNFIELD

The Brownfield Chapter of the Order of Eastern Star was honored Wednesday by a visit of the Worthy Grand Matron and other Grand officers of the Grand Chapter, Order of Eastern Star of Texas. This is the first time Brownfield Chapter has ever had a Worthy Grand Matron visit them.

A dinner was given Wednesday night at the Hotel Wines, honoring the visitors, Co-hostesses with the Brownfield Chapter were: Lubbock ch. no. 76; Lorenzo ch. no. 165; Ralls ch. no. 169; O'Donnell ch. no. 725; Tahoka ch. no. 743; Southland ch. no. 779; Leveland ch. no. 797; Seagraves ch. no. 829; Morton ch. no. 841; Seminole ch. no. 855; Pains ch. no. 862; Denver City ch. no. 863.

The table was decorated with a very unique arrangement of flowers. Blue cornflowers and yellow cosmos formed the nucleus of the bouquets which were surrounded with wheat, giving the effect of flowers growing in sheaves of wheat.

After the dinner the guests assembled in the auditorium of the Jessie G. Randal school for the meeting of the Brownfield chapter. One member each of the visiting chapters served as officers for the evening.

Refreshments were served from an attractive tea table covered with a lace cloth over blue satin. A bowl of blue and yellow flowers flanked with white tapers in crystal holders formed the centerpiece.

SENIOR MAIDS & MATRONS END YEAR'S WORK

The year's study programs of the Senior Maids and Matrons was brought to a close Friday night, with a Pan-American Tea and Program in the home of Mrs. J. M. Teague.

The program, under the direction of Mrs. Bell, was as follows: "The Pan-American Highway," Mrs. Wingerd; Music Arrangement, Mrs. Dallas; "Bolivar, the Great Liberator," Mrs. Teague; Piano Selection, "The Patriotic March of Panama," Mrs. Dallas.

An atmosphere of a bazaar was created in the living room with brilliantly woven baskets, charm strings, serapes and numerous bowls of bright colored flowers.

At the close of the program, Mrs. Teague, the retiring president, installed the following officers in an impressive ceremony: Mrs. Will Adams, president; Mrs. Looe Miller, first vice president; Mrs. Jessie Randal, second vice president; Mrs. L. Nicholson, recording secretary; Mrs. Money Price, corresponding secretary; Mrs. Leo Holmes, treasurer.

was presented with a crystal flower bowl by the club in appreciation of her untiring service throughout the past year.

The tea table was covered with a cloth of Mexican drawnwork and centered with an arrangement carrying out the Latin theme. A miniature wooden ox cart, filled with red roses by which stood a small peon doll and a blue Mexican water jug formed the centerpiece.

Tea dainties were served from Mexican pottery dishes of various colors.

Mrs. Will Adams poured coffee.

Those present were Mesdames Will Adams, Ike Bailey, W. A. Bell, W. H. Dallas, E. C. Davis, Herman Heath, Leo Holmes, Looe Miller, Lawton Nicholson, Money Price, J. L. Randal, A. R. Smith, A. J. With our new recapping equipment, we are able to take care of practically any size passenger car or truck tire made. And tires heretofore considered hopelessly ruined, can now be repaired and made capable of many more thousands of miles of service with our section repair equipment.

To you passenger car owners: May we again remind you that certificates are no longer required to obtain recaps. We cordially invite you to drive around today, look over our new equipment and let us discuss your tire problems with you.

The right kind of **RECAPPING** makes **OLD TIRES** "LIKE NEW"

★ Two recapped tires may look much alike and still be as different as black and white. When you come here, you get *reliable* recapping—done by experts, with Goodyear factory materials and by Goodyear factory methods.

GOODYEAR EXTRA-MILEAGE RECAPPING
 \$6.50 per tire (Size 6.00-16)
 (Recappable carcass furnished by you)

● Your old tire is carefully inspected, evenly buffed to shape—a new tread is pressed into place and properly cured in a special hydraulic mold—finally your recapped tire comes out "like new," ready to give you many months of safe service.

FIRST STEP: Our careful, complete Tire Inspection

We'll tell you frankly whether your old tire can be recapped or whether you need a replacement tire (a sound used tire, a recapped tire, a War Tire or a new pre-war tire—depending on your mileage allowance). If you need a replacement, we'll help you prepare your Ration application. We have the best tire values money can buy.

"WILL THAT BE ALL TODAY?"

● Get our good advice on any and every tire matter. Let us help you reduce tire wear and lengthen tire life. Have us check wheels and brakes, too. We sell reliable service at reasonable cost. See us soon.

The folks up in Childress county believe they have a white Chester sow that should be presented with the Army-Navy E. In eleven months and six days, this sow farrowed 50 pigs, most of which, with the help of some hand nursing, survived. Fifty pigs in less than a year is lost of pork in any man's country, and will go a long way toward feeding our fighting men, as well as the people at home. By the way, the sow's name is "Victory."

George Moffett of Chillicothe, Texas has made cotton a life time study, and has been instrumental in West Texas becoming the leading cotton section of the state. His ideas of the cotton plant is so valuable that he is the head of the cotton section of West Texas Chamber of Commerce. The Herald mailed Mr. Moffett a copy of the cotton edition we issued two weeks ago. A card from him stated that he had just returned from Austin, and after reading the paper, he stated that he enjoyed our front page editorial on cotton very much, and closed with the parting shot—"more power to you."

Food purchasers have been told by the OPA on several occasions that there has been an advance of only 5 per cent in food prices in the past year, when anyone knows that eggs, butter, meat, potatoes or most any staple is 50 per cent higher than a year ago. Get your home town newspaper of May, 1942, and see what many of these articles were quoted at then. The Herald agrees with Editor John Price of the Littlefield County-Wide News that somebody up at Washington forgot to add a zero or naught after the 5.

In an article this week, the city health officer is calling the attention of residents to a city ordinance that regulates under what conditions they may keep livestock on their premises. It is said that in some sections of the city, horse lots and cow pens have manure piled up that is becoming very offensive, and besides is a prime place for fly breeding. If you must keep livestock in town, be sure to keep your lots clean and the manure hauled away. Don't cause sickness to yourself or neighbors; don't even make it uncomfortable to your neighbor.

Had a card from S. R. McElroy last week to get his Herald started to him at the Gipson ranch near Coumbus, N. M. On the reverse side of the card, it says: "Here we enjoy taps," and the air conditioner is giving the two customers a fine view of the bar maid's underpinning, while she draws the drafts.

Again the legislature of the State of Texas has convened, stayed in session the 60 days or more and adjourned without re-districting the state, which is a violation of the Constitution of the state. It appears to us sometimes that even the west Texas delegates are none too interested, probably being like their contemporaries in east Texas, fear that any rearrangement of the district might throw them out of a job. The job of redistricting should be taken out of the hands of the legislature, and a disinterested committee appointed for this job every ten years. But that would probably take a constitutional amendment, and the legislature could refuse to submit it to the people. Then, too, most people have such a horror of constitutional amendments that they might vote against it on general principles. It's a pitiable mess when some districts have some 30 thousand people and some 130 thousand.

One of the worst acts that congress ever saddled upon the masses of our people was the Wagner Labor Act. With its enactment, there has been an opening wedge for all kinds of labor racketeering, and politicians have used labor organizations to feather their own nests. It has also let down the gates to take over mines and other public works by the government in war times, and this could be extended to everything, eliminating personal initiative. It could make of our government in peacetime a socialistic or communistic government. We would then have bureaus and bosses to tell us what we can do or not do. If union labor had not been given all the rope it wanted with a downhill pull, we would not now be embarrassed and horrified by strikes and sitdowns in war times.

America honors her...
WAR HEROES

That these men shall not have died in vain—let liberty's torch be borne high to illumine the skies and earth with the light of a United Nations Victory! These men—the dead of 1917 and 1918: these men—the dead of 1941 and 1943. To them, we the living, pledge anew, our faith, our united effort to the point of sacrifice. For by any measure, the sacrifice we at home may be called upon to make is small indeed compared with the supreme sacrifice which they have already made for us. Freedom they fought and died for! And that freedom shall be secured by us in their memory, and for their children. This is our solemn pledge as we join all America in honoring her war heroes on this Memorial Day, May 30, 1943.

From the many complaints we have heard over Sunday and early this week, it seems Brownfield may again achieve that obnoxious appellation of 'Flytown.' Not that they are so numerous at this time, but the increasing scouting parties indicate an all-out invasion, the first few warm days that come, their supply bases are well known and could be easily destroyed, and mopped up, and the sooner it is done, the more crude oil and other fly dope we will save. It is hoped that our proper authorities, with the necessary and rightful cooperation of our civilian population, will not wait for a local Pearl Harbor incident, with its annoyance, disease and even deaths before taking effective action.

School Is Out

By Geo. W. Neoll

To millions of school children, that great day has come. School is out. While some will be sad at the parting with school mates and chums, many will fold their scrapbook of memories of happy hours, of love and romance. Some will look up and yonder with hopes of a high and useful life, and have merely stepped over a stepping stone to success. Some will be proud of their achievements, and embrace the will to go on and on, but the greater part of the younger ones will gladly lay aside their books and school paraphernalia, skip and shout with joy, "School is out." They are free. Free from discipline and restrictions, they can go visiting, vacation, or work and earn something they desire. Won't have to get up so early in the morning, or dress so tidy, or wash their ears, can go barefoot, live at ease and at will.

Freedom, liberty, privilege, and how sweet is all these. Yet their older brothers by millions are fighting in every clime and hemisphere, and on the oceans between, that they and million like them may continue to enjoy these sweet liberties. Many of the teen age who pass out the school doors this week, may never enter another such door. But as they may go to reinforce their brothers, they go with the same patriotic spirit, courage and high morale, and with the confident knowledge there will be millions more to follow, if need be. For, and we are thankful, we don't have to teach American children patriotism. It's just naturally born in the little brats. The first song they learn is "Rock-a-bye, Baby," and the second one is the "Star Spangled Banner." They scrimmage and fuss at each other, boost their own, toot for their team, indulge in rivalry of sports, but they all will follow the Flag. The Flag, the one and only they know or want to know.

We often wonder why the closing of school is called "Commencement Exercises." Looks like it should be the finish, and is to some. But it is the commencement of your career, starting out in business or professional life, on your own. The public school has done about all for you it can. It has cranked you up, filled your tank, and pushed you off. So it's up to you, to keep rolling, up or down. Too many graduates seem to think a diploma is something to get on, like an airplane, and just sail on thru life, just coasting, but a coaster drifts around, nicely, but always downward. It takes gasoline and a heap of steering, and skill to keep her going high and far. A diploma is not a mere ticket to life. It's only a pass thru be, who waste their own time, and the money spent by their parents and the State, by laying down on the job of life.

The student who has the will and ambition to achieve success, usually does. Education is a fine implement, quickens the job. Education isn't automatic; it has to be applied, and that by the person. So here is hoping, few there the outer gate. The arena of knowledge is universal, inexhaustible, and but yet little explored.

Style-Setter

Gay and style-setting is the description of this play outfit worn by Virginia Gilmore, 20th Century-Fox player. Red and white striped percale makes the shorts and bra, with due advantage taken of contrasting effects. The percale also trims the enormous white straw hat. The beach coat is of white cotton, with a pocket formed by a fish embroidered in brilliant reds and blues.

This is our challenge to the Farm Women of this territory — make it your job to see that ALL scrap metal on your farm is rounded up and turned in Now!

It isn't enough to sit at home and hope—to send him cookies while he's still in camp, and prayers when he sails away.

He needs fighting weapons, too—weapons of steel. To make those tanks, ships, guns and planes takes millions of tons of scrap. And unless we get that scrap we cannot win the war. So don't sit idle—do your part by turning in all scrap metal now!

It's been proved — you can collect from 500 lbs. to a ton of these precious materials, depending on the size of your farm. Get your household scrap together yourself—and encourage the men to clean up the rest of the farm.

Search the barn, the yard, the fields. Dig out the things you used to fill that gully out back. Rusty or

DO THIS FOR THE BOYS YOU'VE GIVEN

shiny, it's all the same to the mills—so toss in everything you can find.

You've got a job to do—you and the rest of America's farm people. If you do it right, there'll be millions of tons of scrap piled up and ready the minute the mills need it.

WHOSE BOY WILL DIE BECAUSE YOU FAILED

Farmers—Turn In Your Scrap Metal—Now

Steel makers have issued a warning that another scrap metal shortage threatens.

If this is allowed to happen—steel mills may be forced to shut down furnaces — construction of ships may be delayed—manufacture of tanks might be slowed down—aircraft production would face curtailment—and ammunition makers might be stalled.

This catastrophe can be averted if every farmer in the country will turn in all the scrap on his farm.

Farm scrap is better because it is heavier.

The scrap shortage warning has been sounded—and the call must be heeded.

Lots Of Folks Saw FDR-Green Picture

Several sent in picture of President Roosevelt shaking hands with Sgt. Austin Green, who had presented the former with a carved desk set made from leather. The work was done by Green in the saddlery department at Fort Riley, Kansas.

Among the number who sent in the picture and wrote a letter, was Mrs. Homer Johnson of Kansas City, the former Miss Sibyl Thomason, daughter of Mr. and Mrs. G. M. Thomason, of the Union community. Mrs. Johnson stated that she was not sure whether she knew Austin, but we feel sure she does, as he was practically reared two miles south of Brownfield, and is the son of Mr. and Mrs. Arthur Green.

By the way, Mrs. Johnson stated that she was always on the lookout for the old home town paper.

Mrs. Lee Balfanz is planning on moving to Abilene soon.

Mrs. Eldora White, District Clerk, and son, Ted, are in Mineral Wells this week for treatment.

Dickie Lees, grandson of Mr. and Mrs. W. H. Dallas, left last week for Fort Worth, where he will spend the summer with his mother.

THE BLOCK BUSTER AND WHAT IT IS.

You have heard of "block busters" but did you ever hear just how awful they are? They are the new giant bombs the British are using to flatten Hitler's industrial machine. Here are some of the facts about the: It is a black and ugly object, 8 feet four inches long, 2 feet one inch in thickness. About 2,200 pounds of its 4,000 pounds of TNT, and a newer secret explosive, and the rest are shell and fuses. Dropped from 20,

000 feet, it hits the ground at a speed of almost 600 miles an hour. It pulverizes whatever it strikes and buries itself deep. Then explodes. The blast last .03 of a second. First there is a tremendous outward pressure of hot gas expanding at almost seven times the 1,089 feet a second that sound travels. That lasts .005 of a second. Then the gas cools, sucks everything back. That lasts .0025 of a second. The bomb case shatters in more than 6000 fragments

FARM QUESTION BOX

by **ED W. MITCHELL**
Farm Advisor
General Electric Station WGY

- Q. Do soy beans make a good hay for goats?
- A. Yes. Excellent for goats and cows.
- Q. What can be done to keep the worms out of rhubarb?
- A. Those are little weevils that infest many plants with large, juicy stems similar to rhubarb. Burdock is one of these, so keep all burdock and similar weeds cut. Cut all rhubarb stalks after the first frost in autumn; this reduces the population and winter carry-over.
- Q. What is the spray for fruit trees to prevent worms in the fruit?
- A. Arsenate of lead.
- Q. How can I prepare potato, bean corn, and other seeds for planting to get the best results?
- A. Dip potatoes 1 1/2 hours in 1 to 1000 mercuric chloride solution; treat corn, beans and most small garden seeds with serosan dust or one of the chemical preparations the seed dealer can supply; and use 3-8-7 fertilizer, about 5 pounds to 100 square feet.

- Q. What is the best soil for cucumbers?
- A. They prefer a warm, well-drained, sandy soil, and need plenty of plant food. Apply some fertilizer at planting time and give two or three side-dressings as season advances.
- Q. What will keep rust and worms off my parsnips?
- A. Corrosive sublimate properly applied will probably check most of the trouble because it is most likely due to maggots.
- Q. Can you tell me where I can sell peppermint oil, menthol test 55 per cent or better?
- A. I think the market is strong and the price good, and I will send you the names of some firms that might be good customers.
- Q. I want to build an outdoor chicken shelter using wall-board because lumber is so expensive. How can I waterproof the wallboard?
- A. Put on at least two coats of black, asbestos roof paint.

TEXAS' NEW INSECTICIDE LAW

College Station — Hereafter it will be unlawful to adulterate, misbrand or misrepresent agricultural insecticides and fungicides sold in Texas. The state legislature at its current session enacted a law providing for the branding or labeling of all such products placed on sale within the state. The law also requires attaching to each package a printed statement showing the minimum percentage of active ingredients, and the maximum percentage of inert ingredients it contains.

According to Dr. H. G. Johnson, entomologist for the A. and M. College Extension Service, the act provides for the examination and analysis of agricultural insecticides. It will be administered by the state commissioner of agriculture and analyses will be made by the state chemist located at the Texas A. and M. College. The law exempts household insecticides from these restrictions, and through the definition of "agricultural insecticides" also eliminates insecticides used for controlling insect parasites of domestic animals, Dr. Johnston says.

Mrs. Donna Norwood, accompanied by Mrs. Juanita Watson, visited her daughter, Sarah at Alamogordo, and son, Excel at Ft. Bliss, late last week.

and fly 4,000 to 6,000 feet a second and may spray for 7,000 feet The explosion itself will smash everything in 120 yards of the bomb. Ground tremors may cause brick walls blocks away to collapse.—Lorenzo Enterprise.

SAVE FOOD ... it's as important as bullets.

Plant a victory garden and preserve your surplus. Put up as many fruits and berries as possible. Your Gas range makes canning easy. Cook only the amount of vegetables needed. Serve left-overs creamed, in casserole dishes, or cold—in salads. Cook vegetables and fruits in their skins whenever possible—and over a low Gas flame. Roast meats at low temperature in your Gas oven to reduce shrinkage. Use left-overs in stews, hash, meat pies.

SAVE VITAMINS ... you need 'em to be strong.

Cook vegetables in as small an amount of boiling water as possible. The flexible Gas flame will give you the exact degree of heat you need. Cover vegetables and bring to boil quickly over full Gas flame, then turn flame low, cook gently. Do not use soda in cooking green vegetables. It destroys vitamins. Cook vegetables shortest possible time. Store fresh vegetables in hydrator of your Gas refrigerator to help preserve perishable vitamins.

APPLICATIONS BEING TAKEN AT AAA FOR COOKERS

Applications for purchase of home pressure cookers, needed by those who will can their surpluses of fruits and fresh vegetables, are being issued by the county AAA office, it was announced Monday by Loe Miller, administrative officer for the county AAA.

It is said that there are no cookers yet in stock locally, but provision is being made by merchants and dealers, in cooperation with the farm machinery rationing panel, to supply a limited number. Purchase of a pressure cooker can be made only with the certificate of permission granted on application to the rationing panel, which serves at the AAA office next door east of the Rialto Theatre.

ATTENTION HD CLUBS

Saturday, May 29 is H. D. Council's regular meeting day. All Club Presidents and Council Delegates are urged to attend.

The staff of extension workers must be at A. and M. College on the last of each month and none of them can visit us on our regular meeting days, the last Saturday in each month.

Let us have a quorum this Saturday so we can change our time in order to have a state of district agent meet with us occasionally.

No Set Memorial Day Program

While no arrangements have been made for a public Memorial Day program next Sunday, we learn many of our local churches will have special features and services for the occasion. It will be a good time for every one to attend the church of his choice.

It is expected that a great many people will decorate the graves of their dead, next Sunday. It is hoped those in charge will have the cemeteries in a cleaned-up condition.

Yoakum County Man Bit By Rattlesnake

E. T. Stanford of Yoakum county, informed us Monday that his son, Hershell, 23, started out Monday to do some planting on their stock farm in Yoakum county, and was bit on the wrist by a rattlesnake with nine rattles. A tourniquet was put above the elbow and Hershell was rushed to the hospital here and is doing nicely. However, the poison was quite a shock to his heart.

Eastern Star Officers Visit Here

Mrs. Hallie Anglin of Luling, Worthy Grand Matron of the Order of the Eastern Star of the State of Texas, attended the District meeting of that order held in the Jesse G. Randal school last Wednesday night. This is the first time Brownfield has been honored by a visit of State Officers of this order. Also attending the meeting were: Mrs. Lillie Barnard, Grand Conductress, of Lubbock; Mrs. Andra Tanner, Grand Examiner, Iowa Park, Texas; Mrs. Alice Maye Stewart, District No. 2 Deputy Grand Matron, of Lubbock; Mrs. Eltha Russell, Deputy Grand Matron, Dist. 2, of Morton; Mrs. Paulene Haygood, Grand Representative from Utah to Texas. All of above being officials of the Grand Chapter of Texas.

Fancy Persian oval and oblong rugs formerly made of all-wool are now being produced of selected quality domestic cotton. Shortage of materials and scarcity of labor has forced simplification of patterns and more blending of fibers. Nearly 40 per cent of all former wool rugs are now produced with blended fibers and the proportion is increasing.

DECORATION DAY

1943

THE AMERICAN SOLDIER A DEFENDER OF TRUE DEMOCRACY

Many are the years that have past since the first American soldiers emerged victorious from the battle which determined a people's right to a democratic life. Many are the battlefields to which soldiers wearing the uniform of the army of the United States of America have carried the spirit of democracy.

Sunday, May 30th, we observe another Memorial Day. Wreaths will be placed - battlegrounds visited - speeches made - all over the land, in tribute to the men who lived, fought and died that freedom might continue to ring out, here. Yet the best tribute any American can pay those men's memory is to pledge himself to live democratically, whatever part he plays in civil life, or as an active participant in our nation's defense.
